

## Bodyguard 5061

### Chapter 5061 The Arrogant Primordial Spirit

Then, he used the wild fire Eight Trigram palm, which was much more powerful than before.

Bang! Bang! Just like that, sun Baimei fell to the ground. His face was charred black, and he died with his eyes wide open.

The room was in a strange silence. Senior brother Yin and health-maintenance Fei both looked at sun Baimei on the ground with blank eyes and didn't respond for a long time.

After a long time, the two took a step back and looked at Lin Yi as if they were facing a great enemy. They sucked in a cold breath at the same time. Senior brother Yin was still fine, but health-maintenance Fei was scared out of his wits. When did this primordial spirit become so strong?

"The peak of the late Foundation establishment stage! You dare to lie to me?" Yin Shixiong glared at Lin Yi, gritting his teeth. Sun Baimei said that Lin Yi was only at the peak of the early Foundation Stage, so why was there such a huge difference? the two concepts were completely different, and Yin Shixiong himself was only at the peak of the late Foundation Stage.

"No... No, I don't know. He was only at the peak of the early Foundation establishment stage before. Otherwise, Brother Sun and I wouldn't have been able to escape alive last time ..." Health-maintenance Fei stammered. Only half a month had passed, and he couldn't figure out how this primordial Spirit's strength had suddenly skyrocketed to the peak of the late Foundation establishment stage.

In fact, it wasn't just them who didn't think of it, even Lin Yi himself didn't think of it. A piece of unsightly charcoal not only allowed him to re-form his primordial spirit, but also recovered his strength so quickly. If he knew this would happen, he wouldn't have let Leng Leng leave.

Of course, Leng Leng would never have thought that the charcoal would be so useful. A treasure of the level of the star Black charcoal would be wasted on an early Foundation Stage cultivator like her. If she really wanted to use it, she would have to wait until she reached the xuansheng stage. It was still unknown whether there was an existence of such a level in the ancient martial world, let alone for her to advance to the xuansheng stage with her own strength.

Speaking of which, if there really was a xuansheng stage expert in the ancient martial world, a treasure like the star Black coal would not normally appear on her. Perhaps even her sect didn't know what this thing was, which was why they had rashly handed it over to an early foundation building disciple like Leng Leng. Otherwise, they would clearly be harming her.

"This is all thanks to you guys." Lin Yi smiled coldly at sun Baimei, who was lying on the ground with his eyes wide open. He had to kill an enemy like sun Baimei, who was a huge threat to him, no matter what. Not only sun Baimei, but also his senior brother Yin. After all, these people were Lin Yi's natural enemies, and there was no possibility of co-existence between them.

"What an arrogant primordial spirit. You can't possibly think that everything will be fine after killing junior martial Brother Sun, right? could it be that I, a peak late Foundation Stage expert, am a good-for-nothing?" Senior brother Yin sneered.

Their lineage specialized in suppressing spiritual objects such as primordial spirits. Normally, they could easily crush even those of the same level. A materialized primordial spirit at the peak of the late Foundation establishment stage was no small matter, but in his eyes, it was nothing.

He was even a little happy that no one would fight with him over sun Baimei's death. He could have this powerful primordial spirit all to himself, which was a good thing that he could not ask for more.

"We'll know who's the arrogant one after we fight. Hurry up. It just so happens that it's commercial time now. I'm in a hurry to watch the TV later. " Lin Yi glanced at him indifferently. Although the yuan spirit body was far weaker than the main body, and it wasn't as easy to challenge someone of a higher level as the main body, he wouldn't be Lin Yi if he couldn't even take down a master of the same level.

"You're looking for death!" Yin Shixiong was enraged by Lin Yi's words, and he was only three steps away from Lin Yi. A short knife appeared in his hand, hidden under his sleeve, and he swung it at Lin Yi.

"What kind of sect is this? why do you all like to sneak attack and hide things in your sleeves? there's nothing new about this." Lin Yi smiled faintly and dodged.

Although his tone was relaxed, he was not careless at all. This senior brother Yin was indeed a lot stronger than sun Baimei. The short knife was used like a ghost, and the key was that there was a layer of faint aura on it. It seemed that it was specifically targeted at primordial spirit spiritual objects. Once it was slightly cut, the consequences would be unimaginable.

"Hmph, do you think you can escape from me?" Senior brother Yin snorted coldly and immediately chased after him like a shadow. A mere short knife was played with by him with a majestic aura, and his attacks were like a storm.

At that moment, Lin Yi was in danger. He was like a small boat in the middle of a storm, ready to be destroyed at any moment.

However, what made Yin Shixiong speechless was that Lin Yi looked like he was on the verge of death every time he attacked Lin Yi, but he always managed to get through it. Even when Yin Shixiong's crazy attacks were getting a little difficult to carry on, he still couldn't hurt Lin Yi at all. This result was really depressing.

"No way? He couldn't do it so quickly? It hasn't even been three minutes. Don't you feel embarrassed as a man?" Lin Yi saw that the guy had stopped his attack, and he started taunting him mercilessly.

"You!" Senior brother Yin almost spat out a mouthful of blood. He had indeed used all his strength just now, but the speed of this primordial spirit was ridiculously fast. It seemed to be able to predict his movements in advance. Every time he changed his move, which should have been unavoidable, it was dodged by the other party in advance. How could he fight?

"We can't go on like this." Senior brother Yin suddenly thought of the blood spirit cat. He naturally knew what sun Baimei knew, but he was afraid of his alchemy fire, so he didn't dare to use it.

But there was no other way now. He couldn't kill Lin Yi on his own. He had to get a few blood Spirit Cats to hold Lin Yi down. As long as he got the chance, he could easily tear this soul into pieces.

With a thought, senior brother Yin immediately summoned three blood Spirit Cats. Although they were not as many as sun Baimei, they were much stronger in terms of individual strength. Once these things were destroyed, he would suffer the backlash of his primordial spirit. Quality was more important!

"What are you doing? Aren't you going to attack me together?" At the same time, senior brother Yin also scolded Fei Yangsheng, who was hiding behind watching the show.

"Oh ..." Fei Liangyang responded weakly, but he didn't dare to come closer, as if his feet were rooted to the ground. He only made a gesture from a distance.

Even sun Baimei, a late-Foundation Stage, was killed in one move-he was only a mid-Foundation Stage, after all. He knew this very well, and so no matter how Yin Shixiong yelled, he'd just put on an act-he wouldn't really risk his life.

"Trash!" Seeing this, senior brother Yin cursed hatefully, but at this time, he couldn't force Master Fei. After all, master Fei was not from the same sect as him. What right did he have to order him?

#### Chapter 5062 A Few Questions

He couldn't count on health-maintenance Fei anymore, but with the three blood Spirit Cats, Yin Shixiong wasn't afraid of Lin Yi doing anything. If Lin Yi dared to use his refinement fire against his blood Spirit Cats, he'd definitely expose himself during the process, and he'd be chopped into a pile of essence spirit fragments by Yin Shixiong's knife.

Yin Shixiong immediately ordered the three blood Spirit Cats to attack. The room was only so big, and he thought that no matter how fast Lin Yi was, he couldn't Dodge it. However, Lin Yi suddenly stopped.

"Oh, the commercial is over so soon. I have to hurry up." Lin Yi glanced at the three blood Spirit Cats and grinned at Yin Shixiong, "You people seem to like keeping cats, and each one is uglier than the last. But I'm different, my cat is much bigger and better than yours."

"What did you just say?" Yin Shixiong's face changed, thinking that Lin Yi was bluffing when he heard a deep Dragon's Roar.

A flood Dragon formed by the killing intent of the five elements appeared out of thin air. Without waiting for the three blood Spirit Cats to retreat, it pounced on them and gave them a merciless chase. It bit one to death with its mouth, scratched another to death with its claws, and swept another to death with its tail. The three blood Spirit Cats were killed in a flash.

