

Bodyguard 5001

Chapter 5001 Writing A Letter To Complain

Since Zheng Dongsheng and Wu Miao had said so, Zheng dongjue, Nantian Aurora, and Tong yangzui naturally had no objections. They were not qualified to argue with ao Tianzhou, so only Zheng Dongsheng was qualified.

Accompanied by Wu Miao, Zheng Dongsheng immediately went to the island owner's Pavilion and went directly to the No. 1 island owner's Hall to find ao Tian Zhou.

"I wonder what's the purpose of master Zheng's visit?" Ao Tian Zhou gestured for the two to take their seats. With his original status, he didn't need to be so polite to a seventh realm Alchemist. A Mystic Alchemist was more like it, but as the acting Island master, he couldn't treat his guests so slowly.

"Island master ao Tian, I'm quite familiar with the heavenly elixir Pavilion's situation. I heard that Island master ao Tian believes that the heavenly elixir Pavilion's Tier 7 elixirs are all from legal channels?" Zheng Dongsheng said directly.

"That's right, there's such a thing. " Ao Tian Zhou glanced at Wu Miao, who was beside him, and nodded lightly.

"Do you have any evidence, Island master ao Tian?" Zheng Dongsheng asked.

"Evidence?" Ao Tianzhou suddenly laughed. Instead of answering, he asked, ""Master Zheng, you're trying to say that the heavenly elixir Pavilion's elixirs were smuggled over from the East Province, right?

Only with evidence can we prove that someone is guilty. On the contrary, if someone is innocent, Nakajima is not so chaotic that we need an innocent person to prove his innocence. "

"I've examined the five tier 7 recover pills from the heavenly elixir Pavilion, and they were all of the highest quality. The possibility that they came from other sky-class islands is very low, and they could only have come from the East continent. Besides, these pills don't have any divine sense marks on them, and this is the best evidence. Even if it's not irrefutable evidence, we can still reach a conclusion based on common sense, right?" Zheng Dongsheng said with conviction.

"You want to convict someone based on common sense? master Zheng, do you think that my Nakajima District would be so trifling? Nakajima has always been a gathering place for large Chambers of Commerce. If we were to set a precedent, wouldn't all these Chambers of Commerce have to close down? There are many things in this world that don't make sense. Master Zheng, you don't have to make such a fuss. " Ao Tian Zhou retorted indifferently.

"Making a fuss?" When Zheng Dongsheng heard this, his face suddenly became a little ugly. He looked straight at ao Tianzhou and said,""With such conclusive evidence, Island master ao Tian actually thinks that I'm making a fuss? I've come all the way to the central island, and as a guest, I shouldn't interfere in such matters, but Lin Yi from the heavenly elixir Pavilion claimed to be the master of the chief Alchemist of our Morning Star Academy, Qing Danzi. I can't stay out of it, no matter what. I hope Island Lord Ao Tian can handle this fairly and not play favoritism. "

"Master Zheng, are you threatening me?" Ao Tian Zhou didn't show any signs of anger, but with his words, the atmosphere in the hall suddenly became heavy. The majestic aura that was everywhere pressed on Zheng Dongsheng and Wu Miao. The two of them suddenly couldn't sit still.

However, Zheng Dongsheng was not an ordinary person. Although he was uncomfortable under the pressure of this aura, he still forced himself to endure it. His face was ugly as he said,""Island master ao Tian, please don't misunderstand. I'm just stating the facts out of justice, and I didn't mean to threaten you at all. It's just that this matter concerns the reputation of our morning stars Academy. If you can't

come out and clarify, I can only report it to the East Province and let the East Province Academy punish Nakajima."

At this point, it was already a complete threat, and it was a direct threat to the entire Nakajima!

The punishment that Zheng Dongsheng had mentioned was not a joke. This was related to the quota that the East Province Academy had allocated to Nakajima. Even if the AO Tian state came from a super family, they would still send their disciples to the East Province for further studies. Once he was really punished by the East Province, his family and Nakajima would suffer huge losses. No one could afford this result, and the AO Tian state was no exception.

Ao Tianzhou might've had to think twice before Zheng Dongsheng's threat before he met his third brother, but now that he knew Lin Yi's power, it was just a joke to him.

"Who are you reporting to?" Ao Tian Zhou said indifferently.

"The Morning Star Academy, of course, and then the East continent's yellow Class academy Alliance. If Nakajima doesn't do anything about this obviously tarnishing our Academy's reputation, I believe it'll be inevitable to punish them. I hope Island master ao Tian doesn't make a mistake." Zheng Dongsheng said with a smug expression.

He didn't dare to say that at first, but now that he had brought up the great name of the East Province, he naturally had a sense of superiority when facing Nakajima. So what if the other party was the otian province? he still had to act according to the East Province Academy's mood.

"Alright, you can go then." Ao Tianzhou raised his glass to send the guest off on the spot.

"Gah?!" Zheng Dongsheng was dumbfounded and didn't react for a moment. He thought he had heard wrong until he saw Wu Miao's expression as if he had seen a ghost. Only then did he finally confirm that he didn't hallucinate.

Ao Tian Zhou actually didn't buy it at all. Did this guy take the wrong medicine? Zheng Dongsheng looked at ao Tianzhou in disbelief. Usually, when he used this to threaten people from other Sky Class islands, it always worked. Why did this guy not care at all? could it be that the Super families were so powerful that they didn't even care about the East Province Academy?

"What's wrong? Would the two of you like to stay for a cup of tea?" Ao Tianzhou looked at the two of them with a smile that was not a smile.

At this time, Wu Miao's head almost drooped to his crotch. If he had known that Zheng Dongsheng's theory was like this, he wouldn't have dared to accompany him even if he was beaten to death. Now, not only did ao Tian Zhou not buy it at all, but he also put him on the blacklist. He wouldn't have a good life in the island owner Pavilion in the future.

"Island master ao Tian, I've already made myself very clear. We've never met before, and there's no enmity between us. Why do you have to put yourself in this situation for an unrelated Lin Yi? I'll say the ugly words first, don't refuse a toast only to drink a forfeit!" Zheng Dongsheng was furious.

An advanced Alchemist like him was usually very prideful. After all, the atmosphere of the Sky Class Island was like this, and he wouldn't be used to it if people didn't support him. Now that he had been rebuked in front of the AO Tian state, it was no wonder he was angry.

If it weren't for the fact that he had to worry about Nakashi's image in front of the acting Island master, and Zheng Dongsheng's ungrateful words, otakashi would have already slapped him to death. He was just a seventh-grade Alchemist, and he really thought he was someone?

However, at ao Tian state's level, one's temperament had long been cultivated to a natural state. It was almost impossible to be angered in front of others. He still had an indifferent expression and waved his hand. "Feel free to do as you please."

"Alright, you said it." Zheng Dongsheng was so angry that he left on the spot.

Wu Miao awkwardly apologized to ao Tianzhou and quickly followed Zheng Dongsheng to the second hall, which was exclusive to the executive Vice Island master.

Zheng Dongsheng didn't say anything and immediately began to write with a cold face!

Chapter 5002 The Island Master's Invitation

Not only did the higher-ups add oil to the fire and accuse the heavenly elixir Pavilion of smuggling elixirs, but they also painted Lin Yi as a scammer who went around and damaged the reputation of the Academy. In the end, they even pointed the spearhead at the AO Tian state, saying that he intentionally protected Lin Yi and broke the important agreement between the East continent and the middle Island. It was a heinous crime!

At this point, the person Zheng Dongsheng hated the most wasn't Lin Yi, but the person who made him lose face, ao Tianzhou. He even wanted to drag this acting Island master down from his position.

"Will this work?" Wu Miao couldn't help but swallow his saliva when he saw the content.

"You can remove the word" will. "This time, not only Lin Yi and the heavenly elixir Pavilion, but even your arrogant acting Island master will have to suffer!" Zheng Dongsheng looked at the letter again and again with confidence. In the end, he raised his pen and added another sentence, asking the Institute to hand the letter over to Zhuang Yifan!

