

Bodyguard 4331

Chapter 4331 Breakthrough To The Intermediate Stage Of The Golden Core Stage!

It was hard to guarantee that there would not be people who would form gangs and come to find trouble with him because of Huang xiaotao.

If things got out of hand, there'd be trouble-this was the last thing Lin Yi wanted to see.

Therefore, it was better to keep a low profile and not show his face for the time being. If those people couldn't find him, then the trouble would naturally be gone. They couldn't go and cause trouble for Huang xiaotao anyway. With Wang Xinyan watching, if they dared to cause trouble for Huang xiaotao, Donghai's divine nun would probably take them down in a minute. Ling Yuanqing and the others wouldn't have any objections either.

However, even if he was hiding in the inn, Lin Yi couldn't just stay idle. He was in a hurry to increase his strength. To him, the best way to increase his strength was through the Golden core.

In addition to the star Ink milk and the nascent ginseng, he also had the two Wandu golden core fruits he had found on the grey-robed man.

The Wandu golden core fruit wasn't of much use to Wang Xinyan, who was in the early nascent Soul Stage, but to Huang xiaotao, who was in the early golden core stage, it was a high-quality item that could quickly increase her strength. Lin Yi was planning to keep both of the fruits for Huang xiaotao, but Wang Xinyan stopped him.

"The Golden core is very difficult for ordinary people, but for US Masters who have just started our mountain, it's basically something that's easy to get. She has prepared it long ago, so sister Xiao Tao doesn't have to worry about it at all, so it's unnecessary for you to give it to her. You might as well keep it for yourself." Those were Xinyan's words-she'd give all of them to Lin Yi if she had any decent stuff on her, after all. She was Donghai's disciple, and it'd be nice to lean on a tree.

Two Wandu golden core fruits ... If nothing went wrong, Lin Yi was confident that he could make two golden cores, or even more if he was lucky. But before that, he had to gather the other supplementary herbs. After all, the Wandu golden core fruit was only the main material for making the Golden core.

After coming to Sky Class Island and a year of cultivation, Lin Yi's medicine storage in the Jade space was starting to take shape. It didn't just include a lot of commonly used herbs, he even had some rare herbs on the market. Now that he was planning to make a golden core, Lin Yi's own reserves were enough to meet 70 - 80% of the requirements.

As for the rest of the ingredients, Lin Yi believed that the spirit herb stores and trade associations in zhenduan city could provide them, but he would need to go out for a while.

For safety's sake, Lin Yi even put on the thousand-thread mask before he left, changing into a martial artist's appearance again. This was a completely unfamiliar face in zhenduan city, and no one would suspect anything.

As expected, a martial artist like Lin Yi was too common and ordinary, especially in zhenduan city where there were so many masters. This kind of ordinary martial artist who didn't look like a genius at all couldn't even catch the attention of the people around them. They didn't even bother to look at him, let alone suspect him.

He finished the rest of the ingredients and started making the Golden core. With his previous experience, Lin Yi was more than familiar with the process now. With the automatic refining of the Shennong medicine cauldron, he could avoid accidents to a large extent.

This time was no exception. The whole process was under Lin Yi's control from the beginning to the end, and he finally made supreme quality golden cores, but to Lin Yi's slight regret, there were only two.

He'd always get surprises when he made the Foundation Stage golden core before, but thinking back, the two Wandu golden core fruits he got from the man in gray and the supplementary ingredients he bought at the last minute were just average.

Under such circumstances, it was already very rare to successfully produce two Supreme-grade pills. It was impossible to have more than this. There was no such good thing in the world.

Lin Yi's heart was pounding as he looked at the two golden cores in his hands. To be honest, because of Wang Xinyan, because of the stimulation of so many powerful Masters in the morning Star Academy, his desire for power was much stronger than ever.

Now that Huang xiaotao was gone, it meant that he couldn't use his strongest raging fire Eight Trigrams palms anymore. It was like suddenly crippling an arm. Even if Lin Yi had other powerful trump cards, he couldn't help but feel a little uncomfortable and even a little scared.

After all, in terms of strength level, he was only an early gold core expert. Whether it was the Zhen Duan Sea area or the Yu Luo Sea area, they were both places where the good and the bad mixed together. There were many nascent soul experts. Lin Yi's strength wasn't enough at all. If he really encountered trouble, he wouldn't even be able to protect himself.

Now that the Supreme-grade golden core was ready, he would not hesitate at all.

Lin Yi held his breath and focused as the Golden core entered his stomach. He suddenly felt the meridians in his body being ignited, and the pain was unbearable.

The saying "pain can not be understood" was also applicable on the path of cultivation. Once the meridians in the body were in severe pain, it meant that they were undergoing a transformation. It could be growth and becoming stronger, or it could be Qi deviation. It was just a matter of the degree.

Lin Yi had taken the Golden core once before, but it was to break through to the Golden core stage. It was a perfect breakthrough with the star inkstone, and the earth-shaking change was completely different from this simple upgrade.

The star inkstone was the one that brought him the most pain back then, but now it was just his meridians burning. It wasn't any better than that time, though.

However, Lin Yi could only grit his teeth and endure it. He didn't dare to let out even a bit of his Qi, because the Qi in his meridians was increasing rapidly. If he let it out, it could lead to serious consequences. It could even turn into Qi deviation.

After four whole hours, even Lin Yi's endurance was starting to get a little unbearable. The burning pain in his meridians finally weakened, and when it returned to normal, Lin Yi suddenly realized that his meridians were a lot stronger than before, and the amount of pure Qi in them was also much more than before!

"This realm is ..." Feeling the new power in his body, Lin Yi was stunned and exclaimed in disbelief, ""Mid-stage golden core!"

He'd only taken one golden core, and even if it was the highest quality, Lin Yi didn't think he'd be able to break through. In his initial expectations, reaching peak early golden core was already a great success!

Chapter 4332 Encountering Pirates Again

However, he had not expected to advance two levels in a row, from the early jiedan stage to the middle jiedan stage!

Lin Yi was stunned for a long time before letting out a long breath. He finally understood the whole situation and muttered to himself, "No wonder it hurt for so long just now. No wonder I was stuck at the threshold of the early jiedan stage and couldn't break through. So it was like this."

As the strongest golden core stage practitioner who had broken through perfectly, theoretically, he should be able to level up quickly and easily, at least within the entire golden core stage. However, Lin Yi was stuck at the early golden core stage.

To be honest, Lin Yi had accumulated a lot of battle experience during this period of time. From the inner sect competition of the three pavilions in the North Island to all the encounters he had after leaving the South Island, he had been fighting against golden core and nascent soul masters, and each one was stronger than the last.

According to reason, even the bottleneck should have loosened a long time ago, but after so long, there had been no signs at all. As a result, now that he had taken a Supreme-grade golden core, he had directly broken through to the middle stage of the Golden core. This was really a joke of fate.

Lin Yi thought to himself-it was probably because he'd reached the point a long time ago, but he just lacked the opportunity to break through. Now that he'd taken the Supreme-grade golden pill, the opportunity was triggered, and with the Golden pill's own effects, it made sense for him to level up two times.

Facing this unexpected surprise, Lin Yi, who was still a little depressed, suddenly became excited. A perfect golden core stage master was above ordinary golden core stage Masters, and with his current strength as a mid-stage golden core, even if he went up against a normal full-stage golden core Master, he would be completely suppressed.

