

## Bodyguard 4721

### Chapter 4721 Someone Is Coming

Especially in a chaotic place like the sea of the South continent, there would never be such a well-behaved practitioner. At least, Lin Yi had never seen one before.

"Not only that, even if you take this root back, it's useless. It can't grow at all." Huo yudie continued.

"Why?" Lin Yi couldn't help but ask.

"It's because the Thunder mystical vine has a very unique and strict requirement for its growth environment. It can only grow continuously under the tempering of lightning. Other than this place, which is blessed by the heavens and is frequently tempered by lightning, no other place has such conditions. " Huo yudie said with a smile.

"Hmm, that's a problem." Lin Yi nodded. This could be seen from the Thunder mystical Vine's name and the electric arcs that streaked across it. There was a thick layer of lightning clouds at the top, and you wouldn't be able to find it elsewhere.

He was planning on putting the Thunder mystical vine into the Jade space, but decided to give up after thinking about it. It wasn't purely because the Thunder mystical vine needed lightning, but Lin Yi could barely satisfy this condition. He had the Thunder attribute now, so it wasn't hard for him to create some lightning in the Jade space from time to time.

The point was that this was the Western part of the island, which was ning Xuefei's territory. Lin Yi could scam anyone but ning Xuefei. He could get the Thunder mystical vine this time anyway, so it didn't matter if he got it or not.

The two of them immediately began to cut the Thunder mystical vine with great interest. Because of the flashing electric arcs on the vine, it was actually a technical job. If they were not careful, they would be injured. However, Huo yudie had already prepared for it. She had brought special tools in her backpack, and they could finally put them to use at this time.

Just as Lin Yi and Huo yudie were cutting the Thunder mystical vine, two familiar faces suddenly appeared in the huge stone array outside. It was Xu lingchong and Kang Zhaoming.

Their mission in the trial this time wasn't just to ruin Lin Yi's plan. They had another important mission-the Thunder mystical vine.

They had the same information as Huo yudie, so it wasn't strange for them to be here. However, they didn't have Lin Yi's Jade to alert them, so it wouldn't be easy for them to get through the stone formation.

The sky Thunder formation was broken by Lin Yi on the surface, but it only opened the passage inside. The outer area was still running, and a single wrong step would cause a crack of lightning.

But the two came prepared-they weren't at a loss for what to do. Zhaoming was wearing the smart armor and holding something that looked like a detector. It seemed like it was connected to the armor, and it was with this that Zhaoming was able to miraculously Dodge the lightning!

He had to admit that Central's level of technology was no small matter-this super high-tech gadget was almost as practical as Lin Yi's Jade.

There would always be signs before a lightning strike, and the sky lightning formation was no exception. It was because of this detector that Zhaoming was able to detect the lightning, but that alone wasn't enough for him to avoid it.

Although the detector was extremely sensitive, it could only react half a second in advance at most. The reaction time wasn't as good as Lin Yi's Jade. However, the smart armor on Kang Zhaoming made up for this deficiency. This super high-tech crystal was connected to the detector and could even Dodge automatically.

In other words, before Kang Zhaoming could even react, it had already dodged automatically. From a certain perspective, this thing's technology was much more advanced than the powerful laser cannon!

"Haha, young master Xu, what do you think? the things in the secular world are still very awesome, right? This thing is much more powerful than any divine weapon!" Kang Zhaoming led the way as he laughed proudly.

"Yes, it's indeed not bad." Xu lingchong nodded sincerely.

Kang Zhaoming's performance had completely changed his view of the secular world. Everything else aside, the Super high-tech stuff in the secular world was really awesome. He was even envious of Kang Zhaoming's swagger. He wanted to snatch it from him and wear it himself.

The two quickly arrived at the five lightning tribulation Memorial Arch. Zhaoming looked at the bright light and rubbed his eyes, speechless. "The place that produces the Thunder mystical vine is really awesome. Even the array eye looks so cool. Young master Xu, it seems like we can only use some strength to break the door down, right?"

"That's right. According to the information, it requires five elements attribute martial skills to attack at the same time. It's impossible for the two of us to do it alone, but can you break it by force?" Xu lingchong was suspicious.

"I don't know. Let's try it first. Anyway, it's an order from the higher-ups, so they can't blame us if there's a problem." Zhaoming rubbed his hands as he spoke, aiming the laser cannon at the five lightning tribulation Memorial Arch. He didn't care what bullsh \* t request it had-one shot was enough to end it.

Zhaoming licked his lips, eager to try. But just as he was about to fire, lingchong stopped him, "Wait a minute, this Memorial Arch is a little strange. Why do I feel like it has already been opened?"

"Ah? Really?" Kang Zhaoming was surprised. He was only using the Super high-tech equipment to show off, but his eyes were far from lingchong Xu 's.

"It should be right. Go and try." Xu lingchong immediately ordered.

In the past, Zhaoming would've tried to shirk responsibility for a white mouse mission like this, but he was full of confidence now. He walked over without a word, and as soon as he reached the five Thunder trial archway's light circle, the scene changed.

"As expected!" Xu lingchong quickly followed after him. Although Kang Zhaoming was the main force in this mission, he wouldn't let Kang Zhaoming have the upper hand when it came to the Thunder mystical vine.

Kang Zhaoming and Xu lingchong's sudden intrusion immediately put Lin Yi on alert. His spirit sense was always on the alert for any movement in the surroundings. He couldn't detect the two when they were outside, but once they entered, there was no way they could escape his senses.

"Someone's coming, wait for my signal later!" Lin Yi said to Huo yudie and quickly put the Thunder mystical vine into the Jade space.

Seeing the Thunder mystical vine disappear into thin air, Huo yudie was dumbfounded. If she didn't know more about Lin Yi these days, she would really suspect that this guy was greedy and wanted to keep the Thunder mystical vine for himself!

Chapter 4722 What Is The Bottom Line?

Lin Yi had just kept the Thunder mystical vine when Zhaoming and lingchong barged in. Both of them couldn't help but be dazed for a moment, subconsciously taking two steps back and facing each other.

"Aiya, we're really enemies on a narrow road! I was wondering who would dare to beat me to it, but it turns out to be you, the pretentious leader!" Kang Zhaoming reacted and jumped up. At the same time, he couldn't help but aim his laser cannon at Lin Yi. He really wanted to find a chance to fire a shot at this guy.

It wasn't just Kang Zhaoming and Xu lingchong who were shocked. In fact, Lin Yi and Huo yudie were even more shocked than the two of them. Although Lin Yi had sensed it in advance, his shock was not fake. He really didn't expect these two guys to be here!

He discreetly glanced at the laser cannon in Kang Zhaoming's hand, and silently prepared himself to attack. The two of them weren't a threat to him, but this laser cannon could easily kill a peak nascent soul realm master. He had to be on guard.

In particular, the other party was also occupying the exit position. Once they fought, their position would be quite disadvantageous. It was simply like being caught in a jar. If they wanted to make a move, they had to strike first.

At the same time, Huo yudie was also secretly holding her breath. It was impossible for them to be kind to the two of them at this time and place. Although she was a woman, if they were to really fight, she would definitely be the one to make the first move.

Compared to Kang Zhaoming, who wanted to take this opportunity to cause trouble for Lin Yi, Xu lingchong's focus was on the Thunder mystical vine. After glancing at the situation on the cliff, she couldn't help but frown, "Eh? How come these Thunder mystical vines aren't mature yet? could it be that the mature ones have been cut down by you guys?"

