

Bodyguard 5081

Chapter 5081 President Lin

After shaking off the first palm, Lin Yi pointed a finger at Yu zhengliang's face. Yu zhengliang quickly raised his palm to defend. Lin Yi's finger looked ordinary and didn't have any aura, but the more it was so, the more frightened he was. It would be fine if Lin Yi's aura was terrifying, but the current situation where he couldn't figure it out was truly terrifying.

However, Lin Yi's finger attack was really just a casual one. There was no power at all, and Yu zhengliang didn't even need to use a bit of pure Qi to defend against it.

This guy was just bluffing? Yu zhengliang felt humiliated as if he was being played like a monkey. He was about to counterattack with all his strength, but he let his guard down a little and revealed a small opening in the exchange of attack and defense. Lin Yi's fingertip immediately drew a blue arc.

The electric arc instantly pierced through his protective Zhen Qi, and Yu zhengliang felt his whole body go numb. By the time he reacted, Lin Yi's wild fire thousand legs had already swept across his face, and he was kicked a hundred meters away. He fell to the ground and vomited blood.

With the blue arc and the wild fire thousand legs, Lin Yi's moves weren't that much stronger than the heaven and earth palm. The only reason why the situation was so one-sided was because of his superior intelligence. Yu zhengliang seemed to be very experienced, but he was still too inexperienced to fight with a Big Shot like Yu zhengliang, who was comparable to a mountain opening powerhouse.

Everyone in the valley was stunned by this scene. The four overpowered Tiandao Masters of the Qiankun sect couldn't even take a full blow from Lin Yi-just how strong was this Lin Yi?

"Hmph, Hmph, what ancient Alliance? you bunch of blind little red Rascals have the guts to provoke our Snow Valley. Now you know what the consequences are!" Mrs. Tang saw the situation and immediately became full of energy. She pointed at the injured Yu zhengliang and the other three and took the opportunity to scold them. Her ability to scold people was far beyond Lin Yi's reach. In the end, she didn't forget to say proudly, "I've already told you that my son-in-law is very powerful. He can kill you little red guys with one kick. Look, you're done for!"

Everyone looked at each other-when did this woman say something like that? she didn't even know that Lin Yi would come back to save the day! She'd be asking for a beating if she said that ...

However, no one really cared about this at this time. Everyone knew that Mrs. Tang was this kind of person, and she was the closest person to Lin Yi. Lin Yi rushed here to save her mostly because of her, or else this whole mess would've ended in tragedy.

"Valley master Xue, how do you plan to deal with these four people?" Lin Yi asked the New Valley master.

The people in the snow Valley were suddenly in high spirits when they heard this. This was really the turn of the wheel. Just a moment ago, Yu zhengliang and the other three people were riding on their heads and acting like tyrants. They did not expect the situation to be reversed so quickly. Looking at the four people's miserable appearance, they really vented their anger!

"It's all up to President Lin to decide. " The New Valley master said quickly. This time, more than half of the disciples in the snow Valley were injured. Everyone hated Yu zhengliang and the other three, but she did not dare to deal with them casually. After all, they were from the ancient Alliance. If they did not deal with the aftermath properly, the snow Valley would not be able to live in peace.

"Alright, then let them go back. I will take care of the archaic Alliance." Lin Yi gave health-maintenance Fei a look. This guy was born to be a Lackey. He immediately went up and kicked the four half-dead men off the ground. Yu zhengliang and the others were seriously injured, but they still gritted their teeth and crawled out of the valley, afraid that Lin Yi would go back on his words and kill them.

But these people were thinking too much. Lin Yi didn't plan on completely falling out with the ancient Alliance yet. After all, his essence spirit couldn't stay in the common world forever, and he was only at peak Foundation Stage. He couldn't crush the entire ancient Alliance by himself, so he wouldn't kill unless he had to.

Lin Yi's decision was a little unexpected, but looking at Yu zhengliang and the others "miserable appearance, the People of the Snow Valley felt that they had gotten their revenge. Other than regretting that they couldn't take revenge with their own hands, they didn't have any dissatisfaction.

"This time, I would like to thank President Lin for helping us out. On behalf of all the disciples of the snow Valley, I am extremely grateful. The snow Valley will forever remember President Lin's great kindness in its heart." The New Valley master said solemnly.

"You're being too serious. The snow Valley and I have a deep relationship. This is all part of my duty. There's no need to thank me. " Lin Yi waved his hand and smiled. He suddenly remembered Xue Li's words and asked,"By the way, how's the situation in the snow Valley these past few years?"

"Everything has been fine these past few years. It's just that this storm happened today." The New Valley master smiled bitterly and looked at Lin Yi from head to toe, surprised,"President Lin, since you're back, does that mean the others are back as well?"

"No, my situation is a bit special. I'm the only one who came back this time." Lin Yi shook his head, chuckling at the guy's hesitation. "You want to ask about Xue Li's condition, right? she's doing well. When I came back this time, she asked me to bring a message to you all, so that you can rest assured."

"Oh, oh. That's good, that's good." Everyone in the snow Valley breathed a sigh of relief when they heard this, and there was a gratified smile on their faces. Xue Li, the previous Valley master, was still very popular here.

"President Lin, let's go inside and sit. I'll get someone to prepare a good dinner. Although you have a deep relationship with my Snow Valley, you have helped us out of such a big problem this time. You should at least let us express our gratitude." The New Valley master suggested.

"That's right, Yi. It's rare for you to come back, so stay here for a few more days. " Mrs. Tang added. She'd gotten quite a bit of treasure from the valley these past few years, and was planning on giving it to Lin Yi in secret.

"Auntie, I really can't stay here any longer. I have to go back to Eastern Sea city as soon as possible. I can't delay the matter of the ancient Alliance." Lin Yi said.

"Is that so ..." Mrs. Tang was speechless. She would've stopped Lin Yi if it was something else, but the ancient Alliance was no small matter, especially after what happened today. Even she knew that it'd be a big problem if it wasn't handled well. She could delay anything else, but this one.

Everyone in the snow Valley had the same thought. They immediately said, ""If that's the case, then the next time you're free, the entire Snow Valley will be waiting for President Lin's arrival."

"Alright, everyone take care. I'll take my leave first." Lin Yi said his goodbyes to Mrs. Tang and everyone in the valley before leaving for Donghai city with Health Fei.

Chapter 5082 Contacting Old Man Lin

Health-maintenance Fei was still driving like a madman. First, Xue Jianfeng was beaten up, and now Yu Zhengliang and the other three were beaten up. This guy's attitude towards Lin Yi was obviously getting more and more respectful. The strong were respected no matter where.

"If I let Yu Zhengliang and the other three go this time, what do you think the ancient Alliance will do?" Lin Yi suddenly asked.

"Uh ..." Health-maintenance Fei choked. At this time, he felt a rare sense of shame that a traitor should have, but he immediately threw it to the back of his mind and said weakly, "He should be very nervous."

It was inevitable to be nervous. First, Sun Baimei and Yin Zhiping of the evil warding sect were killed. Then, the eldest senior brother of the snow sword sect, Xue Jianfeng, had his dantian crippled and was imprisoned in the supernatural investigation bureau. Now, it was Yu Zhengliang and the other three people of the Qiankun sect's turn to be abused. Any one of these events could cause a stir. Now, all of them were stacked together, and the entire ancient Alliance would probably be in a panic.

The one who started all this was Lin Yi. Everyone thought that the mortal world would be easy and fun, but after Lin Yi's interference, the people of the ancient Alliance were no longer happy.

