

## Bodyguard 4901

### Chapter 4901 You Actually Dare To Step On Me

"Tong Caiyun, ni caiyue, they do sound like the names of fellow disciples." Lin Yi nodded.

"Yes, I heard that ni caiyue's beauty is above her Senior Sister 's, but she's rarely appeared since she was young, so no one paid attention to her. She was only noticed by accident at the farewell banquet when she sent her Senior Sister to the mystic division sea. From then on, she was shocked by her beauty, and any portrait of her can be sold for a high price." Wang Xinyan smiled.

The group was still discussing quietly when the unconscious Chang laiting woke up after being stepped on and kicked for no reason. He'd taken a beating from Lin Yi, but it wasn't fatal-he jumped up in anger.

"You bitch, you dare to step on me? I'm going to kill you!" Chang laiting picked up the black sword that was not far away from him and chased after ni caiyue in a fit of rage, slashing at her ferociously.

Ni caiyue's face turned pale with fright, and she shrieked as she ran away. She was an early stage profound Ascension realm expert, after all. Even if she was not as strong as Chang laiting, she could still rely on her movement technique to escape for a while.

What made Lin Yi and the others speechless was that the guy only ran a few steps before he tripped himself and fell into the grass, unable to use any movement techniques in his panic. Chang laiting caught up to him in the blink of an eye.

Everyone's hearts were in their throats when they saw Chang laiting raise his sword to slash at ni caiyue. 'This guy really doesn't have any compassion for women. Did he really want to kill such a stunning beauty?'

Lin Yi's body flickered, and he reappeared in front of Chang laiting.

Chang laiting jumped-he'd just glanced at Lin Yi's position, and he'd been pretty far away-how did he get here in the blink of an eye? no matter how fast he was, he couldn't be this fast! Could this guy teleport?

Chang laiting was so scared that he took a few steps back. The violent lava mist shadow fist had already stunned him. To be honest, he was really a little afraid of this Bei Dao kid!

"What are you doing? This is my family's matter, aren't you being too nosy to meddle in this?" Chang laiting didn't mention anything about trying to kill Lin Yi, his face full of anger as if he didn't want to be a busybody.

This guy was also a clown! Lin Yi laughed and shrugged his shoulders, "I'm not in the mood to care about your family affairs. It's just that you've just triggered my fighting addiction. I've just started exercising and haven't had enough fun yet. Let's continue!"

F \* ck! Hearing this, Chang laiting wanted to give himself two tight slaps. If he had known this would happen, he wouldn't have provoked this guy just now. Wasn't he just looking for trouble?

Seeing Lin Yi's stance, Chang laiting even had the thought of running away. But he was one of the four nascent soul scions, a famous figure among all the disciples in the yellow-class seas of the East continent. How could he run away from a mere North Island disciple?

Once this matter spread out, he could forget about staying in the East continent anymore. Those high and mighty Mystic class Academies wouldn't accept a coward like him. The more famous he was, the harder he would fall.

"Hmph, what big words! Just now, I was just careless and got tricked by you. Your tail is actually raised to the sky, what the hell!" Chang laiting said stubbornly.

"Very good. If you don't have any ambition, I'd be too embarrassed to test my moves on you!" Lin Yi chuckled at the sight and used his newly created violent lava mist fist, only with an extra element this time.

Chang laiting's scalp went numb as he looked at the violent lava around him. Although he had been caught off guard the first time, he still could not think of a way to deal with it even if he was given ten days to half a month. There was no other way. The difference in strength was just like that.

Helpless, Chang laiting could only come up with a solution that wasn't really a solution. He used the black sword in his hand to open up a path and use his movement technique to break through the encirclement. This was his only feasible solution.

This strategy was actually very risky because his back could easily reveal flaws when he ran, but it was better than being trapped in the same place as before. The several shocking wounds on his body had already proved that it would not work.

No matter what, even if he had to risk being seriously injured again to break out of the encirclement, it was better than sitting around and waiting for death.

Go all out! Chang laiting gritted his teeth and slashed at the raging lava. However, what happened next shocked him so much that his eyes almost popped out of his sockets. He could easily split the lava with his black sword earlier, but this time, there was an extremely ear-piercing sound of metal colliding!

What was even more outrageous was that the black sword that he had used for so many years was actually unable to fight against the violent magma that had suddenly turned into metal. It actually broke into several pieces on the spot!

Even Wang Xinyan and the others couldn't help but suck in a breath of cold air at this scene. It wasn't strange for Qi to materialize, but to break an opponent's divine weapon in a head-on collision was truly shocking.

"It seems like the effect is not bad." Lin Yi mumbled, deep in thought.

There was no doubt that the attribute he added in addition to the violent magma mist shadow fist was the metal attribute, which was known for its strength and sharpness. If it was only violent magma before, it would become an indestructible sharp sword after being strengthened by the metal attribute, and it would be a fire sword with extremely high temperature.

Although Chang laiting's Black sword was a divine weapon, it had already been subjected to multiple rounds of scorching heat, and its hardness had been greatly reduced. It was not surprising that it would break into several pieces after being struck by such a powerful attack.

After so many tests, Lin Yi had a rough idea of what it was-the more attributes one had, the stronger it was, and the easier it was to gain an absolute advantage.

If the power of his single-element wild fire Fist was ten, then the power of his two-element wild magma fist was thirty, and the power of his three-element wild magma mist fist was sixty. And now, the power of his attack had reached an astonishing one hundred!

In comparison, changlai ting, whose maximum power could only reach 30, was naturally far from being his match.

Lin Yi's heart was surging-he'd only used four elements so far. If he continued to level up, five, six, seven, or even eight, what would it be like?

Of course, the difficulty of creating an eight attribute martial skill was no small matter. It had to go through extremely careful deduction and specialized practice. Otherwise, even if all eight attributes were gathered in the same move, it would only be a simple physical layering. It would be difficult to produce such an amazing chemical reaction like just now. This still required time to explore.

BOOM! With a loud bang, Chang laiting was sent flying backward. His entire body was covered in ghastly charred wounds. This time, his entire head was buried in the soil, and he did not move for a long time. It looked like even if he was lucky enough to survive, he would have completely lost consciousness.

Chapter 4902 Overflowing Sympathy?

Lin Yi and the others turned to look at ni caiyue, thinking that she would be overjoyed. Even if she didn't have the heart to finish him off, she would take the chance to run away. They didn't expect that ni caiyue would be even more afraid after seeing this. She was trembling so much that she couldn't even move her feet, and she looked like she was about to cry.

Could it be that this girl still had some feelings for changlai ting? Everyone was secretly puzzled. Although they felt that this kind of feeling towards scum was very stupid, it was not completely incomprehensible. After all, they were Dao companions.

"What do we do? What to do! What to do! If I step on him, will he cause me trouble in the future?" Ni caiyue was anxious again.

Lin Yi and the others almost fainted-so it wasn't a relationship at all, they were just afraid of Chang laiting's revenge!

Under such circumstances, she still couldn't forget that he had stepped on changlai ting. How did this girl's brain work?

"I say, little girl, are you done! Can you stop swaying there? I'm getting dizzy just by looking at you. " Lin Yi said, speechless.

"Argh! What? You're calling me ... That?" Ni caiyue finally stopped and looked at Lin Yi with wide eyes, "You're teasing me!"

