

Bodyguard 5011

Chapter 5011 Eager To Return

"Yes, I know." Wu Chengtian hung up the phone and looked at the noisy market in front of him. Did some hidden force show up again?

It was late in the evening, and the villa was filled with people. Other than song Lingshan, everyone else was already present, and Wu Chengtian remembered song Lingshan's request and reported the situation to everyone during dinner.

Because of this sudden news, the originally lively atmosphere instantly quieted down. The dangerous situation of the iron cloak sect and he dan TOU's attack was still fresh in their minds. If it wasn't for Lin Dongfang's sudden appearance to save the situation, it was hard to say what would have happened. Now that a group of mysterious experts of unknown origins had suddenly appeared, who knew if they were coming for them again?

"I've heard about this as well-yesterday, the Ice Palace was quite nervous about it too, and even went to get some information from the sects we're familiar with. " Yu Bing said suddenly.

"Oh? What's the situation?" Everyone asked.

"The specific information is the same as the supernatural Investigation Bureau 's. The only thing we can confirm is that there are a lot of strange cultivators walking around. Judging from their strength, they should be at least of the ancient level, but they don't belong to any ancient sect that everyone is familiar with. Everyone is guessing that it's probably an ancient sect that has been hidden from the world, but we didn't know about it before." Yu Bing said.

"That's possible. After all, the iron cloak sect rarely meddled in the affairs of the outside world, so not many people know about it. If it weren't for the previous conflict, how would we know that the iron cloak sect still has such a deep foundation?" Chentian nodded.

"But if it's an ancient sect that's hidden from the world, then why are they suddenly moving around? did something big happen?" Qikun asked.

Everyone was frowning as well. Every ancient sect had their own rules, especially those hidden sects. They basically strictly restricted their disciples from entering and leaving the secular world. It was impossible for there to be no major changes to the sudden appearance of so many strange cultivators this time.

"Let's go back and find some other way to get some information. No matter what, we have to strengthen our defenses this time. After all, it's better to be safe than sorry," Chentian suggested.

Everyone nodded. Lin Yi had asked them to take care of the unconscious women, and they couldn't betray his trust. The surprise attack from the iron cloak sect and bullet head had already scared them, and they couldn't afford to make any mistakes this time.

"Since that's the case, special times call for special measures. I suggest that we resume our work in pairs from today on. One more person means more support. Also, make sure that everyone's mobile phones are on at all times. No matter what happens, we can contact each other immediately." Yu Bing nodded.

"Yes, I understand." Everyone nodded happily. Now, it was not only these cultivators of unknown origins, but even brother Dafeng's side had said that central was brewing some plan, so they had to be on guard.

"If only Lin Yi was here," Xu Shihan suddenly sighed.

"That's right. I wonder how he's doing now. Even though he sent a letter two years ago, there's no news of him now." Cheng Yiyi sighed as well.

"I've already written a few letters. I'm just waiting for the central Express delivery to come again. There's already dust on them now." Jingyi said, pouting.

"You're not the only one who secretly wrote letters. Everyone has accumulated a lot. Unfortunately, this Central Express delivery is really unfathomable. Otherwise, we wouldn't have to wait here." Wu Chengtian smiled bitterly. He was the Butler now, and he had to deal with many people. Many people here had a stack of letters waiting for the delivery to arrive.

"If they could send it once, there's no reason why they can't send it a second time. It's been so long and there's still no news, do you think something happened to boss Lin Yi?" Fatty Lai was worried.

"What are you saying? You jinx!" Everyone glared at him in unison.

"Pei Pei Pei! The bad ones don't work, but the good ones do!" Fatty Lai quickly slapped his own mouth and consoled himself, "With boss Lin Yi's strength, he'd be able to get by anywhere, and everything was fine in the last letter. How could something happen? I think something must've happened to the express delivery, or boss would've sent a letter this morning."

"Aiya! Didn't Lin Yi bro receive the letter we wrote last time?" Ziyu said, surprised.

"Well ..." Everyone tensed up. They didn't reply to the letter, they just sent it out, but they didn't know if it reached Lin Yi.

They thought that Lin Yi would get it, but now that they thought about it, Lin Yi might not have received their letters at all.

"I hope that's not the case. It's a pity that we can't take the initiative to write to Sky Class Island, and the express delivery center can't get any accurate information. The only thing we can do now is wait." Chentian smiled bitterly.

"Lin Yi bro only mentioned Tian Gang and Xue Li in his letter last time, I wonder how the others are doing. Sigh, I'm starting to miss Chen Xi." Ziyu was depressed for once.

Chen Xi had changed her name to Tian Xi and followed Tian Luan and Tian die from the five elements sect to Tian class Island, but from the information in Lin Yi's letter, she probably got separated from Tian Luan after going there. It'd been so long, and she didn't know if she'd managed to meet up with Lin Yi.

"Don't worry, God helps the good. Boss Lin Yi will find them for sure. Maybe he'll knock on your door before you wake up tomorrow morning. " Chentian said.

"Yes." Ziyu nodded heavily and blinked at Chentian."Lonely demon, I didn't know you were so good at comforting people!"

"Lonely fairy?" Everyone was taken aback as they looked at Chentian with weird expressions, "What joke is this?"

"It's ... It's nothing ..." Chentian's face reddened as he waved his hands. He glared at Ziyu, who was covering her mouth and laughing. He didn't even try to comfort her, this girl was too evil!

The crowd was in a mess-they didn't know that Wu Chengtian's words of comfort, which didn't hold much hope, were about to become reality. Ever since ao Tianzhou agreed to help, Lin Yi's heart had been set on going home like an arrow. He couldn't even calm down and cultivate in the sky pill house anymore-he was waiting for news from ao Tianzhou.

While waiting, Lin Yi also wrote letters to han Jingjing in the North Island and Wang Xinyan in the East continent, telling them that he would be going back to the common world for a while. Unfortunately, they weren't in the middle Island, or they could go back together.

Chapter 5012 Preparing To Project

Other than writing to han Jingjing and Wang Xinyan, Lin Yi didn't stay idle these few days. He also raised Tian Gang and Xue Li's strength to peak nascent Soul Stage. As for the xuansheng stage, he would think about it later.

Although Lin Yi could create lightning tribulations for them, the two girls weren't as talented as ning Xuefei. It was better for them to stabilize their strength first before they could try for xuansheng. Besides, the two girls were mainly running the heavenly elixir Pavilion business now. Their peak nascent soul realm was enough for them to stay on the middle Island, not as urgent as ning Xuefei.

Other than that, Lin Yi also made quite a few Tier 6 and 7 pills. A portion of them were for Wei shenjin, and the rest were for the heavenly elixir Pavilion. Although he wouldn't be back for too long, he didn't know how long he would be staying in the secular world. It was better to prepare more pills just in case.

Everything that needed to be prepared was prepared, and everything that needed to be explained was explained. After waiting for a few more days, Lin Yi finally received news from the AO Tian state. Everything was ready, and he could project his essence spirit at any time!

He greeted Tian Gang and Xue Li. Although the projection of the primordial spirit would be taken care of by the AO Tian state this time, there would not be any danger.

But the two girls were still worried, and Lin Yi finally managed to calm them down. In the end, he let the two girls take Wei shenjin to the island owner's Pavilion. After all, it was a projection of the spirit, and the body was left on the Sky Class Island-he needed someone to take care of him.

The two arrived at the pavilion. Ao Tianzhou had personally welcomed them last time, and all the guards recognized Lin Yi. If they didn't even have this level of judgment, how could they survive in the pavilion? If they accidentally provoked some unremarkable Big Shot, they might die.

