

## Bodyguard 4881

Chapter 4881 How Is That Possible?!

Hiss! The crowd gasped in unison. Even Ren Zhongyuan and the others who knew how ruthless Lin Yi was couldn't close their mouths. They all looked up at the sky as if their lives depended on it. Dianxing, the number one nascent soul cultivator, was in the sky right now.

Lin Yi shook his hand disappointedly. "He's the publicly acknowledged number one nascent soul cultivator? Who was publicly acknowledged? You bought it, right?"

Everyone had long since turned into stone. Hearing his words, they could only curse in their hearts. Even if he was not publicly acknowledged by the cultivation world, he was at least publicly acknowledged by Leidong city. Who would have thought that they would encounter a freak like you!

The whole place was dead silent for a long time, and it was not until Wang dianxing fell from the sky that they finally began to discuss. At this time, the wantonly flamboyant thunderclap Academy's first seat had fallen like a dead dog, his mouth full of blood, and he could not get up.

Everyone thought that Ren Zhongyuan was already in a miserable state. Now, someone who fell even more miserably, and it was Wang dianxing himself, was here. Karma really came quickly.

He couldn't get up, but he didn't die on the spot. He still had energy left to struggle on the ground, and he looked at Lin Yi as if he was a monster. He shouted in disbelief, "Impossible! How was that possible? You're actually in the mid-stage of the xuansheng realm? How did you get in?"

Everyone had already caught their breath, but when they heard his words, they immediately gasped in unison, almost suffocating to death!

Their nerves had been numbed by the shock. If these words had come from someone else, they would at most think that it was a deliberate exaggeration. However, the person who said it was Wang dianxing, so the credibility was very different.

After all, the strength of the thunderclap school's first seat was comparable to an early or even peak early stage mysterious Ascension cultivator. To be able to slap him like this, only a mid-stage mysterious Ascension cultivator could do it!

The people from the proud of the morning and soaring cloud schools were at least mentally prepared- anyone who'd seen or heard of Lin Yi's battle with Leng rufeng wouldn't be surprised by this result.

But the people from the thunderclap school and the others didn't know about this-they weren't just looking at Lin Yi in shock, they were looking at him in awe!

If Lin Yi was only in the early stage of the mysterious Ascension realm, then he might have found the lightning tribulation spot as soon as he came in. Plus, he broke through quickly, so there was a slight possibility. But to say that he was in the mid stage of the mysterious Ascension realm was impossible.

How much time had passed since he had entered this place? not even half a day had passed! It was already amazing that he had broken through to the primary stage of the mysterious Ascension realm. What kind of speed was that?

With this deduction, that guy must have been a mid-stage Xuan Sheng expert before he came in. But that was impossible!

Not to mention the reason why a mid-stage xuansheng expert like him could sneak in, just the special mechanism of the teleportation formation alone had already determined that this was impossible.

The teleportation array here was specially set up by the Alliance of Academies. Although it could teleport xuansheng stage experts out, if they wanted to teleport in, the upper limit of their strength could only be at the peak of the original level. This was to ensure the fairness at the very least. Otherwise, if some Academy had the intention to send in a few xuansheng stage experts to cause trouble, everyone would not be able to break through smoothly.

Everyone couldn't figure it out. It wasn't that they didn't think that Lin Yi was only a peak nascent soul, but they didn't think that it was even possible for him to be a mid-Xuan Sheng. How could a peak nascent soul match a mid-Xuan Sheng?

There should be a limit to jokes! Wang dianxing was the legendary perfect nascent soul, which was only comparable to the peak of the early stage of the mysterious Ascension realm!

But no matter what, Lin Yi was a 'mid-stage Mystic Ascension' man, and dianxing was in such a miserable state. Everyone from the thunderclap school was dumbfounded, and they lost the courage to fight Lin Yi.

They had the numbers, and they might be able to kill Lin Yi if they all attacked together, but the problem was that he wasn't alone.

In the end, this group of disciples from the thunderclap Academy, who had been so aggressive just a moment ago, carried Wang dianxing, who was lying on the ground and not getting up. Although they were unwilling, they still retreated in defeat.

"What dog shit Wolf yard? I think it's more like a sheepfold!" Lu xiaozhong's smile made everyone's stomach hurt, but they could only lower their heads and run as fast as they could when they saw Lin Yi. After all, it was embarrassing to stay here.

He had forced back the leidong Academy, which was full of wolves, by himself! Everyone else was completely stunned by this scene. Even those from the school of pride and the school of soaring cloud found it hard to believe. What was this? This was the real F \* cking awesome!

"Lin Yi!" Huo yudie could finally take off her veil and ran up to Lin Yi happily. She couldn't care less about the strange looks from the people around her as she hugged Lin Yi's arm.

Xinyan and xiaotao were shocked, but they quickly smiled at each other and took a step back, giving Lin Yi and Xinyan some space.

"Hehe, I've been wondering if you would come since the first day I came here. It's a pity that I couldn't act on my own before, so I didn't have the chance. Now I've finally found you!" Lin Yi smiled and hugged her. He didn't know why, but after a few months of separation, the two didn't feel distant, but closer.

Was this the legendary absence makes the heart grow fonder? The thought suddenly appeared in Huo yudie's mind, and she jumped in shock. Her face was burning up. She and Lin Yi hadn't even done anything yet, how could they be newlyweds!

"I didn't expect to see you here, I'm so happy ..." Huo yudie said softly, blushing. Lin Yi was only in the mid-stage of nascent soul when he left soaring Cloud School. Even with her relationship with Lin Yi, she didn't dare to imagine that they would meet again on the road to becoming a Big Shot. This was a big surprise to her.

"Me too," Lin Yi smiled and glanced to the side. Yi Xiaotian was limping over with Ren Zhongyuan, and he raised his eyebrows.

Ren Zhongyuan had mixed feelings in his heart as he watched his sweetheart act like a spoiled child beside Lin Yi. Of course, he was jealous and angry, but even Wang dianxing suffered a big loss at Lin Yi's hands and ran away in a sorry state without even daring to let out a fart. What could Ren Zhongyuan do?

Huo yudie didn't dare to think about it for the time being. The only thought she and Yi Xiaotian had now was to shamelessly come to Lin Yi and get close to him. They might be able to get a position by saying a few soft words. After all, it wasn't easy to find such a good lightning spot. Otherwise, they wouldn't have fought with the thunderclap school from the start.

#### Chapter 4882 Mutual Respect

"That ..." Ren Zhongyuan forced a stiff smile and moved closer, but he was too scared to move after Lin Yi glanced at him.

"Aren't you going to scam? This place will be occupied by the Morning Star Academy!" Lin Yi said coldly as he looked at Yi Xiaotian and the others.

"Ha?" Ren Zhongyuan and the others felt as if they were struck by lightning. When they saw Lin Yi forcing the thunderclap Academy to retreat, they were relieved and thought that they could finally protect the lightning tribulation spots. They didn't expect that the wolves were driven away, but an even more ferocious White-fronted Tiger came in!

Everyone from the morning stars school was overjoyed, while the students from the pride and soaring Cloud School were as if they had lost their parents. Even Wang dianxing from the thunderclap school was scared into submission by Lin Yi, let alone them, who had a deeper understanding of Lin Yi's strength. They were only left with envy and didn't dare to move.

In fact, Lin Yi wasn't just venting his anger on them. After all, he was still the temporary leader of the morning stars team, and the morning stars Academy and the pride Academy were twin enemies. He wasn't afraid of causing trouble for the morning stars Academy at all. If he didn't do this, he might be blamed by Ling Yuanqing and the others when he returned.

As for soaring Cloud School, they had always been on the same level as proud of Dawn School, so it didn't matter. In the end, the reason why Lin Yi didn't like them was because of idiots like Ren Zhongyuan. Let them complain.

