Chapter 4561 Taking A Bath With The Star Ink Milk

What made Lin Yi even more speechless was that this Spirit Bird was only in the late Foundation Stage after following Huang Xiaotao for so many years in the North Island. From what Huang Xiaotao said, this guy hadn't leveled up for many years and didn't show any signs of breaking through at all. Now that it came to the South Island, the base camp of the spirit beasts, it didn't seem to be concentrating on cultivation, but it jumped five levels just by playing around. What kind of logic was this?

One could only say that a spirit beast's leveling up was something that couldn't be explained with a brain-there was no pattern to it at all. After all, he couldn't just say that this was the spirit bird's natural training method, could he? Lin Yi didn't think that this guy had all five elements at the same time ...

However, no matter how much the bird's strength increased, it still couldn't eat the ginseng raw as a late-stage golden core-not even a small piece. In fact, even a peak-stage golden core like Lin Yi didn't dare to eat it raw. He'd be dying with a grievance if he couldn't handle the ginseng's effects and died.

The only way to take the nascent soul ginseng was to refine it into a golden pill. This way, not only could it better benefit its huge medicinal power, but it could also neutralize the medicinal properties, making it gentle and harmless. Not to mention, forming a nascent soul did not only require a heavenly treasure like the nascent ginseng, but also a variety of other spirit herbs.

Without further ado, Lin Yi started making the Golden pill. It was a level six pill, but Lin Yi was no stranger to this.

Back when he was on the middle Island, he had already refined it once for the Tian Xing sect. For this reason, he had often asked Cai Zhongyang and Hou Guanqi, the two alchemy experts, for advice. He could be considered to be very familiar with the process.

But even so, Lin Yi didn't use the whole ginseng-he didn't need it at all. In theory, a small piece of ginseng was enough to make a golden pill, and using the whole ginseng was a waste. Even if he'd been managing his herb storage, he couldn't take out so many supplementary herbs all of a sudden.

Even though Lin Yi had successfully made it once before, it was still a tier six pill. Even the Shennong medicine cauldron had a chance of making a mistake. If something went wrong during the process, the whole baby ginseng would be gone. Lin Yi couldn't afford to take that risk, and there was no need to.

He carefully cut two thin slices from the ginseng, and that was enough. If he couldn't even make a golden pill from two slices, then it wouldn't mean that his elixir making skills weren't good enough-it'd just mean that his bad luck hadn't passed! He didn't even need to think about forming a nascent soul. It was better to wash up and go to sleep, so as not to waste such a heavenly treasure.

After preparing all the herbs, Lin Yi went into the Jade space to rest for a while. When everything was ready, he took out the Shennong medicine cauldron and started making the Golden elixir.

After inputting the recipe, the Shennong medicine cauldron would automatically start refining the elixir. In theory, as long as the Shennong medicine cauldron could take it, the chances of failure were much lower than other normal alchemists. The near-perfect success rate before was proof of that, and he had already succeeded before. Even so, Lin Yi couldn't help but feel a little nervous.

Of course, there was no point in him being nervous now. The only thing he could do was to control the supply of pure energy. Everything else could only be counted on the Shennong medicine cauldron that Han Jing Jing left him.

The whole process took a whole day and night. He didn't know if it was because the cauldron couldn't take the impact or because he put in two portions of herbs at once, but the cauldron buzzed and shook

frequently. There were even a few times when it shook so violently that Lin Yi thought the cauldron was going to explode. After all, this didn't happen before.

But he had no choice-he had to press on.

Fortunately, the Shennong medicine cauldron managed to hold on until the end. When the tablet rang with Han Jing Jing's announcement, Lin Yi's entire body was soaked in sweat. He'd been on tenterhooks for the whole day, and the pressure was even greater than when he faced the five elements killing intent. This wasn't a job for humans.

Letting out a long breath, Lin Yi couldn't wait to open Shennong's medicine cauldron. The unique smell of the nascent ginseng entered his nose, but it was a bit more refreshing than the original smell. The freshly made golden pill was lying quietly in the medicine cauldron.

Seeing the Golden pill form in Shennong's medicine cauldron, Lin Yi let out a breath of relief, but at the same time, his eyes twitched in surprise. To be more precise, he was surprised and happy, "Why are there three?"

The Golden core in front of him didn't have the core Halo he'd imagined-it was only high quality, not top quality. However, the quantity gave Lin Yi a big surprise-it wasn't two, but three!

He had only put in two pieces of nascent ginseng and only two sets of other supplementary spiritual herbs, but the result was that he had refined three golden dans. No wonder there were so many abnormalities in the process, and no wonder the quality could not reach the expected supreme quality. It was already a great luck to produce three golden dans at once. It would be unreasonable if they were all supreme quality.

No matter what, getting an extra golden core wasn't a bad thing. Lin Yi's bottom line was just one, and he was overjoyed to get three.

Lin Yi wasn't sure if he could form a nascent soul with just one golden core, but he didn't have to worry about that now.

After that, Lin Yi didn't rush to start forming his nascent soul. Instead, he sat cross-legged in the underground space of the five poisons swamp, meditating. He did this for three days and three nights, making sure that his energy was at its peak. Only then did he slowly open his eyes.

After everything was ready, the first thing Lin Yi did wasn't to consume the Golden core, but to dig a hole in the ground for a bath ...

Of course, it wasn't a normal bath-golden core cultivators could control every single pore on their body with ease, and they'd be fine even if they didn't shower for a year or so. Lin Yi didn't usually have the time to do something like this, but he had to do it today-he wasn't using water, he was using Star Ink.

There were only a few people in this world who had the ability to obtain Star Ink milk, and even if they had the ability, they would at most have a small bottle. They had always treated it as a bejeweled nectar and saved as much as they could, not even willing to drink it. As for taking a bath with it, that was simply a fantasy, something that they didn't even dare to think about.

Chapter 4562 Ruthless

However, it was only natural for Lin Yi to have it. He had gotten a big jar of Star Ink milk from the fire Lion and Spider, and it would be a waste not to use it. Besides, the fire Lion said that the star Ink milk was only effective for bathing, and now it was time to put it to good use.

After filling the entire hole with Star Ink milk, Lin Yi jumped in without a second word. However, there was a plop right after that, and Lin Yi couldn't help but look at the spirit Bird beside him, stunned. He didn't expect this guy to be so sneaky, jumping in as well and looking like he was enjoying himself. Fortunately, the hole Lin Yi made wasn't small, or it wouldn't be able to fit them both.

Lin Yi didn't mind at all that the spirit Bird wanted to join in the fun. The star Ink milk wasn't that effective on a spirit beast like it, but it wasn't a bad thing, and it wouldn't affect Lin Yi either.

After giving the bird some instructions, Lin Yi focused on his dantian and started forming his nascent soul. However, the first step wasn't to consume the Golden core, but to crush the core in his dantian!

As the name implied, the Golden core in the dantian was the source of power for all the Masters of the Golden core stage. No matter what method was used, crushing the Golden core was an extremely crazy and dangerous thing. If it was light, he would become disabled, if it was serious, he would die directly. This was not a joke.

Although condensing the Yuanying was a process of destruction before establishment, for other Masters of the great circle of Jindan stage, even the talented ones would never dare to take such a risk. At most, they would slowly reshape their own Jindan, until they finally condensed the Yuanying. After thousands of years of experiments, this was proven to be the most stable and reliable way to condense the Yuanying.