After all, he was a seventh-grade Alchemist. His superior status was destined to have a superior right to speak. He, Zheng Dongsheng, was also considered a top figure in the yellow-class Sea area of the East continent. In front of the Alliance President, Zhuang Yifan, he could still have a say.

Of course, whether or not Zhuang Yifan would take his words seriously was another matter. At least Zheng Dongsheng felt good about himself.

"Alright, let's go back to the famous medicine sect and use their channels to send the letter over!" Although Wu Miao had been terrified for a long time, he was a little excited at this moment. If it was really as Zheng Dongsheng said, that even the AO Tian state would be in trouble, then wouldn't he be able to fantasize about the position of acting Island master?

"No need, just use the official channel of your Island Lord Pavilion." Zheng Dongsheng shook his head and said.

"I don't think that's a good idea. Using the island owner's Pavilion's official channels will definitely alert the AO Tian state. What if he sees us?" Wu Miao thought of the various exaggerated accusations in the letter and couldn't help but feel a little guilty. When ao Tianzhou saw it, he would be furious on the spot and might do something.

"I want him to see this. If he knows his place and gives in to me, this matter will end here. But if he still refuses to accept a toast and wants to drink a forfeit, then he can't blame me. Even if he comes from a super aristocratic family, I don't believe that he doesn't even care about the East Province Academy!" Zheng Dongsheng's face was ferocious.

"This ... Okay ..." Wu Miao hesitated for a moment, but he still did as Zheng Dongsheng told.

However, to the surprise of the two, ao Tian Zhou had no intention of asking about this matter. Let alone opening the letter, he did not even make a basic statement. He only routinely stamped the seal of the island owner's Pavilion. Other than that, he did not care at all.

Zheng Dongsheng's face turned red when he saw Wu Miao's strange expression. After a long time, he squeezed out a sentence from between his teeth, ""Let's wait and see!"

In the next few days, Zheng Dongsheng and Wu Miao were waiting for the reply from the East continent. After they had calmed down, the heavenly elixir Pavilion returned to its former state.

Because of Lin Yi's release of the tier 7 pills, his business was getting more and more popular, forcing him to borrow two more workers from Cai Zhongyang. Xue Li, on the other hand, had finally started recruiting people. At this rate, the expansion of the heavenly pill Pavilion was an urgent matter, and they couldn't do it without enough manpower.

Lin Yi had been so busy these past few days that he even had to work as a waiter himself. He had a good experience of the bitterness, and couldn't help but sigh. It wasn't easy for tianshuo and Xue Li to be able to hold on for the past two years, even when he dropped the ball from time to time.

However, at the busiest time, the island owner's Pavilion suddenly sent an invitation, representing the island owner, Okita state.

Lin Yi, of course, couldn't just ignore this. He'd already guessed the relationship between ao Tianzhou and ao Tianba, and this man was a mysterious and fair person. Lin Yi wanted to make friends with him from the start, so he came to the pavilion immediately after informing Tian Gang.

Lin Yi was just about to send someone to report his arrival when he saw ao Tian Zhou. He was overwhelmed by the unexpected favor-the acting Island owner was welcoming him personally!

"Young hero Lin, it doesn't look like it's your first time here?" Ao Tianzhou smiled when he saw him.

"Island master ao Tian, you're right. I've been here once before. At that time, big brother Tian Xing Dao was competing with Nantian Aurora for the position of vice Island master. In the blink of an eye, two years have passed." Lin Yi said, a little emotional.

"Tian xingdao is your big brother?" Ao Tianzhou was slightly stunned. At his level, there were not many people who could enter his eyes, but the Tian Xing path was an exception.

Although this man's cultivation wasn't high, his strength and potential that far exceeded his cultivation couldn't be underestimated. Even if this kind of person had suffered a setback, once he recovered, his future would be boundless. If he had enough luck, it wasn't impossible for him to one day stand shoulder to shoulder with a disciple of a super family like him.

"We're friends despite our age. " Lin Yi said with a smile.

"Hehe, birds of a feather flock together. This saying is true. Lin shaoxia and Tian xingdao are the same kind of people. It's a pity that he went to the East continent. Otherwise, we could have a good gathering today." Ao Tian Zhou said with some regret.

"Since Island master ao Tian doesn't mind, there will be opportunities in the future." Lin Yi nodded, going with the flow.

"Well said. However, Tian Xing Dao is not here today, so you and I can only sit and drink together. How about it?" Ao Tian Zhou suggested.

"Since Island master ao Tian has said so, do I dare to disobey?" Lin Yi cupped his hands and smiled.

The two of them immediately went to the main hall of Island No. 1. Otian state ordered people to prepare a few exquisite but not luxurious dishes. Then, he personally brought two jars of old wine and sat down to drink.

Lin Yi only took one sip before he exclaimed, "This wine is amazing!"

He had drunk strong wine in the secular world, but the spirit wine on the sky Island was not as strong as this. However, the spirit wine that ao Tian Zhou had brought out was very strong, even stronger than the ones in the secular world.

"A good man should drink strong wine. This is our aotian family's skill. Not only is the wine making skill unparalleled, but even the ingredients used are rare spiritual herbs. The entire family can only make 20 jars a year. As for this kind of old wine, it is even rarer. It is not easy to get a jar under so many people's eyes. If it wasn't for young hero Lin, I wouldn't even be willing to take out these two jars." Ao Tian Zhou pretended to be distressed.

"Haha, since it's your treasure, Island master ao Tian, I won't be polite. Otherwise, I might not be able to drink it the next time I come." Lin Yi's interest was immediately piqued-he wasn't a wine lover, but he didn't mind drinking, either. It was rare to have such good wine, so of course he wouldn't be polite.

Chapter 5003 Very Unique Personality

Ao Tian Zhou was stunned for a moment, then he smiled and said,""It seems that my third brother was right. Lin shaoxia, you're a wonderful person. I don't have much wine here. You might not be able to drink it next time you come."

"Third brother? "Are you referring to ..." Lin Yi couldn't help but be surprised. He'd only guessed that ao Tianba and ao Tianzhou were from the same family, but he didn't think that the two would be this close.

"That's right. Ao Tianba and I are half-brothers from different mothers. I'm the second and he's the third. It's just that he's at odds with his family, so he never mentions his family to anyone." Ao Tian Zhou nodded and cupped his hands in thanks.""Speaking of which, I have to thank young hero Lin. If you didn't remind me, I wouldn't have known that he came to Nakajima. I haven't seen the two brothers for a few years."

"I see. With a master like you and a character like the captain who can travel across the sea, your family is really extraordinary." Lin Yi praised.

"It can't be said to be extraordinary, but it's just a member of a super family." Ao Tian Zhou laughed.

"A super family?" Lin Yi blinked-this was the first time he'd heard of this term. It seemed that Sky Class Mid Island factions weren't as simple as they seemed.

On Sky Class Island, if one didn't have enough strength, they wouldn't be able to find out about these hidden forces. Lin Yi was already at the early stages of the mystic Ascension realm, and his strength was comparable to a sect leader. It was time to understand these things, or it would cause a lot of trouble.

Ao Tian Zhou wanted to be on good terms with Lin Yi, and since he brought it up, he decided to explain it to him properly. It wouldn't be too big of a favor, but it wouldn't be too small either-Lin Yi would definitely be grateful.

However, before he could speak, a series of footsteps suddenly came from outside. Then, he saw a guard rushing in to report, ""Sub-Island Master Wu is here to see you!"

"Vice Island Master Wu? What's he doing here?" Ao Tian Zhou was a little surprised. Hearing the noise outside, he knew that these guards wouldn't be able to stop them. He waved his hand and said, ""Let them in,"

A moment later, Wu Miao and the others walked in. Lin Yi was surprised-there were quite a few people with him, and they were all familiar faces. Zheng Dongsheng, Nantian Guangzhao, and Tong Yangzui were all here.

The only person who didn't appear was Zheng Dongjue. After all, his relationship with the famous medicine sect couldn't be easily exposed. This would affect his position in the pill Hall.

