

Bodyguard 5051

Chapter 5051 I'll Help

"In your dreams." Leng Leng gritted her teeth in anger. This was something her master had given her. She would rather die than give it to a despicable and shameless person like sun Baimei.

"Miss Leng, Oh miss Leng, I thought that after so many days, you would have at least come around a little. Why are you still so stubborn? Don't tell me that you haven't learned your lesson from last time, and it doesn't feel good to be injured by my cosmos arrow?" Sun Baimei's expression was one of complete control. He sneered, "You were able to escape last time because I had a tender heart for you, but this kind of thing can't happen again. No matter how tender I am, I won't let you go again. Even if I agree, brother Fei won't."

"Brother Sun, since she won't listen to you no matter what, then why are you still talking so much nonsense with her? in my opinion, why don't you just make a move? otherwise, she'll be dragging things out and may have more problems." Health-maintenance Fei frowned.

There were many masters who came out to the secular world this time, and he and sun Baimei might not be the only ones nearby. If other people were also attracted, it would be troublesome, and they might not be the last ones to laugh.

"You see, compared to brother Fei, am I not already very easy to talk to?" Sun Baimei pretended to be kind and spread his hands. He began to give an ultimatum, "Miss Leng, this is your last chance. Hand over the item and you can still live. Otherwise, you can only report to the underworld. Of course, the item will still fall into my hands in the end. It's just a little more effort to search your body. Why don't you consider it carefully?"

"Hmph, I'll never give it to you even if I die. At most, I'll destroy it myself, and no one will get it!" Coold was prepared to fight to the death.

"Haha, miss Leng, your words can be used to deceive children, but aren't you a little self-deceiving if you use it to deceive me? What kind of treasure was that? how could it be destroyed so easily? I've already killed you eight or ten times over for the time you spent on destroying that thing. Since you're so insensible, I have nothing to say. It's a pity that such an icy beauty is going to be shot into a sieve by my universe arrow. What a waste of a heavenly treasure!" Sun Baimei was about to make a move.

Although Leng Leng was prepared from the start, she still panicked when it came to this moment. She didn't care if she died, but she didn't want to disturb Lin Yi next door. If they started fighting, it wouldn't be a small matter. What if Lin Yi came over to help?

Even if Lin Yi didn't knock on the door, he could've been killed by accident at such a close distance. Wouldn't that be the same as killing Lin Yi?

He was clearly just an "ordinary person" from the secular world, yet he had unknowingly occupied a rather significant position in her heart. No matter what, she would subconsciously think of him. Unfortunately, it was too late for Leng Leng to realize this.

At this time, health-maintenance Fei suddenly said, "if Brother Sun doesn't mind, why don't you let me vent my anger before killing her? it's rare to meet such a beautiful woman. I can't waste this enchanting figure, can I?" I've seen so many sect disciples chasing after her, this little brother has also been drooling over her for a long time!"

"Oh? Since Brother Sun is in such a good mood, then she'll be yours. I'll take the thing since there are plenty of women out there. " Sun Baimei said indifferently.

"You shameless beast!" Leng Leng was shaking from head to toe. He wanted to fight these two to the death, but for Lin Yi's sake, he forced himself to retain some rationality and said, "This is the residential area of the secular world. If you want to fight, do it in a place with no one around. Otherwise, at least half of the people in this area will die. If things get out of hand, it won't be good for you two, right?"

Sun Baimei and health-maintenance Fei looked at each other when they heard this. The most important rule when they came out for an experience was not to disturb the order of the secular world. If they killed a large number of ordinary people here, there was nothing to be afraid of in the secular world. However, it would be troublesome when they returned to the small Jianghu in the ancient times. This kind of thing would definitely be investigated to the end.

"Good, then we'll talk after we get out. However, I advise you not to think about using this opportunity to escape. You're only at the early Foundation Stage. You don't stand a chance in front of the two of us, not to mention that you've still not recovered from your injuries." Sun Baimei sneered.

"Then let's go to the woods outside. I like that place." Fei Yangsheng smiled. He knew that sun Baimei would never give that thing to him, so he could only find some psychological comfort from Leng Leng.

"Alright," he said. Leng Leng suppressed her anger and strode towards the door. Sun Baimei and Fei Liangyang were not afraid of her escaping because she could not escape from their hands.

However, before could could open the door, the door opened by itself. A head popped in from outside. "What happened? do you need my help?"

Sun Baimei and health-maintenance Fei were shocked. They were so focused on Leng Leng that they didn't know that someone had quietly come to the door. However, they were only a little surprised. Although they didn't dare to make a big scene, they didn't feel any pressure just killing a few people. As long as they did it cleanly, it was fine.

However, Leng Leng was dumbfounded-it was Lin Yi!

"I saw that your door was broken, so I pushed it open without permission. Is everything okay?" Lin Yi pretended to be lost as he sized up sun Baimei and health-maintenance Fei.

From the moment he had discovered the two of them, he had already begun to prepare a true energy bomb. After all, one of them was in the late stage of the foundation building realm, while the other was in the middle stage of the foundation building realm. They were not easy to deal with.

It'd been half a month since the essence spirit projection, and Lin Yi's strength had only recovered to the peak of the early Foundation Stage. Of course, if he was here in his physical form, this bit of strength was enough to kill these two idiots in seconds. Killing people above his level was just a piece of cake and a regular meal for him, but the problem was that he was in his essence spirit form-he wasn't sure if he could win.

For safety's sake, Lin Yi decided to charge up the energy bomb so that he wouldn't be at a disadvantage. It was a good thing that Leng Leng had bought him some time, or he wouldn't have made it in time if they started fighting as soon as they entered the room.

"I'm ... I'm fine. You should hurry back!" Lengleng's face paled in fright, and she quickly tried to push Lin Yi out. This was what she was most worried about, and it still happened.

"Nothing? No way, even the door was broken, and you're saying you're fine?" Lin Yi was still looking at sun Baimei and health-maintenance Fei with suspicion, acting like a normal person.

Sun Baimei and Fei Liusheng were also looking at him, but they didn't recognize him on the spot. After all, Lin Yi's essence spirit body wasn't fully condensed back then, but now he looked no different from a normal person. The difference between the two wasn't small at all, not to mention that Lin Yi used the Jade to hide his strength flawlessly. They couldn't sense it at all.

Chapter 5052 Victory And Defeat Have Been Decided

In fact, although these people were all foundation level Masters, the only one who could recognize Lin Yi was sun Baimei. The others couldn't tell that he was a primordial spirit.

Even sun Baimei, who had a special practitioner's Arts, wouldn't be able to react if they didn't check on him intentionally. Their attention was all on Leng Leng, and they wouldn't pay attention to a "normal person" like Lin Yi.

"I'm really fine. You should go back!" Leng Leng said as she tried to push Lin Yi away, but to her surprise, she couldn't move him at all. She was an early Foundation Stage practitioner, and she used quite a bit of strength, but she couldn't even move a "normal person" like Lin Yi?

"Don't worry, I'll protect you!" Lin Yi grinned and pointed at sun Baimei and Fei Yangsheng, "Are these two robbers? Watch me beat them to death and show you the glory of the past. Although I can't compare to the past, I'm more than enough to kill these two idiots. "

Leng Leng was on the verge of tears when she heard that. She hurriedly pleaded, ""Don't mess around. Go back quickly. I'm really fine here ..."

"Hmph, since you're here, don't leave." Sun Baimei wasn't far from the two, and he was about to kill Lin Yi. With his strength, killing an ordinary person was as easy as stepping on an ant. Although it didn't matter to him whether Lin Yi died or not, this kid didn't know what was good for him and barged in. He deserved it.

