Chapter 5071 A Little Tricky

Lingshan couldn't help but frown-she'd already said she wasn't going, why was this guy still bothering her? Could it be that the archaic Alliance was all like this? if they took a fancy to him, they must go. They couldn't even refuse him. Wasn't this too overbearing?

"You don't have to make a decision in a hurry. We won't be returning to the ancient Alliance for a while anyway. You can tell me your answer the next time I come. I believe that miss song is a wise person and won't let me down." Xue Jianfeng suddenly reined in his anger and put on a fake smile.

He also knew that he couldn't push this kind of thing too hard. After all, going too far was as bad as not going enough. The reason why the other party rejected him face to face, in his opinion, was probably because he was too sudden and wasn't mentally prepared. It was even possible that he still had doubts about what he had said before. When the other party investigated all these things, he would naturally know what to do.

"..." Song Lingshan was speechless. However, since the other party had already said so, she couldn't continue to be stubborn. This kind of thing could be dragged on for a while. At most, she could just push it away when the time came. The most important thing right now was to find someone to discuss a plan. She didn't want to be caught off guard if she started a conflict with the people of the ancient Alliance.

"Then I'll take my leave first. I hope miss song will consider this matter carefully. Oh, by the way, don't forget about the matter of the primordial spirit cultivator." Xue Jianfeng immediately stood up and left with health-maintenance Fei.

It seemed to be unexpectedly easy to talk to, but Xue Jianfeng was actually retreating in order to advance. To be honest, he did not believe that the supernatural Investigation Bureau could find out the

primordial soul cultivator. In a few days, when he came back, he could naturally use this as an excuse to make a big fuss.

All he had to do was to make things difficult for her, and she'd just have to listen to him. He'd also bring some decent cultivators with him. These people wouldn't have the guts to go against the ancient Alliance, and they might even be happy. After all, people like Lingshan who rejected his invitation to their faces were rare.

Lingshan only let out a breath of relief after the two left. The others were no longer in the mood to do anything, and quickly gathered around to ask what was going on.

"Do what you need to do. You'll know what you need to know after I report to chief Feng." Song Lingshan waved the crowd away and called Feng Tianlong immediately, telling him everything that happened. Feng Tianlong was still on a business trip and wouldn't be back in a short time, so they could only contact each other through the phone.

"Yes, I've heard about the primordial soul cultivators just now. However, it's a little unexpected that they want to recruit disciples from the secular world." Feng Tianlong muttered after listening.

"What should we do?" Lingshan asked.

"How about this? you arrange for everyone to focus on tracking down the primordial soul cultivators. Although this may be a cover they made up, we still have to investigate. We can't leave any evidence for them to use as an excuse." Feng Tianlong ordered.

"Yes!" Lingshan said in a low voice.

"As for the second thing, we can't give them the information of the cultivators from the secular world. Otherwise, if they have ulterior motives, the consequences will be unimaginable. However, we can't do nothing about this matter. Let's find a time to go through the list and do an internal selection. We'll list out the group with the highest qualifications. We'll see how it goes when the time comes." Feng Tianlong said after some thought.

"Alright, I'll make the arrangements now!" Lingshan hung up and gathered everyone in the Department to start searching for primordial spirit cultivators. They knew that the chances were slim, but they had to try it.

After the arrangements were made, Lingshan didn't stay in the investigation Department. She went straight to the villa in xueshang District-she had to report this to Chentian and the others.

Chentian and the others jumped in shock upon receiving the message-they all dropped whatever they were doing without hesitation and waited for Lingshan to push the door open, all of them already gathered.

What Lingshan didn't know was that after she entered the villa, two silhouettes appeared in the Green Belt not far behind her. It was Xue Jianfeng and health Fei.

With their strength, it was a piece of cake for them to follow someone in the common world-even song Lingshan, a Sky Class full master, wouldn't be able to detect it.

"Interesting, there's so many Sky Class full Masters here-it seems like song Lingshan's background isn't simple. No wonder she rejected my invitation." Xue Jianfeng pinched his chin and said with great interest.

Sky Class full completion was the peak of the mortal world's practitioners, and with so many of them gathered in this room, they were almost invincible in the mortal world.

"Senior brother Xue, should we go in?" Health-maintenance Fei asked.

"Enter? What for? To arrest him on the spot? We're here to take in disciples, not to kidnap you. Use your brain!" Xue Jianfeng glanced at him and said, ""There are a few people here who seem to have pretty good qualifications. Note them down first. Next time, you can directly ask them to leave by name."

"That's right, that's right. Senior brother Xue is the best. With senior brother Xue personally taking action, the disciples selected this time will definitely be much better than the other sects. The sect leader will definitely remember senior brother Xue's great contribution." Health-maintenance Fei quickly complimented.

Xue Jianfeng's face suddenly showed a bit of pride. He did not do this just to make a contribution, but more importantly, once these disciples were brought back, they would naturally be his people. For an ambitious person like him, the benefits were self-evident.

"Alright, we should get down to business. The supernatural Investigation Bureau alone can't find out who that primordial soul cultivator is. We'll need to mobilize the manpower of the ancient Alliance." Xue Jianfeng immediately left with health-maintenance Fei.

In the villa, song Lingshan and the others were completely unaware of this. After listening to song Lingshan's detailed situation, everyone fell into silence and everyone was anxious.

"These people are all heavenly Dao cultivators. This is going to be a little tricky." Wu Chengtian frowned.

"That's right. The ancient Alliance has suddenly appeared, and it's completely different from the sky Island. This group of people is on a completely different level from us. I'm afraid we can't deal with them with our strength." Yu Bing's tone was serious.

Everyone nodded. Although they were all Sky Class Masters, and many of them had a feeling of invincibility and loneliness before, the situation was completely different now. Not to mention the entire ancient Alliance, even Xue Jianfeng was not someone they could deal with.

Chapter 5072 Equal Cooperation?

"If only Lin Yi bro was here, he'd have a way." Ziyu said suddenly.

"That's for sure. With boss Lin Yi's strength, that Xue Jianfeng isn't even fit to carry his shoes. He's acting all high and mighty, and he wants Lingshan sis-in-law to go with him-he's just asking for it." Xiaobo said, frustrated.

"Sigh, but we can't contact Boss Lin Yi right now. Even if we wanted to write him a letter, we can't do it, let alone get him to come back here to save us." Chentian said with a bitter smile.

"Distant water can't quench present thirst. We can only rely on ourselves this time. Right, we need to tell senior Lin Dongfang as well. Maybe he has a way?" Qikun suddenly smacked his head.

"Yes, yes!" Everyone nodded-Lin Dongfang's performance last time had left a deep impression on them. Taking on a few Sky Class full Masters was like playing around-he might have a way to deal with them this time!

"Also, the primordial soul cultivator you mentioned just now, sister-in-law Lingshan, it sounds like the ancient Alliance is just making up a story to cause trouble. But if it's true, we might be able to make something out of it." Chentian said, deep in thought.

"What article?" Lingshan didn't know what was going on, and the others were confused as well.

"Everyone, think about it. This immemorial Alliance is very aggressive. We don't have the power to fight back in front of them. Even if they have a rule that we can't disturb the order of the secular world, the rule is that the dead are alive. As long as they have this idea, it's easy for them to find an excuse to take advantage of the loophole. This time, Xue Jianfeng is showing signs of this, isn't he?" Chentian said.

"That's right. That person is obviously using this as an excuse to make a big fuss. This is obvious." Lingshan said with a nod.

