

Bodyguard 4891

Chapter 4891 Man-Made Lightning Tribulation

If he got too close and made this ruthless person unhappy, he would not even know how he died.

Plus, Lin Yi's lightning spot was empty now, but who would dare to use it after seeing that terrifying lightning? It would be better to wait for the others patiently and see what the situation was like.

Lin Yi didn't care about them, and he didn't leave immediately. He stayed behind to protect everyone. With him and the protection formation, they didn't have to worry about anything when they attacked xuansheng.

Without Bao zuoliang and su kesheng's interference, not long after, everyone finally triggered the lightning tribulation one after another and officially began their attempt to advance to the xuansheng stage.

Lin Yi's attention was naturally focused on Wang Xinyan, Huang xiaotao, and Huo yudie. Looking at their painful expressions, Lin Yi wanted to replace them with himself, but there was nothing he could do.

Although the three women had taken the Thunder profound pill, which could reduce the pain caused by the Thunder tribulation to a great extent, the power of Thunder still had to enter their bodies in the end. This process was still very painful and tangled for them who did not have Thunder attribute spiritual roots. However, cultivators had always been against the heavens. If they could not even endure this little pain, then they could forget about trying to break through to the profound Ascension realm.

The only thing Lin Yi could do now was to wait for the three girls to come out of their training.

In less than half a day, Wang Xinyan finally broke through. After all, she was the proud disciple of Donghai's nun, and her strength was far stronger than other people of the same level.

Huo yudie was the next to break through. Her talent in cultivation was only slightly inferior to Wang Xinyan, and she had been stuck in the peak of the original level for many years. She had a deep foundation, so this time, she was trying to break through to the xuansheng stage with a good preparation.

Lin Yi couldn't help but be overjoyed. This way, three out of the four had successfully broken through, leaving only Huang xiaotao behind.

However, as time went by, Huang xiaotao's progress wasn't as smooth as Wang Xinyan and Huo yudie's. This wasn't hard to understand. Three months ago, she was still in the Golden core stage, but now, her strength was purely built up by the seven energy cultivating pills. Even if she was in the perfect nascent Soul Stage like Lin Yi, it was inevitable that her Foundation wasn't strong enough.

If it was just a fight, it might not seem like much of an impact on the surface. However, at the final juncture of the Xuan Sheng class, the lack of foundation was a fatal flaw. At least, it would be difficult to succeed like Wang Xinyan and Huo yudie. The whole process would be extremely difficult, and the possibility of failure was extremely high.

The president of the Alliance had already said that the first attempt to break through to the xuansheng stage was extremely important. If they failed this time, it would be even more difficult to try again in the future. It was almost impossible to succeed.

In other words, once Huang Xiaotao failed, she would no longer be able to reach the Xuansheng stage and would only be able to advance to the great circle of the original level.

After seeing this, Wang Xinyan and Huo Yudie's joy disappeared. They could only stay by Lin Yi's side anxiously, praying for Huang Xiaotao.

"Eh? It's not looking good?" Lin Yi frowned.

"What's wrong?" Wang Xinyan and Huo Yudie looked at each other.

"Look, the lightning tribulation above Xiao Tao has begun to weaken, but it looks like her spirit root hasn't fully integrated yet?" Lin Yi said, worried.

"Really?" Wang Xinyan was shocked. Huang Xiaotao's expression was indeed very conflicted. Other than the stimulation from the lightning, it was only when she fused with a spirit root that she would feel so much pain.

"By the way, I also feel that the lightning tribulation is not as powerful as I thought. In the end, it's not even enough to temper my spiritual root. Fortunately, I fused it fast enough. Otherwise, I might have failed at the last step." Huo Yudie said with lingering fear.

The lightning tribulation was undoubtedly a challenge, but it was also a necessary source of power for fusing the spirit root. Once the lightning tribulation weakened at the end, it was inevitable that everything would be in vain-Lin Yi was deeply aware of this.

"Actually, it's not just you and Xiao Tao's lightning tribulations that are weaker. Look at the others. Their lightning tribulations are generally much weaker than the ones we saw on the road." Lin Yi said, shaking his head.

"That's right, now that you've mentioned it, it's true!" Wang Xinyan and Huo yudie finally noticed this, and they couldn't help but ask, ""Why is that?"

"I'm not sure, but the intensity of the lightning tribulation I triggered before was dozens of times stronger than yours, and it was more than once. Perhaps it was influenced by me." Lin Yi said with a bitter smile.

"A lightning tribulation that's dozens of times stronger?!" The two girls jumped at the same time and checked Lin Yi up and down, only relaxing after making sure he wasn't injured.

As the three were talking, Huang xiaotao's lightning was getting weaker and weaker. It was about to disappear. Lin Yi was worried. She was going to fail!

Lin Yi quickly looked around and realized that there was no one around anymore. The two people who were still alive saw that Lin Yi didn't want to interfere and quickly sneaked into the area where Wang Xinyan and Huo yudie had cleared out. This was called "the bold die from overeating, the timid die from hunger."

"I can 't!" Wang Xinyan and Huo yudie's hearts tightened at the same time. Once the lightning tribulation dissipated halfway, Huang xiaotao's efforts this time would really be in vain.

Suddenly, Lin Yi's eyes lit up as he raised his hand and sent another lightning bolt at them. The two girls jumped in shock-they knew that Lin Yi could use the power of lightning, but it was at most a thin arc in the past, not as thick as this bucket!

The lightning tribulation was gradually weakening, but after Lin Yi's last strike, it suddenly became shockingly powerful again. Although it couldn't last for long, Huang Xiao Tao was already at the end. While Lin Yi's lightning strike made her suffer extra pain, it also helped her successfully merge with her spirit root, breaking out of her cultivation and becoming a new early stage mysterious Ascension master.

"That's great!" Wang Xinyan and Huo yudie were overjoyed, but when they turned to look at Lin Yi, their expressions were as if they were looking at a monster. Lin Yi's move just now was too shocking, even they couldn't accept it.

A casual lightning strike was as strong as a lightning tribulation-didn't that mean Lin Yi could help people with their tribulations easily? This was simply a Living Lightning tribulation point.

Although the early stage of xuansheng and the peak of nascent soul were two completely different realms, wasn't Lin Yi's increase in strength a little too exaggerated?

A casual lightning strike was comparable to a lightning tribulation-wouldn't Lin Yi be invincible among all xuansheng stages?

When everyone was trying to break through to the xuansheng stage, they basically relied on the profound Thunder pill to survive the Thunder tribulation. Even a complete xuansheng expert would not be able to withstand such a power. It was more like a big Shot in the mountain opening stage.

Chapter 4892 Time To Part

In fact, they had misunderstood. That was Lin Yi's strongest attack, and it was only because he had just absorbed a lot of lightning energy that he hadn't been able to merge with it. If he were to do it again, even his strongest attack wouldn't be as strong as it was.

In the end, Lin Yi was only an early stage Mystic Ascension master, and he'd just broken through. His strength wasn't even stable yet! Even if he was an unprecedented master of the eight spirits mysterious rise stage, it was impossible for him to casually send out the Thunder tribulation. That was too exaggerated.

"Eh? You're all here, and everyone has succeeded. This is great!" Huang xiaotao's condition was a little weak, but she was still excited when she saw the crowd. It was a joyous occasion for all four of them to succeed in breaking through.

"Hehe, you should rest for a while. Do you want a seventh-grade recover pill to supplement your body?" Lin Yi laughed. Huang xiaotao's charge this time was very forceful. At this time, she was almost exhausted, and it was normal to be weak.