But Lin Yi didn't plan on following the crowd. It was safe for normal people to do this, but the price to pay was to sacrifice one's potential. Even with the help of the star Ink milk, he wouldn't be able to become the strongest Yuanying stage master. If he wanted to stand out, he had to break before he could build again.

The risk of shattering one's own golden core was extremely high, and Lin Yi wouldn't risk his life if he didn't have that much Star Ink milk with him.

But now, it was different. This much Star Ink milk was enough to ensure that he would be safe and sound after his core was broken. Even if it could not be maintained for a long time, if everything went smoothly, it should be able to support him until he finally condensed the strongest Yuanying!

Although that was the case, it was foreseeable that the process would not go smoothly. Once an accident happened, no matter how much Star Ink milk he had, he would not be able to save his life.

Lin Yi rarely took risks, but this time, in order to achieve the strongest nascent soul, he had to take the risk. After being provoked by the transcendent existences like West Mountain old sect and the spirit beast clan, if Lin Yi didn't take such a risk, he wouldn't be able to fight back even after he reached nascent soul. He had to fight to the death!

He focused all of his Qi in his dantian and attacked his golden core, the source of his Qi. It wasn't hard for normal golden cores to break their cores-xudan only needed a thought, and even solid cores only needed a little bit of Qi. But Lin Yi was different, he had a perfect golden core.

With the support of the stars, the perfect golden Dan's toughness was unprecedented. If Lin Yi wanted to destroy his own golden dan, he would have to hit himself with all his strength, and this feeling was no different from a violent sand thousand explosive fist in his dantian. If he didn't have enough perseverance, he would've passed out from the pain.

Pfft! Lin Yi let out a muffled groan and spat out a mouthful of blood. The perfect golden dan in his dantian had already fallen apart, and the commotion inside his body was so great that even the ghost, who was just a bystander, was shocked. He'd seen many cruel people, but this was the first time he'd seen someone like Lin Yi, who was so cruel to himself.

"A man should indeed be more ruthless to himself. You're awesome, kid!" The ghastly thing couldn't help but click his tongue.

"Senior, you're too kind. It's not bad ..." Lin Yi forced a smile. It was hard on him to still be in the mood to answer at a time like this.

As he spoke, Lin Yi forcefully activated his pure Qi again, completely crushing the broken golden dan. At the same time, the star Ink milk seeped into every pore on his body, flowing through his eight meridians and gathering in his dantian.

Lin Yi's dantian was also on the verge of destruction after his perfect golden dan was destroyed. The dantian was the foundation of every practitioner, and even the gods couldn't save it if it was destroyed. Even if he was lucky enough to survive, he would never be able to use any pure Qi again. He'd be a complete cripple.

However, the good thing was that he had the star Ink milk. At this moment, the star Ink milk that was flowing in just happened to stabilize his dantian that was on the verge of collapse. At the same time, it also created a unique environment, an excellent environment for him to condense the strongest nascent soul!

At this moment, Lin Yi didn't feel the pain of the broken dan. Instead, he entered a mysterious and wonderful realm. It was as if his body didn't belong to him anymore, but he became a cold observer. Everything in his body became clear, and the unclear parts became clear because of the star Ink milk.

"The realm of clarity?!" Lin Yi's heart skipped a beat-this was a mysterious realm that only existed in legends. He didn't think he'd encounter it today.

Cultivation was the cultivation of the mind. It was a process of gradually understanding the truth of the great Dao of heaven and earth. During this process, all cultivators would gradually re-understand themselves. Inner vision was one of the necessary stages. Only by inner vision could one understand every change in one's body like the back of one's hand and truly unleash one's strongest potential.

However, inner vision could only be regarded as a basic realm of self-awareness at most. One could clearly see every drop and every bit of the body. However, it was difficult to see how to connect them into a whole and how to operate them freely. To do this, one had to be above the realm of inner vision and reach the legendary realm of emptiness!

It was said that any practitioner who had reached the state of clarity would be able to reach 100% of their potential and become a legendary master. Lin Yi didn't really care about this saying, but one thing was for sure-the state of clarity was something you couldn't find. It wasn't something you could just get to.

This kind of mysterious realm could only be achieved with every breakthrough of a major realm!

Chapter 4563 Forming A Nascent Soul

Moreover, the probability of this happening was very low. If one were to analyze it from the perspective of a small probability event in the secular world, this kind of thing was equivalent to non-existence for ordinary people. They would not have the chance to encounter it in their entire lives.

This was something you could only come across by luck-it wasn't something you'd come across just by practicing or taking some pills. There was only one thing you could count on to reach the state of clarity, and that was luck. To Lin Yi, this was an unexpected surprise.

Lin Yi couldn't help but think that this might have something to do with bathing in the star Ink milk. After all, people only had a rough idea of the star Ink milk's uses-they didn't even know how to explain it clearly. No one had associated it with the state of clarity before, but that didn't mean they weren't connected.

However, Lin Yi didn't have much time to be happy. The effect of the star Ink milk couldn't last for too long. If he couldn't form a nascent soul before the effect wore off, the consequences would be unimaginable.

The time was right, and Lin Yi consumed a golden pill without hesitation. The pill dissolved in his mouth and flowed from head to toe like a refreshing spring. There was almost no time in between, and the Golden pill's medicinal properties took effect immediately. Lin Yi could clearly feel the pure Qi and essence slowly gathering in his body, flowing through his meridians and into his dantian.

The first step was to destroy the Golden core, the second step was to gather the profound Qi, and the most important third step was to form the nascent soul.

Forming a nascent soul and forming a golden core didn't seem like much of a difference-the former only required one to break through to the nascent Soul Stage, while the latter only required one to break through to the Golden core stage. It was only at this stage that Lin Yi realized the difference between the two.

In the end, as long as one followed the process of condensing the Golden core, there was not much technical content in itself. It was just condensing the shape of the Golden core. Even the perfect golden core was not so complicated. However, the Yuanying was different. Even if everything else was not taken into account, it was extremely difficult to condense a complete Yuanying with the profound Qi.

The Golden core was still just a round bead with simple lines, but the nascent soul was a complete human form. The process of forming the nascent soul was tantamount to shaping a new self in the dantian, from head to toe, not a single part could be missing. If any part was damaged, it would greatly affect the strength in the future.

To put it simply, the more complete and exquisite the Yuanying condensed when attacking the Yuanying stage, the stronger the strength of the Yuanying stage master. On the contrary, if the Yuanying is incomplete, it means that the Yuanying stage master must be at the bottom. Not only is it difficult to make a breakthrough, but even among the Masters of the same level, it is bound to be the bottom of the garbage.

In order to do this, two conditions must be met at the same time.

The first reason was that it was the perfect environment to form a nascent soul. Otherwise, if something like this wasn't enough, it would cause all the work to go to waste. The star Ink milk just happened to give Lin Yi this unique environment, and at the same time, it also gave him a lot of time. This was why the star Ink milk was said to be able to form the strongest nascent soul.

However, this was only an objective external condition. In this world, there was never anything that was absolutely certain. Even taking spiritual pills and sacred medicines might not be effective. Naturally, the star Ink milk could not guarantee the birth of the strongest Yuanying stage master. In order to become the strongest Yuanying stage master, the star Ink milk was at most a ticket to the entrance. The more important condition was the second condition, that was a deep understanding of one's own body!