Lin Yi was a little stunned when he saw them, and so were the others. They looked at each other for a long time before Ao Tianzhou broke the silence, "Vice Island Master Wu, why have you come to my 1st island's main hall?"

"Island master Ao Tian, I just learned that the reply from the East continent has arrived, so I informed master Zheng and asked him to come over to see the reply from the East continent." Wu Miao said respectfully.

"Really? then how did the East Province reply?" Ao Tianzhou looked at the few of them with a faint smile.

"We haven't read it yet. It's more convincing to open the letter in front of Island master Ao Tian, in case people think that I'm forging the letter." Zheng Dongsheng's tone was neutral as he turned to Lin Yi, "It just so happens that this letter is directly related to the fate of the heavenly elixir Pavilion. It's your good fortune to be able to hear it on the spot. At least you won't die without knowing why."

"Oh, then I'm really all ears." Lin Yi and Ao Tianzhou looked at each other. He didn't know the whole story, but he could guess from those two sentences. These people saw that Ao Tianzhou wasn't helping them, but they were targeting the East continent instead. They really didn't want to give up.

Zheng Dongsheng and the others laughed coldly at the same time. He was still pretending even when his death was near. This kid really didn't know what was good for him. Even Zheng Dongsheng himself didn't think that the East continent would really punish the Nakajima because of this, putting the Ao Tian state's acting Island master in an awkward position. No matter what, Lin Yi and the heavenly elixir Pavilion were dead for sure. There was no doubt about it.

"Since we've already come to this point, let's stop dawdling and open it." Ao Tianzhou continued to drink with Lin Yi as he spoke nonchalantly.

"Alright!" Zheng Dongsheng glanced at the two of them smugly and took the letters from Wu Miao. There were two letters in the letter. One was from the president of the yellow Class academy Alliance, Zhuang Yifan, and the other was from the principal of the Morning Star Academy, Ling Yuanqing.

"I'll first read President Zhuang's reply to everyone. " Zheng Dongsheng was very proud of himself. Zhuang Yifan actually personally replied to him, which made him somewhat flattered. That was a real big Shot. What was the Nakajima Lord in front of Zhuang Yifan? Not to mention that the state of Odan was only an acting Island owner in name.

He opened the letter in front of everyone, and there was only a short line of words on it. Zheng Dongsheng thought that after all, he was a big Shot. His reply to this kind of thing was simple and clear. He must not have taken Nakajima seriously at all.

After clearing his throat deliberately, Zheng Dongsheng began to read Zhuang Yifan's reply, ""President Zhuang said in the letter to F * ck off ..."

Reading to this point, Zheng Dongsheng was the first one to be dumbfounded. His originally proud face suddenly turned red. What kind of situation is this?

Wu Miao and the others looked at each other, and Lin Yi almost burst out laughing. This reply was full of character.

"F * ck off? Master Zheng, can you help explain to us what Chairman Zhuang means by that?" Ao Tianzhou looked at Zheng Dongsheng and said.

"This ..." Zheng Dongsheng's face was a little embarrassed. He didn't know why Zhuang Yifan scolded him. After a long time, he could only explain himself, ""The road to the big shots trial should have just ended. President Zhuang must be busy with the ranking of the major colleges. He must be unhappy that we trouble him with such a small matter when he's so busy. Also, President Zhuang has always been humorous and speaks casually ..."

"So this is called humor. This is the first time I've heard of it. I've really learned a lot today." Lin Yi said with a half-smile.

"President Zhuang is very humorous and has a unique personality. It seems that master Zheng has a good relationship with him. Otherwise, he wouldn't use such a phrase." Ao Tianzhou said in all seriousness.

Listening to the two's banter, Wu Miao and the others all had strange expressions on their faces. They looked at each other, not knowing what to say. They all had an ominous premonition in their hearts. The situation didn't seem right!

Zheng Dongsheng choked for a long time. Although his face was green and white, he still pretended to have an expression that everything was under his control. He snorted coldly and said, ""Although President Zhuang didn't say it clearly, he must have conveyed his intentions to Dean Ling. As for how to deal with this matter, we'll know with a single look."

Chapter 5004 Invited To Help With The Wine

However, when he opened the second letter, it wasn't Ling Yuanqing's handwriting. It was Qing Danzi 's.

"That's right. This time, someone shamelessly claimed to be master Qing Danzi's master, but his master had passed away many years ago. Of course, master Qing Danzi is the most furious one. It's normal for him to write this letter." Zheng Dongsheng was still trying to justify himself, but he still didn't remember

and read it out in public,""Zheng Dongsheng, how dare you frame my master! I'm expelling you! From now on, there's no place for you in the morning stars Academy. You don't have to come back!"

Silence. Hall No. 1 suddenly fell into a strange silence. Zheng Dongsheng was dumbfounded, Wu Miao and the others were also dumbfounded. Ao Tianzhou was trying hard to hold back his laughter. As the acting Island master, if he laughed out loud in public at this time, it would be a little inappropriate.

Pfft! Lin Yi, on the other hand, didn't care about that. He spat out the wine in his mouth and glanced at the dumbfounded Zheng Dongsheng before turning to Ao Tianzhou, "Could this guy be a comedian? did you invite him to help with the drinking?"

"I didn't even offer a single piece of spiritual Jade." Ao Tian Zhou laughed.

"Free of charge? So this is an old artist with both morals and Arts. I'm really impressed!" Lin Yi said, full of respect.

Pfft! Ao Tianzhou finally burst out laughing. He didn't think that this Lin Yi would be so weird. He even said that he was talented in both skills and morals. Where did he come up with this?

Zheng Dongsheng's face was as black as the bottom of a pot. He didn't have the mood to refute Lin Yi's sarcasm at all. His mind was filled with what Qing Danzi said. What the hell was this? Lin Yi was really Qing Danzi's master?

If Zheng Dongsheng still couldn't react at this time and didn't know that he had kicked an iron plate, then he would be an idiot. They were both advanced refiners, he was only a seventh-grade refiner, and

Lin Yi was Qing Danzi's master. He couldn't even compare to Lin Yi's disciple, what was he supposed to do!

Qing Danzi's words meant that he would never be able to return to the Morning Star Academy. One should know that the head Alchemist had absolute control over the other alchemists in the Academy. Since Qing Danzi told him to get lost, Ling Yuanqing would definitely not object.

Even if he, Zheng Dongsheng, was a seventh-grade Alchemist and could do well in any Yellow Class academy in the East continent, since Qing Danzi didn't like him, the Morning Star Academy had no other choice. If they disobeyed Qing Danzi's will and forcibly protected him, neither of them would be able to refine pills in peace.

Therefore, in any East Province Academy, the chief Alchemist could make the decision with a single word. Whoever he wanted to leave had to leave without any room for negotiation. The Academy could only protect the most powerful one.

At this moment, Zheng Dongsheng was already struck by lightning. Although there was no lightning tribulation, his whole person was no different from being struck by lightning. His spirit, Qi, and spirit were no longer as proud as before. Instead, he was defeated.

Although as a seventh-grade Alchemist, Zheng Dongsheng didn't have to worry about food no matter where he went, the problem was that he had been in the morning stars Academy for so many years, and all his connections and foundations were in the morning stars Academy. Now, Qing Danzi's words had made all his efforts go to waste. If he went to other places, he would have to start from the beginning. No one would be able to accept this.

Not only that, but when he recalled Zhuang Yifan's vulgarity, he realized that it was not because he was trying to deceive himself, but because he thought it was too troublesome. He was clearly expressing the same attitude as Qing Danzi!

Not only was he kicked out of the Morning Star Academy, but he had also offended the president of the Alliance. It was unknown if the other golden class Academies would be willing to take him in in the future. His future was dark.

"Master Zheng ..." Wu Ju rubbed his hands and wanted to comfort him, but he didn't know how to say it. Nantian guangzhao and Tong yangzha looked at each other and didn't say anything. They had no right to speak in this place.

Zheng Dongsheng ignored him and looked at ao Tianzhou and Lin Yi. He was so embarrassed that he didn't even know what to say. He turned around and left with a defeated face.

