

Bodyguard 4591

Chapter 4591 Comprehended Killing Intent!

As he was sighing, the memory fragments in Lin Yi's mind suddenly became intense. The five elements killing intent of the five poison Dragon didn't kill the eel in one blow. Instead, it completely stimulated the giant electric eel's ferocity. When a super sea beast that could even swallow a sea rupture stage creature opened its mouth and went crazy, it was like the end of the world.

The surging battle intent and the sharp killing intent seemed to be the only two things left in the world, covering the sky and the earth.

Out of self-protection instinct, Lin Yi subconsciously wanted to escape from this dangerous battle site. Even if he only saw this scene from the memory fragments in his mind, the terrifying pressure was so real that he couldn't breathe.

However, just like before, Lin Yi had already fallen into the memory fragments and couldn't pull himself out. He couldn't control his own will at all. The destructive battle between the five poison Dragon and the giant electric eel was uncontrollably deeply imprinted in his mind. No matter how he closed his eyes, everything was clear.

In an instant, Lin Yi's entire body started shaking like a sieve. He was on the verge of collapse, and just as the ghost was about to interrupt him, Lin Yi suddenly stopped and entered a strange state.

"Tsk, tsk, is this kid really blessed, or is his innate talent that unique? Why do I always encounter such good things that others can't even dream of?" The ghostly thing couldn't help but click its tongue in wonder.

Lin Yi had once again entered a mysterious state of enlightenment, but it was different from the last time when he unconsciously awakened his consciousness. He'd only know what he'd come up with after he woke up. The only thing he had to do now was to keep a lookout for him. This opportunity was hard to come by, and he couldn't let it be interrupted by external forces.

In Lin Yi's sea of consciousness, the five-poison Dragon and the giant electric eel were fighting fiercely. The powerful five elements killing intent and dark purple lightning kept colliding between the sky and the earth. Every time they collided, the sky changed color. For the surrounding sea, it was like the end of the world.

Lin Yi, on the other hand, once again felt the same instinctive urge he had when he first saw the dark purple arc. This time, however, he wasn't trying to imitate the dark purple arc, but the five elements killing intent released by the five poison Dragon!

After all, Lin Yi had a deep understanding of the five elements killing intent, and now that he saw the five poison Dragon activating it again and again, it was like he had a cheap master. If he didn't learn it now, he would be an idiot.

Whether it was the five-poison Dragon or the giant electric eel, they were both super fierce beasts that should not have existed in this world, and their strength seemed to be equal. This unexpected battle of the world did not determine the winner in a few short exchanges, but accidentally fell into a battle of attrition. The more the two sides fought, the angrier they became. In the end, they had used all their cards and entered a state of life and death.

This gave Lin Yi an advantage as a bystander. If the five poison Dragon's moves were like the dark purple arc of the giant electric eel, ending the battle in a flash, he wouldn't even be able to see how it was used, let alone learn it.

But now, the five poison Dragon had activated the five elements killing intent no less than a hundred times, and the whole process was clearly seen by Lin Yi, who was just watching from the side. On top of that, he had a deep understanding of the five elements killing intent, so learning it was twice the result with half the effort.

Especially since Lin Yi was in the middle of a rare moment of enlightenment-both his insight and his training abilities were extraordinary. He didn't even have to think about things he didn't dare to imagine before, and he'd already started doing them instinctively.

He learned it bit by bit, and every time the five-element Dragon activated the killing intent, Lin Yi tried to imitate it. He was confused at first, but after hundreds of times, Lin Yi's movements started to look more and more like it.

Although the killing Qi of the five elements that was produced by the five poison serpent Dragon and the one that was naturally formed before belonged to the same kind in essence, they were completely different when they were deconstructed. The former was a powerful martial skill that cultivators could control, while the latter was a powerful force that belonged to the world and could not be profaned, let alone imitated.

After who knows how long, a weak Qi suddenly seeped out of Lin Yi's palm. The power was completely unsightly, and any Foundation Stage master could easily blow it up, but after sensing the Qi, even the ghost couldn't help but be surprised-it was the killing Qi of the five elements!

Although it was very weak, it was indeed a five-colored genuine Qi. The five elements of metal, wood, water, fire, and earth were all present. There was no doubt that this was a genuine killing Qi of the five elements.

"He actually managed to master it? This kid is a freak!" The damn thing was stunned for a long while before crying out in shock. He did say that as long as one was strong enough, he could use the killing intent of the five elements, but that was at least after the mountain opening stage! Lin Yi was only at the peak of the early nascent Soul Stage!

In the eyes of this demonic thing, the killing intent of the five elements was a terrifying martial technique that could kill in all directions, even in the mountain opening stage or higher. But now it was mastered by a little kid at the peak of the early Yuanying stage. What kind of scene was that?

The moment Lin Yi used the five elements killing intent, it wasn't as simple as fighting someone of a higher level. It was like a three-year-old kid suddenly pulling out a gun-not a toy gun, but a real gun that could kill!

He'd seen a lot of things, and he shuddered at the thought of it. He'd always thought that Lin Yi was a monster mixed in with humans, but now that he thought about it, it wasn't just humans. The kid was a monster in all the creatures in the world, even stronger than his former Azure Dragon.

Lin Yi didn't show any signs of joy on his face after successfully activating the five elements killing intent for the first time. He was still immersed in that state, practicing over and over again.

The killing intent of the five elements grew stronger and stronger in his hands, getting stronger with each practice. It started as a foundation level, slowly becoming a golden core level, and then a nascent soul level. Finally, he could use it as if it was his own arm, and it became a new martial art that belonged to Lin Yi!

Chapter 4592 It's A Pity

Lin Yi didn't stop there after learning the five elements killing intent. After learning it from the five poison Dragon, he turned his eyes to the giant electric eel and started to study the dark purple electric arc that kept flashing.

Since it could withstand the five elements killing intent for so long without falling behind, Lin Yi believed that if he could learn it for his own use, it would be a heaven-defying skill that was no weaker than the five elements killing intent. It would be a powerful trump card that he could use in the future.

But this time, no matter how much Lin Yi tried, he couldn't figure out the key. The dark purple arc was obviously a lightning element move, but Lin Yi didn't have a lightning element himself, so he couldn't use it the way it was. He could only try to understand the essence and simulate it with a fire element skill.

It wasn't a wrong idea-there were all kinds of martial arts in the world, and it wasn't like Lin Yi hadn't done something like this before, but this time was different. This dark purple arc was a top-tier martial art once mastered, and it wasn't easy to understand the secrets of it!

Not to mention that he had just been able to successfully understand the killing intent of the five elements. It was not only because he had the talent of all five elements, but also because he had been dealing with the killing intent of the five elements for more than half a year, so he had a deep understanding of it. That was why he was able to reach the next level so quickly. However, when it came to the dark purple electric arc of the giant electric eel, he had never even seen it before, so how could he have any understanding of it?

It wasn't that Lin Yi didn't understand this, but this opportunity was too rare, and he didn't want to give it up so easily. The more skills he had, the better. He might never see another super sea beast like the giant electric eel again in his life.

Even if he didn't have a clue, Lin Yi kept on practicing. If one hundred times didn't work, he'd do it two hundred times. If two hundred times didn't work, he'd do it five hundred times. As long as he kept on, he believed that he'd be able to see results.

Lin Yi's willpower was undeniable-no matter how clueless he was, he would still be able to persevere. However, after he tried it six or seven hundred times, the memory fragment in his mind suddenly shattered, and his consciousness seemed to be torn apart. The pain was unbearable, and he spat out a large mouthful of blood.