"..." Lin Yi looked at the girl, not knowing what to say. How was he supposed to communicate with this kind of person? was he supposed to tell her with a lollipop that he wasn't a bad person?

Xinyan and xiaotao were looking at each other as well, while Lu xiaozhong was the only one trying to hold back his laughter. If it wasn't for Lin Yi's glare, he would've slapped his thigh and laughed out loud-this was just a stupid girl!

Lin Yi thought for a long time before speechlessly saying, "Please, the road to becoming a Big Shot is very dangerous. You should hurry home."

"Yeah!" Ni caiyue actually nodded in agreement and explained, "I was going home, but I ran into Chang laiting on the way. He chased me all the way. It was so scary!"

She patted her chest unconsciously as she spoke. With her perfect figure that was comparable to Huo yudie 's, it was a different kind of temptation to Pat. Lin Yi could only turn his head away awkwardly as he looked at the rising and falling of her chest.

Fortunately, this little girl was dressed tightly. If her clothes were any thinner, any man who saw this scene would definitely lose his beastly nature. She was a little too careless.

"Great, now changlai ting won't be able to catch up to me!" Ni caiyue looked at Chang laiting, who had his head stuck in the ground, feeling very fortunate. The crowd was speechless again. 'It's already a miracle that he's still alive, so what do I have to chase him with?'

"So, you should leave quickly. You won't be able to leave when he wakes up." Lin Yi held his forehead. He wanted to say that he could stab changlaiting if he was happy, but he knew that ni caiyue wouldn't dare to do something like that. It would be useless.

"Oh, oh, then I'll be leaving now!" Ni caiyue was shocked, and she quickly took a few steps away with lingering fear. She suddenly stopped and turned around with a serious expression, "Young hero, although you saved me, you're not allowed to tease me!"

"..." Everyone looked at each other again. Wang Xinyan and Huang xiaotao couldn't help but look at each other and smile. Although her imagination was a little strange, they had to admit that ni caiyue was innocent and cute.

"I'm not teasing you!" Lin Yi was speechless for a while before sighing, "Then, goodbye."

"Okay, goodbye!" Ni caiyue waved her hand excitedly and turned to leave in high spirits.

Lin Yi and the others smiled at each other as they watched the girl leave. Xinyan's lips curved up playfully. "She's the third fairy. This is such a good opportunity, why don't you try to get close to her and accompany her? if other men find out, they'll definitely say that you're wasting such a precious gift. You won't have such a chance once you pass this village."

"That's right. Master Lin, you're wasting your opportunity!" Lu xiaozhong came up and said.

"Then you go." Lin Yi said, rolling his eyes.

"I don't dare to. My father doesn't allow me to touch women. Besides, I can't afford to touch them." Lu xiaozhong scratched his head in embarrassment. He knew this when he looked at Chang laiting, whose head was stuck in the ground. If he couldn't even defeat this guy, then a third fairy like ni caiyue could only dream of it. A Toad wouldn't be able to eat swan meat.

"Hehe, you're quite self-aware," Lin Yi couldn't help but be amused. This Lu xiaozhong was just like his father, Lu Dachang. He looked like a pain in the ass, but he was actually very smart. He was the type of

person who knew what he was doing. He would never do something he didn't know. He would only do it when he had absolute confidence. He had to admit that this was a very brilliant philosophy of life!

"Hehe, if I didn't have such a sharp eye, I, Xiao Lu, would have been beaten to death long ago." Lu xiaozhong smiled.

Lin Yi, Xinyan, and xiaotao looked at each other speechlessly. This guy seemed to have forgotten that he was almost beaten to death when he was fighting for the Golden core in leidong city ...

"I, Xiao Xiao Lu, don't have the right, but you do, Master Lin. You're one of the three fairies of the high Lin sea realm. And this ni caiyue, how should I put it ..." Lu xiaozhong tilted his head and thought for a long time before finally coming up with an accurate description. "It's easy to deceive!"

F \* ck! Lin Yi almost kicked the guy in the face. Did he look like the kind of weird uncle who would kidnap little girls?

"If you want to lie to me, go lie to yourself. I don't have to. Besides, what's wrong with the third fairy? there's already one here." Lin Yi said, his lips curling.

"That's right. Miss Wang and miss Huo are both Master Lin's female confidants!" Lu xiaozhong patted his head and reacted, but then his eyes rolled around and said, "Then all the more reason to chase after ni caiyue. Wouldn't it be a great story if the three fairies serve the same man?"

Lin Yi and the others were completely speechless-this Lu xiaozhong wasn't just a clown, he was an idiot!

"Come to think of it, ni caiyue does look quite likable. If you have any ideas, we won't object," Xinyan said half-jokingly.

"I think so too. It would be interesting to be sisters with such an innocent and cute girl!" Huang xiaotao also chimed in. She pointed at Chang laiting, who was lying on the ground, and said, "I can't bear to let her be Dao companions with such a beast."

Lin Yi looked at the two with a weird expression, "Are you guys overflowing with sympathy? You think you're adopting a small animal?"

Chapter 4903 I'll Reluctantly Believe You

"Helping others is the root of happiness. If you let her go now, you might not see her again in the future." Wang Xinyan smiled.

She may be from the common world, but she was used to Lin Yi's bunch of female friends after all this time. After all, she wasn't Lin Yi's first woman, and she wouldn't use the common world's way of thinking to restrict Lin Yi. If she didn't even have this much tolerance, she wouldn't be a xuansheng master today.

"I've never seen anyone use this kind of thing to help others ..." Lin Yi didn't know whether to laugh or cry. "I don't know if we'll be able to meet again in the future, but we'll be able to see each other soon."

Everyone was still surprised when they saw ni caiyue from the corner of their eyes. She came back to Lin Yi and said pitifully, "Young hero, can you take me out? I think I'm lost ..."

"Gah?!" Lin Yi and the others were stunned and looked at Ni Caiyue in disbelief, "Lost? Although the visibility here is very poor, you're still a Xuan Sheng primary stage expert. How could you get lost?"

After all, this place wasn't completely isolated from spiritual sense, and it wasn't like the vast ocean where one couldn't find a single landmark. Normally, as long as one paid a little attention, the possibility of getting lost was very low. No matter what, he was still an early stage Black Ascension expert.

"I don't know the way to begin with!" Ni Caiyue, on the other hand, pouted and said, "And I was too focused on shaking off those stalkers to remember the way. By the time I realized it, Changlai ting had caught up to me, so I could only run even more frantically, not knowing where I was."

Lin Yi and the others looked at each other. It sounded reasonable, but after thinking about it carefully, they realized that this girl was a fake. Let alone an early stage of mysterious Ascension, even a normal person would have the ability to remember the way while running ...

"We've only met by chance. I've already helped you enough. " Lin Yi shook his head speechlessly. He wanted to use this opportunity to walk around the road to becoming a Big Shot. He didn't plan on going back now. After all, he could only come here once. He wouldn't have the chance to come back again.

"But ... But I really can't get out. Master said that the road to becoming a Big Shot is very dangerous and told me not to wander around. He told me to return as soon as possible after I break through to the xuansheng stage. What should I do now ..." Ni Caiyue was anxious again.

Everyone felt dizzy again. This little girl could only see the strength of an early stage mysterious Ascension expert when she was spinning in circles. She was almost turning into a circle of afterimages.

"Why don't we just help her?" Xinyan and xiaotao couldn't help but turn to Lin Yi.