Wu Miao and the others quickly chased after him. After they left the main hall of Island No. 1, Wu Miao hurried forward and asked, ""Master Zheng, what should we do next?"

"What else can we do? Cold mix!" Zheng Dongsheng said unhappily.

"Ah?" Wu Miao and the others could not help but look at each other.

"We've lost. We can't do anything to Lin Yi and the heavenly elixir Pavilion alone. I can't even save myself now. I can't stay in the middle Island any longer. I have to go back to the East continent and fix everything. " Zheng Dongsheng sighed.

He had come back to Nakajima with great satisfaction. Wu Miao and the others had held him in high regard, but in the blink of an eye, he had become so disheveled and panicked, like a stray dog. Life was really unpredictable.

"What? You're going back to the East Province?" Wu Ju's face suddenly changed. He was still counting on Zheng Dongsheng to refine pills for him. If Zheng Dongsheng returned to the East continent like this, who would he go to in the future? He couldn't ask Lin Yi for help, could he?

"We'll talk about your matter later. In my current state, I can't refine pills. " Zheng Dongsheng smiled bitterly and left in a hurry without explaining further. In any case, he really had no face to stay in Nakajima.

Wu Miao and the others looked at each other speechlessly. This time, not only did Zheng Dongsheng suffer a heavy loss, but they were also in a bad state. The famous medicine sect had failed to get rid of the heavenly pill Pavilion. Once the heavenly pill Pavilion grew stronger in the future, their business would definitely be greatly affected. Wu Miao had also offended the AO Tian state because of this incident. His future days would definitely not be good.

As for southern sky polar light, who was bent on currying favor with Wu Miao to get to the top, the position of acting Deputy Island master that Wu Miao had promised him in advance was also far away. After all, Wu Miao himself was in trouble. It was easy to imagine how difficult it would be for him, a managing Deputy Island master, to push someone to the top in such a situation. Once the AO Tian state came forward to reject it, this matter would be considered ruined.

The group left unhappily, but it didn't affect ao Tianzhou and Lin Yi's drinking mood at all. The two were still a little distant at first, but after the common enemy this time and a few glasses of wine, they became close very quickly.

Of course, this was mainly because ao Tianzhou wanted to be on good terms with Lin Yi. After all, Lin Yi was from a super Noble House, and with ao Tianba's warning, he could clearly see Lin Yi's value. Otherwise, he wouldn't have brought out his precious wine.

"Although this Zheng Dongsheng is a seventh-grade Alchemist, his brain is really hopeless. He actually thought that he could suppress the entire Nakajima by mentioning Zhuang Yifan. He is really a frog in a well." Ao Tian Zhou sneered.

Zheng Dongsheng shot himself in the foot because Zhuang Yifan was on good terms with Lin Yi, but in fact, even without this relationship, Zhuang Yifan would never make things difficult for Nakajima. Zheng Dongsheng was being too naive.

Chapter 5005 Super Aristocratic Family

"Could it be that the East continent's yellow Class academy Alliance can't restrain Nakajima?" Lin Yi asked curiously. He didn't take it for granted like Zheng Dongsheng, but after his experience in the East continent, he felt that the yellow Class academy Alliance had some restrictions on the other Sky Class islands. After all, as long as they used the spots as disciples, the other Sky Class islands would have to think about it.

"Even if there is a restriction, it is not a one-sided restriction, but a mutual restriction. Nakajima's strength is not that weak." Ao Tianzhou brought this up because he wanted to share some secrets with Lin Yi. This was what Lin Yi needed to know urgently.

"Island master ao Tian, if I may ask, how strong is Nakajima exactly?" Lin Yi couldn't help but ask.

"What do you think, young hero Lin?" Ao Tian Zhou asked with a smile.

"In the past, I thought that the middle Island was very strong. However, after my vision broadened, I realized that not only the East and South continents, but even the north and west islands are far stronger than the middle Island. The middle Island is the weakest." Lin Yi replied honestly.

"It's not wrong for you to think this way, because in terms of the strength displayed on the surface, Nakajima is indeed the weakest. Even Wu Miao, the managing vice Island master, has to bow and scrape to a mere seventh grade Alchemist. If you still say that he's strong, then it's really a joke. However, this is only the strength on the surface. " Ao Tian Zhou shook his head.

"What about the real hidden strength?" Lin Yi asked curiously.

"Hehe, if we really get serious, it's hard to say which of the five sky-class islands is stronger, with the exception of the East continent. At least, Nakajima is definitely not the weakest persimmon." Ao Tian Zhou specially reminded.

"Why is the central island Lord's pavilion so weak? I feel like it can't be compared to the Super big shots of the other Sky Class islands." Lin Yi frowned.

"That's because the island Masters and Deputy Island Masters who are here to maintain order are just some old monsters who don't want to meddle in other people's business and representatives sent by the Super families. The one who can really decide the fate of Nakajima is definitely not the island master's Pavilion, but the Nakajima Elders Council, which is above the island master's Pavilion." Ao Tian Zhou explained.

Lin Yi nodded thoughtfully. It wasn't hard to understand. If North Island had an Elder Council, so would Middle Island. The difference between the two was that North Island had a super big Shot like Shangguan Tianhua as the head of the Council, unlike Middle Island, who retired behind the scenes and sent out a representative.

"Every member of Nakajima's Council of Elders is either from a super family or a super sect. Every one of them has a deep background. These are the real big shots who have the right to speak." Ao Tian Zhou continued.

"Island master ao Tian, I wanted to ask about this just now, but I was interrupted. What kind of existence are these super families and super sects that you mentioned?" Lin Yi asked, troubled.

"To put it simply, these two are existences that are one level higher than normal sects and Noble houses. Every super Noble House has at least a thousand years of history on Sky Class Island, and so they are also called thousand-year-old noble houses. However, they all live in seclusion and cultivate, rarely getting involved in the outside world's affairs. They only send out agents like the Nakajima Taishi Pavilion, so unless you reach a certain level, you won't know about their existence," Ao Tianzhou explained patiently.

"I see. It sounds like the hidden houses of the common world, but there's an even higher level, the ancient level. I wonder if the sky Class Island is the same, and if there's a power stronger than a thousand-year-old house?" Lin Yi asked.

"You're not the only one who wants to know the answer-we've been looking for it as well. I can only say that it's a possibility-maybe the legendary ten-thousand-year-old family really does exist, but even if it does, it's only possible in the East continent-it's impossible in the other sky-class islands. " Ao Tian Zhou thought for a moment and said.

Lin Yi nodded. Sky Class islands like central island had limited space, after all. If there really was a ten-thousand-year-old Noble House, they would've found it long ago. But the East continent was different. It was vast and full of resources. Maybe there was a ten-thousand-year-old Noble House in some unknown mysterious place. It was not impossible.

"I don't think it's possible for a ten-thousand-year-old family." Lin Yi shook his head. After all, the human civilization in the common world was only a few thousand years old. Sky Class Island may be separated from the common world, but it wasn't very likely that a Noble House had appeared ten thousand years ago.

"I think so too, but there's always been a legend about this. No one knows if it's true or not. In short, even if it's not a ten-thousand-year-old family, any thousand-year-old family's Foundation is unimaginable. Only they can really decide the fate of the Sky Class Island, but not many people know about it." Ao Tian Zhou laughed.

"Thank you, Island master ao Tian, for telling me all this. It's really an eye-opener for me. If I didn't know this, I don't know what kind of trouble I'd cause in the future." Lin Yi said gratefully.

Ever since he returned from the East continent, his self-confidence had obviously exploded. He did not even care about Nakajima anymore. This was a very dangerous mentality, and if he let it go, something would definitely happen.

It was true that with his current strength, he could bully everyone in the island owner's Pavilion except for the AO Tian state. However, if he really went against the island owner's Pavilion, it would definitely alert the Nakajima Elder Council. At that time, even if the AO Tian state did not take action, those super families and super sects could easily deal with him. It would really be a disaster.

The ignorant were fearless-this saying was true. After hearing about these existences from ao Tian Zhou, Lin Yi finally regained his respect from before. He wasn't weak now, but he was far from being fearless. He still had a long way to go.

