

Bodyguard 4661

Chapter 4661 Qi Wenhan's Sweetheart

"Hehe, actually, if it wasn't for the sudden appearance of the old sect of West Mountain, I was going to refine a batch of elixirs for the bodyguard agency. Unfortunately, it happened so suddenly and I had no other choice. This time, I can make up for it for you, so don't waste time. This golden elixir of the Ying condensation was originally prepared for you. Quickly accept it." Lin Yi said with a smile.

Qi Wenhan couldn't say anything more. He nodded and said, ""If that's the case, then I won't stand on ceremony with you, brother Ling."

"It should have been like this earlier." Lin Yi smiled. In his eyes, Qi Wenhan was one of his own, just like his poor brother. He was never stingy to his own people, and it would be great if the Golden core could help him achieve something good.

"Speaking of which, I'm ashamed. Ever since we've known each other, I've always been indebted to you, brother Ling. If you want me to owe you a favor, it wouldn't be enough even if I sold my life to you. It seems like I can only work like a slave for you." Qi Wenhan said half-jokingly.

"Why are you working for me instead of being the young master of the bodyguard agency? brother Qi, don't forget that I still have 30% of the shares in the Qitian bodyguard agency. Helping you is helping myself. This is called a long-term investment, not a favor." Lin Yi chuckled, not thinking much of it.

"Hehe, if all the businessmen in the world invest like you, brother Ling, they'll probably have to live on air for the rest of their lives. They won't be able to recover their capital." Qi Wenhan smiled and shook his head. Then, he looked at the Golden core in his hand and said excitedly, ""To be honest, brother Ling, this golden core of yours is really a timely help. My father and I have been asking around for the Golden core of the nascent soul for half a year, but unfortunately, there is no stock in the South continent. You have solved my urgent need."

"Alright, hurry up and form your nascent soul. Then, you'll be able to get the daughter of the ship's King. I'm waiting to attend your wedding." Lin Yi chuckled.

"Don't worry, brother Ling, your words just now can be considered to have woken me up. Since I've encountered it, I must grasp it tightly. I definitely won't let myself regret it for the rest of my life," Qi Wenhan's eyes suddenly became hot again, and he was more determined than before.

"This is the brother Qi I know!" Lin Yi nodded in praise and chuckled, "Don't forget to send me an invitation when the time comes. I'll rush over no matter how far it is. I'd like to see how the daughter of the ship King is so embarrassing to be able to charm you."

"This ..." Qi Wenhan lowered his head and rubbed his hands. He was a little embarrassed. "Actually, she's also here this time. Brother Ling, if you really want to see her, you'll be able to see her in two days ..."

"What? I didn't see him. Was he sitting with you just now?" Lin Yi blinked. He'd only been paying attention to Qi Wenhan before, so he didn't notice the people around him.

"Well, I came here this time mainly to have more opportunities to contact her. She's mixed in with the South continent diplomatic mission, but this time it's a secret visit, so few people know her identity." Qi Wenhan laughed bitterly.

"Oh? Then I really have to find a chance to get to know him!" Lin Yi laughed as he looked at Qi Wenhan's embarrassed face. "Brother Qi, you're quite close to her. You're already together. Not bad, not bad!"

"Er, brother Ling, you've misunderstood. We haven't even started dating yet. We're only working together this time because our Qitian bodyguard agency is cooperating with her family's treasure ship transportation company." Qi Wenhan's face turned red again.

"What kind of cooperation?" Lin Yi asked, surprised.

"The South continent escort agency Alliance has a large batch of goods to deliver to the West Island. This used to be the four Seas escort agency's business, but now it's our Qitian escort agency's. Not only the West Island, but all the escort services related to the other sky-class islands will be our responsibility from now on." Qi Wenhan explained.

"This is not bad. If we can take over this business, the bodyguard agency will definitely be Reborn!" Lin Yi's eyes lit up.

An escort agency that was only limited to the South continent's Sea area and an escort agency that was spread across the five big Tianjie islands were on two completely different levels. Once Qitian escort agency could successfully digest these long-distance voyage services, their strength would definitely increase by leaps and bounds. They would definitely not be able to compete with the other escort agencies that were limited to the South continent's Sea area.

"Yes, my father and I both think that this business is the most important thing, and we can't make any mistakes. It's just that we don't have a treasure ship, and it's impossible for us to travel so far on an ordinary ship. That's why we decided to cooperate with the treasure ship transportation company. I also met her because of this ..." A silly smile suddenly appeared on Qi Wenhan's face.

Lin Yi couldn't help but chuckle. Qi Wenhan used to be a handsome young master, but now he'd become a silly, infatuated man because of a woman. The word "love" was really mysterious.

"Alright, brother Qi, you should stop being so infatuated. I'm getting goosebumps." Lin Yi shook his head, speechless.

"Same to you. Brother Ling, aren't you also plagued by love debts? now we are truly brothers." Qi Wenhan laughed.

"I'm not as infatuated as you are ..." Lin Yi curled his lips and changed the topic, ""By the way, how's the situation in the South continent? Has the spirit beast clan taken any action?"

"They've already started to take action. The seas, cities, and docks closest to the southern island have been taken over by the experts of the spirit beast clan. Although they're only maintaining order for the time being and haven't started collecting fees, everyone knows that it's only a matter of time." Qi Wenhan's expression turned heavy when he mentioned this.

"As expected, I can't hold back anymore." Lin Yi nodded. To be honest, it was already very unexpected that the spirit beast clan took so long to make a move. With the Vermillion bird's ambitious attitude, it was inevitable that it would get its hands on the surrounding South continent's Sea area. No one could stop it, unless they started a war with the spirit beast clan.

"It's all thanks to brother Ling's reminder earlier. Otherwise, our Qitian bodyguard agency would have suffered a huge loss! Do you know that the Holy Wind escort agency has fallen apart? because of their disobedient fleet, they were killed on the spot by the Masters of the spirit beast clan. After that, the Holy Wind escort agency has been destroyed every time they escort a ship. Now, they can't hold on any longer. This is the consequence of provoking the spirit beast clan. If we didn't prepare in advance, I'm afraid that our Qitian escort agency would be targeted. " Qi Wenhan said with fear.

"Divine Wind escort?" Lin Yi pondered for a moment before remembering that this was one of the five big escort agencies, and it was an old-time rich family like the four Seas escort agency!

Chapter 4662 The Actions Of The Spirit Beast

The divine Wind escort agency had a much deeper Foundation than the Qitian escort agency. They did not expect to be the first unlucky one. "Since the spirit beast clan has made their move, what are the reactions of the surrounding forces?"

"I'm angry, but I don't dare to say anything. At least in the South continent's Sea area, all of them added together are not even enough to fill the gaps between the teeth of the spirit beast clan. Of course, I don't even dare to let out a fart." Qi Wenhan smiled helplessly and said, "It's fine for now, but I'm afraid that the spirit beast clan will become more and more aggressive in the future. So, I came out this time with another mission, which is to communicate with the higher-ups of the West Island and see what the attitude of the West Island is. After this, the other forces will try their best to get in touch with them. It will be great if the human forces can join forces to restrain the spirit beast clan."

At this point, Green Dragon's image flashed through Lin Yi's mind, especially the attitude he showed at the party, and the words he said to him!

He was confused before, but now he understood. Green Dragon's intention was probably the same as Qi Wenhan's—they were both doing the same thing, just that they were on different sides.