This was just a normal five elements killing intent, not the eight trigrams killing intent. However, using it against a mere Foundation Stage practitioner was overkill. Lin Yi could only use it now after his strength increased greatly. If it was half a month ago, he wouldn't even be able to use one killing intent even if he combined all his Qi.

"You see, they're of a different class. In my next life, I'll have a fiercer pet. That way, I can scare people." Lin Yi smiled and appeared in front of Yin Shixiong in a flash. Yin Shixiong couldn't react in time due to the backlash from killing the three blood Spirit Cats. In front of Lin Yi, he had no power to resist at all. Lin Yi's wild fire Eight Trigram palm landed on his face, and he followed in sun Baimei's footsteps.

On one side was sun Baimei, and on the other was senior brother Yin. The two corpses had died in the exact same way. Health-maintenance Fei was so scared that he peed his pants when he saw this scene. He had come here to take revenge, but who would have thought that this would be the result?

Lin Yi was getting closer and closer to him, and he wanted to turn around and run, but his legs didn't listen to him. He was shaking like a sieve, but he couldn't move.

"Alright, it's your turn now." Lin Yi looked at him indifferently.

Plop! Health-maintenance Fei knelt down on the spot and kowtowed so hard that he was bleeding. He begged for mercy with a sobbing tone, "Senior, please spare me! Senior, please spare my life! I was threatened by the two of them, and I have no ill intentions. Senior, please don't hold this against me. I

beg you to spare my life. I'll be your slave! I'm not from the same sect as them, and I've never harbored any ill intentions towards you, senior essence soul. I was coerced by them ..."

Lin Yi was a little taken aback-this guy was a mid-Foundation practitioner, after all, how could he be so spineless? how did he get to where he was, kneeling and begging for mercy in one go?

However, Lin Yi didn't plan on killing him directly. He still wanted to get some information from this guy about the ancient martial world. He hmped coldly,"Answer a few of my questions honestly. If I'm in a good mood, I might really spare your life. It all depends on your performance."

"Yes, yes. Senior, what do you want to know? this lowly one will definitely tell you everything I know without reserve." Fei Yangsheng was overjoyed. He didn't care if the information would be revealed or not. As long as he could live, everything else didn't matter.

"Very good. First question, where are you from?" Lin Yi asked without changing his expression.

"We are from the small Jianghu of the immemorial era. The specific place is Shennongjia. There is a teleportation formation there that is an immemorial passageway. However, that place can only be maintained for a year. It will close after a year." Health-maintenance Fei was very honest.

Lin Yi nodded slightly. This was the answer Leng Leng had given him before, but she had said it in a hurry, so Lin Yi didn't know what she was talking about. Now that health-maintenance Fei explained it to him, he finally understood.

It turned out that she could only reach the immemorial little Jianghu through a teleportation formation. No wonder the secular world had never discovered it. No wonder Leng Leng said that she could only stay

for a year. After a year, the teleportation formation would close, and she would definitely not be able to stay in the secular world.

"Second question, what are you doing in the secular world?" Lin Yi continued to ask. This was the question he wanted to know the most-if it weren't for that, he wouldn't have tried so hard to get close to Leng Leng, and all this wouldn't have happened.

"Uh, because of the ancient sects 'once-in-a-thousand years experience training, every sect in the ancient Jianghu would send Foundation establishment disciples to the secular world to experience it. At the same time, it was also to find new disciples for their respective sects. Although the spiritual energy in the secular world is thin, there are still many people, so there might be cultivation geniuses with spiritual roots that are one in a million." In order to please Lin Yi and save his life, health-maintenance Fei spilled everything he knew without holding back.

Lin Yi stared at his expression and knew that he wasn't lying. He let out a breath of relief. Since these people were only here to train and find new disciples, they didn't mean to break the rules of the secular world. It was inevitable that there would be people like sun Baimei who didn't follow the rules, but it was fine as long as it wasn't a full-scale conflict.

"The third question, how many of you are there in total, and what is the strongest cultivation level?" Lin Yi continued.

"About sixty to seventy. I'm not too sure about the strongest, but I heard that they're at the peak of the foundation building realm. At least a few of the sect's team leaders are at the peak of the foundation building realm. That's for sure. These are all disciples who came out to gain experience. As for disciples who are stronger than them, there might be some or not, but they definitely haven't been publicized." Health-maintenance Fei answered carefully.

In the end, he was just an ordinary disciple. He only knew the surface information that was widely known. As for the deeper inside information, he had no way of knowing.

"Complete foundation ..." Lin Yi frowned. His Yuan spirit body wasn't strong enough to fight someone above his level, but he could handle a complete foundation, but it was hard to say if it was a golden core. After all, there was a huge difference between the foundation and golden core stages, and it wasn't easy for him to do it in his current state.

However, whether there were any Jindan stage experts among these people was still unknown. Listening to health-maintenance Fei's answer, it was likely that there were no. Because these people came out to gain experience. Under normal circumstances, Foundation Stage experts were already invincible in the secular world. If a Jindan stage expert came out, he would only be more invincible and lonely, and there would be no value in gaining experience.

Chapter 5063 Returning To The East Sea

"Alright, the fourth question. Tell me about coold." Lin Yi continued to ask. Leng Leng was one of his people now, so he had to understand these things.

"Uh ..." Health-maintenance Fei choked for a moment, then said weakly, ""Senior, I don't know much about her. I only heard that she is very talented and is one of the most likely disciples to break through to the Golden core stage. I don't know anything else."

He felt a little guilty talking about this-it wasn't that he was lying or hiding something from Lin Yi, but because he had bad thoughts about Lengleng last time. He'd be dead if Lin Yi brought it up again.

In fact, Lin Yi didn't have that thought at all. If he really wanted to kill Fei Yingyang, he would've done it regardless of what happened. Since he said he would give him a chance, he wouldn't go back on his word.

Lin Yi fell into silence after listening to his answers. These four questions were the ones he wanted to know the most right now. Although his answers weren't comprehensive or detailed, they still provided him with a lot of information. He now had a general idea about these Tiandao Masters in the ancient martial world, and at least he wasn't as clueless as before.

Only when he knew what was going on could he stay calm. To Lin Yi, the common world had too many things to worry about, and it was normal to worry about things like before. It was easy to get hurt, and that's why he listed all the unknown factors as threats. If this happened on Tianjie Island, he wouldn't be so worried.

Lin Yi's sudden silence scared Fei Yangsheng, who was still kneeling on the ground. He thought he said something wrong and triggered the killer's intent, so he quickly begged, ""Senior, please spare me! I'm telling the truth, I didn't hide anything. Please forgive me and let me live ..."

Lin Yi didn't know whether to laugh or cry-this guy was putting on a classic pose just to survive, and he didn't want to kill him just because he was so tactful.

"I've already said that I'll spare your life as long as you answer my questions properly. Seeing that you're quite tactful, I won't kill you today. " Lin Yi said faintly.

"Many thanks, senior! Many thanks, senior!" Fei Yangsheng was overjoyed. Ignoring his numb knees, he struggled to get up and ran away. He didn't dare to stay in this place for a second longer.

Before he could leave the room, Lin Yi spoke up, "Wait, how am I going to find you in the future?"

"Ah? You're still looking for me?" Health-maintenance Fei almost burst into tears when he heard this. He didn't even have time to hide from this fiend. He barely managed to keep his life, so why did he come to find him? Hearing this, could it be that he still wanted to deal with him in the future?

"What's wrong? You're not happy?" Lin Yi's face turned cold.

