

Bodyguard 4311

Chapter 4311 Wang Xinyan!

"Hehe, things haven't even started yet, and he dares to be so arrogant in public. What a weirdo." Lin Yi couldn't help but laugh at the scene.

"He's going to have a hard time. " Huang xiaotao also smiled. A truly powerful person would know how to keep a low profile. On the other hand, a guy like the Braided Man, who was not very capable, would be so cocky that he wanted to fly into the sky when he saw the slightest sign of it. It was a miracle that such a person could live until now.

Time passed by bit by bit. One by one, the participants in front of them were being tested. Everyone who went up was full of ambition and eager to try. However, after a while, when they came out again, without exception, all of them were dejected.

Counting the number of people, there were already hundreds of people who had participated in the selection in just two hours. However, so far, not a single one had been selected!

The passing rate was so low that it made one's hair stand on end. However, when they thought about it, they weren't too surprised. The Morning Star Academy was one of the few golden class cultivation Academies in the East continent. How could anyone be selected so easily at such an impressive place?

If any Tom, Dick, or Harry could pass the selection, it would affect the reputation of the Morning Star Academy. Geniuses were relative. The people present might be considered rare geniuses in their own territories, but they were nothing in the eyes of the people from the Morning Star Academy.

At this rate, out of the tens of thousands of cultivators present, it was uncertain how many of them would pass the selection. It was not impossible for all of them to be eliminated.

The selection continued, and Lin Yi and Huang xiaotao, who were sitting at the back, were given test cards by the staff.

Lin Yi didn't plan on participating in the selection and didn't want to take the test card, but the staff had already tacitly agreed that everyone here was here to participate in the selection. They didn't give Lin Yi and Huang xiaotao a chance to explain at all. After throwing down the card in front of the two, they went straight over.

"Forget it. Just take it. It's fine as long as we don't go up later." Lin Yi looked at Huang xiaotao helplessly. He didn't bother to explain it to her. After all, it wasn't important.

Just as Lin Yi and Huang xiaotao were shaking their heads at each other, a graceful figure suddenly appeared. She didn't hold a test card like everyone else, but walked through the crowd and the guards, directly walking to the high platform.

"Waa! She's a fairy!" The crowd looked at the figure from afar and immediately stretched out their necks and widened their eyes. Such temperament and beauty were truly rare in the world.

Most of the people present were people who had seen the world. They wouldn't be so surprised to the point that they couldn't move their legs when they saw a beautiful woman. However, the graceful figure on the high platform at this moment, especially the fresh temperament that was isolated from the world, really made people want to swallow their saliva. They all sighed in their hearts. There was actually such an unparalleled beauty in the world!

If this woman's beauty was only amazing, then it would be fine. The key was that her next move shocked almost all the nearly 10000 people in the audience to the point that they were speechless. She actually sat in the empty seat next to the three mountain opening stage Masters!

After being stunned for a long time, the entire place went into an uproar. Everyone cried out in surprise. Who on earth was this woman?

Judging from her appearance, this woman looked to be around 20 years old. Her true age was unknown, but at least one thing was certain. Her strength was far from strong enough to sit side by side with a mountain opening expert.

The woman did not hold back her momentum. Her strength was clear at a glance, she was only in the early Yuanying stage. Such strength was more than enough to compete with the many jiedan stage Masters present, but on the high platform, she was definitely the weakest one.

One had to know that with the deep foundation of the morning stars Academy, any guard around was a Yuanying stage master. A mere early Yuanying stage strength didn't even have the qualifications to sit at the edge of the stage, let alone the position she was sitting in now.

Even the xuansheng stage Masters had to move aside for that seat. How could she, an early Yuanying stage master, be able to sit in such an important and prominent position in public? who exactly was this woman?

All the cultivators present were dumbfounded by this simple action of the woman. All of their faces were filled with big question marks.

At this moment, even Lin Yi was so shocked that he couldn't speak for a long time. He stared at the stage with his mouth agape, not moving for a long time.

Huang xiaotao gently pulled Lin Yi, but realized that he didn't react at all. She couldn't help but look at the stands again curiously, then turned to look at Lin Yi.

Other than her unparalleled beauty and the position she was sitting in, there was nothing special about her, right? Huang xiaotao couldn't help but Mutter to herself, feeling a little jealous. She'd known Lin Yi for so long, but she'd never seen him lose his composure like this, and it was for a girl he didn't even know.

What Huang xiaotao didn't know was that the reason why Lin Yi was so shocked was different from the others. It was because the woman on the stage was too familiar to him.

Because this person was the girl he'd been thinking about all this time, Wang Xinyan!

Lin Yi never would've thought that he'd see Xinyan in a place like this, and that she'd have such power and status now!

Since most of the female practitioners were gathered on the Western part of the island, Lin Yi had always thought that Xinyan might be there. He even asked ning Xuefei to help him find her.

It wasn't impossible for Xinyan to have been teleported to the other islands, but Lin Yi knew that the East Island was the East continent. He could rule out the possibility.

Because the eastern island was such a transcendent existence, where Yuanying stage cultivators were everywhere and Jindan stage cultivators were worse than dogs, how could there be a place for newcomers from the secular world?

At most, they were at the peak of the Sky Class, not even at the Foundation Stage. If they went to the East continent with this strength, any random passerby could kill them with one slap. Wouldn't they die nine out of ten if they were teleported to the East continent?

Not to mention that the other Sky Class islands "cultivators couldn't even get to the East continent even with all the Golden core cultivators present. How could they give up such a precious spot to the newcomers of the secular world? not only would it put the newcomers in danger, but it would also be unfair to the cultivators of the other Sky Class islands.

Chapter 4312 Extremely Shocked

After eliminating the North, South, and East Islands, there were only the middle and West islands left. Lin Yi happened to know the important figures of these two islands. The middle Island had Tian Xing Dao, and the West Island had Ning Xuefei. It was very likely that Wang Xinyan and the other girls were teleported to the latter, which was why he had been asking them for help, but he hadn't heard anything from them yet.

Lin Yi didn't think that this trip to the southern island would bring him all the gains from Lufeng forest, and then the eye-opening event at the morning stars Academy, and now he'd even found Xinyan!

"What is she doing here? Why is he sitting with the Academy's higher-ups?" Lin Yi's mind was filled with question marks, and he couldn't stop the shock and excitement in his heart.

Strictly speaking, Xinyan was the first girl Lin Yi met after he left the secular world for a bodyguard mission. They'd known each other even before Mengyao, and Lin Yi's concern for her was no less than any other girl. Now that he'd finally met her, it was no wonder that he'd lose his cool!

Lin Yi's face was full of shock as he watched Xinyan's every move. After she sat down, she whispered a few words to the female Vice Dean, who was also an early mountain opening master like Ling Yuanqing and Wei Hebei. The female Vice Dean nodded with a smile and even patted Xinyan's hand. She seemed to be quite fond of Xinyan.

Lin Yi was even more surprised at the sight-what was the relationship between Xinyan and the Vice Dean? Were they master and disciple, like Tian Dao and Tian Huan, and had some kind of blood relationship with each other?