"Are you blind? If it's chopped off, you can take a look at it. Did you eat it? We just got here!" Lin Yi's tone was unfriendly.

Xu lingchong and Kang Zhaoming looked at each other and confirmed that Lin Yi and Huo yudie didn't have any Thunder mystical vine on them. After all, if they really cut off an entire vine, it wouldn't be small and they wouldn't be able to hide it.

"Then the two of you are also here for the lightning mystical vine?" Xu lingchong asked again.

"Nonsense. If we didn't come to this place for the Thunder mystical vine, could it be that we came here to look at the scenery?" Lin Yi's tone was obviously filled with anger, as if he'd just lost his temper. "I've come all the way here, but it's not mature yet. I've come here for nothing and can only return empty-handed. What bad luck!"

As he spoke, he gave Huo yudie a look. Lin Yi led the way with an unfriendly expression. Xu lingchong and Kang Zhaoming didn't stop them. Since the other party didn't get the Thunder mystical vine, it didn't matter if they let them go. They immediately made way for them.

Huo yudie followed Lin Yi's steps anxiously, and he passed the test successfully. She couldn't help but admire Lin Yi's calmness and wit. He clearly had an entire Thunder mystical vine, but he could still fool the other party. His acting skills were superb.

Kang Zhaoming let Lin Yi and Huo yudie go over. He wanted to use this opportunity to cause some trouble, but since Lin Yi was so tactful and took the initiative to step back, and the higher-ups said that he couldn't provoke the other party first, he didn't bother with them. He turned to Xu lingchong and said, "Young master Xu, in that case, let's go and dig it out ourselves. Don't bother about this pretentious leader."

"These two Thunder mystical vines are not mature yet. It's useless to take them back." Xu lingchong frowned and shook his head.

"That's true," Kang Zhaoming thought about it and suggested, "Why don't we just uproot them and bring them back? anyway, it's an order from the higher-ups, so let them solve this matter themselves. We've already done our best."

"Ah? Uprooting it? This isn't good, is it?" Xu lingchong couldn't help but hesitate. Although he wasn't a good person, he was still a disciple of the three pavilions of the North Island. Those big sects had imperceptibly influenced him to control his actions. At the very least, he still knew the customary rule of leaving a line in everything.

"But we can't go back empty-handed like the pretentious leader, right? "These two Thunder mystical vines aren't mature yet, but we've done our part by cutting them down and bringing them back. The higher-ups won't be able to say anything. If we just leave like this and the higher-ups blame us, we won't be able to take it ..." Zhaoming advised.

At the thought of being punished by the mysterious man, Xu lingchong couldn't help but shiver. She could only nod in agreement and say, "Alright then, we'll do as you say."

After the two finished talking, they were ready to dig out the two unripe Thunder mystical vines. Lin Yi was almost at the exit, but he was shocked when he noticed their actions. If it was something else, he wouldn't care, but this involved the interests of the entire Western Island, especially Xuefei's interests. He couldn't just stand by and watch.

If it wasn't for this consideration, Lin Yi would've moved all the Thunder mystical vines into his Jade space long ago. Why would Xu lingchong and Kang Zhaoming have the chance to do so?

"Stop!" Lin Yi's sudden appearance behind the two of them really gave lingchong and Zhaoming a big shock-they didn't think that the guy would come back!

Xu lingchong immediately acted as if he was facing a great enemy. He may be an original infant stage master now, but he'd lost too much to Lin Yi before, and he was scared from the bottom of his heart. If he were to face Lin Yi alone, his first reaction would be to turn around and run.

But this time it was different. He had Kang Zhaoming with him, equipped with super high-tech equipment. His combat power was comparable to a master of the xuansheng stage. Naturally, he wouldn't be scared by Lin Yi.

"Why? Acting tough leader, don't tell me you're going back on your word and want a share of the loot? I'm telling you, there's no way!" Zhaoming said arrogantly as he pointed his laser cannon at Lin Yi, his face full of disdain.

Lingchong stepped back, fearful. Zhaoming was a meat shield ready for Lin Yi's surprise attack, but lingchong couldn't. If they were to fight, he'd be killed in one hit.

"You won't even let off an immature Thunder mystical vine and even want to dig it up by the roots. You are disciples of the three pavilions of the North Island. Don't you have no bottom line?" Huo yudie, who appeared behind Lin Yi, looked at the two angrily.

"Bottom line? What's that?" Kang Zhaoming laughed out loud with an arrogant look on his face. He couldn't wait for Lin Yi to make a move. It was a good time to let his rival experience the power of a laser cannon!

Chapter 4723 No Fight

"Hmph, the North Island and the West Island have always been on good terms. If the two of you treat the treasures of heaven and earth in the West Island like this, how do you think the higher-ups of the North Island will deal with you if this matter gets out? You might even alert Pavilion master Shangguan. Are you sure you can withstand it with your Ultraman equipment?" Lin Yi said with a cold smile.

Kang Zhaoming and Xu lingchong's faces changed at the words. The other party's words were just to scare them, but it wasn't impossible. What if they were accused of destroying the relationship between the two islands? they would be in deep trouble!

Zhaoming's high-tech equipment was all that he needed to be, but he didn't have the balls to face the wrath of a Big Shot like Shangguan Tianhua.

Kang Zhaoming was at a loss for words. Xu lingchong, who was hiding behind him, said, "What a joke. Only the capable can obtain the treasures of heaven and earth. Since we are allowed to participate in the West Island trial this time, as long as we have the ability, the Thunder mystical vine will naturally be at our disposal. The trial rules didn't say that we can't dig up the Thunder mystical vine, right?"

"That's right. Since the trial rules didn't state it, it means that it's tacitly approved. No one can find any reason for it!" Kang Zhaoming quickly went along and mocked Lin Yi and Lin Yi, "You're the one who's stupid, yet you're blaming others. You even have a righteous and strict virtue. Tsk, tsk, the pretentious leader is indeed the pretentious leader!"

"You're being unreasonable! How did the three pavilions of the North Island train such shameless disciples like you? you're still so proud of what you've done. Don't you have any shame?" Huo yudie said angrily.

"Hehe, when we get the Thunder mystical vine, the winner of this trial will definitely be me. At that time, when I marry the princess of the West Island, you'll know if I have any face!" Kang Zhaoming laughed.

He was already looking down on Huo yudie now. The Thunder mystical vine was a rare heavenly treasure. Even if others tried their best to grab a large basket of heavenly treasures, it would be useless. Its value was far less than this small piece here. In other words, the princess of the West Island, ning Xuefei, was like this Thunder mystical vine, which was already in his pocket.

"Don't worry, you won't be able to get the Thunder mystical vine. " Lin Yi's face turned cold as he sent out a five elements killing intent. He wasn't prepared to fight Kang Zhaoming to the death with his super high-tech equipment, so he didn't mind taking a step back. But now that Kang Zhaoming said that he wanted to touch ning Xuefei, he crossed the line and had to kill him!

Zhaoming's eyes twitched when he heard the faint yet soul-stirring Dragon's Roar!

Although he wasn't afraid of Lin Yi now, the long-accumulated prestige had long been deeply rooted in his heart. It would be a lie to say that he wasn't panicking at all.

As for Xu lingchong, he was so scared that he hid behind Kang Zhaoming's back. MA dang Qiang's mid-stage nascent soul experience was still fresh in his mind. Even if he was stronger than MA dang Qiang, it was limited. He knew that he was no match for Lin Yi, the freak.

