

Bodyguard 4401

Chapter 4401 Secretly Investigating

One must always be on guard against others, not to mention that those people were famous for being sinister. It was always good to be careful. This kind of side issues should be avoided if possible.

Qi Wenhan was the young master of the Qitian bodyguard agency. Although he had the habits of a young master, he was a steady person who understood the big picture. Since Lin Yi had reminded him, he might as well go into seclusion and focus on studying the information of his competitors. He wanted to get a good ranking in the upcoming escort agency meeting in the South continent.

Lin Yi was in seclusion, thinking that his identity was well hidden and no one would notice him. He didn't expect the central Chamber of Commerce to know him so much better than he thought!

At this moment, the third floor of the central Chamber of Commerce, which was off-limits to idlers, was still occupied by the Man in Black and MA Tianlang. However, the two of them were not qualified to sit on the main seats. Instead, they stood at the side in fear and trepidation, their backs drenched in cold sweat.

A woman was sitting on the main seat, and behind her stood a mysterious person who was completely covered in a black bamboo hat.

"Wang Dayuan, you're the manager of mo Leng's branch and the person in charge of this area. Tell me what happened this time." The woman's voice was very calm, seemingly without any emotion, but the atmosphere in the room suddenly froze.

This wasn't a physical pressure-it was the aura of a superior being brought about by power. Even a xuansheng stage master like Lin Yi couldn't help but shrink his neck and hold his breath, afraid that the woman would be unhappy.

Wang Dayuan, who was MA Tianlang's superior, became even more nervous and terrified when he heard this. He even started to tremble.

"This ... This ... This subordinate ..." Wang Dayuan stuttered and couldn't say anything for a long time.

"You don't know? Or do you not want to say?" The woman frowned slightly and her eyes were filled with killing intent,""It seems like you don't want to continue being the shopkeeper, right? that's fine. My laboratory is currently lacking volunteers. Although experts at the xuansheng stage have not yet been included in the research scope, this is something that will happen sooner or later. Why don't I let you have a taste first?"

"No, no, I don't dare, I don't dare." Wang Dayuan was so scared that he quickly knelt down. The success rate of human experiments was extremely low. Once he was listed as an experimental target, nine and a half out of ten would die. He still wanted to live a carefree and happy life.

"Then why don't you say it quickly? Don't tell me you're trying to shirk your responsibility after such a big thing has happened?" The woman coldly rebuked.

With her status in the organization, she didn't need to care about small things. Even if a branch of a central Chamber of Commerce was destroyed, she didn't need to personally appear. However, this incident had caused dozens of test samples to run away. It was undoubtedly a huge blow to her experiment, which was in the critical stage. Even she couldn't help but feel anxious.

"This ..." To this day, Wang Dayuan had not fully understood the situation, but if he could not give a reason at this time, he could only force himself to say, "I heard that it was a newly captured martial artist who used a powerful move to blow up the dungeon ..."

Wang Dayuan had only heard these words from others, and they were vague. He didn't know if they were true or false. If they were proven to be true later, it would be fine. But if they were false, then today's matter would be very serious. If the other party were to use him for human experiments in a rage, he would have no place to cry.

"What exactly is the situation? tell me clearly." The woman frowned and snorted, "Who did you hear this from? who is that martial artist? what's his strength? what technique did he use? he's so powerful that he could even blow up the defensive array of the dungeon?"

The defensive facilities of this dungeon had already been taken into account when they were designed. Since they wanted to lock up all the Golden core stage experts, the power of the defensive array was enough to resist the Yuanying stage experts. As long as they didn't lock up any xuansheng stage experts, theoretically, it should be foolproof. Who would have thought that such a thing would actually happen?

"This ... This is what the people we caught said ..." Wang Dayuan stuttered with cold sweat.

This incident was indeed due to his incompetence. Otherwise, if shangxin had really investigated it, the truth would have been revealed long ago. However, he had not been in demon cold city for the past two days. He was busy competing with the other branches for the supply of goods in the secular department store. They were all scheming against each other. How could he have cared about his family's Affairs? how could he have thought that a fire would suddenly break out in his backyard?

He was the manager of the branch. If he managed the branch well, not only would it be a political achievement, but he could also take advantage of it and make a lot of money from it. In contrast, although the dungeon that held many samples of the jiedan stage Masters was also within the scope of his duties, because there was no profit to be made, he had never paid much attention to it.

However, now that such a big thing had happened, Wang Dayuan regretted it. Although there was no profit in the dungeon, this was a project that the entire organization attached great importance to. It was his duty to stay safe. Once something happened and he could not remedy it in time, he would really lose his head.

Just like now, he had made such a big mess but could not deal with it. His life and death were completely in the hands of the woman. Whether he lived or died, it was in the hands of the other party.

"Where's that person? bring him over. " The woman frowned and said. She could also see that Wang Dayuan did not know the inside story. Instead of continuing to ask this muddleheaded guy, it was better to interrogate him personally.

"Ah?" Wang Dayuan suddenly trembled. He didn't dare to raise his head and said with a bitter face, ""That man ... That man has been sent for human experiments ..."

At that time, when the dungeon was blown up, although there were Masters left to guard the place and rushed over from all directions to catch them, there were too few people. There were too many people who escaped from the dungeon, and each of them was a master of the Golden core stage. When they ran for their lives, their escape speed was not to be underestimated. Moreover, they escaped in different directions, so the number of people who were really caught was actually very limited.

In order to minimize the matter, this matter was not reported immediately. After all, for Wang Dayuan and the others, as long as this matter was known by the higher-ups, it would be a major demerit.

However, if they quickly captured more golden core stage Masters to fill in the test samples before the higher-ups received the news, they could make up for their mistakes.

It just so happened that this was a critical stage of the experiment, so the requirements for samples were particularly high. Therefore, those who had been captured had already been provided for human experiments as usual. By now, they had probably all become corpses

Chapter 4402 Secret

The key to all this was to capture the Golden core stage Masters as soon as possible to fill the pit, and at the same time avoid being discovered by the higher-ups. Unfortunately, Wang Dayuan had underestimated the intelligence network of the higher-ups. Such a big movement, how could he hide it even if he wanted to?

Under normal circumstances, as the person in charge of this area, he would have a chance to deceive everyone. Unfortunately, the mysterious person standing next to the woman was the number two figure of the organization on Sky Class Island, and he happened to be carrying out a mission in this Sea area!

"Bastard!" The woman raised her foot and kicked Wang Dayuan's face, sending him flying. She was really angry. She was not afraid of god-like opponents, but of pig-like subordinates. This Wang Dayuan was a F * cking pig!

"Miss Ling, do you need to clean up your house?" The mysterious man said indifferently, his body exuding a sharp killing intent.

F * ck! Wang Dayuan, who was sent flying, was instantly shocked to death. MA Tianlang, who was still kneeling in the room, was even more scared out of his wits. Looking at the mysterious person under the black cloak, his eyes were almost bleeding. Was this guy for real?

The woman's gaze fell on the two of them. She seemed to have the same intention. Losing two xuansheng stage experts was a big deal to other powers. However, to their organization, it was far from that serious.