But no matter what, Lin Yi let out a breath of relief. He had all sorts of questions, but one thing was for sure-Xinyan was doing well, and wasn't being bullied like tianshuo and Xue Li in Nakagama. That was enough.

First it was Tian Gang, then it was Xue Li, and now it was Wang Xinyan. There were a lot of obstacles along the way, but Lin Yi finally found the three girls, and they were all doing pretty well. He could finally relax a little after a year of worrying, but he couldn't completely relax yet, because he still had Han Jing and the others to find.

While Lin Yi was still in shock, everyone else in the room, after their initial shock, had stopped paying attention to Xinyan.

This woman was as beautiful as a fairy and had a high status. She was most likely a second generation cultivator with an Academy's background, or a talented genius disciple. Otherwise, she would not be treated so outrageously.

However, this had nothing to do with the people present. At most, they would just take a look and feast their eyes. They were not here for the beautiful women today. The selection was the only thing they were most concerned about!

"Water, wood, and earth spiritual roots. Not bad. Hurry up and take part in the third Test!" At this moment, the Academy staff's words attracted everyone's attention.

Three elements of spiritual roots! The crowd looked at the elegant man who had just finished the test, and they could not help but be filled with envy. So far, there had been many cultivators who had been tested to have double-elemental spiritual roots, but he was the first one to have three-elemental spiritual roots!

Just like what was written in Ge Wei's Secret manual, the more attributes one's spiritual root had, the better one's talent and aptitude would be. The higher one's cultivation level was, the greater the advantage one would have over others.

Putting everything else aside, at least in terms of the attribute of the spiritual root, that refined man was already ahead of the others by a large margin. This kind of innate talent was something that the others simply could not envy. Didn't you see that even the Academy staff's attitude towards him was obviously better than the others!

In the crowd, Lin Yi was starting to calm down from the shock of seeing Xinyan for the first time. He looked at the man and frowned-why did this guy look so familiar?

The man was dressed in green, and both his face and aura were familiar to Lin Yi. He looked like the person he met before, but it was obvious that they weren't the same person-the person he knew had died in Lufeng forest.

"Eh, isn't that Chu muqing? It turns out that he's actually a genius with three spiritual roots. No wonder he's so freakishly strong!" Someone at the side suddenly recognized the person's identity.

"That's right. If you didn't mention it, I wouldn't have remembered it. He is a famous person in our Zhen Duan Sea area. I heard that it is common for him to challenge those of a higher realm. In the past few years, more than one or two masters have died at his hands!" The others chimed in.

"That's right, that's right. A month ago, when he was fighting with someone, I happened to pass by and saw him. He was a complete jiedan stage expert, facing an early Yuanying stage expert, a complete jiedan stage expert, and a peak late jiedan stage expert. In the end, he was defeated and injured by both sides. Except for the early Yuanying stage expert, the other two were also beaten to death by him. That scene was simply cruel and ruthless!" Another person shared the news with the crowd.

"What do you mean one month ago? it was clearly two months ago. I saw him that time too. I even know that early nascent soul expert. He's always been unconvinced and always strode forward. But this Chu muqing is simply a terrible person. He almost lost his life. It's too scary!" The original person argued.

"That's right, this Chu muqing is indeed unbelievably strong. I've heard that he's been to Lufeng forest every time it opens, and he's always going deep into the forest. Every time, all his teammates die, but he's the only one who can make it out alive. How can he do it without that kind of strength?" Another person shared the rumor.

"Yes, yes. I saw his brother go to Lufeng forest a few days ago, but he hasn't come out for a long time. I don't know if he died in there. After all, Lufeng forest is no small place. No matter how strong you are, there is a possibility of dying in there ..." Someone muttered.

"His brother? Who was his brother? I don't think I've heard anyone mention it before?" The crowd couldn't help but ask curiously. They had heard of Chu muqing's name before, but they had never heard of his brother.

"His brother's name is Chu bubai. Although he's not as famous as Chu muqing, he seems to be quite powerful. A while ago, I saw him bring some people to the Lu Feng road teleportation array. However, for some reason, he found a group of people by himself this time and didn't come with Chu muqing ..." The person explained to the crowd.

Chapter 4313 Taking In Disciples During The Sect-Opening Period

Lin Yi's heart skipped a beat as he listened to the crowd's discussion. As expected, Chu muqing and Chu bubai were brothers. No wonder they looked so familiar, no matter their appearance or aura.

However, this also proved Chu bubai's evil intentions. He clearly had a powerful team partner like Chu muqing, who was also his own brother, but he didn't find one. Instead, he specially looked for Guo dengtao, who he didn't have a deep relationship with, and strangers like himself and Huang xiaotao to form a team. In the end, it was all for the sake of gathering enough human heads as a sacrifice and using their lives to exchange for the baby ginseng.

Thinking back to the time when Chu bubai had lied to everyone and claimed that he was the only golden core stage expert in the Chu family, he really had ulterior motives. In the end, such a person was tortured to death by the infant ginseng, and he deserved to die. It was a pity that Guo dengtao and Wang Feng were kept in the dark.

Lin Yi and Huang xiaotao looked at each other and nodded. They didn't say much to avoid unnecessary trouble if others heard them.

The crowd was abuzz with discussion, but Chu muqing didn't seem to have any reaction to this. It was as if he already knew that he had three spiritual roots. After nodding at the staff, he turned around and walked towards the third round of the assessment.

Throughout the entire process, Chu muqing's refined temperament didn't diminish in the slightest. He had the air of a calm expert, and the bosses on the stage nodded their heads repeatedly, looking at him with more approval and approval.

After all, this was the first person with three spiritual roots in this competition. His calm temperament already showed his potential to a certain extent. Other things aside, under the same level of strength, Chu muqing's temperament was more likely to gain an advantage in a fight. The temperament itself was a hidden talent, but it was just ignored by many people.

Under everyone's watchful eyes, Chu muqing walked step by step to the assessment array. When the examiner nodded in acknowledgment, Chu muqing's body sank slightly, and then he suddenly soared into the sky. He swept a leg in the air and a sharp curved true Qi instantly bombarded the assessment array at a speed that was difficult to be seen with the naked eye.

BOOM! The assessment formation was unscathed, but the force spread to the ground, causing the entire arena to shake. The power was so great that it was shocking.

This simple and powerful attack caused everyone to be in an uproar. They looked at each other with unconcealed shock in their eyes. Chu muqing was able to make a name for himself in the zhenduan Sea region. His strength was indeed not just for show.

Chu muqing nodded at the examiner as he landed on the ground. He then waited quietly at the side for the results of the assessment.

If it had been anyone else, the examiner would have done the same thing as the man in plaits and immediately declared them out of the competition. However, this time, the examiner surprisingly did not say anything. Instead, he turned his head to look at the stage.

It was obvious that Chu muqing had passed the test, but he didn't have the right to say which Academy's bosses would take him under their wing. He could only wait for the bosses on the stage to make the final decision.

The crowd unconsciously held their breath, staring at the words and actions of the Academy's big shots on the stage. If it was as expected, the first genius disciple to pass the selection today was about to be born.

The group of Academy big shots looked at each other, and their gazes first fell on the three masters of the mountain opening stage in the middle. Every time they came out to recruit disciples, there was an unspoken rule, and that was that the strong and the high status would choose first. If they did not want it, then it would be their turn.

