

Bodyguard 4541

Chapter 4541 Farewell

"Oh, how have you been?" Qi Wenhan looked at Lin Yi from head to toe excitedly, unable to hide the joy on his face. He suddenly hugged Lin Yi and said, ""I knew you would be fine, brother Ling. Hahahaha, this is great, this is great ..."

Lin Yi couldn't help but feel touched by Qi Wenhan's emotional display. He had only joined the Qitian bodyguard agency to find a place to stay. Rather than saying that he hit it off with Qi Wenhan, it was more of a benefit to him.

But after all these trials and tribulations, Lin Yi knew that he didn't just have one more ally, he had one more brother who treated him like his own brother. This was the most precious reward he got from this trip to the South.

"Haha, I'm fine. Sorry for making you guys worry." Lin Yi patted his shoulder and smiled.

The two sat down facing each other. Qi Wenhan was excited for a long time, but he finally calmed down after a long time. He looked at Lin Yi and asked curiously, ""Brother Ling, why did you suddenly become like this?"

"He's wearing a mask to hide his identity. I heard that the old sect master of West Mountain is in the Dragon Boat escort agency now?" Lin Yi said.

"That's right. I've only returned a few days ago. Although it's said that you've already died in the southern part of the island, I still haven't given up on my evil intentions in private. I've sent many spies

outside our bodyguard agency. I guess they're here for you, brother Ling. It's a good thing that you're wearing a mask. You really have foresight." Qi Wenhan praised.

These spies were very annoying. They basically monitored all the movements of the Qitian escort agency, both inside and outside. However, Qi Mingyuan and he did not dare to voice their anger. If the other party was only the Longzhou escort agency, these spies would have been caught and killed long ago. However, the other party had the backing of the old sect of West Mountain.

Even though Qitian bodyguard agency's current status was like the sun at midday, it still could not touch the eyebrows of this evil cultivator Big Shot during the founding period. If he really angered the other party and made a move, there was really nothing he could do.

"The old monster, West Mountain sect, didn't make things difficult for the escort agency, did he?" Lin Yi changed the topic. He didn't have to worry about himself. If the old sect of the West Mountain took his anger out on the Qitian bodyguard agency, that would be a real problem.

"Not yet. He just sent people to keep an eye on us. He didn't do anything extreme. I think he's also worried about our position in the bodyguard agency. He shouldn't dare to do anything to us." Qi Wenhan said confidently.

"Well, that's good." Lin Yi nodded. The title of Overlord of the southern continent's escort agency wasn't for nothing. Even if the other party was a big Shot of evil cultivators, they had to think twice before trying to do anything. After all, this influence wasn't small. They might even attract the attack of the righteous if they weren't careful.

As the two were talking, footsteps came from outside the house. Lin Yi and Qi Wenhan looked at each other and kept quiet. After all, it was a matter of life and death. They couldn't let the news of Lin Yi's

return be leaked. Even if he was wearing the qiansi mask and changed his appearance, it was best not to let anyone notice.

The footsteps suddenly stopped at the door of the room, followed by a familiar voice. ""Wenhan, you're not asleep yet, are you?"

"It's my father," Qi Wenhan looked at Lin Yi and asked, "Brother Qi, do you want to meet him?"

"Of course. You can choose not to see the others, but how can you not see chief escort Qi?" Lin Yi smiled. He had to keep his whereabouts a secret from 99% of the people, but he wouldn't leave without even meeting Qi Mingyuan. If that were the case, he wouldn't have to come back to the bodyguard agency.

"Alright, I'll call him in." Qi Wenhan nodded excitedly, then quickly went out to open the door and led Qi Mingyuan in.

"Wenhan, I'm going to discuss the Alliance with Zhao Shanying tomorrow, so I'll leave the house to you. Help me settle down the representatives of the Chamber of Commerce. They're all rare big customers ..." Qi Mingyuan's expression changed as he spoke. He realized that there was a stranger in the room.

Qi Mingyuan couldn't help but give Qi Wenhan a reproachful look. Why didn't he say so earlier when there was an outsider around? what he just said was confidential and concerned the entire South continent's escort agency Alliance. If it was leaked in advance, it was likely to cause trouble or even cause a premature end.

"Father, this person is not an outsider." Qi Wenhan shrugged his shoulders and did not explain further.

"Not an outsider?" Qi Mingyuan was taken aback. He sized her up carefully and felt that she looked vaguely familiar. However, he was certain that he had never seen her before. As the head of the Qitian bodyguard agency, his judgment was not something an ordinary person could compare to. He could only probe, "I wonder if your Excellency ..."

"Long time no see, head of escorts." Lin Yi smiled.

"You are ..." Hearing this familiar voice, Qi Mingyuan was stunned. He looked at Qi Wenhan in disbelief. When he saw Qi Wenhan nod in confirmation, he finally said in surprise and joy, ""Young hero Ling?"

"That's right, it's this one. I've troubled you during this period of time. " Lin Yi nodded with a smile.

"No, no, it's good that you're back, it's good that you're back. Young hero Ling, you're back safely, this is a great thing!" Even Qi Mingyuan, who had always been mature and calm, could not hide his excitement at this moment, just like Qi Wenhan. At the same time, he said in a daze, ""The Qitian bodyguard agency is where it is today all thanks to you, young hero Ling. In comparison, we can't help at all. I feel guilty and can't face you."

"You're being too serious, chief. I will remember everything the agency has done for me. There's no need to say anything else. We're all on the same side. " Lin Yi smiled as he looked at Qi Wenhan.

He and Qi Mingyuan were still allies, but as long as Qi Wenhan was with the Qitian bodyguard agency, he could always trust him. At the end of the day, Lin Yi only got so close to the Qitian bodyguard agency because of Qi Wenhan. Compared to the Qitian bodyguard agency, he valued Qi Wenhan more. Birds of a feather flock together. After all, they were both sentimental people.

"Young hero Ling is right, we are all on the same side, so I will not waste my time with young hero Ling." Qi Mingyuan nodded in agreement and said seriously, "It's a great thing for the Qitian escort agency that young hero Ling has returned safely. However, since the old sect master of the West Mountain is currently at the Longzhou escort agency, we can't let this news leak out. It's better to stay away from this for now."

"You're right, chief. I had the same intention. To be honest, I've come back this time to bid you two farewell." Lin Yi said.

"Farewell?" The Qi father and son were both shocked. Qi Wenhan quickly asked, "Brother Ling, are you going to leave the South continent's waters?"

Chapter 4542 Shocking News

"That's right. I came to the South continent this time to hunt down the evil cultivator, Wu Bao Liang. Now that my mission has been completed and I've been out for more than half a year, it's time to return to the North Island." Lin Yi explained.

In fact, he had experienced a lot of wonderful things in the past six months.

It didn't matter what he should've gone through-he'd gone through it all, and his strength skyrocketed from early golden core to mid-peak golden core. He'd gotten himself into a lot of life and death situations, and he'd also made a friend like Qi Wenhan. Now that he'd completed his mission, he could leave unscathed.

"That's true ... Now that black arc city is guarded by the old devil, West Mountain old sect, it's indeed dangerous for you, brother Ling. You can go back to the North Island and avoid it." Qi Mingyuan nodded after a moment of silence.

"Uh, brother Ling, are you sure you can report back empty-handed?" "This is a 'bounty mission'," Qi Wenhan said worriedly. "Normally, a 'bounty mission' like this should at least be counted with a head, right?"

