

Bodyguard 5041

Chapter 5041 Searching For The Spiritual Jade

As he sighed, Lin Yi felt a little guilty. He always felt that he'd attracted too many love debts, and it was really unfair to Chu Mengyao and the others.

However, after three years on Sky Class Island, his strength had skyrocketed, and his perception had also changed. After all, no matter how he looked at it, he was no longer an ordinary person of the secular world. His level of understanding and perspective had changed as well. It was not scientific to forcibly maintain the values of an ordinary person, and it was out of place in his environment.

Back in the days of the common world, having multiple girlfriends at the same time was shocking, but on Sky Class Island, strength was everything. Having multiple wives like Zhang Liju wasn't a stain at all, and people would only look up to him and talk about him with relish, never saying anything wrong.

It was a change in mindset, after all. Lin Yi was a typical secular man, and he always thought that monogamy was the fairest and most reasonable, but now that time had passed, he didn't think it was a big deal anymore. Love between a man and a woman was something that happened naturally, and there was no need to force it.

Training wasn't just about strength, it was about the heart as well. The Dao was naturally as kind as water, and the higher the level, the more open-minded people were-the less obsessions they had. Lin Yi's change in perspective was a transformation as well.

Not only Zhang Liju, but even Shangguan Tianhua, who he respected, had more than one wife. It was also because he had accepted Huang xiaotao, ning Xuefei, and Huo yudie, that he would naturally accept these women and pursue could like he was doing now.

Putting aside the fact that he wanted to get information, Leng Leng was a girl who made people want to love her. It was a good thing to be with a Fair Lady, and Lin Yi would be lying to himself if he said he didn't have the urge to do that.

Lin Yi's heart was strange, but Leng Leng, who was almost leaning against him, felt the same way. With her cold personality, she wouldn't let people get this close to her, but for some reason, she didn't reject this kind of intimate action. It was the same when they were on the bus.

In fact, she even felt that this feeling was a little warm and sweet. She secretly glanced at the young couple who were also playing on their mobile phones not far away, and her face blushed.

Lin Yi quickly noticed the change and looked at her in surprise. This cold girl seemed to be quite open-minded once they got to know each other. Was she the typical cold on the outside but warm on the inside?

The two of them were too close to each other, and she could clearly feel Lin Yi's breath when he turned his head around. Leng Leng finally felt embarrassed, and she took a step back.

"What's wrong?" Lin Yi pretended to be confused.

"N-nothing. Let's go to the Jade Market. We'll talk about the phone later." Leng Leng's expression was a little awkward. Although she did not reject this kind of intimate but not excessive contact, she still felt a little shy in her heart.

The point was that she knew that it was impossible for her to be with Lin Yi, and she didn't want to give him the wrong impression. It was impossible, but she gave him hope, and then she had to kill him with her own hands.

"Alright," he said. Lin Yi felt that it was a pity, but things like this couldn't be rushed. It was already a rare breakthrough to have such intimate contact today-he'd be surprised if they just went one step further, but it was fine like this.

The two of them immediately went to the Jade Market. Although it was called a Jade Market, it actually did not just sell all kinds of Jade. At the same time, it also sold all kinds of gold and silver jewelry, and even some antiques, calligraphy and paintings. To be precise, this was a jewelry Street.

After all, XI MA city was only a small county-level city. It was not like a big city like Eastern Sea city, where there were commercial circles and shopping malls everywhere. You could buy almost everything you wanted in each commercial circle. All the jewelry, Jade, antiques, calligraphy, and paintings were gathered on the same street, because that was the only way to attract enough people.

"I really couldn't tell that a small city like XI MA would have a jewelry Street of this scale. There are many shops selling Jade and antiques. It's the right decision to come here today." Lin Yi stood at the entrance of the street, surprised.

Nowadays in the secular world, even the smallest city would have all kinds of jewelry stores, but there were not many Jade and antique businesses. Not every small city had them, and looking at the scale of xima, it was almost comparable to some big cities. It could be seen that the commercial atmosphere here was very strong, which was rare.

"Yes, there's really a lot of them." Coold said in surprise. At least, there was no such lively jewelry market in the ancient martial arts world. She did not have much hope of finding spiritual Jade today because the probability was very low. However, there were so many stalls here. If she was lucky, she might really be able to find some!

The two went with the flow and started walking around the street. Lin Yi was walking around blindly because he knew that there wouldn't be anything good in this place. Spirit jades were even more impossible, but Leng Leng took it seriously. She thought that if Lin Yi could find Supreme-grade spirit jades by luck, then there would be two. Of course, he had to look for them one by one.

Of course, she didn't even take a look at gold or silver jewelry. She only looked at jade artifacts. She couldn't wait to hold each piece in her hand and feel it, because only then could she accurately judge whether there was spiritual energy.

However, her actions were a little too strange. Who would take all the Jade from a stall and not buy a single piece?

Although the owners were surprised, they were still doing business and coold was a rare beauty. There was no loss for her to be touched, so they just pinched their noses and accepted it. However, their expressions were a little strange.

Leng Leng didn't care about these people's reactions, but she was worried that Lin Yi would get suspicious as well. Although there were many loopholes before, she was a bystander and thought that Lin Yi didn't notice anything wrong.

She was going to look for the spiritual Jade carefully, but if this continued, Lin Yi would definitely ask her what she was looking for. How was she going to fool him then?

Lin Yi suggested suddenly, "The Jade you're looking for is similar to the one I gave you before, right? This jewelry Street is too big, and if we go one by one, we don't know how long it'll take. Why don't we split up? it'll be faster this way, and we can have lunch on time later. What do you think?"

"Alright," he said. Of course, it was exactly what Leng Leng wanted. The two of them immediately went their separate ways, and Leng Leng continued to Search Shop by shop. In the end, she turned from the end of the street to the end but found nothing. There were many jade artifacts here, but none of them contained spirit Qi. They were not even close to spirit Jade.

Chapter 5042-No Objections

Leng Leng was extremely disappointed when she saw Lin Yi walking towards her, "How is it? Is there anything that you'd like?"

"No, I didn 't," Could shook her head helplessly.

"I found a piece of Jade here. It feels similar to the previous one. Take a look." A Jade appeared in Lin Yi's hand.

"Really?" Leng Leng was instantly taken aback. She immediately took the piece of Jade and sensed it carefully. As expected, the spiritual energy inside was extremely rich. It was another Supreme-grade spiritual Jade!

The way she looked at Lin Yi changed-what kind of luck was this guy having? He had spent so much effort to search for it, but to no avail. In the end, he had found Supreme-grade spiritual Jade so easily. He already had one before, and now he had another one. His luck was too heaven-defying. People really could not be compared!

"Where did you buy this piece of Jade? Is there any more?" Leng Leng asked hurriedly. She would never let go of such a Supreme-grade spirit Jade even if she was not injured and had to use it to replenish her spiritual energy.

"Of course not. I'm very picky when it comes to Jade. Pure jade with this kind of luster is not easy to find. I'm already very lucky to find one." Lin Yi said, shaking his head.

"Luster? This Jade has a luster?" Leng Leng could not help but feel a little strange. She had always picked a Jade based on whether it was full of spiritual energy. She had never looked at it by accident, let alone carefully distinguish its luster.

"Of course, the luster is one of the most important factors when choosing a Jade. Don't you look at it?" Lin Yi asked, surprised.

