

Bodyguard 4581

Chapter 4581 Bullying

Jia mufan glanced around and saw that everyone was injured, especially his senior brother and Qiao hongcai. He couldn't help but frown slightly. "Other than the battle agreement, disciples of the same sect are strictly forbidden from killing each other. This is an iron rule of the three great pavilions, and no one can disobey it. Although Junior Brother MA has only joined the sect for a short time, I hope you can keep this in mind. Otherwise, it won't be a good thing for you or the entire GreenCloud Pavilion. Not to mention, they have already paid the price. Going too far is as bad as not enough. I advise Junior Brother MA to stop."

"Alright, since you've spoken, I'll give you face and let these ants off for the time being. However, if they fall into my hands again, don't blame me for not showing them any mercy." MA dang Qiang looked deeply at Jia mufan, then slowly moved his foot away from Qiao hongcai's hand with a grim smile. "Right, next time, remember to arrange a battle in advance!"

Hiss! Everyone looked at Qiao hongcai's hand, which had been stepped on beyond recognition, and couldn't help but suck in a breath of cold air. Even though they had seen all kinds of fights, they had never known that a hand could be stepped into such a bloody mess. At this moment, the outline of the hand could not even be seen. Qiao hongcai, on the other hand, had not made a sound from beginning to end. This guy was really unbelievably tough.

Xiao ran and Lee Zhengming, who were the closest, looked at each other. While being on guard against any possible actions, they quickly rescued Qiao hongcai from the human-shaped pit, and then slowly retreated to the side of Lu bianren and the miserable senior brother, facing a common enemy.

"You guys should leave. From today on, this place belongs to Junior Brother MA. Don't come here again in the future to save yourself from trouble." Jia mufan slowly said to the crowd.

"What? This was clearly junior Brother Lin's residence. How can you give it to someone else?" Lu bianren and the others were shocked. They had thought that this MA dang gun guy was looking for trouble, but it turned out to be true.

"Junior Brother Lin? You're talking about that bullshit Lin Yi? Hahahaha, you disappeared for more than a year and you don't even know if you're Dead or Alive, and you still have the nerve to occupy the latrine pit and not sh * t? This is the best residence in the inner sect of the GreenCloud Pavilion. Since I've seen it, it's mine! Don't tell me you dare to have any objections?" MA dang Qiang laughed proudly.

Seeing how Lu bianren and the others were so furious that they wanted to act together again, Jia mufan couldn't help but sigh. He used his eyes to stop them while saying, "There's more to this than meets the eye. I'll explain it to you. You'd better come out with me first."

With that, Jia mufan walked in front of Lu bianren and the others. He nodded slightly at Lu bianren, who was leading the way, and then led the way out.

Everyone's eyes fell on Lu bianren. Since Lin Yi wasn't here, Lu bianren would be the one leading the group. He could leave if he wanted to and stay if he wanted to.

If the backbone had been Qiao hongcai, he would've used the horse as a gun and wouldn't rest until one of them died. But Lu bianren was different. His temper wasn't as fiery, and he was more concerned about the overall situation.

As long as there was life, there was hope. It was not wise to be in a deadlock even though they knew they could not win. Moreover, if they did that, they would also offend Jia mufan, the eldest senior brother in charge of the inner sect, who had come to smooth things over. The consequences were unimaginable.

"Alright, let's go." Lu bianren took a deep breath and took the lead to follow Jia mufan's footsteps. Although the others were unwilling, they knew that this was the best choice at the moment, so they glared at MA dang Qiang and left one after another.

"Haha, a bunch of balls-less cowards!" MA dang Qiang laughed smugly behind him and teased, ""Oh, right. I forgot to tell you that I'm about to become the second senior brother of the inner sect of the GreenCloud Pavilion. Although I don't accept trash as my subordinates, I can leave a few positions for you since you're the younger brothers of the previous rookie King. If you're smart, come and join this senior brother. Otherwise, you won't be so lucky next time!"

Lu bianren and the others looked at each other. They were too lazy to argue with this bastard, so they sneered in their hearts. Next time? Hmph, next time, it'll be time for you to pay with your blood!

The group walked out of the main door with a heavy atmosphere. Lu bianren suddenly stopped and said to Jia mufan, "Senior brother Jia, can you tell us what's going on now? how did Junior Brother Lin's residence become that bastard 's?"

Jia mufan stopped and glanced at everyone's faces before sighing. "Actually, the second day after the inner sect competition ended, Junior Brother MA had his eyes on this place. He came to ask me for it, but because this is Junior Brother Lin's place, I rejected him on the spot."

"What happened after that?" Lu bianren and the others all frowned.

"Since then, he has come to me a few times, but I've always avoided him. To tell you the truth, although I'm not very familiar with Junior Brother Lin, he's someone who is valued by both Pavilion master Shangguan and our Pavilion master Yu. As the eldest senior brother of the inner sect's steward, how could I offend Junior Brother Lin for no reason?" Jia mufan said sincerely.

Everyone nodded and looked at Jia mufan with much more kindness. They could tell that he was telling the truth. It was already a rare thing for someone as the eldest senior brother of the inner sect's steward to say such heartfelt words to them. It had to be said that this guy really did have a way of dealing with things.

"If that's the case, how did it end up in his hands?" Lu bianren and the others looked at each other and said. The right to distribute the cave abodes of the inner disciples of the GreenCloud Pavilion was in Jia mufan's hands. If he rejected it, would he dare to come and snatch it without a proper reason?

"You guys don't know this, but Junior Brother Ma's current position in the inner sect is no longer below mine. Many of the higher ups in the pavilion have high hopes for him. This time, he is determined to get it. He even found a few of the elders in the pavilion to join hands and support him. The elder Council of the GreenCloud Pavilion forcibly placed the residence under his name. So, I had no choice." Jia mufan helplessly shrugged his shoulders.

"Detestable! You're going too far!" Everyone was filled with anger. If Lin Yi was still here, even the elders wouldn't dare to do something like this. After all, offending Lin Yi was the same as slapping Guan Tianhua in the face. Even Yu Zhenyang, the pavilion master, didn't dare to do this, let alone these elders.

But now that Lin Yi wasn't here, Shangguan LAN 'er wouldn't come here for no reason, which meant that even if something happened here, Shangguan Tianhua wouldn't know.

Chapter 4582 Long-Term Vision

Besides, without Lin Yi's permission, Shangguan Tianhua wouldn't be able to interfere even if he knew. After all, this was an internal affair of the pavilion. Although this powerful Pavilion master didn't care much about the public's opinion, he rarely broke the rules, and he wouldn't interfere with the small things of other pavilions.

"This is the decision of the GreenCloud Pavilion's Elder Council. I can only follow the rules. Originally, I planned to delay the delivery to three days later. This time is just the right time to let you all know. However, I didn't expect that I would receive a message from junior martial brother MA the moment I received the order from the higher-ups, saying that he had already come to receive it. So, I rushed here in a hurry. I didn't expect to see you all in such a scene.ai!" Jia mufan let out a long sigh and patted Lu bianren's shoulder. With an ashamed expression, he said to the crowd, "It's my fault for not being considerate and making you guys suffer. "

"Senior brother Jia, you don't have to blame yourself. Today's matter is between us and MA dang Qiang. It has nothing to do with you. We will remember your good intentions in our hearts." Lu bianren immediately said, and the others nodded in agreement. Today's matter had already made them irreconcilable enemies, and there was no possibility of reconciliation from now on.

