

## Bodyguard 4301

### Chapter 4301 Can't Go Back Again

Lin Yi and Huang xiaotao understood immediately. After finding a spot, they took out the tokens they got from the Lu Feng road teleportation formation and inserted them into the card slot. The teleportation formation was activated successfully, and when the two opened their eyes again, they were back in zhenduan city.

Half a month had passed, and the current scene in zhenduan city was even more crowded than before. Not only did the crowd not decrease, but it also became more and more crowded.

Lin Yi and Huang xiaotao looked at each other helplessly. It was as noisy as a market, and these people were all strong Masters outside. Now, they were walking around like dogs. This situation really made people speechless, but it also showed how attractive Lufeng forest was.

However, Lin Yi was wrong on this point. At this time, there were only ten days left until the return of the miasma. It was too late to explore Lufeng forest.

More and more people were gathered here, not for Lu Feng forest, but for another more important and exciting event!

However, Lin Yi didn't care about that. He just wanted to check out the situation at the dock. The ship he booked wasn't up yet, but there might be other routes. It was better to be prepared.

However, when Lin Yi and Huang xiaotao arrived at the dock, they were surprised to find that the place was heavily guarded. No one was allowed to enter or exit. The entire dock was under martial law.

"What's going on?" Lin Yi couldn't help but wonder-there weren't this many guards here before, and there weren't any restrictions!

"Little brother, are you from another place?" A middle-aged boatman looked at Lin Yi and Lin Yi-they seemed to be working at the dock, but they couldn't enter now that they were kicked out.

"Yes, yes. Uncle, can you tell us what's going on?" Lin Yi quickly asked.

"Heh, what else could it be? the East continent's Morning Star golden class practitioner institution is coming here to recruit students. It's always like this before, to prevent other people from swarming in after hearing the news, so the dock is blocked," The middle-aged man said, pouting.

"I see." Lin Yi nodded. He'd heard that there was a Yellow Class school in the East continent recruiting students before he went to Lufeng forest, and he didn't expect to see it here.

"In fact, the news has already spread, and the people who should have come have already arrived. To seal the dock at this time is simply taking off my pants and farting. I can't even do any work, and can only stand here and drink the Northwest wind. It's really F \* cking F \* cking F \* cking annoying!" The middle-aged man cursed in anger.

"That doesn't make sense. Even if he was afraid of attracting too many people, he could have just allowed people to leave and not enter. Why would he seal off the entire dock? "And that's a big one ..."  
Lin Yi said, surprised.

"Who said it wasn't!" The middle-aged man shook his head helplessly. "They're afraid that the news will get bigger and bigger. If too many people come and block the dock, it'll be easy to cause trouble. So, they've blocked them all. Hmph, why would the big shots care about the thoughts of US Small people ..."

Lin Yi and Huang xiaotao looked at each other helplessly. They couldn't leave even if they wanted to now. They probably had to wait until the East continent's morning stars Academy left before the dock reopened. It was impossible to leave before that.

There was no point in staying at the dock, so Lin Yi and Huang xiaotao had to follow the crowd back to zhenduan city.

Now that they were back, Lin Yi dragged Huang xiaotao along with him. After walking one round with the huge crowd, they finally arrived at Zhen Duan square.

Lin Yi and Chu bubai had been to this place before. There were many people forming teams here to recruit people, and it was here that they met Guo dengtao. It was only then that they formed a team with Chu bubai and entered Lufeng forest, and they had all the gains after that.

The number of people gathered in Zhen Duan square was a lot more than before, and Lin Yi estimated that there were at least a few thousand people. There were still practitioners coming, too, and it seemed like it was only a matter of time before the number reached five digits, or even more.

However, although there were many people now, the order at the scene was much better than before. At least, no one was shouting loudly to form teams and recruit people. They were no longer clamoring loudly. Even if they discussed with each other, they deliberately lowered their voices. All the cultivators spontaneously sat in rows on the ground, looking up from time to time, as if they were waiting for something.

Looking forward, in front of the crowd, in the middle of Zhen Duan square, there was a huge fence that divided Zhen Duan square into two worlds. One World was outside the fence, and the other was inside the fence.

Compared to the crowded scene outside the fence, the inside of the fence was much emptier. There was a temporarily built high platform with a long row of tables and chairs.

At this moment, there were already many people seated on the platform. There were at least thirty people, but even so, there were still some empty seats. It was unknown whether they were reserved for people or there were already extra seats.

In this situation, the people who could sit on the high platform must be from the legendary East continent's Morning Star yellow rank cultivation college.

Moreover, since they had come all the way here to recruit students, if everything went as expected, the people sitting there were most likely people like the Chancellor of the Academy. There might even be people of higher status, such as the vice principal of the Academy.

However, Lin Yi didn't know anything about this golden class Morning Star School before, and he only heard about the East continent recently. Of course, he didn't know any of the people on the stage, but he could at least tell that none of them were ordinary people!

Thinking back to when Lin Yi first came to Sky Class Island and participated in the newbie test, he'd been scared witless by the three elders guarding the back mountain Hall-he'd even been in awe.

To be an elder of one of the North Island's three pavilions, one had to be at least at the original level. Lin Yi, on the other hand, was only at the early foundation level, so it was normal for him to be intimidated by the other's aura.

But now, things were different. Lin Yi was a master who had broken through to the Golden core stage perfectly. He wouldn't have any respect for normal nascent Soul Stage Masters at all. There were even real nascent Soul Stage Masters who died under his and Huang xiaotao's hands.

Chapter 4302 Mountain-Opening Period!

However, as he looked at the people on the stage and felt their unconcealed aura, Lin Yi felt the same feeling he had in the back mountain Hall.

Among the 30 over people on the stage, the original infant stage was the lowest level of existence. Among them, there were many xuansheng stage experts who were above the original infant stage!

These people were from the same Academy, and the East continent was known as the strongest existence on Sky Class Island. It was indeed a well-deserved reputation, with hidden dragons and crouching tigers.

Lin Yi had been on Sky Class Island for more than a year, and he'd seen his fair share of Super Masters, but compared to these xuansheng Masters on the stage, there was still a gap. Of all the people he'd come into contact with, there were at most two and a half people who could be compared to them, or more specifically, overpower them.

One of them was Tianxing Dao. Although his strength was only at the peak of the advanced stage of the nascent soul realm, he was a freak like him who could easily kill people of a higher realm. He had just recovered from his injuries, but he was able to defeat Nantian Aurora, who was at the early stage of the

xuansheng realm, with one move. This was not normal. Even among the Masters of the xuansheng realm, he should be a very powerful existence.

The other one was the pavilion master, Shangguan Tianhua. He was one of the top leaders of the North Island's three pavilions. Lin Yi had never seen him fight before, not even reveal his aura, but Lin Yi's intuition told him that Shangguan Tianhua would be one of the best even if he was on the stage.

As for the other half, it was the damn thing he was keeping in the Jade space. Lin Yi had never seen this guy's strength before, but he was a top elder of the spirit beast clan after all. He was also a pillar of the spirit beast clan. At his peak, he shouldn't be weaker than these people. Otherwise, if even he couldn't fight him, the spirit beast clan would have been wiped out by the human forces long ago.