If the woman had nodded, Wang Dayuan and MA Tianlang's heads would have rolled on the ground. They might be xuansheng stage Masters, but in front of a powerful organization and this mysterious person, there was no chance of escaping. Otherwise, this mysterious person wouldn't have become the number two figure of the organization on Sky Class Island.

"Wait ... Wait, there's still one who's not dead. He hasn't been sent for experiments!" MA Tianlang suddenly had an idea and shouted.

"Is that so?" The woman looked a little suspicious. Even Wang Dayuan was surprised and panicked. He thought that MA Tianlang was making it up in order to survive. He was not in the demon cold Sea area when the incident happened. The person in charge of the situation at that time was his Deputy, MA Tianlang, and he was the only one who knew the truth.

"It's ... It's true. There's an original infant stage cultivator among those who were caught. We can't use him for human experiments, so he should still be locked up. " MA Tianlang said hurriedly.

"Yes, yes, there is one. That original infant stage cultivator has been locked up by us for a long time." Wang Dayuan finally reacted and nodded.

"Then why don't you hurry up and bring it over? Do you really want to die? can't you see that miss Ling is angry?" The mysterious man standing beside the woman snorted coldly.

"Yes, yes!" Wang Dayuan and MA Tianlang didn't dare to be slow. They treated this as their last hope and hurriedly rushed out to get her.

A moment later, the nascent Soul Stage cultivator that the two of them had been talking about was brought in with a face full of fear. It was sun hengbiao!

This guy was a nascent soul cultivator, and his chances of escaping were much higher than other golden core cultivators, but he was beaten half to death by Lin Yi, and his strength was greatly reduced. He couldn't run fast at all, and he was a conspicuous and unlucky target, so he was the first one to be targeted by the guards ...

Being escorted by Wang Dayuan and MA Tianlang, sun hengbiao staggered into the room and sneaked a glance at the woman and the mysterious man. He knelt down on his own accord. After all, he was not an idiot. He knew that he could be rude and unreasonable in front of others, but if he were to be even the slightest bit uncooperative in front of these people, he would definitely be seeking his own death.

"Tell me, how did the dungeon get broken into?" The woman's tone was unpredictable.

"Oh." Sun hengbiao shrunk his neck and carefully replied, ""The one who attacked at that time was a new martial artist. I don't know his exact strength, but he must be very strong. I'm not his opponent at all. There was a little friction at the beginning, and in the end, I was beaten down by him."

"Get to the main point." The woman said with a slight frown. She only wanted to know who had caused her so much trouble. As for the personal grudges of a small character like sun hengbiao, she couldn't be bothered to care.

"Yes, yes. That person was meditating quietly at the beginning, but after the two guards carried one person away, he must have confirmed that there was no one outside the door. He suddenly asked us to retreat behind him, and then he activated an extremely terrifying move. I swear I've never seen such a strange martial art in my life. The destructive power was unprecedented. After that, there was a big explosion in the dungeon, and it collapsed." Sun hengbiao spoke in full detail. In front of these people, he did not dare to hide anything.

"Oh? You mean, that person activated a very destructive technique, and it caused a huge explosion just by using his hands?" The woman couldn't help but be slightly startled.

"Yes, that feeling was very strange. It was as if he had been preparing for a long time and then suddenly exploded. I have never seen such a martial technique." Sun hengbiao was also confused.

After all, he was a mid-stage nascent soul practitioner-he had the ability to see things. He could at least tell that Lin Yi had been preparing this move in secret, and it didn't look like he'd just activated it on the spot. If he could do something like this with just a wave of his hand, then this guy would be as strong as a xuansheng stage powerhouse-how could he have been caught back then?

When the woman heard this, she turned her head and exchanged a glance with the mysterious man. There was a hint of surprise in their eyes. They had clearly discovered something, but at the same time, they were suspicious.

"Tell me everything you know about this person. For example, what characteristics does this person have, or any details that left a deep impression on you. If you hide anything, you should know what the consequences will be." The woman continued to ask.

"Yes, yes, this little one will not dare to hide anything." Sun hengbiao quickly made a vow. After some careful thought, he said, "If we're talking about his characteristics, other than his strength and his rough face, there's nothing else. However, his temperament and appearance give me a strange feeling."

"You mean, this person's temperament and appearance don't match?" The woman nodded thoughtfully and said with an unfathomable expression, "Continue,"

"Oh, that's right. There's something strange about this person. He seems to take special care of someone. Although there's no special communication between them, in fact, there's a bias. It's very obvious." Sun hengbiao suddenly smacked his head and said, "I don't know if it was intentional or not, but that person deliberately sat next to Lu. When the guards came in to bring people in, according to the rules, it should have been Lu's turn. However, that person glared at me and forced me to change the way I addressed him!"

Chapter 4403 Nothing Can Happen

The woman did not react to sun hengbiao's words. However, the mysterious man's gaze suddenly froze for some reason.

"Also, if I remember correctly, after the dungeon was blown up, that person seemed to have dragged that Lu guy along. There must be something going on between the two of them, hehe!" Sun hengbiao became more and more excited as he spoke.

"Wait a minute. What's the name of the person with the surname Lu You mentioned?" The mysterious man suddenly asked.

"Uh ... Let me think ..." Sun hengbiao furrowed his brows and thought for a long time before he finally slapped his head and said, "I think he's called Lu bianren!"

"Lu bianren?" The mysterious man's eyes flickered, and the corners of his mouth curled up into a playful arc.

"Do you know this person?" The woman couldn't help asking.

The mysterious man nodded without saying anything. He looked at Wang Dayuan and the others present and didn't say much. He had already guessed the truth of the matter, but there were too many people, so he naturally wouldn't say it in front of them.

"The few of you, step back for now." The woman understood tacitly and immediately ordered everyone to leave.

Sun hengbiao did not think much of it, but Wang Dayuan and MA Tianlang were overjoyed. They thought that they would be at least skinned alive after stirring up such a big mess. However, it seemed like this miss Ling did not have any intention of pursuing the matter.

The two of them immediately thanked him profusely and hurriedly dragged sun hengbiao out. Only miss Ling and the mysterious person were left in the room.

"This Lu bianren, if I'm not mistaken, is a disciple of the North Island's GreenCloud Pavilion. I heard that he was very close to Lin Yi when he was the third Pavilion master of the welcoming Pavilion." The mysterious man said slowly.

"Oh? Lu bianren and Lin Yi have a close relationship, so that martial artist could very well be Lin Yi?" Miss nie nodded. She'd already thought about this before-she'd been following Lin Yi for a long time, after all.

"That's right, there's at least a 90% chance. According to what this person said, the method used to destroy the prison was like a pill bomb. And among all the people I've met, only two people are good at this kind of rare and unique method. One is Kang Zhaoming, he's now a member of our Center, and he's on the North Island, so we can rule him out. The other person is Lin Yi!" The mysterious man said with certainty.

"He has a close relationship with Lu bianren and knows how to use a pill fire bomb. From this, this martial artist must be Lin Yi," Miss Ling concluded.

