Chapter 4711 Mountain Of Heavenly Dao

He could tell that the other party was a little out of it, and this 10000-year-old Canyon was obviously different from the desert outside. There was vitality everywhere, which often meant danger, and he had to be careful.

It was just like the pseudo-human vine. It might be an ordinary vine outside, but it was a brutal and terrifying monster in this place!

They had to be careful with every step they took, and it was dangerous for Huo yudie to be so distracted.

Fortunately, Lin Yi was watching them from behind, and he could see the slightest movement clearly. They avoided the deeply hidden threats a few times.

Otherwise, with Huo yudie's current state of confusion, even if she was lucky enough to survive, she would have wasted a lot of time. Although this might not necessarily mean that there was no harvest, at least she would not be able to think about the Thunder mystical vine.

Walking behind Huo yudie, facing such a seductive body, any man would unconsciously take a few glances, and Lin Yi was no exception.

He thought that Huo yudie would attract unnecessary trouble after changing into the denim sportswear. After all, Kang Zhaoming and the other perverts were too many to count.

However, to his surprise, perhaps because the route he chose was relatively remote, he did not meet anyone at all along the way. It was rare to meet one or two people, but after seeing him, they consciously hid far away and did not dare to come up to find trouble with him ...

After walking for about four hours, a huge mountain appeared in front of them. Lin Yi was shocked-he thought that the canyon would be a flat plain, but there was a mountain inside!

Although it couldn't be compared to the high mountains on both sides of the canyon, the pressure this mountain gave off was no small matter. It almost occupied the majority of the 10000-year-old Canyon, leaving only a narrow path on the left.

Huo yudie took out the map and looked at it. Without saying anything, she walked towards the narrow road on the left. It seemed that she was going to bypass the mountain in front of her.

Lin Yi, however, didn't move. He stopped and asked, "What's that?"

"Ah?" Huo yudie froze for a second. She turned around and saw Lin Yi staring at the mountain on the right. She tensed up, ""That's the mountain of heavenly Dao. "

"Heavenly Dao mountain?" Lin Yi looked into the distance. He didn't know why, but there was a strange obsession in his mind, making him subconsciously want to get closer, as if something was calling him. "Let's go and take a look. "

"Don 't! Don't go!" Huo yudie quickly shouted to stop him.

"What's wrong?" Lin Yi looked at her reaction curiously. Why was this girl so excited after being silent all the way here?

"I can't go! You can't go!" Huo yudie shook her head in fear as she looked at Lin Yi with pleading eyes, "Listen to me, let's go around from the left path, okay? although it's dangerous to go this way, and we'll definitely encounter some terrifying existences, it's much safer than the heavenly Dao mountain!"

"Why?" Lin Yi frowned, the obsession getting stronger and stronger. He could still control it with his willpower, but if it were someone else, they might've walked over involuntarily.

"The mountain of heavenly Dao is the only place that my teacher warned me not to get close to." Huo yudie looked at the heavenly Dao mountain in the distance with a serious expression and said slowly, ""You also know that this is the ruins of an ancient battlefield. Do you know where the core of the entire trial ground is?"

"Oh? Could it be the heaven Dao mountain?" Lin Yi's eyes twitched.

"That's right. The heavenly Dao mountain is the core of the entire ancient battlefield. Legend has it that the strongest existences in the ancient times challenged each other here. As for the other places, they are at most the stands of the ancient battlefield." Huo yudie's face was full of awe and respect. She paused for a moment and said, ""Do you know how this 10000-year Canyon came about?"

"How did you get here?" Lin Yi asked.

"Originally, this place was on the same level as the outside, and there was no Canyon at all. However, after an earth-shaking battle, the entire Foundation of this place was shattered and collapsed, which created the 10000-year Canyon. Only the heavenly Dao mountain under the feet of those peak existences was not shattered directly because of their Qi field. Instead, it sank together and became what it is now. Of course, this is only a legend, and there is no way to verify whether it is true or not." Huo yudie said.

"If it's true, then the people fighting here are all extraordinary figures." Lin Yi said as he looked at the canyon.

After careful observation, he could feel the lingering aura of the formation that was everywhere. This aura was so ancient that it had integrated with the surrounding heaven and earth. Ordinary people would not be able to detect it at all. It was very likely that it had been passed down from ancient times. The power of the formation could be seen from the fact that even a little residual aura could be preserved.

However, even with the protection of such a powerful formation, this place was still blasted into a ten-thousand-year-old Canyon. The strength of the instigators could be seen!

But after hearing what Huo yudie said, Lin Yi wasn't afraid. He wanted to go to the mountain even more. This was the core of the test, the primitive land. It would be a pity if he just went around it.

Seeing Lin Yi's eagerness to try, Huo yudie's eyes became more and more worried. She suddenly asked,""Do you really want to go there and take a look? It's like something is attracting you?"

"How did you know?" Lin Yi was shocked.

"You're not the only one like this. According to the information my master got from the higher-ups of the West Island, in fact, many people will do the same when they arrive here. They will unconsciously approach the heavenly Dao mountain! Every time the trial opens, many people go there, but after that, most of them never come back. " Huo yudie looked at the heavenly Dao mountain from afar. There was some fear between her brows, but there was also a faint yearning.

If it wasn't for her master's repeated warnings not to get close to the heavenly Dao mountain, she might have already gone over like the others.

"If I'm not wrong, this heavenly Dao mountain is probably the legendary place where one can get the ancient inheritance, right?" Lin Yi frowned.

The most famous thing about the West Island trial was not the treasures, but the ancient heritage. Although they did not know exactly how many people had obtained the ancient heritage, this kind of thing could not be purely groundless. Looking at the entire trial ground, the place with the highest possibility of obtaining the ancient heritage was the mountain of heavenly Dao.

Chapter 4712 Want To Take A Look

"I think so too, but that's why it's so dangerous." Huo yudie nodded and looked at Lin Yi worriedly, "Although the ancient inheritance is tempting, this kind of thing is definitely not a joke. Even if we are really lucky enough to encounter it, according to my master, it is not a good thing to see it. It is very likely that we will lose our lives. Otherwise, there would not be so many people trapped here every time."

"Even so, I still want to go and take a look." Lin Yi said after some thought.

He wasn't someone who could be easily confused or manipulated. Not only was his divine sense strong, but more importantly, his willpower was strong enough. Otherwise, he wouldn't have been able to survive until he escaped from the hands of the West Mountain old sect!

This time, he was very sure that the heavenly Dao mountain in front of him was the place he wanted to go. He didn't know why, but he just had to go.

"Well ..." Huo yudie looked at Lin Yi strangely and was at a loss. She had said so much, but she still couldn't persuade Lin Yi. Although they were temporary partners, this kind of thing was up to Lin Yi to decide. There was no point in her saying anything else.

"Why don't you wait for me here?" Lin Yi said after some thought. This suggestion made him feel a little guilty. After all, he said that he would go with Huo yudie to find the Thunder mystical vine, but he had to go to the mountain of heaven's path halfway. Not only was it a waste of time, but he might not be able to return. This was the same as standing Huo yudie up ...

