Chapter 4861 Ghost-Speed Wings

"Ghost speed wings? Isn't this a divine tool for escaping?" Lin Yi's eyes lit up.

"That's right. I can only save my life if you run fast. Last time, a mere West Mountain Almighty made you so miserable. He's so weak." The ghost's tone was as if he was a native of the secular world.

"Alright ..." Lin Yi sweated and quickly asked, ""Then How do I make these ghost speed wings?"

"The ghost Eye Eagle King wings are the main material, and the other six supplementary materials are not easy to find. But with your resources, it should not be too difficult. Only the ghost cicada wings will need to try your luck." The ghostly thing said after thinking for a while.

"Ghost cicada wings?" Lin Yi blinked-he'd heard the king of junk talk about this before, and he asked,"Could it be the so-called lightest and thinnest invisible cicada wings in the world?"

"That's right. This is the second most important material for the ghost speed wings. If I can't fuse it with this material, the ghost Eye Eagle King wings will only be a burden. Speeding up is just a dream." The ghostly thing confirmed.

Lin Yi nodded and memorized the six ingredients. He put away the ghost-eye Eagle King wings and started cultivating. He didn't leave his room until dawn. He had breakfast with Donghai's nun and the two girls as usual before returning to the Hong Chamber of Commerce alone.

"Vice President, you're back!" Honest Chai and Cui Mingshan came up to him from afar. After the revival, they were full of admiration for Lin Yi. They were just short of getting an immortal seat and worshipping Him every day.

"How is it? How's the business these past two days?" Lin Yi asked with a smile.

In fact, the answer was obvious. The auction was not completely over yet. There were still a series of events to follow. Under such a premise, the Hong Chamber of Commerce was already packed with people. The scene was even more crowded than the one at the Morning Star Pavilion.

After the revival of the Hong Chamber of Commerce during the auction, there was no doubt that the Hong Chamber of Commerce had become the number one Chamber of Commerce in the hearts of the people of Morning Star City. Naturally, their business was booming.

"It's so good that it's hard to imagine. Yesterday's business was at least equal to that of the past five days. Additionally, there's also a large number of orders from the school. Lao Cui and I will be very busy from now on!" Honest Chai chuckled.

"It's a good thing. If you two have something to do, go ahead. Don't worry about me." Lin Yi nodded and handed two lists to Honest Chai. "Also, get a worker to take a look. Try to gather as many materials as possible."

Of these two lists, one was the supplementary ingredients for refining the essence cultivating pill, and the other was the six ingredients for the ghost speed wings that the ghost thing had told him about last night.

"Alright," he said. Honest Chai took the list and looked at it. He didn't ask the assistant to do it, but went to get the materials for Lin Yi himself. He was where he was today all because of Lin Yi. Serving Lin Yi was his top priority, everything else was secondary.

After about half an incense's time, honest Chai returned, followed by two shop assistants, each carrying a box.

"Vice President, all the other materials are here except for the ghost cicada wings. Should I go out and ask around?" Honest Chai carefully asked.

"There's no rush. You can go and do your own things first. If there's a chance in the future, just help me keep an eye on it." Lin Yi said, shaking his head.

This was within his expectations. The ghost had already said that the ghost cicada wings were not easy to find. Anyway, he was not in a hurry to forge the ghost speed wings. After all, he could only ask the king of junk for help when he returned to the North Island. With his mediocre forging skills, he was not confident.

"Oh, that's good." Honest Chai nodded. He was really busy right now, and if he really did go around asking around for Lin Yi's help, he'd lose quite a bit, even if it was a willing choice.

Lin Yi took the case from the worker and checked the materials one by one. Honest Chai was really putting in a lot of effort-these were all high quality materials, and even if they weren't the main material, if the quality of the supplementary materials was too low, it would affect both the crafting and forging process, and vice versa.

Honest firewood had already turned his head and walked out of the room, but he suddenly turned back after a moment. He patted his head and laughed, "Vice President, look at my memory. I've been so busy that I almost forgot such an important thing!"

"What is it?" Lin Yi asked, surprised.

"It's the letter you wrote to Kitajima last time. I received a reply today." Honest Chai said as he took out a large sealed envelope. The inside was bulging, and from the protruding shape, there should be something else stuffed inside besides the letter paper.

"Oh? So fast?" Lin Yi was both surprised and happy-even if he used the transportation company's dedicated flying spirit beast, he thought it'd take at least ten days to half a month with the distance between the East continent and the North Island. He didn't think it'd be this fast-how many days had it been?

"Actually, this is very normal. The aerial spirit beasts trained by the transportation firm are all at their maximum speed. They are several times faster than the average aerial spirit beast. Moreover, I have specially marked it as fast and urgent this time, so this speed is within expectations." Honest Chai laughed.

There was also another reason why he could receive a reply so quickly. Other than the transportation firm's high efficiency, Han Jing Jing's immediate reply to the letter was also an important reason. Otherwise, if she had delayed her reply for a few days, the transportation firm's high efficiency would have been in vain.

Lin Yi took the envelope, and honest Chai left the room, closing the door behind him.

Lin Yi opened the envelope excitedly-there was a small stack of paper inside, as well as something that looked like a wireless camera and a probe, but it was a lot more complicated than normal.

Lin Yi opened the letter and saw that it wasn't just han Jingjing's reply, but also Shangguan LAN 'er' S. He couldn't help but smile.

Shangguan LAN 'er was just here to join in the fun. Although she had written a lot of nonsense, there was nothing important. Moreover, this girl's thinking was also the kind that could break through the sky. In the first sentence, she was talking bad about her grandfather, and in the next sentence, she was comparing chest sizes with han Jingjing. Fortunately, she was not born in the secular world, otherwise, she would definitely score zero with her writing standard.

In comparison, han Jingjing's reply was much more organized. She first explained her encounter after arriving at the North Island. Because of Shangguan LAN 'er's existence, she naturally didn't run into any trouble, and she moved directly into the Hualan residence. Lin Yi didn't have to worry about her being harassed at all.

Lin Yi didn't know if he should laugh or cry at the girl's honesty, though-she'd actually let Shangguan LAN 'er take his grandfather's study room as a lab. Shangguan Tianhua was the Vice-Island master of the North Island, a famous Big Shot in all five sky-class islands, but he'd been forced to change his study room by these two little girls-what a sad ending.

Chapter 4862 Pill Refining Divine Tool Peripheral

After introducing her new life on the North Island, han Jingjing started to answer Lin Yi's question, but she didn't answer it directly. In fact, as Lin Yi expected, she couldn't answer it directly at all. It was hard for anyone to answer Qing Danzi's question unless they were a legendary Mystic class refiner.

However, han Jingjing was indeed a scientific genius. Although she could not answer directly, she had given a unique solution. It was the set of wireless cameras and probes that had been sent together. Their full name was the godly pill-refining peripheral equipment.

It was actually a coincidence-ever since Lin Yi upgraded the Shennong medicine cauldron, han Jingjing had the idea of making a support set, but she didn't have the time to do it back then because she was stuck with Lin Yi. She only made it after they came to the North Island, and it just so happened to come in handy this time.

Although this godly alchemy device looked very delicate and complicated, it was actually very simple to use. It could be connected to the tablet computer on Shennong's medicine cauldron through Bluetooth, and then there was a series of fool-like operations. After installing the program attached to it, all he needed to do was to insert the probe into the corresponding alchemy furnace.

This alchemy furnace could be the Shennong medicine cauldron or any other alchemy furnace. Then, this set of divine alchemy equipment set would be able to transmit all the alchemy information it monitored to the tablet computer. Through its own program, it would perform a comprehensive analysis. This way, the flaws and reasons for failure in the alchemy process could be found.