And if he used his strongest trump card, Lin Yi had a strong feeling that even if he was alone, he could defeat an original leveled master!

Feeling the new energy in his body, Lin Yi looked at the remaining golden core and was tempted. He believed that with his potential as a perfect golden core, he could level up again if he continued to use it, but Lin Yi suppressed the tempting thought.

It was good to take a step further, but cultivation was about moderation. If one was greedy for speed, it would be better.

No matter how powerful and harmless the effects of the elixir were, they were only supplementary items in the end. Only the results of cultivation that were produced through constant grinding would be the true foundation.

Although he'd successfully broken through to mid-stage golden core, Lin Yi didn't leave the inn immediately. He stayed in the inn to practice-he'd already made arrangements with Xinyan and Xiaotao, anyway. Rather than risking his life to look for them again, he'd rather stay in the inn and stabilize his strength. When he got stronger, he wouldn't have to worry about not meeting them again.

For the next few days, Lin Yi didn't step out of the house at all. It was only when he felt the Qi in his body become as smooth as his arm again, and his strength completely stabilized, that he finally stepped out of his room for the first time. He decided to strike a balance between work and rest and went out for some fresh air.

Lin Yi didn't put on the mask this time-the Morning Star Academy's selection was over, and the people should've left already. There was no need for him to do anything.

The inn that Lin Yi was staying at wasn't just an Inn, it was a pretty big restaurant, and it was quite famous in the entire zhenduan city. The first and second floors were for drinking and eating, and only the third floor was used for resting.

Lin Yi ordered a few signature dishes and sat down at a window seat. He enjoyed the view outside as he ate the signature dishes. It was a rare moment of relaxation.

Lin Yi had to admit that this restaurant's signature dish was really good. It was famous for all kinds of seafood, and was considered a local dish of the South continent. The flavor was different from any of the other dishes Lin Yi had eaten before. It was spicy, fresh, and fragrant, leaving a lingering aftertaste.

Lin Yi was sitting alone, and not far behind him were two men drinking. Lin Yi glanced at the two men inadvertently, and subconsciously felt that they looked familiar, but he couldn't remember where he'd seen them before.

"Big brother, those people from the Morning Star Academy should have left by now. Why is the dock still under martial law? our ship of goods is stuck here. We've been saving it for almost a month. It's F * cking F * cked up!" One of the men in green cursed.

"I'm also wondering about this. They've already left, so why are they still putting in so much effort to impose martial law? but I estimate that it should be able to reopen in two days ..." The other black-shirted man said while drinking.

Lin Yi's heart skipped a beat when he heard the two's familiar voices. He secretly examined their strength-they were both peak late golden core. There was no mistake, these two were the Pirates who robbed the goods!

Back then, there were four peak late golden core cultivators who had robbed the goods. The two people behind him were two of them!

Lin Yi didn't have a deep impression of these Pirates because he hadn't fought them before, but it hadn't been that long. He could still recognize them even though they were sitting so close to each other. Also, it seemed like they hadn't disposed of the goods they took from before?

But Lin Yi remembered clearly that the Pirates left zhenduan city after throwing them at the dock. Why did they come back now?

With Lin Yi's current strength, even if all four of them came at him at the same time, he wouldn't have a problem, let alone two peak late-stage golden core cultivators. He wasn't afraid at all and continued to eat quietly while listening to the two talk.

"Damn it, although we did it smoothly this time, and the four cowards were tactful and didn't resist at all, we were really unlucky after that. We had already set sail, but we were forced back by the storm. When the weather finally got better, the people from the Morning Star Academy came and sealed the dock again ..." The man in green was speechless as he drank his wine.

This answer answered Lin Yi's question-these people were forced back by the storm. No wonder they were still stuck here even though they'd left.

"Alright, second brother, you can stop complaining. You've said this dozens of times, and I've heard it so many times that I've gotten calluses in my ears. When we give this batch of goods to that shopkeeper Wei, think about the remuneration we agreed on before, tsk tsk, not to mention a month, even if we delay for half a year, it would be worth it!" The black-robed man laughed as he consoled.

Shopkeeper Wei? Could it be Wei Zhaotong of the Hong Chamber of Commerce? Lin Yi heard this and shivered, but after thinking about it, he felt that it wasn't possible. This guy was the one Wei Zhaotong entrusted to the Qitian bodyguard agency. It didn't make sense for him to find someone to Rob his own goods. They probably just had the same surname.

Chapter 4333 Who Are You?!

"Hehe, that's true. This deal will be enough for the four of us to indulge in debauchery for several years!" The green-robed man was instantly overjoyed. He couldn't help but sigh, "Tsk tsk, we brothers have worked so hard and risked our lives to do this kind of business, but we still can't earn as much as people like shopkeeper Wei!"

"That's right. It's his own goods. Not only does he eat them himself, but he can also ask the bodyguard agency for a sky-high compensation. No one can find fault with him. He even has to bow and apologize to him. He's doing a business without capital. I'm starting to wonder if this guy is in the same business as us!" The Man in Black laughed.

He was obviously surrounded by outsiders who were drinking and eating, but he still dared to speak in such an unscrupulous manner on this occasion. Moreover, the other people around him didn't show any strange expressions when they heard him. It could be seen from this that the Zhen Duan sea was so chaotic that they were already used to such things.

Lin Yi, however, was completely shocked when he heard this. He didn't think that the mastermind behind this was actually Wei Zhaotong himself!

Lin Yi had always thought it was strange. The route they took was well-hidden, and it was impossible for outsiders to know, especially with the fog. If they didn't know where the route was, the possibility of them finding the ship in the fog was almost zero.

But the truth was that these Pirates were all prepared-they didn't even need to hesitate or chase after them. When Lin Yi and the others "delivered the goods to their door," they just rushed up and took them. The process could only be described in two words-clean and neat.

Lin Yi didn't think that the strange thing would happen here. From the beginning to the end, it was all a show that the Hong Chamber of Commerce put on!

Taking their own goods and then asking the agency for compensation was no longer a normal mole. It was Wei Zhaotong who dug a hole for the Qitian escort agency to jump into. He was doing it for the sake of justice and even wanted them to apologize. He also dug a hole for Lin Yi and the others.

Lin Yi really didn't think that Wei Zhaotong, as the manager of the Hong Chamber of Commerce branch in the Yu arc Sea area, would be such a despicable and shameless person!

This was an old friend that Hong Zhong had introduced to him. With Nakajima's Cai Zhongyang as a precedent, Lin Yi thought that all of Hong Zhong's friends would be like this. He didn't expect Wei Zhaotong to have such a bad character. It was clear that even an experienced and prudent person like Hong Zhong would make mistakes sometimes.

But thinking back, when he'd introduced him to Lin Yi, Hong Zhong had said that although he and Wei Zhaotong were old friends, they hadn't seen each other for a long time. People always change, and over time, Wei Zhaotong's eyes would be blinded by profit, which wasn't a big deal.

Since that was the case, Lin Yi didn't need to save face for this guy anymore. According to his original plan, he was going to wait for the pier to lift the ban and go back to the Yu Luo Sea area, but now, he had to change his mind.

If he didn't meet these two pirates, he would have planned to go out for a walk after dinner. After all, it was rare to come to zhenduan city, but he gave up on that idea now. He was going to keep an eye on these two pirates!

Lin Yi ate in silence, waiting for the two behind him to make their next move. After an hour, the two finally had their fill.