"Alright, I'll go with you." Huo yudie suddenly said.

"You're going too? How can we do that!" Lin Yi jumped at the unexpected words-he might've lost his life if he let the man go with him.

"Why not? You can go but I can't? What kind of logic is this?" Huo yudie rolled her eyes at him.

She wasn't just trying to convince Lin Yi, she was also trying to convince herself because she had the same impulse in her heart. Since she couldn't convince Lin Yi, and she couldn't get the Thunder mystical

vine by herself, she might as well follow him to the mountain of heavenly Dao. She might not die for sure.

"Uh ..." Lin Yi didn't know what to say. He looked at Huo yudie and nodded, ""Alright then, let's go together. Be careful."

"Yes." Huo yudie nodded.

After the two made up their minds, they immediately changed their route to heaven Dao mountain. As they got closer and closer, both Lin Yi and Huo yudie couldn't help but feel surprised.

Before, it was nothing when they were far away. Even if they knew that this was the mountain of heavenly Dao, there was nothing special when they looked from afar. But now that they were close, the scene was very different from before.

This heavenly Dao mountain was far more dilapidated than what they had seen before, and it was even in imminent danger. If it wasn't for the precipice of the 10000-year-old Canyon, it might have already collapsed.

This was not the strangest thing. What was really creepy was that there was a blood-red mist around the heavenly Dao mountain.

He'd been to the South continent for so long, and he'd seen Sea Fog and miasma fog before, but this was the first time he'd seen this blood-red fog. This was the ancient battlefield, where countless powerful beings were buried. Normal people would subconsciously associate this blood-red fog with blood, but there was no smell of blood.

After so long, it would be normal for the smell of blood to disappear. In fact, if the smell of blood was still present, it would be strange.

But for some reason, this blood red mist made Lin Yi subconsciously think of the scene he saw before—the Blood Moon.

Not to mention anything else, at least this layer of blood-red mist shrouding the mountain of heavenly Dao was the same as the layer of blood-red that shrouded the waning moon before. It was even very likely to be the same thing, just that it couldn't be verified.

Both Lin Yi and Huo yudie felt an impulse a hundred times stronger than before. It was urging them to move forward without stopping. If they slowed down even a little bit, it would hammer their hearts and make them walk faster.

Lin Yi himself was still conscious, but Huo yudie's gaze was a little dazed. At first, she was still following behind Lin Yi carefully, but now, she had already passed Lin Yi and was walking quickly forward.

Huo yudie's footsteps were getting faster and faster, and she was even starting to run. Lin Yi's heart skipped a beat, and he quickly tried to catch up with her!

After all, he felt that something was not right. He even felt a little regretful. If anything happened to Huo yudie here, he would definitely be held responsible.

The blood-red mist was very close to him, and Lin Yi quickly sped up to catch up. However, before he could stop Huo yudie, Huo yudie's body suddenly moved. She actually used her movement technique and went all out. In just an instant, she had entered the blood-red mist.

Lin Yi was stunned, but in the next moment, he was already in there. His body trembled, and before he could see what was in front of him clearly, a powerful consciousness flooded over, and an extremely chaotic scene flashed in his mind.

This scene was familiar. When he first encountered the remaining obsession of the giant electric eel, so many memory fragments suddenly poured in. He did not expect to encounter this again!

Especially when the countless memory fragments were combined together, the details gradually became clear, and the scene in his mind shocked Lin Yi even more. It was really the giant electric eel!

He was still worried about Huo yudie's condition, but after seeing the giant electric eel, Lin Yi froze in place. He couldn't help but immerse himself in the memory fragments in his mind, unable to extricate himself!

At this moment, he finally understood that the thing that had attracted him was probably the giant electric eel's obsession, which resonated with the remaining obsession in his mind.

Lin Yi didn't know if this giant electric eel was the same as the one he'd met before, since they were almost the same size. It was hard to tell from the appearance, but one thing was for sure-he and this giant electric eel had some sort of connection.

After a while, the messy memories finally merged into one, and the scene unfolded with the ancient aura.

The location was still on this mountain of heavenly Dao, but when he looked around, all he could see were small mountains, and all he could see was the extremely familiar desert scene. There was no such thing as this ten-thousand-year-old Canyon!

It could be seen that Huo yudie's previous statement was not wrong. There was indeed no such thing as the 10000-year Grand Canyon in the past.

Chapter 4713 The Ancient Battlefield

It was already dark when the memory pieces appeared, and Lin Yi's pupils shrank when he saw the scene in the sky. His heart skipped a beat-Blood Moon, Blood Moon again!

He only knew that the bloody moon was an ominous sign, and didn't think much of it, but now that he saw it again in his memory fragments, especially after realizing that the blood mist shrouding Tian Dao mountain was the same as the sky, the feeling suddenly became a little strange.

Lin Yi's instinct told him that this was a sign, an unusual sign.

Lin Yi's eyes went back to the ground, and when he saw the scene at the peak of the mountain, his eyelids twitched again. Other than the empty space in the middle, there were a lot of people gathered in the surroundings. There were human practitioners, Masters of the spirit beast clan, and even the shadow of super sea beasts. Any one of them was a powerful figure, and the giant electric eel was among them!

However, for some reason, the giant electric eel seemed to be a very small existence among these powerful people.

These terrifying existences had formed a circle, facing each other from a distance away. They were wary of each other, staring at the empty space in the middle with a nervous expression. No one knew what they were waiting for.

The memory fragment was not complete. After an unknown period of time, the image suddenly flashed. When it became clear again, the scene in front of him was a terrifying scene of hell!

There were mountains of corpses and seas of blood everywhere, and bitter fighting was taking place in the sky and on the ground. Humans against humans, humans against spirit beasts, spirit beasts against sea beasts, sea beasts against sea beasts ... It was an unparalleled super chaotic battle.

They couldn't tell who was friend or foe. They might be fighting side by side in a moment, but they would immediately attack from behind in the next moment. All the existences were killing with their lives like madmen, not stopping until one of them was dead.

He didn't know where this chaotic battle started and where it ended, but from the first scene, Lin Yi could guess that they were fighting for something. Something that could drive so many powerful people crazy must be something extraordinary.

However, he did not know what this thing was. The empty space in the middle had long been unrecognizable. He did not know what had appeared in this place, or if there was nothing at all. If the memory fragments were complete, he should be able to see it clearly, but unfortunately, they were incomplete.

It was a chaotic battle-it was either you die or I die. Lin Yi couldn't help but gulp as he watched the powerful people fall one after another. He was completely shocked by the apocalyptic scene.

Before this, the highest level of battle Lin Yi had ever seen was the one between the five-poison Dragon and the giant electric eel. Both of them were at least above the sea shattering stage. In anyone's eyes, this was already the peak of the battle, but that battle paled in comparison to the scene in his mind.

In the Super chaotic battle, Lin Yi's attention was unconsciously focused on the giant electric eel. There was always an inexplicable connection between the two.