"No need, no need. I'll be fine after resting for a while. I'll save it for emergencies in the future." Huang xiaotao waved her hands and then said to the crowd with some relief, ""Speaking of which, I was really lucky just now. There were actually two lightning tribulations. If it wasn't for that, I would have definitely failed. I was so scared just now that I was covered in cold sweat."

Everyone looked at each other and couldn't help but laugh. So this girl was still in the dark.

"Silly girl, you are indeed lucky. However, this luck is not given by the heavens, but by him." Xinyan smiled as she pointed at Lin Yi.

"Ah? What do you mean by that?" Huang xiaotao was confused.

"Sister Xiao Tao, Lin Yi was the one who gave you the second lightning punishment," Huo yudie explained.

"Really? You can even increase the lightning tribulation?" Huang Xiao Tao was shocked as well. She had always blindly worshipped Lin Yi's strength, but she never thought that it would be this exaggerated. Let alone a xuansheng stage master, even a mountain opening stage master might not have such a skill, right? This was simply subverting common sense.

"The situation this time is special. It won't be so powerful next time." Lin Yi shook his head with a smile. He was actually quite happy with that powerful lightning strike, but he probably wouldn't get to experience it again.

Of course, it wasn't completely impossible for it to happen again. If he could accumulate extra lightning power like just now, it was still possible for him to control the Thunder tribulation again. However, the conditions were too harsh and couldn't be achieved under normal circumstances.

Lin Yi and the three girls were in a great mood after the four of them successfully broke through. They didn't leave just like that, but stayed and chatted with each other while waiting for the others to break through.

After waiting for about a week, all the Morning Star disciples finally came out. Huo yudie's friends from the morning Pride Academy and the soaring Cloud Academy also came out one after another. The final result could be said to be a mix of joy and sorrow. To be precise, one family was happy but ten families were sad.

In the past, the best situation for the road to becoming a Big Shot was that nearly 30% of the disciples would successfully advance. But this time, because of the implications, the lightning tribulation that everyone triggered was generally weaker.

In this way, although the danger was greatly reduced, and even those disciples who did not prepare the Thunder elixir were not seriously injured, there was a great after-effect. Almost everyone had the same situation as Huang xiaotao, the lack of Thunder tribulation leading to the failure of their efforts.

On the other hand, they didn't have the same treatment as Huang xiaotao. Lin Yi wouldn't give them lightning tribulations for no reason. In fact, even if he wanted to, the lightning strikes weren't strong enough.

In the end, other than Lin Yi's group of four, Bao zuoliang, and su kesheng who left early, only five out of the fifty people made it. Every attempt was extremely difficult and lucky for them, and if they were just a little bit unlucky, they'd probably fail just like the other unlucky people.

In other words, if Lin Yi and the others weren't included, the remaining people only had a pitiful ten percent chance of success. Even if they were compared to the past test results, they were definitely at the bottom. It was hard to find someone who had it worse than them. They were really unlucky to have met Lin Yi.

Of course, this wasn't Lin Yi's fault. It was Bao zuoliang and su kesheng's fault. If it weren't for these two, they wouldn't have ended up like this. It could be said that their misery made Lin Yi's glory. Don't even think about it.

They did not succeed, but fortunately, they did not suffer any serious injuries. It was a blessing in the midst of misfortune. Everyone could only comfort themselves with a bitter smile.

What surprised Lin Yi a little was that Qin Yue was one of the five who had successfully broken through to the mysterious Ascension stage. So many people had failed, and those who could still succeed under such circumstances were no ordinary people. It was clear that this Qin Yue was not simple.

Qin Yue nodded gratefully at Lin Yi's glance, but she didn't dare to say it out loud in public, perhaps because there were too many people around.

To be honest, she was able to break through this time because of her own strength, but it was also because of the Thunder elixir Lin Yi gave her. It was because of the Thunder elixir that she could merge with her spirit root without any distractions. Otherwise, if she had to endure the pain of the lightning tribulation while forming her spirit root, she would most likely fail.

Apart from Qin Yue, there was another familiar face among the five of them, and that was Lu xiaozhong. This guy was indeed the son of a Big Shot at the beginning of the mountain. Not only did he inherit his father's rogue style, but his strength and Foundation were also extraordinary. Among the five of them, he was the one who had the easiest time breaking through to the xuansheng stage.

Seeing that everyone had come out, Lin Yi opened his mouth, "Everyone, it's rare to come to the road of the big shots, so I plan to take a stroll inside. If you have any ideas, you can come with me. If you don't want to, I won't force you, but I suggest that you try to walk together! After all, there are at least a few xuansheng stage experts among you. There shouldn't be anyone who would come to find trouble with you. "

In other words, if everyone was alone, it would be hard to say. In this kind of place, killing people and snatching treasures was a very normal thing, especially when most of them were still at the great circle

of Yuanying stage. Once they were targeted by a master of the xuansheng stage, they wouldn't even have the power to fight back.

"I ..." Everyone looked at each other. The path to becoming a Big Shot was filled with treasures, but only those who were strong enough could try. Lin Yi was fine with it, but they didn't have the confidence.

Those who had failed to advance to the Xuan Ascension stage did not have the courage to continue going in. They were already very lucky to be able to keep their lives. How would they dare to continue staying in such a dangerous place?

Chapter 4893 A Little Strange

Not only them, but even the few newly promoted early stage mysterious Ascension experts were shaking their heads at this time. The breakthrough to the mysterious Ascension realm had exhausted them. Although the treasures were good, if they were greedy and rashly entered, it might turn for the better.

"Master Lin, we have the will but not the strength. We really don't dare to stay here for long. Please forgive us!" Everyone looked at each other and said.

"Oh, it's fine. Then let's go out together so that we can take care of each other." Lin Yi smiled. He was a little surprised that so many people had chosen to leave, but he didn't force it. Everyone had their own aspirations.

"Take care, Master Lin!" Everyone cupped their hands and said their goodbyes. As the temporary leader, Lin Yi had found a lightning tribulation point for all of them. Whether or not they broke through successfully, they would remember this favor. If it wasn't for Lin Yi, they probably wouldn't even get a lightning tribulation point, let alone try to break through to the xuansheng stage.

"Everyone, take care." Lin Yi nodded, frowning as he watched Qin Yue leave with the crowd. The two male students from the morning stars Academy were still with her.

But Lin Yi didn't say anything-it wasn't the time to ask. He'd wait until they got back to the Morning Star Academy to find out what Qin Yue was hiding.

As they watched the Morning Star Academy disciples leave, Huo yudie, who was beside them, suddenly hesitated and said,""I ... I'm going back too ..."

"Ah?" Lin Yi was surprised. He thought that he could spend more time with Huo yudie since it was such a rare occasion. He didn't expect her to leave as well.

"Before I came out this time, my master had repeatedly reminded me that no matter what, I must advance and retreat together with the disciples of the morning Pride Academy and the soaring Cloud Academy. No matter whether I can succeed or not, I must leave as soon as possible and not stay." Huo yudie smiled bitterly. She wanted to be with Lin Yi, but she couldn't go against her master's orders.

"In that case, you should go back first. In any case, we won't have to worry about not having a chance to meet again in the future. Be careful on the road." Lin Yi nodded.

"Yeah, you too." Huo yudie gave Lin Yi a gentle hug and turned to say goodbye to Wang Xinyan and Huang xiaotao,""Two big Sisters, please take care of yourself. This little sister will take her leave first."

"We'll meet again. If you have time in the future, come to the Morning Star realm to play with us!" Huang xiaotao laughed, but then she realized that Chen Xing and Chen Jiao were sworn enemies. As the proud disciple of Chen Jiao Academy, how could Huo yudie just come to Morning Star Academy? Wouldn't that be drawing hatred for nothing?