The theory behind it was simple-it just had to be analyzed and monitored, which would help with the concoction process. Han Jingjing briefly mentioned the design process in her letter, but Lin Yi was once again shocked. This was something that could be done easily to han Jingjing, but it was like a dream to others.

Of course, apart from han Jingjing's talent, she was also able to make this godly pill refining peripheral. A large part of it was also due to the existence of the central Chamber of Commerce. Otherwise, if she could not get her hands on these precise electronic components, han Jingjing's idea would be useless no matter how impressive it was.

After reading the letter, Lin Yi couldn't help but be overjoyed. After all, Qing Danzi had been delaying it for a few days and didn't give him any response. If this went on, he didn't know if Qing Danzi would have any objections, and Lin Yi himself would feel bad. No matter what, he was his Disciple Now. Although the situation was special, he couldn't just mislead his disciple.

After leaving the Hong Chamber of Commerce, Lin Yi went straight to the Morning Star Academy's Green pill house. As expected, Qing Danzi was already waiting for him. He didn't dare to rush Lin Yi because he just joined the school, or he would've been asking him all sorts of questions.

Qing Danzi was overjoyed when he saw Lin Yi. He didn't even bother to wear his shoes as he came up to Lin Yi with his bare feet and greeted him with a disciple's salute, "Disciple Qing Danzi greets master!"

To be honest, Lin Yi still didn't feel like it was real when he was with Qing Danzi. Who would believe that he had suddenly taken in a seventh-realm Alchemist as his disciple?

But now that Qing Danzi was kneeling in front of him, it was a fact no matter how unrealistic it was. Lin Yi said, ""Bring me to the pill refining room, let me see how you refine pills."

"Ah? Yes!" Qing Danzi's eyes brightened as he led Lin Yi to the refinement room. Normally, an Alchemist wouldn't allow outsiders to be around when they were refining, for one, they didn't want to be disturbed, and two, they needed to keep it a secret. However, Qing Danzi didn't have such thoughts in front of Lin Yi, and he was hoping that Lin Yi would find out what was wrong with him.

Speaking of which, this was the first time Lin Yi was observing a seventh realm refiner up close. Before he could help Qing Danzi find the problem, the one who benefited the most was his cheap master. This kind of close observation was very beneficial to him. Even with a godly tool like the Shennong medicine cauldron, it was not a bad thing to increase his own refining ability.

Before Qing Danzi started, Lin Yi put the needle into his furnace. Qing Danzi was confused-he'd never seen anything like this before even as the head refiner of the school.

But since Lin Yi didn't want to talk about it, he didn't dare to say anything. After all, every high-level refiner had their own secret. Lin Yi's move was unfathomable in his eyes, and he thought it was a special technique of a Mystic class refiner-he didn't understand it but thought it was amazing.

When everything was ready, Qing Danzi was suddenly stunned. After a while, he scratched his head and said weakly, "Master, then what pill should we make?"

"Any pill is fine. As long as it's a seventh-grade pill, anything you think will cause problems for you will be fine." Lin Yi said nonchalantly.

"Oh, then this disciple will refine the seventh grade great recovery pill." Qing Danzi then took out the ingredients from the storage and started making the pill in front of Lin Yi.

The whole process was uneventful and smooth from beginning to end, giving people the feeling that he was at ease. It was clear that the title of the Academy's chief Alchemist wasn't for nothing. Qing Danzi indeed had the strength and confidence.

However, at the last moment, when he was about to open the furnace, a deep muffled sound came from inside the furnace. Qing Danzi's expression changed. When he opened the furnace, the inside of the furnace was already charred black. The elixir refinement this time could be considered a complete failure.

"Was it always like this in the past?" Lin Yi asked with a frown.

"No, this kind of situation happens three or four times out of ten times. It's normal at other times. I don't know why even if I crack my head. What do you see, master?" Qing Danzi said with a bitter face.

It was fine if he failed every time, as he could always find a way to solve it after a long time. However, he had no choice when it was not effective this time.

This was because he had succeeded six or seven times out of ten attempts. This meant that there was no problem with the alchemy technique he had mastered. Otherwise, it was impossible to have such a success rate. But what about the remaining three or four times?

If everyone had the same problem, it would be fine-at least it could be explained as an inevitable mistake, but Lin Yi's absolute success rate was right in front of them. It was just self-deception to think that way.

"I'll have to think about it carefully. I'll tell you later. " Lin Yi put away the wireless probe and left with Qing Danzi's respectful escort. He didn't go to the Hong Chamber of Commerce, but to the East Sea Pavilion nearby.

Xinyan and xiaotao were still doing their morning class, and Lin Yi went back to his room. He turned on the tablet on the Shennong medicine cauldron, and the curves and parameters of Qing Danzi's refinement process were displayed in front of him.

It was a very direct demonstration, but refining was a very complicated process, after all. Lin Yi couldn't tell what it was just yet, but he felt that there was a flaw in the curve, but he couldn't tell what it was.

Chapter 4863 Where The Problem Lies

"Right, if there's a comparison, it should be more intuitive!" Lin Yi smacked his head. He also wanted to make the pill himself, and all the materials were already prepared. He started making it without hesitation.

After the Shennong medicine cauldron had been upgraded the last time, it was already well-suited to refining a tier 7 medicinal pill. In particular, the difficulty of refining this essence cultivating pill among tier 7 medicinal pills was not considered high, so it was not a problem.

Four hours later, the essence cultivating pills were fresh out of the furnace. Lin Yi thought that it would be good enough if he could get five of them. After all, the essence cultivating golden devil grass was only enough for five portions. This was his first time making essence cultivating pills, and it would be perfect if the pills could be formed successfully.

However, the final result almost made Lin Yi's jaw drop. There were ten more essence cultivating pills in Shennong's medicine cauldron, ten whole pills, all high quality!

This wasn't just a 100% success rate, it was 200%!

Luckily, it was only Lin Yi himself-if Qing Danzi were there to witness it, his eyes would've fallen out of their sockets, and his outlook on life would've been turned upside down.

But Lin Yi was already used to this kind of surprise, and he quickly recovered from the shock. With the existence of the divine farmer's medicine cauldron, along with the essence-cultivating golden devil grass and the other high quality ingredients, and some good luck, it was unexpected that the production exceeded the limit, but it was still within reason.

After putting away the ten energy cultivating pills, Lin Yi's attention quickly returned to the tablet. This little surprise wasn't enough for him to throw Qing Danzi to the back of his mind.

Lin Yi couldn't help but frown when he compared the results of the pill with Qing Danzi 's. They came from the same software, but the curves and parameters were completely different. There wasn't a single similarity.

"Could it be because of the different pills? One is the great cyclic pellet and the other is the cultivating origin pellet. The two's refining process is very different. It's a bit difficult to find the root of the problem through this comparison. " Lin Yi pondered for a while and decided not to think about it anymore. If he wanted a more direct and reliable comparison, he could just make a recover pill himself.

When the analysis results of Lin Yi's own pills came out and were compared to Qing Danzi 's, it was clear!

They were both refining a seventh grade great recovery pill, but the curves between the two were roughly the same. This was expected, but there were still many differences. The most obvious one was the pill refining curve. One was smooth and perfect, while the other was full of ups and downs.

However, this didn't explain the problem. Lin Yi had the Shennong medicine cauldron, a godly tool for refining elixirs. Other than the Qi transfer, everything else was controlled by the computer, so the curve of the refining process was naturally perfect. On the other hand, Qing Danzi's was completely controlled by himself. No matter how experienced he was, it couldn't be as perfect as a computer's control. This wasn't something that could be forced.

"Is this the reason why Qing Danzi always fails?" Lin Yi said as he pinched his chin, but quickly dismissed his thoughts. "I don't think so. Although there are many seventh grade alchemists who have the problem of Qing Danzi, not all of them have the same problem. If it's because of this, then it's the limit that all alchemists can't overcome."