"Uh, I don't know much about this." Leng Leng shook her head, not knowing what was going on. Although there was only one stone, she was still very happy. This way, she did not have to worry about the lack of spiritual energy. The stone in her heart was finally lifted. She immediately asked, "This Jade must be very expensive. How much did you buy it for? I'll think of a way to give it to you."

"Look at what you're saying. With our relationship, why would we need money? let alone a mere piece of Jade, even if you want something more valuable, I'll get it for you without a second word." Lin Yi said, deciding.

"Really? Everything will do?" He looked at him coldly with deep meaning.

"Of course." Lin Yi nodded.

"If it was something that was useful to you, or something that was of great use to you, would you still be willing to give it to me?" She asked coldly. She thought that Lin Yi didn't know the value of these two pieces of Supreme-grade spiritual Jade at all, and didn't even know what they were for. He thought that they were just ordinary Jade decorations, and that was why he gave them to her without hesitation. If it were something else that was very important to him, he wouldn't give it to her so easily.

Leng Leng thought that Lin Yi would hesitate for a while after asking such a difficult question, but he nodded firmly without even thinking, "I'm willing to. "

Not to mention the fact that he was pursuing cold now, he had even given Qin Yue the Thunder profound pill without hesitation when he was on the verge of entering the Thunder tribulation point to attack Xuansheng back at the Thunder plain Island. One must know that Qin Yue was not even a friend to him, just a passerby with some relationship.

Lin Yi had never been a stingy person. As long as it was something good, as long as it was good for the people around him, he wouldn't hesitate to share it with everyone. It didn't matter if it was a friend or a follower, as long as he could trust them, they were the same as his soulmate. He wouldn't hide anything from them.

At this rate, Leng Leng might even become his soulmate. Naturally, he would not be stingy with Leng Leng. No matter what she wanted, as long as she really needed it, he would definitely find a way to get it for her even if he did not have it on hand at the moment. There was no doubt about that.

Hearing this answer, Leng Leng looked at Lin Yi's serious expression and fell into silence. She was touched. She couldn't be sure if Lin Yi was just saying it or if he really meant it, but from their previous interactions, she believed that it was most likely the latter.

As far as she was concerned, Lin Yi wasn't the kind of person who would lose his principles just to win a girl's heart. Leng Leng didn't have much experience in the martial world, and she couldn't say that she had the ability to see people, but she could use her heart to feel it. At least she didn't feel any malice from Lin Yi, or she wouldn't have let Lin Yi do those intimate actions today.

Looking at Leng Leng's expression, Lin Yi suddenly understood what this cold girl really cared about. The reason why she was so cold and guarded, always rejecting people was because she lacked a sense of security. This girl who was cold on the outside but warm on the inside was actually very afraid of being lied to, and was even more afraid that she'd be played with for no reason if she gave her feelings rashly, and end up with bad results.

"Actually, there's an unspoken rule these days. If a man and a woman break up, the man leaves the marriage with nothing in most cases." Lin Yi smiled after some thought.

"Cleansing?" Coold was stunned when she heard that. She could not help but ask with a strange expression, "Why do you want to be clean? If it's just to punish a man's mistake, isn't this rule a little too cruel?"

"Uh, you misunderstood what I meant. I mean leaving the marriage with nothing. I mean that the man doesn't want anything after breaking up and all his assets will be left to the woman." Lin Yi explained, not sure if he should laugh or cry.

Of course, he only said those words to comfort Leng Leng, so he only chose to say the nice things. He did not mention that although there were many men in this world who left their marriage with nothing, there were also many scumbags who wanted a ring after breaking up. They would still provide for the people, and this had always been the way of the world.

"Oh, I see." Leng Leng's face was also slightly red, but she still asked curiously, "Since you've already broken up, why do you still leave everything to the woman? are all men crazy?"

In the small ancient pugilistic world where she was from, once a man and a woman fell out, they would often fight over things. They would want to take back everything from the other party. This kind of example was not uncommon, and she had never heard of a man who would be so generous and leave everything to the woman even though they had already gone their separate ways.

"I can't say that he's crazy, but it's a popular social trend nowadays. At least it's better than falling out with each other and fighting for the inheritance. Men should be more responsible for women." Lin Yi continued to pick the good ones, but he was feeling a little emotional.

Speaking of responsibility, what he had done for his female friends was far from enough. He wasn't a scumbag, but he wasn't responsible for anything. In comparison, his female friends had done more for him. He had to make it up to Mengyao and the others after they woke up.

Chapter 5043 Our Origins

"Is that so?" Leng Leng nodded, not entirely convinced. It wasn't that she was suspicious of Lin Yi, but she didn't think that she would believe him so easily. Were all men in the secular world that enlightened?

As the two of them were talking, they saw a man and a woman quarreling next to them. From the content of their quarrel, they were not only arguing about divorce but also about the division of property.

Lin Yi's face darkened-he'd just put a little bit of gold on this guy's face, and now this jerk was coming out to ruin it! He wasn't the type to lie, and it was obvious that even the heavens couldn't stand this!

Leng Leng's face darkened as expected-their relationship had reached a breaking point after a day of interaction, and they were only one step away from going further. Leng Leng always kept people away from her, but when she looked at Lin Yi, there was an indescribable warmth in her eyes.

But now that he'd done this, the good impression he'd tried so hard to create crumbled instantly. The cold eyes weren't looking at him as if he didn't want strangers to get close, but it was impossible for him to take the opportunity to improve.

"Well, there are exceptions to everything. No matter how pure a place is, there will always be scum. Please don't misunderstand, I'm not the same kind of person as this scumbag." Lin Yi quickly added.

"Oh." Leng Leng nodded, and Lin Yi couldn't help but feel nervous-did she believe him or not?

The two of them were silent for a moment before coldly saying, ""Actually, you don't have to explain all this to me. I've already said it before, you and I are not the same kind of people. The two of us can never be together. Even if I really agree to your request, it's definitely not a good thing for you. It will only bring you a fatal disaster."

"It's that serious? Don't tell me you're a Runaway Bride from some big family?" Lin Yi said on purpose.

Leng Leng was speechless, but she still said, ""You can think of it that way. We can't be together anyway. I'm not lying to you. My level is really different from what you think. It can kill me."

"Hehe, we've known each other for so long. Do you still think I'm an ordinary person?" Lin Yi said suddenly, his face profound.

"What?" Leng Leng was taken aback. Her first reaction was to suspect that Lin Yi was also a practitioner. Putting everything else aside, at least from the fact that he'd gotten two Supreme-grade spirit jades in a row, the possibility of Lin Yi being a practitioner was high.

But she quickly dismissed that thought because she couldn't feel any strength from Lin Yi at all. Even if Lin Yi was a practitioner, he was only a practitioner from the common world. He couldn't be so strong that even an early Foundation Stage practitioner like her couldn't sense it, right?

"Actually, I'm also very awesome. It's just that I'm in trouble now. Back then, I was also an existence that shook the pugilistic world. With a simple stomp of my foot, countless experts would tremble in their hearts." Lin Yi said, putting on the air of a master on purpose.

Lengleng was instantly amused by him, and the thought that had just appeared in her mind was instantly thrown to the back of her mind. This fellow was purely trying to make fun of her. How could he be a cultivator? she was really too nervous.