He barged into the supernatural Investigation Bureau on the grounds that two disciples of the immemorial Alliance had died. Not only did he force the secular world to investigate, but he also proposed to recruit disciples with outstanding qualifications from the secular world. He even wanted him to go with him in person. It could be seen that Xue Jianfeng's focus was not on this primordial soul cultivator at all. This was purely an excuse.

"Therefore, from the big picture, not only US, but all the cultivators in the secular world will face two choices. One is to completely surrender to the power of the primordial Alliance and do whatever they say. We can only obey and can not resist." Chentian analyzed.

"This is too infuriating, isn't it?" Lingshan and the others all frowned. They were far weaker than the other party, but this was the common world. Who gave them the right to call the shots?

"That's right. It's really infuriating. When there's oppression, there's resistance. If the ancient Alliance uses soft means, it's fine. But if they find an excuse to force their way in, I believe that most of the cultivation forces in the secular world will not be convinced, especially those ancient sects and families." Yu Bing nodded.

This was not difficult to understand. It was better to be a chicken's head than a Phoenix's tail. These people were originally high and mighty in the secular world, but suddenly had to bow and bend their knees to be ordered around by others. Such a gap was by no means something that could be adapted to in a short time.

Unless the primordial Alliance completely shed all pretenses of cordiality and suppressed them with blood, washing all the cultivation forces in the secular world with blood. Only then could they truly intimidate everyone. Fortunately, there were no signs of this at the moment.

"Then there is only the second option left. Of course, we do not have the confidence and capital to fall out with them, so we can only try our best to fight for a relatively equal position of cooperation instead of obeying them without any principles." Chentian muttered.

"Equal cooperation? Is that even possible?" Everyone could not help but look at each other. The premise of equal cooperation was that both sides had to be at the same level of strength. Although there were

many cultivation forces in the secular world, and all of them added together was considered huge, they were still dwarfed by the ancient Alliance. There was almost no comparison at all.

"Although this doesn't sound reliable, it's actually not impossible if you think about it carefully. Think about it, if the supernatural Investigation Bureau comes forward to unite all the cultivation forces in the entire secular world, and everyone maintains the same voice, then I think even the ancient Alliance can't take it too lightly, right?" Chentian said.

"That's a good suggestion. It's not realistic to unite all forces under normal circumstances, but the situation is special now. It's indeed feasible to have the supernatural Investigation Bureau take the lead." Yu Bing agreed.

"Alright, I'll discuss this with chief Feng. We'll implement it as soon as possible." Lingshan nodded, but she was still worried. "Even so, our individual strength is still too far away from those of the ancient Alliance. It'll be difficult for us to fight for the right to speak, right?"

After all, strength determined the right to speak. The huge cultivation forces in the secular world could only guarantee the opportunity to speak at most. Once it involved specific matters, the weakness of individual strength would inevitably lead to the lack of strength in the words, and in the end, they would still suffer.

To put it bluntly, when a group of children gathered together, they could not change their weak position in front of the adults. Even if they turned against each other on the spot, they would only be beaten up one-sidedly. In this case, even if they managed to get a chance to talk, they could only be led by the nose by the adults.

"What if that primordial soul cultivator is with us?" Chentian said, deep in thought.

Everyone was stunned by what he said-it took a while before they could react. Yu Bing clapped his hands,"Old Wu, you're good. Not bad, not bad. If that primordial soul cultivator really exists, it means that he's definitely not from the primordial Alliance. In other words, it's very likely that he's a member of the secular world. It's just that we've never paid attention to him before. Moreover, he has a feud with the primordial Alliance, so it shouldn't be too difficult to rope him in. You can say that he's on the same side as us."

"Since this primordial soul cultivator could kill two of their Foundation establishment disciples, his strength must be extraordinary. I believe that even for them, he would be a deterrent. This makes things much easier!" Qikun nodded.

It was like a group of children suddenly had a child who could beat up an adult. This way, even if the adult still had the advantage, at least they wouldn't dare to be as unscrupulous as before. After all, if they were forced into a corner, the child would flip the table, and they would be beaten up.

"You're right. Even if we can't find this primordial soul cultivator, we still have senior Lin Dongfang. This way, we can at least hold our ground." Xiaobo added.

Everyone agreed, and Lingshan nodded,"The supernatural Investigation Bureau is now searching for this primordial soul cultivator with all their might. If we can find him, we can have a good talk with him first. After the negotiation, we can wrangle with the people of the ancient Alliance. This way, even if he really killed two disciples of the ancient Alliance, the ancient Alliance can't do whatever they want. We still have to find out who is right and who is wrong."

Chapter 5073 How Did You Get In?

If Lin Yi were to hear their discussion, he'd be laughing and crying at the same time. He'd have to give them a big thumbs up for their foresight. It'd been three years since they last saw each other, and Lingshan and the others had matured. They were able to keep their cool and calm in the face of such a big problem, and their strategies were organized and logical. They had the qualities of generals now.

After the discussion, everyone decided to stay in the villa unless there was an urgent matter. It was a critical time now, and it was far from enough to leave one or two people behind like usual. Only by gathering all their strength could they guard the villa. After all, the people of the ancient Alliance were all experts of the heavenly Dao stage. Any one of them would be an extraordinary existence, and they would not be able to deal with it with just a few people.

Lingshan, on the other hand, returned to the investigation Department to investigate the immortal soul cultivators. After discussing with Tianlong, she started to prepare for the formation of an Alliance of cultivation forces in the secular world. The first thing she had to do was contact the ancient sects and remind them not to get into a conflict with the ancient Alliance. At the same time, she wanted to test the waters of a united front.

The reactions of the ancient sects were almost exactly the same. Other than expressing their gratitude for the supernatural Investigation Bureau's reminder, they were a little ambiguous about the United Front. They also knew that at this point, it was the best choice to join forces, but it was a serious matter after all, and the sect still had to discuss it for a while. The most important thing was, who would be the leader after the United Front?

In any Alliance in the history of cultivation, power struggles and schemes were the mainstream, and the investigation Bureau was the best choice to take the lead-there wouldn't be too much opposition from the secular and hidden levels, but these ancient sects were different-it was almost impossible to make them lower their heads unless someone as strong as Lin Yi came forward.

Lingshan couldn't help but feel a little anxious. If this continued, who knew how much more trouble they'd have to deal with? especially if the archaic Alliance found out about this, and split up their forces, it'd be even more troublesome.

What she didn't expect was that the ancient Alliance had already made their move before she even got to know what the other sects were thinking!

"What? Something happened in the snow Valley?" Chentian and the others were shocked.

"I'm not too sure about the exact situation. They replied that two experts of the heavenly Dao stage came to stir up trouble and wanted to forcibly take away the talented disciples from the snow Valley. In the end, both sides fought and many people in the snow Valley were seriously injured!" Lingshan said seriously.

"A heavenly Dao stage expert? that means he's from the immemorial Alliance. He's indeed a Wolf with wild ambitions!" Everyone was filled with righteous indignation.

Just then, another message came in. Lingshan's face changed when she saw it. She gritted her teeth. "Tang Yin's mother's injured too!"

"That group of bastards!" Everyone's face turned pale as anger exploded from the villa. Mrs. Tang had nothing to do with them, but she was Lin Yi's mother-in-law! Lin Yi left them to guard the house, and they couldn't even protect Mrs. Tang! How could they face Lin Yi in the future?!

"No, we can't just swallow this matter. Let's go to the snow Valley!" Chentian said angrily.

"Alright, so what if it's the ancient Alliance? so what if it's a heavenly Dao expert? as long as we fight to the death, I don't believe that we don't have a chance at all. At worst, we'll just have to risk our lives!" The others were also furious.