Among all the bosses of the Academy, the one with the highest status was the Dean, Ling Yuanqing. The second were the two Vice Deans beside him, Wei Hebei, and the female mountain opening expert. As long as any one of them agreed, Chu muqing would rise to the top and become one of their disciples. At the same time, no one else would have anything to do with him.

Only if all three of them expressed their disinterest would the other bosses on the stage have a chance to recruit Chu muqing.

After a moment of silence, principal Ling Yuanqing did not say anything. Vice Principal Wei He bei did not say anything. The remaining female Vice Principal also did not say anything.

This meant that the three of them had no intention of taking Chu muqing in as a disciple.

Below the stage, Chu muqing's expression remained the same, but his heart sank. He had thought that with his talent and potential, he would be able to win the favor of the three magnates. He didn't expect that he would fail at the last step.

For those who had entered the morning stars Academy, the status and treatment they received would be as different as the sky and the earth, whether it was a powerhouse in the founding stage or an ordinary xuansheng stage teacher.

No matter where one went, one could not escape the rules of the pugilistic world. Even if one had the same talent and strength, if one had the backing of the Dean Ling Yuanqing and the other had the backing of an ordinary original infant stage instructor, the difference in status would be huge. This was something that everyone present knew, including Chu muqing.

Everyone wanted to become a disciple of the three mountain opening powerhouses, but it was a pity that it wasn't easy to move them. Even with Chu muqing's talent, he was still far from enough.

After the three big shots of the mountain split stage had expressed their opinions, it was the turn of the seven great xuansheng stage experts. If one could obtain their favor, one would also be able to achieve meteoric success in the future.

In the end, the seven xuansheng stage experts looked at each other. One of them, an old man in a black Academy robe, nodded to Chu muqing and said, ""Chu muqing, you'll be cultivating with me from now on."

Everyone was envious when they heard this. Any master of the xuansheng stage, even in the middle Island, would be a top master. Although they were much weaker than the three big shots of the mountain split stage, it was already very rare to be able to become the subordinate of such a strong person.

"This disciple will follow your orders." Chu muqing immediately bowed and replied. His tone was still calm and composed, giving off the feeling that he would become a great figure in the future. However, when he glanced at Ling Yuanqing and the other two mountain opening experts, there was a hint of hatred in his eyes.

In an instant, Chu muqing had become the focus of everyone's attention. He was already a famous person in the Zhen Duan sea realm, and it was likely that he would become a true legend in the future.

Everyone started to speculate among themselves. If Chu muqing came out of the morning stars Academy one day and returned to the Zhen Duan Sea area, he would probably be invincible.

Chapter 4314 Inquiring And Asking

Lin Yi didn't pay much attention to this man, other than giving him a second look. His only focus was on Xinyan.

Lin Yi was indeed relieved to see that Xinyan was doing well, but he had a new problem-he didn't know if he should go and meet Xinyan!

He thought back to the first time he met Tian Gang at the auction on the northernmost Island, and Tian Gang didn't acknowledge him at all. What Lin Yi didn't know was if Xinyan had the same difficulties.

If he just went his separate ways with her and brought trouble to Xinyan, it wouldn't be what he wanted. But if he didn't even greet her and just let them go their separate ways, that would be too heartless, and he wouldn't be willing to let that happen.

To admit or not to admit it was a problem, and Lin Yi was in a dilemma.

Lin Yi was troubled by Xinyan's matter, and Huang xiaotao, who was beside him, was also troubled by his anxiety.

She could guess that it was probably because of the girl on the stage, but she couldn't know the exact reason. She could only ask Lin Yi himself, and Huang xiaotao was struggling with how to ask.

She'd always been shy, and there were some things she just couldn't bring herself to ask despite how close she was with Lin Yi. She was afraid that if she asked too much or asked the wrong question, Lin Yi would hate her and regret it.

She was different from girls from the common world like Xinyan-she'd been taught the ancient ways since she was young, and jealousy was one of the seven unforgivable sins of a woman. She'd never had that thought in her head, after all, and she didn't want Lin Yi to think that she was jealous of the girl on the stage.

Just as the two of them were in a dilemma, a familiar voice suddenly rang out beside them.

"Hey, brother, did you get the test card?" Lin Yi and Lin Yi turned around and saw Ge Wei.

"Oh yes, I got it. Your business is booming today!" Lin Yi nodded and exchanged a surprised look with Huang Xiaotao. They weren't even close, so why was he back?

Wasn't this fellow selling his secret manual to pass the examination? Could it be that he had finished selling one round so quickly? There were close to ten thousand people present. With a hundred spiritual jades per person added together, it would be a big business worth hundreds of thousands of spiritual jades no matter what. He couldn't have made his move so quickly, right?

"Hehe, I'm just trying to make a living. How can I say that my business is booming?" Ge Wei smiled and pouted. He sighed with regret, "I was still counting on this carefully compiled secret manual to pass the assessment and take advantage of this rare opportunity to make a fortune. Sigh, what a pity ..."

"Eh? Your secret manual is indeed worth the money. I see that there are quite a lot of people buying the secret manual, why is it a pity?" Lin Yi and Huang Xiaotao couldn't help but ask.

"There are many people who want to buy it, but I can't continue to sell it. Brother, can't you see that the Academy guards around me have their eyes on me?" Ge Wei shook his head and bitterly smiled.

If it weren't for this reason, he would probably be busy the whole day. But now, if he continued to sell, he would probably be arrested on the spot. Once he was convicted of disrupting the order of the selection, he would have to bear the consequences.

And so, helplessly, he could only give up on this easy business of earning spirit Jade and come back to chat with the generous Lin Yi, taking the opportunity to sell some information and Intel. He might even get some more, making up for today's losses.

"Hmm, that's true." Lin Yi nodded understandingly, and his eyes lit up. He'd been wondering about Xinyan from the start, but he had no one to ask. This ge wei, on the other hand, was known as GE Siyi of the South continent-there was no one more suitable than him for this task. Wasn't he the perfect candidate?

"Young hero, do you have something to ask me?" Ge wei had seen all kinds of people, and he was always paying attention to Lin Yi's expression-he knew business was here.

"That's right, I do have something that I'm puzzled about. I wonder if you can help me solve my doubts?" Lin Yi didn't hide it and nodded. Huang xiaotao, on the other hand, perked up her ears and listened obediently without making a sound.

"Young hero, please ask me anything. I don't dare to say that I know everything, but in the South continent, there's nothing that I don't know. The only difference is whether I know more or less. Young hero, you've come to the right person to ask me questions!" Ge wei said excitedly. He could already see the spiritual Jade waving at him.

"Hehe, actually I just wanted to ask, why is there such a young girl sitting next to the female Vice Principal on the stage? I don't think her strength is very high. And it seems like she's quite close to the vice-director, so what's their relationship?" Lin Yi asked without changing his expression.

"Oh, so you're asking about her, young hero!" Ge wei made a look of sudden realization and laughed in a low voice. "Haha, you can ask others about this. I can guarantee that no one knows. After all, this is a matter of the East province's Morning Star Academy. These people here have never even set foot in the East Province, so they naturally won't hear these rumors. But you only asked me, GE of the South Province. Young hero, you've found the right person!"