However, the demonic thing was only a broken primordial spirit now, so no matter how powerful he used to be, he could only be considered half a primordial spirit now.

Other than these two and a half, there were no other people Lin Yi knew that could compare to these xuansheng stage Masters. After all, any xuansheng stage master, even in the middle Island, was a top master, not a common one.

And now, on the high platform, there were no less than seven xuansheng stage Masters. This wasn't the most exaggerated part-what really made Lin Yi's eyes jump were the three people sitting in the middle. Their auras were much stronger than all the xuansheng stage Masters!

In other words, these three people were above the mysterious Ascension stage. As for what realm was above the mysterious Ascension stage, Lin Yi had never even heard of it.

Lin Yi was shocked-no wonder so many people wanted to go to the East continent, to be chosen by this golden class Morning Star School. A master above the xuansheng stage was a living signboard.

Lin Yi and Huang xiaotao looked at each other. They couldn't move forward and could only follow the crowd's rules and sit down at the back of the crowd. There was nowhere else to go anyway, so they might as well join in the fun and listen to the discussions around them. It was also an eye-opener.

"Principal Ling Yuanqing actually came here personally this year?" As expected, a man in a yellow hat in the front row exclaimed as soon as the two sat down.

"That's impossible, right? No matter how much importance he placed on this recruitment, as the principal of the Academy, he couldn't possibly make a personal move, right? Did you make a mistake?" Someone immediately questioned.

"Misjudged? Do you think I'm blind? do you think I'd spout nonsense about this? Look at the white-robed old man in the middle. He's the Dean, Ling Yuanqing!" The Man in the Yellow Hat said with certainty.

Lin Yi looked at the old man without saying anything. The old man was one of the three people he was paying attention to, the one who was above the xuansheng stage.

"Tsk, he does look like one, but he could also be the vice-principal or something. I heard that the vice-principal of a Morning Star yellow rank practitioner school is a monster with incredible strength, not much weaker than the principal himself ..." The others still didn't believe it.

"You guys know nothing! There's no doubt that the one in the middle is principal Ling Yuanqing. As for the vice principal you mentioned, do you see the two people sitting beside him? that's the vice principal!" The Man in the Yellow Hat said in disdain.

The two deputy deans he was referring to were the other two super experts who were above the xuansheng stage, except for the old man in the middle.

Lin Yi nodded. It seemed like The Man in the Yellow Hat was right. Even if it was the legendary East continent's Morning Star yellow Class practitioner school, it'd be too shocking if they couldn't even get the Vice Dean position at this level of strength.

"Good, good, good. You're quite knowledgeable. Speaking of which, even principal Ling Yuanqing and the two Vice Principals are elusive figures. How do you know so much about them?"

"That's right. You haven't been to the East Province. How did you recognize these Masters?"

"That's right. It's fine if you can recognize the two Vice Principals. It's not surprising that they've appeared during the recruitment. However, this principal Ling Yuanqing you're talking about, he has never appeared before, right? Could it be that you've seen it before?"

The people around him asked curiously. It was not their first time participating in the East Province Academy's selection. They had heard of legendary figures like Dean Ling Yuanqing, but they had never seen one before. It was impossible for them to be as certain as The Man in the Yellow Hat.

"Hehe, you guys don't understand. Of course, I've never seen such a Big Shot before. But have you guys forgotten? I have a cousin who is an expert in Jianghu news. I was fortunate enough to see the portraits

of some Super Masters in the East continent during the beginning of their cultivation. One of them was Dean Ling Yuanqing!" The Man in the Yellow Hat complimented the crowd.

"Oh, you're talking about that distant cousin of yours who claims to be all-knowing in the pugilistic world. No wonder, no wonder. It's not strange that he knows about these big shots." When everyone heard this, they finally came to a realization. It seemed that this inquisitive cousin was also an extremely famous figure.

"Now you should believe me! "Speaking of which, the Academy's selection is such a sensational event. There's no reason for my cousin not to come and join in the fun. Why haven't I seen him this time ..." The Man in the Yellow Hat continued to be proud, but he was also a little puzzled.

Chapter 4303 A Familiar Person

"Although your cousin's strength isn't that great, he's also a mysterious master. It's normal that you can't find him in a short time. Tell us about an expert in the mountain opening stage. This is the first time I've heard of this realm. It should be above the xuansheng stage, right?" Someone next to him egged him on.

"That's right. The mountain split stage is right above the xuansheng stage. Look at the stage. Principal Ling Yuanqing and the two Vice Principals beside him are all mountain split stage experts!" The Man in the Yellow Hat nodded.

"The legendary Masters of the mountain opening stage are all existences who can open a mountain with a casual palm. Is this true?" Someone else asked.

"What's so strange about splitting open a mountain with one palm? if there's no protective array, even a golden core stage cultivator like me can split open a mountain with a full-force attack ..." Someone on the side immediately said disapprovingly.

"Tsk, what do you guys know? the mountain I'm talking about isn't a small hill like you think, but a towering mountain that easily stretches for tens of miles. Why don't you open up one for me to see?" The man said in disdain.

"Uh, I can't do that. A majestic mountain that stretches for tens of miles must have an extraordinary Foundation. People like us can't even move a hair of it. If we can split a mountain with a palm, then our strength is too exaggerated, right?" The few of them could not help but look at each other.

"Don't doubt him, he's right. The so-called Master of the Mountain opening stage is a heaven-defying existence who can open a mountain with one palm. However, we don't usually see Masters of this level. Except for the East continent, they are rare even on the four big islands of the Sky Class. I heard from my cousin that there are only a few in our South continent, including the spirit beast clan. " The Man in the Yellow Hat tried to show off his knowledge.

"If that's the case, then if we're selected to become a disciple of their golden class Morning Star Academy, it'll be a great future!" The crowd at the side immediately rubbed their fists and wiped their palms as they said excitedly.

Even though they didn't know much about the so-called Academies in the East continent, a golden class Morning Star Academy shouldn't be too bad since Ling Yuanqing and the other two were in their initial stages. If they could get their approval, their future would be immeasurable.

"Hehe, this is called a fool's dream. You're thinking too much, understand? Open your eyes wide and look carefully, how many people have already come here? I bet that this place is absolutely filled with geniuses, and jiedan stage cultivators are worse than dogs. We are just ordinary jiedan stage Masters, but they won't even look at us, and we still want to be selected by them, what kind of beautiful dream are we having?" Someone beside him laughed coldly and self-deprecatingly.

"You guys don't understand. When people come here to recruit people, they don't value strength but potential. What they value is your aptitude. As long as your aptitude is outstanding, anything is possible." The Man in the Yellow Hat shook his head and refuted.

"Right, right. Since I'm already here, there's no harm in trying. Maybe I'll be lucky. Maybe I'm more talented than others, but no one has discovered it before." Everyone immediately laughed and echoed.

Lin Yi and Huang xiaotao sat behind the crowd and listened to their discussions. They finally knew that the realm above the xuansheng stage was called the mountain split stage. Ling Yuanqing and the other two were all mountain split stage Masters.