"But what about Mengyao and the others?" Lingshan frowned. She couldn't take this lying down, but if something happened to Mengyao and the others because of her rashness, she'd regret it.

Everyone looked at each other. Just as they were about to discuss, a voice suddenly came from the second floor, ""Are you talking about the unconscious beauties upstairs? Don't worry, just follow me to the ancient Alliance. "

The group was shocked as they saw the man walk down the stairs. They surrounded him like he was their enemy. Wu Chengtian shouted, "Who are you? How did you get in?"

"Who am I? Didn't she introduce him to you?" The man sat down on the sofa as he spoke, not putting the Sky Class Masters in his eyes at all.

Everyone turned to look at song Lingshan. Song Lingshan's face was filled with shock and anger. She gritted her teeth, "Snow sword edge!"

Chengtian and the others felt even more pressure-they didn't think that Xue Jianfeng would show up in the villa all of a sudden, coming down from the second floor like a swagger, and none of them noticed him at all-this strength was terrifying.

"What are you doing here? What did you do to Mengyao and the others?" Lingshan asked, giving Ziyu and the others a look as well. They all rushed up to the second floor.

"Don't worry. I'm still the senior brother of one of the factions in the immemorial Alliance. I'm not so despicable. Those women are all unconscious. What can I do to them?" Xue Jianfeng said indifferently.

"Is that so?" Lingshan and the others didn't really believe it, and only when Ziyu and the others went back down and made sure that Mengyao and the others weren't touched did they relax.

"Alright, I can answer your first question now. Why am I here? The reason is very simple, I couldn't find you at the supernatural Investigation Bureau, so naturally I could only deign to come here personally. " Xue Jianfeng said arrogantly.

Lingshan couldn't help but be shocked-no matter how slow she was, she'd realize that she was being followed by this bastard!

Lingshan couldn't help but feel annoyed at herself-she was too careless! She knew that this guy was up to no good, but she still came to the villa! If something happened to her, she'd be dead!

In fact, she was just overthinking it. With Xue Jianfeng's strength, it was easy for him to follow anyone here. Unless she didn't come to the villa to meet with the others, this was the inevitable result. She couldn't be blamed at all.

"Alright, since you're here, you can give us an explanation. Last time, you said that you wouldn't disturb the order of the secular world, but now? Don't tell me you don't know what the ancient Alliance has done to the snow Valley?" Lingshan said angrily.

"Snow Valley?" Xue Jianfeng raised his eyebrows and said, ""I've heard about this before. The ancient Alliance does have a rule that we can't disturb the order of the secular world, but it's just a rule. As for whether they strictly abide by it, it depends on the person."

Chapter 5074 I'm Back

"What do you mean?" Lingshan and the others all frowned.

"There are many ancient sects that came to the secular world this time. I don't know which sect did this, but I'm sure it has nothing to do with our sect." Xue Jianfeng said in a nonchalant tone, "You can see that my temper is very gentle. I have given you so much time to think about the matter of recruiting disciples. The others have directly come to the door to ask for people. Have you thought about it?"

"I've said it before. I'm definitely not going to the immemorial Alliance. Furthermore, what you've done has already broken the order of the secular world. Do you want to become enemies with all the cultivation forces in the secular world?" Lingshan said firmly.

"Making an enemy of the secular world?" Xue Jianfeng was surprised and said disdainfully, ""Miss song, what are you talking about? all the cultivation forces of the secular world combined can't even compare to any ancient sect, so it's impossible for us to be enemies with each other. The ancient Alliance has never treated the secular world as an opponent, or else they would have been destroyed long ago."

"In other words, the archaic Alliance doesn't care about the secular world at all. You just snatch any disciple with good qualifications that you like, is that what you mean?" Chentian said in a low voice.

"The words may sound a little harsh, but there's nothing wrong with the meaning. It's just that some people are more radical in this matter, while I'm more gentle. That's why I'm being reasonable with you." Xue Jianfeng nodded his head indifferently and glanced at the crowd, ""I can see that you all have good aptitudes. It's rare to be able to cultivate to the full closure of the heaven class in a terrible place like the secular world. How about this, why don't you all come back to the ancient alliance with me? this way, you can take care of each other. Miss song, this should be fine, right?"

Everyone was taken aback-this guy sure knew how to take advantage of the situation. Not only did he want song Lingshan, but he also wanted to take them in?

"Oh, and the unconscious beauties upstairs, you can also bring them back to the ancient Alliance. I don't think you can cure them, but I have a way, but it can only be done in the ancient Alliance. How about it?" Xue Jianfeng rolled his eyes and said.

"You can cure them?" Lingshan and the others were overjoyed. In the past three years, Mengyao and the others "conditions hadn't gotten any worse, but they didn't show any signs of getting better either. If this continued, who knew what would happen? if they had the chance to cure them, it would be great.

"Of course, just because the secular world can't do it doesn't mean that the ancient Alliance can't do it." Xue Jianfeng said, pretending to be profound.

"Is that so? Then why don't you tell us why sister Mengyao and the others are unconscious?" Ziyu said, suddenly having an idea.

"Uh, this ..." Xue Jianfeng choked. He didn't know why Chu Mengyao and the girls were unconscious. As for the ancient Alliance, it was nonsense. He only said that to trick the girls back to the ancient Alliance.

Although these women were all unconscious, they were all extremely beautiful. When Xue Jianfeng entered the room, he had already drooled at the sight of them. He couldn't help but think of building a harem. If he could bring all these beautiful women back, that scene would be simply irresistible!

"F * ck, you see, I knew he was a liar!" Ziyu crossed her arms and laughed coldly. Lingshan and the others came to their senses as well, glaring at Xue Jianfeng. They were too worried, and the look on his face told them that he was up to no good.

"I, Xue Jianfeng, the number one among the young generation of the immemorial Alliance, didn't expect to be called a liar in the secular world. Hehe, it seems that it's hard to be a good person. I've tried so much to persuade you, but it's useless. Then I have no choice but to learn from the other sects." Xue Jianfeng's expression changed.

"What do you want to do?" Lingshan and the others were all on guard.

"What are you doing? I'll take you away by force today, and I'd like to see who dares to say no!" Xue Jianfeng's embarrassment turned into anger, and his attitude became tough as he reached out his hand to grab song Lingshan.

Lingshan was taken aback as she tried to back away. Chentian and the others all rushed over, but their speed couldn't match up to a peak Foundation Stage like Xue Jianfeng. With just a little bit of strength, Xue Jianfeng was already beside Lingshan, grabbing her arm.

"I'll take you back to the ancient Alliance now. Let's see who can stop me!" Xue Jianfeng laughed in high spirits.

However, before he could finish laughing, the person he had caught looked at him as if he was a pervert and said in disdain, ""Hey, hey, men shouldn't be so close to each other. Please conduct yourself with dignity!"

"What?" Xue Jianfeng was taken aback-the voice was a man 's! So it wasn't song Lingshan he was grabbing onto, but a man's arm! And this man wasn't even in the villa! He turned pale,"Who are you?"

"You want to steal my girlfriend, but you don't know who I am. Is this appropriate?" Lin Yi smiled faintly.

"Lin Yi!" Lingshan and the others were completely dumbfounded as they rubbed their eyes and pinched themselves to make sure they weren't dreaming. They didn't expect Lin Yi to come back at a time like this!

"Everyone, I'm back. Leave the rest to me." Lin Yi turned around and smiled at everyone. He had a lot of things to say, but it was best to get rid of this fly first.