As someone from the common world, Lin Yi naturally had an advantage over the Sky Class island's practitioners in this area, but even so, he still wasn't very confident. Even the modern technology of the common world had never been able to truly see through the human body, and practitioners could understand more with just one internal inspection. Lin Yi's advantage was at most in the more scientific concepts.

What Lin Yi didn't expect was for him to suddenly enter the realm of emptiness. Things that weren't clear before became clear to him. If he only had ten to twenty percent confidence in the strongest nascent soul, now that he entered the realm of emptiness, it was at least sixty to seventy percent.

Although it wasn't 100%, being able to have a 60% to 70% chance of becoming the strongest Yuanying was already very exaggerated and outrageous. If it were to spread out, no one would believe it. Even those top big shots who had experienced it wouldn't believe it because this kind of thing was simply unimaginable. In their understanding, the strongest Yuanying had always been blessed by luck. Other than that, everything else, including the star Ink milk, could only be supplementary.

At this moment, Lin Yi had entered a state of complete selflessness. All of his attention was focused on his dantian as he used the gathered profound Qi to form the nascent soul bit by bit. At first, it was just a rough outline, but as time passed, the outline slowly became clearer and clearer, from the head to the torso to the limbs, slowly forming.

However, just as the nascent soul was about to be formed, the process stopped. Lin Yi frowned-he didn't have enough essence ...

The biggest use of the Golden core was to draw out the profound Qi hidden in the body and provide it at the same time. Under normal circumstances, one golden core was enough to form a nascent soul-it was either a success or a failure, and there was no third possibility. Lin Yi's case of suddenly not having enough profound Qi was unprecedented.

After all, even a high tier nascent soul cultivator would only be able to create some basic organs at most, but Lin Yi's not only had all the organs, he even had all the blood vessels. All of these were created by the essence energy, so it was natural that he didn't have enough essence energy.

Lin Yi quickly consumed the second golden pill without hesitation, and the profound Qi continued to flow into his dantian. Lin Yi entered the state of selflessness again-the process of forming the nascent soul had just begun. The first part of the process was relatively easy, and the later part was the truly difficult work.

Time passed bit by bit, and Lin Yi, who was in the state of oblivion, didn't even realize how much time had passed. He didn't even feel the changes in his body as he was focused on his nascent soul. After all, that was the core of everything.

While Lin Yi was concentrating on forming his nascent soul, the spirit Bird didn't sit around either. It kept showering itself with the star Ink milk, not even letting a single feather go. Lin Yi didn't know if it was doing this to make it feel more comfortable or if it had some other effect, but it never got tired of it.

For ten whole days, Lin Yi didn't move an inch and maintained the same position. The spirit Bird was beside him, soaking in the star Ink milk bath, drinking a few sips from time to time. Its body was very comfortable.

Chapter 4564 Spiritual Bird Upgrade

"Eh? Why did your feathers change?" Lin Yi's voice suddenly sounded from the side, his eyes flashing with a never before seen spirit. If you looked closely, you would see that he was reborn from head to toe, and his calm temperament was a little different, extraordinary.

Without a doubt, Lin Yi was now a true-blue early nascent Soul Master. After using two golden cores and a pool of Star Ink milk, he finally reached the strongest nascent soul!

Before this, Lin Yi was able to take on 99% of late stage nascent soul cultivators with his peak Jindan stage strength. Now that he was in the early stage of nascent soul, he could even take on a peak stage nascent soul cultivator. If it was someone else, even if they were at the strongest stage of nascent soul, they would only be the strongest in the same level. He had never heard of an early stage nascent soul

cultivator taking on a peak stage nascent soul cultivator. This was a fantasy, but it was true when it happened to Lin Yi.

Feeling the earth-shaking changes in his body, Lin Yi didn't forget to observe the changes in the bird. In the ten days he formed his nascent soul, the bird was just soaking in the star Ink milk, but it rose from the late-stage of golden core to the full-stage of golden core!

Even Lin Yi found this unbelievable. It wasn't that he'd never seen anyone level up so quickly-he was a special case himself, after all, but someone who leveled up so quickly to become a spirit Bird was something he'd never even heard of before. Going from Foundation peak to golden core late stage in three months was already ridiculous enough, and now it only took ten days to go from the latter to the peak of the Golden core stage-this simply flipped his outlook on life upside down ...

"Ji ji ji!" The spirit Bird shook its feathers at Lin Yi in excitement. Not only were the feathers brighter, but they were also longer. However, Lin Yi was helpless when the bird splashed the star Ink milk on his head.

"There's also a golden core of the nascent Soul Stage. Do you want to try it?" Lin Yi suddenly said as he took out the last golden core and handed it to the bird.

"Ji Ji!" The spiritual bird's eyes lit up and it immediately swallowed it. Then, it began to flap around in the star Ink milk.

"Hehe, you're not being polite with me." Lin Yi couldn't help but smile. Although he did it on a whim, and this golden elixir was enough to make a bunch of Masters fight for it outside, it was now eaten by a spiritual bird. It was child's play no matter how he looked at it. However, he didn't feel that it was a pity. He still had almost an entire baby ginseng anyway, and he could refine another golden elixir at any time. Moreover, this spiritual bird was Huang xiaotao's spirit pet, so it was his own spirit pet. After all, he shouldn't let his fertile water flow into others' fields.

Seeing that the bird was struggling, Lin Yi smiled and walked out of the hole. He sat down cross-legged on the ground. He had just entered the early stage of nascent soul, and not only did he need to stabilize his strength, but he also needed to study the martial skills he had. If he couldn't level them up, it would be troublesome when he fought with other people in the future.

There were the thousand explosive fist of raging fire, the eight trigrams palm of raging fire, the thousand flaming legs, and the Super Arts and the ultimate Arts-these were all things that Lin Yi needed to figure out. Especially the latter two, he needed to find a way to combine them with other skills and create an enhanced version of the Super butterfly microsteps and the Super limit butterfly microsteps. It would be a powerful skill for him to use against his enemies in the future.

In the blink of an eye, two days passed. Just as Lin Yi was getting excited, the bird's excited cry came from beside him. It jumped out of the star Ink milk, giving off a completely different feeling. It had an ethereal feeling to it, a sign that only flying spirit beasts would show after they reached a certain level.

"You've reached the nascent soul realm?!" Lin Yi's jaw dropped as he grinned, speechless. He'd thought that he was leveling up fast enough, but compared to this bird, he was like a snail! How did this bird level up so fast?

"Ji ji ji!" The spirit Bird nodded at Lin Yi, its newly-gained nascent soul aura fully revealed.

"Hehe, you don't have to be so surprised. It's not just your luck to be able to come to this place, it's also a great opportunity for it. It's reasonable for it to be where it is today." The ghostly thing interrupted with a smile.

"This is reasonable? Senior, are you trying to tell me that all spirit beasts level up like this?" Lin Yi was speechless. If all other spirit beasts leveled up this fast, the spirit beast race would be invincible already.

"That's not it. There's a reason why this spiritual bird can level up so quickly. After all, the spiritual Qi in this place is so rich that it can be said to be rare in the world. Although there is the pressure of the five elements killing intent, most of it is directed at you, and the share of it on this fellow is negligible. It just needs to pick up the remaining spiritual Qi that is not offensive and absorb it, and it can level up quickly." The ghastly thing explained.