Dark purple electric arcs streaked across its huge body. The giant electric eel wandered around the chaotic battlefield. When it targeted a target, it would immediately send an electric arc over. Basically, no matter if it was a human, a spirit beast, or a sea beast, as long as they were touched by the dark purple electric arc, they would die on the spot without any suspense. In the end, they would all end up the same, being swallowed by the giant electric eel.

Others might not know, but for the giant electric eel, this place had obviously become an excellent hunting ground. Usually, it would be hard to find even one top-grade prey after lying in ambush for hundreds of years, especially those that had reached the sea splitting stage. But now, they were everywhere, especially its dark purple electric arcs, which were extremely lethal and could arrive in a flash without giving anyone a chance to react. This place was simply a place for it to get whatever it wanted.

However, after the giant electric eel ate more than a dozen prey in a row, the situation finally changed. A human cultivator with a giant sword on his back was staring at it, and an overwhelming pressure came. It was so relaxed and happy before because of the sneak attack, but now it was different.

After realizing the danger, the giant electric eel immediately released a dark purple electric arc as thick as a bucket. It was not only instantaneous, but also close to the speed of light. Unless one could predict it, it was impossible to avoid it.

The human expert didn't Dodge or evade, allowing the dark purple electric arc to hit his body. However, the true energy shield blocked it in a flash!

Then, he pulled out the giant sword from his back and swung it suddenly. A terrible sword Qi hit the head of the giant electric eel. The whole process did not even have a flying trajectory, which was even more traceless than the dark purple electric arc.

Being hit on the head by the invincible sword Qi, the giant electric eel suddenly suffered a loss, and a shallow sword mark was left on its head!

Although it wasn't a serious injury, it still aroused its ferocity. With a low roar, the dark purple electric arcs on its body spread in all directions, but there was nothing strange in its path. It seemed that it had simply dissipated into the air.

The human expert was a little afraid of this scene. However, before he could react, a dark purple lightning suddenly fell from the sky and penetrated his true energy shield in an instant. Just this time, a super expert above the sea splitting stage was directly struck and turned into charcoal!

Lin Yi was completely stunned by this scene. He'd already experienced the giant electric eel's power before. He'd fought the five poison Dragon at the bottom of the sea, and there was no doubt about its strength, but that wasn't as shocking as this one. A Black Lightning falling from the sky to kill someone at the same level as it was like the legendary divine punishment!

To be precise, this was probably much more terrifying than Tian fa. At least, no matter how powerful Tian fa was, it couldn't kill an expert at the sea splitting stage at once, let alone kill an existence above it.

After the black Lightning killed the human master, the giant electric eel was not idle, because at this moment, three other beings of the same level had their eyes on it.

The Woman in White playing the zither on the ground, the nine-headed ancient snake demon, and a super sea beast of unknown species were all above the sea split stage. At this moment, they all had their eyes on the giant electric eel because of the movement just now. Perhaps out of fear, the three of them, which was very rare, chose to join forces and attack it.

Qin Shang, Blood Eye, nether poison, these terrifying killing techniques that made people tremble in fear were bombarding the giant electric eel's body in turns!

Chapter 4714 Hit By The Electric Arc

The giant electric eel was seriously injured in an instant, but it did not fall down. Instead, after a fierce roar, it once again enveloped the world with an electric field.

However, this time, it wasn't just one black lightning bolt that descended from the sky. Instead, there were dozens of them all at once, plowing through the entire heavenly Dao mountain. The ancient battlefield that was already filled with wails and cries was instantly filled with more corpses!

Just as the black Lightning destroyed the world, Lin Yi suddenly shivered. Maybe it was an illusion, or maybe it was real, but he felt like he was hit by one of the black Lightning. With his inner sight, he could clearly see that every part of his body was crazily flowing with terrifying electricity. His body's functions instantly died, and all his senses disappeared.

Lin Yi's mind went blank-other than his spirit, his body was gone for no reason. Was he dead?

"Dead? What kind of death is this?" The demonic thing's disdainful and strange laughter suddenly rang in his mind. "If this is considered death, then I would have died a hundred and eight thousand times."

"Ah?" Lin Yi jumped-he'd been so focused on the memory that he didn't think that this thing would come and join in on the fun, "Then What is this? Why do I feel like my entire body doesn't belong to me anymore?"

"I don't know where you got your luck, kid. You actually got the favor of a super sea beast. This is a great opportunity!" The ghastly thing's tone was filled with disbelief.

"A great opportunity? What do you mean by that?" Lin Yi's heart skipped a beat-losing control of his body really did make him scared. Getting hit by a Black Lightning for no reason-where did this so-called opportunity come from?

"You still don't understand? It's just a memory fragment that was passed down in your sea of consciousness. Do you think lightning would strike you under normal circumstances?" The ghastly thing didn't answer and instead asked.

"I ... I don't think so ..." Lin Yi shook his head. This was similar to a 3D movie. It felt like he was going out of the screen.

"That's why I said it's an opportunity. I'm afraid it's the remnant of the electric eel's obsession that you encountered before that left a trace, and it resonated with this one, leading to the occurrence of an abnormal phenomenon ..." The ghost speculated thoughtfully.

"Then I'm just unlucky, right? even if I didn't suffer any physical damage, being scared is still a great opportunity?" Lin Yi was speechless-so it was because he had a lightning attracting formation on him, that's why he was able to project the scene from her memory. What an unexpected disaster!

"You really don't know how lucky you are. Didn't you sigh last time that you didn't really get the electric eel's inheritance? now that I've given you a chance, you're still not satisfied?" The ghostly thing snorted.

"What? Senior, are you saying that if I get struck by it like this, I can obtain its inheritance?" Lin Yi was both surprised and happy. The giant electric eel was no weaker than the five poison Dragon, and the scene just now made him tremble from the depths of his soul. If he could get its inheritance this time, wouldn't he be able to master a killer move that could rival the five elements killing Qi?

"I'm only saying that it's a possibility. The details still depend on your luck. I don't need to say any more nonsense. We'll know once we check the situation in your body." The ghostly thing said.

Lin Yi quickly used his spirit sense to look inside his body. He was speechless-he still couldn't feel anything, but he could see some dangerous electric arcs flashing by from time to time. The blood and flesh they touched were all burnt black, especially the weak meridians. They exploded on the spot.

Lin Yi's heart was palpitating-if this continued, his body would be electrocuted to a crisp in no time. Was he going to live like a ghost forever, relying on his essence spirit to survive?

If an ordinary person were to see this scene, the vast majority of them would have been scared to death.

But Lin Yi quickly calmed down and re-examined the scene in his body. After careful observation, he found something that made him excited.

The parts that were damaged by the lightning were all burnt black for a short period of time. They looked dead, but after a while, they started to come back to life, as if they were coming back to life. The burnt parts were reborn, and Lin Yi felt that they were even stronger than before!

He watched as his body was destroyed over and over again by the lightning, only to recover again and again like a cockroach. Lin Yi couldn't help but remember the body tempering he'd done in the cave.