"This ..." Ren Zhongyuan, Yi Xiaotian, and Yao Jiali were all embarrassed. However, they did not leave immediately. Instead, they looked at Huo yudie, hoping that she would put in a good word for them on account of their past relationship.

After all, there were over fifty lightning spots here. Even if the morning stars Academy took thirty, there would still be twenty or so empty spots. Rather than letting the spectators take advantage of them, it was better to let these familiar faces take advantage of it. It wouldn't be a loss for Lin Yi and the morning stars Academy, anyway.

But they were obviously thinking too much-familiar faces like them were nothing but demerit points to Lin Yi, not points. If it wasn't for them, the other students from the proud Dawn School and the soaring Cloud School could have gotten a few spots. Now, all of them were gone.

At that moment, the disciples from the two academies who knew about Lin Yi's history with Ren Zhongyuan and the others all stared at them with resentment. They were lucky that they had a strong background. If it were anyone else, they would have been beaten to death on the spot. They were black sheep!

Lin Yi couldn't be bothered with these people. He directed the Morning Star Academy disciples to enter the lightning zone. As for the remaining twenty or so, he gave them to Huo yudie, telling her to find a few disciples who were close to her to split them. The others could only squat on the side and watch the show.

"Martial sister Yu die! Sister Yu die!" When Ren Zhongyuan and the rest saw that the decision was in Huo yudie's hands, they immediately felt that their opportunity had come. They quickly came forward and said, ""Even if you don't give face to the monk, give face to the Buddha. Even if it's for the sake of our two academies advancing and retreating together, you can't just not give us one, right? If it really doesn't work, we can also buy it with spiritual Jade!"

"I didn't say I wouldn't give you any." Huo yudie glanced at them and called out to the other soaring Cloud school's disciples before Ren Zhongyuan and the others could even react. She had studied in the soaring Cloud School for a period of time before and was able to find a few good friends.

Ren Zhongyuan and the rest were completely dumbfounded as they watched the few of them enter the lightning tribulation point in high spirits. They could only feel a burning pain on their faces. This silent slap was too crisp!

The rest of the crowd watched Ren Zhongyuan gloat while drooling at the lightning tribulation point. They had more people than the morning stars Academy, and when they saw the group leisurely walking into the lightning tribulation point, they couldn't help but be tempted.

However, with Lin Yi there, they wouldn't dare to make a move. After all, this was a mid-stage mysterious Ascension cultivator-who would dare to offend him?

Everyone else had already entered the lightning tribulation point, except for Lin Yi and the others. On one hand, they wanted to calm down the crowd, and on the other hand, they hadn't seen each other for a few months, so they wanted to catch up. Especially since it was the first time Huo yudie, Wang Xinyan, and Huang xiaotao met.

"Little sister greets big sister Xinyan and big sister Xiao Tao." Huo yudie greeted the two girls with a red face.

"What? You're older than them, right? And you still call them Big Sisters?" Lin Yi, on the other hand, was amused. He turned around and saw Huo yudie staring at him with a murderous look. He broke into a cold sweat and smiled apologetically. Talking about age in front of a woman was just asking for it ...

"What nonsense are you saying!" Xinyan and xiaotao both glared at Lin Yi, putting a lot of pressure on him. He couldn't help but smile bitterly-he'd be making everyone angry.

Wang Xinyan held Huo yudie's hand affectionately and smiled,""Although I don't deserve to be called your sister, we are indeed sisters because of a certain someone. We should keep in touch more in the future. Xiao Tao and I don't have many friends in the East Province, so we can keep each other company."

Lin Yi couldn't help but give her a thumbs up-he didn't see it before, but Xinyan had the potential to be the head of the harem.

"Sister is right." Huo yudie smiled shyly as she glanced at Lin Yi. They hadn't done anything yet, but Xinyan's words had given her a title. She couldn't help but feel a little excited.

She was glad that Lin Yi's female friends were all easy to get along with-even Wang Xinyan and Huang xiaotao were gentle, let alone han Jingjing and the others. If it was a strong-willed or jealous girl, her relationship with Lin Yi would've been complicated.

"Little sister Yu die is truly pitiful. When we heard him mention you before, we were both shocked. To be able to trick the little sister of one of the three fairies into your hands, someone's luck with women must be quite good." Wang Xinyan and Huang xiaotao looked at each other and smiled.

"Not at all. Isn't sister Xinyan the third fairy as well? and sister Xiao Tao is no less beautiful than this little sister. If I have to say that I feel pity for you two, then you two are the ones." Huo yudie covered her mouth and laughed.

Lin Yi couldn't help but chuckle to himself as the three girls complimented each other-all women liked it when people complimented them for their beauty, after all. They'd become sisters on their first meeting with just a few words of praise.

"Speaking of which, I didn't know that you were one of the three fairies!" Lin Yi interrupted with a smile.

"That's not strange. Sister yudie didn't say it herself, and you're not familiar with the other people from the Academy of proud of dawn. It's normal that you don't know. " Wang Xinyan smiled.

Chapter 4883 Qin Yue Gifted Pills

"That's true," Lin Yi nodded. He only found out about Xinyan's identity from someone else's mouth, and Xinyan never mentioned it herself.

"Now you're really going to be famous in the East Province. Two of the three goddesses have fallen into your hands. Who knows how many men are cursing you behind your back!" Huang Xiaotao said with a playful expression.

"Hehe, Xiao Tao, it's only because you're used to covering your face. Otherwise, as the third fairy, you'd have been completely taken care of by him." Wang Xinyan thought it was interesting.

"However, it's not a good feeling to be the target of public criticism. You have to be careful in the future. Many people in the East Province will do anything to achieve their goals." Huo Yudie looked at Lin Yi, worried.

"Don't worry, I'm used to it. " "Let's talk about it later. Let's go to the lightning tribulation point and try for the Xuansheng stage first. "Lin Yi laughed.

"Alright!" The three women nodded and looked at each other before walking into the three adjacent lightning tribulations.

Almost everyone was in position, and the formation was activated one after another, leaving no one outside to interfere. Lin Yi walked towards the lightning tribulation, but a woman followed him.

Lin Yi turned around and saw that it was Qin Yue. Her two disciples who were close to her had already entered the lightning tribulation point, so she was alone. Lin Yi was a little disgusted by what he saw earlier, but he didn't get angry immediately. He only frowned, "Is there something?"

"Master Lin, do you know the people from soaring Cloud School?" Qin Yue looked around carefully and asked in a low voice after making sure there was no one else.

Lin Yi blinked, not sure what she was up to, but he nodded anyway.

Qin Yue was overjoyed. She avoided the gazes of the crowd and quickly took out a small plain wooden box from her pocket and handed it to Lin Yi, begging, ""If I can't make it out of the lightning tribulation this time, please help me pass this to someone from the soaring Cloud School called Jiang He hai. I would be extremely grateful."

"What?" Lin Yi was even more stunned. Opening the box, his eyes twitched-there were two pills inside, one was a golden core and the other was an energy cultivating pill-even more than what Jiang He had given him!

Seeing Lin Yi's weird expression, Qin Yue thought that he didn't want to agree and knelt down on the spot, ""Master Lin, I know that this request is very presumptuous but I really have no other choice. I hope that Master Lin will agree to it. In my next life, I'll do anything to repay your kindness!"

Lin Yi was getting more and more surprised-it looked like Qin Yue was ready to die. He'd never seen anyone try for xuansheng with this kind of mentality.

What was even more interesting was that Jiang He and Qin Yue had both asked him to help them carry their things. Did he look like a delivery man?

Speaking of which, it was no wonder. Who asked him to have connections with these two academies? moreover, he was also a high and mighty figure in the eyes of everyone!