It was an unspoken rule in many sect missions that one had to have a head to complete the mission. After all, there was no proof. What if Lin Yi went back empty-handed and said that he killed Wu baoliang? what if people didn't believe him?

Qi Mingyuan couldn't help but frown. Although Wu baoliang died in Lin Yi's hands, his head wasn't cut off.

"That's easy to say. If he killed Wu Bao Liang in private, it's hard to explain. But this time, he was killed in public at the arena of the escort agency meeting in the South continent. Everyone knows that I, Ling Yi, killed him. When we go back, let them investigate a little and the truth will come to light." Lin Yi said, waving his hand.

With his position in the three pavilions of the North Island, he was someone that the pavilion master Shangguan Tianhua had his eyes on. Even the pavilion master Yu Zhenyang saw him in a different light. Who would dare to make things difficult for Lin Yi?

"That would be for the best." Qi Mingyuan and Qi Wenhan both nodded.

"It's not convenient for me to show up in public this time, and I can't say goodbye to everyone in public. I'll have to trouble the head of escorts and brother Qi to apologize on behalf of the rest of the escort agency after I leave. " Lin Yi asked.

"No problem, no problem. The situation now is special. Everyone can understand." Qi Mingyuan agreed.

"By the way, there's one more thing I need to trouble brother Qi with. There are too many people at the Hong Chamber of Commerce, so it's not convenient for me to say goodbye to shopkeeper Chai. I'm planning to write a letter for brother Qi to hand it over on my behalf." Lin Yi said.

"No problem. It just so happens that I've invited shopkeeper Chai to accompany me for tomorrow's dinner. It's just a small matter, leave it to me." Qi Wenhan patted his chest and nodded as he prepared the ink and paper for Lin Yi.

"Alright," he said. Lin Yi immediately took the paper and started writing-there wasn't much to be said, only a few words of advice and comfort. It was enough to let honest Chai know that he and hongzhong were watching him.

He finished writing in one go and told Qi Wenhan to keep the letter. He was about to leave when he remembered something. He turned to Qi Mingyuan and Qi Wenhan and said,"This time, I accidentally learned a piece of news in the South Island. It will affect the overall situation of the entire South continent's Sea area. I think you need to be mentally prepared in advance."

"Please speak, young hero Ling." It was rare for Lin Yi to be so serious, and both Qi Wenhan and Qi Mingyuan's expressions turned serious. They wondered what kind of news could affect the entire South continent's sea?

"According to the internal news of the spirit beast clan, they are ready to impose taxes on all human cultivators in the South continent's sea. We don't know when it will start, but it should be sooner or later. So you'd better quickly discuss a strategy to avoid becoming cannon fodder." Lin Yi warned seriously.

This news was too shocking, and Lin Yi didn't want to reveal it. However, he couldn't just stand by and do nothing to Qitian bodyguard agency. Even if he couldn't help much, he could at least give them a warning.

"What? The spirit beast clan has to impose taxes?" Qi Mingyuan and Qi Wenhan were shocked. Their faces were filled with horror and they couldn't help but show fear."How could this be? There has never been such a precedent in the past thousands of years. "

"It's true that there has been no such precedent in the past. However, there has been a major change in the power hierarchy of the spirit beast clan not long ago, and this tax collection proposal was proposed by the new person in power in public at the spirit beast meet. It can't be as simple as a pie in the sky. It must be serious." Lin Yi explained.

"This news ... Is just too shocking ..." Qi Mingyuan and Qi Wenhan sat down in their armchairs, taking a long time to digest the shock and panic Lin Yi brought. In fact, if it wasn't for Lin Yi, they would never believe that the spirit beast clan wanted to impose taxes on them. This was starting a war between humans and beasts!

It was true that the human cultivators in the South continent's waters alone could not contend with the powerful and insufferably arrogant spirit beast clan, but this did not stop them from asking for help from the human sects on the other sky-class islands.

Due to the rich land resources in the South continent's Sea area, especially its proximity to the southern island, which was a blessed primitive land, basically every famous sect of the Sky Class Island had set up a branch stronghold here. If the spirit beast clan really touched their interests and incurred the wrath of the public, no matter how many or how strong the spirit beast Masters were, they couldn't even think of gaining the slightest advantage.

The losses suffered by these human forces alone were enough to make the spirit beast clan suffer. With the strength comparison between the two sides, it was uncertain who would win on the day of the war.

Suddenly, Qi Mingyuan stood up and bowed to Lin Yi, his head full of gratitude, "Young hero Ling, this is life-saving news. If it wasn't for your reminder, our Qitian bodyguard agency might have been the first unlucky person to be attacked. I thank you on behalf of the entire bodyguard agency for saving our lives."

This was not an alarmist talk. Unlike before, the Qitian escort agency was now the Overlord of the South continent's Sea area. Their business was expanding rapidly, and new sea areas were incorporated into the Qitian escort agency's business territory almost every day. In just over a month, the Qitian escort agency's escort ships had frequently appeared in all the well-known sea areas in the South continent.

In this way, once the experts of the spirit beast clan were dispatched, no matter which Sea area they were in, the Qitian escort agency would always be among the first to impose taxes. If they were not mentally prepared in advance and acted impulsively, the consequences would be unimaginable.

The spirit beast clan was not as cautious as the old sect master of the West Mountain. Before they did anything, they would consider the power of the Qitian escort agency. The so-called Overlord of the South continent escort agency was nothing but a dog's fart in their eyes. If they dared to disobey, they would kill your entire family without a second word. They could also kill the chicken to warn the monkeys. It was killing two birds with one stone.

Chapter 4543 Preparing To Leave

No matter how things developed in the future, it was foreseeable that a group of people would die when the spirit beasts first started collecting taxes. After all, it was the spirit beasts' style to use blood to clear a path. The Qitian escort agency was very likely to be in the first batch, but with Lin Yi's reminder, they had a chance to protect themselves as long as they made preparations.

"Since you've already said that you're one of us, do you still need to say such things as an outsider?" Lin Yi quickly helped Qi Mingyuan up. He said this so that the Qitian bodyguard agency could pass the test safely, not for them to be grateful.

"Father, brother Ling, do we need to quickly reveal this matter so that the others can be prepared? Otherwise, many people would have died!" Qi Wenhan, who was at the side, said nervously.

Lin Yi looked at Qi Mingyuan but didn't say anything. He was only responsible for passing the news to the two of them. There was also honest firewood. As for the life and death of the others, it didn't have much to do with him. The key was that if this news spread, it wouldn't be a good thing.

"That won't do. Unless the spirit beast clan has really started to take action, we'll definitely become the target of public criticism if we leak the news in advance. The spirit beast clan will be the first to come after us for revenge. We can't afford to pay such a price." Qi Mingyuan shook his head decisively.

"This ... Okay ..." Although Qi Wenhan was a hot-blooded person, he was not brainless. After thinking through the pros and cons, he did not dwell on this matter. After all, nothing was more important than the lives of so many people from his Qitian bodyguard agency.

"Wenhan, remember, this information from young hero Ling must be kept strictly confidential. You can't leak it out even if it's our own people. I will arrange what to do next in secret. You can pretend that this never happened, understand?" Qi Mingyuan was still worried.

This was a matter of great importance, so they had to make early preparations. More importantly, they had to keep it strictly confidential. If any news were to be leaked, it would be a disaster for the Qitian bodyguard agency. Qi Mingyuan was fine with it, but he was afraid that his son would do something stupid for the sake of his so-called loyalty. The consequences would be unimaginable.