"Yes, there's one more thing that can prove it-this person looks like a martial artist, but the feeling he gives off doesn't match his aura. This means that he's probably wearing a disguise mask, which means that he's Lin Yi in disguise." The mysterious man nodded and continued,""Also, when I went to Lufeng forest to look for the baby ginseng, I already found traces of it, but someone beat me to it. There were also traces of a pill fire bomb left at the scene. If I'm not wrong, it was Lin Yi who did it."

It might be suspicious if you looked at them individually, but when you put them all together, with all the arrows pointing at one person, there was no doubt that it was Lin Yi!

"Hehe, this kid is quite interesting. I don't know if he's doing it on purpose or not, but he keeps coming to ruin our plans ..." Miss Ling couldn't help but laugh, but no one could tell if she was happy or angry from her expression.

"Young lady ni, why don't I make a trip down personally?" The mysterious man suggested. Whether it was on purpose or not, it wasn't good for them to let Lin Yi continue being so reckless. If they let him be, there might be more trouble in the future.

"No! This is something professor li specifically told me to do, I can't go against it. It's not a big deal anyway, so let him do whatever he wants. " Miss Ling shook her head.

"But this Lin Yi, he's always doing shocking things. Don't look at how weak he is right now, I have a feeling that he'll become a big problem for us soon. It won't be so easy to deal with him then." The mysterious man said worriedly.

He seemed to know Lin Yi very well-with his level of strength, he wouldn't even pay attention to a mere golden core Master like Lin Yi under normal circumstances. He'd only treat him as a lowly ant that he could easily crush. Even if this ant caused a little trouble, it wouldn't be able to change the big picture.

But for some reason, this mysterious man's attention towards Lin Yi was far beyond the level of treating ordinary ants. Saying that he was facing a great enemy was a bit of an exaggeration, but this mysterious man did indeed see Lin Yi as a serious threat.

"What's wrong? With your talent and strength, how could you be afraid of such a junior? this is really strange!" Miss Ling couldn't help but smile.

Although she was the one in charge of the overall situation on sky rank Island, this mysterious man was one of the chief's confidants, and his position in the organization was also very high. He had reached his current level completely by relying on his super talent and strength. He had fought his way up bit by bit, and no big Shot would dare to underestimate him.

He was an extraordinary person. It was inevitable that the mysterious man would have his eyes on the top of his head. Not to mention ordinary people, even Masters of the xuansheng stage might not be able to enter his eyes.

But now, he was treating Lin Yi, a mere golden core stage master, differently, even speaking out about his fear. This was something she'd never heard of before, not even seen before.

"I'm not scared, but my instinct tells me that I can't underestimate this Lin Yi. It's best to nip this potential problem in the bud to avoid future trouble. " The mysterious man said seriously.

Just as miss Ling had said, with his talent and strength, he never needed to be afraid of anyone. Any master, including those legendary Masters, could only be surpassed by him. No one had ever been able to surpass him.

However, conceited as he was, the mysterious man was also absolutely rational. He would never mess up things because of his conceit, nor would he underestimate the enemy because of his conceit. Otherwise, if he was the kind of person who looked down on everyone just because he had a little bit of strength, it would be impossible for him to achieve his current status and level in an organization with so many experts.

"You're right, but this Lin Yi can't die yet. It'd be meaningless if he died. This isn't just professor Li's orders, it's also for the sake of the situation. " Seeing the mysterious man's serious tone, miss Ling explained, ""If something happens to Lin Yi, especially in our hands, it'll force those people to do something desperate. They'll all die together, and that'll be a big problem!"

Chapter 4404 Delicate Situation

"Those people?" The mysterious man's eyes flickered. Of course, he knew who the people miss Ling was talking about were. At the same time, he knew how terrifying their strength was!

"It's true. We're still maintaining a delicate balance with them. We're confronting each other. We don't dare to swallow the other. It's not that we can't. It's that we don't want to," Miss Nie explained. The mysterious man had always been on a mission on Sky Class Island and had never left, so she knew more about these things than the mysterious man.

The mysterious man fell silent. He was wary of the rising Lin Yi, but it was a small matter when put in perspective of the entire organization. The confrontation between the two sides was the most important thing.

"The current situation is that no matter which side wants to swallow the opponent, the final result can only be mutual destruction. So no matter how hostile it seems, both sides actually maintain a tacit understanding. After all, no one is stupid. If there is not enough fuse, no one wants to inexplicably die together with the other." Miss Ling paused for a moment and then warned him seriously, ""But, if you touch Lin Yi, I'm afraid it'll light up the fuse, and then this unprecedented battle will really happen!"

"So, not only can't we deal with Lin Yi now, but we also have to save him at the critical moment?" The mysterious man couldn't help but have a headache. He pressed his temple with one hand and said, ""Is this the reason why you asked me to protect you so many times before?"

"That's right. This matter is highly confidential and can not be known to a third person. You know professor Li's methods!" "As for how we're going to deal with this Lin Yi in the future, and what we're going to use him for, I haven't received any news from professor Li yet. Let's just wait and see," Miss Nie reminded coldly.

"Yes!" Although the mysterious man still had some doubts in his heart, he had a feeling that this hidden danger would cause trouble, but since the higher-ups had given the order, he couldn't just disobey it because of some uncertainties. He might be able to call the wind and summon the rain on the Sky Class Island, but professor Li's one word could make him die a miserable death!

He already valued Lin Yi a lot, but even so, he never thought that Lin Yi's identity would be so sensitive. One move could affect the whole situation. Lin Yi was actually an important figure standing in the middle of two big forces.

"Anyway, for now, with Lin Yi's strength, he's far from a threat to US alone. Let's not worry about him for now. Our priority now is to develop our big plan. This is the foundation that can really control the situation in the future. You have to distinguish the priority and not be distracted by Lin Yi." Miss Ling said with determination.

"This subordinate understands." The mysterious man nodded.

At the end of the day, Lin Yi was just a potential threat. There were too many geniuses these days, and more than 90% of them were at the initial stage, but once they entered the higher levels, they would lack the strength and eventually lose out. Lin Yi might not be able to escape this fate.

Plus, even if Lin Yi could really grow, the threat he could create by himself was limited.

On the other hand, if they could succeed in this crucial human experiment, the organization would be invincible, and the balance would be broken. Lin Yi wouldn't have any time or opportunity to grow, and the war would be over already.

"Call Wang Dayuan and MA Tianlang in. Although there's been a mess this time, the human test still has to continue." Miss Ling ordered.

The mysterious man nodded and immediately called Wang Dayuan and MA Tianlang, who were guarding outside, in.

"Miss Ling," Wang Dayuan and MA Tianlang greeted him respectfully. The two of them were still trembling with fear, as if they were walking on thin ice.

Although MA Tianlang had pulled sun hengbiao out in a moment of desperation and seemed to have appeased the anger of this higher-up, accompanying a sovereign was like accompanying a Tiger. Who knew what miss Ling was thinking? if she was determined to kill the chicken to warn the monkeys, the two of them would not be able to escape death.