The spirit beast clan was originally isolated from the world. Although they had taken the first step under the command of the Vermilion Bird, the Vermilion Bird was not a fool. He was not so stupid as to think that he could make an enemy of the whole world. Every time the spirit beast clan took a step forward, they had to carefully observe the reaction of the human forces. If they were besieged by the human forces before they had enough strength, even the spirit beast clan could not afford to suffer.

In this case, the new Azure Dragon, who had been promoted by the Vermillion Bird, became the best choice to deal with the human forces. He came to the West Island's birthday banquet not only to express goodwill, but also to have the same thoughts as Qi Wenhan. He wanted to take the opportunity to find out the views of the West Island's higher-ups on the situation in the South continent.

It wasn't just the West Island, the North Island and the other Sky Class islands were all people the Green Dragon had to deal with. Lin Yi couldn't help but smile-no wonder the Green Dragon was talking to him!

However, Lin Yi had forgotten one thing. The Azure Dragon had a mission to deal with the human forces, and he was indeed looking for an opportunity to visit the North Island, but that wasn't a reason for the Azure Dragon to talk to him. At least, it was far from enough.

Lin Yi was just a special envoy from the North Island, after all. He couldn't be compared to a top elder like Azure Dragon. If Azure Dragon wanted to visit the North Island, why would he look for Lin Yi? wouldn't it be better to look for LAN Tiefu?

The North Island, West Island, South continent, and even the middle Island-even Lin Yi himself didn't realize that he had connections with these places. He was a small figure, but if he wanted to play his role, he could be a key point that could move the entire South continent!

It was because of this that the scene at the birthday party happened-Lin Yi wouldn't even have the right to enter his eyes otherwise, let alone talk to him.

"A behemoth like the spirit beast clan is not something that a small force like the South continent's waters can contend with. To be honest, the final outcome of the South continent's waters has nothing to do with the local forces. It all depends on whether the spirit beast clan and the human forces of the other sky-class islands will eventually form some kind of tacit understanding or compromise. The key is the attitude of these big shots." Lin Yi muttered.

"That's right, I think so too. That's why I want to find a way to get in touch with the higher-ups of these islands. I don't expect them to provide any kind of assistance, but at least I have to figure out their attitude first. This way, I can be prepared in advance." Qi Wenhan nodded.

"Yeah, that's all we can do for now. If there's anything in the future, remember to let me know. I can't say for sure, but I have some connections in the Sky Class islands-I might be able to help," Lin Yi said after some thought.

"Alright, I'll remember that!" Qi Wenhan was overjoyed.

After that, the two chatted for a while longer. Qi Wenhan had the Golden core and couldn't wait to go back and break through. Lin Yi, on the other hand, needed to adjust his condition and consolidate his strength for the trial.

Ning Xuefei's short letter had completely dispelled all the doubts in Lin Yi's heart. This test was related to Ning Xuefei's lifelong happiness. He couldn't afford to lose it!

Time was tight, and he only had two days left, but Lin Yi decided to go into isolated practicing. He didn't hope for any shocking breakthroughs, but he wanted to at least master his strength. Lin Yi had a feeling that this test wouldn't be that easy, and it'd be a tough battle.

While Lin Yi was in isolation, Xu Lingchong and Kang Zhaoming, who were also staying in the envoy's residence, received an unexpected guest.

A middle-aged man with a white face and no beard knocked on their door. At first glance, this man looked very ordinary, belonging to the kind of person who would be hard to find in a crowd. If one had to say what special characteristics this man had, it could only be that this man's eyes were small and bright, which made people know that he was a shrewd businessman at first glance.

"I am Dongfang Guo, the manager of the central Chamber of Commerce's West Island branch. Greetings, special envoy Xu!" As soon as they met, this person gave Xu lingchong a deep bow. It was the standard superior-subordinate etiquette, and his posture was extremely low.

"Alright, you can come in." Xu lingchong and Kang Zhaoming looked at each other before inviting him into the room. Most of the people in the central Chamber of Commerce didn't know about the existence of central, but at the level of the branch manager, they must be like the North Island's SI tsunami, an internal member absorbed by central.

"Do you need something?" Xu lingchong continued to size up Dongfang Guo, who had come uninvited. He had not received any orders or news in advance, so he was a little confused about the visit of the shopkeeper of the Western Island branch. Could it be that he had simply heard the news and came to visit?

This was not impossible. Although the position of the branch manager seemed impressive, his position in central was far inferior to Xu lingchong, the special envoy of the North Island. It was very normal for him to find an opportunity to express goodwill.

"Envoy Xu, I received a secret order from the higher-ups yesterday to cooperate with you two and act as your logistical support." Dongfang Guo said respectfully.

"Logistics support?" Lingchong and Zhaoming's eyes lit up at the same time. "What can you help? A pill or a divine weapon?"

"Hehe, you two must be joking. Although our central Chamber of Commerce is also involved in these things, this is not the main product, and it may not be effective in a short time." Dongfang Guo paused and smiled mysteriously. "I've brought some high-tech materials this time. They should be of some use."

Chapter 4663 Smart Armor's Laser Cannon

"Oh? Quickly take it out and let me see. " Lingchong and Zhaoming's interest was piqued.

Dongfang Guo smiled slightly and lightly clapped his hands. Two manservants came in at the sound of the door. They were carrying a large chest that was half the height of a person and seemed to be struggling.

Kang Zhaoming couldn't wait to open the box. He took in a cold breath when he saw what was inside, "F* ck! Isn't this a laser cannon? There's even an AI armor?"

Even in the secular world, these two things were extremely rare. Ordinary people couldn't get them at all, let alone on this Sky Class Island. The center was really awesome, to be able to get these two things!

"These two items should be able to help you. I wish this brother Kang success!" Dongfang Guo smiled as he complimented.

"Hahahaha, that's for sure. With this equipment, I'm not afraid of anything!" Kang Zhaoming couldn't help but be overjoyed. He could make up for his lack of strength with equipment. With the laser cannon and smart armor in his hands, he wouldn't be afraid even if he faced Lin Yi!

Lingchong, on the other hand, was confused at Zhaoming's excitement. He studied the laser cannon and the smart armor, "What's wrong? Is this thing really that good?"

As a member of the center, he had seen many technological products from the secular world. However, the impression that those things gave him was nothing more than novelty. They were quite convenient to use, but it was absolutely nonsense to say that they were powerful, especially these so-called high-tech weapons. To sum it up, they could be summed up in four words: flashy but useless.

It sounded awesome, but that was only limited to the scope of ordinary people. It was difficult enough to deal with Foundation establishment experts, let alone Yuanying stage, which was far above the foundation establishment stage. What use could these two things have in the West Island trial?

"Young master Xu, don't underestimate the high-tech weapons of the secular world, especially the laser cannon and the smart armor. The power and effect are absolutely unimaginable without seeing it with your own eyes." Kang Zhaoming's eyes lit up as he looked at the two pieces of equipment. They were sent to him at this time. It was like they were made for him.

"You're not exaggerating, are you?" Xu lingchong was still skeptical.

"Hehe, young master Xu, you don't know this. Many people in the secular world say that the completion of the heaven class is a land atomic bomb, but that's just bullsh * t. At most, it's just destructive and intimidating! And this laser cannon is a super high tech weapon that's rare in the common world. Its power is far beyond normal technology-I think it can even pierce through a xuansheng master, let alone a mere Yuanying Lin Yi!" Kang Zhaoming said confidently.