If it was a normal disciple with average strength, no matter how reliable he seemed, Jiang He hai and Qin Yue wouldn't dare to ask for help. After all, be it the Golden core or the energy cultivating pill, they were both rare pills. Nine out of ten normal people would have to keep them for themselves, and only people like Lin Yi wouldn't care about such small benefits.

But what Lin Yi was really surprised about was something else-from what he'd seen on the way here, this Qin Yue was clearly in an ambiguous relationship with the other two morning Star male disciples. If she'd been thinking about Jiang He and hai the whole time, why would she do that?

Lin Yi helped her up from the ground, but before he could ask anything, Qin Yue's eyes were red."Thank you, Master Lin. If you see Jiang He hai, tell him that I, Qin Yue, have let him down. Tell him to cultivate properly and find another Dao partner ... I ..."

Before she could finish her words, Qin Yue's face was already full of tears. Choking with sobs, she turned around and was about to enter the lightning tribulation point.

Lin Yi's heart skipped a beat-there was more to this!

Previously, he had thought that she was the same kind of woman as situ Qian, but now it seemed that was not the case. If Qin Yue was really that kind of woman, she would not be so concerned about Jiang He and hai Shui after she had gotten together with another man!

A golden elixir of gathering a soul and an essence enhancing pill would cost a lot of money if they were sold. Even if Qin Yue couldn't use them herself, she could exchange them for an astronomical amount of spirit Jade and all kinds of extremely useful cultivation resources. After all, these two elixirs were very popular in the Golden-class Sea area, especially the latter.

If not for Jiang He and Hai River, Qin Yue would never have taken out these two pills. To any nascent Soul Stage expert, this was a huge investment.

But this wasn't the right place to ask questions like that. Lin Yi stopped her and asked, "Wait! What do you mean by that? Didn't you make any preparations to deal with the lightning tribulation?"

Although it was extremely difficult to break through to the xuansheng stage, as long as one had the Thunder profound pill, one's life could at least be guaranteed. In fact, even without the Thunder profound pill, as long as one had a life-saving elixir like the seventh-grade recover pill, one did not need to worry too much. There was no need to rush through with a certain-death attitude like Qin Yue.

To be honest, although fighting to the death was highly respected, it was not a good thing to use this kind of mentality when breaking through. The breakthrough was about success when the water flowed and it was not just about risking one's life. Once the mentality was too tight, it would fall into a disadvantageous position. A slight mistake would often lead to unimaginable consequences.

"No..." Qin Yue shook her head, but her expression returned to calmness, "I don't have the Thunder profound pill, and I don't have extra spiritual jades to buy some healing and life-saving medicinal pills. So, this time, I'm going to break through to the xuansheng stage. I'll either succeed or die."

Lin Yi was even more sure of his thoughts now-the two pills he had were more than enough to trade for a seventh grade recover pill, even if he couldn't trade them for a Thunder elixir.

After all, during the period of time before the road to the big shots' trials, the essence cultivating pill was actually much more popular than the great cyclic pill. As long as the news was released, someone would come to find him in minutes, and there was no need to spend any effort at all.

He could have done so, but he still had to risk his life to leave it for Jiang He hai. After all, to a normal nascent Soul Stage cultivator, the value of an essence cultivating pill and a golden core of the nascent Soul Stage was almost infinite.

Lin Yi was silent for a moment before he took a deep breath and handed a Thunder elixir to Qin Yue.

"Master Lin ... I can't take this ... It's too valuable ..." Qin Yue was shocked. She thought that it was already rare for a high and mighty figure like Lin Yi to agree to help her bring something back. Who would have thought that he would take the initiative to give her a pill, and it was the extremely precious Thunder elixir!

Chapter 4884 Lost Soul

However, Qin Yue immediately remembered that the other party was the master of the chief Alchemist, Qing Danzi. The Thunder profound pill was not a rare thing for him, and it would not be too shocking for him to give it away casually. However, how could he accept such a gift for no reason?

"You've misunderstood. I didn't give it to you. It's from Jiang He and hai Shui. " Lin Yi said, shaking his head.

"Ah hai?" Qin Yue was stunned and looked at Lin Yi in confusion. Her brain stopped working and she couldn't react.

"That's right, when I left the soaring Cloud School, he had me bring this to you, so I know you are his fiancée. " Lin Yi said with a smile.

"Ah!" Qin Yue had just managed to stop her tears, but when she heard these words, her tears suddenly burst out involuntarily. The warmth in her heart instantly wiped away all her unwillingness and grievances. Women could be very strong, but they were also very fragile.

Qin Yue's cry soon attracted the attention of the crowd in the distance. They all pointed at her and commented, "this ruthless mid-stage mysterious Ascension cultivator is really a lovestruck person. Not only did he take in two third fairy, but he also went to seduce other women. From the looks of it, he's probably using the lightning tribulation to force this woman to commit herself to him. Otherwise, why is she crying?"

However, the crowd was just watching for fun. Womanizing was a common problem for men. As long as they were strong enough, it was natural to take in more beautiful women into the room. There was nothing to criticize about this.

Lin Yi shook his head speechlessly as he listened to everyone's discussion. "Alright, you can break through in peace. We'll talk about the other things after you come out."

"Yes, thank you, Master Lin!" Qin Yue nodded heavily and walked towards the lightning tribulation, but she couldn't help but look back at Lin Yi with a complicated expression the moment she entered.

She was no fool. She had not reacted to the situation due to her emotional outburst just now, but now that she had slightly calmed down, she immediately felt that something was not quite right. With Jiang He and Hai's abilities, she would believe that they would bring her a golden pill of nascent condensation, but a Thunder mystical pill? This was not something that Jiang He and hai Shui could do!

But it was too late for her to say anything now, because Lin Yi had already walked into the lightning Point and activated the protection formation, ready to attack Xuan Sheng.

Qin Yue thought that with Lin Yi's status and ability, he must have a lot of Thunder mystical pills on him, and that was why he gave her one so casually. If she knew that this was actually the last one Lin Yi had, she didn't know what she would think.

In fact, this was indeed Lin Yi's miscalculation. He had already prepared the Thunder mystical pills for his people, so he only left one for himself. Even if he still had a lot of Thunder mystical vines in the Jade space, he didn't want to take them out to make more yet. He didn't expect to encounter this situation, and it was too late to make more now.

However, he was not entirely impulsive. Although he did not have any Thunder mystical pills on him, and it seemed like he would die if he tried to advance to the xuansheng stage, he was different from Qin Yue and the others. He had obtained the inheritance of the giant electric eel!

Along the way, some of the lightning tribulations near the entrance had already started working. Lin Yi had carefully observed the lightning tribulations triggered by others, and it was really shocking at first glance. Normal peak nascent soul cultivators might be turned into electric batons on the spot. The power was extraordinary.

However, Lin Yi didn't think that this level of lightning could cause any real damage to him. After all, it was far worse than when he received the giant electric eel's inheritance.

Lin Yi had a lightning spiritual root, after all. Normal lightning strikes didn't do him any harm, but instead, it was a rare supplement that could make his lightning stronger. Only when it exceeded the

upper limit of his endurance would it cause real lightning damage, but even then, the damage would be greatly reduced.

So when trying to break through to the xuansheng stage, other people without the protection of the Thunder mystical pill would have a 90% chance of dying, but for Lin Yi, it couldn't be said to be completely unaffected. At most, it would be a small problem, causing him to be slightly disturbed when forming his spirit root.

If it weren't for his confidence, Lin Yi wouldn't risk his life no matter how much he pitied Qin Yue. He wouldn't be so sympathetic to this extent.

Lin Yi took a deep breath and closed his eyes, preparing himself for the breakthrough!

The people who were still watching looked at each other. They believed Wang dianxing's words and thought that Lin Yi was a mid-stage mystique Ascension master, but what was a mid-stage mystique Ascension master doing in the lightning tribulation?

