

Bodyguard 4291

Chapter 4291 Leave If You Don't Want To Hand It Over

One had to lower their head when they were under someone else's roof. With the comparison of their strength, if they really fought, he would definitely be the one at a disadvantage. Chang Daoping could only hope that the two in front of him would not be too insatiable. He would bear the pain and pay a small price, hoping that he would be able to survive this calamity.

"Are you deaf? Or was there something wrong with his brain? I told you to stay, didn't you hear?" The other man in green pouted and cursed.

"I did hear it, but what do you want to leave behind? please tell me." Chang Daoping's face twitched, and he could only continue to ask in a low voice. It was already good enough to lose money and avoid disaster, but if the other party had said "leave the person behind," then today would have been a disaster.

"Leave the star Ink milk and all the valuable things on your body!" The man in green waved his hand impatiently and turned to the other man in green, ""Hehe, old friend, the old rules are still the same. Each of you will choose three and see who gets more spoils! If I win, your clan will be responsible for bringing food and tea to my clan for the next few days, haha!"

"Hmph, do you think I'll lose to you? What a big joke, my eyes have always been accurate, even ten of you are not my match!" The other man in green laughed and pointed at Chang Daoping, Cao Shishi, and Luo tuoxiang, ""You, you, and you, only the three of you are mine."

"F * ck, old friend, you're not too particular. You're picking the stronger one!" The green-robed man was anxious, but he had no choice. He pointed to Hu Lili, fan Dongji and Fang miaojin and comforted himself, ""Don't be too pleased with yourself. Being strong doesn't mean that you're lucky. Some of the little guys might not be that strong, but they have good things hidden on them."

As the two men in green spoke, they didn't know if it was intentional or not, but they actually excluded Lin Yi and Huang Xiaotao at the same time, making the two of them a little confused.

Could it be that the two of them had realized that he and Xiao Tao did not have the star Ink milk on them? Furthermore, they saw that their strength was at the bottom of everyone else, so they didn't bother to pay attention to him?

Also, who were these two people? The more Lin Yi listened to the conversation, the more familiar it sounded. There was at least a 60% chance that he'd seen them before, but he couldn't quite put his finger on it.

Lin Yi was confused, but Chang Daoping and the others were really depressed. They finally got the star Ink milk they'd been dreaming of, and they didn't even have time to be happy yet, but these two people came out of nowhere and targeted them. What the hell was going on?

"Leave behind the star Ink milk and all the valuable things? You two, isn't this a little unfair?" After all, Chang Daoping was a master of the nascent Soul Stage. Although he was a little afraid of the two men in green, he did not dare to say anything. "The star Ink milk was taken from this place. There's nothing we can say if you want us to keep it, but the other things are all our own. Aren't you guys robbing us?"

"Daylight robbery? Didn't I say that we're just collecting a toll? do you think that our spirit beast clan's Ao duo cultivation city, a famous Scenic Area, can be visited by you for free?" One of the men in green laughed strangely.

"Scenic spot ..." Chang Daoping and the others looked at each other. They were so depressed that they wanted to vomit blood. This place was dead. Other than the two robbers in front of them, there was not a single living thing. If it wasn't for the star Ink milk, who would come to this place to find trouble? a famous scenic spot?

"That's right, have you ever seen a teleportation array that you can use without paying a price? No matter what, there's a toll on the road, right?" Another green-clothed man added with a strange smile.

The corner of Chang Daoping's mouth twitched, and he was speechless for a long time. All the valuable things on his body were taken away, and this was considered a road fee? So what if it's a robbery? he actually said it so righteously. Have spirit beasts become so cunning now?

"What's wrong? If you really don't want to hand it over, that's fine. You can go back and continue playing, don't stay here and waste time!" The expressions of the two men in green began to become impatient.

Cao Shishi, Luo tuoxiang, and the others all turned to look at Chang Daoping. They could not decide on their own; it was up to Chang Daoping.

However, no matter what, not only did they have to hand over the star Ink milk, but they also had to hand over all their valuable things. Anyone would be depressed to death if this happened to them.

Everyone was not happy, and Chang Daoping was naturally not happy either. He immediately turned around and left. Since the other party had said so, at least one thing was certain. The other party would not easily make a move. This was the only good news at the moment.

Cao Shishi and the others were stunned, but they followed Chang Daoping to the door. Their hearts were filled with uneasiness. According to what the two men in green had said, if they continued to explore the ruins, they would not be asked.

However, the problem was that it was useless. Even if they found more treasures in the ruins, they couldn't bring them out.

Because if he wanted to go out, all the treasures on him would be taken away by the two men in green. Not a single thing would be left behind. This was a pure waste of time, and the more he gained, the more painful it was.

There was no way Chang Daoping wouldn't have thought of such an obvious problem. Lin Yi's heart suddenly moved-could it be that this guy wanted to leave from another path?

"Oh right, I forgot to remind you guys." At this moment, the green-clothed man behind him suddenly spoke.

Everyone was shocked, thinking that the other party was going to change his mind again. One by one, they turned to look at the two men in green with apprehensive expressions.

"There's only one way to get out of here, and that's to use this teleportation array. All the other exits have been sealed off, including the moon Shadow array. Now, you can only enter, not leave. " The green-clothed man had a teasing look on his face as he laughed evilly,""Not to mention that you can't find the lunar shadow array, even if you do, you must have the bloodline of a spirit beast to go out. Do you have it?"

Chang Daoping's face fell. It was as Lin Yi had guessed-he really did want to leave through the moon Shadow formation. Even if he didn't know how to break the formation, he'd studied the moon Shadow formation before. He might have some clues.

Although it was much more troublesome than using the teleportation array, he wouldn't have to be plundered like this. Moreover, he still had plenty of time. However, the green-clothed man's casual words shattered his beautiful fantasy.

Chapter 4292 Her Greed Was Exposed

"If you don't believe me, you can try. If you can get out of here, then it's your ability. We won't stop you." The man in green laughed.

This time, Chang Daoping was completely helpless. From the other party's fearless attitude, he could judge that this should not be a lie. Moreover, when the spirit beast Deacon told him before, he did specifically instruct him to leave through the teleportation array.

However, the other party had never said that there would be people blocking the road and robbing them when they left!

If their strength was only average, then it would be fine. But the two in front of them were original infant stage spirit beasts in human form. There was no way they could defeat them!

"You guys ..." Chang Daoping was furious, but he did not dare to turn hostile in the end. Helpless, he could only throw out the backpack on his back and take out the star Ink milk in his arms.

No one would be willing to hand over a treasure like the star Ink milk, but what else could they do? could they really die Here?

Chang Daoping was able to reach his current level not because he was a person who valued money over his life. After thinking it through, he was still single. Anyway, he was no match for him, so there was no need to struggle and resist. Not only would it be useless, but he might even die in vain. Why bother?

The man in green was not surprised at all. He had seen many human experts. Usually, they were all domineering and looked very arrogant, but at this critical moment, they were often more tactful than anyone else and cherished their lives more than anyone else.

One of them took Chang Daoping's bag and looked through it. After roughly estimating its value, he threw it to the side. However, when he picked up the little spirit Jade bottle that contained the star Ink milk, he suddenly exclaimed in surprise.

"Hehe, you're quite an interesting person. To trick your underlings, you'd even use such a small trick. Tsk tsk ..." The green-robed man curled his lips in a mocking manner. Then, as if he wanted everyone to see clearly, he took out a box made of spirit Jade from the side. However, it was much size than the little spirit Jade bottles they had.