"Really?" Xu lingchong's eyelids twitched when he heard this. If a xuansheng stage expert could be penetrated by a cannon, then wouldn't this be a super killer weapon? If that was the case, then this item was worth a lot. The higher-ups had really put in a lot of money for this West Island trial.

"It's absolutely true. Young master Xu, don't think that the most powerful weapon in the secular world is the nuclear bomb. That thing is only powerful enough to kill ordinary people. Although ordinary cultivators can't withstand it, it's probably useless against experts at the level of the original infant stage. But this laser cannon is different!" Zhaoming licked his dry lips and said excitedly, "A laser cannon is not a weapon of mass destruction like an atomic bomb. Instead, all its power is concentrated in one place. The terrifying penetrative power and lethality of the laser cannon are unimaginable. Nascent Soul Stage cultivators can't take it, and I don't think xuansheng stage cultivators can take it either. I even suspect that no cultivator in the world can take it!"

"That's impossible. The real top-tier Masters are not what you can imagine. No matter how powerful the technological weapons are, they are just a pile of scrap metal in front of them. Otherwise, they would be invincible in the secular world." Xu lingchong pouted.

He'd never been interested in the so-called technology of the common world-to be more precise, he looked down on the common world. Plus, his understanding of the strong was far beyond a weak half-assed like Zhaoming. Even the strongest practitioner couldn't block a small laser cannon? Nonsense!

"Yes, yes, young master Xu is right, but the damage of a laser cannon can't be underestimated. I can guarantee that it'll be more than enough to deal with Lin Yi!" Kang Zhaoming smiled apologetically.

"Well, that sounds interesting. But what's a land-based atomic bomb? what is that?" Xu lingchong suddenly asked.

"Uh ... It's one of the most powerful weapons in the common world. I can't explain it in a few words. Simply put, if the West Island was hit by a heavy-weight nuclear bomb, the West Island would probably disappear from the Sky Class island's territory ..." Zhaoming explained after thinking about it.

"It's that awesome?" Xu lingchong was shocked and said in disbelief, ""The West Island has all kinds of super defense arrays. Once they are all activated, even the big shots in the beginning of the mountain can't do anything. Are you kidding me?"

"Hehe, I'm just making an analogy. If the Western part of the island didn't have a defensive array and were all ordinary people, one atomic bomb would probably destroy them even if they didn't sink. That's why this thing is so terrifying in the secular world." Zhaoming explained.

"Oh, really? That's not simple. I didn't expect the secular world to be so capable to even be able to create such a thing. " Xu lingchong nodded.

"Hehe, this brother Kang seems to be very knowledgeable about these things. You've truly opened my eyes." To the side, Dongfang Guo also laughed.

"Oh, he's from the secular world. It would be strange if he didn't know about this." Xu lingchong curled his lips and said.

"Oh, oh, oh, I'm sorry, no wonder brother Kang is so familiar with laser cannons and smart armors. You must know more than me, so I won't introduce you to them, in case you show off in front of an expert! To be honest, I don't really understand this thing either. It's a good thing I met a smart person like you, brother Kang!" Dongfang Guo said with a sigh of relief.

"No problem. Don't we have the instruction manual here? anyway, there's still some time before the trial starts. I'll just study it for a while. Leave it to me, haha!" Kang Zhaoming smiled proudly. He couldn't wait to start fiddling with it. This was his capital and support against Lin Yi. Whether or not he could get ning Xuefei in one step would depend on this thing!

Two days passed by in a flash. Although Masters from all the sky (class islands had gathered on the West Island

Chapter 4664 Haunting Ghost

Early in the morning, people from all walks of life gathered in the square of the island master's Palace. Although there was no specific division of areas, everyone consciously divided themselves into several areas, just like the birthday banquet before. The cultivators from each place gathered in one place.

When Lin Yi, accompanied by Han Jing Jing and Shangguan LAN 'er, arrived at the square, the registration for the test had already begun. The procedure was simple-everyone only needed to sign their names on the test list. As long as they didn't exceed the strength of the original infant stage, there were almost no other requirements. It could be said that this was the most relaxed condition the test had ever had.

Of course, there was still a minimum requirement for one's strength to participate in the trial. One had to be at least a golden core stage expert. Otherwise, even if they went to the ancient battlefield ruins, they would only be throwing their lives away and it would be meaningless.

Lin Yi looked at the stage and was disappointed to see that ning Xuefei and ning Shangling, the Lord of the West Island, were not here. The person in charge of the test was the Vice-Lord, Yan Xinlan.

"Only those below the original infant stage can participate in the trial. It's useless to hide your strength and try to pass the trial. Because this is not judged by us, but through a special transportation spell. This spell is very strange, only those below the original infant stage can be transported. If your strength is

above that, you don't have to waste your time and try to avoid embarrassment." Yan Xinlan looked at the bustling registration crowd and said indifferently.

After she said that, a few people in the crowd stepped out in embarrassment. They might not be here to fight for ning Xuefei. They probably just wanted to go to the ancient battlefield ruins. After all, not only were there all kinds of natural treasures, but if they were lucky, they could even obtain ancient inheritances. Even a xuansheng stage master would be jealous.

Lin Yi smiled at the sight-there were really all kinds of people in the face of heavy profits. He turned to Han Jing Jing and Shangguan LAN 'er and said something before squeezing into the crowd to sign up.

"Brother Ling!" Someone patted Lin Yi's shoulder as he was signing the papers. It was Qi Wenhan.

"You're here. " Lin Yi turned around to greet him and noticed that there was a girl standing beside Qi Wenhan. He looked at Qi Wenhan's awkward expression and immediately understood that this girl was Qi Wenhan's sweetheart, the daughter of the ship's King.

Lin Yi's interest was immediately piqued. He couldn't help but take another look at the girl. She was dressed very ordinarily and didn't stand out in the crowd. Even her looks could only be considered ordinary. Overall, she gave people the feeling that she was a very ordinary girl. There was nothing special about her. When she was compared to Shangguan LAN 'er, ning Xuefei, and han Jingjing, there was no comparison at all.

However, Lin Yi quickly noticed something strange. Although the flaw was small, it still couldn't escape his eyes. The person's appearance was disguised!

Most people wouldn't be able to tell, but Lin Yi didn't just look at the appearance, he paid more attention to the aura. Looks were easy to fake these days, but the aura was hard to change. At least the aura of this woman was different from her normal appearance, and he could tell that she had changed her appearance.

However, this was not surprising. It was much more dangerous for female cultivators to travel outside than for male cultivators, not to mention that she was the daughter of the ship King. This time, it was a secret mission, so it was normal for her to change her appearance.

"Hello, I'm Lin Yi, brother Qi's friend," Lin Yi looked at Qi Wenhan mischievously and introduced himself.

"I'm Xia luoluo. You're very famous in the South continent sea. Wenhan always says that you two are Good Brothers. I've finally seen you in person today." The woman nodded with a generous smile.

"Hehe, I've embarrassed myself in front of miss Xia." Lin Yi raised an eyebrow at Qi Wenhan. He'd thought that the daughter of the ship's King was too high and mighty to get close to after hearing how inferior he was. Now that they were so close, it seemed like they'd be able to attend the wedding soon.

Only now did Lin Yi reevaluate Qi Wenhan. He realized that this guy's aura was completely different. He had successfully formed his nascent soul and was now a true-blue nascent soul beginner. No wonder he was so confident.