"No matter what, it's all because I came late that you've suffered. It just so happens that I have a good relationship with the pill Hall's manager in charge of medicine. I'll bring you over to treat your injuries. I guarantee that there won't be any residual effects." Jia mufan took the initiative.

Lu bianren took a look at Qiao hongcai and the miserable senior brother. His own injuries were fine. As long as he applied some good medicine, he could recover quickly even without going to the pill Hall. However, these two were different. Qiao hongcai's hand was unrecognizable, and the miserable senior brother's right leg was almost broken. If they didn't get treatment as soon as possible, there would be big problems.

"Since that's the case, then I'll have to thank senior brother Jia for his good intentions." Lu bianren didn't decline. Right now, healing his injuries was the most important thing, and it wasn't a big deal to owe him a favor for this. He just had to find an opportunity to return it in the future.

"What are you saying? this is my duty as a senior brother. There's no need to thank me." Jia mufan waved his hand and immediately led everyone in the direction of the medical Hall. While walking, he said, "By the way, is there still no news of Junior Brother Lin?"

"Not yet. I haven't heard from him since I broke up with him in the South continent sea." Lu bianren's face darkened. If Lin Yi was here, he wouldn't let these clowns do whatever they wanted. Even if he couldn't do anything, he could at least protect everyone, and they wouldn't be in such a miserable state ...

"Don't worry, Junior Brother Lin is blessed by the heavens. You have to have confidence in him. He'll come back safely," Jia mufan smiled and comforted him.

"That's right, Junior Brother Lin will be safe and sound, for sure!" Lu bianren nodded heavily. Hearing the two of them say this, the others 'mood finally improved a little.

After a pause, Lu bianren suddenly remembered something and asked Jia mufan, "Senior brother Jia, Junior Brother Lin and Junior Sister Huang have previously received the task of capturing the evil cultivator Wu Bao Liang. The news of Wu Bao Liang's death on the spot has been sent back, so please find some time to cancel their task."

"En, this is part of my job, you guys can rest assured." Jia mufan agreed without hesitation.

"Then I'll have to thank senior Jia." Lu bianren and the others nodded gratefully, thinking that it was fortunate that this inner sect manager was easy to talk to. Otherwise, not only would they not be able to pass today's trial, they might even have to go through a lot of trouble to cancel the mission.

If a mission like this didn't get canceled, it'd greatly affect his future missions and other things. It might even affect Lin Yi's long-term development in the pavilion. After all, strictly speaking, this was a stain that wasn't too big or small.

With Jia mufan's status, he naturally received special treatment when Lu bianren and the others were brought to the pill Hall. After all, Lu bianren was the eldest senior brother in charge of the inner sect of the GreenCloud Pavilion. He was destined to have a boundless future. Even if he was from the GreenCloud Pavilion, no one dared to slight him. The pill Hall immediately sent their best doctor to treat everyone's injuries.

Since everyone only had some superficial injuries, other than Qiao hongcai and the miserable senior brother, who were more troublesome and needed to stay behind for treatment, Lu bianren and the others could quickly return to their respective homes. Jia mufan had accompanied them from the beginning to the end. It was rare for someone of his status to have such patience.

If it were Lin Yi, Jia mufan's actions wouldn't be surprising at all, but the status of Lu bianren and the others was a world of difference compared to him, and yet Jia mufan was still able to do this. It could be seen that this person wasn't simple. Even if he didn't put his strength of the Yuanying stage aside, his heart alone was destined to be extraordinary, and he would be able to achieve great things in the future.

"Thank you so much for today's matter, senior brother Jia. We will never forget it." Lu bianren, along with Xiao ran and Li Zhengming, bowed deeply to Jia mufan.

"You're all too polite, it's just a small matter, not worth mentioning. " Jia mufan smiled and said before he left, "There's one thing that I hope you all will remember, and do not make unnecessary sacrifices. Before Junior Brother Lin returns, do not provoke Junior Brother MA again. With his current status, if he really wants to kill you all, to be honest, it would be a waste to kill you all. That's all I have to say, take care. "

The three of them looked at Jia mufan's back in silence. After a moment of silence, Xiao ran suddenly asked, "Senior brother Lu, do you think there's any deeper meaning behind senior brother Jia's help?"

"I also feel that it's a little strange. Although senior brother Jia has always been smooth and slick, he's still the eldest senior brother of the inner sect's steward. Just now, not only did he help us out of the situation, he even personally sent us to the pill Hall to treat our injuries. To be honest, even I didn't expect this." Lu bianren shook his head in confusion.

Every action of an important figure had a deeper meaning, and Jia mufan was undoubtedly an important figure. His actions must have had their own intentions, but no one could see through them yet.

"In my opinion, this senior brother Jia's plan is very big. He's really a person with a long-term vision. Today, I've really learned something!" Lee Zheng Ming said as if he was deep in thought.

"Oh? Where did this come from? Zhengming, quickly tell us!" Lu bianren and Xiao ran were taken aback and quickly asked.

"From today's incident, although this senior brother Jia is still smooth and slick, and it seems like he didn't really offend that person, but from the way he protected us, especially when he personally sent us to the pill hall, I'm afraid he has already made a choice in his heart." Lee Zheng Ming said slowly.

"Choice? "You mean ..." Lu bianren and Xiao ran fell into deep thought at the same time.

"That's right, if we ignore everything else, this MA dang gun is very similar to our boss Lin Yi!"

Chapter 4583 How Did This Happen?

"They are all geniuses who can make the upper echelons of the GreenCloud Pavilion look at them in a new light. In the future, when they grow up, they will definitely have an impact on the overall situation! But it's also because of the similarity that there can't be two tigers on the same mountain. MA dang Qiang's trouble today is proof of that, so when our boss Lin Yi comes back, everyone, including Jia mufan, has to make a decision in time to support MA dang Qiang or our boss Lin Yi!" Lee Zheng Ming said with more certainty.

"So you're saying that Jia mufan has decided to support our boss?" Xiao ran's heart jolted. This was a rare piece of good news. After all, this person was a truly important figure in the GreenCloud Pavilion. His status was even higher than some of the elders in the GreenCloud Pavilion!

"It looks like it." Lu bianren nodded, but then he asked in confusion, ""But why did he make such a choice? it wouldn't be strange for him to make such a choice when Junior Brother Lin returns. But now, it's unknown whether Junior Brother Lin is alive or dead. Isn't he afraid of angering that arrogant and despotic horse?"

"I think he's betting on someone else, not boss Lin Yi." Lee Zheng Ming lowered his voice and said.

"Who is that?" Lu bianren and Xiao ran asked at the same time.

"The pavilion master of the rising Sky Pavilion, Shangguan Tianhua!" Lee Zheng Ming's answer was shocking, but when they thought about it carefully, they realized that it was reasonable.

Lin Yi's close relationship with Shangguan LAN 'er was a well-known fact among the three pavilions, not to mention that he was a genius handpicked by Shangguan Tianhua. Basically, everyone added the word

"Shangguan" above Lin Yi's head, which meant that offending Lin Yi was offending Shangguan Tianhua, and expressing goodwill to Lin Yi was equivalent to expressing goodwill to Shangguan Tianhua.

"Zhao Zhengming, if you analyze it this way, then senior brother Jia is really ambitious. But then again, if even someone like him can't get that position, I'm afraid no one else in the world can do it." Lu bianren let out a long breath and sighed.