From a few hundred meters away, Lin Yi observed Ling Yuanqing and the other two carefully. He realized that although the three of them were all in the initial stage, there was a clear difference in strength.

Ling Yuanqing, who was sitting in the middle of the three, had a stronger aura than the other two. He was probably the strongest of the three.

The vice-principal sitting on his left was a woman who looked to be in her forties. Of course, to be able to reach such a high realm as the mountain split stage, her real age must be much older than this, but as for how old she was exactly, no one knew.

However, there were only two possibilities for a forty-year-old's face. Either this woman intentionally didn't control her face, or she just broke through to Sky Class!

However, after thinking about it carefully, which woman in the world did not like beauty? Lin Yi had seen many practitioners who didn't control their appearances, but not a single female practitioner!

It was the nature of all women to love beauty. Unless they were disfigured or had suffered some kind of trauma that left a psychological shadow, no woman would be willing to look old. And the woman in the stands did not have any trauma such as disfigurement.

Lin Yi was 80% sure that the woman on stage was controlling her appearance-why else wouldn't she turn into an old woman?

But then, there was only the second possibility left, and that was that this woman only advanced to the heaven rank when she was around 40 years old!

In the common world, her talent was decent, but on the Sky Class Island, she wasn't even considered average, let alone a genius. Her talent was low, but how could a woman with this talent reach such an exaggerated height?

For a cultivator with low aptitude, reaching the foundation establishment stage was already the limit. Even the Golden core stage was an extravagant hope, not to mention the mountain opening stage, which was several levels above the Golden core stage.

It couldn't be that this woman's aptitude was very poor in the early stages, but her aptitude became better and better as she opened her apertures, right?

This didn't make sense at all, and it didn't make any sense either. Lin Yi was surprised, but he wouldn't get the answer unless he asked the woman herself.

Other than this lady, the vice principal who was sitting on Ling Yuanqing's right had a completely different aura. He was a man with a fierce and overbearing appearance.

He was dressed in black and had shiny slicked-back hair. At first glance, he looked like a mountain Bandit, but at second glance, he looked like a village bully. In short, he didn't look like a good person. Most importantly, he wasn't a high-class evil person. If one didn't look at his current aura, he simply looked like a bandit leader who couldn't be put on stage.

However, this big brother with such a dignified appearance was the legendary super expert of the mountain opening stage. He had to comment that one really couldn't judge a book by its cover. The ancients were true.

After carefully observing the three, Lin Yi's eyes finally fell back on the woman. What made him feel strange was that the woman's aura felt familiar, as if he'd seen her before, but he couldn't remember where.

#### Chapter 4304 Blood Surging

Other than that, there was one more thing that surprised Lin Yi-the seat to the left of the girl was empty. He didn't know if it was reserved for someone special, or if someone else didn't have the right to sit next to her.

If it was the latter, he must be an extraordinary existence to be able to sit with this super expert of the mountain opening stage. Perhaps another mountain opening stage expert would emerge.

"You're all experts indeed. You've gained a lot of knowledge from this trip. " Lin Yi suddenly smiled. It was unexpected, but the gathering of Super Masters made his blood boil.

"Yes, that's right," Huang Xiao Tao nodded her head. With her previous level of life, not to mention a xuansheng stage expert, other than the elders of the three pavilions, even a Yuanying stage expert was hard to come by, let alone a mountain opening stage expert that was above the xuansheng stage. Before this, she had never imagined that the world would be so big, and that the Sky Class Island would be so vast.

As the saying goes, the bigger a person's heart was, the bigger the stage was. However, the premise of all this was his knowledge and vision.

If one was a frog at the bottom of a well and never knew the strength of the world's greatest experts, then no matter how high one's talent was, how great one's potential was, or how hard one cultivated, one would never be able to stand at the peak of the strong. If one did not even know where the peak was, how could one reach the peak?

Just from this point alone, the experience gained by the director in zhenduan city was no less important to the two than the bountiful harvest in Lufeng forest. At least, it was the first time they saw what it meant to be a Super Master standing at the top of Sky Class Island.

Just as Lin Yi and Huang Xiao Tao were getting excited, the Dean, Ling Yuanqing, cleared his throat and spoke.

"Alright, it's time for registration. Seal off the square and restrict entry and exit." Ling Yuanqing didn't use any sound amplification techniques. He spoke as if he was speaking normally, but his voice came from all directions and was clearly heard by the tens of thousands of cultivators.

As soon as Ling Yuanqing's voice fell, a group of experts in silver robes quickly spread out in all directions and surrounded the entire Zhen Duan square. A murderous and majestic aura instantly enveloped the entire square, making no one dare to act rashly.

Everyone was careful not to make any noise, afraid of bringing trouble to themselves. However, looking at the group of Masters guarding the area, everyone couldn't help but be surprised. Even Lin Yi's eyes twitched.

This group of guards were actually all Yuanying stage experts!

Looking at the sky Class Island, the Foundation Stage was the starting point, and the Golden core stage was the highest level. As for the nascent Soul Stage, even the weakest nascent Soul Stage, they were not common. No matter where they went, they were a master, and could at least become an elder of a force.

A master at the level of Yuanying stage, who was worshipped by others, was actually used as a guard? Whether they were willing or not aside, there was no precedent for something like this. Lin Yi had been on Sky Class Island for so long and had been to the middle Island, but he'd never seen anything like this.

There were more than a hundred Yuanying stage Masters guarding all directions of the square. Such a shocking scene really shocked everyone.

In addition to the xuansheng stage experts on the stage, especially the three mountain opening stage experts led by Ling Yuanqing, there was no other advertisement in the world that could attract more attention than this.

As expected from the mysterious East continent, the foundation of this golden class Morning Star School was no small matter. No wonder it was so fascinating.

In an instant, the entire Zhen Duan square fell silent. Everyone looked at Ling Yuanqing expectantly, waiting for him to continue.

"Cultivators of the South continent, since you've gathered here, you should know what we're going to do next." Ling Yuanqing smiled. His accent had a hint of local softness to it, but when it reached everyone's ears, it made them feel a sense of familiarity. However, it did not lose its dignity and dignity. It made people unconsciously attracted to it and not have any other thoughts.

The crowd nodded subconsciously. In just a short while, the entire scene was under Ling Yuanqing's control.

Lin Yi couldn't help but be shocked at this scene. The tens of thousands of people here weren't ordinary people. More than 70% of them were golden core Masters, and there were quite a few nascent soul masters.

These people were all unruly Masters outside. Even if there were only ten or twenty of them, it would not be an easy task to make them quiet and listen to orders, let alone tens of thousands of people.

However, with just a few words, this principal Ling Yuanqing was able to make everyone listen to him obediently. Although this was partly due to his strength, it also proved that his methods were unfathomable. He was indeed an unfathomable expert at the beginning of his cultivation.

"In order to not waste everyone's time, I won't say anything unnecessary. Today, the purpose of our East continent's Morning Star yellow rank Academy is to select disciples, and the selected disciples will enter the Morning Star Academy to continue their cultivation. I think you've all seen how many nascent Soul Stage Masters there are in the East continent. It's not an exaggeration to say that there are as many as the hair on an ox. Just look around you and you'll know." Ling Yuan smiled and paused for a moment before continuing, ""So, as long as you are able to enter the academy, if you have enough talent and are not lacking in opportunities, it is not impossible for you to become an expert in the mountain opening stage like me in the future."