"You two, I don't need to tell you how big the mess is this time, right?" "Because we didn't get the baby ginseng, our experiment was already very difficult," miss nie said expressionlessly. "Now that we're at a critical stage, so many experimental samples suddenly ran away, even the progress of the entire experiment will be greatly delayed!"

"Miss Ling, we know we were wrong. We'll go and capture them now. We promise we won't delay the experiment!" Wang Dayuan and MA Tianlang immediately knelt down and patted their chests as they promised. If they didn't quickly do something to atone for their crimes, and if miss Ling came to settle the score later, their fate would be really hard to predict.

This time, they were really forced into a corner. Wang Dayuan and MA Tianlang had been discussing privately outside just now. They were prepared to personally capture people outside. With the strength of the two xuansheng stage experts, capturing a few golden core stage experts would be child's play. As long as there was a suitable target, it would not be difficult to capture dozens of them.

In order to avoid suspicion, they would not do this before. They usually had to find a reason that was not too suspicious, just like those people who were locked up in the dungeon.

But now, there was no other way. The human test was in urgent need of samples. If it dragged on for too long, it was hard to guarantee that this miss Ling would not get angry. It was the lesser of two evils, so he could only take a little risk.

"Wait a minute, are you two retarded or retarded?" Miss Ling frowned.

"Ah?" Wang Dayuan and MA Tianlang were instantly stunned, and they looked at each other.

"Humph, previously, you have captured hundreds of golden core stage Masters in the demon cold Sea area. Although the sea areas of the South continent are famous for their chaos, and no one will intervene even if you kill a few of them in public, have you ever thought that it will arouse the suspicion of other big forces after a long time? If you go out now to catch a large group of people, don't you think you've made enough trouble?" Miss Ling looked at the two of them as if they were idiots.

"This ..." The corners of Wang Dayuan and MA Tianlang's mouths twitched. They were only thinking about how to atone for their crimes. As long as they could get past miss Ling, who the F * ck would care if the other forces would suspect them!

In their opinion, these so-called major forces could only show off their power in the local area. In front of the core of the experts, they were nothing!

Chapter 4405 Sky Class Island Delivery

"The North Island was the first place to carry out human experiments. So far, it is also the place where the most golden core stage cultivators have disappeared. Now, it has attracted the attention of the

higher-ups of the three pavilions on the North Island. The incident has been secretly reported to the law enforcement Hall and they have asked the law enforcement Hall to investigate it. Therefore, the North Island can only stop for the time being. I don't know how long the South continent can last." The mysterious man stood beside miss Ling and said.

"This experiment is our number one priority on the Sky Class Island, and it's also our trump card to control the situation in the future, so it has to be carried out in secret. It can't be detected by the outside world. It's not hard to destroy the Sky Class island's local forces, but if the news gets out, everything we've done before will be for nothing." Miss Ling nodded.

"I was foolish and almost ruined the organization's plan. Please forgive me, miss Ling." Wang Dayuan and MA Tianlang quickly apologized.

"Hmph, you're not just stupid, you're all idiots. You can't even watch over a group of golden core cultivators. You're all trash!" "These people have escaped," lady ni said coldly. "The lack of experimental samples is secondary. The most worrying thing now is whether the news of our human experiments will spread through the mouths of these people and cause panic and attention from other forces!"

"These escapees are afraid of being caught again if word gets out, so they won't dare to spread the news for the time being, but it's hard to say if that'll happen in the long run." The mysterious man also frowned.

"Don't worry, miss Ling. I'll do my best to catch them. These people had their identities recorded when they were first caught. With our organization's intelligence network and power, it shouldn't be too difficult to catch them." Wang Dayuan quickly guaranteed.

"Mm, I'll leave this matter to you. You can't let this information leak out. If you can't capture them alive, then kill them. Remember, this is your last chance to save yourselves. If you can't do it well, don't come

back to see me." "Also, forget about that warrior and Lu bianren," lady ni said coldly. "You don't need to catch them."

"Yes, yes, this subordinate will definitely atone for my mistake, definitely atone for my mistake." Wang Dayuan and MA Tianlang were so scared that they were drenched in cold sweat. They nodded their heads repeatedly. Although they didn't understand why Wu Fu and Lu bianren didn't need to be captured, they didn't dare to ask.

"Although we can't raise any suspicion, the experiment must continue. Since the dungeon has been destroyed, we'll move it to another Sea area. Anyway, we've caught many people here, so it's not safe to continue. Wang Dayuan, you're in charge of the South continent, so I'll leave this matter to you. If there's any mistake, I'll kill you!" Lady ni ordered.

"Yes!" "Yes," Wang Dayuan replied in a deep voice. His life was at stake. He had already made up his mind. Even if he had to put aside the matter of mo Leng's branch, he had to do these two things Well first. Otherwise, he would not even be able to keep his head. What was the point of being greedy?

.....

In the Chu family's Villa in the secular world.

Ever since he dan TOU and the people from the iron cloak sect had come in full force, but were easily shooed away by Lin Dongfang, the villa had returned to its usual peace, perhaps even more so than before.

This was because all kinds of rumors were spreading wildly in the streets, saying that this place was strange and strange. From time to time, there would be strange phenomena, and many people in the surrounding area had even moved away. It was better to believe such a mysterious thing than not. Anyway, those who could afford to buy a villa were not short of money. Who would be willing to live a good life and stay in this place in fear?

It wasn't a bad thing for Lin Yi's men that the houses around them had all moved away-practitioners tended to get used to peace and quiet in the end, no matter what they were like in the first place. Plus, the unconscious girls were all staying in the villa, and they needed a quieter environment.

Originally, after the previous incident was resolved, Lin Dongfang had suggested that everyone move to West Star Village. However, after some discussion, they had tactfully declined.

With the protection of the great God Lin Dongfang, moving to West Star Mountain village would be more carefree than staying in the Chu family villa. However, everyone had their own lives and had not reached the point of being completely free. It was unrealistic to isolate them from the world.

Moreover, after this incident, even a brutal figure like he dan TOU was scared out of his wits, let alone the other small fries.

After all, this was only the secular world. Everyone's strength was already at the peak of existence, and each and every one of them was famous. It was only other people who were afraid of them, and did not dare to take the initiative to provoke them.

Even if someone could take on so many Sky Class full Masters, who could stop Lin Dongfang if he were to come out?

The underlings didn't go by themselves and sent the unconscious girls over alone. It was obviously not right to let Lin Dongfang and aunt Qing take care of so many people at once. The old couple still wanted to spend some alone time, so everything went on as usual. The girls were still settled in the villa, and the rest were still in groups of two, taking turns to guard.

On this day, it was Wu Chengtian and Song Lingshan's turn to be on duty. Song Lingshan was taking care of the girls in the room, while Wu Chengtian was busy downstairs with General Weiwu and the purple lightning Beast. One man and two beasts were extremely nervous, as if they were facing a great enemy, playing fight the landlord ...

When people were bored, they would always do something stupid, even practitioners were no exception. Fighting the landlord with Two Spirit beasts was something that no one had ever done before, and no one would ever do it again.

