Chapter 4631 Second Senior Brother In Charge

"Grandpa, what are you saying?" Shangguan LAN 'er blushed and ran away in embarrassment. After a while, she returned with a small wooden box in her hand. She handed it to Shangguan Tianhua and said, ""This is a gift from Junior Brother. Open it and take a look."

"Oh?" Shangguan Tianhua opened the wooden box. There were two items in it. One was an exquisite spiritual Jade bottle, and the other was wrapped in a red cloth. Shangguan Tianhua's eyes lit up. "Star Ink milk? Baby ginseng? This kid is really generous!"

Be it the star Ink milk or the baby ginseng, they were both rare items in the world. It wasn't that Shangguan Tianhua's value would depreciate because of his status-even if they weren't useful to him, he could always give them to others. Besides, the baby ginseng and the star Ink milk could be used to make higher-grade elixirs. Lin Yi's return of favor this time was probably no less valuable than the tip-revealing spiritual tea.

"Hehe, this is nothing to Little Junior Brother!" Shangguan LAN 'er proudly raised her chin.

"Hehe, let's see how far he can go in the future. All right, little LAN 'er, since you've given him the ten thousand word mantra, you can make a new one yourself. This is our Shangguan family's ancestral study. It can't be gone just like that." Shangguan Tianhua said as he looked at his granddaughter playfully.

"Ah? 10,000 words! Grandpa, you must be joking, right?" Shangguan LAN 'er suddenly felt terrible.

"I'm not joking. I'll leave this important task to you. Take your time." Although Shangguan Tianhua was smiling, his tone was non-negotiable.

"Oh ..." Shangguan LAN 'er was completely listless now. She had no choice but to walk to the Super study room in a daze. How long would it take to write 10000 words of truth?

"That's good, let this girl toughen her heart. " Shangguan Tianhua smiled knowingly as he looked at the gift Lin Yi had given him. He couldn't help but recall what Lin Yi had just said. He snapped his fingers and said, "Find out the information about Xu lingchong and the group of people gathered under him. Arrange for someone to keep an eye on them."

Leaving the house, Lin Yi felt refreshed, not only because he had a drink, but also because he had learned the ten thousand word mantra. He only took a glance at it and knew that the words were not simple. He would find time to study it and learn something from it.

Lin Yi was planning to start refining immediately after returning to the pavilion, but he didn't expect someone to be waiting outside the courtyard. It was the manager of the inner sect, Jia mufan.

"Senior brother Jia, how have you been?" Lin Yi cupped his hands from afar.

"Junior Brother Lin, how have you been? you've made me wait." Jia mufan greeted him with a smile. This was the truth. He came to visit Lin Yi at dawn, but he didn't expect Lin Yi to be absent last night. As the inner sect's manager, his big senior brother had to wait outside for four hours. This could be considered a strange anecdote.

"Oh? Senior brother Jia is looking for me? Come, please come in!" Lin Yi quickly invited Jia mufan in.

"Hehe, Junior Brother Lin, you're the genius disciple that has received the most attention in our GreenCloud Pavilion. You've been away for such a long time, so as your senior brother, it's only right for me to come and take a look at you. What do you think?" Jia mufan said with a smile.

In fact, with Lin Yi's current strength and status, Jia mufan was planning to come as soon as he heard that Lin Yi had returned, especially after he learned that Lin Yi had crippled a mid-stage nascent soul cultivator with one move. He wanted to come as soon as possible yesterday, but Lin Yi and his friends were busy with the gathering and didn't invite him, so he delayed it until today.

"I've troubled senior brother Jia. This time, it was you who helped me cancel my mission. Furthermore, senior brother Lu, senior brother ku and the others also said that when they had a conflict with MA dang gun, it was thanks to you, senior brother Jia, that they were able to get out of the situation. I'll remember this favor for them. " Lin Yi said seriously.

As he spoke, Lin Yi started to brew the spiritual tea. Although it wasn't as professional as Shangguan LAN 'er' s, and wasn't the rare spiritual tea, it was still a high-quality spiritual tea, and it was refreshing to the mouth.

"Junior Brother Lin, you're being too serious. Lu bianren and the others are your senior brothers, but they're also my junior brothers. Since I happened to run into this, it's only natural that I step in to stop it. Otherwise, I, the eldest senior brother of the inner sect's steward, will be labeled as a 'dead body without a proper job'." Jia mufan said, shaking his head.

"Hehe, no matter what, I have to properly thank you, senior brother Jia. It's the GreenCloud Pavilion's good fortune to have a senior brother like you who's in charge of the inner sect." Lin Yi laughed. There were only a handful of people in the upper echelons of the pavilion that he liked, and Jia mufan was one of them.

"Junior Brother Lin, just because of your words, I really have to do my best in the future, even if I die."
Jia mufan laughed and immediately said, "Junior Brother Lin, what are your plans?"

"Plan?" Lin Yi looked at Jia mufan in confusion.

"What I mean is, are you interested in taking on a position, like being the inner sect's second senior brother or something? After all, with great power comes great responsibility!" Jia mufan said with a deeper meaning.

"The inner sect's steward, second senior brother?" Lin Yi blinked, confused. "Isn't this the position to use as a weapon?"

"He's not suitable. " Jia mufan didn't hide anything and said directly, "If he was in this position before you came back, no one could object. But now, how can he still have the face to continue sitting in this position?"

"He retreated?" Lin Yi understood immediately. This was the same as him fighting for the number one residence-the higher-ups of the pavilion hadn't even come out to make a sound, and they were all acting like they didn't know anything about it. Those higher-ups who were supposed to be on the side of taking advantage of the situation had probably changed their stance after hearing what happened yesterday. They were really fence sitters.

"I won't hide it from you. Yesterday, I made a suggestion to the GreenCloud Pavilion's Elder Council to let you be the second senior brother of the inner sect. In the end, the elder Council unanimously agreed to it." Jia mufan's tone carried a trace of undisguisable ridicule.

Thinking back to the performance of those elders of the GreenCloud Pavilion, they were really jumping around like clowns. Previously, they were the ones who jumped up and down to take advantage of the situation, and now, they were also the ones who hit a person when he was down. If such a group of people were allowed to hold the high-level positions, it would be intolerable by the heavens if the GreenCloud Pavilion could still prosper!

Lin Yi couldn't help but smile coldly. These people took advantage of his absence and took room number one. He hadn't even settled the score with them yet, and they were already sitting on the fence ... Their eyes were pretty good ...

"Although I know that it's a waste of talent to let you take this position, Junior Brother Lin, with your ability, this is just a stepping stone for the transition!"

Chapter 4632 Distributing The Pills

"In the future, I will definitely be able to soar to the heavens. This step is just to gain some experience. What do you think, Junior Brother Lin?" Seeing that Lin Yi wasn't interested, Jia mufan decided to be the persuader.

"I appreciate senior brother Jia's good intentions. I heard that Xiao ran was able to become the second senior brother of the outer sect steward because of you, senior brother Jia. You have really done your best for us. I, your Junior Brother, am very grateful." Lin Yi thanked him sincerely before shaking his head. "But let me be the inner sect's steward, second Shixiong, let's forget about this matter. Shixiong Jia, you should know that I don't like these things. It's too troublesome to be entangled in worldly affairs."

Lin Yi had a very clear goal for his future development, and his vision was never limited to the GreenCloud Pavilion. The position of managing the inner sect, second senior, seemed like a good position, but there were bound to be all sorts of trivial things that would take up a lot of his energy-he'd rather spend that time on cultivation!

"Hehe, I understand that. However, this was actually Pavilion master Yu's idea. It's not good for me to reject him directly. Otherwise, it would seem like there's some conflict between you and me." Jia mufan said with a bitter smile.