Seeing ni caiyue's pitiful look, Lin Yi couldn't bear to just abandon her like that, but he couldn't agree to it just like that, either. He thought about it and said, "Then tell me first, what does Chang laiting want from you? Tell me and I'll take you out. "

"This ..." Ni caiyue looked at Lin Yi with vigilance and took a step back, ""You also want to snatch it from me?"

"If I wanted to snatch it, you would've done it long ago. Why would I need to waste time with you?" Lin Yi said, rolling his eyes.

"Maybe he's trying to numb me and make me let down my guard? Shizun said that there are sinister and cunning people everywhere outside. We can't trust bad people, and we can't trust good people either!" Ni caiyue said with conviction.

"Hehe, that's strange. It's understandable that you don't believe in bad people, but what do you mean by you can't believe in good people?" Lu xiaozhong was amazed, and Lin Yi and the others looked at each other.

"Because good people are all feigned with ulterior motives. Master once said that there are no truly good people in this world!" Ni caiyue pretended to put on a profound expression, but it was a pity that such an expression did not match her cute temperament. She was like a child who was trying to pretend to be an adult, and people could not help but laugh.

"Hehe, your Master's words are quite touching. It seems that you've suffered at the hands of a good person before?" Lin Yi couldn't help but smile.

"I don't know about that. I'll just do as Master says." Ni caiyue said in all seriousness.

"So, when your master betrothed you to a scumbag like Chang laiting as his Dao companion, you did as you were told, and then you were snatched away by your own Dao companion?" Wang Xinyan suddenly interjected.

"Uh ..." Ni caiyue couldn't hold it in any longer, and she said with a bitter face, ""I haven't married him yet. I don't want to be his Dao companion. This person is so fierce and evil!"

"That's why you can't just listen to everything your Master says. You have to feel things with your heart when you encounter people and things. Look at him again. Does he look like the kind of person who has ulterior motives?" Xinyan pointed at Lin Yi with a smile.

Ni caiyue sized Lin Yi up again, making him feel uncomfortable and cough awkwardly.

"Doesn't look like it ..." Ni caiyue finally came to a conclusion, but she didn't wait for Lin Yi to be happy. "What if he's a bad guy who's been hiding his true intentions?"

The crowd didn't know whether to laugh or cry. Lu xiaozhong laughed and said, ""If Master Lin is a bad person who hides himself well, then are you trying to say that your Dao partner who is upside down is actually a good person who hides himself well?"

"No way, he's so fierce, how could he be a good person!" Ni caiyue pouted.

"But Lin Yi wasn't mean to you at all, and he even helped you out of that situation, and you still call him a bad guy?" Huang xiaotao felt bad for Lin Yi.

"This ..." Ni caiyue tilted her head and thought for a long time before re-sizing Lin Yi up. "I don't think he's a bad person either. I guess he's just barely a good person."

Lin Yi wanted to cry, but no tears came out-there was a hidden bad guy here, and he still wasn't cleared of suspicion! Was he that forced?

Wang Xinyan and Huang xiaotao held back their laughter as they looked at Lin Yi helplessly. Their eyes conveyed the same message-I can only help you this much.

"Okay, now you can believe that I won't snatch you, right?" Lin Yi said helplessly.

"Well, I can barely believe you." "Alright then, I'll tell you what it is. It's this," ni caiyue said.

Ni caiyue then took out a long and narrow wooden box from the bag she was carrying on her back. After she opened it, she found a spiritual herb inside.

Lin Yi and the others immediately surrounded it. This herb didn't seem special at first glance, just like a normal weed on the side of the road. But if you looked closely, you'd see a faint fluorescent light between the veins, reflecting the entire vein pattern and making it mysterious, giving people an extremely profound feeling.

#### Chapter 4904 Mystical Herb Cultivation

Lin Yi looked at it again and again, but he didn't recognize it. As an elixir refiner, he knew more about elixirs than ordinary people, and he had read many illustrations of elixirs during his spare time, but this was the East continent, after all. Many of the treasures were unique to the East continent, and even if they appeared, they would only be digested within the East continent. The outer island people didn't know much about them.

But just because Lin Yi didn't recognize her didn't mean the others didn't. Xinyan blurted out after a few glances. "It's actually mystical raising grass!"

"Yes, yes! My father has obtained this before. It's just like the essence cultivating golden devil grass, and it has a miraculous effect on cultivators at the xuansheng stage!" Lu xiaozhong also jumped up.

"Mystical raising grass?" Lin Yi reacted immediately. He didn't recognize it at first, but he had seen this name before in documents. The essence cultivating golden devil grass could be made into the essence cultivating pill, and this Mystic cultivating grass could be made into the mystic cultivating pill.

The effects of these two pills were almost the same. They could both directly increase one's strength by one level. The only difference was that the former was only effective for Yuanying stage experts, while the latter was effective for xuansheng stage experts.

Lin Yi and the others had just reached the mystic Ascension primary stage, and they didn't expect to find Mystic raising grass so suddenly. One could imagine the temptation-no wonder Chang laiting was willing to steal his own Dao partner for this.

Ni caiyue was a little scared when she saw Lin Yi and the others 'excited faces. She hurriedly put away the mystical raising grass and backed away, "We agreed on this earlier, don't you guys snatch my ..."

Lin Yi scratched his head speechlessly-did he really look like a bad guy to her, especially when she was staring at him like that?

"No one wants to snatch you away. Don't you worry." Lin Yi didn't know whether to laugh or cry as he shook his head, "But since you want me to take you out, you have to pay a price. That shouldn't be a problem, right?"

"Ah?" Ni caiyue took another step back and held the wooden box tightly in her arms. She said nervously, "You still said you didn't want to snatch my mystical raising grass? You're indeed a bad person who has been hiding your true colors!"

"Hey, hey, when did I say I was going to steal your mystical raising grass?" Lin Yi said helplessly.

"Didn't you want to snatch the mystical grass?" Ni caiyue tilted her head, then her eyes suddenly turned, and she said something shocking, "Are you going to Rob me? No way, I won't be your second wife!"

"Second wife?" Everyone collectively fainted. This little girl's imagination was really strange. How did she link her with a small wife?

"Of course. You have these two sisters as your wives. Aren't you snatching me away to be your second wife?" Ni caiyue had an expression that said she had seen through everything.

"Who said I'm going to snatch you as my second wife!" Lin Yi was on the verge of a mental breakdown- he was starting to suspect that he'd really be labeled a bad guy if he kept talking to this girl. "The price I'm talking about is very simple. You just need to tell me where you picked this mystical raising grass."

"So you're not trying to snatch me away. That's good, that's good." Ni caiyue patted her chest and let out a breath of relief. Lin Yi could only do it again, but after a while, the girl hesitated again, "But master said that this location is top secret. We can't reveal it to outsiders."

"Then there's no room for discussion. You can go back by yourself. We still have to continue exploring." Lin Yi said, waving his hand.

"Wait!" Ni caiyue looked at Lin Yi pitifully and hesitated, "If you don't take me, I can't get out by myself ..."

"There's nothing we can do about it. You can only stay on the path of the big shots for a month at most, and you can't come in again after that. If we take you out now, we'll definitely waste a lot of time and suffer a great loss. We have to compensate you accordingly, right?" Lin Yi said.

"This ..." Ni caiyue was still hesitating.