What was even rarer was that his face was covered in white paper. He was a human, but he was the one who lost the most in the fight of the landlord with Two Spirit beasts ...

Chentian's eyes were locked in a frown-he was about to lose everything again, and just as the atmosphere was getting tenser and tenser, the doorbell rang.

"Who is it?" Chentian paused-the two beasts didn't seem to be on guard at all, and he knew that this was just a normal human.

"Express delivery!" It was the voice of a young man outside the door.

Express delivery? Chentian was even more surprised-he'd never bought anything online before, and even if someone else did, they wouldn't have sent it here.

Plus, all the supplies in the villa were bought by them from the nearby supermarket in shifts. Uncle Fu often sent things over too, so no one here would Buy Express delivery!

With that thought, Chentian felt that something wasn't right. He gave the two beasts a look and got up to open the door. The two beasts, on the other hand, had a tacit understanding-they sneaked out from the back door and surrounded him from both sides. If anything went wrong, they'd attack him at the same time.

Chapter 4406 Central Express Delivery

Chentian opened the door carefully and looked at the person. He did look like a normal person, dressed like a deliveryman. If he had to tell who was different from the others, it would be that he was more experienced.

"Where's the delivery?" Chentian frowned.

"This is the address, ocean view Bay Villa number eight, for song Lingshan or Wu Chentian. May I know who you are?" The deliveryman replied indifferently.

"What?" Chentian was even more suspicious now. "Who are you?"

If there were other people's names written on it, it might be possible that they had bought something and filled in the address to save time. But it had his name written on it, which was completely inexplicable. He had not bought anything!

After what happened last time, Chentian didn't think anyone would be this hopeless and come looking for trouble, but to be on the safe side, his first reaction was still to think that this guy was a spy sent by a small sect!

"Ah?" The deliveryman was startled by him. He then looked at him as if he was looking at a lunatic and mumbled, "'I'm just a delivery man, who else can I be ..."

"Let me see the express delivery." Chentian studied the man's expression carefully, and only took the package after making sure it was fine.

After all, he was a Sky Class full master-in this world, he was like a nuclear bomb. Even if the other party had bad intentions, he didn't have to worry-he was just instinctively on guard.

Chengtian lowered his head to look at the delivery and was stunned. The handwriting on the delivery form looked familiar-wasn't this boss Lin Yi's handwriting?!

That wasn't all, the key was the huge seal on it-Chentian was so shocked that he couldn't close his mouth for a long time, he almost fainted.

It said,"Sky Class Island Center Express service company!"

Holy shit! Ever since he'd gotten stronger, this was the first time he'd felt like his brain was lacking oxygen.

What kind of delivery company is this? Even Sky Class Island appeared-could it be a mail from boss Lin Yi? Wasn't this a little too magical?

A normal person's first reaction would be that something was wrong, and Chentian was no exception. He looked at this deliveryman up and down suspiciously-who sent this guy here? this was a well-planned trap!

"Are you the recipient or not? Do you want to sign for it? if not, I'll return it!" The deliveryman felt his hair stand on end from his stare. If it was someone with a weaker mentality, they would probably cry out "Oh" and run away. It couldn't be helped. In this day and age, everyone was afraid of meeting a lunatic.

At this point, Wu Chengtian's suspicions were cleared. After all, everything else could be a lie, but boss Lin Yi's handwriting couldn't be fake. No matter how he looked at it, the deliveryman was just a normal person, and he couldn't see any bad intentions.

"Sign, of course we have to sign!" Chentian said quickly. He didn't care if this was a trap or not, he had to take it and read it.

In the common world, Sky Class full Masters were almost invincible-they could easily ignore schemes and plots. Plus, while he didn't really believe it, what if this really was from boss Lin Yi?

"Here, sign here. You can send a reply within 30 days. This is my business card. Call me after you're done writing. I'll come to pick it up." The deliveryman said as he handed the card to Chentian.

Chentian's mouth twitched-what the hell was this? even the deliveryman was sending out name cards ...

"Please write a reply as soon as possible and give me a call. I'm leaving." The deliveryman nodded at Chentian and turned to leave.

"Wait a moment!" Wu Chengtian was shocked and quickly pulled him back.

"Is there anything else?" The deliveryman's face was clearly on guard, even subconsciously in a defensive position-it was obvious that he really thought Chentian was a mental patient who might bite someone.

"Ugh ..." Chentian scratched his head awkwardly, ""What ... What kind of company is this? how can they send packages from Sky Class Island?"

"We're the central Express delivery. Haven't you heard of us?" The deliveryman gave him a strange look.

"No, I've never heard of it." Chentian shook his head-he never bought online, and no one would send him stuff for no reason.

However, just because he hadn't heard of it, it didn't mean that others hadn't heard of it. In fact, Central Express was a courier company that had recently risen and was quite powerful.

Not only was the logistics channel fast and smooth, but the delivery speed was also much faster than other express delivery companies. The price was also very affordable. So, in just a few months of its establishment, Central Express quickly occupied the market. Those who bought online basically knew Central Express.

"Okay, although our Central Express has only been established for a short time, our current market size is no less than any of the top express delivery companies. Our logistics channels are all over the world, and there are a lot of express deliveries from overseas, including many small islands, such as Hawaii. Although I've never heard of your Sky Class Island, I think it should be a small island." The deliveryman explained.

"Ha? Hawaii? What does this have to do with Sky Class Island?" Chentian was taken aback, and it took him a while to react. So this deliveryman didn't know what a sky-class Island was, he thought it was just a small island.

"I'm sorry, I've never been to this Sky Class Island, but I think it's just like that. " The deliveryman said in embarrassment.

"Do you have a lot of these packages in your company? Does he have connections with Sky Class Island?" Chentian said, still not giving up.

"I'm not too sure about that. I'm just a high-level courier at Central Express. I'm usually in charge of sending some international mail and some paperwork. This one is a paperwork. " The deliveryman said.

"A document?" Chentian blinked, remembering that he'd be able to get back to him within a month. "Then, where are you going to send this receipt you mentioned? Don't tell me it's the place to send it back to the sender?"

Chapter 4407 Lin Yi's Handwriting

"Since it was sent from Sky Class Island, it's only natural that it's sent back-otherwise, how would it be called a delivery?" The deliveryman looked at Chentian with a weird expression-he felt like this guy wasn't just crazy, he was an idiot ...

"No, I mean, how did you get this letter to Sky Class Island?" Chentian asked.

In fact, he was still wondering if he was dreaming. Sky Class Island had always been a legendary place, and if it weren't for Lin Yi's boss and the others using the teleportation formation, he wouldn't have believed that such a magical place existed.

And now, something even more unbelievable had happened-this so-called Central Express delivery company was able to send letters back and forth between Sky Class Island and the secular world! Even if Chentian was experienced and knowledgeable, he had to give himself two tight slaps to see if he was really still asleep.

However, the handwriting on the paper was boss Lin Yi 's-there was no doubt about it. If this was a carefully designed scam by some small fry, even copying boss Lin Yi's handwriting so flawlessly, it would be too shocking.