"Please follow me, young hero Lin. Island master ao Tian is waiting for you at the teleportation Hall." A captain of the guards hurriedly came forward.

"I'll be troubling you. " Lin Yi nodded, but Wei shenjin, who was following behind him, was shocked. This Guard Captain was at least a peak nascent soul realm master, and he probably wasn't a small figure even in the pavilion. His boss was really something, even in the pavilion, he was this popular!

As they arrived at the teleportation Hall, ao Tian Zhou waved at Lin Yi and pointed at a middle-aged man who looked like a manager,"This is the teleportation Hall's steward. I've asked him to tell you about the primordial spirit projection. Although there's no danger in theory, it's better to be prepared for safety."

"Hmm, Island master ao Tian is really thoughtful. Thank you." Lin Yi nodded and turned to the middle-aged man, "Then I'll have to trouble manager sun."

"I wouldn't dare." Manager sun quickly returned the bow. He had some power as the teleportation Hall's manager, but Lin Yi was someone that even the AO Tian state had to be on good terms with. He didn't dare to be arrogant.

"Young hero Lin, please take a look. This is a formation specially used to project primordial spirits." Steward sun pointed to a small round table at the side. It didn't look very impressive, but there were complicated and profound patterns drawn on the ground. Although it was simple, it still gave people a sense of unusual mystery.

"Could this also be a type of teleportation formation?" Lin Yi asked curiously.

"That's not it. Although this is the teleportation Hall where all the teleportation formations of the island Lord's pavilion are gathered, not all formations here are teleportation formations. This primordial spirit projection formation is called the God gathering formation." Steward sun paused for a moment before explaining, "this formation can only be used on the primordial spirit. It can focus a person's primordial spirit into a single point and use this formation as a coordinate. Only in this way can we achieve a projection through the realm."

"World-breaking projection?" Lin Yi's heart skipped a beat as he heard this. "Manager sun, you should be an expert in this field. I've always had a question I don't know if you can help me answer it?"

"Young hero Lin, feel free to ask. I will answer everything I know." Manager sun said courteously.

"I've always been curious-is the distance between the Sky Class Island and the mortal world the only reason they're separated, or are they in two completely different planes? From what you're saying, since it's a world-breaking projection, it should be the latter, right?" Lin Yi asked.

"Realm-breaking projection is just a general statement. I'm not sure about this answer, but both are possible. However, from the function of the God-gathering array, the latter is more likely." Steward sun muttered.

"What do you mean?" Lin Yi said.

"Lin shaoxia also knows that the range of a spirit sense is very limited. Even the strongest master can't use a spirit sense that can cover ten thousand miles. If the mortal world and Sky Class Island are on the same plane, then how far are they from each other?" Manager sun shook his head.

"But if it's two planes away, isn't it even more unattainable?" Lin Yi asked, confused.

"That's not necessarily the case. From what I can see, even though the Sky Class Island and the mortal world are in two different planes, the actual distance isn't that far apart. With the help of the spirit gathering formation, it's possible to project your soul. " Manager sun was a little overwhelmed by Lin Yi's and ao Tianzhou's rapt attention as he spoke,"However, my level is limited, and these are just my assumptions. Maybe after reaching a certain level, my views will be completely different. I'm sorry to make you laugh at my crude and crude ideas."

"You're too kind. Manager sun is indeed an expert in this field. I've learned a lot." Lin Yi said with a smile.

Lin Yi turned to look at ao Tianzhou, only to see him wave his hand with a bitter smile. "Don't ask me about this kind of thing. Although super families have deep foundations and know more things than the outside world, every super family has their own specialty. My aotian family is not involved in these things."

"Well, since this God-gathering array is to focus all of a person's divine sense into one point, I don't know what benefits it has for the world-breaking projection?" Lin Yi asked.

"This isn't hard to understand. If it's just a simple soul projection, anyone with a soul of a certain strength can do it without much difficulty, but if it's about projecting the soul from the sky Island to the mortal world, the resistance is incalculable. A normal soul won't be able to withstand it at all, and it'll be worn down before it's even projected out." Manager sun explained.

"In other words, by focusing all the primordial spirits into one point, it's to reduce the resistance as much as possible?" Lin Yi said, deep in thought.

"Lin shaoxia is indeed intelligent." Manager sun nodded in appreciation and added, ""Of course, just reducing the resistance is not enough. One's primordial spirit must be strong enough. After all, no matter how much the resistance is reduced, it still exists. Ordinary people still can't overcome it. They need to be at least in the nascent Soul Stage to have hope."

Chapter 5013 The Period Of Weakness

"Doesn't that mean that the stronger the primordial spirit, the better?" Lin Yi suddenly thought of that damned thing. In terms of spirit strength, there were very few people on the five Sky Class islands who could compare to it. With his terrifying spirit strength, wasn't it a piece of cake to project into the mortal world? why did he go to all the trouble to find Zhang Liju?

If it was just to find the bloodline of the king of spirit beasts, he could have just projected a primordial spirit body like Nantian Aurora back then. Why would he have to risk his life and end up in such a miserable state?

"That's not it. Although you can say that in theory, the effect of the spirit gathering array is limited. According to our tests, once you exceed the xuansheng stage, it will not be able to effectively gather all of your primordial spirit into one point. Then, you can't do anything." Manager sun shook his head.

"I see." Lin Yi finally realized that the formation was only effective on xuansheng stage cultivators. With that thing's strength, it was impossible.

"Oh right, once the soul is successfully projected into the mortal world, there will only be a thin thread of connection between the soul and the body. How long the soul can stay in the mortal world depends on how long this thread can last. Young hero Lin, you must remember that once the connection is weak, you must immediately remove the soul and come back. Otherwise, the consequences will be unimaginable." Manager sun solemnly warned.

"Understood." Lin Yi nodded. He didn't need to explain the consequences. Once the essence spirit was completely separated from the body, it would quickly die out in the mortal world. Even the ghost was in such a situation, so Lin Yi could imagine what would happen to him.

If that really happened, Lin Yi wouldn't even have the chance to struggle on like the ghost-he'd be dead for sure.

"Island master ao Tian, young hero Lin, this is basically all I know. Because I haven't experienced it personally, I don't know the more specific details. Please forgive me." Manager sun cupped his hands and said.

"It's no big deal. I'm just here to tell Lin shaoxia about the theory of the spirit gathering array. As for the details, I've asked another person. He should know better." Ao Tian Zhou waved his hand and turned to Lin Yi. "I know that Lin shaoxia and Nantian guoru don't get along, but Tianjie island only opens this kind of thing to the secular world once in a few thousand years. He's the only one who can find a guide, and he's the only one who's personally experienced the primordial spirit projection. Lin shaoxia, please bear with it and listen."

"Island master ao Tian, you worry too much. This is a good thing for me. As long as he's willing to tell me, how can I refuse?" Lin Yi said, shaking his head.

"That's good. " Ao Tian Zhou immediately ordered someone to bring southern sky Aurora over.

A moment later, southern sky Aurora came in high spirits. Because of the previous incident, Wu Miao had not mentioned helping him to be the acting Deputy Island master. He was very anxious now. When ao Tian Zhou suddenly sent someone to invite him, his first reaction was that something good had come.

However, when he saw Lin Yi standing beside ao Tianzhou, Nantian Aurora's eyes twitched, and his heart went cold, "Island master ao Tian has sent someone to see me. What instructions do you have for me?"

