

Bodyguard 4831

Chapter 4831 The Only Supplier

Not only was the exterior similar, but even the layout inside was the same. However, compared to the iconic bullring in the secular world, this place was not only bigger, but the facilities were also more luxurious. Of course, the biggest difference was that this place was not open air.

There was a circle of extremely exquisite and luxurious boxes around it, and below it was a huge and empty field. Hundreds of seats were scattered in this field, and in the middle of the field was a very eye-catching high platform, which was obviously the host of this auction.

Lin Yi couldn't help but click his tongue as he looked at the magnificent scene. He'd been to a few high-level auctions before, whether it was the northernmost Island or the middle Island. They were all top-tier auctions, but the decoration was a little worse than this one. He had to admit that the East continent was indeed worthy of its name!

Lin Yi and honest Chai walked in and saw shopkeeper Hao and shopkeeper Jin, who had arrived first. A playful smile appeared on their faces when they saw honest Chai.

"Shopkeeper Chai, I didn't expect to meet you again so soon. Speaking of which, where are your seats?" Manager Tong asked awkwardly. As for Lin Yi, he didn't even look at him, thinking that he was just a follower.

"No. 1." Honest Chai pointed to the area in front of them. Number one was the table closest to the emcee's stage, and it was considered a pretty good seat.

"Oh, it sounds like something amazing? But why did I hear that all the big shots with a bit of status have their own private rooms? what does that mean? Your Hong Chamber of Commerce is such a big name, don't tell me you can't even get a private room and can only squeeze in with those ordinary disciples? Tsk tsk!" Shopkeeper Jin seized the opportunity to jump out and mock.

Honest Chai's expression changed slightly. This was indeed a thorn in his heart. This auction was clearly an Alliance between the other competitors against the Hong Chamber of Commerce. The Morning Star Academy was supposed to be an impartial and neutral judge, but from the distribution of seats, one could already see the Academy's position.

Although table one sounded very impressive, it was actually putting the Hong Chamber of Commerce on the fire. It would only make people laugh at it. Otherwise, with the status of the Hong Chamber of Commerce, no matter how bad it was, it could at least get a VIP box, and it would at least be in the top ten!

"Hehe, shopkeeper Jin, do you mean that the Golden universe Chamber of Commerce has been allocated a private room? I wonder what date it is?" Honest Chai retorted.

"I ..." Shopkeeper Jin was once again rendered speechless. He blushed and shrank his neck back. What a joke! The Golden universe Chamber of Commerce was on the verge of bankruptcy. It would be a miracle if he could attend the auction. How could he have a vip room?

"Number 12!" "That's a private room reserved for the wealthy families," manager Tong suddenly answered on his behalf. "Although the Golden universe Chamber of Commerce doesn't have one, it has become a subsidiary Chamber of Commerce of the wealthy families. Naturally, it can enter the private room with me. I wonder if manager Chai is interested in this?"

"Honest Chai, I think it's better for you to quickly agree. Your Hong Chamber of Commerce has a powerful background, but it's a pity that it can't save your morning Star branch. If you rely on manager Tong, at least you can keep your food, and you won't have to squeeze with the ordinary disciples in front of everyone and become a joke. We're all businessmen who care about our image and face, don't you think so?" Shopkeeper Jin said.

"Yes, you're right. I do want my face, but unfortunately, you don't want it, so I'd better stay away from you, so I don't get laughed at." Honest Chai glanced at him and said.

Shopkeeper Jin exploded in anger when he was looked at like a dog. If it weren't for the Morning Star Academy's disciples standing around him! He would have fought honest Chai to the death. Although he was indeed shopkeeper Tong's dog, how could he expose someone's wound like this?

"Hmph, you won't shed tears until you see the coffin. Once the auction is over, it'll be useless even if you come to beg me again, because by then, your morning Star branch won't even be qualified to be a vassal of my rich and powerful clan. Just wait for your collapse." Manager Tong's expression turned cold and he immediately left with manager Jin.

Lin Yi and honest Chai looked at each other, not bothering to look at this clown anymore. They went straight to table one and sat down. The auction was about to start, and people from all walks of life were entering the venue. The whole place was very lively in a short time.

Lin Yi looked around and found that this was indeed the Morning Star Academy's main camp. More than half of the people in the hall were students in their uniforms, while the rest were from all sorts of backgrounds. One thing was for sure though-these people all had extraordinary backgrounds, or they wouldn't have been able to get in.

There were so many Morning Star Academy students, and there might be Xinyan and xiaotao among them. Lin Yi wanted to use his divine sense to check, but he realized that he couldn't use it here at all. It was as if there was some special formation covering it, completely blocking his divine sense.

He couldn't use his spirit sense to check, so he could only use his eyes to see them one by one. The problem was that the people in the VIP boxes couldn't see anything unless they pulled open the curtains and had the right angle.

After looking around the place, Lin Yi sat back down in disappointment. Wang Xinyan and Huang xiaotao weren't here at all, but it wasn't strange. They were the only two disciples of Donghai's godly nun, after all. With Donghai's status, it was normal for them to be given a vip room.

Amidst the hustle and bustle, the Morning Star Auction finally began. A white-bearded old man with white hair and a ruddy complexion walked up to the center of the stage under everyone's gaze, followed by an opening speech. It turned out that this old man was the official host specially invited by the Morning Star Academy.

The white-bearded old man was only in charge of the opening speech, and the next person to walk up the stage made Lin Yi's eyes light up. It was a familiar face-the Dean of the Morning Star Academy, Ling Yuanqing!

Compared to the white-bearded elder's boastful words, principal Ling Yuanqing's words were much shorter. "Ladies and gentlemen, this is the second morning Star Auction after five years. I believe that all the Chambers of Commerce have already provided the most valuable items, and we will definitely give you an auction that is beyond your imagination. According to the rules, the Chamber of Commerce with the highest bid today will be the only supplier of this court. Please wait and see. Then, let's begin."

Chapter 4832 Intense Bidding

The crowd was initially drowsy, but when they heard Ling Yuanqing's last sentence, they were all jolted awake. The person who spoke up on stage was the highly respected Ling Yuanqing. If it was anyone else, they would have already started cursing and swearing.

The white-bearded old man immediately took over the host's platform and stirred up the crowd's emotions, "Everyone, today is the first day of the auction, and it is the auction house of a special Chamber of Commerce. In other words, all the items to be auctioned today will be provided by each Chamber of Commerce. I hope that everyone will open their eyes and look carefully, because the items you see today are all good things that you can't buy in your respective Chambers of Commerce. If you miss this village, you won't have this shop again."

After hearing what he said, everyone revealed an expression of anticipation. If these things could be bought normally, they wouldn't have to go through so much trouble to come to the auction.

"The first item of this auction is from the wealthy metropolises. A set of ten golden elixirs of superior quality. The starting price is one million spiritual jade pieces." The white-bearded old man immediately announced.

There was an uproar in the audience. It was indeed a rare Morning Star Auction. The opening items of the auction were only ordinary goods. They did not expect that this time, there were such heavyweight good things. Ten high-quality golden cores of the nascent soul. These were good things that could not be bought even with spiritual Jade!

Looking at everyone's shocked expression, shopkeeper Hao, who was in Box No. 12, couldn't help but show a proud expression. For the sake of this auction, his wealthy families had put in a lot of effort to gather this group of high-quality golden cores. They were determined to get the right to cooperate with the Morning Star Academy!

Although the few Chambers of Commerce had joined forces to deal with the Hong Chamber of Commerce, after the Hong Chamber of Commerce was destroyed, they were all competitors. If they couldn't get the cooperation qualification after spending so much effort, then it would really be a waste of effort and their efforts would be wasted.