Seeing her embarrassed expression, Huo yudie could not help but smile,""Actually, if you two sisters have time, you can go to the soaring Cloud School. Feifei is there, so the four of us sisters can hang out together."

"That's good too. We can even play mahjong together. " Xinyan glanced at Lin Yi with a flirtatious look on her face-this guy was really good with women, having so many sisters in just two years, each one of them with noble status and stunning looks.

Lin Yi pinched his nose awkwardly and smiled awkwardly,"By the way, Yu die, will you still be staying at the Academy, or will you be going to the mystic division soon?"

"That won't happen-xuansheng Masters usually don't stay in a golden class school for too long, but the mystic schools in the mystic area don't just accept students at any time. We'll have to wait for the notice, or it'd be useless to go there early." Huo yudie shook her head.

"Yes, it's the same for the Morning Star Academy. I heard from my master that on the day of the open selection of disciples for the mystic division Academies, all of us Yellow Division Academies will send our disciples to the mystic division. Along the way, we'll compete with each other to see which school has sent the most disciples and the strongest." Wang Xinyan said.

"That's good. Even if we don't have the chance before then, we'll meet again when we go to the mystic division sea. Yu die, we'll meet again. " Lin Yi said, relieved.

"We'll meet again," Huo yudie nodded and said goodbye to everyone reluctantly. Then, she left with her fellow students.

The people from the Morning Star Academy left, and so did Huo yudie and the others. There were only three people left beside Lin Yi-Wang Xinyan and Huang xiaotao, needless to say, and Lu xiaozhong.

The guy was an exception-he'd only known Lin Yi for a short time, but he remembered his dad's advice-no matter what he did, he'd follow Lin Yi wherever he went. He wouldn't lose anything, and he'd at least get some of the soup if Lin Yi ate the meat.

Lin Yi and the other two didn't know whether to laugh or cry-this guy was as weird as his dad, but he'd been pretty obedient this whole time, and didn't cause them any trouble. They just let him follow them, and at most, he'd help them out a little when they were in danger.

"Let's go. We'll take a good look at the road to becoming a Big Shot. We won't have the chance to come again next time!" Lin Yi waved his hand and led the way. The main road was safe, but they wouldn't be able to see anything good. He led everyone into the path again.

The fog was heavy and there was no one around. From time to time, one or two strange cries could be heard from the surroundings. They did not know what kind of creatures it was, but it was creepy.

"What the hell is this place!" Lu xiaozhong looked around at the foggy scene and felt a chill down his spine. Lin Yi had brought them along the small path before, and he was only a peak nascent soul at that time, but it didn't feel as creepy as it was now.

After all, at that time, all the Morning Star Academy disciples had acted together. They had the advantage in numbers, and they were relatively close to the teleportation array's exit. Normally, there wouldn't be any terrifying things appearing, so they were still somewhat confident.

But now, Lu xiaozhong faintly felt that something was staring at him, which made him feel uncomfortable. But if he used his spiritual sense to sense it, he couldn't sense anything. Wasn't this like seeing a ghost in broad daylight?

"I think it's a little weird too ..." Wang Xinyan and Huang xiaotao couldn't help but shrink their necks under his influence. They subconsciously moved closer to Lin Yi. They only felt safe when they were with Lin Yi.

"Don't be so nervous. Just be a little more careful. After all, this is the road to becoming a Big Shot. If there's nothing powerful here, what kind of treasure can we hope to find?" Lin Yi smiled faintly.

"Yes, Master Lin is right!" Lu xiaozhong nodded his head. Any rare treasure would be surrounded by powerful spirit beasts or other means of protection. This was common knowledge in the cultivation world. If they were targeted by something powerful, it meant that they were not far from something good.

Chapter 4894 Spirit Herbs Turned Into Cabbages

As they were talking, a dark shadow suddenly flashed across the sky. It looked like a giant bird, but Lin Yi couldn't see what it looked like. He only knew that it was extremely fast, no slower than any flying spirit beast he'd ever seen.

At this moment, the Jade on his chest suddenly sent out an urgent warning. Lin Yi's eyes twitched as he immediately carried Xinyan and xiaotao in his arms, not forgetting to kick Lu xiaozhong away.

Xinyan and the other two didn't even have time to react before a thick bolt of lightning struck down from the sky, right where they were standing.

The lightning was as thick as a bucket, and it wasn't any weaker than Lin Yi's small lightning strike. If it weren't for the Jade's warning, Lin Yi wouldn't have been able to Dodge it at all, and everyone would've been heavily injured if not dead.

"That was close!" Lu xiaozhong looked up at the sky, still in shock. Before he could even get rid of the footprint, his eyes widened-another lightning!

This time, however, Lightning's target wasn't the crowd, but Lin Yi.

The interval between the two lightning strikes was too short, and Lin Yi didn't have time to Dodge again despite the Jade's warning. He could only push the girls away with great difficulty. After all, no matter how fast he was, he couldn't be faster than lightning.

BOOM! The lightning struck Lin Yi's head perfectly, scaring the girls. This lightning was comparable to a small lightning tribulation, and it was terrifying to look at. If it hit them, they'd die!

However, before they could show any worry on their faces, they saw Lin Yi stretching his back as if nothing had happened-there wasn't even a single injury on him!

"You ... Are you okay?" Wang Xinyan and Huang xiaotao rubbed their eyes in disbelief, and Lu xiaozhong, who had just gotten up, fell back down in shock after seeing this.

"I'm fine," Lin Yi shook his head nonchalantly. He was also covered in cold sweat, but fortunately, he was an Electric Master himself. As long as the lightning wasn't too much stronger than him, it wouldn't cause much damage.

When Wang Xinyan and Huang xiaotao saw that he was really fine, they looked at each other and heaved a sigh of relief. On the side, Lu xiaozhong secretly stuck out his tongue. His father was right. This Master Lin was an unreasonable monster!

Lin Yi didn't have time to care about the expressions on everyone's faces as he looked up at the blurry figure in the sky, on guard against a few more bolts of lightning. He wasn't afraid of it, but Xinyan and the others couldn't.

However, the black shadow seemed to be a little surprised as well. It circled a few times above everyone's head and after letting out two strange chirps, it quickly disappeared into the clouds.

"The strange bird left? He was scared away by Master Lin?" Lu xiaozhong was shocked by Lin Yi again. He didn't know what kind of bird it was, but he was sure that it was a rare bird. He had never heard of any bird that could produce lightning that was like a small lightning tribulation!

But what shocked him even more was that the strange bird screeched and flew away after seeing that Lin Yi was unharmed. Wasn't it scared away by Lin Yi?

"Scared away by me? How is that possible?" Lin Yi shook his head speechlessly and used his spirit to look for the thing, "Senior, what kind of spirit beast was that?"

"Lightning bird!" The ghastly thing said with a sigh, ""This kind of Eagle is very rare. You can't even find it in the base camp of the southern island. I didn't expect to see it in a place like this. However, it's not surprising. They live with thunder and lightning. It's hard to find a place more suitable for them in this world than the Thunder plain Island."

"It's quite powerful. Its lightning is comparable to a small lightning tribulation. If I didn't get a warning just now, something would have happened." Lin Yi said, still a little scared.

"The lightning Condor used to be on par with the ghost-eyed Condor King of the royal family of Condors. It was only because of its small number that it couldn't compete with the ghost-eyed Condor King. This is an expert in playing with lightning. The one just now should be close to an adult. Even if it's not in the mountain opening stage, it's at least in the great circle of mysterious Ascension. Especially in this place with dense thunderclouds, it can easily fight against enemies above its level." The ghastly thing said.

"No wonder it's so brutal. But why did it fly away after only striking me once? are the lightning birds so easy to negotiate with?" Lin Yi asked, curious.