"Young hero Lin is preparing to project his primordial spirit to the mortal world. Vice Dean Nantian was the guide last time, so I want you to tell young hero Lin the things to pay attention to. Is that okay?" Ao Tian Zhou looked at him and said.

"This ..." Nantian Aurora was, of course, extremely unwilling. Although he didn't have any direct conflict with Lin Yi, they couldn't possibly be in the same boat. Why would he be willing to give Lin Yi advice?

However, now that otakashi was looking at him, he didn't have the guts to refuse. He could only force himself to say, ""Since Island master ao Tian has given his order, there's no problem."

"Alright, then tell me." Ao Tianzhou and Lin Yi looked at each other. With an expert like manager sun here, they didn't have to worry about Nantian Aurora talking nonsense. After all, even if manager sun didn't know the details, he would be able to figure it out after he explained it. If it didn't make sense, manager sun would question it to his face, and Nantian Aurora wouldn't be able to bear the consequences.

Nantian Aurora naturally knew this, and after thinking for a while, he said truthfully, ""I'm sure steward sun has already explained the entire process, but there's nothing else to say. After the primordial spirit is projected over, there's a period of time when one's physical strength will be extremely weak. During this period of weakness, one must be extremely careful. Although there aren't any powerful existences in the secular world, if one's luck is bad, there's still the possibility of one's boat being overturned. "

"Oh? How did Vice Dean Nan Tian respond to that?" Lin Yi asked.

"The place I projected was a remote mountain forest, so I hid there for a month. After I consolidated my strength, I went to the five elements sect to find xuanchen. You know what happened after that." Nantian Aurora Polaris said as he looked at him.

"You can actually stay here for so long?" Lin Yi blinked. He'd thought that he'd only be able to stay for ten days at most, but he didn't expect southern sky Aurora to hide for a month.

Nantian Aurora's face reddened at Lin Yi's disbelieving face-he was clearly being looked down upon by this kid!

If it were any other occasion, even if he didn't fall out on the spot, he would definitely leave in anger. However, with otakashi watching from the side, he could only smile bitterly and explain, ""At that time, I was at the peak of the original level and had already reached the level of half-step xuansheng. In terms of strength, I was also the College's Grand libation, why couldn't I stay for so long? As long as I'm willing, I can stay in the secular world for two months without any problem. "

"Oh." Lin Yi let out a breath of relief. This result was far beyond his expectations, but he was more than happy to stay a little longer, "If it were me, wouldn't I be able to stay in the secular world for a year?"

"How is that possible?" Nantian Aurora scoffed, but quickly covered his mouth when he saw the unfriendly expressions on Lin Yi and ao Tianzhou's faces. He smiled awkwardly, "Young hero Lin, I know you're strong, but don't be angry. Staying for a year is just a thought."

"What do you mean?" Lin Yi asked, not thinking much of it.

"This old man's cultivation method is the formless Divine Art, which can quickly imitate other people's martial arts techniques, so the requirements for spiritual sense are extremely high. Even alchemists of the same level can't compare with this old man. At that time, although I was at the great circle of Yuanying stage, my spiritual sense was already comparable to a xuansheng stage expert, so I was able to stay for so long. If it was an ordinary great circle of Yuanying stage expert, I don't think I could even stay for a month." Nantian Aurora Polaris said proudly.

"Formless Divine Art?" Lin Yi blinked.

Chapter 5014 A Successful Return!

This technique was extremely famous on the Sky Class Island, even he had heard of it. However, for someone like him who had mastered the ultimate killer moves, such as the killing Qi of the five elements, Eight Trigrams, and Thunder burial, the formless divine technique was only something he had

heard of. He would not take it to heart at all, let alone have any coveting thoughts. Showing off in front of him was only asking for ridicule.

"That's right. The phaseless magic that I cultivate is one of the legendary five great magic skills ..."
Nantian Aurora had found a rare opportunity and was ready to show off in front of the AO Tian state.

But Lin Yi interrupted him, "In that case, thank you."

"Ha?" Before southern sky Aurora could react, ao Tianzhou had already ordered, "Someone, send Vice Principal Nan Tian off for me."

"Uh ... I'll take my leave ..." Nantian Aurora Polaris's face turned red. After a long time, he finally squeezed out these words and left resentfully.

"Island master ao Tian, we've understood everything we need to know. Let's start now." Lin Yi couldn't wait.

"Alright," he said. Ao Tian Zhou nodded, then nodded to manager sun.

Lin Yi walked slowly to the center of the formation. Everything was ready, and manager sun finally activated the formation.

In an instant, Lin Yi felt his spirit being pulled out of his body and quickly gathered into one point. It felt like someone was squeezing it to death, and it wasn't a good feeling. Fortunately, the process didn't take long, and he completed the extreme focus in a short time.

From the Ao Tian Zhou's point of view, Lin Yi's glabella looked as if he was about to open his Sky Eye. An extremely glaring light condensed and shot into the sky before disappearing into nothingness, returning to calmness.

"Island Lord, we've succeeded." Manager Sun heaved a sigh of relief.

He was only an early stage xuansheng, but Lin Yi's essence spirit was much stronger than he thought. The spirit gathering formation was showing signs of instability, probably reaching its limit. Fortunately, Lin Yi's essence spirit wasn't stronger than this, or everything would be in vain.

"Alright, then does his physical body need to be left in the formation?" Ao Tian Zhou asked.

"That's not necessary. The soul-gathering array is only used for projection through the realm. Now that it has been successful, his primordial spirit and his physical body are naturally connected by primordial spirit. It doesn't matter where his physical body is, as long as it's not a place that blocks off divine sense." Manager Sun shook his head.

"Island master Ao Tian, if that's the case, let me bring boss's body back to the heavenly elixir Pavilion. It'll be easier for us to take care of him." Wei Shenjin said.

"That's good. If you need anything, you can come to the island owner's Pavilion to find me. Young hero Lin is a friend of my Aotian family. I won't ignore his matters." Ao Tian Zhou instructed.

"Thank you, Island master ao Tian!" Wei shenjin nodded repeatedly.

After Lin Yi's successful projection, Nantian Aurora didn't leave the island owner's Pavilion. Instead, he went to Wu Miao's Hall two and the two went to the famous medicine sect.

Very quickly, Wu Miao, Zheng dongjue, Nantian Aurora, Tong yangchi, and the others gathered together again. Among them was Zheng Dongsheng!

Although Zheng Dongsheng had long said that he would return to the East continent, it was a pity that he could not catch up with ao Tianba's warship. Moreover, the treasure ship that was fixed between the East continent and Nakajima had only left a few days ago. He did not know when the next ship would arrive.

Even if he was a seventh-realm Alchemist with a superior status, this kind of thing was not something that he could go to whenever he wanted. There were only two ways to go from Middle Island to East continent, either by a treasure ship or by an aerial spirit beast.

He couldn't count on the treasured ship for the time being, but flying spirit beasts couldn't either. The East continent was too far away from the other sky-class islands. Unless it was a super powerful bird like the ghost-eyed Golden Eagle, it would be difficult for ordinary flying spirit beasts like spirit birds to cross the two islands.

Of course, there were some evil secret techniques in this world that could burn the life force of flying spirit beasts to achieve the purpose of traveling between the East continent and other sky rank islands.

Unfortunately, Zheng Dongsheng was not an evil master like the West Mountain Almighty. He was just an Alchemist, how could he know such an evil secret technique?

Helplessly, Zheng Dongsheng could only continue to wait in the famous medicine sect. Instead of waiting for the treasure ship to the East continent, he received news that Lin Yi's essence spirit had projected into the mortal world.