"Take your time to think about it. We can afford to wait for a while, but I'm not sure about the one with the head in the ground. If he wakes up again, I may not help you deal with him. After all, you can't do things three times." Lin Yi said, pointing at Chang laiting.

"Don't, don't!" Ni caiyue was shocked, and she was so anxious that she ran around in circles. In the end, she slapped her head and said, "That's right, my master's exact words at the time were not to give the map to anyone else, but he didn't say that I couldn't personally bring people there. As long as I personally bring you there, wouldn't it be the best of both worlds? I'm so smart!"

Lin Yi and the others didn't know whether to laugh or cry. If this was considered smart, then what were they?

But no matter what, since the girl was willing to lead the way herself, it was something he couldn't ask for more. Everyone wanted mystical grass, and Lin Yi was no exception.

After both sides agreed, Lin Yi and the others immediately brought ni caiyue to the main road. The girl would only be able to find the treasure land for cultivating mystical grass after they returned to the main road.

With the range of Lin Yi's divine sense, it was easy for him to find the main road after identifying the direction. What he did next was to follow ni caiyue to an extremely remote and hidden place.

Without the map, even Lin Yi and the others would be dizzy, let alone ni caiyue.

At this time, they had already reached the depths of the road to becoming a Big Shot. Along the way, it was difficult to see any traces of disciples from other Academies. There were not many people who could successfully advance to the profound Ascension stage. Those who dared to explore this place were even fewer. Not to mention that this place was so remote and hidden.

A day later, ni caiyue finally brought everyone to their destination. There was a deep basin in front of them. The smoke blocked their divine sense, and even Lin Yi couldn't see the whole basin.

"Did you get the mystical raising grass here?" Lin Yi frowned-this basin gave him a dangerous feeling, but come to think of it, the better the production, the more dangerous it was. This was a common sense in the world of practicing-it'd be weird if they could get treasures like this without any risk at all.

"No, no, you can't enter this place. This is the Land of Lightning burial!" Ni caiyue shook her head repeatedly.

"Lightning burial ground?" Lin Yi and the others were stunned.

"That's right! It's said that anyone who steps in will be buried by lightning!" Ni caiyue nodded.

"There's such a thing?" Lin Yi and the others looked at each other. They all thought that lightning burial would only appear at certain times, but they didn't expect there to be a lightning burial ground.

"Yes, yes. The mystical nurturing grass actually grows in this basin. It can only grow bit by bit after being constantly baptized by the lightning burial." Ni caiyue explained.

Chapter 4905 Thunderous Burial City

"If that's the case, then where did you get this mystical raising grass? did you take the risk to jump in and pick it?" Lin Yi and the others asked.

"How is that possible? I was lucky to find this mystical raising grass on the edge of this basin. Otherwise, I wouldn't have been able to find it anywhere else!" Ni caiyue shook her head and added, "My master said that mystical raising grass is a very rare spiritual medicine. Even in this lightning burial basin, it's not common and hard to find."

Lin Yi couldn't help but frown at the words. He looked at the basin in front of him, speechless. They did come, but the legendary lightning burial ground was a bit scary!

The president of the Alliance had once said that no one could survive the lightning burial. Although he did not know if he was referring to the Academy's disciples or even the existences at his level, he was certain that the lightning burial was no small matter. It was far from an ordinary lightning tribulation.

Even the lightning tribulation he went through couldn't be compared to this. Even with Lin Yi's current strength, he wasn't sure if he could come out.

When Ni caiyue saw that everyone was silent, she suddenly said, "I've brought you to the place, I'm going back. "

"Yes, please." Lin Yi nodded and made a hand gesture.

"Then, goodbye, good person who has been hiding well!" Ni caiyue stuck out her tongue and left in high spirits.

"A good person is a good person, what do you mean by a good person who's hidden well ..." Lin Yi said helplessly as he watched the girl leave.

"You should be satisfied. It's already good enough that she sees you as a good person. It's better than a bad person who hides deeply." Wang Xinyan said with a smile, while Huang xiaotao and Lu xiaozhong giggled to themselves.

"Alright, so I've still profited from this?" Lin Yi smiled awkwardly and pointed at the basin. "It's rare for me to come here, so I want to go down and have a look. Otherwise, I won't have the chance in the future. "

"What? But this is the lightning burial ground, you'll lose your life if you go in!" Wang Xinyan and Huang Xiao Tao were shocked. Although mystical raising grass was good, it couldn't be compared to their lives.

"I've made up my mind. You guys don't have to try to persuade me anymore. You guys will definitely die in this place, but I should still be able to survive. Even if I can't withstand the lightning burial, I can still make it back. I won't die in there. " Lin Yi said firmly.

"This ..." Wang Xinyan and Huang xiaotao looked at each other, and in the end, they could only nod reluctantly, ""Alright, but don't force yourself. If you find something wrong, escape immediately. Don't hesitate. It's either I get the mystical grass or I die. It's fine if I don't get it."

Of course, they didn't want Lin Yi to enter this extremely dangerous lightning burial ground. Even if there were ten thousand mystical raising herbs under their feet, they wouldn't let Lin Yi take any risks, let alone a few. However, they knew Lin Yi's personality. He might be easy to negotiate with normally, but once he made up his mind, he wouldn't go back on his words!

"Yes, don't worry. My life is precious. I won't throw it away for a few mystical raising herbs." Lin Yi gave them a reassuring look and continued, "While I'm down there, you guys can take a look around. If you're lucky, you might be able to get a few stalks of mystical raising grass like that ni girl. However, you have to be careful. There might be some danger in the surroundings."

"Okay, remember to be very, very careful. If you find any danger, come back immediately!" Wang Xinyan and Huang Xiaotao reminded him again.

"I know!" It was long-winded, but Lin Yi's heart felt warm-they only did this to him, and if it were someone else, they wouldn't be this patient.

Lin Yi was about to jump into the basin, but before he could get up, the ghost's voice sounded in his head. "Wait!"

"What are you doing?" Lin Yi was shocked-he'd really have to think twice if he wanted to stop something like that.

Xinyan and the others didn't know about the eight-spirit root in his body, but this bastard knew it all very well, and with his experience, he could clearly tell if he could handle such a danger. If he said no, then it basically meant that he couldn't, and going was just looking for death.

"This ... Looks like the legendary Thunder burial city!" The ghostly being suddenly said after a moment of silence.

"What do you mean?" Lin Yi was surprised. Ni caiyue only said that there was a lightning burial here, but what the hell was a lightning burial city?

"Yes, this should be thunderous burial city!" The ghastly thing observed carefully for a while before finally confirming and explaining, ""This is also a secret rumor among the spirit beast clan. You humans rarely know about it. If I'm not wrong, this place is the final home of those powerful lightning-type spirit beasts!"

"The final home?" Lin Yi blinked, "That means ... Could it be that this is the graveyard of lightning-type spirit beasts?"

"Not bad! Do you know that there is a Thunder Dragon clan in our dragon clan's branch?" The ghastly thing said.

"The Thunder Dragon clan? I've never heard of it. " Lin Yi shook his head. Other than the Green Dragon, he'd seen all kinds of Dragon races. From the dragons of the five evils in the common world to the five poison wyrms in the five poison swamp, and even sea dragons that belonged to the sea beast race. He'd never heard of a Thunder Dragon.

"Hehe, the Thunder dragon's bloodline isn't pure. It's actually the descendant of the lightning bird and our dragon clan. However, it's also included in our dragon clan's genealogy, so I have some understanding of it. Give me a moment to think about it carefully." The demonic thing laughed.

