Chapter 4781 Lookout In Danger

At this point, Liu Ziyu could not continue to keep Ren Zhongyuan under house arrest. She could only instruct, "Go and call Ren chongyuan over. Tell him that Captain ao Taba is here to see him."

A moment later, Ren Zhongyuan arrived at the canteen arrogantly under everyone's gaze. His footsteps were filled with pride and joy as he strutted around.

"Uncle ao, I'm really sorry for disturbing you. Your nephew apologizes to you." Ren Zhongyuan didn't even look at Liu Ziyu and the others. He walked over to ao Tianba and sat down beside him as if there was no one else around. It seemed like the relationship between the two of them was quite good.

"What's there to apologize for? as an uncle, it's only right for me to come and see my nephew, haha!" Ao Tianba patted Ren Zhongyuan's shoulder and gestured to the crowd, "Everyone, don't just stand there. Come, come, let's eat."

Ren Zhongyuan looked at Lin Yi, who was sitting opposite him, with a face full of provocation. He even unscrupulously made a dangerous gesture of slitting his throat, not putting Liu Ziyu in his eyes at all. After all, Liu Ziyu couldn't go against ao Tianba on this ancient warship!

Lin Yi's heart skipped a beat as he looked at ao Tianba. Things were getting a little tricky now that the enemy had such a powerful backer. It looked like the enemy wouldn't let this go easily. They were definitely going to use this opportunity to cause trouble again.

Sure enough, after a few bites, ao Tianba suddenly said, ""Vice Dean Liu, other than visiting the disciples of the East Province, I have another important matter to discuss with you."

"Oh? Captain, if you have anything to say, please speak. " Liu Ziyu, Lin Yi, and the others looked at each other, and their hearts skipped a beat.

"It's like this. We have an observer on board who is responsible for monitoring dangerous situations. I don't think I need to explain the importance of this position. Without an observer, it's impossible to continue sailing on the sea. Unfortunately, our original observer is sick. In order not to waste time on the sea, I want to choose one of your East continent disciples as a substitute. Of course, the premise is that he must have enough sailing experience." Ao Tianba said with deep meaning.

"This ..." Liu Ziyu was slightly taken aback. She was about to ask everyone who had sailing experience, but she was interrupted by ao Tianba before she could speak.

"I heard that the ship from the North Island encountered Pirates in the sea fog when it was on its way to the West Island, and a disciple named Lin Yi stepped forward and saved the day. I think this young man is good, let's go with him!" Ao Tian BA insisted.

As soon as he said that, everyone's eyes instantly focused on Lin Yi. Some of them sympathized with him, while others gloated. Everyone could tell that ao Tianba was standing up for Ren Zhongyuan and was targeting Lin Yi!

Looking at Ren Zhongyuan's smug smile, Lin Yi remained unmoved. Huo yudie and ning Xuefei, on the other hand, were secretly worried. They both looked to Liu Ziyu for help. This so-called danger watcher was definitely a pit of fire. Once Lin Yi agreed to it, he would be at a big disadvantage.

"Captain ao Tianba, Lin Yi's a new disciple, and the Fuma at that-isn't it a bit inappropriate to let him take on such an important position all of a sudden? Do you want to consider other disciples?" Liu Ziyu argued.

"Hmph, Vice Dean Liu, don't blame me for not giving you face. On this battleship, my orders are more important than anything else!" As he spoke, ao Tianba's aura changed, and a huge pressure pressed down on everyone's heads. Lin Yi was the first to bear the brunt of it, and he heard the cold voice, "He doesn't want to do it? That's good, men, throw him down!"

Everyone was shocked. He was just laughing heartily a moment ago, but in the blink of an eye, he was about to throw him into the sea. This captain's attitude changed faster than the flip of a book!

"Stop!" Liu Ziyu's face changed, and she also released a monstrous aura to fight back. Although she wasn't as strong as the other party here, Lin Yi was someone she had recognized long ago. It wouldn't be easy for the other party to take Lin Yi away.

The atmosphere suddenly became extremely tense. Once these two big shots stood against each other, the deterrence and destructive power were unimaginable. Although there were no weaklings present, they really couldn't bear the aftermath. Even the pressure of their auras was already unbearable.

Lin Yi stood up all of a sudden, his eyes on ao Tianba's face. "Wait, isn't it just looking out? No problem. Since we're working for the entire ship, it's also for our own sake. I'll accept this task. "

Everyone was shocked when they heard this. Ren Zhongyuan sneered when he heard this. 'You're on the verge of death, yet you still think highly of yourself. You're really a F * cking fool to still think of acting tough at this time!'

"Good, very good. You have ambition." Ao Tianba retracted his aura and pointed at Lin Yi as he laughed. "I like courageous young people, but I'll say this first. Once you're on the observation tower, you'll be treated the same as the other crew members. Here, the sea is a battlefield. If anything goes wrong, you'll be punished by military law!"

Ning Xuefei and Huo yudie's hearts jumped. This was pushing Lin Yi to his death. It wouldn't matter if he made a mistake during normal times, since he was a substitute disciple of the East Province. However, a sentence of military law had blocked all his escape routes. When the time came, ao Tianba could take Lin Yi's life with a single word, and even Liu Ziyu wouldn't be able to stop him!

Liu Ziyu frowned and was about to find an excuse to turn down the offer, but ao Tianba did not give her the chance. He stood up and left after he finished speaking, leaving behind a string of seemingly hearty but actually vicious laughter.

"Hurry up and go to work after lunch. We're counting on you, the danger watcher, to escort us. Don't make any mistakes, hahahaha!" Ren Zhongyuan laughed complacently as well. As expected, Lin Yi didn't even have the strength to fight back when a God like ao Tianba showed up. He sent Lin Yi into the fire pit with a few words. There was only one word for this feeling-awesome!

"Master, what should we do now?" Huo yudie anxiously asked Liu Ziyu for help. There was still some room to turn things around now, but once Lin Yi really went up to the Watchtower, it would be too late for them to make a mistake.

"Don't worry, die, I'll talk to ao Tianba. Lin Yi'll be fine," Liu Ziyu said in a deep voice. With ao Tianba's attitude just now, it was basically impossible for them to come to an agreement, but she couldn't just watch Lin Yi die. Even if they really fell out, she had to fight for it one last time.

Chapter 4782 Huo Yudie Follows

"Hold on, Vice Dean Liu. I appreciate your kind intentions, but this matter doesn't have to be so troublesome. It's just a dangerous situation lookout. I'm quite experienced in this kind of thing, so it won't be a problem." Lin Yi stopped him with a faint smile.

"Really?" Liu Ziyu looked at him doubtfully, but she hesitated.

She'd heard of Lin Yi's ability to control the North Island's treasure ship and save them from danger, but most people, including her, thought that it was all because of Lin Yi's good luck. After all, everyone specialized in their own profession, and only an experienced boatman could be a danger watcher.

"Why don't you not force yourself? with your ability to only monitor dangerous situations, I also believe that there won't be any problems. However, it's impossible to guard against them if they're clearly going to pick on you." Huo yudie said worriedly.

"That's right. If you must go, take me with you. I'll go wherever you go!" Ning Xuefei said.

The girl's expression made Lin Yi laugh, "Feifei, don't mess around. I'm just going to be a lookout for danger. It's not as serious as you think. Besides, they won't let you go up the lookout tower."

"That's right, Feifei, you can't go. Your identity is too sensitive. No one would dare to let you go up the lookout tower. I won't allow it either. You should stay with us." Liu Ziyu quickly stopped him.