"Ahem, by the way, brother Ling, are you signing up alone this time?" Qi Wenhan was embarrassed by Lin Yi's stare. He was afraid that Lin Yi would say something he shouldn't. After all, his relationship with Xia luoluo was not clear yet. He quickly changed the topic.

"That's right. I don't go out in pairs like you guys. Looking at your posture, you should be registering to participate, right?" Lin Yi smiled playfully. Shangguan LAN 'er and han Jingjing wanted to go with him, but the Western Island trial was full of danger, and he couldn't guarantee their safety, so he persuaded them to stay. After all, it wasn't for fun this time, and for ning Xuefei's lifelong happiness, he couldn't afford any mistakes.

"Uh ..." Qi Wenhan and Xia luoluo looked at each other. After their eyes met, they quickly separated. Xia luoluo blushed and lowered her head, while Qi Wenhan quickly said, "We're participating for the treasures, not to compete with you for the princess of the West Island. Please don't misunderstand. "

"I know, that's why I said you two always go out together." Lin Yi's words made Qi Wenhan and Xia luoluo's faces turn even redder. They lowered their heads and didn't say anything. They glanced at each other from time to time, but they looked away as soon as their eyes met.

Lin Yi couldn't help but smile. He said this on purpose for this effect-there had to be a layer of paper between men and women at a certain level. He was going with the flow so that Qi Wenhan wouldn't waste too much time thinking about things.

As he spoke, Lin Yi had already written his name on the register. He scanned the list and saw two familiar names-Xu lingchong and Kang Zhaoming.

"Heh, as expected, it's like a ghost that won't leave." Lin Yi smiled coldly. He'd noticed it from the banquet. These two seemed to be trying to smear his name, especially to ruin his relationship with ning Xuefei. He didn't know what they were planning. Did they really want to be ning Xuefei's husband?

One was not a man, and the other was just a villain who could do nothing but ruin things. How could these two people compete for ning Xuefei? You must be joking!

After a short while, everyone had finished their registration. Yan Xinlan who was standing on the stage opened her mouth and said, "Alright, I'll now explain the things to take note of in this Western Island trial. I hope everyone will listen carefully because this is not only related to whether you can win or not, but also directly related to your lives. I'm here to seriously remind everyone that the Western Island trial is very dangerous."

Chapter 4665 Very Dangerous!

As soon as he finished speaking, the entire place went silent. Everyone's eyes were focused on Yan Xinlan. Since this matter concerned their lives, they did not dare to let their guard down.

"The rules of this trial by fire are that there are no rules. There is no limit to the number of participants, nor is there a time limit. You can decide when or when to take the trial." Yan Xinlan said.

The entire place was in an uproar. For those at the level of the original infant stage, everyone present had participated in countless trials, big and small. Every trial would have its own rules. Some were strange, some were complicated. However, it was the first time they encountered a trial without any rules like what Yan Xinlan had said.

After listening to this, the clever cultivators were already eager to try. One by one, they began to make all kinds of calculations. Since there were no rules, there was a lot of room for operation. If they did not plan well, not only would they not be able to get the top spot, but they might even suffer a big loss!

However, a small group of people, including Lin Yi, looked serious. It sounded like there was freedom without rules, but it also showed the danger level of this test. The legendary ancient battlefield ruins might be so dangerous that it didn't allow any human rules anymore. Survival was the only thing there.

After taking in everyone's expressions, Yan Xinlan continued, "In this trial, you will be teleported to the West Island through a special teleportation array. As for the way back, you will also have to use the

teleportation array over there. As long as you use your true energy to attack the eye of the teleportation array, you will be able to activate it. However, I have to remind you that it's best to act within your means, or you will not be able to return."

"You can't come back? What do you mean by that?" Everyone was shocked.

"The reason is simple. The longer the time is delayed, the more Qi is needed to activate the teleportation array. We have tested it before. Even for a master of the great circle of the Yuanying stage, a month is the limit, because that will consume all of his Qi. If the time is delayed any longer, the consequences can be imagined." Yan Xinlan said indifferently.

Everyone couldn't help but look at each other when they heard this. Although there were no trial rules, this condition had naturally set the time limit of the trial, which was a month at most, because the peak of the nascent soul realm was the maximum strength to participate in the West Island trial. Those who were weaker had a much shorter time than this.

"Vice Island master Yan, there seems to be a loophole in your words. Since we can activate the teleportation as long as we inject enough true Qi, we just need to work together, right?" Someone in the crowd suddenly asked.

"Hehe, that's a beautiful dream. Unfortunately, it won't work because only one person can go in at a time. If you want to activate the teleportation array, you have to pour in your Zhen Qi from the inside. It's impossible to ask others to help you from the outside, or to take advantage of the opportunity and wait for others to activate the teleportation array. So, I hope that everyone won't be greedy. Otherwise, if time passes and you can't come out, you really can't come out." Yan Xinlan swept her eyes across the crowd and said.

After saying this, the whole place fell silent. Everyone's face was a little uncertain. Everyone's time limit was different. If they didn't grasp the time well, it would be troublesome. If they came out too early, they would definitely be at a disadvantage. But if they came out too late, they might not be able to come out at all. That would be even worse. They were really in a dilemma.

"If I may ask vice Island master Yan, since there are no rules in this trial, how do we determine the winner? This is related to who can become the princess's husband. There must be a clear standard, or else the public will not be convinced!" Someone suddenly asked in a loud voice.

The words excited the crowd-many of them had the same thoughts as Kang Zhaoming, hoping to use this once-in-a-century opportunity to reach the heavens!

"It's very simple. Whoever obtains the most heavenly treasures in the trial will be the final winner. " Yan Xinlan's answer was concise and to the point. Seeing everyone's different expressions, she immediately added,"Of course, the treasures you've obtained are all yours. The Western part of the island doesn't want any of them, so there's no need to hide them. Each of them has a corresponding value, and they'll be converted into spiritual jades at the average price of each Chamber of Commerce!"

After receiving this answer, everyone fell silent. Although heavenly treasures themselves could not directly express anything, in this crisis-ridden West Island trial, they could indirectly see a person's strength and ability, which even included things like opportunities and luck. It was reasonable to use this to measure.

"Alright, since no one has any more questions, let's line up and prepare for the teleportation." Yan Xinlan immediately announced.

Under the guidance of the disciples, everyone lined up and prepared to go to the teleportation formation. Suddenly, there was a commotion at the back of the line. Lin Yi looked over and froze.

Everyone's eyes were focused on one person-Kang Zhaoming!

However, he was fully equipped at this time. Not only was he wearing the smart armor, but he was also carrying a laser cannon on his shoulder. He looked so arrogant and majestic, just like Megatron in Transformers! In contrast, Xu lingchong, who was walking beside him, was completely ignored.

"What is this? He looks very fierce?" Everyone looked at each other. They were all natives of the Sky Class Island, so of course they didn't know what this super high-tech thing was. They thought it was some kind of divine weapon. After all, the West Island trial never said that weapons were prohibited.

At this moment, almost everyone had an expression of not knowing what it was. Although they didn't know what it was exactly, they knew that it was definitely not to be trifled with based on its awesome appearance. They couldn't help but feel a little afraid. These were all the competitors they were going to face next!

In comparison, Lin Yi and han Jingjing's expressions were a little subtle!

The others might not know, but the two of them knew what they were. Even Lin Yi was no stranger to these two things, let alone han Jingjing who was a technological geek.

After all, he used to be an assassin, and such weapons were not only equipment that he could use in missions, but also threats that he had to be extremely careful to deal with. How to deal with high-tech weapons was one of the key subjects he studied.