"It's that simple?" Lin Yi raised a brow, still finding it unbelievable. It was too much, after all.

"How complicated do you think it will be? don't forget that there's still so much Star Ink milk and the Golden core you gave me. Plus, this spiritual bird's aptitude isn't that good, so it's not strange at all that it has reached the Yuanying stage." The ghastly thing didn't seem to mind.

"Isn't it strange that her aptitude isn't that good?" Lin Yi was taken aback-it sounded like poor aptitudes were the only way to level up faster ... What the hell was this logic?

"That's right. If it were any other spirit beast here, especially those with better aptitude, even if they were blessed by the heavens with this kind of environment, they might not be able to advance many levels. This is because we spirit beasts are different from you humans. You human cultivators advance faster with better aptitudes, but we spirit beasts are the exact opposite. The better the aptitudes of the spirit beast race, the more resources they need to advance each level because of the higher the race's innate talent, and naturally the slower their advancement is. On the other hand, this spiritual bird's racial talent can only be considered to be below average, so it'll naturally level up much faster. " The ghastly thing explained with a smile.

"I see, this is the first time I've heard of it." Lin Yi understood now-the better a spirit beast was, the slower it was to level up, but it was undeniable that they were strong-they were completely different from human practitioners in this aspect.

After the bird calmed down from the joy of reaching nascent soul, Lin Yi jumped on its back and ordered it to check on the upper level of the five poisons swamp. It had been twenty days, and Lin Yi wanted to know if the two were still there or if the West Mountain sect master had finally given up. After all, it would be too late if they didn't leave before the deadline.

Chapter 4565 Actually Still Not Withdrawn

Lin Yi didn't even need to go to the surface of the swamp with this thing's divine sense, he could just stay under the swamp and let it scan him. However, the five poisons swamp's divine sense was too powerful. It was completely isolated from normal people, and even the thing had to spend a lot of effort to get to the surface first.

Unlike last time, Lin Yi and the spiritual bird were both in the nascent Soul Stage, and the process of reaching the swamp's surface was much easier. The thing connected with each other's spirit sense without saying anything, allowing Lin Yi to clearly sense everything outside.

As expected, there were still two people standing guard on a branch not far from the five poison swamp, but it wasn't the bald man and the black-faced man from last time. It was another two people. After getting a clear look at the two people's faces through the ghost's divine sense, Lin Yi was stunned. It was two familiar faces.

"Brother Yan Ji, aren't those two bastards too infuriating? There's still ten days before the shift, but he F * cking sneaked back so early and forced us to take the blame. It's already bad enough to be in jail for two months, and now there's ten more days. I'm so F * cking angry!" One of them said indignantly.

"Forget it, old Guan. We have to lower our heads when we're under someone else's roof. We're new to the Longzhou escort agency, and without them, it's inevitable that we'll suffer some losses. Just bear with it for now." The other person said with a gloomy face.

"Sigh ... Back when we were at the Qitian bodyguard agency, the two of them were nothing in front of us brothers. How dare they give me such an attitude? I'll kill them with one slap!"

"Hmph, if it wasn't for this unlucky Ling Yi, we wouldn't be in this state today. We had no choice but to join the Dragon Boat escort agency and let those snobbish bastards ride on our necks and sh * t on us! So, this task is perfect for me. I want to take a good look at the place where Ling Yi's body was destroyed, and vent my anger!"

"Yes, yes. It's good that this guy died. With us brothers here, even if he doesn't die, old Zong will come and take care of him. Once the jade pendant is broken, he will be called. Hehe, he will make a great contribution!"

"What contribution? do you know what place this is? This was the five poisons swamp. Even if a God jumped in, he would have to report to the King of Hell. How many lives do you think Ling Yi had? how could he come out alive after jumping in? did their family own the five poisons swamp? Hahahaha!"

The two people who were talking were old acquaintances that Lin Yi had known since he first came to the South continent. They were Li Yanji and Guan Zhiyuan, old acquaintances who had a history with each other.

After their shameless betrayal, these two's reputations were completely ruined. It should've been hard for them to stay in the escort business, but what Lin Yi didn't expect was that they'd turned to the Dragon Boat escort instead. This place really wasn't normal-they accepted all kinds of trash.

However, thinking about it, they had already let the evil cultivators take charge, so they didn't need this little bit of trash.

Lin Yi clenched his fist. He wanted to go up and kill these two bastards, but he remembered that they had a Jade tablet that could sense their presence. It was just as they said-they'd be there as soon as the Jade tablet was broken. It wouldn't be good for Lin Yi if the old sect master of West Mountain came.

With Lin Yi's current strength in the early stage of the nascent soul realm, he wouldn't be in as much of a mess as he was before, but it was obviously too whimsical to face an opening-stage evil cultivator Big Boss with his current strength. The end result would be to escape into the five poisons swamp like before, but then the old sect of West Mountain would personally guard the five poisons swamp, not giving him any chance to escape.

Not to mention that Lin Yi had only just reached beginner-level of the original level. He hadn't even consolidated his strength yet. It would be a fool to go against the old sect now. Lin Yi thought about it and returned to the underground space. There was still time.

Lin Yi stood on the stage again. His strength had increased, and the five elements killing Qi didn't have any effect on him anymore. It was only when he came into direct contact with the killing Qi that the effect was more obvious.

With the help of the killing Qi, Lin Yi quickly stabilized his strength. Even so, it didn't last for long-he realized that the effect of the killing Qi was becoming less and less obvious, and the speed of his strength improvement wasn't as shocking as before.

Lin Yi observed the swamp carefully. He had the chance to encounter the killing intent on the high platform, but it wasn't as dense as the middle layer of the swamp. The chance of encountering it wasn't

very high, and it usually took him an hour to encounter it. The key was that the killing intent in the bottom layer was much weaker than the killing intent in the middle layer. The difference could be over a hundred times.

If he could stand in the middle of the swamp and train, Lin Yi believed that the effect would be as amazing as it was at the beginning. Unfortunately, that wasn't realistic. If he wanted to stand in the middle of the swamp, he had to let the spirit Bird fly him up, but then he would have to use his Qi to protect the spirit Bird, or it would die without a doubt.

With Lin Yi's strength now, protecting a Spirit Bird was no problem at all, but it would be a complete joke to say that he could even protect a Spirit Bird during cultivation. In the middle layer of the swamp, he wouldn't be able to last even an instant even if he used all his strength, not to mention that he'd be losing a Spirit Bird.

After a moment of silence, Lin Yi decided to give up on the idea of training in the middle section of the swamp. It was too dangerous, and he'd have to wait until he got stronger.

As for what he should do next, Lin Yi had two choices. One was to continue using the killing intent that occasionally appeared on the platform to train. The effect wasn't as exaggerated as before, but it was still better than Lin Yi training on his own.

However, in retrospect, since he entered this underground space, he had been in a state of extreme cultivation. His strength had also risen all the way from the peak of the middle jiedan stage to the current early Yuanying stage. Now that his strength had been stabilized, it was not impossible to continue to cultivate. He believed that it would not take too long to reach the next level, but it was not enough to relax and relax. In the long run, it might not be a good thing.

The other option wasn't to rush out of the swamp and kill those two bastards-Lin Yi didn't want to take the risk yet!