His words made everyone's blood boil, and their breathing quickened as their eyes lit up.

Since they had already stepped onto the path of cultivation, then naturally everyone would want to go one step further. No one would say that they were already satisfied with their current golden core stage and did not want to advance any further.

The distant mountain split stage, they might not dare to imagine it for the time being, but the Yuanying stage, and even the xuansheng stage, which was above the Yuanying stage, were all in the vicinity. Looking at the experts from the surrounding Academies, living precedents were placed in front of them. This meant that as long as they could pass the selection and enter the academy, all of these seemed to be within reach. Who didn't yearn for it?

It wasn't just the crowd-even the usually calm Lin Yi was starting to get emotional.

Chapter 4305 The Selection Rules

Lin Yi took a deep breath to calm himself down. The temptation was too strong, and even he was a little excited. Huang xiaotao, who was sitting beside him, was also panting. She was obviously tempted.

Ling Yuanqing paused for a moment to allow everyone to slowly digest the shock in their hearts. He only continued after everyone's breathing had calmed down.

"Okay, now let's invite our Vice Dean Wei He bei to explain the selection rules." After Ling Yuanqing finished speaking, he nodded at the fierce-looking man sitting on his right. This must be the Wei He bei he had mentioned.

"Cultivators, in our East continent's Morning Star yellow rank Academy, we only look at talent and nothing else. Those with good talent can enter, and those with bad talent, no matter how strong your background or connections are, it's useless. Those who walk the side path will never achieve great things. You can monitor each other. If anyone tries to get lucky and secretly play tricks, I'll be the first to kill him!" Wei Hebei stood up and said to everyone.

He also didn't need any sound amplification magical equipment when he spoke. Ling Yuanqing's voice could attract people's attention, but Wei Hebei's voice was exactly the same as his appearance. At first glance, it sounded extremely vicious, as if he would really kill someone if they didn't agree. Coupled with his terrifying strength in the early stage of the mountain opening stage, it really frightened everyone.

Everyone did not dare to breathe too loudly. They did not even dare to turn their heads. They were afraid that the person on the stage would misunderstand that they were using unorthodox methods. They just sat there and listened to Wei Hebei's words.

"As for the selection rules, it's not as complicated as you think. There are three very simple conditions." Wei He bei looked down at the crowd and said, "first, your strength must be at least at the Golden core stage. This is the most basic threshold. I'm sure everyone has already known this." "Second, those with a single spiritual root will be directly eliminated. You must at least have two spiritual roots or more, because this directly determines the upper limit of your strength. As for why, those who understand will naturally understand, and those who don't, I won't explain it to you. Find someone to ask, I don't have time to explain so much to you."

When the crowd heard this, they couldn't help but look at each other. A few people showed an understanding expression, but most of them were confused. Lin Yi and Huang Xiao Tao were the same. They didn't understand why the spiritual root directly determined the upper limit of strength.

According to Lin Yi's knowledge, the element of the spirit root really did determine one's talent, especially when it was directly related to the practitioner's Arts one could learn. For example, people with the fire element could only practice fire-type practitioner's Arts, but he'd never heard of it directly determining the upper limit of one's strength.

Practitioners with multiple spiritual roots did have an advantage in terms of their arts and techniques-it could affect their strength to a large extent, but Lin Yi never thought that this directly determined the upper limit of their strength.

As long as they had enough opportunities, cultivators with multiple spiritual roots attributes could one day become Masters of the mountain opening stage. Could it be that cultivators with only one spiritual root attribute couldn't?

With this question in mind, Lin Yi wanted to ask the ghostly thing, but he thought about it-the ghostly thing was a spirit beast, after all, even if it was one of the top existences on the Sky Class Island. Whether it was the way it trained or the way it trained, it was completely different from human practitioners. They were two different things, and he might not know about this.

Just as Lin Yi was wondering, Wei Hebei, as he had said, was too lazy to explain to everyone and continued with the rules.

"Only those who meet the above two conditions can participate in the third Test. That is to use your most powerful martial skill to attack the mini test array in front of me. Of course, if anyone is not good at attack but defense or something else, you can also suggest it. This test array can test you, but the

method is different." Wei hebeichao paused and waved his hand, ""Alright, that's all for the selection rules. From now on, our Academy's staff will be distributing test tokens to everyone. Everyone, according to your tokens, come over and take the test in order!"

After saying that, Wei He bei returned to his seat. At the same time, a staff member wearing a Morning Star Academy robe handed out test cards to everyone.

As the crowd stared at the staff, they couldn't help but discuss among themselves. The East continent's Morning Star yellow rank Academy was recruiting disciples, and the Dean, Ling Yuanqing, had personally come out. With such a Grand lineup and such a great momentum, they had thought that the selection process would be very complicated and harsh. They didn't expect it to be so simple.

In everyone's expectation, no matter how bad the selection was, they would have to fight each other to determine the strength of the participants. However, they did not expect that there were only three conditions. They did not even need to fight. At most, they only had to attack the assessment array.

However, Lin Yi wasn't too surprised by this. There were close to ten thousand people participating in the selection. How much time and effort would it take to arrange the battles one by one and decide how many of them would be selected?

It was difficult to directly measure a person's qualifications if they only looked at the battles. If they did not meet the most basic selection requirements, even if each person only arranged one battle, the time and energy needed to be estimated. Even if they arranged 200 battles a day, it would take at least a month!

Besides, Lin Yi had already heard that the eastern continent's Morning Star yellow Division Academy wasn't just going to end their disciple selection like this. The zhenduan Sea area was only their first stop,

which meant that they had at least a second and third stop. Anyone would be devastated if they did this every time.

There was only one way to conduct the selection quickly and effectively. Like Wei He bei had said, there would be two hard requirements. After a small number of people were selected, they would be given a chance to perform. If their performance could catch the eyes of the college bosses, then it would be a cause for celebration. If their performance was not up to expectations, then there was nothing they could do.

"This selection method is quite convenient. However, isn't it a little too simple? maybe we'll miss out on a genius." Huang xiaotao asked in surprise. Many other people present also had the same doubts as her.

Chapter 4306 Assessment Clearance Manual

After all, the announced selection criteria were indeed a little too simple and arbitrary. The attribute of a spiritual root could determine many things, but it could not determine everything. Some geniuses with a single spiritual root attribute could also be very heaven-defying in the end.

Moreover, even if one met the first two selection conditions, the final selection would still depend on the third round. There was only one chance to perform, and if one did not perform well, everything would be in vain.

"That's inevitable. No selection method can be truly perfect. It's inevitable that a Pearl will be lost in the sea. But only this method can balance efficiency and results." Lin Yi smiled faintly.

"But if they were to lose their talents, wouldn't that be contrary to their own intentions? what a pity ..." Huang xiaotao still couldn't understand. In her mind, since they had sent out such a large force, they must have tried their best to recruit all the geniuses. If they missed it, wouldn't they regret it?