BOOM! In the blink of an eye, the five elements killing intent had already hit Zhaoming's chest, and the aftershock of the attack shook the entire area-it was clear how powerful it was!

Huo yudie was overjoyed. She didn't have a good impression of people like Kang Zhaoming at all, especially when he didn't have any bottom line. She couldn't wait for Lin Yi to kill him so that there would be one less bastard in the world.

However, the next moment, Huo yudie's eyes widened. She had seen Lin Yi's five elements killing intent a few times on the road, especially the scene where he sent Scarface flying with a casual slap. It left a deep impression on her. After all, Scarface was a master of the xuansheng stage.

Huo yudie thought that it would be a piece of cake for Lin Yi to use such a powerful killing move on Kang Zhaoming, but she didn't expect that Kang Zhaoming would only take half a step back after Lin Yi's five elements killing Qi hit him.

Even Lin Yi himself was shocked by the result, let alone yudie. The five elements killing intent was his strongest killing move, and it was enough to kill a xuansheng stage master in seconds. But Kang Zhaoming was hit in the chest without a scratch, how was this possible?!

"Haha, acting tough leader, so that's all you got!" Kang Zhaoming was still panicking at first, but now he became cocky, "I'm not afraid to tell you that this is the latest super high-tech intelligent armor that I've developed. It can easily block even a full-powered attack from a master at the xuansheng stage. You, who are only at the peak of the early Yuanying stage, are nothing!"

Lin Yi couldn't help but frown. He'd already overestimated Kang Zhaoming's equipment. Otherwise, he wouldn't have chosen to back off from the start.

However, he had thought that the laser cannon was the one he should be most afraid of. He did not expect the smart armor on the other party to be even more difficult to deal with. It did not even use the strongest killing aura of the five elements. Did this not mean that the other party was in an invincible position?

Since hitting the body didn't work, he could only hit the head. At least the head wasn't protected by the armor. Lin Yi didn't hesitate to attack again, but before he could gather the five elements killing intent, the smart armor on Kang Zhaoming's body suddenly moved and covered his head. There were no blind spots, he had become Ultraman ...

Lin Yi was at a loss-if he didn't find a way to break through the armor, he had no chance at all!

But if he just left like that, the two Thunder mystical vines would fall into the hands of the enemy. Not only would it cause huge losses to the Western Island, but it would also affect ning Xuefei's marriage. Lin Yi couldn't just let Kang Zhaoming have the last laugh, could he?

He had a mature Thunder mystical vine, but if Kang Zhaoming dug up two, the value would exceed his!

"Haha, there's no other way, right? I haven't even done anything yet. Come on, I'll let you, the pretentious leader, have a taste of my laser Cannon's power!" Kang Zhaoming laughed as he raised his laser cannon and fired.

Under normal circumstances, it was impossible to dodge this kind of instant-cast weapon. It would definitely hit where it pointed, and there was almost no time difference between them. No matter how strong or fast one was, it was nonsense. Could it be faster than light speed?

It was a good thing that Lin Yi had the Jade's warning system, and managed to Dodge the attack before Kang Zhaoming could make a move.

The laser cannon missed, and it actually blasted a bottomless pit into the cliff of this place. The power of the laser cannon was so shocking that it was simply appalling!

Lin Yi couldn't help but feel his heart palpitate-even a full-powered attack from a peak xuansheng wouldn't be this scary!

"Tsk, tsk, you can even dodge this. You're really lucky!" Zhaoming pouted, surprised.

## Chapter 4724 I'll Go With You

But it was obvious that the kid didn't plan on letting Lin Yi go just like that. Zhaoming fired another shot right after. He usually didn't provoke Lin Yi, but this time, Lin Yi was the one who attacked first. He didn't hold back at all when he retaliated, and he couldn't let go of such an opportunity.

Lin Yi saw that the situation wasn't looking good and quickly retreated with Huo yudie. They used the cliffs to temporarily escape from the enemy's line of sight. This was the only way out. The smart armor and laser cannon were super high-tech weapons. Even if Lin Yi was a hundred times stronger than Kang Zhaoming, he couldn't do anything to the enemy.

If Lin Yi was alone, he could use the Jade's warning to deal with the enemy and find their weakness.

But he had to worry about Huo yudie's safety. Even if Kang Zhaoming didn't target her, it was still easy to accidentally hurt her. A laser cannon could kill her if it grazed her.

After a few turns, Lin Yi and Huo yudie reached the exit. They stopped and looked at each other when they saw that Kang Zhaoming wasn't chasing them.

"What should we do? Are we just going to let them dig up the Thunder mystical vine along with its roots?" Huo yudie looked at Lin Yi, still in shock.

The scene just now made her understand how scary the opponent's equipment was. Even Lin Yi couldn't do anything to him, let alone her. Basically, even if Kang Zhaoming stood in front of her and let her hit him, she wouldn't be able to do anything.

Lin Yi shook his head unwillingly, but he couldn't think of a solution at the moment. He believed that no matter how high-tech a weapon was, it had to have a weakness!

However, how to find this weakness was an out-and-out problem.

At this moment, Lin Yi's heart suddenly tightened as the Jade in his mind started beeping. He quickly pushed Huo yudie to the ground.

"Ah!" Huo yudie cried out in shock, her face red as she looked at Lin Yi who was on top of her. She could feel the man's masculine aura so close to her, and her face was red as blood. She couldn't help but get angry, "What are you doing? You want to rape me before killing me?"

"Pfft!" Lin Yi was quite nervous at first, but he burst out laughing at the words-what was wrong with this girl's brain, thinking of rape and kill now?

Lin Yi didn't say anything, but pointed upwards silently. Huo yudie followed his finger and jumped in shock. The place where they were standing just now had a series of holes. It was obvious that Kang Zhaoming didn't want to give up and fired blindly in the direction of the exit.

The terrifying power of the laser cannon directly penetrated the four cliffs that were blocking the way! If Lin Yi didn't save her in time, the two would've died already.

"Let's talk after we get out!" Lin Yi pulled Huo yudie up and looked at Kang Zhaoming through the hole. He quickly left the five Thunder tribulation archway. It was too dangerous to stay in there. Laser guns were unreasonable.

"Hahahaha! The pretentious leader has turned into a coward. This time, I'm going to make you suffer!" Kang Zhaoming laughed arrogantly. He wanted to chase after Lin Yi the moment he saw them running away. He didn't plan to let Lin Yi go so easily. Even if he couldn't kill Lin Yi, he had to make a hole in Lin Yi's body to collect some interest.

"Forget it. There's more important things to do. Let's dig out the Thunder mystical vine first!" Lingchong Xu stopped him. He hated Lin Yi to the bone, but he remembered the mysterious man's warning. If Zhaoming really killed Lin Yi, he wouldn't be able to stay out of it even if he wanted to.

"Alright then. I'll let that pretentious leader off for now. I'll deal with him later!" Kang Zhaoming put away the laser cannon unwillingly and started to dig for the Thunder mystical vine. As long as he got the two Thunder mystical vines, not only would he complete the task given by the higher-ups, but he would also be able to get ning Xuefei, the princess of the West Island. This was killing two birds with one stone. It was something that would only happen in his dreams.

The two of them were busy digging up the Thunder vines, but Lin Yi and Huo yudie were at a loss as they looked at the five Thunder tribulation archway. Huo yudie didn't know what to do, but Lin Yi didn't want to leave just like that. He couldn't do anything to Kang Zhaoming's high-tech equipment, so he was stuck in a dilemma.