Lin Yi's face was pale, and it took him a long time to come back to his senses. Things had already reached this point, and he couldn't continue anymore. The memory fragments were broken, and no matter how strong his willpower was, it was useless. He could only accept his fate and accept the reality. After trying so hard for so long, he still couldn't learn a complete martial art from the giant electric eel. This result really made Lin Yi feel disheartened.

But Lin Yi didn't really give up. After all, he had already learned the five elements killing Qi, and with this skill as a Foundation, this was already a big harvest for him. It was a big regret that he couldn't learn the electric eel's Lightning Skill, but if he went too far, fate would end soon. Lin Yi wasn't an insatiable person.

Not to mention that just one of the five elements killing intent had increased Lin Yi's combat strength by several times. He was the strongest Yuanying stage master who had broken through perfectly, and he was already confident of taking on a peak Yuanying stage master with his peak early Yuanying stage cultivation. Now that he had mastered the five elements killing intent, even if he were to face a xuansheng stage master, he might have the ability to fight!

He was only at the peak of the original level, and he could fight against a xuansheng master. If he still wasn't satisfied with this, then Lin Yi would really be despised by the world. How could the others live?

"Al, what a pity." Lin Yi shook his head slightly-it wasn't because he couldn't learn the skill, but because the memory that entered his mind had suddenly broken into incomplete pieces, and it was impossible to get anything valuable from it.

But through these bits and pieces of memory fragments, Lin Yi could see some of the follow-up. The battle between the five poison Dragon and the giant electric eel didn't determine who was stronger. After a long time, both sides ended up with heavy losses.

Because the battle was so loud, it had attracted the attention of many super existences. Although they were afraid of the pressure of the five poison Dragon and the giant electric eel, they did not dare to get close. However, once they had the opportunity to take advantage of the situation, no matter who won the battle, it would be a dead end.

The five-poison Dragon was not stupid, and the giant electric eel was not stupid either. When they both realized that something was wrong, the two super fierce beasts chose to stop fighting at the same time. In this way, even though they were seriously injured, because neither side had died, the guys who were watching from a distance could not figure out their background, so no one dared to act rashly.

They would fight again after a thousand years!

This was the message left by the five poison Dragon before it left. The giant electric eel's response was a pillar of lightning that soared to the sky. It agreed to the battle in the most domineering and arrogant way, and at the same time, it completely scared off those who were eyeing it covetously.

After making sure that the five-poison Dragon had completely disappeared from this Sea area, the giant electric eel slowly dragged its broken body back to its original hiding place to recuperate. However, the injuries on its body were too serious. After trying to hold on for a long time, maybe a few years, maybe a few decades or even a hundred years, it finally failed to recover its vitality. Its huge vitality disappeared from its body little by little, and finally became the corpse in front of him.

As for the five poisons Dragon, it had never appeared again after that. Perhaps it was also dead. After all, its injuries were not much lighter than the giant electric eel's. Of course, it might still be alive, but it was hiding somewhere and licking its wounds silently, waiting for a comeback.

Lin Yi didn't see what happened to the five poison Dragon in the memory fragments, but he guessed that it was probably dead, just like the giant electric eel. It wasn't just because it was badly injured, but also because it didn't return to the mysterious space under the five poison swamp.

According to the Dragon of five evils, that place had always been the territory of the five poison flood Dragon. The killing intent of the five elements was fatal to other spirit beasts, but it was a great supplement to the five poison flood Dragon. If the five poison flood Dragon was trying to heal its wounds, it would definitely return to this mysterious space as soon as possible. However, in fact, it did not do so, which meant that there must have been an accident in the process, and the possibility of death was very high.

Apart from that, it was not difficult to deduce that this five poisons flood Dragon was the previous five poisons flood Dragon that the Dragon of five evils had mentioned, and not its master!

Chapter 4593 Half A Master

After all, its master had never come out of this exit, so it was unlikely that he would suddenly appear in the sea. Moreover, their strengths did not match. This five poisons Dragon and the giant electric eel should be above the sea-shattering stage, but the master of the Dragon of five evils was only at the sea-shattering stage, which was more than a level lower.

The thought of the five-poison Dragon and the giant electric eel-these two powerful and terrifying existences-now that one was dead, it was very likely that the other was dead as well. Lin Yi couldn't help but sigh.

If the two of them were still alive, especially the five poisons Dragon, the situation in the South continent would probably be very different. At least, the Vermilion Bird would not be able to act as unscrupulously as it was now. The tragedy that had happened to the Dragon of five evils 'master would not happen to it. After all, this fellow's strength was so fierce that it was beyond comprehension. Even the Vermilion bird's means might not be able to do anything to it.

As Lin Yi sighed, the memory fragments in his mind fell apart even more. In the end, they turned into dust and disappeared completely, as if they had never existed.

The surrounding sea suddenly returned to peace, and it was an unprecedented peace. There was no trace of the mountain-like pressure that Lin Yi had felt before. Lin Yi suddenly froze-the giant electric eel's obsession had disappeared!

"Could it be that the memory fragment was its obsession? when the memory fragment was shattered, its obsession disappeared as well?" Lin Yi was stunned for a long time as he thought back to the situation. He finally understood,"Does this count as me accepting its inheritance?"

"Of course it counts. Although it didn't directly give you strength, the memory itself is the most precious inheritance. Not to mention that you've also comprehended a martial skill like the five elements killing intent. I have to say, you're really lucky, even I'm a little envious." The ghostly thing said in a half-joking manner.

"I see." Lin Yi took a deep breath and nodded,"It seems that I really have to thank this senior sea beast. It and the five poison flood Dragon can be considered half my master. However, I don't even know what race it is, so I can't even offer a sacrifice to it in the future. What a pity ..."

"There's nothing to feel pity about. You were able to comprehend the killing intent of the five elements from its remaining obsession. This is your own ability and fortune. It should be thanking you in return. " The ghastly thing said disapprovingly.

"Ha? Why do you say that?" Lin Yi couldn't help but ask.

"If you didn't interfere, its obsession would have continued to exist and it would be trapped in it forever. I don't need to explain how miserable it was. But now, its obsession has disappeared. Don't you think it should thank you?" The demonic thing laughed.

"Alright, so there's such a thing." Lin Yi smiled, but he still bowed deeply to the giant electric eel's body. No matter what, he was the one who benefited from it, and he was grateful to this super sea beast. He didn't dare to forget this legacy.

"It's a pity that this guy's primordial spirit is dead and has fallen to this last bit of obsession. There's nothing substantial that can be passed down to you. I can only let you understand it through memory fragments. Otherwise, you would have gained even more this time. That's a real great opportunity and fortune!" The damn thing felt sorry for Lin Yi, missing out on a once-in-a-lifetime opportunity like this.

Just a fragment of memory was enough for Lin Yi to comprehend the killing intent of the five elements. What would it be like if he received the complete inheritance like the Dragon of five evils?

"Hehe, that's impossible. If this sea beast senior really does have a complete soul, why would he pass it on to me for no reason? "I'm not a sea beast, after all, and I'm not its disciple. Maybe its first reaction will be to take over my body ..."Lin Yi laughed instead, not feeling any regret at all. There were no "ifs" in this world, and he didn't have the habit of indulging in wild fantasies.

"That's true. " The demonic thing smiled. It understood after thinking about it. Even if it did not want to take over a body and be reborn, it would not seek its own death by passing everything to a human it did not know. It was better to live than to die. It was better to struggle on with its life on the line in the state of a broken primordial spirit than to die.