Everyone was confused, but when they saw the man in green pour the star Ink milk into the box, their expressions became extremely strange. When they looked at Chang Daoping again, their eyes were clearly more complicated.

In terms of volume, the spirit Jade box that the green-robed man had taken out was at least ten times larger than Chang Daoping's little spirit Jade bottle. However, the star Ink milk that had been poured out of the little spirit Jade bottle had filled the entire spirit Jade box!

If they hadn't seen it with their own eyes, no one would have believed it. Even now, no one dared to believe their own eyes. How could this be possible?

If it was said that the people present were all ordinary people, being fooled and deceived like this was still acceptable, but they were all dignified jiedan stage Masters, but they were still deceived like fools, and in the process, there was no doubt at all, this was a bit inexplicable.

It could only be said that although it was just a small trick, Chang Daoping's trick was flawless.

"Hehe, at first glance, there's nothing special about it. It's just a little spirit Jade bottle that can be bought anywhere. I didn't expect it to be so exquisitely constructed that there's a universe inside. If I'm not wrong, there must be at least a few formations added to it. There should be a lot of camouflage and small universe techniques. That's why it can hold so much Star Ink milk and fool people at the same time. Tsk, tsk, it must have cost a lot." The man in green showed a look of disdain, while deliberately telling everyone the hidden mystery.

Chang Daoping's face heated up. It was fine if this trick was not exposed, but now it was exposed in front of so many underlings. He was in a difficult position.

As expected, the rest of the people no longer looked at Chang Daoping with respect and admiration.

Before this, the reason why Chang Daoping was able to gain the trust of everyone was not only because of his strength and status, but also because of his domineering personality. The other key point was that he had gone through thick and thin with everyone.

For example, in this trip to the ruins, Chang Daoping had clearly contributed the most, and everyone had only contributed a little in breaking the moon Shadow array. When they had taken the star Ink milk, even if Chang Daoping had asked to take half, no one would have had any objections. However, he had taken the initiative like everyone else and only took a small bottle. This was very rare.

People's hearts were made of flesh. Chang Daoping was so open and fair in dealing with things, so everyone felt that he was reliable and would work for him.

However, no one would have thought that Chang Daoping's open and aboveboard behavior was just a sanctimonious act. He actually did such an underhanded trick right under their eyes.

In an instant, the image Chang Daoping had built in everyone's hearts for a long time collapsed as the spirit Jade bottle in the green-robed man's hand fell.

Compared to the others, Lin Yi and Huang xiaotao were looking at Chang Daoping with hatred!

Cao Shishi, Luo tuoxiang, and the others were only tricked by Chang Daoping. At least they each got a small bottle of Star Ink milk, so they didn't lose much. Only Lin Yi and Huang xiaotao were the real victims.

No wonder Lin Yi felt that Chang Daoping was way too slow when he was the first to get the star Ink milk-it shouldn't have taken that long if it was just a small bottle.

Lin Yi thought that Chang Daoping was just excited-this was the rare Star Ink milk, after all, and he had to be careful when filling it up.

Now that he thought about it, why did the star Ink milk run out just when it was his and Huang xiaotao's turn? this was clearly Chang Daoping's plan!

After such a long time, Chang Daoping should've calculated the stock of the star Ink milk long ago. After leaving one small bottle for each of his men, the rest of the star Ink milk would go into his own bottle, so when it was Lin Yi and Huang xiaotao's turn, there was naturally nothing left.

This really wasn't a coincidence. From the beginning to the end, Chang Daoping dug a hole for Lin Yi and Huang xiaotao to jump into, and in the end, he didn't even say anything about it. He even said that he was a kind person!

If it weren't for the two men in green, Lin Yi and Huang xiaotao would've attacked Chang Daoping already!

Chapter 4293 You Guys Wait A Moment

If they secretly made a fire core true Qi super bomb and stunned him first, how could the others still be Lin Yi and Huang xiaotao's opponents? And at this moment, would the others really be willing to risk their lives for him? It was already fair to him that she didn't go up to him.

He knew that he'd been tricked, and with Lin Yi's personality, there was no way he'd just let it go.

Being surrounded by everyone's gazes, even with Chang Daoping's shrewdness, his face could not help but turn green and purple. He lowered his head and did not dare to look at everyone's expression.

However, the man in green did not let him go just like that. After watching the show with a teasing expression, he suddenly shouted, ""And the spiritual Jade card? Hurry up and take it out!"

"What? You want the spiritual Jade card too?" Chang Daoping could not care less about his shame and anger as he asked in shock.

"Nonsense, I see that you're quite good at fooling people with your tricks. Why is your brain not working well at this time? I told you to hand over all your valuables. Don't tell me your spirit Jade card is worthless?" The green-clothed man glanced at him and said.

Chang Daoping was speechless. After a moment of hesitation, he took out the spiritual Jade card. In any case, the spiritual Jade card had a verification array. Other than his own true Qi, no one else would be able to use it, let alone transfer a piece of spiritual Jade from it. If he lost this spiritual Jade card, he could just go back and get a new one with his connections ...

However, before Chang Daoping could celebrate, the man in Green's next move made his eyes Twitch again. His already ugly expression turned into one of excitement.

"Be more self-conscious and hurry up. You can't miss out on a single piece of spiritual Jade. Otherwise, I don't need to say what will happen to you." The green-clothed man was holding a miniature card-swiping magical treasure in his hand.

F * ck! Chang Daoping had a stomach full of vulgarities, but he held it in and didn't dare to curse out loud. This spiritual Jade card contained almost all of his savings. Not only did he not get anything from the oduo cultivation city ruins, but he also had to go bankrupt. He was really unlucky!

Although he was angry, Chang Daoping did not lose his mind. No matter how many spiritual jades he had, it was still not worth his life. He could only do as he was told. Moreover, because the other party had been staring at his spiritual Jade card, he could not transfer even one less piece. He had to transfer all of them.

The star Ink milk, the treasures on him, and the spiritual Jade card were all taken away. The green-robed man was still not at ease, so he personally searched Chang Daoping's body before finally letting him go and turning to the next one.

Chang Daoping stepped to the side with an ashen face. Even he did not dare to play any tricks in front of the man in green, let alone Cao Shishi, Luo tuoxiang, and the others. The man in green was a late-stage nascent soul expert from the spirit beast clan. Although they could act arrogantly in the outside world, they were no different from ants in front of him.

A moment later, Chang Daoping and the other five were all plundered clean by the two men in green. There was nothing left. If they searched their pockets now, it would be cleaner than their faces ...

"Come, come, come, old man, come and compete with me to see whose things are more valuable! Hahaha, I'm willing to bet that you'll lose this time!" The green-clothed man no longer paid attention to the crowd. He impatiently piled up the things they had plundered and began to compare them.

Chang Daoping and his group of six stood awkwardly at the side. They didn't know what to do.

"Um, can we ..." Chang Daoping finally couldn't help but ask carefully.

"Oh, you guys can get lost now." The man in green kept his word and did not continue to make things difficult for them. He pointed at the teleportation array and signaled for them to go up.

"Okay, okay, thank you, thank you ..." Chang Daoping and the others heaved a sigh of relief. They were afraid that the other party would go back on his words and attack them. If they really fought, they would probably all die Here today.

