

## Bodyguard 5091

### Chapter 5091 That's Not Possible!

"I would have forgotten about it if you didn't mention it. Let him go. After all, I've already talked to Xin Yijie. There's no point in keeping him here. He'll have to take care of his daily needs. He'll only cause trouble for your station." Lin Yi said casually.

Deep in the mountain gates of Shennongjia, the first thing Xin Yijie did after returning was to report to the ancient Alliance. He'd promised Lin Yi that he'd coordinate things, but this wasn't something he could decide on his own. He had to ask the higher-ups first, or he wouldn't be able to do it in a proper name-so many ancient sect disciples might not listen to him.

Other than that, Xin Yijie had an even more important matter to report to the North Island's Green cloud sect about Lin Yi. He had met a sect founder senior in the common world this time, and it was a big deal for the entire sect.

Especially since Lin Yi could remember the entire Qingyun heart calming technique. This was of great significance to the Qingyun sect, which was now lacking in Foundation after the turmoil. If Lin Yi could remember the other high-level Arts, then the value would be immeasurable.

For such a huge matter, the best way to report it was naturally to speak frankly. It wasn't as if the opening of the primordial passageway didn't have this condition, but Xin Yijie didn't have the courage to do so. It wasn't that he didn't want to, but he simply had limited spirit Jade on hand.

It was important to know that it required a lot of spiritual Jade to teleport one person in. This item was extremely rare in the small martial world of the immemorial era. Even Xin Yijie, a sect elder, could only get a few pieces. It would be a waste to use it to send a message. Thus, after much consideration, it was best to only send two letters in, one to the immemorial Alliance and one to the blue cloud sect on the North Island. This way, only a small piece of spiritual Jade would be needed.

A day later, the archaic Alliance sent back a reply, agreeing to Xin Yijie's proposal in principle. After all, they only wanted to successfully recruit disciples with outstanding aptitude, and they didn't have any intention of making enemies with the secular world, so Xin Yijie's proposal met their requirements.

On the contrary, if the disciples of the various sects were allowed to do whatever they wanted, the situation would definitely get out of control, and even the entire ancient Alliance would become angry with them. That would be bad.

As for the green cloud School on the North Island, there was no reply at the moment. Firstly, the North Island was relatively far from the ancient passage. Secondly, when encountering such an important matter, the sect would definitely need to discuss it for a while. There would not be a result in a short time.

With the approval of the archaic Alliance, Xin Yijie immediately issued a call to the senior team leaders of the various sects who were left behind to summon their training disciples back to Shennongjia. Although the senior team leaders had some doubts, they still did as they were told after seeing the approval in Xin Yijie's hand.

A few days later, the disciples who were scattered all over the secular world returned to Shennongjia one after another. Just like when their training first began, they all gathered in the open space of the square, waiting for Xin Yijie's lecture.

"Fellow disciples, I believe you have all heard about the recent events. Some sects have done something extremely inappropriate in order to be the first to recruit disciples, which has seriously damaged the image and reputation of our primordial Alliance. Therefore, the primordial Alliance has decided that from today on, all disciples on trial must not act recklessly and must live in peace with the cultivation forces of the secular world. There must be no coercion, and violators will be severely punished!" Xin Yijie announced.

Everyone looked at each other in dismay. In fact, other than the snow sword sect and the Qiankun sect, many other ancient sects had gone too far recently. However, these were only natural in their eyes. After all, they were Foundation establishment experts from the ancient Alliance. Why would they need to be polite to these ant-like cultivators from the secular world?

According to Xin Yijie's words, if a group of Foundation establishment cultivators wanted to do something, they couldn't rely on their strength to suppress it. They could only discuss it with a group of lowly cultivators from the secular world. Wasn't this a joke?

"Impossible!" At this moment, a voice suddenly rang out from the crowd. Everyone turned their heads to look, and it was actually Xue Jianfeng, who had just returned from the supernatural Investigation Bureau in a sorry state.

"What did you just say?" Xin Yijie's face darkened. He was the person in charge of this trip to the secular world, and he had even received approval from the ancient Alliance. This Xue Jianfeng actually dared to question the ancient Alliance's decision in front of them. Was he trying to rebel?

Everyone from the other sects looked on as if they were watching a good show. Although they were a little unhappy with what he had just said, they were at most grumbling in private. They definitely didn't dare to question Xin Yijie in front of him. After all, he was the appointed martial uncle to lead the team. They didn't think that Xue Jianfeng would be so bold!

"I said it's impossible!" Xue Jianfeng walked to the front of the crowd with a cold expression. Before this, he gave off the feeling that he was a proud Son of Heaven. However, after his dantian was destroyed, his entire temperament had changed, and he had become a poisonous snake that made people tremble with fear.

"This is the decision of the archaic Alliance. How dare you disobey it in public? who gave you the guts to do so?" Xin Yijie's tone was unfriendly. He knew that the other sects might not take him seriously, but at the very least, his authority was unquestionable. If he allowed Xue Jianfeng to talk back to him in public, he would never be able to lead the team again.

"I didn't say that I'm going to disobey the decision of the ancient Alliance. It's fine if you want to live in peace with the secular world, but there's one person I won't let go of. He's the one who caused me to be in this state. I can't stand by his side!" Xue Jianfeng said through gritted teeth.

Now that his dantian had been destroyed, he was a pure cripple. According to common sense, he would definitely tuck his tail between his legs and not dare to be as arrogant as he was now. After all, even if he was once the big senior brother of snow sword sect, he was now just a cripple without any strength. He was no longer of any use to the sect, and his end could only be abandoned by the sect like Wei shenjin.

However, Xue Jianfeng was different. He was the only son of the Vice sect leader of the snow sword sect. Even if he lost his strength, he still had a strong background to rely on. Moreover, although his dantian and meridians had exploded, he could theoretically recover as long as he could get a fifth-grade great recovery pill.

That was why he had the right to be arrogant-he didn't care about the others, but Lin Yi had to die no matter what!

Everyone was completely confused. They only knew that Xue Jianfeng had suffered a great loss and had his dantian crippled, but they didn't know who had dared to do such a vicious thing. There were only two people present who knew the truth: health-maintenance Fei and Xin Yijie.

"Hmph, the big picture is more important. Xue Jianfeng, do you want to destroy the relationship between the ancient Alliance and the secular world just because of your own selfishness?" Xin Yijie snorted.