"Dad, don't worry. I know what's important. I won't joke around with the lives of so many people in our bodyguard agency." Qi Wenhan nodded in a deep voice. Although his temperament was far from the level of an ambitious person, he would not be careless in such a big matter. Otherwise, he would not be qualified to take over the Qitian bodyguard agency.

"Since that's the case, I'll take my leave." Lin Yi said. He'd already said goodbye to them and reminded them of what he needed to say. Staying at the Qitian bodyguard agency was unnecessary. There were so many spies from Longzhou bodyguard agency out there, and this place was no longer a safe place for him.

Qi Mingyuan and Qi Wenhan looked at each other. They both wanted Lin Yi to stay for a few more days and use this opportunity to thank this hero and send him off. However, the situation didn't allow them to do so, and doing so would only ruin things. They didn't dare to ask him to stay.

"The situation is special now, and we don't dare to keep you. We're on the same side, so we won't treat you as an outsider. But remember, young hero Ling, you'll always be a part of the Qitian bodyguard agency. If you need anything, just say the word, and we'll do anything for you, no matter if it's a mountain of knives or a pot of oil!" Qi Mingyuan said with a serious expression.

"That's right. The bodyguard agency's business today was all built by you, brother Ling. We're brothers, and there's nothing much to say. We'll go through thick and thin together. If you shoulder everything all by yourself, that's not very loyal of you." Qi Wenhan also said seriously.

"Don't worry, I won't be polite when I need you. " Lin Yi nodded with a smile, a warm feeling filling his heart.

Qitian escort agency's current strength was nothing in the entire five big islands of the heaven-rank, but it was still an Overlord of the South continent's Sea area, especially now that its power had skyrocketed. If they could survive the next catastrophe, they would definitely not be underestimated in the future. They would be a great help that could not be underestimated, and might be of great use in the future.

After bidding farewell to Qi Mingyuan and Qi Wenhan, Lin Yi climbed over the wall and escaped from the Dragon Boat escort agency's spies. He found a remote Inn to stay in, but he didn't stay for long. After less than six hours, he left when the sky started to brighten and headed straight for the black arc dock.

They couldn't go back to the North Island by sea, of course-even if there was a direct route, it'd take at least half a year. Lin Yi didn't have that much time.

So there was only one way to go back to the North Island, and that was to ride a flying spirit beast. Huang xiaotao's large Spirit Bird happened to be placed here. When the morning stars Academy came to turtle arc city to select disciples, Huang xiaotao could have taken the spirit Bird with her. After all, it was her loyal companion who had relied on her for many years, but for Lin Yi's convenience, she kept it in the end.

Lin Yi was still wearing the mask, and he didn't attract any attention during the whole process. Only the waiter looked at him in surprise.

This was because in the previous records, the owner of this spiritual bird was a woman surnamed Huang, and it was said that she had a close relationship with the famous Ling Yi. However, the person in front of her was a vulgar country bumpkin, and it was completely out of place.

However, although he had doubts in his heart, the boy servant did not question him. If a small character with low strength like him wanted to survive in the sea area of the South continent, he had to watch his mouth. Otherwise, with the atmosphere of killing people on the street, it was easy to cause trouble from his mouth.

The warrior had a special number on him, and he had paid enough for the boarding fees for this period of time. The servant led Lin Yi to the spirit bird's side.

Spirit beasts had high intelligence to begin with. Although this Spirit Bird wasn't Lin Yi's tamed spirit beast, it was still very excited to see Lin Yi again after so long. Of course, it knew that Lin Yi was its "master." Not to mention, Huang Xiao Tao had secretly come to see it before she left and told it to listen to Lin Yi's orders.

If it was another aggressive spirit beast, Lin Yi might have to spend some effort, but this gentle spirit Bird obviously didn't have that kind of trouble. Like master, like beast. To some extent, this Spirit bird's temperament was the same as Huang Xiaotao's master, warm and gentle, but strong and hardworking.

Chapter 4544 Being Hunted Again

"You've suffered these days. I'll reward you when we get back." Lin Yi happily stretched the bird's neck. The nursing station wouldn't cut off the spirit beast's food, but that was all. Spirit beasts needed company and communication just like humans. Lin Yi had to spend more time and effort on this Spirit Bird when he returned to the North Island. Otherwise, he wouldn't be able to live up to Huang Xiaotao's kind intentions.

The spirit Bird responded clearly and rubbed its head against Lin Yi's body affectionately. It seemed very satisfied with its master.

Lin Yi smiled and jumped onto the bird's back. The bird let out a loud cry and flapped its wings, quickly and steadily rising into the air. The bird was a flying beast made for human practitioners-this was true.

Lin Yi felt the wind blowing in his ears and looked at the rising sun in the distance. He was in a good mood. He was finally going back after being out for so long.

The spirit Bird was very intelligent, and it could remember any route after flying once. Lin Yi didn't even need to point the way this time, and the spirit Bird could find the way back to the North Island on its own. It was even more accurate and reliable than Lin Yi, so all he needed to do was sit on the spirit bird's back and cultivate.

He stretched lazily on the spirit bird's back and was about to sit down and start practicing when the Jade's alarm rang. Even the spirit Bird seemed to have sensed danger and started panicking. Lin Yi's heart tensed up as he looked around vigilantly. What was going on?

"Wayayayayaya, junior Ling Yi, you're really not dead?" A cloud of black mist appeared out of thin air behind him, accompanied by West Mountain sect master's cruel sneer. He exclaimed in disbelief, ""Even our sect was disheveled in the South Island and almost died there. How lucky are you to be able to escape with your puny strength?"

Lin Yi's heart skipped a beat as he watched the West Mountain sect master slowly reveal himself from the black mist. His expression changed-he'd been so careful this time around, not even showing his face when he went to Qitian bodyguard agency in the middle of the night, all to guard against this West Mountain sect master. He didn't expect things to end up like this. How did this guy get his information?

However, Lin Yi immediately understood. The Longzhou escort didn't just have eyes all around the Qitian escort agency, they must have many people at the dock as well. Perhaps even the servants at the nursing station were their people.

Lin Yi's actions couldn't be said to be careless, but there was one obstacle he couldn't get around, and that was that he had to pick up Huang xiaotao's spiritual bird. This was the only flaw, and it was a fatal one.

Once he took Huang xiaotao's spiritual bird, it would be useless even if he changed his appearance. People could easily guess his identity from the fact that he was riding on the spiritual bird. When the West Mountain old sect received the news, they would naturally come over as soon as possible!

He was too careless! Lin Yi regretted it in his heart, but he really had no choice. Even if it was to avoid the old sect of West Mountain, he couldn't just give up on Huang xiaotao's Spirit Bird, could he?

"Hmph Hmph, if it wasn't for someone's tip off, I wouldn't have been able to recognize you with your uncouth appearance. However, from your current appearance, there's no doubt that you're Ling one. This is really the will of the heavens! Hehehe!" West Mountain old sect master sneered smugly.

He hated Lin Yi to the bone now-it wasn't just for killing Wu baoliang and Cheng haonan's disciples, it wasn't just for making the puppet, it was for his own face.

Last time, he went after Lin Yi in front of everyone, but he didn't expect to end up with dirt on his face. Lin Yi didn't kill him or catch him, and he ended up in the South Island in a sorry state. How could he, a Big Shot of the evil cultivation, accept this?