"So, you already know?" Lin Yi's spirits lifted-he really wanted to know more about Xinyan, no matter what. Even if it was just a rumor, he'd like to hear it.

"Yes, of course. However, this ..." Ge wei did not say it directly. Instead, he rubbed his fingers. His meaning was obvious. He had to give the spiritual Jade.

The so-called GE of the southern continent made a living by collecting and selling information. This was his job. Of course, there was no reason for him to disclose information for free. Otherwise, if he were to be a good person everywhere, wouldn't he be out of food?

Lin Yi did give him an extra thirty pieces of high-tier spirit Jade when he bought the manual, but that was a separate matter. This was a business, and ge wei wouldn't break the rules for no reason-he'd be making things difficult for himself.

Lin Yi nodded in understanding and took out another small bag of spirit Jade. Ge wei took it and weighed it-there were a dozen pieces in this bag, and they were all high quality spirit Jade.

"Young hero has an imposing appearance and a talented appearance. You deliberately asked this one about this woman, I think you also have feelings for her?" Ge wei laughed. "That's true. She's such a beautiful celestial immortal, and she's also the disciple of Donghai's divine nun. There are countless young men who admire her. Any normal man can't be different from her."

Chapter 4315 Donghai Divine Nun

"Donghai divine nun? Who is that?" Lin Yi, on the other hand, was taken aback. He'd read a lot of wuxia novels and TV shows when he was bored in the common world, and there was a South Sea god in the "Condor Heroes" couple,"but that was just a made-up story-why was there a East Sea god on Sky Class Island?

"Eh? Young hero, you don't even know this? Donghai's divine nun, isn't that the female Vice-Principal on the stage?" Ge wei looked at Lin Yi, confused. Most people here didn't know who Wang Xinyan was, but not even Donghai's godly nun knew who she was. After all, she was one of the most famous people in the morning Star Academy, just like the Dean, Ling Yuanqing.

"Ah? She's the nun of the East Sea?" Lin Yi was even more surprised-he'd guessed it before, but it was still a shock to know that Xinyan was the Vice Dean's student.

As a newcomer from the secular world, who wasn't even a Foundation Stage cultivator a year ago, she was able to become the disciple of a sect's founder, Donghai's divine nun. Now, she was even an early nascent soul cultivator. Wang Xinyan's luck was truly amazing.

Lin Yi felt that his experiences and progress were already heaven-defying enough, and normal people wouldn't even dare to imagine it-but compared to Wang Xinyan, it was nothing! There was no comparison between the two at all! It turned out that his girlfriend was the real God's favored one!

"Yes. Not only is she the disciple of Donghai shegni, but she is also the only personal disciple of Donghai shegni. Rumor has it that Donghai shegni sees her as a precious pearl. I guess his daughter is just as good as her." Ge wei said to Lin Yi and Huang xiaotao,"Therefore, because she has the East sea's divine nun backing her, her status in the morning Star Academy, and even in the entire East continent's gaolin sea, is extremely respected. She's publicly acknowledged as one of the three goddesses in the gaolin sea. Her name is Wang Xinyan."

"Third fairy?" Lin Yi paused.

"That's right. The third fairy is publicly acknowledged by the entire gaolin sea realm. She possesses both strength and beauty, and each one of them has a deep background. All the disciples of the various Academies of the gaolin sea realm collectively pursue her. It wouldn't be an exaggeration to say that she's the goddess of all the people of the gaolin sea realm. " Ge wei said with admiration.

"I see." Lin Yi nodded in realization. The third fairy should be one of the top female cultivators in the East continent. Xinyan was from the common world, and she was one of them-she was a legend.

"The East continent is located high above the sea, and there are countless geniuses in the various Academies. The third fairy is also the goddess of their dreams. Some people in the streets have even placed bets to see who will win the third fairy in the end." Although he was selling information to Lin Yi, ge wei was still very interested and happy when he talked about it.

"There's still someone who opened this bet?" Lin Yi raised an eyebrow.

"That's right. The trend is getting more and more intense. It's already swept through the entire gaolin Sea region. The young masters of the great families, the top geniuses with heaven-defying talents, the number one Super Master on the Academy's combat power List, all of them are on the list. They've all launched an attack on the third fairy. I heard that someone is about to succeed." Ge wei knew all about these rumors. The East Province and the South Province were thousands of miles apart, so no one knew where he had heard them.

"Haha, these people sure are bored ..." Lin Yi smiled nonchalantly. Flowers would attract bees and butterflies no matter where they went, but he had absolute confidence in Wang Xinyan. No matter how

much effort these people put in, it would be useless. One of the three goddesses, Wang Xinyan, already had an owner.

If Wang Xinyan was in the same situation as Tian Gang and Xue Li, Lin Yi would be worried because other people might force themselves on her. But Wang Xinyan was the third fairy, the only disciple of Donghai's godly nun. Who would dare force her?

And so, Lin Yi wasn't too worried about this-after all, an opening sect master was a peak existence no matter where they were. No one should go provoke a Tiger's whiskers like that.

"It's boring, but the bet itself shows that the East continent is close to the sea. It's the voice of the top masters of the younger generation. If I have the opportunity to go there, I can pay a little attention to it. It's worth it." Ge wei said with a smile.

"That's true. " Lin Yi didn't argue, but he didn't have plans to go to the East continent yet, so ge wei's reminder wasn't very useful.

He just needed to know that Wang Xinyan was doing well, and that was enough. After all, with his current strength level, even if he went to the East continent, he wouldn't be able to protect her, and might even bring her trouble. Instead of making things more troublesome, he might as well improve his strength first.

"By the way, the third fairy, Wang Xinyan, came out later than her master Donghai nun and the Dean, Ling Yuanqing. She'll be punished for showing no respect to her elders at such an important event." Lin Yi asked. The only thing he was concerned about was if Xinyan was hurt.

"Hehe, young hero, you're really concerned about this third fairy. It's human nature, human nature!" Ge wei smiled mischievously. "If this happened to anyone else, they'd definitely be punished. After all, the rules of the school are very important, and every school is very particular about it. But Wang Xinyan is different. She's the only personal disciple of Donghai's godly nun, and she's the apple of his eye. Who would criticize her for such a small thing?"

"I don't think so. After all, Ling Yuanqing and Wei Hebei are big shots here. No matter how much Donghai's godly nun protects his son, he'll still have to consider their face. Even if it's just a formality, he'll still have to punish Wang Xinyan ..." Lin Yi was still worried.

It was true that Donghai's divine nun didn't really want to punish Wang Xinyan, but he was just like a parent—he had to show his respect in front of the other parent's face when his child made a mistake.

"Young hero, you might not know this, but the third fairy, Wang Xinyan, is not just the only disciple of the godly nun of the East Sea. With her talent, even the Dean, Ling Yuanqing, is very protective of her. He even said that she is the hope of the whole morning stars Academy. Besides, she came out so late, either to cultivate or to be delayed by something. Why would these big shots punish her for such a small matter?" Ge wei shook his head.