Chapter 5092 Leng Leng Was So Excited

"It's only natural for one to take revenge if there's a grudge. Even in the small Jianghu of the immemorial era, no one can say anything. Do you think that you can only swallow your anger in this secular world? Shishu Xin, you're so protective of that person, could it be that you have an affair with him?" Xue Jianfeng frowned and asked doubtfully.

"Nonsense. No one will stop you if you want to take revenge, but you can't destroy the stability of the overall situation. Otherwise, you'll be a sinner of the entire ancient Alliance. Can you bear the crime?" Xin Yijie said angrily.

"Uncle-master Xin, don't simply accuse me. I just want to seek justice for myself. How can I destroy the stability of the overall situation? how can I be a sinner of the ancient Alliance?" Xue Jianfeng was not convinced.

"Alright, since you insist on being unreasonable, then this old man will make it clear to you in front of everyone today. Speak, who do you want to seek revenge from?" Xin Yijie snorted.

"Who else could it be? of course, it's that primordial soul cultivator!" Xue Jianfeng gritted his teeth.

As soon as these words were spoken, the crowd couldn't help but whisper to each other. At this moment, a woman in the crowd was suddenly stunned. It was Leng Leng, who had rushed back after hearing the news.

An immortal soul cultivator? Leng Leng reacted immediately upon hearing the word, extremely excited. Wasn't that Lin Yi? was Lin Yi fine?

"Speak clearly, which primordial soul cultivator?" Xin Yijie said expressionlessly.

"The immortal soul cultivator who killed Yin Zhiping and sun Baimei from The Exorcist sect, injured Yu zhengliang and the other two from the Qiankun sect, and crippled my dantian. Is this clear enough, martial uncle Xin?" Xue Jianfeng suppressed his anger and said.

Hearing the list, the crowd went into an uproar again, and Leng Leng was stunned. Lin Yi had done so many amazing things in this period of time?

It should be known that every single one of these things was extremely difficult to do. It was impossible to do so without the strength of the perfected Foundation establishment stage, especially when Xue Jianfeng was known as the number one expert of the foundation establishment stage in the ancient Alliance. To cripple his dantian and even have the strength of the perfected Foundation establishment stage would be difficult. One would even need the strength of the Golden core stage to be confident.

In Leng Leng's impression, Lin Yi was only at the peak of the early Foundation Stage, which was thousands of miles away from the Golden core stage. She couldn't believe it. It had only been less than a month since they last met, could Lin Yi's strength have improved so much?

It was hard to imagine, and the possibility was zero in the eyes of any normal person. Leng Leng couldn't help but suspect-could it be that the immortal soul practitioner they were talking about wasn't Lin Yi, but someone else?

"Alright, since you've explained it so clearly, I'll add one more thing. This primordial soul cultivator is the president of the cultivators Association in the secular world. At the same time, he's also the ancestral senior of the green cloud School in the northern island, who was left in the secular world from the ancient times!" Xin Yijie said in a low voice.

"What? That primordial spirit cultivator is actually from the green cloud School of the North Island?" Everyone's jaws dropped as they looked at each other in shock.

"How ... How is this possible?!" Xue Jianfeng's eyes were wide open, his expression complicated. He thought that Lin Yi was just a mortal soul with no foundation, and the ancient Alliance wouldn't stop him from dealing with an outsider. But this guy suddenly became the founder of the Qingyun school on the North Island. This was a tricky situation!

Leng Leng, who was in the crowd, was shocked as well, but she was more disappointed. In her opinion, if this immortal soul practitioner was the founder of the Qingyun school, it couldn't be Lin Yi.

She'd never heard of Lin Yi being connected to the ancient Alliance, and Lin Yi didn't even know about the ancient martial world. According to what he said, he was going to a small island to learn, and it had nothing to do with the ancient martial world. The hope that had just ignited in her heart was extinguished after coming to this conclusion, and she felt depressed.

"Why is it impossible? Do you think that primordial soul cultivators appear out of thin air? If he isn't a senior ancestral master left behind from the ancient times, how could he have such powerful strength as a primordial spirit? is it strange that he has a relationship with our North island's Green cloud sect?" Xin Yijie asked.

"Hmph, so what if he's from your green cloud School? Could it be that because of this, he could do whatever he wanted? even if he crippled my dantian, I wouldn't be able to seek revenge from him? Your

green cloud sect is only one of the ten small sects and clans, just like our snow sword sect. It's not like you're one of the four great sects and clans, when did you become so overbearing?" Xue Jianfeng said indignantly.

Not to mention Lin Yi, even if it was Xin Yijie who destroyed his dantian, he could still take revenge on him. Even the Qingyun sect couldn't interfere. Personal grudges were personal, and they'd be breaking the rules of the martial world if they did.

Moreover, the snow sword sect was not weaker than the green cloud sect in the North Island. In fact, their overall strength was stronger. Of course, if the three major sects in the North Island joined forces, the snow sword sect would be helpless.

"It's not up to you, a junior, to say whether the green cloud sect is overbearing or not. Xue Jianfeng, listen carefully. If the primordial Alliance wants to coexist peacefully with the cultivation forces of the secular world, not only does the primordial Alliance need to restrain itself, but someone needs to come out and restrain the cultivation forces of the secular world. My primordial soul grand-master is the leader of the cultivation forces of the secular world. If you dare to touch him, you're challenging all the cultivation forces of the secular world. Once the matter blows up, the primordial Alliance will definitely not spare you. Do you understand what I'm saying?" Xin Yijie threatened.

The meaning behind his words was obvious. From Xin Yijie's perspective, he didn't want to cause any trouble. However, if Xue Jianfeng still didn't buy his words after all the advice he'd given, then he couldn't be blamed for putting the blame on him. When the time came, he'd be accused of openly defying the ancient Alliance's decision, and even the snow sword sect might not be able to protect him.

Although Xue Jianfeng was eager to take revenge, he was not a fool. He could only sneer to express his dissatisfaction, but he did not dare to say anything in front of so many people.

Seeing that Xue Jianfeng had finally made the right choice to back off, Xin Yijie heaved a sigh of relief. He turned to the others and said, "Who else has any objections to the archaic Alliance's decision?"

Everyone shook their heads. They were not as miserable as Xue Jianfeng. At most, they would only grumble in private. Of course, they would not openly oppose it.

Even Yu zhengliang and the others from the Qiankun sect didn't make a sound. They were scared of Lin Yi's beating, and their Qiankun sect was just a normal sect. They weren't as strong as the snow sword sect, so naturally, they didn't have the ability to challenge Xin Yijie in public.