As Lin Yi was talking to the ghost, the giant body in front of him suddenly collapsed for some reason. The giant body that was as huge as a Hill fell apart in a short time, turning into a pile of powder that drifted away with the current.

It all happened without any warning, and Lin Yi looked at the empty space in front of him, dumbfounded.

"What ... What kind of situation is this?" Lin Yi asked, almost biting his tongue off.

"As you can see, the corpse has collapsed." The ghastly thing was not surprised by this.

"Uh, isn't that a little too fast? It was clearly fine before, why did it suddenly collapse?" Lin Yi couldn't help but be shocked. He'd tried to break the scales before, but it was interrupted by the sudden influx of memories, but this body was extremely strong. There was no doubt about that.

"Before this, its obsession was still there, so it could keep the body in its original state. But now that it has lost the protection of its obsession, the body is like an unearthed cultural relic suddenly seeing the light of day again. Isn't this a common situation in your world? Even if it's not a thousand years old, it's definitely at least a few hundred years old. If it wasn't for the obsession, there wouldn't have been any remains left. The seawater's corrosiveness is much stronger than the surface. " The ghastly thing explained.

"Alright, so that's what happened. I thought I accidentally touched some taboo!" Lin Yi let out a sigh of relief, feeling a little scared. He wanted to get some treasures from this body, and with the giant electric eel's power, he believed that it would be a unique treasure, but now he didn't have the chance.

"Hehe, don't think about those things anymore. I advise you to hurry up. If you stay here any longer, I'm afraid we'll have to go and accompany this guy." The ghastly thing suddenly reminded him with a strange smile.

Lin Yi's heart tightened, realizing that he shouldn't stay here for too long. The eel's aura had kept the other sea beasts away, but now that it was gone, it was the same as taking away the protection. This place was going to become a dangerous place.

Chapter 4594 The Heavenly Spirit Bird

With that thought, Lin Yi didn't dare to delay and quickly ordered the spiritual bird to leave the bottom of the sea as fast as possible. His combat strength might have increased, but if he were to be entangled by sea beasts in this place, the possibility of him escaping alive was almost zero.

The spirit Bird was extremely fast. Even in the vast ocean, Lin Yi's pure Qi kept the water out. Its speed couldn't be underestimated. No matter what, it was still an original leveled spirit beast. It couldn't be helpless in the ocean.

Lin Yi didn't want to be entangled by the sea beasts, but the bird was even more afraid. The speed it was displaying at this moment was so fast that even Lin Yi was a little dumbfounded. He always thought that the spirit Bird had nothing to say other than speed, but now it seemed like he was right. Speed was indeed this guy's specialty, and even the endless sea couldn't stop it.

Lin Yi was speechless. With the speed the bird was displaying, even a lot of native sea beasts wouldn't be able to catch up to it. He even suspected that this guy was actually a water bird, just that it hadn't been discovered before.

As he was thinking, the bird had already taken Lin Yi to the sky, piercing through the sea like an arrow.

The whole process was extremely smooth, and he didn't catch the attention of a single sea beast.

It'd been half a year, and this was the first time he'd seen the light of day in the truest sense of the word. The pent-up feelings he'd been suppressing for so long were finally released, and Lin Yi felt his entire body become much lighter. Combined with this scene, he felt like he was a Free bird in the sky!

"It's indeed dangerous!" Lin Yi looked down and saw a few huge shadows swimming around the area where he came up from. He couldn't tell what kind of sea beasts they were, but from their size, they shouldn't be easy to deal with. Lin Yi couldn't help but secretly rejoice that he ran fast enough, or he would've been in trouble.

After calming himself down, Lin Yi ordered the spiritual bird to fly towards the North Island. He was chased by the West Mountain old sect this time, and it had been a long time since the deadline for the mission. He didn't know if anything happened on the North Island.

Lin Yi's heart was set on going home. He wasn't a native of Beidao, but on Sky Class Island, Beidao was his second home. All the people and things he knew were here, and the place in his heart was incomparable to other places.

The spirit Bird let out an excited cry and flew towards the North. It was even more excited than Lin Yi-it wasn't that it was attached to the island, but it was the first time it could try its maximum speed ever since it reached the nascent Soul Stage!

The spirit Bird race had an instinctive pursuit for speed. If they were not allowed to constantly try the extreme speed that they were so proud of, they would really go crazy. The spirit Bird that Huang Xiao Tao had left behind had been holding back for more than three months. If it was not allowed to soar to its heart's content, it might really go crazy ...

"Eh? This spiritual bird is quite interesting!" The ghastly being suddenly said with great interest.

"What's wrong?" Lin Yi couldn't help but wonder. He was more or less shocked by the spiritual bird's speed. He thought that this spiritual bird's talent was average, and even after its strength increased, its speed would only increase by a few times at most. But now it seemed that it was more than a few times, it was dozens of times!

"Don't you know that spirit birds are publicly acknowledged as the most useless race among all spirit beasts?" The ghastly thing asked instead of answering.

"Ha? It can't be that bad, right?" Lin Yi didn't think much of it-the spirit Bird couldn't be compared to many of the other powerful spirit beasts he'd seen, but it was a bit of an exaggeration to say that it was the weakest. There were so many different spirit beasts in the world, and there had to be one that was weaker than the spirit Bird.

"I didn't say that. It's a well-known fact among the spirit beasts." The ghastly thing laughed and immediately added, ""In my opinion, even if the spiritual bird clan is not the weakest, they are definitely one of the weakest. There is no doubt about that."

"Why?" Lin Yi still couldn't understand.

"The reason is very simple. Every spirit beast race has their own unique racial talents, and there are strong and weak ones. However, one thing is certain. All spirit beasts have racial talents, except for one race, which is the spirit Bird race." The ghostly thing explained.

"Ha?" Lin Yi froze-this was the first time he'd heard of something like this, but it did seem to be true.

All the spirit beasts he had seen before had their own unique talents. Even the lightning pig, who had zero combat power, had a unique talent for treasure hunting. However, he had never seen this Spirit Bird before. Although it was not a low level Spirit Bird, it gave him the feeling that it was not much different from any other ordinary bird.

"If it weren't for the fact that they can also rely on the spiritual energy of heaven and earth to cultivate, they wouldn't even be classified as a spirit beast clan. A spirit beast clan that doesn't even have any racial talents, don't you think it's the weakest?" The ghostly thing paused and then said, ""Spiritual birds don't have any racial talents. If you have to find one specialty, the only thing that barely meets this standard is that their speed is not bad. But that's only not bad. There are more than one or two races in the world that are faster than them."

"Alright, that sounds really sad." Lin Yi looked at the bird, speechless. This guy wasn't just average-he had no talent at all!

If it was any other original infant stage spirit beast, it would be a powerful force that could not be ignored. But now it was a Spirit Bird, so what if it was at the original infant stage? If he really forced it to fight, it'd be an enlarged version of a domestic fowl-just thinking about it made Lin Yi want to cry ...

"Don't be so disappointed yet. Although the spiritual birds have no talent, it doesn't mean that they have no chance of turning things around. As far as I know, they are the only spiritual beast race that can cultivate their speed to the extreme. Although it's only a special case, it at least shows that they have potential." The ghastly thing said.

"Train his speed to the maximum? Didn't you just say that there are more than one or two races that are faster than them?" Lin Yi asked, confused.