"Haha, you're too kind, young hero Lin. At your level, you'll naturally know about these things. Even if I didn't say it, others would have reminded you. It's not worth a thank you." Ao Tian Zhou smiled and waved his hand.

"That being said, I still have to thank Island master ao Tian. It's better to know these things one day earlier than one day later. Otherwise, there might have been an accident." Lin Yi smiled-what ao Tianzhou said was the truth. Even if he didn't know about these things on Nakajima, Shangguan Tianhua would tell him about it when he got back to the northern island. He didn't tell him about it before because he wasn't there yet.

Plus, this was a very dangerous situation-if otainzhou wasn't the acting Island owner, and the original owner was the one in charge instead, Lin Yi's relationship with the entire Pavilion would've been set in stone if things had continued like this!

Chapter 5006 The Hope Of Returning To The Secular World

After all, the real Island master would not be as fair as the AO Tian state, and he would not go to ao Tian BA to verify it.

If they really started fighting, even if Lin Yi could win, he'd still have to deal with the Nakajima Elder Council, and the Super houses and sects would have to fight him personally. Thinking about it now, he was really scared.

Shangguan Tianhua and ning Shangling would probably show up, but ao Tianzhou had helped him avoid this disaster. Lin Yi had to remember this favor.

The two continued to drink and chat when Lin Yi suddenly remembered the southern sky polar light. He remembered something that he'd been thinking about for a long time.

"Island master ao Tian, I wonder if you know any way to leave the mortal world?" Lin Yi asked expectantly.

"The secular world?" Ao Tianzhou blinked, remembering what ao Tianba said about Lin Yi being from the common world. "I don't know much about this, but I'm sure the God of pills, master Zhang Liju, has a way. There are other ways, but they're all in the hands of the Super families. It's a pity that my aotian family isn't involved in this field, so we have limited information."

"I know that, but I want to ask if there is another way to leave the mortal world. I remember that southern sky Aurora could leave the mortal world as a guide, but I don't know what method he used." Lin Yi said with anticipation.

This idea had been in his mind for a long time. As far as he knew, when the southern Heaven Aurora arrived in the mortal world, his strength should only be at the nascent Soul Stage. Since the southern Heaven Aurora could do it, there was no reason that he couldn't!

It was just that his strength was too low before, and he didn't have the opportunity to come to Nakajima after he reached the nascent Soul Stage. It was only now that he had become an early stage xuansheng expert that he was able to return. He originally wanted to find Tian xingdao to ask for an explanation, but since Tian xingdao was no longer around, it was the same to ask the AO Tian state.

"A guide?" Ao Tianzhou was taken aback, but he immediately nodded. "That's right. There is indeed a way to descend into the mortal world. This is no secret in the pavilion. As long as you reach the nascent Soul Stage, you can do it. With your current strength as a mysterious Ascension primary stage, it's not a

problem. However, this method can't achieve a true teleportation. It can only temporarily project your primordial spirit over."

"Yes, I know." Lin Yi nodded. He knew that Nantian Aurora was just an essence spirit the moment he saw it. Otherwise, it wouldn't be so easy to teleport back and forth between Sky Class Island and the secular world.

"The key to this method lies in the consciousness. Although it's more difficult for those with a strong consciousness to project it, they can stay for a longer time. On the other hand, those with a weaker consciousness can only stay for a few days at most. The strength of the projected primordial spirit depends on the consciousness, so it's inevitable that it'll be greatly weakened. Although you're Xuan Sheng now, the strength of the projected primordial spirit might not even be as strong as the complete heaven class. It depends on the individual." Ao Tian Zhou explained.

"It doesn't matter. I just want to go back to the secular world to take a look. As for how long I can stay there and how much strength I can retain, it doesn't matter." Lin Yi couldn't hide the excitement on his face-returning to the common world had always been his biggest problem since the first day he was on Sky Class Island. He could only go back as a spirit this time, but he was already satisfied.

"In that case, I can help. This method is in the hands of the island master's Pavilion, and I'm the leader now. It's a small matter." Ao Tian Zhou nodded.

"Thank you, Island master ao Tian!" Lin Yi was overjoyed. He thought that even if it wasn't as troublesome as teleporting, it wouldn't be easy either. He'd have to pay a high price for it. He didn't think that ao Tianzhou would agree so easily.

Of course, this was also because he could connect with the AO Tian state. Otherwise, it would be very difficult for him to do so. After all, the pavilion of the Nakajima takeaway could not easily help outsiders

project their primordial spirits into the secular world, and now that the Tian Xing Dao was not around, if it were not for the AO Tian state, he would not even have anyone he could speak to, let alone be on bad terms with Wu Miao, the managing vice-Island master.

"I'll order people to prepare it now. It might take a few days. You should go back and wait for the news." Ao Tian Zhou said.

"Alright," he said. Lin Yi nodded heavily.

After leaving the island owner's Pavilion, Lin Yi was in a state of extreme excitement. He couldn't calm down even after walking back to the heavenly elixir Pavilion. The first thing he said was, "Tian Gang, Xue Li, I'm going back to the mortal world!"

"What?" Tian Gang and Xue Li were both shocked. Everyone who came from the common world more or less had this kind of obsession. Even if they didn't have it at the beginning, it would grow slowly. They just didn't have as many things to worry about as Lin Yi, and their obsession was as strong.

"You didn't hear me wrong. I said I can return to the mortal world, but this time I can only project my primordial spirit over, not a real teleportation." Lin Yi said excitedly.

"Primordial spirit projection?" The two women didn't react for a moment.

"It's just like when Southern Heaven Aurora left the secular world. We didn't see him in person, but only a projection of his primordial spirit. Although we can't stay for long and the primordial Spirit's strength will be greatly weakened, we can finally go back and see it after leaving the secular world for so long." Lin Yi couldn't help but rub his hands together.

"That's great!" Tian Gang and Xue Li were also excited at the same time. They couldn't help but hope, ""Can we go too?"

"According to Island master ao Tian, as long as you're at the nascent Soul Stage, it's fine. With my current strength, I can directly raise your strength to the great circle of the nascent Soul Stage. It should be no problem to tell him." Lin Yi nodded. Since ao Tianzhou was going to do him a favor, it didn't matter if it was one or three people. He'd definitely agree.

"Really?" The two women celebrated, but then they fell into a dilemma."But what about the heavenly elixir Pavilion? Business is getting better by the day, and we can't be at ease if we don't take care of it. It's a critical time for us to grow, and we can't just abandon it, right?"

"This ..." Lin Yi was stunned as well. He was too excited before and forgot about the situation at the heavenly elixir Pavilion. Even Tian Gang and Xue Li were busy enough. If even the two pillars left, the heavenly elixir Pavilion would collapse instantly. Everything they did before would be in vain.

Wei shenjin was just a layman, it was unrealistic to ask him to take care of the heavenly elixir Pavilion alone. Among the people Lin Yi knew in the central island, Cai Zhongyang was an expert, but it was ridiculous to ask a high level member of the five elements Chamber of Commerce to come and stand guard for the heavenly elixir Pavilion. Moreover, Tian Gang and Xue Li were the backbone of the heavenly elixir Pavilion, they couldn't do without them at this time.

Chapter 5007 A Mighty Figure Acknowledges A Master

Tian Gang and Xue Li hesitated for a long time. Finally, they looked at each other and sighed helplessly, ""Forget it. This time, we're not going back with our true bodies. We don't have as many things in the secular world as you do, so let's forget about it this time. But after you go, help us check on the situation of the five elements sect and the snow Valley. I don't know how they're doing now,"

"Alright, I'll remember that." Lin Yi nodded. If it was a real teleportation, he'd definitely find a way to settle down the heavenly elixir Pavilion and bring the two girls with him, but this was a special situation. He was just projecting his essence spirit to see how things were going, so there was no need for that.