If something happened to Lin Yi, she would be sad too, but that was only her personal feelings. It wouldn't affect the big picture too much. But Ning Xuefei was different. If something happened to the

successor of the West Island, the West Island and East continent would fall out instantly. Thousands of people would die because of this. They couldn't afford any mistakes.

In fact, Liu Ziyu believed that even ao Tianba, who was deliberately targeting Lin Yi, wouldn't dare to let anything happen to ning Xuefei. Otherwise, he, the captain, would be pushed out as a scapegoat to calm the anger of the West Island. There was no way he could escape.

"But ..." Ning Xuefei was still holding Lin Yi's hand tightly. She wanted to say something more.

"No buts. There's no room for discussion on this matter. Your mother entrusted you to me, and I will definitely not let you take the risk." Liu Ziyu interrupted.

Lin Yi smiled and patted ning Xuefei's hand when he saw how helpless she was, ""It's not like you don't know my strength. This small scene can't stump me. Feifei, you can rest assured. "

"Then ..." Ning Xuefei hesitated for a long time before she nodded helplessly. "Alright, I'll listen to you and aunt Liu. But if you're in danger, I'll be the first to rush up."

"Hehe, the Watchtower isn't the guillotine. It's not that dangerous. Don't worry." Lin Yi chuckled.

She finally managed to persuade ning Xuefei. However, when she turned around, Huo yudie suddenly bit her lip and said, ""Feifei can't go, I'll go with you!"

"Ah?" Lin Yi didn't know what to say-it wasn't easy trying to stop one, and yet another one was coming.
"I'm going to monitor the danger, not for an outing. Why are you going?"

"I can help you!" Huo yudie said with a serious face.

"Help me? How are you going to help me? Have you done this before?" Lin Yi couldn't help but ask.

"No..." Huo yudie thought for a moment and said,""But my nose is very sharp, it should be of some use."

"Ugh ..." Lin Yi didn't know what to say. This girl's way of thinking was too imaginative. Which danger watcher worked with their nose?

Helplessly, Lin Yi turned to look at Liu Ziyu, hoping that her master would stop him. To his surprise, Liu Ziyu nodded and said,"Alright then, die 'er, you go with Lin Yi. Be careful."

Pfft! Lin Yi almost choked. Huo yudie wasn't the only one with a strange train of thought. Even her master was on the same path as her. Like master, like disciple.

In fact, the reason why Liu Ziyu agreed so readily was partly because she wanted to make it up to Lin Yi. Both Lin Yi and ning Xuefei were people ning Shangling had asked her to take care of, but she put Lin Yi in danger because she was not strong enough. At least, Huo yudie could take care of him with her. On the other hand, she saw through her precious disciple's thoughts, so she might as well help her.

Ren Zhongyuan was infuriated when he heard Huo yudie's request to accompany Lin Yi to the Watchtower. He was the one who pushed Lin Yi into the fire, why did he have to create an opportunity for him to be alone with Huo yudie?

The observation tower was high up, completely isolated from the people below. Lin Yi and Huo yudie were simply alone on top. This wasn't a fire pit, it was a land of gentle beauties!

However, there was nothing Ren Zhongyuan could do to stop him. He could only grit his teeth and comfort himself in his heart. Go on, go on. I'll let you see Lin Yi for two more days. In less than two days, this kid will be a dead man!

After lunch, the two went to the crew area under the gazes of Liu Ziyu and ning Xuefei. The first mate of the ancient warship looked at the two, and it seemed like ao Tianba had greeted him before. He leaned back in his chair lazily and asked, "Didn't they say there was only one substitute observer? why are there two?"

"This is my assistant." Lin Yi replied faintly. Huo yudie was determined to come, and she even had Liu Ziyu's support. He had no choice.

"Assistant?" The first mate looked at Huo yudie from the corner of his eyes and said with an evil smile, ""What assistant? An assistant for tonight's entertainment? It's really boring to stay up there. If I don't find something to do, I'll go crazy. Since you're so pitiful, I'll let you be my assistant. "

Huo yudie's face turned red, and even Lin Yi was embarrassed. He really didn't think about this ...

"The lookout tower is up there. You guys can go up there by yourselves. I don't think I need to explain the responsibility of this position. It's to report the situation in real-time and give timely and accurate instructions to avoid it. If there's any mistake, hehe." The first mate looked at Lin Yi with pity.

He didn't even need to say the second half to know what it meant-ao Tianba was going to use this chance to punish him if he got caught. Putting everyone on the ship in danger because of Lin Yi's negligence, there was no way anyone could defend themselves. Military law wasn't something that could be casually used.

"I know," Lin Yi nodded, but said before he left, "Can I ask you a question? the position of danger watcher is not for fun. Are you really willing to take such a big risk just to mess with me?"

Chapter 4783 False Report

"Hehe, what do you think?" The first mate laughed without saying a word. In fact, ao Tianba's so-called "the lookout" was purely nonsense. Even if ao Tianba agreed to give such an important position to a layman, the other crew members would definitely not agree. After all, who would dare to put their lives in the hands of a layman?

The watcher was still hiding on the backup stand, and Lin Yi was just using him as a cover. No one would take him seriously.

Lin Yi and Huo yudie turned around and went up to the observation platform. This was the highest point, and they had the best view of everything. As long as the visibility was good enough, not only could they see the entire ancient battleship below, but they could also see the sea hundreds of miles around them. Of course, if there was fog, they wouldn't be able to do anything.

However, the weather these past two days had been extremely good. The sky was clear, and there wasn't even a single cloud in sight, let alone the sea fog. Lin Yi and Huo yudie treated it as a view from the sky. The unique scenery of this place couldn't be seen anywhere else, so it was worth it.

They didn't encounter any danger in the past two days, so Lin Yi didn't need to give out orders to avoid them. He enjoyed the scenery and chatted with Huo yudie, feeling quite comfortable.

Huo yudie was enjoying this as well. Being able to enjoy the sea breeze and spend some alone time with Lin Yi was the most beautiful thing she could think of.

But she also knew that this wouldn't last long. Even if Lin Yi didn't let ao Tianba catch him, the two would have to separate once they reached the East continent. They wouldn't even be able to see each other again, let alone be together forever.

When night fell, the sky was full of stars, and the sea was dotted with stars. All of these dreamlike scenes set off the atmosphere of the two People's World to be particularly warm and romantic. The two people who were already snuggling together couldn't help but feel a little charming.

"Lin Yi ..." Huo yudie seemed to have remembered something as she blushed and called out softly.

"What's wrong?" Lin Yi turned his head to look at her and quickly turned his head back, not daring to look at her again. Under the beautiful night sky, Huo yudie's temperament was pure and charming. The combination of the two created a strange temptation. Even with Lin Yi's self-control, he almost couldn't resist it.

"The poison in my leg seems to be acting up again ..." Huo yudie bit her lips and lowered her head as she said, ""You ... Can you help me suck it again?"

"What?" Lin Yi blinked. Elder du had sucked all of it dry already, how could it suddenly come back?

Under his gaze, Huo yudie's face suddenly turned even redder. Her originally fair neck turned into an alluring red. She urged in a low voice, ""Hurry up ..."

Lin Yi swallowed, speechless. He finally understood what Huo yudie was hinting at. Did this girl hear the first mate's joke and get reminded?

The atmosphere fell into silence. Looking at Huo yudie's cute and shy expression, Lin Yi's heart suddenly felt a trace of pity. He suppressed the instinctive impulse and said with difficulty, ""Yu die, I can't give you any promises. After we go to the East Province, we might ..."

"I don't care!" Huo yudie covered Lin Yi's mouth with her hand. Their faces were only a finger's distance away from each other, and they could feel each other's hot breath. Their breathing and minds were in a mess.