Could it be that this guy was not a mid-stage xuansheng expert? Just as the question appeared in everyone's mind, they saw Lin Yi channeling his practitioner's Arts at full force. The formation was only for protection, not blocking the situation inside. Everyone was shocked-this guy was a peak nascent soul?!

Plop! At this time, the people of thunderclap Academy had not gone far carrying Wang dianxing. After hearing the exclamations of the crowd, their hands trembled, and the number one Yuanying stage cultivator, who was already in a miserable state, fell to the ground on the spot. Suddenly, it made things worse, and he fainted from the pain.

After a while, the president finally woke up. The first thing he did was struggle to look in Lin Yi's direction, but one look and his heart broke.

"How is that possible? How was that possible? This kid is only at the peak of the original level, but he's already comparable to a mid-stage xuansheng?" Wang dianxing had only managed to catch his breath, but if he had fainted just like that, he probably wouldn't have died in peace.

"That's right, the chief is already the legendary perfect nascent soul, but at most, he's only comparable to the peak of the early stage of the mysterious Ascension realm. How can that guy be comparable to the middle stage of the mysterious Ascension realm? Did he take some medicine?" The others were also in disbelief.

"That's impossible. Even if he were to take the pills, he would have to wait until he's trying to advance to the mysterious Ascension stage. If he were to take half of the pills before trying to advance to the mysterious Ascension stage, wouldn't he be courting death if the pills failed halfway?" Someone shook his head and analyzed.

"That's right. Besides, what kind of medicine in the world can make a peak nascent soul instantly comparable to a mid-stage xuansheng? If there's really such a medicine, wouldn't everyone go crazy to fight for it?" The others also felt that it was impossible.

Everyone looked at each other and turned to dianxing-the one who had the most potential to see through Lin Yi was the thunderclap school's President, who'd fought him before.

"Perfect nascent soul! It's actually a perfect nascent soul that's stronger than me! This was impossible! How is this possible?" However, Wang dianxing was mumbling to himself in a daze ... "

## Chapter 4885 Taking The Lead To Break Through

If he had lost to a mid-stage Black rising realm expert, he wouldn't have felt that it was a big deal! Except for! Little bit of unwillingness! After all, he was only at the peak of the Yuanying realm now. When he reached the mid-stage of the black rising realm, he would be able to defeat a late-stage Black rising realm expert! Bullying! Peak Yuanying realm expert would be nothing!

However, if the other party was at the peak of the original level like him, then the blow would be too great!

Not only was he the head of the thunderclap Academy, but he was also the number one nascent Soul Stage cultivator. Regardless of whether this title was true or not, at least one point was that Wang dianxing had always been a super genius who had attracted a lot of attention. He was invincible among those in the same level. It was this crushing that had created the current Wang dianxing.

His strength didn't just come from his strength, but from the confidence that he was invincible against his peers. But after meeting Lin Yi, that confidence was shattered.

Once he lost his strong self-confidence, Wang dianxing was no longer the existence known as the number one Yuanying stage cultivator, but just an ordinary cultivator in the great circle of the Yuanying stage.

Even if Wang dianxing's injuries could recover, his self-confidence was gone. It was estimated that even if he tried to break through to xuansheng, it would be difficult to succeed.

The people from the thunderclap school carried the dejected Wang dianxing further and further away, and more than half of the onlookers had left. The remaining people wanted to stay and try their luck.

After Lin Yi and the others reached the xuansheng stage, they might be able to get to the lightning tribulation point if they were lucky. At most, they would just have to pay a price.

The time taken to break through to the xuansheng stage varied. According to past experience, as long as there was a suitable lightning tribulation point on the road to becoming a Big Shot, it would usually take three to five days at the fastest, or half a month at the slowest.

Of course, if he was outside, he might not be able to trigger the lightning tribulation for a year and a half.

However, this time, everyone was fortunate enough to have their eyes opened, because they saw someone who didn't even need three to five days. From the beginning to the end, it didn't even take a day!

It wasn't the attention-grabbing Lin Yi, nor was it the third fairy's Wang Xinyan or Huo yudie. It was the two guys who weren't paid much attention to before, Bao zuoliang and su kesheng.

The two of them were the first to enter the lightning tribulation point among the Morning Star cultivators, and they had chosen a remote location that was not very noticeable. For this attack on xuansheng, they had also made full preparations. They had actually given each of them a Thunder profound pill!

After all, Bao zuoliang was the son of a city Lord. His deep background was indeed different. He could even get a rare elixir like the Thunder profound pill, and two at once. Even su kesheng was benefited from this.

If it was only the Thunder profound pill, it would be fine. It could only save their lives under the lightning tribulation and would not allow them to be faster than others. However, don't forget that Bao zuoliang still had the lightning attracting Gu.

In a place with dense thunderclouds, the lightning attracting banner could easily attract lightning strikes with a light wave. Bao zuoliang had only made a slight move and the lightning tribulation of the two of them had already arrived!

In fact, if they didn't want to, they didn't even need to go through the lightning tribulation. However, this way, they couldn't use the power of the lightning tribulation to temper the spiritual roots in their bodies. They couldn't merge the two spiritual roots into one, and naturally, they couldn't attempt to advance to the mysterious Ascension realm.

It had to be said that although Bao zuoliang and su kesheng were full of evil tricks, their own strength was still quite good. After triggering the lightning tribulation, they successfully broke through in just one day and became the first mysterious Ascension stage Masters to come out of seclusion in the morning Star Academy!

At this moment, everyone, including Lin Yi, didn't even trigger their lightning tribulation, let alone successfully breaking through to the xuansheng stage.

The two of them broke through at such a terrifying speed. The onlookers outside were shocked and started to discuss with each other. When did this unknown Morning Star Academy become so awesome?

First, there was a nascent soul realm cultivator at the heaven-defying level who was comparable to the mid-stage of the xuansheng realm. Then, there were two guys who broke through in one day. In just one

day, they successfully broke through to the xuansheng realm. This already broke the historical record, right?

Every breakthrough was a process of accumulation, especially for the breakthrough of a major realm. It was common for it to take a few months. The process of breaking through to the mysterious Ascension realm would trigger the lightning tribulation, which was a little shorter. However, the principle remained the same. The faster the breakthrough, the stronger the person was.

If they followed this logic, then wouldn't these two Morning Star Academy disciples, who had broken through in one day, be able to easily crush their peers?

The crowd of onlookers revealed a look of awe, and after a long time, someone finally dared to come up and smile obediently, "Congratulations, two big Brothers. Breaking through in one day is simply a miracle that has never been done before and will never be done again in the future. The two big Brothers are really Dragons among men!"

Bao zuoliang and su kesheng were stunned for a moment, then they nodded with a bit of pride. Everyone liked to hear compliments, and they were no exception. Especially Bao zuoliang, who grew up listening to such words. He would feel uncomfortable if he didn't hear it for a day.

"Big Brothers, you two are already high and mighty xuansheng stage experts. You don't need these two lightning tribulation points anymore. This little brother is extremely grateful, and will definitely repay you in the future!" Seeing this, the man quickly expressed his intentions. If it wasn't for the Thunder tribulation point, he wouldn't have come over to these two people to fart. It wasn't like they had nothing better to do!

"Get lost!" Bao zuoliang had just been complimented and was beaming with joy, but when he heard this, he immediately turned hostile and cursed, ""You're asking for a lightning tribulation point just because you're trying to flatter me? You're looking for death!"

"Uh ..." That person was shocked. He didn't even dare to let out a fart in the face of two newly advanced early stage mysterious Ascension experts. He hurriedly nodded and bowed to apologize. Then, he shrank his head and wanted to retreat.

"Hold on!" Su kesheng stopped him and turned to Bao zuoliang, whispering, "Young master Bao, our lightning tribulation spot is empty anyway. Why don't we just give it to these people? it'll be easier for us to deal with that Lin guy. After all, we can't just create lightning tribulations out of thin air. The more people there are, the easier it will be for us to mobilize the lightning tribulation."