Chapter 4316 The Third Fairy

"Oh ..." Lin Yi finally nodded, breathing in relief.

It seemed like Wang Xinyan was the luckiest woman he had ever met in the mortal world. Of course, this was all because of her unique talent. Otherwise, she wouldn't have been able to catch the eyes of Donghai's divine nun, and wouldn't have been protected by so many important figures.

"But it's a pity ..." Ge wei suddenly shook his head with a look of pity.

"What's a pity?" Lin Yi couldn't help but ask.

"Although everyone knows that Wang Xinyan, one of the three fairies, is extremely talented, the Morning Star Academy is very tight-lipped about her exact talent. Other than the deans and Vice Deans, even the higher-ups of the other Academies don't know. This has become an unsolved mystery in the gaolin Sea area of the East continent. If anyone can find out the inside story, they can sell a lot of spiritual jades. Tsk, tsk!" Ge wei shook his head and sighed.

Inquiring about information was his old profession. This feeling of knowing that there were secrets but not being able to find out anything was simply a hundred claws scratching at his heart, making him itch.

With the various means of inquiring information that he had used, if he was in the East continent's gaolin Sea area, he would eventually be able to obtain information no matter how secretive it was. Unfortunately, he was in the South continent now and could not easily go to the East continent. They were thousands of miles apart, so what could he do?

Lin Yi smiled to himself-an outsider like GE wei wouldn't know what kind of talent Xinyan had, but Lin Yi knew it all too well. Xinyan's spirit root had a very special element-it wasn't one of the traditional five elements, but what the common world called a special body-a sponge body!

Strictly speaking, the sponge body was a type of spiritual root attribute, and it was an extremely rare mutated spiritual root attribute. It was mentioned in ge wei's Secret manual for passing the assessment that anyone with any mutated spiritual root attribute was a rare genius in the world. Those with mutated spiritual roots could enter the academy without having to go through the selection process and receive the treatment of a true genius disciple.

A sponge Constitution was a rare existence even among all mutated spiritual roots, and it wasn't an exaggeration to say that it was one of the most mutated spiritual roots. It was unexpected that Wang Xinyan was so highly valued and even had such a high position in the morning Star Academy, but it was actually reasonable.

Lin Yi nodded silently. It seemed that as long as one's talent reached a certain level, even the rules of the Morning Star Academy could be ignored. A talented person like Wang Xinyan would be treated like a treasure in any other school in the East continent.

Just as Lin Yi and Ge Wei were talking, another extraordinary individual appeared in front of the spiritual roots testing stone tablet.

"Metal, fire, and earth spiritual roots are solid spiritual roots, and wood spiritual roots are pseudo spiritual roots. A total of four spiritual roots!" This time, even the Academy's staff couldn't hide the shock in their tone. Even if the wood element was a pseudo-spiritual root attribute, it was still a genuine four-elemental spiritual root attribute!

Even Chu Muqing had been overshadowed by such talent. Even in the morning Star Academy, where geniuses were abundant, such talent was considered top-notch.

"Hahaha, my old man is right. I'm indeed the chosen one. This time, there's hope for our Qiu family to rise again!" This man had short Hedgehog-like hair, and the muscles that were exposed on his body were quite strong. Although his clothes were expensive, he had a strong nouveau riche aura all over his body. It was unknown which country he came from, but when he suddenly heard that he was a genius with four spiritual roots, he immediately became arrogant.

Seeing this scene, the crowd could not feel any disdain. Even if they knew that the other party was a country bumpkin, he was still a country bumpkin with four spiritual roots. This kind of talent was

something that they dreamed of, but unfortunately, they did not have the fate to do so. At this time, they could not even be envious, so what did they have to look down on him?

If someone really showed disdain, it would only be said that jealousy was causing trouble. On the contrary, it would be ridiculed by others. Even if he was a country bumpkin now, with this kind of talent, he was bound to soar. In the future, his level would be far beyond anyone's reach, so there was no need to look for trouble.

The sudden appearance of a genius with four elements spiritual roots caused even the big shots on the high platform to focus their eyes on the man with the Hedgehog head. The third round of the test had not even begun, but there were already a few eyes that were quite eager, as if they wanted to take him under their wing.

The man with the Hedgehog head was full of pride. He did not have any stage fright despite being the focus of attention of so many important figures. He walked to the third round's assessment array and, without waiting for the examiner to say anything, he gathered his true energy and punched.

The examiner's expression changed, but he didn't reprimand him. Instead, he turned to look at the stage. After all, he had four spiritual roots. Although the Hedgehog-headed man wasn't as strong as Chu muqing, who was able to fight opponents above his level, he was still stronger than ordinary experts of the same level.

With Chu muqing's admission as a precedent, the crowd could more or less see what was going on. They knew that this meant that the man with the Hedgehog head would definitely be able to enter the Morning Star Academy. However, it would still depend on whether the bosses of the Academy would like him.

Out of the three sect opening powerhouses, Dean Ling Yuanqing didn't have any intention of expressing his position. Donghai's nun was talking to Wang Xinyan and didn't even look at the Hedgehog head. Only Wei Hebei was left.

Wei Hebei sized up Hedgehog head for a while. The attributes of the four-element spirit root indeed made him a little tempted. If he was trained well, he dared not say that he would become a super expert at the level of a pillar, but his strength would not be too bad. Just from this point, it was worth it to take him in. Anyway, it would not make a difference if he was one more.

However, the temperament and cultivation that the man with the Hedgehog head displayed did not seem like he would become a great person. If he had the temperament of an expert like Chu muqing, Wei Hebei would have immediately made the decision. However, looking at the arrogant behavior of the man with the Hedgehog head, if he rashly accepted it and ended up as a useless person, he might even become a joke at the morning stars Academy. Wouldn't that ruin Wei Hebei's reputation?

Wei Hebei couldn't help but hesitate. He hadn't accepted any disciples for three years in a row. Now that four elements were in front of him, it would be a pity if he just gave up. However, if he accepted, he was afraid that this guy wouldn't be able to stand up. It would be a pity to throw him away, and this Hedgehog head was basically of little value!

Chapter 4317 Huge Risk

A few of the xuansheng stage experts at the side were already somewhat eager to try. The three big shots of the mountain split stage didn't want him, but they wouldn't look down on him. No matter what, he was still a genius with four elements spiritual roots. As long as they put in some effort, there was still a lot of hope for him.

"Forget it, just give me an in-name." Wei Hebei finally made his decision. The other xuansheng stage experts couldn't help but sigh in regret. It was rare for a talented disciple to have the potential, but they had no fate with him.

As soon as these words came out, everyone was in an uproar. This Hedgehog head was the second lucky person to pass the selection after Chu muqing. Especially since he had entered the sect of one of the three big shots of the mountain opening stage, Wei Hebei, his future was definitely boundless!

Lin Yi didn't think much of the Hedgehog-headed man's gloating, but he still asked, "He's an outstanding talent with four elements spiritual roots and has even become Wei Hebei's disciple. After he went to the East continent's Morning Star Academy, he should be a genius disciple that was heavily nurtured. Doesn't that mean his status is comparable to the third fairy, Wang Xinyan?"