Chapter 5093 Grade Five Great Recovery Pill

"Since there are no objections, let's all disband. In a few days, after this old man and the primordial soul grand-master have discussed, we will make arrangements for the recruitment of disciples from the secular world. If any more scandals of bullying the sects of the secular world are created during this time, you will bear the consequences." Xin Yijie gave Xue Jianfeng a meaningful look before turning to leave.

The disciples of the ancient sects looked at each other and left. Although they were a little bit resentful because their actions in the secular world would be restricted, not many of them had the courage to disobey orders, so they could only follow them.

However, Xue Jianfeng was different. Although he had been rendered completely speechless by Xin Yijie, he had no intention of following his orders. He was the number one figure among the younger generation of the ancient Alliance, and now that his dantian had been destroyed, he had to swallow his anger. How could that be possible?

"All snow sword sect disciples, gather!" Xue Jianfeng suddenly shouted. The group of snow sword sect disciples could not help but look at each other. In the end, they still obediently gathered together. Although this proud Son of Heaven had become a disabled person, his status and background were still

there. Moreover, he was still the eldest senior brother who led the team in name, so they did not dare to ignore him.

"What instructions does eldest senior brother have?" The snow sword sect disciples asked.

"Since that immortal soul cultivator dared to cripple my dantian, he is the sworn enemy of snow sword sect. He must die!" Xue Jianfeng's eyes were filled with hatred as he gritted his teeth and said.

"But he is the founder of the green cloud School in the North Island. Just now, martial uncle Xin also said that the consequences of touching him are unimaginable." Health-maintenance Fei carefully reminded.

"Hmph, that old man, Xin Yijie, is trying everything he can to protect him. He's just spouting nonsense. Since when does the snow sword sect have to look at the face of the green cloud sect?" Xue Jianfeng said disdainfully.

"Then what does senior brother Xue mean?" Health-maintenance Fei probed.

"Although that primordial soul cultivator has some skills, he's only a perfected Foundation establishment expert. We have so many disciples in the snow sword sect, how can we not defeat him? Moreover, he's not alone. We just need to grab a few of his female underlings and he'll be wary!" Xue Jianfeng sneered.

"..." Everyone was speechless when they heard this. Once upon a time, this was a proud Son of Heaven who had his eyes above everything. Now, he had actually fallen to the point of using such a despicable and shameless method as holding a hostage. It was really sad to say.

Xue Jianfeng looked at everyone's expression and snorted, ""Just do as I say-I'll take care of anything that happens. Remember, the primordial spirit cultivator we're dealing with is called Lin Yi, and he's in Donghai city right now!"

"What? He's Lin Yi?" Leng Leng cried out in shock-she'd already eliminated that possibility in her mind, but she didn't expect to get the confirmation from Xue Jianfeng's mouth-it really was Lin Yi!

Leng Leng was overjoyed. In the end, she became the focus of the crowd. It was only now that the crowd suddenly realized that she had become a mid-stage Foundation establishment cultivator without them knowing!

When he came out to gain experience, he was only in the early stage of the foundation building realm. How long had it been? not even one and a half months had passed, and he had actually advanced two levels to the middle stage of the foundation building realm. He was indeed worthy of being recognized as the most promising core disciple to advance to the jiedan stage. This aptitude was simply invincible!

Leng Leng's talent was indeed heaven-defying, but it was impossible to level up so quickly just by relying on her talent. The pills Lin Yi gave her were the key-the Golden Foundation pill and the foundation breakthrough pill-along with her talent leveling up twice in a row was something that happened naturally, so there was nothing to be surprised about.

Xue Jianfeng was also shocked, but his focus was not on this. He walked over and frowned, ""You know Lin Yi?"

"Of course I do. Sun Baimei was after the treasure my master gave me, and he ambushed me and injured me. Then, he came to kill me while I was healing and took my treasure. Thanks to Lin Yi, I was

able to escape." Leng Leng explained. She only had one purpose for saying all this-she wanted to clear Lin Yi's name.

"So you're saying that you have a close relationship with him?" Xue Jianfeng's face darkened again.

"Senior brother Xue, I've been with Lin Yi for half a month, and I can guarantee with my life that he's not a bad person. It's all because of him that I'm able to come back alive this time, and he even gave me a bunch of pills to help me break through. I can guarantee that he doesn't have any intention of making an enemy out of our snow sword sect. There must be some misunderstanding." Coold said hurriedly.

She still couldn't digest all the things Lin Yi had done. When did Lin Yi become so strong and become the founder of the North Island's Qingyun school?

With all these questions in her head, Lin Yi's image in Leng Leng's heart was becoming more and more mysterious. Even so, she didn't think that Lin Yi could be a match for the entire snow sword sect. After all, the snow sword sect not only had golden core Masters, but also nascent soul old monsters. If they really considered Lin Yi as the snow sword sect's mortal enemy, then Lin Yi's situation would be very bad.

So no matter what, Leng Leng had to get rid of Xue Jianfeng's hysterical thoughts of revenge. Now that Xue Jianfeng's dantian was crippled, he could be saved with a fifth grade great recovery pill. But once he started his revenge, the enmity would only get bigger and bigger. Leng Leng didn't care about Xue Jianfeng's life or death, but she was afraid that Lin Yi would suffer!

"Junior Sister Leng, to think that my snow sword sect values you so much and has given you so many cultivation resources. In the end, you actually colluded with the enemy. How should you be punished?" Xue Jianfeng was still interested in Leng Leng, but anyone who stood in his way was his

enemy, ""Misunderstanding? Even my dantian has been crippled by him, how can this be called a misunderstanding?"

"Senior martial brother Xue, a crippled dantian can be repaired, but it's better to make enemies than to make enemies. You heard what uncle-master Xin said just now. Why do you have to make a big fuss over a moment of anger?" Could advised earnestly.

"Hmph, you say it so easily. To repair the dantian, you need at least a fifth-grade great recovery pill. Do you know how much you have to pay for this?" Xue Jianfeng snorted.

"Then, if I give you a fifth grade recover pill, you won't cause Lin Yi any more trouble?" He looked at him coldly and suddenly took out a pill from his pocket.

"A grade five great recovery pill?!" The crowd was taken aback. They looked at Leng Leng in shock. Such an elixir could not be found even in the entire snow sword sect, yet she could take it out so easily?

Xue Jianfeng was shocked as well. To him, the most important thing right now wasn't to take revenge on Lin Yi, but to quickly find a way to repair his dantian. Unfortunately, the secular world didn't have such conditions, and he didn't expect Leng Leng to have a fifth grade great recovery pill!