As a Big Shot of evil cultivators, the old sect master of West Mountain didn't care much about having his disciples killed. He had always regarded human lives as nothing. If his disciples died, he could take them

back. It was no big deal. But at his level, he couldn't lose his face no matter what the occasion was. Otherwise, he would be laughed at and it would greatly affect his deterrent force.

If a Big Shot of evil cultivators couldn't scare people and control the situation, what was the point of coming out?

The sudden appearance of the old sect master was like a bucket of ice water being poured on Lin Yi's head. He was in a good mood, but fortunately, he had a strong mind. He couldn't help but be shocked when he saw the old sect master, but he quickly reacted and ran away with his Spirit Bird.

A Spirit bird's flying speed was extremely fast, and was considered first class among all flying spirit beasts. In terms of absolute speed, it was at least comparable to Lin Yi's extreme butterfly micro step on the ground. Although West Mountain old sect seemed to be able to fly, it was only floating compared to real flying spirit beasts. Their speed in the air was definitely not comparable to a Spirit Bird.

Unfortunately, the old sect master of West Mountain didn't need to be fast to catch up. As long as he locked onto Lin Yi's position with his spiritual sense, he could catch up with him in an instant. This kind of magical skill couldn't be shaken off by speed alone.

One of the key reasons why he was able to escape last time was because Lin Yi was covered in mud, which successfully blocked the old sect master of West Mountain's spiritual sense lock, which allowed him to escape with the help of the ghost's help. Otherwise, no matter how fast he was, no matter how hard he tried to use super limit butterfly micro-steps, it was all in vain.

During his one month in the southern island, Lin Yi did collect some mud with similar effects in the Jade space, but time was tight now. The West Mountain sect master wouldn't give him the chance to apply mud on his body, not to mention that it was useless even if he applied mud himself. The West Mountain sect master only needed to lock onto the spirit Bird under him.

What was even worse was that the weather was quite good today. The sea fog could have hindered the old sect master of West Mountain's divine sense lock-on, but now it was a rare clear sky ...

Even without his spirit sense, he could see Lin Yi with his eyes!

"Don't be afraid, run in the direction of the five poisons swamp!" The ghastly voice sounded in his mind.

"Alright!" Lin Yi nodded decisively. It seemed like he could only use the same trick again, like last time when he ran into the southern island and scared the old devil away. Looking at the surrounding places, perhaps only the spirit beasts in the southern island could make the old sect of West Mountain flinch.

But with what happened last time, there was no way West Mountain old sect would let Lin Yi have his way so easily. Killing intent radiated from him, and he'd almost given up on the idea of capturing Lin Yi alive. He didn't care if he didn't refine the puppet, but he had to get back his face no matter what-Lin Yi had to die!

Chapter 4545 One Chasing And One Escaping

With a cold smile, the signature black mist of West Mountain sect appeared above Lin Yi's head like a shadow. This time, however, he wouldn't use the hand of Soul Reaper. A sinister and terrifying bone claw reached out from the black mist. It wasn't human nor beast, but felt like it was made from human and beast bones. Lin Yi had never seen such a heavy evil aura in his life.

The bone claw pierced through the air like a bolt of lightning, aiming for Lin Yi's head. It was determined to crush him.

The bone claw hadn't even reached Lin Yi yet, but the terrifying killing intent was already too much for Lin Yi to handle. The spirit Bird he was sitting on couldn't even move its wings, and they fell straight down.

"Explode!" Fortunately, Lin Yi was prepared for this. In the nick of time, the Super bomb that he had just condensed was thrown out, meeting the bone claw above his head.

BOOM! An earth-shattering loud sound suddenly resounded across the entire cloud arc Sea area. The tsunami suddenly rose, and the wind and clouds changed color. Everyone in the cloud arc city revealed a look of horror at the same time. Those people from Mo Leng city were already familiar with this destructive loud sound, but it was still their first time experiencing it.

At the edge of the blast, the spirit Bird rushed out with Lin Yi, flapping its wings as fast as it could to escape. At the center of the explosion, the bone claw was caught off guard, but it only paused for a moment, not damaged at all.

"Hehe, you want to plot against our sect with this little strength, what a whimsical dream!" The old sect master of West Mountain laughed coldly as he retracted his bone claw. Lin Yi's super bomb was enough to kill a high-level Yuanying master, and even a Xuansheng master would be covered in dust if they were caught off guard. However, it was still far from enough to deal with him.

Lin Yi's heart trembled when he heard the laughter of the old sect master of West Mountain. The Super bomb was his last killing move, and even the wild flame thousand explosion fist didn't have this power. But even so, he couldn't do anything to the old sect master of West Mountain.

Lin Yi's timing wasn't bad, but his strongest move still didn't hurt his opponent at all. He only barely interrupted his opponent's attack, and that was all. The difference in strength between them made him speechless.

"Hurry up and run. If you're caught by that devious person before we reach the five poisons swamp, you're dead." The ghastly thing urged in his mind.

"Of course ..." Lin Yi shook his head with a bitter smile. He would've run to the southern island even if the thing didn't hurry him. Besides, it was much more dangerous than last time. Last time, the old sect of West Mountain wanted to use him to make an Ace puppet so they wouldn't hurt him easily, but this time, they didn't have to worry about that. They used their killer moves.

The Super bomb could barely block it once, but it was impossible to block it a second time. However, knowing that the opponent could use spiritual sense to lock on to him and follow him like a shadow with a thought, how could it be possible to rely on the speed of the spiritual bird to get rid of the opponent?

"Don't worry, as long as we can get rid of that devious person with absolute speed, we don't have to worry about him suddenly descending. He can't lock onto you with his divine sense anymore. " The ghastly thing suddenly laughed.

"Ah? But I didn't put any mud on it. " Lin Yi blinked.

"I'm here, what's the point of smearing mud!" The demonic thing said unhappily. Even though the West Mountain old sect was arrogant, if it was at its peak, it was just a piece of trash in front of the former Azure Dragon. Even if it had fallen into such a miserable state, it could easily block the other party's spiritual awareness lock.

"Ugh ..." Lin Yi just remembered that this thing was a primordial spirit Grandmaster, and its use of spirit sense was at least Ten Streets ahead of the West Mountain sect. "If you knew this would happen, why didn't you do anything last time? I thought I was dead for sure a few times."

"Last time, this guy didn't directly use his killing move. Why would I rashly attack?" The ghastly thing pouted disapprovingly and said, "Little brat, you have to remember that every time I attack, there will be an increase in the danger of being seen through. Once people know that I'm hiding with you, then we will really not have any good days."

"I'll remember that." Lin Yi nodded and didn't say anything else. He urged the bird to fly towards the five poisons swamp.

At the same time, the old sect master of West Mountain, who was shrouded in the black mist, laughed hideously. He habitually wanted to land on Lin Yi's head, but after a while, he realized that he didn't even move a fart. He was still floating in his original position.

"What?" West Mountain sect master frowned and subconsciously wanted to re-confirm Lin Yi's position, but his face changed immediately. Lin Yi disappeared from his divine sense. Not only that, but even the spirit Bird disappeared with him. Was this not a ghost?

The weather was so good that not even a blade of grass or a tree within a hundred miles could escape the detection of West Mountain old sect's spiritual sense, let alone a five-mile radius. However, for some reason, Lin Yi and the spiritual bird's aura had disappeared.

This strange and evil feeling seemed to have been erased by some exquisite means. Even West Mountain sect master admitted that it was impossible to do such a thing. It was simply incredible.