"One million one hundred thousand!" There was immediately a man dressed as a businessman who couldn't wait to bid. Although the Golden core of the Yuanying stage was a relatively common elixir, there was no fixed price, and the market fluctuated greatly with it, especially the high-quality golden core of the Yuanying stage. It was impossible to buy it at 100000 Yuan per pill, and even 200000 Yuan depended on luck.

"One million five hundred thousand!" A voice from room 10 sounded.

Everyone looked at him one after another. According to the rules, people at the level of the VIP box should not have much demand for the Golden core, but ordinary disciples like them needed it more. Unfortunately, they did not have such strong financial resources. If each golden core was sold separately, they would have a chance, but now ten golden cores were sold in groups, they could only look at it and sigh.

In fact, if it was purely for the spiritual Jade, according to past experience, it would be more cost-effective to auction it alone. However, all the wealthy families were determined to use this to make a name for themselves, so they naturally would not care about the small change.

"Two million!" This time, the voice came from the fourth box.

The crowd went into an uproar again. It wasn't because the number was too high, but because the identity of the owner of the voice was no small matter. Although they didn't know the true identity of this person, the fact that he was ranked in the fourth box already explained everything.

As soon as the fourth box opened its mouth, no one dared to bid anymore. Even the tenth box that had opened its mouth before also stopped bidding. It seemed that they didn't want to offend the other party because of this group of nascent soul golden cores.

In the end, this set of golden pills was sold at the price of two million spirit Jade and fell into the hands of the fourth private room. Manager Tong was helpless about this result and held his forehead, not knowing what to say.

Although he had prepared some other items for the auction, what he valued the most was this group of Yuanying jiedan stage cultivators. In his expectation, even if it didn't reach three million, it should at least be two million and five hundred thousand. But because of the interference of the fourth box, it was reduced by five hundred thousand, which simply made him want to cry but have no tears.

"It's fine, it's fine. Two million is a rare opening. Including the other items, the total transaction amount can reach at least five million, enough to overwhelm the other Chambers of Commerce!" Manager Tong could only comfort himself in this way.

Indeed, as he had expected, the next five items were all from his rich and powerful families. Although they did not cause as much of a sensation as the ten high-grade nascent soul gathering golden cores, each of them was not ordinary. The final transaction amount reached a huge sum of 5.3 million, which finally reached the expected target, making him feel relieved.

"Ladies and gentlemen, the next item is from the All Access banquet. It's a grade seven recover pill. The starting price is 1.2 million spirit Jade!" The white-bearded old man announced.

The whole place was filled with exclamations-even Lin Yi, who'd been unmoved all this while, was surprised.

As an Alchemist, Lin Yi naturally knew about the grade seven recover pill. It was one of the rarest grade seven elixirs out of all of them. It could recover the Qi and injuries of a master of the xuansheng stage in a short period of time. Back when he fought Leng rufeng for half a month, he had consumed one. Otherwise, he wouldn't have been able to survive.

Lin Yi was only a little surprised, but shopkeeper Hao's eyes almost popped out of their sockets. He thought that ten superior-grade golden elixirs were a rare gift, but he didn't expect the Wantong gathering to give him a grade seven recover pill!

Manager Tong couldn't help but have an extremely bad premonition in his heart. Although there was only one, this seventh grade great recovery pill was simply a Second Life for a xuansheng stage expert. Its attraction was far stronger than his own golden core Yuanying stage experts. And looking at the entire scene, these xuansheng stage experts in the VIP boxes were the true main force of the auction!

"Two million!" The first bid from the sixth private room made manager Tong's heart turn cold. It had already caught up with the transaction price of ten golden cores of a nascent soul.

"Two million three hundred thousand!" It was room four again.

"Two million five hundred thousand!" However, this time, the sixth box did not have any intention of backing down. On the contrary, it appeared to be determined to win.

"Three million!" The fourth box bid again.

The audience was astounded. Three million spiritual jades was already a sky-high price even for a grade seven great recovery pill. Who on earth was the person sitting in the fourth private room who was so rich in spiritual jades?

"Three million one hundred thousand." The sixth box hesitated for a moment.

"Three million five hundred thousand." The fourth box immediately raised the price by a large margin. This time, not only was everyone shocked speechless, but even the sixth box was at a loss for words. In the end, this seventh-grade great recovery pill fell into the hands of the fourth box, just like the previous ten golden pills.

This fourth box was really rich! Lin Yi couldn't help but shake his head with a chuckle. He'd only bid twice since the start, but both times were huge. The others weren't on the same level at all, and it seemed like it'd be hard for anyone to compete with him for the next item in room four.

Chapter 4833 Just Wait To Be Humiliated

Manager Tong's tears were about to fall! He was also a rich man in the fourth private room, but his ten nascent soul gathering golden pills could only get him two million spirit jade pieces, while the other party's Grand recovery pill was three million and five hundred thousand spirit jade pieces. What was the point of fighting for it?

Sure enough, after a few items from the All Access banquet, the total transaction amount had reached 7.6 million spiritual jade pieces, leaving the rich and powerful families far behind.

Manager Tong's face turned green with regret. Whether it was instigating this morning Star Auction or preparing all kinds of auction items, his wealthy and powerful family would definitely be the one to put

in the most effort. In the end, they were like the Mantis stalking the cicada, unaware of the Oriole behind. In the end, they had actually been taken first place by this silent All Access Grand meeting!

The auction continued. The next to appear was the eastern Chamber of Commerce, a local merchant in the East continent. However, they were obviously not as deliberate as the previous two. Although the treasures they brought out were rare treasures, the number was not large, and the gimmick was not good enough. The final transaction was only five million spiritual jades, and it seemed that they had no intention of competing for the cooperation qualification of the Morning Star Academy.

From the beginning until now, the crowd had been cheering and screaming, but Lin Yi had no intention of bidding at all. With his assets, of course, he didn't lack spirit jades, but these items were too Orthodox and didn't catch his eye, much less interest. After all, he could make things like the great recovery pill himself, so there was no need to bid.

This was a common problem in the auction houses of the Chamber of Commerce. If one wanted to see all kinds of strange and rare treasures, they had to wait until the individual auction house.

"Alright, the next item for auction is from the central Chamber of Commerce. I believe everyone has heard that they are all high-tech products from the secular world. Before we start the auction, let's first demonstrate the functions." The white-bearded old man announced.

As soon as he finished speaking, a staff member from the central Chamber of Commerce brought a series of technological products up the stage and demonstrated them one by one to the audience. After all, if the functions of these items were not clearly explained, no one would know what they were used for. Of course, there would be no way to auction them.

"Tablet, digital camera, walkie-talkie ..." Lin Yi looked at the row of technological products on the stage and shook his head speechlessly. He even saw a micro-listening device. If he didn't know that this was Sky Class Island, he would've thought that this was some digital store in the secular world.

After the demonstration, the auction continued. Although there were no medicinal pills and treasures like before, it was still a gimmick. The response was equally enthusiastic.

However, even though these technological products were novel, it was impossible for them to be auctioned off for a sky-high price of several million like the grade seven great recovery pill. After all, everyone was not stupid. It was acceptable to spend several tens of thousands of spiritual Jade for entertainment, but to ask them to spend hundreds of thousands? Unless water entered his brain.

In the end, the central Chamber of Commerce's series of technological products had a total transaction amount of less than two million, and that was because of the quantity. Otherwise, it wouldn't even be possible to get one million. Of course, the central Chamber of Commerce couldn't compete for the cooperation qualification with the Morning Star Academy. After all, the Academy needed all kinds of pills the most, and this was precisely the weakness of the central Chamber of Commerce, which couldn't be supplemented in a short time.

After watching the show, Lin Yi sighed in disappointment. He was thinking that the central Chamber of Commerce could communicate with the secular world like the auction in Nakajima, and he would definitely buy it. Unfortunately, they never mentioned this from the beginning. It seemed like si tsunami was right-the central Chamber of Commerce had already stopped this business.