Lin Yi couldn't help but chuckle at her expression. His words didn't sound reliable at all, but there wasn't a single lie in them. It was the absolute truth, too bad the girl took it as a joke. What could he do?

"It's almost time, let's go eat. " Lin Yi suggested.

"Alright." Leng Leng nodded. Now that she had obtained a Supreme-grade spiritual Jade, she was already very satisfied with today's trip.

The two of them went to a nearby seafood restaurant. Business was booming, and they had to queue for 20 minutes before they could get a seat. However, when a table of seafood was served, the two of them suddenly felt that they had not waited in vain. The booming business was not fake. It was indeed super delicious!

Especially coold, who was amazed as she ate, ""These dishes are really delicious. They're so fresh and tender. I've never had them before. Is this the seafood they're talking about?"

"Yeah, have you never eaten seafood before?" Lin Yi was even more surprised than her.

"No, I didn 't," Lengleng didn't even raise her head as she ate happily. When they weren't familiar with each other, she was a cold little girl, but now that they were familiar, she was more open.

Lin Yi couldn't help but be even more confused now. He looked at her eating seafood, amused. He wondered where this cold girl came from.

According to his previous speculations, she must have come from a place with denser spiritual Qi than the secular world but thinner than the sky Island. Whether it was the sky Island or the secular world, there was a sea. No matter how hidden the place was, it was impossible for a cultivator like her not to have seafood, unless there was no sea at all in that place, and it was a third independent plane that was completely isolated from the secular world and the sky Island!

This conclusion really surprised Lin Yi-there was actually a third plane in this world, and it even produced quite a number of Tiandao Masters.

Lin Yi was making all sorts of speculations in his heart. Although Leng Leng was eating happily, she thought that Lin Yi was paying attention to her table manners when he looked at her. She couldn't help but hide her blushing face and return to her usual cold self. The atmosphere between the two became a little weird.

Lin Yi only reacted now. He thought about it and suggested, "It's boring to eat like this. Why don't you tell me about your life? you've never told me about it before."

"Ah ..." Leng Leng was shocked and mumbled, "That ... There's nothing much to say about me. Let's talk about you first?"

Lin Yi knew that she would say that, so he didn't force her. He smiled. "Okay, then I'll tell you about what happened to me back then."

"Alright," he said. Only then did Leng Leng let out a breath of relief. She wasn't good at making up lies, and it was fortunate that Lin Yi didn't get to the bottom of it, or she would've been exposed.

Lin Yi smiled and cleared his throat. "Back then, I was also a martial arts master who was in the limelight. I traveled thousands of miles to an overseas Immortal Island to learn from a master. At that time, I thought that I was a very powerful top master and a top existence in the secular world. But after I went to that Immortal Island, can you guess what happened?"

"What's wrong?" Although Leng Leng thought that he was talking nonsense, he still managed to pique her interest.

"After I went to that Island, I realized that I was just a frog in the well. They said that I was invincible, and any random passerby there could kill me with a slap. I was just a new disciple at the bottom of the hierarchy there. In the end, I was arranged to go to one of the islands with some people ..." Lin Yi said.

Chapter 5044 Being Ripped Off While Eating

He described it so vividly that it sounded like it was real to Leng Leng. Little did she know that Lin Yi was talking about his own experience, from the mining to the rookie competition-he told her everything, except that he changed the names of the North Island and the welcome Pavilion to fake names.

Not only that, Lin Yi even changed his practitioner's level as well, changing it to "martial artist", "Martial Master", "general", "martial King", "revered" and so on. If he told Leng Leng his original level, she'd know right away, and he'd be exposing her in advance. Lin Yi didn't plan on that.

What Lin Yi didn't know was that this strength level that he made up was recorded down by someone, and even turned into a set of general cultivation levels for Wulin years to come ...

Leng Leng was his only audience. At first, she did not take it seriously, but the more she listened, the more fascinated she became. In the end, she was actually amazed and could not help but interrupt, "The energy Jade that you mentioned, could it be the same Jade that you found today?"

"That's right, you've even found out about this. Back then, these things could be found in large quantities on The Enchanted Island. If I were to pile up all my assets with energy jades, I reckon it would be at least a small mountain." Lin Yi chuckled.

In fact, it was not just a small mountain. His current financial resources were comparable to a large force. After all, he could sell any high-grade elixir he refined for a sky-high price. This was the good thing about being a high-level Alchemist. He lacked everything except for spiritual Jade.

"You're bragging. " Leng Leng immediately laughed, but she still said,""Although the story you're telling is quite interesting, you'd better not make me happy. You must have heard these stories from some storyteller. I know there are many storytellers in the secular world."

Lin Yi smiled-this lengniu had let the cat out of the bag again. He wasn't just saying this to pass time, he wanted her to slowly accept him-this way, at least it'd be a gradual process, and she'd be able to accept him in a bit.

However, Leng Leng's reaction made Lin Yi even more certain of one thing-these Tiandao Masters from the third plane didn't know anything about Tianjie Island. He couldn't be sure if they didn't know about the existence of Tianjie Island at all, or if they were just like the common world, with the legend of Tianji Island but never reaching it.

The two chatted as they ate, and when they were almost done, Lin Yi went to the counter to pay.

" 12835 Yuan. Let's forget about the small change. 12800 Yuan." The lady boss still had her charm, but the boss standing next to her was a big and fierce man. At first glance, he didn't look like a business owner at all, but more like a gangster.

"Twelve thousand eight hundred?" Lin Yi blinked. He didn't count the food when he ordered, but he did estimate that it would cost three to four hundred at most. How could it be twelve thousand?

"That's right. This is the menu you ordered. There's a calculator here. If you don't believe me, you can calculate it yourself. Our family has always been honest in business. We never cheat people." The lady boss said with a smile.

Lin Yi looked at her-he didn't even need a calculator to figure this out. He could've just done some mental calculations."Three hundred and ninety-six. Do you need me to calculate it for you step by step?"

"No need. I think you've misunderstood, Sir. Please take a closer look at the price list and the sentence marked at the bottom." The lady boss still had a warm smile on her face.

"The seafood above is charged separately?" Lin Yi blinked. They usually paid by the portions, when did they do that?

"That's it. Sir, look at the mango conch you ordered. It's priced at 98 Yuan. There are 60 in a plate, so that's 5880 Yuan. The top-grade immortal shrimp is priced at 72 Yuan, so there are 60 in a plate, so that's 4320 Yuan. Just these two dishes alone cost 10200 Yuan. If you include the other dishes, 12800 Yuan should be a fair price, right?" The lady boss's smile was kind and kind, and she even gave people a feeling of sincerity.

"You call this fair and reasonable?" Leng Leng was about to explode. She didn't understand these things and didn't have a clear concept of the price of the common currency, but she knew that she was scammed by Lin Yi. It was only 396 Yuan before, but it suddenly became 12800 Yuan. Who did business like this?

Previously, he had thought that this seafood restaurant had a unique taste and had a good impression of it. Now, he was filled with anger. This was not a seafood restaurant, but a tourist trap!

"Miss, please be more polite. The prices are clearly written on the menu. You must have seen them before ordering. Since you ordered these dishes, you should pay the corresponding amount. How is it unfair?" The lady boss's face turned cold.