"Easy to discuss? This is a famous ferocious Eagle. A lightning Eagle dares to challenge four or five ghost-eyed Eagle Kings. Do you think they'll be easy to negotiate with?" The ghastly thing couldn't help but laugh.

"Then why did it suddenly let us go?" Lin Yi was getting more and more confused.

He didn't think that he was the one who scared the bird. He didn't get close to it, but he knew he was no match for it. At most, he could fight it for a while because he wasn't afraid of lightning. As for Wang Xinyan and the others, they couldn't even take a hit from it.

"It probably thought you were one of its kind, so it didn't continue attacking." The demonic thing laughed.

"Same kind?" Lin Yi blinked. His first reaction was disbelief, but he quickly realized that it was normal for a spirit beast at the lightning bird's level to take human form. Besides, it was perfectly fine after being struck by such a strong lightning. Only the lightning bird could do that.

After the lightning bird incident, Lin Yi continued to lead the group forward. This time, Xinyan and the others were a lot more serious, taking every step with caution.

Previously, he had been a little overconfident because he had just become an early stage mysterious Ascension realm expert. However, after seeing the power of the lightning bird, he finally knew that the road to becoming a powerhouse was indeed full of danger. A mere early stage mysterious Ascension realm expert was not safe at all. If he was not careful, he would really die.

However, the few of them quickly revealed shocked expressions again. It was not that another dangerous spirit beast had appeared, but the scene in front of them was too dreamy. The ground was actually filled with heavenly treasures!

Lin Yi, Wang Xinyan, Huang xiaotao, and Lu xiaozhong were all people who had seen the world, and had seen all kinds of treasures, but this was the first time they'd seen something like this. Treasures were everywhere like weeds, and a bunch of them could be trampled to death with just two steps.

"I'll wipe your ass! When did spirit herbs become cabbages on the side of the road?" Lu xiaozhong's eyes widened.

"No wonder we encountered such a ferocious bird just now. It turns out that we've come to such a treasure land. As expected, treasures of heaven and earth are always guarded by powerful spiritual beasts." Wang Xinyan exclaimed.

Chapter 4895 Who's Talking

"Should we pick some?" Huang xiaotao turned her head and asked.

"Of course we have to, otherwise wouldn't we have made a wasted trip?" Lin Yi smiled. These herbs weren't as rare as the Thunder mystical vine, but they were all of high quality and could be sold for a high price.

After checking the surroundings and making sure that there was no danger, everyone started to pick the herbs. Wang Xinyan and Huang xiaotao knew the quality of the herbs, and they picked the rare high-level herbs. As for Lin Yi, he didn't seem to have any intention of doing anything.

The elixirs here were pretty good, but the storage in the Jade space had already reached a certain size- he didn't need to go all out. At most, he'd only pick up a few rare ones.

As for Lu xiaozhong, who was following behind them, although he was envious of the spirit herbs, he knew nothing about them. He couldn't even tell the difference between wild grass and spirit herbs, and doing this job was like pushing a duck onto a perch. In the end, he wouldn't be picking them himself, but carrying the bags for Wang Xinyan and the others.

As they plucked, they moved forward, busy with their work. Lin Yi suddenly stopped and gave the three a look.

Xinyan and the other two quickly followed behind Lin Yi in a defensive position, thinking that they'd run into some dangerous spirit beast again.

After a moment, they all came to a realization. They didn't encounter a spirit beast, but a human.

"Ni caiyue, fairy ni, stop looking and hand it over! Don't think that your followers will come and save you. I advise you not to think too much!" A feminine man's voice suddenly came from not far ahead.

"Chang laiting, it's you!" It was a girl, and her voice was pure and sweet.

"Of course it's me. Fairy ni, your little tricks can shake off your followers, but they're like child's play in front of me. They can't even be called tricks and can only be considered child's play, hahahaha!" The effeminate man laughed.

"You're so shameless, you actually want to snatch my things?" The woman was furious.

"So what? Go on, go on, go on and see if anyone will come to save you. If you didn't think that you were able to get rid of those followers, to be honest, I wouldn't have been able to do anything to you. In your eyes, they are just flies and followers, but in fact, they are your saviors. It's just that you cast them off. Isn't it ridiculous?" The effeminate man sneered in disdain. He felt quite happy hearing this. It seemed that he had been dumped by the woman before.

"You! You're such a despicable person, you're even trying to snatch me away. Aren't you afraid of being exposed?" The woman said in a panic.

"Exposed? Hmph, I'm your master's chosen Dao companion. Even if you run out and tell others that I snatched you, will anyone believe you? Hahahaha!" The effeminate man laughed again.

"No, someone will believe me. Master will definitely believe me!" The woman's panicked voice clearly revealed a bit of uncertainty. It could be seen that even she herself did not have full confidence in her master.

"Then try it! Let's see if that old thing will help you or me! Little girl, who asked you to not agree to me back then? who asked you to not give me a good face no matter what? how is it? you're about to cry from fright, right? If you had listened to the old thing and followed me, this wouldn't have happened today. You regret it so much, right? Wahahaha!" The effeminate man said smugly.

Lin Yi and the others looked at each other strangely. It was clear what had happened-it was common to see people kill for treasures, but this was the first time they'd seen someone do this to their Dao partner!

Strange things happened every day, but today was especially strange!

Lin Yi was speechless. There was only one thought in his mind-was this man a pervert? If not, which man would snatch his own Dao companion? if he didn't know how to show tenderness to women, could he still be called a man?

Even if Lin Yi didn't like someone like Ren Zhongyuan, he still knew how to be gentle and protective. Even if he couldn't get Huo yudie, he would still try all kinds of ways to please her. There was no way he would go and rob her!

But come to think of it, what good thing was this woman hiding on her body that could actually make her Dao companion have designs on her at the sight of money and attack her without regard for etiquette?

"Changlai ting?" Wang Xinyan frowned, deep in thought.

"What's wrong?" Lin Yi looked at her, surprised.

"I think I've heard of this person before ..." Xinyan frowned. She'd been in the East continent for quite a few years, and although she didn't know much about the outside world, she'd heard some rumors. "Could this man be the legendary strongest original infant stage cultivator in the Yellow Sea region of the East continent?"

"That's right, I also remember now. Isn't this Chang laiting one of the four nascent soul young masters? he's always been very arrogant!" Lu xiaozhong also interrupted.

"Another powerful Yuanying stage expert? First, there was Wang dianxing, and now there's Chang laiting. How many of the strongest original infant stage cultivators are there?" Lin Yi couldn't help but laugh. "By the way, what are the four Yuanying stage young masters?"

"Master Lin, you might not know this, but the four nascent Soul Stage Masters are well-known in the Yellow Sea region of the East continent. With Wang dianxing of the thunderclap school as the leader, they are known as the strongest nascent Soul Stage Masters in the Yellow Sea region. All of them have deep backgrounds, so they are known as the four nascent Soul Stage Masters. Chang laiting seems to be

one of them." Lu xiaozhong explained. When he said this, there was a bit of ridicule and disdain on his face. It was obvious that he didn't like this Yuanying stage fourth young master.

"From now on, there will be no four nascent soul young masters. Because there is no strongest, only stronger!" Huang Xiao Tao giggled as she looked at Lin Yi.

"That's for sure. Wang dianxing is worse than a dog in front of our Master Lin. He's a nascent soul fourth young master? he's more like a nascent soul fourth young master who is a dog!" Lu xiaozhong chuckled, thinking back to how Lin Yi sent Wang flying with a slap. He was secretly happy-this was revenge for him.

"I don't count, I'm from Beidao ..." Lin Yi rubbed his nose awkwardly.

At this moment, the voice on the other end suddenly became sharp."Who is it? Who's talking over there?"