"Second brother, I'll go back to my room first. You go to the dock and take the place of third and fourth brother. Let them come out to relax and have a drink and a meal, so that they don't complain and gossip behind their backs." After the black-clothed man gave his instructions, he stood up and went upstairs.

Lin Yi blinked-this guy was staying in the same Inn as him! No wonder they'd bump into each other here! The old saying was right-enemies were bound to meet.

Although the green-robed man was a little reluctant, he still did as he was told and got up to leave.

The corner of Lin Yi's mouth curled up as he used his spirit sense to lock onto the man. He got up and followed the man. The man was a peak late-stage golden core cultivator, but in front of Lin Yi, who was a mid-stage golden core cultivator, he wasn't an ant. He wasn't an opponent, either-he was just a weak existence that could be killed in seconds.

The man didn't even notice Lin Yi's spirit sense locking onto him. He made his way to the dock and jumped into a cargo ship.

Lin Yi looked at the ship-it looked very familiar. It was the same ship he'd used for the escort mission, but the Qitian escort agency logo was removed from the bow.

If it was just an ordinary cargo ship, during the martial law period, it could be deposited in the dock next to the dock, and there was no need to leave people here to guard it. However, these guys had a guilty conscience. They had robbed the cargo ship halfway, and they were still counting on the things on the ship to make a big profit, so they naturally would not feel at ease.

Lin Yi waited outside the dock. He had his spirit sense locked on them, so he wasn't afraid of them running away. After a while, two men came down from the ship. They were the other two pirates who robbed the goods with them. They were the third and fourth brother that the Man in Black had mentioned.

The two of them chatted and laughed as they walked out of the dock. It was obvious that they were looking for a place to relax and have fun. In other words, only the man in green was left on the cargo ship.

Lin Yi smiled as he walked up to the ship and jumped onto the deck.

With that, Lin Yi walked towards the cabin. He used his spirit sense to lock onto the man in green.

"Why did you come back? Didn't I tell you to go eat?" Since Lin Yi didn't hide at all, his footsteps were heard clearly by the man in green. He thought that it was third or fourth brother who turned around.

At this moment, the man in green was lying on a wooden bed with one leg crossed and drinking wine. He was enjoying himself and resting with his eyes closed.

"No need. I've already eaten, and I'm eating with you guys." Lin Yi's lips curled up into a playful smile.

"Who is it?" The green-robed man froze for a moment before reacting. His face paled as his peak late-stage golden core aura burst forth. He pointed at Lin Yi and said, "Who are you? how dare you board my ship? do you want to die?"

"Oh? Are you sure this ship is yours?" Lin Yi couldn't help but smile as he leaned against the door, "But from what I know, this ship doesn't seem to be yours. This is from the Qitian escort agency, right? or did you guys join the agency?"

Chapter 4334 No Need To Worry

"How did you know ..." The man blurted out subconsciously and quickly covered his mouth, examining Lin Yi up and down, ""Who the hell are you? if you have the guts, tell me your name, or I won't be polite with you!"

If it was any other time, the man in green would've killed Lin Yi already, but he didn't dare to do it now. After all, the dock was under martial law, and he didn't want to make a big scene. After all, this was a stolen ship, and it would be troublesome if he got exposed. Also, he didn't know Lin Yi's real strength yet.

Looking at this person's posture, he didn't come with good intentions. Moreover, his momentum was condensed and not revealed. If he was a jiedan stage expert or even a Yuanying stage master, then he would suffer today.

"Hehe, it's true that a noble person forgets things. If you can't remember, then forget it. I don't have the habit of telling the dead their names." Lin Yi said with a faint smile, not thinking much of it.

"What?" The man in green was enraged. He looked at Lin Yi carefully and felt that he looked familiar. After a while, he pointed at Lin Yi and shouted, "You're the bodyguard!"

"Your memory is not bad. That's good. Since you've remembered it, at least you won't die in peace. It's a good thing for you." Lin Yi was still leaning against the door as he smiled indifferently.

"Hmph, you died with your eyes wide open? Hahahaha!" The green-robed man wasn't as nervous as before after seeing Lin Yi's strength. He laughed with his hands to his stomach, "You're just an early jiedan stage ant, but your tone isn't small at all. Hehe, the four of you didn't even dare to fart in front of this old man, but now you're the only one left, and you still dare to come to this old man and act tough. You're an old man hanging himself, are you tired of living?"

"Is this funny?" Lin Yi's lips curved into a mocking smile.

"Of course it's funny. I've been out for so many years, but I've never seen an idiot like you. I spared your dog life before, and now you dare to run back to the ship on your own initiative. It's really rare to see someone looking for death so urgently!" The green-robed man scornfully said, "I say, kid. Qitian bodyguard agency is only giving you some spiritual jades. The reward is pitifully little. Do you really have to risk your life for them?" Or do you think it's very heroic and impressive to take back the goods we robbed?"

"Hehe, you're thinking too much. There's a ready-made boat here. I'm just taking a ride. At the same time, I'm also doing what I'm entrusted with. Who asked you to be so unlucky to encounter me again?" Lin Yi said calmly.

"Hehe, who are you calling unlucky? An early jiedan stage trash is shamelessly boasting in front of this old man. Anyway, I have nothing to do, so today this old man will teach you how to write the word "death"!" With that, the green-robed man charged at Lin Yi.

"Oh? Aren't you afraid that your stolen ship will be exposed if you make a scene?" Lin Yi's lips curled up into a smile, but he still crossed his arms and didn't attack.

"Hmph, so this is what you're relying on? you think I'm afraid of being found out and won't dare to make a move on you?" The green-robed man did not stop walking as he laughed, "Hahahaha, you really are a hopeless idiot. Where do you think this place is? This is the chaotic Zhen Duan Sea area, where murder and arson can be seen everywhere, and no one will care about it. Even if you tell them that I'm a pirate, do you think anyone will help you? I'm so stupid!"

"So, even if someone dies now, no one will care?" Lin Yi said unhurriedly as he looked at the man in green who was above him.

"Of course, even if I dismember you in public, no one will meddle in my business, hahahaha!" The green-robed man laughed sinisterly as he suddenly slashed down from above. His scimitar was much shorter than the average saber and was usually hidden behind his back, so it was difficult for outsiders to see it. Once he attacked, he was often caught off guard.

But Lin Yi wasn't surprised at all. He turned his head and turned his feet, dodging the sudden attack. The blade just brushed past his face. It was a close call.

"Thank you for your reminder. It seems like I don't have to worry about attacking you anymore." Lin Yi smiled lightly.

"Hmph, you do have some strength!" Lin Yi's determined strike was dodged so easily, and the man in green was shocked. The aura that Lin Yi just displayed wasn't that of an early golden core, but a mid-stage golden core. There was a two-level difference between them.

Before he could finish his sentence, Lin Yi took advantage of his opponent's opening and struck out with his palm. It was the 28th style of the raging fire Eight Trigrams palm!

"Haha, you're really an idiot. I just sold you a flaw, and you fell for it. So what if you're in the intermediate stage of the Golden core realm? you're still an ant waiting to be slaughtered by me!" The green-clothed man's curved blade suddenly split into two, slashing out at Lin Yi's raging fire Eight Trigram palm. His curved blade was a combination of two blades, and this was an unexpected change of move. If his opponent wasn't careful, he'd be at a huge disadvantage.

Plus, the difference in strength between them was obvious. In the green-robed man's eyes, a head-on fight like this was a sure win-there was only one result, and that was Lin Yi's palm and body being cut in half!