The six of them couldn't care about anything else and hurriedly ran to the teleportation array. Even if they knew that there was indeed Star Ink milk, they definitely wouldn't dare to come back to this damn place called the AO duo cultivation city ruins. Not only did they not get any treasures, but they were also exploited clean. No one would dare to come here!

Lin Yi and Huang xiaotao looked at each other and quickly followed. Since the teleportation formation was the only way out, they naturally had to leave with the crowd.

On this trip to the ruins, he had been scammed by Chang Daoping and had not obtained the star Ink milk. However, he had also not been exploited by the two men in green. This could be considered a blessing in a misfortune.

Everyone turned to look at Lin Yi and Luo tuoxiang with complicated expressions, especially Cao Shishi and Luo tuoxiang. Everyone was taken advantage of by the man in green, but these two were the only ones who survived. What was this?

However, they did not dare to grumble. After all, they did not know what kind of temperament these two experts from the spirit beast clan had. If they were the most annoying kind of people, wouldn't they be asking for trouble?

Maybe they didn't get Lin Yi and Lin Yi into trouble, but they got themselves in trouble instead-that wasn't worth it.

However, just as everyone stepped into the teleportation formation and was about to leave, the green-clothed man suddenly spoke again.

"You two, wait a moment." The man in green pointed at Lin Yi and Huang Xiao Tao.

Lin Yi blinked-he'd thought that the guy didn't care about their strength and was just going to ask for their stuff, but he'd stopped them anyway.

Lin Yi and Huang xiaotao looked at each other and stopped helplessly. Chang Daoping and the others who were already on the teleportation formation couldn't hide the gloating on their faces. They finally felt better.

"Hmph, let's go." Chang Daoping smiled coldly. He didn't care about Lin Yi's life or death at all, and the others were the same. They couldn't wait to see Lin Yi's two suffer. They were robbed, so they wanted to see others get robbed even more. Only then would they be able to regain their mental balance.

The teleportation formation was already activated, and before Lin Yi and Huang xiaotao could react, Chang Daoping and the others had already disappeared into the formation with a gloating smile.

"They're gone ..." Huang xiaotao turned to look at Lin Yi. She couldn't help but feel a little guilty. He was a sanctimonious and reliable person before, but in the blink of an eye, he had become like this. She couldn't accept the fact that the human heart was so unpredictable.

The point was, Chang Daoping and the others had left, leaving her and Lin Yi to face two weird-tempered nascent soul advanced stage spirit beasts alone. No matter how she thought about it, it made her uneasy.

Chapter 4294 Meeting An Old Friend In A Foreign Land

"You two, we didn't get the star Ink milk, so ..." Lin Yi wasn't too nervous. As he spoke to the two men in green, he secretly held Huang xiaotao's hand tightly.

"You guys don't have one? It doesn't matter, if we give you all of ours, you'll have it, right?" The two men in green looked at each other with a playful expression.

"Ah?" Lin Yi was stunned as he looked at the two men in green in front of him. He almost thought that there was something wrong with his ears. After looking at Huang xiaotao for a while, he finally confirmed that he didn't mishear, but he was even more confused.

Giving their Star Ink milk to the two of them, was there such an inexplicable good thing in the world? Did the other party have nothing better to do, and was making fun of the two of them for fun?

However, before Lin Yi could react, the two men in green seemed to be serious. They actually placed all the star Ink milk they took from Chang Daoping and the others in front of Lin Yi and Huang xiaotao.

That was not all. Not only the star Ink milk, but all the treasures they had taken from Chang Daoping and the others were also thrown over.

Seeing this scene, even with Lin Yi's calm personality, he couldn't stay calm anymore. How did things suddenly become like this? what the hell was going on?

"How was it, old friend? I won this time, right? Hahaha, if you agree to a bet, you must accept your loss. Next, your clan will have to serve us tea and water, and you can't go back on your word!" The man in green didn't even look at Lin Yi's expression. He turned to his companion and gloated.

"Hmph, if you didn't snatch away all three of the stronger ones, would I have lost to you? It's all that hypocrite's fault. He F * cking used such a dirty trick. His big bottle of Star Ink milk is much more than all the others combined. He's F * cking cheating!" Another man in green said indignantly.

The two's bickering made Lin Yi and Huang xiaotao even more confused. What was going on?

"You two, are you really giving all of this to us?" Lin Yi interjected with a weird expression. He didn't believe that there was such a thing as free lunch. These two Spirit beast Masters robbed Chang Daoping and the others, and now they were giving everything to them? what kind of joke was this?

It would be reasonable if the ghastly thing had appeared and used his aura as an elder of the spirit beast clan to suppress the two. However, the ghastly thing would not appear in this place at all. Moreover, the other party was a super existence of the late nascent Soul Stage. The ghastly thing was only a primordial spirit and he was afraid that he would not be able to suppress them!

"Of course, these are all yours. There's more if it's not enough." One of the men in green said. The other man in green waved his hand in cooperation, and a stream of true energy directly opened a cabinet not far away.

The unique fragrance of the star Ink milk hit them in the face instantly. Lin Yi and Huang xiaotao looked at the scene in front of them and were instantly dumbfounded. Inside the cabinet, there were densely packed spirit Jade bottles and boxes, and by the looks of it, they were all filled with Star Ink milk!

Any small bottle of Star Ink milk was a priceless treasure that couldn't be bought in the market. However, this wasn't just a small bottle, but hundreds of bottles!

In that instant, Lin Yi even felt that the star Ink milk wasn't that rare anymore ...

"Hehe, what do you think? there's quite a lot here, right?" The man in green chuckled. "These are all here. Take as much as you can."

This time, Lin Yi and Huang xiaotao were even more confused. Today's incident was too strange. They didn't think that these two men in green would be so kind to give them such a big gift for no reason. What the hell was this?

From their attitude towards Chang Daoping and the others, it could be seen that although these two powerful existences of the spirit beast clan were not violent, they were definitely not good people. It was more appropriate to say that they were eccentric, but why did they only look at the two of them differently?

There was an old saying that those who were trying to please someone for no reason were either evil or thievery. Lin Yi and Huang xiaotao didn't feel overjoyed at all at this time. Instead, they felt a chill in their hearts. Even if Lin Yi had always been firm and decisive, he didn't know what to do this time.

If the other party had just wanted to kill him, then Lin Yi wouldn't have hesitated even if the other party was strong. He would fight to the death. But now, not only did the other party not attack, but they even gave him a big gift. This was so strange that it made Lin Yi scared. He couldn't make the first move, could he?

If it weren't for the fact that the two in front of him were too strong, at the advanced stage of nascent soul, and Lin Yi didn't know if this thing could handle them, he'd even want to ask this thing to come out and help ...

"I don't deserve a reward. May I ask what this means? please explain." Lin Yi had no choice but to ask, secretly preparing himself to fall out with these two Spirit beast Masters.

The two men in green laughed and looked at each other. Suddenly, they bowed deeply to Lin Yi.

Lin Yi couldn't help but be shocked. Huang xiaotao, who was beside him, was even more stunned. What was going on? even a person with a weird personality shouldn't be acting this weird, right?

"Hehe, benefactor, how have you been? I finally have the chance to thank you." The two men in green said in unison.