"Hey, you two aren't thinking of having a King's meal, are you? brothers, keep an eye on me!" The owner threatened with a fierce look on his face. The gangsters at the door laughed in response, each of them holding a stool and staring at Lin Yi and Leng Leng with malicious intent.

Leng Leng was about to make a move-a couple of gangsters from the common world wasn't a threat to her, but Lin Yi stopped her without making a sound. He looked at the owner indifferently, "Alright, 12800 it is. I can afford it."

Lin Yi said as he pulled out a thick stack of cash. The owner and the lady looked at each other, their eyes lighting up. "That's more like it. One look and I can tell that Sir is a rich man. How can he not be able to take out such a small amount of money?"

Although he said so, the two of them were laughing at this kid in their hearts. He was really an idiot who puffed up his face to pretend to be fat. In order not to embarrass himself in front of his female companion, he could only bite the bullet and do as he was told even though he knew he would be ripped off. This time, he did not make the wrong choice.

The couple's restaurant wasn't a scam-they did business according to the rules normally, and only when they came across foreigners like Lin Yi with a foreign accent and a female partner would they rip him off.

However, they had never cheated the locals. Otherwise, even if a group of gangsters helped to hold down the scene, the business would not be able to continue. After all, it was easy for the locals to call a bunch of people to cause trouble. Only foreigners with no background were the ideal fat sheep, especially those rich guys who were extremely timid. They all thought that the less trouble they caused, the better. Basically, they would get it right every time they extorted.

Chapter 5045 I'm An Expert

Could was fuming beside him, but Lin Yi was very cooperative. He didn't forget to add, "12800, is that clear?"

"Sure, sure. Come again next time. I'll give you a discount." The boss and the lady boss looked at each other and laughed, then quickly stuffed the money into the drawer.

Lin Yi smiled faintly and walked out of the door coldly under everyone's mocking gazes. He didn't feel angry at all for being ripped off. Instead, he acted as if he was just having a normal meal.

"Why are you such a coward? he's clearly lying to you, and you fell for it? Do you like to be a sucker? I don't like this kind of idiot who pretends to be rich in front of women!" Leng Leng's face was cold-she'd have destroyed the place if she'd wanted to, but Lin Yi was blocking her from doing anything.

When she was in the ancient martial arts world, there were always some second-generation cultivators who pretended to be rich in front of her to chase her. She didn't know that Leng Leng hated these kinds of self-deceiving idiots the most. She felt disgusted every time she saw these people. She thought that Lin Yi was different from them, but she didn't expect Lin Yi to be a spendthrift too. She was wrong!

"Do you think I'm that stupid?" Lin Yi asked with a smile.

"Ah?" Leng Leng was stunned. She immediately swallowed the words of reprimand that were on the tip of her tongue. She asked curiously, "Then why did you still give them the money obediently?"

"Come, let's sit here and digest our food. At the same time, we can watch the good show inside. You'll know after watching." Lin Yi laughed, pretending to be profound as he sat down on a stone bench by the street.

Leng Leng had a stomach full of questions, but since Lin Yi insisted, she could only sit down beside him and observe the situation inside.

Sure enough, not long after, there was a sudden commotion in the seafood shop. First, the boss and the lady boss quarreled. As they quarreled, it affected the other employees, especially the hooligans at the door. The two of them were cursing and asking who had stolen the money from the drawer!

Of course, no one would admit to such a thing. Neither the owner and his wife nor the hooligans had good tempers. In the end, they even started fighting and destroyed the shop themselves ...

"What's going on?" Leng Leng was confused-did Lin Yi make her stay just to watch this? but how did he know that these people would lose money?

"Look, their money is all here." A black bag suddenly appeared in Lin Yi's hand, and it was full of money. Not only was there the ten thousand he just took out, but there was still another forty to fifty thousand in total. It was probably the store's revenue for the past half a month, or maybe it was all scammed out in one day.

"Why would I?" Leng Leng jumped-she was an early Foundation Stage practitioner, and she'd been right next to Lin Yi the whole time, not even realizing it. "How did you do it?"

"Didn't I tell you that I'm a martial arts expert? of course, this little trick is nothing to me. " Lin Yi laughed.

"You're bragging. " Leng Leng could not help but smile. She thought to herself, 'I must have been so angry that I didn't notice. This fellow is indeed different from those people in the small ancient martial world. I've really misunderstood him just now.'

"You'll know whether I'm bragging or not in the future. " Lin Yi didn't bother explaining-not only would Leng Leng not understand what he was doing, but even the Sky Class island's big bosses probably wouldn't be able to either. Who would've thought that he didn't take the money himself, but put it away in the Jade space?

But then again, he really had to thank this black shop this time. He had been worried about money all this time. Although the two scammers had contributed 20000 Yuan to him at the beginning, he had a total of 30000 Yuan in cash, which was enough for him alone.

The problem was that he was currently busy wooing Coold. Picking up girls was a matter of spending money like water. Just buying a cell phone and other things on this day alone had already cost him six to seven thousand Yuan. In addition to his various daily expenses, if he were to buy Coold something expensive next, the money he had on hand might not be enough. He did not expect that while he was worrying about this matter, Coold would take the initiative to send money to his door.

With Lin Yi's methods, he could get money at any time, but he wasn't a thief with no principles. He couldn't just steal from ordinary people for no reason. Only the scum and scumbags who provoked him were targets. It was the same with the two scammers last time, and it was the same with the black shop this time.

To be honest, if it weren't for these guys, Lin Yi would've had a huge headache. In his eyes, they were all money-giving kids.

"I think you're addicted to telling stories. You're making it sound like it's real, martial arts master." Leng Leng did not believe him at all. Suddenly, she was in a good mood and said, "Since the show is over, let's go shopping. It's rare for us to come here, and I want to take a good look at those beautiful clothes."

"Shopping?" Lin Yi blinked. He thought that since Leng Leng had gotten the Supreme-grade spirit Jade, she would want to go back and heal as soon as possible. He didn't expect her to be in the mood like this. Women were women indeed. Shopping always had a Fatal Attraction to them, even a little cold girl from the third plane like Leng Leng was no exception.

"You don't want to?" He looked at him coldly.

"No, no, of course I'm willing. Actually, I've wanted to give you a few sets of clothes for a long time. It's just that I didn't know your size, so I didn't dare to place an order. It's more than I could ask for today that you can come out and try them on yourself." Lin Yi said with a smile.

"You're giving me clothes?" Leng Leng's charming face suddenly blushed when she heard this. She said in a low voice with a hint of shyness, "Isn't it only the husband who can buy clothes for his wife? How can I let you ..."

The culture of the ancient martial world was similar to that of the heaven class Island, perhaps even more conservative. Unless it was a man or woman who had already been engaged, personal items like clothes could not be given casually. Giving clothes was, in a sense, equivalent to a confession. It was not that no one had given personal items to Leng Leng in the past, but she had insisted on not accepting them.

"Ah? Isn't it normal for friends to give each other clothes? everyone's like that. " Lin Yi asked, surprised.

"Is ... Is that so? That's fine. " Coold's face reddened as she lowered her head. She convinced herself that this was the secular world. When in Rome, do as the Romans do. It was normal for someone to give her clothes. She was not really in love with someone.

Chapter 5046 Who's Talking About Me?

However, even if she kept brainwashing herself, she still couldn't help but feel a little guilty, as if she was about to marry someone in private. She was so nervous that even her forehead was covered in sweat.