"I see, but I really don't have such plans." Lin Yi paused before suggesting, "From what I know, although senior brother Lu bianren's strength is slightly weaker, he's still one of the most experienced elders in our GreenCloud Pavilion. Furthermore, he's also trained in various important positions before this. From what I know, he's about to have a breakthrough soon, so why don't we consider him?"

"This ..." Jia mufan suddenly hesitated. Lu bianren's qualifications were indeed not bad, but with his current strength, he clearly didn't meet the requirements to become the inner sect steward, second Shixiong.

Any random inner sect disciple was a golden core stage disciple. In theory, if he wanted to become the inner sect steward, he had to be at least at the late stage of the Golden core stage to convince the masses. However, Lu bianren was currently only at the middle stage of the Golden core stage. Even if he was about to break through, he was only at the peak of the middle stage of the Golden core stage. He was still a distance away from this minimum strength threshold.

With Lin Yi's current strength and status, no one would dare to say no if he got the position of the inner sect's manager, but if it was Lu bianren, the entire Qingyun Pavilion's Elder Council would be in an uproar, not to mention those ambitious disciples.

But since it was Lin Yi's idea, Jia mufan couldn't reject it directly. He said, "Alright, then I'll report this to Pavilion master Yu and put Lu bianren on the list of people to be nurtured. The position of inner sect manager second senior brother can be left to him, but before that, Junior Brother Lin has to be the transition, because only after you step down in this position can you recommend Lu bianren. This way, we can shut up the mouths of the people and not let Junior Brother Lu suffer too much resistance."

"Alright!" Lin Yi thought about it and agreed. He knew that this was a bit too much-even if Lu bianren was a backup candidate, if he didn't hold the position in his hands first and let someone else take it away, the other party wouldn't give it up, and Lu bianren would have to wait God knows when.

Jia mufan let out a breath of relief. If Lin Yi didn't want to be the inner sect's second Shixiong anymore, not being able to complete Yu Zhenyang and the elder Council's orders was secondary. The key was that he himself would be on tenterhooks. The reason why Lin Yi didn't like the second Shixiong was because he liked the first Shixiong.

Jia mufan wasn't afraid of anyone else, but he had no confidence in facing a super genius like Lin Yi. This was the next Gongyang Jie, and no matter how extraordinary Jia mufan thought himself to be, he couldn't stop this guy!

"Junior Brother Lin, you don't like to be tied up with miscellaneous things. You don't have to worry about that. You can leave all the miscellaneous things to me. As for Junior Brother Lin, you can do what you did in the past and in the future. That shouldn't be a problem, right?" Jia mufan said with a smile.

"Then I'll have to trouble senior brother Jia." Lin Yi nodded.

"Haha, there's no need to trouble me. I'm a hardworking person. I was the inner sect's steward for a long time, second senior brother. I'm familiar with these things." Jia mufan smiled and said in an honest tone, "To be honest, it's a blessing for me that you're willing to let go. You should know that a big reason for the position of the second senior brother in charge of the inner sect is to check and balance me, the eldest senior brother in charge of the inner sect. It's really a headache for me to let that arrogant MA dang Qiang sit on the top."

Lin Yi laughed as well. MA dang Qiang was an arrogant person, and he might not even put Jia mufan in his eyes. Having a guy like this under him who went against him in everything, especially a high-profile super newcomer King, no one in Jia mufan's position would feel good.

However, Lin Yi could see that Jia mufan was passionate about power, while he didn't care about it at all. They could be said to be two extremes, but Lin Yi wouldn't have any ill feelings towards Jia mufan because of this.

Jia mufan was a good person, and working with him wasn't a bad thing for Lin Yi. It was a pleasant cooperation.

After the business was done, Jia mufan chatted for a while more before leaving. Lin Yi sent him off and started his closed-door cultivation.

This time, he wasn't going into seclusion to cultivate, but purely to make pills. It wasn't just the heavenly elixir Pavilion that was in need of pills, even the people around Lin Yi needed them. For example, Lu bianren was on the verge of breaking through, but without the help of a golden core, who knew how long he would be stuck at the bottleneck?

With his previous experience, making golden cores, golden cores, and other types of pills, even the Golden core, was a walk in the park for Lin Yi. In five days, he'd made three digits worth of pills, and over 80% of them were supreme quality. He had to say that the godly pesticide cauldron was a godly tool for making elixirs.

After coming out, Lin Yi immediately gathered Lu bianren and the others together and gave a portion of the pills to Lu bianren for safekeeping. After all, he was the strongest of the group, and he was always the most reliable.

Lin Yi decided to let Lu bianren distribute the pills according to each person's strength level. Otherwise, with Qiao hongcai's impatient nature, he might just eat them right away ...

Lin Yi did this because he'd learned his lesson. He'd been missing from the southern island for two years, and everyone had to rely on themselves. Although they'd improved a lot faster than normal people, they still lacked the help of pills!

Chapter 4633 Heading To The West Island

Especially with the high-quality pills that couldn't be bought on the market, the improvement wasn't as obvious as Lin Yi had expected.

With everyone's talents, if Lin Yi was around, Xiao ran and the others would have been golden core Masters by now. They wouldn't be stuck in the Foundation Stage like they were now.

Lin Yi was already at the peak of the original level, and if the difference in strength was too big, these lackeys wouldn't be able to be his right-hand man, they'd be a burden instead.

So no matter what, Lin Yi had to think of a way to raise everyone's strength as quickly as possible, and one of the most important things was to ensure a sufficient supply of pills. Even when Lin Yi wasn't around, this couldn't be cut off.

After settling everyone down, Lin Yi's next task was to make a trip to the middle Island. He could have asked Hong Zhong to send the pills over, but Lin Yi felt that he had to go there himself. He might have a chance to see Zhang Liju, and he might as well visit Tian Gang and Xue Li.

After making up his mind, Lin Yi went to the Hong Chamber of Commerce and asked Hong Zhong to send the elixir over. At the same time, he asked for a pass for the Chamber of Commerce. With this, flying spirit beasts could take off and land at the dock of the middle Island. Although they still couldn't enter the sky above the middle Island, it was much more convenient.

After leaving the Hong Chamber of Commerce, Lin Yi planned to head to the spirit beast farm. This was where the three pavilions specialized in raising spirit beasts, and now the spirit Bird was the Overlord of the spirit beast farm, leading a very comfortable life.

Even though it didn't have any powerful racial talents, it was a high-level bird. There were only a few original infant stage spirit beasts in the entire North Island spirit beast farm. If any spirit beast dared to find trouble with it, it could easily make the other party dizzy with its speed. Who could afford to offend it?

But before that, Lin Yi had to go see Shangguan LAN 'er first and say goodbye to her. At the same time, he had to give her the elixir he just made. After all, she was one of them, and it was her business if she had a good background, but Lin Yi couldn't be biased and not give her a share.

However, what Lin Yi didn't expect was that he'd run into Shangguan LAN 'er halfway through the journey. She smiled and greeted him from afar, "Eh? What a coincidence, I was just about to go look for you!"

"Hehe, I was just about to look for you!" Shangguan LAN 'er was overjoyed to see Lin Yi, and ran over to him, her face full of joy, "Little Junior Brother, you have to start work again!"

"Start work? Why?" Lin Yi blinked.

"Have you forgotten your own position?" Shangguan LAN 'er rolled her eyes at him.

"Position? The second senior brother who is in charge of the GreenCloud Pavilion's inner sect?" Lin Yi couldn't help but ask.

"What? You're the island flower's expert, have you forgotten?" Shangguan LAN 'er said, pouting.