"Benefactor?" Lin Yi was even more confused now-he'd only been on Sky Class Island for a little over a year, and if he'd seen these two before, there was no way he wouldn't remember them with his memory. Plus, they were late-stage nascent soul cultivators, and even if they needed help, Lin Yi wouldn't be able to help them. Where did the Savior come from?

But the next moment, the two men in green didn't continue explaining. In front of Lin Yi and Lin Yi, they transformed into their beast forms-a fire Lion and a Spider!

Lin Yi blinked and immediately recognized them. These two were the Chiefs of the big fire Lion Clan and the spider Clan he met in the Wulong haote mountain range in the secular world!

No wonder the two sounded so familiar-they really were old friends, but they'd both transformed into human forms, and their powers were different now. Lin Yi wouldn't have thought of this if he hadn't been told.

"It's you guys!" Lin Yi instantly relaxed, his heart that was hanging in mid-air finally landing on the ground. He turned to Huang Xiao Tao, who was still in shock,""It's alright now. Don't be afraid. They're all on our side."

Chapter 4295 Together?

Huang xiaotao was so shocked that she didn't come back to her senses for a long time. She thought that these two Spirit beast Masters were strange and evil, and that she and Lin Yi would be doomed today. She didn't expect that they really were on the same side.

Lin Yi even knew a master from the spirit beast clan? In addition to the surprise, Huang xiaotao felt that this matter was too strange no matter how she thought about it.

In terms of status, Lin Yi had only joined the three pavilions for a little over a year, and the difference between the north and south Islands was like heaven and earth. In terms of strength, the difference was also a mess. How did they know each other?

However, although she hadn't been with Lin Yi for a long time, Huang xiaotao had witnessed Lin Yi's miracles a lot. Ordinary people couldn't understand this kind of god-like stroke, but her ability to accept it was much stronger. After all, she had slowly gotten used to it ...

"Yes, yes, we're all on the same side." The Great Fire Lion and the great Spider laughed and nodded. They then transformed back into their human forms so that they could speak more naturally.

In fact, at their level, most of the spirit beast Masters were more used to appearing in human form. They would only use their true form when they were fighting to the death with others.

"By the way, why did you two suddenly disappear?" Lin Yi couldn't help but ask after the surprise.

"Hehe, when the teleportation formation was activated, we were all teleported to the southern part of the Sky Class Island." The Great Fire Lion replied with a smile.

"You may not know this, but we're different from you human cultivators. Once we're teleported to Sky Class Island, we spirit beasts will be teleported to the South Island for sure. Unlike you, we're teleported to a fixed location." The spider explained.

"I see, but ..." Lin Yi looked at them, his expression strange, ""Aren't you two supposed to be rivals? How come you're together now?"

When they were in the secular world's Wulong hao te mountain range, the Great Fire Lion Clan and the great Spider Clan were sworn enemies. Of course, they were not really sworn enemies. The two clans just competed with each other and would not fight to the death. After all, the origin of the two clans was there. In fact, they could be regarded as a family.

Even so, Lin Yi still found it strange to see the fire Lion and the spider together. These two never really fought to the death, but they shouldn't be as harmonious as they were now ...

"Are you together?" When the Great Fire Lion and the great Spider heard these three words, they looked at each other and could not help but shiver at the same time. They each took a step back and said in unison, ""Benefactor, you can't say such things. When did we get together?"

"Ugh ..." Lin Yi's face darkened-these two were overthinking things. So they had tsundere attributes too? he shrugged helplessly, ""Then why are you two together, and why do you have such a tacit understanding?"

"What tacit understanding?" The Great Fire Lion and the great Spider spoke in unison again. After realizing the problem, they suddenly blushed and glared at each other. The Great Fire Lion then said, ""Benefactor, you're thinking too much. I don't want to stay with this old thing. I have no choice. Otherwise, I would have taken care of him long ago ..."

"Yo, you're quite arrogant with your words. You're taking advantage of the fact that I can't fight you, so you're putting gold on your face?" The spider rolled its eyes and pouted.

"Gold? You have the nerve to say this, did I win the bet just now? are you trying to cheat?" The Great Fire Lion said proudly.

"Nonsense, you snatched away the three powerful ones without saying anything, especially the leader. A bottle of Star Ink milk can kill everyone else in a second. Don't you think that you won an unfair

battle? You still have the nerve to show off in front of me? I don't even want to scold you!" The giant spider curled its lips in disdain.

The two of them were obviously powerful beings from the spirit beast clan, and Chang Daoping didn't even dare to let out a fart, but they were bickering like children. Lin Yi and Huang Xiaotao couldn't help but laugh at this scene.

"So you two are no longer fighting, but instead making a bet?" Lin Yi couldn't help but smile.

"Fight? "If I could fight, I would've fought with him until the sky turned dark. Who would be so bored as to bet and play? we haven't fought for a long time, and our hands are itching. We have no choice ..." The Great Fire Lion said helplessly.

"That's right. After we came to the southern island, we must obey the rules of the spirit beast clan. Otherwise, we will die miserably. How can we fight for no reason?" The big spider sighed. "Benefactor, look at the ruins of Oduo cultivation city. Didn't they all die? It's said that it was because they didn't listen to us that they ended up like this. This is a living example of what happened before. We have to take it easy ..."

"I didn't expect the spirit beast clan to have such strict rules. It's really unexpected." Lin Yi asked, surprised.

According to his understanding, due to the sudden disappearance of the king of the spirit beasts, the spirit beast clan was now like a group of Dragons without a leader. In addition, every powerful spirit beast was a unique existence and was not so easy to manage. Logically, it should be a mess. However, listening to the Great Fire Lion and the great Spider, the rules were still very strict, which was very different from what he had imagined.

"Actually, you don't have to be too surprised. Compared to you human cultivators, our spirit beast clan believes that the strong are respected. If you can win, you go. If you can't, you submit. There's no need to beat around the bush. As long as the leader's strength can truly deter the heroes, it'll be more convenient to manage than you humans." The spider explained.

"En, that's true. By the way, why are you guys here? is this ruin your territory now?" Lin Yi suddenly asked.

"Hehe, benefactor, don't joke around. How is that possible?" The Great Fire Lion waved his hand and said, "although this is a Dead City, it was once one of the most important cities of the spirit beast clan. Even if it's deserted now, it's impossible to give it to a spirit beast so easily. Only the elders of our spirit beast clan can occupy such a large territory. We're new here, so we don't have such a great influence."

"But aren't you all at the late Yuanying stage now? is this still not enough? I thought it was because you've occupied a large amount of cultivation resources that your strength has been reborn." Lin Yi couldn't help but be curious.

Be it the fire Lion or the spider, they were only sky Class back in the common world, but they'd already reached the advanced stage of the original level in such a short time. Lin Yi thought that his strength was already heaven-defying, but compared to these two, he was still a thousand miles away.

Chapter 4296 Unforeseen Events In The Spirit Beast Clan

"Benefactor, you don't know this. We spirit beasts are different from you humans. Human cultivators have to rely on themselves to improve their strength step by step. Every bit of strength is obtained through real cultivation. But we spirit beasts are different. In addition to our acquired cultivation, our strength is largely determined by our innate nature. The innate talent of each race directly determines the limit that we can reach. Acquired cultivation is actually just adding flowers to a brocade." The spider explained.