It was true that the electric arcs were extremely dangerous, and one could die if they were not careful. But as long as they could survive it, they would be reborn in the end.

"I don't know what to say about your talent. You're just a human, but your tenacious vitality is almost comparable to our spirit beast clan. I'm afraid that ordinary spirit beasts can't compare to you. Are you the illegitimate son of the king of spirit beasts?" The ghastly thing laughed weirdly as he sighed.

Lin Yi's face darkened. "You're the bastard of the king of spirit beasts! Your whole family is the bastard of the king of spirit beasts!"

Now that his body could withstand the lightning, Lin Yi could finally relax. He returned his attention to the memory fragment, and his focus was still on the giant electric eel.

Although the giant electric eel was at a great disadvantage against the joint attack of three beings of the same level, the woman playing the zither, the nine-headed snake, and the unknown super sea beast did not have a good end in the face of its destructive super killer move. Even if they were not killed on the spot, they were all seriously injured and on the verge of collapse.

Lin Yi thought that the giant electric eel would definitely find a way to finish off the three guys, but unexpectedly, the eel's next move was to turn around and run!

Lin Yi was dumbfounded as he watched the giant electric eel fly away. He just remembered that the eel was seriously injured and couldn't hold on any longer. It looked like the eel still had the energy to attack, but this wasn't a one-on-one fight. There might be a strong enemy coming out at any time and taking your life.

The sneak attack was so successful at the beginning, but now that the situation was not good, it escaped without any hesitation. Lin Yi really didn't expect the giant electric eel to be so cunning. He thought that it would fight to the end with its strength!

However, Lin Yi liked her personality-he'd be an idiot not to run if he couldn't win.

Chapter 4715 Lightning Inheritance

At this moment, he looked at sona, the Hydra, and the Super sea beast. He could do nothing but watch the giant electric eel escape. Instead, he was in big trouble. When the house was leaking, it rained overnight. He had been targeted by other terrible beings ...

He didn't know how long this chaotic battle lasted, and he didn't know who had the last laugh. Lin Yi didn't know the result, and he didn't know what happened to the giant electric eel. When he was

halfway through, the huge memory fragment shattered, and the obsession that had been calling him disappeared. The world returned to peace.

"Hu!" Lin Yi let out a long breath as he woke up from his memories. He looked at his surroundings in surprise, cold sweat dripping down his back as he felt like he was in a nightmare!

Fortunately, he was able to see the memory fragment from the perspective of a bystander. Otherwise, if he had really come down to the battlefield, the pressure alone would have crushed him into pieces, even without the help of those terrifying existences.

He subconsciously looked around and froze, finally realizing that his body had returned to normal. It should be said that he had been reborn and became stronger!

He examined his body carefully and realized that his body was much tougher than before. Even his meridians were tougher than before. Such a huge improvement was equivalent to ten years of hard work, but this wasn't the most shocking thing.

What really shocked Lin Yi was that the Qi in his meridians had a hint of lightning power!

"You were originally a freak with seven attributes of the five elements, but now you've become a freak with eight attributes of the five elements. If the attributes of your spirit root are tested, the world will be in chaos." The ghastly thing sighed with emotion.

"Senior, are you saying that I have an additional lightning attribute?!" Lin Yi couldn't believe it, but he did feel the power of lightning in his pure Qi.

Metal, wood, water, fire, and earth-the five elements were all here, with the ice and mist elements as well as the rare lightning element. Lin Yi felt like he'd made a huge profit this time. Even if he couldn't get the Thunder mystical vine, this extra lightning element would be more valuable than any other natural treasure. This was something he couldn't get even if he wanted it.

"That's right. It's all thanks to that electric shock just now. It seems that the big electric eel really wants to pass on its inheritance to you. It even crushed this kind of obstacle for you. With your comprehension, it shouldn't be too difficult for you to practice its Thunderbolt technique." The ghostly thing laughed.

Lin Yi's eyes brightened. He'd been looking forward to the giant electric eel's powerful killer move for a long time, and he couldn't wait to try it out. Not to mention the destructive tianfa, just the dark purple arc was a powerful trump card for him!

Chi Chi! Although it was his first attempt, he had successfully gathered the power of lightning that was swimming in his meridians after a short while. Electric arcs flashed on his fingertips, and they gathered more and more until they gradually covered his entire palm. From a distance, it looked like he was wearing a pair of Lightning gloves, giving people an extremely unreal science fiction feeling.

"Why is it blue?" Lin Yi frowned as he looked at the electric arcs dancing in his palm. The giant electric eel's most common electric arc was dark purple, and the sky's wrath killer move was even black. Why was it blue in his hand? the deterrence was ten levels weaker.

"Keke!" The demonic thing laughed out loud. If he had a physical body, he would have been rolling on the ground by now. He laughed so hard that he was out of breath. "You're really funny! "Lightning is the big electric eel's natural ability, and its strength is above the sea splitting stage. That's why it can emit dark purple or even black Electric arcs. You're just a human in the nascent Soul Stage, and you want to do the same? are you kidding me?"

Lin Yi's face blushed at the words. He was overthinking it. The giant electric eel could kill a master of the sea Rift stage with its dark purple electric arc. It was too much of a stretch for him to use such a killer move with his current strength.

For a newbie like Lin Yi, it was already good enough for him to be able to master the most basic blue lightning. As for turning the lightning into a dark purple, it meant that the power was at least ten thousand times stronger. This wasn't something a mere nascent soul cultivator could do, not to mention humans, even spirit beasts with lightning talent couldn't do it.

As for the black Thunderbolts that were like heavenly punishment, before he reached the sea splitting stage, he could only think about it in his mind. It was too far away.

He felt the power of the lightning in his hand. It was more than enough to deal with ordinary people, but it was not enough to deal with high-level cultivators. It was far from what he had expected to be comparable to the killing intent of the five elements.

Lin Yi sighed-it seemed like he'd have to train harder in the future. Otherwise, this lightning killer move of his would only become a dispensable burden in the future. It'd be such a waste.

He put away the lightning and finally had the time to look around. Other than the blood mist, there was nothing special about the mountain!

There was no vegetation in sight, only a large area of potholes, which seemed to be the traces left behind by the chaotic battle in ancient times.

Other than the potholes, what surprised Lin Yi was that there were many people sitting cross-legged here, all of them in the process of comprehending something. Some were surprised, some were smiling, and some were frowning. Everyone's expression was different, but the only similarity was that they seemed to be immersed in some kind of illusion and couldn't get out. If Lin Yi wasn't wrong, they were most likely also attracted by the obsession of some existence.

Lin Yi thought that they were all practitioners who had walked faster than him, but after making a rough estimate, he took in a cold breath-there were way more people here than the number of participants!

In other words, most of these people had been sitting here for years, decades, or even centuries!

If it was just the inheritance of obsession, a few days would be enough, and a year was at most. However, these people had been sitting here for decades or centuries, and many of them had even turned into corpses. There was only one explanation for this-they had been trapped here and could not extricate themselves.