"What happens after the tension? What follow-up actions will they have, such as sending people to take revenge?" Lin Yi continued to ask. This was what he was most concerned about. If the ancient Alliance went out of control after all this and started killing all the cultivation forces in the secular world, it would be really troublesome.

"I don't think so. After all, the immemorial Alliance is just a loose Alliance of sects. As long as it's not their own sect that got into trouble, they'll probably laugh at other sects' misfortune. No one would be so kind as to stand up for other sects. I think at most, they'll just inform the disciples who came out to train and ask everyone to be careful." Health-maintenance Fei carefully speculated.

Although this answer was a little suspicious, it was the most likely situation. After all, the internal affairs of the immemorial Alliance were not United. There were always all kinds of new and old grudges between the sects. Unless a great disaster was imminent, they would not easily work together.

Lin Yi let out a breath of relief and asked, "Do you have a way to contact the disciples who came out to gain experience? Do you have any way to contact could?"

Lengleng's whereabouts was another important matter in Lin Yi's heart. She had a phone on her, but it was turned off every time he tried. Lin Yi guessed that it was out of battery, and Lengleng was probably hiding in some old forest cultivating, so she couldn't charge it. Otherwise, she wouldn't have left her phone alone with her passion for phones.

"Uh, I can't say how they can be contacted, but every sect has their own special mark. When disciples go out to train, they will leave a special mark to contact others. It's the same for our snow sword sect." Health-maintenance Fei replied.

Lin Yi was speechless-this method was way too ancient, a pure primitive method of the ancient martial arts world. In the modern world, this method was like casting a net in the ocean. It was unrealistic to find Lengleng with this method, unless she was nearby. The possibility of that was even lower than winning the lottery.

"Then How can I find Lengleng?" Lin Yi asked.

Health-maintenance Fei looked at him helplessly. I'm not familiar with cold, how would I know something that you don't know? But he didn't have the guts to say that to Lin Yi's face. He thought about it and said, "The immemorial passageway will close in a year's time. By then, all the disciples should have gathered at the entrance of the Shennongjia formation. We should be able to find Leng Leng."

"Alright," he said. Lin Yi nodded. He'd heard about this from cold before, and now that he'd confirmed it with health Fei, he wasn't in a hurry to find her. He'd better get back to Eastern Sea city first.

Back at the villa, Chentian and the others were all waiting at the entrance, all except for Lingshan on duty. They surrounded Lin Yi as soon as they saw him.

"Boss, how's the situation in the snow Valley?" Chentian asked.

"It's fine now. This time, it was the people from the universe sect of the immemorial Alliance who caused trouble. I taught them a lesson and chased them away." Lin Yi said with a smile.

"Haha, boss is the best!" Everyone cheered and followed Lin Yi into the room.

Lin Yi suddenly stopped and turned to Fei Yangsheng, who was following behind the group, "You go to the door and guard it, don't even think about running away. I've already said that I've marked you with divine sense, and if you dare to take half a step out of the door, I'll kill you immediately."

"Yes, yes. Senior, don't worry. I definitely won't run, even if you beat me to death." Health-maintenance Fei quickly swore to the heavens and immediately ran to the gate to be a guard.

Ziyu was happy to see this. She turned to Chentian, "Uncle Wu, there's a new guard to replace you. You can take a break now."

"Haha, I can't ask for more. This way, I can prepare dinner for everyone without worry. Just wait for the big meal!" Chentian chuckled and went back to the kitchen. He'd been preparing for the dinner since the beginning, and it didn't take long for the food to be served. Everyone sat around the table, laughing and chatting. Other than Mengyao and the girls who were still unconscious, it was a perfect scene.

Lin Yi even gave Lin Dongfang a call before the meal. He'd received news from Wu Chengtian and the others that the old man was ready to leave the mountain again, but he didn't care anymore after hearing that Lin Yi was coming personally. He even said that Lin Yi had been eating sh * t for three years on Sky Class Island if he couldn't even solve this sh * t problem.

Lin Yi almost choked. He knew that the old man believed in his ability, but he'd rather believe in another reason-the old man must've had too much fun with aunt Qing, spending all his time doing those inappropriate things. Even if he didn't die of exhaustion, he'd be too weak to walk.

"Send my regards to aunt Qing, and tell her to take it easy, don't squeeze your old bones dry!" Lin Yi yelled into the phone.

"Get lost!" Old Lin was still very confident.

Lin Yi laughed and hung up. Everyone was waiting for him to take a seat, and he couldn't wait to ask, "Boss, How did you come back this time? why are you alone?"

"Because the way I came back this time is a little special. I didn't teleport back directly with my body, but used the projection of my primordial spirit. Although it's more laborious and has many disadvantages, being able to come back and see is better than anything else." Lin Yi said with a smile.

Chapter 5083 The Situation And Plans

"Could it be the so-called primordial spirit body?" Everyone was confused-this question had been on their minds the moment they saw Lin Yi, and they'd been holding it in for an entire day.

"That's right, don't think that I look like a normal person right now. In fact, this is not a real body, just a primordial spirit condensed from spiritual energy. Not only is my strength far inferior to my main body, but I can't stay in the secular world forever. I'll have to go back when my spiritual energy is almost exhausted. " Lin Yi nodded.

"Such a fantasy? Boss, you're too awesome!" Everyone had a look of confusion on their faces. At their level, it was very difficult for them to really understand primordial spirit projection. The only thing they felt was that this thing was too awesome. It was simply an illusion-like technique.

"How long can you stay this time?" Lingshan and the girls, on the other hand, had a different point.

"I'm not sure, but a few months should be no problem." Lin Yi said after some thought. As long as he didn't get his Yuan spirit destroyed like last time, a few months shouldn't be a problem. It might even be longer than expected. Don't forget that he still had a piece of Star Ink charcoal that Leng Leng left for him.

"Only a few months ..." Lingshan and the girls weren't satisfied-they only had a few months to spend together after three years apart, and they had to deal with the ancient Alliance. Lin Yi had even less time to spend with them.

"Don't be so ungrateful. There's still a long way to go. Once I've cured Mengyao and the others, I'll have plenty of time to spend with you guys. " Lin Yi consoled with a smile.

"You said it yourself, you can't go back on your word." The girls' eyes immediately lit up.

"Good, good, good. I won't go back on my word." Lin Yi smiled."Let's talk about the ancient Alliance first. I've gathered quite a bit of information now, and the disciples they sent to the common world are all Foundation Stage Masters, the so-called Sky Realm Masters. They're at the level of newbies on Sky Class islands, but they're very powerful in the common world. That's why they caused such a big commotion."

"No wonder these people are so arrogant and tyrannical. In front of the boss, they immediately become his grandsons. It turns out that they are only at the level of newbies. I thought they were very arrogant!" Xiaobo said, curling his lips.

"I've tested them before. The people of the immemorial Alliance all think that the Sky Class Island is just an illusory legend. They think that the immemorial Alliance is the ultimate Holy Land for cultivators, and they even say that we people of the secular world are frogs in a well. Their tone and expression are so funny that I almost couldn't hold it in." Lingshan said, chuckling.

"There is always someone better than you. Even I understand this basic principle, but these people from the immemorial Alliance don't. It seems that they are just so-so." Ziyu said in disdain.

"Hehe, it's rare that even you have improved." Lin Yi smiled. "That's true, but at least from the perspective of the secular world, the immemorial Alliance does have the capital to be superior to others. Moreover, their original intention of coming out to the secular world to train is not to be hostile to us. They just want to recruit some talented disciples. It's not a bad intention. It's just that these sects think that they are high and mighty. Once they do things, like the snow sword sect and the universe sect, it's easy for things to change. Recruiting people to snatching people, and good things to turn into bad things."

