

## Bodyguard 4931

### Chapter 4931 Nothing More Than This During The Mountain-Opening Period

"Hehe, I think you've misunderstood." Lin Yi, on the other hand, didn't mind as he smiled faintly and continued to look at the president, "What I mean is, if I kill her here today, I won't have to take responsibility, right?"

The president was taken aback and didn't know how to react. Everyone looked at each other. It was easy to understand what Lin Yi was saying, but it was a little too much to say something like that in front of a sect-opening powerhouse like zang Zili. Could it be that this person's brain was damaged?

Before the president could say anything, zang Zili laughed as if he had heard the funniest joke in the world. He looked at Lin Yi mockingly, "Hahahaha! No wonder you dared to lay your hands on my ting 'er. Your tone is shockingly big. I can tell you clearly that if you can kill me today, nothing will happen to you. But if you can't, Hmph, I will let you have a taste of a life worse than death!"

"Very good. I'm relieved to hear that." Lin Yi said as he stretched out his right arm, lightning dancing around it as he unleashed his aura, shocking everyone!

"So you're a lightning element cultivator. No wonder you're so arrogant!" Zang Zili's face changed. The lightning element was a rare spiritual root. Due to the special nature of the lightning element, lightning element cultivators were often described as powerful and overbearing. Normal cultivators would not be able to fight against them.

If Lin Yi wasn't in the early stage of the mysterious Ascension realm, but in the peak of the mysterious Ascension realm, zang Zhili would have to back down. As the weakest mountain split cultivator, it would be difficult for her to win against a lightning element peak of the mysterious Ascension realm. But now, he was only in the early stage of the mysterious Ascension realm. The difference in strength was enough to crush everything!

"Then, let me experience the strength of a Big Shot in the beginning stage today." As Lin Yi spoke, the lightning dancing on his fingertips suddenly grew into a dark blue Pillar-it was the newly developed lightning thousand explosion.

In the blink of an eye, the lightning explosion was flying towards zang Zili at a speed that was faster than the naked eye. The distance between the two was only a few feet. The moment the lightning explosion appeared, it was already right in front of zang Zili's face. No one could react in time.

However, zang Zili had reacted in time!

She was still an early stage mountain-opening refiner, after all. Even if she wasn't good at fighting, she was still a true giant realm master. Zang Zhizi's reaction speed was not something that the surrounding people, who were at most at the early stage of the mysterious Ascension realm, could compare to. Moreover, she wasn't an idiot. When she realized that Lin Yi was a lightning element practitioner, she had already been prepared for this.

As everyone knew, the most troublesome thing about lightning element cultivators was not their super destructive power, but the extremely fast speed of lightning. Basically, as long as they made a move, the lightning would directly hit their opponent, and even the most basic evasion was an extravagant hope!

Under such circumstances, one had to make accurate predictions in advance when facing a Thunder-type cultivator, because no one could avoid the lightning purely with a last-minute reaction. Otherwise, no matter how strong one was, they would only become a target for the lightning.

Zang Zhili wasn't good at fighting, but he was still a sect leader. He knew the basics of fighting, and so he had already reacted before Lin Yi even raised his hand.

In the face of the lightning explosion, zang Zhili had no intention of retreating. She was a powerful being at the beginning stage of her cultivation. How could she retreat in front of a mere mystical Ascension primary stage cultivator? That would be a joke!

Zang Zili put his hands together and before the lightning explosion could get close, he threw out a Super Fireball. It was not the usual dark red or dark red, but a dazzling white!

BOOM! A loud explosion was heard. The lightning explosion and the White fireball were evenly matched. The aftershock of the collision sent the surrounding experts of the great circle of the Yuanying stage flying. Only the experts of the early stage of the mysterious Ascension realm were able to stabilize their bodies, but it was still very difficult.

White flames? Lin Yi couldn't help but frown. This meant that the temperature of the fire was way higher than his own. No wonder he was an early-stage mountain-opening refiner. Even if he couldn't do anything else, when it came to fire, normal giant cultivators of the same level couldn't compare to him.

As the temperature increased, the color of the alchemy flame would change as well. It started off red, then orange, and finally gold. The temperature of zang Zili's white fireball was much higher than the golden one, and its power was not to be underestimated.

"It seems that I've underestimated this woman. No matter what, she's still an expert at the initial stage of the mountain opening realm. If I'm not careful, people will die." Lin Yi's heart shivered. Luckily, his opponent wasn't good at fighting. If this white flame wasn't a normal fireball, but some powerful fire-type martial arts, then his Thunder explosion wouldn't be able to take it.

Lin Yi was shocked, but zang Zili was even more shocked than him. This woman wasn't as arrogant and ignorant as she appeared to be. She knew her own strength well. The White fireball couldn't deal with people of the same level, but it had always been successful in killing people of the xuansheng stage. How did she end up on par with her opponent?!

Although she didn't show it on the surface, zang Zili was panicking inside. As an Alchemist, she didn't have any powerful martial skills, and her ability to adapt to the situation was even worse. The only thing she could rely on was to rely on the huge difference in strength to crush her opponent. There was no other way.

However, if he couldn 't, what could he do?

"Kid, you do have some strength. In that case, I can't let you go today!" Zang Zili's expression was cold as he spoke. The stronger his opponent was, the more he had to eliminate him. He was only at the early stage of the black Ascension realm, but he could fight him head-on. Once he grew stronger, he would be even more powerful!

"Oh, really? Then I really have to open my eyes wide and take a good look. The so-called Big Shot of the opening period is nothing more than this. " Lin Yi laughed coldly. His body flickered as he spoke, and in the blink of an eye, he was in front of zang Zili.

After all, he was facing a powerhouse in the mountain opening stage. This time, he did not hesitate to use limit surpassing butterfly microstep in order to catch him off guard.

Zang Zhili wanted to say something more, but he quickly swallowed it back. As a mountain opening sect leader, she was shocked by Lin Yi's speed. Her first reaction wasn't to face him head-on, but to retreat.

Not far away, the Guild masters and the others shook their heads. Lin Yi's strength was unbelievable, but zang Zizi was too weak. His battle sense was trash.

#### Chapter 4932 Extremely Embarrassing

If it was any other initial mountain split-stage practitioner, they wouldn't even take half a step back from Lin Yi's sudden attack-they'd use their absolute strength to suppress him and slowly crush him to death. How could they retreat so easily and be messed up?

However, zang Zili was not an idiot. He quickly reacted after subconsciously retreating for a moment. Such a retreat would only make his opponent more arrogant and make him stronger. If this went on for too long, he might really be defeated.

"You're looking for death!" Zang Zili's palms once again conjured up white flames. As he opened and closed his palms, he created a long stream of fire, trying to kill Lin Yi who was closing in.

Unfortunately, before she could even make a move, Lin Yi had already dodged to the side like a ghost. Strength aside, Lin Yi's battle sense alone was more than a hundred times stronger than zang Zili. Her every move was within Lin Yi's expectations.

Zang Zili's attack had missed, and he immediately revealed a weak point. Lin Yi didn't use the opportunity to use thousand Thunder burst, as the same move could be easily seen through if used too many times. It was rare to encounter a beginner level fighter like him, so he had to use this opportunity to test his moves!

Previously, changlai ting had been too weak. He had barely been able to hold on after trying out four elemental martial arts techniques. Since his son was of no use, then he would let his mother try. This was a good opponent who had delivered himself to his door.