"I ..." Lin Yi was about to say something, but Huo yudie suddenly made a bold move. She reached out and pressed Lin Yi's head under her dress. She might not have such an opportunity again after tonight. As a girl, she was ready to give it her all.

Lin Yi's heart was in a mess as he smelled the familiar girl's body scent. The girl had already done this much, what should he do?

At this moment, the jade pendant on his chest suddenly let out an urgent warning sound. Lin Yi immediately quivered and quickly stopped Huo yudie's bold action. He quickly glanced at the sea in front of him and quickly turned on the sound transmission array beside him and shouted, ""Change the helm! There's danger!"

At this moment, ao Tianba and the real danger lookout were on the other backup lookout platform. They were both stunned when they heard Lin Yi's shout.

In their surprise, the two of them quickly observed carefully. Although the visibility at night was not high, with the help of the stars in the sky and the luminous creatures in the sea, they could still clearly see the situation within a few miles. Everything seemed calm.

"There's no such danger!" The watcher and ao Tianba looked at each other and cursed, ""It was a false alarm. This kid really doesn't know a fart. He's F * cking cheating us!"

Ao Tianba's face was a little ugly as well. He'd planned to use Lin Yi's ignorance to prevent him from sensing danger, and he wouldn't be able to give an accurate warning. Although they were on the backup stand, they wouldn't make a sound if the situation wasn't too critical, so they could use this to frame Lin Yi.

After all, for a super giant like the ancient battleship, a few small dangers wouldn't cause any damage at all. They could easily crush it, and it would be an excuse to punish Lin Yi.

The two didn't expect this to happen-there was no danger, and yet Lin Yi was yelling in the formation, making them nervous for nothing! It was a lie!

Lin Yi kept repeating the warning in the formation, but there was no response from below. Everyone knew that the one monitoring the situation was the second observation platform, and the first observation platform was just a stage. No one would pay attention to him until the second observation platform gave the order.

At this moment, ao Tianba's voice rang out from the voice transmission array. He said coldly, "What are you shouting for? Don't you know how much loss your wrong judgment will bring to us? Once we deviate from the established route, we'll very likely hit a reef, and we'll also consume a large amount of spiritual energy, even causing the formation to have insufficient energy. Can you bear the consequences of this?"

"Hurry up and change the helm! There's danger ahead!" Lin Yi ignored him and continued yelling. The others on the ship couldn't hear him, but everyone in the control room could hear him with a voice transmission formation.

"Brat, you still dare to shout here? Do you know the punishment for lying about military intelligence? Do you really want to die that badly?" Ao Tianba was instantly enraged.

He and Lin Yi were on two completely different levels, and they had no grudges against each other. If it wasn't for Ren Zhongyuan's request, he wouldn't even bother with Lin Yi!

Chapter 4784 Sea Beast Attacks

He wouldn't get angry because of such a small figure, but now he really wanted to kill this kid.

Lin Yi shook his head speechlessly as he looked at the unmoving crowd. He ignored ao Tianba's threat and roared, "Everyone, be on guard! Protect yourself!"

His voice was like a sudden clap of thunder, and with the sound-transmitting formations, Lin Yi's voice resounded throughout the entire ancient warship. Not only could the crew hear it, but even the East continent disciples could hear it. The whole ship was in chaos.

After that roar, Lin Yi couldn't care about anything else, not to mention the enraged ao Tian BA. He protected Huo yudie as they escaped from the observation tower. The observation tower was a good place to watch the scenery when there was nothing wrong, but when there was danger, the observation tower was the first place to die. Lin Yi didn't have the habit of holding on to a dangerous wall.

Ao Tianba was furious when he saw this scene from the No. 2 observation tower. He had clearly heard his warning, yet this kid still dared to create chaos without any restraint. Now, he was even trying to escape. This was intolerable. Even if it was not for Ren Zhongyuan, he would have torn this kid into pieces!

Enraged, ao Tianba stood on top of the second observation tower and unleashed his aura-even the sky was about to change color. He decided to take Lin Yi down himself and publicly announce his actions as a warning!

However, just as ao Tianba was about to launch an attack, the face of the official lookout on lookout No. 2 suddenly changed and he exclaimed, ""Captain, bad news! There's a sea beast horde ahead!"

"What?" Ao Tian BA was so shocked that he staggered and quickly looked at the sea in front of him.

Everything was the same as before. Everything was calm, and there were no signs of waves in front of them, nor were there any so-called sea beasts. The only thing that was strange was that there were glowing creatures in the sea in other directions, but the sea in front of them was dark, without any light.

Ao Tianba did not react for a moment. He was not a danger watcher, so he was not that sensitive to these clues. However, he was an expert, a super expert at the level of a giant.

Without the slightest hesitation, he instantly released his divine sense. Without the interference of the sea fog, ao Tianba's divine sense could cover the sea region dozens of kilometers away. His expression immediately changed. There was indeed a sea beast horde!

Twenty li away, a group of extremely large sea beasts was rapidly approaching in a mighty manner. There were at least several hundred of them, and their speed was unparalleled.

Ao Tianba turned pale with fright. He had been sailing on the sea for hundreds of years and had been a Captain for decades, but he had never seen such a terrifying horde of sea beasts. Every sea beast here was at least at the nascent Soul Stage. Xuansheng stage cultivators could be seen everywhere, and there were even several mountain opening stage ones!

What was even more shocking was that for some reason, these sea beasts were directly rushing toward the warship. It didn't seem like they were passing by, but directly treated the warship as their target. What was going on?

As the ultimate weapon of the endless sea, the ancient battleship was equipped with the highest level of beast scaring array. Normally, no sea beasts would dare to approach within a hundred miles. Even the sea beasts in the mountain opening stage would stay far away and not dare to provoke them. But why did it suddenly fail this time?

In the blink of an eye, the sea beasts were only ten miles away from them. Their speed was so fast that it made one's hair stand on end. Their roars were already close to their ears. The originally calm sea

surface was also surging with waves. In an instant, monstrous waves gathered and crushed toward the gigantic ancient warship.

Without time to think further, ao Tianba quickly retreated to the second observation tower and shouted, ""All members, listen up! Activate the defensive formation and the offensive formation! All members, get ready for battle!"

It was impossible for him to Dodge now-a giant thing of that size couldn't change course all of a sudden, unless Lin Yi had reacted to the first warning.

If they had listened to Lin Yi's warning and escaped at full speed, they should have been able to get rid of these sea beasts with the powerful thrust of the ship's power formation. However, it was too late now.

After hearing ao Tianba's orders, everyone on the ship became even more chaotic. The East Province disciples did not know what to do. Fortunately, the original crew was well-trained. After a moment of chaos, they returned to their respective combat positions. All kinds of defense and attack arrays were activated in an instant. Layers of colorful lights stacked on top of each other, making the scene spectacular!

BOOM! The ancient battleship shook violently. This was the first wave of attacks from the sea beasts. No one knew why these sea beasts would do such a suicidal thing. Against the weight of the ancient battleship, even the attacks of the nascent Soul Stage sea beasts would not pose any threat.

Even the most powerful sea beasts at the xuansheng stage could do was to wear down the defensive formation of the warship at the cost of their lives. They could not even attack the warship, let alone cause any damage.

The real threat was the few mountain-splitting sea beasts mixed in with the huge sea beast horde. Once they began to attack with all their might, especially after their weak points were found, it was hard to say how long the warship's defensive formation could resist.