Lin Yi was stunned by Zhaoming's cocky attitude, especially the smart armor and laser cannon.

Although the central Chamber of Commerce had already caused a technological boom on the Sky Class Island, he never dreamed that he would encounter a situation like this on the West Island. An advanced practitioner against a super high-tech weapon! What kind of battle was this?

"Lin Yi bro, be careful. That's not something good. It looks pretty powerful, and this kind of technology isn't something that the common world has. It's either just to scare people, or ... I'm afraid that normal practitioners can't handle it." Han Jingjing looked a little worried.

Chapter 4666 This Is Called The Gap

"Why don't we bring Jing Jing along for this trial?" he suggested. "Although she won't be of any help in a fight, I should be able to find a way to deal with it if this thing is real."

"Yes, yes, I'm going too!" Shangguan LAN 'er was also eager to try, "I've never seen such a novel thing before. I have to take a good look at it. I'll ask Grandpa to buy one when I get back. It's so fun to see!"

"No!" "No!" Lin Yi said without hesitation. Han Jingjing was reliable, but Shangguan LAN 'er was just a troublemaker. She didn't understand the situation at all. He shook his head firmly, "The two of you can't go. It's too dangerous. With your strength, you don't even have the power to protect yourself. If something happens, I can't do anything!"

With Lin Yi's strength, he should be able to protect himself in there. Even if something happened, he should have room to maneuver. But with the addition of Han Jing Jing and Shangguan LAN 'er, he might not even have the chance to save them if they were in danger-where would he cry to if someone were to die?

"But ..." Han Jingjing was still worried. The smart armor was only a defensive equipment, so it was fine. But Kang Zhaoming's laser cannon was too dangerous. It seemed to have a super long range and power. What if this guy used it to harm Lin Yi?

She'd always known that her Lin Yi bro and Kang Zhaoming weren't on good terms. To be more precise, Kang Zhaoming was the one with bad intentions.

Lin Yi knew about these super high-tech weapons, but he'd never actually come into contact with them, let alone experience them! Especially with this new type of unknown laser cannon, if they really fought, they might not know where to start. Even if it was just a moment of negligence and wrong judgment, the consequences would be unimaginable!

In this aspect, Han Jingjing was really useful-she'd never come into contact with it before, but as long as she saw how the laser cannon worked, she'd be able to see the flaws in a very short time and come up with a strategy to deal with it, so Lin Yi wouldn't be completely in a passive position.

"No buts, there's no room for discussion. You two must stay here and wait for my return!" Lin Yi rarely got serious with Han Jingjing and Shangguan LAN 'er. Putting the two girls in danger for his sake was something he would never agree to.

Seeing Lin Yi's determination, Han Jing Jing and Shangguan LAN 'er looked at each other and shook their heads helplessly. They knew that they wouldn't be of much help to Lin Yi if they went with him, and would only be a burden.

"How about this-Lin Yi bro, you take this with you, and if anything happens, contact Jing Jing-she'll help you!" As Han Jingjing spoke, she suddenly took out a small item from her pocket.

"What is this?" Shangguan LAN 'er went up to her curiously, while Lin Yi's eyes twitched when he saw it. His expression was even more shocked than when he saw the smart armor and laser cannon. The little thing in Han Jingjing's hand was a phone!

"Ah? This thing has a signal?" Lin Yi's jaw dropped.

Speaking of which, he even had a phone in his Jade space. He used it to secretly film Yu Zhe killing his teacher, but other than taking photos and videos, it had no other use. After all, there was no signal on Sky Class Island!

"Yes, yes. Jingjing asked Feifei to order this from the central Chamber of Commerce. There was no signal at first, but Jingjing specially modified it and set up a small base station herself. She wrote an authentication code, so it can be used normally. However, the range is limited to the Western Island because the base station's coverage area is only this small." Han Jingjing said in a matter-of-fact tone. She didn't think that her words would have such a huge impact on the ears of others. Fortunately, the people present were all natives of the Sky Class Island, so they didn't understand what she was saying.

"So advanced?!" Lin Yi, on the other hand, couldn't close his mouth for a long time, speechless at Jingjing's nonchalant expression. This was child's play to her, but it was a fantasy to others. At least, Lin Yi himself couldn't do it even if he was beaten to death. A phone was just a camera in his hands ...

"Hehe, I didn't have much to do in the West Island for the past two years anyway, so I found something to study. At first, Feifei thought it was very new and wanted to call Jingjing even though they were separated by a room, but then she threw it aside." Han Jing said with a smile.

"You two haven't told me what this is. What's the point of calling?" Shangguan LAN 'er was panicking on the side, wanting to grab the phone and take a good look at it, but han Jingjing handed it to Lin Yi first.

"This is called a mobile phone. It's also a technology product of the secular world. I'll explain it to you slowly later. Feifei has another one. I'll let you play with it when we get back!" Han Jing said with a smile.

"Oh, oh!" Only then did Shangguan LAN 'er nod like a curious baby, but her eyes were fixed on the phone the whole time, shining from time to time. Under Lin Yi's subtle influence, this girl was already addicted to the secular world.

"Well, if that's the case, I'll bring it with me. It'll be easier to contact you at any time. Who knows, I might really need to ask you for help." Lin Yi nodded as he took the phone. Han Jingjing was more than capable of being an advisor when it came to high-tech weapons.

However, he was a little worried about whether it could still be used normally when they reached the ancient battlefield ruins. After all, according to han Jingjing, although the small base station she had set up covered the West Island, it was hard to say whether it covered the ancient battlefield ruins or not. He did not know how far the ancient battlefield ruins were from the West Island, and it was likely that there would be no signal.

Of course, it was better to bring it than not. If there was a signal on the other side, it would be a great deal. There would be no loss anyway.

While Lin Yi and han Jingjing were talking, Kang Zhaoming had already walked over under the attention of the crowd. He looked like he was enjoying the feeling of being the center of attention.

To be honest, Kang Zhaoming had always been a clown in front of a weirdo like Lin Yi. He never had the chance to show off like this. It was rare for him to show his face with the smart armor and the laser cannon. It was an unprecedented opportunity.

"Hahahaha, isn't this Lin Yi? Is there something wrong with my eyes or is my mind confused? why am I seeing my phone? Do you think this is the secular world where you can still make a phone call?" Kang Zhaoming saw the phone in Lin Yi's hand and burst into laughter. He felt superior.

They were both technological products, but he was wearing the latest smart armor and laser cannon from Central's Dr. Benjamin the second, while Lin Yi only had a useless phone. This was the difference!

Chapter 4667 Masked Beauty

To his surprise, Lin Yi only looked at him indifferently and replied seriously, ""Yes, I can."

"You can? Hahahaha, Lin Yi, you're really something-this is the funniest joke I've ever heard in my life! Why don't you just become a comedian!" Kang Zhaoming laughed so hard that he almost rolled on the ground.

"What's wrong? Is it funny?" Lin Yi looked at him with a smile, "Don't laugh at me. Hurry up and find a mirror to look at yourself. What are you wearing? are you ready to change your career to Ultraman?"

"Hmph, if I'm Ultraman then who's the monster? Lin Yi, do you want to try?" Kang Zhaoming hmphed coldly and stared at Lin Yi with bad intentions, "Hehe, I'll say the ugly words first. After we enter, it's best if you don't provoke me. Seeing that we're all disciples of the North Island's three pavilions, I don't want to bear the infamy of killing fellow disciples. However, if you don't have eyes, Hmph Hmph ..."