Seeing this, Leng Leng panicked and quickly used her body to shield Lin Yi behind her. To her surprise, Lin Yi pulled her out of the door and threw out a terrifying pure energy at her. Because they were too close to each other and it happened so suddenly, sun Baimei didn't even have time to react. The pure energy bomb directly hit his face.

After their last encounter, Lin Yi was most afraid of this sun Baimei. This guy was almost like a natural enemy to his Yuan spirit body, and the energy bomb was specially prepared for him. As long as he could kill this guy first, everything else would be fine.

BOOM! With a loud bang, the true energy bomb exploded directly on sun Baimei's face. Although it didn't take long to condense and its power wasn't very strong, the lethality was still significant at such a close distance. Sun Baimei was directly blown out of the window behind him.

"It's a good thing that this guy underestimated his enemy. Otherwise, even if he couldn't completely escape with his strength as a late-stage foundation building cultivator, he could at least escape a distance away. That would be troublesome." Lin Yi sighed in relief.

This was the disadvantage of true energy bombs. Although they could be powerful as long as they had enough time to charge up, they were not as fast and unavoidable as Thunder burial. They were also not as easy to control as the killing intent of the five elements and Eight Trigrams. They could even evolve their own spirituality and explode once they were thrown out. However, if the opponent's reaction was fast enough, it was easy to miss.

As a result, this was at most a surprise attack-it couldn't be a real trump card. The higher the level, the less useful it was, to the point that Lin Yi didn't really use it anymore back on Sky Class Island.

However, the current situation was special. He couldn't even use moves like the Thunderbolt thousand explosion, let alone the Thunder burial and the killing intent of the five elements and Eight Trigrams. He could only rely on the true energy bomb that was fused with the alchemy fire to turn the tables. He had no other choice.

All of this was within Lin Yi's calculations, but the other two people present were completely stunned. Could have been with him for more than half a month and had always treated him as an ordinary person, but who would've thought that Lin Yi would blow away sun Baimei, who was in the late Foundation stage, right away!

But even so, Leng Leng still didn't treat Lin Yi as a practitioner-her first reaction was that this wasn't some high tech from the common world, was it? She'd heard from Lin Yi that the bombs in the common world were extremely powerful, and even practitioners like them might not be able to handle it!

Leng Leng couldn't react in time, but Fei Yingyang did. He couldn't recognize Lin Yi just now, and he couldn't distinguish a primordial spirit like sun Baimei, but he'd suffered from the energy bomb last time!

There was no way he wouldn't recognize Lin Yi after only half a month, not to mention that Lin Yi's figure was very similar to the soul he saw. It was only natural for him to think in this direction.

Lin Yi knew something was wrong with his expression. He didn't give him a chance to speak and threw a raging fire Eight Trigram palm at him. This man had to die today!

He was only at the peak of the early Foundation Stage, and couldn't fight someone of a higher level as he used to, but his opponent was only at the mid Foundation Stage. Lin Yi still had a high chance of winning in a one on one fight.

In the blink of an eye, Lin Yi and Fei Yangsheng were already engaged in a fierce battle. Leng Leng, who was standing at the side, finally reacted, her expression was one of shock and disbelief. She would never have thought that the Lin Yi she had been with for half a month would be a Foundation Stage master!

There were quite a few people who came out to the ancient martial world this time, but even if she didn't know all of them, she'd at least met them once. They'd have some impression of each other since they came to the common world together, after all. At least Leng Leng was sure that Lin Yi wasn't from the ancient martial world.

However, since they were not from the small Jianghu of the immemorial era, they must be the local cultivators of the secular world. Could it be that there were also experts of the heavenly Dao stage among them? This was completely different from what he had said before!

In the time it took for Leng Leng to be distracted, Lin Yi and health-maintenance Fei were fighting with their speed, and after a few exchanges, the victor was clear. Health-maintenance Fei, who was in the mid-Foundation Stage, was now puking blood from the fight!

But Lin Yi had to pay the price as well-he had a lot of injuries on him, and in order to kill him as soon as possible, he'd had to risk it all. Of course, it was a trade of light injuries, and he had the Jade space to back him up.

Bang! Bang! In the blink of an eye, health-maintenance Fei was hit by the wild fire thousand legs again and directly hung upside down on the wall. He looked like a human-shaped mural and couldn't move for a long time.

"Victory and defeat have been decided." Lin Yi was about to finish him off. Although his opponent had no strength to fight back, this wasn't the time to be merciful. Once the news that he was a primordial

spirit was passed to other Tiandao Masters, there would be endless trouble in the future. Who knew if sun Baimei was among them?

Lengleng stared at the scene in a daze, not reacting. Her heart was still in a state of shock, unable to accept the fact that Lin Yi was a Foundation Stage master.

She didn't care if he lived or died-even if Lin Yi didn't do it, she'd probably do it herself. After all, this guy was just like sun Baimei, trying to kill her-he was dirty too, and they were mortal enemies.

Chapter 5053 Ice-Shattering Constitution

"Don't ... Don't kill me!" Seeing Lin Yi approaching step by step, Fei Yangsheng was scared out of his wits. He couldn't even move normally because of his injuries, and it was impossible for him to escape from Lin Yi.

Lin Yi didn't bother with him and threw a wild fire Bagua Palm at his face. If there were no accidents, health-maintenance Fei would be dead for sure.

Unexpectedly, at this moment, Leng Leng suddenly shouted,""Be careful!"

Before he could finish his sentence, a pitch-black arrow shot in from the door silently. Its speed was extremely strange, and its target was Lin Yi, who was about to kill Fei Yingyang.

The black arrow came abruptly, and Lin Yi was lucky that he'd received the Jade's warning before Leng Leng's warning. He'd used his pure energy to move away, or he'd be dead for sure.

"Wayayaya, I've finally found you, primordial spirit. How dare you attack me in my face? Today is the day you die!" Sun Baimei immediately rushed in while screaming.

Lin Yi's heart tightened. His own energy bomb exploded on his face, and he fell from the fifth floor, but he still didn't die. This guy's life force was really strong, and he was much harder to deal with than the average late Foundation Stage master!

"What did you just say? He's a primordial spirit?" Leng Leng was shocked once more, Lin Yi's warning suddenly flashing through her mind. So it was real, not an illusion-this guy really wasn't a normal person!

"Of course he's a soul, but he'll soon be nothing. In front of me, any soul is just food for me to devour." Sun Baimei laughed.

Even though he had suffered quite a bit of injury, it did not change the fact that he was the natural enemy of primordial spirits. Any primordial spirit was like a helpless lamb in front of him, and he was destined to be a vicious Wolf.

As he spoke, sun Baimei lifted up his sleeve, and an unparalleled suction force came out from it. This move was specially used to restrain spiritual objects such as the primordial spirit. Even though Lin Yi was much stronger than half a month ago, he still couldn't stand still and was almost killed.

This kind of suppression was very difficult to deal with, and even Lin Yi couldn't think of an effective way to deal with it. His Yuan spirit body's ability to fight higher level enemies was already weaker than his real body, and now that the opponent was the natural enemy of spirits, there was no chance of winning against a late-stage Foundation establishment cultivator as an early Foundation establishment cultivator.

Fortunately, he'd used the energy bomb to stop the enemy, or he wouldn't have fought with him and run away like last time.

Using the same trick, Lin Yi swung his hand and tried to interrupt the opponent with a bolt of lightning. Last time, he was able to escape successfully because of this move other than the pure energy bomb.

However, sun Baimei was already prepared for this, and a plastic board appeared in his hand. The power of thunder and lightning was not strong to begin with, so it could not penetrate the thick plastic board at all. It did not have any reaction when it hit it.