"What do you mean?" Bao zuoliang was slightly taken aback. He looked at the surrounding lightning tribulation spots. There were more than 50 of them, so one or two more shouldn't be a problem, right?

"Young master Bao, think about it. If we only mobilize our own Morning Star Academy's disciples, even if we kill that Lin guy, they'll definitely find out that something's wrong after so many people discuss it. If the higher-ups personally lead a team to investigate, it might be troublesome." Su kesheng whispered.

"That's true. Using the lightning attracting strike to transfer someone's lightning tribulation to Lin fan, then these people's lightning tribulation will be problematic. At that time, they won't be able to break through successfully. If it's just one or two people, it can be considered an accident, but if there are too many of them, it will definitely arouse suspicion. With Lin fan's background, the higher-ups of our Academy will definitely not let this go, especially Qing Danzi. " Bao zuoliang nodded in agreement.

Chapter 4886 Insurance

"That's why we have to find a few more of these irrelevant people and mobilize the lightning tribulation from them. Then, we'll draw some from the people from the school of pride and the soaring Cloud School. By then, no one will be able to find out anything even if they want to!" Su kesheng laughed.

"Not bad, not bad. You're a meticulous brat. Otherwise, I would've really left a flaw this time!" Bao zuoliang's eyes lit up when he heard that. He secretly gave a thumbs up and immediately said to the nervous-looking man, ""Alright, since you're so sincere, I'll give you a Thunder tribulation point."

"Ah? It was true! Thank you, big brother! Many thanks, big brother!" That person was instantly overjoyed and hurriedly wanted to enter the lightning tribulation point, but he was stopped by Bao zuoliang.

"Hey, you're too much. Do you really think that the Thunder points are given for free? shouldn't you at least show some appreciation? If there's none, I'll give it to someone else. No one else can get such a good lightning spot!" Bao zuoliang looked like he was waiting for the right price.

When the people in the distance heard this, they were really eager to try. They had seen the benefits of this Thunder tribulation point. Bao zuoliang and su kesheng could trigger the Thunder tribulation not long after they entered. It was obvious that they were very active. It was worth it to pay a little price for this.

"This ..." That person hesitated for a moment. In the end, he gritted his teeth and took out an item. It was actually a small piece of nascent ginseng.

"This is more like it!" Bao zuoliang's eyes lit up. Although the Golden elixir was useless to him, the baby ginseng was different. This thing was priceless and could be used to make all kinds of good things, not just the Golden elixir.

As for the other lightning tribulation spot, it was quickly given to the crowd. Of course, this came at a high price.

Bao zuoliang and su kesheng looked at each other and sneaked behind a huge rock when no one was looking. They smiled evilly as they prepared to deal with Lin Yi.

After a whole day of preparation, Lin Yi was at his peak condition. He was ready for the lightning tribulation, but he didn't have the lightning guiding strike like Bao zuoliang and the others. It was all down to luck when the lightning tribulation came. There were clouds above him, but if he was unlucky, he could wait for eight to ten days.

The wait seemed long, but Lin Yi didn't want to be distracted at all. He'd noticed the lightning tribulations triggered by Bao zuoliang and su kesheng earlier, but he didn't pay attention to them. The lightning could strike at any time, and the consequences would be unimaginable if he was distracted.

It's here! Lin Yi's eyes suddenly lit up as he prepared himself for the lightning, but after a long while, nothing happened.

Lin Yi couldn't help but find it strange. He had a lightning spirit root and was very sensitive to lightning power. He clearly felt that there was a powerful lightning strike brewing above his head and was about to fall, but why did it wait for a moment and then force it back?

To make an unsightly analogy, this feeling was like going to the toilet halfway and clearly coming out, but then suddenly forcing it back. What the hell was going on? Could it be that the Thunder God was trying to play with him?

Of course, this was not the Thunder God's idea. If there was really a Thunder God, he would probably be very uncomfortable at this moment. How could he take it back willingly? It was clearly someone who had stabbed it back for him!

The people behind all this were, without a doubt, Bao zuoliang and Su Kesheng. The lightning attracting strike couldn't control the lightning completely, and it couldn't create something out of nothing, but it could take advantage of the situation. It was easy for it to delay the lightning tribulation that Lin Yi had triggered.

"That was close, I almost let that surnamed Lin slip over!" Bao zuoliang and Su Kesheng looked at each other with lingering fear. If the lightning really did fall, they wouldn't have the time to do anything. It was just a normal lightning tribulation, and it obviously couldn't do any harm to Lin Yi. A simple Thunder elixir could solve it.

Fortunately, Su Kesheng reminded him in time, and Bao zuoliang finally managed to stall him at the last moment. Otherwise, all his efforts would have been in vain.

"Over there! Over there!" Su Kesheng suddenly pointed in a direction. At this moment, someone from the other side had finally triggered the lightning tribulation. Moreover, it was a disciple from the proud of the Dawn Academy. Naturally, he could direct the lightning tribulation over without any worries.

"Haha, good!" Bao zuoliang grinned and hurriedly waved the lightning attracting pennant to mobilize the lightning tribulation. He had specifically studied the usage of the lightning attracting pennant for the past few months. Although he was very rusty in using it, he could already barely mobilize the lightning tribulation and not make any mistakes in his panic.

One of them was looking for targets while the other was concentrating on mobilizing the lightning tribulations. The two of them quickly gathered the lightning tribulations of four people. Without exception, they were all disciples from the proud Dawn School and the soaring Cloud School.

Lin Yi's death aside, the four of them were definitely at a disadvantage. It wasn't easy for them to trigger the lightning tribulation, but now, it was being pulled out of the pot. It would be fine if they could trigger it again in a short time, but if they couldn't, then the test would end here. They didn't even need to think about Xuan Sheng-they could come again next time.

"Tsk, tsk, the lightning tribulation of four people here, plus that guy's own, that's a total of five people's lightning tribulation. Strike him to death!" Bao zuoliang couldn't wait to make his move. According to his plan, he only needed two extra people to kill Lin Yi, and he was already very patient this time.

"I think we should get more. What if he doesn't die from the lightning?" Su kesheng still felt that it was not very safe.

"How can it not be killed by lightning? One of his Thunder profound pills can at most withstand one person's Thunder tribulation, and he can still survive the Thunder tribulations of the other four people. Do you think they raised Thunder tribulations?" Bao zuoliang scoffed at this and said, ""Even if we can't kill him, we're both at the early stage of the mysterious Ascension realm. Two on one, can't we kill him?"

"Please don't! Young master Bao, you've seen it for yourself just now, that Lin's strength is not to be underestimated. A peak nascent soul is comparable to a mid-stage mysterious Ascension cultivator. If he becomes an early-stage mysterious Ascension cultivator, how can we defeat him?" Su kesheng shook his head.

"Uh ..." Bao zuoliang suddenly broke out in a cold sweat. He was so high-spirited and arrogant because he had just broken through, but after su kesheng's reminder, he immediately returned to reality.

Yes, with their strength, they couldn't even defeat Lin Yi at peak nascent soul realm, let alone after Lin Yi reached xuansheng!

"So, it's safer to get a few more Thunder tribulations. We won't lose anything anyway. It's just a little more time." Su kesheng advised.

#### Chapter 4887 Merging With The Spirit Root

"Hmm, that makes sense." Bao zuoliang didn't dare to act rashly after he came to his senses. He continued to accumulate lightning tribulations from the others.

Due to the influence of the lightning attracting pennant, everyone's lightning tribulation was triggered much faster than the average speed. This was convenient for Bao zuoliang and su kesheng. If everyone was unable to trigger the lightning tribulation, they would not be able to do anything. They were still waiting for the dishes to be cooked. After all, it was very tiring to control so many lightning tribulations with the lightning attracting pennant.