"Wayayayaya, junior Ling Yi, don't think that you can escape like this. Today, this sect will definitely kill you!" The old Grandmaster of the West Mountain was furious, but he quickly calmed down. He focused his eyes and looked into the distance. Then, he suddenly shot out a powerful pure energy from the black fog. His whole body was like an arrow, chasing in the direction Lin Yi escaped.

After all, he was a big Shot of evil cultivators at the beginning stage of the mountain. If the old sect master of West Mountain were to burst out with speed, it would be no small matter. Especially now that he was consuming his genuine Qi at all costs, his flying speed was even faster than the spiritual bird!

Seeing the black dot behind him getting closer and closer, Lin Yi, who had just let out a breath of relief, once again looked as if he was facing a great enemy. He had already overestimated the strength of West Mountain old sect, but he didn't think that the other party could still catch up to him. He was even faster than a spiritual bird. Was this guy even human?

Hurry up, hurry up! Lin Yi's only hope of survival was on the spirit Bird now. The ghost was no longer able to follow him like a shadow. If he couldn't even escape this, then he had no choice but to die.

Fortunately, Huang xiaotao's Spirit Bird didn't disappoint Lin Yi. Although its speed was still not as fast as the old sect master of West Mountain, it took advantage of the chaos to widen the distance and successfully arrived above the five poisons swamp before the old sect master of West Mountain caught up!

Chapter 4546 Five Poisons Swamp

"Senior, are we going to enter the southern Forest through the previous teleportation formation? Or are we just going to fly over?" Lin Yi quickly asked.

Activating the teleportation formation required a period of preparation time, and it was very likely that West Mountain old sect would catch up with him. However, if he flew over directly, it would be very easy for him to be targeted by the nearby spirit beasts. No matter what he chose, it was risky. In order to survive, he could only take a risk.

"That teleportation array is a one-way teleportation array. You can only go out and not in." The ghostly thing replied.

"What? F * ck! How could they escape to the southern island? Lin Yi was shocked. This was the only way he could get away from the old sect, how could it be a one-way teleportation formation?!"

As for the other option of flying directly into the southern island forest, he didn't think it was feasible at all. First of all, it was impossible to avoid those extremely dangerous spirit beasts. Second, even if there was a way to avoid them, he couldn't shake off the old sect master of West Mountain, who was faster than him.

"Wrong, who told you that we flew here to enter the southern island? Do you think that the southern island is your backyard, and you can enter as you please? Have you forgotten all the suffering you've suffered before?" The ghostly thing calmly smiled and curled its lips.

"But what if we don't enter the southern island? Could it be that senior is preparing to scare off this old monster like last time?" Lin Yi's eyes lit up, but he quickly denied it. "No, this kind of thing can't be done again. The old sect master of West Mountain is not a fool. How can he be fooled twice in a row?"

"Of course. Although he's an evil person, he's not a mentally retarded child. How could he be fooled twice in such a short time? If even the second-in-command was this kind of trash, the West Mountain evil sect would have been annihilated long ago!" The ghostly thing said.

"Mentally disabled child ..." Lin Yi couldn't help but curse. It seemed like this trip to the secular world wasn't in vain. Not only did he end up in such a miserable state, but he also learned modern vocabulary ...

"The reason why I let you escape here is not to let you escape to the southern island, nor to Bluff and scare off this crooked way. It's because there's something here that can save your life. It's guaranteed that this old monster of the West Mountain can't do anything about it." Seeing that the old sect master of West Mountain was getting closer and closer, the ghastly thing was very confident and didn't look panicked at all.

"Even the West Mountain old sect can't do anything about it? Could it be that senior's friend is here?" Lin Yi's spirits were lifted. He might not have believed that there was a spirit beast that could stop an opening-stage evil cultivator before, but after seeing the spirit beast meet, he had seen the power of the Spirit beast clan. If he could find a friend at this damn thing's level, it shouldn't be a problem to deal with a West Mountain old sect.

"No, I don't have many friends. Even if I did, they're not in the southern island anymore." The answer made Lin Yi's heart sink, and the next sentence shocked him even more, "If you want to get rid of the pursuit of that evil sect, you must enter the five poisons swamp!"

"What? Senior, didn't you say that the five elements of the five poisons swamp kill each other, and that whoever enters would die without a doubt?" Lin Yi said, shocked.

"That's right. So, you have to use all your energy to protect yourself and this spiritual bird. Just keep flying down." The ghastly thing pointed out.

"This works too? Aren't you going to die?" Lin Yi couldn't help but be shocked and suspicious. When they talked about the five poisons swamp, even the damn thing sounded scared. He even said that the West Mountain old sect couldn't do anything about it, but now he wanted him to jump in with the spirit Bird. Wasn't he tired of living?

If he had known that he was going to die anyway, he might as well stay and fight to the death with the West Mountain old sect. Why did he have to escape here and choose such a strange grave for himself? It was really unnecessary. He might as well be buried in the sea. At least he would be cleaner.

"Don't worry about that. If it was someone else, they would definitely die, but you probably won't die. " The ghostly thing laughed.

"Senior, please don't joke around. If this five poisons swamp can make an opening stage evil cultivator helpless, I wouldn't have the ability to jump in and not die ..." Lin Yi smiled bitterly. He was always confident, but he would never be overconfident. This wasn't realistic.

"If you die, I'll be in trouble as well. Do you think I'd joke about this?" Although the ghostly thing didn't have a physical form, it still used its tone to show what it meant by pouting. "Back when the Sky Class Island opened, you didn't even die from the five elements. Now that you're at the peak of the mid-Aurous core stage, you're no longer the same as you were before-how could you die in this five poisons swamp?"

"Yeah!" Lin Yi's eyes brightened. The five elements in the sky and earth were always in a cycle, and even the strongest master couldn't withstand it. But he was different. He had five elements, so what was there to be afraid of?

The old sect master of West Mountain was already in front of him, and the tadpole-like bone claw in the black mist appeared again. The dense evil Qi that was almost solid was coming at him. Lin Yi didn't

hesitate anymore. He quickly followed the ghost's order and used his pure Qi to protect himself and the spiritual bird. Without saying anything, he rushed into the five poisons swamp.

Gulu! Gulu! Gulu!

The West Mountain old Grandmaster was dumbfounded when he saw Lin Yi and the spiritual bird instantly sink into the five poisons swamp, leaving only a series of horrifying bubbles. He had been chasing too fast and too fiercely, and he almost couldn't stop in time. Fortunately, he burst out all his pure Qi at the critical moment and barely stopped his body.

The old sect master of West Mountain was lucky that he didn't fall into the five poisons swamp, but he didn't manage to pull back the bone claw he formed in time. The claw almost touched Lin Yi's back and attacked.

Buzzzzzz! An ear-piercing sound instantly pierced through the sky and broke the peace within a radius of hundreds of miles. At the same time, the five-colored mud that soaked the bone claw suddenly exploded. The great power contained in it actually caused the entire world to lose its color.

The bone claw that was unharmed by Lin Yi's super bomb turned into pieces the moment it came into contact with the mud. The pieces were devoured by the swamp without a trace of bone residue.

The old Grandmaster of the West Mountain vomited a mouthful of blood-it was a sign of severe backlash. The ferocious bone claw was a killing weapon that he had spent a lot of effort to create. It was absolutely indestructible and its strength was no less than any divine weapon. Lin Yi's super bomb was a good proof.