"Pfft ..." Lin Yi couldn't help but laugh. He remembered that Shangguan Tianhua gave him the position of a Messenger when ning Xuefei first came to the North Island. To put it bluntly, he was the bodyguard of the two girls, but it was a long time ago. It was almost two years ago. Did this temporary position still count?

"Alright! Little Junior Brother, quickly pack up and follow this Senior Sister to the West Island to protect the flowers!" Shangguan LAN 'er could not wait to announce.

"The Western part of the island? Protect the flower?" Lin Yi was getting more and more confused.

"Yeah, it's going to be ning Xuefei's birthday soon!" Shangguan LAN 'er said excitedly, and then complained, ""I didn't even attend her birthday last year because I didn't hear from you last year, but I have to go this year! It's good that you're back, Little Junior Brother. Hehe, the heavens are helping me!"

"So that's what happened. Alright then, I don't have much to pack. When do we leave?" Lin Yi nodded.

He had a good relationship with ning Xuefei. Since Shangguan LAN 'er had suggested it, it didn't matter if he agreed. There was nothing urgent in Nakajima anyway. He could go after he came back from the West Island. It wouldn't take much time if he just went to a birthday party.

"It's today!" With that, Shangguan LAN 'er pulled Lin Yi towards Hua LAN residence. Lin Yi didn't have much to pack, but she was different. She had prepared a whole pile of presents for ning Xuefei, not to mention a lot of her own things. Of course, Lin Yi had to be the master of protecting her.

Lin Yi could only helplessly do the hard work when he arrived at the house.

Shangguan Tianhua didn't object to Lin Yi's willingness to be his bodyguard, of course. He only chuckled and said a few words before running off to his study to write, as if he wasn't worried about his granddaughter going to the Western Island at all.

Lin Yi couldn't help but wonder-was this a hundred percent trust in him, or did they have other means of protection? Shangguan LAN 'er was the little princess of the North Island. It didn't seem right for him to be the only one protecting her when she went to the West Island, right?

It was only until Shangguan LAN 'er and Shangguan Tianhua bid each other farewell that Lin Yi's doubts were cleared up. On the surface, Shangguan Tianhua was the only one with Shangguan LAN 'er, but there were two extremely powerful people in secret, both in strength and status.

One of them was Shangguan Tianhua's right-hand man, LAN Tiefu. The other one was someone Lin Yi was familiar with-Gongyang Jie, the leader of the enforcement Hall!

Although there were only three people in total and they looked very thin, any one of them was a powerful figure that could shake the entire North island's three pavilions, especially Gongyang Jie. He was publicly acknowledged as an existence who would definitely reach the top of the North Island in the future.

No wonder Shangguan Tianhua was so assured. With the three of them working together to protect her, if something were to happen to Shangguan LAN 'er, it could only mean one thing-there was a force that was going to start a war with the North Island!

Of course, such a thing was impossible. Although the three great pavilions of the North Island had never been very powerful, they were, after all, the sole rulers of the island. Even if a powerful force wanted to challenge them, they would have to think it over carefully.

After saying goodbye to Shangguan Tianhua, the group immediately set off from Hualan residence and headed for the North Island Pier.

Walking at the front was Shangguan LAN 'er, her steps light and happy, followed by the little Curly Bear, who was dragging a giant pair of scissors, looking around from time to time with an unfriendly look, like a loyal Lackey. At the back was a helpless Lin Yi, all kinds of bags piled up into a small mountain on his body, how could he be a master of flower protection in this miserable state, he was just a ready-made free labor.

As for the other two powerful bodyguards, they wouldn't show up in his line of sight since they were supposed to be protecting him in secret. Lin Yi would be able to relax a little if they did, at least having two more people to carry his bags ... "

Chapter 4634 The Two Bodyguards

After a while, the two people and the pet finally arrived at the North Island's Pier. Lin Yi couldn't help but suck in a breath of cold air when he saw the giant treasure ship. He'd seen the East continent's

morning stars Academy's treasure ship in the South continent's sea before, but it was his first time seeing it up close.

No matter how strong one was, it was hard not to be shocked when one saw a giant on the ocean. This giant ship gave Lin Yi the feeling that it was no weaker than those aircraft carriers that weighed tens of thousands of tons!

But there was something different about it. The ship was a whole, and although it didn't have any technology, its design and craftsmanship were obviously superior. He couldn't help but sigh. The powerful blacksmiths of the Sky Class Island were truly a work of art.

When Lin Yi and Shangguan LAN 'er arrived, the North Island's Pier was busy. Because the giant treasure ship was docked, other ships couldn't get close at all, and everyone could only watch from afar, watching the disciples of the three pavilions move things onto the giant treasure ship, whispering to each other.

This time, they had mobilized such a huge treasured ship to the West Island. Of course, it was not just for Shangguan LAN 'er. Attending ning Xuefei's birthday party was at most just an excuse. The more important reason was to strengthen the communication between the north and west islands.

Although they didn't send out any important figures, the gifts were all valuable. Not only did they represent the three pavilions of the North Island, but almost all the higher-ups of the three pavilions had also expressed that the giant treasure ship actually filled a warehouse, all of which were gifts for the West Island master and ning Xuefei.

The north and west islands had always been on good terms. The high-level officials of the two islands had a good relationship with each other. This time, not only did the big shots like Shangguan Tianhua

prepare gifts, even the mysterious North Island master, who had been in seclusion, did not forget to send someone to bring a generous gift.

"It seems that there are quite a few people going to the Western part of the island." Lin Yi looked at the scene and was slightly stunned. He thought that they were just accompanying Shangguan LAN 'er to a birthday party, but he didn't expect that they were clearly sending a diplomatic mission, with at least a hundred people in total.

However, it wasn't strange when he thought about it carefully. Just the number of people on this giant treasure ship was definitely no less than three digits.

It was Lin Yi's first time on this ship, but Shangguan LAN 'er was very familiar with the way. There was even a room specially reserved for her.

Lin Yi's room was right next to hers, separated by a door. They were directly connected rooms, and they didn't even need to walk through the corridors.

After putting down the small mountain of gifts, Lin Yi didn't stay in the room. He wanted to walk around and familiarize himself with the structure of the ship. He didn't want to get caught off guard by an accident.

Shangguan LAN 'er and Curly Bear weren't just sitting around, either-since Lin Yi wanted to walk around, they were happy to go with him. Shangguan LAN' er decided to be Lin Yi's Guide, and she knew a little about the ship's structure and uses. It was enough for Lin Yi to have a basic concept of the ship.

"The craftsmanship is extraordinary. The forger who can build such a precious ship is definitely an unparalleled genius in the world!" Lin Yi couldn't stop complimenting him after looking around. He couldn't help but think of the king of junk. He could tell that this guy's talent in forging was extraordinary. If he could accumulate enough experience, it wouldn't be impossible for him to reach this level in the future.

As they chatted, Lin Yi and Shangguan LAN 'er returned to the starting point where they had boarded the ship. At this time, the goods on the dock were almost all moved, and all the people on the Western Island were in their positions, ready to set sail.

The last group of people came from the other end of the ladder, and Lin Yi suddenly realized that there was a space in the middle. He took a closer look, and his heart jumped.

There were two people in the middle. One of them was dressed in black, and there was nothing unusual about his actions. He did not even say a word from the beginning to the end, but he still could not hide his brilliance. This was the number one person of the North Island's new generation, Gongyang Jie.

Apart from Gongyang Jie, there was another person in the circle. He was wearing a loose blue robe and looked like a young man who was less than 30 years old. However, he looked much gentler than Gongyang Jie! If Gongyang Jie was proud and aloof, then this person was far less daunting. This person gave people the feeling that he was not so peaceful, but more like an ordinary person. It was hard to attract attention if he was in a crowd.