It wasn't easy to get the smart armor and the laser cannon, so he really did want to kill Lin Yi. After all, this was a rare opportunity, but he gave up on it when he thought about the orders from his superiors.

After seeing how scary central was, he wouldn't dare to go against the will of the mysterious man even if he had ten thousand guts. No matter how strong the weapon was, Zhaoming wouldn't dare to go against it. The mysterious man gave him the weapon, and if he really wanted to, the mysterious man didn't even have to do anything. He could just control the weapon and self-destruct, and he wouldn't even know how he died!

But come to think of it, the mysterious man had warned them not to mess with Lin Yi, but both Xu lingchong and Kang Zhaoming understood that the higher-ups didn't want to kill Lin Yi yet. Their mission was to prevent Lin Yi from becoming ning Xuefei's husband, so it was natural to target this guy during the test.

Since he couldn't kill her, he could at least cripple her, right? She'd suffered so much from Lin Yi before- she had to get some interest back!

The people around them could tell that the atmosphere was tense, but they couldn't understand Lin Yi and Kang Zhaoming's heated conversation. They were all confused.

These two guys were full of common vocabulary, and it would be a miracle for the Sky Class Island natives to understand them. They didn't even understand what they were talking about. Ultraman? What the hell was this?

Looking at Kang Zhaoming's proud expression, Lin Yi couldn't help but smile. The smart armor and the laser cannon couldn't be underestimated, especially the latter, which was a killer weapon used to kill people. But this guy thought that he could deal with him with just this? he was too naive.

Did he really think that all high-level cultivators were useless? Normal nascent soul masters were already scary enough, and it was still unknown if they could even be killed by a laser cannon, let alone someone like Lin Yi who was way above normal nascent soul.

It seemed like Kang Zhaoming really didn't have a good memory. All the losses he had suffered before were taken by a dog. He was a rare weirdo.

Lin Yi smiled, too lazy to waste his breath on Kang Zhaoming. He'd rather spend his time talking to han Jingjing and Shangguan LAN 'er. He didn't have the habit of wasting his breath on an idiot.

To Lin Yi's surprise, he heard a woman's voice. "What's Ultraman?"

Someone actually took the initiative to talk to him? Lin Yi froze and turned his head to see a woman wearing a veil slowly approaching!

Although her face couldn't be seen clearly, her figure was extremely exquisite. Even the loose robe couldn't hide her graceful movements, making people feel a sense of pity.

It wasn't just Lin Yi-everyone was looking at the girl, especially the men. They couldn't help but gulp, their eyes burning.

Shangguan LAN 'er and han Jingjing were both stunningly beautiful. No normal woman could compare to them. Only the princess of the West Island, ning Xuefei, could be compared to them.

Of course, in terms of beauty, the West Island's Island master ning Shangling was not inferior to them. It was just that this super important figure's power and Halo were too dazzling, and normal people would not even think about her beauty.

However, although the woman who appeared this time did not reveal her face, her figure alone was already on the same level as Shangguan LAN 'er and the others. Because she was wearing a veil, she was even more attractive than Shangguan LAN' er and the others!

For men, the unknown was always full of mystery and Imagination, making them unable to stop.

"Hey, beautiful! I'm Kang Zhaoming, this is my God-tier armor! It's very powerful! Why don't we form a team after we enter? I'll take you, and I guarantee that you'll return with a full load!" Kang Zhaoming's eyes were shining and he was drooling. He couldn't hide the lecherous look on his face.

Although there were also beauties like this in front of him, he didn't dare to touch Shangguan LAN 'er. Han Jingjing was clearly Lin Yi's woman. As for ning Xuefei, he had to wait until he passed the test. These beauties were all for him to look at. But now, an unfamiliar woman had suddenly appeared, a stunner who was probably not any less beautiful than the three women. How could this not make people go crazy?

Lingchong Xu frowned at Zhaoming's invitation, but didn't say anything after seeing the girl.

Ever since the plan was reported to the higher-ups, lingchong was still the person in charge, but the actual leader had become Zhaoming. So Zhaoming had some say in things, and it was a pleasure to have such a beautiful girl with him. It was something any man would want, even an incomplete man like lingchong wouldn't resist.

"Oh ..." The girl looked at the pig-like Kang Zhaoming and nodded noncommittally. She turned back to Lin Yi, ""Then can we form a team for the trial together?"

The words caused another uproar, and all the men looked at Lin Yi with envy and jealousy, as if they wanted to eat him alive.

There were already so many beautiful women around him, and now there was a new one who took the initiative to talk to him. Damn it, this kid's luck with women was too much. Was there any justice in this? How could they, single dogs who no one cared about, bear this?

Lin Yi frowned and looked at the girl in front of him again. He couldn't help but wonder why she wanted to form a team with him for no reason.

Chapter 4668 Inviting A Team

"I'm sorry, I'm not interested in forming a party. " Lin Yi rejected in front of everyone without any hesitation.

F * ck! Everyone was going crazy-it was already surprising enough that the girl was the one who initiated the conversation, and Lin Yi just rejected her without a second thought. What the hell was this?

"Oh ..." The girl couldn't help but feel a little disappointed. She continued to stare at Lin Yi for a few seconds but didn't persist. She probably realized that it was too weird to pester Lin Yi like this.

However, what made everyone look at each other was that although the girl didn't continue to team up with Lin Yi, she didn't leave after being rejected. Instead, she went with the flow and lined up behind Lin Yi. It really made people speechless.

"Beauty, this kid is a blind man who doesn't know what's good for him. Why don't you just ignore him and consider me? My strength isn't something that an embroidered pillow like this can compare to. I guarantee that your wishes will come true, how about it?" Kang Zhaoming still didn't give up as he followed behind the girl.

However, the girl didn't respond to him. She continued to line up behind Lin Yi, looking up at Lin Yi from time to time, as if she was thinking about something.

Lin Yi couldn't help but feel a little uncomfortable with this pair of eyes staring at him from behind. He couldn't help but be on alert. What was this girl doing? why did it feel like she was targeting him for something else?

Shangguan LAN 'er and Han Jing Jing were also looking at the girl as she was checking Lin Yi out, chuckling from time to time. They didn't mind the girl's unexpected behavior at all, but they were curious.

While they were talking, they had already lined up in front of the transmitting formation. This was the side courtyard of the island master's Palace, which was heavily guarded. The West Island's experts were everywhere. Although they were all female cultivators, no one dared to be rash because of their imposing aura.

"Alright, after you've verified your identity, please line up for the teleportation. Good luck." After Yan Xinlan finished speaking, she stepped aside and left the rest to the two deacons of the West Island. One was in charge of verifying the identity and the other was in charge of guiding the teleportation.

No one dared to cause any trouble at this time, and naturally, there wouldn't be any chaos. Everyone teleported in an orderly manner, and soon it was Lin Yi's turn. When he finished checking his identity and was ready to enter the teleportation array, he finally knew the identity of the veiled woman behind him.

The girl's name was Huo yudie, and she was a student from the East continent's Morning Pride Yellow Class Women's Academy. However, she did not know if she was a disciple of Vice Principal Liu Ziyu. Since she was able to follow them to the West Island, her status must not be too low.

"Little Junior Brother, you can do it! Feifei and the rest of us are waiting for you!" Shangguan LAN 'er waved her hands as she saw Lin Yi walk into the teleportation formation, but she quickly realized the hidden meaning after seeing Lin Yi's weird expression. She blushed immediately. Ning Xuefei was waiting for Lin Yi to become her husband, what was she waiting for?