Chapter 4716 Put Me Down

No wonder this place had become a land of death where there was no exit! Lin Yi couldn't help but sigh. This place had a mysterious attraction to him because of the giant electric eel's obsession, but it couldn't really control his consciousness, let alone make him unable to extricate himself. However, these people here were different-they had lost themselves.

Lin Yi sighed. He didn't want to touch these people. Everyone had their own fortune. Whether they got the inheritance or sat there until they died, it had nothing to do with Lin Yi.

However, there was one exception. No matter what, Lin Yi had to bring Huo yudie out of here. After all, this place was too confusing. Since Huo yudie followed him in, he naturally had the responsibility to bring her out. He couldn't just let her sit here and die like the others.

Lin Yi scanned the crowd and found Huo yudie at the edge of the crowd. She was frowning as well, and didn't respond even when Lin Yi called out to her.

Lin Yi hesitated. Huo yudie's situation wasn't good, but what if she was trying to get some ancient inheritance? wouldn't he ruin her plan if he interrupted?

"Forget it. If you want to obtain the inheritance from the endless resentment in this place, maintaining your self-consciousness is the minimum condition. Otherwise, you can only sit here and wait for death. Do you think this chick can wake up on her own?" The ghastly thing sneered.

Lin Yi finally made up his mind. He picked up Huo yudie and left without hesitation. He didn't want to stay here anymore. He had already gotten what he wanted.

After a while, Lin Yi carried Huo yudie out of the area of the mountain. As soon as they left the blood mist, Huo yudie woke up and screamed when she found herself on Lin Yi's shoulder.

Lin Yi jumped at the high pitch-his hand almost dropped her to the ground, but he found the place he touched a little soft when he tried to steady himself.

"Big pervert! Why aren't you putting me down!" Huo yudie's face turned red as she struggled on Lin Yi's shoulder.

Lin Yi quickly put her down and saw that her face was red with anger. He explained, "I'm sorry, I didn't do it on purpose. I accidentally ..."

"Forget it, forget it!" Huo yudie quickly interrupted him, afraid that he would say something embarrassing. She looked at Lin Yi up and down and changed the topic, "Look at you, why aren't you affected at all?"

"Oh? You know you're being affected?" Lin Yi looked at Huo yudie with a strange expression. He thought that she would be completely clueless, but it turned out that she was conscious.

"Of course I do. Actually, I still have memories from the beginning. I just don't know why, but I just couldn't get out of it. I only woke up after you carried me out ..." Huo yudie said with a red face.

"I see. I wasn't affected probably because I had a stronger will. And after I gained something, this place lost its attraction to me." Lin Yi explained in general, not going into details.

"You're still keeping it a secret from me, you cheapskate!" Huo yudie snorted in dissatisfaction.

Lin Yi couldn't help but smile bitterly. What do you mean by keeping it a secret? After only a few days of contact, this chick really didn't treat him as an outsider. They weren't familiar enough to share such a secret, right?

It didn't make sense, but seeing Huo yudie's angry face, Lin Yi had to say, "Actually, it's not really a secret. I just gained some enlightenment on this mountain of heavenly Dao. However, I can't say this kind of thing in a few words, let alone explain it clearly."

It was an excuse he had no choice but to make, and it could be said to be half true and half false. After all, Lin Yi couldn't tell everything to this girl, could he? it would be a huge problem for Lin Yi if the girl accidentally let it out, and it was good for both of them to just brush it off like this.

"Alright, you have a point." Huo yudie nodded her head in disappointment. Although there was still some curiosity in her eyes, she would not ask further for the time being.

Lin Yi and Huo yudie looked at the mountain behind them and continued on their way. They had wasted a lot of time taking a shower and going through the mountain. They had to get back the time they had.

The canyon was a lot more dangerous than the outside world, but to Lin Yi, these obstacles weren't much of a threat. With his spirit sense, he could avoid most of them. Even if there were a few that he couldn't avoid, he could kill them in one hit.

Other than the pseudo-human vines, Lin Yi and Huo yudie would also see one or two other practitioners from time to time. These people had obviously come from the side of the mountain, or Lin Yi believed that most of them would sit on the mountain until they died, instead of walking in front of the two.

When these people noticed Lin Yi and Huo yudie, they all chose to stay away from them. After all, the scene of him sending Scarface flying with a slap was deeply rooted in their hearts. No one dared to provoke such a cruel guy. Even if they were just a little closer, they were afraid that they would die a wrongful death. It was better to stay as far away as possible.

Finally, after five days of traveling, Lin Yi and Huo yudie successfully crossed the ten-thousand-year Canyon and came to the end of the canyon, where there was a dead stone array.

There were broken walls everywhere, and Lin Yi felt that this place used to be a grand building complex. He didn't know why, but it was now in such a state. Maybe it had been too long, or maybe it had been shattered by the aftermath of the ancient battle.

In any case, this was undoubtedly the end of the 10000-year Canyon. As for what was behind it, they could only find out after passing through the giant stone array.

Lin Yi reminded himself that he had to hurry up. He wasted five days at the start, and it took him another five days to cross the canyon. No matter what, he had to get back to the starting point in half a month. He didn't know if he could make it out otherwise.

Chapter 4717 If You Don't Believe Me, You'll Be Struck By Lightning

"That's right, this is the place!" Huo yudie took out the map and compared it with the map carefully. She nodded excitedly at Lin Yi. This place meant that they were not far from the Thunder mystical vine.

She'd thought that it'd take at least half a month to get here, but it only took ten days! Everything was smooth, thanks to Lin Yi, a strong teammate-it seemed like she'd found the right person!

Lin Yi nodded and looked around. There weren't many people around, which was within his expectations. After all, even a peak nascent soul cultivator wouldn't be able to cross the canyon easily, let alone in five days.

"What's next? Just go through it?" Lin Yi asked.

"Of course not. There's a formation here. Let me look around. It should be nearby!" Huo yudie said as she checked the map and began to search back and forth.

Formation? Lin Yi frowned. He thought that this place was just a pile of broken walls. He didn't expect there to be a formation here. Could these rocks be part of the formation?

No matter what, since it was a formation, he couldn't touch it. Lin Yi could only stand by with his arms crossed and watch Huo yudie search back and forth. After half a day, Huo yudie was a little listless, but she still didn't find anything.

Lin Yi was speechless. It was true that Huo yudie had been searching carefully, and every step she took seemed to be very careful, but she had been going back and forth for half a day, and the routes she had taken were basically the same. Even if she walked for ten thousand years and ground the ground under her feet into flowers, what could she find?

Seeing that Huo yudie was about to start the thirty-eighth time after repeating it for the thirty-seventh time, Lin Yi couldn't stand it anymore. He stepped out and stopped her, ""Are you tired?"

"Ah? "I ... I'm not tired ..." Huo yudie gasped for breath.

"You're not tired from walking, but I'm tired from looking at you. " Lin Yi shook his head speechlessly,"can't you just show me the map?" Why are you walking in circles by yourself? are we still keeping it a secret?"