Xiao ran nodded from the side. Although he didn't say it out loud, they already knew what Jia mufan was up to.

Under normal circumstances, the eldest senior brother who was in charge of the inner sect of the GreenCloud Pavilion would not have any interaction with Shangguan Tianhua, the pavilion master of the rising Sky Pavilion. However, there was one exception, and that was when he had his eyes set on the position of the pavilion master!

According to the rules passed down by their ancestors, whoever wanted to become the pavilion master of any of the three great pavilions had to go through the decision of the North Island's Council of Elders. In particular, they had to obtain the support of the other two Pavilion Masters.

With Jia mufan's current strength and status, although he was still far from the position of Pavilion master, with his experience and strength, it was not impossible for him to compete for it. Jia mufan was preparing for a rainy day.

Lu bianren, Xiao ran, and Li Zhengming discussed for a while before dispersing. With their current strength and level, they were still very far away from Jia mufan, let alone the position of the pavilion master.

In any case, Jia mufan's choice was a good thing for everyone. After all, they had a strong helper. What they needed to do next was to heal and cultivate. When Lin Yi returned, they would pay with their blood!

.....

Five poisons swamp, southern island.

Standing on the dragon's back, Lin Yi had been training under the five elements killing Qi for three whole months. Just like before, Lin Yi found that the effect of the killing Qi on him was getting weaker and weaker. At least, it wasn't as fast as it was at the beginning.

At the same time, the result of these three months of training was that Lin Yi's strength successfully broke through from early nascent Soul Stage to peak early nascent Soul Stage!

Leveling up once every three months was a lot slower than before, but it was still a good improvement. Lin Yi didn't take any pills during this process, and it was a pure breakthrough-this was something very valuable. The higher the level, the harder it was to break through, and the longer the time it took to do so. This was an unchanging principle.

For a normal person, it would take at least a few decades for a golden core to level up, but once they reached the nascent Soul Stage, the time span would be over a hundred years. Not leveling up for a few hundred years was normal for most nascent Soul Stage Masters, but Lin Yi only spent three months to level up, and that was already amazing!

Lin Yi wasn't a greedy person, but the opportunity before him was hard to come by. Peak-level early stage nascent soul wasn't enough for him-he needed to continue training and break through.

But if he wanted to go one level higher, the five elements killing intent here wasn't enough. Lin Yi immediately said to the Dragon of five evils, ""Go up a little more. I need a stronger five-element killing intent!"

"I'm afraid that won't work ..." The Dragon of five demons said.

"Why? Could it be that even you can't withstand the killing intent of the five elements?" Lin Yi was stunned, but after thinking about it carefully, this was impossible. The Dragon of five demons was clearly able to swim freely in the swamp, even in the middle layer where it was densely packed. The strongest killing intent of the five elements was no threat to it at all, and it even scared them away.

"Of course I can, but even if I go up, it's of no use to you." The Dragon of the five demons said as he shook his big head.

"What do you mean?" Lin Yi didn't know what was going on-he needed stronger five-element killing intent to help him train, and he didn't even need to risk going up to the middle floor for that-he just needed to fly up a bit and he'd be able to get there. Why was it useless?

"Hoho, I can't explain it to you. You'll know when you go up." After saying that, the Dragon of five evils flapped its wings and immediately scuttled up a bit before stopping. Although it had not reached the most central position, the killing aura of the five elements roaming around was much stronger and greater in both strength and quantity than the previous position.

Lin Yi was quite satisfied with this, but just as he was about to start practicing, he realized something was wrong. "How did this happen?"

Before this, all the five elements killing intent that Lin Yi had come into contact with, no matter strong or weak, were all one-track minded existences. Basically, as long as they sensed Lin Yi's aura, as long as Lin Yi didn't use his pure Qi to cover his body, they would attack immediately. Unless Lin Yi escaped or the five elements killing intent slowly died out in the process, they wouldn't stop until he was dead.

But the scene in front of him completely overturned his understanding-this five-element killing intent was clearly much stronger than the ones before!

Chapter 4584 There Are Other Ways

However, when the dragons of five evils brought him up, they all scattered and fled. Even the killing aura of the five elements in the distance automatically detoured and no longer attacked him.

"The killing intent of the five elements is also intelligent. Although they are not afraid of you, they are very afraid of me, so they automatically escaped." The Dragon of the five demons laughed.

"But those were clearly still attacking me earlier, right?" Lin Yi couldn't help but ask.

"That's because they're too weak, so they don't have enough intelligence. They're basically brainless. But these killing Qi of five elements are different. The stronger the pressure, the stronger their intelligence and the more they know what's good for them. When they sensed my existence, they naturally avoided me. I couldn't completely hide my aura by hanging here, so you were also bypassed." The Dragon of the five Demons Explained.

"In that case, the weaker five-element killing intent before was because its spirituality was too weak. Although it didn't dare to attack you, it dared to attack me?" Lin Yi said, understanding.

"That's right, that's what I meant. " The Dragon of the five demons nodded.

"Ugh ... That's ..." Lin Yi was speechless. The killing intent wasn't a living thing, but it had a certain level of intelligence. He thought it was strange and eye-opening before, but now he could only smile bitterly. The killing intent didn't need to reproduce, why did it need such intelligence?!

With the Dragon of five evils 'help, Lin Yi thought that he could fully utilize the killing intent of the five elements. He might as well go into closed-door training here for a few years, and if he took a few more golden elixirs in the middle, he might be able to rush into the peak nascent Soul Stage in one go. But now, everything was like a flower in the water, like the moon in the mirror.

No matter how strong the five elements killing intent was, they were so far away and didn't attack. It was useless to Lin Yi. If only he could fly, he wouldn't need the five demons Dragon to carry him. Unfortunately, that was a pure dream.

"What do we do now? You're going back to that place to cultivate?" The Dragon of five evils asked.

"Forget it, let's go down first." Lin Yi sighed. Although the training effect was better than normal, it wasn't as obvious anymore. It felt like someone who was used to riding a rocket suddenly became an airship. It made him feel bored and disappointed.

"Alright, then." The Dragon of the five evils nodded and lowered his body to the ground. After training with Lin Yi for three whole months, even he was starting to feel bored.

He returned to the surface, depressed. "I can't get out, I can't cultivate, and there's nothing to do in this place. It's really a pain in the ass ..." He thought.

He could clearly see the powerful killing Qi of the five elements as soon as he looked up, but because he couldn't fly, he couldn't use them for cultivation. This feeling of guarding the treasure Mountain but being helpless really made him speechless.

Before he had met the dragons of five evils, even if he could not cultivate, he could at least explore this place. However, now that he knew that this was the old nest of the five poison flood Dragon and the Dragon of five evils, this so-called exploration was naturally unnecessary.

Even if he was lucky enough to find something, Lin Yi wouldn't want to just take it. After all, the Dragon of five evils was the master of this place, and everything here, including this underground space, belonged to him. If it were any other spirit beast, Lin Yi wouldn't feel any guilt, but he was an old friend of the Dragon of five evils.

Lin Yi never had the habit of snatching his friends' treasures, not to mention that the Dragon of five evils had been training with him for so long. If he still wanted to take something from him, he would be too inhumane. To avoid the awkwardness, Lin Yi gave up the idea of exploring.

Being trapped here with nothing to do was like going to jail-anyone would feel like that, even someone as calm as Lin Yi.