"Hehe, actually, that's not entirely true. Their Academy's quota for recruitment is definitely very limited. For example, there are a hundred geniuses present, but they only need sixty of them at most. As for the remaining forty, it can only be said that they were not fated to have this opportunity." Lin Yi smiled and explained even more directly, "Simply put, their Morning Star Academy has a reputation, and they're not afraid of not being able to recruit genius disciples. Since they can recruit geniuses, why would they regret missing out on a genius?"

"Oh, I see." Only then did Huang xiaotao understand that she was just an ordinary person. Geniuses were rare in the eyes of ordinary people, but to these people from the Morning Star Academy, they were probably used to it.

"Alright, the selection will now begin. Cultivators who have obtained test card number one can come over." Principal Ling Yuanqing announced in a clear voice. At the same time, on the empty space in front of the high platform, the group of experts in charge of the examination had already taken their positions. If they could successfully pass the first two thresholds, they would be able to reach the mini-assessment array and proceed with the final round of the test.

Among the crowd, a cultivator stood up and walked forward with the number one test plate in his hand. Although he looked energetic on the surface, his steps were stiff. He was obviously a little too nervous under the watchful eyes of the crowd.

The rest of the people who hadn't had their turn yet sat on the ground and watched. At the same time, they were discussing animatedly. Some were excited, some were nervous, some were eager to try, and some were on tenterhooks. All kinds of people had different expressions.

Lin Yi and Huang xiaotao were sitting in the crowd. They were as excited as many others. After all, the East Province was full of Masters. If they could pass the selection and enter the Morning Star Academy, their future would be bright.

With their talents, not only could they reach the original infant stage, but they could even reach the xuansheng stage, which was one level above them. Anyone would be moved by such a thing.

Lin Yi's heart was filled with excitement, and Huang xiaotao, who was beside him, was also holding his hand. She couldn't help but tremble slightly, showing that she was also excited.

"Xiao Tao, do you want to go to the East Province?" Lin Yi suddenly asked.

"I ..." Huang xiaotao was about to nod subconsciously, but she still thought about it and said, ""I want to be with you. I'll go wherever you go."

"Hehe, What if I don't go to the East Province?" Lin Yi couldn't help but smile.

"Then ... I won't go either." Huang xiaotao paused and looked at Lin Yi seriously.

"Xiao Tao, you have to think this through. I'm not joking. I really don't plan on going to the East Province. I want to go back to the North Island." Lin Yi stopped joking and turned serious.

It was true-after seeing the Masters in the morning Star Academy, Lin Yi, like everyone else, was a little moved, but he wasn't the kind of person who'd throw everything away when he was impulsive. He was moved, but he would calm down very quickly.

The East Province was great, but Lin Yi couldn't just leave the North Island for now. He wasn't here to participate in the Eastern Province Academy's selection, after all. The dock was locked down, and he couldn't leave just yet.

Lin Yi still had a lot of things he wanted to do on the North Island-it'd be unrealistic to just leave like that. He'd only come here to broaden his horizons and join in on the fun.

"If you're going back to the North Island, then I'll go back too." Huang xiaotao didn't hesitate at all and said with a determined look. She wasn't like Lin Yi, who didn't have that many concerns on the North Island, but the one she cared about the most was Lin Yi. There was only one belief in her heart, and that was to be with Lin Yi no matter what.

"Alright," he said. Lin Yi nodded. He was touched, but he didn't feel any regret. Whether it was Huang xiaotao or himself, with all his trump cards and golden fingers, even if he didn't go to the East continent's Morning Star yellow Class academy, he could still make a name for himself. He had absolute confidence in this!

While the two were talking, a person suddenly crouched down and walked through the crowd, peddling as he walked.

"It's the secret manual to pass the assessment! One hundred spiritual Jade per set, buy it quickly if you need it! "Character guarantees honest management. It can definitely increase your chances of clearing the instance. Don't miss it!" "You don't have to ask for the price, you don't have to bargain, and you're not afraid of being ripped off. You won't lose out on a hundred spiritual jades, and you won't be fooled by a hundred spiritual jades either. It's really worth it ..." This person's voice was neither loud nor soft, and under the cover of the crowd's discussion, it was just enough to be heard by the surrounding people, but it wouldn't attract the attention of the guards outside.

Lin Yi almost spat out the air when he heard the familiar name-what kind of a common street vendor was this?!

The man wasn't dressed like a merchant-he was wearing a long coat and had a white fan in his hand. He looked more like a storyteller, and the Jianghu aura he exuded made Lin Yi feel like he'd seen him before. It felt like he was someone he knew, but he couldn't put his finger on it.

At this moment, this person was selling his so-called secret manual for passing the assessment. After all, the price of one hundred spiritual jades was not expensive. Most of the people present were Masters above the Golden core stage. No matter how tight their money was, they would not be short of this amount of spiritual jades. Moreover, they were all excited and dreamed of entering the East continent's Morning Star yellow rank Academy. Therefore, even though they knew that this person was exaggerating, many people still took the bait.

Chapter 4307 Lost Brother

It was only a hundred spiritual jades at most. Even if he bought it and realized that it was useless, it would not be a big loss. However, what if this so-called secret manual for passing the assessment could really help him? wouldn't that be a big profit?

It was better to believe it than not. With the crucial selection before them, there were many people who had such an attitude. Therefore, this person's business was quite good. Although a hundred spiritual jade pieces for one was not a lot, with so many people present, even if only thirty percent of them bought it, it would be a total of three hundred thousand spiritual jade pieces. This was already an extremely ridiculous and astronomical figure!

"The secret manual to pass the test? Could this thing really increase the success rate of clearing the game?" Lin Yi couldn't help but wonder. The main reason he was suspicious was because of the people who bought the test's manual-they were all looking at it with great interest, as if it really was the case.

These were all jiedan stage experts, they weren't so easily fooled. If it was just something casually written on it, it was estimated that the flaws would have been seen long ago and someone would have made a fuss.

This meant that the so-called secret manual for passing the assessment was worth the price of a hundred spiritual jades.

"Hey, you make it sound so mysterious. Is this secret manual real or fake?" The Man in the Yellow Hat asked before Lin Yi could even ask.

"Ha? You're actually suspecting that I'm lying? Who doesn't know my nickname, ge wei? ask around, southern continent GE! My shop has been around for decades, and what I'm talking about is credibility. Ask them if they've ever bought anything that's not worth a hundred spirit Jade?" The man replied without turning his head as he continued to sell.

Ge wei? Lin Yi blinked and reacted. No wonder this guy's aura felt so familiar-he was in the same line of work as GE Xian from the secular world!

Furthermore, they both had the surname GE. Could it be that there was some blood relationship between the two of them? could they be long-lost brothers?

Just as Lin Yi was feeling surprised, ge wei had already walked over, his expression unfriendly as he pounced on The Man in the Yellow Hat.

Lin Yi and the people around him were stunned. What was going on? The Man in the Yellow Hat only asked a question, was there a need to kill him?

"Hehe, cousin, cousin, I was just joking with you. Spare this little brother's life, spare this little brother's life!" The Man in the Yellow Hat quickly begged for mercy with a smile.

The surrounding people suddenly realized that this person was the cousin he had shown off before. It turned out that the two cousins were just playing around.