This was the truth-if the ancient Alliance really wanted to deal with the common world, even Lin Yi wouldn't be able to stop them. In the month he recovered, the forces in the common world would've been massacred ten times over.

"This won't do. If this continues, a second or third snowy valley will appear sooner or later. The enmity between us will only grow deeper and deeper. By then, even if we don't become enemies, we'll become enemies." Yu Bing frowned.

"That's right. If too many lives are lost, then blood for blood will definitely be paid. It's impossible to shake hands and make peace." Chentian and the others all nodded.

They didn't like the ancient Alliance, but they'd never thought of starting an all-out war with them. Even if they had a Super Master like Lin Yi, the ancient Alliance was still much stronger than the common world. If they really started a war, the common world would be wiped out, and no one wanted to see that happen.

"Strictly speaking, the immemorial Alliance has already suffered three losses in my hands. This time, I'm sure the release of the four people from the Qiankun sect will definitely attract attention. It's time to have a good talk with their leaders. We can't let them continue to mess around." Lin Yi lowered his voice.

The common world didn't have the power to negotiate with the ancient Alliance, but now that an anomaly like Lin Yi had appeared, it was possible for them to sit down and negotiate. After all, the ancient Alliance wasn't stupid. If they started a full-scale war, it wouldn't do them any good. Instead, more people would die at Lin Yi's hands, and it wouldn't be worth it.

"Yes, yes, that's what we thought before." Chentian and the others nodded-they were thinking of using a practitioner to intimidate the enemy, but they didn't think that their boss Lin Yi would be that mysterious practitioner.

"But where are we going to find these people?" Xiaobo asked.

"That's easy. Xue Jianfeng is locked up in the supernatural Investigation Bureau. We'll know after some interrogation." Lingshan said.

"There's no need to go through so much trouble. They're actually in Shennongjia. That's the entrance to the teleportation formation that leads to the small Jianghu of the immemorial era. As long as we go there, we'll definitely be able to find them. However, as far as I know, the immemorial Alliance is a very loose organization. Moreover, I reckon that there are no true high-level members who came out to the secular world to train this time. I just don't know if there's anyone who can really make the decision. "

Lin Yi frowned.

The crowd was speechless. The worst thing was that they had an agreement with the ancient Alliance, but it turned out that the ancient Alliance's words were useless. The other ancient sects continued to do whatever they wanted. If they continued to snatch people from the universe sect, they would really vomit blood.

"What's the point of guessing? isn't there a guard outside? it's better to ask him than to guess." Ziyu said, curling her lips.

"Yup!" Everyone's eyes lit up, and Lin Yi called him in immediately. "Who is the leader of your ancient Alliance?"

"Uh, there's no one in charge. The immemorial Alliance is an Alliance formed by the elders of the various sects. Furthermore, this experience in the secular world is decided by each sect. For example, our snow sword sect is decided by senior brother Xue. The people of other sects can't possibly point fingers at us. It's a taboo to interfere with the internal affairs of other sects." Health-maintenance Fei said in surprise.

Chapter 5084 Uncle-Master Leader

"No one in charge?" Lin Yi's brows furrowed even deeper as he continued, "Then, when something big happens this time, the people of the ancient Alliance will always gather together to discuss countermeasures, right? are you all just talking about your own things and there's really no one who can come forward to lead?"

"That's not necessarily the case. Although it's decided by each sect, there's a nominal martial uncle leading the team this time. It's just that everyone thinks that the trip to the secular world is not difficult at all, so that martial uncle doesn't care about anything. He's only responsible for opening and closing the immemorial passage and doesn't usually show his face." Health-maintenance Fei thought for a while and said.

"Who is it? What's his strength?" Lin Yi asked.

"He's a martial uncle from the green cloud sect in the North Island. His name is Xin Yijie. I heard that he's an early golden core expert and is the strongest among all the people who came to the secular world this time. He might show up this time, but I don't know if he'll come out to take charge of the situation." Health-maintenance Fei said carefully.

As the saying went, 'better a friend dies than a poor one'. After all, up until now, the green cloud sect of the North Island had not suffered any losses. On the contrary, it was their competitors such as the snow sword sect and the Qiankun sect who had suffered losses. Xin Yijie was likely to continue to ignore them. If the other sects were to suffer a great loss in this experience in the secular world, the green cloud sect of the North Island would be the sole dominant sect in the future.

The green cloud School of the North Island? Lin Yi blinked-what the hell was this? why did all these ancient sects have the same name as Sky Class Island? Previously, there was a snow sword sect, and it could be regarded as a pure coincidence. But now there was another one, and it was even called the North Island's Green cloud sect!

"You're not going to tell me that the archaic Alliance still has the ascending heaven sect and the profound secrets sect, are you?" Lin Yi couldn't help but ask with a weird expression.

"Yes, the three great sects of the North Island are of the same breath and branch. Moreover, each sect is a first-class existence in the ancient Alliance. Many of the Alliance's Elder Council are members of the three great sects of the North Island. Senior, how do you know this?" Health Fei thought it was strange. Lin Yi was strong, but he was just a mortal world essence spirit. There was no reason for him to know about the ancient martial world. The ancient passageway only opened once every thousand years.

Lin Yi didn't bother with him, completely speechless. If this was a coincidence, he could've twisted his head off and used it as a ball!

He'd just been saying that the ancient Alliance was a frog in a well, thinking that Sky Class Island was just a rumor, and now there were a bunch of sects with the same name as Sky Class Island, especially the three gates of the North Island. Lin Yi believed that there had to be some sort of connection between the two, but it wasn't something that ordinary disciples would know.

"So, if I were to negotiate with the archaic Alliance, this Xin Yijie is the only person I would choose?" Lin Yi put aside all the questions and returned to the topic.

"Yes, he's the only one who can suppress the other ancient sects in terms of status and strength. If even he can't do it, then no one else can." Health-maintenance Fei nodded.

"Alright, then tell him that the president of the practitioner's Association in the common world, Lin Yi, has invited him to meet him at the supernatural Investigation Bureau." Lin Yi said.

"This ..." Health-maintenance Fei immediately cowered. He was a traitor to the ancient Alliance now. Although the matter of the snow sword peak had probably not spread back yet, he still felt very guilty. Asking him to pass on a message to Xin Yijie now was playing with fire ...

"What's wrong? You don't want to go?" Lin Yi's face darkened.

"No, no, I'll definitely do as senior says." Health-maintenance Fei was shocked and quickly said, ""However, I can only try my best. I can't guarantee that I'll be able to see martial uncle Xin. I can only try my best to pass on the message. Do you want me to go now?"

"Go on." "Oh right, go there and get some news about Lengheng. She might've gone back already," Lin Yi said with a nod.

"Yes!" Health-maintenance Fei set off immediately. He had Lin Yi's spirit sense mark on him, so he had to follow whatever Lin Yi told him to do. How could he say no?

As soon as he left, Ziyu called out, "Lin Yi bro, who's Leng Leng?"

It wasn't just Ziyu-Lingshan and the others were concerned as well, and Chentian and the others were all looking left and right-it had to be a new sister-in-law!

"She's from the ancient Alliance that I knew before. You'll see her in the future." Lin Yi said, his face red.

Chentian quickly changed the subject when he saw that Ziyu was going to ask more questions. "Just now, he said that Xin Yijie was an early golden core expert. Boss, what's your current level of strength?"

"Perfected Foundation establishment. The strength of my primordial spirit is far from the level of my main body. I'm afraid it'll be difficult to improve for the time being." Lin Yi said.