"Actually, that might not be the case." The Dragon of five evils suddenly said.

"Could it be that you have a way to prevent the five elements killing intent from escaping?" Lin Yi's spirits lifted-if he could continue training, he'd be able to reach mid-stage nascent soul soon.

If his strength reached that level, Lin Yi would have enough confidence to face the old sect of West Mountain!

He couldn't fight it head on, but he'd at least be able to protect himself, and wouldn't be in as much danger as before. With the help of this thing, Lin Yi was confident that he had a fifty percent chance of escaping, or even more.

"I didn't think about that. The five elements killing intent is actually more sensitive than any human cultivator or spirit beast. If I completely hide my breath, I might have a chance to deceive them. But once I move, it's definitely impossible." The Dragon of five evils shook his head.

"Uh, then I don't know what you're talking about ..." Lin Yi grinned in disappointment.

"I'm not talking about cultivation, but whether you can get out of here. " The Dragon of five evils smiled at Lin Yi's depressed expression.

"Go out? How do we get out?" Lin Yi's eyes lit up.

In any case, there was no longer much effect in continuing to cultivate here. If there was a way to get out at this time, he would definitely not have the slightest regret. It had almost been a year and a half

since he had left the North Island. Without realizing it, so much time had passed. To be honest, he really missed his senior and junior brothers and was worried that they would encounter some trouble.

"Now that you know that there are two entrances to this place, there's no need to try the one in the hinterland of the southern island. After all, you might have already been blacklisted by the spirit beast clan. That place is too dangerous for you. However, I think you can try the one you came in previously. After all, it's been so long that the other party might have removed their eyes." The Dragon of five demons thought for a while and said.

"Oh, right!" Lin Yi patted his head excitedly. He was too involved to think of this. No matter how cautious and suspicious the old sect was, there was a limit to one's patience.

It was already ridiculous enough for the old sect of West Mountain to guard this place for three months after watching him fall into the five poison swamp, let alone more than half a year later. Logically speaking, they should have given up long ago. After all, they didn't know that there was such a treasure land down there, nor did they know that Lin Yi could avoid the five elements killing intent attack.

"Go up and take a look first. If it doesn't work, I'll tell you another way." The Dragon of five demons suggested.

Chapter 4585 As Expected, He Was Unlucky

"Is there any other way? Could there be a third entrance? Then why don't you just tell me everything?" Lin Yi asked.

"To be honest, there is a third entrance in this place, but I have never been to this entrance. My master, the five poison Dragon, told me about it before, but it has never been there. There is no information about it, so I don't know what the situation outside is like, and I can't judge how dangerous it is. Unless you are forced to, I don't recommend you to take this risk." The Dragon of five evils shook his head.

"Is that so ... That's a complete gamble, it's too risky ..." Lin Yi nodded after a moment of silence.

After all, this place was right under the southern island, and logically speaking, the third entrance was the same as the other two-it was very likely to be on the southern island as well, or even in the hinterlands of the southern island. Lin Yi would be walking right into a trap if he just went out recklessly-the risk involved was not small at all.

"That's why I didn't tell you before, in case you went to die. How about it? I'm very kind, right? roar!" The Dragon of the five demons laughed.

"Interesting! Then I'll go to the five poisons swamp first. If there are still people guarding it, then I can only try even if it's risky. " With that, Lin Yi jumped onto the bird's back, and the two of them soared into the sky, reaching the surface of the five poisons swamp in the blink of an eye.

Lin Yi's heart sank as he scanned the area with the help of the ghostly thing's divine sense. The West Mountain sect still had their eyes on him. This was far beyond persistence-there was something wrong with their brains!

Lin Yi was about to go crazy. He was full of vulgarities, but in fact, he had blamed the old sect of West Mountain wrongly this time. As he had guessed before, no matter how cautious and suspicious the old sect was, they had already thought that he was dead for sure after such a long time. The reason why they didn't remove their eyes was simple-he forgot ...

Ling Yi was dead-that was what the old sect master of West Mountain was thinking now. As a Big Boss of the evil cultivators, he wouldn't care about a dead man, so Lin Yi was naturally thrown to the back of his mind. He also completely forgot about the spy he had long kuiba plant in five poisons swamp. If the old

sect of West Mountain cared about these escorts from the Longzhou Longzhou who weren't even considered minions, it would be impossible for the sun to rise from the West.

Since the West Mountain old sect didn't say anything, long kuiba naturally didn't dare to withdraw his men on his own. To him, it was just two less bodyguards. It didn't matter at all. He couldn't bother the West Mountain old sect for such a small matter!

To long kuiba, as long as they didn't urge him to find some female nascent soul cultivator, everything would be fine. What was the big deal with sending a few bodyguards?

Therefore, the bodyguards under him were the unlucky ones. Even though they knew that it was meaningless, they could only come here on time and not dare to slack off.

These lackeys were just unlucky, but Lin Yi, the person involved, was so depressed that he was about to vomit blood. From the complaints of the two people above him, he already knew what had happened. He almost spat out blood on the spot. It was their negligence, but he couldn't move at all. How was this reasonable?

Lin Yi restrained himself for a long time before he could suppress the thought of killing the two spies. Although these two people seemed to be perfunctory, they would crush the sensing Jade plate as soon as they felt danger. By then, even if the old sect of West Mountain had forgotten about him, they would immediately remember this when they saw the Jade plate shatter.

With Lin Yi's current strength at the peak of the early stage of nascent soul, he didn't have much confidence in escaping from the old sect of West Mountain. Even if he escaped back to the five poisons swamp and made the other party helpless, he would expose the key information that he could survive in the five poisons swamp. When the old sect of West Mountain reacted, they would be even more determined to kill him, making it even more impossible to escape.

Lin Yi couldn't afford to take this risk, and so after weighing the pros and cons, he could only resentfully return to the underground space on the spirit Bird.

"It seems like we can't get out of here. How about it? do you want to try the third passage?" Seeing Lin Yi's face from afar, the Dragon of five evils knew what the result was without asking.

"Of course, or else I'd be trapped here until I die. I really have to give it to that old monster, even an unintentional mistake could force me to be unable to move ..." Lin Yi smiled bitterly.

If the old sect master of West Mountain hadn't forgotten about him at this time, then he might have removed his informers after a while. But since he had forgotten about it now, he wouldn't take the initiative to think about it in the future. And long kuiba and the others didn't dare to bother him with such a trivial matter. It was very likely that he would still be like this for another eight to ten years. There was no hope at all.

The Dragon of five evils froze for a moment and laughed after hearing Lin Yi's explanation. He lay on the ground and slapped the ground crazily with his claws, shaking the earth and mountains.

"I say, can't you at least restrain yourself a little? you don't have to be so gloating, right? You're almost causing an earthquake!" Lin Yi glanced at him speechlessly. If an earth formation stage being really went all out and destroyed everything, the entire space would probably collapse. Just a smile from the Dragon of five evils caused cracks to appear. Lin Yi really couldn't take it.

"Roar! This is the funniest joke I've heard in the past two years. You're really unlucky, this is too funny!" The Dragon of five evils was still laughing unscrupulously. It was a dinosaur, but Lin Yi watched it laugh until tears came out.

I'm the only human you've seen in the past two years, and you haven't even seen a ghost. It would be a ghost if you heard a joke! Lin Yi was speechless. He waited for the Dragon of five evils to stop laughing before urging it to lead the way to the third entrance.