"No, I won't let you off today. Carry this bag. It's heavy enough with so many spiritual jades. You'll be good for my hard work!" Ge wei rolled his eyes at him and threw a large bag in front of him. It was filled with the spiritual Jade that he had just received.

"That won't do. I still have to participate in the selection!" The Man in the Yellow Hat immediately stomped his feet and said.

"You'd better drop it as soon as possible. People like you won't even be interested in you. You'll be wasting your efforts. You might as well be my follower and have a better future." Ge wei pursed his lips disapprovingly. Seeing that The Man in the Yellow Hat still wanted to refute, he said, ""Are you stupid? if you really want to participate in the selection, you can just go up when it's your turn later. Anyway, this selection doesn't require much effort, and it won't affect anything, right?"

"Then ... Okay ..." The Man in the Yellow Hat thought that it made sense, so he had to agree.

"Give me a secret manual to pass the test." Lin Yi said suddenly.

He just said that he wasn't going to participate in the selection, so why did he want to buy the secret manual for the assessment? Huang Xiaotao glanced at Lin Yi curiously but didn't say anything. Lin Yi had his reasons for doing things.

It was just as he said-Lin Yi didn't want to join the selection, but he didn't mind spending some spirit Jade to buy a copy. Who knew, there might be some information that would light up his eyes.

"Alright!" "Yes!" Ge Wei hurriedly squeezed his way over. His cousin could only helplessly follow behind and carry the bag.

Lin Yi took out a bag of spiritual jades from his backpack and gave it to Ge Wei, who was squeezing his way over, after weighing it in his hand.

Ge Wei took a look, and his eyes immediately lit up.

"Young hero, these are all high-quality spiritual jades. Not only are they rich in spiritual energy, but they are also larger than ordinary spiritual jades. Seventy pieces like yours will be enough." Ge Wei complimented and was about to return the thirty Kuai to Lin Yi.

Don't look at it as selling Jianghu gossip, it was really an honest business! Lin Yi nodded. It seemed that Ge Wei had his reasons for making a name for himself in the South continent.

"Hehe, there's no need. Let's do this." Lin Yi stopped him with a faint smile. After all, he owned the heavenly elixir Pavilion and made tens of thousands of spiritual jades a day. He didn't need these spiritual jades at all. It would be troublesome for him to go back and forth for thirty pieces of spiritual Jade.

Moreover, these spiritual jades were also an unexpected fortune. Even the backpack he carried was something he had taken from Chu bubai when he was in Lufeng forest. It contained a lot of spiritual jades.

"Oh, thank you for your patronage, young hero." Ge wei didn't hold back-he nodded at Lin Yi and continued to pass through the crowd.

Lin Yi and Huang xiaotao took the booklet from ge wei and flipped through it carefully. With just one glance, Lin Yi knew that he didn't make a loss by buying the booklet for 100 spiritual Jade.

Of course, it would be an exaggeration to say that it was the so-called assessment pass secret manual. This was just a marketing gimmick that everyone knew.

However, the information recorded in it was indeed very rare for Lin Yi and Huang xiaotao, who were new to the world.

This booklet didn't just have an introduction to the Morning Star Academy, it also included a lot of general practice knowledge. Of course, this knowledge was unheard of for people who weren't at the right level, and it answered Lin Yi's questions.

The East continent's Morning Star cultivator Academy was located in the East continent's high sea region. Even in the entire East continent, it was an extremely famous golden class academy and could be said to be among the best. The cultivators who could cultivate here were all geniuses in the outside world, without exception.

Although the morning stars Academy had always placed great importance on one's aptitude when selecting their disciples, there was a prerequisite. No matter how heaven-defying one's aptitude was, one had to be at least at the Golden core stage in order to enter the morning stars Academy. Otherwise, going up there would only be embarrassing themselves.

#### Chapter 4308 Attributes And Achievements

No matter how amazing a genius was, if they couldn't even reach the Golden core stage, they would only be of little value to the morning stars Academy, which was full of geniuses.

To put it bluntly, this kind of person was only talented. Either he was too young, or he lacked luck. No matter which one it was, it was a regret in the eyes of the big shots of the Morning Star Academy. Even if this kind of genius was recruited, it would take a lot of resources to cultivate him, and it was very likely that he would die halfway, losing both his life and his fortune.

This wasn't purely out of concern, but rather a real precedent. The morning stars Academy had once made an exception to recruit a number of extremely talented disciples, but their strength had not yet reached the threshold of the Golden core stage. They had paid a great price and spent a lot of money on these people, but in less than half a year, these talented disciples had all died without any exception.

At the end of the day, although the morning stars Academy sounded like an Academy and seemed peaceful, it couldn't escape the old saying: where there were people, there would be Jianghu, and where there were Jianghu, there would be rules. And this basic rule was that noobs below the Golden core stage were exempted.

Since then, no one had done such a thing. Even if they were recruited, it would only be harming others and themselves, so why would they ask for trouble?

Reaching the Golden core stage was the most basic threshold for the selection, just like how minors under the age of eighteen were exempted from entry in the secular world. As for the second selection condition, one had to have at least two spiritual roots attributes. This was directly related to one's cultivation aptitude.

From the beginning, Lin Yi and Huang xiaotao weren't surprised at all, but the next sentence stunned them.

Only those with more than two elements had a small chance of entering the Morning Star Academy. As for single element trash, they should not go and embarrass themselves. No matter how hard they studied and trained, cultivators with a single element spiritual root would at most stop at the nascent Soul Stage. It was extremely difficult to advance to the next level, and it was simply unrealistic.

"A cultivator with a single element spiritual root can only reach the original infant stage at most?" The two couldn't help but look at each other. To a certain extent, this could explain Wei Hebei's "if you understand, you naturally understand." However, whether it was Lin Yi or Huang xiaotao, they had never heard such an argument before.

The attribute of the spiritual root only determined the cultivation direction of the heart cultivation method and martial arts technique. Even if it was a single attribute of the spiritual root, it was not necessarily impossible to surpass the original infant stage, right? The following words in the booklet answered the doubts in their hearts.

Looking at the many cultivation realms, there was no need to mention those below the Foundation Stage. Even for the three great realms of the Foundation Stage, the Jindan stage, and the Yuanying stage, although the difficulty of breaking through each realm was more difficult than the last, to a certain extent, there was still a certain success rate. The reason was that these three realms could be supplemented by natural treasures to break through.

For example, the foundation establishment golden core, the Golden core golden core, and the nascent soul golden core could all play a crucial auxiliary effect during the breakthrough. It had become a deep-rooted concept for most cultivators that if one's strength was not enough, one had to make up for it with the Golden core.

In fact, many people placed the pursuit of heavenly treasures as their top priority and placed closed-door cultivation as secondary. This kind of reversal of order just explained the powerful effects of heavenly treasures when one broke through.

However, after the nascent Soul Stage, everything would be different when they reached the xuansheng stage and the mountain split stage, which were truly unfathomable and even unknown to the world.

It wasn't that all the treasures would lose their effects, nor that there were no corresponding elixirs, but that the auxiliary elixir for Yuanying stage cultivators to break through to the xuansheng stage was very rare!