Chapter 4566 Exploring The Space

He wanted to take this opportunity to explore the mysterious and vast space below. This place was a perfect treasure ground for him, and it was very likely that he would encounter some unexpected surprises if he walked around.

However, just like what he was worried about at the beginning, there might be a surprise in this place, but it was more likely that there would only be surprise and no joy. If he really encountered unpredictable dangers, Lin Yi might not be able to deal with them with his early stage of nascent soul strength. After all, if there really was something in this place, it couldn't be weaker than West Mountain old sect no matter how he thought about it.

"Senior, I plan to take a look around this place. What do you think?" Lin Yi asked the ghost-this wasn't his problem alone, and if he made a mess of things, the ghost would be dragged into it as well, and he'd feel really bad.

Not to mention that in a place like this, the ghosts were more sensitive to unknown dangers than Lin Yi himself. Only with his full help could Lin Yi have the confidence to walk around. Otherwise, it was the same as a blind man entering the mountain, no different from seeking death.

"Hehe, I knew you wouldn't be able to stay here for long. There's no point in cultivating here. Going too far is just a waste of time. It's good to explore this place. To tell the truth, I'm quite interested in this place." The ghostly thing readily agreed.

"Senior, you can't be thinking of looking for that flood Dragon, right?" Lin Yi couldn't help but smile. Although he guessed that the reports from the witnesses were mostly wrong about the killing Qi, it was just a guess after all. There was still a possibility that it existed. The world was full of strange things, and

things that were impossible in the past would always happen in the end. Lin Yi had seen too many examples of this.

"Hehe, if there really is a flood Dragon here, it's not a good thing for you and me. You better pray that you don't encounter it, or you'll become someone else's food." The ghastly thing pouted.

"It can't be, right? no matter what, he's still a branch of senior's clan, so how can he be so cold to his own family?" Lin Yi couldn't help but shrink back.

"A branch of the same clan?" The ghastly thing laughed and said disapprovingly, ""You humans are all of the same race, but aren't you still killing each other? Moreover, our spirit beast clan's pursuit of the principle of strength is more thorough than your human race. If I came here in my peak state, of course, the flood Dragon and the others would be of the same race, but in my current state, even if I'm of the same race, I'm just food. "

"Uh, alright, I hope I'm not that unlucky." Lin Yi smiled bitterly, but he still called the spirit Bird and walked forward. He was thinking that if he really encountered something terrifying, he could only escape from the five poisons swamp at all costs. Even if he was chased by the old sect of West Mountain, it was better than becoming food for the spirit beast.

"Don't worry, even if we really encounter a flood Dragon, we don't have to worry. After all, I'm the former elder of Azure Dragon. I don't dare to say much, but at least you can choose whether to steam it or braise it. I'm sure you'll still give me this little bit of face. " The ghastly thing teased.

"You Dragons know how to cook? you're not simple." Lin Yi rolled his eyes, speechless. He kept his guard up as he started exploring the mysterious underground space.

Although he said that, Lin Yi wasn't as nervous as he looked. After all, he had the Jade and the ghost's warning system. No matter what happened, he would still have some time to react.

Moreover, the spiritual bird's speed was more than ten times faster after its strength had increased greatly. Although its other talents and potentials were not high, the spiritual bird's speed was among the top even among the flying spiritual beasts. It was definitely not to be underestimated. Unless it was like the old sect master of West Mountain, who had locked on to it with divine sense and descended directly, it was really impossible for ordinary beings to catch up with it.

With so many layers of protection, Lin Yi's heart was both nervous and confident. The man and bird slowly fumbled forward in this mysterious space, but after two whole days, they didn't come across any living creatures. There wasn't even a single insect, let alone a Dragon.

The density of the spiritual Qi in this space was rare in the world. If it were any other place, it would be full of spiritual beasts and natural treasures. However, because of the five poisons swamp, this place had unexpectedly become a dead land. There were no spiritual beasts, no wild beasts, and not even a single plant.

After searching for two whole days, Lin Yi saw nothing but the same scenery. Other than the tall stone pillars and platforms, this place was an empty desert.

Lin Yi let out a breath of relief and was a little disappointed at the result. He wasn't a greedy person, but this place was a treasure made by the heavens. He was hoping for some unexpected gains, or he wouldn't have taken the risk to explore this place, but there was no way he could get anything from this. At most, he could only comfort himself that there was no danger.

Since it was obviously an uninhabited desert, should they continue to explore? Lin Yi started to hesitate. He didn't want to waste his time doing something like this, but he couldn't just give up like this. He'd been looking at the same wasteland for the past two days, but who knew if the other places were the same?

"I'll explore for another day. If it's still the same, then I'll forget it. I might as well save time and cultivate." Lin Yi finally made up his mind-if he couldn't see any changes for three days, then there was no point in continuing. Even if there was some sort of fortune hidden here, it just meant that his life wasn't in his hands. He couldn't force things, and he couldn't just let it slip by.

With that, Lin Yi jumped onto the bird's back. For the past two days, they had been walking on the ground for safety reasons, but now that he had a rough idea of this space, and he only planned to explore for one more day, Lin Yi didn't want to waste any more time on the ground. With the spiritual bird's speed in the air, it could explore hundreds or even thousands of times more than before in a day. If there really was something in this space, Lin Yi believed that one day would be enough.

The spirit Bird had always acted like it didn't care, but this time, it controlled its speed even without Lin Yi's orders. If it was somewhere safer, it would definitely try its best, but it didn't have the guts to do that here. If it flew at full speed, it might just walk right into a trap and end up in the mouth of some terrifying being

Chapter 4567 There's Something In Front

Of course, even so, the spiritual bird's speed was not much slower. After all, even if it only used 10% of its speed, it was already much faster than before. In less than an hour, the area that the man and the bird had explored was much larger than the previous two days combined.

"Stop! There seems to be something in front!" The ghastly thing suddenly said.

"Really?" Lin Yi was shocked and quickly made the spirit Bird stop. He was excited and nervous at the same time. After two days of silence and boredom, the initial fear had been replaced by excitement. He couldn't wait to see something.

"Of course it's true, but we're too far away now. Even with my divine sense, I can only vaguely sense the existence of something, and I'm sure it's alive. I just don't know if it's a spirit beast or a human cultivator." The ghastly thing muttered.

"Ah? How can there be human cultivators in this place?" Lin Yi blinked-subconsciously, he knew that if there was anything in this place, it'd be a spirit beast, like the flood Dragon he was talking about. Why would a human practitioner appear here ...?

"Woof! What position do you have to say that, kid? aren't you a living human cultivator yourself?" The ghastly thing snorted and pouted. "Although I've said that it's hard to find a freak with all five attributes like you, there are always people better than you, so it's not strange for one or two to appear."

"Alright, it's not impossible. Then, senior, hurry up and investigate carefully. Is it a spirit beast or a human cultivator?" Lin Yi said with a bitter smile.

"That's easy. Ask the spiritual bird to move forward a little bit more, but don't get too close. It's best if I can detect it and it can't detect me." The demonic thing ordered. He was very confident in his divine sense. Even if the other party was really a flood Dragon, it was impossible for him to sense further than him, so it was not difficult to do this as long as he controlled the distance.

"Alright," he said. Lin Yi ordered the bird to continue moving forward, but at a much slower speed this time. It was practically just moving forward bit by bit, or else the other party would notice it.