Although this space was vast and boundless, in front of the speed of the Dragon of the five demons, no matter how far away it was, it could reach it in an instant. Although the speed of a spiritual bird was not as terrifying as the Dragon of the five demons, the speed of an original infant stage spiritual bird in the outside world was absolutely fast enough to make people's hair stand on end.

After flying for a while, the Dragon of five evils suddenly landed. Lin Yi thought that they had reached their destination and quickly let the spiritual bird land with them. However, he realized that everything around them was the same as before. It didn't look like there was an entrance at all.

However, as soon as he landed, Lin Yi felt an unparalleled powerful aura. It was even stronger than the Dragon of the five demons, an existence at the earth creation stage. It was really shocking.

Chapter 4586 The Third Exit

"Could this be ..." Lin Yi looked at the Dragon of five evils questioningly. According to the Dragon of five evils, other than himself, there was only his master in this space, the five poisons Dragon, but he was already dead.

"Yes, this is my master's grave." The Dragon of the five evils nodded. He was laughing uncontrollably at Lin Yi's embarrassing encounter, but now he looked a little sad.

Lin Yi didn't expect this answer at all. Now that it was confirmed, he couldn't help but feel respect. He didn't have any interaction with the five poison Dragon, but it was a super spirit beast that was once at the peak. This was respect for a strong person, especially when it was still gathering such a terrifying aura after death. One could imagine how strong it was when it was alive.

Lin Yi sighed to himself. If it wasn't for the Vermillion Bird, the five-poison Dragon had a high chance of becoming the new elder of the Azure Dragon sect. It was a Supreme existence that stood at the top of Sky Class Island, but now it was dust to dust-everything was just floating clouds.

"Why don't you build a Dragon tomb for it? There isn't even a proper gravestone. How can you let it rest in peace like this?" The ghostly thing suddenly came out of Lin Yi's body and said to the Dragon of five evils in a strict tone.

The aura of this place could not be dispelled, which was the result of the five poison serpent Dragon's obsession. In this case, even if the five poison serpent Dragon was already dead, it would never be able to free itself. It could only sink into endless obsession and resentment for eternity. This was almost the saddest end for a Dragon.

"Senior ghost, I also want to set up a Dragon tomb for master, but before master died, he told me that unless I use the Vermillion bird's bone to set up a monument for him, he would not die in peace. This is master's last order, and I dare not disobey!" The Dragon of five evils said with red eyes.

The demonic thing and Lin Yi both fell silent. They both bowed deeply to the five-poison Dragon. The demonic thing sighed, "Fine, since your master has such a wish, you should work hard in that direction. Don't let it wait too long. That bastard Vermillion Bird won't be able to be arrogant for long, I promise."

"I know. Sooner or later, I'll use the Vermillion bird's body as a sacrifice to my master's spirit in heaven!" The Dragon of the five demons took a deep breath and said firmly.

At this point, the Vermilion Bird had become an opponent that the Dragon of five evils had to eliminate, whether it was for the five poisons Dragon or for itself. However, this opponent was too powerful and too terrifying. Even if the Dragon of five evils was now at the earth formation stage, it could only hide here like a turtle.

He would continue to endure. Only when he was strong enough would the Dragon of the five evils be able to give birth to the evil Dragon and make the Vermillion Bird pay the price in blood!

Lin Yi stood at the side and didn't say anything. He didn't have any grudges with the Vermilion Bird, but once he had enough strength, he would definitely make a move on the Vermilion Bird. After all, whether it was the ghastly thing or the Dragon of five evils, they both wanted to kill the Vermilion Bird.

The group stayed in the five poison Dragon's graveyard for a while before flying again. With the speed of a Spirit Bird, they flew at full speed for an hour before Lin Yi finally caught up to the five demons Dragon.

This place was very far from the five poisons swamp, but even so, Lin Yi still didn't see the end of the surrounding area. The mysterious space below was so vast that it was unbelievable.

"If I'm not wrong, this should be the third exit." The Dragon of the five demons pointed to the top of his head and said.

Lin Yi looked up and saw that the scene was the same as before. The killing Qi was still flowing around, but it wasn't strange. Even at the original place, Lin Yi couldn't see through the killing Qi to see the five poison swamp. He would only know what was up there after he went up.

"What's up there ...?" Lin Yi couldn't help but ask. He'd finally found a possible exit, and he couldn't help but be excited.

"I don't know. Master doesn't allow me to go up, and it doesn't seem to have been there before. The reason why it knows this place is because of the message left by the old flood Dragon of the previous generation. But no matter what, one thing is certain is that there is definitely danger up there, so you really have to think carefully about whether you want to go out from here." The Dragon of five demons said in a rare serious tone.

It was definitely dangerous, otherwise the five poison Dragon wouldn't have warned the five demons Dragon like this. Even with their strength, they had to be so careful. If it was Lin Yi, who was only at the peak of the early stage of nascent soul, the danger would be unimaginable.

West Mountain old sect was very dangerous, and so was the spirit beast clan. However, this unknown land up there might be even more dangerous than the first two combined. If that was the case, Lin Yi wouldn't even be able to cry.

Lin Yi gritted his teeth and turned to look at the thing floating to the side. He didn't want to give up just like that. He knew that this place was dangerous, but there was still a chance compared to the other two exits. After all, if he took the other two exits, there was a 99% chance that he would either be killed on the spot or forced back. He could still think about this one.

"According to the distance and direction I flew from just now, I can roughly judge the situation up there. No wonder the five poison serpent Dragon and the others didn't let the five demons brat go up from here. I would've done the same if I were him." The ghastly thing said with a complicated tone.

Although the Dragon of the five demons was the master of this space in name, it was not clear about the situation here. On the other hand, this thing knew it like the back of its hand. After all, the South continent was its former base camp, and the entire map of the South continent was stored in its mind. As long as the location was clear, it could naturally find the corresponding position on the map.

Lin Yi's heart tightened at the ghastly thing's tone. He quickly asked, "This is ..."

"The endless ocean!" The ghastly thing slowly spat out these four words.

"The sea?" Lin Yi was taken aback-he'd thought that it'd be somewhere in the heart of the southern part of the island, and had even wondered if it was the territory of a super spirit beast like the Vermillion Bird.

Even the Dragon of five evils was a little stunned when he heard this. Ever since he was teleported here, he had never taken a step out, and the five poison serpent Dragon had never told him much about this. It could be said that he knew nothing about the sea of the Sky Class Island.

"It can't be wrong. Judging from the location, it's definitely not land up there. It's the endless ocean up there, and it's quite a distance away from the southern island." The ghost said with certainty.

"Since it's the ocean, what kind of danger will there be?" Lin Yi asked curiously. The spirit beasts were the scariest in the South continent. As long as he could avoid them and the old sect of West Mountain, Lin Yi felt that there should be nothing that could stop him. At least, he could escape unscathed.

Chapter 4587 An Arrow Fired Can't Be Turned Back

"Stupid! Did you forget about the sea beasts in the sea? That is an existence that even our spirit beast clan doesn't dare to rashly provoke!" The ghastly thing said with a bitter smile.

"Ah! Then ... Then what should we do?" Only then did Lin Yi come back to his senses. The sea beasts and spirit beasts were very distinct from each other, and most of the sea beasts were far away from the southern island. He subconsciously threw this dangerous factor to the back of his mind and broke out in a cold sweat.