Feeling the cold killing intent from the other party, health-maintenance Fei was so scared that he cried on the spot. He quickly said, ""No, no, it's my honor that senior is looking for me. How can I not be happy? If senior wants to find me, you can just go to Shennongjia directly. That's the gathering point for disciples like us who are on training. "

"Is that so?" Lin Yi glanced at him, not quite believing him.

"It's absolutely true. My life is in senior's hands. I can lie to anyone but senior. " Health-maintenance Fei said quickly. He wasn't lying to Lin Yi, but he didn't know what he was up to. There were Masters from all the big sects at the Shennongjia gathering point, and if Lin Yi dared to go there, he'd die without a doubt.

"That's good. " Lin Yi nodded and left a spirit mark on him without making a sound. A weakling like him wouldn't be able to detect it at all.

Of course, he had his own reasons for doing this. Although this group of people from the small Jianghu of the immemorial era had no intention of breaking the rules of the secular world, their existence was a hidden danger to the secular world. If something happened, who knew if they would become the opposition of the cultivators of the secular world?

For safety's sake, Lin Yi needed to leave a mole in this group to monitor their movements.

If Leng Leng was here, Lin Yi wouldn't need to do anything, but he didn't know where she was, so he could only mess with this coward. He'd call him out if something happened, and he'd be able to find out what the people from the ancient martial arts world were up to with a little threat.

Seeing that Lin Yi had retracted his killing intent, health-maintenance Fei let out a breath of relief. He was about to turn around and leave when Lin Yi called out to him again, "Hold on,"

Plop! Health-maintenance Fei's knees went soft and he knelt down again. A mid-Foundation Stage practitioner was so scared by Lin Yi that tears were streaming down his face. He looked at Lin Yi pitifully, "I'll really confess everything. Senior, please spare my life ..."

Lin Yi didn't know what to say. He felt a little guilty looking at the guy's face. He pointed at the two bodies on the ground. "These two people are an eyesore, you can take them away."

Don't forget that this was the secular world. If they really left two bodies for no reason, it would cause a big mess. Moreover, the identity of these two bodies was unknown. If the matter blew up by mistake, it would be troublesome.

"Yes, yes." Health-maintenance Fei let out a breath of relief. He wasn't like Lin Yi, who had to worry about the laws of the secular world. He quickly carried the two bodies and turned to leave, afraid that Lin Yi would stop him if he was slow. He'd had enough scares today-he'd get a heart attack if he were to be scared a few more times.

After Fei Yangsheng left, Lin Yi quickly got up and left the room as well. It had been a whole month since the projection of his spirit. The whole process was a little complicated, but he had barely achieved his goal. With his strength at the peak of the late Foundation Stage, he could handle most things. It was time to return to Donghai city.

Lin Yi couldn't help but sigh as he looked back at the room. He was finally reunited with song Lingshan and the others, and he couldn't let go of Leng Leng. He might not have had a pure heart when he was pursuing her, but the two of them were undoubtedly together after going through all this.

In Lin Yi's heart, Leng Leng was no different from Chu Mengyao and the others. They were both soul mates that he had to treat with care and love.

Lin Yi couldn't help but sigh before he left-he didn't think that the charcoal would be this useful, or he'd be able to bring coold back to Donghai city with him today.

While Lin Yi was on his way back to Donghai city, Leng Leng hadn't gone far. She was cultivating in a Hidden Forest nearby. The only thing she needed to do for the next half a month was to digest the medicine. As long as she digested the class 5 and class 4 great recovery pills, it would be more than enough to heal her injuries.

Chapter 5064 Nothing Must Happen To Her

The reason why she took the risk of staying here was to find a chance to come back and take a look. The house was rented for a month, after all, and she wanted to see if Lin Yi was still there when the lease expired, and if he had taken her treasure.

Of course, Leng Leng knew that the possibility of Lin Yi still being here wasn't high. She was just holding on to a one in ten thousand chance.

However, before she could come back, she saw sun Baimei and the others making a comeback. Fortunately, she was hiding on the hillside and restrained her aura, so she was not discovered by sun Baimei and the others. However, she could tell from the movements of the other party that these people were going to the place she rented.

Leng Leng was shocked and worried-what if Lin Yi was still there? Although the possibility was very small, what if?

Subconsciously, Leng Leng wanted to come back earlier to report, but her rationality won over her impulse in the end. Putting aside the fact that Lin Yi might have passed away a long time ago, even if he was still around, it was useless for her to go back now. She couldn't even delay sun Baimei and the other two. She might even drag Lin Yi down.

He forcefully suppressed the impulse in his heart and waited coldly for a long time before he returned to his community. If he was not mistaken, sun Baimei and the others should have left by now.

Sure enough, there was no one in the room. However, Leng Leng almost fainted when she saw the scene in front of her. There were many new traces of a fight at the door and the living room, and there were also fresh blood stains that had yet to dry!

"Could it be that Lin Yi was ..." Leng Leng couldn't imagine it. She thought that Lin Yi wouldn't be in this place after so long, but she didn't expect this to happen.

If Lin Yi really died in the hands of sun Baimei and the others, she would never forgive herself for the rest of her life. If she knew this would happen, why didn't she come earlier? even if she had to risk her life, she should've bought Lin Yi some time to escape!

But she quickly came to her senses. She was being too concerned-Lin Yi was just an essence spirit, so where did the blood come from?

Leng Leng had seen Lin Yi being surrounded by the blood Spirit Cats before. It was a tragic sight, but these were all condensed from spirit energy. They disappeared very quickly and didn't leave any real blood.

After thinking about it, there were only two explanations for the blood-it was either sun Baimei's or someone else 's, but it couldn't be Lin Yi' s.

However, it didn't seem realistic to say that the bloodstains were from sun Baimei and the others. However, sun Baimei and health-maintenance Fei were not to be trifled with. In addition, there was the more powerful senior brother Yin. Unless the senior brother team leaders of the small ancient Jianghu came out personally, it was basically impossible to make them suffer a loss.

Could it be that there were some little punks who came and were unlucky enough to meet Sun Baimei and the others, and then they were killed? Or could it be that the agent had brought a new tenant to look at the house when the rent expired?

Both of these assumptions were possible, but Leng Leng didn't care. As long as Lin Yi wasn't in trouble, she didn't care about other people's lives.

After looking around the room, Leng Leng didn't find her treasure. She didn't know if it was Lin Yi or sun Baimei who took it, but she hoped it was Lin Yi.

She'd only lived here for half a month, but this place had given her many warm memories. Leng Leng was a little dazed for a moment, the scenes from back then flashing in her mind. She even felt like someone was knocking on the door, and she'd see Lin Yi waiting for her with breakfast the moment she opened the door.

It was a pity that those days were gone forever. At that time, he didn't feel anything special, but now that he thought about it, how good would it be if these days could continue?

Leng Leng couldn't help but feel a little dazed. They'd only known each other for half a month, but Lin Yi had already completely entered her heart. Everything she gave her before was now a treasure to her life.

Of course, many of the things Lin Yi gave her were priceless treasures in the first place-the foundation-level pills and Supreme-grade spirit jades were priceless in the ancient martial world. However, what warmed Leng Leng the most wasn't these things, but the clothes and phone that Lin Yi had bought with her.

Cell phones! Leng Leng's eyes brightened at the thought-she'd forgotten that a phone could be used to make calls. If she wanted to know where Lin Yi was, she'd just have to call him!

Leng Leng called Lin Yi immediately, but the voice from the phone disappointed her, "The number you have dialed is currently unavailable. Please try again later ..."

It was only natural-he'd just thrown his phone into the Jade space, after all, so where would he get the signal from?

He'd been on Sky Class Island for three years, and he'd been out of touch with the outside world for a long time-he'd just take his phone out whenever he wanted to, and he'd just throw it into the Jade space-it was a habit he'd developed over time, after all. He'd just throw everything into the Jade space without even thinking about it-it was much more convenient than carrying it around.