"Doesn't that mean I can't compare to him?" The group couldn't help but worry. They were all clear about the different levels of strength due to Lin Yi's influence. Fighting an early golden core stage cultivator as a Foundation Stage peak was no ordinary cross-level challenge.

"It's indeed difficult, but we're only negotiating with him. We might not start fighting. Besides, even if we do fight, it's still unknown who will win." Lin Yi smiled. His Yuan spirit body's ability to challenge people above his level was a big weakness compared to his main body, but it was already very impressive compared to others. If he really used all his skills, he might not lose to an early golden core Master.

But what Lin Yi was worried about was that there might be other stronger hidden masters in the ancient Alliance other than Xin Yijie. That would be a real problem, and he hoped that health-maintenance Fei's information was true. After all, from a normal person's point of view, early golden core Masters were already lowering their status in the secular world. Even stronger people wouldn't bother coming.

Lin Yi's party continued to be lively as health-maintenance Fei rushed to Shennongjia overnight. He didn't stop and went straight to the assembly point to see Xin Yijie from the green cloud sect.

He actually didn't have much hope for this. Last time, when Yin Zhiping and sun Baimei of the evil warding sect were killed, Xin Yijie didn't show up at all. Instead, it was the attention-seeking Xue Jianfeng who came forward. This time, he was just an ordinary disciple of the snow sword sect, so he wasn't very confident in meeting him.

Unexpectedly, the whole process went surprisingly smoothly, and health-maintenance Fei soon saw Xin Yijie.

"You said that you have something important to report to this old man. Speak, what is it?" Xin Yijie had his own private room in this Mountain Gate. He usually didn't leave the house and just cultivated here. The secular world wasn't attractive to him at all, which was why he didn't seem to care.

Chapter 5085 Meeting For A Discussion

"Yes, I've been entrusted with a message for you, Shishu Xin. The president of the common world's practitioner Association, Lin Yi, has invited you to the supernatural Investigation Bureau." Health-maintenance Fei said respectfully.

"The president of the practitioner's Association, Lin Yi? I've never heard of this person before." Xin Yijie shook his head, not interested at all. Asking an early golden core from the ancient Alliance to meet a practitioner from the common world? this was ridiculous. Wasn't that Lin Yi thinking too highly of himself?

"No, I'm sure you've heard of him. He's the primordial soul cultivator." Health-maintenance Fei thought about it and explained everything, "Yin Zhiping and sun Baimei of the evil warding sect were killed by him. Xue Jianfeng, the eldest senior brother of the snow sword sect, had his dantian destroyed by him. Yu zhengliang and the other three disciples of the Qiankun sect were also badly beaten by him in the snow Valley."

"What? Did he do all this?" Xin Yijie was taken aback-he'd heard about the valley from Yu zhengliang before, but he didn't know who Lin Yi was. He didn't think that Lin Yi would be the famous essence spirit practitioner who crippled Xue Jianfeng's dantian!

Xin Yijie's expression turned serious. Xue Jianfeng was known as the strongest Foundation establishment stage cultivator in the ancient Alliance. If even he had his dantian destroyed, then this immortal soul Stage cultivator must be at the perfected Foundation establishment stage or at least the Golden core stage!

"Yes, Junior's words are true." Health-maintenance Fei guaranteed.

"It's unbelievable that there's such an expert in the secular world. " Xin Yijie muttered to himself. Even he might not be able to deal with an expert of this level, so he had to be careful.

As the person in charge of this trip to the secular world, Xin Yijie didn't mind letting the disciples of other sects get into trouble. However, things were getting out of hand now. Otherwise, not only would the disciples of his green cloud sect get into trouble, but they would also be severely punished by the elders of the archaic Alliance. He couldn't afford to bear the consequences.

"Do you know his exact background?" Xin Yijie asked.

"Uh, I don't know. I only know that he's an essence soul cultivator." Health-maintenance Fei shook his head repeatedly.

"Primordial soul cultivator ..." Xin Yijie muttered to himself. Could this person be a powerful primordial soul left behind in the mortal world from the ancient times? otherwise, he had never heard of any cultivators in the mortal world who had reached the heaven's path realm! In this way, he had successfully become the president of the cultivators Association. Now that things had developed to this point, he could not continue to ignore it.

"Go and tell him that I'll agree to this meeting," Xin Yijie said immediately. "The supernatural Investigation Bureau, right? I'll go and meet this immortal soul cultivator!"

Health-maintenance Fei was overjoyed-he didn't know what Lin Yi would do if he couldn't complete his mission. He'd be in deep trouble if Lin Yi took it out on him. Luckily, Xin Yijie was unexpectedly serious this time and agreed to it so readily.

After setting the time, health-maintenance Fei immediately returned to Donghai city and told Lin Yi what Xin Yijie said. Of course, he still wanted Lin Yi to let him go if he made him happy.

"Very good, Lingshan, let's go to the supernatural Investigation Bureau." Lin Yi nodded.

"Lin Yi bro, I want to go too!" Ziyu said, eager.

"That's right, boss. Let's go together. At least we'll be able to build up our momentum!" Chentian and the others chimed in.

"Build up momentum ..." Lin Yi looked at everyone with a weird expression, speechless, ""Do you think this is a normal gang negotiation? the boss is sitting together while the underlings are standing in a line behind him. Do you all have to change into black suits and black sunglasses?"

"Haha, that's not a bad idea. I remember Zhong pinliang now." Xiaobo said with a nod.

"Go to hell, you guys just stay here and take care of Mengyao and the others for me. Lingshan and I will handle the investigation Department," Lin Yi didn't know whether to laugh or cry. "But pinliang's not bad. He's been working with me on Sky Class Island."

The other party was an early golden core practitioner, after all. If they couldn't come to an agreement and started fighting, he would have no problem protecting himself with his current strength. He could only take one more person with him, and if everyone went with him, it would only make him more cautious. Song Lingshan was the Deputy Director of the supernatural Investigation Bureau, and bringing her along was a matter of course. Otherwise, Lin Yi wouldn't even bring her.

Lin Yi finally managed to convince everyone to leave with Lingshan, leaving health-maintenance Fei behind to guard the door.

After all, this guy was a mid-stage Foundation establishment expert. Moreover, he had a spiritual awareness mark on his body, so they were not afraid of him suddenly betraying them. With him around, it could be considered a deterrent to the other disciples of the ancient Alliance. Even if their strength was not as good as the other party, it was not a problem to delay time with some words.

Lin Yi was still in the passenger's seat, but the driver was song Lingshan. The silly girl's lips kept curling up, and Lin Yi couldn't help but ask, "Is your face twitching?"

"You're the one whose face is twitching!" Lingshan's face darkened, but her lips curled up again as she stammered, "It feels so good to be alone with you and me ..." He said.

Lingshan closed her eyes in enjoyment, and Lin Yi jumped in shock. "No, no, let's talk this out. Don't close your eyes, you're still driving!"

Lingshan rolled her eyes at him, muttering, "Unromantic wood!"

Lin Yi smiled bitterly. He knew that Lingshan wanted to spend some alone time with him, but with so many love debts, it was impossible for him to do so even if he spent all his time with them.

It was a normal thing for normal girls, but it was a luxury for Lingshan and the others. Lin Yi owed them too much.

Lin Yi's heart was full of guilt, but Lingshan didn't think it was a bad thing. She was satisfied with this alone time in the car. After all, in her eyes, Lin Yi was destined to be a man who could command the world. If Lin Yi was like other people who only knew how to spend time with women, she wouldn't even be interested in him.

The two of them arrived at the supernatural Investigation Bureau, and not long after, an old man with a white beard came to visit.