"Alright," he said. Lin Yi nodded, chuckling to himself-the saying "Dragons are lecherous by nature" was true. It seemed like they could mix with any creature, and the most ridiculous one was that they could even overcome the natural barrier of reproductive isolation and create a whole bunch of mixed-breed offspring.

Legend had it that wyrm dragons were the hybrid of Dragons and snakes, sea dragons were the hybrid of Dragons and sea beasts, and this Thunder Dragon was the hybrid of Dragons and lightning vultures. As for the Dragon of five evils, a half-dinosaur, Lin Yi didn't even dare to imagine what the dragon clan had done. The extent of their circle of friends was really amazing.

Xinyan and the others found it strange that Lin Yi was so confused. They looked at each other, thinking that he was observing the basin below. They didn't interrupt him and just stayed by his side.

"Eh? I've found it!" The demonic thing was suddenly overjoyed. At his level, the so-called careful thinking was not the kind of memory that ordinary people had, but directly rummaging through their own memory fragments!

Chapter 4906 Grass Blindness

As long as he had seen or heard it before, he would be able to restore it flawlessly with just a little time.

"How is it?" Lin Yi quickly asked.

"This is the information left behind by a Lightning Dragon during the dragon clan's conference. It mentioned the city of lightning burial. According to him, the so-called lightning burial here is actually the highest standard of death ceremony for powerful lightning-type spirit beasts!" The ghastly thing said.

"Lightning burial is actually a death ritual?" Lin Yi was taken aback-he'd thought that the lightning burial was like a tsunami or an earthquake, a natural disaster unique to the island. He didn't expect it to be a death ritual.

"That's right. The lightning burial that outsiders see actually comes from this lightning burial city. Although it sometimes affects the outer areas, causing the power of the lightning tribulation outside to suddenly increase, it's not really a lightning burial. It's just a reaction caused by the lightning burial, just like how there's always wind and rain when there's a Typhoon in the secular world," the man said. The ghostly thing explained.

"So, compared to the real lightning burial, this is just a small matter?" Lin Yi said, deep in thought.

"Of course. The true lightning burial is only limited to the city. It won't cover the entire thunderclap plain Island. Of course, to ordinary human cultivators like you, even the lightning tribulation that suddenly becomes stronger due to the influence is already fatal. It doesn't make a difference whether it's lightning burial or not." The ghostly thing said.

"Then, senior, do you know how the lightning burial came about?" Lin Yi asked again. Since it was a death ceremony, there had to be a leader. It was like the sky burial in the common world. The process was simple, but at least someone had to bring the body to a specific location and attract vultures and other beasts.

"It's said that before all lightning-type spirit beasts die, they'll enter the city of lightning burial on their own accord and trigger the lightning tribulation to execute the lightning burial. They'll die together with the most powerful lightning energy. This is their ideal ending." The ghostly thing said with a sigh.

"In that case, I really can't go in? "He'd probably be dead if he went in ..."Lin Yi couldn't help but hesitate.

He'd formed the unprecedented compound eight spirit root, and one lightning strike was comparable to a small lightning tribulation, which boosted his confidence, but it wasn't to the point where he wasn't afraid of the lightning burial. With his current strength, he could easily deal with normal lightning

tribulations, or even ten times the power, but who knew how strong the lightning burial was? What if it far exceeded the upper limit of what he could bear?

"You're right, but you can go in and take a look. I've never been to Thunder burial city before. Don't you want to see the graveyard of the lightning spirit beasts? There might be some unexpected gains!" The ghostly thing encouraged.

Lin Yi's heart heated up-putting aside the mystical grass, there were a lot of powerful lightning spirit beasts "corpses here, and they'd probably have a lot of good stuff on them. This was far more tempting than the mystical grass.

"But what if we die inside ... What should we do?" Lin Yi didn't lose his mind-the risk and benefits were always proportional, and the more good things there were, the more dangerous it was.

"I don't think so. The biggest threat in there is the lightning burial, and you have the lightning attribute. Your resistance to lightning is probably similar to that of a lightning spirit beast. In fact, an ordinary lightning spirit beast might not even be able to compare to you. After all, you have a lightning attribute-dominated composite eight spiritual roots." The ghostly thing clicked its tongue and sighed.

"That's true," Lin Yi remembered the lightning bird's attack-it was fine, but the other birds probably wouldn't be any better.

"If you really can't handle it, you can just run. You're so fast that ordinary things won't be able to catch up to you. No matter how powerful lightning burial is, you'll be able to escape after taking a few hits. You won't lose your life," The ghostly thing continued to persuade.

"Well, as the saying goes, curiosity kills the cat. Senior, your curiosity is really strong. In order to let me go in and see, you came up with so many reasons. It's really hard on you, senior." Lin Yi grumbled in his heart.

"Hehe, the world is full of wonders. How can I not go and experience it with such a good opportunity? Besides, I won't harm you. If you die, I'll be finished too. " The ghastly thing pouted.

"I didn't know that senior was an explorer!" Lin Yi chuckled. He could tell from the fact that this guy risked his life to come to the common world in search of the king of spirit beasts "bloodline that he was a man of action and courage. This lightning burial ground was probably nothing to him.

Lin Yi nodded at the girls and jumped down with a clench of his teeth, disappearing into the thick fog.

"This place gives me a very ominous feeling. I hope nothing happened to him." Xinyan said worriedly as she looked at where Lin Yi had disappeared. Her practitioner's Arts were from the eastern sea's divine nun lineage, and she was good at predicting good and bad things. She just didn't know any advanced techniques like divination, and this alone wasn't enough to convince Lin Yi.

"Yeah, I also feel that it's strange. My intuition tells me that it's very dangerous inside." Although Huang xiaotao had only joined the sect for a short time, she had a wealth of experience in various trials, and her intuition was very accurate.

"You guys don't have to be so worried. This is Master Lin we're talking about. He's not an ordinary person. He'll definitely be fine. Let's just go and find the mystical grass!" Lu xiaozhong casually comforted him and immediately went to find the mystical raising grass. This was something he had been dreaming of, but he was stunned after just two steps. He turned around and asked weakly, "What does the mystical grass look like?"

Wang Xinyan and Huang Xiao Tao were instantly amused, not knowing whether to laugh or cry, "Didn't I see ni caiyue's herb before? have you forgotten so quickly?"

"Well ... To be honest, I, Xiao Lu, am blind in grass ..." Lu xiaozhong scratched his head and said pitifully.

"Grass blindness?" Wang Xinyan and Huang xiaotao looked at each other, stunned.

"It means that I can't distinguish between all kinds of spirit herbs. Most of the spirit herbs are no different from weeds in my eyes. My father is the same, so all the spirit herbs in my family are bought. I rarely pick them myself. Otherwise, even if I pick a large pile of them, they are all weeds. I have done this kind of thing many times in the past ..." Lu xiaozhong said with a bitter face.

Wang Xinyan and Huang xiaotao held back their laughter for a long time, their faces turning red.

Chapter 4907 Unable To Advance Or Retreat

This was the first time they had heard of such a person. This Rascal father and son were really funny! No wonder Lu xiaozhong didn't pick the spiritual herbs himself and instead took the initiative to carry the bags for them. He was blind.