"So Lin Yi won't be coming back anytime soon?" Zheng Dongsheng confirmed.

"That's right. Although that kid is only at the early stage of the mysterious Ascension realm, his strength is no small matter. This old man estimates that with the strength of his primordial spirit, he can stay in the secular world for at least four months, or even half a year. Moreover, he came from the secular world, so he shouldn't be returning early unless something unexpected happens. So, there's nothing to worry about during this period of time." Nantian Aurora Polaris nodded.

"It's worth celebrating. This is a rare piece of good news!" Wu Miao said happily.

Because of what happened last time, his position in the island owner's Pavilion was somewhat awkward. Although the managing vice Island owner was the second-in-command, if the AO Tian state did not like him, his power would inevitably shrink greatly.

Now that Lin Yi was gone, Wu Miao had a chance to repair his relationship with ao Tianzhou. After all, the two didn't have a direct conflict, and it was only because of Lin Yi that they were in such an unpleasant situation. They were both people with power, and he believed that ao Tianzhou wouldn't completely break off their relationship with him, the second-in-command, even if it was for the big picture.

Nantian Aurora was overjoyed as well-this was a ray of light at the end of the tunnel! His future was bleak, but now that Lin Yi was gone, Wu Miao's position in the pavilion would be stable, and his acting Vice-Master position would be just around the corner! This was a real bright future!

"That's true. This way, the heavenly elixir Pavilion will be like a group of Dragons without a leader. It will be much easier to deal with them in the future," Zheng Dongsheng sneered.

"Oh? Judging from master Zheng's words, could it be that you're going to change your mind and not return to the East Province?" Wu Miao asked.

"My lair has already been destroyed, so what can I do if I go back now? In any case, I won't be able to survive after I go back, so I might as well just stay in Middle Island and guard the famous medicine sect. I'll think of a way to get rid of the heavenly pill Pavilion first. " Zheng Dongsheng said hatefully. After waiting for a few days, he had calmed down. His hatred had been completely transferred to Lin Yi and the heavenly elixir Pavilion. Since he couldn't deal with Lin Yi for the time being, he would take care of the heavenly elixir Pavilion first to vent his hatred!

"Cousin is right. The famous medicine sect is one of the most important assets of our Zheng family. We must take this opportunity to uproot the heavenly elixir Pavilion. Otherwise, it'll be troublesome if we don't manage to get rid of them in the future." Zheng dongjue agreed.

"Yes, let's celebrate today. At the same time, we need to come up with a plan to uproot the heavenly elixir Pavilion!" Zheng Dongsheng's depression was gone, and he was full of energy again. He was going to get back at the heavenly elixir Pavilion double what he lost to Lin Yi!

Chapter 5015 Elder Jiao Wakes Up

Lin Yi, of course, was completely unaware of all this. His condensed essence spirit was penetrating through a broken space. As fast as it could be, he felt a great resistance at the same time. Every moment he advanced, he felt his essence spirit weaken.

And this was under the premise of minimizing the resistance-if he didn't have the formation to gather his spirit into one point, he wouldn't even be able to last for a second, let alone the projection. His spirit would probably be wiped clean as soon as he entered the broken space.

His spirit traveled through the shattered space for who knew how long, until it was only one-tenth of its original strength. The path ahead finally opened up, and his spirit entered a completely new stable space. Lin Yi was delighted-the spirit projection was a success, right?

In front of him was a vast mountain forest-he didn't know where he was exactly, but his sharp senses told him that he was in the common world.

It wasn't just that-the Qi here wasn't as dense as the Sky Class Island 's, and there wasn't any place on the island with Qi so thin that it was almost non-existent, so this must be the mortal world.

He didn't realize it before, but after experiencing the environment of Sky Class Island for so long, Lin Yi understood why Sky Class Island was isolated from the common world. It was no wonder that all the practitioners in the common world wanted to go to Sky Class Island.

Even a commoner with no background on Sky Class Island would have a much better training environment than the common world. Even the ancient sects that were hidden deep in the dark could only look up to them in the dust.

But a dog wouldn't mind a poor family, even if the mother was ugly. The common world couldn't be compared to Sky Class Island, but it was still his home. This long-lost sense of familiarity was something no place on Sky Class Island could compare to. Even in the North Island, he rarely felt this sense of home, and now he was finally home.

Going home was going home, but Lin Yi wasn't used to his current state. He was like a soul with an unstable form, like a ghost that could be blown away by the wind. He didn't feel safe at all.

This state was too unstable. Lin Yi quickly started to shape his soul into his own. Although the essence of the two was the same, he felt a bit familiar with the physical body after turning into a soul.

Moreover, the primordial spirit was a condensed version of the primordial spirit. To a certain extent, it was a corporeal existence. There were many things that the primordial spirit could not do, but the primordial spirit could. However, this kind of transformation would consume more than half of the spiritual sense. The strength of the primordial spirit was not even one-tenth of its original strength. Now, it was not even one-twentieth.

As he formed his soul, Lin Yi carefully observed his current state. It was just as manager sun said-he could clearly feel the thread of connection between his soul and his body. It was a very subtle feeling, not as far away as he thought it would be. It was unexpectedly close, as if his soul and body weren't that far apart, just separated by a layer of broken space.

If there were people around, they would definitely be stunned by the scene in front of them. A cloud of white fog slowly surged, and a human-shaped outline appeared. The torso, limbs, and head became clear from top to bottom. Even the clothes transformed with it, and in a moment, it became a living person.

Lin Yi didn't find it strange, but when he became a true essence spirit, he was shocked to see a jade pendant hanging on his chest!

"Why would I?" Lin Yi blinked-he'd only conjured clothes, not the Jade at all. After all, the Jade was on the body of the person on Sky Class Island-it was just a normal accessory, and there was no point in doing so.

Lin Yi quickly picked it up, his expression becoming more and more surprised. This was the real Jade, and he brought it here!

But I didn't do anything! Lin Yi remembered all the amazing things about the Jade, and a thought suddenly crossed his mind. Did this thing follow him here of its own accord?

A real jade pendant had actually been projected into the secular world with his primordial spirit. Although this sounded incredible, when he thought about it, which ability of this jade pendant was not incredible?

Lin Yi didn't believe that the Jade didn't have a spirit of its own. If it did, then it wasn't hard to understand why it followed its owner through the portal. The world was full of wonders, and after seeing so much of the world, Lin Yi was used to it.

There weren't any decent practitioners in the common world, but the Jade made things a lot easier for Lin Yi. It was a rare surprise.

Compared to this, Lin Yi was more concerned about the thing inside the Jade. Since the Jade had passed through, the thing should have come with it.

"Senior ghost, we're finally back!" Lin Yi couldn't wait to talk to the ghost. The ghost seemed to have been in closed-door training all this time, but it was rare for him to return to the secular world, so it wasn't too much to disturb him once.

"Yes, you're finally back. Long time no see, little Lin!" A very familiar voice came from the jade pendant.

"Pfft! "Ahem ..." Lin Yi choked when he heard the voice. He couldn't believe it. "Elder Jiao? Why are you here?"

"What are you saying? why can't it be me? don't you miss me?" Elder Jiao said teasingly.

"No, I mean, why are you awake?" Lin Yi sent a thread of his spirit into the Jade space as he spoke, and elder Jiao was back to normal. He wasn't a Phantom anymore.

"This is the common world, not Sky Class Island, so of course I'd wake up." Elder Jiao stretched his body in the Jade space. Lin Yi stayed on Sky Class Island for three years, and he slept for three years as well. It wasn't like his body would rust, but he still felt a little strange.