"You stay outside and find a place to hide. I'll go in and try again!" Lin Yi said after some thought. He could still hold on for a while on his own, but he couldn't just leave like this, even if it was for ning Xuefei.

"Are you confident?" Huo yudie quickly stopped him and asked.

"To be honest, I don't have much confidence, but I have to give it a try. If I don't try, I'll never find a way. Maybe I'll have a chance if I try." Lin Yi smiled faintly.

"Alright, if you want to go, I'll go with you!" Huo yudie said with a firm expression.

"What are you going with me for?" Lin Yi paused, and as if he thought of something, he took out a section of Thunder mystical vine from the Jade space and handed it to the man. It was just a rough estimate, but it was at least more than the agreed twenty percent.

"What are you doing?" Huo yudie was also stunned.

"You came here for the Thunder mystical vine. Now that you've achieved your goal, there's no need for you to continue taking risks with me." Lin Yi said as he looked at her. Going in again would definitely lead to a tough battle. It was fine for him, but for Huo yudie, it was a situation with a 90% chance of survival. He didn't want her to get involved because of him.

"Aren't you also here for the Thunder mystical vine? why do you still want to take the risk?" Huo yudie pouted and said.

"I'm going back for ning Xuefei. Don't tell me you're also trying to get her, you're a girl ..." Lin Yi laughed.

"I don't care. I can leave or stay here as I please. If you want to enter, I want to enter too!" Huo yudie straightened her neck and said.

Lin Yi's head was starting to hurt-this girl was becoming more and more like a thug from the common world after she put on the denim jacket, even her tone and mannerisms were the same!

Seeing that Huo yudie wouldn't let him go in alone, Lin Yi felt helpless but also touched.

In the past ten days, the two of them could be regarded as true friends. If it was just a simple marriage of interests, they would have already parted ways at this time. Why would the other party insist on staying with him? after all, it was a life-and-death risk.

The two were at a stalemate when Lin Yi suddenly remembered something!

Chapter 4725 Electric Shock

In order to deal with Kang Zhaoming's super high-tech equipment, han Jingjing gave him a phone before they left. He forgot about it in the heat of the moment.

Ignoring Huo yudie's surprised look, Lin Yi took out his phone and found that this place was better than he had expected. The signal was very weak, but he could still receive a little bit of signal. It seemed that this place was not too far from the Western part of the island, or han Jingjing's base station wouldn't have been able to cover it.

There was only one number saved on the phone, and it was obvious that it was ning Xuefei 's. In the entire five Sky Class islands, only she and han Jingjing could use a phone to make a call.

"Lin Yi bro!" Han Jingjing's excited voice came from the other end of the phone. It was obvious that ning Xuefei's phone was temporarily in her possession so that she could provide Lin Yi with external support at any time. She had been carrying it with her all these days, waiting for this moment.

"Jing Jing, I'm in some trouble now. Help me think of a way to solve it." Lin Yi cut to the chase, "I'm up against Kang Zhaoming, but his armor is like a turtle shell. Even my strongest attack wouldn't work. Even his head is covered tightly, there's no blind spot at all. "

"I see ..." Han Jingjing couldn't help but fall into deep thought. "It's really hard to deal with. If we just stay here quietly, we might be able to find a solution. But it's impossible for us to do it right now. Since his armor is so strong, I'm afraid normal attacks won't be possible, unless ..."

"Unless what?" Lin Yi quickly asked.

"Use electric shock!" Han Jing Jing's voice trembled.

"Electric shock? Why didn't I think of that!" Lin Yi paused for a second, then his eyes lit up. Electric shock was the most effective way to deal with Kang Zhaoming's turtle-like armor!

It didn't matter how strong his defense was-he'd be dead the moment the electricity came on. The metal armor wouldn't be able to save him, it'd be the death of him instead.

What was even more coincidental was that if it was a few days ago, Lin Yi wouldn't even be able to use electric shock on Kang Zhaoming, because he didn't have any methods to do so!

But it was different now. He'd learned the power of lightning from the giant electric eel's inheritance. Even if it wasn't as powerful as the five elements killing intent, it was more than enough to deal with Kang Zhaoming.

Lin Yi was about to hang up the phone in excitement when Han Jing Jing said, "Lin Yi bro, don't be too happy yet. I said that the shock is only one of the possible countermeasures. Let's not talk about whether or not we can create the shock, I think that this kind of high-tech Armor is immune to shock ..."

"Why would I?" Lin Yi was shocked.

"This flaw is too obvious. If I were the designer of this armor, I would definitely try my best to solve this problem. Even if I can't make it completely immune to electric shock, I would at least try to make up for this weakness. I'm sure that this armor must have an insulating layer, and ordinary electric shock will definitely be useless." Han Jingjing said with certainty.

"Then what should we do? Doesn't that mean that we're really at a loss?" Lin Yi felt as if a bucket of cold water had been poured over his head, and his excitement was completely extinguished. Han Jingjing was an expert in this field, and if she was so sure, it meant that she was right.

After thinking about it carefully, it made sense. Whether it was the smart armor or the laser cannon, they were both super high-tech products. They could almost represent the highest level of technology in the secular world. If such things still had such an obvious loophole, it would be child's play.

"Since we can't get first-hand information, Jing Jing can't think of any other way. For now, it seems that electrocution is the most likely to be effective. However, it can't be a simple electrocution. We have to do some preparation work first." Han Jing Jing said after thinking for a while.

"Oh? What kind of preparation work?" Lin Yi quickly asked.

This and this, this and this, after Han Jingjing explained everything, Lin Yi's heart was set. He couldn't wait to hang up the phone and go test it on Kang Zhaoming.

"What is this thing? Is it a technological product from the secular world?" Huo yudie asked as she saw that Lin Yi was ready.

She'd seen Lin Yi talking to the thing, and there was even a female voice coming from it-it sounded like it was Han Jing Jing. This was just too magical! Her eyes were filled with little stars, and her heart was like a hundred claws scratching at her heart. She wanted to take it and study it.

"Oh, this is a mobile phone, a very common communication tool in the secular world. You can slowly study it later when you have nothing to do." Lin Yi threw the phone to yudie and took a deep breath before carefully walking back into the five Thunder tribulation.

Huo yudie didn't want to be left behind as she saw Lin Yi go in. She immediately put the phone and the Thunder mystical vine into her bag and followed him in.

The scene in front of them changed, and Lin Yi and Huo yudie reappeared in the narrow tunnel. They could see the situation inside the tunnel from the laser cannon. Kang Zhaoming and Xu lingchong were busy digging for the Thunder mystical vine, one for each of them.

嘘! Lin Yi made a shushing gesture to Huo yudie, and then his body flashed. In order to take the initiative before the opponents realized what was going on, he did not hesitate to use super limit butterfly micro-steps. His whole body was like a ghost, and he approached the back of the two people at the fastest speed.

Huo yudie looked at the scene nervously, her heart in her throat. She didn't know what han Jingjing and Lin Yi were talking about, but she knew that if Lin Yi didn't succeed this time, they would be in real danger.

With the smart armor and the laser cannon, Zhaoming was now an undefeatable monster in human form. It was a pity that this wasn't his true strength-he'd be forced back to his original form when it came to things that couldn't be put to use, like divine sense.