"Four element spiritual roots ... It's still acceptable to call him a genius, but it's a bit far off to say that the Academy is focusing on him. "Then I can only smile and not say anything ..." Ge wei laughed when he heard this. The mockery on his face was obvious.

"Oh? Could it be that it's not the case?" Lin Yi couldn't help but feel strange. Although he didn't think that this Hedgehog-headed man would be able to achieve much, since Wei Hebei personally picked him, he should be able to get a place in the intensive training after entering the Morning Star Academy.

"Of course not. He's a genius here, but once he goes to the Morning Star Academy, he's nothing. At the end of the day, he only has a four-element spiritual root, one of which is a false element. There are too many people like him in the morning Star Academy. There's nothing rare about him." Ge wei shook his head and said.

"Oh, since his talent is so common, why would Wei He bei take a fancy to him? As the vice-principal of the sect, his vision should be much higher than that of the ordinary teachers, right?" Lin Yi asked, still skeptical.

"I'm also curious. Normally, this kind of person shouldn't be able to enter the eyes of the big shots in the beginning stage. After all, he's not a genius with mutated spiritual roots. "Maybe Wei He bei has other

intentions. I heard that he hasn't accepted any disciples for a few years. Maybe he just found someone to make up the numbers ..." Ge wei pinched his chin and said thoughtfully.

"Find someone to fill in the numbers?" Lin Yi looked at the proud Hedgehog head strangely and thought back to Wei Hebei's hesitation. It seemed like it was possible. He couldn't help but laugh, "If that's the case, then he's really lucky to be able to climb up Wei He bei's ladder for such an inexplicable reason."

"Lucky?" Ge wei pouted and said disapprovingly, "That's not true. In terms of strength, this guy is much worse than Chu muqing. The Morning Star Academy is full of hidden dragons and crouching tigers. Even Chu muqing might not be able to gain an advantage there. He has to keep a low profile. Brother, look at this guy. Does he know what it means to be low-profile?"

"That's hard ..." Lin Yi shook his head. The spiky-headed guy was so cocky that he wanted to fly. Earth would've been at peace if he knew how to keep a low profile.

"That's why I say, this kind of person has no strength and doesn't know how to keep a low profile. With only four spiritual roots, how useful do you think he can be in the Dragon's pool and Tiger's Den of the Morning Star Academy?" Ge wei curled his lips and smiled.

"Isn't he still Wei He bei's disciple? Wei He bei's name should be popular in the morning stars Academy, right?" Lin Yi was still confused. As the saying went, "you have to look at the owner before you hit the dog." This Hedgehog head was Wei Hebei's disciple after all. He couldn't just be bullied by anyone, right?

"Hehe, Wei He bei's name can indeed scare many people, but how many of those who can enter the Morning Star Academy are truly easy to deal with? Maybe some people, in order to stand out, will specifically find this kind of person who has the backing of a Big Shot, but is actually a soft persimmon to fight!" Ge wei shook his head and laughed.

"The risk isn't small. Who would take such a risk?" Lin Yi asked curiously.

"Of course it will. You should know that the cultivation resources of a sect are ultimately limited, even the Morning Star Academy is no exception. Some people get more, and naturally others get less. The competition is quite fierce, and the more so-called geniuses, the easier it is for others to join forces to deal with them, or even kill them, because this way, they will have more free cultivation resources." Ge wei pointed at the hedgehog's head and said with certainty, ""Look at how proud he is now. When he goes to the Morning Star Academy, he won't even be able to cry. Maybe he'll be killed in two days."

"Killed by someone? "That can't be" Lin Yi's heart froze-Xinyan was the example, and he'd assumed that any genius would be able to make it to the top of the class at the Morning Star Academy. Most of the people here had the same thought.

"Why not? brother, don't you believe me. Reality is cruel. I said so much because I hit it off with you. If it were someone else, I wouldn't waste my breath!" When ge wei said this, he suddenly felt indignant."That spiky-headed guy just now was one of them. His eyes were so big that they even reached the top of his head. I was kind enough to sell him the secret manual to pass the assessment, but not only did I not care about it, I almost attracted the guards of the Academy and ruined my good business. Otherwise, I could have reminded him a little, at least he wouldn't have died so quickly. But now, hehe ..."

Lin Yi finally understood-no wonder ge wei didn't like that Hedgehog-head guy at all. They had some sort of history between them.

"I'm not trying to scare you. In the past 100 years, there have been at least 800 geniuses from the South Province who went to the East Province Academy for further study. More than half of them were targeted by others and eventually died." "The East Province Academy is a place where you have to follow the rules unless you're a genius who's strong enough to crush all the other geniuses in the area," ge wei said seriously."Otherwise, you're really not far from death."

Lin Yi couldn't help but think of the head of the North Island law enforcement Hall, Gongyang Jie. They hadn't fought before, but Lin Yi's intuition told him that this person was the type of genius who could crush everything around him.

Chapter 4318 The Status Of A Disciple

A person like Gongyang Jie would be able to do whatever he wanted no matter where he went. He would probably be no exception even if he went to the academies with hidden talents in the East continent.

"Of course, even if you're a genius, you'll have to learn how to hug someone's thigh and live an ignoble life. If you don't have any ability and still act arrogantly, you'll probably be killed very soon. Hmph, this spiky head probably won't be able to escape that kind of ending." Ge wei sneered.

"Then according to what you're saying, unless he's extremely powerful and overbearing, the more conspicuous a genius is, the easier it is for him to die?" Lin Yi raised an eyebrow.

"That's right, that's exactly what I meant. Of course, if you don't fight for anything after you go there and keep a low profile, don't think that you're a genius and go after the third fairy. If you don't do something stupid like that, you can live a little longer. Otherwise, you won't even know how you died. " Ge wei clicked his tongue and sighed.

It was far from what Lin Yi had expected-he'd thought that since it was a school, everyone would focus on training, and the atmosphere would be peaceful. He didn't expect ge wei to say that it was this cruel and bloody!

Looking at it this way, the welcome Pavilion in the North Island was really a greenhouse-like existence.

"Don't tell me the Academy doesn't care about this? After spending so much effort, it wasn't easy to recruit a few genius disciples, but in the end, they were killed by their own people. This can't be justified, right?" Lin Yi asked, confused.

"Care? How?" However, Ge Wei did not think much of it and said, "how can anyone who can act in secret be simple?" They were all geniuses among geniuses. If there was no competition, how could they produce stronger and more outstanding disciples? Those who could survive the schemes of others, and now can bully and scheme against others all day long, which one of them didn't kill their way out from the mouth of wolves and tigers?"

"That's true. However, if that's the case, wouldn't that mean that the newbies would never be able to stand out?" Lin Yi couldn't help but wonder.

"That's not necessarily the case. As long as you can persevere, even in a place like the Morning Star Academy, you can still make a name for yourself. It's just that you need the right time, place, and people." Ge Wei explained, "these people not only need to have enough strength and capital, but they also need to catch up with the right time. For example, the group of geniuses who were originally suppressed has already grown to a new level. They're either holding important positions in the Academy or have gone to a higher Mystic division to train. This way, there will naturally be a group of empty seats, and the newcomers will naturally be able to take the position."