Moreover, he was now in the form of a primordial spirit, and every inch of his body was transformed from spiritual sense energy. If he were to support an extra mobile phone, he would waste a lot of spiritual sense. No matter how powerful his primordial spirit was, he couldn't use it so casually.

But Leng Leng didn't know about this-she'd only been using her phone for so long, and she'd only called Lin Yi before. She'd never experienced a situation where the call couldn't go through. Her heart sank the moment she heard the notification-could something have happened to Lin Yi?

Thinking back to what Lin Yi said before they parted, Leng Leng didn't know if it was true or not. At her level, she couldn't understand Lin Yi's words at all. In fact, Lin Yi's existence itself was already an unbelievable thing to her. Lin Yi said that he wouldn't die and that he could come back after some cultivation. Could she believe that?

She hoped that all of this was real, but her logic told her that once her spirit was destroyed, she would never be able to recover. This was common sense in the world of practicing. As for whether Lin Yi was above common sense, maybe, maybe not.

"Nothing must happen to you!" She mumbled as she clenched her phone tightly and looked around the room. She packed up the clothes that Lin Yi bought for her and left immediately. She was never a woman who dragged things out. In fact, she was more decisive and decisive than most men.

Just like now, although Leng Leng didn't know Lin Yi's whereabouts, let alone whether he was alive or dead, she had made up her mind without hesitation. She was going to do everything she could to increase her strength and avenge Lin Yi. She was going to kill sun Baimei!

#### Chapter 5065 The Gathering Point

Sun Baimei would be pissed off if he knew about this in the netherworld-he'd already died in Lin Yi's hands, why was he still trying to take revenge? how many times did he have to die for him to feel good?!

Leng Leng didn't know any of this-this was what she was thinking about right now. Lin Yi had left her a huge pile of Foundation-level pills and elixirs-even the worst of disciples would be able to reach peak Foundation Stage with all these resources, let alone her talent.

Walking out of the room, Leng Leng turned back one last time, remembering the time she met Lin Yi. She was touched and sad at the same time.

Lin Yi's fate was unknown, and even she didn't know if her words from before counted as a pledge to marry him, but she knew Lin Yi's heart. At least she couldn't accept any other man. If Lin Yi couldn't make it this time, she'd rather be alone for the rest of her life.

The memories of the short half a month were filled with warmth and sweetness. Could finally let out a long breath and muttered to herself softly, "I hope he's really as powerful as he said he is. Martial arts master, you can't brag this time, or I can only blame you for the rest of my life."

In Shennongjia, health-maintenance Fei limped through the dense forest, dragging two corpses behind him. If an ordinary person had done this, they would have been wanted a hundred times by the secular world. Fortunately, he was still a mid-Foundation Stage expert. Although he was injured, he still had some strength. Along the way, he had deliberately used some means to deceive people, so it did not cause a big uproar.

"Numbed! If I had known, I would've stolen a plane and flown it!" Health-maintenance Fei casually killed a Panther that was attracted by the smell of blood. He threw the two corpses on the ground while cursing and swearing. Then, he sat down on the side, gasping for air.

Even though he was an expert in the middle stage of the foundation building realm, his injuries were not light after all. Furthermore, he had to drag two dead bodies through the deep mountains and dense forests of Shennongjia on foot. It was really tiring to eat and sleep in the open.

The previous journey was not that bad. Before entering Shennongjia, he had grabbed an off-road vehicle on the road and drove all the way from Xima to the borders of Huxi province. Driving was something that ordinary people would need to spend time learning, but to a powerful cultivator like him, it was not worth mentioning. Basically, as long as he was smart, he would be able to master it with a few glances.

Therefore, it was not a big problem as long as he paid a little attention to avoid the traffic police. However, no matter how awesome an off-road vehicle was, it was impossible to enter Shennongjia, unless it was really driven in by a helicopter. Otherwise, health Fei's only choice was to walk. It would be fine if he had not experienced the convenience of a car before, but now he was asked to do this kind of thing again. It was simply killing him.

But then again, it was not a big problem for him to Rob an off-road vehicle. The owner had been knocked unconscious and thrown into a ravine, unable to come out for a while. But if he really went to Rob a helicopter, let's not talk about whether there were such private helicopters for him to Rob, and let's not talk about whether he knew how to drive it after robbing it. Even if all these were fine, it would definitely be a big deal. The officials had long wanted him all over the world. How could they let him drive into Shennongjia leisurely?

Therefore, Fei Yangwei could only think about it. There was basically no possibility of it happening. The only thing he could do now was to quickly drag the two bodies back to the meeting point and report what had happened.

Sun Baimei and senior brother Yin who had died this time were not ordinary disciples. One was at the late Foundation establishment stage, while the other was at the peak of the late Foundation establishment stage. They were both highly valued elite disciples. Originally, the secular world was just a relaxing and pleasant experience for them. It couldn't even be considered a trial. This time, two elite disciples had actually died in a row. How terrible was this?

Health-maintenance Fei didn't even need to guess. When the people above knew the whole story, they would definitely be furious. This time, the secular world would definitely see what the anger of an ancient sect was!

"Hehe, that primordial spirit is so arrogant and detestable. Let's see how he dies next time!" Health-maintenance Fei sneered, got up, and dragged the two corpses along with him.

With his strength, he didn't dare to go after Lin Yi, and getting revenge was just wishful thinking. But it didn't matter-he wasn't strong enough, but an ancient sect had a lot of Masters. If he reported this, he could deal with a mere primordial spirit, right?

By then, he wouldn't even need to rush up and make a move. All he needed to do was watch from afar.

A day later, health-maintenance Fei finally returned to the assembly point with weak legs. It was the majestic mountain Gate where they had set off together. Basically, the leading senior brothers and elders of their respective sects were stationed here. After all, there were too few cultivators in the secular world, and their strength was too weak. With their strength, they had no value in training even if they went out, so they were only responsible for coordinating and supervising.

Sun Baimei and senior brother Yin's bodies were thrown to the ground, and the entire Mountain Gate was in an uproar. The people stationed here were all gathered in a short time. They had no choice but to come. This was an unprecedented event!

"Aren't they Yin Zhiping and sun Baimei from the evil warding sect? How did they all die?" The people from the other sects were discussing.

"These two aren't weak. I remember they were at the peak of the late Foundation establishment stage. How did they get into trouble in the secular world? could it be one of our ancient sects?" Someone asked doubtfully.

"The warding off evil sect has always been strange. They often attack our sect's spiritual creatures, so it's normal for them to have enmity with someone. Besides, it's impossible for a Foundation establishment expert to exist in the secular world. Who can deal with the two of them?" Someone at the side gloated.

"That's true. Where are the people from the evil warding sect? it can't be that only the two of them came, right? wouldn't they have died in vain then?" Everyone looked at each other and said. If the evil warding sect's higher-ups were here, they would definitely get to the bottom of this matter. However, without a higher-up with enough power to come forward, the matter would most likely be left unsettled.

The people present were the leaders of their respective sects, and their first consideration must be the interests of their sects. If they found out that these two people had died at the hands of their own sect's disciples, wouldn't they be asking for trouble?

"What's going on?" At this time, a young and overbearing voice suddenly sounded from behind the crowd. Although everyone was the leader of their own sect, when they heard this voice, they still

consciously made way. Strength determined status, and this person's strength was higher than all of them.

A young man walked out from the crowd. Other than his narrow and slightly gloomy eyes, he gave off an imposing aura. His aura was more than a level stronger than the people present. He was a perfected Foundation establishment cultivator!

#### Chapter 5066 Revenge

Even though there were also perfected Foundation Stage cultivators in the crowd, their cultivation levels varied from person to person. This person was called Xue Jianfeng. He was a well-known outstanding talent among the young generation in the small Jianghu in the immemorial era. He was publicly acknowledged as the number one perfected Foundation Stage cultivator!