The various Chambers of Commerce took turns to take the stage. Except for a few unusual ones like the eastern Chamber of Commerce and the central Chamber of Commerce, almost all the Chamber of Commerce participating in this auction came for the qualification to cooperate with the Academy. They all gave it their all, and the good things that couldn't be bought normally could be found everywhere.

However, there was a huge difference in the strength of the Chambers of Commerce. The small Chambers of Commerce couldn't be compared to the large Chambers of Commerce in the end. It was fine for them to take out one or two treasures, but it was impossible for them to take out eight or ten at once. If it was just an ordinary treasure, it obviously wouldn't be able to make it to the auction of this level.

As a result, there were very few Chambers of Commerce that could reach a total transaction of more than three million spiritual Jade. As for the record of 7.6 million spiritual Jade in the all-access banquet, even the rich and powerful families could only look up to it.

If nothing unexpected happened, the All Access Chamber of Commerce auction was destined to be the biggest winner of the auction and the only supplier to the Morning Star Academy. It was foreseeable that the title of the number one Chamber of Commerce in the morning Star City would change to the All Access Chamber of Commerce.

In the morning Star City, the full support of the Morning Star Academy was a decisive factor for any Chamber of Commerce!

After all the Chambers of Commerce had gone through their rounds, the Hong Chamber of Commerce was the last to appear. After all, it was the only Chamber of Commerce that the Academy had cooperated with. According to common sense, it was natural for it to appear as the last. However, those with discerning eyes knew that the Hong Chamber of Commerce was not as good as it used to be. It was an out-and-out sacrifice for this morning Star Auction.

The last item to appear in the finale sounded awesome, but in fact, it was meant to embarrass him. Everyone knew that the finale item had to be of a higher level than all the previous items. Once it failed to meet everyone's expectations, the reputation of the Hong Chamber of Commerce would be destroyed, and they would never be able to raise their heads in the morning Star City again.

"Hmph, we've worked so hard for nothing and let that Wan guy take advantage of us instead. Fortunately, our wealthy families have always been at odds with the Hong Chamber of Commerce. Destroying one of his branches can be considered as an explanation to the higher-ups." Manager Tong consoled himself as he hid in room number twelve.

"That's right, that honest Chai can't even take out a few golden cores, let alone last? Hmph, Hmph, just wait to be humiliated!" Shopkeeper Jin chuckled coldly.

"Everyone, the next four items are from the Hong Chamber of Commerce. Please wait and see." The white-bearded old man introduced.

As soon as he said this, the insiders like manager Tong, who were waiting to see the joke, all showed an expression of "I knew it". The Hong Chamber of Commerce was really at a dead end. There were only four items for such an important auction, and each Chamber of Commerce could only take out ten items at most. Even the Golden universe Chamber of Commerce could take out seven items. How could such a trash Chamber of Commerce be the Academy's supplier? it was a disgrace to the Morning Star Academy!

And the more items that were brought out for auction, the higher the total transaction amount. This Hong Chamber of Commerce didn't even want to make up for the number, it was like a broken pot that had fallen apart!

Lin Yi and honest Chai looked at each other and smiled!

Chapter 4834 Shocking Everyone

This was the time for these people to be proud of themselves. Later on, they must not be so shocked that their jaws would fall off.

"The first item of the Hong Chamber of Commerce is a set of ten Supreme-grade golden elixirs. The starting price is 1.5 million spirit Jade!" The white-bearded old man said excitedly. To be honest, when he first saw this list, even he was shocked. This was a rare top-grade quality item!

Everyone present instantly exploded. It was also a golden core of the nascent Soul Stage. The high-quality one could be seen often, but the Supreme-quality one could only be encountered by luck. Its rarity was comparable to that of a seventh-grade medicinal pill. It was rare to even hear about it, let alone see it!

Manager Tong and manager Jin were so shocked that their jaws were dislocated. Their expressions were brilliant. They already felt very bad * SS when they took out a set of high-grade golden elixirs, but the other party simply took out a set of top-grade golden elixirs. Wasn't this a F * cking slap in the face in public?!

There was no doubt that this time, the wealthy families would be completely trampled under the feet of the Hong Chamber of Commerce. If they were different from each other, then no matter how good the Hong Chamber of Commerce was, no one would think that all the wealthy families would have it. But now, they all had ten golden elixirs. One was only of high quality, while the other was of excellent quality. The difference was obvious!

"Three million!" The fourth box once again gained the upper hand. Before this, he had only bid three times, but each time, it was the main auction item of each Chamber of Commerce. There was no doubt that it was a rare big deal. This time, he emphasized to everyone the previous impression that spiritual Jade was really just a number to him.

"Four million!" This time, it was box number two who spoke. This was the first time he had bid. The crowd could not help but wonder who was behind this. There were only a few big shots in the morning Star City who could be ranked in box number two.

Although for these big figures, the Golden pill of the Yuanying stage had no meaning, but for the younger generation of their sect, it could still be useful, especially the rare top-grade golden pill of the Yuanying stage, which was greatly beneficial to even the Masters of the late Yuanying stage.

"Five million!" The fourth box did not give in at all. As for the others, they could only look at it and sigh again. At this price, even the large Chambers of Commerce did not dare to bid casually, let alone these ordinary cultivators with limited wealth. This was destined to be a bidding game for those with special rights.

"Five million five hundred thousand!" The second box spoke again, but this time it was a middle-aged man's voice. Although he didn't deliberately do it, it gave people a sense of pressure that made people instinctively not dare to fight back.

Lin Yi couldn't help but feel that the voice was familiar. After thinking about it carefully, could it be Wei Hebei, one of the three big shots of Morning Star? This was very possible. After all, this Deputy Dean had many disciples, and it was estimated that there were also many talented disciples in the jiedan stage. A top-grade Yuanying-gathering golden core would be very useful.

This time, the fourth box did not say anything. No one felt that he did not have enough spirit Jade. Previously, he could buy a seventh-grade great recovery pill for 3.5 million spirit Jade. This time, he would definitely not be stingy with a mere five million spirit Jade in the face of ten Supreme-grade golden pills. Therefore, there was only one explanation. Just like how the sixth box did not dare to provoke him previously, he did not dare to compete with the second box, and could only give in helplessly.

In the end, this set of top-grade golden pills of nascent formation was sold to the second private room at the price of 5.5 million spiritual jade pieces. The shopkeepers of the Chamber of Commerce were speechless. The first item alone had reached 5.5 million spiritual jade pieces! Which had already exceeded the total transaction amount of 5.3 million spiritual jade pieces that all the rich and powerful families had. What could they do?

Shopkeeper Hao and shopkeeper Jin's faces had already turned as black as the bottom of a pot. When they thought of how they had mocked honest Chai, they felt ashamed and thought that he didn't know how to appreciate their kindness. It turned out that he was treating them like idiots!

"Next up is the second item from the Hong Chamber of Commerce. It's a grade seven great recovery pill of high quality. The starting price is 1.8 million spirit Jade." The white-bearded old man announced.

There was another uproar. The Hong Chamber of Commerce was doing this on purpose. They had just used a set of top-grade Yuanying-gathering golden cores to slap the face of all the wealthy families, and now they were immediately slapping the face of the Watong Convention!

One had to know that the grade seven great recovery pill in the All Access banquet didn't mention the word "quality" at all. According to the unspoken rules of the auction, this meant that it was only of ordinary quality. It couldn't even be compared to the medium quality, let alone the high-quality grade seven great recovery pill of the Hong Chamber of Commerce.