"Alright then, you can follow us and look for it. Remember the characteristics and bring it to us when you find something similar. Let's go." Xinyan smiled, taking one last look at where Lin Yi had jumped down before leading the way to try their luck.

Lin Yi had only touched the ground after falling for a while-the basin was much deeper than he'd expected, and he'd be injured if he didn't use his Qi to reduce the force of his fall.

Lin Yi looked around cautiously. The fog didn't seem to be getting any lighter from the top, but it was getting thicker and thicker down here. It was all foggy in front of him, and he couldn't see anything. Worse was that he couldn't even sense with his spirit sense.

"Senior!" Lin Yi quickly asked the ghostly thing for help. This place was dangerous and unpredictable, and if he didn't know the situation, it was no different from looking for death.

In terms of consciousness, the ghost was at the top of the Sky Class Island, and it had always been successful. But this time, it said with a serious tone, "This is really strange. This place can even block my divine sense!"

"What?" Lin Yi jumped in shock. "Even senior can't sense it? How is this possible?"

"It's indeed unbelievable. The legendary Thunder burial city is indeed strange." The ghostly thing asked in bewilderment.

"What do we do now?" Lin Yi's hair stood on end as he looked at the fog in front of him. He couldn't even sense ghosts, and this place was undoubtedly a death zone for him. He wouldn't be able to take any accidents.

"Forget it, let's go back. We can't stay here for long." If he was at his peak, he'd definitely give it a try, but he was only a spirit right now. He wouldn't be able to protect Lin Yi if some powerful being came out.

"Alright!" Lin Yi backed off without hesitation-even the ghost had said so. He couldn't stay here any longer, or his life might be in danger.

However, before Lin Yi could take two steps back, he felt a chill in his heart. His back was empty!

He had just jumped down the cliff. According to his previous plan, if there was an accident, he would climb back directly. After all, this was just a piece of cake for him. But at this moment, he was shocked to find that there was no cliff behind him!

In his shock, Lin Yi doubtfully retreated another few hundred feet, but there was still nothing!

"How is this possible?!" Lin Yi had an idea. He couldn't see far with his eyes and couldn't sense with his divine sense, but he had other ways to determine the location.

Lin Yi picked up a rock and threw it far away. He wanted to use the sound to determine his surroundings without exposing his position and attracting any danger.

Pa! The rock hit another rock in the distance, making a crisp sound, but the result sent a chill down Lin Yi's spine-there was no response!

There was no response, which meant that this place was very empty, and there were no cliffs nearby!

Lin Yi started to sweat. He felt his hair stand on end. This place was too weird. It was covered in fog and he couldn't use his divine sense. The most ridiculous thing was that the cliff behind him disappeared without a trace. Even the ghosts couldn't sense it. It was too weird.

"A formation! There must be a formation here!" An idea suddenly popped up in Lin Yi's mind. This could only be explained by a formation-without it, there was no way they wouldn't be able to retreat to the edge.

"Maybe ..." The ghost wasn't too sure. He was more experienced than Lin Yi, and this could only be explained by a formation, but there was a formation in the world that he couldn't see through at all? this was too unbelievable.

"Senior, what should we do now?" Lin Yi quickly asked. He was a man of his own mind, but this was something he'd never seen or heard of before. If he didn't find a way out, it was basically impossible to leave.

"If it's a formation, then we have to find the formation's eye in order to break it. In this situation, we can only look for it." The ghastly thing said in a serious tone.

"Yes, that's the only way," He had a bad feeling about this, but he had no other choice but to force himself to explore the area. Even if he couldn't find the formation core, he had to at least figure out the situation first and be prepared for anything.

But before he could take two steps, there was a sudden flash of lightning above his head!

The fog was so thick that he couldn't even see his fingers in front of him-the visibility was poor, and he couldn't even see what was above his head. But with the Thunder, the powerful lightning pierced through the fog and cut through the sky, allowing Lin Yi to see it clearly!

Lin Yi's heart skipped a beat-the lightning wasn't just dark blue anymore, it was almost purple.

Since receiving the giant electric eel's Thunder inheritance, he had a very clear understanding of the power of Thunder. Ordinary lightning was light blue, and the stronger Thunder tribulation was pure blue. The tenfold Thunder tribulation he had experienced before was almost dark blue.

The power of the purple lightning was far above that of the dark blue lightning. It should be known that with the strength of the giant electric eel at the Super sea splitting stage, other than its most powerful killing move, the black heavenly punishment, ordinary lightning strikes were only dark purple.

Although the lightning above his head wasn't dark purple, but only close to purple, it still scared Lin Yi. He had seen the giant electric eel kill a few sea split realm spirit beasts with dark purple lightning. Even if it looked like a sneak attack, to be able to kill them in one strike was enough to show its terrifying power.

The dark purple lightning could kill a sea Rift realm spirit beast, so even if the purple lightning wasn't as strong, it should be able to kill Lin Yi, who was only in the early stage of the mysterious Ascension realm, right? This was much more powerful than the lightning tribulation!

In his shock, Lin Yi couldn't care less about his surroundings. He used his super butterfly microsteps and ran away without hesitation.

This choice seemed stupid at first glance, because even if the purple lightning was circling above them, it might not land here. So no matter where they ran, the chances of being struck by the lightning were almost the same. On the contrary, because they could not see the surroundings clearly, it was easy to attract other dangers.

#### Chapter 4908 The Difference Between Lightning And Thunder

But don't forget, Lin Yi wasn't a normal person. He had the strong lightning element, and he was like a lightning needle in a place like this. He had a feeling that the purple lightning above his head would come for him.

Instead of waiting for death, it was better to take the risk and escape. Even if he provoked other dangerous beings in the process, it was still better than being struck by lightning.

With Lin Yi's current strength, his super butterfly microsteps was a lot faster than before. To normal people, it was no different from teleportation, but no matter how he ran, the purple lightning always circled above his head.

Lin Yi was so scared that his heart was shaking. He gritted his teeth and ran for his life, even using his ultimate butterfly microsteps. But it was useless. No matter how fast he was, he couldn't outrun the purple lightning. It seemed like it had locked onto him!

Ever since he got the powerful lightning element, Lin Yi had always been overjoyed, especially this time when he got the unprecedented eight spiritual roots under the guidance of the lightning element. Lin Yi was even more overjoyed, but now he was really having a headache. The lightning element was powerful, but this lightning attracting needle's special feature was a problem that could kill him!

Sure enough, everything had its advantages and disadvantages. It was really a fool's dream to think that one person could take all the good things.

BOOM! With a loud sound, the purple lightning finally came down, hitting Lin Yi right on the top of his head!

Lin Yi was frozen in place, twitching and struggling as if he was frozen in place. His body was covered in shocking electric sparks, and if someone were to look closely, they'd see that he'd been electrocuted into the air, purely because of the lightning.

Normal lightning couldn't do any damage to Lin Yi at all. Even if it was ten times stronger, he could grit his teeth and endure it, but this purple lightning almost killed him. The power of this lightning was at least fifty times stronger!

"Motherf \* cker!" Lin Yi screamed in pain, almost fainting from the shock. Fortunately, he still had a bit of consciousness left, or he'd be dead for sure.

With the strong lightning element in his body, Lin Yi was like a giant human battery-not only could he discharge electricity, but he could also store electricity. He could absorb normal lightning directly, but this was fifty times the normal amount-this was way beyond what he could take!

Even if it was a battery, it would probably explode on the spot, let alone a living person like him.