With a Dragon's Roar, Lin Yi's hidden five-element killing intent finally appeared. After all, the opponent was a powerhouse in the opening stage. It would be too disdainful to use a four-element martial skill. Gathering the five-element killing intent was only the beginning.

Moreover, this was no ordinary five-element killing intent.

Zang Zili didn't have much battle experience, but he had sharp eyes. He could tell that Lin Yi's Five Element killing intent was extraordinary. It wasn't as terrifying as the thousand Thunder explosion, but it was definitely more profound than it was.

"Small tricks!" Despite his words, zang Zili did not dare to slow down. He quickly threw out a white fireball to meet the dragon-like five elemental killing intent.

When the two collided, everyone thought that there would be a huge explosion like the start, but unexpectedly, Lin Yi's Five Element killing intent didn't even make a sound. It was crushed by the White fireball.

From the beginning to the end, he did not even exhaust his opponent at all, let alone fight to a standstill with his opponent like he had with the lightning thousand explosion.

The crowd couldn't help but be shocked. After the two previous encounters, they subconsciously treated Lin Yi as someone who could fight against zang Zili. After all, from the two encounters, Lin Yi didn't seem to be at a disadvantage at all. Instead, he was leading the enemy by the nose.

However, this time, the difference in strength between the two of them was revealed. Ruthless might be able to exchange a few moves with zang Zili, but he couldn't do anything more than that. After all, he was only in the early stage of the mysterious Ascension realm.

"Hahahaha! I was wondering how strong you were, but it turns out that you're just an embroidered pillow that looks good but is actually useless. You've exhausted your strength so quickly? I haven't even warmed up yet!" Zang Zhili laughed coldly.

However, what she didn't realize was that at this moment, the Alliance President and the group of Masters of the Alliance's guards all revealed a mocking expression when they heard her words. Didn't this woman realize the danger she was in?

A dignified Big Shot at the beginning of the mountain was actually so slow. It was truly lamentable to a certain level!

"Hehe, as you wish. Now, we can warm up to our heart's content." Lin Yi said with a faint smile.

"What did you just say?" It was only then that zang Zili realized that something was wrong. Before she could react, hundreds of five elemental killing auras appeared around her!

Hearing the Dragon's Roar, zang Zili's expression changed. The killing intent of the five elements was not destroyed, it was just a cover. It was laughable that he thought this was the full power of the enemy.

"Let's start. Let me see how you warm up. " Lin Yi snapped his fingers casually, and the five-element killing intent surrounding zang Zili was all released at the same time. The others could not even see zang Zili's shadow, only the dense killing intent that covered him. It was a shocking scene.

Zang Zili was flustered. Even if she had summoned the strongest white flame, it could only lock onto a few of the five elemental killing auras. It was impossible to destroy all of them in one go.

All she could do now was to quickly open up a gap and break out from it.

Lin Yi didn't take the chance to attack again-it wasn't that he wanted to go easy, but that move had used up all his Qi. He could only use the Jade to replenish his Qi while observing the situation, preparing for the next move.

"This is...An apparition ..." Zang Zili finally realized that something was wrong after running for a while. Not all of the killing Qi was real. Most of them were just for show.

A mere show had managed to fool a sect-opening powerhouse like her. Zang Zili gritted his teeth in anger. He had clearly been toyed with by this kid in front of everyone!

The Alliance's President and the other mountain opening experts shook their heads once again. Although this woman was an Alchemist, and it was understandable that her strength was weaker than experts of the same level, but the battle literacy of a dignified mountain opening Big Shot could be so poor to this extent, it really made people speechless.

Most of them could tell that 99% of Lin Yi's Five Element killing intent was just a harmless mist-no matter how realistic the disguise was, if one's insight was strong enough, they'd be able to see the flaw.

Besides, even if he couldn't see it at once, he could still infer with basic logic that it was impossible for all of these five elements killing Qi to be real. Because with the strength of these five elements killing Qi, an ordinary early stage profound Ascension realm expert could only use five or six of them at most. But there were hundreds of them in front of him. It was easy to figure out whether they were real or fake!

Only zang Zili would be fooled by Lin Yi's killer aura of the five elements. If it were any other mountain opening stage master, it would be hard for them to achieve any effect.

Even so, zang Zili was not injured in the end. After all, she was an early stage mountain split expert. Even though she was in a difficult position and looked like she was about to be injured a few times, she still managed to escape in the end.

Chapter 4933 You're Dead For Sure Today

Lin Yi sighed as he looked at zang Zili's messed up breathing. He unleashed the five elements killing intent again, not giving his opponent a chance to catch his breath.

This time, it was still the fog version of the five elements killing intent, but Lin Yi added another element on top of it, the ice element.

With that, the five elements and the two ice and mist elements made it a seven-element skill in history. In other words, other than the strongest element in his body, the lightning element, Lin Yi had successfully merged all the other elements into one. It was a miracle to be able to do this in such a short time.

Of course, this was also because he had the foundation of the five elements killing intent, so he could easily merge the five elements. The later mist and ice attributes were only a step further on this Foundation, and the difficulty was imperceptibly reduced by a lot. Otherwise, let alone seven attribute martial skills, just how to combine five attribute martial skills would already make people scratch their heads.

"Hmph, you've already exhausted all your tricks so quickly? you're using the same move a second time? do you think I'm an idiot?" Zang Zili still didn't notice the difference in the killing intent and continued to mock Lin Yi.

Unsurprisingly, her stupid reaction, which had no self-awareness, was once again ruthlessly despised by the Alliance's President and the other Masters.

At this moment, everyone was thinking of the same question. How could such a stupid woman have such high attainments in alchemy? Could it be that her intelligence and wisdom were all concentrated on alchemy, and she was an absolute idiot in other aspects?

"You are indeed a fool." Lin Yi said what everyone was thinking.

"You!" Zang Zili gritted his teeth in anger. It was a pity that she was once again surrounded by hundreds of five-element killing intent. She couldn't find the time to attack Lin Yi. Even if 99% of the five-element killing intent was harmless, she still had to be careful. If the real killing intent locked onto her vital parts during the chaos, it would be a big problem.

With the experience from before, zang Zili was much more relaxed this time. She used her best skill, the White fireball, to break through the encirclement, then dodged it while circling around. It was the stupidest way to deal with the enemy, but it was not completely useless.

From this point alone, the effect of the same move would be greatly reduced if used twice. It was a pity that zang Zili did not realize that the five elemental killing intent in the shadowmist version had an ice element!

It was true that any ice attribute martial skill used alone would be completely countered by her white fireball, and it was almost impossible to have any effect. However, when the ice attribute was integrated with the killing intent of the five elements, this absolute disadvantage of suppression no longer existed. On the contrary, the ice attribute could show its effect when she constantly circled around.

This effect was freezing. Although it couldn't completely freeze zang Zili, it slowed her down significantly. That was enough.

Zang Zili quickly became flustered and exhausted. He was surrounded by hundreds of five-element killing Qis, and he was full of openings. The situation was dangerous.

Everyone in the distance was dumbfounded. An early stage mysterious Ascension realm expert was actually bullying an early stage mountain opening Big Shot to this extent. Was the script wrong?

BOOM! Zang Zhili's weak fighting skills had determined that she would not be able to deal with such a situation. The five elemental killing intent hidden in the fog finally found an opportunity to strike. It hit her in several vital points. Even if she was a powerhouse in the beginning stage of the mountain opening stage, she would be seriously injured by such an attack!