Lin Yi shook his head slightly. He wanted to try for the highest quality, but it was a pity that when it came to Level Seven pills, even the Shennong medicine cauldron couldn't guarantee that it would be as good as before. He'd tried a few times, but there weren't many high quality pills. It was clear that this was a rare thing-not only did it require the best ingredients, but it also required good luck.

A set of top-grade golden elixirs was already shocking enough. This time, a high-grade seventh-grade great recovery pill was released. Not only the people present, but even the VIP boxes were in a commotion.

Both of them could heal the injuries and Qi of a xuansheng stage expert. However, there was a huge difference in the recovery speed between normal and high quality. Normal quality would take a day, while high quality would only take two hours!

Under normal circumstances, there wasn't much difference, but at a critical moment, the difference between two hours and one day could very likely be life and death. This was a real Second Life!

In the end, after an intense competition, the superior grade grade grade class seven recover pill was sold at the sky-high price of 6.8 million spirit jade pieces, and it went into the second private room.

With just two items, the Hong Chamber of Commerce's transaction amount had reached an unbelievable 12.3 million spiritual jades, far ahead of all the other Chambers of Commerce, and even the All Access Grand meeting could not catch up. There was no doubt that the Morning Star Academy would be the only supplier from now on.

With the first two items, the third item didn't need the host to say anything. It had already piqued everyone's appetite. After all, the first two items were the top-grade golden core and the high-grade seventh-grade great recovery pill. Even if the third item was difficult to get better, it couldn't be worse than this.

"Ladies and gentlemen, the third item from the Hong Chamber of Commerce, a grade seven beautifying pill!" Before the white-bearded old man could finish his sentence, the entire place erupted with the shrieks of women. When they heard the words "Beauty Pill," whether it was the ordinary female cultivators below the stage or the high and mighty female existences in the VIP boxes, as long as they were women, they would go crazy!

Chapter 4835 The Scene Was Crazy

Lin Yi was startled by the sudden scream, but honest Chai was as calm as a mountain, as if he'd been prepared for this. He turned and smiled, "From the moment you took out the beautifying pill, I knew this

would happen. Women are creatures that can't be explained with common sense. As long as you put the beautifying pill in front of you, no matter how old or strong you are, no one will be able to resist reaching out their hand!"

Lin Yi couldn't help but chuckle. He thought that only disfigured women like yang qianxue would be so obsessed with the beautifying pill, but he didn't think that all women were like that. No wonder ning Xuefei couldn't let go of the beautifying pill when she first got it. It was like a woman's life.

After the screams subsided, the white-bearded old man continued to announce,""One high-quality beautifying pill. The starting price is three million spiritual jade pieces!"

It was also a high-grade seventh grade elixir, but the starting price was a whole 1.2 million higher than the great recovery pill. There was no way around it. This was a typical case of the rarer something was, the more expensive it would be.

In terms of practicality, the grade seven recover pill was much more useful than the beautifying pill, but it couldn't drive women crazy like the beautifying pill. Lin Yi finally understood that no matter where he went, women's money was the easiest to earn!

As soon as the white-bearded old man's voice fell, the bids rose one after another. At this point, spirit Jade was no longer just spirit Jade. It was just a simple number. At this time, the woman was absolutely unreasonable. In a short period of time, the price had already reached an extremely exaggerated amount of nine million, far above the final price of the grade seven great recovery pill!

Lin Yi's jaw dropped as he made up his mind-it seemed like he wouldn't have to do anything if he needed spirit Jade in the future-all he had to do was make a few beautifying pills and get ten million spirit Jade.

Among them, other than room number one, all the top few rooms had placed their bids. Even room number three, who had never spoken before, was no exception. However, other than room number three, which was a female voice, the other rooms were all Men 's.

Of course, since they were bidding for the beautifying pill, they must be doing it for a woman. Unless they were perverts, ordinary men would not use this kind of thing.

Lin Yi paid special attention to room three-the voice was hollow and hollow, and it was obvious that someone used some sort of voice-changing technique. But the ranking made Lin Yi think of Donghai's God.

After all, as one of the three tycoons of the Morning Star Academy, it wouldn't be strange for Donghai's godly nun to be given room number three if she attended the event herself. However, Lin Yi could only guess. He couldn't make a conclusion until he saw the owner's face.

But thinking about it carefully, although the beautifying pill could make all women go crazy, it shouldn't be the same for Donghai's nun's cultivation and temperament, right?

However, the bidder in the third box had only bid once, and no one else bid after that. They were not as crazy as the others, so it was possible that Donghai Sheoni was inside.

In the end, the Supreme beautifying pill was sold to box four at a price of 9.5 million spiritual jade pieces. Such a sky-high price was unprecedented. Even if all the previous Morning Star Auctions were counted, it would definitely rank among the top.

When the dust finally settled, the hearts of all the women on the scene broke. To them, missing out on the beautifying pill was like losing a lover. They could only blame themselves for not having enough spiritual Jade. Such an exaggerated figure of ten million was really not something that an ordinary force could afford. They had to have a super thick leg to support them.

"Next up is the fourth item of the Hong Chamber of Commerce, and also the last item of today's auction. Five Thunder profound pills of high quality!" The white-bearded old man announced.

The crowd was in an uproar. This commotion was even more shocking than when the beautifying pill had appeared. Just now, it was only the women who had gone crazy, but this time, everyone was completely infuriated.

What kind of Chamber of Commerce was this to be able to take out five high-quality Thunder mystical pills in one go?

In any Yellow Class academy in the East continent, the Thunder elixir was the rarest seventh-grade elixir!

After all, all the Golden class academy students had a common goal, and that was to break through to the mystic class. Only after they succeeded could they move up to the mystic class sea. The Thunder Mystic pill was a necessary item for everyone to break through to the mystic class. No matter how talented you were, you couldn't do without it.

It was well known that most of the high-level pills of any large Chamber of Commerce, especially those of the seventh grade, came from the alchemists of the various Academies. Although each of them had some other ways, they were far from comparable to these Academies.

This was because the existence of seventh-grade alchemists could only appear in one place in the East continent, and that was the various Academies. Only they could afford to provide for these seventh-grade alchemists. Other places simply could not keep them.

But this time, the Hong Chamber of Commerce actually didn't rely on the Academy's Alchemist and could own such a high-grade source of goods. Each one was more frightening than the other. They could even produce five Thunder profound pills at once. It was simply heaven-defying!

Looking at the crowd's explosive reaction, honest Chai, who had always been mild-tempered, became excited. If it wasn't for his image as the branch manager, he wouldn't have been able to help but dance and celebrate.

"The strategy you've formulated is indeed correct. We don't need many good things. Four is enough!" Honest Chai looked at Lin Yi in admiration.

According to his original plan, other than the pills Lin Yi made at the last minute, he wanted to add all the other items he had prepared for the auction as well, but Lin Yi rejected it with one sentence. The things they prepared looked rare, but everyone could get them. It would only lower their own level if they added them in.

"Hehe, rather than using those useless things to lower my own value, I might as well use these four ruthless ones. On the contrary, I can build up my reputation and leave a deep impression on people." Lin Yi smiled faintly.

If the previous bidding situation could be considered intense, then this time, in the face of the temptation of five superior-grade Thunder mystical pills, the whole scene was as crazy as a war!

"This set of five superior-grade Thunder mystical pills will be auctioned separately. The starting price for each pill is three million spirit Jade!" The white-bearded old man announced at the top of his voice. The price of a single superior-grade Thunder profound pill was already outrageously high. If five of them were to be auctioned together, it would be no fun at all, because no one could easily buy it.

Chapter 4836 The End Of The First Match

"Five million!" The fourth private room immediately said impatiently. He immediately added two million as soon as he came up, which showed that he was determined to get it. This was not surprising at all. He was willing to pay nine million and five hundred thousand spiritual Jade for the beautifying pill just now, so he would naturally not be stingy in the face of the Thunder profound pill.