Indeed, the human brain wasn't a computer. A computer could perfectly control the curves of a pill, but those who relied on experience couldn't do it, even the legendary Mystic class.

Lin Yi stared at the two curves and the parameters, comparing them again. After half an hour, he finally noticed something. Other than the smoothness of the curves, there was a slight difference. If one didn't compare it carefully, even Lin Yi wouldn't notice it.

The difference was that Lin Yi's own curves were formed from the start to the end with no gaps in the middle, but Qing Danzi's was different. At first glance, it looked like a continuous curve, but if you looked at it ten times, you'd find that there would be a gap every time the temperature changed.

The gaps were extremely small, so small that they could be ignored, but they did exist, and they would appear without exception every time the heat was changed.

This situation wasn't hard to understand, because Qing Danzi didn't have the Shennong medicine cauldron like Lin Yi. He had to personally control everything during the entire process, and every change in the temperature involved a series of follow-up adjustments. One wrong step, one wrong step, and so there would be a slight pause subconsciously.

Following this theory, Lin Yi compared the parameters again. As expected, the difference between his and Qing Danzi's parameters always appeared after these pauses, sometimes going up and down. The range was subtle, but it did exist.

Strictly speaking, this small difference in itself did not necessarily lead to the failure of the alchemy, because the fluctuation of these parameters was likely to offset each other, so there was still a high chance of successfully forming the pill in the end.

However, if one was unlucky and these subtle differences did not cancel each other out, but continued to stack up or down, it would really be out of line at a certain point.

Without a doubt, this was the root of Qing Danzi's problem. He had already mastered enough alchemy skills, but because of this small habit, he left the final result of the pill formation to luck. As long as his luck wasn't too bad, there wouldn't be a problem. But if his luck wasn't good, then all his efforts would be in vain.

Lin Yi immediately went to the green elixir Pavillion and spoke to Qing Danzi, "I think I know what your problem is."

"Really? Master, quickly tell me!" Qing Danzi was both surprised and happy.

"Before, I noticed that you had a bad little trick when you were refining pills. This is something that you probably didn't notice yourself, and that is that every time you control the flame, you will unconsciously stop to accumulate energy. If you can overcome this habit and make the entire alchemy process more complete and coherent, I believe that whether the pill will be formed or not doesn't depend on luck." Lin Yi suggested.

"Little tricks? Stop charging?" Qing Danzi couldn't help but frown as he fell into deep thought. It was just as Lin Yi said-even he himself didn't realize it. This habit had been developing since he started learning alchemy at the age of ten, almost becoming a natural instinct that he didn't even notice.

"Not bad, try to refine the great cyclic pellet again and pay attention to it." Lin Yi said.

"Alright," he said. Qing Danzi couldn't wait to try it. This time, because he paid attention to it, even he himself noticed it, and immediately agreed with it.

Chapter 4864 Four Consecutive Levels

His talent in refining elixirs was far above the average refiner, and Lin Yi only needed to give him a little bit of advice and he'd be enlightened immediately.

In Qing Danzi's heart, Lin Yi was already a Mystic-class master who could definitely refine pills, and after giving him some pointers, he was even more respectful of Lin Yi-he only saw him refine once, and Lin Yi was able to hit the nail on the head! Where else could he find such a brilliant master?!

Qing Danzi couldn't help but be overjoyed when he finally found out where his problem was. Although this habit that he had developed since he was young was hard to change, as long as he could find the root of the problem, he would be able to find a solution.

After kowtowing to Lin Yi three more times, Qing Danzi went into seclusion. Looking at his crazy face, he wouldn't come out until he solved this problem.

After leaving the green pill house, Lin Yi went to the Hong Chamber of Commerce again and asked honest Chai to get Dachang Lu to come over and get the energy supporting pill. This shameless Big Shot was really concerned about his son's situation, and he appeared in front of Lin Yi in just half an incense's time.

Getting the pill from Lin Yi made Dachang smile and thank him, "Master Lin, you really live up to your reputation. I, little Lu, am really grateful to you!"

"You're welcome, senior Lu. Since I've taken your essence cultivating golden devil grass, I naturally have to give you the essence cultivating pill. It's fair and reasonable." Lin Yi smiled faintly as he shook his head.

"Hehe, I, Xiao Lu, know the rules. A mere essence cultivating devil gold grass can be exchanged for a ready-made essence cultivating pill, and it's even a high-quality one. I'm definitely getting a big bargain." Dachang didn't put on any airs in front of Lin Yi at all-it was a rare sight to see a sect leader like him.

"Hehe, same to you." Lin Yi's own advantage was much bigger than the other-Dachang only got one, but he had nine left.

"Oh right, Master Lin, you're preparing to go on the road to becoming a Big Shot, right?" Dachang Lu suddenly asked.

"That's right, I have such a plan," Lin Yi blinked and nodded-there was no point in denying it. After all, anyone could guess it.

"That's great. Xiao-xilu is also going to become a big Shot. I'll have to trouble you to take care of him then, Master Lin." Dachang Lu said with a smile.

"Xiao-Xiaolu" Lin Yi blinked.

"That's right, the son of I, Xiao Lu, is Xiao Xiao Lu. " Dachang Lu nodded repeatedly.

"Ugh ..." Lin Yi was speechless. This shameless Big Shot's thinking wasn't something a normal person could understand. Seeing the anticipation on his face, he nodded, "I will if I have the chance."

"Haha, thank you so much!" Dachang Lu was full of gratitude again. A dignified Big Shot of the mountain opening stage actually flattered a master of the late Yuanying stage. He was afraid that he was the only one in the world who would do this. And the most speechless thing was that this guy still looked like it was a matter of course, without the slightest bit of reluctance. What a weirdo.

After sending the big boss away, Lin Yi returned to the East Sea Pavilion. Xinyan and xiaotao were looking for him.

"Where did you go?" The two girls greeted Lin Yi with joy.

"I went to the Hong Chamber of Commerce to help Qing Danzi solve a small problem." Lin Yi smiled and brushed it off.

"By the way, where are we going to play today?" Huang xiaotao asked. Other than the morning and night classes, the three of them were always hanging out together and having fun. It had become the main theme of the past few days.

"Let's not play today, the three of us have important things to do. " Lin Yi smiled, keeping them in suspense. He brought the two girls to their room. "I've already refined the essence cultivating pill. I've offered ten pills in total. I gave one to Dachang Lu, so I still have nine left."

"Ten?" Wang Xinyan and Huang xiaotao both cried out in shock. They knew that there were only five portions of essence cultivating golden devil grass, and even if it was a complete pill, it wouldn't be this exaggerated. This was double the amount!

"Hehe, I can only say that I'm quite lucky this time." Lin Yi smiled nonchalantly, his face serious."Three months later, the three of us will be participating in the journey to becoming a Big Shot. So, these nine vitality cultivating pills are like charcoal in the snow. They came at the right time."

Xinyan and xiaotao looked at each other-Lin Yi had mentioned this at the auction, and while they believed that he had the ability, they hadn't thought about the difficulty of it yet. They only knew that it was unbelievable.

However, now that there were nine more essence cultivating pills, the difficulty was reduced by a large margin. After all, this was a medicinal pill that could directly increase one's strength by one level as long as one took it.

"I've calculated it. In theory, only six origin cultivating pills are needed to directly push an early Yuanying stage expert to the great circle of Yuanying stage. If we count the possibility of drug resistance, seven origin cultivating pills should be enough. After all, these are all of high quality, so the effect should not be a problem." Lin Yi analyzed.

"Yes, yes." The two girls nodded. Lin Yi had the most say in this-he was the most experienced refiner.