"He's a heavenly Dao stage expert from the ancient Alliance. Boss, you have to be careful!" Everyone was extremely excited at this moment, but they still remembered the huge threat of Xue Jianfeng. Otherwise, they would've rushed up and surrounded Lin Yi.

"Don't worry, it'll be fine. " Lin Yi didn't think much of it as he smiled.

He was able to rush back in time this time was actually thanks to health-maintenance Fei. Originally, he wouldn't have come back so quickly. On the way, he was prepared to use the spiritual energy of that piece of charcoal to take the opportunity to recover more strength. However, after he found health-maintenance Fei coming to the villa through his spiritual sense mark the last time, he immediately knew that something was wrong. He gave up and planned to rush back as soon as possible. He finally arrived in time today.

"You're their boss?" Xue Jianfeng laughed coldly in disdain. He was indeed shocked by Lin Yi's sudden appearance, but since he was sure that Lin Yi was from the common world, there was nothing to be afraid of.

Chapter 5075 Low IQ Too

"That's right. Not only is he their boss, but he's also the silly girl's boyfriend." Lin Yi blinked at Lingshan, who looked back at him with wide eyes, her heart filled with joy and sweetness.

"Silly little girl?" Xue Jianfeng froze for a second before looking at song Lingshan's sweet expression as she looked at Lin Yi. He couldn't help but get angry and sneered, "I don't care what kind of boyfriend you are. I'm definitely taking care of miss song today. Anyone who stops me will die!"

As soon as he finished speaking, Xue Jianfeng's body flashed towards song Lingshan's direction again, only to bump into Lin Yi who suddenly appeared in front of him. His face changed immediately, and he staggered to stop his body.

"Don't tell me your immemorial Alliance is a hooligan Alliance. Why is everyone like this? you want to snatch good things and F * ck beautiful women. We're all civilized people, can't you have some moral integrity?" Lin Yi said, speechless.

"You're calling me a hooligan?" Xue Jianfeng's face turned ashen.

"That's right. Besides, my temper isn't very good. When I see hooligans, my hands always unconsciously itch. I have no choice but to let you suffer." Lin Yi said as he took a step forward and slapped Xue Jianfeng's face.

Pa! The sound of the slap was extremely clear, and Xue Jianfeng couldn't help but be dumbfounded on the spot. He touched the five bright red fingerprints on his face in disbelief, and his expression gradually became ferocious as he said, "You actually dare to attack me? Didn't anyone teach you to hit people with all your strength? your strength is so pitifully small that you don't even know how to hit people. The secular world is really full of trash!"

"Oh? It's the first time I've heard such a weird request in my entire life. Since you're from the archaic Alliance, I'm going to give you some face, but since that's the case, I won't be polite. " Lin Yi shrugged and sent another slap.

Bang! Bang! Xue Jianfeng pounced on the spot, his whole body was forced into the floor, unable to get up for a long time.

"Hehe, the ancient Alliance doesn't seem to be much either. They can't even take a beating. How can you be so thin-skinned as a hooligan?" Lin Yi smiled faintly. He hadn't been idle on the train these past two days-he'd used the Black Star coal's spirit sense to raise his strength to Foundation peak. Dealing with Xue Jianfeng, who was also in Foundation peak, was a piece of cake.

Even if his current primordial spirit body couldn't be as exaggerated as his main body to fight against enemies of a higher level, it was still an invincible existence in front of experts of the same level.

However, Lin Yi didn't know why, but his strength seemed to be stuck at the peak of Foundation. It was almost impossible for him to recover to the Golden core stage. He didn't know what he was missing, but the peak of Foundation was enough for now.

Lingshan and the others cheered at the sight. They had absolute confidence in Lin Yi's strength, but Xue Jianfeng wasn't a normal person either. Even they didn't expect this Tiandao master to be so weak in front of Lin Yi.

It took Xue Jianfeng a long time to get up, and when he saw Lin Yi in front of him, he quickly took a few steps back, ""Who are you?"

"He's the primordial soul cultivator! Sun Baimei and the others were killed by him!" At this time, Fei Yangsheng, who was guarding outside, heard the commotion and rushed in. He was shocked to see this scene.

"An immortal soul cultivator?!" It wasn't just Xue Jianfeng who was stunned, Lingshan and the others were as well. How did Lin Yi suddenly become an essence spirit cultivator?

"Health-maintenance Fei, you're really not afraid of death. Last time, I showed you mercy and let you off, and you actually dare to come again this time?" Lin Yi glanced at him.

Health-maintenance Fei almost peed his pants in fear. If it wasn't for Xue Jianfeng's presence, he would probably have knelt on the spot again. He hurriedly said, "Senior, please don't misunderstand. I didn't want to come. It was senior brother Xue ..."

"What did you just say?" Xue Jianfeng was furious and wanted to destroy this spineless Fei liangwei. He pointed at Lin Yi and snorted, "I was just careless and underestimated you. You don't really think that you, a mere mortal primordial spirit, can be my opponent, do you?"

"Oh, really? I also think that you're unbelievably weak and you're a disgrace to the ancient Alliance. Are you ready now? are you still underestimating your enemy?" Lin Yi looked at him with a half-smile.

"Hmph, as long as I get serious, you're just an ant. I'm the number one among the younger generation of the ancient Alliance. You don't have the right to be arrogant in front of me." Xue Jianfeng snorted.

"Alright, I'll take it that you're ready." Lin Yi smiled strangely and appeared in front of Xue Jianfeng in the next second, slapping him again.

Xue Jianfeng was shocked. With his strength, he couldn't even see how Lin Yi charged at him. By the time he reacted, Lin Yi's slap was already on his face. He didn't even have the chance to Dodge and he pounced again.

"The first time, you felt that the force was too weak. The second time, you said that you were not prepared. What do you want to say for the third time?" Lin Yi said calmly.

Lingshan and the others burst into laughter at the sight-all of them had been suffocated by the pressure, and now Lin Yi's return had turned them into this situation!

It took Xue Jianfeng a long time to get up from the ground with great difficulty. He had been slapped three times in a row on his right cheek. At this moment, his right cheek was extremely swollen, and even his mother would not be able to recognize him with his pig-like face.

"Who ... Who are you ..." If Xue Jianfeng still couldn't realize that he had met a powerful man, then he would be a real fool. The first two times, he could still cover it up by underestimating the enemy, but this third time, he couldn't explain it.

He had clearly dodged with all his strength, but a powerful and inexplicable true Qi suddenly pressed him to the ground. Even the true Qi in his body was forcibly suppressed until it became chaotic. The key point was that he actually faintly heard a deep dragon roar!

This result really shocked him to the extreme. The other party also seemed to have the aura of a perfected Foundation establishment cultivator, and he was clearly the strongest perfected Foundation establishment cultivator in the ancient Alliance. However, he did not have the slightest power to fight back in front of the other party. Where did this ruthless person come from? he couldn't really be from the secular world, right?

"It's fine if you're not strong enough, but why is your brain not working? I've already said that I'm their boss, and I'm the primordial soul cultivator you've been looking for. I'm really puzzled. How can you have the nerve to come out with your IQ? you've completely destroyed the lofty image of the ancient Alliance. " Lin Yi said, embarrassed.

Chapter 5076 This Is Your Trump Card?

"Don't you go too far!" Xue Jianfeng covered his right cheek in anger, the left side of his face turning red and green. He quickly backed away ten meters when he saw Lin Yi was about to slap him again. The living room was big enough, otherwise, he wouldn't be able to escape.

"Bullying? You've already clamored to steal my girlfriend, and you still have the face to say that I'm going too far?" Lin Yi was delighted to see him like this. He hooked his finger."Come here, I promise I won't kill you."