Even so, the people around him made way for him. He was treated as well as Gongyang Jie. He was the senior disciple of the inner sect of the rising Sky Pavilion, LAN Tiefu.

Lin Yi couldn't help but take a few more curious glances at LAN Tiefu the first time he saw him. He was able to occupy such a crucial position, meaning that LAN Tiefu's strength wasn't to be underestimated. He shouldn't be much weaker than Gongyang Jie.

The position of the eldest senior brother in charge of the inner hall of the rising Sky Pavilion was basically the highest standard among the disciples of the three great pavilions. It was impossible for him to be too far off.

Gongyang Jie and LAN Tiefu looked at Lin Yi at the same time as Lin Yi was checking them out. They looked away and put on a serious face as if they had nothing to do with what was happening. They disappeared into the crowd after a while.

"Didn't they say that they would protect him in secret? why did they appear so openly?" Lin Yi couldn't help but mumble. The two didn't seem like they were showing off at all, but it was obvious from the crowd's reaction that everyone knew about them boarding the ship.

"Hehe, they've always been like this. Even if they're told to do things secretly, they'll never deliberately hide their traces. It's not their style to be sneaky. Junior Brother, don't think that senior brother LAN isn't as cold as senior brother Gongyang. In fact, his arrogance is no less than senior brother Gongyang's. This is what my Grandpa said." Shangguan LAN 'er explained.

"I see." Lin Yi couldn't help but chuckle. It wasn't as if he couldn't understand why they would do something like this-Gongyang Jie and LAN Tiefu were both Dragons among men, and their pride came from their confidence.

Lin Yi was still trying to figure out Gongyang Jie and LAN Tiefu when he saw two familiar figures from the corner of his eye. His lips twitched as he recognized them-it was the idiot Xu lingchong, with the Lackey Kang Zhaoming beside him.

"What are they doing here? Are you going to ning Xuefei's birthday party too?" Lin Yi frowned.

Chapter 4635 Sunrise On The Sea

"No way! This annoying fellow is not allowed to attend Feifei's birthday party!" Shangguan LAN 'er pouted in disgust. She had never liked hypocritical villains like Xu lingchong, especially after what happened at her birthday party. She hated this guy even more.

Not only Shangguan LAN 'er, even the little Curly Bear made a face at Xu lingchong without hiding its disdain. Immediately after, it was about to drag its huge pair of scissors and rush over. This little fellow was thinking that it did not cut it cleanly enough last time and was preparing to use the same trick again!

Seeing Lin Yi and Shangguan LAN 'er standing together from a distance, Xu lingchong's expression couldn't help but become complicated, especially when he saw the giant scissors of the little Curly Bear. His expression instantly became extremely ugly. This giant scissors was the main culprit that had scared him out of his nightmares countless times!

However, lingchong didn't dare to do anything to the little Curly Bear at this time, and he didn't dare to have a direct confrontation with Lin Yi. Even MA dang Qiang, a mid nascent Soul Stage master, was crippled in one move. Lingchong thought that he was much stronger than MA dang Qiang, but he couldn't help but feel nervous when facing Lin Yi. He had learned too many bloody lessons before, and he still had this bit of self-awareness.

Seeing that the little Curly Bear was about to charge at them, lingchong quickly ran as far away as he could, disappearing into the crowd with Zhaoming in the blink of an eye. It seemed like they wouldn't dare to appear in front of Lin Yi again for a while.

Lingchong and Zhaoming appeared on the ship as part of the special envoy Group to celebrate ning Xuefei's birthday, but they were actually on a secret mission. Of course, this mission wasn't from the three pavilions, but from central.

As the special envoy of the North Island, lingchong Xu couldn't leave the North Island easily, but now that Zhong pinliang was on the same level as him, he could go out and do missions. Only by doing missions could he have a chance to get credit and climb up quickly, stepping on Zhong pinliang again.

As for how they were able to sneak onto the ship, it was not a difficult task for young master Xu with his strength and background. There were more than a hundred people in the West Island diplomatic mission. It was easy to find a reason to insert two people in.

Xu lingchong didn't want to have a direct conflict with Lin Yi, especially after the mysterious man warned him not to touch Lin Yi without permission, or he'd have to bear the consequences!

If Xu lingchong still dared to mess with Lin Yi in this situation, only an idiot would do that! So his principle now was to avoid conflict with Lin Yi if he could, and to stay as far away as possible. He didn't mind being a turtle in his shell, after all, the situation was more important than him.

Lin Yi and Shangguan LAN 'er were a little surprised by Xu lingchong and Kang Zhaoming's behavior. Although these two guys had suffered losses before, they had never been so tactful before. Did they suddenly have an epiphany?

"What are these two guys doing?" Lin Yi frowned as he mumbled. His instincts told him that things weren't as simple as they seemed-there had to be some reason behind it. It didn't matter to Kang Zhaoming, but lingchong didn't seem like the type to give in so easily.

Of course, Lin Yi didn't spend too much time on studying Xu lingchong and Kang Zhaoming. Their level determined their outlook, and he'd rather spend his time on Gongyang Jie and LAN Tiefu-they were the ones he needed to pay attention to right now!

All the personnel and resources were in place. With a series of low bugle sounds, the giant treasure ship officially set sail. As the behemoth that covered the sky slowly left, the huge North Island dock was suddenly empty. All kinds of ships waiting in the surroundings rushed to enter the port, and the North Island dock returned to its usual appearance.

He stood on the deck, feeling the sea breeze getting stronger and stronger. The North Island was getting smaller and smaller, and Lin Yi suddenly felt the excitement of a trip. It was the same feeling he had when he was on a luxury cruise in the secular world.

It was huge, sturdy, and comfortable. It could be said that the treasured ship had all the advantages of a ship, especially its ability to ride the wind and break through the waves to fight against natural dangers. It was like a moving fortress on the sea, but it also had a weakness, and that was speed.

In fact, the speed of the treasure ship was not slow compared to other ordinary ships. As long as it had an endless supply of spirit Qi to supplement the energy of the array, its extreme speed could kill any ship in seconds. At this extreme speed, ordinary ships would have disintegrated automatically, let alone riding the wind and Breaking the Waves.

But Lin Yi was already used to the bird's speed. No matter how much the ship went at full speed, it couldn't reach this level. The distance between the north and west islands wasn't that far, and if it was a bird, it would only take a day at most with its nascent soul speed. But it was a different story for the ship. Even if it went at full speed, it would take at least half a month.

"Little Junior Brother, sunrise on the sea is very beautiful. How about we wake up early tomorrow to watch the sunrise?" Shangguan LAN 'er suddenly suggested with great interest.

"Watch sunrise?" Lin Yi blinked-it'd been a long time since he'd come out to play and relax like this, and it wasn't a bad idea to take the chance to relax a little. He nodded, "Sure, no problem."

After the two made their arrangements, the sky was getting dark. They stayed on the deck for a while before returning to their rooms. Lin Yi was busy meditating, while Shangguan LAN 'er was resting and sleeping. It was rare for her to come out and play, so she wouldn't stupidly train!

The next morning, Lin Yi was still meditating when Shangguan LAN 'er was already knocking on his door. Lin Yi estimated the time-it wasn't even four yet, right?

The two brought Curly Bear to the deck, and Lin Yi was speechless at the pitch-black scene. He couldn't even see his fingers when he stretched out his hand-he'd be touching the ocean if he wasn't careful. He quickly used his spirit sense.

"Just wait, the sun will rise soon!" Shangguan LAN 'er, on the other hand, was in high spirits, and even the little Curly Bear was jumping up and down beside her-Lin Yi was really worried that the little guy would fall into the sea.

Not long after Shangguan LAN 'er finished speaking, the horizon in the distance quickly turned red. Although it was only a faint red light at the beginning, it was already very dazzling in the dark environment.