"Six million!" Box number two immediately covered it.

"Seven million!" The fourth Box No longer gave in this time. For the sake of a Thunder profound pill, the person in the second box could only be offended this time.

"Eight million!" This time, it was box number one who spoke. The passionate and generous crowd from the original class immediately quieted down. Even box number two and box number four chose to remain silent.

Outsiders might not be sure, but the owner of box number one was clear to them. He was undoubtedly the number one person in the morning stars Academy. Since he had made a bid, everyone had to give in. This was the most basic respect.

In the end, the first high-grade Thunder profound pill fell into the hands of the first box. Although this price was not even comparable to the beautifying pill, it was still not considered low.

In fact, everyone was a little nervous. This was only the first Thunder elixir. What if he also bid for the next four Thunder elixir? would he give up or not? He couldn't offend the number one morning Star just for a few Thunder mystical pills, could he? But if he gave up, he would miss the chance to get the Thunder profound pill. This was a high-grade Thunder profound pill!

Fortunately, private room number one had the demeanor of an expert. After this one bid, he did not speak again, causing everyone to simultaneously heave a sigh of relief.

"Eight million!" When it was time for the second thunder profound pill, the fourth private room once again made the first move, raising the price to eight million at once. Immediately, a large number of people were frightened, and those who wanted to take advantage of the loophole immediately lost their hope.

"Ten million!" Box number two called out without hesitation. The entire auction house was in an uproar. This had actually broken the previous record for the beautifying pill's sky-high price!

"Eleven million!" The fourth box continued to raise the bid.

"12 million!" Room two snorted coldly. With that, room four immediately lost the confidence to compete with him. At this price, even he could not bear it. After all, he had already spent nearly twenty million spiritual Jade. No matter how many spiritual Jade he had on hand, he could not afford such a consumption.

Lin Yi looked at this scene and laughed silently. From the looks of it, the owner of room two was very likely Wei Hebei. Out of the three tycoons of the Morning Star Academy, only he was overbearing and tyrannical. Moreover, he had many disciples and didn't lack spirit Jade. It wasn't a problem for him to throw out 12 million spirit Jade.

Immediately following the third Thunder profound pill, the first to bid this time was the third box: "Ten million spirit Jade!"

The crowd subconsciously looked at the second and fourth private rooms, only to find that neither of them had stepped forward to bid. They had both remained silent.

At the level of ten million spiritual Jade, it would be difficult for the other VIP boxes to compete with them. Even if they could gather that much spiritual Jade, they would have to think twice before doing so. Was it worth it to offend the third box at such a high price?

For the fourth Thunder elixir, the first bidder was still from room three. The opening bid was also ten million spirit Jade!

Number one and number two did not say anything, but this time, number four could not stand it anymore. This was already the fourth pill, if he continued like this, he would not even be able to drink the soup, he would definitely regret it to death!

"Eleven million!" Box four immediately called out.

" 12 million!" The third private room did not give in.

" 15 million!" Box four was going all out this time. They had spent so many spiritual jades before, and fifteen million was their final limit. It would be difficult for them to add another hundred thousand.

In the end, the Thunder profound pill finally fell into the hands of the fourth private room. It seemed that even the third private room did not have enough spiritual Jade to casually bid for a Thunder profound pill with 15 million spiritual Jade.

The first four Thunder profound pills were all taken, and there was only one left. The one who spoke was still from room three,"" 12 million!"

It was obvious that the third box was determined to get it. Although everyone could see that twelve million was her limit, to be honest, at this point, there were very few heavyweight buyers that could suppress her.

Box four had run out of ammunition and supplies, while box one and two were silent. As for the other buyers, it was not easy to gather twelve million spiritual Jade in a short time.

However, just as everyone thought that the dust had settled, someone suddenly stood up and raised the price in a clear voice,"" 24 million!"

The crowd instantly went crazy, their eyes instantly focused on this person. Even the people in the first few VIP rooms would at most increase the price by a few million at one time, but this person had doubled it right from the start!

This time, even Lin Yi was shocked. He looked at this person up and down. He thought that all the powerful people were in the VIP rooms. He didn't think that there would be such a hidden rich person in the square.

"Who's this guy?" Lin Yi couldn't help but be curious.

"Zhao Donglai, the manager of the central Chamber of Commerce's Morning Star branch." Honest Chai introduced.

"Central Chamber of Commerce? No wonder!" Lin Yi suddenly understood-the central Chamber of Commerce was a true rich man. They could earn a lot of spirit Jade just by selling some low-end technology from the secular world. What business could be more profitable than this?

Twenty-four million spirit Jade. This was an astronomical figure among astronomical figures. Everyone could only shut their mouths. The last Thunder Mystic pill had undoubtedly fallen into Zhao Donglai's hands. This was what it meant to be rich and generous.

"Hehe, twenty-four million spiritual jades. Zhao Donglai sure is bold!" Honest Chai's eyes lit up, and he immediately said,"Fortunately, this is the Morning Star Auction. If this were any other auction, I don't think he would dare to bid in public no matter how many spiritual jades he has."

"Why?" Lin Yi asked.

"If he dares to be in the limelight in other places, isn't he just looking for trouble? but here, everything is managed by the Academy, so there's no need to be afraid of offending people. Moreover, the first few VIP boxes are occupied by the big shots of the Academy. Even if it's for the sake of face, they wouldn't specifically find trouble with him, unless they're shameless." Honest Chai analyzed.

This was indeed the truth. Everyone knew that one should not reveal one's wealth. It would not be worth it if they became enemies because of this. Zhao Donglai had dared to bid because of this. After all, he had the central Chamber of Commerce behind him and was not afraid of any small fry. Of course, he could bid if he wanted to.

The Morning Star auction's first auction had ended!

Chapter 4837 Explain

The final transaction amount of the Hong Chamber of Commerce had reached a heaven-defying 90.8 million. When this result was announced, everyone was shocked!

It should be known that a first-rate branch of a top Chamber of Commerce wouldn't even be able to reach this figure in an entire year, yet this person had achieved it with a simple auction. This result was simply maddening. Even the big shots of the Chamber of Commerce would breathe heavily when they heard this figure.

The crowd didn't leave just like that. Ling Yuanqing appeared on the stage again and announced, ""As the principal of the Morning Star Academy, I hereby announce that the only supplier of the Academy is the Hong Chamber of Commerce!"

As soon as he finished speaking, honest Chai jumped up in excitement. He really came back from the dead this time, and it was all thanks to Lin Yi's timely arrival!

However, it wasn't just him and the branch that benefited-Lin Yi himself had made a huge profit as well, since he was the one who provided all these pills. After deducting the necessary materials and auction fees, he'd earned at least eighty million spirit Jade today!

However, Lin Yi only smiled at this and didn't seem particularly excited. After all, he didn't lack spirit Jade, and it was just a number to him.

The surrounding people all came up to congratulate him. No one knew Lin Yi, but they all knew honest Chai. The Hong Chamber of Commerce was in the limelight today, and everyone knew that he would be the number one morning Star Chamber of Commerce in the future. As the branch manager, honest Chai's status would naturally rise as well. They had to get on his good side now.

Just as honest Chai was busy dealing with the situation, a person suddenly jumped out from room number thirteen. He landed in front of honest Chai amidst everyone's surprise. He pointed at honest Chai's nose and shouted, "This is impossible! The Hong family is clearly up to no good!"

"Shopkeeper Wan, what do you mean by that?" Honest Chai looked at the person in front of him and his face turned cold. This person was the branch manager of the All Access banquet, Wan Zhongjie.

The crowd quieted down when they saw the two of them going head to head with each other. If Wan Zhongjie could produce any evidence, Ling Yuanqing would probably take back his order. It seemed like the only supplier to the Morning Star Academy was not certain.