Chapter 5094 I'm Not Going Back!

"Where did you get this? Could it be that your master gave it to you?" Xue Jianfeng couldn't hide the jealousy on his face. Even he, the only son of the Deputy sect leader, didn't have such a thing.

"Lin Yi gave this to me. I'm going to fix your dantian now, so you can keep this to yourself, right?" Lengleng was glad that Lin Yi gave her the pills, otherwise she wouldn't know what to do now. If she just let Xue Jianfeng do whatever he wanted, the consequences would be unimaginable.

Unexpectedly, just as Leng Leng heaved a sigh of relief, Xue Jianfeng suddenly snatched the grade 5 great recovery pill from her hand and shouted, "All disciples, listen up! Leng Leng is colluding with the enemy and has broken the sect rules. Lock her up!"

"You!" Leng Leng's thoughts were simple. Who would've thought that this person would be so despicable? to actually turn hostile right after snatching the pill!

The other snow sword sect disciples were also stunned. Even they did not expect such a thing to happen. In the past, Xue Jianfeng had always been open and aboveboard. Why did he suddenly become so sinister and despicable?

"What are you doing? Why aren't you taking him down? Could it be that you guys also want to rebel?" Xue Jianfeng said angrily.

"Yes!" The crowd could only brace themselves and surround Leng Leng. Although Leng Leng was a core disciple who was highly valued by the sect, her status was still far from that of Xue Jianfeng. They had no choice.

Leng Leng was instantly angry and anxious, but it was not good for her to make a move against her fellow disciples. Moreover, she could not make a move either. Otherwise, she would be convicted of betraying her master and everything would be over.

"Senior apprentice brother Xue, please calm your anger. I think Junior Apprentice sister Leng is only judging the matter as it is and has no intention of being enemies with senior apprentice brother Xue.

There's no need to be so stiff between fellow disciples, right?" Health-maintenance Fei braced himself and came out to persuade him.

Compared to Xue Jianfeng, Lin Yi's presence was much more intimidating. Now was the perfect time for him to do Leng Leng a favor. Even if Leng Leng reunited with Lin Yi in the future, she wouldn't say anything bad about him anymore, and he'd have a chance to keep his life.

"You're in cahoots with snow sword sect's nemesis, and now you're trying to get Lin Yi off the hook, you're just stating facts? Health-maintenance Fei, I still haven't settled the score with you for running away last time, and you still have the face to stand up and plead for her?" Xue Jianfeng looked at him with an unfriendly expression.

Fei Yangsheng was terrified, and this was because Xue Jianfeng didn't know the truth. He thought that he had escaped after Lin Yi destroyed his dantian. If Xue Jianfeng knew that he didn't escape at all and became Lin Yi's spy instead, it wouldn't just be Leng Leng who would be locked up today-he'd be in trouble too!

"Still not moving?" Xue Jianfeng glared at the group of snow sword sect disciples again. If not for the fact that he was a cripple, he would have already taken action.

Everyone was about to attack when Leng Leng suddenly said, ""Hold on, although you are the eldest senior brother, I am also a core disciple. You have no right to imprison me, I want to see my master!"

"I'll be leading this trip to the secular world, so I'll be in charge of everything!" Xue Jianfeng sneered. Seeing the hesitation on everyone's faces, he added, ""Don't worry, I'll only imprison you for the time being. As for how you should be dealt with, I'll ask the higher-ups of the sect. "

At this point, the snow sword sect disciples had no more reason to hesitate. They did not want to get involved in the battle between the core disciples, so they immediately followed Xue Jianfeng's orders and locked Leng Leng up. Although Leng Leng was indignant, she did not attack in the end for the sake of their relationship as fellow disciples.

After Leng Leng was locked up, Xue Jianfeng immediately sent a letter back to the snow sword sect, explaining the whole situation with extra details. In his description, he was undoubtedly the innocent victim, and in the end, it was all because of Leng Leng and Lin Yi's collusion, causing his dantian to be destroyed. As for the fact that he threatened Song Lingshan and the others, he didn't even mention it.

Two days later, the snow sword sect's higher-ups replied, ordering Xue Jianfeng to send Leng Leng back to the sect and disqualify her from this trip to the secular world!

This result was not out of Xue Jianfeng's expectations at all, because this was a letter personally written by his father. It would be strange if he, the Father of the Vice sect leader of snow sword sect, were to swallow his anger when his son's dantian was destroyed. So what if Leng Leng was a highly valued core disciple? could it be that Xue Jianfeng was worse than her?

Xue Jianfeng was the number one cultivator in the foundation establishment stage of the immemorial Alliance. Not to mention whether he lived up to his name or not, being able to fight for such a big title was a reflection of his strength. Not to mention, his father was the Vice sect leader of the snow sword sect, so his background was much deeper than Leng Leng's.

In this situation, even Leng Leng's master could not say much. At most, he could only try to reduce Leng Leng's punishment. It was impossible for nothing to happen to her. At the very least, he would not be able to get past the Deputy sect leader.

"Look carefully, this is the decision of the sect's higher-ups, do you have any objections?" Xue Jianfeng took out the reply letter from the sect and circulated it in front of everyone.

Everyone immediately shook their heads. Not to mention that Leng Leng had always been cold and had an average relationship with them, even if they were close, they would not be able to speak up for her at this time.

The sect was the most important. Since this was a decision made by the higher-ups of the sect, any disciple must carry it out unconditionally.

"I'm not going back!" Leng Leng panicked-she knew where Lin Yi was now, how could she return to the ancient martial world without seeing him? The ancient passageway only opened once every thousand years, and if she was sent back this time, she might never see Lin Yi again.

What's more, after the training in the secular world ended, the next trial would be the immemorial trial, which was the most important trial for the disciples of each sect. Once they missed it, it meant that they might miss a great opportunity. How could she be escorted back to the snow sword sect at this time to be punished?

"Hehe, this is the sect's decision. Do you think it's a child's play? you can't go back just because you say so? Is snow sword sect your family 's?" Xue Jianfeng sneered and immediately left, ""I'll go find Xin Yijie to make the arrangements. Just wait for your punishment when you get back."

"You!" Leng Leng was angry and anxious, but she had no other choice at this moment. Even if she wanted to escape, it was impossible. The snow sword sect disciples were watching her from all directions. With her strength of the middle stage of the foundation building realm, she was not strong enough to break out of the encirclement alone. Moreover, doing so would only give people an excuse, and the consequences would be even more unimaginable.