"On average, the speed of the spiritual birds can only be considered above average. However, there was a special case of the fastest among them, known as the heavenly spiritual bird!" When the ghastly thing said this, his tone became a little enthusiastic, which was rare. "There's a saying in the secular world that 'nothing is indestructible, only speed is indestructible. When one's speed reaches the extreme, even if all other abilities are zero, one can still be unrivaled in the world. The heavenly Spirit Bird was a one in a million special case. When faced with such an existence, even the top elders were helpless."

Chapter 4595 Hoodlum Leader

"Then senior, you mean this guy is also a Divine Spirit Bird?" Lin Yi heard this and got excited-the more strength the bird had, the more help he'd get. If it really was a speed-type Holy Spirit Bird, it'd be of great use in the future.

"It's hard to say. There has only been one heavenly Spirit Bird in the spiritual bird clan for thousands of years. As for whether this guy has the chance to become the next heavenly Spirit Bird, I can't tell." The ghastly thing pouted.

"Ugh ... Then why are you saying so much ..." Lin Yi was speechless. He was happy for nothing.

"I'm telling you this only because I suddenly realized that this bird's speed seems to be much faster than other spiritual birds. It might have some special characteristics in this aspect. Don't think too much about it. " The ghostly thing laughed.

"Faster than other spiritual birds? How much faster?" Lin Yi said, interested.

"Compared to other original infant stage spiritual birds of the same level, its speed is at least three times faster. I'm not too sure about the details, maybe it's just because it soaked in the star Ink milk with you." The ghostly thing said after thinking for a while.

"Three times? That's already quite an exaggeration. Now that you've mentioned it, senior, I feel that this guy might really be a heavenly Spirit Bird seedling!" Lin Yi's eyes lit up.

The star Ink milk's effect on spirit beasts was not as impressive as that of human cultivators. If it was only because of the star Ink milk, it would be at most twice as fast as other original infant stage spirit birds. It was impossible to be three times faster!

"Hehe, don't be too wishful on your part, kid. Whether or not it's a Holy Spirit Bird depends on its situation in the future. If its level is higher and it has a greater advantage in speed, then there's a slight chance of it becoming a Holy Spirit Bird. Otherwise, it's all nonsense." The ghost said nonchalantly. Although he was the one who started the conversation, he really didn't think that this guy could become a Holy Spirit Bird. After all, the possibility was too slim. It was even harder to get it than winning the ten million lottery in the secular world.

"Even if there's only a one in a million chance, it's still a chance. It's better than nothing at all." Lin Yi chuckled.

Since he had nothing to do, he didn't have the mood to meditate and cultivate for the time being. He sat on the back of the spiritual bird and continued to chat with the ghost, taking it as an eye-opening experience.

After an hour, Lin Yi was far away from the South Island and the South continent's Sea area. After all, the spirit bird's speed was much faster than before. The South continent's Sea area was big, but it was nothing compared to the spirit bird's speed.

Lin Yi was just thinking about when he could return to the North Island when he felt a sudden panic. The Jade rang at the same time as a huge shadow covered his head, and a killing intent hit him in the face.

Lin Yi was shocked. Could it be the old sect of West Mountain? He didn't go through the exit of the five poisons swamp, so it was impossible for the old sect of West Mountain to detect him. If he was still caught even in this way, how could he let him live?

After looking up, Lin Yi finally relaxed. Luckily, it wasn't the old sect of West Mountain.

Lin Yi did relax, but the bird was panicking. The shadow came from a giant bird ten feet above them, and it was a familiar bird-the ghost-eyed Golden Eagle.

Judging from its aura, this ghost-eyed Golden Eagle should be at the mid-nascent Soul Stage. At this moment, it was staring at him with a pair of sinister ghost eyes, as if it could pounce at him at any moment.

Lin Yi looked up at the Eagle, and then back at his bird. He couldn't help but sigh. He didn't think much of the bird when it said it was the weakest of all beasts, but now that there was a comparison, it was clear who was stronger.

The ghost-eyed golden Condor had won in terms of appearance and aura. As for strength, there was no need to mention it. His spiritual bird's trembling appearance was enough to show everything. Even its speed was easily caught up by the ghost-eyed golden Condor. It had been completely defeated in all aspects ...

Just as the ghost had said, the speed of a spiritual bird was only above average. Even if Huang Xiao Tao's bird was much faster than other spiritual birds, it could only be considered above average. On the other hand, the ghost-eyed golden Condor's speed was second to none. Moreover, its strength was higher than the ghost-eyed golden Condor's, so it was not a problem for it to catch up with the spiritual bird's maximum speed.

"There's still a long way to go. If you can become a heavenly Spirit Bird, it'll be easy to play with it to death." Lin Yi smiled as he consoled her. He knew that she wasn't up to no good, but he was still very relaxed. With strength came confidence-there was nothing to worry about.

"Heavenly Spirit Bird? What the hell was that? Do your family know that you're talking big and you want to toy with my ghost-eyed Golden Eagle to death?" A rough voice suddenly came from the back of the ghost-eyed Golden Eagle.

"It was just a joke. I'm sorry to have made you laugh." Lin Yi nodded.

He had already noticed that there was someone on the back of the ghost-eyed Golden Eagle. However, as long as it wasn't a founding sect giant like West Mountain sect, there was nothing to be afraid of. It

would be best if they lived in peace. However, if the other party really dared to make a move, he could test the power of the five elements killing Qi.

"A joke? But from your tone, why do I feel like it's true?" As the man spoke, the ghost-eyed Golden Eagle suddenly lowered its altitude. Its sharp claws brought with them a terrifying astral wind that threatened to tear people apart. If the spiritual bird had not dodged in time, it would have suffered a great loss!

They put some distance between them and Lin Yi looked at the middle-aged man coldly. He was a typical burly man, and he had a strong aura around him that made people's hearts palpitate. What surprised Lin Yi was that he was wearing sunglasses ...

For a moment, Lin Yi thought that he'd returned to the common world, but he quickly realized that with the central Chamber of Commerce all over Sky Class Island, the common world's products were all over the place. Even computers and other high-tech products were popular, let alone a small pair of sunglasses.

Lin Yi had to admit that the guy in front of him really knew how to style himself. The bushy-bearded man already made people afraid to get close to him, and now that he was wearing a pair of sunglasses, it made him look even more menacing and intimidating ... But that was to others. To Lin Yi, this guy was no different from Li Cihua in the secular world, a pure gangster leader.

"Regardless of whether it's true or not, it seems that you've made up your mind to find trouble with me, right?" Lin Yi's lips curled up imperceptibly as he spoke.

Chapter 4596 It Was Actually Xuan Sheng!

"Oh? You have good eyes, you know I'm going to Rob you. Then why are you still so long-winded? hurry up and take out all the good things!" The bearded man immediately laughed and added, ""Don't try to play tricks on me. Those who ventured out of the South continent must have something good in their

hands. If you hand it over consciously, I can spare your life. If you try to play tricks on me, I can only let you be fed to the sea beasts. You don't look like a fool. I hope you're a smart person. "

"I believe that I'm a smart person, but it's hard to say if you're robbing me or not. Hehe, this is really nothing in the South continent sea. But do you know what happened to those guys who tried to Rob me last time?" Lin Yi was still sitting on the spirit bird's back, calm and unruffled. He smiled playfully.

"What kind of outcome?" The bearded man wasn't in a hurry to make a move-he put on a cat-and-mouse expression as he looked at Lin Yi from the corner of his eyes, calculating how much he'd be able to get from this.

"Three of them were thrown into the sea to feed the sea beasts, and one is locked up. I don't know if he's Dead or Alive, but I don't think you're so lucky. This place is surrounded by the sea, so it's better to feed him to the sea beasts. This is a rare and perfect home. What do you think?" Lin Yi said seriously.