From the moment it appeared, the red light quickly grew stronger and dyed the sky red. The outline of the rising sun gradually became clear and reflected in the eyes bit by bit. It exuded an intoxicating vigorous power that made people think deeply.

Chapter 4636 Very Strong Strength!

Looking at the beautiful scene in front of him, Lin Yi's heart calmed down completely. He felt a long-lost sense of security.

He'd been through so much in the South continent, and he'd been improving and cultivating, but Lin Yi could clearly feel that he'd been getting more and more impetuous. It wasn't hard to find the root cause-cultivation was about relaxation, and he'd never been completely relaxed in the year and a half he'd been in the South continent, especially after being hunted by the old sect of West Mountain.

Once one's nerves were stretched for too long, there would always be side effects. This was like a time bomb, and while it might not seem like much, it could cause someone to pay a heavy price at any time. Even with Lin Yi's personality, he could only suppress this impetuosity, but he couldn't completely eradicate it.

Originally, Lin Yi had planned to relax for a while after returning to the North Island, but the heavenly elixir Pavilion was in urgent need of elixirs, and he had to hurry and make elixirs. As soon as he finished, he was pulled over by Shangguan LAN 'er to be her master protector.

Lin Yi thought that he'd have to wait until he got back from the island before he could really rest and relax, but he didn't expect to see the sunrise today. That bit of impetuosity disappeared instantly, and it was an unexpected surprise.

Lin Yi glanced at Shangguan LAN 'er and the little Curly Bear beside him. The man and pet were completely immersed in the beautiful sunrise, and even their eyes seemed to melt. Lin Yi smiled slightly-enjoying the sunrise on the sea was indeed one of the greatest joys in life.

Lin Yi was about to enjoy himself a little more when he felt something very unnatural. He didn't know if it was an illusion, but he felt like there was a pair of eyes staring at him from the dark, but he couldn't find the owner of the eyes.

Lin Yi's heart skipped a beat as he silently sent out his spirit sense. His spirit sense was strong enough to cover the entire ship, but after three times, he realized something shocking-he couldn't lock on to this observer!

Lin Yi was so shocked that he lost the mood to watch sunrise!

In this diplomatic mission from the West Island, only three elders from the three pavilions were sent out as a symbolic gesture. There weren't any other outstanding Masters, and there were only a handful of people who could completely avoid Lin Yi's divine sense's detection. Someone who could do this couldn't be someone like Xu lingchong, right?

He might be a nascent Soul Master, but if he used his spirit sense to spy on Lin Yi, Lin Yi could drag him out and beat him up in a matter of minutes. They were only at the same level, but they were on completely different levels.

"Don't bother, they are Gongyang Jie and LAN Tiefu. " The ghastly thing suddenly spoke.

"What? Two people?" Lin Yi was shocked. He could guess that this person was one of them, but he didn't expect both of them to be staring at him at the same time. He just barely noticed one of them with his intuition. His powerful spirit sense was useless in front of the two.

"Yes, there are two." The demonic thing said with certainty.

"Then which one did I sense? LAN Tiefu?" Lin Yi guessed. He thought that LAN Tiefu was weaker than Gongyang Jie, so he must be the one he sensed. Even so, he wasn't simple. This big senior brother was able to hide from Lin Yi's senses completely.

"No, the one you noticed was Gongyang Jie. LAN Tiefu's strength is even more unfathomable. He's even stronger than Gongyang Jie!" The ghastly thing's tone was also a little strange.

"Stronger than Gongyang Jie? How is this possible?" Lin Yi was stunned. Gongyang Jie was Shangguan Tianhua's chosen super genius, the number one of the new generation in the North Island. How could LAN Tiefu be stronger than him? Wouldn't that be undeserving of its name?

"I also think it's a little strange, but this is the truth. It seems that the three pavilions of the North Island are not as simple as they are said to be. They really are full of hidden dragons and crouching tigers." The ghost sighed. Even in his eyes, Gongyang Jie was a super genius that only appeared once in a hundred years. Now, LAN Tiefu, who was even more powerful than Gongyang Jie, had suddenly appeared out of nowhere. The strength of such a powerful man was no small matter.

Lin Yi was speechless. He didn't think that Shangguan Tianhua's henchman would be this strong, even Gongyang Jie was suppressed by him!

It was clear that the title of the eldest senior brother of the inner sect of the rising Sky Pavilion wasn't given to him for nothing. Although Jia mufan wasn't simple, he was still far from the unfathomable LAN Tiefu.

Just this point alone was enough to show the huge gap between the two. The foundation of the two was on a completely different level. The reason why the rising Sky Pavilion could always dominate the situation of the North Island was purely because of their strength. The GreenCloud Pavilion could not compare with them.

"What's LAN Tiefu's strength?" Lin Yi couldn't help but ask curiously. He was the second Shixiong of the inner sect, after all. In terms of position, they were both on the same level, and Lin Yi really wanted to know the difference between them.

"There's no point in you knowing. It's better not to say it. " The ghost kept him in suspense.

Lin Yi was taken aback again, his heart palpitating. The meaning of this damn thing's words was clear-he wasn't even on the same level as LAN Tiefu, and he'd probably scare him if he told him LAN Tiefu's true strength!

He had thought that even if the other party was strong, it would not be too outrageous. At most, he would be at the xuansheng stage. One should know that the xuansheng stage was already considered a pillar among the higher-ups of the three great pavilions. If a senior brother who was in charge of the inner sect of the rising Sky Pavilion was stronger than this, then the higher-ups would not be able to survive.

However, the demonic thing's attitude was clearly telling him that LAN Tiefu's strength was definitely not just at the mysterious Ascension stage. Otherwise, he wouldn't have to keep him in suspense.

"Then, is he as strong as you at your peak?" Lin Yi asked carefully. He was really scared this time, and his evaluation of LAN Tiefu jumped all the way to the early stage. Was this guy an earth formation master? Or was it the sea splitting stage, which was one level above?

Before this, Lin Yi would've scoffed if someone said that the Sky Tower's inner sect big brother could reach the mountain opening stage or above. But now that he'd experienced it himself, his perception of the entire North Island changed. The North Island wasn't as weak as people said-they were just hiding their true strength, just that not many people knew about it.

"Aren't you talking nonsense? If he's stronger than me, how can I sense him so easily?" The ghastly thing said speechlessly.

"Oh ..." Lin Yi let out a breath of relief. If this thing said that the opponent was stronger than him, then he'd be in for a real shock today!

Chapter 4637 Encountering Sea Fog

But at the same time, he was still a little shocked. Not only was he shocked by LAN Tiefu, but he also couldn't help but wonder how powerful that thing was. It was even stronger than LAN Tiefu. What level was it?

Lin Yi suppressed his thoughts and lost interest in watching sunrise. He knew that there were two pairs of eyes staring at him, and it made him uncomfortable. It was like being stared at by two powerful spirit beasts in the forest, and the invisible pressure made it hard for him to breathe.

But the Jade didn't alert him, which meant that they didn't have any bad intentions. Perhaps they were here to protect Shangguan Tianhua in secret. This was the only thing that comforted Lin Yi.

They sailed across the endless ocean without any disturbance, and the sea's scenery was all the same. After the initial excitement, the rest of the journey became boring. Lin Yi didn't mind-he could hold it in for half a year in the five poisons swamp, where there was no light, let alone a half-month voyage.

However, Shangguan LAN 'er and Curly Bear couldn't hold it in any longer. They came to Lin Yi's place every day, pestering him to tell them about their experiences from time to time, treating it as a story to relieve their boredom.