Ao Tianba quickly returned to the command room. Although he was shocked, he was still calm at this moment. He gave out orders to every crew member in an orderly manner. His calmness infected everyone, and they gradually broke away from the panic, their morale rising.

Lin Yi and Huo yudie were also in the command room, and they couldn't help but nod at ao Tianba's performance. A Captain couldn't be a useless person.

Ao Tianba noticed the two as well-he frowned and was about to kick them out, but remembered the warning he'd just given them. He didn't say anything.

"Captain, the first wave of sea beasts has ended. There are about 40 to 50 original infant stage sea beasts. The defense formation is undamaged." A familiar voice came from the voice-Lin Yi recognized the first mate, who'd been lazing around earlier. It seemed like he'd gone to give commands.

"Don't be careless. This is just an appetizer to test us. I don't know where they come from, but I'm sure that this group of sea beasts is coming for us. Brothers, get ready. There will be a tough battle today!" Ao Tian BA said in a deep voice.

Chapter 4785 Unusual

"Received!" There was a consistent response from everywhere.

The view in the command room was not as good as the observation tower, but it was the second best place on the ship. Moreover, the sea monsters were close at hand. At this time, there was no need to look far. Just standing in the command room, one could see the sea monsters in front of them clearly.

After the first wave of cannon fodder ended, the sea beasts finally started to get serious. This time, there were more than 100 sea beasts that were charging forward. Furthermore, almost half of them were at the xuansheng stage. Every single one of them was in a suicidal frenzy as they charged towards the ancient warship.

Lin Yi found the situation a little strange. At the Yuanying and xuansheng stages, sea beasts were already very intelligent, and it wasn't strange for the strong to prey on the weak. But they were committing suicide without hesitation. This was too unbelievable.

"Kid, today's matter is unusual. I feel that a big guy has his eyes on you." At this moment, the ghastly voice suddenly rang out in his mind.

"Big guy? How big is it?" Lin Yi asked quickly. His first reaction was to think about the Super existences like the giant electric eel and the five-poison Dragon. If the opponent was really a terrifying sea beast above the sea shattering stage, then it would be really dangerous today. Even the ancient warship might not be able to cover them.

"It's not as big as you think, but it's not small either. If I command it well, the chances of winning are 50 - 50, hehe." The ghastly thing laughed strangely with interest.

Lin Yi couldn't help but look at ao Tianba, hoping that this guy could hold on. It'd be a disaster if the ancient ship really got destroyed or sunk.

BOOM! The battleship trembled violently once again. Everyone's expression changed, including Ao Tianba's. The first impact had only caused them to shake slightly, but this time, it was clearly different. Not only was the impact a hundred times stronger, but the sea beasts seemed to have found their flaws!

There had only been one wave of probing attacks before, but this time, the attacks were continuous, and they were getting more and more intense. Everyone couldn't help showing shock on their faces. If this continued, the consequences would be unimaginable.

"Something's wrong! These bastards are under someone's command. Otherwise, they wouldn't have been able to find the connecting point so easily. Damn bastards!" Ao Tianba's face suddenly turned livid.

With the level of the ancient warship's defense array, it could easily block the life-risking attacks of the sea beasts at the mountain opening stage. However, it was not really flawless, because with the huge tonnage of this warship, no defense array could cover it completely. The only way was to layer multiple defense arrays on top of each other to achieve the effect of covering all sides.

However, in this way, the defensive strength of the entire warship would inevitably be uneven. The defensive strength of the connecting point was the weakest, and although it could still block the full-force attacks of the sea beasts in the mountain opening stage, a flaw was still a flaw. If the sea beasts were allowed to continue attacking like this, there was a possibility that the ship would capsize in an easy ditch.

This discovery really made everyone's heart jump. Such a huge group of sea beasts was already very terrifying. If there was a mastermind behind the scenes who could see through the connection point with a glance, just thinking about it was creepy.

"Prepare the attack formation!" Ao Tianba's sudden order jolted everyone's spirits. They rubbed their hands excitedly and got into position.

The spiritual Qi consumed by the attack array was far more than all the defense arrays combined, and the huge movement it created was likely to attract powerful sea beasts from all directions. Therefore, under normal circumstances, it would not be easily activated, unless it was a life and death situation.

Although it was not yet a matter of life and death, if they could not stop the attacks of the sea beasts as soon as possible, the defensive array would be destroyed sooner or later. Instead of sitting and waiting for death, it was better to take a gamble.

This guy was quite decisive! Lin Yi looked at ao Tianba in surprise before turning his eyes to the ocean ahead. All sorts of formations were ready, and the entire ship was like an ancient beast, exuding a devastating pressure.

As if they were frightened by the pressure of the attack formation, some of the original infant stage sea beasts at the front line suddenly stopped their attacks. It seemed that they had the intention to retreat. They were all startled and retreated desperately. The fear of death for sea beasts was no less than that of humans.

However, before anyone could cry out in surprise, an extremely brutal scene played out before their eyes. The frightened sea beasts were instantly torn into pieces by the sea beasts behind them. Not a single one survived. The entire sea region was filled with the smell of blood, even the night sky was dyed red.

Everyone was so shocked that they couldn't speak for a long time. Because of this indescribable brutal and bloody smell, the sea beasts became more and more frenzied and hysterical. Not only did they not

show any signs of retreating, but they even became more ferocious. Even the few Mountain Formation stage sea beasts that were mixed in with the sea beasts joined the attack!

It was only the second wave of attacks, and ao Tianba's well-trained team could at least deal with it calmly. But now, it had become a life-and-death battle, and the whole situation had suddenly gone out of control.

"Attack! All teams are free to attack the sea beast at the Xuan Sheng stage!" Ao Tianba immediately gave the order. The nascent Soul Stage sea beasts could not affect the defensive formation at all. The main force of the enemy was the sea beasts of the xuansheng stage. As long as they could eliminate them, their chances of victory would increase greatly!

"Received!" After hearing the same response from the formation, Lin Yi only saw a bright light in front of him. Dozens of different colored light beams that could be seen with the naked eye instantly entered the sea beasts. It seemed silent, but in the next moment, Lin Yi's eyes suddenly opened wide, unable to hide the shock in his eyes.

Wherever the light beam passed, all the sea beasts were instantly turned into a cloud of blood mist. The dignified sea beasts of the xuansheng stage could not resist at all. They did not even have time to Dodge. As for the surrounding original infant stage sea beasts, they were not even considered cannon fodder. They died as soon as they touched it.

Looking at the hell-like blood sea and the sea beasts roaring in the sea, Lin Yi couldn't help but take a deep breath. His heart was filled with shock. This was the invincible battleship that could cross the endless sea!

In just one wave of attack, half of the sea beasts at the xuansheng stage were killed. When this invincible warship showed its ferocious claws and fangs, even the endless sea was no longer so daunting. Just like now, people were celebrating here, and it had become a crazy playground.

"Well done! Let's do it again. I'll personally celebrate with you!" Ao Tianba roared excitedly. As long as there was another wave of sea beasts, they would be able to wipe out all the xuansheng stage sea beasts in one fell swoop. This way, only a few mountain split stage sea beasts and a bunch of harmless nascent Soul Stage cannon fodder would be left on the other side. Victory was already in their grasp.

Chapter 4786 You've Also Realized

With their morale greatly boosted, all of the offensive formations quickly prepared for the second wave of attacks. However, just as it seemed like another massacre was about to happen, the few mountain splitting stage existences that had been hiding among the sea beasts all this time suddenly broke out of the water and revealed their true appearance before everyone.

The crowd immediately cried out in alarm. At this moment, there were actually five sea beasts in the mountain opening stage that had suddenly appeared!