"Tsk, tsk, you're really arrogant. You want to throw me into the sea to feed the sea beasts? Hahahaha!" The bearded man suddenly couldn't help but laugh out loud, as if he had heard the biggest joke in the world. He was out of breath and couldn't stop.

Lin Yi looked at him and ordered his bird, "It seems like he's a lunatic. He's quite pitiful. The heavens are kind. Let's go."

With that, the man and the bird really left, and the bearded man almost fainted from laughing. Lin Yi looked at him like he was an idiot-did this kid really think he was an idiot?

The ghost-eyed Golden Eagle caught up and blocked Lin Yi and the spiritual bird with lightning speed. The bearded man's mouth twitched as he stared at Lin Yi coldly, "You want to do it the hard way? Alright, you've got some guts, kid. I really don't want any treasures on you today. Just based on what you said just now, you must die today!"

With that, the curly-bearded man's aura suddenly increased, and his overbearing aura pressed down on Lin Yi and the spiritual bird without holding back. It was so sharp that it felt like a knife was cutting through them. The spiritual bird lost its balance and almost fell into the sea. Even Lin Yi's eyelids twitched. This guy was actually a master of the xuansheng stage!

Although they looked like they were only at the early stage of the mysterious Ascension realm, no matter where they went, they would have a foothold. No matter how powerful the sect was, they would be treated as guests of honor! Even if he was not an elder in power, he could at least become a guest elder. If he was placed in the North Island's three pavilions, he would already be a leading figure who had the opportunity to enter the elders Guild.

To be honest, Lin Yi had never thought that someone like this would become a robber. Things were really weird in this world-there were all kinds of people, and a master in the early stage of mysterious Ascension could do anything to earn money, but he had to be a robber ...

Looking at Lin Yi's disbelieving eyes, the bearded man laughed proudly again. He loved this kind of look, so every time he looked for someone to attack, he wouldn't show his early stage mysterious Ascension cultivation at the start. He would only show his strength when it was almost time. He wanted the feeling of playing a pig to eat the Tiger!

"Are you afraid? Hahahaha, unfortunately, it's too late. If you had been smart and handed over the treasure, I might have let you live. But now, since I've said that you must die, there's no second possibility. Do you understand what I mean?" The bearded man laughed wildly.

"Absolute command?" Lin Yi couldn't help but smile, frowning at the guy's dumbfounded look. "You're not really an idiot, are you? if you really do have the power of law, I would have been dead the moment you said the word 'die.'" I say, where did you get your strength from? don't you need intelligence to cultivate these days?"

After hearing this, the bearded man's face turned red. Even though he was wearing sunglasses, it was obvious that he was just boasting. He was still far from the true 'absolute command'.

"You have a sharp tongue! I've decided not to throw you into the sea to feed the sea beasts. I'm going to beat you up until you're disabled, then hang you up with a rope and drag you into the sea to catch the sea beasts. What do you think of this idea?" The bearded man said with a ferocious expression.

"It's not bad, but I think the sea beasts might not like to eat my flesh. They definitely prefer to eat meat with more blood. It seems that you are more suitable." Lin Yi smiled faintly.

"I ..." The curly-bearded man was so angry that he couldn't say a word for a long time. It wasn't until now that he finally realized one thing. If they really wanted to argue, even ten of him together would not be able to defeat this sharp-tongued kid.

"How is it? You also think that it makes sense, don't you?" Lin Yi crossed his arms and looked at him with a faint smile. If it was before, he wouldn't be in the mood to talk to a robber, even if the robber was an early stage mysterious Ascension master. But now, he was in a good mood, and this was the first time he saw a living person in half a year. He couldn't help but want to play with him.

Lin Yi's teasing made the bearded man's anger rise to the heavens-he lost all interest in playing with Lin Yi like a cat playing with a mouse, and his killing intent rose, "I've seen many reckless people, but this is the first time I've seen someone as reckless as you! Brat, let me give you a piece of advice. It's useless to just have a glib tongue. It will only make you die a worse death. Remember this in your next life!"

With that, the bearded man didn't give Lin Yi a chance to speak. He suddenly pulled out a long black stick from his back and smashed it down on Lin Yi's head with a loud roar.

His staff was twelve feet long, and they were at least ten feet apart. Logically speaking, he shouldn't be able to reach Lin Yi, but when the staff landed, it transformed into a huge, ferocious staff shadow that covered the sky and earth. The killing intent it emitted was enough to change the color of the sky and earth!

Even the clouds that were floating in the surroundings instantly turned into ferocious and terrifying black clouds!

Chapter 4597 Insta-Killing Xuan Sheng

Accompanied by the terrifying whistling of the wind, mixed in with the shadows of the staff, they looked like a group of terrifying demons that were choosing people to eat.

Lin Yi and the spirit Bird were like a small boat in the middle of a storm. They could be destroyed at any time. If they were touched by the shadows, they would be doomed.

"As expected of an early stage mysterious Ascension expert. He's not simple!" Lin Yi smiled calmly at the situation. He wasn't nervous at all, but excited instead. His eyes were filled with fighting spirit!

Lin Yi's eyes focused as he faced the menacing staff shadows that blotted out the sky and earth. His right hand arched into the shape of a dragon's claw, and pure Qi gushed out from each fingertip. Five pure Qi quickly gathered in his palm, and with a Dragon's Roar, the five elements of killing intent rose up against the sky!

"Haha, such big words and I thought you had some confidence. It turns out that you're just a weakling at the peak of the early stage of the original level. You're just a Firefly, how dare you compete with the sun and the moon?" The bearded man laughed out loud. He wasn't sure if Lin Yi was hiding his strength before, but now that he saw Lin Yi's true strength, he had nothing to worry about.

The strength of the peak of the early Yuanying stage couldn't be considered weak, but it also depended on who he was compared to. In an ordinary small place, he would naturally be a master of a region. But in front of him, who was at the xuansheng stage, he was at most a fart. The difference between them was almost an entire big realm. Such a huge gap in strength had already determined the outcome.

What made him feel even more ridiculous was that the other party clearly knew that there was a disparity in strength, but he still didn't think of taking the opportunity to escape. Instead, he stubbornly braced himself to face him head-on. This brain was simply beyond redemption!

The bearded man couldn't help but laugh wildly. People with sharp tongues generally didn't have great wisdom. These words were true. Of course, in his opinion, the other party's choice to escape was stupid. His ghost-eyed Golden Eagle's speed was far faster than the other party's garbage spiritual bird, how could he escape?

"Die in peace, I'll smash you with ten thousand strikes!" The bearded man let out a deafening roar, and the overwhelming black stick shadows suddenly converged into one, turning into a solid stick and smashing down. Each stick shadow had the force of a thousand pounds, and this stick that had condensed countless stick shadows had the force of more than ten million pounds.

"Hehe, you should keep those words to yourself." Lin Yi smiled faintly. Although he was under the thousand rod smash, his expression wouldn't change even if Mount Tai collapsed. His opponent's martial skill was strong, but he didn't believe that the five elements killing intent he learned from the five poison Dragon would lose!

As he spoke, the heaven-defying killing intent of the five elements had already transformed into a Dragon that bared its fangs and brandished its claws. It met the opponent's heavenly piercing staff head-on, and in an instant, ghostly wails and wolf howls could be heard within a radius of a thousand miles, and the weather changed.

"Do you think that you can block my ten thousand rod smash with a Dragon? what a joke ..." The bearded man was about to take the last chance to mock him, but before he could finish his words, the scene in front of him made his expression freeze.