"Be careful, Lin Yi bro, keep in touch with Jingjing!" Han Jingjing, on the other hand, was making a phone call. Everyone around was confused. The ancient battlefield ruins were completely isolated from the West Island, and they could only enter and leave through the teleportation formation. How could they contact each other at any time? Was he dreaming?

"Don't worry and just wait for me to come back. " Lin Yi smiled and waved at the two girls before turning around and entering the portal.

He looked around-the formation wasn't as big as he'd imagined, and it was even smaller than the ones he'd been through before. It could only transport one person at a time, and the special thing was that the ones he'd seen before all used Qi from spirit Jade as energy, but this one required Qi-it was the pros and cons of both.

Lin Yi slowly channeled his Qi into the stone slab in the middle, activating the portal. Since the test had just started, the portal didn't require much Qi, and it was fully activated after a short while. Lin Yi felt his vision blur, and his surroundings were completely different.

The ancient battlefield! Lin Yi was still in the formation, but he could already feel the terrifying aura coming at him. All kinds of killing intent, hostility, and fierceness were mixed together. Under such a terrifying pressure, the weaker ones wouldn't even be able to breathe, let alone come out.

As expected, this was an arena specially built for experts. The ancient battlefield was indeed not in vain.

Lin Yi scanned his surroundings after exiting the formation-he couldn't see anything special about this place, other than the presence that was everywhere. It was a narrow Valley from the terrain, and other than the cliffs on both sides, there was only the grey sky.

At this time, the people who had been teleported here didn't leave, because there were two female cultivators from the West Island guarding the teleportation array exit. Judging from their auras, they were both at the peak of the original level. It was obvious that they had been sent here in advance and seemed to have something to say.

After a while, all the participants were teleported. When everyone appeared in the canyon, one of the female cultivators said,""We will be waiting for you here for a month. When you return, we will guide you to attack the formation core. As for the other matters, you can only hope for the best."

Everyone instantly understood that the two female cultivators were afraid that a fight would break out at the teleportation formation, so they had been sent to supervise and maintain order.

However, there was nothing wrong with this. The key to the West Island trial was the teleportation array. Once the teleportation array failed or was destroyed, there would be no way to enter this ancient battlefield ruin again. Anyone would put great emphasis on protecting it. If someone with ulterior motives did something that harmed others without benefiting themselves, it would be a huge loss for the West Island!

Moreover, there was another point. Once it reached the later stages of the trial, some people would be trapped here because they had missed the teleportation time. It was hard to guarantee that they wouldn't have some ulterior motives. They might even attack others with the intention of dragging others down with them. If that happened, the meaning of the trial would be completely lost. At that time, how would they explain it to the other forces on the West Island?

After all, these were the elites of their respective islands. If they died here because they were not as good as the others, then there was nothing to say. However, if this was the reason that caused everyone to die with them, then no matter what, it would not be justified. At that time, the West Island would definitely become the target of public criticism.

Just in case, Yan Xinlan had specially sent two Yuanying stage experts to guard this place. This was already the strongest force among the people participating in the trial, enough to have a deterrent effect.

Chapter 4669 What Is A Rich Man?

Everyone looked at each other and silently calculated. Then, they walked toward the exit on both sides of the canyon. From this moment on, they were competitors. Even without a big prize like the princess of the West Island, they had to be extremely vigilant when it came to the treasures. Things like killing and stealing treasures had long become common, so they had to be on guard.

"Brother Ling, why don't the three of us go together?" Qi Wenhan brought Xia luoluo and moved closer to Lin Yi. This was a natural thing to do with their relationship.

"I'm fine with it, but brother Qi, are you sure this is appropriate?" Lin Yi, on the other hand, looked at the two with a mischievous expression.

"Uh ..." Qi Wenhan blushed. The trial was a rare chance for him and Xia luoluo to be alone. Maybe one trial could make their relationship warm up quickly. This was what he had been dreaming of. If Lin Yi was a third wheel in the process, it would be hard to say.

The three of them would be safe together, but it would be a waste of such a good opportunity!

Qi Wenhan had also said that Xia luoluo, the daughter of the boat King, had no lack of suitors. If she missed this opportunity, she might not be able to find another chance to cultivate feelings in the future!

Qi Wenhan sneaked a glance at Xia luoluo and saw that her face was slightly red. She lowered her head and didn't speak. For a moment, he couldn't understand what she meant. Was this tacit consent or was she simply shy?

Of course, this was a silent consent. Qi Wenhan was a bystander, but Lin Yi saw it clearly. He laughed, ""Actually, I have something important to do this time. Let's split up. You two pay attention to your safety. I'll be leaving first."

Creating an opportunity for Qi Wenhan was just one part of it, but the main thing was that Lin Yi didn't want to drag him into this!

Lin Yi didn't believe that Kang Zhaoming would let go of the opportunity to deal with him after getting his hands on the technology equipment!

"Oh, okay. Brother Ling, you take care too." Qi Wenhan quickly understood and nodded. He couldn't help but feel excited. This time, he finally had the opportunity to be alone with his sweetheart. It was a heaven-sent opportunity!

Lin Yi laughed and waved at the two before leaving.

After separating from Qi Wenhan, Lin Yi looked around and chose an exit. After a few steps, he realized that someone was following him. It was Huo yudie.

Lin Yi couldn't help but turn to look at her, frowning. What was this girl up to?

Huo yudie's eyes lit up when she saw Lin Yi's eyes on her. She was about to say something when someone interrupted her, "Miss Huo, you really don't want to team up with me? why don't you think about it? When the time comes, I'll give you all the treasures you need, and I'll treat you well!"

Kang Zhaoming was still acting like a pervert, chasing after Huo yudie even after they arrived. It seemed like this guy was really mesmerized by her. In his dictionary, picking up girls was about using the shameless style. Once you found the target, you would stick to it like a dog's skin plaster and wouldn't let go until you achieved your goal.

"I'm sorry, you should find someone else. " Huo yudie's attitude this time was not as ambiguous as before. She decisively shook her head and refused.

"I ..." Zhaoming didn't want to give up. He wanted to say something more, but lingchong coughed lightly. Her eyes were filled with anger and impatience.

He didn't object to forming a team with a pretty girl like Huo yudie, but Kang Zhaoming's attitude pissed him off. He just came up to him and he was already clinging onto a girl. What the f * ck was he doing?

Zhaoming had no choice but to stop in his tracks. He was the main force in this operation, but lingchong was still his superior. If he made this young master Xu unhappy, he could kill him with one word-he couldn't afford to mess with him.

Lin Yi saw the situation behind him and smiled nonchalantly. He walked away, too lazy to be a busybody. However, Huo yudie suddenly jogged up to him. She didn't care about the surprised looks from the people around her. She reached out and pulled on Lin Yi's shirt.

Lin Yi frowned as he looked at Huo yudie's pitiful face. He wasn't like Kang Zhaoming, who couldn't move his legs at the sight of a pretty girl. He said in an unhappy tone, "What do you want? I don't have the time to be a dumb rich guy. If you want to hook up with a dumb rich guy, go find that guy. Can't you see that he's so proactive?"

"What's a rich kid?" Huo yudie blinked her eyes in confusion and turned to look at the embarrassed Kang Zhaoming. She looked at Lin Yi curiously, "Is his name dumb rich guy? But didn't he say his name was Kang Zhaoming when he introduced himself?"