Deep sea mad sharks, netherworld ghost mothers, soul-hooking strange fish, thousand-legged tyrant king crabs, and Humpback Mountain whales. Every one of them was a notorious Overlord of the sea. Any one of them would be a disaster for human cultivators. Ordinary treasured ships could not withstand their attacks at all. Fortunately, this was an ancient warship.

However, even the ultimate weapon, the ancient warship, was under a lot of pressure when it faced five overlords of the sea. Everyone, including ao Tianba, was breathless.

"Ignore them. Let's get rid of the xuansheng stage cultivators first. Kill them all!" Ao Tianba suddenly reacted and shouted at the sound transmission array.

Only by killing all the sea beasts at the xuansheng stage could he slowly deal with the five overlords of the sea. Otherwise, if they were to be the first to fall into an intense battle, the sea beasts at the xuansheng stage would definitely destroy the defensive formation bit by bit, becoming the last straw that would crush the elephant.

This was the most correct response. Unfortunately, before ao Tianba could finish his sentence, a giant shadow as large as a mountain had already crashed into the ancient battleship. With a loud bang, the ancient battleship was knocked to the side. Such a huge force was beyond imagination!

"Humpback Mountain whale!" Ao Tianba gritted his teeth and said the name of the giant creature. It was the heaviest creature in the ocean. It was no exaggeration to say that every movement of a Humpback Mountain whale could move mountains and seas, because they themselves were moving mountains!

It was so close to them, and its size alone gave them an unparalleled psychological pressure. However, this was not the worst. The worst was the urgent report coming from the sound transmission array, "Captain! The monster was blocking the attack! We can't lock onto the sea beast at the xuansheng stage!"

"It's just a meat shield ..." Lin Yi didn't feel good at all. They'd just gotten a little bit of an advantage, and now the humpback whale was blocking their way. It was obvious that the mountain opening stage sea beast was just a chess piece.

At this moment, everyone was looking at ao Tianba. They had to make a quick decision without any hesitation, as his next order would directly affect the life and death of everyone.

With the humpback Mountain whale's tough skin and thick flesh, he wasn't afraid of a fight at all. Even if he blasted a few dozen holes into it, it would only be like scratching an itch. If he didn't fight, he would immediately fall into a passive state. He could only take the beating and couldn't fight back. No matter how strong the defense array was, it wouldn't last long.

"Stop the attack." Ao Tian BA ordered in a deep voice.

"Captain, should we activate the ten thousand mile formation?" The first mate's voice rang out from the sound transmission array. Everyone's eyes flickered and they nodded slightly in unison.

"What is the ten thousand li formation?" Lin Yi whispered to Huo yudie.

"The ten thousand mile formation means to travel ten thousand miles a day. It can increase the speed of the warship to the extreme in the shortest time possible. This is the last trump card for escape, at the cost of consuming all the reserve spiritual energy of the warship." The one who replied wasn't Huo yudie, but ao Tianba.

Lin Yi couldn't help but look at the guy in surprise. This guy was trying so hard to set him up, but he was still in the mood to answer his questions. It was quite strange.

Ao Tianba didn't even look at Lin Yi after that-he was deep in thought, veins popping up on his forehead as cold sweat poured down. It was a tough decision.

The others did not even dare to take a deep breath. The atmosphere in the command room and all the other battle posts connected to the sound transmission array was extremely heavy. Just as ao Tianba had said, the ten thousand mile formation was the last trump card for escape. Once it was activated,

there would be no more spiritual energy stored. Whether they could escape safely in the end would depend on God's will.

"They're coming with ill intentions. If we only escape and not fight, we'll be seeking death. We can't escape!" Lin Yi suddenly spoke up. He knew that no one would listen to him with his status, and he might not be willing to say this under any other circumstances. Unfortunately, they were all in the same boat now, and if the boat was destroyed, he and Ning Xuefei would be implicated. He had to think of a way to get rid of this stupid idea.

As expected, everyone looked at Lin Yi with disgust. This kid didn't know anything, and he jumped out at this critical moment to mess with them. They were facing five sea beasts, and they even had the Huashan whale as a meat shield. If they didn't run now, were they just going to wait for death?

"Why?" To his surprise, Ao Tianba didn't get angry. Instead, he turned to Lin Yi with a serious face, considering his suggestion.

Lin Yi may be a layman, but his warning earlier made Ao Tianba acknowledge Lin Yi's strength in his heart, even if it was a little embarrassing on his face. Personal grudges couldn't be settled in a time like this—they had to be in the same boat.

"If it's just these five sea beasts, we should be able to escape even if there's some trouble. But what if the big guy we're really facing isn't them?" Lin Yi said as he scanned the crowd.

Everyone was shocked. They immediately looked at each other in fear and uneasiness. This brat was truly a person who would not stop until he shocked them to death. The five sea beasts in front of them were already enough to put a mountain of pressure on them. Could it be that there was something even more brutal behind them?

"You also noticed?" Ao Tianba's question shocked everyone even more. It meant that even an experienced captain like him felt that there was a demon behind this!

Lin Yi couldn't help but think a little more highly of this guy. He only knew because of the damn thing's reminder, but he didn't think that this guy, who he thought was an idiot, could sense it too. As expected, a Big Boss in this position was no simple character!

"I admit that you're not simple, but you shouldn't look down on people too much!" Ao Tianba wasn't pleased with Lin Yi's weird look. "I've been on the ocean for more than three hundred years, and I've been in charge of this ship for seventy-five years. Although the scale of the sea beast horde this time was ahead of the others, if they didn't have any backing, how could these five sea beasts of the mountain Formation stage dare to challenge this ship? Hmph, I'm going to dig out my eyes and step on them!"

He wasn't just saying this for Lin Yi, he was trying to convince everyone!

Chapter 4787 An Even More Terrifying Existence

No matter what, they could not afford to lose their composure. Otherwise, if their internal opinions were not United, it would become an absolutely fatal flaw.

"You mean to say that even if we activate the ten thousand li formation and shake off these five sea beasts, we won't be able to shake off the people behind them?" The chief Officer took in a cold breath as everyone turned to Lin Yi and ao Tianba. This was the question they wanted to know the most.

"I've never seen the ten thousand mile formation, so I won't comment. " Lin Yi shook his head and analyzed,"but since they're targeting our ship, they must have the confidence to do so. After all, sea beasts at this level aren't stupid."

"I don't know. Based on my intuition, it's only a 30 - 70 chance." Ao Tianba pinched the space between his eyebrows and added, ""We'll take 30%, and they'll take 70%."

Everyone suddenly fell silent. This meant that even if they used the ten thousand mile formation, there was only a 30% chance of escaping successfully. Once the remaining 70% was caught, the result was self-evident. Without spiritual Qi, there was no formation. Without the protection of the formation, the ancient warship was just a pile of scrap metal. It could not even stop a nascent Soul Stage sea beast.

"Since that's the case, there's no need to be so conflicted. There's only a 30% chance for everyone to gamble their lives, are you still willing to gamble? Even if you stay and fight with all your might, your chances of survival will be higher than this. " Lin Yi said faintly.

This sentence completely dispelled everyone's thoughts of running away. Since running away was more dangerous than not running, then what was the point of running!

These crew members were all battle-hardened soldiers, and once they were forced into a desperate situation, the morale and ability that erupted from their bodies were far beyond that of ordinary people. Just like now, each and every one of them seemed to have been injected with chicken blood, wishing they could immediately find the sea beasts outside and kill them. No one ever mentioned the word "ten thousand li formation" again.

"Good! Since they want to play, then let's play with these ugly people today!" Ao Tianba suddenly roared out, and without hesitation, he ordered, ""Listen to my command, activate the falling star formation!"