Zhaoming didn't even notice Lin Yi's silent appearance behind him. It was Xu lingchong who reacted first, running to the side without a word and screaming, "Lin Yi!"

Zhaoming's face turned pale as he turned around, only to see Lin Yi right in front of him.

Chapter 4726 Penetrating

Lin Yi couldn't help but sigh as he looked at the helmet on Zhaoming's head. He didn't think that the guy would be so careful, wearing a helmet even at a time like this. Otherwise, he would've been dead already.

However, it was just a pity. Lin Yi wasn't stupid enough to place all his hopes on the opponent's carelessness. According to the plan he had discussed with han Jingjing, even if the opponent didn't show any flaws, he could still find a way to create one!

Zhaoming's first reaction upon seeing Lin Yi was to fire a shot at him, but Lin Yi attacked before he could even turn the laser cannon around.

For a moment, the temperature in the small canyon's narrow path rose sharply. A soaring flame instantly swept in all directions, followed by a wave of continuous rumbling sounds. It was the wild flame thousand explosive fist!

The killer move from the violent sand thousand explosion fist was strong enough to deal with a peak nascent soul cultivator. Xu lingchong, who was hiding in the distance, was already a bit overwhelmed by the aftershock. It was a pity that Kang Zhaoming was standing in the center of the explosion without moving at all. Even the five elements killing intent couldn't do anything to him, and the wild flame thousand explosion fist naturally had no effect.

"Hahaha! What kind of bullsh \* t trick is this? it looks pretty scary, but it's not even enough to scratch my itch. The only use is probably that I don't have to buy fireworks during the new year!" Kang Zhaoming laughed proudly. Lin Yi was just a clown in his eyes. He dared to sneak back and attack? what was the use?

The thing Kang Zhaoming wanted to do the most right now was to point the laser cannon at Lin Yi and make this pretentious leader kneel on the ground and sing "conquer" to him. The two of them were so close, but he couldn't find Lin Yi.

He couldn't get used to the chaos and light from the fist in a short time-he was blind and deaf, and he wouldn't be able to detect Lin Yi even if he was standing right in front of him.

This was exactly what Lin Yi wanted. After a cold laugh, the five elements killing intent in his palm shot out again, accompanied by a Dragon's Roar that was drowned out by the loud rumbling. This time, the five elements killing intent condensed into a point, all the way to the center of the opponent's helmet!

Unsurprisingly, even though Lin Yi used his full strength and focused all his killing power on one point, he still couldn't break through the opponent's defense!

It had to be said that Kang Zhaoming's smart armor's defensive capabilities were unparalleled. It was hard to find a defensive item that could be compared to it in this world.

However, Lin Yi didn't give up just like that. He used the five elements killing intent to pierce through the opponent's armor. This was just a small step in his and Han Jingjing's plan, just like the wild flame thousand explosive fist.

The killing intent of the five elements kept hitting the same spot. If one wasn't enough, then two. If two wasn't enough, then three. Lin Yi's Qi was endless anyway, so he wasn't afraid of this level of consumption. Plus, Kang Zhaoming had all the powerful equipment, but his reaction speed was so slow that it made one's hair stand on end. It looked like as long as the fist continued, he wouldn't even notice that his head was being split open.

This went on for half an incense's time, and under Lin Yi's control, the fist never stopped. As expected, Zhaoming didn't even notice Lin Yi's punches, as if he'd lost his mind.

Finally, after an almost inaudible cracking sound appeared in the chaos, the rumbling sound of the wild flame thousand explosive fist slowly stopped. The dazzling flames subsequently dispersed, and the narrow path in the valley returned to its previous scene.

Kang Zhaoming found Lin Yi standing in front of him again and started laughing wildly, "Acting tough leader, is your brain flooded? Do you really think I don't dare to kill you? You knew that your sneak attack would fail, but you didn't run. You still dare to stand here. Have you become stupid?"

"I'm not stupid, but you're about to be. " Lin Yi smiled faintly, and a blue electric arc appeared on his fingertip before he finished his sentence. It drew a clear arc and landed on the top of Kang Zhaoming's helmet.

Kang Zhaoming was stunned. He didn't think that Lin Yi could generate electricity! Could it be that Han Jingjing had given him some kind of divine weapon?

But he wasn't afraid. He was about to sneer at Lin Yi-his smart armor was electricity resistant, and Lin Yi's actions made him look like a clown. But before he could smile, he heard a loud crack above his head, and his body started twitching like crazy. He started dancing a weird break dance.

Under the flash of lightning, even the outline of the bone armor inside became vaguely visible. Black smoke whizzed out of his head. This was simply the rhythm of roasting a living person with lightning!

When Xu lingchong, who had fled to the side, saw this scene, he was dumbfounded. What was going on? He thought that Zhaoming would be able to take down Lin Yi with his equipment, but it seemed like he was the one getting taken down instead!

To be honest, Lin Yi had just mastered the power of lightning. It wasn't that strong, but after the insulation shield of Kang Zhaoming's smart armor was broken, it became a solid metal cage. The power of the lightning was multiplied several times. As long as Kang Zhaoming was still wearing the smart armor, he couldn't even escape.

But even so, Kang Zhaoming was still struggling like an undying cockroach. In the end, it was because Lin Yi's arc was too weak!

Helplessly, Lin Yi could only continue to channel his lightning energy. The blue light kept on pouring into the metal armor. Kang Zhaoming didn't have a chance to break free at all. He could only be fixed in place, shaking.

This way, Kang Zhaoming was completely under Lin Yi's control. He didn't have the strength to fight back at all. Even if he had the same vitality as a cockroach, it was only a matter of time before he was electrocuted to death. It would just take a little more effort.

However, at this moment, Huo yudie's voice suddenly came from behind, ""Be careful!"

Lin Yi's heart skipped a beat. Even without Huo yudie's warning, he had already received the Jade's warning, but he was too focused on Kang Zhaoming to react in time. The attack was too fast for him to predict and Dodge because it was a laser!

Lin Yi's movement was still a bit too late. An extremely bright laser came silently at light speed. There was no shocking sound, but Lin Yi's abdomen was directly penetrated, leaving a shocking big hole!

Before Lin Yi slowly fell, he caught a glimpse of the laser from the corner of his eye-it was Xu lingchong.

Chapter 4727 Lin Yi In Danger

The laser cannon had been knocked to the side during the chaos of the fist of the wild flame-it was now in Xu lingchong's hands! What was even more unexpected was that this guy knew how to use a laser cannon!

This was a super high-tech weapon that represented the pinnacle of technology in the secular world. No matter how smart and simple the operation was, it was definitely not something that could be done by just pulling the trigger. Without a bit of scientific knowledge, ordinary people could not even find the switch, let alone use it to kill.

Lin Yi thought that only Kang Zhaoming would use something like this. After all, it had been like this the whole time. If it wasn't for that, a small character like Kang Zhaoming wouldn't have had the chance to use it. From the start to the end, lingchong Xu was no threat to him.

Just like just now, Lin Yi didn't even need to target him specifically. Just the aftermath of the wild flame thousand explosive fist was already too much for Xu lingchong to handle.

Even if Xu lingchong still had some strength left, he couldn't threaten Lin Yi at all. Even if Xu lingchong used his strongest martial skill, Lin Yi had enough confidence to take it with one hand.

He had never expected that after all the steps had gone smoothly, he would fall into this guy's trap. This guy actually knew how to use a laser cannon!