Finally, the two felt that it was about time. Including Lin Yi 's, he had controlled ten people's lightning!

After gathering such a huge amount of lightning energy, even the lightning guiding strike couldn't take it anymore. It was almost at the limit of its control. If it wasn't so, Bao zuoliang and su kesheng would probably continue to gather more. After all, the strength Lin Yi showed just now was too shocking. If he didn't die from this strike, there would be endless trouble in the future.

"This is good, I can definitely kill that Lin guy!" Su kesheng's eyes lit up as he urged.

"Hehe, just wait and see. It's time to witness a miracle!" Bao zuoliang was even more eager than him. He looked at the Super thick layers of thunderclouds above his head as if he was looking at a naked beauty. He wanted to pounce on them and kiss them hard. This was all his work!

Lin Yi, who was still in the middle of the lightning tribulation, didn't feel anything at all. He was still wondering why the lightning didn't come down when he felt the strong lightning gathering above him!

"What the hell is this?" Lin Yi was confused, but there was something that was even more confusing- what kind of spiritual roots should he form?

Most people would not have this kind of trouble. Those who only had a single spiritual root did not even need to consider because they did not even have the qualification to try for the xuansheng stage. Of course, those who could enter the East Province Academy basically had double spiritual roots. These people did not have any hesitation and just fused the two spiritual roots.

As for people with three spiritual roots, even in the East Province Academy, where geniuses gathered, there were not many choices. It was just a combination of two or two of three spiritual roots and the final plan was the best.

But Lin Yi was different-he didn't just have three attributes, he had a whole eight! Metal, wood, water, fire, and earth were the five basic attributes, and he also had ice, mist, and lightning-it was a huge headache to choose!

If possible, of course, Lin Yi would love to merge all his spiritual roots into one, but that wasn't realistic at all. The damn thing said that although his physique was special, it was theoretically possible for him to merge all eight elements into one, but the possibility was very small and could be ignored.

The limiting factor wasn't talent, but a lack of motivation. It was an extremely difficult and complicated process to fuse spirit roots of different attributes together. To a certain extent, this was like breaking and then establishing.

To destroy the original multiple spiritual roots and re-shape and merge them into a new spiritual root, the two processes required the help of an extremely powerful external force, and this external force came from the lightning tribulation!

For most people, the Thunder tribulation was a destructive force that could turn people into ashes in an instant, but at the same time, it was also an extremely rare power of creation. Under the Super-tempering of such a powerful force, it would not be strange for anything to be born, including the spirit root.

However, no matter how shocking the Thunder tribulation was, there was a limit to the amount of Thunder Power that everyone could trigger. After all, if one really exceeded the limit, it would be a Thunder burial instead of a Thunder tribulation. No matter how many Thunder profound pills an ordinary person had, they could not even think about surviving under the power of the Thunder burial.

According to this damned thing's estimation, an ordinary person's tribulation lightning power was generally only enough to fuse two spiritual roots attributes. Only in very rare circumstances would there be a chance to fuse three spiritual roots attributes, and that was already the limit!

It was for this reason that it was rare to see a three-spirit xuansheng stage master in the five Sky Class islands. The so-called three-spirit xuansheng stage master was the existence of three spiritual roots attributes. Ordinary xuansheng stage Masters only had two spirits.

Although there weren't many geniuses with three types of spiritual roots, they weren't so rare. The restriction of the lightning tribulation was the key.

Out of all the experts who had successfully advanced to the mysterious Ascension stage in history, only 10% of them had three spiritual roots attributes at most. And among this 10%, not even one-tenth of them were able to integrate three spiritual roots attributes at once.

Therefore, no matter where he went, a three-spirit xuansheng stage master was a rare thing, because this was the same as a perfect golden core and perfect nascent soul. When facing Masters of the same level, it was almost an absolute existence. What the hell was that!

Not to mention an eight-spirit-Ascension master, Lin Yi was probably the only one in the world who had eight different spiritual roots. Normal people wouldn't even have heard of it.

So Lin Yi's biggest headache right now was to choose three out of the eight spirit roots. Even so, he had to be prepared for the failure of combining the three into one, and he might only be able to combine the two into one in the end.

In fact, Lin Yi had thought of another way, and it was quite feasible at first glance, but the damn thing extinguished it with one simple sentence.

Lin Yi's idea was simple-he'd just have to do it multiple times, and every time it'd be two in one. Wouldn't it be eight in one after seven times?

Normal people wouldn't have this kind of weird thought, because to them, the xuansheng stage was just a one-time thing. If they succeeded, then they succeeded. If they failed, then they failed. Only a freak

with an eight-element spiritual root like Lin Yi would be so original and think of repeating it over and over again.

In this case, every repetition was equivalent to a new breakthrough to the mysterious Ascension stage. In any case, this place was filled with thunderclouds and he had many spiritual roots attributes. In theory, it was not impossible.

However, the demonic thing almost laughed out loud when it realized this. "Do you think fusing with a spirit root is like cooking? If you want to add oil and vinegar, can you still heat it up again if it's not done well?"

"Uh ... Could it be that this is not reliable?" Lin Yi scratched his head.

"Nonsense, of course it's not reliable. There is only one chance to integrate the spirit root. There is no next time. I have lived for so long and have never heard of anyone's spirit root that can be repeatedly integrated. Otherwise, Masters of the three spirits 'mysterious Ascension stage would have been everywhere. How would it become such a rare animal today?" The ghostly thing laughed.

Chapter 4888 Give Up Halfway?

Lin Yi could only give up now. Since an eight-spirit xuansheng master was just an impossible dream, he could only return to reality and think about which three elements to merge.

However, there was no answer to this question. No matter who it was, they would probably scratch their heads. It should be known that for a xuansheng stage expert, although the other individual elemental spiritual roots would always exist, the real use in the future would be the multiple elemental spiritual roots after the fusion. In other words, the type of elemental spiritual root that was fused would directly affect the strength of the person after the xuansheng stage!

Ice, mist, and lightning were rare, and they were all very useful. Lin Yi didn't want to exclude any one of them, and as for the other five regular spiritual roots, it wasn't easy to exclude them. At least, Lin Yi had always been very comfortable with the fire element, not to mention the five elements killing intent that he had hidden up his sleeve, which was built on top of the five regular spiritual roots.

The more he thought about it, the bigger his head got ... He didn't want to give up on either one ...

There was no one else in history who could be this depressed when trying to break through to xuansheng. Just as Lin Yi was struggling with his thoughts, there was a loud explosion above his head. A huge lightning pillar that was visible to the naked eye came crashing down without any warning!

Other people's lightning pillars were at most as thick as a bucket, and that was already shocking enough. Lin Yi's wasn't a bucket at all, it was a super huge water tank!

"Hahahahahaha!" Bao zualiang and su kesheng, who were hiding in the corner, saw this shocking scene and laughed so hard that they almost passed out. Even they, the two behind the scenes, did not think that the scene would be so spectacular and terrifying.

Such a brutal and terrifying lightning tribulation-even a mountain opening powerhouse would die on the spot if it hit their head, let alone a mere Lin Yi!

The rest of the onlookers were horrified. Many of them were scared away on the spot. They didn't know that there was more to this. They thought that the lightning tribulation here was so brutal. If they were to be treated like this when they entered, they would be turned into charcoal in minutes!

Lin Yi, who was at the lightning tribulation point, was shocked as well. This super lightning pillar came too suddenly, catching him off guard. But when he reacted, he was happy instead of shocked!

He was worried that he didn't have enough lightning power, but a super lightning pillar came from the sky. It was probably more than ten times stronger than the others. Now, not only did he have a chance to have three spirits, but he could even have a chance to have eight spirits.