"Wahahaha! A small trick! You stupid primordial spirit, do you think I will suffer the same loss a second time? I've already asked people from the secular world. As long as this thing is used to block it, no lightning will work!" Sun Baimei said proudly.

He was determined to get Lin Yi's yuan spirit body and had even researched on how to deal with it. One of them was how to deal with lightning. This move wasn't very powerful and would only paralyze him for a moment, but it was enough to interrupt his attack.

He didn't know what to do at first, but electricity was used too widely in the common world. Basically, as long as there were people, there would be electricity. He just had to grab a normal person and ask, and he'd know how to deal with electric shock. It wasn't hard for him to defend against Lin Yi's lightning.

Lin Yi grumbled at the sight-he'd just used a pure energy bomb to hit the guy, and he didn't expect the guy to come back with the same thing, all with a plastic board that could be found everywhere. He was pulled over in a second.

"I've said it before, the things that I've set my eyes on will never escape my grasp!" Sun Baimei laughed excitedly. As long as he could swallow this powerful primordial spirit, he would be able to break through to the Golden core realm directly. This was something he had been dreaming of!

"Don't even think about it!" At this time, Leng Leng, who was standing next to him, finally reacted. She did not care about her internal injuries and quickly helped him. She was not far from sun Baimei, who was at the door, so she turned around and swept her leg.

It didn't matter why Lin Yi was hiding it from her, or why he was trying to get close to her. Compared to sun Baimei and health-maintenance Fei, Lin Yi was clearly a friend and not an enemy.

Plus, Lin Yi had given her a lot of hints-the Supreme spiritual Jade, the divine sense, and even the stories he told her before. She thought he was just making things up, but now that she thought about it, Lin Yi was clearly giving her hints. She just didn't think about it.

Leng Leng's sudden attack caught sun Baimei off guard. However, the difference in strength between the late and early Foundation establishment cultivators was too great, so he didn't take Leng Leng seriously at all.

He continued to pull at Lin Yi with his sleeve, while his other hand swung the plastic sheet at Leng Leng. It wasn't sturdy at all, but once it was wrapped in his pure energy, it was still lethal.

Bang! Bang! Coold didn't even try to Dodge the kick, and spat out a mouthful of blood. However, her kick also landed on sun Baimei's chest, and sun Baimei took a step back with a muffled Humph. Just like Lin Yi's paid treatment, she chose to exchange an injury for an injury.

"You want to defeat me with such puny strength?" Sun Baimei coldly snorted in a domineering manner. After all, the difference in strength between them was obvious. Even if coold's performance was unexpectedly tough, it was still too naive to think that she could defeat him so easily.

Just like now, he was fighting against two people at the same time. Leng Leng was beaten to the point of spitting blood on the spot, but he only grunted and was not injured at all. The difference in their abilities had already determined the outcome.

However, sun Baimei immediately realized that something was wrong. A layer of ice quickly formed on his chest where he was kicked by Leng Leng. It would be fine if it was only frozen, but the key was that the layer of ice disappeared as soon as it formed. It was replaced by a penetrating chill in his chest. The surrounding area was frozen to the point that he lost all feeling, and even his heart seemed to stop beating!

"Ice ... Ice-shattering physique!" Sun Baimei's face turned extremely ugly as his chest suddenly became cold and stiff. His pure Qi couldn't flow smoothly, and he couldn't continue his suction force on Lin Yi. Lin Yi successfully escaped again.

Chapter 5054 Primordial Soul Blood Spirit Cat

"Ice-shattering physique?!" Lin Yi blinked as he looked at Leng Leng in shock. He'd heard about this Constitution on Sky Class Island-it was said that it was a rare ice element!

As one of the mutated spiritual roots, the ice-type spiritual root was one in a million, but this broken ice physique was an anomaly among anomalies.

Ordinary ice spiritual roots could condense ice, which was very useful for both attack and defense, just like Leng rufeng. However, people with the ice-shattering physique were different. Although they could

also condense ice, the whole process was very short, and once it condensed, it would immediately melt into nothingness.

However, just because he had an ice-shattering Constitution didn't mean that he couldn't compare to a normal ice-type spiritual root. In fact, it was the exact opposite.

Although it couldn't use formed ice as an offensive or defensive move, it had another more threatening characteristic. When the crushed ice melted quickly, it would form a terrifying effect that was almost instantaneous. Just like sun Baimei at this moment, his chest was frozen to the point that he almost lost feeling.

If this ability was really developed to the extreme, the power of the shattered ice physique was almost immeasurable. Lin Yi always thought that this ability was just a legend, but he didn't expect to see it with his own eyes today, especially with Leng Leng, whom he had been with for half a month.

This discovery made Lin Yi overjoyed. Originally, Leng Leng's early Foundation Stage strength wouldn't be of much help since she was injured, but since she had the legendary ice-shattering physique, even sun Baimei, who was in the late Foundation Stage, would be a threat to her. With Lin Yi's help, their chances of winning increased greatly.

As expected, sun Baimei's face was filled with fear. Last time, because he had launched a sneak attack, Leng Leng had chosen to run away after being injured. Therefore, he had subconsciously looked down on Leng Leng. It was only now that he had suffered a loss that he realized that Leng Leng's shattered ice physique was one of the top talents in the entire ancient martial world. She was definitely not to be underestimated.

Fortunately, the other party was only at the early Foundation establishment stage. If he was also at the late Foundation establishment stage, he would have died without a doubt from that kick.

Now that Leng Leng was bleeding from the plastic sheet, she couldn't move at all. Sun Baimei didn't hesitate to give up on Lin Yi and focus on her.

As far as he was concerned, Leng Leng's threat to him was far above Lin Yi 's. If she kicked him a few more times, he might be frozen alive. As for Lin Yi, he was just a mere spirit, he wouldn't be able to escape from her palm.

Sun Baimei smacked his chest, which had become cold and stiff, and forcefully circulated his true energy. He suddenly raised his other huge sleeve and aimed it at Leng Leng. However, it was not an unparalleled suction force. Instead, three pitch-black sharp arrows were shot out silently.

Coold's expression changed when she saw this. She tried her best to Dodge, but her agility was not as good as usual due to her injuries. She could not Dodge at all.

Fortunately, Lin Yi blocked in front of her in time and used three thousand raging fire kicks in a flash, causing all three arrows to miss. His reaction speed and timing were unbelievable.

Sun Baimei was dumbfounded. His heaven and earth arrow in his sleeve was a sneak attack, and it had always been accurate with every try. He never thought that someone could take three arrows in a row so easily, especially when it was only a primordial spirit!

"So ... So powerful ..." Leng Leng, who was behind him, was also stunned.

"How many times do I have to tell you, I'm a martial arts expert." Lin Yi turned around and chuckled. His strength was limited, but his eyes and battle experience were comparable to those of an opening sect leader. Dealing with a late Foundation Stage master's dirty moves was a piece of cake.

One could only say that sun Baimei had chosen the wrong strategy from the start. If he had used his level advantage and decided to fight them head-on regardless of the cost, then even Lin Yi wouldn't be able to do anything to him. Without enough strength, no matter how good his eyes were or how much experience he had in battle, he would only be a decoration.

But he chose to use this kind of dirty trick-he'd be humiliating himself in front of Lin Yi, and he wouldn't even know how he died.

As her eyes met Lin Yi's, the shock and estrangement in her heart disappeared instantly. Whether she was a normal person or a practitioner, the feeling she got after spending these days with Lin Yi wasn't wrong. Lin Yi was still the same Lin Yi who brought her food every day.

"You're bragging." Leng Leng pouted her lips as usual. A smile suddenly bloomed on her face. It was quiet, cold, and beautiful, devastatingly beautiful.