"That's right. Moreover, in the core Holy Land of our spirit beast clan, there's a special array that can unearth our clan's innate talents. As long as we have enough Foundation, we can quickly increase our strength. Our strength has been stuck at a bottleneck for many years in the secular world. Our Foundation is sufficient, and after being stimulated by the array, it's very normal for our strength to be reborn in a short time. However, this array can only be used once for each spirit beast. It's no longer effective after that. " The Great Fire Lion nodded in agreement.

"I see." Lin Yi nodded. Human practitioners focused on their cultivation, while spirit beasts focused on their race's talents. There were pros and cons to both.

Even if there was a slight difference in talent between human cultivators, it was not to the point where it was impossible to cross. As long as one cultivated diligently and had enough opportunities, anything was possible no matter what stage one reached.

On the other hand, for the spirit beast clan, although their racial talent did not determine everything, it determined at least 80% of their strength. No matter how hard they tried, those with poor talent would not be able to turn the tide.

For the Great Fire Lion and the giant spider to be able to reach the advanced stage of the nascent soul realm, their racial talents should be considered pretty good. That was why, after being stimulated by the array, their abilities could increase so quickly. This was the advantage that their racial talents brought them.

"However, although it's said that the innate talent of the race determines one's strength, daily cultivation is still essential to us. Otherwise, it would be too aggrieved if we lost to others." The Great Fire Lion chuckled and looked at the big spider provocatively. The meaning was obvious. Since they came from the secular world, they had always been enemies. Neither of them was willing to submit to the other.

"Whoever is aggrieved will know." The spider hmphed and turned to Lin Yi, "We are both new here. We don't have any territory or cultivation resources, so our only choice is to carry out missions to earn cultivation resources."

"So, you two came to this remains for a mission?" Lin Yi asked curiously.

"That's right. We were sent by the king of the spirit beast clan to guard this city's ruins. Our mission is to intercept the star Ink milk collected by you human cultivators. This thing doesn't have much use for us spirit beasts, but for you human cultivators, it's a good thing that's hard to find at a sky-high price. Therefore, there will be spirit beast deacons who will come here regularly to take away the star Ink milk we have intercepted and send it to the East continent to exchange for some cultivation resources and spirit jades. We will also obtain some cultivation resources from it. As a reward for the mission. " The giant spider nodded.

"Hehe, other than the mission reward, we also get some extra income from doing this job." The Great Fire Lion winked and laughed.

Lin Yi and Huang Xiao Tao couldn't help but smile. The big fire lion's so-called extra income was nothing more than what they saw just now. The star Ink milk was famous, and there were always human cultivators who wanted to enter the ruins to search for treasures. The result was self-evident, and naturally, they were all exploited by these two.

The moon Shadow array allowed people to enter but not leave. The only way out of the ruins was through the teleportation array. With the Great Fire Lion and the great Spider standing here, any human cultivator who came in would not be able to escape.

Furthermore, the two of them were powerful existences in the advanced stage of the nascent Soul Stage. The human experts who were attracted by the star Ink milk were at most nascent Soul Stage experts. They were basically no match for the two of them. In order to save their lives, they could only obediently follow their orders like Chang Daoping. The cultivation resources and spiritual jades were easily obtained, and this side income could be considered easy and pleasant.

"Oh, then why ..." Lin Yi was about to continue asking why they didn't collect the star Ink milk themselves, but waited for the human practitioners to come to them when the weird thing's voice sounded in his head, ""The king of spirit beasts? Did they find the king of spirit beasts? Or have you made another spirit beast King?"

Lin Yi's heart skipped a beat-he'd almost missed out on something this important! This was something that could change the entire Sky Class Island!

"I heard that the king of the spirit beasts has been missing for many years. How come another King of the spirit beasts has appeared?" Lin Yi quickly asked. This was the thing's most urgent question.

"The original King of the spirit beasts has indeed gone missing. However, elder Vermilion Bird, one of the four Guardian elders of the spirit beast clan, found the bloodline left behind by the king of the spirit beasts, so he has appointed a new king." The giant spider answered truthfully, "however, the king is still too young and doesn't know the rules of the spirit beast clan. Therefore, Vermilion Bird elder is now the governing elder. He is half master and half servant to the king. His position is very high. In fact, all the matters of the spirit beast clan, big and small, are handled by Vermilion Bird elder on behalf of the king."

"What? Isn't this clearly using the Emperor to command the vassals?" Lin Yi could clearly feel the chaos in the demonic thing's breathing even though he was in his essence spirit. He was furious, "Where did they find the king's descendants? I'm the only one in the spirit beast clan who has truly left for the mortal world. That bastard Vermilion Bird didn't even go!"

Lin Yi was shocked. This was a Palace drama from the secular world, and he didn't expect it to be repeated on the spirit beast clan. It was only a few sentences, but he could see the strangeness in it.

"Could it be that he simply found a puppet and used the name of the Regent elder to take the opportunity to ascend to the position? That's right, that's definitely the case. Vermillion Bird, that audacious bastard, would definitely do such a treacherous thing!" The demonic thing was so angry that it wanted to rush out and fight the Vermillion Bird.

"Benefactor, what's wrong?" The fire Lion and Spider looked at each other. The strange and powerful aura that Lin Yi was giving off made them want to submit to him even though they were both advanced stage nascent soul cultivators. It was unbelievable.

They did not know that this was the aura of the demonic creature. Although the two of them were powerful now, they were still far from the level of the demonic creature, who was once a top elder of the spirit beast clan. After all, if the demonic creature could recover, its strength would definitely not be inferior to the current ruling elder, the Vermillion Bird!

Chapter 4297 The New King Of Spirit Beasts?

"Oh, I'm fine. Do you know where the new king of spirit beasts was found? Also, is elder Vermilion Bird the one who's dominating the entire spirit beast clan? Have the other elders not come forward to object?" Lin Yi asked for the ghost.

"The current situation in the spirit beast clan is indeed that elder Vermillion bird's family is the only one in power. The other elders have basically not spoken much. Almost all the power is in elder Vermillion bird's hands. Within the spirit beast clan, at least on the surface, there are no voices of opposition." The giant spider nodded.

"That's right. After all, he's the Regent elder. Elder Vermilion bird's current status has already surpassed the other elders by a large margin." The Great Fire Lion also nodded in agreement. "As for where it found

its King, we don't know. We're new here and have only joined the spirit beast clan for a short time. We don't have any qualifications or background. We're only the lowest level guards now, not even a one star executor. How would we know such a core secret ..."

"I'm sure only the King and elder Vermilion Bird know where the king came from. Even the elders don't know the truth, let alone us underlings." The giant spider added.

"Oh ..." Lin Yi nodded and didn't say anything else. He was waiting for the ghost's reaction.

"Alright, I have no more questions. Kid, you don't have to worry about me. I need some time to calm down." The ghostly thing seemed to have regained its calm, sighing in Lin Yi's mind for a long time before it stopped moving.

"Alright," he said. Lin Yi replied quietly, but he was a little worried. Even when he was in the common world and met the ghost for the first time, it was at its lowest and most miserable state. It didn't feel this sad and depressed.

The cruel reality that the Vermilion Bird had seized power was probably hard for the ghost to accept, especially since it was far from recovering. Even if it knew the truth, there was nothing it could do.

"That's right, the star Ink milk is in the ruins city. Why do you have to wait for the human cultivators to come and get it? isn't it the same if you collect it yourself? if someone finds the star Ink milk and consumes it instead of taking it out like we did, wouldn't you have suffered a big loss?" Lin Yi asked.