"Hehe, this doesn't sound easy. The competition is so fierce that it makes one's hair stand up." Lin Yi couldn't help but smile.

"Right? That's why I said that if a guy like the Hedgehog head, who isn't very capable but has his eyes on the top of his head, goes to the Morning Star Academy, I bet he won't live for more than three months. Otherwise, I, Nanzhou GE, will eat sh * t on the spot!" Ge Wei said with certainty.

"Brother GE, let me give you a piece of advice. Don't be too absolute. I think that even if the morning stars Academy is really so dangerous, this Hedgehog head is still Wei He bei's disciple. Even if others target him, they will at most bully him and teach him a lesson, but won't directly kill him. Or could it be that these people are already strong enough to compete with Wei He bei?" Lin Yi didn't think much of it.

No matter what, the Hedgehog head had been labeled as Wei He bei's man. Even if it was just for the sake of his reputation, Wei He bei would not let his men be killed. This was because to him, the vice principal, this was a challenge to his authority and a slap to his face!

"Brother, there's nothing wrong with you thinking like this, but you've overlooked one thing. Do you still remember what Wei Hebei said just now?" Ge wei suddenly laughed.

"Wei He bei's words, isn't he taking the Hedgehog head as a disciple?" Lin Yi said with a frown.

"That's what I meant, but you have to know that disciples are also divided into different ranks. Wei He bei did take him in, but he was only an in-name disciple that was not valued." Ge wei shook his head.

Lin Yi only realized now-in the traditional world of practicing, registered disciples really didn't have much status.

"For a powerhouse like Wei He bei, he has at least a few dozen in-name disciples. We might not even meet him once in ten days or half a month, let alone get much attention. Who can care so much?" "If something really happened to the Hedgehog head, Wei He bei would be furious, but how worried do you think he would be?" "The person who can lay his hands on the Hedgehog head definitely doesn't

have a weak background. The final result is very likely to be that after the two sides have secretly made a deal, the Hedgehog head will die in vain."

"That's true. " Lin Yi nodded in agreement. As expected of someone who specialized in gathering information. Ge wei's analysis made sense.

"Brother, didn't you just ask me if this Hedgehog head's status would be comparable to the third fairy, Wang Xinyan, if he were to become Wei He bei's disciple?" Ge wei chuckled."They're both the disciples of a Big Shot, but one of them is an insignificant disciple in name, while the other is the only direct disciple. The difference in status is like heaven and earth. No one would dare to mess with someone like Wang Xinyan. Anyone who dares to mess with her is the same as messing with the Donghai's nun, and that's the only way to die."

"Oh right, the nun of the East Sea was a powerful figure in the beginning, why did she only have one direct disciple?" Lin Yi asked.

"I haven't really understood this in detail, but after a rough guess, there are only two reasons. First, Dong Hai's nun is a female cultivator, so she only takes in female disciples. This alone eliminates all male cultivators. Second, she has high standards. She doesn't care about so-called four-elemental spiritual roots like the spiky-headed guy at all. He must have a special spiritual root." Ge wei analyzed.

Lin Yi nodded-these were probably the two reasons. This was good-at least Donghai's divine nun would pay more attention to Wang Xinyan, and she wouldn't be bullied or wronged.

Chapter 4319 Price For Violating The Rules

"Brother, I realized that you're really interested in the third fairy, Wang Xinyan. You want to know everything about her, tsk tsk!" Ge wei winked playfully and then reminded him,"However, seeing that we hit it off so well, I have to kindly advise you. It's fine to fantasize about this kind of thing, but don't

take it seriously. Especially if you can pass the selection, don't even think about it. Think about what I said just now, this is not a joke, it can really kill you."

"Many thanks for brother GE's reminder, I know what to do." Lin Yi said gratefully. It was their first time meeting, but he could tell that ge wei's reminder was sincere. He was a nice guy.

In fact, Lin Yi didn't plan on going to the East continent at first, but he'd be lying if he said he wasn't interested at all after seeing Xinyan.

No matter what, the five Sky Class islands in the East continent were filled with Masters, and it was a place of extreme attraction to people like Lin Yi, not to mention that there was a Wang Xinyan!

Besides, if Lin Yi really wanted to go, it was actually very simple. He had five elements and seven attributes, and his spiritual roots could be said to be heaven-defying. Once he showed his talent, it would definitely blind everyone's eyes. Even Dean Ling Yuanqing, who was at the beginning stage, would be shocked and lose his composure on the spot. It was too easy to be selected.

At that time, Lin Yi would be able to get a spot as a disciple of one of the sect's leaders. Even if his position couldn't compare to Wang Xinyan's, who was the only disciple, he'd still be at the top of all the disciples in the morning Star Academy.

But after listening to ge wei's words, Lin Yi realized that things weren't as simple as he thought. Even if he went to the Morning Star Academy and became the disciple of one of the big shots, the situation after that wouldn't be good.

After all, she was different from Xinyan-Donghai's divine nun only had her as a disciple, and she was known as the third fairy. Normal male cultivators would love her and wouldn't do anything to her, but Lin Yi wouldn't get the same treatment as Xinyan.

What was inevitable was that Lin Yi would become a target for all the other disciples. No matter if it was strength or potential, Lin Yi could be said to be invincible among his peers, and he could even kill those above his level, but no matter how strong he was, no matter how strong he was, he couldn't fight against a group of people!

Just as ge wei said, those who were able to bully the other students in the morning Star Academy were all geniuses. They were all rare geniuses, just not as powerful as Lin Yi. Lin Yi could take on two or three of them without any problem, but what if there were twenty or thirty of them, or more?

Not only that, if Lin Yi went to the Morning Star Academy, his relationship with Xinyan would be exposed, and he'd have to face more than thirty enemies.

Xinyan was one of the three goddesses, the goddess of all the disciples in gaolin sea, the East continent. Almost all the geniuses in gaolin sea were on the list, and if this got out, they'd become public Enemies-even three hundred of them wouldn't be enough, let alone twenty!

Compared to the intense competition, Lin Yi's experience in the three pavilions was nothing. He could still play dumb there, but in the East continent, he didn't even need to think about it. The only way was to fight to the death.

Strength! Lin Yi clenched his fist-he'd fallen to the point where he had to be so careful because he was too weak right now. He could still do things in the North Island, but he was far from enough to go to the East continent!

Otherwise, if he were a powerful beginning stage master, he wouldn't have to worry about anything at all. He could just stand up and take Xinyan away in front of everyone, and no one would dare say anything.

Even someone like Ling Yuanqing wouldn't dare to make an enemy out of a sect-opening powerhouse. Instead, he would be polite and negotiate with him.

But now, all of that was just a daydream. Not only was Lin Yi unable to do anything, he couldn't even acknowledge Xinyan in front of everyone. He could only watch from far away, consoling himself that he'd have a long way to go.

The only thing Lin Yi was happy about was that Xinyan was doing pretty well, and there wasn't any danger to speak of. He didn't have to worry too much about her, and it was fine even if they didn't meet in public this time out of concern.

With that, Lin Yi was even more determined to give up on going to the East continent. He wanted to meet Xinyan, and his top priority now was to get stronger. Only when he was strong enough could his relationship with Xinyan be public.