However, in the next moment, the man's smile froze. Before his blades could reach Lin Yi, his entire body was enveloped by the fiery energy of the twenty-eighth style of the raging fire Eight Trigram palm.

Bang! Bang! A large hole suddenly appeared in the chest of the green-robed man. He flew backward and crashed onto the deck not far away. Then, his eyes lost their light and he fell to the ground powerlessly, becoming a complete corpse.

He would never have thought that he, a peak late Jindan expert, would not be a match for a mere mid Jindan opponent. He really died with his eyes wide open.

From the beginning to the end, they had only exchanged blows once, and they had killed each other in one blow. No one outside had even noticed this movement. Of course, even if someone had noticed it, as the green-robed man had said, they would never come and meddle in other people's business. In the Zhen Duan Sea area, the price of meddling in other people's business was often their lives, so no one would do such a stupid thing.

Lin Yi glanced at the unrecognizable body of the green-clothed man, not intending to hide it at all. He let the body lie on the ground as he found a corner to sit down. After all, he was an assassin, and corpses didn't bring him any discomfort. He'd gotten used to it before he left the ship.

Chapter 4335 Something Big Happened

Of course, leaving the green-clothed man's body here would alert the others when they returned, but Lin Yi didn't plan on letting these Pirates go.

Even if three peak late-stage golden core cultivators came at him at the same time, Lin Yi wouldn't be able to threaten them at all. If these people were tactful, Lin Yi could consider sparing their lives. If they

weren 't, he'd have to follow in the footsteps of the green-robed man. They weren't good people, after all, and killing these evil Pirates was for the good of the people.

Lin Yi sat in the cabin with his eyes closed, resting. He waited for the whole day until noon the next day when there was a commotion outside. It wasn't the Pirates returning, but the commotion outside the dock.

"The martial law has been lifted for so long, and we can finally go out to sea. We've been screwed over during this time. We'll lose a lot of myriad spirit jades!" Not far away, some people were rejoicing and complaining at the same time.

"Forget it. Your passenger ship is small and broken. It can't even carry a few people on a trip. It might capsize at any time if it encounters a storm. You've even lost tens of thousands of spiritual Jade. It's better for you to become a pirate and Rob them ..." The people around him laughed disapprovingly.

"Tsk, I'm too lazy to talk nonsense with you. I'll go out to sea now and bring back some good things in a few days. You'll see how much I've earned!" This person didn't waste any words and immediately called out to the crew members to prepare to set out to sea.

The surrounding area was filled with similar noises. Everyone was rubbing their hands in anticipation, ready to set sail immediately and quickly earn back all the spiritual jades they had lost during this period.

It seemed that the ban had really been lifted! Lin Yi's heart skipped a beat, but he didn't move his feet. He was still sitting in the cabin-the Pirates should be back soon.

Sure enough, less than an hour later, the black-robed man leading the Pirates walked in from the entrance of the dock with an ashen face. Behind him were the other two frowning people, the third and fourth.

"Good-for-nothing! At a time like this, he still went to the brothel to play with women and even got into a fight with others. Could it be that he couldn't bear it for just two days? Damn it, if I didn't see you two, you two would have been chopped up and fed to the dogs!" The black-robed man cursed angrily.

"But boss, didn't you go there yourself? "Otherwise, how could they have found us ..." Third and fourth looked at each other and retorted weakly. They were drenched from head to toe, like two drenched chickens. Even so, they could not hide the strong smell of alcohol on them.

"Damn, you still dare to be stubborn!" The black-robed man's face reddened, and he immediately flew into a rage out of humiliation, ""If I didn't find you two bastards, where would I go at this time? do you think I'm as blind as you? I only went to bring you two back because the ban on the dock has been lifted. It's time to do business, don't give me any F * cking trouble!"

"Didn't boss also hear about the lift of the dock's ban from the brothels ..." Third and fourth looked at each other but didn't dare to speak anymore. They could only lower their heads and not say a word.

The three of them quickly walked over and jumped onto the boat. They landed on the deck at the same time and heard the Man in Black shout, ""Second brother, come out and work. We've finally managed to wait until the ban is lifted. We have to hurry and set off. Otherwise, shopkeeper Wei is getting impatient and that old man might regret his decision!"

With that, the Man in Black walked straight to the cabin, while the third and fourth brothers were responsible for lowering the sails. From the beginning to the end, no one came to the cabin to take a look, not to mention that their second brother had long been a corpse.

With such poor vigilance, he actually had the nerve to be a pirate? Lin Yi didn't know whether to laugh or cry, but since the man didn't come in, he couldn't be bothered to go out. He continued waiting in the cabin.

A while later, the ship set sail, and Lin Yi heard the Man in Black's voice again, "What's going on? did second brother drink too much and laze around in there? Third and fourth, the two of you go and call him out. After we meet shopkeeper Wei, we'll have to discuss how to extort more money from this old man!"

"Alright!" No. 3 and No. 4 responded and walked towards the cabin. However, as soon as they opened the cabin door and saw the scene in front of them, the two of them were stunned at the same time. Cold sweat began to flow down involuntarily.

The Man in Black was waiting in the cockpit. Seeing that there was no movement for a long time, he couldn't help but curse again, ""Why aren't you here yet? what can you do if you're so slow?"

"B-boss is in trouble! Something big has happened!" No. 3 and No. 4 suddenly ran over and hid in the cockpit as if they were running for their lives. They were out of breath.

"You're the one in trouble. How dare you curse me!" The black-clothed man cursed, not knowing what was going on.

"No... No... Old, old second was killed by someone, he died a terrible death!" The third and fourth brothers were panicking and stammered as they tried to explain.

"What? How is that possible?" The Man in Black was shocked and obviously didn't believe it. After all, the second brother was a master at the peak of the late golden core stage and liked to hide his trump cards. He had always been the one who tricked others, and he didn't have any irreconcilable enemies in zhenduan city. How could he be killed so easily?

"I ... I'm not lying ... He's really dead. He's in the cabin!" The third and fourth brothers waved their hands.

The situation was so serious that the black-clothed man could not care about steering the boat anymore. He quickly walked to the cabin, and the panicking third and fourth brothers followed behind him.

Stepping into the cabin and looking at the miserable corpse on the ground, even the Man in Black couldn't help but suck in a cold breath, a chill running down his spine.

"Who is it?" The Man in Black suddenly shouted, releasing his peak late golden core aura without holding back. His eyes were wide open as he looked at a corner of the cabin, where Lin Yi was.

"Haha, you finally see me. You Pirates are so amateurish ..." Lin Yi curled his lips as he stood up and smiled at the three.

Third and fourth brother were startled, and even their tipsy state was gone. They only saw the body, not Lin Yi!

"Trash!" The Man in Black cursed with an ashen face. It was unknown whether he was cursing the dead second brother or the third and fourth brothers behind him.

As far as Lin Yi was concerned, the two words were pretty accurate. If second brother wasn't trash, how could he have been killed so easily?

Chapter 4336 Take Care

As for third and fourth, they had only drunk a little wine and had become like this. Even a living person like him couldn't find out that they were in the cabin. That was really a waste opening the door for a waste.

Even if Lin Yi was sitting in a hidden corner, he didn't hide his aura on purpose. A normal peak late-stage golden core Master would be able to find him with just a sweep of his spirit sense, just like the Man in Black just now. He found Lin Yi immediately after he sensed something was wrong!