In fact, even laymen like Wang Xinyan and Huang Xiaotao had heard that the essence cultivating pill rarely produced the resistance of other pills, which was common in other pills. In other words, even if it was taken continuously, the effect wouldn't be suddenly reduced. Otherwise, people wouldn't be so obsessed with it.

"So, as long as Xiao Tao can form her nascent soul as soon as possible, she can easily break through to the great circle of the nascent soul realm with the help of the seven vitality cultivating pills. However, she will have to consolidate her strength and realm after that." Lin Yi paused before turning to Xinyan. "As for the remaining two energy cultivating pills, I'll give them to you, Xinyan. Looking at the Restless aura all over your body, you should be about to break through, right?"

"That's right. If you go into seclusion and try to break through, you should be able to break through within ten days." Xinyan said with a nod. She was in the mid-stage of nascent soul now, and would be at the peak of that level once she broke through. She would be one step closer to the peak of the full-stage.

"That's just right. You can take these two vitality cultivating pills after you break through. You'll be able to directly rise to the peak of the advanced stage of the original level. There's still three months left. With your sponge physique, you still have the chance to rise another level!" Lin Yi couldn't help but get excited.

"Well ..." Wang Xinyan hesitated, "Actually, master has already prepared for me to do a special training. He has also prepared a lot of resources. Even without these vitality cultivating pills, I still have a certain chance of breaking through to the great circle of the nascent Soul Stage in three months. Why don't you keep them for now?"

Leveling up four levels in three months was something that no one else could even imagine-not to mention the original level, not even the foundation level. But the sponge body was just that amazing,

and Xinyan hadn't even fully utilized it before, and her leveling speed was already so fast that it made one's hair stand on end.

Chapter 4865 Cultivate Together

Now, Donghai's divine nun was finally ready to get serious. Once he forced out the limits of his sponge body, the situation would be incredible.

In comparison, it was much harder for Lin Yi to get to peak nascent soul in such a short amount of time. After all, he was only late-stage nascent soul, and without the pill, he'd have to level up two times. It was unrealistic.

"Hehe, have you forgotten what we do in the secular world?" Lin Yi's lips curved up.

"You mean ..."Xinyan's heart skipped a beat, and her long eyelashes fluttered."You ... Hugged me while you cultivated?"

"That's right, that's exactly the case!" Lin Yi nodded-practitioning with Xinyan would help him level up quickly, and with his already insane practicing speed, leveling up twice in three months wasn't a dream at all. It was completely possible.

"Oh, okay." Xinyan blushed as she nodded, her voice soft as a mosquito 's. She couldn't help but feel a little anticipation. To be honest, she missed the feeling of training with Lin Yi, but they were thousands of miles apart, and they could only meet in dreams. Now that she finally had the chance to experience it again, of course, she wouldn't reject it-it was too sweet.

"You and I will cultivate together, and with the two vitality cultivating pills in reserve, we have at least a 90% chance of breaking through to the great circle of the nascent Soul Stage in three months. Let's wait for that time to come and go on the road to the big shots together!" Lin Yi said with a confident smile.

He was lucky that Wang Xinyan was here-if it was someone else, he wouldn't be so confident. He might even have to find a way to get a few more essence cultivating pills.

Hearing the word "practition" made Huang xiaotao's eyes light up as well. It was a pity that she wasn't as soft as Wang Xinyan, and her strength was way too far from Lin Yi 's-it was just a dream.

After settling Xinyan down, Lin Yi turned to Huang xiaotao,"As for you, Xiao Tao, let's put the seven vitality cultivating pills aside for now. I'll help you improve your strength to the perfected golden core realm first."

"Oh." Huang xiaotao responded subconsciously. After a moment, her pretty face suddenly turned red and she said,""That ... That's ... To take off my clothes ..."

She'd already experienced this once-it was Lin Yi who helped her Reach Foundation peak before she could try for a perfect golden core. This was her second time, and she was pretty familiar with it.

However, Huang xiaotao was still shy and didn't dare to raise her head. She was envious that Wang Xinyan could cultivate with Lin Yi, but she didn't expect to be the one to take off her clothes first. Her face was so red that it was about to bleed.

If it weren't for the fact that he had business to attend to, Lin Yi would've done them right there and then. After all, the way they were acting was too alluring, even with Lin Yi's self-control, he couldn't handle it.

Especially when Huang xiaotao was taking off her clothes piece by piece in front of him, until she was completely naked. Lin Yi almost spat blood when he saw that.

In the end, Lin Yi spent a lot of effort to calm his breathing down and raise Huang xiaotao's strength to the peak of the Golden core stage as he had planned.

Lin Yi's ability to directly increase someone's strength was still useful in the heavenly Dao realm, but he didn't want to reveal it easily unless the situation was special.

If it was a normal follower, even if they were weak at the moment, Lin Yi wouldn't directly give them strength. After all, it was easy for them to become dependent on each other. Even if they were at the same level, if they really fought, they would have to rely on themselves to break through and become stronger. At most, Lin Yi would provide them with pills.

Huang xiaotao and Shangguan LAN 'er were an exception. Lin Yi helped her increase her strength back on the North Island because the inner sect competition was coming soon. Not only did they have to face Xu lingchong and the others who returned with a strong momentum, but they also had to deal with the rules of the two-person challenge. Lin Yi needed Huang xiaotao to reach the perfect golden core stage as soon as possible so he had no choice but to team up with her. As for Shangguan LAN 'er, she was just here to gain experience points. It was basically impossible for her to cultivate on her own.

It was the same now. The road to becoming a Big Shot was right in front of him. Lin Yi didn't feel at ease to let Huang xiaotao go alone in the future. Instead of that, he might as well take a risk now. At least they could look out for each other and not be in danger.

Since the increase this time wasn't big, Lin Yi quickly raised Huang xiaotao's strength to the peak of golden core. He didn't stop until she touched the last barrier. The whole process was naturally full of temptation and temptation. Fortunately, Lin Yi's willpower was strong enough, otherwise he would've failed at the last step and it would be a big joke.

Huang xiaotao's next step was to consume the Golden core. Of course, Lin Yi had also prepared a big bowl of Star Ink milk for her. She had a perfect golden core, and now that she had the opportunity, she naturally wanted to follow Lin Yi's pace and achieve the strongest nascent soul!

Lin Yi and Wang Xinyan looked at each other and left the room. This crucial step of forming a nascent soul could only be done by Huang xiaotao herself. Lin Yi couldn't help much. No matter how heaven-defying his ability was, he couldn't help her with this kind of thing.

"It's our turn next. " Lin Yi said to the blushing Wang Xinyan. He had already left seven energy cultivating pills for Huang xiaotao. As long as she could successfully form her nascent soul, she could use the energy cultivating pills to push the boat with the current and advance to the peak of the nascent Soul Stage.

"Then ... Then should we let master know ..." Wang Xinyan blushed.

"Of course. Didn't you say that she has prepared a special training for you?" Lin Yi nodded. It was impossible to avoid Donghai's help, but it was a little embarrassing for a girl like Xinyan to ask.

In order to cultivate with Lin Yi, Xinyan was giving it her all. She ran up to Donghai and blushed, but nothing came out of her mouth ...

Seeing the confused look on Donghai Sheoni's face, Lin Yi stood up helplessly and said, ""Senior Dong Hai, Xinyan wants us to do dual cultivation."

"Dual cultivation?" Donghai's divine nun's eyes twitched as he looked at Xinyan in disbelief, speechless.

She knew that her two disciples were having an affair with Lin Yi, but as their master, she didn't try to stop them. Instead, she just wanted to go with the flow. Otherwise, she wouldn't have let Lin Yi live in the East Sea Pavilion. This was already the treatment of her own people.