Lingshan invited him into the living room. The old man's expression was calm at first-he wasn't as arrogant as Xue Jianfeng, but it was clear from his attitude that he didn't care about these people at all. Xue Jianfeng looked down on them, but he ignored them.

Chapter 5086 How Is This Possible?!

This was very normal. He was a dignified early jiedan stage expert of the ancient Alliance. If he still put these people from the supernatural Investigation Bureau in his eyes, then he really had to be careful. After all, they might have other motives. And now, this kind of almost nonchalant attitude was not a bad thing for everyone. At least, they could stay out of each other's way.

However, after seeing Lin Yi, the old man's faint expression disappeared and was replaced with a serious look. He was experienced enough to know that Lin Yi may have hidden his aura, but there was still a profound aura around him. His instinct told him that this was no small matter.

"I'm Xin Yijie, an elder of the green cloud sect on the North Island of the ancient Alliance. I'm in charge of this trip to the secular world. Are you Lin Yi, Sir?" Xin Yijie asked seriously.

"Yes, please sit." Lin Yi smiled politely, but he was actually feeling a little weird. He was a disciple of the North Island, but the guy called himself an elder of the Qingyun school-it felt like he was from a Sky Class Island.

Lin Yi suppressed the strangeness in his heart and talked to the man seriously. After all, the man was an early golden core cultivator, and he had the advantage in strength. The ancient Alliance was also behind him, so Lin Yi had to be polite to him even if he didn't lose all decorum with him. Otherwise, there would be no negotiation.

Xin Yijie was guessing that Lin Yi was some ancient immortal, and he wasn't too arrogant after seeing Lin Yi's extraordinary aura. Strength determined one's right to speak-it was natural for him to ignore weaker practitioners, but if he ignored Lin Yi as well, then there must be something wrong with his brain.

Someone who was able to become the person in charge of the mortal world's training obviously didn't have a problem with his brain. On the contrary, this person was someone who knew how to deal with people. Otherwise, if he only used his strength to suppress them, these ancient sects might not even listen to him.

"President Lin, I'm here today to clear up the unhappiness between the ancient Alliance and the secular world. I want to know who is right and who is wrong. Otherwise, the enmity between the two sides will only deepen. It's not good for either the ancient Alliance or the secular world. I believe that President Lin is in the same position on this point, right?" Xin Yijie said.

"Of course. The secular world is our home. No one would want their home to be on fire. This time, I have specially invited elder Xin over to explain the matter clearly. I hope that the archaic Alliance will be able to restrain the behavior of our disciples in the future to avoid further friction." Lin Yi nodded.

"Alright, let's talk about the Qiankun sect. The one who injured Yu zhengliang and the other three is President Lin, right? Also, I've heard that you've destroyed the dantian of Xue Jianfeng from snow sword sect?" Xin Yijie confirmed.

"That's right, these two things are true. I originally didn't want to make a move on them, but they went too far and crossed the line, so naturally they should suffer a little. " Lin Yi nodded and said faintly,"the secular world has its own rules. The ancient Alliance can choose disciples from the secular world as long as the practitioner agrees. We have no objections and will not stop you. But if you want to take someone by force, then there's nothing else to say."

"I know a little about what happened in the snow Valley. Qiankun sect was indeed impulsive and turned a good thing into a bad thing. They have nothing to say about being beaten up. As for Xue Jianfeng, they should have found trouble with President Lin. It was reasonable for President Lin to cripple his dantian in a fit of anger. I have nothing to say about that." Xin Yijie readily admitted to these two matters.

One was already in the wrong, and the other was that this matter had nothing to do with him. In any case, the people who were injured weren't from his North island's Green cloud School. The senior brothers leading these schools were not reliable in their work, so they couldn't blame anyone else for suffering a loss, let alone Xin Yijie.

"Elder Xin is indeed a reasonable person." Lin fan nodded his head in surprise. He was relieved that Xin Yijie was so easy to talk to. He hated people who thought they were high and mighty but refused to admit their mistakes. If they couldn't be reasoned with, they could only use their fists to solve the problem. That was the last thing he wanted to see.

"However, regarding the matter of Yin Zhiping and sun Baimei, isn't it a little unreasonable for President Lin to kill them without saying anything?" Xin Yijie's face darkened. It didn't matter to him if the people from the other sects were injured or disabled, but it was a different story if two people died in a row. As the person in charge of the team, if he didn't have a good reason, he would be punished by the ancient Alliance.

"I'm a primordial spirit, but these two came to deal with me. Elder Xin should know what they want to do, right? Since they wanted to devour me, I naturally had to kill them to protect myself. Is there anything wrong with that?" Lin Yi asked.

"I ..." Xin Yijie choked. It was natural to defend oneself, even in the ancient martial world. If these two wanted to kill Lin Yi, they had to be prepared for Lin Yi's counterattack. They would die for nothing.

"If elder Xin thinks that I deserve to be swallowed by the two of them, then I'm afraid there's no need to continue this discussion. I'll say this first. No matter who wants to harm me or the people around me, I will not hesitate to kill him. Remember, no matter who it is." Lin Yi said firmly.

Xin Yijie gave him a deep look. In that instant, he suddenly felt an indescribable aura. It wasn't the kind of aura that could tell one's strength. Instead, he felt that the other party was an unfathomable super expert.

It was reasonable to say that he, an early jiedan stage master, was already an invincible existence in the secular world, but at this moment, his heart actually trembled instinctively. He felt that he was like a humble ant in front of the other party, his life and death were in the hands of the other party, without the slightest resistance.

"How is this possible ..." Xin Yijie was stunned. He shook his head in disbelief. Although his intuition had always been accurate, this sudden thought was too ridiculous.

Not to mention in this mere secular world, even in the ancient Alliance, he, an early jiedan stage master, was by no means a humble existence. In terms of strength, he was far from comparable to those Yuanying stage old monsters, but to say that he was easily crushed like an ant, the possibility was basically non-existent.

"What did you just say?" Lin Yi's face changed, thinking that the man was refuting him. There was no way they'd come to an agreement at this rate. It was the last resort, but they had no choice but to fight.

But this was the worst outcome.

Chapter 5087 The Sect's Senior Granduncle

"Oh, it's nothing," Only then did Xin Yijie come back to his senses. He shook his head. "President Lin, you don't have to be nervous. In fact, in my opinion, it's understandable that you killed Yin Zhiping and sun Baimei. It's not wise to destroy the good relationship between the ancient Alliance and the secular world because of such a small matter."

"That's good. Thank you for your understanding, elder Xin. " Lin Yi and Lingshan looked at each other, both breathing out in relief.

"This old man was just judging the matter as it is and didn't mean to do you any favors, so there's no need to thank me." Xin Yijie said calmly. It was just an absurd thought, but it made him even more convinced that Lin Yi had a powerful background. He didn't want to make things worse for him over something so insignificant.

Of course, there was another reason for this. The evil warding sect was not strong in the ancient Alliance, and they had always been strange and obedient. Their relationship with the people in the ancient Alliance was not good, and they made enemies everywhere. Therefore, he would not stand up for two dead people from the evil warding sect. However, if it was a mainstream sect like the snow sword sect, his attitude might have to change.

"With elder Xin's status, being able to judge the matter impartially is already a rare blessing for the secular world. If it was someone else who made the decision, it wouldn't be easy to make things clear." Lin Yi smiled faintly.

Xin Yijie had been listening to everything he'd said from the start, but it was a rare sight for an early golden core from the ancient Alliance to listen to him so calmly. Lin Yi's impression of Xin Yijie had improved a lot.