Lin Yi was getting more and more curious-it was just shopping, was there a need to get so excited?

This state of mind continued for half an hour until the two of them walked into the clothing stores on both sides of the street. Leng Leng's attention was shifted to the various trendy styles of clothes. Only then did she gradually return to normal. If this continued, her heart would jump out of her chest.

Lin Yi thought it was weird, but he didn't think too much about it. There was only one thought in his mind-who the hell associated women with shopping?

No matter how cute a girl was, she would become a monster with endless stamina once she started shopping. Accompanying them to shop was simply too tiring, and even a Big Shot expert could only die from exhaustion!

Once coold got into the mood, she spent the whole afternoon walking around. Even Lin Yi couldn't take it anymore. If it wasn't for the fact that he needed to get to the bottom of the Tiandao Masters, he would've already run away ...

It wasn't easy for her to sneak into the evening when she finally stopped. She looked at Lin Yi, who was almost crushed by the pile of bags, "I'm really sorry for making you buy so many things by accident. "

"No... Nothing. As long as you're happy." Lin Yi forced a smile.

"Then let's go back today. It's a pity that XI MA city is only so big. We've finished shopping in one afternoon. Otherwise, I could have spent another night shopping." Even now, Coold was still somewhat unsatisfied.

"Ugh ..." Lin Yi broke out in a cold sweat. Luckily, this was a small XI MA city. If it was a big city like Donghai, the lengniu would probably be able to walk around for days and nights. With her strength in the early Foundation Stage, it wouldn't be a problem at all. That would be a big joke. Thank God.

Lin Yi was worried that she'd change her mind and want to go a second time, seeing how she still wanted more. "We can go shopping later. It's getting late. Let's go back quickly. If we stay any later, we'll miss the last bus."

"Why don't we walk back? are you tired?" he asked. Coold suggested. She did not want to go through the crowded and tragic experience in the morning again, especially now that it was the evening rush hour. She saw that the public buses that passed by were full of people, and it was not much better than the morning.

"No, I'm not tired at all." Lin Yi's spirits lifted-he'd been exhausted from shopping with Leng Leng, and he looked like he was about to die, but that was just his mind playing tricks on him. With his strength, he'd be able to go shopping for a few days in a row and relax, let alone an afternoon.

"Then let's go." Lengeng nodded. Lin Yi wasn't tired, and she, an early Foundation Stage practitioner, naturally wasn't tired either. This bit of distance wasn't a problem at all, as long as they didn't take the public bus.

The two of them walked all the way back. Not long after, they passed by a large river. After asking, they found out that it was the Nanma River, the largest river in the area of Nanma city. At this time, the sun was setting in the West, and the afterglow fell on the sparkling surface of the river, making it look particularly gentle and beautiful.

"The scenery here is not bad. Since we're not in a hurry to go back, why don't we sit for a while?" Lin Yi suggested.

"Alright." Coold immediately nodded in agreement. The scenery at this time did indeed give people a strange warm and heartwarming feeling. Any normal person would want to enjoy it.

There were green belts on both sides of the river, and there were many stone benches, just like an open park. The two of them found a bench nearby and sat down, quietly enjoying the sunset.

However, it didn't take long for the atmosphere between the two to change. The reason wasn't themselves, but the young men and women sitting next to them. Many of them were even making out in public as if no one was around. This was not only an open park, but it was also a Holy Land for dating.

"How could they do this?" Lengeng's face instantly turned red. This kind of public intimacy was simply unimaginable in the ancient martial world. This was simply too immoral. She felt embarrassed just by looking at it.

"That's normal. Although the ancient people said that love should be restrained by etiquette, the concept is different in this era. It's fine for young couples to be intimate. Nowadays, it's not strange to see people showing off their love everywhere." Lin Yi said with a smile.

"But that's too much. Back in our world, the most they could do was hold hands. That's the limit." Leng Leng said with a red face.

"Have you held hands with anyone before?" Lin Yi suddenly asked.

"No... No, I didn't," Leng Leng shook her head awkwardly. With her cold and distant personality, those second generation cultivators who pursued her would not even think of touching her, let alone holding hands. In her opinion, this was a matter of great significance. It was a symbol of love, just like accepting a personal item.

Lin Yi couldn't help but smile-this cold girl was so pure, even holding hands was so careful.

As the two were talking, they heard a couple talking about them. They kept their voices low, but Lin Yi and Leng Leng's hearing wasn't something a normal person could do.

"Hubby, do you think those two are here for a blind date? they're actually sitting so far away?" The woman said in a low voice.

"It doesn't look like it. Look at the many bags beside the man. They look like clothes that he just bought. Who would buy these things for their first blind date?" The man said disapprovingly.

"That's true. It must be this man who's pursuing this woman. But he's really stupid. He bought so many things and yet he couldn't even hold her hand. What a big loss!" The woman giggled.

"That's right. How can you chase girls like this these days? it's old-fashioned and stupid. Compared to the way I chased you back then, this man is simply a pig." The man said proudly.

"You're still talking about it. The things you've bought for me can't even compare to what she has. In the end, I've given my entire body to you, but she hasn't even held my hand. How pitiful." The woman pouted.

Before the woman finished, Lin Yi suddenly turned around and shouted, "Who said I can't even hold your hand!"

With that, Lin Yi grabbed onto Leng Leng's hand and raised it towards the two.

Leng Leng was a little angry at the two, but she didn't expect Lin Yi to do that all of a sudden. Her mind went blank. Normally, she would've thrown her hand away, but she didn't know if it was because she couldn't react in time or she was trying to save Lin Yi's face, but she surprisingly didn't resist and let Lin Yi hold her hand.

Chapter 5047 -Can't Be Dismissed

Lin Yi was overjoyed-this couple had just delivered themselves to his door! If it weren't for their provocation, he'd be too embarrassed to take the next step, but now everything was going according to plan, and even lengniu chose to silently agree-congratulations!

The couple, on the other hand, jumped in shock-they'd lowered their voices, but Lin Yi still heard them. Their faces were burning as they got up and ran away, exposed.

"The wind is strong here. Let's hurry and get a room. A moment of spring is worth a thousand gold." The man even gave himself an excuse before leaving.

"You're so annoying!" The woman spat at him, but still obediently followed him.

After the two were far away, Leng Leng struggled a little and pulled her hand out of Lin Yi's, blushing, ""Don't let your thoughts run wild. I was just helping you smooth things over. I didn't mean anything else. "

"Ah? Thank you very much. " Lin Yi couldn't help but look at her, amused. This cold girl's words and actions were so different. Was she the type to say that she didn't want her body, but be honest?

"No... No need to thank me. By the way, what did they mean by getting a room?" Coold quickly changed the topic.

"Getting a room? it means going to a hotel to get a room." Lin Yi said with a shrug.

"Why? Are they also foreigners? from their accent, they should be local. The locals should have a house to live in. Why would they waste money on a hotel?" Coold could not help but wonder.

"Well ..." Lin Yi choked, not knowing how to explain it to her. He'd be treated as a hooligan if he told her, ""Maybe there are some things that are inconvenient at home, so they can only find a place outside. That kind of thing can only be done by getting a room."

"That kind of thing? What kind of thing?" Could did not react immediately.

"We can't do it in public, we have to find a room and do it in secret. There's nothing special about that between men and women ..." Lin Yi smiled bitterly.