"You're still bragging?" Lin Yi couldn't help but smile as well. He was worried that this cold girl would have some bad thoughts and might part ways with him forever, but it seemed like his efforts in the past half a month weren't in vain. This cold girl was surprisingly reasonable.

"Of course!" Her injuries weren't light, but for some reason, Leng Leng's mood was lifted. She wouldn't have argued with Lin Yi like this before.

"Hmph, two guys who are about to die still have the mood to flirt? You guys don't really think that's all I have, do you?" Sun Baimei could not help but feel angry.

"Hehe, if you have any other moves, hurry up and use them. Otherwise, you won't be able to die in peace if you bring them into your coffin." Lin Yi smiled faintly.

It was true that he couldn't do much against sun Baimei alone, but now he had Leng Leng, who had the ice-shattering physique, to help him restrain her. As long as she could interrupt the move that was pulling at him in time, sun Baimei was no different from an ordinary Foundation establishment stage master in front of him. There was nothing to be afraid of.

"You're just a mere soul. I really don't know what you have to be arrogant about in front of me. Last time, you only managed to escape because I was caught off guard. Hmph, this time, I don't even need to move a single finger and you're dead for sure. " Sun Baimei sneered and suddenly waved his sleeves.

Lin Yi and Leng Leng were on guard at the same time-this guy had one sleeve that could suck away spirits, and the other one that could hurt people. Who knew if he had other tricks up his sleeve?

Meow! Meow! Meow ...

The strange meowing made Lin Yi and Lin Yi look at each other. A series of black cats came out of the other's sleeves, each one covered in blood-there were nine of them in total!

"These are all primordial spirits!" Lin Yi's eyes narrowed. These bloody black cats were like him, they were all essence spirit bodies!

"That's right, it's a primordial spirit! This is a blood spirit cat that I've spent a lot of effort on and killed countless Spirit Cats to successfully devour. They are the natural enemies of all spiritual creatures. Your primordial spirit is just ready-made food to them. I'd like to see how you're going to deal with my blood spirit cat!" Sun Baimei sneered proudly.

Chapter 5055 Good Eyesight

"Blood Spirit Cats ..." Lin Yi's expression turned serious. These nine blood Spirit Cats were only a little bigger than normal house cats. If it weren't for the blood on their bodies, they wouldn't be eye-catching, but now that they were staring at him with their strange eyes, Lin Yi couldn't help but feel numb as if he was being stared at by his natural predator.

Cats were mysterious creatures, and in legends, Spirit Cats were born with spiritual powers. These nine blood Spirit Cats were like ghosts that crawled out of countless Spirit Cats 'corpses. They were extremely evil. If there were ghosts in the world, they'd be eaten up in minutes, and Lin Yi was no exception.

The nine blood Spirit Cats surrounded Lin Yi in the blink of an eye, their strange meowing coming one after another. Even a living person like Leng Leng felt her hair stand on end, let alone Lin Yi who was only a soul.

"Get lost!" Leng Leng was afraid that Lin Yi would be surrounded, so she immediately kicked at the nearest blood spirit cat. However, the cat didn't Dodge, and Leng Leng's kick went through it as if it had hit air.

"Hahahaha, my blood Spirit Cats are primordial spirits. You're just an early Foundation establishment expert. What ability do you have to deal with primordial spirits? Do you really think that you're invincible just because you have an ice-shattering Constitution?" Sun Baimei laughed out loud when he saw this. Then, his face turned cold and he said, "Since I've released the blood spirit cat, this primordial spirit is dead. As for you, let me play with you."

After saying that, he shot out three pitch-black arrows from his sleeve. This was originally a shady move that could not be exposed to the public. After using it so many times in a row, her opponent would definitely be on guard against it. However, he was taking advantage of Leng Leng's injuries and her inability to move. This move alone was enough to kill her opponent. Moreover, his chest was still cold even now. He really did not dare to fight Leng Leng at close range anymore.

But he miscalculated one thing-Lin Yi, who was surrounded by nine blood Spirit Cats and couldn't even protect himself, appeared in front of Lengleng and kicked away three more arrows.

"Hmph, you're really not afraid of death. You're still thinking of being the hero to save the beauty at this time. Aren't you afraid that you'll be bitten to death by my blood spirit cat?" Sun Baimei mocked.

As expected, the moment Lin Yi used all his strength to block the three black arrows for Lengleng, the nine blood Spirit Cats pounced on him at the same time. They were even faster than Lin Yi, and in the blink of an eye, they were on Lin Yi's body, biting and scratching like mad Cats. Lin Yi's face and body were instantly covered in blood, and his Yuan spirit aura dimmed a lot.

"Lin Yi!" Leng Leng looked at the scene in shock. From her perspective, Lin Yi's entire body was covered by the nine blood Spirit Cats, blood and flesh flying everywhere. It was a tragic scene!

Leng Leng rushed over and tried to get rid of the blood Spirit Cats, but it was to no avail. The blood Spirit Cats were essence spirits like Lin Yi, but they weren't as solid as Lin Yi. Unless one had a special spirit sense or strategy, they couldn't be affected at all.

"Wahahaha! It's no use, you can only watch as he's bitten to death. Anyway, as long as it's a primordial spirit, it doesn't matter whether it's alive or dead!" Sun Baimei laughed coldly. He had changed his mind. Since Lin Yi wanted to save the damsel in distress no matter what, he would wait until the blood civet killed him first. There was no rush.

As long as the nine blood Spirit Cats were summoned, no Fey could survive in front of them. There were no exceptions.

"No... Don 't!" Although she knew it was futile, Leng Leng still desperately tried to get rid of the blood Spirit Cats on Lin Yi. She could accept that Lin Yi was only a soul, but she couldn't accept Lin Yi dying in front of her, especially in such a miserable way!

"Cry, cry as much as you want, but you don't have to worry too much. In any case, you'll be going down to accompany him soon. I'll be merciful and let you two be a pair of desperate lovebirds. Of course, I'll accept the item you have on you without any hesitation." Sun Baimei said with his arms crossed.

As he spoke, Lin Yi was already torn apart by the nine ferocious blood Spirit Cats. His essence spirit was showing signs of instability, as if it could collapse at any time. The situation was critical.

While Leng Leng's help was in vain, Lin Yi was also making his final struggle. He was surrounded by nine blood Spirit Cats, staggering and bumping around, and unknowingly, he was only three steps away from sun Baimei.

Sun Baimei didn't seem to mind at all. If it weren't for the nine blood Spirit Cats, he would've had to be careful with Lin Yi's strength before. After all, it was easy to be at a disadvantage again at such a close distance. But now, it was obvious that he was overthinking. In his eyes, even a moment longer was a luxury for Lin Yi to live, what threat was there to speak of?

At this moment, the nine blood Spirit Cats on Lin Yi's body suddenly started screaming. Their screams were already extremely horrifying, but now they were even more so. It was like the screams from hell.

"That's strange. Why are the blood Spirit Cats so excited all of a sudden? is it because they devoured this primordial spirit?" Sun Baimei could not help but feel a little surprised. He did not mind giving some of his primordial spirit to the blood spirit cat. After all, these were his trump cards. With the strength of this primordial spirit, only half of it was enough for him to break through to the Golden core realm.

He didn't even think about his blood Spirit Cats. They were designed to deal with Feys, and Lin Yi was about to be bitten into pieces. The only thing left was how much essence spirit would be left. Nothing else would happen.

That being said, the blood spirit cat's current state was indeed strange. Sun Baimei still felt a little uneasy and immediately wanted to summon one over to see what was going on.

However, before he could wave his hand, the shrill cries of the nine blood Spirit Cats suddenly broke through the sky. Then, a fierce flame suddenly sprang out of their bodies. They had been extremely fierce just a moment ago, but in the blink of an eye, they were burned to ashes by the flame.