"You're too kind, President Lin. In fact, the immemorial Alliance has always been separated from the secular world. It's just that the two worlds are isolated from each other. It can be said that they come from the same origin, so we have never had any hostile thoughts towards the secular world. This trip to the secular world is not so much a training experience for the disciples of various sects, but a trip home." Xin Yijie said, trying to get closer.

"If that's the case, I hope that elder Xin can restrain the disciples of the various sects of the immemorial Alliance so that they won't cause trouble again and again. This will make it difficult for both sides." Lin Yi said seriously.

"To be honest with you, President Lin, the archaic Alliance has already made it clear that no disciples on training are allowed to destroy the order of the secular world. The reason for these conflicts is because of the difference in background between the two sides. We do not have any ill intentions." Xin Yijie declined to comment.

"The difference in background is understandable, but there is also an old saying, 'When in Rome, do as the Romans do'. Elder Xin just said that you are on a homecoming trip, so you should abide by the rules of the secular world even more, right?" Lin Yi said faintly.

"Speaking of When in Rome, do as the Romans do. I have a question, and I hope President Lin can enlighten me." Xin Yijie suddenly changed the topic.

"Oh?" Lin Yi raised a brow.

"President Lin, you're from the secular world, right?" Xin Yijie asked.

"Of course." Lin Yi nodded. He'd been on Sky Class Island for three years, but he'd grown up in the common world, after all. He was a native of the common world.

"Since you're from the secular world and possess such astonishing strength as a primordial spirit, President Lin, you must have existed for a very long time. Could it be that you're a primordial spirit mighty figure left behind from the ancient times?" Xin Yijie pressed. The reason he'd come today was because he'd been so nice to Lin Yi. He'd guessed that Lin Yi was some powerful being from the ancient times, and that was why he didn't want to mess with him!

Lin Yi took a deep look at the man's expression and nodded, "That's right, originally I wouldn't reveal my origins to anyone, but since you've asked, seeing that you and I have a deep relationship, I don't mind telling you. "

"Some sort of relationship?" Xin Yijie was taken aback. Even if the other party was really a powerful figure from the ancient times, where did the word "origin" come from?

Lin Yi gave Lingshan a look, signaling for her to close the door. Lingshan smiled-she knew that Lin Yi was lying from that expression. She got up and closed the door, but she left herself outside, afraid that she'd give herself away if she didn't keep her expression tight ...

"Whatever happened today can only be said by me and heard by you. No third person must know about it. Do you understand?" Lin Yi said with a serious face.

"What?" Xin Yijie was even more stunned-Lin Yi's tone had been normal just a moment ago, and now he was acting like a senior. He thought back to the shiver he felt earlier-did he really have some sort of connection with this soul?

"Xin Yijie, you're just a junior. The sect's grand uncle-master is here, so why don't you pay your respects?" Lin Yi suddenly yelled.

"What?" Hearing this, Xin Yijie was stunned. What was this?

"Hmph, I am from the ancient North island's Green cloud sect. Speaking of which, you are my junior from the same sect. I didn't want to expose this relationship before, but now that it's exposed, shouldn't you pay your respects to me?" Lin Yi said coldly.

Although he said this on the spur of the moment, it was not necessarily empty talk. Just from the name of the sect, it could be roughly confirmed that the three gates of the North Island of the ancient Alliance and the three pavilions of the heaven rank Island must be inextricably linked. Otherwise, there was no way to explain these strange names that were highly similar.

Although he was taking a risk, he was quite confident. If he didn't guess wrong, he, a disciple of the Qingyun Pavilion on the North Island of the sky order Island, and a disciple of the Qingyun sect on the North Island of the immemorial Alliance, were from the same sect.

In the world of practicing, strength was always the deciding factor for seniority. An early golden core disciple like Xin Yijie was a junior in front of an early Mystic. There was nothing wrong with what he said.

However, Xin Yijie didn't believe Lin Yi's words. He thought that Lin Yi might be a real ancient soul, but it was too ridiculous to say that he was the Grand uncle-master of the green cloud sect. How could there be such a coincidence in the world?

"President Lin, there's no need for you to toy with this old man like a three-year-old child, right?" Xin Yijie laughed coldly. He was a member of the green cloud sect of the North Island, so he was the grand-master of the green cloud sect. If he was a member of the snow sword sect, this guy would probably be the grand-master of the snow sword sect. It was just a way to climb up the ladder. Who didn't know how to do that?

"The green cloud School of the North Island. The heart cultivation manual they cultivate is called the green cloud heart calming art." Lin Yi said faintly.

"How did you know?" Xin Yijie frowned slightly, but then he shook his head. "The clear sky Heart technique is not a secret technique that can not be passed down. Even if you are not a member of our sect, there are many who have heard of this mental cultivation method. Since you are an immemorial primordial spirit, it is not strange that you know this. However, this does not prove that you are a senior of our clear sky sect."

Chapter 5088 More Exquisite

"Those who have a clear mind are born with three forms and open six apertures ..." Lin Yi said calmly.

This was the basic mantra that Meng jueguang had taught them when they first entered the pavilion. Every disciple of the GreenCloud Pavilion had a copy of it, but most of them only looked at it and rarely spent time cultivating it. After all, it wasn't a profound and exquisite cultivation mantra.

Lin Yi, of course, wouldn't just do something like this for nothing-he'd done some research before, and he had a photographic memory, too, so he memorized everything.

Xin Yijie's face was initially filled with disdain, but when he heard the original version of the clear sky Heart calming technique, his expression changed. However, he still didn't believe it.

Although most outsiders only knew the name of the [clear sky Heart technique], very few knew the exact incantation. However, there were always exceptions. There were so many disciples in the [clear sky Heart technique] on the northern island, so it wouldn't be strange for someone to accidentally leak it. If he could pretend to be a senior just by reciting a few incantations, then Xin Yijie would really be an idiot.

"Sir, you don't have to lie to yourself ..." Xin Yijie was about to stop Lin Yi when he froze. The technique Lin Yi was using seemed to be different from what he knew. It was 99% the same, but there were a few small but crucial changes!

Xin Yijie had relied on the [art of clear skies] to reach his current strength, and he knew everything about it. Anyone else would laugh at Lin Yi for being an unprofessional scammer who couldn't even memorize the chant, but he knew that this was the real [art of clear skies]!

"I was wondering why I felt like something was wrong with this part of the training, so it's the chant. It's a lot smoother after changing it like this ..." Xin Yijie couldn't help but Mutter. Lin Yi was still going on, and he was shocked again."What? There's more? There's even a cultivation chant for the Golden core stage?"

The [art of clear skies] only had three hundred and fifty-three words, and in theory, one could only reach the peak of Foundation Stage at most. This meant that disciples like him who were at the early golden core stage would have to change to other higher level Arts. However, Lin Yi had recited more than five hundred words-the rest were all for the Golden core stage!

It wouldn't mean anything if he'd just memorized it word for word, but Lin Yi didn't just recite the original version, he even recited the Golden core chant! This wasn't something an outsider could do!

There was only one explanation for this. The other party was indeed a senior from the green cloud sect on the North Island, and he was from a much older generation than Xin Yijie. That was why he knew the original version of the green cloud heart calming technique. As for the existing version of the green cloud heart calming technique in the green cloud sect on the North Island, it was just an incomplete version left behind after the sect had been in turmoil.

After Lin Yi had finished memorizing all eight hundred words, Xin Yijie didn't hesitate any longer and knelt down on the spot, bowing in fear and respect. "So you are really the senior founder of the green cloud School on the North Island. I was blind before and have offended you greatly. Please punish me, senior granduncle!"

"It's nothing. You didn't know, so you can't be blamed. Get up. " Lin Yi waved his hand indifferently, but let out a sigh of relief inside. Luckily, he didn't bet wrong-the [art of peaceful mind] that was basically useless before was put to good use now. Having a good memory was really good.