"The little things between men and women?" Leng Leng looked at the backs of the two people in confusion. She remembered the man's last sentence about how a moment of spring night was worth a thousand pieces of gold. She finally understood and blushed shyly as she retorted, ""Vulgar!"

"Actually, you can't say that. After all, it's a matter of mutual consent. These days are not like the ancient times, where the boundaries between men and women are not so serious." Lin Yi explained with a bitter smile. Almost all couples went to get a room these days, and according to Leng Leng's logic, 99% of young people were shameless.

"Really? The secular world is so chaotic, they don't even care about the most basic etiquette, honor, and shame. " Leng Leng said indignant. With her background in the ancient martial world, it was hard for her to imagine such a thing. This was the difference between their views on life and the world.

"..." Lin Yi was speechless at her expression. She was already so angry at someone else's hotel room. He'd be beaten to death if he brought it up.

"What's wrong? Could it be that you're also that kind of person?" Leng Leng frowned at him and suddenly took a step away like a frightened deer, afraid that she had hit the nail on the head.

"No, no, we don't need to get a room. We definitely won't get a room. We'll go home directly." Lin Yi waved his hand.

"That's more like it. " Leng Leng nodded, only to realize that she'd fallen for it after a while. She glared at Lin Yi with a red face, "I don't want to do that kind of thing with you. Don't let your thoughts run wild!"

"Alright, alright, alright. We won't do it at home either. That should be fine, right?" Lin Yi had no choice but to raise his hands in surrender, acting like a weird uncle trying to kidnap a little girl.

"You're not serious. " Leng Leng mumbled helplessly. For some reason, a ripple appeared in her heart, and she could not calm down even when she walked back to the apartment.

Thinking back to today's encounter, she couldn't help but blush. Strictly speaking, this was the first time she had spent an entire day with a man, and from time to time, there would be some intimate actions that she had never dared to imagine before. Was this what people in the secular world called a date?

"Are you alright?" Lin Yi subconsciously reached out to feel her body temperature after seeing her red face. "So hot? Do you have a fever?"

"No... No, I'm just a little tired. I'll go back first." Leng Leng was shocked and quickly ran back to her room. How was she having a fever? she was simply too engrossed in thinking about those things, which was why her face and ears were red!

An early stage foundation building expert would be tired just from shopping? Even if she was hurt, there were no signs of it at all. Wasn't this cold girl still unsatisfied?

Lin Yi mumbled to himself, not quite understanding what was going on. He went back to his room as well-he'd decided to pursue Lengniu a long time ago, but recovering his strength was his top priority right now. He'd already wasted an entire day, and he had to make up for it as soon as possible. Without enough strength, it'd be useless even if he found out who those Tiandao Masters were.

Leng Leng, on the other hand, was very troubled-she couldn't calm down and focus on her training at all. It was the first time her mind was filled with one person, a man she hadn't known for long. There were a few times when she wanted to get rid of all these thoughts and focus on healing, but Lin Yi's face would always appear in her mind, and she couldn't get rid of it.

"What's wrong with me?" Leng Leng was suddenly at a loss. She shook her head with great effort, gritted her teeth, and took a cold bath. She finally felt a little better.

However, before she could cultivate in peace for a moment, she suddenly fell to the ground with a muffled groan. After a while, she got up with difficulty, her face pale. After a few days of healing, her injuries had almost recovered, but she did not expect it to relapse again like before. It was simply endless!

After recuperating for a moment, even though her injuries did not show any signs of improvement, at least they did not worsen to the point where it was beyond recovery. This was a great fortune in the midst of misfortune, but could not bring herself to be happy.

At first, she thought that it was just an ordinary injury. Even if the injury was more serious, as long as she drank medicine, soaked in a medicinal bath, and had enough spiritual energy to replenish it, she should be able to bear it. In the past, she had gotten through her injuries this way. Even until the first time her injury had relapsed, she still held such a fluke in her heart. But now, she had completely recognized the current situation.

The injuries he had suffered this time were not ordinary injuries at all. They had been inflicted by a very special primordial spirit method. They only appeared to be ordinary injuries at the beginning, but once they were about to fully recover, they would relapse. The root cause was the primordial spirit, which was the most troublesome thing.

Chapter 5048 Coming To Take Over The House

If it was an existence like the ghost, the injury of the primordial spirit was a small matter, and it could be done with a thought. However, the problem was that Leng Leng was only in the early stage of the foundation building realm. Cultivators at this level were almost blank in this area unless they had cultivated a very special mental cultivation method. Even if they knew that the root of the injury was the primordial spirit, they had no way to start.

Fortunately, the person who attacked her only had a special cultivation method and was not very strong. At most, he could only mix some shady means with ordinary moves. Otherwise, if it was a master with a truly powerful primordial spirit like that ghost, she would not be able to stand here alive.

Even so, Leng Leng's current situation was very tricky. There were only two ways to recover in this situation. Either a primordial Spirit Master would remove the root of her injury, or she would rely on her own willpower and perseverance to suppress all the injuries on her physical body in a short period of time without leaving any traces. The rest of the time would slowly wait for her primordial spirit to heal.

Leng Leng had no idea that there was a primordial spirit body expert by her side. To her, the first method was simply a fool's dream, so she could only choose the second stupid method.

However, the success rate of this was really not high. Even if she had two pieces of Supreme-grade spiritual Jade in her hands and did not have to worry about the lack of spiritual energy for the time being, it was extremely difficult to suppress all the injuries on her physical body in one go. Otherwise, if it was easy to do it, there would not be two repeated outbreaks.

"There's no other choice. We can only do this." Leng Leng took a deep breath and immediately began to recuperate. Even though she was still worried, she had no other choice.

In fact, if she could get closer to Lin Yi today, it would be easy for him to find out her injury and cure it. Unfortunately, the two only had physical contact, and only for a short while. Even Lin Yi couldn't figure out the root of her injury immediately.

The next morning, Lin Yi delivered breakfast to coold as usual, but before he could knock on the door, a bunch of people came up the stairs. They were all gangsters, and it was obvious that they didn't come with good intentions.

However, the leader of this group of hooligans was the landlord, boss Huang!

Lin Yi, of course, didn't know who the owner was-he'd even signed the contract with a real estate agent. He'd never even seen the landlord before, and the man didn't even look at Lin Yi, who was carrying the breakfast. He brought his men and knocked on Lin Yi's room.

"You're looking for someone?" Lin Yi looked at the group, surprised.

"Little brat, don't meddle in other people's business. If there's nothing, then get lost. We're here to collect debts!" One of the punks beside him said in an unfriendly tone.

"Collect debts?" Lin Yi blinked.

"That's right. This family owes me a few million. It's only right to repay a debt." Boss Huang said. He was the landlord himself, but he still claimed that he owed him a few million Yuan. He looked like a victim who had a deep grudge against him, and his acting skills were comparable to the two scammers.

He had no choice-even the two groups of people he sent to pretend to be ghosts were gone, and he couldn't wait any longer. Lin Yi's and Leng Leng's rooms were both his houses, and he was counting on these two houses to make a lot of money for him. How could he let someone else stay in these two rooms?

Normally, as long as he scared one of them away, the other would be scared away as well, but Lin Yi didn't run away twice in a row. There was no news for half a month, and he couldn't help but be worried. Was this new guy really not afraid of ghosts?