"Oh, there's nothing we can do about it. We can't collect Star Ink milk on our own. We can only place our hopes on the human cultivators who have come in to search for treasure. As for whether they will

directly consume it, the possibility is not very high. Even if they do consume it directly, the loss of this Star Ink milk is not a big deal to us." The Great Fire Lion laughed and shook his head.

"Why is that? The star Ink milk is in that pond, so it shouldn't be difficult to collect it, right?" Lin Yi couldn't help but look at Huang xiaotao in surprise. Even a three-year-old child could do this kind of thing, why couldn't they collect it?

"Benefactor, didn't you notice that the place where the star Ink milk is located is actually an altar?" The spider asked instead of answering.

"I know. There's a statue of a spirit beast there, but does it matter?" Lin Yi didn't know what was going on, so he exchanged glances with Huang xiaotao.

"That statue is said to be the appearance of the former king of the spirit beasts. The entire altar was personally set up by it in the past. It also left a sentence saying that the star Ink milk is a treasure given to us spirit beasts by the heavens, but we are not allowed to squander it at will. Therefore, we can't go up there to collect the star Ink milk." The giant spider shook its head.

It really looked like the king of spirit beasts! The spider's words confirmed Lin Yi's guess. A statue alone was enough to make people subconsciously submit-the king of spirit beasts was indeed a Supreme existence that could make all beasts submit to it.

"But the previous King of spirit beasts has been missing for so long. Times have changed. Do its words at that time still hold so much weight on you now?" Lin Yi asked curiously.

Since the spirit beast clan completely adhered to the principle of respecting the strong, the king of the spirit beasts was no longer around, and now there was a new king. As the saying goes, "every Emperor changes his courtiers." They should not be so loyal to the orders of the previous King of the spirit beasts ...

"The words themselves don't seem to have much binding power. The key is that there is a natural Thunder array on the altar. It's fine for you human cultivators to walk up, but if we spirit beasts go up, we'll be struck by lightning ..." The big spider shook its head with a bitter smile.

"There's such a thing? No wonder. " Lin Yi and Huang xiaotao finally understood. They didn't expect that collecting Star Ink milk, which was an easy task for humans, would be so difficult for the spirit beasts.

"Therefore, in order to collect the star Ink milk, we have been secretly spreading the news and even specially asked the other members of the spirit beast clan to find an opportunity to give out some seemingly confidential map information. This was to attract human cultivators to come and collect the star Ink milk. Then, the two of us would intercept them at the entrance of the teleportation array, hehe ..." The Great Fire Lion laughed proudly.

"Oh my God, this business of yours is doing really well ..." Lin Yi and Huang xiaotao were speechless.

Now that he thought about it, Chang Daoping had always boasted that he was very familiar with the deacons of the spirit beast clan, which was why he had obtained the core secret map of the ruins. It turned out that it was all these two guys' idea. They were just playing with him. To think that he was so proud of himself. If he knew the cruel truth of this matter, he would probably cry.

Lin Yi finally understood why the city wasn't as rotten as he'd thought, and why there wasn't so much dust on the streets. It turned out that the whole oduo cultivation city was a set from the beginning.

Once a super bait like the star Ink milk was released, it was estimated that no human cultivator would not fall for it. They had made a hard trip, but in the end, not only did they become coolies for others, but they also had to pay with their entire fortune. They really could not cry even if they wanted to.

"Hehe, this is a ready-made business with no capital. It's a waste not to do it. We came for this. Otherwise, who would guard this damn place?" The Great Fire Lion and the great Spider looked at each other and smiled.

If it weren't for the extra income, the two of them wouldn't be willing to be the guards of this remains. Just relying on the mission rewards given by the spirit beast clan, they could forget about making any progress in their lives.

After all, they were different from when they were in the secular world. Now, they were all in the advanced stage of the nascent soul realm. The resources they had were simply not enough for their cultivation. A man can not be rich without a windfall, and a horse can not be fat without night grass. If they did not take advantage of the side door, where would they get the benefits?

In fact, if it was just to collect the star Ink milk, there was a more convenient and simple way. He could simply capture a human and let him collect the star Ink milk on the altar. This way, it would be easy.

Chapter 4298 Cause And Effect

However, no one had ever done this. The reason was very simple. After all, the former king of spirit beasts was once an invincible existence. Even though things had changed with the passage of time and its words no longer had such a strong binding force, no one would really treat it as air. Moreover, there was a deep meaning behind this.

The reason why the star Ink milk was so rare was not only because of its great effect on human cultivators, but also because it was extremely rare. As the saying goes, the rarer something is, the more

expensive it is. If the spirit beast clan continuously sold the star Ink milk, the rare goods would no longer be rare, and they would not be able to sell it for a good price. The spirit beast clan would naturally not do such a stupid thing.

Of course, the most important thing was that using the star Ink milk fishing method now, not only could he collect Star Ink milk appropriately, but at the same time, he could also let his subordinates take the opportunity to fish for oil and water. It was also a disguised reward. Not only did it save the boss's trouble, but his subordinates were also happy doing it. It could be said to be killing two birds with one stone.

"What about your clansmen?" Lin Yi asked with a smile. These two were both clan leaders. Without their help, the big fire Lion Clan and the big spider Clan would have a hard time standing firm in the southern island where powerful spirit beasts were everywhere.

"We're here to guard the door, so the little ones naturally have to follow us and help us. However, they're all hiding behind the remains and can't be discovered by you human cultivators, or else you'll alert the enemy. " The Great Fire Lion laughed.

"Oh right, speaking of beating the grass and alerting the snake, after people like Chang Daoping suffered a loss, they will go back and spread the news of you blocking the road and robbing. Wouldn't this trap that you set be exposed? This isn't a long-term plan, is it?" Lin Yi asked.

"Hehe, who would spread such embarrassing and unlucky news? wouldn't they be embarrassing themselves? Human cultivators are known for their selfishness. He can't wait for everyone in the world to come here and follow in his footsteps so that he can feel at ease. How could he be so kind as to remind others?" The Great Fire Lion laughed as he spoke. If it wasn't for his innate selfishness, they wouldn't have been able to do this business for long.

"That's true ..." Lin Yi thought about it and it made sense. Even if it was him, he wouldn't tell anyone unless he was a very good friend, let alone others.

Moreover, when he and Huang Xiaotao were stopped, Chang Daoping and the others had gloating expressions on their faces. It was already a living example. Everyone was in bad luck, but only the two of them were fine. No matter who it was, they would feel unfair.

"Besides, if word really gets out that there are not many human cultivators here, then the two of us probably wouldn't be working here anymore. We would have thought of a way to transfer ourselves away to do other missions. Anyway, we can't just waste our time in this damn place." The spider added with a smile.

"That's right. We'll go wherever there's more money. We're not alone. We have a big family to feed." The Fire Lion nodded repeatedly. He and the big spider had always been enemies and friends. In the secular world, they were mostly enemies, but there were many powerful spirit beasts on the Sky Class Island. The two of them could only stick together and advance and retreat together.

"En, I think that your current situation is actually quite good. It's your first time here and you don't have any territory. It's indeed very risky to bring so many tribesmen around. It just so happens that no one will fight with you for territory in the ruins, so it's a rare place to settle down." Lin Yi nodded.