Master Fei frowned at this scene. He wouldn't dare to let Leng Leng go without permission, and he couldn't do anything about the sect's decision. However, he couldn't just do nothing. Otherwise, Lin Yi would hear about it, and he'd be in big trouble.

#### Chapter 5095 Delay

On the other side, Xue Jianfeng found Xin Yijie and said, ""The sect of snow sword sect has ordered us to take Leng Leng back to the sect for punishment. I want to use the immemorial passage, I believe martial uncle Xin will not stop me?"

Xin Yijie glanced at him and said, ""That's an internal matter of snow sword sect. As long as you prepare the spiritual Jade, I will not stop you."

"Very good, I'll go prepare the spiritual Jade now." Xue Jianfeng immediately turned around and left. Even though he was a little distressed that he had to pay several pieces of spiritual Jade to deal with Leng Leng, this was official business. After he returned, he could apply for it again from the sect. With his background, he could even make a false number and claim a few more pieces. It was killing two birds with one stone.

Looking at Xue Jianfeng's back as he left, Xin Yijie shook his head in disdain. What an arrogant and condescending junior. Before this incident, he had been acting all high and mighty, thinking that he was a rare young talent. Who would have thought that after his dantian was destroyed, his true colors would be revealed? with such a narrow mind, even if his dantian was repaired, he wouldn't be able to achieve anything in the future.

Not long after Xue Jianfeng left, another person suddenly came to seek an audience. It was health-maintenance Fei.

"What are you doing here? Could it be that martial granduncle has some instructions?" Xin Yijie asked. In his eyes, health-maintenance Fei was no longer a snow sword sect disciple, but Lin Yi's representative. After all, he was the one who brought him the message last time.

"Shishu Xin misunderstands, but this matter is indeed related to senior Lin." Fei Yangsheng paused and asked, "did Xue Jianfeng want to send Leng Leng back to the ancient martial world?"

"That's right. This is an internal matter of snow sword sect. I have no reason to stop you. Does this have anything to do with martial granduncle?" Xin Yijie couldn't help but ask.

"Martial uncle Xin, you may not know this, but Leng Leng has a close relationship with senior Lin. If we just let her be escorted back to snow sword sect, senior Lin will definitely be furious. We have to think of a way." Health-maintenance Fei said worriedly.

"This ..." Xin Yijie froze, his expression strange. Lin Yi may look young, but he was an ancient existence in his heart. He didn't think that he'd be with a little girl like Leng Leng. Wasn't this like an old cow eating young grass?

"What's wrong?" Health-maintenance Fei looked at his expression and said strangely.

"Oh, it's nothing," Xin Yijie quickly shook off this strange thought and smiled bitterly. "The problem is that this is an internal matter of snow sword sect. Even if I'm the person in charge of this trip to the secular world, it's not appropriate for me to interfere with the affairs of other sects. It's a taboo."

"Uh ..." Health-maintenance Fei suddenly choked and said helplessly, "Then what should we do? Are we just going to watch Leng Leng being escorted back to snow sword sect?"

"How about this," Xin Yijie said after some thought. "I can't stop him directly, but I can delay him for a while. You go and tell martial granduncle to come here as soon as possible."

"Alright, I'll go now." Health-maintenance Fei immediately nodded and set off.

An hour later, Xue Jianfeng had finished his preparations and brought Ling Yu and Leng Leng to the ancient passageway's teleportation formation. However, they were stopped by Xin Yijie.

"What's the meaning of this?" Xue Jianfeng's face darkened.

"Nothing much. There have been five to six letters sent to the ancient passageway in the past two days. It needs to be maintained well. If you want to use it, wait until tomorrow." Xin Yijie said indifferently.

Xue Jianfeng almost went mad with anger. What kind of bullsh \* t reason was that? since when did Xin Yijie, a mere early golden core stage expert, know how to repair the ancient passageway's teleportation array?

"Martial uncle Xin, this is an internal matter of our snow sword sect. You're not going to stop us, are you? This is no small matter. Aren't you afraid that snow sword sect will report you and you will never be able to gain a foothold in the ancient Alliance?" Xue Jianfeng threatened with an unfriendly expression.

"What internal affairs? It's my duty to protect the ancient passageway, but it's now your snow sword sect's internal affairs. What big words!" Xin Yijie said in disdain.

"Hmph, you know that's not what I'm talking about. You didn't protect it earlier or later, but just had to wait until I wanted to use it, and then you suddenly want to protect it. Isn't the trace of using public office to avenge private wrongs a little too heavy?" Xue Jianfeng laughed coldly. Although Xin Yijie was the martial uncle-in-charge, they were already on the verge of falling out, so their words were naturally filled with the smell of gunpowder.

"You're thinking too much. As the martial uncle leading the team for this experiential learning in the secular world, protecting the immemorial passage is the most important responsibility of all. Everything has been arranged. I'm not so narrow-minded as to take revenge on a junior like you." Xin Yijie said indifferently.

"..." Xue Jianfeng was left speechless for a long time, his face turning green and white. He was no match for an old man like Xin Yijie in terms of experience and shrewdness. After a long while, he finally said, "That's good. There should be a limit to maintaining the ancient passageway. When can I use it?"

"Two days later." Xin Yijie said casually. Two days was his limit. If he continued to drag this out, he would really be in deep trouble.

"Alright, I'll wait for you for two days!" Xue Jianfeng gritted his teeth and turned around to leave with his men. After taking two steps, he suddenly seemed to have thought of something and deliberately shouted, "All snow sword sect disciples, listen up. Keep a close eye on Leng Leng for the next two days. There must be at least four people on duty at all times. I'd like to see who's so audacious to meddle in the internal affairs of snow sword sect!"

Xin Yijie grinned, speechless. This guy actually thought that he was stalling for time to let Leng Leng go? did he really look that brainless?

Two days passed by in a flash. The mountain Gate of Shennongjia was peaceful and quiet. Xue Jianfeng once again brought his men to the immemorial passageway. The first thing he said when he saw Xin Yijie was, ""What excuse do you have to delay this?"

"Delay? When did I delay you? you're just lying to yourself. " Xin Yijie looked at him indifferently, but he was a little worried inside. If Lin Yi didn't come by now, he had no reason to delay.

Xin Yijie was panicking, but Leng Leng was even more panicking. She didn't know that health-maintenance Fei had already gone to tip Lin Yi off. Right now, her mind was in a final struggle-should she continue to endure being sent back to snow sword sect, or should she resist at all costs?