Thinking back to the first time he was chased by West Mountain old sect, Lin Yi had encountered a terrifying sea beast like the ghost Stingray, and it was very close to the island. Its strength was already enough to scare him. Now that he was far away from the southern island, the sea beast he encountered would be much stronger. If he was unlucky, he would really die.

"Sea beasts are indeed scary, but it all depends on luck. As long as you're lucky, you'll have a chance to leave this place alive. If it were the other two exits, there would be no hope at all. It's up to you to decide whether you want to take the risk or not." The ghastly thing said after a moment of silence.

"Senior, you're right. Since that's the case, let's go up from here. A living person can't die from holding their pee." Lin Yi clenched his teeth and made the decision. Wealth came from danger, and many times, people were forced to fight with their lives.

In fact, the endless sea was full of danger, but Lin Yi didn't plan to explore the sea. As soon as he went out, he'd get the bird to rush out of the sea as fast as possible. The process would be very short, and the

possibility of encountering a super-strong sea beast wasn't very high. Once they came out of the sea, they'd be free to fly.

The ghost wasn't surprised by Lin Yi's decision at all.

"You really want to leave from here? We have to be careful. It sounds dangerous. " The Dragon of the five demons reminded him. Although he had never come into contact with sea beasts before, even this damn thing, the former Azure Dragon, was taking this matter seriously. This meant that it was not simple. Even he, who was only at the earth formation stage, might be in danger, let alone Lin Yi, who was only at the peak of the early nascent Soul Stage.

"Don't worry, thank you for your help during this period of time. I'll take my leave now, but I believe that I'll come to the southern island to find you again soon. " Lin Yi nodded.

This was not a polite remark. After all, there was a ghost here. When he had enough strength in the future, he would definitely accompany the ghost back to the southern island. When that time came, the Vermilion bird's death would not be far away.

"Alright, I'll wait for you here. Take care!" The Dragon of the five demons nodded heavily.

After three months of living together, it treated Lin Yi as an old friend, not to mention that ghastly was a Dragon senior that it respected. If it wasn't for its master's orders, it would even want to go out with Lin Yi.

It was a pity that the Dragon of five evils bore a blood feud. Before the five poisons flood Dragon died, it had specifically instructed it to stay here and suffer. Before its strength was enough to contend with the

Vermilion Bird, it was not allowed to leave this underground space even by half a step, lest it invite a fatal disaster.

After saying goodbye to the Dragon of five evils, Lin Yi took a deep breath and jumped on the back of the spiritual bird. He wrapped himself and the spiritual bird with his Qi and flew up into the sky, quickly disappearing into the five elements killing intent.

At the start, it was the same as before-the five elements killing intent grew stronger and weaker, and after the middle layer it became weaker. Not only was the pressure weaker, but the amount was also decreasing. After about an incense's time, Lin Yi realized that the five elements killing intent had completely disappeared, and what appeared above his head was a cave entrance!

Lin Yi thought that this exit would be the same as the five poisons swamp, with a vast area above it, but he didn't expect this hole to be much smaller than he thought. It was only a few feet wide, and he and the spiritual bird could enter and leave freely. If it was the Dragon of five evils, it would be a little difficult, but if it was an even bigger existence, it would be impossible to enter and leave from here, unless he destroyed the hole or transformed into a human.

Looking into the hole, it was completely dark inside. The naked eye could not see the situation inside at all. Only the sound of rumbling water could be vaguely heard. The water must be very rapid.

"There is a whirlpool portal up there. As for what is on the other side of the portal, it will depend on luck." The ghastly thing said after sensing it with his divine sense.

"Uh, it can't be like the whirlpool channel I saw before, directly leading to the hinterland of the southern island, right?" Lin Yi didn't have a good feeling about this-he'd already prepared himself for the endless ocean, but it'd be a joke if he ended up in the southern part of the island.

"I can't say for sure. Although I've studied the whirlpool portal near the South Island, it's only a small part of it. I've never even heard of a whirlpool portal in a place like this before. Who knows where it leads to? it's entirely up to luck. To be honest, you can still regret it now." The ghastly thing's tone had a rare hint of caution.

"There's no turning back. Since we're already here, what's the point of going back? Even if there is a mountain of daggers and a sea of flames in front of me, I will still have to toughen my head and give it a try. If I don't even have the courage to do this, then I will never be able to leave this place in my life. " Lin Yi's determination was far greater than what the ghost had expected. Rather than being afraid, he'd rather walk this path to the end.

With that, Lin Yi didn't hesitate for too long. After adjusting his state of mind, he ordered the spirit Bird to enter the whirlpool tunnel.

The water in this Whirlpool tunnel was extremely strong. If Lin Yi didn't use all his Qi to protect himself, the water might even tear him and the spiritual bird into pieces. If Lin Yi was still in the mid-stage of golden core, he might not be able to take it, but now he was at the peak of the early-stage of nascent soul.

The stronger the water current, the faster it was. Lin Yi and the spiritual bird drifted with the water for half an incense's time before they felt the ground below them empty. They were thrown out together and struggled for a long time before they managed to maintain their position.

It was dark all around, and Lin Yi couldn't even see his fingers, but he relaxed a little. He could tell from the water pressure that they were in the depths of the ocean. It was dangerous, but it was better than being transported to the heart of the southern island. As long as they could get to the surface, everything would be fine.

An ordinary person would definitely not be able to withstand such a place and would have been crushed by the unparalleled water pressure!

Chapter 4588 Ancient Battlefield

However, Lin Yi had his Qi protecting him, so the water couldn't get close to him at all. Although he and the bird couldn't breathe as freely in the water as the sea beasts, they were still in the nascent Soul Stage, after all. Such a small thing couldn't stop them.

As for the darkness here, it wasn't a big problem for Lin Yi. He couldn't use his spirit sense easily in the five poison swamp, but there weren't that many restrictions here. Even if the sea water had a small barrier against spirit sense, it was nothing to Lin Yi who was used to the high pressure isolation in the five poison swamp. Since he could use spirit sense, it didn't matter if he couldn't see it with his naked eye.

But for some reason, when he expanded his spirit sense again after such a long time, Lin Yi suddenly realized that the strength of his spirit sense was at least several times stronger than before, whether it was the range or clarity!

Lin Yi couldn't help but feel a little dazed at this unexpected surprise. It was like a dream, and he couldn't react for a long time.

Although his strength was no longer the same as when he first entered the five poisons swamp, Lin Yi had never specially trained his spirit sense. First, he wasn't at that level yet, and second, under the pressure of the five elements killing Qi, he couldn't even use his spirit sense. Even if he wanted to train, he couldn't. Who knew that his spirit sense would increase so much without him knowing!

Lin Yi thought for a moment before coming up with a reasonable explanation, "Could it be that after one's strength breaks through to the original level, one's spiritual awareness will also naturally increase?"

Bullshit! The ghostly thing had to hold back his curses. Unlike the physical strength that could be rapidly improved by taking pills, there had never been a time when the divine sense could be obtained without effort. One could only rely on one's own continuous cultivation and comprehension step by step.

Otherwise, not to mention a Yuanying master, even a xuansheng master would have a weak spirit sense. This Lin Yi kid didn't know how lucky he was-there was no way his spirit sense would increase so quickly after reaching the Yuanying level!