"Ah? No! Definitely not!" Huo yudie's face reddened. At the beginning, she was indeed on guard against Lin Yi. It was human nature, but after Lin Yi risked his life to treat her poison and save her life, she threw

away her guard. She said angrily, "I'm not keeping it a secret. You really can't just walk around this place!"

"Oh?" Lin Yi raised an eyebrow.

"Didn't I tell you? there's an extremely profound array here. If you walk around randomly, even a wrong step will trigger heavenly lightning. That's very deadly!" Huo yudie said seriously.

"Sky Thunder formation? Could it be that a formation master had specially set up a formation here?" Lin Yi blinked.

"That's not the case. It's said that every place where the Thunder profound vine grows, there will be a naturally formed array for protection. If you want to pass through this Heavenly Thunder array, it's absolutely impossible to break through it by force. You must find the array eye and use an extremely special method to attack the array eye before you can break the array." After Huo yudie finished her explanation, she added, ""That's why I'm doing this for your own good. I don't want you to be struck by lightning. "

"Alright, but even so, you don't have to go back and forth in the same place. How long are you going to dawdle like this?" Lin Yi couldn't help but laugh. "Since you've collected so much information, don't you know how to move the heavenly Thunder formation?"

"Formations are naturally formed. Every once in a while, due to the changes in the environment, the entire formation will also change accordingly. No one can sort out a route map, and even if they did, they wouldn't dare to follow it because it's very likely that it's useless. So, if you want to safely pass through this Thunder formation, you can only rely on yourself to explore it bit by bit. Of course, you can only start from the edge." Huo yudie said helplessly.

"I'm gonna faint! How long were they going to test him? You should just give it to me!" Lin Yi facepalmed. His time was limited to begin with, and he didn't know what to say if he wasted a few days on something like this.

"Oh ..." Huo yudie replied weakly and passed the map to Lin Yi. Although she didn't think that Lin Yi had a better idea, she was tired after testing for so long. It was good to take a break when Lin Yi was changing shifts.

Lin Yi took the map from Huo yudie and looked at it carefully. He found that other than the method to break the formation, everything else was clearly marked. After he got a general idea of it, he started to walk in without saying anything.

Huo yudie was just about to sit down and rest when she saw the scene. She jumped up in shock and quickly ran over to Lin Yi and grabbed his arm, "Hey! You don't want to live anymore!"

Huo yudie had almost completely wrapped her arms around Lin Yi because of her panic. Lin Yi felt as if his entire arm had sunk into a soft and tender place. This feeling was enough to intoxicate any man. Although Lin Yi wasn't that lustful, he still subconsciously tightened his muscles.

Seeing Lin Yi's strange look, Huo yudie realized that their current position was a bit too intimate. She shrieked and took a few steps back, her face red to the tips of her ears. She didn't dare to look at Lin Yi again.

Lin Yi smiled silently and continued walking towards the stone formation, turning left and right from time to time. There wasn't any pattern to it, and it felt like he was just walking around randomly, but the result was that he didn't trigger any lightning at all!

After Huo yudie recovered from her shyness, she stared at the scene in front of her with her eyes wide open. Her face was full of disbelief. Could it be that she had guessed wrong? this place was not even where the Thunder mystical vine was, and there was no so-called Heavenly Thunder array at all?

That's not possible, right? This was the information that his master had personally obtained from the West Island's Island master, ning Shangling. With their deep friendship, she would not lie about this kind of thing, or was there an error in the map?

Huo yudie didn't want to believe it. She wanted to walk around like Lin Yi, but she had just taken a step and hadn't even touched the ground when she heard a deafening crack. A sharp dark blue lightning bolt struck her head!

Chapter 4718 Not Finished

Fortunately, she had not fully landed on the ground yet. The lightning bolt had almost brushed past her calf and struck her jeans, leaving a long and narrow cut. Fortunately, Huo yudie herself was not scratched. This was a blessing in disguise.

Otherwise, with the power displayed by this Thunderbolt, even if she, a master of the great circle of Yuanying stage, didn't die, she would be seriously injured, at the very least, she would be electrocuted and pass out. Heavenly Thunder was no joke.

Even Lin Yi, who was walking in front of them, was shocked by the sudden movement. He quickly turned around to check on her and was relieved to see that the girl was fine. He looked at her helplessly and said, ""Don't you know that there's heavenly lightning here? And you're still walking around ..."

"I ... I just wanted to try!" Huo yudie's face turned red as she replied weakly. Then, she looked down at her ripped trousers and her face was full of heartache. This was a dress from the secular world. She might only have this set of clothes in her life ...

Looking at Huo yudie's expression, Lin Yi was speechless. He seriously suspected that there was something wrong with this girl's brain. Her first reaction was not fear, but worry about her pants?

Huo yudie quickly called out to Lin Yi as he turned around and left, ""Hey, wait for me!"

She'd be lying if she said she wasn't scared after being almost struck by lightning. It was unbelievable, but Huo yudie now believed that Lin Yi wasn't just walking around. He really did have a way to avoid the hidden sky lightning formation. Lin Yi had given her all kinds of surprises these past few days anyway, so she was used to it.

"Just follow behind me and don't wander around." Lin Yi turned back to look at her.

"B-but ..." Huo yudie stammered.

"But what? Could there be other dangers here?" Lin Yi blinked.

"Dangerous? "No, I didn 'T. I was talking about my pants ..." Huo yudie blushed as she pointed at the hole in her pants. A small part of her smooth, white, and tender calf could be vaguely seen. Although it was not exposed much, she had always worn it tightly, so it felt a little weird.

"Oh, that's fine. This kind of beggar's pants is the most popular in the secular world. Many people even deliberately tear their jeans when they buy them. They won't even look at your tiny hole. They'll need at least a dozen of them." Lin Yi said with a smile.

"Really?" Huo yudie's eyes widened in disbelief. Why did he have to tear up his pants? how could there be such a person in the world? The secular world was really too magical.

"It's true. If you don't believe me, you can ask Han Jingjing yourself when you get back. You should know that she's also from the secular world like me, right?" Lin Yi asked.

"Oh, alright." Huo yudie nodded doubtfully. She knew about han Jingjing, and she wanted to get to know her, but she was either with Lin Yi or in the lab. She didn't have the chance to meet her, let alone talk to her.

Lin Yi was once again walking through the winding path, and he was just as smooth as before. Huo yudie quickly followed after him, trying to figure out what was going on. However, she couldn't figure out anything even after following him for a long time. Every turn he made was strange and random.

"Hey, why did you choose this path?" Huo yudie's heart was like a cat's paw scratching it, and she could not help but ask. If it was not for the lesson she had just learned, she could not help but want to try it again.

"It's my intuition. " Lin Yi's answer was short and simple-he couldn't answer the question, of course. He didn't know if there was any danger ahead, but he had the Jade to warn him. As long as there was danger ahead, he'd be alerted. He'd just have to find the direction where the alert disappeared before he could go.