Everyone's hearts skipped a beat when they heard the commotion. Even though they had seen everything clearly, they still couldn't believe that zang Zili had been reduced to a pile of dust. They

looked at Lin Yi as if he was a monster. This guy could even take down an opening sect leader! When did the North Island have such a heaven-defying person?!

However, Lin Yi's expression didn't relax at all. In fact, his brows furrowed even more.

As expected, in just an instant, zang Zili charged out of the dust with a ferocious expression. His body was covered in a thin layer of white flames as he charged at Lin Yi like a madman.

Lin Yi shook his head as he backed off. These early stage mountain opening powerhouses were hard to deal with, even if they were zang Zili, the weakest of them all.

The attack just now did not manage to injure zang Zili severely. From the looks of her body, she was completely unscathed. Furthermore, she was wrapped in a layer of white flame. It must have been this thing that blocked the killing Qi of the five elements. No matter how weak zang Zili was, he still had a trump card that could save his life.

Before this, Lin Yi was the one who had the upper hand, but from this moment on, the tables had turned. Zang Zili was the one who was going after him, and Lin Yi was the one who was being chased.

It was a good thing that super butterfly micro steps was fast enough, or Lin Yi would've been the one at a disadvantage. The result was obvious at this point.

A seven-element martial arts technique wasn't enough to deal with zang Zili. It seemed like only an eight-element martial arts technique would be able to do it. Unfortunately, the lightning element in Lin Yi's body was too strong. It brought him great benefits, but at the same time, it also had a huge drawback. It increased the difficulty of merging it with the other seven elements.

If Lin Yi had a month's time, he would be able to master the strongest eight-element martial arts technique. It might be more than enough to deal with zang Zili, but where would he get the chance now?

Let alone a month, zang Zili wouldn't even give him an incense's time. Being suppressed by a mere mid-tier mysterious Ascension cultivator in front of so many people, zang Zili's reputation as a mountain opening powerhouse had been completely lost. He was now completely enraged and wanted to tear Lin Yi into pieces at all costs. Otherwise, he wouldn't be able to vent his anger!

"Hmph, little brat, if you have any tricks up your sleeve, just use them! Why? You're at your wit's end again?" Zang Zili laughed coldly as he chased after Lin Yi, "No matter how many tricks you have, brat, the absolute difference in strength is here. You'll die today without a doubt, and no one can save you!"

Lin Yi didn't reply this time, which was rare. He only focused on running away, giving people the feeling that he really was at his wit's end and that he was in a dangerous situation.

The crowd wasn't surprised at all. It was already a miracle that Lin Yi, who was only in the early stage of the mysterious Ascension realm, could suppress zang Zili for so long. Once zang Zili reacted, the situation would be reversed. It would be a miracle if an early stage mountain split giant lost to an early stage mysterious Ascension realm.

Chapter 4934 Lightning Burial!

Huang xiaotao's heart was burning with anxiety. Seeing that Lin Yi was getting harder and harder to Dodge, she couldn't help but help. She didn't care if the other party was an opening stage Big Shot or not. As long as it was harmful to Lin Yi, it was her mortal enemy!

However, Wang Xinyan pulled her back and shook her head. "Let's just watch. We can't interfere in a battle of this level."

"But ..." Huang xiaotao naturally understood this logic. With their strength, they wouldn't be able to help a sect-opening powerhouse like zang Zili. They might even drag Lin Yi down. But even so, they couldn't just stand by and watch. They couldn't just watch Lin Yi fall into a desperate situation, could they?

"He never does anything he's not confident in. Since he said those words, it means that he won't lose. At least, he won't suffer any losses. Let's just open our eyes wide and watch." Wang Xinyan shook her head with a smile.

She knew Lin Yi too well. If he wasn't confident, he wouldn't have attacked zang Zili. Instead, he would've tried to use the Morning Star Academy's name to solve the problem.

"Really?" Huang xiaotao was still worried, but she didn't want to help. Since Xinyan trusted Lin Yi so much, she had no reason not to.

As the two girls were talking, the situation became more and more dangerous. It might be because zang Zili was getting faster or Lin Yi was getting slower, but Lin Yi barely dodged the White fireballs several times, causing the surrounding people to cry out in surprise.

Everyone knew that the White fireball was not to be underestimated. If one was touched by it, not only would they be injured, but they might even be turned into ashes. After all, zang Zhili was a sect leader who relied on his alchemy fire for a living. This was no joke!

"What is this kid doing?" The others might not be able to tell, but the president was able to tell that Lin Yi wasn't as passive as he appeared to be. It was as if he was planning something.

"He should be exhausted. After all, he's only at the early stage of the mysterious Ascension realm. No matter how strong he is, the true Qi in his body is an insurmountable shortcoming." The middle stage mountain split Guard Captain beside him said with a frown.

All the other mountain opening stage elders nodded as well-today's battle was an eye-opener for them. They'd never seen such a strong early stage xuansheng before, but even so, none of them had high hopes for Lin Yi.

To be honest, Lin Yi had used so many powerful moves in a row and still had the energy to dodge them. This was already beyond their expectations. If it were any other early stage of mystical Ascension, they would have exhausted their Qi Long ago, let alone keep fighting with zang Zili.

"Maybe, but I don't think this kid is that simple." The president shook his head, deep in thought. His strength was far above everyone else's, and he naturally saw things more clearly than everyone else. However, he couldn't think of anything else Lin Yi could have left behind. This didn't make any sense.

"Brat, you're about to die of exhaustion, right? Haha, I've just finished warming up. Today, I'll let you have a taste of despair. I'm going to burn you to ashes bit by bit!" Zang Zili laughed like a mad woman.

As she spoke, she finally found an opening in Lin Yi's defense. She sent two streams of white fire towards Lin Yi, surrounding him from all directions and blocking all his escape routes!

Xinyan and xiaotao's expressions changed at the same time. They trusted Lin Yi, but the situation was too dangerous. The two girls were about to attack at the same time.

However, at this moment, Lin Yi, who was trapped in the White fire, laughed instead. His tone wasn't flustered at all, and he was still calm, "What a coincidence. I've just finished warming up and can start getting serious."

"You're still so stubborn even when you're about to die, go to hell!" Zang Zhili didn't believe Lin Yi's nonsense. The White flames pressed down on Lin Yi from all directions under her control, and he was about to be drowned in the sea of white flames.

Lin Yi didn't even look at it. He raised his hands up and yelled, "Lightning burial!"

"Lightning burial?!" Everyone, including the president of the Alliance, was shocked when they heard the name. They looked at each other in confusion. The lightning burial was a special product of the thunderclap Plains Island. However, the sky was clear and there was no sign of the lightning burial.

"Hahahaha! 'You're such a liar. How can you get a lightning burial?' He's not that strong, but he's good at bluffing!" Zang Zili laughed coldly.

However, before she could finish laughing, the cloudless sky suddenly began to surge with wind and clouds. Then, a huge pillar of lightning, the size of ten people, came crashing down. The previous lightning explosion was only dark blue, but this time, the lightning pillar had a faint purple color!

Zang Zili did not even have the chance to react before he was hit!