"Senior brother Xue!" Health-maintenance Fei quickly saluted.

"It seems like you know the inside story. Tell me how they died." Xue Jianfeng glanced at the two corpses on the ground. Although he had nothing to do with the warding off evil sect, his ambition was to become the number one among the young generation in the ancient martial world. This experience in the secular world was a rare opportunity to build his reputation, so he would not let it go.

The others looked at each other, secretly blaming him for being a busybody, but they didn't dare to show it on the surface and could only watch coldly.

"Senior brother Xue, they were killed by an immortal soul cultivator." Health-maintenance Fei replied respectfully.

"An immortal soul cultivator?" Xue Jianfeng and the others were shocked. They didn't understand what he meant. They frowned and said, ""Speak clearly. Primordial spirit is primordial spirit, and cultivators are cultivators. What's with primordial spirit cultivators? could they be hidden masters of some ancient sect?"

"Well, although I don't know where that person came from, I'm sure he's not from our Jianghu in the immemorial era. I only know that it's a primordial spirit, but it's a primordial spirit that can materialize. It's very powerful. Brother Sun and brother Yin were not his match and were killed easily." Health-maintenance Fei explained.

"An essence soul cultivator who has materialized? And he can even easily kill a peak late Foundation Stage expert?" Everyone was completely stunned and frowned. The peak of the late Foundation Stage was not much weaker than them. Didn't this mean that even they might not be the opponent of the primordial spirit cultivator?

"There's such an existence in the secular world?" Xue Jianfeng looked at him doubtfully. This kind of thing was completely beyond his understanding. He pinched his chin and speculated, "Junior Brother Fei, don't tell me that you have something that you can't tell me, so you deliberately made up such a story and didn't tell the truth?"

Although he and health-maintenance Fei were fellow disciples, they didn't have a deep connection. In order to establish his personal prestige, he, Xue Jianfeng, would also do something like placing righteousness before family.

"Absolutely not. I, Fei Yangsheng, swear to the heavens that I'm not lying. Senior brother Xue, please investigate!" Health-maintenance Fei was startled. Seeing that everyone still didn't believe him, he started from the beginning. "Sun Baimei and I had a good personal relationship, so we traveled together when we set off for the experiential learning. Later, we came to the mountainous area around xima city in the secular world, and we actually met this primordial Spirit Master in the dense forest. Senior brother Xue, you also know that the warding off evil sect likes these things, so we attacked him on the spot."

"What happened after that?" Xue Jianfeng's expression gradually became solemn. In fact, he didn't believe that health-maintenance Fei would dare to lie in public, especially in such detail. It should be known that the more detailed a lie was, the easier it was to reveal flaws. If health-maintenance Fei really had a guilty conscience, he should have just brushed it off.

"At that time, this soul was still very weak, probably at the late stage of heaven class, but it had a lot of tricks up its sleeve. Sun Baimei and I spent a lot of effort to surround and intercept it, but it still managed to escape. After that, we've been searching for this soul, and it was half a month later when we found it again." Health-maintenance Fei continued.

"Continue." Xue Jianfeng said in a deep voice.

"Yes, by the time we found that primordial spirit, for some reason, his strength had increased greatly and he was already at the peak of the early Foundation Stage. He seemed to have been prepared for our appearance, but in the end, we were ambushed and both of us were injured." Health-maintenance Fei didn't mention anything about Leng Leng. After all, it wasn't a glorious thing to mention. The key thing was that this eldest senior brother Xue Jianfeng had always been interested in Leng Leng. If he dared to say that he had any ill intentions towards Leng Leng, he would be killed by his sword in minutes.

"Trash!" Xue Jianfeng cursed disdainfully. Sun Baimei and health-maintenance Fei were a late-stage Foundation establishment cultivator and a mid-stage Foundation establishment cultivator respectively. Not only did they let their opponent escape the first time, but they even ended up with a lose-lose situation the second time. In his eyes, they were simply useless.

"Uh ..." Health-maintenance Fei pinched his nose awkwardly and continued, ""Half a month later, we went to find that primordial spirit again after we recovered. We even called senior brother Yin of the warding off evil sect. Unexpectedly, the primordial spirit had become the peak of the late Foundation

establishment stage. The two of them were killed on the spot. Fortunately, I escaped quickly and waited until the primordial spirit left before I dared to return to collect their bodies ..."

After listening to health-maintenance Fei's words, the whole place was silent. Everyone looked at each other and didn't know what to say. There was no doubt about the truth of what he said, but this primordial Spirit Master who had suddenly appeared in the secular world was really incredible.

"Junior Brother Fei, where is that primordial spirit?" Xue Jianfeng asked after a long time.

"I was in XI MA city before, but I don't know if I'm still there. What do you mean, senior brother Xue?" Health-maintenance Fei asked.

"Come with me. Although Yin Zhiping and sun Baimei are from the warding off evil sect, they are part of the ancient Jianghu. I can't let them be killed by outsiders. Blood must be paid with blood!" Xue Jianfeng snorted.

When these words came out, everyone from the other sects looked at him with a bit of respect. They had to think carefully after hearing health-maintenance Fei's words, and would never dare to be as decisive as Xue Jianfeng. He was indeed worthy of being the number one person among the young generation in the small Jianghu of the immemorial era. He had such courage!

This was the effect that Xue Jianfeng wanted. As long as he could kill this immortal soul Stage cultivator, he would not lose out on the reputation points he would earn, let alone the possibility of obtaining some kind of treasure.

"Ugh ..." Health-maintenance Fei's face turned ugly. He wanted to let Xue Jianfeng and the other big shots surround Lin Yi, while he himself hid in the back and watched the show. Who would've thought that Xue Jianfeng would ask him to lead the way? didn't this mean that he would have to face that unfathomable primordial spirit again?

"What's wrong? You're not happy?" Xue Jianfeng said with an unfriendly expression.

"No... No, senior brother Xue, look at me. I'm covered in injuries. If I don't quickly treat my injuries, I'm afraid I'll have residual effects ..." Fei Liusheng said with a bitter face.

"This little injury is nothing." Xue Jianfeng snorted and threw him a fourth-grade great recovery pill. He said arrogantly, "There shouldn't be any problems, right?"

Chapter 5067 Heading To The Supernatural Investigation Bureau

Not only Fei Yangyang, but the surrounding people from the other sects also gasped in shock. There was really no comparison between people. Xue Jianfeng threw out a Grade 4 great recovery pill without even blinking his eyes. This Xue Jianfeng was really generous!

"Yes, yes. Thank you, senior brother Xue." Fei Yangsheng was overjoyed. A fourth-grade recover pill was enough for him to recover in a short time. It wasn't smart to touch Lin Yi again, but if the sky fell, there was still someone higher to hold it up. There was a strong person like Xue Jianfeng in front of him, so what was there to be afraid of?

"Very good. Everyone, stay here and wait for my news. As long as I'm here, it won't be easy to kill the people of the ancient martial world." Xue Jianfeng cupped his hands to the crowd and immediately left with health-maintenance Fei.

"As expected of the snow sword." Everyone sighed. There were rumors that the ancient Alliance formed by all the big sects in the ancient Jianghu was about to change. Although it had not reached its end yet, once that day came, people like Xue Jianfeng would definitely be a popular upstart in the Alliance, and no one in the younger generation could compare to him.

Coming out of Shennongjia, health-maintenance Fei did the same thing and grabbed a car to go straight to Xima. However, when he and Xue Jianfeng arrived at their destination, the room was already empty.

"That primordial soul cultivator must have been afraid of revenge from us, so he ran away in advance. Senior brother Xue, what should we do?" Health-maintenance Fei asked.