"..." Lin Yi shook his head, speechless. He didn't know how to explain it. What was wrong with this woman? was she really stupid or just faking it? Although he didn't feel any threat for the time being, no matter how he looked at it, this woman must have ulterior motives.

"Motherf * cker! Lin Yi, you dare call me a rich kid? I'll blow you up with a cannon!" Zhaoming heard everything and jumped up in anger, even aiming his laser cannon at Lin Yi-he'd have fired if it weren't for the orders from above.

Taking the initiative to hit on a girl and being hooked up with a rich guy were two completely different things. No man would be happy to hear this, especially when Kang Zhaoming's confidence was at its peak!

With the laser cannon pointed at him, Lin Yi felt a strange sensation. It'd been a long time since he felt threatened by Zhaoming. He couldn't let his guard down with the laser cannon.

He was a little scared, but on the surface, Lin Yi only gave Zhaoming a disdainful look. He couldn't be bothered with him.

Kang Zhaoming exploded in anger. Before this, Lin Yi ignored him like he was above everyone else, and he had no choice but to bear with it. But now that he had the laser cannon and smart armor in his hands, how dare he act like this? this bastard didn't even know how he was going to die!

"Hmph! Don't be so smug, kid. If it weren't for the people from the West Island watching over us, I'd definitely destroy you with one shot!" Zhaoming pointed his middle finger at yudie,"Pretty lady, you'd better not look for this kid. He's a eunuch and doesn't know how to appreciate you. You'd better follow me!"

Zhaoming didn't even notice the cold air behind him as he spoke-he'd been too lustful to call a eunuch in front of lingchong, it was like calling a monk a bald donkey.

"I don't want to." Huo yudie still shook her head firmly. Kang Zhaoming's equipment was really scary. She was interested in him at first, but it was too obvious that he was an idiot. Anyone with eyes wouldn't be interested in him.

Chapter 4670 You Have A Five-Element Constitution

"Tsk ..." Kang Zhaoming's mouth twitched. He felt Xu lingchong's unfriendly gaze from behind him. He shivered and quickly turned around to leave. The higher-ups spent so much effort to get him super equipment like the laser cannon and the smart armor, not for him to come here and pick up girls.

If he couldn't get a girl, then he'd better hurry and collect some treasures. Time was limited, and he couldn't dawdle for too long. If Lin Yi got the first prize this time, who knew how the higher-ups would punish him!

After getting rid of Zhaoming, the annoying fly, Huo yudie let out a breath of relief. But Lin Yi immediately said, "Then I'll be leaving. If there's nothing, don't follow me. Otherwise, I'll think that you're up to no good."

"Wait a moment!" Huo yudie shouted anxiously.

"What else do you want?" Lin Yi was really getting impatient this time-he really didn't understand why this woman was sticking to him. He looked at her and said, "I don't have time to talk to you right now. See you again!"

With that, Lin Yi strode forward, his instincts telling him that this woman would get him into trouble if she stuck to him. He couldn't afford to lose this trial, and he didn't have time to waste with her.

"You have a five elements Constitution?" Huo yudie suddenly asked.

"What?" Lin Yi stopped in his tracks in shock. He looked around subconsciously and made sure that no one was paying attention to him. He then turned his eyes back to Huo yudie and re-examined her. This woman from the East continent could see through his spiritual roots with one look. Did she have a powerful cheat in this area?

Although it wasn't a big deal to let people know that the spirit root itself wasn't a threat, it was still a big surprise. After all, it required a very professional tool to test it. Lin Yi had never heard of a talent like this that could be seen with one look!

Lin Yi was shocked, but he didn't show it on his face,""What five elements Constitution? What's that?"

"Spiritual roots of all attributes, in layman's terms, is the Constitution of the five elements." Huo yudie stared at Lin Yi, as if she had already confirmed this.

"Common?" Lin Yi's mouth twitched as he knew that he couldn't hide this from her anymore. He sized up Huo yudie and said,"I think that's what the common world calls it. No one on Sky Class Island talks about the five elements Constitution."

"Alright, that's what the secular world calls it." Huo yudie actually nodded and admitted it.

"You know about the secular world?" Lin Yi was surprised again-he was just testing her out subconsciously, but he didn't expect to get such a shocking result. This girl from the East continent was getting weirder and weirder!

She'd come to him for no reason, and she'd even been able to see through his five elements Constitution, knowing that this was what the common world called it. With so many suspicious points mixed together, anyone would find it strange. Lin Yi couldn't help but wonder if this woman was sent by some organization to get close to him on purpose.

"I know." Huo yudie nodded again.

Lin Yi's eyes were still full of suspicion-there were quite a lot of people on Sky Class Island who knew about the common world, but not many knew what the common world called the five-element body. "Then you don't know what Ultraman is? What did he mean by rich? Who the hell are you?"

"I really don't know. I only heard about the secular world from others. She told me that you have a five-element Constitution, so I came to you to confirm it." Huo yudie's words were shocking.

"Her? Who is she?" Lin Yi was taken aback-this was even more shocking than the fact that she had a cheat that could see through His Spirit root. From what this girl was saying, she knew someone who was familiar with him?

"I don't know her exact identity. She is just a woman who was teleported to the East continent from the secular world." Huo yudie blinked her eyes and said. Whether she was telling the truth or hiding something, no one knew.

"What?" Even the usually calm Lin Yi couldn't help but flinch at the words-there were only a few people who'd teleported to Sky Class Island from the common world, and while there were a lot of enemies and unrelated outsiders, if the target was a woman, the target range would be very small-it might be one of the few people he was close to!

From the secular world to the sky Island, the best place for a woman was the West Island, followed by the North and Middle islands. If she had to find the worst place to draw, it would be the chaotic South continent and the powerful and mysterious East continent.

Wang Xinyan was only lucky to have met Donghai's godly nun, otherwise she would've been in a much worse state than she was now.

Lin Yi couldn't help but get nervous at the thought-this woman from the common world was probably his girlfriend, or else she wouldn't have mentioned him, much less the five elements Constitution.

Lin Yi took a deep breath, calming himself down before continuing, "What's her name?"

"I don't know. I only know that after she was sent to the East continent, she was lucky at first and was accepted by our proud women's college. However, her situation after that wasn't very good." Huo yudie said as she looked at Lin Yi's changing expression.

"What do you mean by not good?" Lin Yi's heart tightened.

"Because not long after, she offended someone she shouldn't have offended. It was the granddaughter of one of the Vice Principals of our proud of the morning school. So, she was forced to go to the dungeon with a crime. After torture, she said everything she could and couldn't say. It's also because of this that I know about you." Huo yudie said in an honest tone.

"What!" Lin Yi was taken aback. He knew that the East continent was a dangerous place, even after entering the school, "Where is she? What does he look like?"

"How would I know? I didn't pay attention to her at first, and after that, she was beaten beyond recognition. Of course, I couldn't see clearly." Huo yudie shook her head and said.

"This ..." Lin Yi's heart was burning with anxiety. It would be fine if this woman was an outsider who had nothing to do with him, but the problem was that she might be his girlfriend!

How could Lin Yi remain calm after hearing this? Fortunately, he didn't bring the spiritual bird with him this time. Otherwise, he might have flown directly from the West Island to the East Province on impulse!

Seeing Lin Yi's nervous expression, it was Huo yudie's turn to be surprised. She was only concerned about the five-element Constitution, but she didn't expect him to be so nervous. Was there something going on here?