"Yes, thank you, martial granduncle." Xin Yijie stood up respectfully, no longer looking at Lin Yi with the condescending attitude he'd always had.

The three big sects on the North Island had strict rules. The person in front of him was a genuine ancestral senior, and he also had the original clear sky Heart Formula. He might even know the heart cultivation methods of other sects that had been lost. This was an out-and-out Living Treasure for the entire clear sky sect on the North Island. He could not show any disrespect.

Seeing Xin Yijie's attitude, Lin Yi felt that he'd made a great decision this time. Failure would definitely trigger the enemy's hostility, but high risks came with high returns. Now that he'd become the enemy's grand uncle-master, the conflict between the common world and the ancient Alliance would be resolved.

Not only that, but Xin Yijie's reaction confirmed all of Lin Yi's previous conjectures. At least one thing was confirmed-the ancient Alliance's North island's Green cloud sect and the sky Class island's North island's Green cloud Pavilion did come from the same line. Otherwise, they wouldn't be using the clear cloud heart technique, this iconic technique.

And so on, the North Island's skyward sect and the North Island's mysterious secrets sect were probably in the same situation. Lin Yi guessed that there were two possibilities-maybe the person who founded the three sects of the North Island was actually from the three pavilions of the Sky Class Island, and that was why the names and techniques of the sects were exactly the same.

Of course, the reverse was not completely impossible, but from the difference in strength between the two sides, the possibility was very small. It couldn't be that a group of people came out of the three gates of the North Island of the ancient Alliance, ran to the heaven rank Island, and then suddenly increased their strength and brought the three pavilions of the North Island to great heights, right?

However, it was only one possibility when the two were put together. Lin Yi had an even more daring idea-perhaps in the ancient times, the Sky Class Island and the ancient martial world were the same place, but one day, for some reason, the place was split into two separate dimensions, one called Sky Class Island and the other called the ancient martial world.

The sects in these two places came from the same line and should have been of the same level, but because the spiritual Qi in the ancient Jianghu was far less than that of the Sky Class Island, they gradually declined, day after day, year after year, and eventually formed the situation today.

Both possibilities existed, but Lin Yi was more inclined to the latter. If the ancestors of the ancient Alliance came from Sky Class Island, they would have left clear records of Sky Class Island, and now that it was just a rumor in the ancient martial world, the possibility of this happening was low.

However, the second possibility was more likely to explain everything. After the two places split, neither knew the specific situation of the other. They might even think that the other party had been destroyed long ago. As time passed, naturally, no one mentioned it, nor would there be any written records, which was why the current situation occurred.

The people of the sky Class Island didn't know about the ancient Alliance. Although the people of the ancient Alliance had heard of the Sky Class Island, most of them had heard about it from the secular world. There was no way to verify it, so they believed it to be a rumor made up by zixu.

Chapter 5089 Cultivating The Northern Alliance

"Yi Jie, although I'm from the green cloud sect on the North Island, I've stayed in the secular world for so many years that I don't want to meddle in other people's business. Now that I've revealed my identity to you, I'll have to ask about the current situation of the ancient Alliance. Give me a general idea." Lin Yi asked.

"Yes." Xin Yijie wasn't surprised by this. He thought that since the other party was the founder of his green cloud sect on the northern island, he would naturally return to the green cloud sect to take a look after his identity was revealed. It was only natural that he would understand the situation of the ancient Alliance. He asked, "What does martial granduncle want to know?"

"Tell me about the current power structure of the archaic Alliance." Lin Yi said faintly. This was the most basic and most important information. Only by understanding this in detail could he know the true strength of the ancient Alliance, and know himself and his enemy. It would be a reference for future countermeasures.

"Okay, the forces in the ancient martial world can only be divided into two types: sects and families. Among these large and small sects and families, the four great sects and families are the leaders, followed by the ten small sects and families, and then the very ordinary cultivation sects and families." Xin Yijie introduced.

"Oh? How do you differentiate the four big sects and the ten small sects and families from the normal sects and families?" Lin Yi asked.

"Of course, it is divided by the strength of each sect and family. In addition to the most basic number of disciples and strength, the most important criterion to distinguish it is the number of top masters in each sect and family. To put it bluntly, it is actually the number of Yuanying stage old monsters." Xin Yijie continued.

"Tell me in detail." This was the question Lin Yi was most concerned about. It seemed like the strongest in the ancient Alliance was a nascent Soul Master, but he had to hear how many exactly there were.

"Each of the four most powerful sects and families has at least three nascent Soul Stage cultivators. The ten small sects and families, which are ranked second, more or less have one or two nascent Soul Stage cultivators. For example, our North island's Green cloud sect has one nascent Soul Stage cultivator, who is the Grand Elder who is currently in seclusion. That's why we can be one of the ten small sects and families. Without a nascent Soul Stage cultivator, we can only be reduced to an ordinary sect and family." Xin Yijie said.

Lin Yi couldn't help but be surprised. The disciples of the ancient Alliance were only Foundation Stage, and even Xin Yijie was only early golden core. He thought that even if the ancient Alliance had nascent soul cultivators, they would be very few in number.

But according to Xin Yijie, there were at least twenty or thirty of them in the entire Alliance. This number couldn't be compared to the Sky Class islands, but it was much better than what Lin Yi had expected. The ancient Alliance couldn't be underestimated.

Two years ago, a nascent Soul Master was someone Lin Yi had to look up to. Even on the Sky Class Island, they could become an elder of a sect. He didn't think that there would be so many in the ancient Alliance!

"Qingyun school is one of the ten small sects. What's the situation with chongtian school and Xuanji school?" Lin Yi asked.

"The soaring heaven sect has two nascent soul old monsters and is also one of the ten small sects. As for the Xuanji sect, it hasn't been doing too well these two years. The original nascent soul old monster is missing, so it was removed from the ten small sects. Now, it can only be considered an ordinary sect." Xin Yijie sighed.

The three great sects of the northern island were as one. Although there were inevitable open and secret conflicts between them, they would always be able to band together when facing outsiders. Although they could only be listed as one of the ten small sects and families, if the three great sects of the northern island were put together, even the four great sects and families would not dare to underestimate them. Now that the profound secrets sect had declined, it was inevitable that they would feel a chill in their teeth if their lips were to die.

"By the way, there's a question I wanted to ask just now. Why did you add the North Island to the three great sects? could it be that there are other islands in the small Jianghu of the immemorial era?" Lin Yi said, deep in thought.

"Uh, our sect has been called the North Island's Green cloud sect since ancient times. Why would martial granduncle ask this?" Xin Yijie was suspicious, but Lin Yi had just memorized the entire manual for him. He didn't suspect Lin Yi of being a scammer anymore, but he thought that the question was a little weird.

"No, at least at my time, it was still called Qingyun school, and the words 'Beidao' were not added in front." Lin Yi said with a straight face.

He was sure that Xin Yijie didn't know much about the ancient times-things like that were hard to verify, after all, unless the other party could confront their sect's elders who'd survived from the ancient times. Even so, Lin Yi could just make things up, and no one would really care about things like this that weren't related to their core interests.

"This ..." As expected, Xin Yijie was stumped. He shook his head and smiled bitterly. "Although I am an elder in the North Island's Green cloud sect, I don't know much about these things. I only know that it has been called the North Island's Green cloud sect since I was informed. However, this is also very normal. After all, from a geographical point of view, our three major sects are located in the North of the small Jianghu in the immemorial era. It is not wrong to say that it is the North Island across the lake. Moreover, the three major sects of the North Island are also affiliated with the cultivation North Alliance."