It was one thing that the ingredients were rare, but the most important thing was that this pill was a Supreme seventh level pill-even a golden class seventh level refiner couldn't make it, only a legendary Mystic class refiner could! Mystic alchemists were legendary existences, and even if they did, they couldn't easily make the xuansheng golden pill for people.

Therefore, breaking through to the xuansheng stage basically depended on one's own strength. No matter how big and rich the morning stars Academy was, it was impossible for them to find someone to refine the xuansheng golden pill for these nascent Soul Stage disciples, so they were excluded.

At that stage, if one wanted to advance to the next level, they could only rely on their own strength and Foundation to achieve a natural breakthrough. So far, there was only one way to achieve a natural

breakthrough without the use of medicinal pills, and that was to cultivate mental cultivation methods of two attributes, and at the same time, circulate and merge them together, and finally break through.

Apart from this, there was no other way to break through. Therefore, having two spiritual roots attributes was the most basic requirement to reach the xuansheng stage and the mountain opening stage. As for three or four spiritual roots attributes, it was easier to break through. In other words, one's aptitude was better!

This was what Wei He bei had said before. Whether one had two or more spiritual roots would directly determine the upper limit of one's strength. This was something that no one could change. The limit of a single spiritual root was the original infant stage. Unless one could find someone to refine pills, it would be useless no matter how good the natural treasures were.

"I have to simultaneously practice mental cultivation methods of two attributes, and only after they merge can I break through?" The analysis in the booklet completely shattered Lin Yi's understanding of the world.

Ever since he had ascended to the heavenly Dao realm, the world had been instilling in him the notion that a cultivator could only cultivate one heart technique. Although there was a chance to change it once after ascending to the heavenly Dao realm, it was a simple change, not the simultaneous cultivation of two heart techniques as mentioned in the manual.

More importantly, it also clearly stated that what needed to be cultivated was not just two mental cultivation methods, but two mental cultivation methods of different attributes. This was the key to breaking through.

Lin Yi couldn't help but wonder if training in two different elements at the same time really wouldn't cause Qi deviation.

However, on second thought, he had not even heard of the mountain-opening stage before. At that level, it was normal to not know many things. Just like when he was in the secular world, who knew what it was like above the heavenly path, and who knew how to cultivate?

Levels determined one's knowledge and experience-he'd gotten used to the things he'd found unbelievable back in the common world. Similarly, Lin Yi wouldn't be so surprised if he'd really reached that level.

"So that means I can only reach the original infant stage at most?" When Huang xiaotao saw this, she could not help but feel a little disappointed. Although she was not as competitive as male cultivators, as a cultivator who had always been diligent in her cultivation, she could not help but feel that it was a pity.

#### Chapter 4309 Attribute Of Mutated Spiritual Roots

However, Huang xiaotao was just lamenting for a while. She didn't have any obsession with it. In fact, before she met Lin Yi, she didn't even dare to hope for the Golden core stage, let alone the distant xuansheng stage.

She was already very satisfied with her current strength. If she could be promoted to the original infant stage, it would be far beyond her expectations. There was nothing to regret. In the end, Huang xiaotao had never been so ambitious.

"What's wrong? Xiao Tao, have you tested your spiritual root attribute before? It's tested to have a single spiritual root attribute?" Lin Yi asked.

"No, I didn't. I'm from the cultivator tribe. The cultivation environment isn't very good, and I don't have any decent conditions or resources. In the beginning, people gave me a mental cultivation method and a

martial technique without any guidance. Then, I started cultivating without testing my spiritual root attribute. After entering the three pavilions, I continued to cultivate advanced mental cultivation methods and didn't take any tests in this area." Huang xiaotao shook her head.

"Ugh, Xiao Tao, you're really lucky. You're just randomly training like this, and if your practitioner's Arts doesn't go the right way, it's very easy for you to go crazy and cause a big problem ..." Lin Yi couldn't help but sweat.

If Huang xiaotao hadn't said so, he wouldn't have known the conditions of the cultivator's tribe on Sky Class Island. It turned out to be so difficult. He thought that since it was located on Sky Class Island, it must be much better than the secular world. Even if it couldn't be compared to the welcoming Pavilion, it shouldn't be too different.

What they didn't know was that although the practitioner's tribe was a part of the Sky Class Island, they were at the very bottom of the island. Their training conditions weren't much different from the common world 's-the only difference was that the training atmosphere was more intense and more common.

"There's nothing we can do about it. My family wasn't a famous family in the past, so we didn't have many conditions. Moreover, the mental cultivation methods that we were given to cultivate were generally more peaceful. Even if something happened, it would at most be an injury to our meridians that prevented us from cultivating. It's rare to see someone die ..." Huang xiaotao explained weakly.

"Alright, but even so, Xiao Tao, why did you say that you could only cultivate to the nascent Soul Stage at most? you don't even know if you have a single spiritual root attribute." Lin Yi asked curiously.

"Wasn't this what you told me? you said before that I have the fire attribute, so I can practice the wild fire Eight Trigrams palms with you, right?" Huang xiaotao retorted.

"Ugh ..." Lin Yi was speechless. So this was what Huang Xiaotao was relying on. He could only smile and shake his head, ""When I was transferring Zhen Qi to you, I only discovered that your Zhen Qi has the fire attribute. I didn't say that it was only one attribute. Maybe there are other attributes, but they haven't been discovered yet."

"Oh, I see." Huang Xiaotao nodded, her face slightly red.

"You see, even if it's really a single attribute spirit root, there's no need to be discouraged, because every cultivator's body may have hidden or false attributes. It's impossible to detect them with ordinary methods, and it's difficult to discover them by yourself. Only by using extremely professional testing methods can you detect them, and maybe there will be a surprise." Lin Yi said, following the script.

"Yes, yes." Although Huang Xiaotao did not have much ambition, when she heard these words, her eyes still unconsciously showed a bit of yearning.

"In fact, even if the test results show that there are no hidden or false attributes, there is still a way to remedy it. As long as you take a pill like the fiery yang pill, you can also artificially create false attributes in your body. Although the actual effect of false and hidden attributes can not be compared to the innate true attributes, you can still cultivate the corresponding heart cultivation method. As long as you practice hard, it is not impossible to finally succeed in breaking through to the mysterious Ascension stage." Lin Yi said as he looked at the booklet.

However, these words were specially annotated at the side. At the end, there was an additional bold sentence. Although the false attributes produced after birth could be cultivated, it would be extremely difficult to pass the Morning Star Academy's selection assessment. After all, the geniuses they recruited were not mediocre.

However, this was not an absolute thing, because in theory, any Jindan stage master with two or more spiritual roots attributes could enter the final selection. Although the starting line was already one step behind the others, if the final attack array stage, if the performance was outstanding, there was still a little possibility of being selected.

According to the booklet, if one could enter the final test, one should not have any thoughts of holding back, let alone hiding one's strength, because that was definitely the stupidest thing to do in the world!

Don't think that the last test was very simple and that one only had to attack the test formation once. However, it was precisely this seemingly simple test that was the most crucial part. One had to go all out and not hold back.