Be it character, strength, or background, Lin Yi was a rare match in this world. He was tens of thousands of times better than Bao zuoliang, who was a bad guy. Plus, her two precious disciples were already with Lin Yi before they entered the sect. With Donghai's personality, he wouldn't be the bad guy.

Chapter 4866 Bao Zuoliang Is Anxious

She would rather tear down ten temples than ruin a marriage. A happy couple was the pursuit of all infatuated men and women in the world, and it was also her best wish for Wang Xinyan and Huang xiaotao.

But even so, Donghai Sheoni didn't expect Lin Yi and Xinyan to be this strong. He couldn't help but shake his head and sigh-young people these days!

"Actually, we've already done it in the mortal world ..." Wang Xinyan didn't dare to look up at her master. Her face was red as she poked her fingers, and spoke in a low voice.

Donghai Shanni was stunned for a long time before he finally accepted the reality with a bitter smile. After all, she was already prepared for this, but she didn't expect it to happen so soon.

Of course, she had misunderstood. Wang Xinyan was talking about cultivating together, but Donghai's nun didn't think so.

"That's good too. Yan 'er, your sponge body is indeed more suitable for dual cultivation. It's just that we didn't have this condition before, so it's not convenient for me to say more. This is good." Donghai's divine nun looked at Lin Yi and said gently, "In the future, treat Yan 'er well and don't let her down."

"Senior, don't worry." Lin Yi nodded heavily, his hand unconsciously holding Xinyan's hand. Their fingers intertwined, and they smiled at each other.

"Okay, then follow me." After saying that, Donghai Sheoni led the two of them to the door of an underground secret room. He turned around and said, "Originally, this was only a special training for Yan 'er alone. Now, although it's changed to the two of you dual cultivating, it won't have a big impact. It will only make your cultivation speed faster. The most important thing is to stabilize your mind and not be greedy for success. You two must remember this."

"Many thanks for senior's teachings." Lin Yi and Xinyan looked at each other and nodded.

"En, you guys can go in. If there's anything, just ask Yan 'er to tear open the emergency transmission talisman. I'll rush over as soon as possible." Donghai Sheoni warned.

"Yes." The two of them took a deep breath at the same time and immediately pushed open the door of the secret room.

Just as the two of them were about to enter the secret room, Donghai Shanni suddenly asked with some hesitation, "That ... Did Xiao Tao also ..."

Lin Yi blinked and nodded. He and Xiao Tao weren't dual practicing, but they had already come to see each other with sincerity. There was nothing to deny.

"Young people like you should at least have some manners ..." Donghai Shanni couldn't help but smile bitterly. He looked at Lin Yi with a complicated expression and sighed, "But it's good to be young."

Lin Yi turned to Xinyan with a smile. "I think senior Dong Hai is also a person with a story. She must have been very wonderful when she was young. She can only see through the mortal world after experiencing it. We might have evoked her memories."

"I'm not sure about this. Master never mentioned anything about her before she became a monk. " Xinyan stuck her tongue out cutely-it was just the two of them here, and she couldn't help but get more excited and nervous.

The secret underground room wasn't that big-it was only around thirty square meters, and it looked like a normal room with nothing special about it. However, Lin Yi and Xinyan's expressions changed the moment they took their first step.

Pressure. An unparalleled pressure washed over him from all directions. Every second he spent in this secret room was an unbearable double test for his body and soul. There was basically no need for him to deliberately cultivate. Just staying here was already a rare tempering.

As for the spiritual Qi, it was a thousand times denser than the outside, even more exaggerated than Lin Yi's Jade space. It felt so dense that it was almost solid.

"Senior Donghai has really put in a lot of money!" Lin Yi turned to smile at Xinyan, only to find that her expression was very unnatural-it looked like she was barely holding on.

The spiritual Qi was thick, but the pressure was too shocking-at least it wasn't below the level of the opening stage Lin Yi had met before. Even Lin Yi couldn't help but feel a little tired, let alone a mid-nascent soul Wang Xinyan.

Lin Yi didn't know how Donghai did it, but one thing was for sure-setting up a formation like this not only required a lot of precious resources, but it also required a corresponding technique. Only someone as powerful as Donghai could do this.

"Are you okay?" Lin Yi quickly helped Xinyan to sit down.

"It's okay, I can hold on. It's no problem. " Xinyan forced a smile, her eyes filled with determination. If she wanted to break through in three months, she had to face this.

"Alright, if you have any problems, tell me immediately. I know you have a strong personality, but if you force it, it'll be as bad as not being able to do it. Do you understand?" Lin Yi said.

Other than absorbing water quickly to increase her strength, the sponge also had a spring-the tighter the pressure, the higher she'd bounce. Donghai's divine nun had set up this high-pressure environment

to force out Xinyan's potential as much as possible, and Lin Yi wouldn't ruin it just because of a little heartache.

"Well, there's not much time. Let's start." Xinyan forced a smile on her face, and there was a hint of seductiveness mixed with the effort. Lin Yi almost turned into a beast when he saw that.

Huang Xiaotao was in isolated practicing, so were Lin Yi and Wang Xinyan, but there were still people who were constantly thinking about them outside. However, this person wasn't a friend or family, but their new rival, Bao Zuoliang.

There had been no conflict at all, and they hadn't even met formally, but because of Wang Xinyan, she had become a thorn in the young city Lord's side. The tallest tree in the forest would be destroyed by the wind-this was true.

Lin Yi and the other two didn't come out for a long time-it was obvious that they were in solitary training. Bao Zuoliang's eyes burned with hatred-it was only because Lin Yi chose the East Sea Pavilion that the young Governor had no choice but to step back. If it were any other place, he would've been greeted with all sorts of schemes.

"What do we do? We can't go on like this, can we? We can't just stand by and watch that kid live a happy life, can we?" Bao Zuoliang's eyes were bloodshot-he'd rather see the three of them come out for fun. It was disgusting, but it wasn't too much to do in broad daylight.

And now, Lin Yi and his lover were both hiding in the East Sea Pavilion, who knew what they were doing? What if the two of them started a fire while they were in seclusion? it would be none of Bao Zuoliang's business!

Lin Yi and Xinyan wouldn't do it in private-it was an open practitioner-pair thing, they just didn't want to tell anyone.

Chapter 4867 Lightning Strike

Unwilling, Bao zuoliang was extremely unwilling, but what was the use of being unwilling? even if he was given ten times the courage, he would not dare to barge into East Sea Pavilion.

"Young master Bao, I think you're overthinking it." Of course, su kesheng knew what this guy was worried about. He immediately comforted him, "Lin Yi may be cooped up in Donghai Pavilion, but he's under the watch of an old fogey like Donghai Sheoni. He won't do anything to Xinyan, so don't worry."

Lin Yi would've laughed to death if he'd heard that-they didn't touch each other, but dual practicing was way more extreme than that, and it was Donghai's nun who sent them in.

However, Bao zuoliang was very pleased with these words. He nodded repeatedly and said, ""You're right, but I'm still not satisfied-how dare he harass my Wang Xinyan every day! I'm going to kill that Lin!"

"Don't worry, young master Bao. Although he managed to escape from the last auction, we still have a chance to deal with him." Su kesheng's expression returned to being confident.

"What chance? Was it still a borrowed knife to kill? Even that old bastard Lu Dachang was settled by him with a few words. It's not easy to borrow this knife, right?" Bao zuoliang said with a frown.

"There's no need to borrow someone else's knife to kill him, we can do it ourselves," Su kesheng smiled profoundly.

"Ah? You're crazy!" Bao zuoliang jumped in shock. With Lin Yi's background, even if he was Bao fara's son, he wouldn't dare to cause trouble.

"Hehe, of course we can't fight in Morning Star City, but what if we leave this place?" Su kesheng laughed.

"What do you mean?" Bao zuoliang quickly asked.