"Pill ... Pill fire?!" Sun Baimei suddenly spat out a mouthful of blood. These blood Spirit Cats had been connected to his primordial spirit since they were tamed. Now that the blood Spirit Cats were burned to ashes, he would naturally suffer a great backlash.

"You have good eyes, but your reaction is too slow." Lin Yi hmphed coldly as he sent two raging fire Eight Trigram palms right into sun Baimei's face. Sun Baimei was sent flying, and not only did his teeth fall to the ground, but his face was also clearly crooked.

"Lin Yi!" Coold, who was standing behind him, was shocked and overjoyed when she saw this!

Chapter 5056 Heavily Injured

Her face was full of tears, thinking that Lin Yi was really dying. After all, the scene just now was too scary. No one thought that Lin Yi would survive after being bitten by nine blood Spirit Cats.

He didn't think that all of this was just an illusion. The blood spirit cat was strong, and it was the natural enemy of soul-type Feys, but they were also Feys themselves, and they were afraid of refinement fire just like other Feys. Even ghosts were affected by refinement fire, let alone them.

"I'm fine ..." Lin Yi forced a smile, his legs wobbly.

"Really?" Leng Leng's expression changed when she saw his weak appearance. She hurriedly wanted to support him, but she did not expect that her hand would feel light. Although there was still a bit of solid feeling, it was obviously different from usual.

The blood spirit cat's bite was a ruse to trick him, but Lin Yi still paid a heavy price. His essence spirit was on the verge of collapse, and it was very difficult for him to maintain his physical form.

"I didn't expect it to be the essence soul of a madman! You have the alchemic fire, but you didn't use it at the first moment. Instead, you tried to attack me with the nine blood Spirit Cats. Do you really want to die with me?" Sun Baimei, who was opposite him, stood up with difficulty.

First, he was blown away by the energy bomb, and now, he suffered the backlash from the blood spirit cat. On top of that, he took two wild fire Eight Trigram palms from Lin Yi at such a close distance. His injuries couldn't be any worse. It was a miracle that he could still stand up.

"Die together ... You overestimate yourself ..." Lin Yi forced a smile. He just needed to return to his body on Sky Class Island before his essence spirit collapsed. As long as he didn't want to die, no one in the mortal world could really kill him. At most, his essence spirit would be heavily injured.

"Oh, really? Do you think you've won just like that?" Sun Baimei gritted his teeth and raised his left sleeve, and the powerful suction force came again. Lin Yi couldn't resist it even in his peak state, and now that he was so weak, he couldn't resist at all.

Lin Yi was shocked. He didn't think that this guy would still have the strength to fight back at this point. He didn't know what would happen if he was really taken into the sleeve. The safest way was to cancel the primordial spirit form.

However, at this time, Leng Leng suddenly appeared in front of him. Although she could not move because of her injury, she still gritted her teeth and launched a self-sacrificing attack. Since sun Baimei would risk his life, wouldn't she do the same?

Sun Baimei's move was specially used to deal with spiritual objects such as primordial spirits. Even if it was effective against normal cultivators like Leng Leng, it would be greatly reduced. Moreover, it could only suck people in at most, but it was impossible to keep them in his sleeves, so it did not have any substantial lethality.

Not only was it useless, but it also pulled Leng Leng to his side even faster. He was simply seeking his own death.

Bang! Bang! Bang! Bang! Bang! Bang!

Leng Leng kicked his left arm, chest, and torso three times in a row. Sun Baimei's body was instantly covered in frost. The power of the ice-shattering physique was vividly reflected at this moment, and his whole body fell straight down.

Because of her injury, coold's attack was not powerful at this time, but the cooling effect of the ice-shattering physique was fatal. It was not something that sun Baimei, who was also seriously injured, could withstand.

"Hu ... Hu ..." Leng Leng had used up all her energy and knelt on the ground, panting. She managed to get up and looked at Lin Yi with worry.

Lin Yi had managed to stabilize himself, but he was much weaker and transparent than before. It felt like a gust of wind could blow him away, and he would soon become like any other spirit.

"Are you alright?" Both sides of Leng Leng's face were covered in tears. Even an idiot would know that something was wrong with Lin Yi's condition. His soul might be destroyed in the next moment.

"Sure, how can a man say no?" Lin Yi forced a smile and pointed at sun Baimei and Fei Yangsheng, "Let's deal with these two people first. We can't suffer the same loss twice."

"Okay, wait for me." Leng Leng nodded. Although she was also severely injured, she was the only one who could move at the moment. Both sun Baimei and health-maintenance Fei had been beaten to the point where they could not move at all.

Leng Leng walked over with difficulty, but sun Baimei, who was supposed to be frozen and waiting for death, suddenly jumped up. This scene gave Lin Yi and Leng Leng a big scare-this guy was an undying cockroach!

However, sun Baimei didn't attack them after he jumped up. Instead, he pulled health-maintenance Fei, who had fainted prematurely, and the two of them jumped out of the shattered window.

Leng Leng quickly chased after them to the window, only to find that the two of them had already landed on the ground. They did not fall to their deaths or faint from the fall. Instead, they rolled, crawled, and limped out of the residential area.

"These two people's life force is really tenacious." Lin Yi also walked over with light steps, shaking his head and smiling bitterly at the scene. Whether it was health Fei or sun Baimei, they were both people who were supposed to die in his eyes. He didn't think that the two could still escape like this. He really didn't know what to say.

"Do you want me to go after him?" Leng Leng knew the consequences of letting the two of them go. She ignored her internal injuries and immediately gave chase.

"Forget it, don't chase after a cornered enemy." Lin Yi shook his head. He could consider it if Leng Leng wasn't injured badly, but even if she caught up to them, sun Baimei might still have the energy to fight to the death. Or perhaps other cultivators were attracted by the battle just now?

The risk was too great, so he could only choose to let the two go.

"Alright then ..." Coold nodded in agreement. She wasn't afraid of getting into danger, but Lin Yi's current condition made her worried. "Quickly go back to the inner room, it's windy here."

"Are you really afraid that I'll be blown away by a gust of wind?" Lin Yi smiled bitterly as Leng Leng helped him back into the house.

Although this was a bit of an exaggeration, in reality, he wasn't far from this step. He could already clearly feel that the spiritual connection with his main body was growing weaker and weaker! According to the teleportation Hall's steward sun, once this sign appeared, he had to remove his primordial spirit body as soon as possible and return. Otherwise, once he completely lost contact with it, he would be finished.

"Tell me the truth, can you recover from this kind of injury?" Leng Leng looked at Lin Yi seriously.

Lin Yi forced a smile, but before he could say anything, Leng Leng suddenly pounced on him and started crying. This cold girl who kept people at arm's length hugged him so tightly that she started crying.

Chapter 5057 A Cold Confession

She wasn't an idiot-she didn't know anything about spirits, but anyone with eyes could tell that Lin Yi's condition was only a step away from complete destruction. She couldn't imagine someone with no family or friends would "risk their lives" for her!

Especially when this was just a primordial spirit. It risked being tamed by sun Baimei and bitten to death by the blood spirit cat to stand in front of her. Recalling the bits and pieces of the past half a month, the soft spot in Leng Leng's heart was touched for the first time.

"What do we do? What should I do ..."Tears kept flowing from her cold eyes as she desperately tried to get Lin Yi to tell her the way to save her! She didn't know about these things herself, but she believed that Lin Yi, as an essence spirit, would know. As long as there was a way, she would do anything to save Lin Yi.