"Hmph, it's still not certain who will be the one to kill who. Unsheathe the snow sword!" Xue Jianfeng roared as he unsheathed his sword and thrust it towards Lin Yi at a speed that was hard to see with the naked eye. The surrounding temperature dropped by a huge amount, causing everyone to have goosebumps.

After all, Xue Jianfeng wasn't just for show. His title as the strongest peak Foundation Stage practitioner in the ancient Alliance wasn't for nothing. Lin Yi's one-sided beating just now was just to numb Lin Yi's senses. Now that his Qi had recovered, he revealed his true strength.

Lingshan and the others were shocked-this guy could control a sword from a distance! This was a legendary skill! They were all worried for Lin Yi.

Lin Yi didn't feel anything at all. As long as the strength of the Qi was enough, it wasn't difficult to control a sword from a distance-the swordsmanship was the key.

Xue Jianfeng was only a Foundation Stage peak, and while Lingshan and the others thought he was high and mighty, he was nothing in Lin Yi's eyes. He'd seen Liu Ziyu's swordsmanship with his own eyes-a mere Xue Jianfeng was nothing in comparison.

However, for some reason, this sword technique of Xue Jianfeng gave him a sense of déjà vu, as if he had seen it somewhere before. However, he couldn't figure out the exact reason, so he could only shake his head and give up.

The soft sword went straight for Lin Yi's face. If it was Lin Yi's real body, even if he let it go, Xue Jianfeng's sword probably wouldn't be able to break through his pure energy protection at all. But Lin Yi was only a Foundation peak Yuan spirit right now. Even if he had the advantage in strength, he didn't dare to be so arrogant.

Lin Yi's body flickered and easily threw the soft sword behind him in an instant. He didn't stop and directly pounced towards Xue Jianfeng in the opposite corner, raising his hand to give him another slap.

"Wait, aren't you afraid that I'll kill them?" Xue Jianfeng grinned evilly. He was still controlling his sword from a distance. It would be hard to kill Lin Yi, but if it was someone like Song Lingshan, he would be able to kill Lin Yi without a doubt.

Lingshan and the others' faces changed—there was no way they could've dodged that with their strength! They all cursed at the guy for being shameless!

"Hmph, you've forced me to do this. You're asking for it!" Xue Jianfeng laughed coldly and pointed at Lin Yi, "If you really take them seriously, then quickly kneel down and apologize. Maybe I'll let them go. Otherwise, Hmph!"

He didn't expect Lin Yi to completely ignore him, sending a slap across his face without hesitation. He didn't forget to make fun of him at the same time, "It's not wrong to have low IQ, but it's your fault that you have to come out and embarrass yourself."

This was a lunatic! Xue Jianfeng jumped in shock. He thought that Lin Yi wouldn't let these women and lackeys be slaughtered by him. Even if it was just a show to win people's hearts, he would at least find a chance. He didn't think that Lin Yi didn't care about these people's lives!

"Fine, since you must force me to die, then I'll make all of them die together!" Xue Jianfeng clenched his teeth and tried to dodge Lin Yi's slap. He was about to control his soft sword to kill Lin Yi, but he was stunned. Where was his soft sword?

Bang! Bang! Xue Jianfeng was slapped to the ground by Lin Yi without any hesitation. He was still desperately looking for his sword and finally found a pile of broken pieces of iron on the ground. His mind went blank as he muttered in disbelief, "How did this happen?"

He'd been controlling it from a distance the whole time, and the speed of the sword was frighteningly fast-Lin Yi had only dodged the first attack, and then he'd come at him! How did the sword break like that?

"Hard to understand? This is such an ordinary sword technique, and you have the nerve to play with your sword through the air? I casually used my five-element killing intent to solve it. Could this be your trump card?" Lin Yi said, curling his lips as he looked at the dejected expression.

"This ..." Xue Jianfeng coughed out a mouthful of blood. He was both shocked and angry. He had really been provoked today.

"Why do I suddenly feel that this guy is a little pitiful?" Ziyu's lips curled up.

"He's kicked an iron plate, he's trying to show off to boss Lin Yi. He doesn't even know how to take a piss and look at his own face. He really thinks he can show off everywhere he goes in the ancient Alliance. He's so ignorant, he deserves it. " Chentian said with a smile.

The others were all laughing as well. That move was indeed scary, but Lin Yi dispelled it so easily. Such a god-like move really made them excited.

Lin Yi smiled. They hadn't changed at all after three years, and he couldn't help but feel a little sad. Thinking about the unconscious girls on the second floor made him feel heavy again. He still couldn't find a way to cure them after three years, and although his strength had increased a lot, he still couldn't see Zhang Liju. How long could they wait for him?

While everyone was laughing, the snow sword on the ground suddenly moved. However, this time, he didn't think of counterattacking. That idea was simply wishful thinking. At this moment, he only had one thought, and that was to escape from this villa!

He was using all his strength to run for his life. Like a cannonball, he dashed towards the nearest window. Lingshan and the others were shocked. If Xue Jianfeng managed to escape and embellished the story in front of the higher-ups of the ancient Alliance, it would probably turn into a World War between the ancient Alliance and the secular world!

Seeing that he was about to escape, Xue Jianfeng was overjoyed, but then a figure appeared in front of him. Lin Yi's speed was faster than his real body, and he moved like a ghost. The chances of Xue Jianfeng escaping from him were lower than winning the lottery.

Chapter 5077 Heading To The Snow Valley

"Since you're so disobedient, I'll have to make you know your place." Lin Yi laughed coldly and stomped down on Xue Jianfeng. Xue Jianfeng screamed in pain and was shocked. Lin Yi's stomp didn't just hurt him, it also crushed his dantian!

With his dantian destroyed, no matter how strong a cultivator was, he would still be a cripple. If he didn't have a heaven-defying encounter in the future, Xue Jianfeng's life would be over.

The wails were endless, and even the security guards were alerted. Lin Yi picked up a piece of cloth and stuffed it into the man's mouth, and only then did Xue Jianfeng finally calm down. He lay on the ground, motionless, completely disheartened. He no longer had any of his previous confidence, and even his eyes were filled with despair and defeat.

"Silly girl, get someone to take him back to the supernatural Investigation Bureau and lock him up. Use whatever means you need to use and try to squeeze out as much information about the ancient Alliance

as possible. See what they are up to. There's no need to be polite to this kind of scum." Lin Yi turned to Lingshan.

"Ah? "Oh" Lingshan was just staring blankly at Lin Yi, and only reacted when everyone's weird gazes landed on her. She quickly used the excuse of making a call to hide.

"You're already the Deputy Director, but you're still so silly after three years." Lin Yi smiled speechlessly before turning to Health Fei.

Health-maintenance Fei was scared out of his wits. Yin Zhiping and Sun Baimei were killed by Lin Yi before, and now the stronger Xue Jianfeng was killed as well. Lin Yi's abnormal strength was deeply rooted in his heart, and with his Foundation mid-stage strength, he couldn't even think of resisting. He knelt down with a plop.

"Senior, please spare me! "I really have nothing to do with this-I was just forced to be his driver. I didn't do anything! Please don't cripple me, senior! I surrender, I surrender ..." His kneeling posture was still as perfect as a painting, but his heart was full of fear. After all, it was already hard for Lin Yi to let him go the last time, and now that he was in Lin Yi's hands for the second time, even if he didn't do anything to Song Lingshan and the others, who knew what Lin Yi was thinking?