"If it was before, I wouldn't be sure, but since that Lin guy is trying to get the essence cultivating golden devil grass, it must be to make the essence cultivating pill. Thinking about his late Yuanying stage strength, his intention is clear at a glance. No matter how powerful his background is, it's only limited to Morning Star City. Once he's on the path to becoming a Big Shot, he won't have the final say!" Su kesheng sneered.

"Yeah!" Bao zuoliang patted his head excitedly, but he soon realized that something was wrong. He slapped su kesheng and scolded, "F * ck off! To think that I thought so highly of you, even coming up with such a stupid plan. If they really do go on the path to become big shots, at least he and Wang Xinyan will be in the peak of the original level. We only have two in the peak of the original level, and together we're probably not even as good as Wang Xinyan, how can we decide? Don't tell me you're going to get beaten up!"

Although he and su kesheng were much stronger than normal peak nascent soul cultivators, Wang Xinyan was a publicly acknowledged super genius in the school. She was almost invincible among those at the same level as her. Bao zuoliang knew his own limits, not to mention that they would have to include Lin Yi, a peak nascent soul cultivator.

"Young master Bao, have you forgotten that we still have a divine weapon? we might not be able to compete with them in other places, but on the road to being a Big Shot, the power that this divine weapon can exert is simply unimaginable. Let alone a peak nascent soul cultivator, even a peak xuansheng cultivator would be hard pressed to do so!" Su kesheng chuckled.

"Are you talking about guiding lightning strike?" Bao zuoliang's eyes lit up and he patted su kesheng's shoulder excitedly. "That's right, I almost forgot about this. The lightning attracting strike is useless in other places, but on the road to the big shots, it's a real divine weapon!"

"That's right, this is a treasure passed down from the ancient times. As long as you're in a place with a lot of lightning, you can easily control the lightning tribulation. When that happens, the road to the top will be the perfect battlefield for us. No matter how strong Wang Xinyan is, she can only be at your mercy, young master Bao. Killing that Lin guy will be as easy as flipping your hand!" Su kesheng said proudly.

Although the chances of triggering the Thunder tribulation on the path of a Big Shot were much higher than the outside world, it was not always possible to trigger it. To a large extent, it still depended on luck. But they were different. They could trigger the Thunder tribulation at any time with the Thunder attracting banner. Once they really used the heavenly Thunder, the scene was enough to make people shudder.

"You mean ..." Bao zuoliang's eyes lit up.

"It's very simple. When the time comes, we'll use the lightning attracting strike to direct everyone's lightning tribulation onto that Lin fellow and turn him into dregs in one go! Hehe, it's useless even if he has a profound lightning pill. No one can withstand so many lightning tribulations at once!" Su kesheng sneered.

"Good plan! As long as we're a little more careful, we'll be able to kill that Lin guy without leaving even a trace behind, and Wang Xinyan won't be suspicious at all-perfect!" Bao zuoliang laughed proudly.

Three months passed in the blink of an eye, and the unprecedented trial to become a big Shot was just around the corner. All the Morning Star Academy disciples who were preparing to participate were gathered in the square, and Dean Ling Yuanqing would personally host the pledge ceremony for them.

Since the prerequisite for joining the test was to be at peak nascent soul realm, there weren't many people. There were only about thirty people in total, but there were three people who stood out-Lin Yi, Wang Xinyan, and Huang xiaotao.

It must be known that all the people present were already at the great circle of the Yuanying stage. But three months ago, during the auction, these three people were clearly still very far away from the great circle of the Yuanying stage. How did they all suddenly become great circle of the Yuanying stage?

Lin Yi, on the other hand, was pretty normal-he had the energy nurturing pill, so it wasn't strange for him to go from advanced to peak-level nascent soul. Xinyan could understand that-she could get the pill from Lin Yi, too, and the rumors said that it was a heaven-defying physique. Breaking through to the next level was as easy as drinking water for her, so it was nothing strange.

However, what was going on with Huang xiaotao?

Three months ago, he was just a Jindan stage expert, but now he had suddenly become a complete Yuanying stage expert, has the world gone crazy?

Everyone thought that they were seeing things, including Ling Yuanqing, who was a powerful figure in the beginning of the sect. Even the Donghai divine nun, who was Huang xiaotao's master, was shocked when he saw Huang xiaotao. He only reluctantly accepted the fact that she had used seven energy cultivating pills. In the end, he had to sigh that this was too exciting!

An Alchemist's woman was indeed different!

"Damn it, how did Huang xiaotao become a peak nascent soul realm?" Bao zuoliang was speechless-he wanted to kill Lin Yi, and now that Huang xiaotao was here, didn't that mean the difficulty was going to increase? After all, Huang xiaotao had fire and wind dual spiritual roots. She was also invincible among those of the same level.

"It's fine. We don't have to do it ourselves. Once the lightning strikes them, no matter how strong they are, they won't be of any use. They can only watch as that Lin guy gets struck to death. At most, they'll be more careful not to give themselves away." Su kesheng whispered.

Chapter 4868 Thunderclap Plain Island

"En, not bad, let them see how Lin Yi dies!" Bao zuoliang laughed coldly.

Ling Yuanqing's cough attracted everyone's attention. He then said,""Fellow disciples, the road to becoming a Big Shot is about to begin. Being able to participate in this trial means that you're all the best disciples of the morning stars Academy, but this is still far from enough! Are you all very complacent and think that you are the first class existence among the Academy's disciples? Then let me tell you now, you're not even worth a fart!"

Everyone's face changed at the same time. They couldn't hide the anger on their faces. Even if the other party was principal Ling Yuanqing, his words were too infuriating!

According to the usual practice, the strength of the disciples of the yellow Academy was limited to the great circle of the original level. Generally, those who exceeded this level would not stay, unless it was an exception like Leng rufeng. Therefore, it was not wrong to say that everyone present was the strongest disciple of the Morning Star Academy.

However, if he really thought so, he would be a little self-centered and narrow-minded.

"Hmph, there's no need to be so unconvinced-the East continent isn't like the other Sky Class islands-this is the world of a giant, and xuansheng is the minimum! Only by stepping into the Xuan Sheng stage will you have the qualifications to touch the barrier of the Titan stage. Otherwise, it's still the same saying, you're not even worth a fart!" Ling Yuanqing said to the crowd.

Everyone fell silent. The originally relaxed atmosphere became tense because of Ling Yuanqing's short words. It was as if a great battle was about to begin.

"Very good, this is the attitude that a Morning Star Academy disciple should have! Go on, work hard and try to get a few more disciples in the Xuan rising stage this year. When the time comes, I'll personally send you to the Xuan sea!" Ling Yuanqing encouraged.

"Yes!" Everyone agreed.

The process was very short. After everyone's morale was boosted, Ling Yuanqing didn't waste any more time. Instead, he ordered everyone to board the ship and set off.

The group's final destination this time was the thunderous Sea region of the East continent's yellow-class Sea region. There was an independent island called the thunderous plain Island. That was the legendary road to the big shots!

To get to the Thunder plain Island, they had to board the school's treasured ship. Lin Yi wasn't a student of the Morning Star Academy, but he had a special status. Even the big shots like Ling Yuanqing took care of him, so getting a spot wasn't a problem.

After three days and three nights, the treasure ship finally arrived at its destination. At this time, there were many battleships and treasure ships docked at the dock of the thunderclap plain Island, with the symbols of various yellow-rank Academies in the East continent hanging on them.

Lin Yi took a closer look and quickly found the treasure ships of the proud Dawn School and soaring Cloud School. He suddenly became excited. It was impossible for Ning Xuefei, but it was very likely that he would meet Huo Yudie again this time, because she was also a peak nascent soul realm master!