Immediately after, there was a powerful wave of true energy, and the small forest on both sides was instantly razed to the ground. The situation of both sides could be clearly seen.

Lin Yi and the others were surprised. They were a distance away and they had lowered their voices, but the man must be a xuansheng master to appear in such a remote place. It wasn't strange for him to notice.

Chapter 4896 He Might Not Be Able To Come

The man who spoke was dressed in white. He looked like Chang laiting. He was quite good-looking. No wonder he was listed as one of the four nascent soul realm young masters. He was indeed very elegant and had the demeanor of a young master.

Just three steps in front of him was a woman in pink with a veil over her face. Although her face could not be seen clearly, one could see that the woman had a curvaceous figure that was comparable to Huo yudie 's. Moreover, her temperament was like a kawaii, which made people unconsciously feel good about her.

Lin Yi didn't really mind seeing the unfriendly look on Chang laiting's face, "What's wrong with talking? Don't tell me you won't let me speak?"

"Yo, kid, you're pretty cool, huh?" Chang laiting's eyes fell on Lin Yi, sizing him up and down. Seeing that Lin Yi was keeping his aura to himself, he sneered."Have you heard of my name, Chang Lai ting?"

"I heard you say it just now, and you're saying it again. Isn't it changlai ting?" Lin Yi said with a shrug.

"Since you know it's me, why don't you get lost?" Chang laiting couldn't even be bothered to look at Lin Yi. His eyes were on Xinyan, and his expression was the same.

Although Huang xiaotao was also a beauty, she was wearing a veil, and she wasn't very famous in the yellow-ranked Sea area of the East continent, so it was normal that people didn't know her. However, Wang Xinyan was the third fairy, who was well-known by everyone, and she wasn't wearing a veil. Even if he didn't recognize her at first sight, he would be able to recognize her after a little observation.

A fair and graceful lady was a man's target. Even Chang laiting, the fourth young master of the nascent Soul Stage, was drooling at the sight of the third fairy's beauty. However, he did not show any lecherous expression at this time. Instead, he turned to look at the woman he was forcing, and his face revealed a somewhat surprised expression.

"Get lost? Why do I have to leave?" Lin Yi turned to Xinyan, confused. "Could it be that the path to becoming a Big Shot is divided into regions? This place doesn't allow people from other Academies to come here, so it's given to their family. It's not a place that anyone can come to as they please?"

Xinyan couldn't help but cover her mouth as she laughed-she'd known about Lin Yi's weird personality from the start. It was just like the first time they'd met, when he set up those scammers on the train. It felt like a lifetime ago, but it was right in front of her eyes now, and she couldn't help but fall into a daze.

"I, little Lu Ke, have never heard of this rule. If you really can't come to this place casually, then does it mean that you'll be struck by lightning if you take one step in? It's so scary, should I, Xiao-Xiaolu, hide?" Lu xiaozhong said with a face full of mockery.

Hearing these words, Chang laiting was about to explode with anger. These two people didn't even put him, the fourth young master of the Yuanying stage, in their eyes from head to toe. This was simply preposterous!

"You! Report your name and Academy!" Chang laiting pointed at Lin Yi, knowing that he was the backbone of the group. He sneered, "I, Chang Lai ting, will give you a chance to introduce yourself. If you really have a decent background, I can consider not killing you, but just crippling you!"

"Didn't I tell you? these so-called four Yuanying stage young masters are all very arrogant. It's rare to see such an arrogant tone, right?" Lu xiaozhong grinned.

Wang Xinyan and Huang Xiao Tao frowned slightly. This tone was indeed arrogant to a certain level. At first, it sounded like he thought that he would give in just because he had a strong backing, but they

didn't expect that he would cripple people even when he had a strong backing. It was clear that there was nothing in the yellow-class Sea area of the East continent that could really make him afraid.

After all, not only was he powerful, he also had a powerful background. Otherwise, he would not have become one of the four nascent soul young masters.

"I'm from Beidao, I'm Lin Yi, have you heard of me?" Lin Yi said faintly.

"From the northern island? What bullshit!" Chang laiting was stunned for a moment. Although he had asked this question arrogantly, he had also wanted to find out more about the other party's background so as not to provoke someone he didn't know. He didn't expect the other party to be a fellow from the North Island!

What was there to be afraid of in a weak and broken place like the North Island? He didn't even have the right to ask him anything. He was too careful to ask about the background of such a small fry ...

But it wasn't surprising that he'd been so scared-after all, she was with one of the three fairies, Wang Xinyan. No matter how he thought about it, she couldn't be simple. Who knew that it would be such a ridiculous answer.

"What's wrong with Beidao?" Lin Yi wasn't angry at all, but looked at the man with interest.

"The North Island? Anyone would think it's beneath their status to mention Beidao in a place like the East Province. If I were you, I would never tell anyone about my background. It's too embarrassing and I'll be laughed at!" Chang laiting laughed and said disdainfully, ""Don't even mention that you're from the

North Island. Even if you're a disciple of the Leidong Academy and Wang dianxing doesn't personally come to me to ask for you, it's all in vain!"

"Law enforcer Wang?" Lin Yi couldn't help but smile as he exchanged looks with Xinyan and the others, who had weird expressions on their faces. "That's a pity. I don't think he'll be able to come."

"Nonsense! What kind of person is Wang dianxing? how could he stand up for an unknown kid like you?" Chang laiting sneered.

Wang dianxing was the head of the four Yuanying stage young masters. Whether it was strength or background, he was not inferior to him. If Wang dianxing came forward, he would really have to give him some face. However, Wang dianxing was famous for being arrogant. He would only be a little warm to existences at the same level as them. He did not even pay attention to others.

"Oh, I think you've misunderstood. I'm saying that he was crippled by me before. I don't think he'll recover in a short time. Maybe he's still at the great circle of the original level. He shouldn't dare to barge into this kind of remote place." Lin Yi said with a playful look on his face.

"Hahahaha! I didn't expect you to be so interesting!" Chang laiting laughed as if he had just heard the funniest joke in the world. He almost fell to the ground.

Just as Chang laiting was about to pass out from laughing, Lin Yi caught sight of the girl he was forcing, carefully walking away with her back hunched. It seemed like she wanted to use this chance to get away.

Lin Yi couldn't help but find it a little funny, but he didn't interfere, pretending not to see anything. After all, anyone in her situation would want to run away, it was human nature.

However, since he was running away, why didn't he take advantage of the fact that Chang laiting's attention was diverted to run away? instead, he was so sneaky. Did he think that he could escape from the eyes of a xuansheng stage expert like Chang laiting?

Chapter 4897 The Difference Between Xuansheng And Nascent Soul

Such an unrealistic idea, probably only a child would come up with it? This woman was really interesting!

The woman's thoughts were very beautiful, but unfortunately, she had only taken a few steps before she was noticed by Chang laiting. He immediately shouted, "Stop! Ni caiyue, it's fine if you want to leave, but you have to hand over the thing first, or don't blame me for being impolite!"

"Ah!" Ni caiyue was instantly frightened by him, and she hurriedly stopped in her tracks in a panic. She tried her best to move far away, but she wanted to run but didn't dare to, so she could only stand there, not knowing what to do.

Lin Yi was speechless-this ni caiyue really didn't have a mind of her own, as if she'd never seen the world before, with no experience at all.

If the other party was so scared that she didn't dare to move with a casual sentence, then what was the point of her coming out? he really didn't know how she had survived in the East Province where competition was so fierce.

"That's enough. She's already so pitiful, yet you still want to rob her. She's still your Dao companion, isn't she?" Lin Yi said.