In contrast, the third and fourth brothers were unworthy of the title of peak late Jindan stage. No wonder they could only be the younger brothers, while the Man in Black could be the boss.

"You killed second brother?" The Man in Black was on full alert, watching Lin Yi's every move. Third and fourth brother behind him were also nervous as if they were facing a great enemy.

They couldn't see Lin Yi's real strength, but from the way he died, they could tell that he was killed in one hit. Since the opponent was someone who could kill a peak late golden core stage master in one hit, it was natural for the three of them to be afraid. After all, they were only peak late golden core stage.

"That's right. If the three of you don't know what's good for you, he'll be your lesson. " Lin Yi smiled faintly as he walked towards the three.

The Man in Black, along with his three and four brothers, looked at each other and backed off, all the way to the deck. They didn't dare to attack Lin Yi.

"Who are you, and why did you kill my brother?" The Man in Black had no way to retreat, so he finally braced himself and asked again in a deep voice. He subconsciously thought that this man might be an enemy of his second brother in zhenduan city. It was common for him to start a killing spree over a single disagreement.

"Oh? Do the three of you really not remember me?" Lin Yi smiled faintly as he breathed in the fresh air.

The Man in Black was stunned. Could it be that this person wasn't second brother's personal enemy?

"I remember now. You ... You're that bodyguard!" Ling suddenly pointed at Lin Yi. He had a good memory-he couldn't see clearly in the dark, but now that they were on the bright deck, he immediately remembered.

"Bodyguard?" The Man in Black and third brother reacted slowly, and it took them a while to react. They sized Lin Yi up and were equally shocked, ""It's you indeed!"

"Not bad. Your memory is a little better than your second brother 's. Alright, if you don't want to die, you'd better sail the ship obediently." Lin Yi didn't seem to care about the three peak late-stage golden core cultivators at all.

"Ha?" The three looked at each other strangely before bursting into laughter as if they'd just heard the funniest joke in the world. The Man in Black pointed at Lin Yi and laughed evilly, "Brat, are you F * cking sick in the head? you're just a piece of trash, and you want to play dirty with me? Hahahaha!"

Old San and old si, who were originally panicking, also laughed wildly. Previously, they were too shocked to see old two's body, and secondly, they were still drunk, so they looked so embarrassed. But now, after knowing the other party's background, they were no longer in a panic.

If they didn't remember wrongly, the kid in front of them was just an early jiedan stage trash. In front of them, three peak late jiedan stage experts, he was no different from an ant that could be easily killed.

"The corpse is clearly right there, yet you still want to think that everything is under your control. Don't tell me that all of you Pirates are such self-deprecating bullies?" Lin Yi mocked.

"Hmph, brat, I don't know what method you used to kill my second brother, but it was nothing more than a sneak attack or a drug. You want to use my second brother's death to threaten me? I'll tell you the truth, these little tricks were left behind by me when I first debuted, hahahaha!" The black-robed man laughed in disdain.

"Hehe, if that's the case, I have nothing more to say." Lin Yi's eyes turned cold, but he asked before he attacked, ""I have a question. Don't you feel sad that your second brother died so miserably?"

"Sad? "Haha, an ant is just an ant. He doesn't even understand the law of the jungle. His death only proves that he's not strong enough, and it has nothing to do with us. With his death, we'll have one less person to share the spoils, and we'll get more spiritual Jade. We should thank you for your good deed!" The black-robed man laughed in disdain.

Behind him, third brother and fourth brother didn't look sad at all. Instead, their eyes lit up, as if they really felt that second brother's tragic death was not a bad thing, but an unexpected joy!

"I see, I know." Lin Yi shook his head faintly. If even their brothers treated them this way, then these people were beyond saving.

"You don't know sh * T. Do you know how you're going to die next? You've already proven your stupidity by boarding our ship alone. You're beyond redemption!" The Man in Black sneered and scolded the two people behind him, ""What are you doing? hurry up and kill him!"

As he spoke, the Man in Black backed away quietly, his eyes flashing. He was clearly a little afraid of Lin Yi, not as arrogant as he was earlier.

It was true that if it was a sneak attack or a drug, even a master at the peak of the late Jindan stage could be killed by an early Jindan stage cultivator. But who was the second brother? he was an expert in underhanded means. How could he fall for someone else's trick so easily?

Therefore, it was very likely that the kid in front of him was not as simple as he looked. If he was not careful, he could easily be defeated. To play it safe, it was better to let the other two attack and see if it was a trap.

Third and fourth didn't even realize what was going on, and after the Man in Black scolded them, they laughed and attacked Lin Yi. Killing an early gold core chicken was as easy as turning their hands!

The guy in the lead was quite cunning! Lin Yi's lips curled up as his body flickered and disappeared.

Old three and old four froze-they weren't as stupid as they thought they would be. They were going all out just now, trying to get the first move, but they lost track of Lin Yi all of a sudden.

The two tensed up and quickly used their spirit sense to capture Lin Yi's position. However, when they found Lin Yi's position, their expressions changed. Lin Yi was standing behind them, not even one step away from them!

"Take care." With a calm voice, Lin Yi opened his palms, and before the two could react, his raging fire Eight Trigram palm hit them in the middle of their backs.

Chapter 4337 Heading To The Saliva Peng Island

Bang Bang! With two muffled sounds, the third and fourth brothers each spurted out a mouthful of blood. Like kites with broken strings, they were directly sent flying dozens of feet away and fell into the sea. It was unknown whether they were Dead or Alive.

The leader of the Men in Black was stunned when he saw this scene. He stood there for a long time without saying anything. Even if they were slightly weaker than him, his third and fourth brothers were still Masters at the peak of the late golden core stage. Who would have thought that they would be killed so easily under his eyes?

Because the pier had just been unsealed and they were not far from the pier, there were many other ships that were going out to sea. When they saw the two people fall into the sea, they came out to the deck to watch the show, but no one was nosy. They only watched and discussed for a while before taking a detour.

After sending third and fourth away, Lin Yi's eyes fell on the Man in Black. The man's first reaction wasn't to resist or run, but to kneel down.

"Big brother, oh no, senior! You must be a nascent Soul Stage senior. I'm sorry, I was wrong. We were blind to have offended you. Please be magnanimous and spare my lowly life. I will never forget your great kindness!" The Man in Black hurriedly knelt down and begged for mercy. He didn't even care about his image as a golden core stage expert.

To be able to send two peak late-stage golden core cultivators flying right in front of him, Lin Yi had to be a master of the original level!

Now that they thought about it, they had actually robbed this person's tribute. They could only say that the ignorant were fearless. They were also F * cking lucky. If this person had not deliberately hidden his strength and not attacked, they would have died without an intact corpse. They would not have been able to live until now.

As he desperately begged for mercy without any integrity, the Man in Black was secretly rejoicing. Fortunately, he had been more careful just now and did not join in the attack. Otherwise, he would have been like his third and fourth brothers, sinking to the bottom of the sea.

He carefully observed Lin Yi's face-whether he lived or died, it was all up to the man. It wasn't that the man didn't want to run, but the strength Lin Yi just revealed was too shocking. He couldn't run even if he wanted to.

Lin Yi sized the man up, his face expressionless and silent. The man's heart was in a mess-the pressure of being in someone else's hands and waiting for a verdict wasn't something a normal person could handle.

Even though the black-clothed man thought he had seen countless storms, he couldn't hold it in at this time. He didn't even dare to take a deep breath. He went from half-kneeling to half-lying on the ground, almost peeing in his pants.