"Hmph, shopkeeper Chai, you know very well what I mean!" Wan Zhongjie sneered. He suddenly jumped out because he was unwilling. He had spent so much effort to get the grand finale elixir, the grade seven recover pill. It was not easy for him to win against the wealthy families. Victory was in sight. Who would have thought that he would be slapped in public and become a clown? how could he bear this anger?

"Shopkeeper Wan, if you have anything to say, you'd better say it clearly in person. You ruined my reputation for no reason. Do you really think that my Hong Chamber of Commerce is easy to bully?" Even honest Chai, this honest man, was furious.

"Everyone knows that your Hong Chamber of Commerce is in a mess right now. I suspect that these pills are your last struggle and you bought them at a high price from outside! I'm sure that you didn't get these pills from the same supplier. You must have pieced them together!" Wan Zhongjie said firmly.

"So what?" The people around them were confused. Even if the pills didn't come from the same supplier, did it matter?

"How is it? Hmph, a Chamber of Commerce like this will only temporarily buy pills at a high price to put up a front. In fact, there is no long-term cooperation value. Letting such a Chamber of Commerce be the only supplier to the Morning Star Academy, isn't this still harming the Academy's disciples?" Wan Zhongjie sneered.

"Shopkeeper Wan is right. If you want to be the only supplier to the Morning Star Academy, you have to make everyone convinced. What are you, a temporary product, worth?" At this moment, someone in the crowd responded. The crowd looked over and saw that it was shopkeeper Jin of the Golden universe Chamber of Commerce.

"That's right, shopkeeper Chai, why don't you quickly explain? For example, this set of golden core of the Yuanying stage that even my rich and powerful family will take out is specially refined by the same Alchemist. It is our exclusive source of goods, so naturally, we can guarantee a stable supply. Otherwise, if we can only put together a few pieces temporarily, how can we bear the demand of so many Academy disciples?" Manager Tong seized the opportunity to step forward and say.

Although these Chambers of Commerce were competitors with each other, and manager Tong was cursing Wan Zhongjie in his heart just now, in front of the great enemy of the Hong Chamber of Commerce, this could only be regarded as an internal conflict. Now, they needed to unite against the external forces and kick the Hong Chamber of Commerce while it was down.

With Wan Zhongjie and a few others taking the lead, the shopkeepers of other small Chambers of Commerce also jumped out one after another, clamoring for honest Chai to announce the supply of goods. Otherwise, today's auction result would not be counted.

"That's impossible. The source of the goods is an absolute core secret to any Chamber of Commerce. If it were you, would you easily reveal your source of goods? Manager Tong, why don't you set an example first?" Honest Chai retorted.

"This ..." Manager Tong didn't dare to answer immediately. If this was announced in public, what would he do if someone poached his men?

"The rich and powerful families don't need to bear the supply of the entire Morning Star Academy, so of course there's no need to announce the source of the goods. However, your Hong Chamber of Commerce is related to the future and fate of all the Academy's disciples. Shouldn't you give everyone a satisfactory explanation?" Wan Zhongjie sneered and changed his target.

The crowd was once again riled up as the chaos intensified and the scene became more and more out of control. Honest Chai's heart was burning with anxiety as he watched. He had thought that it would be a happy ending, but who would have thought that the situation would change so drastically? The old saying that the tallest tree in the forest would be destroyed by the wind was true!

"Silence!" At this moment, Ling Yuanqing finally spoke. Everyone instantly fell silent. This principal of the Morning Star Academy was publicly acknowledged as the number one person in the Academy. Once he opened his mouth, no one dared to say another word.

"Please uphold justice, Vice Principal Ling!" Honest Chai was overjoyed. As long as Ling Yuanqing was willing to say something, Wan Zhongjie and the others would not be able to do anything no matter how much they disagreed.

"Vice Principal Ling, this matter concerns the future and fate of all the Academy's disciples. No matter how cautious you are, it can not be too much. You must not be soft-hearted and favor the Hong Chamber of Commerce!" Wan Zhongjie and the others quickly said.

Ling Yuanqing scanned the crowd and said, ""Asking the Hong Chamber of Commerce to announce their supply is both unrealistic and unreasonable. However, since everyone has doubts, in order to clear the Hong Chamber of Commerce's name, why don't we have someone check these pills? I believe that we will be able to come to a convincing conclusion. What does shopkeeper Chai think?"

"Good, since Vice Principal Ling has spoken, then I have no objections. As long as we can test that these pills came from the same Alchemist, you guys should have nothing to say, but I wonder who will be the one to test the pills? It can't possibly be an Alchemist from one of these Chambers of Commerce, right?" Honest Chai frowned.

Chapter 4838 Deliberately Erased

In fact, he was already relieved that Ling Yuanqing was willing to say that. After all, he couldn't make the decision himself and say that Lin Yi made these pills. He couldn't bear the consequences if he did that.

"Since you don't trust The Alchemist of the Chamber of Commerce, then let me do it." A strange-looking middle-aged man suddenly spoke, and the crowd immediately made way for him. This man had blue hair and a Blue Beard. He was the chief seventh-grade Alchemist of the morning stars Academy, Qing Danzi.

"Master Qing Danzi?" Honest Chai was taken aback. Although he had a bad feeling, since the other party was the chief Alchemist of the morning stars Academy, he naturally had absolute authority on this

matter. He could only nod, "Since you've personally come to test the pill, this one naturally has no problem."

"Alright, then take out all the pills first." Qing Danzi immediately ordered. Because the auction had just ended, these pills had not yet been delivered to the buyer's hands, and soon, a staff member had gathered all the pills together and brought them out.

The crowd could not help but gulp at the sight of the plate of elixirs. No matter where these elixirs came from, it did not change the fact that every single one of them was a rare elixir. Any one of them alone would make anyone drool with envy. Yet, the plate was now filled with elixirs worth a total of more than 90 million spiritual jade pieces!

It was fortunate that they had a super expert like Ling Yuanqing with them. Otherwise, with the temptation of 90 million spiritual Jade, it would be hard to say what the people present would do. It might even lead to a bloody battle.

"As long as it's a high grade pill, especially sixth or seventh grade, The Alchemist will mark it with their unique spiritual sense during the process to prove that it is their own exclusive refinement, so if there are no accidents, all the pills here must have a spiritual sense mark. We just need to check if these spiritual sense marks are from the same Alchemist." Qing Danzi glanced at the crowd and said.

Everyone nodded in agreement, even honest Chai nodded in agreement. This way, it was simple and clear. After all, if it was just checking the spiritual awareness imprint, any expert could do it, and it didn't have to be an Alchemist. This way, they didn't have to worry about the other party deliberately siding with manager Tong and the others.

After all, as the Academy's chief Alchemist, master Qing Danzi had been rumored to have chosen to cooperate with the rich and powerful. Especially since the Morning Star Auction had been held because of his stance, it was obvious which side he was on.

Qing Danzi immediately started to check the spiritual awareness marks on each pill. However, after he had checked all the pills, he was stunned and didn't speak.

"How is it?" Manager Tong and a few others asked impatiently. They were waiting for Qing Danzi to give the verdict to the Hong Chamber of Commerce and then cancel the auction result.

Qing Danzi frowned and didn't say anything. Ling Yuanqing looked at him and used his divine sense to check. He was surprised, ""These pills don't have any spirit sense marks, not a single one."

Everyone was in an uproar, their faces filled with disbelief. How could such a high level pill not have a spiritual awareness mark?

However, since even Ling Yuanqing had said so, it meant that there was really no such thing!

"According to what master Qing Danzi said, since all high grade pills have their own unique mark, these pills without a spirit sense mark should be considered a special mark. It should be able to prove that they were made by the same person." Honest Chai laughed coldly.