"That's right. What we need to do now is to earn more money from this place and gain a firm foothold. As for how we will develop in the future, we can only talk about it when the time comes." The big spider suddenly found a soulmate. It turned its head and pouted at the Great Fire Lion, "Did you see that? Great minds think alike with our benefactor. If we had listened to your bad idea and wandered outside, who knows how many of our two tribes would have died. We wouldn't have such a peaceful life now."

"Alright, alright, alright. You're the smart one, alright?" The fire lion's face was a little shy, and he quickly changed the topic, "Benefactor, let's not talk about us. Tell me about your situation. Why are you here? And the one beside you, could he be your ..."

At this point, the Great Fire Lion and the great Spider stared at Huang Xiaotao while laughing mischievously. They laughed so much that Huang Xiaotao lowered her head in embarrassment.

"I almost forgot. Come, Let Me Introduce Her to you. Her name is Huang Xiaotao, a disciple of the GreenCloud Pavilion on the North Island." Lin Yi smiled and introduced them, "Xiao Tao, these two are old friends I made in the secular world. You've seen their true forms. They're the Chiefs of the fire Lion Clan and the big spider Clan."

"Xiao Tao greets the two seniors." Huang Xiaotao quickly took off her veil and bowed to the Great Fire Lion and great Spider. Since they were friends, there was no need to continue hiding her appearance.

"We wouldn't dare, we wouldn't dare. We're not seniors, you're our sister-in-law." The fire Lion and Spider quickly returned the greeting. In terms of age and strength, they were seniors, but Lin Yi was their Savior. It wasn't too much to call him sister-in-law.

This 'sister-in-law' made the already thin-skinned Huang Xiaotao even more embarrassed. Her face was red all the way to her ears.

"Alright, there's no need to be so polite between you two. You're all on the same side anyway." Lin Yi smiled.

"Yes, yes. Benefactor, you just said that sister-in-law Xiao Tao is a disciple of the North Island's GreenCloud Pavilion? Then how did you two meet?" The Great Fire Lion asked curiously.

"It's very simple. Because I'm now the same as her, a disciple of the GreenCloud Pavilion on the North Island. So, it's only natural that we know each other. " Lin Yi replied with a smile.

"Benefactor, you've also joined the three pavilions of the North Island?" The Great Fire Lion and the great Spider asked curiously.

"That's right. When I first came to Sky Class Island through the teleportation formation, I was randomly sent to the North Island, and then I joined the three pavilions. It's been more than a year since then, and it's hard to describe what I've been through in a few words," Lin Yi said, sighing. Quite a few things had happened in the past year, and every single one of them was a legend that no one could imagine.

"The distance between the north and south Islands is more than 108000 miles. Benefactor, why are you here?" The Great Fire Lion and the great Spider looked at each other and said,""Could it be that they're here for the star Ink milk? I don't think so. I remember that the news of the star Ink milk was only released in the nearby seas. Has it already spread so far?"

"Man ... Of course not. This is actually still a secret outside. Not many people know about it!" Lin Yi said, shaking his head.

Chapter 4299 The Usage Of The Star Ink Milk

If everyone knew about it, Chang Daoping wouldn't have been so mysterious and there wouldn't have been so few people.

"Who's that?" The Great Fire Lion asked in confusion.

"Actually, we came here this time because we accepted a mission from the three pavilions. We came to the Ying Luo Sea area to hunt down an evil cultivator. However, some twists and turns happened along the way, so we wandered to the nearby Zhen Duan Sea area. Then, we heard that the miasma in Lu Feng forest had dissipated, so we followed the others in to search for treasures. We met Chang Daoping and his group that you just sent away. He said that there was a chance to obtain the star Ink milk, so we came here." Lin Yi explained everything in a few sentences.

"Hehe, originally, we were in different places, but we somehow managed to meet again. This is the legendary fate." The Great Fire Lion said happily.

"That's for sure. Oh right, benefactor, the two of you can take all of this Star Ink milk with you. However, it might not be easy to take it. I'll have to think of a way to store it for you ..." The large spider said, racking its brain.

There were a few hundred bottles of Star Ink milk here, and he couldn't flip them over or just put them in a bag. He didn't know that Lin Yi had a trump card like the Jade space, and it'd take a lot of effort for normal people to take them all.

"All of them?" "What?" Lin Yi blinked and asked, "isn't your main mission here to collect the star Ink milk?" There will be spirit beast deacons regularly coming over to take the star Ink milk. If I were to take it all away, wouldn't you two be blamed?"

Lin Yi really did need the star Ink milk, and he really did want it, but if he let the fire Lion and Spider take the blame for him, it wouldn't be right. He wouldn't do something like that to his own people.

"Of course not. There are only the two of us guarding the remains. Whether or not human cultivators have come in during this time, and how many have come, if I don't say, he doesn't say, no one else can know." The spider explained with a smile.

"That's right, when the deacon comes, we'll just say that no one has come during this period of time. Then wouldn't that be settled? I don't have that kind of free time!" The Great Fire Lion also laughed.

"But if I take away so much at once, doesn't that mean no one has been here for a long time?" Lin Yi was still worried, "and even if he can't find someone to ask, he can see that there's nothing here. If he really wants to check, he can go to the altar and check the amount of Star Ink milk. Wouldn't he know everything?"

"No way, benefactor, look at the dripping speed of that Star Ink milk, if it's fast, it can be filled with a bottle every two or three days. As long as it's half a pool, we spirit beasts don't dare to go up and check it carefully, who isn't afraid of being struck by lightning? It'll be hard to tell if there's more or less if we just stand outside the altar and look. " The Great Fire Lion explained.

"That's right. Moreover, benefactor, after you take these away, it's not like we don't have any Star Ink milk here. After a while, when the human cultivators from other seas come, won't we have more?" The spider explained.

"Other Sea regions?" Lin Yi blinked, confused. "Are there human cultivators from other seas coming here as well?"

"Of course. Lufeng forest is very big. The zhenduan sea is not the only Sea area that is adjacent to it. Several directions are connected to other sea areas, and they all have their own transmission arrays. As long as we show the route map, human cultivators will naturally come over." The Great Fire Lion laughed.

"So, benefactor, don't worry. We have a good relationship with the spirit beast Deacon who is in charge of this matter. He won't make things difficult for us for such a small matter." The big spider winked and hinted.

"Then ... Alright, I won't stand on ceremony with you two." Lin Yi understood now-they probably had to give the deacons some of the resources they'd kept for themselves. Otherwise, why would the deacons promote their products outside when they were only here to collect the star Ink milk? This was all mutually beneficial.

Since it would not implicate the Great Fire Lion and the great Spider, it would be a waste not to have this Star Ink milk. Only a fool would refuse it.

With that, Lin Yi waved his hand in front of everyone and put all the Jade bottles into the Jade space. To the crowd, it was as if hundreds of bottles of Star Ink milk disappeared into thin air right under their eyes.

The fire Lion and Spider didn't say anything for a long time, but they looked at Lin Yi with more respect. Even if they were late-stage nascent soul cultivators, it was impossible for them to do such a perfect job. Their Savior was indeed amazing!

But as shocked as they were, the fire Lion and Spider didn't ask too much. Even if they were on the same side, this was a trump card. Lin Yi would tell them if he wanted to, and he didn't have to force it if he didn't.

Looking at the amount of Star Ink milk in the Jade space, Lin Yi was overjoyed. As long as it wasn't used as water, not to mention Lin Yi and Huang Xiaotao, even if he counted all the Hongyan and followers around him, it should be more than enough.