"Hmph, stingy!" Huo yudie mumbled, still in disbelief. She didn't believe that it was all based on her intuition, but it was the only thing that could explain it. Lin Yi couldn't be treated with common sense, and following him was the right thing to do.

Just like that, the two went back and forth in the formation for half a day, and there were a few times where there was lightning on three sides. Even Lin Yi, who had the Jade to warn him, couldn't do anything about it, so he could only retreat back and feel it again, and finally made it around.

According to the mark on the map, the Thunder mystical vine was behind the giant stone formation. Lin Yi sized it up and saw that it was an open space that was neither big nor small. There were no giant stones blocking the road, and it looked bright and clear. He took out the map and compared it with the map before nodding, "This should be the place."

Huo yudie didn't say anything as she stared at the memorial Arch in the middle of the empty space. She was in a daze. If it wasn't for Lin Yi, she wouldn't have been able to get here on her own. At least, it wouldn't have been this fast and easy.

"What's wrong?" Lin Yi looked at her curiously. "Hurry up and tell us what we should do next. Time is limited, so let's not waste any more time."

Although Huo yudie didn't tell him how to find the Thunder mystical vine, Lin Yi could guess that it wasn't that easy to find it. Even if they reached the destination, they would have to meet some extremely strict and special conditions. Otherwise, the sky Thunder formation alone would be too difficult for the Thunder mystical vine.

Huo yudie was stunned for a moment before she reacted. She pointed to the memorial Arch in front of her and said, ""This is the five Thunder tribulation archway, the eye of the sky Thunder array. Only by

attacking the eye can we temporarily break the sky Thunder array and have a chance to find the Thunder mystical vine. After breaking the array, it will open for five days. After five days, the sky Thunder array will reset itself, so we must leave before that."

"It's that simple?" Lin Yi was about to activate his pure Qi to attack-he was in a hurry, and he wouldn't hesitate at all. In fact, there was no point in hesitating-he'd only know if he'd succeed after trying.

"Al! Wait!" Huo yudie was shocked. She quickly pulled him back and said, ""I'm not done yet, don't be so anxious!"

"What else is there?" Lin Yi frowned.

"Although this five Thunder tribulation archway is the eye of the array, ordinary attacks are useless. Not only will they not break the array, but they will also attract the strongest heavenly lightning. We will die Here!" Huo yudie said with a lingering fear.

Chapter 4719 Quickly Run!

"Normal attacks won't work? Then what should we do?" Lin Yi asked curiously, but he could guess that this was the reason why Huo yudie wanted him to be her teammate. He had all five attributes.

"If you want to break the sky Thunder array, you have to use a very special way to attack the five Thunder tribulation archway. That is, you have to attack with five martial techniques of the basic spiritual root attribute at the same time. You have to make sure that the power of these five martial techniques is above the nascent Soul Stage and roughly equal to each other." Huo yudie explained.

"So it's like that. I was wondering why you wanted to find a stranger as a teammate. So it was for this." Lin Yi nodded in realization before continuing, "Then why didn't you bring five people with you? It

shouldn't be difficult to find a Yuanying stage expert with five basic spiritual roots in your Academy, right? why do you have to find me?"

"Are you stupid? five people means we have to split it into five portions. How much can I have left?"
Huo yudie rolled her eyes.

Lin Yi couldn't help but look at her strangely, "Even if the five of us split it equally, you'll get 20%. You and I can only get 20% now, What's the Difference? Don't tell me you've forgotten that we agreed on a 20 - 80 split ..."

"Uh ..." Huo yudie choked for a moment, and then said angrily, ""Who knew you'd be so greedy! Moreover, my master has specifically instructed that the search for the Thunder mystical vine must be kept a secret, the fewer people the better, otherwise, if there are too many people, the news will be leaked. What's more troublesome is that if someone wants to take the money during the process, it'll be a big problem. They might even end up as enemies and kill each other. I don't want to end up in a tragedy, even if I only get twenty percent, two people are better than five people. "

"Hehe, but there's only the two of us now. Aren't you afraid that I'll be tempted by the money and won't even give you the 20%?" Lin Yi said with a mischievous smile.

However, Huo yudie was not afraid of him at all. She looked at him provocatively and said, "Whatever. Come on. Isn't it just a rape and kill?"

"..." Lin Yi was speechless. This girl wasn't so open at first, but after ten days, she wasn't afraid of him at all. Look at her proud face when she said that, especially with the ripped denim sportswear she was wearing. She looked like a gangster from the secular world. A classic beauty had turned into this, wasn't the gap a little too big?!

Lin Yi felt a sense of guilt, as if he was the one responsible for all of this. If it wasn't for the fact that she was following him around these past few days, Huo yudie would still be that classic beauty, at least she wouldn't be a thug from the secular world ...

"Forget it, let's get back to the main topic. Let's quickly start breaking the formation." Lin Yi changed the topic and looked at the five lightning trial Memorial Arch.

"However, this matter is actually a bit difficult. Although you have all five elements, if you want to break the array, you must simultaneously use martial skills of all five elements. It is difficult for ordinary people to do this, but I believe in you." Huo yudie reminded him. If she didn't see Lin Yi's strength before, she wouldn't have this much confidence in him. After all, it wasn't easy to use five different elements at the same time.

Even if he didn't use his full power and only needed to reach the level of the original infant stage, all the movements had to be completed in one breath. This was basically equivalent to doing five things at the same time. For ordinary people, it was not easy to do two things at the same time, let alone five.

Lin Yi couldn't help but smile bitterly. If he didn't have the encounter when he came out of the five poisons swamp, he wouldn't be able to do anything after hearing Huo yudie's words!

Although he had learned the five elements Eight Trigrams palm before, it also had the five elements attributes, but this martial art technique reached its peak after reaching the heaven-tier great completion. There was no further progress after that, and it was still a long way from the original level.

As for the other skills, no matter how skilled Lin Yi was at them, he couldn't do it all in one breath. This girl didn't even think about it before coming to him-was this something a normal person could do?

It was already pretty good for an ordinary person to be able to activate one martial technique in a breath's time. It was impossible for two!

Fortunately, Huo yudie didn't think too much about it, or Lin Yi wouldn't even have a chance to get the Thunder mystical vine.

Seeing Lin Yi's strange expression, Huo yudie finally realized that she had taken it for granted. She tried to remedy the situation, "This ... I also know that it's not realistic to activate five martial arts techniques at once, but with your strength, you should be able to activate four martial arts techniques, right? I have a metal spiritual root, so I can use it with you. I'll leave the other four to you. Why don't we try to practice together first ... If it doesn't work, I still have a wood spiritual root in my body, so I should be able to practice it ..."

"Forget it, there's no need for that." Lin Yi shook his head and sent a five-element killing Qi towards the five Thunder trial Memorial Arch.

Huo yudie was shocked. It was too late for her to say anything. The five Thunder tribulation archway was the eye of the array. It did not care if you had practiced it together or not. Attacking it would only lead to two results. One was to break the array successfully, and the other was to attract the crazy Heavenly Thunder. There was no third possibility.