Wan Zhongjie, manager Tong and the others were dumbfounded. They looked at each other and didn't know what to say. They could only look at Qing Danzi.

The idea of checking the pills was not just a whim. With their many years of experience as shopkeepers, they really believed that these pills were pieced together by honest Chai at the last minute. Otherwise, if there was such an amazing supply, the Hong Chamber of Commerce would not have fallen to the point where it was attacked by everyone today.

"I can 't," At this moment, Qing Danzi's expression suddenly turned cold, and he said with uncertainty,""Every single pill here is the masterpiece of an Alchemist. Even if there are one or two pills that don't have a spiritual sense mark, it's impossible for all of them to be missing. This is a great opportunity to stabilize the status of an Alchemist. I guarantee that no Alchemist will give up so easily, absolutely not."

An Alchemist was not a profession that could be achieved by training alone in seclusion. To put it bluntly, this was a profession that burned a lot of spirit Jade. Almost every little improvement required a large amount of alchemy materials, especially when one reached the seventh tier. The cost was an astronomical figure that was difficult to estimate. It was even more exaggerated than ninety million spirit Jade!

It was also because of this that no seventh realm Alchemist could exist independently. Only a powerful force like the East Province Academy could afford to support them. In order to pursue higher treatment, all alchemists would try their best to improve their status and reputation. Only in this way could they have the opportunity to advance.

Qing Danzi had done this himself, and all the high-ranked alchemists he had seen were no exception.

"Supreme quality golden pill, top quality great recovery pill, top quality beauty Pill, top quality Thunder elixir-every one of these is a rare super pill for a seventh level Alchemist. As long as you mark these pills, you'll be the chief Alchemist of any golden class academy without a doubt. Who do you think would give up this opportunity?" Qing Danzi glanced at honest Chai and said.

Faced with Qing Danzi's invisible pressure, honest Chai couldn't help but take two steps back. The others nodded their heads repeatedly. There was no Alchemist who didn't want to become the chief Alchemist, and Qing Danzi's words were indeed very reasonable.

"B-but, these medicinal pills really don't have any spiritual sense mark. How do you explain this?" Honest Chai braced himself and questioned.

"It's very simple, these pills were originally marked by spiritual sense, but someone deliberately erased them. As for why they did this, I don't think I need to explain." Qing Danzi said in an unpredictable tone.

"Master Qing Danzi is right. Honest Chai, you look like an honest person, but I didn't expect you to be so cunning behind the scenes. In order to cheat the supplier's qualification, you would even use such dirty means. It's too sinister!" Wan Zhongjie, manager Tong, and a few others immediately added insult to injury and responded.

"You guys!" Honest Chai opened his mouth in grief and indignation, but he couldn't say a single word. This Qing Danzi was clearly biased towards the other Chambers of Commerce, but his words were impeccable with his status. Even if they argued with him, it was obvious who the people present would believe.

"Director, this is my conclusion." Qing Danzi didn't even look at honest Chai as he turned to Ling Yuanqing. The meaning behind his words was obvious.

Chapter 4839 Chief Alchemist

Ling Yuanqing's gaze then fell on honest Chai, who immediately panicked. He had finally managed to come back from the dead, but now he was going to be wronged and killed? I'm not willing to accept this, I'm extremely unwilling!

But very quickly, honest Chai felt that something was wrong. Although Ling Yuanqing's eyes were looking in this direction, he wasn't looking at him. Instead, he seemed to be sizing up Lin Yi with a thoughtful expression, as if he had seen him somewhere before.

At this time, Lin Yi finally walked out slowly, instantly attracting everyone's attention. He walked in front of Qing Danzi and said lightly, "Who can erase the spiritual awareness imprint? You can? Or can someone else?"

"What?" Just like honest Chai, Qing Danzi was forced to take two steps back unconsciously. Everyone was surprised and wondered who this kid was.

The biggest reaction came from room three. Lin Yi was right-it was Donghai's godly nun, Xinyan, and Huang xiaotao!

"It's him! It really was him! Sister Xinyan, you're right!" Huang xiaotao's face was full of surprise. If it wasn't for the fact that there were too many people below, she would have jumped out of the private room.

"MMH! He actually came to the East Province!" Xinyan's eyes were filled with tears of joy as well-she thought it'd be many years before she'd see Lin Yi again, but she didn't expect to see him so soon!

In fact, because Lin Yi was sitting below the stage, they had seen him from the view of room three. However, Lin Yi's back was always facing them, and with the recent increase in strength, his aura had changed a lot, so Wang Xinyan and Huang xiaotao only thought that he looked familiar at first and weren't completely sure.

But now, they finally saw his face. That's right, this was the lover that they had been thinking about day and night!

"It's him. I remember that he was originally in the Aurous core stage. How did he become the advanced stage of the original infant stage?" Donghai's divine nun was stunned by the two women's words. She had some impression of Lin Yi because of Huang xiaotao.

How long had it been? even with Huang xiaotao's powerful aptitude, she had not yet been able to form a nascent soul, but her senior brother was already in the late stage of the nascent soul realm. Even if he was heaven-defying, it couldn't be this heaven-defying, right? Could it be that he, Ling Yuanqing, and the others had misjudged him and that this kid was the real genius?

Putting aside the shocked reaction from the third box, the atmosphere was already tense. Qing Danzi looked at Lin Yi coldly and said, "What do you mean by that?"

"Nothing much. As far as I know, the existence of seventh grade alchemists is already very powerful. To erase their spiritual sense mark, one must be at least a Super Master of the Titan realm. In other words, only a Master of the Mountain opening stage has the ability to do so. Moreover, it is quite difficult to erase even one. Where do you think the Hong Chamber of Commerce will find a large group of mountain opening stage Masters to do this?" Lin Yi said faintly.

The giant realm was a whole new realm that Lin Yi had heard from the ghost-it was a general classification of the realms.

Simply put, starting from the mountain split stage, including the earth splitting stage, sea splitting stage, and even the legendary heaven breaking stage, they all belonged to the Titan stage. As for the realms below the mountain split stage, from the foundation establishment stage all the way to the xuansheng stage, they were all in the heavenly Dao realm.

According to that ghostly thing, the heavenly Dao realm in the five Sky Class islands could only be considered a higher level. Only when one's strength completely entered the Titan realm could they truly enter the ranks of experts. Only the Titan realm experts could become the main existences of the various forces, competing with the heroes of the world.

Lin Yi's words silenced the crowd. They weren't experienced in spirit sense marking, and they thought that what Qing Danzi said made sense, but after hearing Lin Yi's words, they felt that it was true!

Qing Danzi's face changed. He didn't think that someone who knew about it would jump out at this time. Everyone here, including Ling Yuanqing, didn't know much about the spiritual sense mark, so they could only follow what he said. But with Lin Yi's actions, their intentions were exposed.

"Who are you? What right does a nameless person have to say this?" Qing Danzi pointed his spear at Lin Yi. Using his identity to suppress Lin Yi was the worst plan, but he had no other choice.

"Nameless? I guess so, but I'm still the honorary Vice President of the Hong Chamber of Commerce, don't tell me I don't even have the right to speak for our own Chamber of Commerce?" Lin Yi glanced at him.

Such a young guy is actually the honorary Vice President of the Hong Chamber of Commerce? Everyone was shocked. Not only Qing Danzi, but even Ling Yuanqing couldn't help but be moved.

However, he suddenly remembered someone. Back in the South continent's sea, Huang Xiaotao seemed to have a senior brother who was also known as the honorary Vice President of the Hong Chamber of Commerce. This person looked familiar. Could they be the same person?

The rest of the people looked at each other. A top Chamber of Commerce like the Hong Chamber of Commerce was more powerful than any Yellow Class academy in the East continent. This young man was the honorary Vice President, which meant he was on the same level as the Vice president of the Academy!