"Xiao hei, how do you think I should deal with you?" Lin Yi said suddenly.

"Little black?" The Man in Black froze, raising his head to look at Lin Yi.

"Are you not Xiao hei? Then what's with your black shirt, black pants, and the black ribbon on your head?" Lin Yi glanced at him.

"Ah? Oh, yes, yes, senior is right, I am Xiao hei!" The Man in Black quickly nodded, but the corner of his mouth kept twitching. 'I'm dressed like this to show off my might and aura, so that people can tell that I'm not to be trifled with. Why did I suddenly become little black? is this a F * cking name ...'

"Tell me, do you want to die or live?" Lin Yi asked playfully.

"I want to live, of course I want to live!" The Man in Black answered immediately. If he was not at his wit's end, who would be willing to die just like that? he still wanted to live a good life and enjoy a few more centuries.

"You want to live? Fine, I'm not interested in killing anyway, so I'll fulfill your wish. " Lin Yi nodded.

"Re ... Really?" The Man in Black was overjoyed. He quickly kowtowed and said, ""Many thanks, senior! Thank you, senior! I will never forget your great kindness. May we meet again!"

As he spoke, the Man in Black hurriedly got up and turned his head, ready to jump into the sea. Compared to the boat, he would rather jump into the sea. Even if he was not good at swimming, he would not dare to continue to stay on the boat. What if this demon changed his mind and still felt that it was better to kill him? what should he do then?

"Come back!" Lin Yi's voice turned cold, and the Man in Black shivered in fear. He froze in his steps and waited for his punishment.

"S-senior, do you have any other instructions?" The black-clothed man said as he suppressed the trembling in his heart.

"Did I say you could leave?" Lin Yi said with a cold smile.

"But ... But ..." The black-shirted man's heart suddenly sank to the bottom of the valley. He stammered for a long time and couldn't speak. At this moment, there was only one thought in his mind. Damn it, we're done for. This demon really went back on his words!

"Sail the ship!" Lin Yi ordered coldly. The reason he left this man behind was to help him drive the ship.

After all, he had no experience in sailing alone. Even if he could learn how to control a ship, it would be easy for him to master it with his ability. However, controlling a ship and sailing were two different

things. If he encountered any accidents along the way, he might not be able to deal with it alone. It was better to have an experienced person by his side. As a pirate, the Man in Black in front of him must be an expert. He was the perfect candidate.

"Ah? Sail the ship?" The Man in Black Thought that he was dead for sure, but he was overjoyed when he heard Lin Yi's words. He wasn't going to kill anyone, but as long as he could keep his life, he'd do anything even if he had to eat sh * t, let alone sail the ship! He nodded and asked, "Yes, yes. Senior, where are you planning to go?"

"Saliva Peng Island," With that, Lin Yi sat down on the side. Fang village on saliva Peng Island was the original destination of the escort mission. Lin Yi had stolen the ship back, but he didn't have any intention of taking it for himself. He might as well finish the good deed.

"Saliva Peng Island?" The Man in Black paused, but didn't dare to say anything else, afraid that Lin Yi would change his mind again if he was unhappy. He quickly nodded and did as he was told.

The saliva Peng Island was the island closest to the southern island among all the islands in the black arc Sea area. It was often shrouded in miasma and fog all year round. Furthermore, there were not many people on the island, and there was not much profit to speak of. Not to mention ordinary businessmen, even pirates were unwilling to go there. After all, that place could easily be attacked by the spirit beasts of the southern island. It was full of danger.

But since it was Lin Yi's order, the Man in Black could only follow it. Going to saliva Peng Island was just a little risky, but if he disobeyed Lin Yi, he'd be killed immediately. It was clear which one he should choose.

Although the saliva Peng Island belonged to the Luan arc sea, it was closer to zhenduan city than the center of the Luan arc sea. After two days of sailing, Lin Yi arrived at the saliva Peng Island.

Chapter 4338 4336-Tears Of Gratitude

The rare thing was that during this period of time, the miasma on saliva Peng Island was just like Lu Feng forest. The miasma fog was dissipating. Their luck was good, and they didn't even need to take the pills specially used to resist the miasma fog.

"A ship is coming! A ship is coming! We're saved! We're saved!" Lin Yi could hear the children's shouts from far away before the ship even reached the shore. A group of people, men and women of all ages, quickly gathered at the dock, all of them with happy smiles on their faces.

What was going on? Lin Yi couldn't help but wonder-there weren't a lot of people gathered at the dock, only a hundred or so, and they all looked like normal people. There weren't even a few Sky Class Masters, let alone golden core Masters, and there were even a few foundation Masters.

Whether it was the Zhen Duan Sea area or the Yu Luo Sea area, they were both chaotic and unowned places. It was the law of the jungle. Lin Yi always thought that people who could live here should be strong practitioners, at least a foundation level master. He didn't expect that they were all ordinary people. It seemed like a small practitioner tribe at most.

This situation was completely out of Lin Yi's expectations. When the ship slowly docked, an imposing middle-aged man walked out from the crowd below and cupped his hands at Lin Yi, "I'm the Fang family's Manor on the saliva ROC Island. The manor master is Fang biwu. May I ask if your ship is the Qitian escort agency?"

Lin Yi's eyes narrowed. This Fang biwu's aura was so condensed that even his golden finger couldn't see through it. He was an original leveled master!

As expected, even a small practitioner tribe like this couldn't be underestimated. Lin Yi's intuition told him that this person's strength was extraordinary, even among the original leveled Masters.

"That's right. I'm Ling Yi, an escort from the Qitian escort agency. Greetings, village head Fang!" Lin Yi said as he got off the boat.

"It was a long journey, and it must have been hard on young hero Ling. Could you invite the other bodyguards down to meet me so that I can thank you in person?" Fang bi Wu smiled and said politely.

"Village master Fang, to be honest, I'm the only escort." Lin Yi shook his head with a bitter smile.

"Ah? But there's clearly another person on the ship?" Fang bi Wu felt strange. He was a nascent Soul Stage expert. No one on the boat could escape his senses. Moreover, this trip was worth a fortune. How could the Qitian escort agency only send one escort?

"Hehe, you've misunderstood, villa master Fang. That guy is a pirate that I caught to do hard labor, not an escort." Lin Yi explained with a smile.

"Pirates?" Fang bi Wu was stunned for a moment before he suddenly understood, "No wonder the ship should have been shipped a month ago, but it has only arrived now. Could it be because of the pirate attack?"

"That's right. We should've arrived long ago, but we were abducted by these Pirates on the way. We had no choice then, and we were delayed for a while in zhenduan city. We were planning to return to black arc city, but I didn't expect to meet them again, so I simply snatched them back. I hope that it didn't delay Manor master Fang's matters. " Lin Yi explained the whole situation in a few sentences.

Although he didn't go into details, Fang biwu could tell that it wasn't easy from just a few sentences. He immediately bowed deeply to Lin Yi and said, "Young hero Ling, on behalf of the five hundred people of my Fang family, I thank you for your great kindness!"

"You're too kind, villa master Fang. As an escort of the Qitian bodyguard agency, this is my duty. There's no need for you to do this." Lin Yi said, waving his hand.

"Ah, young hero Ling, you don't know this, but this ship is carrying life-saving supplies for everyone in the Fang Family Village!" "It'll be the heaven's sacrifice day in a few days. The miasma will return at this time of the year. It's extremely poisonous. Even the locals who grew up here have to rely on the miasma pill to survive. Otherwise, the consequences will be unimaginable. They'll be disabled or even killed!" Fang biwu explained.