"That's great!" Lin Yi was overjoyed-elder Jiao was like an elder to him, and it was good to see him return to normal. But on the other side, he froze when he saw the black fog,"Senior ghost, this is ..."

"Don't ask me, I don't know what's going on either. Speaking of which, I'm even more confused than you are. How did you come back, little Lin?" Elder Jiao asked, confused.

"There's a way to project your soul on Sky Class Island. It's not to send your body, but to send your soul to the mortal world. That's how I came here, and I'm only a soul now. I don't know why, but the Jade followed me here as well. I don't understand senior ghost's condition ..." Lin Yi frowned.

Chapter 5016 A Heavenly Dao Expert!

This damned thing didn't look like it was cultivating at all. It was clearly a shadow, just like Jiao yazi on the Sky Class Island. He had entered a dormant state and wouldn't wake up even if he was called.

"That doesn't make sense. I went into hibernation on Sky Class Island because I couldn't connect with the original memory there, but what's going on with him? Did the jade pendant not bring him along?" Elder Jiao asked.

"That's possible. Since senior ghost has been in closed door cultivation, I didn't mention the projection of his primordial spirit to him. I thought that the Jade must've been left on the main body of the Sky Class Island, so it shouldn't have any effect on him. Who knew that the Jade would follow him here on its own? maybe senior ghost really was caught off guard and left behind, leaving only an image behind. " Lin Yi said as he pinched his chin.

This was not impossible. If he wanted to project himself through the realm, he would have to use the God-gathering array, and with the ghost's super-strong primordial spirit, the God-gathering array would have no effect on him at all. It would be strange if he could really follow them. If he was not careful, he would be left behind.

But this was just Lin Yi's own guess-the Jade's power was beyond his imagination, after all, and he didn't know if he'd really brought the thing here. Maybe the thing couldn't take the shock and went into hibernation.

"You'll know the situation after a while, or when you return to Sky Class Island. " Elder Jiao said.

"Yes, that's the only way for now." Lin Yi nodded. He was worried about the ghost, but since elder Jiao had recovered, it meant that they were in the common world. There were still many things to do.

After the yuan spirit body was completely formed, Lin Yi finally felt the feeling of being on solid ground again. He wanted to be able to fly, but he didn't like the feeling of floating around. He couldn't control his body when the wind blew. This wasn't flying, he was a lonely ghost.

After forming his Yuan spirit body, Lin Yi remembered what Nantian Aurora said and his first reaction was to check his strength. But at this time, the Jade suddenly let out an urgent warning sound. There were two people in the forest, one in front and one behind, rushing over in this direction!

"Strange! There's nothing special about this deep mountain forest, but there's actually such a large fluctuation of spiritual Qi. Could it be that some spirit beast has appeared?" The one in the lead was a young man, wearing a strange Daoist robe of unknown sect. Although he looked handsome, his white eyebrows were really out of place with his appearance, which was very strange.

"No way? The spiritual Qi in the secular world is so thin, how could there be any spiritual beasts? even if there are, they would probably degenerate to ordinary wild beasts after staying in this place for a long time. " The man behind him looked much older, like a handsome middle-aged man with a graceful demeanor.

"Brother Fei, there are always exceptions to everything. Although the mortal world is trash, there are always some redeeming qualities. Perhaps some strange place has bred spirit beasts." The White-browed man laughed.

"Brother sun's words are reasonable. However, compared to spirit beasts, I think the possibility of it being a treasure is higher." The man surnamed Fei speculated.

Although treasures of heaven and earth also needed to be nourished by spiritual energy, if the surrounding conditions were suitable, the demand for spiritual energy was not as high as that of spirit beasts. In the cultivation world, it was often said that where there were spirit beasts, there would be treasures of heaven and earth. However, where there were treasures of heaven and earth, there might not be spirit beasts. This was the reason.

"Haha, no matter if it's a heavenly treasure or a spirit beast, since we've come across it, it's our fortune. Brother Fei, we've already agreed that we'll split everything equally. Otherwise, we'll use other resources to exchange for it. We can't have any conflicts over this." The White-browed man laughed.

"Hehe, sun Baimei, Oh sun Baimei, you've been friends with me for more than a year or two. Based on our friendship, do you think you can fall out with me over such a small profit?" Health-maintenance Fei couldn't help laughing.

"Brother Fei is right, then let's take a good look at what kind of treasure is in front of us!" Sun Baimei laughed and sped up, followed by health-maintenance Fei.

Hearing the two getting closer and closer, Lin Yi's first reaction was to run. It was true that his original body was strong enough to fight against an early stage mountain-opening cultivator. In the common world, he was a terrifying existence that could destroy all ancient sects with a finger. But the problem was that he was only an essence spirit right now, and it was just projected over, so he was in his weakest state.

His current strength wasn't even at the peak of the heaven class!

To be honest, even with this strength, he was already invincible in the common world, but these two didn't come with good intentions. Lin Yi's senses told him that these two weren't simple.

He wanted to run, but the soul had just formed and he couldn't get used to it yet. He almost fell on the first step, and even if he got used to it quickly and regained control of his body, how fast could he run in this situation?

In the blink of an eye, sun Baimei and health-maintenance Fei were already in front of them, and they were shocked when they saw Lin Yi. "Why is it a human?"

However, sun Baimei immediately realized that something was wrong, and he shouted in joy, "Something's wrong! This was a primordial spirit! He didn't expect that there would be a primordial spirit with such strong spiritual energy here! This trip to the secular world was not in vain. As long as I can refine it, I have a chance to break through to the Golden core stage!"

"Oh? I almost forgot that Brother sun's cultivation technique is specialized in devouring these spiritual objects. Congratulations!" Health-maintenance Fei was a little regretful. Whether it was a spirit beast or a treasure of heaven and earth, he could have a share. Unfortunately, this was an essence soul that came out of nowhere. It was a priceless treasure to sun Baimei, but it was useless to him.

"Haha, brother Fei, please help me. I'll swallow it now!" Sun Baimei could not wait to make a move.

Lin Yi was shocked again after seeing the two up close. What the hell? How could these two people be Foundation establishment experts? Was this still the mortal world? did he accidentally cast his spell into another plane?

But Lin Yi rejected the thought immediately. He'd have to investigate if elder Jiao hadn't woken up, but since he was awake, this meant that this was the common world. The problem was, since when did the common world have a heavenly Dao practitioner?

It's only been three years, and he was already invincible when he was at the peak of the Sky Class. How did the era change after three years? did something happen? Could it be Central's doing?

Chapter 5017 Intercepted

In that instant, Lin Yi's mind was filled with all sorts of possibilities, but he didn't have the time to think anymore. With his strength not yet at Sky Class full completion, he had no way to fight back against these two, and could only run.

Lin Yi couldn't help but smile bitterly as he recalled Nantian Aurora Polaris 'words. Both of them could hide comfortably for a month to consolidate their strength when their essence spirits were projected into the barren mountains and forests, but he was hunted down before he even had the chance to recover. The difference in treatment was too great.

Of course, if this was Sky Class Island, these two would only be average-one late Foundation and one mid Foundation, and Lin Yi could kill them all with a single slap. But this was the common world, and he wasn't even Sky Class full Masters ... What was he supposed to do?

It was a huge psychological difference, but Lin Yi wasn't a one-track minded person. He didn't care about his pride as a xuansheng master at all-running if he couldn't win was his life motto.