However, just as Lin Yi made up his mind, there was a sudden uproar at the selection venue.

According to the normal order, there was a cultivator in front who wanted to take the test. He had not yet entered the test field. For some reason, after hesitating for a moment, he suddenly changed his mind. He said to the Academy staff beside him, "I'm not participating in the selection. "

After saying that, the person threw the test card in his hand to the side and turned around to leave. However, the staff member beside him suddenly made a move.

"Hmph, you think you can come and go as you please? Do you think this is your home?" Following a cold snort from the Academy staff, a powerful true energy shot up into the sky before the person could reply. Without saying a word, it directly blasted the person's body.

That person was just an ordinary master of the middle jiedan stage, but this staff member of the Academy was a real master of the middle Yuanying stage. The gap between their strength was simply incomparable.

Caught off guard, the man didn't even have time to react before he was hit by the powerful Zhen Qi. With a miserable scream, he jumped over everyone's Head Like A Kite with a broken string and flew hundreds of feet away, smashing a deep Hole in the Rock ground. Above everyone's head, a mournful mist of blood was left.

The crowd was in an uproar. Everyone was dumbfounded as they watched the unlucky guy who had been sent flying fall to the ground in a sorry state. He twitched and struggled for a long time, but he didn't get up.

Chapter 4320 Dilemma

A busybody at the side stepped forward to take a look, then turned to the crowd watching the show, gloating, "Tsk tsk, the meridians in his four limbs are all broken. This guy can be considered crippled."

Everyone couldn't help but look at each other when they heard this. Giving up halfway wasn't a big deal. It was nothing more than a forfeit. Even if there was a punishment, it would at most be a formality. They really didn't expect the Academy staff to be so ruthless.

"Hmph, a mere ant at the peak of the late Foundation establishment stage dares to impersonate someone to register! This is just a small warning. Since you're preparing to register, you have to think about it in advance. If anyone dares to disturb the order of the selection and waste everyone's time, this old man won't show any mercy next time!" The Academy staff said coldly to everyone. This was obviously killing the chicken to warn the monkeys, causing everyone to unconsciously shrink their necks.

Everyone also came to a sudden realization. No wonder this person suddenly hesitated at the last moment. It turned out that he was only a peak Foundation Stage expert. In this kind of occasion, he actually dared to come and pretend to be someone else. They didn't know what this guy's brain was made of. He really deserved to be crippled.

However, in the crowd, Lin Yi saw this scene and his heart couldn't help but turn cold. He lowered his head and looked at the test card in his hand, cold sweat dripping down.

Looking at this stance, could it be that even giving up halfway was not allowed? Unlike that Foundation peak-Lin Yi fulfilled all the requirements, but he wasn't planning on joining the selection. Wouldn't he end up like that guy?

It wouldn't be a problem if they didn't get the test card in their hands, but the problem now was that because they didn't pay too much attention to it just now, he and Huang Xiaotao had both gotten a test card!

"Brother GE, could it be that once you receive the test card, you can't give up on the selection? I can't even give up?" Lin Yi took a deep breath and asked Ge Wei, who was watching from the side. The guy was the king of information, so he should know about these things.

"Of course not. Since you've all gone to get a test card, you must go on stage to participate in the selection!" Ge wei replied matter-of-factly, ""Brother, think about it. There are nearly ten thousand people here. How much work would it take to arrange so many people for the selection? If you don't have this plan, why would you go get a test card? wouldn't you just be causing trouble for others?"

"Ugh, you're right ..." Lin Yi couldn't help but smile, secretly regretting his carelessness.

If he had known earlier, when the Academy staff had thrown the test cards at them, he would have returned them. Now, this was great, what was originally an insignificant test card had now become a piece of sweet potato.

"Some people only have themselves to blame. I don't know if their brains were kicked by a donkey or if they went into the water. They even want to fish in troubled waters for such a thing. In the end, he could only be like that guy, only to realize that he was hopelessly stupid at the last moment. It was too late to regret it, so he could only say, "serves him right!" Ge wei didn't even look at Lin Yi's expression as he continued to Jabber on.

"If that person didn't go back on his word halfway and went to participate in the selection, only to be discovered to be a perfected Foundation establishment cultivator, what would happen? Is it still the same as just now, where you kill one to warn the others and cripple him?" Lin Yi continued.

"That won't happen. If that's the case, it would only be considered as failing the selection and being eliminated. It wouldn't be to such an extent. Of course, this kind of person would be considered to have knowingly violated the rules and would eventually be blacklisted by the Academy and never be admitted again." Ge wei shook his head and then pouted. "That's why I said that this kind of person is hopelessly stupid. Even if he were to force himself to participate in the selection, he would at most be blacklisted. How could he be beaten into such a miserable state? Tsk tsk!"

"Oh, then if I'm selected, can I not join the Academy?" Lin Yi asked.

"That's impossible. If you don't have any intention of going to the Morning Star Academy, why did you go to get the examination card? you participated in the selection in front of everyone, and you were selected but didn't go. What is this, provoking the Morning Star Academy in public?" Ge wei said with a speechless expression.

"It's not necessarily a challenge to the school, maybe they changed their mind halfway ..." Lin Yi smiled awkwardly.

"That won't do. No matter what the intention is, if this kind of thing happens, it'll be a blow to the reputation of the morning stars Academy. Outsiders will gossip about it. Strictly speaking, this is much worse than what that idiot did just now. If this kind of person only gets his cultivation crippled, it's already a light punishment. If it's more severe, he'll probably die on the spot." Ge wei said with certainty.

Lin Yi was even more speechless, his back drenched in cold sweat. Ge wei's words meant that he'd pushed himself into the fire pit today, and it was too late to turn back now?

"I say, brother, you're asking me these questions. Are you going to go back on your word halfway? are you afraid because you're not strong enough like that guy?" Ge wei suddenly reacted and looked at Lin Yi suspiciously.

"Ah? "No, no, no, I'm just asking. I'm a real golden core Master ..." Lin Yi waved his hand.

"Well, I think you're the same. It's good that you're fine. Otherwise, no one would be able to save you if you really encountered such an unlucky incident." Ge wei warned with a deeper meaning.

"Yes, I know." Lin Yi nodded as if nothing had happened, but his heart had already sunk to the bottom.

Ever since he came to the southern island, other than that idiot Cheng kangtian, everything else had been smooth. Not to mention the baby ginseng, the Wandu golden core fruit, and the star Ink milk, he even met the Great Fire Lion and the great Spider by accident, and now he even saw Wang Xinyan, who he had been thinking about day and night.

Everything looked beautiful, but now, just because of an unexpected negligence, he had been forced into such an embarrassing situation. It was really a pain in the ass.

He couldn't leave just because he didn't return the test card in time-Lin Yi never thought he'd be in such a situation!

He turned around and looked at the surroundings. The whole Zhen Duan square was under the control of the morning stars Academy, and all of them were Yuanying stage Masters. It was impossible to slip out of their eyes. Only one kind of people could leave Zhen Duan square, and that was those who had not been selected. Other than them, no one else was allowed to enter.

This time, Lin Yi's good mood turned into a haze. He was in a dilemma-this was a tricky situation!