Chapter 4547 Killing Intent Of The Five Elements

This was one of the signboards of the evil cultivator giant, West Mountain old sect. However, in front of this ugly five poisons swamp, it collapsed at the touch and was completely vulnerable ...

Even West Mountain sect master couldn't help but feel his scalp go numb at such a horrifying scene. His already strange face suddenly had an additional layer of bloodless paleness, and his heart was filled with fear.

"This ... Is the legendary five poisons swamp?!" The old sect master of West Mountain flew up into the air with lingering fear and stopped after retreating for several miles. He was afraid that he would follow in the footsteps of the bone claw and be swallowed by this ugly swamp without leaving a trace.

Because very few human cultivators came to this place, not many people knew about the five poisons swamp in the South continent sea. However, the old sect master of West Mountain was obviously a master who knew what was good. Even if he couldn't recognize it at first sight, he would be unworthy of his title as a Big Shot of evil cultivators if he couldn't react to such a big loss.

After all, Masters at the level of West Mountain old sect were often people who cherished their lives very much. They could be unfamiliar with any place or environment, but they had to know everything that could pose a fatal threat to them like the back of their hands, just like the five poisons swamp in front of them.

Cultivators claimed that they could defy the heavens and change one's fate, but in reality, the higher the level of a great figure, the more they revered the power of heaven and earth. This was because the stronger one was, the more they knew how small they were, and the more they knew how vast and terrifying the heavens and earth were.

To fight against the power of heaven and earth with one's own strength was a realm that many people dreamed of. Unfortunately, this was always just a beautiful fantasy. In reality, this possibility would never exist.

Any place where the might of the heavens and earth was manifested was an absolutely dangerous and forbidden place for cultivators. No matter how strong they were, it was useless even if they were at the xuansheng stage, the mountain split stage, or even higher. If they wanted to go against the heavens in these places, there was only one end, and that was death.

No matter which angle he looked at it from, the five poisons swamp in front of him completely fit the definition of a dangerous place. Not to mention that West Mountain old sect had been accidentally tricked and his face was covered in blood, even if he had successfully retracted his bone claw just now, he would definitely not dare to go close to the five poisons swamp.

"Wayayayayaya! Sinister junior, you actually want to drag this sect down with you before you die, truly vicious to the extreme!" West Mountain old sect master finally recovered from his internal injuries, his face green with anger as he cursed. He thought that Lin Yi knew that he was going to die, so he wanted to take him down with him!

The old sect master of West Mountain was full of shock and fear at the moment. He secretly sighed that he was lucky enough to be careful enough to stop himself in time and escape the disaster!

If he'd followed Lin Yi into the room out of bloodlust, it wouldn't matter how strong he was-even his bone claws couldn't withstand the five-element attack, let alone his own body. At that time, he would definitely have to die with this little bastard, and he would have to be crushed into pieces and his soul would be scattered.

From a few miles away, the old sect master's face changed as he looked at the five poisons swamp. He knew that Lin Yi was dead this time. There was no way he could come out alive.

After all, this was different from the last time. Although the southern island forest was also extremely dangerous, if one was extremely lucky, there would still be a chance of survival. However, once one fell into the five poisons swamp, death was no longer a matter of probability, but a matter of certainty. There could not be any accidents, unless the world had gone crazy.

"Bah! He deserved to die!" West Mountain sect master spat at where Lin Yi fell. He didn't kill Lin Yi with his own hands, but he was still dead. He achieved his goal this time, and didn't end up with a dirty face like last time.

The only thing that made West Mountain old sect feel a little regretful was that Lin Yi didn't even leave a bone behind, let alone a complete body. It was rare to come across a good material that could be used to make an Ace puppet, and it would be a lie to say that it wasn't a pity to let it go just like that. It could only be said that it was fate.

Although this place was very remote, it was still within the boundary of the southern island. After the bloody lesson last time, the West Mountain old sect did not dare to stay here for long, for fear of attracting the attention of some powerful spirit beast. After cursing, he immediately turned around and left.

Never in his wildest dreams would he have thought that Lin Yi, who he thought was dead, wasn't killed by the swamp's five elements attack. On the contrary, he wasn't injured at all, not only that, but even the spirit Bird was the same.

His entire body was protected by pure Qi. After entering the five poisons swamp, Lin Yi and the spiritual bird had been falling at a fast speed. He didn't know how long this process had been going on for, but it felt like it was bottomless.

The process was long and boring, but it wasn't easy at all. There was an extremely strong five elements killing intent all around him. Lin Yi could feel it even with his pure Qi wrapped around him. Thinking about the bone claw of West Mountain sect being easily crushed by the five elements killing intent, the scene in front of him was so horrifying that it made him shudder.

If it were someone else, including the evil cultivator big shots like the old sect of West Mountain, they would've turned into powder by now. However, Lin Yi was surprised to find that although the terrifying five elements killing intent was circling around the whole time, it didn't have any intention of attacking him.

It felt like the killing intent around him and the bird was immune to it-it was a strange situation, but Lin Yi understood it after thinking about it. It was probably because of the five elements that his Qi had the five elements too, and the killing intent in the swamp might have mistaken them for the same kind.

This was the only possible explanation-after all, the difference in strength was thousands of times. If he wasn't mistaken for the same kind, it would be impossible for Lin Yi to block these killing Qi attacks with his Qi.

As they went deeper and deeper, Lin Yi could clearly feel the killing intent in all directions getting heavier and heavier. The amount wasn't as mixed as before, but the strength was different.

Logically speaking, the killing intent of the five elements should be the same as true Qi, invisible and formless! However, the murderous aura of the five elements in front of him had become a material existence. Each of them was like a five-colored flood Dragon that was swimming at a high speed. Half of

them were illusory and half of them were solid. The terrifying pressure that they emitted was even more terrifying than the pressure of the experts that they had experienced in the spirit beast meet!

Chapter 4548 Unexpected Benefits

"What is this? The killing intent of the five elements or some kind of spirit beast?" This time, even Lin Yi was a little shocked. From the common world to Sky Class Island, he thought that he had seen a lot of things, but he never knew that a natural existence that was similar to the spiritual Qi of heaven and earth could be so similar to a spiritual creature!

"According to the legends, when any kind of natural force is strong enough, it can give birth to a spirit and become a unique life form. So, there's nothing wrong with you saying that they are spirit beasts. However, they only look like spirit beasts, but they have not yet transformed into true spirit beasts." The ghastly thing explained. In his calm tone, there was also a sense of shock that could not be concealed. At the same time, there was also an inexplicable sigh.

Although he was the former Azure Dragon elder of the spirit beast clan, it was his first time entering the depths of the five poisons swamp, especially such a deep place. Naturally, it was also his first time seeing such a powerful five elements killing intent.

"This is too shocking!" Lin Yi couldn't help but be shocked. He didn't feel it before, but after seeing the dragon-like killing intent, he realized that this wasn't a place for just anyone to come to, even human practitioners and spirit beasts. No matter how strong they were, they couldn't come here.

The power of any one of the five elements killing Qi here was at least comparable to a spirit beast guard, or even stronger. Even if there was a heaven-defying existence, they might be able to withstand one or two five elements killing Qi, but what about hundreds or thousands of them? There were thousands of solidified five elements killing Qi here, what could they use to resist them?

Lin Yi was able to stay here and not be attacked purely because of his unique five elements attributes. He managed to fool the dragons formed by the killing Qi, making them think that they were of the same kind.

However, in the entire world, how many people were born with the five elements? Other than Lin Yi himself, there probably wouldn't be a second.