"Brat, don't you know that meddling in other people's business can kill you? I was going to spare your life, but I've changed my mind. Ni caiyue is so uncooperative because she hasn't seen blood yet, so I'll use you as an example!" Chang laiting said with killing intent.

As soon as he finished speaking, his body flashed and he attacked Lin Yi. A long black sword appeared in his hand, and without saying anything, he raised his hand and released a sword Qi.

Wang Xinyan and the others "eyes twitched. This sword Qi wasn't just powerful, but there were three colors of green, yellow, and red flowing on it. This meant that this sword Qi contained three different types of Qi-this was a rare three-spirit xuansheng master!

No wonder this guy could be as famous as Wang dianxing. No wonder he could be ranked as one of the four young masters of the Yuanying stage. When he was trying to break through to xuansheng, he was able to merge three spiritual roots in one fell swoop. This was not something that ordinary people could do. He really had some skills.

Wang Xinyan, Huang xiaotao, and Lu xiaozhong looked at each other and stepped back at the same time. Although a three-spirits Mystic Ascension master was much stronger than someone of the same level, his target was Lin Yi, so there was nothing to worry about.

Even before Lin Yi broke through, he wouldn't be at a disadvantage against an opponent like this, not to mention that he was now an early stage mysterious Ascension master. They didn't know about Lin Yi's unprecedented compound eight spiritual roots, but they still remembered clearly how Lin Yi's casual attack was comparable to a lightning tribulation.

Once he got serious, Lin Yi could easily kill this fourth young master who had already advanced to Xuan Sheng in one move. Everyone believed this without a doubt!

What surprised them, however, was that Lin Yi didn't seem to have any intention of finishing off Chang laiting in one move-he stepped aside and dodged the sword Qi.

"Yo! His movement technique is quite fast!" Chang laiting was taken aback-he didn't see Lin Yi as a threat anymore after finding out that he was from Beidao. Even if Lin Yi was a new mystique Ascension primary stage master, he was still an ant in front of him.

However, he didn't expect that his opponent would be able to avoid it so easily. Although the sword Qi just now could be said to be done casually, it was, after all, a fusion of three spiritual roots attributes. Whether it was speed or power, it was no small matter. An ordinary expert of the same level would not be able to avoid it.

"You're too kind," Lin Yi smiled faintly, as if nothing had happened. He didn't look like he was going to fight back at all, and instead looked at Chang laiting calmly.

"Hmph, a piece of trash from the northern island. He's only a little faster than ordinary people, and he's actually pretending? I'll let you open your eyes today and let you experience what is called movement technique speed!" Seeing this, Chang laiting could not help but be angry. He coldly glared at ni caiyue. "Don't even think about taking the opportunity to escape. You know how fast my movement technique is. It'll be too late for you to regret it when the time comes. You better behave yourself!"

"Argh! "I ... I ..." Ni caiyue was so scared that she waved her hands repeatedly and actually sat down on the spot. She looked like she was determined not to walk around, and it made people not know whether to laugh or cry.

"It's good that you're tactful. If you don't, you'll end up like this piece of trash from the northern island!" With that, Chang laiting's body flickered, turning into a shadow as he charged at Lin Yi.

"This guy isn't just for show, he's quite fast!" Lu xiaozhong's mouth twitched. Although he didn't like this bullsh * t nascent soul fourth young master, Chang laiting's speed was indeed much faster than his.

In the blink of an eye, Chang laiting was already a few hundred feet away from Lin Yi. He raised his black sword high and slashed down with one hand. The power aside, just his stance alone was already domineering.

"Let's see how you're going to run now!" Chang laiting laughed coldly. Lin Yi was rooted to the spot, and he thought that Lin Yi's reaction speed was too slow.

The black sword was already above Lin Yi's head before he could finish his sentence. The green, yellow, and red light was still flowing on the sword, but it was different from before. This wasn't sword Qi in the air, but a real black sword.

There was still a chance to Dodge the sword Qi from a hundred feet away, but now that the black sword was right above his head, there was no way he could Dodge it. At least in the eyes of Chang laiting, a piece of trash from the North Island would definitely not be able to Dodge it.

Lin Yi's heart skipped a beat. Green represented wood, yellow represented gold, and red represented fire. This guy had three elements-wood, metal, and fire. It was almost impossible for him to have three different elements in one move.

Before the xuansheng stage, even a master of the great circle of the original level could only practice martial arts techniques of a single attribute. Wood element was wood element, metal element was metal element, and fire element was fire element. It was impossible to fuse the three elements of Zhen Qi together.

Because the spirit roots of various attributes repelled each other, the true Qi of various attributes naturally had the same problem. Once they were forcibly gathered together, without the enemy's help, it was estimated that his true Qi would lose control and be the first to suffer a backlash.

Lin Yi's five elements killing intent was a rare exception. It came from the five poison Dragon's moves, and the five elements were mutually reinforcing and restricting each other, which naturally solved the problem of Qi rejection.

However, after reaching the xuansheng stage, because the different spiritual roots had been tempered by the lightning tribulation into one, there would no longer be the problem of the true Qi of different attributes repelling each other. It was also because of this that the xuansheng stage was a qualitative change compared to the Yuanying stage.

This wasn't just a difference in power, but also a difference in attributes. The original infant stage experts could only display the advantage of one attribute at a time, but the xuansheng stage experts could display two or even three attributes at a time!

Chapter 4898 Attempt To Merge

Once the two met, this kind of gap was crushing, and it was much wider than the gap in the power of pure martial arts techniques!

Just like now, Chang laiting's true Qi contained three major attributes, wood, metal, and fire. If one used a single attribute martial technique to fight against him, no matter which basic attribute, he would be

countered. If an expert of the same level was countered by his true Qi attribute, one could imagine the outcome.

It wasn't that he couldn't fight back at all, but he was definitely being bullied from head to toe. The difficulty of turning the tables was even comparable to fighting an enemy of a higher level to a certain extent.

"Are you scared silly?" Chang laiting was suspicious of Lin Yi's lack of movement, but he wasn't going to go easy on him just because of that. His black sword sped up, determined to cut Lin Yi in half.

At the last moment, when even Xinyan and the others were worried, Lin Yi finally made his move. It wasn't the lightning strike that had increased in power, nor was it the killing intent of the five elements that could be considered his trump card. It was a simple wild fire Fist.

Seeing this, Chang laiting's mouth opened wide. The people from the North Island were indeed trash. Even the experts from the East continent who had just advanced to the early stage of the Xuan Sheng realm would definitely be familiar with the qualitative changes after the Xuan Sheng realm. It was the most basic common sense not to use single attribute martial arts techniques against experts of the same level, because this would definitely cause them to suffer.

But before he could laugh, the black sword in his hand clashed with Lin Yi's wild fire Fist, and the result was shocking. He didn't kill Lin Yi with one strike, and instead, both of them took half a step back-they were evenly matched!

"How is that possible?" Chang laiting suddenly felt that his eyes were playing tricks on him. Although he had not used his full strength in the attack just now, it was still a powerful move that combined three attributes. How could it be on par with the opponent's single attribute martial skill?

One had to know that he was the fourth young master of the Yuanying stage. With his strong foundation, he had successfully broken through to the mystic Ascension stage, and he was even a three-spirit Mystic Ascension stage master. Let alone Lin Yi, who was from the North Island, he could even fight against a mid-stage Mystic Ascension master. How could he not be able to suppress the opponent's single element skill?

After much thought, Chang laiting could only think of one possibility, and that was that his eyes had been playing tricks on him. His opponent had not used a single attribute martial skill, but had instead mixed in another attribute. It was only because he had been careless that he had not noticed it. In addition, he had not used his full strength in that attack just now, which had allowed his opponent to escape.

What they didn't know was that Lin Yi had just used a pure fire element skill, wild fire Fist. He was just using his opponent as an experiment.