They were both using a lightning-based killer move. If the previous lightning explosion was only a shock, then the lightning burial that descended from the sky this time completely shocked everyone present. Even the Alliance President and the group of mountain opening powerhouses were shocked, and they were speechless for a long time.

Zang Zili's white flames couldn't even defend against the pillar's might, and the shockwaves from the pillar were enough to flatten it. Even Lin Yi was sent flying away!

"This is lightning burial?!" The president's face turned green when he realized what was going on. He had been watching the whole time, and he was happy to see Lin Yi take down zang Zili. After all, this woman was really annoying. If he didn't need her help, he wouldn't have to be so humble.

However, even though he was secretly happy, the Alliance master would not allow anything to happen to zang Zili, especially under his watch. If zang Zili really fell, who would help him refine the elixir?

Just like everyone else, the Guild Master had underestimated Lin Yi. Even though Lin Yi had the upper hand at the start and was forcing zang Zili into a panic, he didn't think that Lin Yi could do any real damage to zang Zili. No matter how embarrassing it was, zang Zili would still have the last laugh.

Lin Yi's strength was there for all to see. No matter how much explosive power he had, he couldn't kill an opening mountain sect leader in an instant. As long as he couldn't kill zang Zili, they would be in a stalemate. The end result would be him collapsing from exhaustion. This was something that everyone could see.

Chapter 4935 Legend Of The North Island

In fact, the situation was within the Guild leader's expectations before Lin Yi's Thunder burial. That was why he wasn't worried about the situation getting out of control.

But now, he was dumbfounded. He wouldn't have expected Lin Yi to be able to use lightning burial. What was going on?

Although lightning element cultivators were very rare, he had seen them before with his experience. In conclusion, they were indeed much stronger than ordinary cultivators. But to use lightning burial? Was this something a normal person could do?

Not to mention a mere early stage mysterious Ascension cultivator, even if he was a lightning element sect leader, he wouldn't be able to use such a heaven-defying method, right?

There was still a glimmer of hope for those legendary top-notch lightning attribute spirit beasts, but this kid was clearly a human cultivator. The Alliance president's judgment was not so bad that he could not distinguish between a human and a spirit beast.

As suspicious as he was, the Guild Master was still able to see something. He'd felt that something was wrong from the moment Lin Yi retreated, and now that he thought about it, it was clear that the kid was using this opportunity to prepare a big move. That stupid woman was completely clueless about it all, forcing Lin Yi to use this shocking lightning burial!

After all, Lin Yi was the strongest person here, and the president was right. That was what Lin Yi did. This lightning burial was an upgraded version of the lightning explosion, but he used the profoundness of the energy bomb and gathered all the lightning energy in his body to form the ultimate move!

One had to know that Lin Yi's body didn't just contain his own lightning energy. There was also the remnant of the vengeful Spirit's purple lightning energy. With the addition of Lin Yi's endless pure Qi that was converted into lightning energy, the combination of the two was like a pure Qi bomb, pouring out in a burst. The effect was shocking.

He had no choice. When facing a powerhouse like zang Zili, he had to use such an extreme method. Otherwise, he would only be able to embarrass his opponent like before, but not cause any damage.

Of course, if it was any other sect leader, Lin Yi might not even have the chance to use this ultimate move, much less take him down in one move!

It was different from the previous lightning explosion. Not only was lightning burial more powerful, but it also lasted longer. After being struck, zang Zizi was sucked into the air. He twitched and struggled, and his screams of pain could be heard.

Lin Yi nodded silently. Mountain split stage cultivators had strong life force. If it was a xuansheng stage cultivator, even a peak xuansheng stage cultivator, they wouldn't be able to withstand a single strike like lightning burial's ultimate move. They would probably be turned into dust in the blink of an eye. However, zang Zili was still able to put up such a struggle.

At this time, suffering was also a kind of strength, because those who were not strong enough would not even be qualified to endure the suffering.

Lin Yi's eyes twitched. He'd been paying attention to the president, and although he said he wouldn't interfere, he didn't believe that. As expected, the president couldn't hold it in anymore.

However, he wasn't aiming at Lin Yi. He raised his hand and a Green Arrow-like energy sliced Lei zang in half!

At the same time, the Alliance master's figure flickered. The others felt as if he had not moved at all, but there was someone else in his hand. It was zang Zili, who had been struck by the lightning burial.

"So strong!" Lin Yi was speechless at the scene. The rumors said that the president was a earth-splitting master, and it seemed like it was true. If he was only in the mountain-splitting stage, he wouldn't be able to deal with lightning burial so easily, right?

Even so, the Alliance master was unable to save zang Zizi. The woman was covered in black smoke and it was unknown whether she was Dead or Alive. She was just like the two unlucky chancellors and Chang laiting.

The whole place was dead silent. Everyone was dumbfounded. If Lin Yi killing two late stage mysterious Ascension Masters was still within their scope of understanding, then this scene had completely broken through the limits of their understanding.

An early stage mysterious Ascension realm expert had crossed an entire realm to defeat an early stage mountain split giant realm expert. When had this world become so crazy?

Not only was this unbelievable, but it also completely subverted common sense. These people had never even heard of it, let alone seen it!

Speaking of which, the East continent itself was a place where geniuses gathered. Geniuses who could challenge people above their level were very rare on the other Sky Class islands, but here, there were a

lot of them. It was not uncommon for a xuansheng stage master to defeat a mountain opening stage master, but those were all Masters at the great circle of the xuansheng stage. How could a mere early stage xuansheng do this?!

Only Wang Xinyan and Huang xiaotao's expressions were relatively normal. They were worried for Lin Yi, but they knew that fighting an opponent of a higher realm might be shocking to others, but it was a common thing for Lin Yi.

Since he could do this in the past, now that he had become an early stage mysterious Ascension expert, it was not strange for him to defeat a sect opening giant. On the contrary, it was a matter of course.

Looking at zang Zizi, who was still in a state of uncertainty, the president was dumbfounded for a moment. His face turned dark as he looked at Lin Yi coldly, "Kid, what do you mean?"

A suffocating pressure followed, and Lin Yi was even more sure of this person's strength-he wasn't a mountain opening stage cultivator, but a higher level earth opening stage cultivator!

"Nothing much. Since she wants to deal with me, she naturally has to be prepared to be dealt with by me." Lin Yi's expression didn't change at all as he looked back at him, "Besides, I've already said that before I attacked, I even asked the president if I would take responsibility if I killed her. In the end, she said she didn't need to. This is something that everyone can see. Could it be that the president still wants to stand up for her?"

His words were reasonable, and the crowd who were watching from a distance nodded in agreement. They had thought that this guy was just talking nonsense, but they did not expect him to have the power to kill zang Zili. What a freak!

Although the overall strength of the North Island was not strong, it had produced quite a number of heaven-defying characters. Shangguan Tianhua, Zhang Liju, and the others were well-known figures in the East continent. It seemed like there would be another legend in the North Island from now on.

The Alliance president's face froze and he couldn't help but be speechless. After all, it was in front of everyone. Even if he wanted to get angry, he couldn't find a reason to do so. He couldn't go back on his word in public, right? He couldn't do something stupid like slapping his own face.

#### Chapter 4936 Identity Revealed

However, he really did need zang Zili's help. Otherwise, he would not have been so submissive before. Now, zang Zili was surrounded by black smoke. What was he supposed to do?

"No matter what, you were the one who caused trouble first. Now that so many people have been injured, even Grandmaster Huang has fallen, you have to give me a reasonable explanation." The president of the Alliance said in an unpredictable tone.