"What do we do? Of course, we have to find him even if we have to dig three feet into the ground!" Xue Jianfeng snorted coldly. He had boasted in front of so many people in the immemorial small Jianghu. It was impossible for him to return empty-handed.

"But that's a primordial spirit, and it's no different from an ordinary person at normal times. Even people like Sun Baimei from the warding off evil sect can't find it easily. It's like looking for a needle in a haystack if we only rely on senior brother Xue." Fei Liangsheng said with a bitter face.

"Did I say I'd look for her personally?" Xue Jianfeng glanced at him and said.

Senior martial brother Xue, do you mean to mobilize the other disciples of the small Jianghu of the immemorial era to search for it together?" Health-maintenance Fei's eyes lit up. If he said that Lin Yi was The Public Enemy of the ancient martial world and asked all the disciples to search for him together, the success rate would be a lot higher.

"Stupid, how many disciples are out for training this time? the secular world is so big, how can we possibly find all of them?" Xue Jianfeng looked at him as if he was looking at an idiot.

"Ugh ..." Health-maintenance Fei couldn't help but blush-that was indeed the case. Who knew how long it'd take for a small group of people from the ancient martial world to get Lin Yi out of the common world?"Then how are we going to find them?"

"Didn't you say that this primordial soul cultivator is from the secular world? then, naturally, we'll have the secular world hand him over. Let's go." Xue Jianfeng smiled faintly.

"Where are we going?" Health-maintenance Fei was stunned.

"The supernatural Investigation Bureau. It's said that all the cultivators in the secular world are managed by them. Blood for blood. We're here to seek justice. There will naturally be justice when we get there. It's killing two birds with one stone." Xue Jianfeng had a mocking smile on his face.

"Two birds with one stone?" Health-maintenance Fei didn't understand.

"Seeking justice is only one of the reasons. As for the second reason, we can directly find them and ask for new disciples with good qualifications. It will save us a lot of trouble." Xue Jianfeng said indifferently.

He was a radical person to begin with. It could be said that he did not take the secular world seriously from the bottom of his heart. This experiential learning in the secular world had clearly stated that the order of the secular world could not be disturbed. He actually did not think much of it, especially when it came to finding new disciples. It was undoubtedly an extremely stupid way to rely on just a few dozen experiential disciples to find a needle in a haystack.

From Xue Jianfeng's point of view, the best way was to go straight to the point and go to the supernatural Investigation Bureau. After getting the information of all the cultivators in the secular world from them, they just had to filter them one by one and pick out those who met the qualifications of an ancient sect and take them away. Why did they have to go through so much trouble to keep a low profile?

However, even though he was dissatisfied, it was the written rule of the immemorial Alliance, and he could not openly violate it. But now it was different. The death of Yin Zhiping and sun Baimei gave him enough reason to make a fuss. It was reasonable to go to the door to seek justice, and at the same time, he could take the opportunity to get people, killing two birds with one stone.

"That's right, senior brother Xue is brilliant. Instead of wasting our time, we might as well go to them and ask for her!" Fei Yangsheng immediately nodded his head, thinking that this eldest senior brother was indeed an awesome Big Shot, and he had the courage to do things!

The two of them immediately headed to the supernatural Investigation Bureau's headquarters. This kind of thing was a secret that was difficult to come into contact with for ordinary people, but for cultivators of their level, there were no secrets in the secular world.

The situation in the supernatural Investigation Bureau had long been clearly observed by the other disciples on experience. However, due to the rules of the archaic Alliance, these people only watched from afar and did not rashly enter.

When they arrived at the supernatural Investigation Bureau's headquarters, Xue Jianfeng and health-maintenance Fei got out of the car and walked in. The guard beside them was shocked and quickly stopped them, "I'm sorry, this place is off-limits. "

The supernatural Investigation Bureau wasn't like other institutions. There weren't any signs hanging at the entrance. In addition, the place was relatively remote. Other than internal personnel, there wouldn't be any miscellaneous people appearing. However, there would occasionally be some accidents, and the role of these guards was to block these miscellaneous people.

"Get lost." Xue Jianfeng didn't stop walking. He only lightly cursed, but the guard didn't know why he knelt down on the spot.

Fei Yangsheng, who was following behind, sneered at the scene. This guard was obviously not a normal person-he seemed to be at least a golden class. Unfortunately, in front of a Foundation Stage master like Xue Jianfeng, a golden class master was no different from a normal person. One look from him was enough to make you kneel.

"Old Wu, are you alright?" A few members who were passing by saw this and quickly surrounded him. They helped him up and joked,""Old Wu, you're too polite. Didn't you just get injured during the previous operation? there's no need to kneel in front of everyone. Besides, this isn't chief Feng or chief song. Even if you kneel before him, he won't be able to transfer you back to the operations team, right?"

"Bullsh \* t! I'll go back to the operations team as soon as I recover!" Old Wu's face turned black. Even he himself didn't know what had just happened. Perhaps it was just a numb leg. However, when he looked at Xue Jianfeng and the other man again, his eyes were filled with a bit of fear. He said in a neither humble nor haughty manner,"Excuse me, please show me your identification."

"Id?" Xue Jianfeng put on a high and mighty attitude, and said indifferently,""I don't need an id to go anywhere I want. I don't know what an id is."

When old Wu and the other team members heard this, their expressions suddenly became a little strange. Could this be a second generation of some high-ranking official's family? did he think that he was so powerful that no one would care about him no matter where he went?

#### Chapter 5068 The Ancient Alliance

In the face of such a rich second generation with a deep background, the average unit would naturally not dare to not buy it. However, this was the supernatural Investigation Bureau with a transcendent status. The power of the secular world was of no use here!

"Then please go back. I've said just now that this place is off-limits." Old Wu said seriously. He was not an ordinary guard. He was from the operations team and was a person who lived on the edge of a knife all year round. When he got serious, he was also a ruthless character with a murderous aura.

"Unauthorized entry? Do I look that free?" Xue Jianfeng sneered and ignored them as he walked in.

"Stop right there. Otherwise, don't blame me for being impolite." Old Wu shouted with a frown. Seeing how Xue Jianfeng and Liu Jianyue were still acting so arrogantly, he immediately raised his hand and grabbed Xue Jianfeng's shoulder.

However, before he could even touch the other party's clothes or see the other party move, he suddenly found that there was a huge bloody wound on his arm. Immediately, an extremely intense pain rushed to his scalp. Even a person who had received special training like him could not bear such intense pain. He groaned and fell on the spot.

The others on the side finally saw that the situation was not good. Other than leaving one to take care of old Wu, the others immediately surrounded Xue Jianfeng and health-maintenance Fei. At the same time, the supernatural Investigation Bureau's alarm sounded loudly. Almost all the members who stayed behind rushed out at once. Xue Jianfeng and health-maintenance Fei became the target of public criticism without any suspense.

"Who are you? You actually dare to barge into the supernatural Investigation Bureau, don't you know the consequences of doing so?" The crowd shouted.

"Consequences?" Xue Jianfeng laughed and said disdainfully, ""It's just an unrated force in the secular world. I can do whatever I want. What consequences can there be?"

"What arrogant words! Take them down together!" The crowd was immediately excited and released their auras, ready to capture him on the spot.

"A bunch of ant-like shrimp soldiers and crab generals actually dare to attack me. Are you not afraid of death?" Xue Jianfeng sneered and suddenly released the powerful Qi of a perfected Foundation establishment cultivator.

Everyone from the supernatural Investigation Bureau immediately shrank back, each of them revealing an extremely horrified expression. They looked at Xue Jianfeng as if they were looking at a monster. What kind of strength was this? This pressure was at least a few hundred times stronger than the strongest heaven class peak!