After thinking about it carefully, the consequences of either choice were too heavy for her to bear. She could either say goodbye to Lin Yi forever or be charged with betraying the sect. One of the two had to be it!

Seeing Xin Yijie step aside, Xue Jianfeng laughed coldly and said, ""Let's go, what are you waiting for? going back to snow sword sect and being punished is the only outcome for you. Do you think there's anyone who can change this already destined result?"

Chapter 5096 I've Commandeered It

As the ancient passageway got closer and closer, Leng Leng's heart grew anxious. She clenched her fists and was about to attack. Between snow sword sect and Lin Yi, she had chosen him in the end. In order to see him again, she was willing to bear the crime of betraying the sect!

However, just as she was about to make a move, a familiar voice suddenly came from behind her. ""Wait, she can't leave."

"Lin Yi?!" Leng Leng quickly turned around and looked at the familiar figure that she had been thinking about day and night. Her tears fell uncontrollably. She didn't ask for much. As long as she could see Lin Yi for the last time and let her know that Lin Yi was safe and sound, it was enough.

"It's you?" Xue Jianfeng didn't expect Lin Yi to be here. He looked at the calm Xin Yijie and then at health-maintenance Fei, who appeared behind Lin Yi. He immediately understood what was going on and cursed, "Health-maintenance Fei, you traitor!"

Health-maintenance Fei jumped in shock and quickly hid behind Lin Yi when he saw Xue Jianfeng's murderous look. When he returned to the mountain Gate, he heard that Xue Jianfeng had brought people to the ancient passageway, so he didn't think too much and immediately led Lin Yi here. He didn't expect to be betrayed by Xue Jianfeng on the spot. Of course, he was a traitor to begin with.

Lin Yi didn't even bother with Xue Jianfeng. He walked up to Leng Leng in front of everyone and smiled, "Give me a moment, I'll be done soon."

She didn't know why, but the moment Lin Yi appeared, coold's heart calmed down. As long as Lin Yi was here, she didn't have to be afraid even if the sky fell. She felt more at ease than ever.

However, she still pursed her lips and the corners of her mouth curved up into a beautiful arc. She said softly, ""You're bragging. "

Looking at the two of them flirting with each other as if there was no one else around, Xue Jianfeng was so angry that he almost went crazy. He scolded the snow sword sect disciple beside him, "Are you all blind? This is the Lin Yi who crippled my dantian! He's an enemy of snow sword sect, kill him now!"

"Impudent! Whoever dares to harm the martial granduncle of the green cloud School in the North Island, don't blame me for being merciless!" Xin Yijie immediately stood up and snorted.

All of the snow sword sect disciples were stunned. If Xin Yijie wasn't here, they might really have been instigated by Xue Jianfeng to attack Lin Yi, but an early golden core cultivator like Xin Yijie was here. What was the point of having so many people?

Moreover, in terms of numbers, the blue cloud School of the North Island was not any less than the snow sword sect. They were both part of the ten small sects and families. In terms of strength, they were almost on par. If necessary, they could even mobilize the people of the rising Sky School and the mysterious secrets school. The three big sects of the North Island had always been on the same side, and the snow sword sect might not dare to provoke them.

Seeing that the other snow sword sect disciples were all scared, Xue Jianfeng gritted his teeth in anger. He couldn't help but want to do it himself, but Lin Yi only took one look and he was scared. Thinking back to the time when he was completely abused by Lin Yi, his heart couldn't help but tremble. Facing Lin Yi alone was asking for death.

"Oh? It seems like you've already recovered. You snatched the grade five great recovery pill that I gave to coold, and you're not even going to thank me, and you're even thinking of getting someone to kill me?" Lin Yi's expression wasn't very kind. He'd already heard everything from health-maintenance Fei along the way, and he didn't find it strange that Xue Jianfeng could recover his dantian and meridians. He'd never thought much of it either. Xue Jianfeng might seem strong to other people, but he was just a weakling in Lin Yi's eyes, a weakling who didn't even worth a fart.

"How dare you! You crippled my dantian and became the mortal enemy of snow sword sect, yet you still dare to come here. Do you really think that no one in snow sword sect can deal with you?" Xue Jianfeng was flustered and exasperated.

"If you think anyone can stop me, then go and call him over. I'll be waiting here." Lin Yi laughed coldly. He was only at Foundation peak, but he was still a powerful being at the beginning stage. He didn't even need to be afraid of snow sword sect on Sky Class Island, so why would he be afraid of a fake from the ancient Alliance?

"You!" Xue Jianfeng choked. He wanted to call his father over to vent his anger, but the problem was that it was impossible without the permission of the archaic Alliance. Other than Xin Yijie, only Foundation establishment disciples could participate in the secular world. This was irrefutable evidence that no one could disobey.

"You can't get him? I have a bad temper, so don't grumble in front of me. Otherwise, I'll accidentally trample on your dantian and destroy it again, or even trample you to death. That wouldn't be good, don't you think so?" Lin Yi said with a smile.

"You dare to threaten me?" Xue Jianfeng's mouth was twisted in anger. He pointed at Xin Yijie and said, ""You're the martial uncle leading the team. This guy threatened me in public so unscrupulously, are you going to do nothing?"

"Threatening? Where did this threat come from? Martial granduncle was clearly discussing with you in a good tone, what kind of threat is this?" Xin Yijie scoffed.

"..." Xue Jianfeng had just used a fifth grade great recovery pill to restore his dantian and meridians for the past two days. His physical condition was far from returning to normal. He was so angry that he

almost fainted. With great difficulty, he managed to hold his breath and said, "Alright, then you guys wait and see. Men, escort Lenglong back to snow sword sect first!"

"I'm sorry, cold has already been commandeered by me. She can't leave. " Lin Yi said faintly.

"What did you just say? This is an internal matter of snow sword sect. According to the rules of the ancient martial arts world, we can retaliate on the spot no matter who meddles in our business. Xin Yijie, even you have nothing to say about this, right?" Xue Jianfeng snorted.

Xin Yijie frowned. He couldn't force his way out in this situation, so he looked at Lin Yi and let him make the decision.

"Hehe, you're thinking too much. This is not only an internal matter of your snow sword sect, but also a major matter of the entire secular world and the ancient Alliance. How can you just send it back as you wish?" Lin Yi curled his lips in disdain.

"Bullshit! She's just an ordinary disciple. How could she be related to the entire secular world and the archaic Alliance?" Snow Jianfeng retorted.