The situation was very different from what he had expected. The flood Dragon formed by the killing intent of the five elements was not smashed by the stick. Instead, before the power of the heaven reaching staff was raised to the extreme, it actually rose with the staff and the flood Dragon coiled up!

An even more exaggerated scene was yet to come. After the killing aura of five elements seized the opportunity to entangle the heavenly demon stick, the five-colored divine light on its body circulated rapidly, and the insufferably arrogant heavenly demon stick actually fell apart in the blink of an eye, being ground into pieces by it!

The bearded man's tongue almost fell out of his mouth in shock. The ten thousand rod smash was his most powerful martial skill. Because he had attacked in anger, he had not held back at all. He did not have the slightest intention of underestimating his opponent. How could an early Xuan Sheng realm cultivator go all out against a mere peak early nascent soul realm cultivator ...

He couldn't figure out why this was happening. In fact, he was going to die. After the killing Qi of five elements crushed the stick, it didn't disappear into thin air. Instead, it went straight for him. The bearded man and his ghost-eyed Golden Eagle were caught off guard. They were penetrated by the killing Qi of five elements, leaving a huge bloody hole in their chests.

"The five elements killing intent is indeed a rare and terrifying martial technique. I've really earned big this time." Lin Yi couldn't help but be shocked as he watched the bearded man and the ghost-eyed Golden Eagle fall into the sea.

He had indeed predicted that the killing aura of the five elements would be able to fight against a xuansheng stage expert. However, he had never thought that it would be so easy to kill him in a single move!

Lin Yi and the spiritual bird stayed in the air for a while. The opponent was a xuansheng master, after all. Although the bloody hole in his chest was a little scary, with his strong vitality, as long as he was treated in time, there was a chance that he would survive.

"Alright, let's go. Why bother robbing a xuansheng stage expert?" Lin Yi shook his head. There was no need to continue watching after seeing the splash of water when the bearded man and the Eagle fell into the sea. The man was dead for sure.

As expected, the moment Lin Yi and the bird left, the curly-bearded man and the ghost-eyed Golden Eagle were surrounded by a few sea beasts that followed the smell of blood. They were devoured in the blink of an eye.

As he continued to fly towards the North Island, he would pass by the middle Island. If nothing unexpected happened, he would be there soon. Lin Yi really wanted to go there and see. After all, the middle Island had Tianxing, Cai Zhongyang, and Hou Guanqi, his friends. Especially the two confidants, Tian Gang and Xue Li. Lin Yi missed them a lot after such a long time.

But after thinking about it carefully, Lin Yi decided to give up on the tempting idea of going to the middle Island. Unless he got permission from the pavilion, flying spirit beasts were not allowed to fly over the

middle Island. If Lin Yi wanted to enter the middle Island, he would have to spend a lot of effort on the way.

Moreover, he had left the North Island for too long, far longer than the deadline for the mission. Moreover, he did not even send a message back halfway. Any normal person would think that something had happened to him!

He didn't know how his underlings were doing, and he also didn't know how the king of junk was doing.

All of this made Lin Yi quite worried. He could only put aside the thought of going to Nakajima for now. After all, Tian Gang and Xue Li had Tianxing and the others looking after them, so nothing would happen to them. He could just find a chance to visit them in the future if he missed them.

The spiritual bird had been following him all the time. He could go to Nakajima whenever he wanted to. At most, he could ask Hong Zhong to help him get a Nakajima pass, so he was not in a hurry.

Chapter 4598 Groveling

After making up his mind, Lin Yi's heart was set on returning home, and the spiritual bird's maximum speed was increasing bit by bit without him knowing.

It was really scared by the ghost-eyed Golden Eagle just now. If Lin Yi wasn't so strong, it would be feeding the sea beasts with Lin Yi. After all, the other party could easily catch up with it, so the only thought the spirit Bird had was to fly faster, faster, so that no flying beasts could catch up with it. That was the safest way!

The three pavilions on the North Island.

Ever since MA dang Qiang, the newcomer King, appeared out of nowhere, especially after he dominated the inner sect competition, the three pavilions had been constantly talking about him. After tea and meals, almost everyone in the streets was talking about this unprecedented original infant stage newcomer.

Due to the appearance of Lin Yi and MA dang Qiang, even the declining GreenCloud Pavilion was shining brightly once more. It seemed like they were going to make a comeback.

However, what was unexpected was that the person in the limelight recently was not the GreenCloud Pavilion's MA as a spear, but the young master of the rising Sky Pavilion, Xu lingchong, who had been silent for a long time.

Ever since he had returned from his disappearance, this young master Xu had changed from his usual arrogant and domineering attitude. He had become a lot calmer and more reserved. The reason why he had become the center of attention this time was not because he had done something eye-catching, but because he had successfully become the eldest senior brother in charge of the outer sect of the rising Sky Pavilion.

Of course, this piece of news wasn't that eye-catching. It couldn't even be considered news. After all, Xu lingchong had been competing for this position for a long time and had made all kinds of preparations for it. It could be said that everyone knew his intentions. But this time, it still caused a huge sensation because this young master Xu had broken through to the original infant stage!

One must know that when Xu lingchong first started to build up momentum for this, his strength was only at the perfected Foundation establishment stage! In less than a year's time, he had actually crossed the entire jiedan stage and jumped to the Yuanying stage. This kind of thing was simply appalling!

Young master Xu's talent had been outstanding since he was young, and this had long been announced to the world by people with intentions, but even so, he had never boasted to such an outrageous extent. Not to mention the others who didn't believe it, in reality, even Xu Yuanzheng, his biological grandfather, was in a daze, and often couldn't help but wonder if he was dreaming.

From the Foundation Stage to the Yuanying stage, if it was a cultivator with medium qualifications, it may not be possible to succeed in a hundred years. Even those so-called elites would need at least eight to ten years. If someone said that he could cross the entire jiedan stage in one year, he would definitely be regarded as a madman.

However, the truth was right in front of them. Even if they didn't believe it, they had to believe it. After finding it unbelievable, they could only use one sentence to express their feelings. "An extraordinary person is an extraordinary person. Young master Xu is not an Ordinary Genius. It's nothing to be surprised about if he doesn't take the ordinary path ..."

Even if Xu lingchong's own background was not taken into account, it was still a lowly position for a nascent Soul Stage cultivator to become the eldest senior brother of the outer sect's manager. There was nothing to be surprised about. However, other than Xu lingchong's sudden advancement to the nascent Soul Stage, there was one more thing that shocked everyone.

MA dang Qiang, who was also a nascent Soul Stage expert, was the new disciple King of the GreenCloud Pavilion. In front of young master Xu lingchong, he actually considered himself to be a younger brother!

This scene was really shocking. Although Xu lingchong was also an original infant stage expert, this MA daoqiang's strength was not any weaker than his. In fact, he was even more popular than him during this period of time.

In terms of status, MA dang Qiang was now the second senior brother of the inner sect's steward. Even if the GreenCloud Pavilion was not as good as the rising Sky Pavilion, the position of the second senior brother of the inner sect's steward was still much higher than the eldest senior brother of the outer sect's steward, right?

There was only one explanation for this, and that was that MA lingchong had taken a fancy to young master Xu's profound background. The other party had a grandfather who was a big Shot in the elders' Association. This was the only place that Xu lingchong could make MA lingchong take a fancy to.

However, this explanation was still very vague. Don't forget that MA lingfei was often compared to Lin Yi, and he seemed to take it very seriously. Even if it was the most insignificant thing, he was determined not to be worse than Lin Yi. But Lin Yi had never bowed down to young master Xu before, and it was young master Xu who kept getting rebuffed by him. Why was MA lingfei willing to be young master Xu's follower now?