A bunch of weaklings! Xue Jianfeng glanced at the crowd in disdain. If it were not for the rules of the ancient Alliance, he might have massacred this place on a whim. It was his usual style to kill and establish his prestige, unlike now where he could only use his aura to intimidate the crowd.

After all, this was the official force of the secular world's cultivators. If he really destroyed the supernatural Investigation Bureau, even if he did it in the name of seeking justice for sun Baimei, the ancient Alliance would not be able to justify it. Therefore, he could only suppress his killing intent.

The people from the supernatural Investigation Bureau didn't dare to act rashly. Although they weren't strong, at least they had their eyes and experience. Don't think that they had the numbers on their side. Once they really started a fight, they would only be slaughtered. After all, the other party was too strong!

"Who's in charge here? come out and say something. " Xue Jianfeng squinted at the crowd and said.

Everyone looked at each other. Feng Tianlong and song Lingshan weren't here, and the highest position here was at most a small team leader. They obviously didn't have the right to talk to such a powerful existence.

A car suddenly stopped outside the door, and Lingshan got out of it, stunned by the scene.

In the past month, there had been reports of the activities of unfamiliar high-level cultivators everywhere. As the Deputy Director of the supernatural Investigation Bureau, she had been extremely busy. Basically, no matter where there was witness information, she had to personally investigate it. Although there was no detailed and accurate news so far, the number and strength of these unfamiliar high-level cultivators were really disturbing.

She didn't expect to see this as soon as she came back from her investigation. She was a Sky Class full master, and she wasn't weak at all, but compared to Xue Jianfeng's aura, she wasn't even worth mentioning. They weren't even on the same level.

She was shocked, but Lingshan was still a vice-director after all, and she'd had a lot of experience over the years. Her courage was far from ordinary people, and so she calmed herself down and walked in.

"What happened?" Lingshan asked in a low voice.

"Chief song, I don't know where this person came from, he just barged in for no reason." Old Wu, who was injured, quickly reported.

"You're the boss here?" Xue Jianfeng turned around. He was acting all high and mighty, but his eyes were glued to song Lingshan. How could there be such a charming female practitioner in this world? She was valiant and heroic, much better than those ancient women in the small Jianghu!

In fact, he was purely tired of aesthetic appreciation. Just like how modern people would be shocked when they suddenly see a classical beauty, he, who came from an ancient environment, suddenly saw a modern beauty. This was the common point of men. Not to mention he was a Foundation establishment cultivator, even Masters of the Golden core stage and the Yuanying stage were the same.

There was no lack of beautiful women in the ancient martial world, especially in his own sect. Leng Leng was a beauty, and she was no less beautiful than song Lingshan, but their styles were different.

"I'm the Deputy Director of the special Investigation Bureau, song Lingshan. May I know who you are?" Lingshan asked in a tone that was neither haughty nor humble. She could tell that these two were the foreign practitioners that had been appearing recently, but their strength was too shocking, so much so that it was hard for her to accept.

Even if the supernatural Investigation Bureau had attached great importance to this matter and even carried out an investigation as a top priority, they had still underestimated the strength of these people.

Such a powerful enemy, even if the entire supernatural Investigation Bureau were to work together, they would not be a match for them.

"Song Lingshan? It seems that the secular world isn't completely useless after all. To be able to see a beauty like miss song, this Xue's trip was not in vain. " Facing song Lingshan, Xue Jianfeng's attitude was obviously much gentler, his tone calm, "I'm Xue Jianfeng, from the ancient Alliance. "

As he said this, Xue Jianfeng put on a calm and relaxed attitude. There was only song Lingshan in his eyes right now. As long as he revealed his identity, song Lingshan would definitely bow down to him. The strong were respected, no matter where or when.

As soon as he said that, everyone, including song Lingshan, was shocked. Other than the simultaneous gasps, there was complete silence.

Chapter 5069 Punitive Expedition

There was a rumor in the streets that there was an even more ancient immemorial level above the ancient level. This had always been a discussion among the cultivators of the secular world. Although it had never been confirmed, everyone was always happy with it.

In fact, almost everyone thought that the so-called immemorial level was actually the heaven-ranked Island. After all, the two were legendary higher levels, and there was no conflict in their names, so they thought that the heaven-ranked Island and the immemorial level were the same place, but no one had been there.

Now, however, after receiving Lin Yi's letter from Sky Class Island, people like Lingshan knew that Sky Class Island and the ancient realm were two completely different things.

There was no ancient sect on the Sky Class Island, and the five Sky Class islands were completely different from what he had imagined. There was no five elements sect or everyday and every day sect, and the five elements Chamber of Commerce was founded by Zhang Liju, which was completely different from the five elements sect.

As for where the legendary immemorial level was, or whether it existed or not, these were all unknown.

However, today, this super expert who had suddenly appeared suddenly said that he was from the ancient Alliance!

Lingshan's subconscious reaction was that the ancient Alliance was just a small part of the Sky Class Island, and that was why Lin Yi didn't notice it before. After all, other than Sky Class Island, she couldn't think of any other place with such a master.

"You're from Sky Class Island?" Lingshan asked.

"Sky Class Island?" Xue Jianfeng was stunned for a moment before he laughed. He couldn't help but sneer, ""You people from the common world are so ignorant-Sky Class Island is just a rumor, how could there be a Sky Class Island? The immemorial Alliance is the immemorial Alliance. Don't mix them up. "

"Really?" Lingshan's expression turned weird-Lin Yi's letter confirmed the existence of Sky Class Island, and this guy was saying that it was just a rumor. Did he really not know, or was he just pretending?

"Of course it's true. I know that the highest level of your world is the ancient sects, and our ancient Alliance is an independent level above the ancient sects. We're the top existence in the entire world of

cultivation. The Sky Class Island and the like are just rumors, things that ignorant people have come up with out of thin air." Xue Jianfeng lectured arrogantly.

At this point, Lingshan was pretty sure that this guy really didn't know anything about the sky Island. She didn't think that the ancient Alliance and the sky Island were two completely different things, and this was a big surprise.

"So, the high-level cultivators outside are all from the ancient Alliance?" Lingshan asked, her face calm.

"That's right. They are the disciples of the archaic Alliance who have come out to the secular world to gain experience. Although their strength is nothing in the archaic Alliance, it is an unattainable realm for the secular world. Every disciple who has come out to gain experience is an expert in the foundation establishment stage!" Xue Jianfeng said proudly.

"A Foundation Stage expert?" Lingshan had the idea, but the others were confused. What was a Foundation Stage cultivator?

"Oh, I almost forgot. You people from the secular world don't have the concept of the foundation building stage. In other words, the foundation building stage is a whole new realm above the completion of the heaven class, which is what you call the heavenly Dao stage." Xue Jianfeng's expression was as if he was a city person looking at a country bumpkin.

"Heavenly Dao realm!" Everyone gasped again. In fact, when they had investigated before, they had found that the strength of these high-level cultivators was beyond common sense. However, because they had not fought directly, this thought was not strong. Many people thought that it was their illusion. Today, they finally got proof that these people were actually Masters of the heavenly way!

This result scared everyone so much that they broke out in a cold sweat. Fortunately, they had restrained themselves and didn't rashly make a move. If anyone were to rush up and take him down, they wouldn't even know how they died.

"That's right. A Foundation establishment stage expert is just an ordinary disciple in the ancient Alliance. Above them, there are even more powerful golden core stage experts and even the legendary nascent Soul Stage experts!" Xue Jianfeng was trying to show off in front of Song Lingshan, so he said so much patiently. When he saw everyone's stunned expressions, he said with disdain, "The secular world is big, but in terms of cultivation, you are just a frog at the bottom of the well. What I'm talking about is the top level that you cultivators of the secular world can't even imagine. In fact, it's useless to tell you because you will never come into contact with these existences."