This trip to Lufeng forest, from the baby ginseng to the Wandu golden core fruit, and now to the star Ink milk, the harvest was really beyond imagination. It could be seen that accepting the task of capturing Wu Bao Liang was absolutely a wise move. This time, even if they couldn't catch Wu Bao Liang, just the harvest alone was enough to make others envious.

"That's right, benefactor, do you know how to use the star Ink milk?" The giant spider suddenly asked.

"This ... I really didn't understand it in detail. Isn't it just taken directly like this?" Lin Yi blinked.

In fact, because his level was not high enough, he had never heard of the star Ink milk before. He had only met Chang Daoping and the others on his way here. He heard that this milk could help him become the strongest nascent Soul Stage expert, so he decided to follow them on the spot. He had no idea how to use the star Ink milk and was a complete layman.

Of course, it was also a perfect breakthrough. Lin Yi hadn't come into contact with Star Ink milk, but he'd at least used star inkstone before, so he could guess that it wasn't that far off. It was basically just a combination of the two when breaking through to nascent soul. Plus, wasn't there that damn thing?

"It's not impossible to consume it directly, but this method can only be considered a half-perfect breakthrough at most. Compared to a true perfect breakthrough, there's still a big gap." The giant spider shook its head.

"Oh? Could there be another way? or do you want me to use it with other heavenly treasures or pills?" Lin Yi said, deep in thought.

Chapter 4300 Leaving The Forest

He was an Alchemist, so the first thought that came to his mind was to use medicinal pills as a supplement. After all, there were many natural treasures. The effect of consuming one was indeed average, but if other spiritual medicines were used as supplements, the medicinal properties of the treasures could be maximized, and they could produce amazing effects.

"There's no need for that. If you want to truly achieve a perfect breakthrough to the original infant stage, there's actually a very simple way, and that is to bathe in the star Ink milk ..." The large spider said with a smile.

"Ha?" Lin Yi and Huang xiaotao, who were listening attentively, thought that it was some kind of ingenious method, but when they heard the word "shower," they were stunned.

There was nothing strange about taking a bath, but using the star Ink milk to take a bath was really strange no matter how one thought about it. If it were to be sold on the market, a drop of Star Ink milk would be worth at least a thousand spirit Jade. Was there anything more luxurious and extravagant than taking a bath with this thing?

"You didn't hear wrong. It's a bath." The Great Fire Lion laughed and said, "Although we, the spirit beast clan, don't use the star Ink milk ourselves and trade it with human cultivators, it was made by us after all. So many human cultivators have used the star Ink milk, and we still have some understanding of it. We have also summed up some experiences. The star Ink milk is the most effective only when used for the first time. It can't be said that there is no effect after that, but it will definitely not have the miraculous effect of being reborn. At most, it will be like how we spirit beasts use the star Ink milk. It's just beneficial. "

"That's right, and there's one more thing, whether it's for internal or external use, it's actually fine. There's no obvious difference in the effect of the star Ink milk. " The giant spider nodded and added.

"Since there's no obvious difference, there's no need to waste it by using it to shower, right?" Lin Yi's lips twitched, still thinking that the idea was too much. Even if he was a rich man for generations, he couldn't handle this.

"No, we've also summed up a third point of experience. That is, the more Star Ink milk your entire body can come into contact with the first time you use it, the better the effect." The spider explained.

Before Lin Yi and Huang xiaotao could react, the fire Lion laughed, ""Therefore, if you want to achieve the so-called perfect breakthrough, the best way is to take a bath with the star Ink milk. Any other method will allow you to have more contact with it. Of course, if you don't mind, I think you can take a bath and drink it at the same time."

"Taking a bath while drinking ..." Lin Yi and Huang Xiao Tao looked at each other speechlessly. They had never seen or heard of such an exaggerated way of using the water.

"Although this guy is a little exaggerated, according to the past experience of our spirit beast clan, this is indeed the case. Of course, ordinary people can't know this method. Even if they know, they don't have the conditions to do so. There are only a few human cultivators who can get a small bottle of Star Ink milk. It's impossible to get so much at once and use it to bathe." The giant spider nodded.

"Alright, I got it." Lin Yi finally digested this shocking method of use. The fire Lion and Spider gave him a few hundred bottles at once, anyway. It was enough to use for a bath. If it wasn't enough for several people to bathe separately, they could all bathe together ...

As they were talking, the needle on the round disk beside the formation moved slightly, attracting Lin Yi's attention.

"This is ..." Lin Yi pointed at the disc. The Big Dipper and half Moon were carved on it, and the formation was the same as the moon Shadow formation. There seemed to be some connection between the two.

"Oh, this is the moon Shadow array's detection array outside. If the moon Shadow array makes any movements, it will show up here." The spider explained.

"Does that mean that someone is challenging the moon Shadow array?" Lin Yi said, deep in thought.

"That's right. It looks like another wave of human cultivators is coming. Hehe, they're here to give us some warmth. They're all good people." The Great Fire Lion rubbed his hands excitedly.

Lin Yi and Huang xiaotao couldn't help but smile. If they knew that they were here, they wouldn't have come in to give them warmth. Who the hell wanted to be a good person?

"Since there are outsiders here, it's not convenient for us to stay here for a long time. We can only take our leave first. Since we already know each other's recent situation, we will have the opportunity to meet again in the future." Lin Yi suggested.

"Alright, there's still a long way to go. I'll catch up with my benefactor next time." The fire Lion and Spider nodded. If outsiders saw them together, they wouldn't mind since they didn't go out to the outside world, but if someone set their eyes on Lin Yi and Huang xiaotao, it would be troublesome.

"Alright, we'll meet again. You two take care." Lin Yi and Huang Xiaotao cupped their hands at the fire Lion and Spider.

"We'll meet again, take care. " The fire Lion and Spider watched as Lin Yi and Lin Yi walked into the teleportation formation. They activated the teleportation formation and a white light flashed, and the two disappeared.

When they opened their eyes again, Lin Yi and Huang Xiaotao's figures had reappeared in the dense forest. They were surrounded by an empty space. Other than the small teleportation formation under their feet, there was another one not far away. If everything went as planned, the other end should be the Lu Feng road teleportation formation, which led directly to Zhen Duan city.

Lin Yi scanned the area-there weren't any other practitioners around, not even Chang Daoping and the others. He'd come in high spirits but left in low spirits-he probably didn't have the mood to stay after what he'd suffered in the ruins.

"What do we do now? do we still want to continue strolling around here?" Huang Xiaotao turned around and asked. There were still a few days before the miasma returned, so they were not in a hurry to leave.

"Forget it. I guess I won't find anything good if I continue to wander around here. Instead of wasting time, I might as well go back to Zhenduan city. I've been out for more than half a month. I'll rest a little when I get back, and then I can wait for the ship to return to Black Arc city." Lin Yi said after some thought.

The baby ginseng, Wandu golden core fruit, and Star Ink milk were the most famous treasures in Lu Feng forest. They had obtained all of them. To the two of them, there was no need to continue wasting time in the forest. They might as well go back and recuperate.

Huang xiaotao nodded, and the two of them immediately went to another teleportation array at the side. After looking around, they found that it was the same as the Lu Feng's path teleportation array. There were six positions on the teleportation array, but the difference was that there was a card slot behind each of the six positions.