"It's that serious?" Lin Yi couldn't help but be surprised. He thought that the locals would have gotten used to the miasma after experiencing it since they were young.

"It's even worse. The miasma pill is the lifeblood of the entire Fang Family Village. However, a while ago, we were attacked by spirit beasts and even the warehouse was destroyed. Seeing that the day of the heavenly sacrifice is approaching, I can only spend a lot of money to entrust the Hong Chamber of Commerce to buy the miasma pill. The other materials are still small matters. It's fine if we lose them, but we can't lose the miasma pill." "We have five hundred people ..." Fang bi Wu shook his head in fear.

To be honest, he'd been worried sick for the past few days-if Lin Yi didn't deliver it by today, he'd probably have to take the entire Fang village and escape from saliva Peng Island!

However, even though they could avoid the day of sacrifice, they would still have to come into contact with the outside world. The outside world was filled with vicious and evil people, and most of them were ordinary people. Once they went out, many people would probably die.

Besides, it was difficult to leave one's homeland. Unless it was the last resort, who would be willing to leave the saliva Peng Island?

Lin Yi couldn't help but feel a mix of emotions after hearing this-luckily he'd run into these Pirates, and he didn't just stand by and watch, otherwise all these people would've been in trouble-that was a few hundred lives!

Pirates were certainly hateful, but the most hateful person in this incident was still the mastermind behind the scenes, Wei Zhaotong. This guy didn't even let go of such a life-saving resource, and treated the hundreds of lives of the Fang village like grass. It could be seen that his conscience had been completely wiped out. Such a scum was truly devoid of conscience.

Originally, even if he'd been scammed by this bastard once, Lin Yi didn't plan on targeting Wei Zhaotong especially for the sake of Hong Zhong's old friend. After all, he didn't suffer much losses himself, and as long as he gave him a warning, he could just turn a blind eye. But now, Lin Yi changed his mind.

If he didn't make Wei Zhaotong pay a painful price this time, the heavens wouldn't tolerate it!

The people of the Fang family were all dancing in joy. They sent people to unload the goods from the ship while Fang bi Wu personally welcomed Lin Yi into the main hall of the Fang family as a distinguished guest.

To the entire Fang family, Lin Yi was their Savior. If it wasn't for Lin Yi, their entire family would've been wiped out. Naturally, they had to receive him with the highest level of respect.

Lin Yi didn't want to stay on saliva Peng Island for long, but he couldn't resist the enthusiasm of the people from the Fang village. He was forced to stay for two days before he was finally sent out of the island by the hundreds of people.

The people of the Fang family were rare to see. They were simple and lovely. If it were any other person in the secular world, they would not be grateful for this. They would already be doing themselves justice if they did not vent their anger or curse!

Chapter 4339 Meeting An Enemy The Moment He Returned

Lin Yi waved goodbye to the people on the dock as he sighed. He was a little scared at the same time- these people were too friendly, and he wasn't the cold type who could really push people away. If it weren't for the fact that the miasma affected his schedule, he'd probably have to stay for at least a month.

"Little black, come over here." Lin Yi said suddenly after they left the dock.

"Yes, yes. Senior, what instructions do you have?" The black-clothed man didn't dare to be the slightest bit slow, and quickly walked over.

"You didn't cause any trouble for me these two days, and you didn't run away either. You're very tactful." Lin Yi said faintly.

"I don't dare, I don't dare. Without senior's instructions, I wouldn't dare to act rashly." The black clothed man repeatedly nodded and smiled apologetically, but he was cursing in his heart. Only a F * cking idiot

wouldn't want to escape. However, saliva Peng Island was completely the Fang family's territory. Unless they forcefully took the ship and set out to sea, they would only be met with death no matter where they ran!

Moreover, for the past two days, Fang bi Wu had specifically asked their old housekeeper to keep an eye on him. That was a Yuanying stage expert. Under his watch, how could he possibly escape?

"It's good that you're aware of this. You don't have to force me to kill you. " Lin Yi smiled playfully, "Go sail the ship."

"Oh, yes, yes." The black-robed man quickly nodded, but then asked, ""Senior, may I ask where we are going next?"

"Black arc city." Lin Yi said faintly.

"Ah?" The black clothed man couldn't help but have a difficult expression. Not only did he mess up the task that Wei Zhaotong had given him, he had also offended Qitian bodyguard agency. No matter who he met, he wouldn't have a good ending. So the place he didn't dare to go to the most right now was black arc city.

"What's wrong? You have an opinion? That's no problem, I'll control the ship myself. As for you, you can go accompany your three pirate brothers. " Lin Yi's eyes flashed with killing intent.

"No, no, I have no objections, absolutely no objections. Senior, please calm down, this one will do as you say." The Man in Black quickly shook his head and started sailing. The crescent sea was a Dragon's pool

and a Tiger's Den to him, but it was better than being killed by Lin Yi right now. The situation was more important than people, so he could only take one step at a time.

A few days later, Lin Yi's ship finally reached the shore. He couldn't help but feel emotional as he looked at the busy scene.

When he first brought Huang xiaotao here, they were only at the early stage of the Golden core realm. They were unfamiliar with the place and had been surrounded by trouble as soon as they arrived. It could even be said that a great disaster was imminent. Now, only a month had passed, and Huang xiaotao had already gone to the East continent's morning stars Academy, while he had already broken through to the mid stage of the Golden core realm. Life was really unpredictable.

The Man in Black watched Lin Yi's reaction and gathered his pure Qi, ready to attack if Lin Yi made the slightest mistake.

Of course, he wouldn't dare to go against Lin Yi alone. He just wanted to create some chaos and escape. After all, the city was a dangerous place for him. He needed to get as far away as possible.

Lin Yi stood on the deck and looked down at the busy dock. He stretched lazily, ready to jump off the ship. The Man in Black was excited and was about to attack.

However, before he could throw out a punch or a kick, Lin Yi's figure suddenly appeared in front of him, giving him a fright.

"Se ... Senior, you are ..." The black-robed man kept retreating, but his heart was in a state of shock. How could this guy be so fast? he appeared and disappeared like a ghost!

"Little black, you've been well-behaved for a long time. Now you want to run? aren't you afraid that I'll kill you?" Lin Yi raised an eyebrow. His spirit sense was locked on the man, and he could sense even the slightest Qi movement.

"No... No, senior, you've misunderstood. I was just a little excited just now. I really didn't want to run away. Absolutely not, I swear to the heavens!" The Man in Black quickly swore.

"You didn't want to escape?" Lin Yi smiled and nodded, "Since you're so cooperative, it's for the best. You don't have to die and you don't have to dirty my hands. It's a good thing for both of us."

"That's right, that's right. Thank you for sparing my life, senior. " The black-clothed man was overjoyed when he heard this. He immediately heaved a sigh of relief. He had thought that he would be dead for sure after being caught red-handed this time.

However, before he could finish transferring his Qi, his vision went black as Lin Yi's foot swept across his head, sending him flying and landing on the dock in an extremely sorry state. It caused a commotion around him, and before he passed out, he said unwillingly, "Didn't you say you wouldn't kill me ..."

"That's right, I won't kill you, but I didn't say I won't kick you. " Lin Yi's lips curled up.