Although they knew that they were being looked down upon, they couldn't help but gulp. After all, what the man said was the truth. The strongest master they usually came into contact with was only sky Class full master-they couldn't even imagine a Foundation Stage, let alone a golden core or a nascent Soul Stage.

But Lingshan wasn't one of them. Other than not knowing about the ancient Alliance, she'd heard about the realms Xue Jianfeng mentioned in Lin Yi's letters, and even more than that.

According to the other party's words, it seemed that the Masters of the original infant stage were already top-level existences in the ancient Alliance, but they were nothing in the Sky Class islands. There were many masters above the original infant stage. It seemed that the level of the ancient Alliance was still much worse than the Sky Class islands.

A frog in the well? He didn't even know about the Sky Class Island, yet he acted like he was the number one expert in the immemorial Alliance. If he wasn't a frog at the bottom of a well, what was he?

"Since that's the case, the ancient Alliance and US cultivators of the secular world should mind our own business. Why have you come to the supernatural Investigation Bureau today?" Lingshan asked.

"That's true. The archaic Alliance also has a rule that we can't disturb the order of the secular world. Otherwise, with so many Foundation establishment experts suddenly coming out to train, the secular world would have long been in chaos." Xue Jianfeng nodded arrogantly, and finally brought up the serious matter, "Originally, we didn't interfere with each other's business. But now, it's different. Two of our ancient Alliance's disciples died."

"What?" Everyone was shocked. Since the ancient Alliance was made up of Foundation establishment experts, they were invincible in the secular world. How could two disciples die at once?

"You're not trying to say that this matter has something to do with us cultivators from the secular world, are you? The strongest of us is only at the peak of the heaven rank, and we're no match for the disciples of the ancient Alliance. Besides, we've never done anything like this before, and we've only been investigating in secret. " Lingshan frowned.

#### Chapter 5070 Invitation

Everyone nodded in agreement. Their first reaction was that the archaic Alliance had an internal conflict. Otherwise, who else could kill a Foundation establishment expert besides themselves?

"I know it wasn't you guys, but what about other people? are you trying to say that the supernatural Investigation Bureau can control all the cultivators in the secular world?" Xue Jianfeng shook his head.

"As far as I know, there's no one in the common world who's stronger than the peak of Sky Class. I'm afraid it's not credible to say that this has something to do with the common world." Lingshan said, neither humble nor haughty. This was no child's play, and it concerned the entire world of cultivation. She couldn't just admit it like that.

"Don't be too full of yourself. One of the two people who died in my ancient Alliance was at the peak of the late Foundation establishment stage, and the other was at the late Foundation establishment stage. They are indeed not people that ordinary cultivators from the secular world like you can kill. However, the murderer is an alien, a cultivator in the form of a primordial spirit. Since the supernatural Investigation Bureau claims to be in charge of cultivators from the secular world, I believe that you should have information in this regard." Xue Jianfeng said with certainty.

"An immortal soul cultivator?" Lingshan froze, and so did the others. "What's that?"

"You guys really don't know?" Snow sword looked at everyone's blank expressions and couldn't help but feel surprised. "Even if there's no accurate information, there should be some rumors about this primordial soul cultivator, right?"

"No, I've never heard of it." Lingshan and the others shook their heads.

"..." Xue Jianfeng choked. He could tell that the crowd was not pretending, so he said, "No matter what, the disciples of our primordial Alliance have to give an explanation for their deaths in the secular world. We have to investigate this primordial soul cultivator. If you can't find anything, we'll have to do it ourselves."

Lingshan's heart clenched upon hearing this. The hidden meaning was obvious-once the ancient Alliance started investigating this matter, things would get out of control. If they weren't careful, they could cause even bigger trouble, and the cultivators of the secular world would face a sudden storm of blood.

Lingshan pondered for a while and said, "The supernatural Investigation Bureau will investigate the matter of the primordial soul cultivators. Since the ancient Alliance has a rule not to disrupt the order of the secular world, it's best to keep it up so that things don't get out of control."

"Very good, I believe in miss song's sincerity." Xue Jianfeng nodded and didn't seem to have any intention of leaving. He asked, ""You just said you're the Deputy Chief here? Then you can arrange for me to meet your director. I still have something important to discuss with you. "

"Chief Feng isn't here. You can tell me directly if there's anything." Lingshan said in a tone that was neither humble nor haughty. She wasn't trying to be arrogant, but she had a lot of experience as a Deputy Director. No matter what Xue Jianfeng asked, it would be easier for her to deal with it. If it was Feng Tianlong, it would be a different story. There was no room for negotiation.

"Alright, let's change the location then." Xue Jianfeng looked around and said. What he was going to say next was his own decision. Before he did it, he couldn't casually spread it around. Otherwise, it would be bad if the news reached the ears of the higher-ups of the ancient Alliance.

"Alright, please follow me." Song Lingshan brought Xue Jianfeng and health-maintenance Fei to the meeting room and dismissed everyone with a gesture.

Both parties sat down in the meeting room, and only then did Xue Jianfeng proudly say, ""Our sect is recruiting a few disciples this time. As long as you have the qualifications, you can come back with me to the ancient Alliance."

"Recruiting disciples?" Lingshan was taken aback-she thought it was bad news again, but this guy was here to recruit disciples back to the ancient Alliance!

Strictly speaking, this wasn't a bad thing. Even if the level of the ancient Alliance couldn't be compared to the Sky Class Island, it was still much stronger than the secular world. If they really had this opportunity, he believed that many cultivators from the secular world would be overjoyed.

"That's right. Of course, we're very strict when it comes to choosing people. Ordinary cultivators can't even enter our eyes. But Miss Song, you certainly meet the conditions. As long as you come back with me, I believe it won't take long for you to reach the foundation establishment stage. It's even possible for you to reach my level." Xue Jianfeng said with an expression that said "I'm taking care of you."

In his opinion, such an opportunity was hard to come by for the cultivators of the secular world. After all, the ancient passageway would only open again in a thousand years. Once they missed this opportunity, these people could only continue to struggle bitterly in the secular world where the spiritual energy was thin. They could not even dream of advancing an inch forward until their deaths.

As long as one wasn't a fool, they would know which choice to make between the secular world and the ancient Alliance. The beautiful woman in front of him, who he was drooling over, was obviously not a fool.

Lingshan's reaction, however, surprised him. She didn't even hesitate and said, "I appreciate your kindness, but I've never planned to leave the secular world."

If she really wanted to, she would've gone to Sky Class Island with Lin Yi, not the ancient Alliance.

"What?" Xue Jianfeng thought he heard wrong, but he frowned after looking at Lingshan's serious face, "Miss Song, you may not understand the gap between the ancient Alliance and the secular world. I'll tell you this. With the spiritual energy and resources in the secular world, the completion of heaven class is the limit you can reach. No matter how good your talent is, it's useless. But as long as you go to

the ancient alliance with me, with the concentration of spiritual energy and cultivation resources there, it's only natural for you to reach the next level. You should think about the gap between you and the secular world carefully."

In his mind, all cultivators would try their best to increase their strength. Many people would even kill their loved ones for this. There was no way song Lingshan would just sit back and do nothing, unless she had water in her brain.

"No need. I've thought it through. Thank you." Lingshan rejected again.

Seeing that Lingshan was a rare beauty, Xue Jianfeng had already lowered his stance. But now that he was rejected by Lingshan, his face darkened, "Miss song, my sect is one of the top sects in the ancient Alliance. With my help, you'll be able to obtain a unique cultivation environment. No one else can give you this condition. It concerns your future, so you'd better not make a decision so easily. Otherwise, you'll regret it for the rest of your life."

This was also because he was drooling over song Lingshan, that's why he was so patient. If it was anyone else who dared to reject his invitation, Xue Jianfeng would've exploded.