Since pretending to be a ghost was useless, he could only rely on the living. Boss Huang had no choice but to do it himself. Not only was it risky, but the cost was also high. After all, he had to spend a lot of money to deal with these gangsters. However, in order to scare Lin Yi and Lin Yi away and continue making money, he had to go all out.

"I'm sorry, but you've come to the wrong place. This house has been rented to me. The landlord is not here at all, and I've never seen him before." Lin Yi said faintly.

"What? He rented it to you?" Boss Huang looked at Lin Yi from head to toe, wondering why the kid wasn't scared away when he looked so normal.

"That's right. Please don't block my door. Everyone, please go back." Lin Yi said, curling his lips.

"Stop pretending. I came all the way here, so I have to collect the debt. Since that guy isn't here, I can only reluctantly collect the debt from you. You're his tenant anyway, so you can just ask him for money later." Boss Huang sneered.

"Oh? This is the first time I've heard of such a debt collection method, but looking at your reaction, it can't be that you've been targeting me from the beginning, right?" Lin Yi smiled faintly. No matter how good boss Huang's acting was, he couldn't hide his sharp eyes. He wouldn't be Lin Yi if he couldn't react in time to this situation.

"What did you just say?" Boss Huang was shocked and quickly covered it up,""I know who you are? Who the F * ck would want to deal with an unrelated stranger like you? cut the crap, you just don't want to pay, right? Brothers, beat them up! You'll be obedient after a beating!"

"No problem. Brother Huang, you have to reward us well after this." The hooligans were overjoyed. They had discussed this before they came here. They were only here to scare boss Huang, but once they really did it, the price would double.

"Leave it to me!" Boss Huang gritted his teeth. Of course, he did not want to spend too much money, but no matter how good his acting was, there would still be flaws. It would be troublesome if the kid saw through his act. His trick of pretending to be a ghost was purely to earn money by bluffing people. Once it was exposed, it would be worthless and he would not be able to earn a single cent from it.

Now that Lin Yi was suspicious, he had no other choice but to act fast. As long as he could scare this man away, he could earn back the money in the blink of an eye.

A group of people surrounded Lin Yi immediately. Beating people up was a common occurrence for gangsters like them, especially when it came to a single person, a foreigner with no background at all. There was no risk at all, and the money was free.

At this time, Leng Leng was already at the door, looking through the peephole and was about to help Lin Yi out. After all, Lin Yi was just an "ordinary person," and it would be a big loss if they fought so many people.

What she didn't expect, however, was that Lin Yi wasn't afraid at all in front of so many people. Instead, he even had a mocking smile on his face as he looked at boss Huang. "It seems like I was right."

Chapter 5049 All In One Throw

"Bullsh * T. I'll count to three. If you obediently return the money for the landlord, it'll be easy to talk. Otherwise, there are so many of us. It's normal to accidentally kill someone. You'd better think about it carefully." Boss Huang sneered and said, "One! Two! Three ..."

Before he could finish, Lin Yi suddenly pressed his hand on his head without warning, and with a loud bang, boss Huang's fat body fell to the ground, groaning in pain for a long time.

The sudden incident gave the gangsters a fright, and they looked at Lin Yi with fear in their eyes. Boss Huang was at least two hundred pounds, and this guy just crushed him like that. Just how strong was he?

"What are you afraid of? There's only one kid, and we have six brothers. We'll slap him to death with one slap each!" One of the leaders shouted as he sent a kick at Lin Yi.

But Lin Yi was faster than him, and his leg was broken in mid-air by Lin Yi's kick. His leg bent into a terrifying arc and flew back, smashing into the fire cabinet behind him and falling on the spot.

The hooligans were shocked again. They hadn't even done anything yet, and two of them were already lying on the ground. This was troublesome!

"Attack together! Brothers, don't hold back. If we can't even take care of him with so many people, how can we survive in the future!" The remaining five hooligans were all ruthless. People who came out to do business cared about their reputation the most. Although they were a little anxious, they still gritted their teeth and attacked. They couldn't lose this fight. If they lost, it would be embarrassing.

Normally, it was rare for skilled people to kill someone, but it was this kind of gangster fight that was the most likely to kill because they didn't know how to control their strength, and it was often armed fights. Just like these five men here, they pulled out a steel pipe and swung it at Lin Yi's head without hesitation!

Leng Leng, who was hiding in the house, was shocked-this was a life-and-death situation! She was about to attack without hesitation, but Lin Yi was faster than her. Before the steel pipes could land, he stomped on each of their feet so hard that their feet were deformed!

There was an earth-shattering sound of a pig being slaughtered. The five hooligans threw away their steel pipes at the same time and hugged their feet, crying for their parents. The scene was simply sad and tearful.

"Still not getting lost? Do you want me to give each of you another one?" Lin Yi said, looking down at them.

Boss Huang and the others did not even dare to make a sound. They immediately covered their heads and ran down the stairs. If they still could not react in time and encountered a ruthless person, they would not be able to survive.

The group of people made their way out of the gate, and when they saw that Lin Yi didn't come after them, they heaved a sigh of relief. They looked at boss Huang with bitter faces-was this the soft persimmon he was talking about?

"Don't look at me. I didn't know that this kid was so ruthless. If he really wanted to set you up, would I have come here today to get beaten up?" Boss Huang said unhappily.

He finally understood. No wonder the previous two groups of people couldn't scare this kid away even when they pretended to be ghosts. He was so fast and ruthless. He was obviously not an ordinary person!

It seemed like it would not be easy to find someone to deal with the kid unless he paid a high price. However, boss Huang was not a simple-minded hooligan. He was a businessman, and he would not do such a business that would obviously make him lose money. He might as well wait until the kid's rent was due. No matter how ruthless he was, he would at least stop renting the house!

At the same time, Leng Leng walked out of the room, sizing Lin Yi up and down, surprised, "Looks like you didn't lie to me. You're really good at fighting."

"That's right, I've already told you that I'm a martial arts expert. These punks are nothing in my eyes. " Lin Yi laughed.

"You're bragging. " Leng Leng couldn't help but laugh. Although Lin Yi's moves were clean and quick, he was still within the range of a normal person in her eyes. At most, Lin Yi's reaction speed was above normal people. Martial arts masters were just a joke to her.

Lin Yi didn't bother explaining, passing her the breakfast he bought earlier."Here, eat it while it's hot."

"Alright," he said. Leng Leng took the breakfast naturally, only to realize after a while that Lin Yi had been carrying the breakfast the whole time. He had taken care of seven people in the blink of an eye, but not even a drop of soy milk spilled. This wasn't something a normal person could do, was it?

"What's wrong?" Lin Yi looked at her strangely.

"Oh, it's nothing," She smiled coldly, the thought only flashing through her mind. They'd known each other for so long, and she didn't believe that Lin Yi was a practitioner at all. She must be overthinking it.

"Okay, I'll go back first. Do you want to go out for lunch? I'll call you. " Lin Yi suggested.

Leng Leng nodded. Before she closed the door, she specially reminded him,""Don't knock. Make the call."

"Okay ..." Lin Yi didn't know whether to laugh or cry. Ever since he bought a phone, this cold girl had gotten addicted to it. They lived next door, but they still had to call each other. This was good, though. When he was in a good mood, he could talk to her on the phone for a long time. Their relationship had improved by leaps and bounds.