And so, Chentian's current state of mind could only be described with one word-half-believing, half-doubting, or more accurately, 40%-60%-doubting.

"I'm sorry, I'm not sure about that. I'm just a high-level courier who's only responsible for dispatching packages. I don't ask about anything else. Besides, the distribution channel is a company secret. Ordinary people can't know about it. I can only tell you that the documents are sent back to the company's headquarters this time and then transferred." The deliveryman spread his hands.

"Oh, really? Thank you," Seeing that he couldn't get anything out of the deliveryman, Wu Chengtian gave up and let him go after signing the receipt.

Although he said that, he didn't plan on letting it go. No matter how he thought about it, this express delivery was too suspicious. Sending packages back and forth between the Sky Class Island and the secular world-this was a world-shaking event!

If going back and forth between Sky Class Island and the common world was really that easy, then why would boss Lin Yi and all those other top-tier Masters need to go through all this trouble?

Plus, it'd been more than a year-if he could come and go as he pleased, he'd at least come back to see everyone, even if he wasn't done with his business, right?

Chentian's only thought right now was to investigate this express delivery company that popped out of nowhere. He was a Sky Class full master, but he wasn't a professional-he could just go up to them if he wanted to, but it was impossible for him to get anything out of them without leaving any traces.

However, even if Chentian couldn't do it himself, it didn't mean that others couldn't.

"What's wrong?" "What the hell?" Lingshan asked as she came down the stairs with a glass of water. She saw Chentian staring at a package.

"Lingshan sis-in-law, you came just in time. I just received a delivery, can you look into this delivery company?" Chentian said quickly-Lingshan was from the special Investigation Bureau, after all, and it was a piece of cake for her to investigate a delivery company.

"Ah? Why did you investigate the delivery company?" Lingshan said, confused as she looked at Chentian with the same weird look she had with the deliveryman.

What kind of logic was this? if he had to investigate the delivery company just to receive a delivery, then wouldn't he have to investigate the drinking water plant now that he was drinking water?

"No, there's something strange about this express delivery company, very strange!" Chentian explained.

"How so? did it cheat you of your money?" Lingshan asked, confused.

"No, I didn 't," Chentian was a Sky Class full master-no one in the common world would dare to scam him of his money, not to mention that he wasn't lacking in money. He waved the package in his hand and smiled bitterly,"It just sent a package, and the sender is boss Lin Yi ..."

Pfft! Lingshan spat out a mouthful of water, almost falling down the stairs. She couldn't care less about the tea that was splattered all over the place-Chentian didn't even know how she managed to land on him. All he knew was that before he could finish his sentence, Lingshan had already snatched the package away from him, and he was drenched in tea.

"This ... This really is Lin Yi's handwriting ..." Song Lingshan looked at the receipt and was so shocked that she couldn't speak for a long time. Her eyes reddened and tears welled up in her eyes, but they didn't flow out.

It had been a whole year, and there had been no news from Lin Yi at all. She was worried about Lin Yi's safety every day, and every day felt like a year.

It was true that Lin Yi was already very strong before they set off-he was strong enough to crush all the practitioners in the common world, but Sky Class Island was different. It was a place of legends.

How dangerous it would be after going there, whether he would be bullied and besieged by people he was unfamiliar with, or even whether the Sky Class Island really existed ... All of these were still unknown.

Sometimes, Lingshan would even wake up in the middle of the night because even in her dreams, she couldn't help but worry. It'd been so long, and she still hadn't returned-did something happen to Lin Yi?

She never would've thought that she'd receive a delivery from Lin Yi, and from Sky Class Island at that! Her reaction was the same as Wu Chengtian 's-she was in a daze, and her brain was lacking oxygen ...

"Lingshan sis-in-law, do you think we should do a thorough check on this express delivery?" Chentian said urgently.

As far as he was concerned, there were only two possibilities if he could get to the bottom of this express delivery-the delivery was fake, and someone had Forged Boss Lin Yi's handwriting.

The other possibility was that the package was real, which meant that Lin Yi's boss really did send it from Sky Class Island. The meaning behind that was very tempting.

If this Central Express delivery could really go between Sky Class Island and the common world, then as long as they could see through their methods, they could go to Sky Class Island and find boss Lin Yi, right?

It was only natural for Chentian to think that way, and Lingshan knew that as well, but she didn't act rashly. "No matter what, let's gather everyone first."

"Alright!" Chentian couldn't wait any longer and went to call for help, leaving Lingshan all alone, staring at Lin Yi's handwriting.

Chapter 4408 Letter Circulated

She wanted to read the letter as soon as possible, of course, but it wasn't appropriate to do so before everyone was here. She was Lin Yi's girlfriend, but if this letter was really written by Lin Yi, it would be addressed to everyone, not just her.

Hence, this letter had to be opened in front of everyone, and Lingshan could only hold it in for a little while.

After receiving Wu Chengtian's call and learning that Lin Yi had sent a delivery from Tianjie Island, everyone's first reaction was to think that this guy was either messing with them or he was crazy. No one believed him.

However, even though they didn't believe it, in less than two hours, everyone had already gathered at the Chu family villa ...

Han xiaopo, fatty Lai, Kang Xiaobo, Chen Yutian, Cheng Yiyi, Xu Shihan, Zhao qikun, Zhao qijiu, Pi Zhishan, Pi Zhihai, Yu Bing, Ying Ziyu, and the others were all here. Other than Lin Dongfang and aunt Qing, who were still in the village, Lin Yi's group was all here.

The fact that everyone was able to arrive so quickly, other than their strong cohesion, was more or less due to the aftermath of the previous incident. Everyone was scared by the sudden attack by He dan and his men. It was fortunate that Lin Dongfang came to the rescue last time, otherwise, the consequences would have been unimaginable.

Boss Lin Yi went to Sky Class Island and entrusted these sisters-in-law to everyone. If something went wrong, how could they face Lin Yi?

After the previous incident, everyone had learned their lesson. Although they still took turns to be on duty in teams of two, they would not go too far if there was no special need. If something happened, they would be able to rush to the villa within two hours, just like what was happening now.

The first thing they did when they arrived at the villa was to drag Wu Chengtian out and beat him up, but when they saw the package in Lingshan's hands, especially with Lin Yi's signature on it, they couldn't help but take in a cold breath.

"This ... This is real?" Everyone couldn't help but look at each other in disbelief, as if they had seen a ghost.

"It could be real, but it could also be fake. No matter what, this express delivery is definitely suspicious. We have to investigate it carefully!" Chentian said with conviction.

Everyone frowned and thought for a while, then nodded. It made sense. Whether it was true or not, it was necessary to investigate this sudden Central Express delivery company.

If the delivery was fake, it meant that someone had an ulterior motive behind this-they were using this delivery to make a big deal out of Lin Yi's handwriting. If the delivery was real, they'd have to find out who this central delivery was, and what kind of God it was that allowed it to travel between Tianjie Island and the common world.

"If that's the case, then I'll have to trouble sis-in-law Lingshan to step in," Everyone looked at Song Lingshan. The Sky Class island's delivery was obviously a supernatural incident, and the supernatural Investigation Bureau had the authority to investigate it. She was the most suitable person to handle it.