If MA dang Qiang only lowered his head to Xu lingchong, even if the reason was a little far-fetched, everyone would think that it was no big deal. After all, everyone had their own aspirations. Lin Yi and Xu lingchong didn't get along back then, so it wasn't impossible for MA dang Qiang to become old friends with young master Xu at first sight.

But the problem was that MA dang Qiang didn't just bow and scrape in front of Xu lingchong, he even had to smile and flatter Meng Tong, Kang Zhaoming, Zhong pinliang, and the others from time to time. It was clear that they were the last in the rankings, and this was really incomprehensible.

After all, he was an original infant stage expert. If he had to suck up to Meng Tong and the others in order to please young master Xu, wouldn't he be too much of a Lackey and have no dignity as an expert?

What was unexpected was that MA dang gun, who had always been very sensitive to the discussions of the public, turned a deaf ear to the negative comments. It gave people the feeling that he was prepared to go all the way and was determined to support Xu lingchong's stinky feet to the end.

On this day, Xu lingchong's group was once again gathered together. The bystanders were already used to this kind of scene. They would gather once every ten days and secretly shut themselves in a small room. No one knew what they were secretly discussing. In any case, everyone kept their mouths shut when they left the small room and never told others what they were going to do, making them stand out from the crowd.

Walking out of Xu lingchong's residence, MA dang Qiang bowed and watched Kang Zhaoming and the others leave before returning to the GreenCloud Pavilion alone. Although he wasn't the only disciple in the group, Meng Tong and Xu lingchong had always been inseparable, eating and living together. He wouldn't go to the GreenCloud Pavilion if there wasn't anything important.

After returning to the territory of the GreenCloud Pavilion, MA dang Qiang, who was still groveling before, immediately became arrogant. No matter who he saw, he would always have a gloomy expression on his face, causing the disciples of the GreenCloud Pavilion to only dare to look at him from a distance. They could only continue doing what they were doing after he was far away.

Ever since this newcomer King had entered the inner sect of the GreenCloud Pavilion, he had always been tyrannical. Not only was he powerful, but he was also treated differently by the upper echelons of the GreenCloud Pavilion. Ordinary disciples could not afford to offend this fellow, and if a conflict really broke out, they could only swallow their anger, just like Lu bianren and the others last time. Thus, they could only be tactful and hide far away.

Chapter 4599 Making A Move To Provoke

Just as MA dang Qiang was about to return to his residence number one, he suddenly noticed a somewhat familiar figure around the corner. He was stunned for a moment before he reacted and shouted at the figure, "Hey, that dumbass Lu bianren in front! Stop right there!"

Lu bianren's body suddenly froze. He had already seen this arrogant and despotic person using him as a weapon, but he had deliberately avoided him to avoid trouble. He didn't expect to be stopped by this guy.

Although he wanted to ignore him, he didn't want to lose his imposing manner in front of this bastard. Not to mention, the other party had used such a humiliating method to call out his name in front of so many disciples of the GreenCloud Pavilion. If he just pretended to be deaf and ran away like a coward, it would be outrageous.

Turning around, Lu bianren looked at MA dang Qiang with a calm expression. His face was like an ancient well without any ripples, and not a single trace of joy or anger could be seen on it. Even those who had nothing to do with the matter couldn't help but sigh. This Lu bianren was indeed a cultured and gentle gentleman.

However, Lu bianren's performance was seen as a complete coward in the eyes of the horse, and he disdainfully curled his lips and said, ""Where's that dog shit Lin Yi? Did he come back? When he's back, tell him to come see me!"

"No, I didn 't," Lu bianren's tone was still as calm as an ancient well. He knew that with his strength, he would only be at a disadvantage if he clashed with this horse. Since he knew that he couldn't afford to offend it, then he shouldn't let his anger cloud his mind, or else it would only ruin things.

"No? Damn it, why isn't it here yet? How long has it been since you've died and still haven't returned?" MA dang Qiang frowned and dragged out a long sneer, ""Oh ... It can't be that he knows I'm going to find trouble with him, and he knows that he's not strong enough, so he's afraid of dying in my hands, so he's a coward and doesn't dare to come back, right? Hahahaha!"

Lu bianren's face changed slightly. It didn't matter how the horse mocked him-he could ignore it completely, but he couldn't remain indifferent when Lin Yi was being mocked right in front of him.

After all, Lin Yi wasn't just his friend-he saved his life, too. He'd be unrighteous if he didn't do anything right now, and he could tolerate anything, but not unrighteous things.

"Junior Brother Lin is a publicly acknowledged genius disciple. Even Pavilion master Shangguan of the rising Sky Pavilion has high praise for him. Before you defeat him face to face, I advise you to think before you speak. Otherwise, you'll not only insult Junior Brother Lin, but also Pavilion master Shangguan!" Lu bianren's face darkened.

"Oh? It looks like you've been stepped on. Tsk, tsk, I thought a coward like you would never be able to be tough!" Suddenly, he became even more aggressive. In a flash, he appeared in front of Lu bianren and grabbed his neck. "You said I insulted Pavilion master Shangguan? Alright, then tell me what I've insulted him with. I've insulted him for not having a good eye for people and mistakenly seeing a piece of trash as a genius?"

It would have been fine if it wasn't Shangguan Tianhua, but once someone brought it up, he'd be pissed off as if someone was poking at his sore spot. They were both the new disciple Kings of the inner sect, but Shangguan Tianhua only looked up to that bullsh * t Lin Yi, and didn't even care about a stronger nascent soul cultivator like him. Was this old man out of his mind?

MA dang Qiang was already in a bad mood today, and the reason why he had specifically called out to Lu bianren was actually to find an opportunity to vent his nameless anger. Now that Lu bianren had poked his scar in front of him, it would be strange if he didn't fly into a rage on the spot.

Although he was strong and seemed to be in the limelight recently, his situation was not as good as what outsiders thought. Especially in front of Xu lingchong and the others, he was really helpless!

As the last person in the group, he did not dare to disobey Xu lingchong or anyone else's words. He could only do as they were told.

Especially this time, Xu lingchong had assigned him an extremely F * cked up mission. He had already accumulated a stomach full of anger, and now that Lu bianren had coincidentally bumped into him, he was simply a ready-made punching bag!

Of course, even though MA dang Qiang seemed to be acting arrogantly, other than finding fault with Lu bianren to vent his anger, he actually had another important purpose, and that was the mission that Xu lingchong had just assigned to him.

Every disciple had to do a trial mission after entering the inner sect, and this time, lingchong's order was to take a trial mission near the southern island-he'd use this chance to find out where Lin Yi was.

When he received this order, MA dang gun was almost going crazy. He had to hold it in to not fall out on the spot. Damn it, he gave up his super newcomer King title and went all the way to the southern island to complete a mission? Was there something wrong with his brain?

It was a pity that even though he was the Super newcomer King of the GreenCloud Pavilion, he was nothing in front of Xu lingchong and his gang. Even if he were to whisper behind their backs, he would die without a burial place if others found out about it, let alone fall out with them. He would not dare to take the risk even if he had a hundred guts.

They had to go all the way to the southern island for a mission just to find Lin Yi, who was still alive? no one would be in a good mood if they did something like this.

Xu lingchong knew that this was a little too much, but he had no choice. Lin Yi had been too quiet during this period of time, and even the mysterious person didn't know where he went, which was why this matter fell on Xu lingchong's head. Xu lingchong obviously wouldn't go through this trouble himself, and the newly-crowned super rookie King was the most suitable candidate for this mission.