However, in the next moment, when the lightning pillar touched his body, this pleasant surprise was instantly shattered. All that was left in his mind was that last bit of feeling.

Intense pain, unparalleled pain!

He'd been through all kinds of pain since he was a kid, and he even had special training to resist electric shock before he left the secular world. Dealing with all kinds of attacks, including electric shock, was the basic quality of a killer, not to mention that he'd received the giant electric eel's lightning inheritance, and had a lightning element spiritual root.

But Lin Yi was obviously overthinking it. Even if the strength of the lightning wasn't as strong as the giant electric eel's, there was still a difference between the two.

The lightning inheritance was also in the form of lightning, but that was purely an illusionary attack in the spiritual world. As long as Lin Yi's will was strong enough, the physical body wouldn't suffer any physical damage. This time was completely the same, it was a real lightning strike!

Lin Yi's willpower was fine, but he was still made of flesh and blood. Even if his body was much stronger than a normal peak nascent soul, it was still impossible for him to withstand such a powerful lightning strike.

Lin Yi's entire body was enveloped in the pillar of lightning, shaking like a sieve. The pain was unimaginable.

"Haha, that Lin guy is dead for sure this time. Even his bones have been electrocuted!" Bao zuoliang's face lit up as he watched-Lin Yi's face was covered by the Super lightning pillar, and only a human skeleton could be seen.

"After all, it's a lightning tribulation that's ten times stronger. If he can even withstand this, he's not a human." Su kesheng laughed and then said with a strange expression, "Young master Bao, did you notice that Lin didn't seem to have taken the Thunder profound pill?"

"Really? Did he forget to take it?" Bao zuoliang froze, remembering that Lin Yi didn't have that characteristic Thunder mystical pill buffer layer on him. There was only one explanation-Lin Yi didn't take the pill before, but how was that possible? No matter how he looked at it, this kid didn't seem like the kind of person who would be short of Thunder profound pills.

"Maybe my eyes are playing tricks on me. It's normal for such a powerful lightning strike to shatter the protective layer of the Thunder profound pill." Su kesheng shook his head. He didn't believe that Lin Yi would make such a stupid mistake.

"Haha, it doesn't matter. That Lin guy is going to die anyway!" Bao zuoliang said proudly.

However, what the two didn't expect was that even though Lin Yi suffered a lot from the lightning, he was still able to endure it. With his unparalleled willpower, he forcefully held on to his body, which was on the verge of breaking down. He didn't turn into ashes just like that!

At this time, as long as he could hold on and not die, he would definitely gain something.

Lin Yi could clearly feel that the lightning element in his body, which wasn't very strong before, was starting to move under the baptism of the lightning. It became the first of the eight elements to be triggered!

It was like a young seedling that had just started to sprout, and after being watered, it suddenly started to grow like crazy. The lightning element spirit root was moving around in Lin Yi's body at an unbelievable speed, absorbing the power of the lightning bit by bit, becoming stronger and stronger!

In the end, the lightning element didn't even need Lin Yi to use his Arts anymore. It took control of everything, as if it was taking over Lin Yi's body and devouring other elements.

Ice, mist, metal ... All the different spiritual roots were being devoured one by one. Lin Yi never thought that the weakest of the eight spiritual roots, the lightning spiritual root, would catch up and become the master of everything!

In a short period of time, four of the other seven spiritual roots had been devoured, and the remaining three were about to be absorbed. At this time, the Thunder spiritual root suddenly became less active after the fusion. The devouring speed became slower and slower, and it was about to give up halfway.

Chapter 4889 Lightning Tribulation Ten Times

Lin Yi panicked. This wouldn't do. Although five in one was already far beyond his expectations, his ultimate goal was still eight in one. Only when all eight elements were merged into one would it be the strongest!

But Lin Yi couldn't control the lightning, and could only watch as it got weaker and weaker. When the last bit of lightning energy was used up, everything would be set in stone.

But at this moment, the lightning energy field above him suddenly grew stronger for some reason. In just a short moment, the intensity of the lightning was similar to the previous one, making Lin Yi pleasantly surprised!

It seemed that the Thunder God really took special care of him. The strength of the Thunder tribulation was ten times stronger than others, and it came again after another round. He was afraid that he would not be killed. Fortunately, he had received the Thunder inheritance of the giant electric eel before, and his resistance to Thunder was more than a thousand times stronger than ordinary people. Otherwise, he would not have been able to survive this time!

What Lin Yi didn't know was that the person he needed to thank wasn't the Thunderlord, but Bao zuoliang and su kesheng. After all, they were the ones who started the Super lightning tribulations.

The two were panicking-they wouldn't have thought that Lin Yi wouldn't be reduced to a pulp in the face of such a terrifying lightning tribulation, and he was still struggling-what kind of physique was this?

If they couldn't kill Lin Yi this time and let him walk out of the lightning zone alive, the two knew that they'd never get a better chance than this.

And so, Bao zuoliang and su kesheng couldn't care less about the plan they'd made beforehand-they quickly added ten more people's lightning bolts. As for whether or not the target was a Morning Star disciple, it wasn't even in their concern-it was nothing compared to killing Lin Yi.

It was another wave of extreme pain, but Lin Yi was happy with the pain. After the experience of the super-strong lightning strike, this kind of pain wasn't so unbearable to him anymore. Moreover, it just happened to give the new spirit root a strong motivation, and it devoured the remaining three elements crazily without stopping.

"Is this guy even human? he's still not dead?" Bao zuoliang and su kesheng almost went crazy when they saw Lin Yi struggling to survive the lightning tribulation again.

Normally, even a mountain opening stage cultivator wouldn't be able to withstand such a powerful lightning tribulation, but Lin Yi was just a peak nascent soul cultivator, and he didn't die after taking it twice. The two thought that they had planned this out very carefully, but who would've thought that they would run into a freak who couldn't be killed by lightning?

"I don't care anymore, I must strike him to death this time! As long as there's no real evidence, we can shirk all responsibility when someone investigates later!" Bao zuoliang said ruthlessly.

"Well, if we don't kill that Lin guy this time, there will be endless trouble. Let's not talk about whether we can deal with him in the future. When he comes back to his senses after he breaks through, he might suspect us. We must kill him at all costs!" Su kesheng nodded heavily.

The two looked at each other, gritted their teeth, and began to risk their lives. Basically, as long as they could see the lightning around them, they transferred it all to Lin Yi. Only Wang Xinyan and the other people who were close to Lin Yi made them a little scared, and they didn't dare to do anything to them, in case they exposed too much.

However, this was already enough. There were more than 50 Thunder tribulation points around them. If the two of them were to play with their lives, it wouldn't just be a 10 times Thunder tribulation 2, but a 3 times 4 times Thunder tribulation!

The two of them were madly drawing in lightning, but Lin Yi didn't seem to be aware of it. He used the Super strong lightning tribulation to merge all eight elements together, turning them into a new eight-element compound spirit root!

Even xuansheng stage cultivators only had complex spiritual roots, and even complex triple spiritual roots were rare. Lin Yi's complex eight spiritual roots was completely unprecedented, and it would probably be hard to find another weirdo like him in the future.

Thanks to these two, not only did Lin Yi fuse all eight elements, but the lightning was still raging above his head. He decided to strike while the iron was hot and start the next step of the fusion.

Since the lightning element was the first to activate, Lin Yi's combined eight spirit roots were mainly lightning. Although it didn't affect the other elements, the most powerful element in his body was lightning.

This was something unimaginable before-don't forget that lightning wasn't Lin Yi's main force in terms of offense and defense. At most, he could rely on his unparalleled speed advantage to harass the enemy, but it couldn't cause any substantial damage to a strong enemy.

However, it was different now. The power of the lightning had increased by hundreds or even thousands of times in a short period of time. If he were to throw it out with a wave of his hand, it would not be a thin arc of lightning like before, but a real powerful lightning strike!