Lin Yi himself didn't know why his spirit sense suddenly increased, but this ghostly thing, who was an observer, knew it very well. It was clearly because when he found the Dragon of the five evils, his spirit sense awakened for no reason. This kid got such a rare opportunity-it would be unreasonable if his spirit sense didn't increase.

The thing knew the reason, but it couldn't tell Lin Yi. The process of consciousness awakening was very mysterious-it was a state of unconsciousness. As long as the thing didn't tell him, Lin Yi would have the chance to enter this state in the future, but if he knew about it, he'd subconsciously or unconsciously lean towards it after he'd tasted the sweetness, and it'd be counterproductive.

The ghost didn't say anything, and Lin Yi thought he was right. He didn't think too much about it and just used his spirit sense to sense his surroundings. What he needed to care about now wasn't his spirit sense, but whether there were sea beasts around.

However, before Lin Yi could fully release his spirit sense, he felt a sudden shock without any warning. An overwhelming pressure forced his spirit sense back into his body, and Lin Yi spat out a large mouthful of blood!

Lin Yi's face changed in an instant. He had a bad feeling before, but now it came true. There really was an extremely terrifying super existence here. Just the pressure alone could make his spirit sense backfire like this. Even the five demons Dragon of earth formation stage couldn't do this!

A horrifying thought flashed through Lin Yi's mind. If it was stronger than the Dragon of the five evils, then it had to be at least in the sea splitting stage?

This endless ocean was indeed unfathomably deep! Lin Yi's heart was filled with bitterness. If he had known that he would suddenly encounter a super sea beast at the sea Rift realm, he would have just left the five poisons swamp directly. There was at least a slim chance of survival when facing the old sect master of West Mountain. Now that he was facing a sea beast at the sea Rift realm, there was no way he could escape. He didn't even dare to move!

Lin Yi wasn't the only one who was surprised to find such a terrifying existence. The ghost was shocked as well, but after a while, he let out a breath of relief and said, "What a powerful sea beast. It's actually able to preserve its primordial spirit after death. It's almost as strong as me ..."

"Dead? Is this the primordial spirit it left behind after its death?" Lin Yi was overjoyed. No wonder it felt similar to the five-poison dragon graveyard. The only difference was that it was stronger and more aggressive.

"Yes, and this primordial spirit is on the verge of collapse, and it's going to dissipate completely soon. In comparison, I'm much luckier. It's only a last bit of obsession that hasn't dissipated, and it has long lost its thoughts and consciousness ..." The ghastly thing couldn't help but sigh.

This scene made him empathize-after all, he'd been like this in the common world too. If he didn't meet Lin Yi, he might've been left with only a little bit of unconscious obsession. The environment in the common world was much worse than here, and the spirit would die faster and more thoroughly.

"Obsession?" Lin Yi couldn't help but click his tongue. If the opponent was a complete spirit, then it wouldn't be hard to understand why he, a peak early stage nascent Soul Master who had just broken through, would be injured like this. But this was just a remnant of his will, what was this?

"Yes, it's the last bit of obsession left behind before the primordial spirit dissipates. When one's strength has reached a certain level, any thought can exist independently in the world. Even if one's physical body and primordial spirit are destroyed, they will continue to exist, just like this sea beast in front of us. In fact, it was the same with the five poison serpent Dragon, but it had entrusted everything to the five evils brat, so its obsession was far less strong than this one." The ghastly thing explained.

"Even the last bit of obsession can be so powerful? It's really inconceivable!" Lin Yi's eyes were wide open-he was at the peak of the original level now, but this thing was talking about how he hadn't even reached the threshold of the system's divine sense training. To reach this level where he could live on with just a thought, it was still a long way off.

"You might find it hard to understand now, but once you reach this level and comprehend the profound mysteries of the laws, you won't find it strange anymore." The demonic thing didn't explain any further-Lin Yi's level was too low anyway, and it was useless to explain. "It's rare to encounter such an obsession. Let's go over and take a look. It'll be fine."

Chapter 4589 Memory Inheritance

"Alright!" Lin Yi nodded and brought the bird towards the lingering spirit. Because of this scary presence, the other sea beasts would stay far away. It was just as the ghost said, there was no danger here.

The closer he got to the lingering spirit, the more Lin Yi felt the killing intent coming towards him from all directions. Each one was fiercer than the last, and it was extremely oppressive.

Slowly, Lin Yi reached the source of the obsession-there was a layer of light here, and he could see the surroundings without using his spirit sense. He couldn't help but exclaim, "What a terrifying battlefield!"

There was no doubt that it was a battlefield in front of them. The traces of an extremely fierce battle could be seen everywhere. However, this was not the scene of a battle between human cultivators. Human cultivators would never come here to fight. This shocking battle belonged to two extremely powerful Super Beast clans.

As far as Lin Yi could see, there were broken rocks and dead coral everywhere. What was more eye-catching were the bones of the sea beasts. This was a huge sea beast tomb!

After a moment of shock, Lin Yi quickly found the source of the obsession-it came from an extremely large corpse. Judging from the surroundings, the battle should have been over for a long time, but the corpse in front of him didn't decay at all. If even an obsession could exist independently, it wasn't surprising that the corpse didn't decay.

Looking at the giant, almost spectacular body, Lin Yi couldn't help but feel a sense of respect. Whether it was a human or a beast, it was the natural instinct of all living things to respect a top existence.

Lin Yi didn't know what kind of beast it was-its body was like a mountain, and it looked like a giant electric eel at first glance, but it didn't really look like one after a closer look. Whether it was the exposed fangs or the dense, blade-like scales, all of them were a constant declaration of how terrifying and brutal it was when it was alive.

This corpse was definitely a rare treasure in the world!

That was Lin Yi's first reaction. Every part of a spirit beast's body was a treasure. The stronger the spirit beast, the more valuable every part of its body was. It was the same for sea beasts. The body of an original infant stage spirit beast could be sold for a shockingly high price, and this giant electric eel-like sea beast was at least at the split sea stage, or even stronger. What price would it be worth if it was sold?

Lin Yi didn't have much desire for spiritual jades now, but the thought of that fanatical scene made his heart skip a beat. Even if he didn't auction it off, the body would be of great use to him. He might not need it now, but it would be of great use in the future.

At that thought, Lin Yi couldn't hold it in anymore. He moved forward and prepared to put the body into the Jade space. The body was huge, but Lin Yi wanted to take as much as he could. If he couldn't fit it, he'd just dismember it on the spot. He couldn't just leave empty-handed with a pile of treasures in front of him. That would be a waste.

However, Lin Yi suddenly frowned. He realized that no matter how hard he tried to control the body, it wouldn't move at all. He couldn't put it into the Jade space.

"Save it, you brat." The ghastly thing finally couldn't stand it anymore. He laughed and said, "Although this fellow has been dead for who knows how many years, it still has its lingering will. You can't take it in unless you can crush its will."

"Ugh ..." Lin Yi felt like a bucket of cold water was poured over his head. He just realized that if there was still an obsession left in the person's body, it meant that it was a living thing. It had to either submit to him wholeheartedly or destroy the obsession as the ghost said. Otherwise, it wouldn't be possible to put it in the Jade space.

But the problem was that the other party was at least a super existence in the sea shattering realm. Lin Yi didn't even have the right to worship him. Even if it was just a remnant of the other party's will, he could easily make him spit blood from the backlash. With Lin Yi's current strength, it was a fool's dream to destroy this will!