Seeing the disbelief on everyone's faces, honest Chai hurriedly stood up and said, "That's right, this is our Hong Chamber of Commerce's Vice President Lin. If anyone doesn't believe me, you can go to Nakajima and ask around."

Everyone looked at each other again. Although they still found it hard to believe, since the branch manager honest Chai had personally testified, it naturally couldn't be fake.

"Since you're the honorary Vice President, does that mean you're in charge of the Hong Chamber of Commerce? Well, there's no need to talk nonsense. It's very simple to prove that your supply is stable. As long as you can take out five more Thunder profound pills, I will admit that you have this ability!" Qing Danzi said with a cold face.

"Five Thunder profound pills?" Lin Yi looked at him as if he was an idiot, "You're providing the materials? It's easier said than done!"

"I ..." Qing Danzi was dumbfounded. His face blushed under the eyes of the crowd. He was so angry that he had said such things in a moment of impulse.

"That's right, that's right. How can the materials for the Thunder mystical pill be so easy to find? the Thunder mystical vine is a very rare heavenly treasure!" Someone in the crowd said indignantly.

"That's right, even if these pills were all refined by the same Alchemist, he might not have so many materials on hand. Isn't this just making things difficult for him?" The rest of the people echoed.

Chapter 4840 What A Big Tone

Qing Danzi couldn't keep his face straight after being mocked by the crowd, but it was impossible for him to give up just like that. He immediately pressed again, "Alright, since the materials for the Thunder profound pill can't be gathered, then I'll take a step back. Your Hong Chamber of Commerce only needs to bring ten more great cyclic pills within a day. I'll give you the materials!"

"Hey, I'm only calling you master Qing Danzi out of respect for you being the Academy's chief Alchemist. But aren't you being too shameless?" Honest Chai couldn't take it anymore and said indignantly, "You call this taking a step back? Even if the great cyclic pellet is easier to refine than the Thunder profound pellet, it's still a seventh grade medicinal pill. Moreover, you have to take out ten of them in a day. The difficulty is simply greater. If you're deliberately making things difficult for me, just say it!"

The rest of the people were also pointing and whispering. Taking out ten grade seven great recovery pills in one day, this was too easy to say. Don't forget that only two great recovery pills appeared in the entire auction today. One of them even belonged to the Hong Chamber of Commerce.

"Hmph, don't say such useless things. As long as you can produce it, I, as the chief Alchemist of the Morning Star Academy, can guarantee that your Hong Chamber of Commerce will be the only supplier!" Qing Danzi sneered.

As he said this, he couldn't help but steal a glance at Ling Yuanqing. He was forced to say this. Otherwise, no matter how bold he was, he wouldn't dare to be so impudent in front of Ling Yuanqing. The position of the chief Alchemist was extraordinary, but it wasn't so extraordinary that he could be so arrogant.

Luckily, Ling Yuanqing didn't say anything. Instead, he sat down and watched the situation. Qing Danzi heaved a sigh of relief. This was a silent agreement!

That's right, no matter what, he was still the principal Alchemist that the Academy relied on the most. As the principal of the Academy, Ling Yuanqing couldn't possibly side with the Hong Chamber of Commerce and not help his own people. Today, he had to trample the Hong Chamber of Commerce to the ground!

"Oh? Are you sure you can make the decision?" Lin Yi looked at Ling Yuanqing.

"Of course, and I can also tell you that if you can do it, the elixirs I refine will only be sold to the Hong Chamber of Commerce in the future!" Qing Danzi's words shocked everyone.

"Is this true?" Honest Chai's eyes immediately lit up. Although he was still extremely angry with this fellow just now, he couldn't deny that this was a true seventh grade Alchemist. If the elixirs that this fellow refined were only supplied to the Hong Chamber of Commerce, then he would have an additional source of high grade elixirs in the future. This was something that he couldn't ask for more.

Although he'd gotten himself a bunch of tier 7 pills thanks to Lin Yi, honest Chai knew that Lin Yi wouldn't stay here forever. What would he do after he left?

If honest Chai could think of this, Lin Yi naturally could as well. If he could make this Qing Danzi work with the Hong Chamber of Commerce, then he wouldn't have to worry about anything in the future. This was a good thing that came right to his door.

"Hmph, with my status, do you think I'd say such empty words in front of so many people?" Qing Danzi frowned and suddenly turned to look at manager Tong. He said, ""However, I'll say the ugly words first. If you can't produce it within a day, it means that your supply of goods is not stable enough. Although your Hong Chamber of Commerce won the auction just now, you still have to give up the position of the sole supplier to the wealthy families!"

The crowd finally realized that this was Qing Danzi's real purpose after all the detours.

As the Academy's chief Alchemist, he had specifically targeted the Hong Chamber of Commerce in order to make the other party abdicate and give up their cooperation qualifications to the wealthy families. He had even skipped the All Access banquet in between.

"Ah?" Wan Zhongjie's eyes almost popped out when he heard this. He was the most enthusiastic one among all the members of the Hong Chamber of Commerce just now. He thought that as long as he could pull the Hong Chamber of Commerce down, the qualification to cooperate would automatically fall to his family at the Watong conference. He didn't expect Qing Danzi to suddenly say this!

After being coldly glanced at by Qing Danzi, Wan Zhongjie swallowed the words that were about to come out of his mouth. Although he was extremely unwilling, he didn't dare to go against the Academy's chief Alchemist in the territory of Morning Star City. What if he followed in the footsteps of the Hong Chamber of Commerce and was also targeted and banned ...

At this time, no one was paying attention to Wan Zhongjie. Only two main characters were paying attention to him, Qing Danzi and Lin Yi.

"This condition isn't very good. You're also a seventh grade Alchemist, do you think you can refine ten great recovery pills a day? I'll pay for the materials, and you can challenge me. " Lin Yi said, curling his lips.

"This ..." Qing Danzi choked. Outsiders might not know, but as the chief Alchemist of the Academy, he knew the difficulty better than anyone else. Ten grade seven great recovery pills a day, this was simply an impossible task. He only suggested to deliberately make things difficult for the Hong Chamber of Commerce!

If it was really possible, Qing Danzi wouldn't have suggested it so confidently. After all, he wasn't a fool.

Qing Danzi didn't know how to continue, and just when everyone thought that Lin Yi would step down, he opened his mouth again, "Forget it, bring me the materials. I'll reluctantly refine it for you, idiot, and let you know the foundation of our Hong Chamber of Commerce."

"What? What did that mean? You're not going to say that you're going to make it, are you?" Qing Danzi was stunned again.

"Oh, I forgot to tell you. Not only am I the honorary Vice President of the Hong Chamber of Commerce, I'm also the chief Alchemist of the Morning Star branch. I can't refine anything else, but a few grade seven great recovery pills are no problem." Lin Yi said faintly.

Qing Danzi wasn't the only one who was dumbfounded. The crowd was in an uproar as well. Even Ling Yuanqing couldn't help but be moved.

The honorary Vice President of the Hong Chamber of Commerce didn't have to be very strong. In theory, as long as one made a great contribution to the Chamber of Commerce, they would have a chance to obtain it. So, although it was very rare, it wasn't too shocking. But a seventh realm Alchemist? How could such a young guy be?

Lin Yi had expected everyone's shock-his skills were already exposed back on the ship, so there was no need to hide it anymore. It wasn't a bad thing, after all, as it'd at least make people value him more, and it'd make things easier.

"Just a few great recovery pills? Hmph, what a big tone!" Qing Danzi's face was as dark as his hair and eyebrows. He sneered, ""You ignorant brat, don't think that just because you have the Hong Chamber of Commerce as your backer you can speak arrogantly. You actually dare to belittle us seventh grade alchemists like this, who gave you such big guts!"