After a while, Lin Yi and the spirit Bird, who weren't too nervous at first, were scared by the strange atmosphere. Whether it was humans or spirit beasts, they were all the same-they were most afraid of the unknown. If it was a Dragon in front of them, they wouldn't be so nervous.

A moment later, the thing let out a soft sound. Lin Yi tensed up and asked, ""What's wrong?"

"This is so strange. Why does this aura feel so familiar?" The ghastly thing muttered in surprise.

"Familiar? Could it really be that wyrm dragon?" Lin Yi couldn't help but guess. He thought that the aura that this thing was familiar with could only be from the same race as the flood Dragon. He thought that the so-called witness reports were all wrong about the killing intent of the five elements, but he didn't expect it to be true.

"I'm not sure," The demonic thing paused for a moment and said, "this feeling doesn't seem to be as simple as being of the same race. However, I can be sure that the other party is indeed a Dragon. However, I don't know if he is a flood Dragon or not."

"How could this be? Senior, you should be able to see it clearly with your divine sense, right?" Lin Yi asked curiously. In theory, divine sense should be able to sense things much more clearly than normal five senses. It was normal that he couldn't tell other things, but he should be able to tell with one look if the person was a Dragon or not.

"You're thinking too lightly, kid. When West Mountain old sect was chasing you, I could block his divine sense. If I were to do the same to other existences, they would naturally have a way to block my divine sense perception. It's just that it's extremely difficult and not so easy." The ghastly thing said with a bitter smile.

"In that case, senior, your divine sense has been blocked by it. Could it have already noticed?" Lin Yi was taken aback-it wasn't good news to be discovered before he even had a clear idea of the enemy's background.

"No, but after reaching a certain level, whether it's you human cultivators or US spirit beasts, we will habitually release a spirit sense barrier to prevent others from spying on us. If this spirit sense barrier is high enough, even with my ability, it will be difficult to penetrate it from a long distance. At most, I can only sense a general aura, but it's difficult to know the specific situation inside, unless I directly break the other party's spirit sense barrier. However, this would alert the enemy. " The thing explained.

"So that's how it is. What do we do now?" Lin Yi asked. From the tone of this thing, he could tell that it wasn't a simple person. It might be a top-tier spirit beast. Provoking this kind of existence in a place like this was asking for trouble. They might not even be able to escape.

"If you have the guts, then continue walking forward. I'm quite interested in this fellow. However, I have to say the ugly words first. Even if this fellow is of the dragon clan, it's hard to say whether it will buy my words or not. I may not be able to protect you, so you have to think carefully before you speak. If it's safe, then just go back the way you came. After all, it can't detect us now." The damn thing said calmly, leaving the choice to Lin Yi.

Curiosity killed both the cat and the human-Lin Yi knew this very well. He decided after a moment, "Let's continue forward and see. If I don't figure out what the other party is, I can't stay in this place at ease. After all, impetuous cultivation is the most taboo. If I don't solve this problem, I'll have to give up on this rare cultivation land. So no matter what, I have to try."

"Hehe, it's good that you have this awareness. I thought you would be a coward. Oh, no, you should be an ostrich that hides its head in the sand!" The demonic thing laughed.

"Ostriches ..." Lin Yi was speechless. He couldn't help but curse in his heart. This bastard went to the common world and didn't find the king of spirit beasts bloodline, but he learned a bunch of new words. He was in this state, but he still had the heart to learn these things. He was disabled but determined.

After making his decision, Lin Yi continued to move forward with the spirit Bird, still at the same slow speed. He had made up his mind to find out who the enemy was, but the best situation was to not let them know. After all, this was the only way to ensure safety.

"There's no need to be so nervous. Since the other party has a divine sense protection, we can naturally use it on our side as well. Unless its primordial spirit is stronger than mine, we'll definitely be the first to see its face. As long as we get close enough, its divine sense protection will be ineffective on me. I have a way to break through the divine sense protection without anyone noticing, provided that the distance can't be too far. " The ghostly thing was very confident in this. After all, this was his specialty.

Chapter 4568 Meeting The Dragon Of The Five Demons Again

"That's great!" Lin Yi's spirit was lifted. He just wanted to know who this person was so that he could decide if he wanted to stay or leave.

The man and the bird continued to move forward slowly for a while, their palms sweating nervously. It was not until the ghostly voice sounded again that they finally heaved a sigh of relief. "Alright, this distance is enough. I'll start cracking the opponent's consciousness barrier. Just a little bit of time will be enough."

"Alright," he said. Lin Yi quickly stopped what he was doing-he didn't know who the person was, and yet he was forced to get closer and closer to the person. This wasn't something a normal person could handle, especially in an empty underground environment like this. Anyone with a weaker mentality would've collapsed already.

Lin Yi could clearly feel a spirit sense radiating from the top of his head. The five poisons swamp had a strong restriction on spirit sense, and even in this space, it was hard for Lin Yi to use his spirit sense freely. His senses were countless times weaker than on the ground, but the thing was on him. Even if he couldn't feel it normally, he could still feel it when the spirit sense was strong.

It was a completely subconscious action. Lin Yi's spirit that was trapped in the void followed the fluctuation of the ghost's spirit and came out of his body. This had never happened before. What was even more ridiculous was that Lin Yi's spirit didn't stop there. He used the ghost's spirit as a bridge, crossing dozens of miles to the target.

"What?" The ghostly thing was stunned. This was the first time he had encountered such a thing. However, he immediately laughed. "Interesting, this boy really can't be measured with common sense. It seems that not only is his talent in the five elements and seven attributes amazing, but even his divine sense is a freak. He is a rare seedling, it seems that there will be a lot of work to do in the future ..."

The demonic thing didn't stop Lin Yi. After all, to Lin Yi, this was a subconscious awakening of his spirit. Although he wasn't at the threshold of being able to systematically train his spirit yet, this kind of spontaneous "pre-school education" opportunity was hard to come by. It could be said to be very beneficial for his spirit training in the future, so the demonic thing naturally wouldn't stop him.

"Eh? This feeling was indeed a little familiar? But that doesn't make sense. Besides you, senior, I've never come into contact with any other dragon race. " Lin Yi said, surprised. He didn't even realize it himself, thinking that some ghostly thing had connected their divine senses to let him see who they were.

"It doesn't matter. As long as I crack its consciousness's protective shield, I'll know what I need to know." The ghostly thing said and immediately began to sink his mind and try to penetrate the other party's divine sense protective shield.

Lin Yi was about to nod, but before the ghost could finish his sentence, a loud roar came from tens of miles away. The target that was locked on by the spirit sense flew towards Lin Yi at a speed that made one's scalp go numb. Lin Yi hadn't seen the spirit bird's maximum speed yet, but his instinct told him that the opponent's speed could kill the spirit Bird easily.

"Could it have sensed us?" Lin Yi tensed up. He never thought that something like this would happen. The enemy was able to sense that he was also protected by his own consciousness before the damn thing broke through it. Didn't this mean that even if the enemy's consciousness was weaker than the damn thing's, it wasn't that much weaker? what level was this guy?

"Of course, isn't it obvious ..." The demonic thing smiled bitterly. He was confident that he would be able to do it without anyone noticing, but who knew that Lin Yi's divine sense had also come up to join in the fun. If the opponent's divine sense protection was a door, the demonic thing was supposed to use a master key to sneak in, but because of Lin Yi's interference, it became a forced entry. It would be a miracle if the opponent didn't even notice this.