Looking at Lin Yi's face of disbelief as he slowly fell to the ground, Xu lingchong's lips curved into a smile. The laser cannon was a high-tech thing, but he was the smartest of the smartest. He had already learned how to use it after seeing Kang Zhaoming use it a few times. This was just a small part of it!

At the same time Lin Yi fell, Kang Zhaoming finally escaped from the fate of being electrocuted. He was almost turned into charcoal, and there was black smoke coming out of his head. He looked like he was dead.

However, this kid's vitality was really tenacious. Even now, he was still breathing his last breath. Of course, his consciousness had long been blurred. The only reason he could still stand was purely because of the smart armor.

Lingchong let out a breath of relief. Zhaoming's death didn't really matter to him, but he was still a trusted subordinate. He still had to let this kid fight for Ning Xuefei-if things went well, he'd be a great help in the future.

"Lin Yi!" Huo Yudie rushed out of the entrance and threw herself onto Lin Yi. She looked at the bloody hole in Lin Yi's abdomen and felt the world spinning around her. Her mind went blank. She was a beautiful woman, but now she was in tears.

Huo Yudie herself did not know why she was like this. Since she was young, this was the first time she was so worried about someone. She cared so much about him, especially when the other party was a man she had not known for long.

In addition to the panic, Huo Yudie's mind was only filled with regret, endless regret.

She hated herself for hiding so far away-if she was right beside Lin Yi, she wouldn't have given Lingchong such an opportunity, and Lin Yi wouldn't be in this dangerous situation!

Unfortunately, that was only her wishful thinking. The fist was an attack that didn't target anyone within its range, and apart from Lin Yi, anyone who stood in it would be heavily injured, whether they were friend or foe.

If Huo yudie had been with Lin Yi, she would've been blown to pieces first, and Lin Yi would've had to take care of her instead. He wouldn't have had the chance to focus on Kang Zhaoming.

"Lin Yi! Lin Yi! Don't you die!" Huo yudie looked helplessly at the bloody hole in Lin Yi's abdomen. She watched as Lin Yi fell into a deep coma, his breathing getting weaker and weaker. His last signs of life were about to disappear, but there was nothing she could do.

Looking at Lin Yi's pale face, Huo yudie started to cry. Other than hating herself for being so useless, she really didn't know what to do. If there was a way to save Lin Yi, she was willing to pay any price, but how?

"Great recovery pill! That's right, that's right, I still have a Supreme grade great recovery pill!" Huo yudie was like a drowning person who had found her last straw to clutch at. She quickly took out the great recovery pill her master had given her to save her life and tried her best to make Lin Yi swallow it.

She knew that this wasn't necessarily going to work-if she couldn't get rid of the hole in Lin Yi's stomach soon, no amount of pills would help.

This wasn't the common world, after all. If Lin Yi could stay conscious enough, he would have a way to perform a simple surgery, but Huo yudie didn't. She wouldn't do such a difficult surgery.

Huo yudie was the only one who was brave. Any other girl would've fainted by now if they saw Lin Yi's injuries.

While Huo yudie was crying her eyes out, Xu lingchong took the opportunity to collect the Thunder mystical vine that he had dug up. He didn't even bother digging up the other one, he picked up the unconscious Kang Zhaoming and ran.

Although he was still carrying the laser cannon in his hand, he did not want to continue to be entangled with Huo yudie. After all, this girl was a master of the great circle of the original level. Her real strength was much stronger than his!

And most importantly, Huo yudie's background in the East Province was not something he was willing to casually make enemies with. Although this matter seemed to be kept a secret, what if it was discovered?

To the current Xu lingchong, since everything that needed to be done had been done and the mission had been completed, there was really no need to continue dawdling, lest a long night brings trouble.

Plus, he'd just killed Lin Yi with a bomb, and he didn't know how he'd explain this to the higher-ups when he got back. It was understandable, but he'd still disobeyed orders from the higher-ups, and he didn't know if the mysterious person would blame him. He could only take it one step at a time.

But even if the mysterious man really did punish him, lingchong could only pinch his nose and accept it. After all, he'd used this chance to get rid of his nemesis, Lin Yi. He wouldn't lose anything no matter what, and if things really didn't work out, he could use Zhaoming as a scapegoat, and he could just stay out of it ...

On the other side, lingchong had already run to the exit with Zhaoming on her shoulder, and Huo yudie, who was in a state of deep sorrow, finally reacted.

If Lin Yi was really going to die, then she'd kill the two culprits, Xu lingchong and Kang Zhaoming, even if it meant risking her life to avenge Lin Yi!

Unfortunately, it was already too late. Huo yudie only saw the back of a person, and before she could stand up, Xu lingchong and Kang Zhaoming had already disappeared out of the exit ... "

Chapter 4728 Asking For Jing Jing's Help

It seemed like it was too late to chase after him now. After all, Huo yudie couldn't just leave Lin Yi here, who was barely breathing.

Huo yudie didn't know what to do anymore. She could only sit beside Lin Yi and cry her eyes out. She didn't know how long she had been crying like this, but now her eyes were swollen. If someone else saw this, they would be heartbroken. Those who didn't know would think that she was a wife who had just lost her husband.

"No! No!" Huo yudie suddenly shook her head and muttered to herself, "I can't keep crying like this, I have to think of a way to save Lin Yi, I have to think of a way, I can't just watch him die!"

Huo yudie knew that it was useless to rely on herself at this time. Even the Supreme-grade great cyclic pellet that she had on her would not help!

Since he couldn't think of a way, he could only ask for help from others. However, no one would be able to enter this place at all. After all, there were very few people who knew about this place, and those who had a way to pass through the heavenly Thunder array outside were even fewer.

Huo yudie thought for a moment and immediately prepared to carry the dying Lin Yi. No matter what, they had to get out of here first. There might be a Medical Master among the other participants. Even if there was only a one in a million chance, they couldn't let it go.

Ka! Huo yudie was trying her best to help Lin Yi up when something small fell out of her bag. Huo yudie was stunned when she heard the sound. Wasn't this the thing that Lin Yi used to talk to han Jingjing before they came in?

Huo yudie's breathing became rapid. This thing that Lin Yi called a phone was like a life-saving straw in her eyes. If she could contact Han Jingjing now, she might be able to find a way to save Lin Yi!

Huo yudie quickly picked up the phone and started fiddling with it. She had never seen a phone before and didn't know how to use it. She had only seen Lin Yi use it once, so she could only rely on her memory and try to imitate Lin Yi's actions.

Fortunately, there was only one number saved in the mobile phone. After Huo yudie fumbled around for a while with her head full of sweat, she accidentally pressed the call button and the call was finally successful.

"Lin Yi bro? How was it? Did this method succeed?" Han Jing Jing's voice came from the phone. She was anxiously waiting for Lin Yi's results.

Hearing han Jingjing's voice, Huo yudie was both surprised and happy. She wiped her tears and quickly picked up her phone like Lin Yi did before, stuttering, ""Lin Yi ... Lin Yi's in trouble ..."

Suddenly hearing a woman's voice, Han Jingjing was stunned. She asked in surprise, "Who are you?"

"I ... I'm Huo Yudie ... I'm a disciple of the East continent's proud of dawn Academy ..." Huo Yudie explained in a hurry and then cried for help, "Lin Yi has a big hole in his stomach, he's dying, please think of a way to save him, I'm begging you!"

"What? Lin Yi bro is dying?" Han Jingjing turned pale with fright. She felt a little dizzy and almost fainted on the spot. It took her a while to calm down and say, "Tell me in detail, how did Lin Yi bro get injured!"