Lin Yi had never seen running away as something embarrassing-it was the same in the common world, and it was the same on Sky Class Island. Where there was life, there was hope-he'd just have to wait until he got stronger to come back. It wasn't too late for revenge, after all.

Sun Baimei panicked as Lin Yi turned around and ran. This was a rare opportunity for him, how could he let it go so easily? he'd be punished by the heavens.

"Where are you running to?" "Run!" Sun Baimei shouted and immediately chased after him. His speed was immediately increased to the extreme. In the eyes of ordinary people, he was like a human cannonball that was extremely fast.

After all, he was a late Foundation Stage practitioner-you wouldn't even see him in the common world. He was giving it his all just to take Lin Yi down, and even the mid Foundation Stage Fei Yangsheng couldn't catch up to him.

Lin Yi, on the other hand, wasn't familiar with the yuan spirit form yet. He was barely able to escape, but the distance between the two of them was now less than a meter!

"Haha, the spiritual objects that I have my eyes on have never escaped. Take them!" As sun Baimei spoke, he suddenly raised his wide sleeve. No one knew what method he used, but there was an extremely shocking suction force coming from his sleeve!

Normal cultivators might be able to resist it, but this huge suction force was extremely effective against primordial spirits. It was at least ten times stronger. To be more precise, this move was specifically used to subdue spiritual objects, especially against primordial spirits and the like.

Lin Yi lost his balance and almost got sucked in, but luckily he reacted fast enough and sent out a lightning strike.

If Lin Yi's true body was strong enough, even a casual lightning strike could kill a nascent Soul Master instantly, let alone sun Baimei, who was only in the late Foundation Stage. Unfortunately, he was now in a weak yuan spirit form, and the power of the lightning was pitifully weak-it was only a faint light blue arc.

However, although the power was not great, it came so suddenly that sun Baimei was hit directly before he could react. His body suddenly became numb, and a flaw appeared in his movement.

Lin Yi took the chance to escape from the suction force on his sleeve and ran for his life.

In fact, with Lin Yi's personality, if it was just sun Baimei alone, he might try to counter-kill him. Although he was weak now, he had a lot of experience in fighting, and he had a lot of hidden cards up his sleeve. It wasn't impossible for him to counter-kill a late Foundation Stage master.

Unfortunately, sun Baimei wasn't alone-he had Fei Yangwei chasing after him. Lin Yi was having trouble dealing with one of them, and he'd be screwed if he got pincered by two of them. He was an early stage mountain-opening master, and yet he died at the hands of a mere Foundation Stage practitioner. He couldn't rest in peace just thinking about it.

"Brother Sun, are you alright?" Health-maintenance Fei caught up and asked.

"I'm fine. I don't know why I felt numb just now, but I didn't show any signs of injury. It should be just a little trick of this origin soul. It seems I need brother Fei's help this time. I'll definitely thank you later!" Sun Baimei said with determination.

"Alright!" Health-maintenance Fei nodded and chased after Lin Yi with all his might.

Sun Baimei, who was even faster, changed direction. From the encounter just now, he knew that this primordial spirit wasn't fast, so he could completely surround it and block it. Then, he and Fei Liangyang would attack it from the front and back, and it would have nowhere to run!

Through His Spirit sense, Lin Yi could see their movements clearly, but he couldn't do anything about it. It was an open scheme, and as long as he was slower than sun Baimei, he would be surrounded sooner or later.

The only good news was that he'd gotten used to the yuan spirit after that short period of exercise. His movements were getting smoother and smoother, and his movement speed was recovering bit by bit. The problem was that it wasn't fast enough, though. If this continued, he might really end up failing!

He couldn't keep going like this, but he couldn't just stop like this-he'd die even faster if he did. He had to keep running if he wanted to live.

In fact, other than running, Lin Yi had another option, which was to remove his essence spirit before he was blocked by the enemy. This way, he would become a shapeless essence spirit, and he could float in the air and escape. He could even cancel this trip and escape back to Tianjie Island through the connection of the essence spirit.

However, if he did that, then the essence spirit projection would be meaningless. Lin Yi wouldn't do it unless he had no other choice.

And even if he didn't go back to Sky Class Island, every time his essence spirit switched forms, it would consume a lot of his essence spirit. With his essence Spirit's strength, he could stay for half a year, but if he had to go back and forth like this, he might not even be able to stay for a month.

It was a dangerous situation, but it wasn't that desperate yet. Lin Yi's eyes flashed-he was caught off guard this time, but he was completely pumped up now. Even the Sky Class Island with all the Masters couldn't stop him, and he was forced into a corner after returning to the common world-was that even possible?!

A moment later, Lin Yi's speed was getting faster and faster, but he was still blocked by sun Baimei. He raised his hand and used the same technique he used just now, laughing proudly, "Let's see where you can escape to this time!"

At the same time, health-maintenance Fei was right behind him-he wouldn't be polite if Lin Yi turned around now.

Chapter 5018 Small County

Unsurprisingly, Lin Yi was in a dilemma, but he wasn't flustered. He dodged to the side and threw out a small bomb!

This was the ultimate move that he had worked hard to come up with along the way. As for the more powerful ultimate moves such as Thunder burial, he couldn't use them at all in his current state. However, even if it was just a small alchemy fire true Qi bomb, it was enough to give sun Baimei and Fei liangwei a good time if they were caught off guard.

Sure enough, sun Baimei and health-maintenance Fei didn't even have the chance to react before they were blown away. When they stood up, their faces were covered in blood, and they were in a miserable state.

"Wayayaya! I'm so angry!" Sun Baimei was so angry that he stomped his feet and cursed. The injury was not the most important thing. After all, neither he nor health-maintenance Fei were too close to him. At this moment, he only looked a little worse off, and his real injury was not too serious. The most important thing was that the cooked duck had flown away after being taken out of the pot. How could he not be anxious?!

He cursed as he gritted his teeth and chased after Lin Yi. This time, sun Baimei and health-maintenance Fei were really going all out-they'd used all their trump cards to stop Lin Yi, no matter the cost.

However, what surprised the two was that even at their maximum speed, they couldn't catch up to Lin Yi. Instead, they watched as Lin Yi got further and further away, disappearing without a trace in just a few moments.

"This ... This can't be a ghost, right?" Health-maintenance Fei's mouth was so wide that a duck egg could be stuffed in it.

"See my ass!" Sun Baimei cursed and said unwillingly, "However, this primordial spirit is unexpectedly strong. Not only can it maintain its human form, but it also has so many endless means. It's a pity that it escaped. Otherwise, there would really be hope for me to break through to the Golden core realm!"

"Are we still going to chase them?" Health-maintenance Fei asked.

"Let's try chasing after them. If we're lucky, we might be able to catch up!" Sun Baimei was still hoping for a fluke. Anyway, it was impossible for him to give up just like that. It was not easy for him to encounter such a powerful primordial spirit. If he could capture one of its limbs, it would be equivalent to a hundred years of hard cultivation. It would be worth it no matter how much time he spent on this.

He had already made up his mind. He could do nothing else during this experience in the secular world, but he had to get his hands on this primordial spirit no matter what!

As the two were talking, Lin Yi had already escaped dozens of miles away. He took advantage of the aftermath of the explosion and used the Qi spraying technique. His speed was raised to the maximum in an instant, and as he became more familiar with the primordial spirit form, his speed didn't slow down, but instead increased.

Lin Yi even felt that his speed was even faster than when he was on Sky Class Island-was it because his Yuan spirit was lighter?

It wasn't easy for him to get rid of sun Baimei and Fei Liangyang, and when he slowed down, he was already at the edge of the forest, a small county town not far away.