The key was that this wasn't the end. While the endless lightning tribulation above his head continued to temper his new compound eight spiritual roots, it also further strengthened the power of lightning in his body.

At this point, the lightning tribulation was no longer a torture to him, but a real enjoyment. It was like taking a big supplement pill. The lightning tribulation came as many as it could. The feeling of the power in his body rapidly growing and filling could only be described with one word-great.

BOOM! BOOM! The ten-fold lightning bolts kept on bombarding Lin Yi's head, as if the end of the world was coming.

At this time, not many people dared to stay and watch. After all, even if such a horrifying Thunder tribulation point was given to them for free, they would not dare to take it. At this time, standing far away from it, they would be struck by the scattered lightning from time to time. Even the slightest touch would make them feel like dying. If they were to sit in the Thunder tribulation point, they did not dare to imagine the feeling!

They weren't like Lin Yi, who was an undying cockroach. If they were in Lin Yi's position, they would've lost a hundred lives already.

At this time, not only the onlookers, but the entire path of the big shots was in a state of panic. When the news of the tenfold lightning tribulation spread, everyone thought that it was a sign of the early arrival of the lightning burial. Although the trial had never coincided with the lightning burial before, what if?

In any case, the sudden appearance of a lightning tribulation ten times stronger was definitely not an ordinary phenomenon. To be on the safe side, the disciples of the various Academies who had received the news had already thought of escaping as soon as possible.

Regardless of whether they succeeded or failed, they had no intention of staying here for long. Some of the more timid people didn't even have the chance to advance to the xuansheng stage. They believed what others said and simply gave up on this opportunity. It was better to be safe than sorry.

Chapter 4890 Quickly Run

If it was just false news, then they could only wait for a few more years at most for the next trial to open. However, what if the lightning burial really came? if they lost their lives, they would have nothing left.

As the instigators of all this, Bao zuoliang and su kesheng didn't care about the reactions of the people outside. They stared at Lin Yi, who was in the lightning zone. They watched as Lin Yi became calmer and calmer under the lightning, their eyes almost bleeding.

"Numbed! Numbed! It's numbing!" Bao zuoliang was no longer as proud and confident as he was at the beginning. At this moment, he had become hysterical. He growled with a ferocious face,""Impossible! There was no way he could withstand such a powerful lightning tribulation! My eyes are playing tricks on me, yes, it must be my eyes playing tricks on me. This guy was already electrocuted to death inside, but he didn't fall down because his body was paralyzed by the electricity. That must be it!"

Lin Yi changed to a comfortable position at the lightning spot, shattering the guy's self-deceiving fantasy.

Bao zuoliang was speechless, his face twitching like crazy. Compared to the calm Lin Yi, he looked more like he was struck by lightning.

"Maybe he had taken a lot of Thunder profound pills in advance, so he could withstand such a strong Thunder tribulation?" Su kesheng was frowning at the side. He couldn't think of any other explanation no matter how hard he racked his brain. However, the profound Thunder pill could only form a layer of lightning buffer on the surface of the body. In the end, the lightning power would still enter the body, but the method was more gentle.

He had never heard of anyone who could withstand such a terrifying lightning tribulation after taking too many Thunder profound pills. After all, no matter how gentle and harmless the method was, this much lightning power couldn't be fake, right?

Any human being should have been stuffed to death by now. How could he be completely fine?

"Who cares how many Thunder profound pills he has eaten? this time, I must kill him, kill him!" Bao zuoliang didn't care at all. His mind was filled with killing Lin Yi at all costs. Ten people was already the maximum limit of the guiding lightning strike, but he gritted his teeth and sent Lin Yi a super lightning strike fifteen times stronger!

Lin Yi was happy now, but Bao zuoliang himself was out of luck. He'd used three tenfold lightnings before, and the guiding lightning was already burning up his body. This time, it was a fifteen-fold lightning...No matter how good the quality was, it couldn't take this.

Buzzzzzz! Under the extremely high load, the lightning attracting banner finally couldn't bear it anymore. A flame suddenly appeared on top of it and it was burned to ashes in an instant.

"Ugh ..." Bao zuoliang and su kesheng were both stunned as they looked at the pile of ashes in front of them. They couldn't react in time. The lightning didn't kill Lin Yi, but turned him into ashes instead. What the hell was going on?!

After being stunned for a while, Bao zuoliang suddenly yelped and muttered with a sad face, ""My 12 million!"

He had bought the lightning attracting banner at a super-large auction for twelve million spirit Jade. Although its uses were limited, it was comparable to a divine weapon in a special occasion like the road to the big shots. Naturally, the price was outrageously high. Even with his wealth as the son of the castellan, twelve million spirit Jade was enough to make his heart bleed.

The reason why Bao zuoliang had bought this item back then was because he had indeed wanted to prepare for the trial on the road to becoming a Big Shot. However, the main reason was that he had bought it on a whim. In fact, he had regretted it a little after buying it on the spot.

Using it against Lin Yi this time was a rare opportunity. According to Bao zuoliang's plan, he would secretly sell it in the black market after using it. First, he could destroy the evidence, and second, he could earn back his money. Killing two birds with one stone.

In the end, the evidence was completely destroyed, and the 12 million spiritual jades were also gone. Bao zuoliang had really lost a lot of money this time!

"Forget it, forget it. It's not a loss to buy that Lin fellow's life with twelve million spiritual Jade!" Bao zuoliang could only comfort himself like this. He could see that Lin Yi was already struggling at the start of the tenfold lightning tribulation, and now that it was fifteen times, it was definitely the last straw that broke the camel's back.

If even an opening mountain powerhouse could be killed, why wouldn't Lin Yi, a mere peak nascent soul realm cultivator, die?

"This ... Master Bao, why don't we just leave ..." Su kesheng pulled Bao zuoliang with a bitter smile. He saw a figure walking out of the lightning spot. Who else could it be but Lin Yi?

F \* ck! Bao zuoliang's eyes were wide open, speechless. He looked at Lin Yi as if he was a ghost. He survived fifteen times the normal lightning, and he looked so relaxed. Was he a human or a ghost?!

Lin Yi's eyes were on them, and the two's hearts jumped to their throats as they quickly hid behind a Boulder. They didn't kill Lin Yi, but they did something wrong. If they looked at Lin Yi, they might expose themselves.

"Run ... Hurry up and run ..." Bao zuoliang didn't have time to be angry. He turned around and left with a pale face. He didn't dare to stay here any longer. The lightning couldn't kill Lin Yi even after 15 times, and the most ridiculous thing was that Lin Yi even succeeded in breaking through to the xuansheng stage. Facing such a terrifying monster, if he didn't run now, was he going to stay here and wait for death?

The two cowards got more and more scared the more they thought about it, and they quickly ran away before Lin Yi noticed them.

In fact, the two were just overthinking it. Lin Yi never suspected that they were behind this. He thought that it was because he had too many elemental spiritual roots, especially the lightning one, which was like a lightning needle, that triggered the Super lightning tribulation.

He looked around at the other lightning spots, and what made him feel strange was that other than Bao zuoliang and su kesheng, who had left without him knowing, no one else had broken through, not even Xinyan and the others.

Could it be that he was influenced by her? Lin Yi couldn't help but wonder-could it be that his lightning needle was attracting everyone's lightning here?

It had to be said that this was a very reliable guess, but Lin Yi's lightning attracting needle wasn't innate-it was man-made, controlled by those two cowards.

There weren't many people around anymore-most of them had left in fear, leaving only a few brave people behind. They didn't want to approach Lin Yi even when he came out.

After all, Lin Yi's strength was too strong. When he was at peak nascent soul, he was already at mid-stage of the mysterious Ascension realm. Now that he was at the early stage of the mysterious Ascension realm, didn't that mean he was invincible in the mysterious Ascension realm?