"Yes, I'll contact the people from the supernatural Investigation Bureau immediately and get them to start investigating." Lingshan nodded. She cared about Lin Yi's safety more than anyone else, and this was her responsibility.

"What about this express delivery? Do you want me to open it?" Everyone looked at each other-they were all Sky Class full Masters, and there was nothing they should be afraid of in this world, but this express delivery was just too unbelievable. Anyone would've been worried about it, no matter how crazy they were.

"Of course I'm going to tear it down." Song Lingshan, Cheng Yiyi, Xu Shihan, and Ying Ziyu all spoke up at the same time. They were the braver ones in this situation, and the reason was simple-they were the ones who cared about Lin Yi the most.

Although this express delivery was likely to be a trap, what if it wasn't?

Even if there was only a one in ten thousand chance, the few of them would definitely not be willing to ignore it.

After all, Lin Yi's return of a letter wasn't something that would happen in real life, but it was something they would often fantasize about in their dreams. Now that their dreams had become reality, there was no reason for them to turn him down just because of a little bit of worry.

"Alright, but before you dismantle it, take some protective measures." Chen Yutian and the others looked at each other. As men, they couldn't be less courageous than these women. They also wanted to know what was in this letter.

With the strength of the peak of the Sky Class, bombs and the like were no threat to them at all, not to mention that this express letter was flat and didn't look like a bomb. If there were no accidents, there should be a letter inside.

However, this didn't mean that it was safe. If this was a trap, the letter might be coated with a colorless and odorless poison. Although they were all Sky Class Masters, if it was really a rare poison, they might not be able to escape.

For safety's sake, Lingshan put on a pair of high-isolation gloves-the standard equipment of the supernatural Investigation Bureau. She then slowly opened the package under everyone's gaze.

Everyone unconsciously held their breath. As expected, what entered their eyes was not a dangerous thing, but a piece of paper, an ordinary piece of paper. If one had to say what was different from other pieces of paper, it was nothing more than a more exquisite and simple letter.

"It's Lin Yi's handwriting as well, and the tone of voice is his usual style. There's no mistake, this is Lin Yi's personal letter!" Lingshan said, overjoyed after a quick glance.

If this was a trap, imitating Lin Yi's handwriting was possible, but even the tone was the same. That was impossible, which meant that this letter was 100% from Lin Yi!

In other words, this express delivery company that suddenly appeared could really travel between Sky Class Island and the secular world! This was unbelievable!

"Really?" Everyone's eyes lit up when they heard this, and their faces were full of joy. They hurriedly urged, "What did boss Lin Yi say? How is he now?"

"Don't worry, I haven't finished reading it yet. I'll give it to you immediately!" Lingshan was afraid that the crowd would rush over to grab it, so she quickly scanned through the letter before passing it to the others.

Everyone passed the letter around, and some couldn't wait any longer. They either went up to read it together, or pestered Lingshan to tell them the contents of the letter. As they listened, they couldn't help but praise it.

Chapter 4409 The Firewolf Group

Without a doubt, the letter was the one Lin Yi wrote at the Nakajima auction. He didn't lack spirit jades anyway, and he just wanted to give it a try. Even if it didn't reach everyone, Lin Yi wouldn't feel that regretful. However, he probably didn't even think that the letter would actually reach them.

For safety reasons, the letter didn't go into any secret information. Lin Yi basically told him everything that happened after he came to Tianjie Island, from the Ying Xin Pavilion to the central island, including his meeting with Tian Gang and Xue Li.

He didn't mind the hassle because he wanted everyone to know that he was safe and that everything was going well on Sky Class Island. He also wanted everyone to have a general impression of Sky Class Island.

After all, vision determined one's height-as practitioners, with Lin Yi's help, they'd reach this height one day. Perhaps they'd have to go to Sky Class Island for training as well, and it wasn't a bad thing to prepare them now.

Other than that, Lin Yi also mentioned in the letter that he knew where Zhang Liju was and that he was trying his best to find him. One day, he would be able to go back and save the girls who were unconscious, so that everyone could relax and not be too worried.

At the end of the letter, Lin Yi naturally couldn't help but ask about everyone's situation. After all, he already knew that this was a return letter from the auction in zhongdao. In theory, he could receive a reply from everyone, and just like how everyone was worried about him, Lin Yi, who was on Sky Class Island, was also worried about these girls and followers in the secular world.

The usually quiet Chu villa was bustling with noise for the whole afternoon. Everyone passed Lin Yi's letter around once, but it wasn't enough. Song Lingshan and the others rushed to read it a second time

because they read it roughly the first time. It was rare to get a letter from Lin Yi, so they had to read every word clearly.

At the same time, those who couldn't watch it a second time were all excited, talking about the scenes Lin Yi mentioned in the letter. When it came to the exciting parts, everyone was excited and wanted to try it out again. Only then could they have a good time.

After reading the letter, everyone's yearning for Sky Class Island became stronger and stronger. They were all looking forward to when boss Lin Yi would come back and bring them to the legendary Sky Class Island.

The group stayed together until night time, still discussing what Lin Yi had written in his letter. Now that they knew their boss was fine, they could put down their worries and have more motivation and anticipation for the future.

In the process, Lingshan's phone suddenly rang. Everyone shut up and looked at her, waiting for her to finish.

"Everyone, the results of the investigation by the supernatural Investigation Bureau on the central Express delivery are out." Lingshan said.

"How is it? How is it?" Chentian and the others couldn't wait any longer.

Lin Yi's boss's letter was real-it meant that this central delivery really did have eyes and ears everywhere. They could travel between Tianjie Island and the common world as they pleased. Of course, everyone wanted to know the details of such a mysterious delivery company.

"I've already asked them to send the information to my phone. Let's take a look together. " Lingshan took out a projector and projected the information on the wall, telling everyone to gather around and study it.

After all, the supernatural Investigation Bureau had an official background and was not an ordinary Department. They had great authority. The information that everyone saw was gathered through many channels, including various public and private, and even those that could not be seen in the light of day. Various kinds of information from various aspects were collected and finally put together.

After looking through the information, no one found anything suspicious. This was very different from what they had expected. As a Magical Express Company that could connect to Tianjie Island, there was no doubt that Central Express must be carrying an absolute secret that could not be told to others.

However, after reading so much detailed information, everyone found that although the logistics network of this courier company was indeed accessible in all directions and much stronger than ordinary courier companies, there seemed to be no other magical aspects.

"This express delivery company that suddenly appeared is indeed well hidden." Everyone couldn't help but look at each other. Even the supernatural Investigation Bureau couldn't find out its details, so it was obviously not a small matter.

However, the more it was like this, the more it proved that it was not ordinary. If it was just an Ordinary Express delivery company, how could it escape the eyes and ears of the supernatural Investigation Bureau, and how could it send a delivery from the Sky Class Island?

"Eh? Wait a minute, this Central Express delivery company is a foreign company with its headquarters in Europe?" Chentian said, pointing at one of the files.