It was depressing to see such a huge treasure, but he couldn't do anything about it because he wasn't strong enough. Lin Yi shook his head helplessly and reached his hand to the corpse. Even if he couldn't put the whole thing into the Jade space, he had to at least get something out of it. After all, even a scale from the corpse was a rare treasure.

However, the moment his hand touched the scale, Lin Yi's entire body shivered and froze. Nothing seemed out of the ordinary on the surface, but his brain felt like it was going to explode. He felt countless jumble of information being stuffed into his brain, and images flashed by, making him dizzy.

Lin Yi's head was splitting apart, and he quickly tried to pull his hand back, only to find that the body seemed to have a magical power that sucked his hand in.

Lin Yi couldn't move at all, and the scenes that entered his mind were becoming clearer and clearer, turning into complete memory fragments. It was like a real world, and people couldn't help but be immersed in it.

In the unfathomably deep ocean, the Super sea beast that looked like a giant electric eel was silently lurking in the sand of the deep trench. A few miles in front of it was a fresh body of a sea beast. It

seemed to be a powerful existence at the level of the Overlord of the sea, but its stomach had been cut open. The wound was charred black, and its internal organs and blood kept flowing out, attracting all the sea beasts from all directions.

This was a rare feast at the bottom of the sea. The sea beasts that had been attracted here were all fierce and ferocious, but they did not have any intention of attacking each other. Instead, they impatiently pounced on the huge corpse of the sea beast. They did not need to fight, as the corpse was enough for them to have a full meal. Of course, if it was not enough, a bloody fight would be inevitable.

However, this feast did not last for long. When the corpse of the sea beast was surrounded by more than a hundred ferocious sea beasts, a deep purple arc of lightning as thick as a water tank suddenly flashed. In the next moment, the hundreds of sea beasts that were feasting on the corpse were instantly electrocuted. Without any room to struggle or resist, each and every one of them was charred black, just like the sea beast corpse that they were eating.

Chapter 4590 Killing Intent Of The Five Elements?

This was indeed a feast at the bottom of the sea. However, the host of the feast was not the hundreds of fierce sea beasts that had gathered here. They were just food on the table, nothing more.

Lin Yi was speechless as he watched the scene in his consciousness. He watched as the Super Beast that looked like a giant electric eel came out and devoured all the sea beasts that were electrocuted. It had the terrifying aura of a beast that could devour the world, and even Lin Yi couldn't help but want to kneel down and submit.

After eating everything, the giant electric eel only left the bloody and tempting body of the sea beast, and then it turned around and lurked back into the sand of the deep trench, waiting for the prey to bite again.

Lin Yi was deep in thought. The demonic thing once said that although the sea beasts and the spirit beasts were both beasts, they weren't of the same system. To some extent, the spirit beasts weren't very different from human practitioners, and they focused on training in their long lives.

However, sea beasts were different. Even the most powerful sea beast would still maintain a high level of animalism, so they rarely took the initiative to cultivate. For them, eating blood and flesh was the best way to cultivate. The higher the level of existence they ate, the faster their strength would increase. This was a pure law of nature, and the four words "the weak are prey to the strong" were vividly reflected in them.

However, there was something else that interested Lin Yi more than the way the sea beasts lived-that dark purple arc!

Lin Yi had been observing the whole time. The smell of blood had attracted hundreds of sea beasts, and any one of them was at least at the xuansheng stage. There were many sea beasts at the mountain split stage, and even sea split stage, and there was more than one of them. But this one arc of lightning had electrocuted all the sea beasts. How terrifying was this power?!

In that instant, Lin Yi experienced what it meant to have his hair stand on end, but he didn't know why, but there was a strange impulse in his heart. He kept recalling the scene of the dark purple lightning arc, and that feeling became stronger and stronger. Lin Yi subconsciously wanted to imitate it.

It was a pity that the scene was too fast and too short, and he couldn't see it clearly even if he kept replaying it in his mind. Lin Yi wanted to imitate it, but he couldn't grasp the essence.

The memory fragments that were reflected in his mind were still continuing. The giant electric eel was still lurking in the sand of the deep trench, but this time, it did not attract the bloodthirsty sea beasts. In fact, the previous time, all the powerful sea beasts within a hundred miles had been eaten clean. It

would take a few months to catch the next wave of sea beasts. However, this time, only a few hours later, it attracted an uninvited guest.

The five-poison flood Dragon! Lin Yi's pupils shrank as he looked at the being in the memory fragment. This time, it was a five-colored Dragon that took the bait. It looked the same as the strongest five elements killing aura he had seen before, but it felt more real, bigger, and more aggressive.

He'd never seen a real five poison Dragon, but Lin Yi believed it without a doubt. This was a five poison Dragon!

After slowly swimming to the side of the sea beast's corpse, the five poison serpent Dragon circled around it once. It did not impatiently open its mouth to swallow it like the other sea beasts. After all, it was an authentic super spirit beast. Although eating blood and flesh was also effective for it, it was far less attractive than the sea beasts.

Not to mention, a few hours ago, hundreds of powerful sea beasts had just died here. The surrounding water was still filled with a strong killing intent. Even Lin Yi could easily detect it, let alone the five poison Dragon.

The giant electric eel seemed to be very patient. No matter how much the five poison Dragon swam, it just stayed hidden in the sand. Its body was huge, but it was perfectly integrated with the surrounding environment. Even its aura was the same as the surroundings. Even if Lin Yi knew that it was hiding here, he couldn't find it after a moment of distraction.

Only the unique perspective in the memory fragments told Lin Yi that this super sea beast, which looked like a giant electric eel, hadn't really been quiet. It had been watching the five poison Wyvern's every move from the beginning to the end, and it seemed to be ready to strike at any time and kill it, then eat it.

An undetectable electric current spread all over the surrounding Sea area, covering a range of thousands of miles. However, because it was too weak, no creature in the sea could detect anything strange. This was a unique perception method belonging to the giant electric eel. It had no eyes, nor did it use spiritual awareness, but these tiny electric currents were far more effective than spiritual awareness, clearer and traceless.

Like other creatures in the sea, the five-poison Dragon did not seem to sense the existence of the giant electric eel at all. After swimming two circles around the corpse of the sea beast, it was finally ready to eat it. At this time, the dark purple electric arc that had appeared before suddenly descended again.

Lin Yi's heart tightened. He watched as the five poison Dragon was about to follow in the footsteps of the hundreds of powerful sea beasts, but the Dragon that was struck by the dark purple lightning suddenly turned into a shadow condensed from pure Qi and quickly dissipated!

At this moment, the real five poisons Dragon appeared on top of the giant electric eel's head. With an earth-shaking dragon roar, it waved its front claws, and a five-colored genuine Qi instantly penetrated the giant electric eel's body!

Lin Yi's eyes twitched. He'd been training in the underground space for so long, and he was extremely familiar with the five elements killing Qi. The five-colored Qi the five poison Dragon was releasing was obviously an enhanced version of the killing Qi.

If one had to point out the difference between the two, it would be that they didn't have the natural spiritualism, but were more easily controlled.

The first time he saw the killing intent, the ghost said that as long as he was strong enough, he could use all five elements to release killing intent. At that time, Lin Yi was still dreaming about not being able to do it himself, but he didn't expect to be able to do it after training, because with his current strength, it was impossible to release the killing intent.

Lin Yi didn't think that after leaving the underground space, this dream would come true. It didn't happen to him, but to the five poison Dragon!