At this time, no one cared who was on the other end of the phone. Whether it was Huo Yudie or Han Jingjing, the only thing in their minds was to save Lin Yi.

"Lin Yi went in to beat up that dumb rich guy after talking to you. I don't know what skill he used, but after the chaos, I saw a lightning strike the dumb rich guy, and he was half dead. The other guy took the dumb rich guy's weapon and sneaked up on Lin Yi, punching a big hole in his stomach. Lin Yi's going to die soon!" Huo Yudie said incoherently.

The man's words were a mess, and it was hard to understand what happened, but Han Jingjing understood one thing-the wound on Lin Yi's stomach was caused by a laser cannon!

"Listen to me, don't panic. Check Lin Yi bro's pulse and aura carefully, then tell me what's going on." Han Jingjing was surprisingly calm at this moment. Even she herself could not help but feel a little surprised after saying this.

"Oh, okay!" Influenced by Han Jingjing, Huo Yudie finally calmed down a little. She held her breath and checked Lin Yi's pulse and breath. She was half surprised and half nervous, ""Yes, but it's very weak. I don't know how long he can last ..."

"Phew! That's good!" Han Jingjing heaved a sigh of relief.

Any normal person, even a high-level practitioner with a strong life force, would've been dead long ago if they had a hole in their stomach like Lin Yi's. But Lin Yi's pulse and breath were still weak, which meant that he had entered a deep level of self-healing.

This might seem like a fantasy to others, but Han Jingjing had been with Lin Yi for so long, and she understood how magical he was. With her scientific research attitude, she understood some things even more thoroughly than Lin Yi himself, so she firmly believed that Lin Yi would not die!

Back then, her stomach was also blown to pieces by little eleven, but Lin Yi cured her in the end, so she was very confident in Lin Yi!

"Calm down first, Lin Yi bro won't die. You need to think of a way to bring him back first!" Han Jingjing said decisively.

"Really?" Huo Yudie was pleasantly surprised when she heard this. She had been terrified and helpless for a while, but when she heard Han Jingjing's words, she immediately became excited again.

"It's true, Lin Yi bro's life force is not something a normal person can compare to. Even if he's in a deep coma, he can still heal himself. This is what you described, so you don't have to worry too much. Lin Yi

bro definitely won't die. As long as we can bring him back safely, he'll be back to normal. " Han Jingjing consoled her.

"Oh, that's good!" Huo yudie finally heaved a sigh of relief and said,""Thank you. If it wasn't for you, I would have died of anxiety."

"I should be the one thanking you, otherwise I wouldn't have known that Lin Yi bro was injured. He's in a coma now, so I'll have to leave everything to you. If you have any problems, just continue to call me with this phone, I'll always have it with me." Han Jing Jing said.

Chapter 4729 Still Trying To Scare People

"Yes, yes, I know." Huo yudie said as she looked at Lin Yi for a while before hanging up the phone. She let out a long breath as she looked at him.

She had been really anxious just now, but after hearing han Jingjing's judgment, her suspended heart finally settled down. Although she was still a little worried, it was not as worrying as before.

After adjusting her breathing, Huo yudie immediately tried to carry Lin Yi on her back. This place was going to close in five days, and when that happened, the entire sky Thunder formation would be reset. Without Lin Yi leading the way, she wouldn't even be able to get out, so she had to leave as soon as possible.

After exiting the five Thunder tribulation archway, Huo yudie carried Lin Yi on her back and walked out. The stone array outside was still not easy to walk around, but fortunately, she remembered the route when she followed Lin Yi in, so they could leave without a hitch.

Even before that, lingchong had already rushed out with Zhaoming on his shoulder. He was really afraid that the girl would go crazy and chase after them, so he didn't stop at all along the way. Even if he saw some treasures, he ignored them.

After all, with the Thunder mystical vine in hand, all the other heavenly treasures here were relatively insignificant. The longer the night, the more dreams. The only thing Xu lingchong wanted to do now was to return to the West Island as soon as possible to avoid any unexpected twists and turns.

After running for his life day and night, five days later, lingchong's travel-worn figure appeared at the entrance of the ten thousand year Canyon, dragging a half-dead Kang Zhaoming behind him.

Anyway, he had the protection of the smart armor, so it wouldn't be a big problem for him to do whatever he wanted. Compared to carrying it on his shoulder, it was obviously more energy-saving. Xu lingchong would not feel sorry for such a subordinate. Being able to drag him all the way back was already a sign of righteousness.

The green land was right outside the canyon, and they didn't stop there. Xu lingchong dragged Kang Zhaoming out, and a group of people blocked their way. It was Scarface and his men.

Scarface and his men were blocking the way here to take advantage of the cultivators who were leaving. They were obviously not good people. Although they had claimed that they would only take half, it was basically empty talk. If they could leave 10 - 20% of the cultivators in their hands alive, it would be a blessing from their ancestors.

If it wasn't to prevent a dog from jumping over the wall, Scarface and the others didn't even intend to leave 10% for this group of cultivators. However, they were all high-level cultivators above the Golden core stage, and most of them were even Masters of the Yuanying stage. If they really wanted to fight,

they wouldn't be easy to deal with. So Scarface could only leave them a little hope, so that they wouldn't have to fight to the death.

When they saw Xu lingchong's figure from afar, the scar-faced man and his gang were instantly shocked. Each and every one of them spontaneously retreated, no longer looking fierce like before. Instead, each and every one of them put on an apologetic smile, afraid that it would cause even the slightest bit of dissatisfaction.

It couldn't be helped-the scene of Kang Zhaoming killing their second head in one shot was still fresh in their minds. Not only Kang Zhaoming, but even Xu lingchong's face was etched in their minds-they couldn't afford to mess with this kind of fiend.

In their line of work, to put it bluntly, they bullied the weak and feared the strong. It wasn't a big problem for them to be a little greedy and stupid, but there was a rule of survival that they had to firmly remember. When they met someone they couldn't afford to offend, they should never show off. The further they hid, the better. Otherwise, they wouldn't even know how they died.

"Eh? Boss, this seems a little strange. Why is that armored man being dragged by him on the ground? is he dead or unconscious?" One of his men couldn't help but ask.

"That's right. Did they encounter some powerful monster?" Scarface was also puzzled.

"Boss, then should we ..." One of the men made a throat-cutting gesture.

"Don't worry, let's wait and see. " Scarface pinched his chin and shook his head cautiously. Although his most feared Kang Zhaoming seemed to be on the verge of death, he didn't know who this last person

was. He might look like a normal original infant stage master on the surface, but what if he wasn't someone to be trifled with?

As the saying goes, it's better to be safe than sorry. There were many other fat sheep to slaughter anyway, so Scarface didn't particularly care about the other party's profit, so he didn't want to take any risks before he figured out their background.

Since Scarface had spoken, the rest of his underlings naturally did not dare to act rashly. They all retreated to the side with fear on their faces.

As they spoke, Lingchong had already dragged Zhaoming twenty Zhang away. Scarface's eyes suddenly lit up—there was a small, oddly-shaped vine sticking out from the corner of the bag, with lightning arcs flashing on it.

Thunder mystical vine! Scarface was obviously a man who knew what was good for him. Although he was already a master of the Xuansheng stage, and in theory did not need the mysterious Thunder pill to deal with the lightning tribulation, this did not hinder his love for good things, especially the mysterious Thunder vine, which was a rare treasure in the world!