With a stomach full of anger that had nowhere to vent, MA as a spear grabbed Lu bianren's neck with one hand. If it wasn't for the many disciples of the GreenCloud Pavilion pointing and whispering around, he even had the heart to strangle Lu bianren on the spot to vent the anger in his heart.

Being held by the neck like a gun, Lu bianren's current state couldn't be said to not be miserable, because he couldn't breathe, and his face had already turned the color of pig liver!

He struggled with all his might, but he couldn't break free at all. He only felt that the other party's hand was like cast iron, and no matter how he struggled, he couldn't move at all.

There was no other way. The difference in strength between the two was too great. Furthermore, he was caught off guard and his neck was grabbed. Unless MA as a spear took the initiative to let go, otherwise, if this continued, Lu bianren would definitely suffocate to death even if his throat wasn't crushed. And from MA as a Spear's posture, it seemed that he had no intention of letting go.

In MA dang's eyes, although Lu bianren was a weak coward, he was still a disciple with some fame in the GreenCloud Pavilion!

Chapter 4600 Narrow Escape

If he were to kill him in public, it would definitely cause a huge uproar. Even with his status as the Super newcomer King, he would have to pay a high price. However, he was currently in a rage, so how could he let Lu bianren off so easily?

At this moment, MA as a gun was thinking that since they had to go to the southern island no matter what, it didn't matter if they killed Lu bianren. They could just take it as going out to lie low!

"Say it! Why did he not dare to say it? Or do you also think that Pavilion master Shangguan was blind and picked a good-for-nothing?" He grabbed Lu bianren so hard that his tongue was sticking out. He knew that the other party couldn't speak, but he felt a rare sense of satisfaction. He couldn't hold back his anger, so he had to vent it out.

When the group of GreenCloud Pavilion disciples saw this scene from afar, they couldn't help but break out in cold sweat for Lu bianren. However, in the end, no one dared to step forward. Although Lu bianren's character had always been good, and they didn't mind helping him out a little, but now that they were facing a monster that couldn't be measured with common sense, it was better to hide as far away as possible to avoid getting burned by fire.

Lu bianren's heart was filled with grief. He had been strangled to death in front of everyone in the GreenCloud Pavilion, but no one had dared to step forward to stop him. The world had become so cold that it truly made him feel a chill in his heart. It was at this moment that a young girl's voice suddenly rang out, "Who dares to say that my grandfather has eyes but failed to see?!"

With that, a round and chubby Little Bear appeared in front of everyone, followed by its master, Shangguan LAN 'er.

"Greetings, miss Shangguan!" The disciples of the GreenCloud Pavilion were shocked. They quickly cupped their hands in greeting. Although this was the little princess of the skyward Pavilion, even Yu

Zhenyang, the pavilion master of the GreenCloud Pavilion, had to show her respect, let alone these ordinary disciples.

Seeing Shangguan LAN 'er's sudden appearance, the arrogant and domineering MA dang Qiang could not help but be shocked. Although he kept saying that Shangguan Tianhua was blind, as if he did not take the soaring Pavilion's master seriously, if these words were to be heard by the people involved, he would definitely be so scared that he would pee his pants.

As the Super rookie King of the original infant stage, even though it did sound very impressive, in front of Shangguan Tianhua, it was not even an ant. He did not even need to move a finger. As long as he opened his mouth and made a call, he would not be able to live past the second day. He was well aware of this.

Seeing Shangguan LAN 'er looking at him with a cold expression, MA dang Qiang's heart skipped a beat. He had said those words purely out of anger. Of course, if it had only been heard by these disciples of the GreenCloud Pavilion, it would not have been a big deal. After all, it was impossible for Shangguan Tianhua to hear these words.

However, the problem was that Shangguan LAN 'er had heard her words clearly. She was Shangguan Tianhua's granddaughter. If she went back and spread the news, how would Shangguan Tianhua react?

At the thought of this, MA dang Qiang suddenly broke out in cold sweat. He wished he could give himself two tight slaps on the face. This time, trouble really came from his mouth. Who asked him to forget to shut the door in his moment of pleasure!

"Second time, who was the one who said that my grandfather was blind? I won't repeat the same words for the third time. At that time, it won't be me who will question you, but your Pavilion master Yu!" Shangguan LAN 'er continued to speak with a cold face. Shangguan Tianhua was her only family

member, and she would never allow anyone to disrespect her grandfather, let alone slander him in public!

Everyone's eyes were focused on MA dang Qiang, and his face turned green and purple, almost comparable to Lu bianren 's.

Seeing that Shangguan LAN 'er was staring at him with a murderous look, he knew that he could not avoid it, so he had to force a smile and say, ""Miss Shangguan, you may have misheard. Pavilion master Shangguan is wise, powerful, and has a discerning eye. This is something that everyone on the North Island praises. The ready-made example of Hall Master Gongyang of the law enforcement Hall is in front of you. Unless their brains were kicked by a donkey!"

"Is that so?" Shangguan LAN 'er glanced at him, then turned to the crowd and said, ""Did he just say that? It doesn't sound like it to me. "

The group of GreenCloud Pavilion disciples hesitantly looked at MA dang Qiang. Seeing that this fellow was glaring fiercely at them and was even threatening them with his neck, all of them immediately retracted their necks and shook their heads weakly, "I ... I didn't hear you clearly ..."

Although they were afraid of Shangguan LAN 'er, they were even more afraid of being targeted. After all, no matter how prestigious Shangguan LAN' er's status was, she was still a member of the rising Sky Pavilion and would not have any dealings with them. However, MA dang Qiang was the second senior brother of the inner sect manager of the GreenCloud Pavilion. If they dared to tell the truth at this time, even if they were to suffer in the future, they would definitely take revenge on them before they were unlucky. They could not afford to take such a big risk.

"Didn't you hear clearly? There are so many of you here, and not a single one of you heard me?" Looking at the cowardice of these disciples, Shangguan LAN 'er was instantly angered. She rolled her eyes and pointed at Lu bianren, "You're the closest to this guy, so you tell him!"

At this moment, Lu bianren was still being held by MA as a spear in his hand. At this time, he was already on the verge of fainting, and couldn't move at all. When MA as a spear heard Shangguan LAN 'er's words, his grip on Lu bianren's hand tightened even more. He was afraid that Lu bianren would say something unfavorable to him, so he immediately wanted to kill him to silence him. At the same time, it was also a bloody warning to all the people present!

"Aren't you going to put him down? I'll say the ugly words first, if he does anything wrong, you'll kill him to silence him!" Shangguan LAN 'er's pretty face was cold as she said this. At the same time, the little Curly Bear under her feet had already rushed over, pulling and pulling it onto the horse as a gun, and gave the hand that was holding Lu bianren a big bite.

"Ah!" MA as a spear howled in pain, and under the pain, he let go of Lu bianren and threw him to the side.

Although the little Curly Bear was not very strong and looked like a pet that was trying to act cute, this was only its appearance. The destructive power of the curly Bear Family was definitely first-class among all the spirit beasts. Although the little Curly Bear was far from adulthood, it was born with good teeth. It could even chew a spirit Jade into pieces. Although MA dang Qiang was a nascent Soul Stage master, he was still made of flesh and blood. Of course, he could not withstand the bite of the little Curly Bear.

This way, Lu bianren, who had been suffocating for a long time, was finally free. Having escaped death, he lay on the ground in a sorry state, panting heavily.