"Did you eat shit? How can it be so smelly?" Lin Yi's casual comment made the man's face twist in anger again. "I've already gathered all the cultivation forces in the secular world. I'll be holding a disciple selection meeting in a few days. It's specially held for the ancient Alliance. You can take this opportunity to recruit disciples who meet the requirements. Isn't this a major event that concerns the entire secular world and the ancient Alliance?"

Chapter 5097 Not At All Similar

"What does this have to do with cold?" Xue Jianfeng snorted.

"Of course it's related. Such a huge matter naturally requires a middleman. I represent the cultivation forces of the secular world and Yi Jie represents the primordial Alliance. Leng Leng is the middleman chosen by both sides. Without her, this disciple selection meeting can not be held. This is going against the entire primordial Alliance and the secular world. Are you sure your snow sword sect has the courage to do so?" Lin Yi asked.

"This ..." Xue Jianfeng didn't know how to respond. He forced Leng Leng to go back for punishment out of selfishness, and it wouldn't hold up if he really investigated. Now that Lin Yi had pulled out the middle man title, he was going to blow things up if he continued to insist.

"Let's go," Lin Yi didn't pay any more attention to the clown, smiling as he pulled Leng Leng's hand and left.

Xue Jianfeng couldn't help but want to stop them, but Lin Yi glanced at him and he immediately shrank back in fear. His face was full of mixed expressions-of course, he couldn't just watch the two leave, but what could he do?

Now that the ancient passageway was activated, Xue Jianfeng even wanted to go back himself. He just needed to make up some excuse and let his father go to the ancient Alliance for a bit, and he might have the chance to find a golden core Master to deal with Lin Yi.

However, this wasn't a guaranteed success. The key was that Lin Yi was the Grand uncle-master of the Qingyun sect on the northern island. If the snow sword sect could call for help, the Qingyun sect could do the same. Besides, Xin Yijie was the uncle-master who was leading the team. The chances of success were very slim if they wanted to use this method against Lin Yi.

After much consideration, Xue Jianfeng could only choose to endure. He wanted to take revenge, so he could only endure it. Only when the right opportunity appeared could he take revenge!

On the other side, Lin Yi and Leng Leng were walking hand in hand on a small path, enjoying the scenery of Shennongjia and their own world.

Leng Leng couldn't help but steal a glance at Lin Yi. She had a million things to say, but she didn't know how to express them. She could only let Lin Yi lead her.

"You ..." The two of them suddenly spoke at the same time. They were both stunned for a moment before they smiled at each other and said at the same time, ""Then you go first."

"We're really in sync, we have such a tacit understanding!" Lin Yi couldn't help but laugh. "How have you been?"

"I just found a hidden cave to cultivate and relied on the medicinal pill you gave me to advance two levels. Other than that, there's nothing special." Leng Leng smiled. Although leveling up two levels in a row was a great thing for most people, it was nothing compared to Lin Yi's situation. He couldn't wait to ask, "You're different. You've done so many earth-shattering things, and you've suddenly become the founder of the green cloud School in the North Island. What's going on?"

"Actually, this is all thanks to you." Lin Yi smiled.

"Thanks to me?" Leng Leng blinked her eyes in confusion.

"That's right. Originally, I was very heavily injured and my soul was on the verge of collapse, so I wanted to quickly remove myself and return to my body. After cultivating for a while, I could project my soul back to the secular world. I never thought that the piece of charcoal you left me would contain unparalleled spiritual energy. Not only did it help me stabilize my soul that was on the verge of collapse, it also helped me quickly recover my strength to the great circle of Foundation establishment. It's a good thing." Lin Yi sighed. If it wasn't for Leng Leng, the star Black coal, the common world would've been in chaos.

"It's good that it's useful to you. To be honest, that thing doesn't have much use for me. At most, it'll just slightly nourish my spiritual sense. It's precious and useless. At first, I planned to keep it in the ancient Jianghu and not bring it out. It's a good thing I didn't do that, or else something big would have happened." Could could not help but rejoice.

"This thing is indeed useless to a Foundation Stage expert, but once you reach a certain realm, its value will naturally be reflected. This is a priceless treasure." Lin Yi said seriously.

From Lin Yi's point of view, it wasn't a good thing to give this thing to a Foundation Stage master like Leng Leng. It was just that she didn't know how to use it, or else she would've caused a tragedy. After all, the spirit energy contained in it was too huge. If the spirit wasn't strong enough, it would've been destroyed in an instant, injuring the spirit at the least, or even killing it on the spot.

However, once he reached the Yuanying stage, especially at the xuansheng stage, the spiritual energy contained in this thing would be a priceless treasure.

"Then I'll leave it for you." Lengleng said casually. After going through life and death together, her relationship with Lin Yi was no longer a normal friend. At least in her heart, she would have another man in this life, which was why she was so calm about Lin Yi giving her the pill. At the same time, she wouldn't be stingy with Lin Yi's things, even if it was a treasure from her master.

"Alright, then I'll stay." Lin Yi didn't hold back-he wouldn't be stingy with his own people, but he wouldn't hold back either.

"Now you can tell me, who are you, how did you become the founder of the Qingyun school in Beidao?" Leng Leng asked again. She'd been thinking about it ever since she heard about Lin Yi's recovery. She could guess that he'd recovered, but he suddenly became the founder of the North Island's Qingyun school. This was something she couldn't figure out.

"If I say that this is a lie, would you believe me?" Lin Yi said with a half-smile.

"Impossible. You might be able to deceive others, but martial uncle Xin is an elder of the green cloud School on the North Island. You can't deceive him." Leng Leng shook her head decisively.

"Fine, it's not a pure lie. With my background, it's no big deal for Xin Yijie to call me martial granduncle." Lin Yi nodded.

"So you're really a primordial spirit left behind from the ancient times?" Leng Leng looked at him as if she was looking at a monster. She was sure of their relationship now, but she couldn't accept that Lin Yi really was an ancient existence.

"Do I look like one?" Lin Yi said, amused.

"No, they don't look like one at all." Leng Leng shook her head. She'd only known Lin Yi for half a month, but the aura he exuded was that of a modern person. Whether it was buying phones or giving flowers and breakfast, his mannerisms and words didn't seem like an old monster from ancient times.

#### Chapter 5098 The Selection Meeting

But, if Lin Yi wasn't a primordial soul old monster from the ancient times, how would he be related to the North Island's Green cloud sect?

"That's right. I've already told you about my background. You just thought I was joking and didn't take it to heart." Lin Yi said with a smile.

"Are you talking about the island where you learned your skills?" He asked coldly.