Because the previous two segments were only the basic selection, they would not receive the attention of any of the Academy's big shots on the stage. Only this third segment would be the only chance for the participants to receive attention.

The group of Academy bosses on the high platform would compare the strongest moves that the selected participants could use according to their current strength level. This would determine the cultivation potential of the person. The more outstanding the performance was, the greater the potential, and it would be easier to gain the favor of the Academy bosses.

If he were to hold back at this time, it would be the same as cutting himself off from the Morning Star Academy. In that case, he might as well get lost and go home. Why waste his energy?

In principle, whether a participant could enter the Morning Star Academy was directly determined by their performance in the third round. However, there was an exception. These people did not need to

participate in the third round of assessment and would be directly accepted by the Academy. They would also be treated as a genius disciple once they entered the Academy without any additional tests.

This special case was the attribute of mutated spiritual roots!

The so-called attribute of a mutated spiritual root referred to the attribute of a spiritual root outside of the traditional five elements. Only this could be noticed by the big shots of the Morning Star Academy.

However, there were very few people in the world who had mutated spiritual roots, and it was rare to see one in a million people.

Once this kind of person was discovered, no matter which Academy he went to, the treatment of a genius disciple was a matter that was set in stone. This was only the minimum condition. He could even directly enter the sect of the Academy's top Big Shot. It was not impossible for him to be under the command of the three mountain opening experts sitting on the high platform right now.

Chapter 4310 The Test Begins

This was because when cultivators with mutated spiritual roots grew up, all of them would be able to kill their peers in seconds. Even if they only had one attribute, the Academy would find a way to create a fake attribute for them. It was even possible to help them seek help from the Almighty to refine the xuansheng golden pill!

Up to this point, that was all the content written in the small booklet. Actually, strictly speaking, it was an explanation of the three selection rules. It was an exaggeration to say that it was a secret manual to pass the assessment, but it could also be considered as a substance. It would not make people feel that they had been cheated.

Especially for people like Lin Yi and Huang Xiaotao who didn't know anything, the things written on it were very useful. Compared to the price of a hundred spiritual Jade, it was worth it.

"Not bad. With this booklet, I can at least understand something even if I'm here to watch the show." Lin Yi chuckled at Huang Xiao Tao and turned to look at the front of the high platform. At this moment, the selection was going on in an orderly manner.

The Academy's specialized staff guarded the passageway. Every time a person passed the test, he would announce a number and have the next participant line up.

As long as one released a little bit of aura, the strength of the Golden core stage could be seen at a glance. In other words, the first condition actually did not need any test at all. After the number was called, one could directly go up and line up.

However, in the second round, more than 80% of the participants were directly eliminated. After all, the condition of having two spiritual roots attributes was already an extravagant hope for the vast majority of people. They could only blame themselves for not being favored by the heavens.

Lin Yi looked over and saw a man with pigtailed testing his spiritual roots.

The process was not complicated. One only needed to place one's hand on a pre-prepared testing stone tablet, activate the mantra and input a little true Qi into it, and the test result would be obtained on the spot.

The man in plaits walked up to the stone tablet and stood still. After hesitating and nervously rubbing his hands, he placed his palm on the stone tablet under the urging of the Academy staff and slowly channeled true energy into it.

A moment later, the stone tablet suddenly flashed with a red flame. It seemed to be mixed with some other colors, but it was quite dim and difficult to distinguish from such a distance.

"Fire-wood double spiritual roots, pass! Go and participate in the third Test!" The Academy staff immediately announced in a clear voice.

When the others heard this, they looked at the man in plaits with unconcealable envy. On average, only one or two out of ten people had the chance to enter the third round. This meant that they were one step closer to the Morning Star Academy. The others couldn't help but be envious.

"What? I have fire and wood double spiritual roots?" The man in plaits' first reaction was not to be happy. Instead, he was stunned. He muttered in disbelief, "Why do I remember that I have a fire-type single spiritual root?"

He didn't have much hope for this at first, because someone had tested his spiritual roots before. At that time, he only had fire spiritual roots, and there was no wood spiritual roots at all. He didn't expect that the old hen would turn into a duck, and he would suddenly have fire and wood double spiritual roots. This really made him dumbfounded. This was an unexpected surprise that he had never dreamed of!

Thinking about it carefully, this should be the result of different detection methods. Back then, he had only used the simplest attribute detection magic tool, but this was the most professional attribute detection stone tablet. The accuracy of the two was on completely different levels.

"The stone tablet test can't be wrong. Next." The Academy staff member did not explain to him, and directly turned to the next participant.

The man in plaits was stunned for a long while before he suddenly jumped up in excitement. He pointed to a corner of the crowd outside and said, ""Hoho, so I'm really a genius. I'm so awesome now. When I join the Morning Star Academy, I'll see who still dares to look down on me! Lu yaoyang, it's time to settle the score between us. I'll trample you flat later! Wahahaha!"

This feeling was like getting rich overnight. The man in plaits did not hide his pride and arrogance at all. He immediately laughed and ran to the third selection area.

At the same time, in the direction he was pointing, a middle-aged man in Black trembled with anger. He seemed to be in a state of panic. This man should be Lu yaoyang, the one the man in plaits had pointed out.

The crowd looked at him with sympathy. On the surface, Lu yaoyang's strength should be higher, but if the Braided Man was really selected by the morning stars Academy, their status would be as different as the sky and the earth. If there was a conflict, Lu yaoyang would not have the right to resist at all. He would be suddenly stepped on by his opponent. This man was really pitiful.

As he spoke, the Braided Man had already impatiently run to the third selection area. He began to activate his martial arts technique with all his might. He even used all his strength, not holding back at all, and attacked the assessment array in a frenzy.

BOOM! The pigtailed man's martial technique seemed to be very powerful, but when it hit the assessment array, there was only a loud boom. After that, there was no more movement.

"This ... Is this considered a pass?" The man in plaits looked at the examiner next to him in a daze. At the same time, he couldn't help but turn to look at the stage. He had inquired before that if one performed well, the higher-ups of the Academy on the stage would directly call out the person. In other words, if one could catch the eyes of any one of them, they would be able to enter the Morning Star Academy that they had dreamed of.

"Too weak. It's only in line with your current strength. There's nothing outstanding about it. Eliminated!" The examiner's cold voice suddenly came from beside him. As for the people on the high platform that the man in plaits was looking forward to, they did not even lift their eyelids from the beginning to the end.

In an instant, the Braided Man felt as if he had fallen into an ice cellar. His originally arrogant expression suddenly turned into a bitter gourd. At this moment, in the crowd, Lu yaoyang, who had just been pointed out by him, let out a long breath. He stood up with a cold smile and clenched his fist. His meaning was obvious.

When the surrounding crowd saw this scene, they could not help but laugh. The Braided Man was happy too early. He was asking for it. He deserved it!

Under the cold urging of the Academy's examiner, the plaits man looked as if he had lost his exam paper. He walked out in a daze, but before he could come back to his senses, Lu yaoyang, who walked up to him, grabbed his neck.

Due to the order of the scene, Lu yaoyang did not make a move immediately. Instead, he dragged the man in plaits to a corner. The man in plaits did not even have the strength to resist. As for what would happen next, everyone could easily guess it.