Lin Yi hesitated-he was in a weakened state right now, and it'd be best for him to consolidate his strength in a place where no one would disturb him, but he couldn't stay in the forest any longer-who knew if he'd run into those two again? In comparison, it was safer to go to a small county. Since he couldn't hide in the forest, he would go to the city.

He walked along a road that wasn't too wide for twenty minutes and entered the city. There were more people and cars around him, and he felt like he was in a different world as he looked at the busy city.

Three years ... He'd only been away for three years-he'd probably just gone to study abroad in the secular world, and wouldn't feel much. But he'd gone to the completely isolated Sky Class Island, and it was unknown if he'd even come back. Too many things had happened in the past three years, and it was inevitable that things would change.

"Phew, I'm finally back," Lin Yi stretched lazily, feeling much better. He wasn't as nervous as he was when he was being hunted down. Instead, he felt like he was back home.

Unfortunately, this was not West Star Mountain, nor was it Eastern Sea city. It was just a small, unknown County.

Di di di! A sharp horn sounded behind him as an Electric Tricycle stopped behind him. A middle-aged man stuck his head out, "Where are we going?"

"What?" It'd been too long since he'd left the common world, and Lin Yi didn't know how to react.

"I said, where are we going? Are you going to get in the car or not?" The middle-aged man frowned as he held the low-quality cigarette in his mouth.

Lin Yi finally realized that it was a three-wheeled motorcycle. He quickly shook his head. "I'm not going anywhere. "

"Then why did you randomly wave your hand? Did you have nothing better to do? What a waste of time!" The middle-aged man cursed and sped away in an instant. The three-wheeled motorcycle dodged and moved among the traffic and people, disappearing without a trace in the blink of an eye. It was a display of superb skill.

Lin Yi was dumbfounded, and only shrugged with a bitter smile after a while. This was the world he was familiar with.

He looked around. Although this County was not as developed as Eastern Sea city, it was not too bad in the downtown area. There were people and cars coming and going, and both sides of the street were filled with all kinds of shops. The only difference was that there were not as many high-rise buildings as in big cities, so the environment was a little messy.

Lin Yi couldn't afford to waste any more time thinking about the two people chasing him. He needed to find a place to rest. It was a busy city, but if the two didn't give up, he'd still be discovered.

He was now in the primordial spirit form, and his body had already materialized to a certain extent. Therefore, in the eyes of ordinary people, he was no different from ordinary people. He could do what ordinary people could do, but this was not safe.

In the end, he was still a primordial spirit. In the eyes of people like sun Baimei who specialized in this kind of cultivation technique, he was naturally a big light bulb. Even if he mixed in with the crowd, he would be recognized at a glance. He had to find a safe place to hide first.

Lin Yi looked around and found a remote corner of a Park to recover his Qi. He'd used up almost all of his Qi just now, and it'd be a big problem if he didn't have the Jade with him. It'd take at least ten days to half a month to recover.

With the Jade space's help, Lin Yi recovered very quickly, but he still felt very weak. He was like a patient who had just recovered from a serious illness, and although the Jade space could provide him with an endless supply of medicine, his body couldn't take it. It wouldn't be a day for him to fully recover.

Chapter 5019 Renting A House

"Sky Class late phase ..." Lin Yi was speechless at his current strength. He'd worked so hard for so many years, and now he was back to how he was before. He didn't know what to say.

Sighing, Lin Yi got up and walked out of the corner of the park. There weren't many people here, but there were couples coming in from time to time, and he could even see some unsightly scenes if he wasn't careful. Lin Yi wasn't a pervert who liked to invade other people's privacy, so he decided to give up his position.

Lin Yi walked to the entrance of the park, and saw people shopping at the convenience store. He suddenly remembered something-this was the common world, and no one knew anything about high-end stuff like spirit Jade. They used paper money to do whatever they wanted, and it was hard to move around without money.

Lin Yi quickly checked the Jade, remembering that Wu Chengtian had put some cash in when he was preparing the stuff for him. It seemed unnecessary at first, but it came in handy now.

Lin Yi searched for a while and found a stack of cash in a pile of stuff. It was ten thousand Yuan, no more and no less.

"10000 Yuan is not enough." Lin Yi shook his head with a sigh and put the ten thousand into his pocket. He'd chosen to wear the clothes of the common world when he first formed his soul-people would think he was in a movie if he wore the Sky Class Island outfit.

Ten thousand was actually quite a lot-it was more than enough for him to go to Donghai city and find song Lingshan and Wu Chentian, but Lin Yi didn't have that plan at the moment. He just wanted to find a safe place to recover his strength and figure out a way to investigate the background of those two Tiandao Masters. He wouldn't feel at ease if he didn 't.

However, in this way, a mere 10000 Yuan seemed to be a bit stretched. If he found a slightly better hotel, he estimated that he wouldn't be able to squander for long. However, this was a small county. If he found an ordinary hotel, the environment would definitely not be good. How could he cultivate in peace like this?

After some thought, Lin Yi decided that the best option right now was to rent a place-it didn't have to be for too long, after all, and a month should be enough. Even the best suite wouldn't cost more than five thousand in a small county like this, and he'd still have some cash left even with the deposit.

After making up his mind, Lin Yi started looking for a real estate agent on the street. Although it was said that real estate agents weren't reliable, Lin Yi was only renting it for a month as an emergency, not for three to five years.

As long as the condition of the house was acceptable, it did not have to be to his liking. Besides, he did not have the time to visit each house one by one. At least it would save time and effort to find a rental agent. At most, he would only be blackmailed for some money.

There weren't as many real estate agents in small county cities as there were in big cities, but it wasn't difficult to find them. Besides, this was the downtown area. You should be able to find them as long as you walked around the streets. Of course, if you were unlucky, you would have to turn a few more streets.

Lin Yi hadn't even taken a few steps when someone pulled him back-he'd probably have missed if he'd made his Body Solid on purpose.

"What is it?" Lin Yi turned to look at the man-he was an old man, dressed in plain clothes, with a small container of vegetables beside him. He looked like an old farmer from the countryside.

In addition to the old man, there was also a young man with an unfriendly expression beside him. He had a crew cut and was grabbing the old man's clothes. The two of them seemed to be in an argument.

"Young man, why don't you be the judge for this old man? I clearly found this lottery ticket at my stall, but this man insisted that he lost it. He didn't buy my food at all. How can that be possible?" The old man said angrily.

"Bullshit! I dropped it when I was taking out my money, and it ended up in his hands the moment I turned my head. This isn't picking it up, it's robbing!" The crewcut guy said angrily.

"What lottery?" Lin Yi blinked-the old man was indeed holding a lottery ticket."Won a prize?"

"Here, this is the one. I don't know if I've won the lottery or not. The world is so ridiculous now. They're even snatching the lottery ticket from my hand. Is there any justice in this world?" The old man waved the lottery ticket in front of Lin Yi's eyes before hiding it like a treasure, afraid that the guy with the crew cut would take it.

"Yo, yo, yo, old man, you're quite good at acting. If you didn't win, why would you hide it like a treasure?" The guy laughed coldly and turned to Lin Yi. "Brother, don't be fooled by this old man. He's so sneaky. He clearly won ten third-place prizes. One bet is 3000 dollars, so ten bets are 30000 dollars!"

"So what if it's thirty thousand? What does it have to do with you? this lottery ticket isn't yours. I picked it up, so of course it's mine!" The old man straightened his neck and said.