But it couldn't do anything about it. Although there was a big risk of being discovered, it was more important not to disturb Lin Yi's spirit sense awakening. As long as Lin Yi didn't want to give up on this heaven-made training place, he would have to deal with the other sooner or later. It was no big deal if he was discovered.

"What will come will come sooner or later. Then I'll take a good look at this fellow's true appearance." Lin Yi calmed down quickly, his body filled with fighting spirit. He hadn't had the chance to fight since he entered this place, and now was the perfect time to test out his strength as an early stage nascent soul. Even if he knew he couldn't win, he had to try his best to find his limits.

"Hehe, you're quite bold, but I think you're wasting your feelings with your fighting spirit." The ghostly thing suddenly laughed, and his originally somewhat nervous tone became more relaxed.

"Ha? What do you mean by that?" Lin Yi didn't know what was going on. His spirit sense had already returned to his body, so unless the other party entered his field of vision, he wouldn't be able to see their faces no matter how close he was.

"Hehe, didn't you also feel that the other party's aura was somewhat familiar and strange? let me tell you, this fellow is indeed an old friend, your old friend." The demonic thing laughed.

"My old friend?" Lin Yi was even more confused now. He didn't know many spirit beasts to begin with, and even if he added the common world and Sky Class Island together, he could count them all. The fire Lion and Spider he encountered in the oduo city ruins was already an accident out of an accident. Could it be them again? no way!

"Roar!" While Lin Yi was still in shock, the other party's roar and loud noise were already right in front of him. This time, he didn't even need to use his divine sense to sense the distance between them-he could see it clearly with his naked eyes.

Its entire body emitted a terrifying baleful aura that was almost tangible, making it hard to breathe. It was at least 10 meters long, with four thick and solid claws, a long tail that was extremely sharp, a pair of huge wings on both sides of its back, and a row of extremely hard and sharp sword-like spikes in the middle. It was a shocking sight, and it looked like a dinosaur that had walked out of the dwarf era!

"Dragon of five evils? Why are you here?" Lin Yi blurted out, his mouth agape. He never would've thought that he'd meet an old friend from the common world in a place like this!

"It's you, a human cultivator?" The Dragon of the five demons also recognized Lin Yi immediately, and it seemed to be surprised and happy as well. The murderous aura and killing intent on its body disappeared instantly. It thought it was a strong enemy, but it didn't expect it to be an old friend.

"Why are you here on Sky Class Island?" Lin Yi asked in shock.

Chapter 4569 Earth-Splitting Stage

Lin Yi and the Dragon of five evils weren't exactly old friends-it would be more accurate to call them enemies, but from the common world to Sky Class Island, it was much harder to meet an old friend than from a thousand miles away. Even if they weren't old friends in the first place, they were now, and that could be seen from the Dragon's happy expression just now.

"Hoho, if you human cultivators can come, I can come too. But I really didn't expect you to come to a place like this, and you're already a nascent Soul Stage cultivator! He's really not simple!" The Dragon of the five evils couldn't hide his surprise. Lin Yi was full of fighting spirit just now and didn't hide his strength at all, so he could tell with one look.

"Yes, I didn't expect to meet you in this place. The things in this world are really unexpected." Lin Yi chuckled.

"Hoho, don't you humans have a saying that 'if you're not enemies, you won't meet'? to be honest, if I met you like this, I wouldn't be so friendly even if I didn't beat you to death on the spot. I still remember that you ruined my good plan!" The Dragon of the five demons made a very human-like pouting expression. It looked strange no matter how one looked at it on a dinosaur.

"Oh? What about now?" Lin Yi asked, interested.

"Now? Sigh ..."The Dragon of five evils let out a long sigh, almost making Lin Yi stumble. "I've been too lonely in this place. Not to mention a living thing, I don't even see a single plant. It's all the same desert, and I can't see the sun. If it were impetuous humans like you, you would have gone crazy long ago,

right? But I don't dare to go out. It's rare to see someone, and it's an old acquaintance of the secular world, so of course I'm happy. So don't worry, I won't do anything bad to you. "

"Haha, that's good. To be honest, I entered this place by chance, but I'm trapped here. But why can't you get out? Could it be that you can't withstand the pressure of this swamp? the killing Qi of the five elements should have no effect on you, right?" Lin Yi asked curiously. He knew that the Dragon of five evils was the same as him, having all five elements. In theory, it shouldn't be that they couldn't withstand the killing intent.

"Hoho, you think this swamp can trap me?" The Dragon of the five evils laughed out loud. He didn't answer Lin Yi's question directly. Instead, he spread his giant wings and flapped them gently. His giant body instantly flew into the sky.

Lin Yi's eyes twitched as he watched. He couldn't feel any strong airflow at such a close distance, but the Dragon of five evils could reach a speed that was hard to catch with the naked eye in the blink of an eye. This was enough to prove that the Dragon of five evils had perfect control over this. If it used its full strength, its speed could be much faster than before, and even spiritual birds couldn't catch up with it.

It was too terrifying! Lin Yi couldn't help but be a little dazed. In his impression, the Dragon of five evils wasn't a spirit beast with speed. It was really unbelievable that it could suddenly display such a shocking skill.

But this wasn't all. The speed that the Dragon of five evils showed only made Lin Yi lose his focus, but what it did next in the five poisons swamp made even the calm Lin Yi's mouth open, speechless for a long time.

After jumping into the five poisons swamp above his head, the Dragon of five evils didn't do anything special. It just swam around the five poisons swamp, which wasn't strange. After all, it had all five

elements like Lin Yi. The killing Qi of the five elements wouldn't attack Lin Yi, who was protected by his pure Qi, so it naturally wouldn't attack the Dragon of five evils.

But what made Lin Yi's jaw drop was that when the Dragon of five evils suddenly released the powerful aura hidden in its body, the dense and constantly moving five elements killing intent suddenly scattered as if it had encountered a fiend. The five poisons swamp was the territory of the five elements killing intent, but at this moment, there wasn't a single five elements killing intent within a radius of a few miles where the Dragon of five evils was, and all of them fled on their own!

The killing intent of the five elements was not a living thing. It did not have any thoughts or consciousness. However, even if it was just pure killing intent, it would inevitably give birth to a trace of intelligence after being condensed to such a degree. That was why when faced with an existence far above them, they would take the initiative to escape.

However, the strongest killing intent of the five elements gave Lin Yi the same pressure as the spirit beast guards he saw before. How could such a terrifying existence be scared by the Dragon of five evils?

Lin Yi was completely shocked when he felt the pressure coming from the five poisons swamp. It was like a god had descended. He wasn't at that level yet, but he could at least tell that the Dragon of five evils was far beyond the mountain opening stage!

The old sect master of West Mountain, known as the evil cultivator giant during the opening stage, was nothing in front of the Dragon of five evils. He was even inferior to the three Giants of the East continent's morning stars Academy that Lin Yi had met before. They were on completely different levels.

"What ... What kind of strength is this?" Lin Yi swallowed with difficulty and looked at the Dragon of five evils in shock.

"Earth formation stage." The demonic thing pretended to explain calmly. However, at this moment, even his tone carried a rare shock that could not be concealed. The Dragon of five evils in front of him was completely different from the one he saw in the secular world!