Express delivery companies were different from other industries. They could only open up the market and gain recognition after taking root in the local market. Therefore, many of them were local logistics companies. Everyone thought that this sudden rise of Central Express should be no exception. They did not expect that it was a foreign company through and through, and its headquarters was in Europe!

"Oh, right!" Everyone reacted and raised new doubts. "The information doesn't say who its founder and boss are ..."

"I'll get someone to investigate what's going on behind the scenes. " Song Lingshan also realized this and immediately called the supernatural Investigation Bureau.

Everyone had a faint premonition that if they could find out the behind-the-scenes boss of this Central Express delivery, they might be able to find out who it was. After a while, the results were out.

"The fire Wolf group!" These four simple words made everyone present look at each other. After a long time, they finally managed to say, ""There's something fishy about this ..."

"It seems that I have to contact Brother Dafeng regarding this matter." Lingshan said as she pinched her chin. Everyone nodded. The red conch and the Firewolf gang were one, so Dafeng bro was now considered one of the members of the Firewolf gang. Only he could handle this.

Without further ado, everyone immediately contacted brother Dafeng. After brother Dafeng received the news, he rushed over to the Chu family's Villa overnight. However, in order to hide his appearance,

brother Dafeng's appearance was rather low-key and mysterious. Furthermore, after carefully changing his appearance, he found a very reliable reason: to deliver take-out ... "

Chapter 4410 Still Able To Reply

Seeing brother Dafeng's unexpected appearance, no one present could hold back. They were all holding their bellies and laughing so hard that they couldn't stand up.

In the end, it was Lingshan who explained the whole thing to Dafeng bro and passed Lin Yi's letter to him.

Looking at the contents of Lin Yi's letter, Dafeng bro's shock wasn't any less than the others. He was even more shocked. He was in red conch all by himself, and it had been a long time since he received any news from Lin Yi. This kind of confusion, not knowing when it would end, was much harder to endure than the others.

But luckily, Lin Yi left him the antidote before he left, so he wasn't in any life-threatening danger. He was still grateful to Lin Yi.

"How is it? Do you know anything about this Central Express delivery?" Lingshan and the others couldn't wait any longer.

"I'm not sure. I'm only in charge of a part of the red conch business. It's hard for me to interfere with other matters. This Central Express delivery seems to have been established not long ago. It doesn't have much to do with me, but I can go back and find a way to investigate." Brother Dafeng said thoughtfully.

"Is that so ..." Everyone couldn't help but feel a little disappointed. If they could figure out the details of the central Express delivery, they might be able to find out how to freely travel between Sky Class Island and the secular world. This was a very important matter, but it seemed that it wouldn't be that easy to figure it out now.

"Don't be too discouraged, everyone. I still have some power over there. I can't guarantee that I'll be able to obtain very core information, but I can at least try. No matter what, I'll be able to obtain some inside information." Brother Dafeng said to everyone.

"Okay, then I'll leave it to you." Everyone nodded in agreement.

In order to avoid suspicion, brother Dafeng did not stay in the villa for too long. Under the cover of the night, he quickly left quietly.

Brother Dafeng was very efficient. The group didn't have to wait long. Before they could leave the Chu family villa, brother Dafeng sent a message the next morning.

"It's said that the express delivery from Sky Class Island came from a small island near Las Vegas. That area is the base of the fire Wolf group, and the core Island is called Fire Wolf new island. The express delivery was transferred and sent from there, but we don't know where it was sent from before. "

Looking at brother Dafeng's message, everyone couldn't help but fall silent. In fact, if they were to follow this deduction, it was easy to deduce that before the express delivery arrived at Fire Wolf Island, it should have been at Sky Class Island.

Although this speculation was shocking, it seemed to be the most reasonable one. In other words, there was a high possibility that there was a special passage connecting Fire Wolf Island to Sky Class Island!

However, even if they had a lot of confidence in this speculation, there was nothing they could do at the moment. Whether it was true or not, they could only know after seeing it with their own eyes. However, the new fire Wolf Island was the base of the fire Wolf Gang. They couldn't just barge in with force, right?

The strength of the peak of the Sky Class was enough to dominate the secular world, but they were not arrogant people. They never thought that they were invincible. Besides, the last incident had already sounded the alarm. If it wasn't for Lin Dongfang's rescue at the last moment, it was hard to say how many of them would have survived.

Plus, Sky Class full Masters were only intimidating in the common world-they were nothing on the mysterious Sky Class Island, just as Lin Yi said in the letter.

Since Fire Wolf Island was connected to Sky Class Island, who knew what level of Masters were hidden there? if there was a master from Sky Class Island, even if it was just one, it was definitely not something everyone here could handle.

People like Chentian were hot-headed, but they weren't brainless-they wouldn't do something as stupid as suicide before figuring out who the enemy was.

"Lingshan sis-in-law, since we've confirmed our target, it looks like we'll have to trouble the supernatural Investigation Bureau again. We can't act rashly if we don't know the truth," Everyone looked at each other and said cautiously.

Before Lin Yi left, he gave them the most important task, which was to protect the unconscious women. Everything else was secondary. If they acted rashly to investigate this new fire Wolf Island, it would be putting the cart before the horse.

"Yes, that's the only thing we can do for the time being. However, don't have too much hope. If it's within China's borders, the supernatural Investigation Bureau can still investigate a little with their authority. However, this fire Wolf Island is a small island outside the borders, and they do things so secretly. Even the supernatural Investigation Bureau can't stretch their hands so far. If they can find out some outside information, they'll be thankful." Lingshan said, giving everyone a heads up.

"It's better to know as much as possible. It's better to know a few clues than nothing. Although we're not completely at odds with each other yet, it's best to know ourselves and our enemies so that we can be prepared. But we have to be careful and not let them notice us," Wang Chong said. Yu Bing said solemnly.

"Yes, boss Lin Yi didn't tell us to deal with this express delivery company or the fire Wolf new island behind it. Even if we investigate them, we have to be careful and not force our way in. We don't want to cause any unnecessary trouble." Everyone nodded in agreement.

No matter what, protecting the unconscious women was the most important thing. Otherwise, if they accidentally provoked a powerful enemy that they couldn't deal with, it would be really difficult to deal with. They couldn't really hide in the West Star Village and ask the great God Lin Dongfang to come out again, right?

They were boss Lin Yi's people, but they were all Masters-they weren't thick-skinned enough to trouble the old man for something like this.

"Don't worry, everyone. I'll personally return to the supernatural Investigation Bureau to keep an eye on the secret investigation on Fire Wolf New Island. Safety first, I guarantee that I won't alert the enemy." Lingshan said with a nod.

"Oh right, I almost forgot something important-the deliveryman said that Boss Lin Yi's letter to us is a receipt, which means we can reply to Boss Lin Yi and have this Central Express delivery send it to him." Chentian smacked his head.

"You can still reply? Why didn't you say so earlier!" Everyone was surprised and happy at the same time, and they started beating Chentian up with unfriendly faces-it was a good thing they didn't leave yet, or they'd miss this important chance to pass on a message to Boss Lin Yi!