He really didn't plan on killing anyone, but this guy was a peak late-stage golden core practitioner, not some random guy. He was full of schemes, too, and he'd cause trouble if he just let him jump around like this. Lin Yi was going to let him testify against Wei Zhaotong, so it was better to knock him out.

Lin Yi jumped off the cargo ship and gave some instructions to the staff at the storage area. After he deposited the cargo ship, he walked to the Man in Black and picked him up with one hand under everyone's gazes. He was ready to return to the Qitian bodyguard agency.

At this moment, a familiar voice suddenly sounded from the distance. It laughed proudly, ""Hahahaha, I thought you ran away and would never dare to come back again! I really didn't expect that after being a turtle for so long, there would actually be a day when it would come out again!"

Everyone's face changed as they heard the voice. Lin Yi raised his head and saw the first enemy he made since coming to the crescent Sea area, the young master of the poison eyes mercenary group, Cheng qitian. Behind him was the peak early nascent soul old Kong!

"Hmph, enemies are bound to meet on a narrow road," Lin Yi smiled coldly and threw the unconscious man to the side.

He knew that this would happen-Cheng Qitian was the type of person who would take revenge for the smallest grievance, and he wouldn't let it go if he didn't get back at Lin Yi for embarrassing him in public last time. He'd probably planted One-Eye's men on the dock these days, and they'd probably get the news before Lin Yi even landed.

"Well said. Enemies are bound to meet on a narrow road. You're doomed to die for making an enemy like me!" Cheng Qitian sneered triumphantly. Just as he was about to order his men to do it, he suddenly froze. "Why are you the only one? Where's that girl? where's she? Had he already died outside? Hahahaha!"

Chapter 4340 Crippling A Nascent Soul Cultivator

"She didn't die, but I'm afraid you're not far from death." Lin Yi's lips curled up into a cold smile, his eyes filled with killing intent. At this point, it was impossible not to kill.

"Eh? You're still talking big even when you're about to die. It seems that there's a saying that 'a dead duck's mouth is tough. The more a dying duck like you is, the tougher your mouth is, haha!" Cheng Qitian laughed smugly.

Although he felt that it was a pity that only Lin Yi was blocked, it wasn't a big problem. This could also help him vent his anger. As for the woman, he'd just have people keep an eye on her later.

Moreover, after he went back last time, old Kong had told him that the reason why Ling Yi and that woman were so powerful was because their joint attack technique was extraordinary. If they couldn't cooperate with each other, they were just ordinary early golden core experts, not worth mentioning. He didn't expect these two to separate on their own, which saved him a lot of trouble.

"You'll know soon enough whether I'm boasting or not. " Lin Yi's eyes flickered as he dashed towards his opponent. His speed was so fast that even a peak-level early nascent soul cultivator like Kong couldn't help but be caught off guard.

Cheng Qitian was shocked and quickly retreated. At this moment, he could not hide the horror on his face. Although he looked arrogant, he had learned from the previous experience. Even if he knew that the other party's strength was much lower than his, he was still afraid.

As Cheng qitian retreated in panic, old Kong, who was beside him, unleashed his full strength. Before he even arrived, his powerful true Qi of the peak of the early nascent Soul Stage had already poured out, forming a solid protective barrier in front of Cheng qitian.

Lin Yi's sudden burst of power was unexpected, but Kong was prepared for it. As far as he was concerned, Lin Yi was alone, and since he couldn't use a powerful joint attack, he posed no threat to him at all. His only chance of survival was on Cheng qitian.

Therefore, as long as he protected Cheng qiantian from harm, the other party was already a cooked duck, and he could forget about flying away.

Cheng Kengtian was relieved to see this. This was what he told Kong to do-no matter what happened, his first reaction was to protect himself. Even if Lin Yi was much stronger than he looked, he couldn't break through a peak early nascent soul practitioner's defense by himself.

In fact, there was a huge gap between the Yuanying stage and the Jindan stage. No matter how much of a genius he was, it was not so easy to cross it. It was not a big deal for a master in the great circle of the Jindan stage. There was still a little possibility, but those below the middle stage of the Jindan stage could forget about it.

However, the next moment, Cheng Qitian's expression froze. As for Ah Kong, he was in disbelief.

The 30th style of the wild fire Eight Trigrams palm! This was Lin Yi's strongest skill so far, and he didn't hesitate to use it. His target wasn't Cheng qiantian, but Kong!

Cheng kangtian was only a late-stage golden core cultivator, and Lin Yi didn't even put him in his eyes. The only one here who could really threaten him was Kong, a peak-level early-stage nascent soul cultivator. Everything he did was to get rid of this biggest threat as soon as possible!

Last time, Lin Yi and Huang xiaotao ambushed Kong. This time, Lin Yi was alone, but he still made the same choice. Kong would never have expected this.

At first glance, it seemed like they were attacking Cheng qiantian, but everything was so realistic and logical. Ah Kong did not hesitate to protect Cheng qiantian, but he did not expect that it was just a cover.

This time, because old Kong had put all his energy on Cheng Qitian, he was almost defenseless. He didn't even release his protective Zhen Qi. He didn't know if he was too honest or too stupid.

BOOM! Caught off guard, the solid Eight Trigrams fire palm hit Kong's chest. It wasn't over yet-Lin Yi followed up with a powerful thousand wild fire legs, beating Kong, a peak early nascent soul cultivator, to the point where he couldn't fight back at all!

The kick sent Kong flying and he landed heavily on the ground with blood foaming from his mouth. No one knew if he was Dead or Alive, and everyone couldn't help but take a deep breath. They looked at Lin Yi as if he was a monster.

There were many practitioners here, and in that instant, many of them could tell that Lin Yi was probably only mid-stage golden core.

However, it was such a master in the middle jiedan stage who, in front of everyone's eyes, had beaten old Kong, a great master in the early Yuanying stage, into such a state. Everyone couldn't help but ask the same question, has the world gone crazy?

He glanced at the battered old Kong on the ground. Dead or not, he wouldn't be able to recover his strength for at least a few months. Even Lin Yi himself was surprised. He thought that it would be good enough if he could injure his opponent, but he didn't expect to cripple him. It was unbelievably smooth.

There were only two reasons for this-one was that Lin Yi's strength wasn't what it used to be, and the other was that Kong, a peak early nascent soul practitioner, was too honest and stupid ...

"Ah!" There was a sudden scream from the back of the crowd, and then they saw a panicked back running away from the dock. It was Cheng Qitian.

Getting back his face was secondary. The only problem the high and mighty young master of the poison eye mercenary group had to consider at this moment was whether he could escape back to the headquarters of the poison eye mercenary group alive!

Even old Kong couldn't withstand a single blow from the other party. He was a late golden core expert whose strength was far inferior to that of the other party. At this moment, his heart was trembling. If the other party caught up, only death would be awaiting him. No matter how awesome his father, Cheng haonan, was, it wouldn't help.

As for old Kong, Cheng Qitian did not care about him at all. He could not even save his own life, so who would care about the life and death of such a subordinate?

Looking at Cheng qiitian's back, Lin Yi smiled coldly, but didn't chase after him. It wasn't that he didn't dare to kill Cheng qiitian, but he didn't need to go to the extreme.

At this point, the other party had learned their lesson and backed off. At least, they would not dare to provoke him for a while. Although it would be easy to kill Cheng qiitian in front of everyone, it would be equivalent to declaring war on the entire poison eye mercenary group. The end result would definitely be a fight to the death, and there would be no room for negotiation.