The incident this time was really unexpected. This kid had defeated four people in a row, and they were all from ding City Academy. Chang laiting had a strong background, two late-stage mystique Ascension stage libation, and now, even zang Zili was involved. It was a huge mess. If he could not give an explanation, he might as well quit his position as the president of the Alliance of schools.

He could ignore the rest, but he had to at least give ding City Academy a satisfactory explanation. After all, this was one of the most influential golden class Academies. Moreover, he still had a favor to ask of them.

"An explanation?" Lin Yi looked at the president and asked, "I wonder what kind of explanation the president wants? You can't be thinking of using me as an apology, right?"

The president's heart moved-to be honest, he did have that thought in his mind, but he quickly suppressed it. Although he needed ding City College's help, he wasn't stupid enough to offend Lin Yi.

An early stage mysterious Ascension realm expert who could defeat a mountain opening realm powerhouse. The significance of this was too great. There was no doubt that this kid's future was boundless. Not to mention becoming a mountain opening realm powerhouse, even being on the same level as him, or even being a level higher than him, the president of the Alliance, was a matter of course.

If he offended Lin Yi today, unless he could harden his heart to kill him, he would have made a great enemy for no reason, a great enemy who could possibly be above him in the future!

If it was just potential, it was fine. There were at least 80, if not 100, super geniuses who had died at his hands. Killing a threat before it was budding was a common thing in the East continent. It was not enough to completely scare him.

What really worried the president was another meaning-a genius like Lin Yi wasn't someone a normal force could raise. He had to have an extremely strong background, perhaps one of the few peak golden class sea Masters. This was what made people afraid.

If he touched Lin Yi today, he might not even have to wait until tomorrow-some super big Shot standing at the peak of the five Sky Class islands would come and talk to him. He still wanted to live for a few hundred or even a thousand years.

After thinking for a while, the president finally suppressed this dangerous thought and said,""Which Academy are you from? Your Academy's qualification for the next trial to become a titan has been revoked!"

He didn't do anything to Lin Yi himself, but instead targeted the school behind him. This was the safest way he could think of-he could use it to stall the Dingcheng school, but he wouldn't really offend Lin Yi. After all, he was the president of the Alliance, and it was within his authority to control any golden class school.

Lin Yi was taken aback, but immediately understood what the other was thinking. His lips curved into an unnoticeable arc as he replied faintly, "I'm sorry, but I don't belong to any Academy. I'm from the North Island. "

"Beidao?!" The president was taken aback-he didn't know what happened before, and naturally didn't know who Lin Yi was. He blurted out in disbelief,"Are you lying to me?"

"Naturally not." Lin Yi smiled faintly and walked up, setting up a spirit sense barrier to prevent people from seeing him.

The Alliance president's heart moved. He knew that Lin Yi wanted to tell him some secrets, so he didn't stop him. Instead, he set up a stronger spirit sense barrier. After all, Lin Yi's strength was there, and his spirit sense barrier might not be effective against these mountain opening Masters.

"I'm Lin Yi, the disciple of Shangguan Tianhua from the North Island. I'm also the last disciple of the elixir God, Zhang Liju. " Lin Yi lowered his voice.

"What?" The president's face changed. Lin Yi's words were earth-shattering news. The shock he felt was no less than when he defeated zang Zizi. No wonder he had to set up a spirit sense barrier!

Bringing out two North Island legends with one sentence-Lin Yi's words were earth-shattering!

To be honest, Shangguan Tianhua was not a big deal. Although he was a Super Master who had once dominated the East continent, and his strength as the president of the Alliance was far from enough to be compared with him, he was not afraid of Shangguan Tianhua.

After all, this was the East Province, and Shangguan Tianhua was far away in the North Island. Moreover, there were clear rules among the top leaders. Due to the rules, Shangguan Tianhua could not come to the East Province easily, and it was even more impossible for him to seek revenge for a disciple.

But the last part of Lin Yi's words really made the president's heart jump!

Looking at the five sky-class islands, the God of alchemy Zhang Liju was a legend that could be counted on one's fingers, especially in the world of alchemy. His influence and power were much stronger than that of Shangguan Tianhua, who was in charge of the North Island. Moreover, the biggest problem for the president of the Alliance was to find someone to make elixirs.

Why was he so submissive to zang Zili? wasn't it because he wanted to ask him for help in pill refinement?

One had to know that zang Zhili was the only Mystic first level Alchemist in the entire Yellow Sea region. Although he had just broken through, he was still a Mystic. Just this fact alone made him the number one Alchemist in the Yellow Sea region, and no one could shake his position.

Not to mention the Golden seas, even in the mystic seas, Mystic first level alchemists were rare. For a Mystic to suddenly appear in the Golden seas was unprecedented. Even the Golden Academy Alliance had to treat her with respect. It was no wonder she was so arrogant and looked down on everyone.

The president had no choice but to ask her for help-she was the only Mystic first level refiner here. Going to the mystic division Sea area to find help was much more difficult than asking zang Zizi for help!

He might be the president of the Golden Academy Alliance and could do whatever he wanted in the Golden seas, but once he went to the mystic seas, there were many people stronger than him. It was impossible to ask a Mystic first level for help in that situation!

This was because any of their business partners was much more important than him. If he went to their door to beg, he probably wouldn't even look at them in the eye. He would only be refused.

Chapter 4937 Who Can Prove It?

It wasn't easy to get zang Zili here, but Lin Yi had turned him into this mess. The president would be lying if he said he wasn't angry. If it weren't for the fact that he was worried, he would've killed a hundred Lin Yis to vent his anger.

But now, after hearing Lin Yi claim to be Zhang Liju's last disciple, the president's eyes lit up.

"You're an Alchemist?" The president asked subconsciously. He wouldn't have connected the dots if Lin Yi didn't say so. After all, an Alchemist was synonymous with weak strength-where could there be an Alchemist as strong as Lin Yi?

There was only one refiner who could be this strong, and that was Zhang Liju. Perhaps even he couldn't compare to this Lin Yi. An early stage xuansheng killing an early stage mountain split? Zhang Liju didn't have such a heaven-defying record back then.

"Mystic first grade." Lin Yi was a master at lying, too-he didn't even bat an eye, and the other had to believe him.

"Really? You're not lying to me?" The president was taken aback-Lin Yi was so strong at such a young age, and he was one of the top geniuses he'd ever seen-and yet this guy called himself a Mystic first level? This was heaven-defying!

If it was someone else who said that, the president would've sent the person flying with a slap. Did they think he was an idiot to run into a Mystic first level refiner in the Golden class sea?

But Lin Yi was different-just the way he defeated Nie Zili was enough to make him look at him in a new light. He didn't believe anyone else claimed to be a Mystic first level, but he had to think twice if it came from Lin Yi's mouth. After all, the guy was the last disciple of the pill God Zhang Liju!

If this identity was real, then it wouldn't be strange for Lin Yi to be a Mystic first level refiner. To be Zhang Liju's last disciple, he had to be extremely talented in refining elixirs. In terms of status, he was one level higher than the other normal disciples. It would be a problem if someone like him wasn't a Mystic first level refiner.

"Hehe, with the president's intelligence, do you think I can deceive you?" Lin Yi didn't want to leave a trace behind as he flattered the man. Everyone liked compliments, and the high-status President was no exception.