"Little brat, you don't need to be too shocked. With your growth rate, I believe that you will be able to reach their level in a few years. No, I should say that you can reach their level with just a wave of Zhen Qi. Five elements and seven attributes, your natural talent is destined to have a boundless future." The ghastly thing's voice was filled with uncontrollable excitement.

As the former Azure Dragon, there was basically nothing in this world that could make him lose his composure, but Lin Yi's talent was unprecedented, especially when he was getting stronger and stronger against strong opponents. Even a ghost couldn't help but be stunned and overwhelmed with emotions when thinking about it.

With time, he had no doubt that Lin Yi would grow to an unprecedented level. He would be able to do anything he wanted, and nothing would be able to stop him then.

The king of the spirit beasts was supposed to be an unparalleled peak in this damn thing's heart, but after spending so much time with Lin Yi, this concept had quietly collapsed. With Lin Yi's heaven-defying talent and luck, he believed that one day he would be able to stand on the same level as the unparalleled King of the spirit beasts, or even higher.

"What? Just a wisp of true Qi can reach their level?" Lin Yi didn't think that much, but he was completely stunned by the words. Just thinking about that image was enough to make his blood boil!

"They are the five elements of killing intent, and yours is the five elements of true Qi. They are essentially the same. As long as you are strong enough, nothing is impossible." The ghostly thing paused for a moment and then laughed. "Of course, you're still too weak right now. All of your true energy can't even compare to a single strand of their hair. Don't think too much about it."

Lin Yi looked at the half-illusionary and half-solid "flood Dragons" and couldn't help but think to himself, "does this thing have fur?"

He didn't know how long he had been like this, but as he continued to sink, he suddenly felt his surroundings become empty. It didn't feel like he was falling through the mud at all, but more like he was falling from midair. The speed of his descent was suddenly a lot faster, and then there was a muffled boom—he was on solid ground!

Fortunately, Lin Yi had covered himself and the bird with pure Qi, or they would've been injured.

"It's alright. It looks like the ancient records about the five poisons swamp are true. Kid, you can withdraw your true Qi now." The ghostly thing said.

"You're fine already?" Lin Yi couldn't help but be surprised as he looked around. This was an extremely spacious underground space, and about a hundred feet above him was a colorful picture. Other than the mud, he could clearly see the solidified killing intent of the five elements, circling above.

But what made Lin Yi feel strange was that whether it was the mud or the killing intent, they all seemed to be blocked by an invisible barrier, separated in the air, about a hundred feet high. This scene made Lin Yi unconsciously think of those large ocean mansions in the secular world, it felt like a dream.

"I'm fine now. According to the ancient records I read, this should be the space where the five poisons swamp originated. Not only is it absolutely safe, but there are also unexpected benefits." As the ghastly thing explained, it tried to scan the surroundings with its divine sense.

"Unexpected benefits?" Lin Yi was taken aback, but he realized what was going on before the damn thing could say anything. The spiritual Qi here was unprecedented!

In fact, Lin Yi already knew that the Qi here was dense when he passed the five poison swamp last time, but he didn't pay much attention to it at the time. After all, the Qi here was only a lot denser than the other places on Sky Class Island. Compared to the Jade space that Lin Yi had always relied on, it was still a lot worse.

But it was different this time. The Qi here was hundreds to thousands of times denser than above. Lin Yi even realized that the Qi here was even denser than his Jade space. It was unbelievable that there was such a treasure land in the world!

If he didn't experience it himself, Lin Yi wouldn't even believe that there was a space like this under the dangerous five poisons swamp. It was a Holy Land that all practitioners and spirit beasts dreamed of.

It was the first time the spirit Bird felt such rich Qi, and it let out an excited cry. It started flying around Lin Yi happily, no longer looking tired like before.

Lin Yi wanted to stop him. This place was mysterious, but it was an unknown place after all. Who knew if there were any strange things here? after all, there was a Dragon formed from the five elements killing Qi swimming above them. According to what the damn thing said, this was the source of the five poisons swamp. There might be some terrifying existence guarding it.

Chapter 4549 Five-Poison Dragon

The more blessed a place was, the more danger it was-this was a rule that had never changed since the ancient times. It was just like searching for treasures in the primitive places-one wrong move and you'd pay a heavy price. Lin Yi had always remembered this rule of survival.

At any time, it was never a bad thing to be cautious. The spirit bird's frolicking might attract an irresistible existence, so it was better to let it endure a little.

"It's fine, let it play by itself. As long as it doesn't fly too far, it shouldn't be a big problem. I've used my divine sense to scan the surrounding hundred miles, and I didn't find any signs of living things. " "For spiritual birds like them, playing is equivalent to cultivation. This is a rare opportunity for them," the ghostly thing interrupted.

"Oh, alright then." Lin Yi nodded. Since the thing said so, then there shouldn't be a problem. He continued to look around the space and asked, "Senior, how big is this place down there? why do I feel like it's much bigger than the five poisons swamp up there?"

Because of the five-element killing intent's five-colored lights, it was a natural source of light. The light down here wasn't as bright as the ground, but it was pretty good visibility. With Lin Yi's vision, he wouldn't be hindered at all. However, he couldn't see the end of the road.

"It should be, but I'm not too sure about the exact situation. Back then, the ancient books only mentioned that there was such a source space. It was briefly mentioned and did not mention the exact situation." The ghostly thing didn't dare to be sure about this, but one thing was certain. At least, the area that his divine sense had swept through was far from the end. Compared to the five poisons swamp above, it was clearly many times larger.

"Oh, by the way, senior, did you specifically check ancient books and records? Is it related to the five poisons swamp?" Lin Yi couldn't help but ask.

The ghost had never been here before. His understanding of the five poisons swamp was obviously from ancient books. Under normal circumstances, it was not strange to occasionally glance at ancient books. However, he knew so much about it, so he must have checked it.

"That's right. I once spent several years investigating this five poisons swamp and looked through almost all kinds of ancient documents. Although I can't come in directly like you, I'm afraid no one in the world knows more about this five poisons swamp than me!" The ghostly thing said with confidence.

"Why is that? Could it be that senior is like the other spirit beasts and wants to take this five poisons swamp for yourself?" Lin Yi joked.

"That's not it. Except for a freak with unique talent like you, no other spirit beasts or human cultivators can block the killing Qi of the five elements. Even I am the same. When I first investigated this five poisons swamp, it was actually because of a rumor." The ghostly thing said, keeping him in suspense.

"What rumor?" Lin Yi was interested.

"The rumor says that there are flood Dragons in the five poisons swamp, and they have been seen by other spirit beasts more than once." The ghostly thing said in a faint voice.

"Flood Dragon?" Lin Yi was shocked and subconsciously looked up at the five elements killing intent. If he didn't feel it up close, he would think that these were real Dragons.

"Flood Dragons are under the jurisdiction of the Dragon race, and if they really do exist, then they're definitely not weak. When I left the Sky Class Island, I actually wanted to train a vice elder of the Dragon race to help me with the affairs here, but I couldn't find someone with the right, so I had to come and look for them. But after spending several years, I found nothing." The ghostly thing paused for a moment and then smiled bitterly. "Now it seems that the flood Dragon they saw was clearly the materialized killing Qi of the five elements. It just happened to swim to the swamp."

"It should be like this." Lin Yi nodded. He'd never seen a living creature ever since he entered the five poisons swamp. It'd be weird if a five poison Dragon appeared out of nowhere, since this was a natural death zone.