"It's okay, don't cry. " Lin Yi smiled as he reached out to wipe her tears. It wasn't the time for the moon to shine, but he was still stunned by Leng Leng's beauty. Some people said that a woman's tears were the most pitiable, especially for a strong and beautiful woman like Leng Leng. Even Lin Yi couldn't resist the destructive power of her.

"How can you be fine?" Leng Leng grabbed onto Lin Yi's hand, her tears still flowing down. She really didn't know what to do, and could only wait for Lin Yi to give her the last straw to clutch at.

"I'm really fine. Listen to me. My primordial spirit is dying. Although sun Baimei and health-maintenance Fei are seriously injured, they won't give up. They'll definitely come back with more people. You won't be able to run far with your injuries. I'll treat you first." Lin Yi said as he forced himself up.

At this point, Lin Yi knew that there was no turning back. He spent so much effort to project his spirit into the mortal world, and in the end, he died before even seeing Lingshan and the others. This was a result he didn't expect, but he didn't regret it at all. He was never one to regret.

At most, he would go back and cultivate again for a while, then ask the AO Tian state to help him project again! Lin Yi's advantage was that his spirit sense was much stronger than those of the same level. Even if he lost a lot this time, as long as he recovered a little, it wasn't hard to project his spirit again.

However, he was a little worried about Leng Leng right now. It was impossible for him to completely heal her injuries in his current state. After all, even her primordial spirit body had begun to become ethereal, and it was very likely that it would collapse during the treatment process. The only thing he could do now was to heal as much as he could so that Leng Leng could regain a certain amount of self-protection power.

"Don 't!" Leng Leng refused with tears in her eyes. She was heavily injured, but at least her life was safe. Lin Yi would only die faster if he treated her in this state.

"Be good, I don't have much time." Lin Yi said with a bitter smile.

"Don't die! What am I going to do if you die? We haven't checked into a room yet. " Leng Leng had lost her girl's decorum-she had to do everything she could to get Lin Yi back, even if there was only a one-in-a-million chance. If Lin Yi gave up on himself, it would be over for her.

"Getting a room ..." Lin Yi was a little surprised, but at the same time, happy. Leng Leng's heart was completely on him now. "It's fine. Tell me where you are and I'll definitely come find you. Even if my primordial spirit body crumbled, I can reform it after cultivating for a while. I won't die. "

He was telling the truth, but it sounded like a fantasy to Leng Leng. After all, she didn't even know enough about the essence spirit, let alone the projection of the essence spirit. Lin Yi's words were just empty words to comfort her. In order to make Lin Yi last longer, she wouldn't let Lin Yi heal her no matter what.

Lin Yi didn't know what to do. A class four great recovery pill appeared in his hand out of thin air. He hesitated for a moment before taking out a class five great recovery pill and putting it in Lengleng's hand, "A class 5 great recovery pill is too powerful. You might not be able to take it in your current condition. Take a class 4 great recovery pill first to recuperate, then a class 5 great recovery pill. You should be able to recover in this way. Listen to me and run. Sun Baimei might bring people back at any time."

Only the heavily injured sun Baimei and health-maintenance Fei weren't a threat to them in the short term. What they were worried about was that they'd find other heavenly Dao Masters to help out in a moment of desperation. Lin Yi and Leng Leng wouldn't be able to do anything to any Foundation Stage master in this situation.

Leng Leng looked at the pill in his hand and was instantly shocked. What kind of person was this? he actually had a fifth ranked pill on him and gave it to him so casually?

One had to know that fourth-grade pills were already very rare. As far as she knew, they only existed in the small Jianghu in the ancient times. It was impossible for them to exist in the normal secular world!

Of course, there wouldn't be a monster like Lin Yi in the common world under normal circumstances. A spirit that was as strong as a Foundation Stage practitioner was something they'd never seen or heard of before!

"Who are you?" Leng Leng couldn't help but ask again. No matter what Lin Yi's background was, she had accepted Lin Yi's existence from the bottom of her heart, but she still had to get to the bottom of this.

"I've told you before, I went to an Island from the common world to learn Arts. I'm not joking around, I'm telling the truth ..." Lin Yi shook his head with a bitter smile. He didn't have time for Leng Leng to digest this. "Alright, don't worry about this for now. Hurry up and eat."

"No, you eat. You'll be fine after you finish. I'm not eating!" Leng Leng shook her head firmly. She finally believed Lin Yi's words last time. A real couple could really think for each other wholeheartedly, even if it was the most important thing to them. That was what she was feeling right now.

"It's no use. I'm a primordial spirit. These things are useless to me. Besides, I won't die. " Lin Yi said as he forced the two pills into Leng Leng's mouth-something really might happen if he kept talking.

Leng Leng was caught off guard and her eyes widened. She only regained her composure after she swallowed the pill. She exclaimed in shock, "That's such a waste. How can you let me eat two at once?"

She knew her own injuries! In fact, she only needed a fourth-grade great recovery pill. After a month of recuperation! It would definitely be enough for her to recover. In the end! She had taken an extra fifth-grade great recovery pill. Wasn't this a waste of God's gift?

Chapter 5058 Leave The Treasure Behind

"It's not a waste. I have a lot of these things. " Lin Yi said as he pulled out a bunch of pills from thin air. There were tier four great recovery pills, Foundation-breaking pills, golden pills, and so on. They were all pills that Leng Leng could use. These were all the pills he'd saved up from before, and it was rare for him to use them this time.

"Ugh ..." Leng Leng was dumbfounded. She didn't know what to say as she looked at Lin Yi. None of these pills were ordinary. They were treasures that people would fight over in the ancient martial world. She had never even seen some of them before.

Leng Leng couldn't help but wonder again-just who was Lin Yi? how did he get his hands on all these super precious pills like they were free candy?

While Leng Leng was still in shock, Lin Yi took advantage of the fact that his Yuan spirit body hadn't completely collapsed to pour all his Qi into her body to dissolve the effects of the medicine. At the same time, she took a grade five and a grade four great recovery pill. He was afraid that Leng Leng wouldn't be able to hold on, so he had to help her dissolve the effects of the medicine as much as possible. Only then could she rest easy.

Feeling the warm Qi coming from Lin Yi's hand, Leng Leng was touched, but worried at the same time. Lin Yi was clearly using up the last of his life force!

She wanted to stop Lin Yi, but she didn't dare to. She was afraid that Lin Yi would bite back if she interrupted him, and the consequences would be even worse.

The only thing Leng Leng could do now was to cry silently. She really wanted to turn around and hug Lin Yi, even if she didn't do anything. She wanted to do this forever.

Finally, Lin Yi retracted his pure energy, and Leng Leng could clearly feel Lin Yi's weakening. She couldn't feel Lin Yi's hand on her back anymore, and she didn't even dare to imagine what that meant.

"Lin Yi ..." Leng Leng turned around to hug Lin Yi, only to realize that he was no longer behind her. A voice came from outside the window.

"I'm leaving, you should leave as well. We'll meet again very soon. " Lin Yi was now in a half-spirit state, and he could almost float in the air. Any breeze could blow him far away.

Leng Leng quickly rushed to the window, trying to find Lin Yi but to no avail. She shouted, "I can only stay here for a year. My home is in Shennongjia, and there's an entrance to the ancient Jianghu. You have to find me! I'll wait for you!"

Lin Yi didn't reply-he couldn't help but wonder what sort of place the ancient martial world was.

However, on second thought, since the secular world had an ancient level, then it was not strange for there to be an even more ancient immemorial level. However, this place must be isolated from the world, and under normal circumstances, it would not affect the secular world.

If it weren't for the current situation, Lin Yi would've stayed behind to ask Leng Leng for an explanation, but he didn't have the time. What he needed to do now was to dissolve his essence spirit and return to Sky Class Island, and then cultivate and re-project. It wouldn't be too late to understand this then.