They hadn't seen each other for a few months, but Lin Yi was still looking forward to this unexpected yet reasonable reunion. Even heroes couldn't overcome the barrier of beauty. Huo Yudie was indeed a girl that made his heart beat faster, even Lin Yi, who had many beautiful women, was no exception.

The ship slowly docked, and Lin Yi couldn't wait to get off the ship and look for her, but he was stopped by the Chancellor of the morning stars Academy. It was an old man with white hair and a ruddy face, the leader of the group of disciples.

"Master Lin, you can't go down now!" Chancellor Chen Xing quickly stopped him. He didn't dare to be disrespectful to Lin Yi. Not to mention the three big heads of the school, just the chief refiner Qing Danzi's position was higher than his. Once he offended Lin Yi, he wouldn't have a good life.

"Eh? Why is that so?" Lin Yi couldn't help but be surprised, and Xinyan and Huang Xiaotao looked at each other. It was their first time here, and they didn't know the rules.

"This is clearly stipulated. Without the permission of the organizer of the trial, no student of the Academy is allowed to disembark the boat without permission. They must stay on the boat and wait for the summoning, or they will be disqualified from the trial." Chancellor Chen Xing explained.

"Oh? It's actually so strict?" Lin Yi frowned, but understood after thinking about it. The road to becoming a Big Shot wasn't a place to be taken lightly, after all. If there weren't any restrictions and the students were allowed to move freely, the situation would be chaotic. It might even fall into a large-scale killing of each other, and things would get out of control.

"Well, this is a helpless move. There was no such rule a long time ago. As a result, after a chaotic battle, it actually led to the complete annihilation of all the Academy's trial disciples, including several highly valued super geniuses!" Chancellor Chen Xing sighed.

"It's that serious?" It wasn't just Lin Yi-even the other Morning Star disciples were shocked. A complete Wipeout was too much!

"It's because of that incident that the Alliance of the yellow Class Academies decided to strictly control the road to becoming a Big Shot. Although they didn't forbid competition, if it was a large-scale battle between the academies, they would have to put an end to it as soon as possible. One of the measures was to prevent the students from stepping into thunderclap Plains without permission before the trial began, in case they became enemies with each other in private." Seeing this, Chancellor Chen Xing simply explained to everyone.

Everyone nodded. They were genius disciples from various Academies, each more proud than the other. If they were allowed to interact with each other as they wished, it would be strange if there were no conflicts. At that time, if someone with ill intentions incited them, it could easily turn into a war between the academies, and things would go out of control.

"Golden class academy Alliance? Is this the official organization of the East Province Academy?" Lin Yi asked. This was the first time he'd heard of the Golden class School Alliance-he'd only been in the East continent for a short time, after all, and didn't really interact much with outsiders other than his own people like Xinyan.

"That's right. Other than a President, there's also a Council of Elders. These elders are the deans of the Golden Academies, and they have the final say in everything that happens in the Golden seas. They're the highest authority in the Golden seas, and the road to becoming a Titan was organized by the Golden Academy Alliance. " Chancellor Chen Xing patiently explained.

All the other disciples knew about this, but it was Lin Yi's first time hearing about it. It was no wonder that the Dean and the mayor were of the same rank in name, but when people talked about it, the Dean was always ranked before the mayor.

Even if they were of the same status in name and seemed to mind their own business, the deans of the various Academies actually had more power in their hands. After all, they were members of the Alliance's Elder Council. If something really happened, they could completely exert pressure from top to bottom through the Alliance's Elder Council. The castellans did not have such power.

Chapter 4869 The Battle For The Team Leader

"Then who's the current president of the professional alliance? Could it be that he's also the principal of some Academy?" Lin Yi continued to ask, and the other disciples all looked interested as well-they only knew about the existence of this Alliance, but they didn't know who the number one really was.

"Not really. According to the usual practice, the president of the Alliance here is sent by the Alliance of the schools from the mystic division Sea area. He doesn't usually show his face, and he's never fought in public, so no one knows his exact strength," Chancellor Chen Xing paused, and seeing everyone's curious expressions, he revealed, "But one thing is for sure. The strength of the president of the Alliance is definitely above the mountain opening stage. He should be an expert at the earth splitting stage or even the sea splitting stage. I heard that he will be in charge of the trial this time. Everyone can have a good experience."

Earth-splitting stage! Or even the sea shattering realm!

As expected, everyone was stunned. Although it was reasonable, as the president of the Alliance, he had to be above all the deans of the academies. Otherwise, how could he convince the crowd?

But even so, it was still shocking to hear about such a powerful existence. Even Lin Yi, who had seen the five poison Dragon and the giant electric eel, was no exception. After all, no matter how strong they were, they were in the past. The giant electric eel was dead, and the five poison Dragon was unknown.

Only the legendary President of the Alliance was alive and well. He was a real human cultivator, and it was very likely that he would see him soon!

Only this kind of comparison could really make people's hearts surge, because Lin Yi would never become the next giant electric eel or five poison Dragon, but one day, he would become a powerful earth-splitting or sea-splitting giant like the president of the Alliance! It was not a dream!

"Alright, everyone is clear about the rules. Before receiving my notice, you must not disembark without permission, or you will bear the consequences." "Let's go," Chancellor Chen Xing warned, and then he got off the treasured ship in a flash. He was the leader of the Academy, so he had to go in advance to complete the corresponding procedures for everyone.

Lin Yi shook his head helplessly as he looked at the two schools-it was too far away, and there were so many ships and treasure ships between them that he couldn't see what was going on. He could only see the flags on the ships.

The disciples from the other Academies were either getting some fresh air or meditating. However, at this time, they definitely did not have the mood to meditate and cultivate. Adjusting their mentality was the most important thing. All of them stayed on the deck. Although they could not get off the ship, they could at least experience the environment and atmosphere of thunderclap Plains Island in advance.

At this moment, Bao zuoliang suddenly stood up and called out to everyone,""Everyone, come here. I have a suggestion!"

"Young master Bao, do you have any suggestions?" When everyone saw this, they all gathered around. After all, this guy was the son of the city Lord, baofala, so everyone would give him some face.

"As everyone has heard, the competition on the road to becoming a Big Shot is extremely brutal. Even if we won't be completely annihilated like before, there will definitely be friction between the disciples of different Academies. If we don't stick together and fight on our own, I believe I don't need to say more about the results, right?" Bao zuoliang scanned the crowd.

Everyone's expression changed. If the other Academies were also fighting on their own, it would be fine, but if they were to group up, then they would definitely suffer a big loss if they met them alone. The competition within the Academy was already very cruel, not to mention between the various Academies. Even cruel couldn't be used to describe it, it could only be described as cruel!

"So, young master Bao, do you mean that we should act as a group?" Everyone could not help but look at each other.

They were all morning stars Academy's disciples, and it wasn't unacceptable for them to stick together. But the problem was, who would they listen to? It must be known that everyone present was proud and arrogant, especially since many of them had grudges with each other. Everyone disliked each other. If there was no strong backbone, not to mention fighting with the other Academies, just the people here would already have a lot of internal strife.

"That's right. In order to advance and retreat together, we must elect a leader here. He will be in charge of leading our Morning Star team. Everyone must listen to the leader's orders!" Bao zuoliang immediately shouted. At the same time, he deliberately straightened his body and stood in the middle of the crowd. His intention was obvious. He had said so much to become the team leader!

Everyone fell silent. They looked at each other and did not say a word. Bao zuoliang's words made sense. The Morning Star team did need a temporary leader, but that did not mean they were willing to give up.

Just as Bao zuoliang had said, everything would follow orders. The value of this temporary team leader could be imagined. Once he entered the path of a Big Shot, he would be able to gain a great advantage. So, even if Bao zuoliang's background made everyone afraid, it was not to the extent of making them bow down to him. No one wanted to give up such a great opportunity.