If he had not confirmed his identity just now, the damn thing would never have thought that he had seen the ancestor of the Dragon of the five evils in the secular world. After all, the difference in strength between them was more than 108000 miles!

How long had it been? It hadn't even been two years, and Lin Yi was able to grow from the initial Foundation Stage all the way to the current nascent Soul Stage. This in itself was already very shocking, but the Dragon of five evils had actually grown to the earth formation stage! Lin Yi was nothing in front of it! Was this world crazy?!

"Earth formation stage?" Lin Yi didn't quite understand-it was the first time he'd heard that word, but the name alone was enough to tell it wasn't a small thing.

"The realm above the mountain split stage is the earth splitting stage. Anyone who can reach this level can be considered a great divine power." The ghastly thing explained indifferently.

Lin Yi was enlightened. The Dragon of five evils was indeed an existence above the mountain-opening stage. This trip to the South continent wasn't in vain. Even if he put aside all the adventures and sudden increase in strength, his horizons were much wider than before.

Before coming here, Lin Yi thought that xuansheng stage Masters were Sky Class Island Peak existences. He didn't know about any mountain opening stage powerhouses at all, let alone that there was even Earth opening stage above mountain opening stage!

Chapter 4570 Complaints

While the two were talking, the Dragon of five evils suddenly descended from the sky. The speed shocked Lin Yi again. The Dragon of five evils stared at Lin Yi with burning eyes and said, ""Hoho, another old acquaintance?"

Although the demonic thing communicated with Lin Yi through Spirit sense, it didn't deliberately block the fluctuations of spirit sense, so it wasn't strange that the Dragon of five evils noticed it. After all, this guy had seen the demonic thing in the secular world before and had a deep impression of this spirit sense.

Previously, when it had seen the ghostly thing in the secular world, it had been so scared that it had trembled as if it was walking on thin ice. However, now that it was an earth formation stage existence, although it was a little surprised when it sensed the existence of the ghostly thing, it was not as respectful as before. After all, its current level was not trivial. No matter how terrifying and powerful an existence was, it would at most be afraid of it, and would never feel fear.

"Not bad. It's been two years since we last met, but you've grown quite a bit." The demonic thing laughed and suddenly appeared beside Lin Yi. Of course, it was still a cloud of black mist.

He had already crossed paths with the Dragon of five evils in the secular world before. Moreover, the Dragon of five evils was considered to be of the same kind to him. Now that the other party had clearly shown no hostility, there was no harm in showing himself. After all, although the Dragon of five evils was a spiritual beast with high intelligence, its nature was still considered simple and honest. It would do what it was told and would not hold back its evil intentions like human cultivators.

"Eh?" The Dragon of the five demons looked at the black mist in front of him in a daze and couldn't help but ask in surprise, ""You ... You're actually in the form of a primordial spirit ... And you have the aura of our dragon race ..."

Although they had already met in the secular world, the ghostly thing had not appeared so directly at that time. It had only felt the overwhelming pressure from the other party, and had no idea that the ghostly thing was only an incomplete primordial spirit.

"I'm from the Dragon race. Speaking of which, why do I feel that your aura is different from before? why do you have the aura of a flood Dragon? And how did you suddenly become so strong?" The ghostly thing also felt strange.

Previously, he did not have this feeling when he was far away, but now that he was close, he could clearly feel the slight change in the other party's aura. Even if he had never seen a flood Dragon before, all Dragons were one. He naturally knew that this slight change was actually the flood Dragon's aura.

"It's a long story ..." The Dragon of five demons was hesitating whether to reveal the inside information. However, after pondering for a moment, he said, ""Forget it. I don't have anything to do anyway. You two came from the secular world, so you probably don't know much about the things here. I'll just tell you about it as a complaint."

"Complain?" Lin Yi's expression turned weird. The Dragon of five evils was a super spirit beast, a powerful earth stage being at that. Now, it wanted to complain to Lin Yi and the damn thing. It was weird no matter how he looked at it.

"This five poisons swamp was originally the territory of a flood Dragon. Its name is the five poisons flood Dragon." The Dragon of five demons said slowly.

"What? There's really a flood Dragon?" The demonic thing couldn't help but be surprised. He had spent a lot of energy investigating this place, but he had found no suspicious signs. Especially after seeing the Dragon-shaped killing intent of the five elements, he thought that the previous witness reports had mistakenly recognized the killing intent of the five elements. He didn't expect that this matter was true.

"Of course it's true. When I first came up from the secular world, I was directly teleported to this five poisons swamp. At first, I thought there were no spirit beasts here. I didn't expect that a powerful creature of the same race as me, the five poisons flood Dragon, would be here." The Dragon of five demons said.

"You were sent here from the beginning? Could it be that the spirit beasts were all transported to this place? Wouldn't that be dangerous?" Lin Yi couldn't help but wonder. Other than special cases like him and the Dragon of five evils, this should be a place of certain death for other spirit beasts. Any random killing intent of the five elements could easily take their lives, not to mention that there were countless killing intents of the five elements gathered here. No matter how strong they were, they wouldn't be able to withstand it.

"That's not it, it was probably due to its attributes that it was sent here. If it didn't possess all five attributes, it wouldn't have been sent here. " The ghastly thing explained.

"I think so. Anyway, I was the only one who was teleported here. I was caught off guard and fell all the way down from the five poisons swamp. But even though my strength was low at that time, I didn't suffer any injuries." The Dragon of five demons took a look at the ghostly thing and was a little surprised that this fellow knew so much. However, he did not ask much and continued,""After I came down, I met the five poison flood Dragon here. It didn't harm me because I was of the same race. Instead, it accepted me as a disciple and took me to cultivate with it."

"So you're really lucky!" Lin Yi couldn't help but sigh.

According to what that damned thing had said, even the Dragon clans might not be so friendly with each other. If their strength was similar, they might not interfere with each other. However, if there was a huge difference in strength, the weak would very likely become the food of the strong. The law of the jungle had always been a principle that had never changed since ancient times. It was unexpected that the five poisons serpent Dragon would actually treat the Dragon of five evils differently. It had to be said that the Dragon of five evils was extremely lucky.

"It's not just luck. I can roughly guess what the five poison Dragon is thinking." The ghastly thing laughed and speculated, ""There aren't many of us in the dragon clan to begin with. Even though we're not considered friendly with each other, we usually don't kill each other without any scruples like the other spirit beast clans. Moreover, the number of Dragons in the dragon clan who can enter the five poisons swamp safely can be counted on one's fingers. Other than the five poison flood Dragons themselves, there might only be the Dragon of five evils. Therefore, it must be delighted to see a prey. If it doesn't accept the Dragon of five evils as its disciple, it's very likely that it won't have any disciples in its life."

"That's right, my master also said the same thing. Besides, it has been cultivating alone here for many years. It's rare to have me to talk to it, so it won't kill me, roar!" As the Dragon of five demons spoke, he looked at the ghostly thing in surprise. Why did it feel like this guy knew everything like the back of his hand? who on earth was he?

"What happened after that? By the way, why don't I see your master here? did he go out for something?" Lin Yi continued to ask. He'd been here for quite some time, but he didn't see the five poison Dragon or the Dragon of five evils. It could only be said that the space down there was quite big. If he didn't ride the spirit Bird to explore, he would've thought that there was no one here.

"My master, he ..." The Dragon of the five demons was silent for a moment before he slowly said, ""He's already dead ..." "