"Received!" All the crew members responded immediately. Even Lin Yi was shocked by their sudden change of attitude. He pulled on yudie's sleeve and whispered,""What is the Starfall array?"

"This ... I don't know ..." Huo yudie shook her head. This was the core secret of the warship, just like the ten thousand mile array. She was not an internal member, just a temporary passenger. How could she know such things?

"This is the most powerful attack formation of this Starship. Like the ten-thousand mile formation, it's also the last trump card that consumes all the spiritual energy reserves. The only difference is that the ten-thousand mile formation is used for escape, while the Starfall formation is used for attack." Ao Tianba took the time to explain. He then looked up at the stars in the sky and said in a relieved tone,""It's a good thing that the weather is good tonight. It gives us an additional 20% chance of winning!"

Lin Yi didn't know what it meant, but he could guess that the Starfall formation had something to do with the weather. Could it be that they were using the stars to their advantage?

Ao Tianba didn't have the time to explain further. He immediately ordered the voice transmission array,""All teams, take your positions. We only have six hours. If our spiritual energy runs dry in six hours, we will be unable to do anything. So, we must kill all the scumbags before dawn. After dawn, I will give each of you a toast to show my appreciation!"

"Yes!" The crew members' voices were filled with an indomitable killing intent, as if they were Warriors who had set out on an expedition, either returning in triumph or dying on the battlefield.

As they were talking, an unprecedented wave of air swept out from the ancient warship. Without any warning, it brought up a huge wave that was hundreds of feet high. The weaker sea beasts were

instantly blown away by the wave. Once the battle started, they were not even qualified to be cannon fodder.

Lin Yi looked at the scene in front of him in shock. He didn't know if it was an illusion, but he felt like the stars in the sky were much brighter. They were just stars before, but now they were as bright as lanterns.

At the same time, what made Lin Yi even more speechless was the table in front of Ao Tianba. There was nothing on it before, but now there was a dreamy, illusionary light and shadow astrolabe. Upon closer inspection, one could see that the light and shadow astrolabe was a hundred percent compatible with the stars in the sky, without a single mistake.

"Let's start. Don't they use the humpback whale as a meat shield? Then let's just smash this meat shield as a greeting!" Ao Tianba's face revealed a sinister smile, as he ordered, ""Lock onto the humpback Mountain whale. Starfall formation, release!"

With that, he moved his finger on the light and shadow astrolabe, and one of the stars he touched suddenly shone. Before Lin Yi could look at it carefully, there was a loud explosion outside, and a huge pillar of light fell from the sky. The dark night suddenly turned into day, and all he could see was a blinding white light.

In the blink of an eye, the white light dissipated. Lin Yi couldn't help but suck in a cold breath as he looked at the scene in front of him. The mountain-like humpback whale was blown into pieces by this white light, and all that was visible in the sea was the mountain-like minced meat.

Lin Yi couldn't help but gulp. A powerful ocean Overlord at the level of mountain opening was gone in just one move. This was the ultimate killing move of the ancient warship, the falling star formation!

Ao Tianba and the other crew members were unmoved by this shocking scene, but the sea beasts outside were completely shocked. Not only were the xuansheng stage sea beasts trembling, even the deep sea Mad Shark, the nether ghost mother, the soul-hooking strange fish, and the thousand-legged tyrant king crab, the four mountain opening stage sea beasts, had unconsciously retreated several miles.

If they were alone, they would have backed off after seeing this shocking scene. The humpback whale had the toughest skin among them. If even the humpback whale ended up like this, the four of them would end up even worse if they were hit by the white light.

However, after retreating for a few miles, they suddenly stopped in unison. Each of them let out a shrill and terrifying roar. After struggling for a while, they charged back. Each of them had blood-red eyes as if they had lost their minds. Their bodies exuded a terrifying and crazy aura. When other sea beasts of the xuansheng stage got close, they were immediately torn to pieces. It seemed like they could not distinguish between friend and foe.

Everyone's hearts sank at the sight-the four mountain-opening sea beasts "abnormal behavior had completely confirmed Lin Yi and ao Tianba's hypothesis. There was an even more terrifying existence behind them, and they were merely puppets and cannon fodder!

Chapter 4788 Starfall Formation

"Stop pretending! Why hasn't that ghostly thing shown itself yet?" Ao Tianba frowned as he stared at the sea in front of him, trying to find the culprit behind all this. If he couldn't get rid of this guy as soon as possible and only got entangled with the four mountain opening puppets, he would be dead this time.

Pfft! Lin Yi almost burst out laughing as he communicated with his primordial spirit."Senior, this guy is looking for you. Do you want to go out and say hello?"

"..." The ghostly thing was speechless for a while before saying, ""I'm afraid he'll be scared to death if I go out, so I'll leave it to you. The thing you encountered this time is not small, and it's even related to me!"

"Relatives? Could it be that the other party is a spirit beast?" Lin Yi jumped.

"No, it's a real sea beast. Who told you that I can't be related to sea beasts?" The ghostly thing pouted.

"Eh, your family's connections are really wide. You even have relatives with sea beasts. I'm impressed." Lin Yi shook his head, speechless. "What should I do now? should I bring you to meet your relatives?"

"If you want to die, go ahead. I won't stop you." The demonic thing laughed evilly. Not to mention that the other party was a completely unrelated sea beast, in its current state, even if it was a relative of a spirit beast clan, it would not dare to casually acknowledge him. Who knew, it might end up as the other party's nutritional supplement.

"Then what should we do? Can this Starfall array defeat your relative?" Lin Yi asked.

"The power is barely enough, but you have to be in command to have a chance. Otherwise, I guarantee that they won't even be able to touch a single hair. Once six hours are up, you can just wait for death." The ghostly thing said in disdain.

"I'll command?" Lin Yi blinked, shaking his head as he watched ao Tianba go in circles. "I'm not their Captain. Why would they leave such a life-and-death matter to a random layman like me? How could that be possible? unless water entered their brains!"

Ao Tianba didn't like Lin Yi before, and was waiting for him to make a mistake. His attitude changed, but it was impossible for him to hand over the command. He'd throw Lin Yi out to feed the sea beasts if he said that.

"Hehe, I'm not asking you to ask for the command right now. Just wait until they're at their wit's end and you can ask." The demonic thing laughed.

"That's good. " Lin Yi nodded as he looked at ao Tianba's next move. The guy seemed to have made his decision.

"Since it's not willing to come out, then I'll beat it out. Listen to my orders. Target the four sea beasts in the mountain opening stage. Falling star formation, release!" As soon as ao Tianba finished speaking, he swiped his four fingers across the light and shadow astrolabe in front of him, and the four stars that he had swiped across shone brightly again.

BOOM! Four huge beams of light descended from the sky again, blasting towards the four sea beasts. The white light shone brightly, and huge waves rose into the sky. The momentum was so great that even the ancient battleship was shaking. Lin Yi felt an unprecedented shock.

As the light faded, ao Tianba and the others stared nervously at the sea in front of them. However, the results of this battle had sent chills down their spines. The four sea beasts did not follow in the humpback whale's footsteps as they had expected. Other than the thousand-legged tyrant king crab, which was not much faster than the humpback whale, which had been blown to pieces, the other three were safe and sound.

Be it the deep sea mad sharks, the netherworld ghost mothers, or the soul-summoning strange fish, their speed in the ocean was at a ghostly level. The humpback Mountain whale and the thousand-legged tyrant king crab could not avoid the bombardment of the Starfall array, but the two of them could!