Tian Gang and Xue Li had just said a few words to Lin Yi when Wei shenjin and the others started to complain. The two girls wanted to go down and help but Lin Yi stopped them, "I'll let them work a little harder and hold on for a while. I'm returning to the secular world in the form of a primordial spirit this time, so I don't know how long I can stay. I can't take care of this side for the time being, so I have to improve your strength first to avoid any blind people coming to cause trouble."

"Oh ..." The two girls blushed immediately. The last time Lin Yi helped them increase their strength was still fresh in their minds. Although they already had feelings for Lin Yi, the thought of taking off his clothes still made them feel embarrassed.

Lin Yi laughed, evidently thinking of that scene. It was definitely a pleasure to watch.

As for Wei shenjin, he'd been a loyal and diligent student after taking the heart-devouring Gu, but Lin Yi didn't plan on helping him level up yet-it wasn't because he didn't trust him, but because he didn't think it was necessary.

Wei shenjin was now in the early Yuanying stage. Instead of directly pulling up the seedlings to help him improve his strength, it was better to give him some supplementary medicinal pills such as the Golden core of the nascent soul. This way, the improvement of his strength would not be too slow, and it would be more beneficial for the future.

Lin Yi was busy with his preparations and didn't know that an enemy in the East continent was thinking about him. This person wasn't Ren Zhongyuan, Yi Xiaotian, Bao zuoliang, or su kesheng. It was the evil cultivator who had fought with him before, the West Mountain evil sect's West Mountain Almighty.

From soaring Cloud City to Morning Star City last time, the West Mountain's Almighty chased Lin Yi all the way, even sacrificing an arm to use a forbidden move like blood sacrifice, but he still couldn't take Lin Yi down. Instead, he was injured himself, and he'd been recuperating for months since then, still unable to recover. His strength was greatly reduced, and he was in a miserable state.

But even so, the West Mountain Almighty didn't forget to pay attention to Lin Yi's movements. He only found out that Lin Yi had left Morning Star City a long time ago, and no one knew where he went after that. But today, he found Lin Yi's name in the latest xuansheng master list released by the East continent's yellow Class academy Alliance!

"Xuansheng? This brat has actually become Xuan Sheng!" The West Mountain's mighty figure was so angry that he spat out a mouthful of blood on the spot. The little bit of vital Qi that he had recovered with great difficulty over the past few months had been wasted.

The last time they fought, he was in the late stage of the mysterious Ascension realm, and Lin Yi was only in the late stage of the nascent soul realm. Even so, he didn't take Lin Yi's life. But now, Lin Yi was in the early stage of the mysterious Ascension realm, and the Almighty of the West Mountain's strength didn't improve at all. On the contrary, his strength dropped a lot because he lost an arm. If they fought again, he would be no match for Lin Yi.

The West Mountain man wasn't stupid, after all. Although he wanted to take revenge, he wasn't blindly arrogant. Even if he had the chance to take revenge, he wouldn't dare to go to Lin Yi alone. All that was left was anger and unwillingness.

"No! I can't let that brat off just like that!" The West Mountain's Almighty could not take this lying down, but he did not have the strength to take revenge. He paced around the house anxiously for a long time before he suddenly had an idea. "That's right, this old man can't deal with this brat, but there's someone who can!"

After making up his mind, the West Mountain Almighty did not care about his vitality. He immediately packed his things, found an aerial spirit beast, and went straight to the South continent's sea.

It was a long journey from the Yellow Sea area of the East continent to the South continent's Sea area. Even for a late-stage xuansheng master like him, it was not easy, especially since he had not recovered from his injuries. However, the mighty person of the West Mountain could not care so much anymore, because the person he was looking for was now in the South continent's Sea area. This person was the old sect of the West Mountain!

The main reason why he agreed to Yi Xiaotian's request to kill Lin Yi was because of West Mountain old sect. He wanted to take Lin Yi's head and feed it to Yi Xiaotian. Although he didn't have Lin Yi's head now, he had no other choice but to give it a try as an evil cultivator.

The whereabouts of the old sect of West Mountain was not a secret in the evil sect of West Mountain. The mighty people of West Mountain found the Longzhou escort agency very quickly. They did not pay a visit to the door, but directly landed in the backyard.

A one-armed weirdo descended from the sky. This scene shocked the escorts on duty at the Dragon Boat escort agency. They quickly shouted and surrounded him. However, when they felt the aura released by the West Mountain's Almighty, they didn't dare to act rashly. It was actually a late-stage xuansheng expert!

Even if all of them were to join forces, they would still not be a match for the other party. The West Mountain mighty figure glanced at these minions coldly and shouted, ""I'm the West Mountain Almighty of the West Mountain evil sect. I'm here to see the West Mountain old sect!"

Evil cultivator? Everyone looked at each other. Although they were used to being criticized because of the existence of the old sect of West Mountain, it was still strange to see the mighty people of West Mountain at this time. Would the Dragon Boat escort really become the base camp of evil cultivators in the future?

"Still not retreating!" At this moment, long kuiba arrived late. He sized up the West Mountain Almighty and said respectfully, ""West Mountain old sect invites you. Senior, please follow me."

Under long kuiba's lead, the West Mountain's Almighty soon saw the West Mountain old sect master in the main hall. He quickly knelt down and kowtowed respectfully, ""West Mountain's Almighty greets the old sect master!"

"Eh? Where are you from? why have I never seen you before?" The old Grandmaster of West Mountain sized up the mighty figures of West Mountain with a strange voice and a pair of triangular Yin Yang eyes.

"Old Zong, this subordinate is at the East continent branch." The West Mountain mighty figure replied.

"In that case, why didn't you stay in the East Province? why did you come to the South Province?" The West Mountain old sect master asked curiously.

"Old sect, I've come to the South continent for only one thing. I want to be your disciple and work for you. Please help me." The West Mountain Almighty kowtowed again.

"You want to be my disciple?" The old sect master of West Mountain glanced at him, obviously looking down on him. Although the strength of the late-stage xuansheng of West Mountain was not considered weak, he had lost an arm now, and his potential was much weaker than others. Even if such a person was taken in as a disciple, it would be difficult to put him to use. He was purely of little value.

Chapter 5008 An Area That Can't Be Set Foot In

The mighty people of the West Mountain were not surprised by the reaction of the old sect of the West Mountain. After all, he was the second most important person in the West Mountain evil sect's South continent branch. There were a lot of people who wanted to be his disciple. They either had great potential or special connections. Otherwise, why would he accept him as a disciple?

It was a pity that the West Mountain sect's mighty people were not qualified for either of the two conditions. If he wanted the West Mountain sect to accept him, the only way he could play the bitter card.

"This subordinate also knows his own limits, but old Zong, please take into account this subordinate's loyalty and give this subordinate a chance. This subordinate will definitely not disappoint old Zong." The West Mountain's mighty figure pleaded.

The old sect master of West Mountain laughed noncommittally and asked casually, ""What's with your arm? Could it be that you know the blood sacrifice ritual?"

"You're wise, old Zong. I did use the blood sacrifice a few months ago, and you know the person I was dealing with. He's the Lin Yi who killed your nephew, Wu baoliang. " The mighty figure of the West Mountain nodded.

"Lin Yi?" The West Mountain old Grandmaster's spirit was lifted. In order to track Lin Yi, he didn't hesitate to use the West Mountain evil sect's intelligence system. He knew that Lin Yi was Ling Yi and also knew that Lin Yi went to the East continent from the West Island a while ago. He didn't think that he would have fought with a West Mountain Almighty before. He said in surprise, "You killed him?"

"I'm useless. Although I used a late-stage xuansheng to deal with him, a late-stage nascent soul cultivator, and even used the blood sacrifice technique, he still failed at the last step and escaped to Morning Star City. According to the latest list released by the East continent's yellow Class academy Alliance, he's already an early-stage xuansheng cultivator." The West Mountain's mighty figure said in embarrassment.

The West Mountain sect master was speechless, but he couldn't blame the West Mountain sect master for not being able to kill Lin Yi back then. Lin Yi was indeed evil-he might not be strong, but he wasn't easy to deal with.