After all, Lin Yi wasn't like the other East Province Academy students, who had been taught all sorts of things after the Xuan level even before they started. He had to figure everything out by himself, and it wasn't enough to just observe and guess. If he wanted to understand more, he had to do all sorts of experiments, and this former fourth master Chang laiting was a good test subject.

Lin Yi had come to a conclusion from that exchange-a single element was at a huge disadvantage against multiple elements. Chang laiting wouldn't have been able to fight him to a standstill otherwise.

Since single attribute martial arts techniques didn't work, why not try dual attribute martial arts techniques?

Seeing that Lin Yi wasn't even looking at him, Chang laiting couldn't keep his face any longer. "Trash from the North Island, it seems like I've underestimated you. To be able to fight evenly with my sword with 30% of my strength, you do have some strength. However, you'll end here. I'll show you the difference between a genius and a piece of trash!"

"30% of my strength?" Lin Yi smiled playfully and looked at him, "Then how much of your strength are you going to use next? 35% or 40%?"

"Trash from the northern island, don't be too happy yet!" Chang laiting's old face turned red. It was true that he had not used his full strength in that attack, but to say that he had only used 30% of his strength was simply bragging. No matter what, he had at least used 60% to 70% of his strength.

With that, Chang laiting thrust his sword at Lin Yi's face again, this time with all his might. The black sword let out a strange rumbling sound, and the green, yellow, and red lights on it spun wildly, exploding from time to time. Even Wang Xinyan and the others could feel the power from the explosion.

"It's your good fortune to die under my unique explosive sword. Rest in peace!" Chang laiting laughed coldly.

Exploding the sword? Lin Yi's eyes narrowed as he retreated with a burst of pure Qi. At the same time, he took the chance to observe the three-colored light on the black sword.

Chang laiting caught up, his black sword almost touching Lin Yi's chest. The explosions were endless-Lin Yi would've been obliterated if he weren't protected by his pure Qi.

Lin Yi's eyes twitched-the fusion of wood, metal, and fire elements was like a bomb going off in the mortal world! This guy was a genius!

From this point, it could be seen that the other party must have had a special idea and even cultivated it before he entered the path of a Big Shot. Otherwise, it would be impossible for him to master such a move in just a few days after he advanced to xuansheng.

After all, there was a qualitative difference between the xuansheng stage and the Yuanying stage. Those who were slightly more talented might be able to quickly master the basic usage of various types of zhenqi, but for someone like Chang laiting, who was able to master the explosive sword technique, a unique technique of a xuansheng stage expert, in a short time, the difficulty was not just a little.

This wasn't as simple as carrying three attributes at the same time. It caused some kind of chemical reaction-like qualitative change between the three attributes. If one didn't make special preparations in advance, forget about mastering it, they probably wouldn't even think of it.

This was the difference between the East Province Academy and the outer island disciples. They had all kinds of excellent conditions. Not only did they have a unique cultivation environment and resources, but they also had the personal guidance of Masters at the xuansheng stage and above. They were already prepared for what path they would take in the future. All these were systematic and comprehensive guidance, which could only be found in the East Province Academy.

On the other hand, most of the outer island disciples had to figure things out on their own like Lin Yi. It would be fine if they all had Lin Yi's heaven-defying talent, but how many Lin Yi's were there in the world?

"You're quite thick-skinned? Let's see how long you can last!" Chang laiting was even more surprised that Lin Yi wasn't killed after several explosions. He immediately increased his speed to the maximum-the black sword was almost in Lin Yi's chest, but it was stopped by the last layer of defense.

"Hehe, interesting." Lin Yi smiled suddenly. He had a rough idea of what the man was doing from his observation, and with his own understanding, he had an idea.

Chapter 4899 You Don't Believe It

Seeing Lin Yi block his black blade with his pure Qi, and at the same time, preparing to counterattack-it looked like his fist was no different from the raging fire Fist-Chang laiting was amused."You want to rely on a single attribute martial skill to fight me again? You only managed to escape because you didn't use your full strength just now. You really don't know what's good for you, and you're hopelessly stupid!"

However, when Lin Yi made his move, his face changed immediately. This wasn't a single element fist-it was a fusion of fire and earth elements, and it was a double element skill just like his explosive sword. It wasn't fire that came at him, but explosive lava!

This scene shocked Chang laiting. He knew that he had underestimated this piece of trash from the North Island. The other party was not a country bumpkin who did not know anything, but a sinister fellow who wanted to play the pig to eat the Tiger!

"I have three elements and you only have two. Do you think you can defeat me?" Chang laiting roared, unleashing the full power of the explosion. Lin Yi was the main target, but the area within a few dozen miles was affected.

Wang Xinyan and the others weren't injured, but the treasures on the ground were all blown up. Everyone looked at each other in dismay-this bastard was really wasting the treasures.

But even so, Chang laiting still couldn't take advantage of Lin Yi this time. The violent lava that Lin Yi had created at the last minute was completely blown away by him, but he was also forced back step by step by the lava. From the looks of it, he wasn't at an advantage at all-after all, he was the one forced back by Lin Yi!

"How is that possible? You, a piece of trash from the North Island, can actually block my explosive sword?" Chang laiting's gaze towards Lin Yi finally became a little fearful.

"Maybe it's just luck. Do you want to try again?" Lin Yi said faintly. The violent magma fist was a combination he made up on the spot, and it was much stronger than a single element fist. Multi-element martial arts were indeed stronger than single-element martial arts.

"Hmph, of course it's luck. Do you really think you're my match? You're just a piece of trash from the North Island, Who Do You Think You Are!" Chang laiting sneered and attacked again with his sword. This time, he used the explosive sword again, but it was not a simple thrust like before. Instead, he used an extremely vicious sword technique.

If the power of his ordinary sword techniques was five, then the power of the explosive sword technique was at least twenty. Now, when combined with this ruthless sword technique that traded injuries for lives, the power was even close to thirty. This was changlai ting's true strength.

Lin Yi's eyes narrowed. He did have some skills. If he didn't meet Lin Yi, other normal early stage mysterious Ascension Masters wouldn't be his match.

With a thought, Lin Yi took the experiment one step further. In addition to the newly created violent magma fist, he added an extra element, fog.

Before Chang laiting could get close, he saw the violent lava rush towards him. He had already experienced it once just now and knew that this thing's power was no less than his explosive sword. He was afraid and quickly dodged to the side.

However, he didn't expect that he would be surrounded by the erupting lava. Chang laiting was shocked and his face was filled with disbelief.

Although this new martial technique of a xuansheng stage expert was powerful, it consumed a lot of true Qi. Even with his Foundation, he could only use his sword explosion a dozen times at most before he was exhausted. Since the violent lava could exchange blows with his sword explosion, the consumption of true Qi would definitely not be small.

However, the violent lava in front of him was actually covering the sky and covering the earth. The amount of lava was at least a hundred times more than before. This guy was just a newly advanced early stage mysterious Ascension realm cultivator. How could he use such a large-scale killing move? Even if he could barely use it, was he not afraid of dying from exhaustion?

The situation was critical, and Chang laiting couldn't think too much. Seeing the violent lava coming at him, he hurriedly brandished his black sword to block it. He wasn't good at any defensive martial skills, and the consequences would be unimaginable if he was injured by the violent lava.

Chang laiting was stunned when he saw the sword split apart a stream of lava. He couldn't feel anything physical. Was this a Phantom?

"Haha, so it's just a Bluff!" Chang laiting thought that he'd seen through Lin Yi's trick-no wonder he could create so much lava! The kid would've died from exhaustion if it were all real, but it was just a harmless Phantom!