In fact, Lin Yi didn't want to start a massacre in the first place, so he nodded, "That's fine. You can stay here and follow me. I'll have to deal with the people of the ancient Alliance, and I'm in need of an internal guide."

"Yes, yes. Thank you for showing mercy, senior. Thank you for showing mercy." Health-maintenance Fei was overjoyed to hear this. As long as he could keep his life and dantian, everything else could be discussed.

Being Lin Yi's follower and guide was a bit like betraying the country, but the ancient Alliance didn't have much higher requirements for morality than the common world, especially when it came to things like life dantian-there was no need to worry about it.

Xue Jianfeng was crippled, and Fei Liangyang surrendered-this was the end of the storm, and Lingshan and the others finally had the chance to surround Lin Yi.

Looking at these familiar faces, Lin Yi couldn't help but feel a surge of warmth in his heart. With everyone's joy, he gave everyone a bear hug, starting with song Lingshan. To him, everyone here was his family.

"It's been hard on everyone these past three years," Lin Yi said emotionally.

"Boss, what are you talking about? this is what we should do. There's no such thing as hard work!" Chentian said.

"That's right. Boss, you're still treating us like outsiders. You've really hurt us!" Yu Bing, qikun, and the others followed.

"Alright, alright, alright. I said the wrong thing, alright? who asked you guys to be on the same boat as me? you deserve to die from exhaustion. Is that alright?" Lin Yi raised his hands in surrender.

"This is more like it." Chentian and the others were all smiles.

Lin Yi didn't know whether to laugh or cry, but Ziyu came over and sniffed him up and down, frowning. "Lin Yi bro, what's that smell on you? did you get yourself another woman?"

"Ha?" Lin Yi blinked-Lingshan and the others were all trying to hold back their laughter, and only then did he realize that he was just a soul. He'd almost been tricked by this girl.

The reunion didn't last long, though-Lingshan suddenly remembered the news she'd just received, and quickly told Lin Yi about Mrs. Tang's injury.

"Preposterous!" Lin Yi was in a good mood, but he was enraged when he heard the news, "There's no time to lose. I'll rush to the snow Valley now. You guys can stay here and wait for my return. "

"Alright!" Everyone nodded. They'd seen the fight between Lin Yi and Xue Jianfeng, and they knew that they weren't strong enough to help. It was better for Lin Yi to go by himself.

Lin Yi was about to move, but decided to check on the unconscious women on the second floor first after some thought. He let out a breath of relief after checking their pulses and found that they were still the same as before.

Now that he was in the early stage of the mysterious Ascension realm, Lin Yi believed that the chances of finding Zhang Liju would be much higher when he became a giant. Although Zhang Liju was a mysterious figure, if they were at the same level, their places of activity would overlap, and there would be a chance to meet him. He believed that as long as he could find Zhang Liju, Chu Mengyao and the girls would be saved!

Coming out of the villa, Lin Yi brought health Fei with him. Health Fei was also the driver, but when he came, he was driving for Xue Jianfeng. Now, the boss was Lin Yi.

What surprised Lin Yi was that health-maintenance Fei's driving skills weren't bad at all. Other than barging in and ignoring the traffic rules, his speed was really fast, like the wind and lightning. A private car was clearly injected with chicken blood, but he still drove it like a supercar-it was really intoxicating just thinking about it.

However, Lin Yi was quite fond of this style. He wanted to get to the valley as soon as possible. If this guy drove as slow as a snail, he'd have to do it himself, but this saved him a lot of energy.

"What's your relationship with that Xue Jianfeng?" Lin Yi asked from the front seat.

"Senior, he's our sect's eldest senior brother. He's the one leading this trip to the secular world, so I don't dare to disobey him. That's why this happened ..." Health-maintenance Fei replied carefully.

"What sect?" Lin Yi asked casually. In fact, he didn't really care about the sects in the ancient Alliance, unless the situation developed to the point where he wanted to divide the ancient Alliance. At that time, he wouldn't care about the sects. This information was useless for now.

Chapter 5078 What Sect?

"Snow sword sect." Health-maintenance Fei replied.

"What's this? Snow sword sect? Which snow and which sword?" Lin Yi was shocked.

"Snow as in snow, sword as in blade." Health-maintenance Fei looked at Lin Yi strangely-it was just the name of the sect, was there a need to get so worked up?

Lin Yi froze-not only did they have the same name, even the words were the same. There were so many coincidences in this world, and if he didn't know that the ancient martial world and Sky Class Island were two different things, he would've thought that this was the snow sword sect of Sky Class Island.

Sky Class Island and the ancient martial world had nothing to do with each other-they were two completely different planes. It was impossible even if he thought about it, but Lin Yi still felt that something was wrong.

He suddenly remembered that Xue Jianfeng's moves were similar to the Sky Class island's snow sword sect. He didn't know if it was an illusion or if it was the truth. After all, he'd only seen a few of the snow sword sect's moves from Wei shenjin-he had a rough idea, but he couldn't be sure.

"By the way, do you know which sect coold is from?" Lin Yi asked.

"Uh, she's also from snow sword sect." Health-maintenance Fei couldn't help but feel a little awkward. Because of what he'd done to coold last time, he'd get scared every time Lin Yi mentioned the name. He was afraid that coold would come back for revenge later, so he'd given a very vague answer last time. Lin Yi didn't even know that they were from the same sect.

"Leng Leng is also a member of your snow sword sect?" Lin Yi's interest was piqued."Then tell me more about your snow sword sect."

"Yes, but I'm only an ordinary disciple in the sect, so I don't know much. At most, I know some things that everyone knows." Health-maintenance Fei said weakly.

"Tell me everything you know." Lin Yi said faintly.

"Yes, our snow sword sect is a first-class sect in the ancient Alliance. The strength of our disciples is generally stronger than that of other ordinary sects. In other sects, many of our Foundation establishment disciples are already core disciples, but in our snow sword sect, we are only at the threshold of official disciples. Only people with great strength like senior brother Xue, who have perfected Foundation establishment, or people with great talent like Leng Leng can become the core disciples that the sect focuses on cultivating." Health-maintenance Fei told him everything, not daring to hide anything.

Lin Yi muttered to himself. Only those in the Foundation Stage could become official disciples, and from this point, it seemed like it wasn't much different from the Sky Class Island. After all, the three pavilions on the North Island all had Foundation as a threshold for becoming an official disciple.

"If the disciple's strength exceeds the Foundation Stage and advances to the Golden core stage, then he will automatically be promoted to martial uncle. In our snow sword sect, the seniority is divided according to strength. Although the real master is still called master in private, on the surface, if the disciple also advances to the Golden core stage, then they will have to address each other as senior and junior brothers." Health-maintenance Fei continued.

From this, one could see the difference between the ancient martial world and Sky Class Island. Golden core stage Masters were only inner disciples on Sky Class Island, and only nascent soul cultivators had the chance to become martial uncles.

"Above the Golden core stage, I heard that our snow sword sect also has a nascent soul old monster, but I have never seen him in person. As for higher levels, I'm not sure." Health-maintenance Fei looked at Lin Yi with wide eyes-this was all he knew, and there was nothing he could do if Lin Yi wanted to ask more.

"Watch where you're going! Can you afford to pay if you hit someone?" Lin Yi's face darkened.

"I ... I can't afford it ..." Health-maintenance Fei suddenly burst into bitter tears when he said this. The last time he passed by a village entrance, an old lady had fallen to the ground a few dozen meters away. She insisted that he was the one who had knocked her down and wouldn't let her go without paying. He even called a group of people from the village. He, a mid-Foundation establishment expert, was scared by this group of ordinary people and fled. Just thinking about it made his heart ache.