"Old Zong, I've taken Lin Yi's arm as my enemy, but now that I've lost an arm, I'm afraid I'm no match for that kid. Please give me a chance for the sake of my sincerity, I'll hand Lin Yi's head over with both hands in the future!" The West Mountain's mighty figure pleaded.

At this point, the old sect master of West Mountain finally changed his mind. Since they had a common enemy, Lin Yi, then so be it. The West Mountain's Almighty wasn't too weak anyway, and he knew the blood sacrifice technique, so he should be of some use.

"If that's the case, then you can stay. Although losing an arm is a bit of a hindrance, it's just perfect for cultivating our sect's soul snatching hand. Perhaps you'll be able to cultivate it even faster than a normal person with two arms." West Mountain sect master nodded.

"Many thanks, old Zong!" The West Mountain's mighty figure was overjoyed upon hearing this, and he hurriedly kowtowed three times, "'I'm an Almighty from the West Mountain. Greetings, master!"

This time, he was really overjoyed. In his expectation, as long as West Mountain old sect was willing to take him in, it would be good enough. Who would have thought that he would be willing to teach him the soul-hooking claw? this was West Mountain old sect's famous unique skill!

"Alright, you may rise." West Mountain old sect master waved his hand.

"Yes!" The West Mountain's mighty figure stood up happily and then asked with a strange tone, "'Master, I just came here on my flying spirit beast. I feel that the South continent's waters seem to be very chaotic. Why has the spirit beast clan begun to send experts to the human territory?"

"All of this has nothing to do with us. The spirit beast clan doesn't care what they do as long as it doesn't affect us. Don't meddle in other people's business, or else you'll get into trouble." The old sect master of West Mountain warned.

"Your disciple understands!" The West Mountain mighty figure quickly nodded. The only thing he had to do now was to quickly improve his strength and take revenge. Everything else was irrelevant to him. He had no intention of being a busybody.

"Hehe, although this matter has nothing to do with us, since you've asked, master will give you a few words of advice." The old sect master of West Mountain laughed weirdly and explained, "'I've long received news that the spirit beast clan is not willing to be left out this time and is preparing to take the South continent's Sea area into their territory. They are preparing to collect taxes from all human forces in the South continent's Sea area. Sending so many spirit beast Masters to the South continent's Sea area is only the first step in their preparation for the tax collection."

"But the South continent's sea has always been the territory of human cultivators. The spirit beast clan has never ruled it before. Is there no one here to resist?" The West Mountain mighty figure asked.

"In the beginning, there were a few overconfident forces who wanted to resist. However, in front of the spirit beast clan, even if all the human forces in the South continent sea joined forces, they would still be a piece of cake. Moreover, no one could come forward to unite them. What kind of storm could they cause?" The old sect master of West Mountain shook his head in disdain.

"That's true. Although the South continent's sea has always been chaotic, there has never been a truly powerful top force. Otherwise, they would have long been United. In that case, it would be difficult for the spirit beast clan to take action." The mighty figure of the West Mountain nodded.

"The spirit beast clan came prepared this time. They didn't directly send their spirit beast Masters to attack the South continent's Sea area. Instead, they only sent these spirit beast Masters to create momentum. The people in the South continent's Sea area have long been used to bullying the weak and fearing the strong. Once the spirit beast clan's strength is deeply rooted in the hearts of the people, no one will resist when they start to collect taxes." The West Mountain old sect master sneered.

"Since the spirit beast clan has started to leave the South Island, I'm afraid the South continent's waters can't satisfy their appetite. Will it affect the South continent branch of our West Mountain sect?" The West Mountain Almighty could not help but ask. Although the South continent's branch was not located in the South continent's sea, it was not far away. If the spirit beast clan wanted to expand further, they would likely be targeted by them.

"That's not necessarily the case. Even the Alliance of righteous sects couldn't do it back then. No matter how strong the spirit beast clan is, can they be stronger than the Alliance of righteous sects?" The old sect master of West Mountain laughed and said, ""However, it's better to prepare for a rainy day. With the aggressive attitude of the spirit beast clan, our West Mountain sect should indeed be a little more vigilant. They have now begun to send nominal managers to various towns in the South continent's Sea

area. Although they don't care about the human cultivators for the time being, this is already their intention, and everyone knows it."

"With master personally overseeing it, no matter how much the spirit beast clan tries, we will not move." The West Mountain's mighty figure took advantage of the situation and flattered.

"You're flattering me, but it's not an exaggeration. Anyway, the spirit beast clan is different from those hypocrites who claim to be righteous. As long as we have common interests, they may not be enemies with our West Mountain sect. Maybe we can even work together." The old sect master of West Mountain said meaningfully.

The secular world, Shennongjia.

Even in today's technologically advanced world, there were still many places in the world that ordinary people could not set foot in. Shennongjia, which was often said to be frequented by savages, was one of them!

Chapter 5009 Ancient Sect

There was a mysterious place that was shrouded in fog all year round. Not only was it inaccessible, but even the most advanced satellites in the sky could not penetrate it and explore. They could only vaguely make out the outline, but they had no idea what was inside.

There had been dozens of scientific research teams that had gone deep into the hinterlands of Shennongjia, using all kinds of cutting-edge equipment and even sacrificing several precious lives. However, to this day, they had not been able to truly explore the whole picture. No one knew what kind of secrets were hidden in the depths of the land.

In other words, this was one of the few unknown lands in the world.

However, in the depths of this unknown land, there was a majestic mountain Gate. The Grand and solemn buildings were one with the surrounding primitive mountains and forests. There was no sense of disharmony, as if these buildings were the creation of nature. From a distance, they looked like they were of the same breath and branch.

There was an open space inside the mountain Gate. At this time, a group of male and female disciples with an imposing aura stood there. At the front was a white-bearded old man who was giving a lecture.

"The once-in-a-thousand years disciple trial will officially begin from today. All disciples who meet the requirements must go to the mortal world to train. Remember, none of you are allowed to do anything that violates the laws of the mortal world, and you are not allowed to cause trouble for no reason. Those who break the rules will be severely punished." The white-bearded old man said sternly.

"Yes!" The group of disciples acknowledged the order in unison.

"For this experiential learning, we will select outstanding disciples with double or more spiritual roots to return to the ancient sects of Shennongjia. Everyone only has one year's time. Once this time is passed, the ancient passageway will automatically close. Those who can not return can only wait for the next thousand years. Do you all understand?" The white-bearded old man said seriously.

"Yes!" The group of disciples acknowledged the order once again.

There were men and women, young and old-if Lin Yi saw this, he'd be shocked. All of them were Sky Class full master, and these people ... Were all sky Dao Masters!

In the villa of the Xue Shang District in the secular world.

It'd been three whole years since Lin Yi left, and Ziyu was already a third-year student. He went back to the villa after class, and saw Chentian lying on a chair outside, bored to death.

"Gatekeeper uncle Wu, can your life not be so monotonous? I see you lying at the door playing with your phone every time. If this goes on, you're really going to become the gatekeeper uncle Wu!" Ziyu couldn't help but comment at the lazy look on Chentian's face.

"What else can I do other than play with my phone? 'I'm not going to school like you, I don't have anything else to do"Chentian didn't even look up as he continued to play with his phone.

This was the truth. His life had basically been like this for the past three years. He couldn't find any passion at all. He felt like an old man who had retired early. It was completely different from the days when he was burning with passion.

But this was to be expected-he was Sky Class full master now, an invincible existence in the common world. Other than staying in the villa with Lin Yi and his other female friends, there was nothing else he could do. He'd gotten used to this sort of retirement life.

"You're so free!" Ziyu stuck out her tongue and looked over, surprised."Why are you playing this game too? so many of my classmates are playing this game. I thought only US young people would play it. I didn't expect an old uncle like you to play the mobile game 'School Belle 3D'!"

"How did I become an old uncle?" Chentian said, looking hurt.

"Isn't it? Come, let me see your id. I'll ask my classmates to add you as a friend so that you won't have to fight alone. " Ziyu grabbed the phone and looked at it, her face turning weird."Lonely demon? And it's a female character?"