Lin Yi asked hesitantly, "Senior, what should I do next ..."

This place was a natural treasure, and the Qi here was even denser than in the Jade space. He might never have the chance to see it again in his life, so Lin Yi didn't plan on going up just like that. Of course, he couldn't go up now.

After all, he could not fly like the old sect master of West Mountain. Even if he could enter the five poisons swamp at the top, it would be difficult for him to overcome the huge resistance of the mud and swim up. Moreover, he could not leave Huang xiaotao's spiritual bird here.

Unless the spirit Bird didn't move like it did when it came down, Lin Yi would be able to protect it with his pure Qi. But how could the spirit Bird go up if it didn't move? With Lin Yi's current strength, it was really easy for him to make a mistake if he made a move-he'd regret it if anything happened during the process.

And if he went up now, the old sect of West Mountain might not give up and guard the edge of the five poisons swamp. If he found out that Lin Yi could go deep into the five poisons swamp and not die, he would definitely not stop until he died. Lin Yi would never be able to leave the five poisons swamp again.

But if they didn't go up, then they could only stay in this strange underground space in front of them. It was true that the spiritual Qi was extraordinarily rich, but the problem was, who knew what kind of danger this place would be?

Although Lin Yi didn't believe in the existence of the five-poison Dragon, his years of experience made him understand another truth-risk always outweighed benefits. Was such a treasure land really that safe and harmless? The possibility of this happening was even lower than the five-poison water dragon ...

If it was before, Lin Yi would definitely try to explore this vast space. After all, it was a rare opportunity, and there might be unexpected surprises. However, after seeing the Super existences of West Mountain old sect and the spirit beast clan, Lin Yi's strong self-confidence had long been shaken.

As a peak mid-stage golden core cultivator, Lin Yi was at least a hundred times stronger than when he first came to Sky Class Island. However, he didn't feel that he was that strong at all-he'd be tired of living if he dared to explore without any clues.

The space below was much larger than the five poisons swamp above. God knew if they could still find it after walking far away. They also didn't know if they could go up again. Perhaps, after they went up, there might be other unexpected situations. This place was full of uncertainties.

"What's wrong? Do you want to take a walk now?" The ghastly thing said with a resentful tone.

Chapter 4550 Knowing Zhang Liju

"Senior, please don't joke with me. I'm not stupid ..." Lin Yi smiled bitterly. Curiosity killed the cat, it killed people too. Many masters died because of this curiosity.

"Since you're not stupid, why don't you start cultivating? This place is blessed by the heavens, and it's a perfect place for you to cultivate. If you don't hurry up and cultivate now, you'll be wasting this opportunity that the heavens have given you!" The ghastly thing said with envy.

"Eh? What do you mean by that?" Lin Yi blinked. He didn't know why, but he felt that this might be a great opportunity. An opportunity that even the ex-Azure Dragon was envious of was something that came by only once in a blue moon.

"This is the five poisons swamp, and you just so happen to have five spiritual roots. Perhaps you're the only one in the world. What do you mean?" The ghastly thing asked.

Lin Yi caught the key point after hearing the ghastly thing's reminder. He became excited, but he was still uncertain, ""But isn't this place where the five elements kill each other? At most, these five elements killing intent won't attack me. How am I supposed to use them to cultivate?"

"For others, it's a deadly five elements killing each other, but for a talented freak like you, the killing aura of the five elements is very useful. It's not as simple as not attacking you." The ghostly thing paused and couldn't help but sigh in his heart. "To be honest, it's extremely rare to see someone with all five elements at the same time on Sky Class Island. I've lived for so long, but I've never heard of a human practitioner with all five elements apart from spirit beasts. It's definitely one of a kind."

"Oh?" Lin Yi raised his eyebrows-he'd known long ago that he had five elements and seven attributes, but he'd never thought that it was anything special. At most, he'd just have a little more spiritual roots, and at most, he'd choose a wider range of arts and techniques, but he couldn't fully utilize every single element.

Even after participating in the morning Star Academy's selection and learning about the advantages of multiple spiritual roots, he didn't think that his five elements and seven attributes were rare to the point of being unique.

"Even the five Element mediums used to open the sky Class islands are just pawns, and they'll eventually be destroyed. You're the only exception." The ghastly thing's voice sounded a little sorrowful as he said, ""Your inheritor girlfriends, in order to prevent you from getting hurt, all of them risked their lives to protect you. They would rather die themselves than bear the pain for you. Such true love is truly touching. The reason you were able to successfully enter the island was all because they fought for you."

As the former Azure Dragon, the bastard's values were completely different from human practitioners, especially when it came to love. He'd always scoffed at it, but what Lin Yi's inheritor girlfriends did really moved him for the first time.

He had never known that the love between a man and a woman could be so selfless and great. It was simply inconceivable. Such a thing would never happen to a spirit beast. This was probably the biggest difference between humans and spirit beasts.

"Yeah, I wonder how they're doing now." The damn thing couldn't help but sigh, and Lin Yi's thoughts were pulled back to the common world as well. It'd been over a year and a half since he'd landed on Sky Class Island, and if possible, he'd want to fly back to the common world right now and see how his girls were doing.

If it weren't for the fact that he missed it so much, Lin Yi wouldn't have spent so much money on the central Chamber of Commerce to send the letter last time without saying anything. He didn't know if the letter was sent to the common world, and he didn't even know if he'd received the so-called return letter. Sky Class Island and the common world were two completely different worlds, and there was no way to contact them.

In the past one and a half years, Lin Yi's strength had increased by at least a hundred times, but the most important goal was still far from being achieved. He couldn't even see Zhang Liju, let alone find a way to save his friends. This result made Lin Yi feel depressed.

However, it wasn't like he didn't make any progress. At least Lin Yi had established a deep friendship with Cai Zhongyang and Hou Guanqi, who were Zhang Liju's disciples. In other words, he had opened up a channel for him to meet with Zhang Liju in the future. All he needed to do was wait for the right opportunity.

On top of that, Lin Yi received another piece of exciting news-the information from the central Chamber of Commerce pointed to the same thing-there was a possible two-way path between Sky Class Island and the common world! Those goods were a good proof!

These two things were extremely important to Lin Yi. Liju meant that he could save people, and the two-way passage meant that he could return to the secular world. As long as he was strong enough, with both, everything would be solved.

It wasn't easy to achieve both at the same time, but at least Lin Yi wasn't as lost as he was at the beginning. As long as he could find the right direction, with his potential, everything would come true one day.

Lin Yi subconsciously fell into deep thought when the ghost's voice sounded in his head, its tone complicated for some reason, "Don't think about that useless stuff-there's a way between Sky Class Island and the common world, I can tell you that. And I know that Zhang Liju you've been looking for!"

"What? Senior, you know him too? Then why haven't I heard you mention it in such a long time?" Lin Yi couldn't help but ask.

Finding Zhang Liju was his most important mission on Sky Class Island-everything else was nothing compared to that. It was a pity that the miracle doctor Zhang Liju was a legendary figure, and even though he'd been on the island for so long, and had such a close relationship with Cai Zhongyang, he still didn't get to meet him.

Lin Yi didn't think that this damned thing that stayed in his Jade space all day would know Zhang Liju, but didn't even mention a word about it. He sure was tight-lipped.

"Say my ass!" The ghastly thing scoffed and paused for a long time before explaining in a faint tone, "I just had a fight with that old B * stard. I don't want to mention it to you ..." "