Lin Yi couldn't ask for more, but Leng Leng was in a difficult position. On one hand, she couldn't control herself and couldn't help but develop in this direction, but on the other hand, she was afraid that she would fall deeper and deeper.

Her rationality told her that she couldn't let this go on. There was no ending between her and Lin Yi. The deeper they fell now, the deeper they would be hurt in the future. It wasn't a good thing for either of them.

There were a few times when she wanted to clear things up with Lin Yi face to face, but every time she saw him, she threw all those words out the window. She felt relaxed and happy every time she was with Lin Yi, and she couldn't bear to tear everything apart with her own hands.

However, this was not the way to go. In the dead of the night, Leng Leng finally made up her mind. The reason why she had been dragging things out was not only because she could not bear to say it to her face, but also because she herself.

It was because her injuries weren't fully healed yet that she had an excuse to keep dragging things out. It wouldn't be too late to tell Lin Yi when her injuries were fully healed, but that was just lying to herself. If this continued, even if her injuries were fully healed one day, how could she guarantee that she'd be able to say it when her feelings for him were already deeply planted?

After much thought, Leng Leng felt that the only solution at the moment was to stake everything on one throw!

Chapter 5050 Finally Found You

She decided to use the two pieces of Supreme-grade spiritual Jade in her hands to fully heal her injuries with the medicinal liquid. She would either succeed or die. No matter what, she could not delay it any longer.

Strictly speaking, her idea itself was not wrong. After all, her injury was extraordinary. If she continued to heal herself step by step like before, the chances of a recovery in a short time were very slim. Only by going all out and staking everything on one throw could she still fight for a slim chance.

It was a pity that she had forgotten one thing, a major event that could bring about a catastrophe!

"What's that cold little girl doing?" Lin Yi didn't use his spirit sense to check the room next door, but he was very sensitive to spiritual Qi. Coold's last bet caused spiritual Qi to overflow everywhere. Such a strong spiritual Qi fluctuation, let alone the room next door, he could feel it clearly even from ten miles away.

Normal people wouldn't feel anything wrong, at most feeling refreshed for some reason, and even normal practitioners wouldn't be able to notice anything. The problem was that the secular world was different from the past, and there might be other heavenly Dao practitioners nearby. Even if their senses weren't as sharp as Lin Yi 's, if they didn't react at all to such a strong spiritual Qi fluctuation, they would have to have their five senses sealed off.

From Lin Yi's point of view, coold's sudden move was a risk. What if she attracted the attention of the nearby Tiandao practitioners during the healing process? the consequences would be unimaginable.

But since Leng Leng had already done that, Lin Yi couldn't stop her now. If he forcefully stopped her healing, the consequences would be severe. The only thing he could do now was to release his spirit sense to keep an eye on her and prepare for the worst, just in case.

Time passed by slowly, and the first half of the night was peaceful. However, when it was almost dawn, Lin Yi suddenly frowned. His spirit sense clearly sensed two people rushing towards him, and they were familiar faces. It was sun Baimei and health-maintenance Fei, the ones who chased him last time!

The two of them had obviously sensed the unusual spiritual energy fluctuations here, and that was why they came straight over. They were also extremely fast, and Lin Yi wouldn't have the chance to escape even if he wanted to take Leng Leng. Interrupting the healing process required time, especially when they hadn't even broken the window paper yet. Explaining their identities would be troublesome, and the two would've killed their way over by then.

Lin Yi couldn't care less in the heat of the moment and used his spirit sense to contact Coold, ""Someone's coming!"

Leng Leng was at the final stage of her healing process, and she believed that she could stop it from happening as long as she removed all the injuries on her body. Lin Yi's voice suddenly sounded in her head.

"Am I hallucinating?" Coold's first reaction was not surprise. Instead, she blushed for some reason. She thought that she was hallucinating because she had fallen too deep.

However, she couldn't help but recover from her meditative state. Although she couldn't scan the entire area with her spirit sense like Lin Yi, she would be able to detect any abnormal movements in the apartment building. After sensing sun Baimei and health-maintenance Fei's aura, she was shocked!

At this time, she couldn't care about healing her injuries or why she was hallucinating for no reason. The only thing she could do was to quickly get up and put on her clothes. At the same time, she stomped her feet unwillingly. She was so close! She could have recovered immediately, but in the end, she failed at the last step!

After entering the apartment, sun Baimei and Fei Liangyang went into the cold room without hesitation. Lin Yi was next door, observing everything with his spirit sense and making preparations.

Although Lin Yi had deduced that the two were attracted by Leng Leng, he had fought her before, after all, and he couldn't help but worry that his identity would be exposed. If that happened, he'd be in big trouble today. Now that he was in the dark, he had more room to operate, and he wouldn't be completely passive.

More importantly, this sudden accident had given him an opportunity to figure out the background and intentions of these Tiandao experts!

If he was not wrong, could and these two people should have come from the same place, and they most likely knew each other. If he was lucky, he might be able to get the answer to the riddle as long as he could hear their next conversation clearly.

Sure enough, sun Baimei and health-maintenance Fei didn't make a move after breaking into Leng Leng's room. Instead, they showed a surprised expression!

"So it's you. Miss Leng, we meet again." Sun Baimei sneered.

Although health-maintenance Fei didn't say anything, he circled behind Leng Leng and blocked her retreat. The two of them surrounded her from the front and back, clearly showing that they had come with ill intentions.

This development surprised Lin Yi-he'd guessed that they knew each other, but he didn't think that they'd be this incompatible. It seemed that Leng Leng had enmity with these two before.

"Sun Baimei, I haven't settled the score with you for injuring me last time. Do you want to kill me again?" Leng Leng carefully guarded against the two's every move. She had just forcefully stopped her healing, so if she acted rashly, it was likely that she would suffer a backlash. Therefore, she had to find a way to delay time to recover, or she would have run away long ago.

"No, no, I've never thought of silencing you. Miss Leng is well aware of my feelings for you. Actually, I only want to bring the beauty home. On account of my infatuation in pursuing you for so many years, does miss Leng not have any expression at all?" Sun Baimei said, pretending to be affectionate.

"Infatuation? You're a shameless person, and your skin is really thick. I accidentally let you see the treasure that master gave me, and you immediately covet it and want to kill me. Is this even infatuation?" Leng Leng snorted.

Speaking of this, she felt a little regretful. Sun Baimei had indeed pursued her for many years. Although she had never felt anything, she had unconsciously let her guard down when she came out to the secular world to gain experience. As a result, her treasure had been coveted by sun Baimei, which led to her death. If she had not escaped quickly, she would have died the last time.

"Miss Leng has misunderstood. Haven't you heard of the saying" marry a chicken and follow the chicken, marry a dog and follow the dog"? As long as miss Leng becomes my Dao companion, your things will

naturally also be my things. Why don't you just let me keep that thing for you? isn't that safer?" Sun Baimei said sincerely.

"Even if I die, I won't be your Dao companion. You should give up on this thought." Leng Leng said in a deep voice.

Sun Baimei had already expected this, so he was not angry at all. He shook his head and said, "I, sun Baimei, am a genius. Do you think I'm not good enough for you? I've clearly prepared a happy ending for you, but you just have to choose a life and death struggle. I can't do anything about it, but I'm still a very tender person. As long as you hand over the thing, I can promise not to touch a single hair on you. "