"Ugh ..." Chentian blushed and explained weakly, ""Don't get the wrong idea, I just thought it's more convenient to play with a female character, and it's easier to add people as friends and hug their thighs. I don't have any other intentions ..."

"There's no need to explain. Explaining is covering up, and covering up is the truth. I've seen through your nature. You're a strange uncle who uses a human demon as his name!" Ziyu threw the phone back to Chentian and ran back to the living room screaming like she'd seen a ghost.

Chentian was speechless-he was just using his demon name, not stealing or snatching, how did he become a weird uncle?

"Hey, you said it yourself. Don't forget to ask your classmate to add me as a friend." Chentian said as he ran into the living room, only to see Ziyu with a mountain of snacks. He jumped,"Why? Didn't I just see a demon's name? is there a need to be so gluttonous and give up on yourself, collapsing your outlook on life?"

"F * ck, what's the big deal with a human-demon title? back then, I was also in the underworld. Do you really think I'm a little girl who has never seen the world?" Ziyu rolled her eyes.

"Someone from the underworld? You're just a kid playing house, what kind of society are you in?" "Your brother Wu was also known as Iron Fist Wu back in the day, he was invincible in the pugilistic world!" Chentian said with a chuckle.

He knew how Ziyu was before Lin Yi found her-she was like a gangster, only becoming more obedient after Lin Yi started watching over her. She'd be a little hard-headed from time to time, though. Of course, they all treated her like a little sister, and didn't find anything wrong with it-they found her straightforward and cute.

"Tsk, then I met Lin Yi bro and became useless hands Wu! I'm not going to talk to you about this. I'm going to finish that drama today, so don't disturb me!" Ziyu hugged the snacks and turned on the TV.

"That drama? You're talking about 'the school Beauty's bodyguard' from iQIYI? I've finished watching it already, it's pretty good. Don't you think that the main character's experience in it is similar to boss Lin Yi 's?" Chentian grinned as he sat down on the other side of the sofa, taking a bag of chips from Ziyu. His life was so boring right now, and he didn't mind watching it a second time.

"Not at all, okay? the main character is a pervert, how can you compare him to Lin Yi bro?" Ziyu glared at him unhappily.

"Then why are you still looking?" Chentian asked curiously.

"I'm watching this for Lin Yi bro, so that he won't be like that main character, stupidly frozen in place when he sees a woman, how embarrassing!" Ziyu's mouth was stuffed with snacks, and she spoke in a muffled voice.

Chentian didn't know what to say-women's logic was incomprehensible, especially a weird little girl like Ziyu. She couldn't keep up at all.

"By the way, the first season should be over by now. Did anyone say when the second season will be released?" Ziyu asked casually.

Chapter 5010 Steward Wu

"I don't know, but I saw a trailer. It said that a TV series called so pure and so flirtatious is also in production. It seems to be similar to this one, so I can look forward to it." Chentian's mouth was stuffed with chips as well, and he lay on the sofa lazily.

"Not bad, not bad. Uncle Wu, you're now an expert in drama series. It's definitely the right thing to ask you about these things in the future!" Ziyu said, full of praise.

"It's either uncle Wu or uncle Wu. Can't you call me that normally? we're of the same generation after all. Would it kill you to call me big brother Wu?" Chentian said helplessly.

Ziyu suddenly put down her snacks and sat up, looking at him seriously and nodding."You will die."

"..." Chentian didn't know what to say anymore. He could only pinch his nose and accept his fate,""Why are you back today? it's the weekend again?" he asked.

The school wasn't far from here, but Ziyu lived in the dormitory most of the time, only coming back on the weekends and holidays. Lin Yi wasn't here, after all, so there was no point in coming back every day.

"Uncle Wu, you're from Mars, right? don't you know that it's the 11th tomorrow?" Ziyu said, surprised.

"Ah? Doesn't that mean that today is the end of the month?" Wu Chengtian was shocked, he couldn't be bothered with the TV anymore and rushed out, ""I have to hurry and buy some groceries. Help me take care of the people upstairs. Remember to check on them every half an hour."

"I know, steward Wu. You can go and buy the groceries in peace." Ziyu said impatiently.

Wu Chengtian was now the new generation of uncle Fu. He was in charge of everything here, big and small. He even did the cooking himself. He even signed up for a cooking class, and now, he was a great cook. His retirement life was really boring.

As usual, the end of the month was the time for their gathering. Other than Ying Ziyu, song Lingshan, Xu Shihan, Cheng Yiyi, sun Jingyi were all there, along with fatty Lai, Kang Xiaobo, Yu Bing, han xiaopo, and Zhao qikun. All the core members were there as well.

Although some of them would come every weekend, they were all scattered around the country, and unlike Chentian, they didn't have to retire early to be a full-time Butler. They all had their own things to do, and it was impossible for them to gather every weekend. However, this was the end of the month, and even if they had something to do, they'd arrange it in advance or just cancel it. This was an important gathering that belonged to the group.

This was Wu Chengtian's busy day. With so many people gathered together, just arranging food and drinks was a huge project. Every time he went to the market, he had to bring back a whole truck of food. People who didn't know would think that he was a street vendor. He was used to being interrogated every time there was a new security guard in the area.

Chentian was shopping in the market, picking and haggling, a classic example of a middle-aged woman who'd been in the market for decades. With his strength and family background, he wouldn't have imagined things would turn out this way, but he was enjoying it now-time really did change everything.

Chentian's phone rang as he was busy with his work. It was Lingshan calling, so he quickly picked it up."Sister-in-law, you called just in time. Order whatever you want to eat tonight. I'm at the market right now. I won't have the chance to do so when I get back."

Lingshan smiled apologetically, "I'm sorry, I have an urgent task here. I'm afraid I won't be able to make it tonight. Please help me apologize to everyone. "

Wu Chengtian was now Lin Yi's group's butler-they had to report to him no matter who was in trouble. If they wanted to know someone's situation, they just had to ask him, and he'd know everything.

"Urgent mission?" Wu Chengtian was surprised,"Sis-in-law, you're the Deputy Director of the supernatural Investigation Bureau now. What kind of important mission would you have to personally do? Everyone knows about the gathering at the end of every month. Chief Feng wouldn't arrange anything for you, would he?"

"That was indeed the case, but this mission is very special. The entire supernatural Investigation Bureau has gathered urgently. It's not a small matter." Lingshan said, her tone serious.

"Could it be that some aristocratic family or sect is causing trouble again?" Wu Chengtian was taken aback. Ever since Lin Yi merged with the noble houses of the common world, the investigation Bureau was like the sun in the sky. Normally, no one would dare to mess with them. Even the ancient noble houses with deep foundations had to obey their management. But now that Lin Yi had left for three years, it was normal for them to start making trouble.

"I don't think so. This time, we received news that some unknown cultivators suddenly appeared in the secular world. They seem to have unfathomable strength, but we don't know their exact background or what they want to do. But other families and sects have received some news. If these people really want to cause trouble, it will be a big mess, so we must be careful." Lingshan said.

"If they aren't from the aristocratic families, could they be from red conch or central?" Chentian frowned.

It wasn't strange for one or two hidden masters to appear, but a group of unknown Masters suddenly appeared. This really needed to be guarded against. Ordinary noble families and sects didn't have this strength, and they were more or less monitored by the supernatural Investigation Bureau. The only forces he knew were red conch or central.

"I've already asked brother Dafeng just now. There's no news from him for the time being. According to my speculation, it shouldn't be them this time. " "But according to Dafeng bro, central seems to be planning something, but he's only in charge of making the poison. He doesn't know anything else yet," Lingshan said after a pause.

"But if it's not the center, then who is it?" Wu Chengtian was confused. Without a doubt, central was the biggest suspect in this case. If they could confirm it, they could at least do some specific precautions. However, if these people weren't from central, and they didn't even know who they were, it would be hard to deal with.

"This is something we urgently need to know right now. The supernatural Investigation Bureau is currently gathering information from all aspects, and perhaps they can analyze some clues. I'm going to have a meeting soon. Please tell everyone this news and tell them to be on guard during this time. In short, there's no harm in being careful. " Lingshan said.