Lin Yi didn't reply, but Leng Leng didn't give up. She suddenly thought of something and shouted, "You wait! I also have something good for you!"

After a while, Lin Yi still didn't show up. Leng Leng said, ""I know you haven't left yet. I'll put it here and you can take it yourself!"

After saying that, she carefully took out a small box from her inner shirt and placed it on the table. She thought for a moment and said, ""I don't know whether this thing is useful to you or not, but sun Baimei tried every possible way to snatch it from me. He specializes in cultivating his spiritual awareness, so I think it should be useful to his primordial spirit!"

To sun Baimei, other than Lin Yi, who had a strong essence spirit, the thing he wanted the most was the one in Leng Leng's hands. To some extent, this thing was even more valuable than Lin Yi, who had a strong essence spirit ready to be used.

However, this was a long-term consideration. For sun Baimei's current level, the effect of Lin Yi's strong spirit was more obvious. After all, as long as he devoured Lin Yi, he would be able to break through to golden core directly. The thing in Leng Leng's hand didn't have such an effect.

There was still no response from Lin Yi, but Leng Leng was certain that Lin Yi hadn't left. She continued to explain, "This was something my master gave me before I left. He told me to use it to consolidate my spiritual sense in the secular world in preparation for the Golden core stage in the future ... This thing is very rare. My master only has this for many generations. It was only passed on to me because I was one of the disciples most likely to break through to the Golden core stage ..."

Leng Leng knew that she had violated the sect's rules. Although this item was passed to her, it was still the sect's treasure. She had no right to give it away without the sect's permission, but she couldn't care about that now. She was willing to give up everything for Lin Yi, let alone this treasure.

After saying this, Leng Leng waited for a moment, hoping to hear Lin Yi's voice. Unfortunately, Lin Yi didn't appear. She knew that if she didn't leave, Lin Yi probably wouldn't show up.

"I'm leaving, you must come and find me!" Leng Leng cried out bitterly. She glanced at the empty house before leaving with tears in her eyes.

Leng Leng's guess was right-Lin Yi didn't leave just like that. Although his top priority right now was to disband his essence spirit and return to Tianjie Island, he had to make sure that Leng Leng left this place safely before he could rest assured. He was actually in his room next door, watching her every move, but she didn't notice it herself.

After Leng Leng left, Lin Yi walked back with weak steps and saw the box on the table. He didn't know why, but he was suddenly energized, as if the thing was summoning him, a great attraction.

Could this be some kind of evil thing? Lin Yi's heart skipped a beat-he couldn't take any more torture in his current state, but he quickly threw that thought to the back of his mind. If this thing was really harmful, why would master Leng Leng pass it on to her? after all, she had no reason to harm her disciple with the most potential, right?

Since he could disband his Yuan spirit if anything happened, Lin Yi carefully opened the box. There was a dark purple thing inside, and it looked like a piece of charcoal. It didn't look special at all, but when he got closer, he was shocked-there was a lot of spirit sense energy inside!

Lin Yi thought that his spirit sense wasn't weak, and even the thing called him a rare monster. But compared to the spirit sense energy in this purple Coke, it was like a drop in the ocean. There was no comparison at all.

Chapter 5059 Star Black Coal

If the ghostly thing had not fainted, it would definitely exclaim in surprise when it saw this item. This was actually the legendary Star Black charcoal!

It was unbelievable that something that even Sky Class islands might not have had appeared in the common world-it was a peerless treasure used to strengthen one's spirit sense, and an excellent aid for breaking through to the giant tier. Only with this could one have a chance of breaking through to the perfect giant tier!

However, such a high-level treasure had actually appeared in the secular world, and it was actually given to a mere Foundation Stage expert to use to consolidate his spiritual awareness and attack the Golden core stage. If this was known by people who knew about this, they would definitely laugh their teeth off. Let alone a mere Foundation Stage or golden core stage expert, even the spiritual awareness of a Yuanying stage expert was not qualified, so how could they use Star Black charcoal?

It was like a primary school student who had not even fully mastered the four arithmetic operations suddenly being given an advanced mathematics textbook and told him that solving the questions in it would improve his grades. This was not only nonsense, but it was also harmful!

Once a primary school student really opened this advanced mathematics supplementary book, there would normally only be two results. Either the study of the most basic four arithmetic operations would be affected, or they would be frightened by the difficult and difficult advanced mathematics students and become uncomfortable.

However, sometimes there would be a Third kind of people who could still maintain their original heart after witnessing the vastness and profoundness of advanced mathematics. Not only were they not frightened, but they became more motivated and learned better and faster than others. However, these people were very rare because they were the geniuses that ordinary people called geniuses.

In terms of spirit sense, a Foundation Stage master like Leng Leng was like a primary school student, while Lin Yi, an early stage mysterious Ascension master with an abnormally strong spirit sense, was at least a high school student. It was just the right time to get the star Ink charcoal.

Especially now that his soul was heavily injured, he needed to quickly replenish his spirit energy. Only then could he stabilize his soul again. This Star Black coal was like coal in the snow-the spirit energy it contained was more than enough for Lin Yi.

Lin Yi was overjoyed. He sat down cross-legged without hesitation and started absorbing the spirit energy from the star Ink charcoal. If everything went well, he wouldn't even need to disband his Yuan spirit and return to Sky Class Island. He could recover here!

A Foundation establishment stage expert wouldn't dare to do such a thing, let alone Leng Leng. Even sun Baimei, who specialized in primordial spirit cultivation, didn't dare to do it. Otherwise, this huge spiritual energy could instantly destroy his primordial spirit, and even if he didn't die, he would become a fool.

But Lin Yi didn't care. As long as he maintained his heart and didn't go too far, he could completely turn this spiritual energy into a part of his spirit without any harmful interference. Of course, this process was easy to say but it was actually very difficult to do.

If possible, Lin Yi would find a safer and more hidden place, but he couldn't care about that now. He might collapse before he found a place. He could only stay in the room and take the risk.

Lin Yi didn't know how much time had passed since he started cultivating-he only opened his eyes when he sensed a couple of auras that he was afraid of entering the area.

Originally, his primordial spirit was already on the verge of collapse and would collapse at any time. However, at this moment, his primordial spirit had unknowingly become solid and heavy again. Not only that, his entire body exuded a pressing aura and he was even more powerful than before!

"It's indeed a rare treasure in this world. This feeling is really good!" Lin Yi kept the star Ink charcoal and stretched his limbs, feeling refreshed. He didn't mind the approaching auras at all and continued to wait in the room.

Through His Spirit sense, Lin Yi could clearly see that there were three people. As expected, it was sun Baimei and health-maintenance Fei. The other person was a cold-looking middle-aged man, who had a similar aura to sun Baimei. Lin Yi felt that they were the same kind of people.

In the blink of an eye, the three of them had arrived at the entrance of the district. Sun Baimei and health-maintenance Fei's injuries seemed to have mostly recovered. As for the middle-aged man they had found, his aura was stronger than sun Baimei 'S. He was an expert at the peak of the late Foundation establishment stage.

"Senior brother Yin, I'm really sorry to have called you all the way here, but I've really encountered some trouble, so I have to ask for your help." Sun Baimei said as she walked.

With his and health-maintenance Fei's strength, a late-stage Foundation master and a mid-stage Foundation master should be more than enough to deal with Lin Yi and Lengleng, but they suffered a huge loss last time and almost lost their lives. He still felt a lingering fear when he thought about it today.

In their eyes, Lin Yi and Leng Leng were lunatics who didn't care about their lives. It was hard for them to deal with the two of them alone, and it was impossible for them to escape unscathed. Especially after sun Baimei lost the blood spirit cat that he was so proud of last time, he lost his most powerful means to counter soul spirit items. They had no confidence in facing Lin Yi.