While he was still in shock, Scarface took a closer look. As the other party only revealed the tip of the iceberg, he couldn't tell if it had matured or not. However, there was one thing he was sure of. This thing was undoubtedly the Thunder mystical vine!

Scarface swallowed his saliva greedily. He really didn't want to let go of such a precious treasure. After all, the value of a Thunder mystical vine alone was enough to match all the other oil and water. However, he didn't want to take the risk. What if the remaining brat was also not to be trifled with?

"Boss, that kid has really fainted. Let's do it!" At this moment, a subordinate with a head full of braids couldn't help but jump out.

"Yes, you guys go!" Scarface immediately nodded, but he himself stepped back without a sound. This way, even if something went wrong, he could stay out of it.

With Scarface's approval, the Braided Man immediately led the charge excitedly. He blocked Xu lingchong's way and said, "Hand over all of your heavenly treasures, and I can let you live. Otherwise, hehe!"

"Get lost!" Xu lingchong only wanted to return to the Western part of the island. He was not in the mood to waste time with such minions. He immediately rebuked with a cold face, "Have you forgotten your last encounter? you're a forgetful dog!"

"Yo, you're so F \* cking arrogant!" Plait man laughed without getting angry. He pointed at Zhaoming, who was lying on the ground like a dead dog, "Don't f \* cking play dumb with this young master. This armored man is basically half-dead and can't even protect himself, and you still want to use him to scare people? Do you really think I don't have a brain?"

Chapter 4730 Winning Over The Hearts Of The People

"Hmph, you're indeed a brainless dog." Xu lingchong snorted coldly. Seeing that the other party was reaching out to grab her backpack, she immediately raised her laser cannon and fired a shot without saying a word.

The man in plaits was still sneering a moment ago, but with a flash of a laser, his entire head was vaporized into thin air. The scene was so strange and bloody that even Scarface, who was a Mountain King who killed and set fires as if it was his daily routine, was dumbfounded. Everyone gasped in unison and was speechless for a long time.

Even though Scarface had been wary of him before, he had never thought that this kid would be so terrifying. From the looks of it, he was not any weaker than the armored man!

He didn't know that this had nothing to do with strength. Even an ordinary child could kill people like grass as long as they knew how to operate a laser cannon.

"Who else is there?" Xu lingchong pointed the laser cannon at the crowd with an unfriendly look on his face. Suddenly, the group of people were so scared that they covered their heads and fled like rats. The scene was chaotic.

Seeing that Xu lingchong seemed to be targeting him, the scar-faced man instantly broke out in cold sweat. In a moment of desperation, he quickly jumped out and shouted, "You bunch of blind idiots, you even dare to provoke such a great expert, you deserve to die! Didn't I already order you to entertain these two masters? are your brains filled with sh \* t? how can you not remember such an important thing?"

After saying that, the scar-faced man turned around with a flattering smile and said carefully to Xu lingchong, "Young hero, please forgive me. It's all my fault for not being strict with them. I've let these disappointing fools cause you trouble. How about I find a place for you to rest? I have good spirit tea as an apology."

Scarface's sudden change of attitude stunned Xu lingchong. Since the other party had admitted defeat, he naturally wouldn't kill him. After all, the other party was a true-blue peak-level early stage mysterious Ascension realm expert. Even if he had the laser cannon in his hand, he didn't have the smart armor to protect himself. He was still trembling in fear when facing such a strong enemy.

Otherwise, Xu lingchong would not have been scared away by Huo yudie, a peak nascent soul realm cultivator. Being able to scare Scarface was already the best result for him.

"No need, I'm still in a hurry." Lingchong rejected immediately. He was afraid that the guy would notice something was wrong-he didn't dare to stay in a place like this for long. He dragged Zhaoming away immediately.

"Alright, please!" Scarface hurriedly stepped aside, and even his other underlings consciously made way for them. They respectfully watched Xu lingchong and his companion leave.

Xu lingchong dragged Kang Zhaoming towards the teleportation formation without stopping. On the other side, Huo yudie was also carrying Lin Yi, who was on the verge of death. She was extremely careful and cautious with every step she took. She could only choose the path they took when they came here to reduce the risk.

However, this way, her speed would be much slower. After all, she was not like Xu lingchong, who had a super killer weapon like the laser cannon. She could just fire a shot at anything she encountered on the way.

Along the way, Huo yudie was always on her guard at the slightest sign of danger. She couldn't be blamed for being a coward, but Lin Yi's current condition was too dangerous. He couldn't take any more of this.

Xu lingchong only spent five days to drag Kang Zhaoming to the exit of the canyon, but Huo yudie used fifteen days. Whether it was the practitioners or the spirit beasts, they were all targets that she had to avoid, so they had to take many detours along the way. From time to time, she would have to hide for half a day, so this speed really couldn't be fast.

Ten days had already passed, and the return trip took another fifteen days. By the time Huo yudie carried Lin Yi out of the ten thousand year Canyon, it wasn't far from the one month mark.

At this time, most of the cultivators should have returned to the West Island. The remaining ones were either Yuanying realm Masters who could stay for a few more days, or they had missed the time and were trapped here like Scarface and his group. There was no third type of people.

Huo yudie carried Lin Yi on her back and appeared at the exit of the canyon. The Oasis was right in front of them, and Scarface's men still hadn't left. In fact, his men had grown even stronger!

It turned out that at this moment, it was not only Scarface's original group, but even some of the trial-takers who could not leave this time had no choice but to choose to join him and become one of his subordinates.

Among the crowd, Scarface said to one of his subordinates, who was a peak Yuanying stage expert, ""Han Chen, you're already at the final bottleneck of the great circle of the nascent Soul Stage. If you continue to stay here, you'll follow in my footsteps and be completely trapped in this damn place! You've been with me for so long and have done a lot for me. Even if you don't have any credit, you've worked hard. Take the things with you as a farewell gift for me!"

"Many Thanks, boss!" The Yuanying stage expert called Han Chen shed tears of gratitude on the spot.

"Yes, all of you, listen up. As long as you are my brothers, I will not let you suffer. Han Chen is your example!" Scarface took the opportunity to win over the crowd.

Sure enough, everyone's mood suddenly soared, especially those new subordinates. They were originally dejected and disheartened, but after seeing this scene, they cheered up again.

It had to be said that Scarface was indeed very good at winning over people's hearts. With Han Chen as a role model, everyone would only be more loyal to him. After all, as long as they followed him, even if they couldn't leave for the time being, they would be able to leave when they reached the bottleneck of the great circle of the nascent Soul Stage.

There was only hope and motivation. For everyone, this was undoubtedly the best ending.

That was why everyone was willing to follow him, and Scarface's method could be said to have worked time and time again. Every time he went to the trial, he could get a new batch of new blood, making his team continue to grow, and become a real local snake here.

Huo yudie looked at this scene from afar. She saw through Scarface's intention with a single glance. The reason why he sent away his little brother who had reached the bottleneck of the great circle of the original level, other than to win over people's hearts, was probably for another reason. Scarface did not want to see a second master of the xuansheng stage!

He was the only xuansheng stage expert in this place. Due to his strength, he naturally deserved to be called the local tyrant. However, if a second xuansheng stage expert appeared, then his position would not be stable. As the saying goes, a mountain can not accommodate two tigers. It might even be a situation where one of them would die.

Sending someone away could not only eliminate threats, but also gain a good reputation. It had to be said that this Scarface was a rare smart person.