In an instant, Lin Yi was so close to death.

Fortunately, after a moment of daze, Lin Yi found that he was able to withstand it. Although his body was filled with extremely dangerous lightning energy, fortunately, the lightning energy didn't go

everywhere. It was absorbed around the lightning-based compound eight spiritual roots. Otherwise, even ten lives wouldn't be enough to kill him.

It felt like a powerful bomb was buried in his body. Once it exploded, he would be crushed to pieces. Fortunately, this was a time bomb. As long as he didn't touch it, he still had a little time to deactivate it.

A huge amount of lightning energy was stirring in Lin Yi's body. The only thing he could do now was to refine it before it went out of control. This was far beyond Lin Yi's limit, so the whole process was extremely difficult. Every bit of refining felt like his dantian and meridians were going to explode.

If he didn't have a strong will, he wouldn't even be able to keep his consciousness, let alone refine all the lightning. Fortunately, Lin Yi miraculously held on.

Feeling the unprecedented surge of lightning energy in his body, Lin Yi laughed bitterly, still in fear. He was almost exhausted.

Lin Yi's clothes were wet and dry from the cold sweat, and they were all crumpled and uncomfortable. If it weren't for the danger, he would've taken a shower and changed his clothes. It was too uncomfortable.

This was only Lin Yi-if it were someone else, they'd be dead already, turning into dust. Even experiencing this kind of pain would be a luxury.

However, his suffering was not in vain. After surviving a great disaster, he was bound to be blessed. Not only did he manage to survive, but the power of Thunder in his body had also become several times stronger.

Although only a small part of them had been completely refined by Lin Yi, the rest could only be considered temporary taming, just like the lightning strike he'd received before. It was a one-time use item, and once it was used up, it would disappear. Only the small part that had been completely refined by him could merge into the spirit root and live forever.

But even so, Lin Yi's harvest this time was not small. The process was a little dangerous, but the result was still a happy one.

"Senior, did you feel that the lightning just now was a little strange?" Lin Yi asked as he recovered.

"Why is it strange?" The ghostly thing was confused. He was more knowledgeable than Lin Yi, but he didn't see the purple lightning himself. Lin Yi could sense it, but he might not.

"I've received the inheritance of the giant electric eel and experienced the Thunder tribulation. After thinking about it carefully, I found that although both of them are powerful Thunderbolts, there is a fundamental difference." Lin Yi frowned.

"Oh? Can you be more specific?" The ghostly thing asked.

"Not only is the strength of the lightning different between the two, but more importantly, the will contained in them is completely different." Lin Yi analyzed after some careful thought. "The Thunder tribulation is the power of heaven and earth, so it's completely cold and emotionless. But the giant electric eel is different. Its lightning strikes seem to have some kind of emotional color."

"There's such a thing?" This time, even the ghost was shocked-not at Lin Yi's discovery, but at Lin Yi's keen observation skills. He didn't know much about lightning as he wasn't good at it, but he knew that it wasn't something normal people could detect.

He had strong willpower, keen insight, and an unflustered tenacity no matter what. Not only was this kid's hard innate talent such as spiritual roots unparalleled, but even his hidden innate talents were terrifyingly strong. It was not luck that he was able to have his achievements today.

"Hmm, I thought it was just my imagination. I thought that lightning was just a kind of power, so how could it be emotional? However, after experiencing that lightning, my thoughts have been confirmed. " Lin Yi's expression turned serious.

Chapter 4909 Discharge Electricity

"You mean that the lightning just now ..." The ghostly thing couldn't help but gasp.

"It's not naturally produced, but it has some kind of emotional color like the giant electric eel." This discovery was too shocking, and even Lin Yi himself had to take deep breaths to calm himself down. His heart almost jumped out of his chest when the thought came to his mind.

"In other words, there's someone behind the purple lightning?" The ghostly thing pondered for a moment and then analyzed, ""It's unlikely for ordinary human cultivators to enter this place, so the only ones left can only be Thunder spirit beasts. Moreover, such a powerful lightning is not something that ordinary Thunder spirit beasts can have. Only those spirit beasts who stand at the peak of the Thunder attribute can have it, such as the Thunder Dragon and the lightning Condor."

Lin Yi nodded in agreement. This was the city of Thunder burial, and only the powerful Thunder spirit beasts could be here. He was hit by the lightning Vulture once before, and it wasn't as strong as it was now, but there were still differences between the lightning vultures.

If it was the strongest lightning bird, it might even be able to compete with the giant electric eel. After all, it was already a top-tier Thunder spirit beast. It was not surprising that those powerful individuals could strike out this kind of purple lightning.

Of course, this could also be a Lightning Dragon or some other top-notch lightning attribute spirit beast. With their powerful racial talents, it was normal for them to reach this level.

"Could it be that I barged in and disrupted its death ritual, so it's angry at me?" Lin Yi suddenly thought of this possibility and was shocked at the same time. This was the city of lightning burial, and there was only one reason why those powerful lightning spirit beasts would appear here, and that was for the lightning burial!

"Hehe, if that's really the case, then you've really drawn the best lot." The demonic thing laughed.

"Top-top draw? This is great, they were preparing for the lightning burial and I came in. It's obvious that I'm begging them to bury me as well!" Lin Yi smiled bitterly. He really had to give it to Lin Yi-she was still in the mood to joke even at a time like this.

"That's not necessarily the case. Lightning burial is a very sacred death ritual for lightning-type spirit beasts. It can't be blasphemed. So, I don't think it will rashly launch lightning burial before it gets rid of you, an outsider who has caused trouble." The ghastly thing said disapprovingly.

"Oh, that's good ..." Lin Yi subconsciously let out a breath of relief, but he quickly realized what was going on.

Even if the other party didn't immediately use the lightning burial, he would still kill him first regardless of the consequences. With the power of the lightning just now, he would die either way!

"Hehe, no matter what, before the enemy attacks again, you should quickly find a way out of here. Otherwise, we'll both be buried here." The ghastly thing said.

"Yes." Lin Yi nodded, not thinking too much about it as he started to feel his way forward. If he was lucky, he might be able to find the formation core or a way out. The chances were slim, but this was the only way he could do it.

He carefully fumbled his way forward, and surprisingly, there wasn't any lightning this time around. Lin Yi was glad, but he didn't dare to let his guard down. This was the calm before the storm.

"Senior, can you feel it?" Lin Yi asked.

"I can feel it. It seems that your speculation just now was right. The entire surrounding space is filled with a strong resentment." The ghastly thing muttered.

"What? The entire space is filled with them?" Lin Yi jumped-he just felt that it was weird-the resentment felt like it came from some kind of being, but he didn't think that it could fill the entire space.

"That's right. Although my divine sense's perception is blocked, my intuition has never been wrong. This resentment is unbelievably strong ..." The ghastly thing's tone was solemn, and it seemed to be deep in thought.

"In that case, it must be a very heaven-defying Thunder attribute spirit beast that has its eyes on us? Could it be a Lightning Dragon of your dragon clan? senior, perhaps you can claim to be related to it?" Lin Yi's eyes lit up.

If they were to talk about the most powerful Thunder attribute spirit beast, the lightning bird was probably ranked after the Thunder Dragon. If it was really the Thunder Dragon, then with the identity of the previous Azure Dragon, they might really be able to sit down and have a talk.