"Cultivate in the North?" Lin Yi blinked.

"That's right. The immemorial Alliance is just a unified name. It's actually an Alliance formed by five top forces, divided into East, West, South, North, and central. Our three great sects and some other sects and clans belong to the cultivation North Island Alliance, which is called the cultivation North Alliance for short. The snow sword sect and the thousand blade sect belong to the cultivation middle Alliance, the universe sect and the warding off evil sect belong to the cultivation South Alliance, and the other two are the cultivation Southeast Alliance and the cultivation West Alliance." Xin Yijie explained.

"..." Lin Yi was completely speechless. Wasn't this a replica of the five Sky Class islands? other than the details, the overall layout was almost the same. He was even more convinced of his bold guess now that the Sky Class islands and the ancient martial world came from the same womb!

"Martial granduncle, the strength of the five great alliances is determined by the strength of the sects and families under their jurisdiction. However, in addition to this, the five great alliances also have their own exclusive forces. It's just that this disciple is not too clear about these core secrets. Only by joining the Alliance's Elder Council can this disciple grasp these core secrets. With this disciple's current level, it is far from enough." Xin Yijie said, a little embarrassed.

Although it could be said that he, an early jiedan stage expert, was already an elder of the sect, but in the end, he was only one level higher than the strongest core disciple. In terms of elder qualifications, even in the North Island's Qingyun school, he was ranked at the bottom. The Alliance Elder Council and other things were even more distant.

Chapter 5090 The Ancient Gathering Order

He was able to become the person in charge of the secular world's training this time purely because the people of the immemorial Alliance had their eyes on the top of their heads. They did not care about the secular world at all. If it was really a lucrative job, he would not have been able to do it even after ten thousand years.

"Okay, I got it." Lin Yi nodded. Knowing this much from Xin Yijie was already a pleasant surprise. He just wanted to get a rough idea of the ancient Alliance's strength, and there was no need for him to dig up more secrets yet-he didn't need them at the moment.

"This is all I know about the power structure of the small Jianghu in the immemorial era. Is there anything else that senior granduncle would like to know?" Xin Yijie said respectfully.

"Not at the moment. I'll look for you again when I think of you in the future." Lin Yi waved his hand and got back to the point, "Let's talk about the secular world today. It's understandable that the archaic Alliance wants to recruit new disciples with sufficient qualifications, but don't blindly look for people. If you make this matter clear to the public, I believe that many cultivators from the secular world will want to go. There's no need to make the relationship so tense. It will only backfire."

Low-level cultivators always yearned for a higher level. This was natural. It was just like how the sky order Island had only sent a symbolic emissary, southern sky Aurora, to receive them. Everyone still wanted to go in. Now, it was the same for the ancient Alliance. However, people like Xue Jianfeng and Yu zhengliang were too overbearing and unyielding. They did not treat cultivators from the secular world as humans at all. Naturally, no one was willing to follow them.

"Martial granduncle, you're right. I didn't expect the sects to act so rashly and recklessly. I've repeatedly warned them not to disturb the order of the secular world, but in the end, it still ended up like this. I'll go back and deal with it. I'll gather all the experiential disciples of the sects again and forbid them from messing around in the secular world." Xin Yijie said sincerely.

"Alright, then I'll leave it to you," Lin Yi nodded, thinking to himself that the status of a grand-uncle really was different. Xin Yijie was nice before, but he wouldn't just agree to something like this without a second thought-he'd just keep pushing it back and forth. It was really worth it to learn the Qingyun heart calming manual for something like this.

"Disciple will take his leave. I will come back another day to pay my respects to martial granduncle." Xin Yijie said as he stood up.

"Take care, I won't send you off." Lin Yi smiled as he personally walked Xin Yijie out of the investigation office. He let out a long breath as he watched the man's back disappear into the distance. He'd finally gotten over this.

"How is it? You tricked that person?" Lingshan said with a smile on her face. She could tell from Lin Yi and Xin Yijie's expressions that the negotiations were going to be a happy one.

"How can I be lying? I'm just trying to reason with him, okay?" Lin Yi said, curling his lips.

"Really?" Song Lingshan didn't believe him. Xin Yijie looked like someone who was easier to talk to than Xue Jianfeng, but the pride of the ancient Alliance was in their bones. She didn't believe that he would be convinced so easily.

"Of course it's true. If it was someone else who said this to him, it might be useless, but I'm his martial granduncle. If he doesn't listen to what I say, wouldn't that be treason?" Lin Yi asked with a smile.

"You're his grand uncle-master?!" Lingshan's jaw dropped.

"Unbelievable? In fact, I don't really believe it myself, but he's willing to believe it. I can't do anything about it. Since he's so sincere, I'll just reluctantly take a loss. It's all for the sake of the secular world. " Lin Yi's face was as if he was saying, "if I don't go to hell, who will?"

"Hahahaha ..." Song Lingshan almost laughed out loud at his funny face. He cheated someone to be his grand-master, and now he felt like he was at a disadvantage? then what was this grand-disciple? was he at an advantage?

"You're a girl after all. Do you have to smile so openly in public? I can see you having breakfast." Lin Yi said, smiling at Lingshan's wobbly face.

"Ah!" Lingshan jumped, covering her mouth as she looked at Lin Yi's weird smile. She reacted quickly and punched him, lowering her head and blushing. "If you don't like it, then I won't smile like that ..."

"Don't, don't. I'm not used to a silly girl like you smiling without showing your teeth. It's good to be bold and unrestrained. You're so carefree that you're likable." Lin Yi said.

"Who's heartless!" Lingshan mumbled, but her face was still full of joy. She was clearly overjoyed by the last two words.

"Alright, let's get down to business. Give an order for all the cultivation forces in the secular world to gather together. We have to gather all the sects and families. Although Xin Yijie has already reached an agreement, we don't know how much he can restrain the disciples of the various sects of the ancient Alliance. We still have to make preparations for this." Lin Yi said seriously.

"Alright, should we inform the ancient sect?" Lingshan said hesitantly. The jurisdiction of the special Investigation Bureau was only limited to the hidden and the common levels. They didn't have any restrictions on the ancient levels. At most, they would just let them know when something happened. They might not give them face.

"Of course, inform them in my name. We can use this opportunity to re-establish the supernatural Investigation Bureau's position among the cultivation forces in the secular world." Lin Yi nodded.

If it weren't for this, these ancient sects might not even be willing to pay attention to the investigation Bureau, and Lin Yi might not even be able to call them. But now that they were all losing to the ancient Alliance, only Lin Yi could stand up for them. They had to come even if they wanted to.

As expected, all the practitioners from the ancient, hidden, and secular levels were present, all of them completely convinced of Lin Yi's abilities and said that the practitioner's Association was the only one who would obey Him.

Strength was everything. Lin Yi's strength was already outstanding before they went to Sky Class Island, and now he was so strong that they couldn't even look up to him. The ancient Alliance was also watching them like a tiger watching its prey. No one who could lead a force was an idiot. They knew what to choose. If they didn't cling onto Lin Yi now, they could wait for their names to be removed.

"You've got a way. I wouldn't even think of coming to the investigation Department like a good girl before, but I'm so obedient this time ..." Lingshan covered her mouth and laughed as she watched the representatives exchange words and words.

"That was then and this is now. A wise man submits to circumstances." Lin Yi smiled faintly.

"That's good too-at least we won't have to worry so much about handling cases in the future. We'd have to be careful when it comes to things that involve ancient sects. " Lingshan was happy from the bottom of her heart."By the way, that Xue Jianfeng is still locked up in the police station. What do you plan to do with him?"