"The leader has to be someone who can convince the masses. I think with young master Bao's background and strength, he's the most suitable to be the leader of our Morning Star team. I'll see who dares to disobey!" Su kesheng, who was standing at the side, jumped out decisively. Bao zuoliang could not just recommend himself directly, as that would be too shameless. Therefore, he could only use his little brother's mouth to say this.

As soon as he finished speaking, everyone's expression turned strange. There were probably not many people who were truly convinced, but Bao zuoliang's background and strength could not be underestimated. If he wanted to jump out and oppose in public, he had to think carefully.

However, even if they didn't have the confidence to compete with Bao zuoliang, it didn't mean that others didn't. If they were to really talk about it, there was no lack of people who could beat Bao zuoliang. At least, one of the three goddesses, Wang Xinyan, had the qualifications.

In the world of cultivation, the strong were always respected. Wang Xinyan may not have been in the school for long, but her strength was obvious to all. In the past few interschool Championships, she was invincible against her peers. Now that she was a peak nascent soul, no one here, including Bao zuoliang, was a match for her.

And in terms of popularity, Wang Xinyan was definitely more popular than Bao zuoliang. There were many disciples who were secretly in love with the third fairy, and the only thing that could be picked was that she was a woman.

This wasn't the Western part of the island where women's rights didn't exist. In the end, the men still had the final say. Even if the third fairy, Wang Xinyan, came out to give orders, it would still make people feel a little strange. If word got out, they would probably be laughed at by the other Academies. Where would they put their faces then?

Suddenly, a weird-looking disciple jumped out. He had eye-catching red hair, and looked 70% like Dachang. Lin Yi couldn't help but wonder if this was Xiao-Xiaolu

Chapter 4870 Lin Yi Elected

Dachang had asked Lin Yi to take care of his son, but Lin Yi had just come out of his practicing just before the departure. He didn't see Lin Yi come up to him on the way, so he didn't know who he was. He only guessed from the unique appearance of the two.

"Bao zuoliang? Hehe, promise your mother!" Lu xiaozhong's words ignited the atmosphere and everyone was shocked. Only this one-track minded guy would dare to scold Bao zuoliang in his face!

"Lu xiaozhong, what did you say?" Bao zuoliang's face suddenly sank, he stared at Lu xiaozhong with an unfriendly look. He and su kesheng sandwiched Lu xiaozhong in the middle.

"I said, your mother's head, so what? I can't hear you clearly. Do you want to hear it a third time?" Lu xiaozhong wasn't afraid of this at all. He had clashed with Bao zuoliang more than once, so he was used to it. This time, it was clearly for Bao zuoliang.

"You're courting death!" Bao zuoliang gritted his teeth in anger and was about to make a move. Seeing this, su kesheng also blocked Lu xiaozhong's retreat with an unkind expression.

"Is that so? I'm waiting for you to make a move, just in time to take revenge for the last time. Come on!" Lu xiaozhong said fearlessly, "I wasn't afraid of you guys when I was only at the peak of the advanced stage of the original level. Now that I'm already at the great circle of the original level, I'm not afraid of you!"

Bao zuoliang choked. He looked at su kesheng and helplessly stopped his actions. He then remembered that after taking the yuan cultivating pill, Lu xiaozhong was already a peak Yuanying stage expert. Otherwise, he would not have appeared here!

In the past, he could still rely on his level advantage to suppress Lu xiaozhong, but now this advantage was gone. Moreover, Lu xiaozhong was like a madman when he fought. In the past, when he was only at the peak of the late Yuanying stage, he was only slightly weaker than him. Bao zuoliang had to rely on su

kesheng's help to completely suppress Lu xiaozhong. Now that Lu xiaozhong had become a peak Yuanying stage expert, even the two of them together might not be able to win ...

Lin Yi couldn't help but be taken aback by Lu xiaozhong's sudden appearance-Like Father, Like Son, he was exactly the same as his dad, Lu Dachang!

But then again, this was a good mess!

Otherwise, if no one came out to compete for it, the captain's position would still be taken by Bao zuoliang in the end. If this guy had ulterior motives and wanted to separate him from Wang Xinyan and Huang xiaotao, then if he went against him, it might really be troublesome.

Of course, Lin Yi wasn't afraid of trouble. Bao zuoliang wasn't a threat to him, but the path to becoming a Big Shot was guarded by the higher ups of the school. Unless it was absolutely necessary, Lin Yi didn't want to mess things up. He came here to try for xuansheng, not to play with an idiot.

Lin Yi was laughing to himself when Lu xiaozhong suddenly changed the topic."You, Bao Wuliang, who only knows how to take off women's skirts, want to be the team leader? Don't joke around. I think there's only one person who's qualified to be the team leader and that's master Lin!"

"Ha?" Everyone froze as they looked at Lin Yi.

I'm also involved in this? Lin Yi didn't come back to his senses. He wasn't a student of the Morning Star Academy, he was just an outsider who came here to freeloader a spot. He'd never thought of leading the group.

"Bullshit, he's not even from our Academy, what right does he have to be our Captain?" Bao zuoliang immediately stomped his feet.

"Why not? Even master Qing Danzi is Master Lin's disciple. Since master Qing Danzi is the chief Alchemist of the Academy, then Master Lin is naturally a senior of the Academy. You can ask everyone here and see if anyone is unconvinced. " Lu xiaozhong said confidently.

Bao zuoliang was fuming-he didn't even need to ask this question-it was clear from the way everyone was shrinking their necks. They were only a little afraid of the mayor's son, but they were completely in awe of a freak like Lin Yi. The two weren't on the same level at all.

He'd racked his brain to come up with this idea so he could create an opportunity for himself, not for someone else to take the opportunity, especially when the person was the Lin Yi He wanted to strangle.

But Lu xiaozhong's sudden move really left Bao zuoliang at a loss for words-they were all peak nascent soul practitioners, and apart from Wang Xinyan and Huang xiaotao, who were both recognized as super geniuses in the Academy, they were basically on par with each other in terms of strength. The captain's position could only be given to Lin Yi, who had the biggest background.

Bao zuoliang secretly gave su kesheng a look, telling him to quickly think of a way to smooth things over. They couldn't let Lin Yi take advantage of this no matter what, or they'd be going for wool and coming home shorn.

Su kesheng nodded and rolled his eyes. He immediately stood up and said, "That's fine. We'll support Master Lin as the team leader!"

Everyone looked at each other. Bao zuoliang almost fainted on the spot. Su kesheng was his most trusted underling, and nothing had ever happened to him. Why did he suddenly turn into a traitor at this critical moment?

Bao zuoliang was about to curse out loud, but he saw su kesheng giving him a look. He suspiciously came behind him and wanted to hear what this kid was going to do.

"Master Bao, it doesn't matter if we're the captain or not, let's not cause any more trouble. As long as we can go in together, we can get rid of Lin Yi with the lightning. When he's finished, I'll take care of Lu xiaozhong as well, it'll be a piece of cake!" Su ke quietly explained.

"Well, you're right. That's it then." Bao zuoliang thought about it and nodded.

They didn't have a choice. It was best if they could get the captain title, but as su kesheng said, it didn't matter if they couldn't get it. The most important thing right now was to stay with Lin Yi, or they wouldn't be able to do anything even if they had the lightning. Only then could they proceed with the plan.

Lin Yi frowned at the two's winking faces. They'd been careful to use their senses to block their voices, but Lin Yi's intuition told him that they were up to something.

At the level of the Yuanying stage, although the spiritual awareness was not even at the beginner level, some of the most basic applications were already very common, just like the small skills of the two people to isolate voices.

It wasn't completely impossible for Lin Yi to eavesdrop, but he'd have to use his practitioner's Arts to break the spiritual sense barrier as well-it'd be too obvious, and they'd be able to sense it at such a close distance.