The president's expression softened a little, but he didn't believe Lin Yi's empty words. He was the one who said he was a Mystic first level refiner, and he was the one who said he was Liju's last disciple. There wasn't even a witness, and who knew if this guy was just bluffing?

"Who can prove it?" The president of the Alliance asked in a deep voice.

"You can go ask that girl." Lin Yi pointed at ni caiyue, who was not far away, and was secretly happy. Since she asked that question, it meant that she had taken the bait.

Lin Yi, of course, couldn't be considered a true Mystic first level refiner-he'd never made a Mystic first level pill before, but that didn't stop him from using this gimmick to lure the guy in. It wasn't just empty talk, either.

After all, from a certain perspective, Lin Yi's ability to make elixirs was indeed far above that of a normal seventh level refiner. Otherwise, Qing Danzi wouldn't have been so desperate to become Lin Yi's disciple back then, and it wasn't too much to claim that he was Mystic first level.

The reason why he suddenly used this excuse was because Lin Yi saw through the weakness of the president. This guy didn't really care about zang Zizi's life, and he was so submissive to zang Zizi just now. It was obvious that he needed something from the president, and it wasn't hard to deduce that the mystic class first level was the best excuse to deal with him.

After all, this was the president of the Alliance. If it was just looking for someone to help him make pills, he would have a bunch of seventh-realm alchemists under his command. Only Mystic alchemists could make him lower his stance like this.

To put it bluntly, from the moment Lin Yi admitted his identity, it was a trap, luring the other party to take the bait step by step. Now, he was only one step away from success.

Bluffing was a difficult skill-he didn't just have to be observant, he had to find the right way to go about it, and he had to keep using the mental state of his opponent to build up his image, making his pretense flawless. Lin Yi was obviously getting the hang of it.

"She's with you, right?" The president of the Alliance glanced at ni caiyue suspiciously. Since they were in caiyue's group, this woman's words could not be trusted at all, and it would be useless to ask.

"Hehe, witnesses can lie, but physical evidence can 't." Lin Yi said with a faint smile.

The president was taken aback, but he immediately understood what Lin Yi meant. He pointed at ni caiyue,"You, come here for a moment."

Because of the spirit sense barrier, everyone could only see the conversation between Lin Yi and the president, but they didn't know what they were talking about. No one dared to try to pry even if they were itching to.

After all, it wasn't just Lin Yi who was challenging people of a higher cultivation level, there was also a Super Master like the president. If they made any small moves, the president would know and they wouldn't even know how they died.

In the end, the Alliance president's voice was suddenly heard from the inside when everyone was itching to try it out. Everyone's gaze then fell on ni caiyue.

"Argh! I?" Ni caiyue was shocked when she saw the president pointing at her. She stuttered in a panic, "I ... Although I'm with him, I didn't hit anyone. Don't catch me, don't catch me ..."

Everyone was speechless when they heard that. They looked at ni caiyue in a daze and did not know what to say for a moment.

Lin Yi was already used to this girl's strange way of thinking, but he was still speechless at this. What was she thinking?

If you really want to draw a clear line, then don't say we're on the same side. In the end, you said we're on the same side, and at the same time, you said don't catch me. Is this something a normal person would say?

Lin Yi shook his head-it was a good thing he managed to scare the president off, or this stupid girl would've been dragged into the mess with him if something really did happen.

"I won't arrest you. I just want to ask you a few questions." The president of the Alliance frowned.

"Is that so ... Alright then, you promised not to catch me!" Ni caiyue reiterated worriedly, then carefully walked to the two people's side.

After setting up the deified soul barrier again, the president of the Alliance asked, ""Which Academy are you from?"

Chapter 4938 You Brought This Upon Yourself

"I ..." Ni caiyue subconsciously glanced at Lin Yi before shrinking her neck. I'm ni caiyue, a disciple of Donghua Academy."

"Okay, then tell me, is he a Mystic first level Alchemist?" The president of the Alliance asked directly.

"He's a Mystic first level Alchemist?" Ni caiyue immediately jumped up in shock when she heard that. Fortunately, there was a divine sense barrier around them, or the entire dock would have heard her shout.

"You don't know?" The president frowned as he looked at Lin Yi. He thought that this woman would nod without hesitation if she was in cahoots with him, but this was her reaction.

"I don't know. He didn't tell me. I only know that he's an Alchemist." Ni caiyue thought for a while and added, "He's a very powerful Alchemist,"

"Oh? How powerful is he?" The Alliance president's eyes lit up.

"He refined seven Xuan supporting pills in less than half a day, and he only used four sets of materials. Isn't he amazing?" Ni caiyue said proudly.

Lin Yi didn't know what to say-this stupid girl wasn't on guard at all, was she supposed to just tell someone about this? It wasn't wrong for her to be pestered repeatedly by people like Chang laiting!

But then again, he'd expected this. He'd had the president go to ni caiyue to confirm it with him because it would've been hard to make her believe he was a Mystic first level Alchemist if he hadn't done that. After all, words didn't have any proof, and he needed enough evidence.

"Really?" The president was excited-four sets of ingredients to make seven Mystic supporting pills in less than half a day-this wasn't something a seventh level Alchemist could do. If this could be verified, then there was no doubt that he was a first level Mystic.

"Of course it's true. I found the mystical raising grass here. Here, these three mystical raising pills were refined by him." Ni caiyue took out three Mystic supporting pills as she spoke, and she looked as if she was afraid that the other party would not believe her.

Lin Yi was even more speechless. Although this was all within his expectations, it was rare to see someone as forgetful as ni caiyue. Wasn't this silly girl afraid that she'd be tempted by the money?

Having said that, ni caiyue was not really stupid. She was very careful when she took the mystic supporting pills. She deliberately used her body to block everyone's view so that the president could see her. With the president's strength and status, he would naturally not covet her three Mystic supporting pills. If she did not give them to someone else, these pills would be useless to him.

Looking at the three mystical supporting pills in ni caiyue's hand, the president fell silent, and he could not hide his shock. Of course, he knew that the path of big shots produced mystical supporting grass, and these three mystical supporting pills were full of color and taste. They did not look like those that had been refined for a long time, but rather, they had been refined not long ago.

In other words, ni caiyue's words were basically credible.

In fact, from the moment ni caiyue introduced herself, it was impossible for her to lie because such a lie could be easily exposed. Once it was exposed, the president's anger was not something a mere disciple at the early stage of the mysterious Ascension realm like her could bear.

After a moment of silence, the president's attitude changed drastically. He turned to Lin Yi and smiled apologetically, "Master Lin, Let Me Reintroduce Myself. I'm the president of the yellow Class academy Alliance, Zhuang Yifan. I was really presumptuous just now. I hope Master Lin can forgive me."

Lin Yi saw the whole process and couldn't help but laugh inside. The big shots of the East continent were much more snobbish than the big shots of the other Sky Class islands. The big shots of the other Sky Class islands had to respect their status and put on airs no matter what they did, but the people of the East continent were obviously different. Almost everyone had the ability to change their faces, and Lin Yi was already used to it.

As the president of the Alliance, Zhuang Yifan had always been a powerful and arrogant person. He didn't even bother to let the students of the Yellow Division know his name during the trial. That kind of arrogance was carved into his bones.

However, he had taken the initiative to introduce himself with an apologetic smile. In addition, he had previously been submissive to zang Zili. It was clear that he was a man who knew when to yield and when to stand tall. His pride also depended on the person he was facing.