Ao Tianba's face turned deathly pale as he looked at the three sea beasts that were flashing back and forth on the sea. There was no doubt about the power of the Starfall formation, but there was a flaw, and that was that it required time to accumulate power.

Even if the time needed was so short that most of the sea beasts could not react, a flaw was still a flaw. As long as it existed, it would be exploited one day.

"How is that possible? No matter how fast the sea beast is, it can't Dodge it! This has never happened before!" Ao Tianba shook his head in disbelief. In the past, the Starfall formation had never failed to deal with the sea beasts during the mountain opening stage. But this time, it had failed three times in one go. It was simply too strange.

The others were in disbelief as well, only Lin Yi was shaking his head. He'd never failed before because there wasn't something stronger controlling them from behind, but this time was special. The three of them were able to avoid it because the guy behind them had controlled them to speed up.

"This guy is not good enough. A good falling star formation has fallen into his hands, and he can't even use ten percent of its power. What an idiot!" The ghastly thing suddenly said in disdain.

"Ha? This isn't the full power of the Starfall formation?" Lin Yi was shocked-could it be even stronger than this, ten times more powerful than before?

"It's considered its strongest power, but not its strongest power. " The ghastly thing said in an enigmatic manner.

"Senior, can't you say something more human?" Lin Yi said, speechless.

"In terms of the power of the light pillar, this is naturally the strongest. If it were stronger than this, would these sea beasts still be alive?" The demonic thing laughed and said,"it's a pity that such a powerful thing has fallen into the hands of an idiot. What's the use of it if you can't hit the target?" If there was an expert controlling it, even I would have to be wary of this descending star formation at my peak. It's a pity that it's being controlled by an idiot now. He couldn't even handle a few sea beasts at the beginning stage of the mountain. If the designer isn't dead, he'd probably be crying in the toilet. "

"Why is that? Its charging time is indeed a very obvious flaw. As long as the other party is strong enough and fast enough, it shouldn't be too difficult to avoid it in time after noticing it, right?" Lin Yi couldn't help but ask.

"A flaw? In ancient times, the Starfall formation was known as the most powerful killing formation without any flaws. It's just that no one knows how to use it now, so it's just a bright pearl covered in dust. " The ghastly thing sighed.

"The strongest killing formation without any flaws? Where does this come from?" Lin Yi couldn't help but smile. There was clearly time to store energy, how did it become the strongest killing formation without any flaws?

"Kid, look at its astrolabe, doesn't it look like a chessboard?" The ghostly thing asked instead of answering.

Lin Yi took a closer look. He didn't think about it before, but now that this thing reminded him, he realized that it was indeed a chessboard, an extremely complicated and exquisite chessboard.

"It is said that the original designer of the Starfall array was a chess master of his generation. The Starfall array was inspired by the chessboard. Every star is a piece, and before the piece is placed, the opponent's every retreat path must be calculated. After all the retreat paths are blocked, so what if there is time to accumulate strength? can the opponent escape?" The ghastly thing said.

Chapter 4789 Taking Over Command

This was like using chess skills to make up for the lack of preparation time, making the Starfall formation's attack even more unpredictable. Lin Yi nodded, "So, the Starfall matrix can only be used to its full potential when it is controlled by a real chess master?"

"That's right. It's said that the descending star array was invincible in the hands of its designer, and even the strongest expert at that time had to retreat. That's why it has the beautiful name of the strongest killing array. Otherwise, it wouldn't have been installed on a warship and become the last trump card of the ultimate weapon." The ghastly thing said.

While the two were communicating, Ao Tianba had once again suffered. He still hadn't given up on the idea of capturing all three sea beasts in one fell swoop. Unfortunately, the result was the same as before. He didn't even hit a single hair.

This result made everyone's morale drop to the freezing point. They knew that these three were just puppet cannon fodder, but after using all their skills, they realized that they couldn't even kill the enemy's puppet cannon fodder. How could they play?

Ao Tianba's face was ashen, and it seemed like he had suffered a heavy blow. If even he, the captain, was in such a state, there was no need to mention the others.

A feeling of despair spread from the command center to every cabin. What was worse was that everyone was already complaining to each other. If they had activated the ten thousand mile formation and escaped just now, they would have at least a thirty percent chance of survival. Now, there was not even a ten percent chance!

"Why don't you let me try?" Lin Yi suddenly stood up.

Everyone was shocked. Ao Tianba frowned at him and snorted, ""Do you know what this is? A layman wants to try out the Starfall formation?"

"I'm indeed a layman, but after seeing your performance just now, I don't think I'll be any worse than you. " Lin Yi said faintly.

"What did you say?" Ao Tian BA was already in a bad mood, and now he was enraged. His impression of Lin Yi was completely reversed-this guy had some ability, but he was too much of a braggart!

"I said that since we're going to die anyway, why don't you let me give it a try? maybe there's still a chance?" Lin Yi didn't look away from ao Tianba's eyes.

"I ..." Ao Tianba hesitated. He didn't believe that Lin Yi could control the Starfall formation, but the thought of Lin Yi discovering the sea beasts in advance and seeing through the mastermind with one look made him think that he was lucky. What if the kid could really do it?

The others all looked at ao Tianba. There was no point in complaining now. They had no other choice.

Before ao Tianba could say anything, Lin Yi walked towards the astrolabe. Ao Tianba stepped aside subconsciously, and by the time he reacted, Lin Yi's hand was already in the astrolabe.

"Captain, what do you say?" The first mate and the other crew members' questions rose one after another in the voice transmission array.

Ao Tianba looked at Lin Yi deeply before gritting his teeth, "Listen to him!"

As soon as he finished speaking, a pillar of Starfall light descended on the sea in front of them. Ao Tianba and the others, who had just made up their minds to believe in Lin Yi, were stunned. What was going on?

The three sea beasts at the mountain split stage were several kilometers away. The area enveloped by the light beam was completely empty. There was not even a single sea beast at the xuansheng stage. What the hell was this guy doing?

Lin Yi fired three more pillars before anyone could ask anything, but there was still nothing in the light. Ao Tianba couldn't stand it anymore, "If you don't know how to, then get out of the way and stop being a hindrance here!"

"If you don't understand, then don't talk nonsense. If you want to live, then watch carefully." Lin Yi didn't move, but his aura changed.

Ao Tianba's eyelids twitched. His opponent's terrifying aura made his heart skip a beat. He felt as if he had met a Super Master far above him. However, when he turned around, he found that there was no difference from before. It was clearly just a kid in the middle Yuanying stage. How could he be a Super Master?

Could it be that he was under too much pressure and had an illusion? Ao Tianba shook his head with all his might, and in that instant, Lin Yi fired three more Starfall pillars, just like before.

Everyone was about to go crazy. Each pillar of Starfall light required a large amount of spiritual energy, and this brat had created Seven pillars of light in the blink of an eye. If this continued, they wouldn't even be able to last six hours. The spiritual energy they had stored up would be exhausted in advance.

Not only did everyone look at each other speechlessly, but even the three sea beasts outside were also puzzled. After waiting for a while and seeing that there was no movement, they began to attack the ancient warship crazily.

Because the Starfall array had already absorbed a large amount of spiritual Qi, the defensive array was not as strong as before. In addition, the crazy attacks of the three sea beasts were not to be underestimated. The battleship was actually shaking back and forth under the attacks. The defensive array was about to be completely destroyed, and the situation was precarious!

Everyone, including Ao Tianba, paled-they couldn't care less about Lin Yi's position anymore as they yelled, "Quickly release the Starfall formation! If you don't let go, you're going to die!"