Shangguan LAN 'er wasn't really interested in Lin Yi's adventures in the South continent-what she was really interested in was the common world. After listening to Lin Yi talk so much about the common world, she couldn't help but have a thought-one day, she had to go there and have some fun. Otherwise, she'd have to spend the rest of her life on Sky Class Island. What a pity that would be!

According to the schedule, the giant ship would be sailing on the sea for half a month. Other than the first two days of wandering around the ship, Lin Yi had completely turned into Shangguan LAN 'er's storyteller. He couldn't help but exclaim that this girl's interest in the secular world was really extraordinary. Even the smallest thing could make her excited for a long time, and she would chase after Lin Yi to get to the bottom of it.

This situation continued until the tenth day, when Lin Yi was telling Shangguan LAN 'er about his life as an assassin when a crew member suddenly came to report that there was a thick Sea Fog ahead, and they couldn't continue.

Lin Yi was shocked. He quickly brought Shangguan LAN 'er and Curly Bear to the deck to check the situation. There were already a lot of people gathered outside. Gongyang Jie, LAN Tiefu, and even Xu lingchong were here. After all, they were blocked by the sea fog and couldn't move forward. This was a big deal!

Although the giant treasured ship was a moving fortress on the sea, that was only relative to ordinary ships. If they were really trapped in the boundless sea for a long time, not only would it greatly delay the journey, but there would also be problems with supplies. However, compared to the latter two threats, these were just small problems.

These two threats were the sea beasts and the weather. Although the giant treasure ship could deal with 80% of the situation safely, there was still a 20% possibility of an accident. Once an accident happened, it would be a fatal crisis.

If they suddenly encountered a super-strong sea beast like the giant electric eel, could the giant treasure ship still be safe? This answer was not optimistic.

Similarly, if extreme bad weather appeared, it was difficult to guarantee that the giant treasured ship would not be in danger.

At this moment, the people who were constantly gathering on the deck were somewhat anxious. The sea fog itself was not scary, but what everyone was afraid of was what was hidden behind this thick Sea Fog. Was there nothing, a group of extremely Savage sea beasts, or a monstrous wave that could capsize a treasure ship?

Seeing Lin Yi and Shangguan LAN 'er appear, everyone gathered around them. Although this diplomatic mission was led by three elders from the three pavilions, everyone knew that they were only ceremonial officers. The three of them were only in the original infant stage, and their power wasn't even as strong as Lin Yi's.

Not to mention, Lin Yi was Shangguan Tianhua's personal bodyguard, and he was also the emissary from the North Island to the West Island. When there was a need to make a decision, he should be the one to make the decision.

"Envoy Lin, the sea route ahead is completely covered by the sea fog. We can't figure out the specific situation at all. If we continue to move forward rashly, we might be in danger. What do you think we should do?" One of the elders asked on behalf of the crowd. Strength was respected. As elders, they were not necessarily fools who had their eyes on the top of their heads. When it was time to lower their heads, they were more agile than anyone else. After all, they were old and shrewd.

Lin Yi smiled and turned to Gongyang Jie and LAN Tiefu, "I'm just a new junior. Since Hall Master Gongyang and senior brother LAN are both here, it's natural for them to make the decision."

Everyone's eyes focused on the two of them-they were far above Lin Yi, of course, and their words were more convincing than Lin Yi's.

Gongyang Jie and LAN Tiefu both looked at Lin Yi, their gazes deep and mysterious. They weren't on the same level, but Lin Yi's actions were enough for them to see. Anyone would feel good about Lin Yi's tactfulness.

However, the two of them had rather grave expressions at this moment. The sea fog in front of them was extremely thick, and the obstruction of spiritual sense had reached a point of no return. Even experts of their level could not overcome it. Even if they were not completely unable to use their spiritual sense like other people, the range of their detection was also very limited.

"This Lord's divine sense can only cover the surrounding fifty Zhang." Gongyang Jie only said this one sentence and then kept quiet.

"I'm the same," LAN Tiefu said indifferently.

Hearing this, everyone's faces suddenly became more nervous. A perception range of 500 feet was simply not enough for sailing, especially for such a huge treasure ship. At such a short distance, there was no time to even discover the danger, let alone avoid it, unless they stopped in place and did not move at all.

Lin Yi couldn't help but have a headache now. The demonic thing's divine sense had a much larger range than theirs, but it wasn't enough to guarantee their safety. If they continued to move forward recklessly, it was like gambling with the lives of everyone on the ship. If something happened, the end result would be complete annihilation.

"Since that's the case, let's set up camp here and wait and see." Lin Yi decided.

Everyone nodded. This was the only way. Although it could be dangerous to just stop on the sea, it was better to stay still. This way, no matter what unpredictable situation occurred, at least they would have some time to react.

"However, this ocean is full of danger. Even if we set up camp here, we can't let down our guard. We must strengthen our vigilance." Lin Yi continued.

Chapter 4638 Spirit Beast Pirates

"Yes, special envoy Lin is right. We can't let our guard down at this time. I suggest that we gather all the inner disciples on the ship and split them into two teams to patrol." An elder said.

Everyone nodded in agreement. Although the defensive ability of the giant treasured ship was unparalleled, they didn't mind having one more layer of protection. Perhaps they could escape this disaster.

"Yes, but if it's just an ordinary inner sect disciple patrolling, I'm afraid the effect won't be great. After all, the spiritual sense of a Jindan expert is almost completely isolated by the sea fog. It's best to have a top-notch expert guarding it, so that it's foolproof." Lin Yi turned to Gongyang Jie and LAN Tiefu. "Hall Master Gongyang, senior brother LAN, both of you are the most powerful people on this ship. This matter concerns the safety of the entire ship, so I'll have to ask you to take turns to guard the ship."

"Alright," he said. Gongyang Jie and LAN Tiefu nodded at the same time. They had no reason to refuse at this time. Besides, if something happened to the treasured ship, they would also be in trouble. It was useless no matter how powerful they were in the endless sea.

With these two great gods personally overseeing the place, everyone could more or less feel a little more at ease. However, everyone knew that this was only a psychological comfort. A perception range of 500 feet was better than nothing. Fortunately, this was a moving fortress on the sea. As long as there were no major accidents, there should be no problems.

The weather was unpredictable, and the only danger that could be detected with divine sense was the sea beasts. The protective array of the giant treasured ship was enough to block the attacks of most of the sea beasts, and at the same time, it was also applied with a camouflage technique that was specially designed to deal with sea beasts, so it would not be attacked by sea beasts under normal circumstances.

Nothing happened for a day, and as expected, no sea beasts came to harass them. However, by evening, a sudden change occurred!

"A ship is coming!" Gongyang Jie, who was leaning on the deck railing, suddenly became tense. His lazy temperament changed immediately. He became domineering and cold, which made people not dare to approach him.

Lin Yi and the others were all at the side, and they were all shocked. This was the deep sea, and normal ships wouldn't dare to come in, or they'd be buried in the sea. Was the other party a treasure ship?

"It's not a treasure ship. There are experts on the other ship. I don't know how they investigated, but looking at the direction, they are indeed coming for us!" LAN Tiefu appeared immediately, his expression as serious as his.

There were only two possibilities for an ordinary ship to appear in the deep sea. The other party was either a fool or a bold man with great skills. Judging from the current situation, the latter was most likely the case.

The crowd was frightened, and they were all anxious. They knew that this man was not friendly. Although Gongyang Jie and LAN Tiefu were powerful warriors, they knew that this man was not friendly since he dared to come here with an ordinary ship and could detect them through the thick Sea Fog.

"Little Junior Brother, what should we do now?" Shangguan LAN 'er couldn't help but feel nervous as she turned to Lin Yi.

Since Gongyang Jie and LAN Tiefu could detect him, he must be less than 100 meters away from him. If he didn't move, he would arrive in an instant. Therefore, he couldn't hesitate at all.