"President Zhuang, you're being too serious. From the beginning to the end, your handling of the situation was not inappropriate. If I were in your position, I would have made the same choice, so you don't have to take this small matter to heart." Lin Yi smiled faintly.

Although it was a bit of an overstatement to talk to Zhuang Yifan like that, he was a Mystic first level Alchemist now. If he didn't act like he was, the other party might think that he was a spy.

"As expected of senior Shangguan and master Zhang's disciple. Not only is Master Lin's strength extraordinary, but it's also rare for him to have such magnanimity. He can be considered the role model for the younger generation of the East continent." Zhuang Yifan laughed.

He wasn't just complimenting Lin Yi-he was really impressed. The more talented a person was, the more arrogant they were-he'd seen a lot of those super geniuses before, and while they did stand out, they were all pretty cocky. Just from that alone, Lin Yi, who knew when to advance and retreat, was at least Ten Streets ahead of those super geniuses.

"President Zhuang, you flatter me." Lin Yi smiled noncommittally and turned to the unconscious zang Zili and the others."Then, how does President Zhuang intend to deal with today's matter? Do you need me to give you an explanation?"

"Haha, Master Lin, you must be joking. They only had themselves to blame. Moreover, zang Zili had already said that this was a private matter between the two of you. He kept saying that he would die for nothing. I couldn't even persuade him otherwise. This was something that everyone could see. Why would I need to do anything unnecessary?" Zhuang Yifan was quick to turn against him. He would be considered lucky if he did not step on zang Zifan's foot, let alone stand up for him.

Of course, this was also because of zang Zili's lack of social skills. She thought that she was a Mystic first level Alchemist, and that she could act high and mighty just because Zhuang Yifan needed her help. Anyone would be angry at her behavior, let alone someone as powerful as Zhuang Yifan.

Lin Yi smiled as he expected this. He then saw Zhuang Yifan wave his hand and shout to the Alliance guards, "You guys send Grandmaster Huang and the others back to the treasured ship of ding City Academy. Although it's a private matter between them, it's not right to let them lie here."

"Yes!" The Alliance guards were obviously stunned.

#### Chapter 4939 Send You Guys Back

They did not know what the two of them were talking about, but when they saw Zhuang Yifan's attitude towards zang Zili and the others suddenly become so cold, they could not help but feel surprised. However, they did not dare to show it on their faces and quickly carried zang Zifan and the others away.

They were only in charge of sending people back to ding City Academy's ship and did not care about anything else. They did not even care if zang Zili and the others were dead or not. Everyone knew that this was a hot potato and would avoid it as much as possible. Why would they care about other people's business?

"Master Lin, if you don't mind, why don't you come over to the Alliance branch for a cup of tea? let me do my part as the host?" From the beginning to the end, Zhuang Yifan didn't even look at zang Zili and the others. He was only trying to get on Lin Yi's good side.

"There's a division of the Alliance here?" Lin Yi blinked.

"That's right. The headquarters of the yellow Class academy Alliance is in thunderclap city, but thunderclap plain Island is an important place of the Alliance. Naturally, they have a branch there. The conditions are not bad. Master Lin can go there and rest and relieve his fatigue." Zhuang Yifan introduced with a smile.

"Oh, I'll send the Morning Star Academy's disciples back first. I'll go over at night when I'm free." Lin Yi nodded.

"Yes, yes, yes! I'll send you back!" Zhuang Yifan quickly offered.

It was hard for the president of the yellow Class academy Alliance to lower himself like this, but he couldn't do anything about it. After all, alchemists had a very high status.

This was especially true for Mystic first level alchemists-even in the mystic seas, they were respected and respected no matter where they went. Even these super-strong Big Shot Masters didn't dare to underestimate these people. Many times, they had to be as careful as they were now-after all, they might need their help one day.

"Alright," he said. Lin Yi said with a half-smile as he glanced at him.

In fact, he couldn't be polite even if he wanted to. Although this Zhuang Yifan already believed in Lin Yi's identity as a Mystic first level Alchemist, it was obvious that he didn't fully trust him yet. Other than trying to please him, the more important reason was that he didn't want Lin Yi to slip away. If Lin Yi were to reject him sternly, it would make people suspicious.

"Little girl ni, let's part ways here. We'll meet again if there's a chance in the future." Lin Yi turned to bid farewell to ni caiyue.

"Ah? "Oh ..." Ni caiyue was still in a daze and quickly nodded after a long while. From the time Lin Yi took care of the two unlucky chancellors, to the time he went against the trend and defeated nie Zili, and

now, he was inexplicably complimented by Zhuang Yifan. Today's series of events could be said to be a series of shocking twists and turns, and she still hadn't completely reacted to it.

Lin Yi chuckled and ignored the girl. He waved Xinyan and the others over and escorted them back to the Morning Star Academy's ship under the respectful gazes of the crowd.

At the same time, the Morning Star Academy's treasure ship was in a mess. Lin Yi's group had caused too much of a commotion, not only attracting the attention of many disciples, but the lightning burial at the end was even more earth-shattering, even causing the surrounding sea to surge with waves. The ship would've capsized if it weren't for its huge weight.

Under these circumstances, it would be a lie if the people on the ship didn't know that Lin Yi and the others were in trouble. It was just that they were too far away from each other, and they didn't know the details. They only knew that Lin Yi and the others were in big trouble.

The Chancellor's heart was burning with anxiety. Although Lin Yi wasn't a disciple of the morning stars Academy, his position in the Academy was far more important than those disciples. If he died on the Thunder plain Island, he would have to go back with his head. The big shots of the Academy wouldn't let him off easily, and as for the chief Alchemist, Qing Danzi, he would probably kill him!

Fortunately, the news they received was only about the guards of the Alliance capturing Lin Yi. They didn't know about the battle between Lin Yi and zang Zili. Otherwise, the Chancellor would have fainted from shock.

"There's no other way. The only thing we can do now is to quickly send a message to the three big shots of the Academy to ask for instructions. No matter what, we have to think of a way to redeem Master Lin. We can't let him be detained in this place. If something happens to him, I won't be able to continue

being a Chancellor anymore." The lead libation was as anxious as an ant on a hot pot, muttering as he walked around.

On the other side of the ship, Bao zuoliang and su kesheng, who had returned long ago, were gloating. If not for the many eyes on the ship, they would have held a celebration party to celebrate.

They'd had a stomach full of bad luck ever since their failed attempt at stealing a chicken on their path to becoming a Big Shot. If it weren't for their self-awareness, they might've continued trying to kill Lin Yi on their path to becoming a Big Shot-but that was just a fantasy.

Even if Bao zuoliang was impulsive, su kesheng would definitely stop him. He had no choice but to stop him. He would be courting death if he sent himself to the door.

But this was great-they didn't even need to worry about it anymore-the arrogant Lin Yi had kicked an iron plate himself, and now he was causing trouble in public, even alerting the Alliance's guards. What good was going to come of this?

"Hehe, the Alliance's guards are known for being overbearing, and that Lin Yi kid is so arrogant. Now, he'll be at least injured in the hands of the Alliance's guards!" Bao zuoliang said excitedly in a low voice.

"In my opinion, it's not as simple as just losing a layer of skin. Perhaps, this guy won't even be able to keep his life." Su kesheng sneered.