They were traveling at lightning speed, and by the time the two reached the valley, everyone was in a state of panic. The slightly stronger Sky Class disciples were all injured, while the weaker ones were mostly safe because they weren't even in their eyes.

At this time, almost all of the disciples of the snow Valley had gathered in the small square. Each and every one of them looked at the four people in front of them as if they were facing a great enemy. A sense of despair and fear continued to spread among them. It was no wonder that they were so helpless. Any one of these four people had casually stood up and knocked down their strongest disciples. There was no way they could fight.

"You're almost done considering. I've said it before, it's not good for you to delay it. As long as the disciples I named follow me obediently, nothing else will happen. It's obviously a happy thing, so why do you want to suffer?" The leader of the group said arrogantly.

Everyone in the valley was silent. The New Valley master spurted out a mouthful of black blood on the spot. These bastards of the immemorial Alliance were not here to recruit disciples. They were clearly

here to dig up the foundation of the sect. The disciples who were named by him were all the hope of the sect with excellent qualifications. If they were all taken away by him, the snow Valley would be destroyed and there would be no way for it to recover.

"Wishful thinking! These disciples have been painstakingly trained by our Snow Valley. This is their home. They were born as People of the Snow Valley, and even in death, they are ghosts of the snow Valley!" An elder of the snow Valley struggled to stand up and rebuked.

"You're noisy. " The leader of the group cursed coldly. With a casual wave of his hand, the elder of the snow Valley was sent flying, leaving behind a trail of blood.

This scene once again frightened everyone in the snow Valley. From top to bottom, even the most powerful Grand Elder had been seriously injured. How could they compete with the other party?

"Senior brother, in my opinion, let's not talk nonsense with them. Just drag these disciples away and wait for them to enter the small Jianghu of the ancient times. They will naturally know what is good and what is bad. Why waste time with them here?" A man with a big beard suggested.

"Fine, I originally wanted to end this peacefully and try not to leave any room for gossip, but since they don't know what's good for them, there's no other way." The leader of the group nodded.

As soon as he finished speaking, the other two followers immediately shouted and were about to attack. Everyone in the snow Valley was shocked. At this time, they had no power to resist, and they couldn't even escape. There was only despair.

These two followers were both middle Foundation Stage experts. If they wanted to catch anyone present, it would be a piece of cake. Immediately, they rushed over like tigers entering a flock of sheep. The People of the Snow Valley immediately screamed in alarm. Unexpectedly, at this time, two powerful waves of Zhen Qi suddenly whistled from behind. The two middle Foundation Stage experts didn't even have the chance to groan, and were instantly sent flying.

Chapter 5079 Wreaking Havoc In The Snow Valley

"Who is it?" The leader and the big-bearded man next to him were shocked at the same time. He was actually able to send two middle stage foundation building experts flying without making a sound. There were actually such experts hidden in this mere Snow Valley?

"You guys from the immemorial Alliance are really not particular about the way you do things. I thought Xue Jianfeng was shameless enough, but I didn't expect you guys to be even more shameless than him. Kidnapping someone in broad daylight, do you know that this is against the law? you'll be arrested and shot to death for five minutes!" Lin Yi looked at the two unkindly.

"What five minutes of shooting?" The leader paused and looked at the two carefully. He didn't know who Lin Yi was, of course, but he did recognize health-maintenance Fei, ""Aren't you from snow sword sect? is this guy from snow sword sect as well? why have I never seen him before?"

To be able to kill two mid-stage Foundation establishment cultivators with one move, he must be at least in the late stage of the foundation establishment. Even in the snow sword sect, he could get a spot as a core disciple. The small Jianghu in the immemorial era was only so big, and the core disciples of the major sects were seen almost everywhere. Under normal circumstances, he should have seen them a few times.

Lin Yi didn't even look at him as he charged towards Mrs. Tang. Mrs. Tang's injuries weren't that serious, it was just that the impact hurt her a little. She was moaning in pain, but she jumped up when she saw Lin Yi. She was overjoyed, "Yi? Yi, why are you back? When did you come back?"

"Auntie, I just came back. I'm sorry that I didn't take good care of you and let you suffer." Lin Yi said guiltily. Mrs. Tang may be a snob, but she'd always treated him well, always trying to get him whatever he wanted.

Now that Tang Yin had fallen unconscious because of him, Lin Yi had to take good care of Mrs. Tang and the others. The valley was supposed to be a paradise with no worries, but now that something like this had happened, the ancient Alliance's image in Lin Yi's eyes had dropped to the freezing point.

"It's fine, it's fine. It's good that you're back. How's Yun 'er now?" Mrs. Tang asked.

"She's still the same for now, but I'm sure I can find a way to cure her. " "Sit down, aunty, I'll treat you," Lin Yi said, startled.

"Ah? It's okay, I'm fine, I'll just need to drink and heal up for a few days. Yi, you should think of a way to get rid of these people. " Mrs. Tang's face was still twitching in pain, but she knew that Lin Yi was the only Savior of the valley, and she didn't want to distract him.

"Auntie, don't worry. It'll be quick. Besides, I don't care about this kind of random person who doesn't know the rules." Lin Yi said as he started to heal Mrs. Tang's injuries. The people from the snow Valley felt a little hopeful after hearing his words, but most of them still felt that he was bluffing. It was true that Lin Yi was strong, but they were all Masters of the Tiandao stage. How could Lin Yi be stronger than them?

When the two people from the immemorial Alliance heard this, they exploded on the spot. The leader gave the big-bearded man a look, asking him to check on the situation of the two mid-stage foundation building disciples who had been sent flying. The result shocked him. The two of them were seriously injured and only had one last breath left.

One move to beat two middle Foundation Stage disciples to near death was much more difficult than directly killing them. This was clearly because the other party had deliberately controlled the lethality. Such strength was really shocking.

"I'm Yu zhengliang, the eldest senior brother of the Qiankun sect. Which sect are you from? tell me your name." The leader shouted in a deep voice.

Lin Yi didn't even look at him as he continued to treat Mrs. Tang's injuries. Health-maintenance Fei had no choice but to stand up and say, "These disciples here are suitable to cultivate our snow sword sect's mental cultivation method. But your Qiankun sect has come here first to snatch them away. Isn't this against the rules?"

"Hmph, there are also people here who fit the criteria of our Qiankun sect. You're just an ordinary disciple of the snow sword sect, and you dare to stand out and say this to me? do you think you're Xue Jianfeng? how dare you try to snatch someone from me?" Yu zhengliang said in disdain.

Fei Yangsheng choked and stole a glance at Lin Yi. This guy was much more ruthless than Xue Jianfeng. Even Xue Jianfeng, the number one of the ancient Alliance's young generation, was beaten to death by him. Even his dantian was crushed. How could Yu zhengliang of the universe sect be any better than Xue Jianfeng in front of such a super ruthless person?

But he could only curse in his heart-he couldn't say it out loud. Lin Yi was still treating Mrs. Tang's injuries, so he could only force himself to continue, "You've misunderstood. Our snow sword sect has no intention of snatching people away. It's up to them whether they want to join our sect. We will never force them. "

He felt a little guilty when he said that. After all, Xue Jianfeng was actually the same as Yu zhengliang. It was just that his method was slightly gentler. However, what health-maintenance Fei said was the absolute truth. Even Xue Jianfeng, who led the team out for training, had become a cripple. The snow sword sect would definitely not dare to recruit people by force.

"Snow sword sect has always been a hypocrite, but everyone knows what they've been doing in private. You don't have to pretend to be a good person in front of me, do you? Even if Xue Jianfeng was here, I, Yu zhengliang, would take in all the disciples in the snow Valley today!" As Yu zhengliang spoke, he suddenly released a powerful aura. He was another perfected foundation building expert.