"Oh, old man, don't be ungrateful. You're just a country bumpkin, and you dare to come to the county to be unreasonable? I'm telling you, this lottery ticket is mine. You snatched it from my hands. You're committing a crime, you know!" The little guy grabbed the old man's collar and said.

"Young man, you heard what happened. Please help this old man say something fair. Don't you think this lottery ticket should be mine?" The old man ignored the guy and insisted on asking Lin Yi.

"That's right. It's only the two of us who can't win this. Bro, you decide who this lottery ticket should go to!" The crew cut guy said.

Lin Yi looked at the two and said faintly, "I didn't see what happened with my own eyes. I only heard you two talk a little. However, since the public is right and the woman is right, why don't you just call the police and let them give you justice?"

"Call the police? I just picked up a lottery ticket from my stall, is there a need to call the police?" The old man was shocked.

"That's right. There's no need to trouble the police for such a small matter. I think it's better to settle it privately." The crew-cut guy's face also changed.

"Since you've decided to settle this privately, then you two can talk it out among yourselves." Lin Yi didn't want to get involved-it wasn't something that could be explained clearly, after all, and the two had to talk it out.

"This ..." The crewcut guy hesitated for a moment, and finally said to the old man in a tone that was willing to suffer a loss, ""This brother is right. We can't keep fighting like this. How about this? we'll split it equally!"

Chapter 5020 Meeting A Liar On The Road

"We'll split it equally just because you say so?" The old man was still unwilling.

"Then there's nothing more to say. Call the police." The crew cut guy immediately took out his phone and said.

"Don 't!" Perhaps the old man was afraid of trouble, or perhaps he knew he was in the wrong, so he quickly reached out to stop him. Although he was unwilling, he still said reluctantly, ""Half it is then. Give me the money and I'll give you the lottery ticket."

"Look, here's five thousand. Give me the lottery ticket." The man with the crew cut reached into his pocket and took out a stack of money. He looked ordinary and was not wearing any famous brands, but it was a little surprising that he had so much money with him.

"Five thousand?" The old man was stunned when he saw the amount of money. He might not even be able to earn that much money in a year with his small bags. However, he quickly realized that something was wrong and shouted, ""You just said 30000, why are you only giving me 5000? You're bullying me because I'm uneducated. If you want the lottery ticket, give me 15000!"

"Fifteen thousand? You look like an honest old man, but I didn't expect you to be so black-hearted, asking for 15000 Yuan. You must be crazy for money!" Little Flathead was about to hit someone.

The old man quickly hid behind Lin Yi and shouted, "Young man, you saw it. He said we were going to split it evenly. He gave me five thousand for a thirty thousand lottery ticket. He's bullying me because I don't know how to count!"

"Bullshit! Do you understand that there's a tax on the lottery? after deducting 20% of the personal income tax, you'll only have 24000 left, do you understand?" Little Flathead could not hit the old man at the moment, so he could only be patient and angry.

"24000?" The old man was stunned for a moment, and after thinking for a long time, he shouted, ""But you can't just give me 5000, right? young man, help me calculate, how much is half of 24000?"

"12000." Lin Yi said without changing his expression.

"That's right, 12000 Yuan. Look, even this young man said 12000 Yuan. You still want to lie to me?" The old man was so angry that his face turned red.

"Okay, if you say so, then you can give me 12000 and this lottery ticket is yours. How about that, old man?" The crew cut guy said.

"I'm just a farmer who sells vegetables. How can I have so much money?" The old man couldn't help but feel a little embarrassed. He looked at little Flathead and said, ""I see that you have quite a lot of money on you. As long as you give me 12000, this lottery ticket is yours."

"In your dreams. Why should I be the one to receive the award? it's such a troublesome thing. Let an old man like you take advantage of it. I'm telling you, I only have 5000 Yuan here. I don't have a single cent more. Just tell me if you want it or not!" The buzzcut guy said in a tough tone.

"No, I'm already at a disadvantage splitting it with you. Now, 12000 has become 5000. Do you really think I'm easy to fool?" The old man said through gritted teeth.

"Alright, I'll call the police now. Old man, don't even think about getting five thousand!" The crew-cut guy pretended to pick up his phone again.

"You!" The old man immediately became angry and anxious. He quickly stopped him and said, ""Fine, I'll take a step back. I don't want 12000. As long as you give me 10000, the lottery ticket will be yours. Is that okay?"

"I've told you, I only have 5000 Yuan with me, not a single cent more. If you can give me 10000 Yuan, I have no problem with it! No, as a young man, I should be more magnanimous. I don't even need 10000. As long as you give me 5000, this lottery ticket will be yours. What do you think about it? You don't have anything to say about this, do you?" The little guy sneered.

The old man seemed to be a little moved, but he still said awkwardly, ""I don't have 5000 either!"

"Then what's there to say? since you can't give me five thousand, then I'll give you five thousand. The lottery is mine, or I'll call the police. Old man, it's your choice!" The little guy said as he reached out to grab the lottery ticket again.

The old man quickly hid behind Lin Yi again, "Only five thousand? I'd rather give it to someone else. Young man, as long as you give me five thousand, I'll give you this lottery ticket. Anyway, I can't let this little hooligan take advantage of anyone!"

"Who are you calling a little hooligan?" Flathead panicked and wanted to pounce at Lin Yi again, but the old man was extremely agile this time. He dodged around Lin Yi, and the two of them surrounded Lin Yi, making it impossible for him to escape.

Seeing the fight, the people passing by all gathered around, and the crewcut guy stopped when he saw that things weren't looking good. He quickly pulled Lin Yi and the old man to a corner of the street and lowered his voice, "Forget it, forget it. I'll just admit that I'm unlucky today, but I don't want to let this old man get away with it! How about this, brother, you give me 5000 and this old man another 5000, and I'll let you have this cheap deal. Old man, you don't have any objections, right?"

"Yes, yes, I can see that you're a good man. It's better to give it to a good man like you than to give it to a hooligan like him. As long as you give me 5000 Yuan, the lottery ticket is yours!" The old man said.

"Really?" Lin Yi was a little hesitant.

"Of course it's true. If you give us five thousand each, we can get twenty-four thousand with this lottery ticket. There's nothing cheaper than this in the world, right? It's just that I didn't bring that much money. If I had brought 10000, you wouldn't have had the chance to take advantage of me!" The man with the crew cut teased.

"But How do I know if I really won the lottery?" Lin Yi's face was still alert.

"That's easy. Just look at the lottery numbers and dates. You can just check it on your phone. How can you lie about this? Here, take a look. " Buzzcut found the official website of the welfare lottery on his phone and showed Lin Yi the current announcement.

Lin Yi went over to take a closer look and said in a surprised tone, "It really is the third prize!"

"You see, this kind of thing can't be lied to. Bro, do you want it? If you don't want it, I'll find someone else. If I take out 10000, I can get 24000. As long as I shout, there will be people who will come to fight for it. I just thought that you're not bad, so I gave it to you. " The little guy took two steps forward as he spoke, as if he was about to walk out of the alley.

"Young man, I know you're a good person. Just take advantage of me. It doesn't matter who takes advantage of me anyway. I might as well give it to you. You're pleasing to my eyes." The old man also advised.

The two exchanged a few words-one was trying to persuade him while the other was playing hard to get-before Lin Yi finally relented. He carefully took out the ten thousand from his pocket and split it into two stacks, handing them to the two."Give me the lottery tickets. You two better count them carefully. Five thousand each, and the lottery tickets will have nothing to do with you."

"It's okay, it's okay. If this little hooligan causes trouble or acts shamelessly, this old man will testify for you!" The old man took the money excitedly and nodded repeatedly.