So after thinking about it, he decided to invite this senior brother Yin to play it safe. Although it was inevitable for him to get a share of the loot, he would at most split Lin Yi's essence spirit with him. As for the treasure on Leng Leng, as long as sun Baimei didn't mention it, how would senior brother Yin know?

"In the letter, you said that you met a powerful primordial spirit, and this primordial spirit can materialize, and its strength is comparable to the peak of the early stage of the foundation building realm?" Senior brother Yin asked with a serious expression, his eyes filled with unspeakable excitement.

He was from the same sect as sun Baimei, and the cultivation technique he practiced was the same. Spiritual objects such as primordial spirits were of great use to sun Baimei, so it was naturally the same for him. Otherwise, why would he come all the way here? One had to know that there was a competitive relationship between the two of them, both in the open and in the dark. They were not as close and harmonious as they seemed on the surface.

"That's right, and this guy is also colluding with Leng Leng. Last time, it was the two of them who joined forces to attack brother Fei and me. We were seriously injured and almost fell for their trap!" Sun Baimei complained.

"Leng Leng? The legendary woman with the best potential to reach the Golden core stage?" Senior brother Yin was stunned. He pinched his chin and asked, "I heard that she's a rare beauty. Why would she be with a primordial spirit? besides, why did they attack you for no reason?"

"This one might be trying to kill her and steal her treasure. After all, she's only an early Foundation establishment expert. She thought that by killing brother Fei and me, she would be able to obtain a lot of cultivation resources. As for that primordial spirit, her intentions are even more vicious. That guy actually wanted to possess her body!" Sun Baimei said through gritted teeth.

Chapter 5060 Why Are You Leaving?

"There's such a thing?" Senior brother Yin was taken aback. Primordial spirits with possession abilities were not easy to deal with. No wonder sun Baimei and health-maintenance Fei were at a disadvantage. However, if that was the case, it proved that this primordial spirit was indeed extremely powerful. If they could devour it, there was no doubt about the benefits.

"It's absolutely true. That's why you must seek justice for us, senior brother Yin!" Sun Baimei and health-maintenance Fei both had good acting skills, and they looked like they had been greatly wronged.

"Hmph, don't worry. With me here, what can a mere primordial spirit at the peak of the early Foundation establishment stage do?" Senior brother Yin sneered. Primordial spirits and other spiritual objects had always been prey that he hunted down. In front of him, primordial spirits were just food for others to devour. What could they be considered?

Lin Yi was observing everything from his room upstairs, and his lips twitched when he heard sun Baimei's words. Sun Baimei was really good at bullshitting, and Ren Zhongyuan and the others were all the same. Were all villains that good at bullshitting? was it their innate skill to sow discord?

A moment later, the trio arrived at the door and kicked it open without hesitation, spotting Lin Yi lazily reclining on the sofa.

"Yo, you're here." Lin Yi didn't even look at the three of them as he focused on the TV. It'd been three years since he last watched TV, and he still felt close to them.

"You didn't leave?" Sun Baimei was shocked. Although he asked Yin Shixiong for help, he didn't have much hope of finding Lin Yi and Lin Yi. After all, they were seriously injured last time. If it were him, he would've run away to a safer place. Why would he stay and wait for death?

He didn't expect that this primordial spirit really didn't leave. He was really stupid to a certain level. Did he think that he could rest easy after making him suffer a big loss last time?

"Leave? Why should I leave?" Lin Yi's eyes were still on the TV, and he didn't even turn his head. "You don't think I'll be scared off by you two losers, do you? Stop it, I still want to watch TV. "

"Hmph, you're quite arrogant. You're indeed an impressive primordial spirit. It's really right to come this time!" Senior brother Yin had a fanatical expression on his face. Just like sun Baimei, he was very greedy and fanatical about any primordial spirit spiritual item, and he had absolute confidence in it.

"Where's that coold? Don't tell me he is hiding?" Sun Baimei went around a few rooms, but couldn't find Leng Leng. He was worried. He was determined to get Lin Yi's soul, but he also had to get Leng Leng's treasure. After all, in the long run, the value of that treasure was above the soul!

"Oh, she went back to the ancient martial world." Lin Yi said faintly.

"What? The ancient passageway will only close after a year, and only a month has passed. How could she have returned so quickly?" Sun Baimei was shocked. If he wanted to snatch that treasure from Leng Leng, his only chance would be to train in the secular world. Once he returned to the small Jianghu of the immemorial era, his chances would be slim, especially if Leng Leng's master found out about this. He might even be in trouble.

The ancient passageway? Lin Yi raised a brow. He was testing the waters with that, and it worked. But just what were these ancient rivers and lakes and ancient passages?

"Junior Brother Sun, it doesn't matter if Leng Leng ran away. At most, we'll just go back and inform her sect to punish her on her behalf. There's no need to be so calculative, is there?" Senior brother Yin interrupted. He didn't know about the treasure on Leng Leng's body, so it naturally didn't matter to him. His only target was the powerful primordial spirit in front of him.

"This ..." Sun Baimei and Fei liangwei looked at each other. Since they had already lied, they didn't dare to change their minds. They could only look at each other and nod helplessly. For now, they had to deal with this primordial spirit first. As for coold, they could only think of a way later.

"Since senior brother Yin has said so, let's deal with this primordial spirit first. However, this guy can control alchemy fire. Last time, he burned my blood spirit cat completely. Senior brother Yin, you must not be careless." Sun Baimei reminded. With the three of them fighting Lin Yi, the chances of them failing were low, but they still had to be careful.

"Pill fire? A primordial spirit can actually control pill fire. This is really an anomaly. Interesting. " Shixiong Yin was interested, but it was clear that he didn't really take Lin Yi seriously. They were Masters in subduing spiritual beings, so why would they be afraid of a mere essence spirit?

Lin Yi interrupted impatiently. "You guys are so annoying. Can't you just let me watch TV for a while? do you have any public morality?"

F * ck! Senior brother Yin and sun Baimei's faces turned black at the same time. They were just lucky to have been tricked by him last time, but this primordial spirit was actually so arrogant. Did he really think that they couldn't do anything to him?

"Go to hell!" Sun Baimei couldn't help but start the fight first. Last time, he lost not only because of the ice-shattering woman, but also because he underestimated his opponent. If it was a one-on-one, he didn't think he would lose to a primordial spirit like Lin Yi, not to mention that there was an even stronger Yin Shixiong behind him.

This time, he went all out. He used the heaven and earth arrow in his left sleeve and the Holy skill in his right sleeve at the same time. Although he didn't have the nine ferocious blood Spirit Cats, sun Baimei's

power was unprecedentedly fierce. It was completely different from his previous style of only waiting for an opportunity to launch a sneak attack.

"So fierce? It seems like you don't want me to watch TV. " Lin Yi sighed.

If it was before, he would have to think twice even if sun Baimei was alone, let alone the more powerful helper behind him. Especially in this situation, he had to avoid the sharp edge. After all, the soul retrieval skill in the right sleeve was already quite troublesome, not to mention the universe arrow in the left sleeve!

However, things were different now. Masters like sun Baimei still posed a big threat to Lin Yi, but their strengths were completely reversed. Lin Yi didn't have to be as cautious as before.

With a slight movement of his body, Lin Yi easily dodged his opponent's sleeve heaven and earth arrow. In the next moment, his entire body appeared in front of his opponent, so fast that no one could react.

Sun Baimei was overjoyed-he thought Lin Yi had been pulled over by his [soul retrieval], but Lin Yi stopped right in front of him and pressed his hand on his face without warning ... "