"You brat, don't hold on to this kind of luck. Hurry up and think of a way to escape. This feeling and aura don't feel like a Lightning Dragon at all. Even if it is, I don't have any relationship with them. What kind of relative are you trying to claim ..." The ghost curled his lips and said disapprovingly.

"Alright," he said. In fact, Lin Yi himself knew that this kind of thinking wasn't reliable, so he didn't stop walking and increased his pace.

It was just that the visibility here was too low-he couldn't see anything in the fog, and he couldn't use his divine sense either. He could only rely on his feet to scan the surroundings.

Lin Yi wasn't in the mood to look for the herb anymore-he needed to be alive to enjoy the treasure, after all. He'd better wait until he could make it out alive.

As he continued to move forward, Lin Yi's heart jumped. He didn't need the Jade to know that a strong lightning had gathered above him again. Lin Yi only looked up and his heart jumped. The lightning was purple just now, but it was completely purple this time.

This meant that the lightning above his head was even more powerful than before!

Lin Yi could clearly feel that with the appearance of the purple lightning, the resentment in the air seemed to ease up a little, as if it was using the purple lightning to vent its anger.

BOOM! The purple lightning didn't circle around for too long like last time-it came crashing down before Lin Yi could react. Lin Yi was sent flying again, his body convulsing and shaking like crazy.

The purple lightning had already made Lin Yi suffer enough, and this purple lightning ... Even with his experience, he couldn't take it completely. It wasn't just pain, it was endless torture.

If this continued, even if his will could withstand it, his body would definitely not be able to. After all, he was only an early stage mysterious Ascension realm expert. The amount of lightning he could withstand was extremely limited. Any more and he would die.

Discharge! In this life and death situation, Lin Yi suddenly had an idea. His body couldn't hold that much lightning energy, and he had to quickly think of a way to release it. Only then could he reduce the burden on his body.

Chapter 4910 Enemies Everywhere

He didn't have time to think about it-he put the thought into action as soon as it came to mind. He endured the pain and gritted his teeth, gathering the lightning energy around the spirit root and pouring it out in the form of a lightning strike!

BOOM! With a sudden explosion, the dark blue lightning bolt and the purple lightning bolt collided head-on. The extremely thick electric arc instantly scattered in all directions, creating a magnificent scene of lightning blooming out of thin air.

Although the idea didn't help Lin Yi get out of the situation, it unexpectedly managed to offset a part of the purple lightning. At the same time, his body, which had reached its limit, got some breathing space, at least leaving some space for him to refine the purple lightning.

"Phew ... Phew ..." Lin Yi knelt on the ground, sweating and panting heavily. There were burn marks all over his body, but they weren't fatal. It was really lucky that he made it through this time.

"Hehe, you're really bold to think of such a way. Aren't you afraid that your lightning will attack you after it's assimilated by the purple lightning?" This time, even the ghostly thing had a lingering fear.

Lightning could absorb each other, and while Lin Yi's attack was beyond his capabilities, it was still weaker than the purple lightning. It was normal for him to be absorbed, but it seemed like Lin Yi had won the bet.

"I didn't think that much in a moment of desperation ..." Lin Yi was still scared when he thought of the possibility, but he quickly guessed the reason and said, "It seems that my speculation just now was right. There's another master behind this purple lightning!"

"What do you mean?" The ghostly thing asked in confusion.

"If this is an emotionless heavenly lightning bolt, then it's very likely that my lightning bolt will be assimilated by it, because my will is nothing in front of the pressure of the world. However, if it's not

heavenly lightning, but a lightning bolt with a certain will, then we'll each serve our own master, and it's normal for them to cancel each other out," Lin Yi guessed.

"That makes sense, but this is only your own speculation. It's mostly a gamble of life. Your courage is really scary." The ghastly thing sighed.

"I have no choice. If I don't gamble my life now, I might not have the chance to gamble again." Lin Yi said with a bitter smile.

"Fortunately, you won the bet. Otherwise, I would have been buried with you. That would have been a big loss. Tsk, tsk, two lives!" The ghastly thing pouted and complained.

"Is this how you use two lives ..." Lin Yi didn't know if he should laugh or cry. This guy was the one who incited him to come in, and now he was blaming him. He didn't know what to say.

However, he also knew that this damned thing was just joking. Back then, this fellow had abandoned the great Azure Dragon elder and tried his best to run to the mortal world. In the end, he had turned himself into this wretched state. But even so, he had never heard him say the word "regret."

To put it bluntly, the damn thing was purely the kind of free and willful master who dared to do anything, but to talk about regret? These two words probably didn't even exist in his dictionary.

As the two of them spoke, the massive resentment in the surroundings suddenly became even more intense. If it was just resentment before, the feeling now had become a vicious curse.

Lin Yi was shocked. He didn't think that he would fail to survive two lightning strikes, and it looked like this was just the beginning. When did he become so hated?

"Kid, you've always been hated. You have enemies everywhere, and everyone will come to find trouble with you. Aren't you used to it?" The ghastly thing didn't miss the opportunity to ridicule.

"Senior, can you be more serious? From the looks of it, there will be more lightning coming down, and it's even stronger than the previous two. If I can't hold on, we'll really die in this damn place. " Lin Yi said with a bitter smile.

"It's fine. Didn't you already find a solution just now? I have faith in you. You won't die!" The damn thing laughed, not thinking much of it. He had more confidence in Lin Yi than Lin Yi himself, and he was still in the mood to joke even at a time like this.

Lin Yi shook his head speechlessly. It was an effective method, but who knew how strong the lightning would be? What if he couldn't even hold on like this?

No matter what, he couldn't stay in this place any longer. Even if he had to measure it with his feet, he had to find the array eye as soon as possible and find a way out. Otherwise, he would be in deep trouble today.

But not long after, another bolt of lightning struck his head. There seemed to be a cruel pleasure in the resentment, and as Lin Yi expected, it was stronger than before. The Lightning's eyes were already turning dark purple.

Once it turned completely dark purple, it meant that it was as powerful as the giant electric eel. It was a terrifying killer move that could kill a sea Rift stage being with one sneak attack. Even a hundred Lin Yi's wouldn't be able to withstand it.

This time, Lin Yi was prepared. After receiving the Jade's warning, he didn't hesitate to pour out all the lightning energy in his body. An extremely powerful dark blue lightning bolt broke through the sky first, meeting the purple lightning first!

Lin Yi was very nervous. This lightning was made up of the extra energy from the last lightning strike. It was way stronger than his own strength. It was even stronger than normal lightning tribulations. It was almost ten times stronger.

If it was before, Lin Yi would never have thought that he could release such a powerful lightning strike, but he couldn't bring himself to be happy now. Even if it was a real ten times normal lightning strike, it was still far from the purple lightning above him. He didn't know how much it could offset.

As expected, Lin Yi's dark blue lightning didn't even make a spark when it came into contact with the purple lightning. It was completely extinguished in the blink of an eye, and Lin Yi started twitching crazily for the third time.

The first time was excruciating, the second time was torture, but the third time was numbing ... He'd gotten used to it after some time ...

The pain was greatly reduced, but Lin Yi's heart was sinking bit by bit. This wasn't good news. Pain was the most important self-protection mechanism of the human body. Once the body went numb, it meant that the body had given up on resisting. In other words, it was hopeless.

Lin Yi, of course, wouldn't just sit there and wait for death. The only thing he could do now was to release the newly refined lightning energy in his body over and over again!