Everyone's face changed. The two mid-Foundation Stage cultivators were the ones who attacked Lin Yi, and now Yu zhengliang looked like he was many times stronger than before. Could Lin Yi even handle this?

Health-maintenance Fei quietly took two steps back when he saw this. He could say some polite words to delay the time, but he would never dare to fight with someone like Yu zhengliang. With his strength, he could not even withstand one move.

"Anyone who stops the Qiankun sect will die!" Yu zhengliang said ruthlessly. At the same time, he gave the big-bearded man beside him a look. The big-bearded man immediately pounced on the people in the snow Valley. His aura was only slightly weaker than Yu zhengliang's. He was actually an expert at the peak of the late Foundation establishment stage!

Everyone in the valley was shocked, but they quickly realized that they were overthinking it. The man wasn't coming for them. The big bearded man only had one target from the start, and that was Lin Yi.

"Yi! Yi!" Mrs. Tang was so nervous that her heart was about to jump out of her chest, but Lin Yi didn't even lift his head up. He didn't move even when the bearded man was behind him.

Chapter 5080 You're Begging For Mercy?

"Hehe, go to hell!" The big bearded man's mouth curved into a menacing smile as he sent a hand knife towards the back of Lin Yi's head. Once it hit, Lin Yi's head would immediately burst open.

But before the hand could even finish, Lin Yi continued to heal Mrs. Tang's injuries and sent out a five elements killing intent without even looking back. The bearded man came quickly but left even faster-he was sent flying with a cry, and his ending was the same as the two mid-Foundation Stage practitioners-he fell a dozen meters away, never to get up again.

The whole place was dead silent, and everyone looked at Lin Yi with no doubt in their eyes. So this guy wasn't lying just now, he really had the ability to look down on these Tiandao Masters!

Yu zhengliang's eyes almost popped out of their sockets. He had thought that the other party had the advantage of a sneak attack, which was why he could easily deal with the two mid-stage foundation building disciples. He did not expect that even the bearded man was not his opponent. It should be known that the bearded man's strength was only a little weaker than his.

Only health-maintenance Fei had already expected this. After all, even Xue Jianfeng had ended up like that, let alone these guys from the Qiankun sect. Previously, he had felt sorry when he saw Xue Jianfeng being abused. However, now that it was the people from the Qiankun sect, health-maintenance Fei actually felt an inexplicable sense of satisfaction. This group of arrogant guys deserved to be beaten up!

"Alright, Auntie, you can move around a little." Lin Yi inspected Mrs. Tang's injuries thoroughly, and only stood up after making sure that everything was fine.

Mrs. Tang did a public square dance in front of everyone, and after the song was over, she exclaimed in surprise, "It's really all right, there's no injury at all, it doesn't hurt at all, you're a god, Yi!"

"It's good that it doesn't hurt anymore. Auntie, rest here for a while. I'll help you vent your anger. " Lin Yi smiled and turned around to walk towards Yu zhengliang.

"What do you want to do?" Yu zhengliang couldn't help but reveal a bit of nervousness. Even an idiot would know that Lin Yi wasn't someone to mess with after seeing what happened to the big-bearded man. Although he was the big senior brother of the Qiankun sect, a Grand Peak Foundation Stage master, he didn't have much confidence in facing Lin Yi.

It was a pity that he couldn't back down now. He had aggressively brought people to the snow Valley to snatch disciples. Now, not only did he not get any disciples, but all his subordinates had also died. It was a difficult situation even for him. At this time, he couldn't advance or retreat. As the high and mighty big brother of the Qiankun sect, he couldn't just leave his Junior Brother and run away, right?

"Nothing much, just an eye for an eye. Whatever you did to the People of the Snow Valley, you'll have to pay it back in double. You're from the ancient Alliance, after all, so you should have some basic awareness, right?" Lin Yi smiled coldly as he cracked his knuckles.

Yu zhengliang took two steps back in fear when he heard the voice. He said sternly, "Who are you?"

"You're too polite. I'm not a divine being, just a native of the secular world. I can't compare to your high and mighty ancient Alliance! You can Rob whoever you want, but you can't do that in our secular world. Human traffickers are guilty of the most heinous crimes, and they will be arrested and shot to death for five minutes. " Lin Yi said in an awkward tone.

Even if Yu zhengliang did not understand, he could tell that it was definitely not a good thing. His originally arrogant face turned purple with anger, and the murderous aura in his body surged. He said with an embarrassed expression, "Brat, even if you're not weak, you're only at the perfected Foundation establishment stage. Do you think you can challenge the ancient Alliance? If you're smart enough to lower your head and admit your mistake, I'll let this matter end here. I can let these disciples of the snow Valley off, but if you continue to pester me, then you'll be exterminated by the archaic Alliance!"

Lin Yi blinked and looked at him up and down. "If I'm not mistaken, you seem to be begging for mercy?"

"..." Yu zhengliang didn't know what to say. He was begging for Lin Yi's mercy when he promised to let the disciples go. After all, Lin Yi's performance just now was too shocking. He might not have a good chance of winning if he fought Lin Yi one-on-one. In this situation, retreating was the wisest choice.

However, all Masters wanted to save face. He believed that this was at most a negotiation. As the eldest senior brother of the Qiankun sect, how could he beg for mercy from a native of the secular world?

"This is the first time I've seen someone begging for mercy in such a dignified and refined manner. I'll give you a kind reminder. Next time you beg for mercy, at least be more professional. Your tone can easily be misunderstood as bickering. You'll get beaten up if you do that." Lin Yi said as he glanced at health Fei.

When it came to begging for mercy, this guy was the real model. He knelt down without any hesitation.

Yu zhengliang's face turned green and white for a long time before returning to normal. He thought to himself, 'although this guy has a mean mouth, he's at least tactful and doesn't dare to challenge the entire ancient Alliance.' He immediately snorted and said, "The Green Mountains never change, the green waters flow forever ..."

"Wait a moment!" "I'll see you again!" Lin Yi interrupted, curling his lips. "Did I say you could leave?" You're not even sincere when you're begging for mercy, and you still think I'll spoil you? do you think I'm your father?"

"You're going too far!" Yu zhengliang was furious. He had never suffered such a humiliation in the ancient Alliance. He no longer cared about the comparison of strength and charged over.

In the blink of an eye, Yu zhengliang was already in front of Lin Yi. His two palms were surrounded by a strong Qi. The nature of the two Qi was completely different-one was as sharp as a blade, while the other was as heavy as a mountain. The former was for offense, while the latter was for defense. It was the signature heaven and earth palm of the heaven and earth sect!

"The palm technique is not bad, but it's a pity that the person is a little lacking." Lin Yi smiled calmly and dodged Yu zhengliang's first palm. If it was someone else, they would have exposed their flaws, but Yu zhengliang was able to defend himself with his other palm. After all, he was the Big Brother of the Qiankun sect, so he had some strength.

With the heaven and earth palm, Yu zhengliang's strength was definitely at the top among perfected Foundation establishment cultivators. Even Xue Jianfeng, who was known as the strongest perfected Foundation establishment cultivator in the ancient Alliance, would only have a 50 - 50 chance of winning if he were to go up against Yu zhengliang.

But even if Xue Jianfeng wasn't enough to deal with Lin Yi, Yu zhengliang's fate wasn't any better. Even if they were all Foundation Stage cultivators, with Lin Yi's methods, the scene could only be described in one word-beating up children.