"If it's a blessing, it's not a disaster. If it's a disaster, it can't be avoided. Although the opponent is strong, it'll only be more dangerous if we run away rashly. It's better to stay still than to move!" LAN Tiefu said decisively.

Everyone was still looking at Lin Yi in fear. With LAN Tiefu's strength, he didn't have to be afraid of any powerful opponent, but the others were. They were on a diplomatic mission to the Western Island, and to put it bluntly, they were here to have fun and relax. They never thought of giving their lives away in the endless sea.

Lin Yi couldn't help but frown. LAN Tiefu's words made sense, but the problem was that even he and Gongyang Jie found this person difficult to deal with. Just what kind of master was this?

Lin Yi was weighing the pros and cons when the ghost's voice sounded in his mind. "There's no need to think about it. The person on the other ship isn't human. "

"Gah! Not human? Could that be a ghost?" Lin Yi's hair stood on end-was this the legendary Ghost Ship? The world was full of strange things, and Lin Yi didn't believe in these things before, but as his strength and vision grew, he didn't find these things strange anymore!

"Fainted? if it's not a human, then it's a ghost? When did you become so simple-minded?" The ghostly thing choked and said in a speechless manner, ""It's a spirit beast!"

"No wonder!" Lin Yi couldn't help but be shocked. No wonder they dared to come to the deep sea with just a normal ship. No wonder they could penetrate the sea fog to find where he was. They were from the spirit beast clan!

From the trip to the southern island, Lin Yi had a deep understanding of the power of the Spirit beast clan. Human practitioners didn't dare to go out to sea without a boat, but it wasn't necessarily the case for the powerful spirit beasts. The five poison Dragon even dared to fight the giant electric eel in the sea. These spirit beasts might not be as powerful as the five poison Dragon, but the giant electric eel wasn't a common existence, and normal sea beasts wouldn't be able to do anything to them.

Moreover, there was miasma fog everywhere on the southern island, which was more terrible than the sea fog. Not only did it affect the perception of the divine sense, but it was also extremely poisonous. Anyone who traveled under the miasma fog all year round would be able to face the sea fog easily.

"Senior, what do you think we should do?" Lin Yi had to ask the old man. He couldn't tell Gongyang Jie and LAN Tiefu about this, or they'd be suspicious. Besides, they didn't know as much about the spirit beasts as the old Azure Dragon elder, the old man. They wouldn't be able to tell him anything even if he asked.

"It's useless even if you ask me about this. I haven't been an elder for so long. Who knows what the situation is in the spirit beast clan now?" The ghastly thing laughed bitterly and said helplessly, "According to the rules set by the king of the spirit beasts, the spirit beasts and the sea beasts should stay out of each other's way. Therefore, unless something big happens, no spirit beast is allowed to go into the sea. Now that the Vermilion Bird is in charge, and it has been chaotic for so long, this rule has long been forgotten. Maybe some spirit beasts have come out to be Pirates ..."

"Spirit beast Pirates?" Lin Yi's eyelids twitched, his expression odd. The word "spirit beast Pirates" always made people feel strange. However, to be honest, spirit beast Pirates were definitely much more terrifying than human Pirates.

Powerful human masters had a wide range of connections. They could choose any one of them and live a very comfortable life, so they generally did not run out to be Pirates. However, spirit beasts were different. It was difficult for them to be accepted by human society. Once they were not accepted by the spirit beast clan of the southern island, there was basically no other way out except to be Pirates.

Chapter 4639 Lin Yi In Battle

Lin Yi suddenly remembered that these spirit beasts probably became Pirates because they offended the Vermilion Bird. Now that the Vermilion Bird was in power, they had no choice but to become Pirates if they wanted to live.

While Lin Yi was talking to the thing, everyone was having a heated debate. Everyone knew that LAN Tiefu's words made sense, but the prerequisite was that one had to be strong enough. What if the other party was much stronger than them? staying here would just be waiting for death.

However, everyone knew that no matter how much they argued, it would be useless. The decision still lay with Lin Yi, the special envoy. Unless they were ready to betray the three pavilions, Lin Yi's words carried enormous weight. Even Gongyang Jie and LAN Tiefu couldn't change his mind.

After listening to the ghost's words, Lin Yi quickly weighed it in his mind and decided, ""Let's escape with the boat!"

The argument died down instantly, and everyone froze as they looked at Lin Yi in shock. Even the ones who were thinking of backing out didn't expect Lin Yi to make a decision like this.

"No, we're too close to each other. If we run now, we'll only reveal more flaws. Moreover, there's Sea Fog everywhere. We don't even know what's going on around us. How can we escape?" LAN Tiefu objected immediately.

Gongyang Jie frowned slightly and did not say anything. Meanwhile, more than half of the people present nodded in agreement. Although this was not a battlefield, it was not a wise choice to run away at the last minute. This was equivalent to giving the initiative to the opponent completely. It would be difficult for the opponent to fight back. This would only encourage the opponent's arrogance and make the opponent more unbridled. When that happened, the outcome would only be worse.

What was more important was the sea fog. If they knew the way out, it was not unacceptable to run away. After all, as long as they were fast enough, they could shake off the other party. But now that the

sea fog was thick, they did not even dare to move before, let alone run at full speed now. Wasn't this gambling with their lives?

Since it was a gamble of life, rather than dying in the sea without knowing why, it was better to fight with the other party openly. That way, even if he died, he could at least die with an understanding.

Seeing everyone's different reactions, Shangguan LAN 'er suddenly stood up and said,""Shut up, all of you. Little Junior Brother is the special envoy appointed by grandfather. He has the final say on how this ship will move. Whoever dares to say anything to disturb the People's hearts will be regarded as betraying the three pavilions of the North Island!"

No one dared to say anything. Even LAN Tiefu, who was the first to object, looked at Shangguan LAN 'er's expression and chose to remain silent with a complicated expression. After all, he was Shangguan Tianhua's confidant. He couldn't take the lead to oppose Shangguan LAN' er, the princess of the soaring Pavilion.

Seeing everyone's reaction, Lin Yi couldn't help but look at Shangguan LAN 'er in surprise. This girl was usually innocent, but at this critical moment, she was really bold, and he could vaguely see some of Shangguan Tianhua's power. After all, he'd been influenced by her since he was young, and this little Senior Sister was not simple!

The situation was urgent, and there was no room for delay. Seeing that everyone had shut up, Lin Yi immediately led the way into the cockpit, and everyone followed behind him, nervously waiting to see what he would do next.

The cockpit of this giant treasure ship was completely different from that of ordinary ships. Within the vast space, there were more than ten control posts. Each of them was dedicated to controlling a set of arrays, and only professionals who had been specially trained could control them.

"I'll do it!" Lin Yi suddenly walked to the central control post, signaling the helmsman to move aside. Everyone was stunned-this guy was going to take the helm himself?

This was not a joke. In order to steer a giant ship like this, one must go through very strict professional training in advance. Otherwise, even those experienced old helmsmen would be blind. They were all ships, but a giant treasure ship and an ordinary ship were completely different.

"Er ... Special envoy Lin ... This is different from a ship ..." The helmsman said weakly.

"I know. That's why I'll leave the rest of the controls to you guys. I'll only control the direction, so just listen to my orders." Lin Yi took over the main control post.

"Oh, oh." Seeing Lin Yi's determination, the helmsman quickly moved to the side, unsure of what to do. They'd be dead if Lin Yi accused them of betraying the North Island if they continued this stalemate.

The helmsman was on tenterhooks, and so were the others. However, they did not dare to say anything at this time.