Huo yudie thought that although it would be difficult, with Lin Yi's ability and her cooperation, they would be able to work together after a few dozen practices. She didn't expect Lin Yi to hit it so easily!

Boom! Boom! Boom! After the killing Qi of five elements entered the five Thunder tribulation archway, the sky and earth suddenly shook. In the blink of an eye, the sky above them was covered with dark clouds, and countless Thunderbolts were faintly visible. It was a terrible scene as if the end of the world was coming.

"Quickly run!" Huo yudie was scared out of her wits. She quickly grabbed Lin Yi's hand and tried to run away. After all, the situation didn't look good no matter how she looked at it. The lightning was brewing, and it was probably the strongest lightning!

Lin Yi's feet didn't move, but looking at the terrifying phenomenon above his head, his heart couldn't help but beat like a drum. Could it be that the five elements killing intent couldn't be used to break the formation?

Previously, when he heard Huo yudie's explanation, he thought that as long as the attack had the five elements, it would be enough. As for whether it was a martial arts technique or five martial arts techniques, it was not the key. However, if the killing intent of the five elements was not enough, did it mean that five martial arts techniques were needed?

"Quickly run!" Huo yudie panicked when she couldn't move Lin Yi. If she was any smaller, she would've carried Lin Yi and ran away already.

Chapter 4720 Thunder Mystical Vine!

Before her voice fell, there was a loud crack above her head. An extremely thick pillar of lightning struck down. The terrifying power produced in this instant made Huo yudie's face change greatly. Not to mention a master of the great circle of Yuanying stage, even a master of the great circle of xuansheng stage would be struck to death by this lightning. Today, she was really going to die before she could even complete her task!

However, what happened next stunned her. This terrifying lightning pillar wasn't targeting her or Lin Yi, but the five lightning tribulation archway!

Then, under Huo yudie's stunned gaze, the inconspicuous five Thunder tribulation archway was not smashed into pieces. Instead, it suddenly became radiant, as if a rare treasure had been baptized by the heavenly Thunder and revealed its shocking lineup.

"It looks like it's a success." Lin Yi's eyes lit up as he looked at the changed shape of the five Thunder tribulation archway. It was just a archway before, but now it was covered with all kinds of exquisite and profound runes. There was also a medium-sized circle of light at the edge, rippling regularly. This circle of light felt familiar, like a teleportation formation.

"This ... This really seems like the array has been broken. But how is this possible?" Huo yudie was dumbfounded. She had a rough idea of what would happen after the formation was broken, and it was exactly the same as what was described in the report. But she still turned to Lin Yi in disbelief, "Can you really activate five types of true Qi martial arts techniques at the same time?"

"Yes, my martial skill is a bit special." Lin Yi explained vaguely, "Let's go. "

"Oh, oh, it seems that I've found the right person!" Huo yudie was glad that Lin Yi didn't do this. If he didn't do this, this would be a lot of trouble, and they might not even be able to get through the door. But now, everything was solved. According to the information she received, as long as she could break the sky Thunder formation, there would be no obstacles.

The two didn't hesitate and walked to the light circle at the edge of the five Thunder tribulation archway. As expected, this light circle was a small teleportation formation, but it was different from the ones they'd seen before. Other teleportation formations would need a certain amount of time to

activate, but this one was different. As soon as Lin Yi and Huo yudie walked into the light circle, the scene in front of them changed.

Rather than calling it a teleportation, it was more like pushing open Doraemon's teleportation door and entering a different place.

The scene in front of them was a narrow one-way passage with a line of sky above them. The clouds were so thick that it was terrifying. Lin Yi wanted to explore it at first, but he gave up the idea after seeing the thick clouds. He'd be killed by lightning if he went up.

Hu! Huo yudie heaved a sigh of relief. Although that was what the intelligence said, she was really afraid that there would be an unexpected crisis at this time. However, it seemed that there was no danger for the time being.

"Let's go," he said. Lin Yi said as he led the way. There was only one way in front of them, and there was no other choice. He had the Jade to warn him anyway, so he could react in time even if there was danger.

After three turns, Lin Yi suddenly stopped in his tracks. Huo yudie, who was behind him, was caught off guard and bumped into him. She said, ""What's wrong?"

"There's no other way. " Lin Yi's voice was filled with excitement.

"There's no other way?" Huo yudie froze for a second, her head peeking out from behind Lin Yi. She was stunned as well, her eyes shining with excitement as she mumbled, ""Thunder mystical vine! This is the Thunder mystical vine!"

There was indeed no way out in front of them, only an extremely steep cliff. However, on this cliff, there were a few strange-shaped vines. Besides being thicker than ordinary vines, their biggest feature was the occasional electric arc flashing on their surface. Without a doubt, these were the Thunder mystical vines!

Lin Yi's eyes brightened up after counting. There were five Thunder mystical vines here, but two of them had been cut off by someone. Only two different-length roots were left.

As for the remaining three Thunder mystical vines, their growth was different. One of them was obviously already very mature. Not only was the vine much thicker than the others, even the lightning that streaked across it from time to time was more powerful and frequent.

As for the remaining two Thunder mystical vines, they were relatively more tender. One of them already showed signs of maturity, while the other one had just sprouted and the vines had not even fully spread.

"So it's the five Thunder mystical vines that are alternating with each other!" Lin Yi immediately understood. From the looks of it, the growth cycle of these five Thunder mystical vines just happened to be staggered. In other words, it was basically guaranteed that there would be one Thunder mystical vine that just matured in every trial.

It seemed that these Thunder mystical vines weren't completely natural, but were carefully arranged by someone. As for the purpose, it was mostly to ensure the value of the West Island trial. After all, the Thunder mystical vine was a treasure of the highest level. If there was a break in the middle, the West Island trial wouldn't be as famous as it was now.

"This is the one, quickly cut it down!" Huo yudie pointed at the fully mature Thunder mystical vine and said excitedly.

"Cut it off?" Lin Yi blinked, "Why do you want to cut it? Isn't it good to take it back with the root? we can take this back and plant it, right?"

"Eh? Don't you know the rules of the cultivation world?" Huo yudie looked at Lin Yi and saw that he really didn't know what was going on. She explained, ""There's always a way out, especially when you're facing a treasure of heaven and earth. You can't cut the weeds and eliminate the roots unless there are special circumstances. After all, it's your good fortune that you encountered it, but you can't deprive nature of the good fortune that other cultivators have. You must know that if you go too far, fate will end early."

"Oh, I've learned a lot." Lin Yi nodded humbly. He didn't think that Sky Class Island had this sort of rule. It seemed like the world of practicing wasn't completely lawless, other than mutual deception.

Greed was human nature, and if there weren't such rules, all the treasures on Sky Class Island would've been taken clean, leaving nothing behind. Leaving a way out for others was the same as leaving a way out for yourself.

However, since this rule was a conventional agreement, it meant that it was not mandatory. Except for disciples from the East Province Academy or famous sects like Huo yudie, who had such self-awareness, others might not be so disciplined!