"Oh, really? I'll give you a kind reminder, being too careless can kill you. " Lin Yi stood at the side with his arms crossed and smiled. These shadows were just mist created by the fog attribute, but who said it was all mist?

"Stop boasting shamelessly. A piece of trash from the northern island like you wants to kill me?" Chang laiting laughed from the anger-he wasn't worried at all after knowing that the lava was just an illusion. He crossed the illusion without a care and pointed his black sword at Lin Yi's throat. After all, it wasn't his style to defend-it was his nature to attack.

However, before he could reach Lin Yi, he was hit on the back. It was burning hot-it was the violent lava.

Chang laiting's entire face was contorted in pain. This was even after he had carefully put on a layer of protective zhenqi. Even so, he had suffered a great loss. Otherwise, his back would have been pierced through and he would have died on the spot!

"I told you not to be too careless. You can't blame anyone else if you don't believe me." Lin Yi shrugged helplessly. He was actually helping the guy-it was only three attributes, and he still had many things he wanted to experiment on. He couldn't just let him die like this.

"You despicable bastard!" Chang laiting was in pain and anger. He was still trapped in the layers of lava, and after suffering such a great loss, he didn't dare to let his guard down. He knew that 90% of the lava was just illusions, but he had to be careful. If a few more real ones came, he would be crippled, if not dead.

Once bitten, twice shy. After suffering this loss, Chang laiting couldn't even maintain his basic judgment due to the searing pain on his back. His only solution was to split apart all the incoming lava, and he couldn't care less if it was real or fake.

His swordsmanship was indeed profound and fierce, but it was a pity that it was a purely offensive swordsmanship, and it was a bit wrong to use it for defense. He only lasted for a few seconds before he was once again hit in the chest and legs by the violent lava mixed in with the layers of shadows.

Chapter 4900 One Of The Three Fairies

Chang laiting let out a miserable shriek as he was sent flying. Like a dead dog, he fell several dozen Zhang away and fainted from the pain.

"So weak ..." Lin Yi shook his head in pity. He had already thought of a new move that combined the four elements and was waiting for the opponent to break through the encirclement, but he just fainted. What a disappointment.

If Chang laiting heard this, he'd probably die from anger even if he was awake. He already knew the difference in strength between them-Lin Yi was able to fight him to a standstill with dual-element skills, but he wouldn't be able to fight Lin Yi with triple-element skills.

A mere trash from the North Island was a three-spirit-Ascension master like him-Chang laiting wouldn't have believed it if he hadn't experienced it himself. If he knew that Lin Yi was an unprecedented eight-spirit-Ascension master, and that he was going to test his moves on him bit by bit, who knew what expression he'd have on his face? he'd at least want to die.

"Master Lin, you're actually a three-spirit xuansheng stage master too. You're really amazing!" Lu xiaozhong came over with a face full of respect. He wanted to merge three elements at the same time,

but the lightning wasn't strong enough, so he could only merge two elements. He knew how difficult it was, and his respect for Lin Yi grew.

This guy hadn't seen Lin Yi's lightning strike before, or he'd probably be as used to it as Xinyan and xiaotao were.

Lin Yi smiled nonchalantly as his eyes fell on the girl named ni caiyue, who was staring at Chang laiting in a daze. This was the fourth young master of the nascent Soul Stage, an early stage mysterious Ascension cultivator who was at least as strong as a mid-stage mysterious Ascension cultivator. How did she get beaten so easily?

Ni caiyue was stunned for a long time before she suddenly slapped her head and reacted. Since changlaiting had been knocked unconscious, did that not mean that she could escape?

But when she raised her head and saw that Lin Yi and the others were all looking at her, ni caiyue instantly became a little embarrassed. She obviously wanted to run away right now, but she felt that it was a little against the rules if she just left without saying goodbye.

No matter what the purpose was, the other party had helped him knock out the bastard Chang laiting. Otherwise, how could he have helped him out so easily? he had to thank him before he left. The problem was, how did the cultivation world thank people?

Ni caiyue's eyes finally lit up after thinking for a while. She thought of an excuse and turned to Lin Yi, "I thank you for saving my life, young hero!"

She even made a proper bow to Lin Yi as she spoke, but the veil fell off as soon as she did so. Chang laiting had been chasing her all this time, after all, and the buttons on both sides of the veil had come undone. It'd be weird if it didn't fall off when she bent down like this.

Lin Yi and the others looked at the girl, stunned. Their eyes brightened-they'd expected this girl to be pretty, but after seeing her face, they realized that they'd underestimated her.

Not only was her appearance and temperament extraordinary, but she was also a peerless beauty. She was even comparable to Wang Xinyan and Huang xiaotao!

Furthermore, this girl's temperament was rather cute. In the words of the secular world, she was a kawaii, and it was very easy for men to want to protect her. Even Wang Xinyan and Huang xiaotao couldn't help but feel a sense of pity for her. They really didn't know how Chang laiting could bear to snatch such a girl away, not to mention that she was his Dao partner!

"Aiya!" Ni caiyue was stunned for a moment. When she realized that something was wrong, she quickly picked up the veil from the ground and wanted to put it back on her face without saying anything. However, she was nervous when everyone looked at her like that. The more nervous she was, the more she couldn't put it on.

Lin Yi and the others looked at each other, speechless. Didn't veils like this only need to be buttoned up? Who would stick it on their face like this? it wasn't a human skin mask ...

While everyone was speechless, ni caiyue was already running around in circles anxiously, and she was mumbling, "What do we do? What to do! Shizun said that when you're outside, you can't let other men see you. If they see you, you'll be impure. Aiya, I'm not pure!"

Lin Yi and the others facepalmed, speechless. They looked at each other, not knowing what to say. They had the same question in their hearts-was this the girl's first time out?

Ni caiyue was running around in circles, and in her panic, she accidentally stepped on Chang laiting's face. She did not react in time and even kicked him subconsciously. "Why is there a soft rock here?"

Lin Yi and Xinyan weren't able to utter a single word in this situation-her looks aside, this girl was a miracle in the world of practicing. Which school was this weird, having a kid who wasn't even seven years old mentally?

"Master Lin, do you think there's something wrong with this woman's brain?" Lu xiaozhong winked and asked in a low voice.

"Uh ... There shouldn't be anything wrong with his brain. He probably went into isolated practicing since he was young and rarely left the house ..." Lin Yi commented.

This woman was already at the early stage of the mysterious Ascension realm. If she was an ordinary cultivator, she would be at least a few hundred years old. However, from her performance, she looked like a child who was toying with people. This kind of person could only be seen in the East continent.

After all, only the East Province Academy had the ability to train an inexperienced girl into a xuansheng stage expert. Moreover, it was certain that this girl had a powerful background. Otherwise, she would have been trampled to death by the disciples of other Academies.

"Ni caiyue ..." Wang Xinyan frowned, turning to ask the others in a low voice, ""Did Chang laiting just call her fairy ni?"

"You mean she's also one of the three fairies?" Lin Yi reacted immediately-this woman was as pretty as Wang Xinyan and Huo yudie. She was definitely the third fairy.

"That can't be right. Other than miss Wang and miss Huo, isn't the other one Tong Caiyun from Donghua college?" Lu xiaozhong asked curiously. He was a native of the East continent, and any man would know about the three fairies of the high Lin sea realm. Even if he wasn't as infatuated as the others, he still knew their names.

"That was a year ago. It's said that Tong Caiyun went to the mystic division sea in advance, so her position as the third fairy was replaced by her Junior Sister. If I remember correctly, her name is ni caiyue." Xinyan said after some thought.

She didn't pay attention to these things in the first place. The only reason she knew about this was because she had accidentally heard Bao zuoliang mention it when he had come to pester her in the past.