"The enemy is still ten Zhang away from us!" Gongyang Jie's voice suddenly sounded, which startled everyone. They could already see the rough outline of the ship from 30 meters away. If there was no protective array outside the treasure ship, the enemy could easily jump off the ship and come over.

Lin Yi didn't bother with it and calmly felt the control stick. "Full speed!"

The operators of the various posts were shocked when they heard this. Unlike ordinary ships, they mainly relied on the sea breeze, but the power of this treasured ship came from the array. As long as there was sufficient spiritual Qi, its speed could be increased to the extreme in a few breaths. This was an advantage that no other ship could compare to.

However, the sea fog was heavy, and they couldn't even tell if it was an island or sea in front of them, let alone submerged reefs. Wasn't this just courting death?

But Lin Yi's tone was strict, and no one dared to hesitate. They quickly activated the formation to its maximum power, and they all stumbled. The acceleration of the giant ship was no joke.

Lin Yi, on the other hand, was staring at the sea in front of him with a serious expression. He couldn't see anything a hundred feet away, but he still acted as if he was serious. A moment later, as if something had happened, he suddenly made a sharp left turn.

"No! I can't walk like this! There's a large reef ahead, we can't go this way, it's too dangerous!" The helmsman jumped in shock.

He had been the helmsman on the previous trips to the Western Island, so he had some understanding of this route. Although the ship was not afraid of ordinary submerged reefs, if there were too many submerged reefs, it would still cause irreversible damage to the ship. Especially at this extreme speed, even the protective array might not be able to withstand it and break directly!

Seeing the helmsman's panic, everyone was on edge as well-Lin Yi's calm-looking but crazy attitude made them feel like they'd boarded a pirate ship. They wouldn't all die in his hands, would they?

But it was too late to regret it now. No one dared to object, not even making a sound, afraid that it would affect Lin Yi's judgment!

Chapter 4640 Arriving At The West Island

Originally, there was still a 90% chance of death, but if someone were to cause more trouble, then it would really be 10% certain death.

The crowd was scared because they didn't know the details. If they knew that Lin Yi had the Jade, they wouldn't be so scared. Lin Yi's method was the same as when he was at the escort party in the South continent, using the Jade to signal the direction.

Bang! Bang! As they advanced, everyone suddenly heard a slight collision sound. As expected by the helmsman, they had obviously hit a reef. All of them were immediately on guard. If it was really a large reef, it would be a big problem.

However, what happened next was completely out of everyone's expectations. Although they could always hear this kind of light collision sound every now and then, it was far less intense than they had imagined. If it was only this degree, it was completely within the tolerance range of the giant treasured ship.

"How is this possible?!" It wasn't just the helmsman-everyone was stunned as well, including Gongyang Jie and LAN Tiefu. They all looked at Lin Yi in disbelief. This wasn't something a normal person could do, unless Lin Yi was far stronger than them and could see through the fog with his spirit sense, but that was impossible!

The people on the giant treasured ship were only shocked. At this time, the spirit beast Masters on the ship were already stunned. Looking at the outline of the treasured ship quickly disappearing from their sight, all of them had a horrified expression on their faces. Wasn't it too fast?

The reason they had chosen to move within the sea fog was that they were afraid that the other party would run away at all costs. After all, the speed of any treasured ship was not comparable to that of ordinary ships. Only by having the sea fog seal their movements would they have a chance of success. Putting aside the heavenly treasures on the ship, the value of the treasured ship alone was enough for them to live a carefree life.

However, they had never expected that before they could even start attacking the defensive array, the other party would actually run away as if they had taken the wrong medicine. Moreover, it looked like they had intentionally rushed into the group of reefs. What should they do?

The sea mist didn't affect spirit beast Masters much, but it wasn't to the point where they could ignore it. If they were driving like Lin Yi, they'd be in big trouble if they hit a few rocks and made a hole in the bottom of the boat.

The spirit beast Masters looked at each other and gave up. Treasure ships were hard to come by, but as long as they had enough patience, there would be another chance. These spirit beast Pirates were lawless, but they valued their lives very much. They wouldn't risk their lives like Lin Yi even if they were beaten to death ...

Under the cover of the sea fog, the giant treasured ship galloped at its maximum speed for two hours. Everyone on the ship was also on tenterhooks for two hours, especially the helmsman who was most proficient in Maritime Affairs. He was so scared that he was numb.

A layman would just be watching the show-they'd probably just find it amazing, but to a practitioner like him, Lin Yi's actions were completely subverting his entire world view! He'd been driving in the fog for two hours, and nothing happened to him-there was actually a way to drive a treasure ship like this?

After a few more moments, the view before him suddenly brightened up. The visibility that had been a mere ten Zhang suddenly increased to several thousand Zhang, and it was rapidly increasing. The heavy sea fog quickly disappeared without a trace, and the scene before him once more became an endless blue sky and white clouds.

"Alright, I'll leave the rest to you." Only then did Lin Yi signal the helmsman to take over, and the crowd erupted in cheers. Everyone thought that they'd be skinned alive if not dead this time, but they didn't expect Lin Yi to just do this and pass it without any trouble!

"Little Junior Brother, you're amazing!" Shangguan LAN 'er grabbed Lin Yi's arm and said happily, dancing with the little Curly Bear. The people around them quickly made way for her. This little thing was still holding a pair of giant scissors in his hand, so they couldn't let it cut their manhood.

"Other things aside, this kid does have his own set of moves." In the corner, lingchong and Zhaoming looked at each other, envious and jealous as they watched Lin Yi become the hero of the crowd.

In fact, even LAN Tiefu, who was against Lin Yi at the start, couldn't help but look at Lin Yi in a different light. He'd never interacted with Lin Yi before, and all he knew about him was from rumors. He thought that Lin Yi was just like MA dang Qiang, the so-called super rookie King, a pretty face with fame more than strength. He didn't expect Lin Yi to be capable.

"You're indeed the winner of the escort party in the South continent. You've really opened my eyes this time." Gongyang Jie said faintly as he looked at Lin Yi.

Lin Yi was surprised. Gongyang Jie knew about this? However, after thinking about it carefully, the law enforcement Hall under this fellow was not only the law enforcement agency of the North Island's three pavilions, but also an Intelligence Agency. Something that even Shangguan Tianhua knew about would naturally not be a secret in his eyes.

"Hall Master Gongyang, you're too kind. It's just a small trick, not worth mentioning." Lin Yi said with a humble smile.

Gongyang Jie didn't say anything else. After exchanging a glance with LAN Tiefu, they both disappeared into the crowd. Since the crisis was over, they should continue to protect Shangguan LAN 'er in secret. They couldn't just stand there and do nothing.

They didn't talk for seven days, and the ship finally arrived at the dock. It was two days late because Lin Yi took a big detour, but it was still better than being trapped in the fog, or the spirit beast Pirates.

It was only two days late anyway. Ning Xuefei's birthday party was in three days, so it didn't matter.

The arrival of the giant treasure ship caused the originally busy West Island Pier to become even more lively. The pier was bustling with people, and almost everyone nearby had squeezed over to watch the show.

Lin Yi and Shangguan LAN 'er led the way out of the ship, while the rest of the people lined up according to their status. Gongyang Jie and LAN Tiefu were the only ones who disappeared, as they wouldn't show their faces in public.

"Hello, miss Shangguan. I'm Feng Lu, the special envoy for this reception. I'm here under the orders of the island master to wait for the distinguished guests from the North Island. You've had a hard journey." A woman from the crowd came up and greeted.

Lin Yi sized the woman up. She had the face of a young woman, but her looks were average, as if she didn't go through any cosmetic changes. What shocked him was that this Feng Lu didn't give off the aura of a master, but she was a master of the xuansheng stage!

It seemed that the West Island was filled with experts!