To their surprise, Lin Yi turned to them with a calm smile. "The main character hasn't even shown himself yet, what's the rush?"

Ao Tianba's group was furious. 'This kid is still in the mood to act tough at a time like this? does he really think this is a joke?'

At this moment, the warship suddenly trembled, and the tilt was so great that it almost capsized. Fortunately, the boatman reacted quickly enough to adjust the direction in time, and barely escaped the disaster.

Everyone was instantly dumbfounded. Although the attacks of the three sea beasts were also very terrifying, they were not enough to tilt the warship to such an extent before the defensive formation was destroyed. Could it be ...

Suddenly, someone shouted, ""You guys, quickly look!"

Everyone looked towards the source of the sound. At this moment, there was a majestic mountain range a few miles ahead. Of course, this was not a real mountain range, but a magnificent super sea beast that was as large as a humpback whale. The difference was that the humpback whale was heavy and clumsy, but the one in front of them was slender and agile.

It was pitch-black and covered in dense scales. Coupled with its slender body, the first impression that the sea beast gave everyone was that it was a giant sea snake. However, when it revealed more of its ferocious body, this thought was immediately dispelled.

"A Sea Dragon King?" Lin Yi looked at the dense rows of teeth and the four powerful fins on both sides of the Super-beast, and the name popped up in his mind subconsciously.

"You actually recognize it?" The ghastly thing was shocked.

"Is it really a Sea Dragon King? Did you come from the secular world?" Lin Yi was even more shocked. Poseidonsaur was a top predator of the ocean during the Cretaceous period, and had long since become a fossil like land dinosaurs. This one in front of him was at least ten times the size of a real poseidonsaur!

Chapter 4790 Victory

"The name is very close, but it's not a Sea King Dragon. It's a Sea Dragon, the creature closest to the sea god in legend." The ghastly thing explained.

"Sea Dragon ..." Lin Yi finally reacted. No wonder the thing said they were related. They were both Dragons, but one was a spirit beast while the other was a sea beast. The blood relationship was a little far apart. They were basically the type that couldn't be connected.

"Sea Dragon! This was a Sea Dragon! We've actually encountered a Sea Dragon!" Ao Tianba suddenly shouted out in excitement, gesturing incoherently. This was the legendary sea god, a totem creature of the endless sea. He had never seen one in his three hundred years of sailing on the sea!

The others were also in an uproar. The sea Dragon was the sea beast that they talked about the most. There were so many legends about sea dragons that they couldn't even describe it in three days and three nights. They didn't expect to see a living sea Dragon today.

However, before everyone could calm down, the sea Dragon with the sea god's Halo on his head suddenly rushed over again. With a loud bang, the warship once again flipped over. After barely stabilizing the hull, the excited people immediately felt as if a basin of cold water had been poured on their heads. The defensive formation was broken!

Everyone, including ao Tianba, turned pale when they saw the defensive formation's Halo disappear. It was only then that they realized that it was not their luck to see the legendary Sea Dragon. Instead, it was their only misfortune. Without the protection of the defensive formation, they would all die Here without any chance of survival.

At that moment, Lin Yi suddenly shouted, ""Falling star formation, release!"

Fortunately, the crew wasn't completely flustered. They responded subconsciously after hearing Lin Yi's order. Seven falling star pillars descended from the sky, each one in the exact same position as the seven that missed.

Lin Yi only just realized that the time needed to gather power was a hundred times shorter if he cast the same pillar at the same spot again and again. Even stronger existences wouldn't be able to react to this speed, let alone the mountain-opening stage.

But the opponent was the sea Dragon, the sea god, after all. The sudden reaction still made Lin Yi break out in cold sweat. The sea Dragon dodged six of the falling stars pillars, and only took the last one. If it wasn't for the last one, everything would've been for nothing, and everyone would've died without a burial. Fortunately, the chess piece didn't fall through.

This was the work of that damned thing. He had already calculated all of Sea Dragon's escape routes by placing his pieces in these seven places. One of the seven Starfall pillars would definitely hit. The legendary existence closest to the sea god was ultimately schemed against by this distant relative of Sea Dragon.

OWW! The sea Dragon let out a deafening roar. The Starfall light beam did not blast the sea Dragon into pieces like the humpback whale. Instead, it only left a large hole in its body. The sea Dragon was not lightly injured.

Dragon didn't run away after taking the hit, but his ferocity was triggered as he charged at the ship again. He could kill everyone in one hit, but Lin Yi wouldn't give him the chance, "Falling star formation, release again!"

Another seven Starfall pillars, and another unavoidable blind spot. Dragon was pierced through again, and this time, it didn't dare to act rashly. It screamed and turned to run, but Lin Yi didn't plan on letting it go. He fired another Starfall pillar.

The world fell silent.

"It ... It's dead?" Ao Tianba swallowed his saliva with difficulty as he looked ahead. Unfortunately, the sea in front of him had long been dyed with turbid blood, and he could not see anything under the sea. After the last Starfall pillar, the sea Dragon did not come up again. Perhaps it had already been blown to pieces.

As for the three sea beasts at the mountain split stage earlier, they had long since been crushed into pieces by the frenzied bombardment. Not even their bones remained.

"What do you think?" Lin Yi looked at him noncommittally and walked to Huo yudie's side. He let out a long breath and said, ""It's alright, let's go back. "

After hearing Lin Yi's words, the rest of the people finally burst out in cheers. No one would be able to breathe after being in front of death's door for so long. Their heartstrings were about to break, and now they were finally able to recover. This was a new lease on life, congratulations!

Ao Tianba's expression was complicated as he watched the two leave. He wanted to say something, but he didn't know what to say.

"Senior ghost, is that Sea Dragon really dead?" Lin Yi couldn't help but ask in his mind as he returned to the living quarters of the East continent disciples with Huo yudie. It wasn't just the people from ao Tianba who were confused about this-he himself wasn't sure.

"I already said that it's my distant relative. How can I kill it?" The demonic thing laughed evilly. Even he felt guilty for saying this. He knew that they were distant relatives, but he still schemed against them. He had to add, "It's only seriously injured and escaped. "

"Ha? Wouldn't they make a comeback?" Lin Yi jumped. The sky was about to turn bright, and the ancient warship was completely defenseless. It couldn't even take a single attack.

"That's not necessarily the case. Its injuries won't heal so easily. After suffering such a big loss, it won't dare to come looking for trouble again for a short time. However, it's hard to say in the future." The ghastly thing said.

"In the future? It has nothing to do with me in the future. Who cares about the flood after we get off the ship?" Lin Yi laughed nonchalantly before asking, "By the way, I was just wondering why this Sea Dragon would mobilize so many people to cause trouble. Could it be that ao Tianba and the others have provoked it before? It doesn't look like it. It looks like it's their first time seeing it ..."

"Hehe, there's no need for them to cause trouble. Actually, the existence of this ancient warship itself is already irreconcilable to the sea dragons." The ghostly thing laughed.

"Why do you say that?" Lin Yi asked curiously.

"There must be a Dragon Bone when building a ship. Do you know what kind of dragon bones were used by the ancient warships?" The ghostly thing asked instead of answering.

Lin Yi blinked before reacting. "Could it be using the sea Dragon?"

"That's right, that's the reason. If you were Dragon, how would you feel when you saw a warship like this flying over your head?"

"Maybe it's even more extreme than this." Lin Yi chuckled as he shook his head.

In the blink of an eye, the two had returned to the living quarters of the East Province disciples, who were all gathered in the cafeteria. Ning Xuefei rushed over from afar and hugged Lin Yi, "Lin Yi, you're not hurt, are you? you scared me to death, what's going on?"