"No way? Even the guards of the Alliance wouldn't kill people casually. It shouldn't be that exaggerated, right?" Bao zuoliang wanted Lin Yi dead, but he wasn't at the point where he wanted to lie to himself.

"I didn't have one at first, but I'm sure there's one this time. And I dare say that there's an 80 - 90% chance of it happening!" Su kesheng said with certainty.

"Why is that? Hurry up and tell me!" Bao zuoliang's eyes lit up.

"Master Bao, didn't you hear what those guys said? Lin Yi didn't just mess with a normal person this time. It's Chang laiting from ding City College, he's a famous person. He even messed up two of the College's chancellors. At this point, it's really hard to handle." Su kesheng analyzed.

"But even so, he wouldn't be killed immediately, right?" Bao zuoliang was a little stunned.

"He wouldn't, but master Bao, did you forget the rumor we heard on our way back? the chief Alchemist of ding City School, zang Zhili, was invited to the thunderclap plain Island. She's Chang laiting's mother, and she's a Big Shot at the beginning of her sect. Her son was bullied, do you think she'd let Lin Yi off?" Su kesheng said with a profound expression.

Chapter 4940 It's Different From What I Imagined

"Oh, right! Great, this is great, Lin Yi's dead for sure!" Bao zuoliang laughed out loud in excitement-they wouldn't have thought that this opening sect Big Shot they were talking about was already Dead or Alive, and had become Lin Yi's stepping stone.

Just as the two were gloating, their expressions froze. They saw that Lin Yi and the others came back unscathed, without any guards.

"What's going on?" Bao zuoliang was instantly dumbfounded. This was completely different from what he had expected.

"It's weird, but I'm sure that Lin Yi did do something wrong. Master Bao, look, even the president of the Alliance is here to escort him back. It's obvious how serious the situation is!" Su kesheng saw through the "truth" at a glance.

"Yes, yes, you're so insightful. You hit the nail on the head. I almost thought that he had escaped unscathed!" Bao zuoliang immediately heaved a sigh of relief.

While the two were talking, the other people on the boat also saw Lin Yi and the others. When they suddenly saw Zhuang Yifan, the Chancellor, who was helplessly leading the team, was shocked and quickly got off the boat to meet them.

"I'm the libation of the Morning Star Academy, Li Ren. I didn't know that President Zhuang would come personally and didn't welcome you. Please forgive me. " Li Ren went up to him in fear and trepidation.

Although he was relieved to see that Lin Yi and the others were fine, Zhuang Yifan's presence here in person still made his heart tremble. Because of the previous news, he and Bao zuoliang had the same preconceived impression that Zhuang Yifan was the one who escorted Lin Yi back.

"You're being too serious, Li Ji Jiu. " Zhuang Yifan waved his hand with a faint expression. He was not in the mood to talk to Li Ren. He was the president of the Alliance, while the other party was just a small libation. There was a big gap between the strength and status of the two sides.

Zhuang Yifan could lower his status in front of Lin Yi and zang Zili, but in front of these people, he was the president of the Alliance. He was intimidating and powerful.

Normally, Li Ren would not have dared to talk to Zhuang Yifan, but he had no choice but to apologize. ""President Zhuang, Master Lin is an important guest of the Morning Star Academy. His participation in the road to becoming a Titan has been approved by the Alliance headquarters. Since he's not familiar with the rules of the Alliance, please forgive him if he has made any mistakes. The Morning Star Academy is willing to bear the responsibility!"

"Bear all the responsibility?" Zhuang Yifan looked at him strangely. If Lin Yi wasn't a Mystic first level, he would've died a thousand times over for what he did just now. Even zang Zizi was beaten up so badly that it was hard to tell if he was Dead or Alive. How could the morning stars Academy take responsibility for that?

Zang Zili was the chief Alchemist of ding City College. In the entire golden class Sea region, he could be considered the leader of the alchemy world. After what happened to her this time, it was obvious that ding City College would not let this matter rest. They would definitely take revenge on her!

Even though the Morning Star Academy wasn't weak, it was still lacking compared to the ding City Academy, which was a cradle for alchemists. If a fight to the death really broke out, the Morning Star Academy would most likely fall.

Of course, the more likely scenario was that the Morning Star Academy realized that the situation wasn't good and stopped in time, pushing Lin Yi out for the ding City Academy to vent their anger, sacrificing their soldiers to protect the carriage.

However, that was based on the premise that Lin Yi was just a Normal School student. From the way Lin Yi turned the tide and defeated nie Zili, this kind of assumption was obviously not reliable, not to

mention that he was a Mystic first level refiner. For such an important person, the Morning Star Academy would probably fight to the death even if it meant destroying Jade and stone.

After all, when Lin Yi grew up, he'd be a huge umbrella. If they could get his full support, it wasn't impossible for a golden class school to become a Mystic class school. As long as the three big shots weren't stupid, they'd do everything they could to protect him, so Li Ren's words weren't out of line.

"Could it be that Master Lin has caused a huge problem?" Seeing Zhuang Yifan's strange look, Li Ren's heart skipped a beat. The difference in their levels was too big, and if Zhuang Yifan really wanted to do something to Lin Yi, he wouldn't be able to stop him.

"A huge basket? To others, it's a huge problem. But to Master Lin, it's just a small problem. " Zhuang Yifan smiled reservedly. He had already given Li Ren a lot of face by bringing it up to this point. It was impossible for him to explain more. At least, Li Ren did not have such a big face.

"A little trouble?" Li Ren was taken aback-this was completely different from what he heard. Those people said that Lin Yi killed two of Ding City College's libation, how could this be a small problem?

Zhuang Yifan wasn't in the mood to explain himself. He turned to Lin Yi and smiled apologetically."Master Lin, I won't bother you on the ship. I don't think you'll welcome me ..."

Although he said that, he didn't look like he was going to leave at all. His intention was obvious. It wasn't easy to hire Zang Zizi, and he didn't even know if he was alive or dead. If he let Lin Yi get away with it, he would be screwed. Compared to the big plan of making elixirs, his reputation as the president of the Alliance wasn't even worth mentioning.

He looked at the confused Li Ren, then at the fake Zhuang Yifan, and felt helpless. Since Zhuang Yifan had said it, he couldn't just play dumb and let him go. He was the chairman of the Alliance, after all. That would be too much.

Moreover, Zhuang Yifan was the president of the Alliance. The Golden class Academies couldn't even invite him normally. If he was willing to board the Morning Star Academy's ship, it would be a great honor for the Morning Star Academy. It would be a great opportunity for them to show off in front of the other Academies!

"President Zhuang, what are you saying? you're an important guest that you can't even invite. Since you're already here, how can you not go up and sit for a while? Otherwise, if word of this gets out, it'll damage the reputation of the morning stars Academy. Outsiders will say that the morning stars Academy doesn't know how to conduct themselves, and I don't dare to let the morning stars Academy take the blame for this. " Lin Yi said with a smile.

"Master Lin, if you put it that way, then it would be impolite for me to decline. No matter what, I can't bring shame to you, Master Lin. Hehe." Zhuang Yifan found Lin Yi even more pleasing to the eye now-it was rare to see a genius like him, and he had a bright future ahead of him.

Although Li Ren didn't understand the specific situation for a while, he knew that it was completely different from what he had expected. Regardless of everything else, he immediately led the way and said, ""President Zhuang, please."