"That's right, you should've heard of the island's name before. It's the legendary Sky Class Island. " Lin Yi said.

"What? Sky Class Island? Isn't that a false rumor?" Leng Leng was shocked.

"It's not a rumor. I came back from the Sky Class Island, and according to my speculation, the Sky Class Island has a deep relationship with your ancient martial world. " Lin Yi nodded.

"Deep relationship? Where does this come from?" Leng Leng was a little surprised. The existence of the Sky Class Island was shocking enough, but it actually had a deep relationship with the ancient martial world?

"The sky-class Island is divided into five big islands: North, South, East, West, and central. The North Island is led by three pavilions, which are the sky-rising Pavilion, the mystery Pavilion, and the GreenCloud Pavilion. The middle Island has the snow sword sect, the thousand blades sect, and other sects and forces. Don't you think it sounds familiar?" Lin Yi said with a smile.

"This ... How is this possible ..." Leng Leng was stunned. How could there be such a coincidence in this world?

"Not only that, the heaven rank island's North island's Green cloud Pavilion's introductory heart technique is the green cloud heart technique, and the ancient Alliance's North island's Green cloud sect also has the same green cloud heart technique. The same name may be a coincidence, but even the cultivation method is the same, this can't be a coincidence, right?" Lin Yi said.

"According to what you've said, it's really a deep relationship!" Leng Leng's jaw dropped, and it took a while for her to digest Lin Yi's words, ""Did you tell him about Sky Class Island?"

"No, I don't plan to disclose this matter before I figure out the truth about the ancient Alliance. You should keep it a secret from them for now." Lin Yi shook his head. This was no small matter, and it was hard to tell if it would be a blessing or a curse if it was spread out before the truth was clear. It was better to confirm his identity as the founder of the Qingyun school first. At least, this identity was the most beneficial when it came to dealing with the secular world.

"Alright," he said. Leng Leng nodded. She didn't think too much about it-since Lin Yi told her to keep it a secret, she'd keep it a secret.

The two of them chatted for a while more until the sky was almost dark before returning to the mountain Gate. Xin Yijie had already had people prepare a banquet. Although this place was so deserted

that it was impossible to find any exotic delicacies, it was still primitive and natural. It was convenient to get local materials and it had a unique flavor to eat.

"Martial granduncle, there's something I'd like to ask. Actually, it's not just me who wants to ask, but the higher-ups of our Qingyun school in Beidao also want to ask. I wonder what plans you have in the future, martial granduncle. Are you going to stay in the secular world or follow me to the small Jianghu in the ancient times?" Xin Yijie asked carefully.

It'd been five days since he'd last reported the situation, and they'd finally received a reply from the green cloud sect. They learned of the existence of Lin Yi, their founder from the ancient times, and as expected, the entire sect was in an uproar. They were even more overjoyed when they learned that they had the complete version of the [art of peaceful mind].

With a living fossil like their founder, the people from the green cloud sect would definitely want to invite Lin Yi over. After all, as long as their grand uncle-master casually taught them a few more Arts, they would be priceless treasures. But the problem was that Lin Yi was now the president of the practitioner's Association in the secular world. What if he didn't want to go to the ancient martial world?

"Don't you have a year of experience in the secular world? We'll talk about this later, I haven't thought about it yet." Lin Yi said noncommittally. He wouldn't mind taking a trip to the ancient martial world if the conditions allowed it, but he was just a projected soul right now. Who knew if he would suddenly collapse in the ancient martial world?

In addition, even if he had the star inkstone to replenish his spiritual energy, who knew how long he would be able to last? perhaps a year would be his limit.

"This ... Okay ..." Xin Yijie couldn't help but feel disappointed, but he didn't dare to say anything. Lin Yi was only a Foundation peak stage essence spirit, but he was still the founder of the North Island's

Qingyun sect. Disrespecting a master was a big crime, not to mention that this was a grand uncle-master with an unknown level of seniority.

"Since I'm here, let's talk about the disciple selection meeting. I've already spread the news, and all the cultivation forces in the secular world have agreed to send their disciples to participate. You can decide the time and place." Lin Yi said.

"Good, this matter should not be delayed. How about the day after tomorrow? as for the location, it will be at this Mountain Gate." Xin Yijie suggested.

"Oh? Aren't you afraid of attracting unnecessary trouble by directly revealing your assembly point to the outside world?" Lin Yi asked, surprised.

"Senior granduncle, you must be joking. Other than an expert like you, all the other cultivation forces in the secular world can only be bullied by the disciples of the archaic Alliance. There won't be any trouble." Xin Yijie said.

"Hehe, that's true." Although he said that, Lin Yi didn't think much of it. It was true that the practitioners of the common world were far weaker than the ancient Alliance, but the people of the ancient Alliance had the common problem of practitioners-they didn't take normal people seriously.

The secular world was the secular world because it was the world of the secular people, especially a world with highly developed technology. If they were really enemies, any high-tech weapons would be enough to make the cultivators of the Supreme ancient Alliance suffer. If they were really provoked, a nuclear bomb would be launched. The people here might be fine, but it was another matter whether their array and base were still there.

Xin Yijie and the others didn't have a deep understanding of the technology of the secular world. Once they understood what high technology was, especially after they had suffered, they would probably not dare to be so reckless.

After the discussion, Lin Yi gave Lingshan a call and told her that the investigation Department would be in charge of the disciple selection meeting. Not only would they be able to maintain order, but they'd also be able to establish their authority. Two birds with one stone.

Two days passed by in a flash. Practitioners from all over the secular world gathered at Shennongjia from all directions. The ancient, hidden, and secular worlds' sects and families gathered once again. The supernatural Investigation Bureau organized them into the depths of Shennongjia, led by Song Lingshan.

There was actually a grand mountain Gate hidden in the primeval forest. The scene in front of them shocked all the cultivators in the secular world!

#### Chapter 5099 Another Revolt

When they saw the 78 Foundation establishment stage experts of the ancient Alliance, they couldn't help but swallow their saliva. To them, any heavenly Dao stage expert was enough to deter them. The aura and pressure of the 78 Foundation establishment stage experts standing together was simply jaw-dropping.

The group couldn't help but rejoice that Lin Yi was there to deal with the secular world. Otherwise, if they really fought, the entire cultivation force of the secular world would be wiped out. The ancient Alliance was indeed a big deal!

Due to the previous conflicts and disturbances, the cultivators of the secular world actually did not have a good impression of the ancient Alliance. However, at this moment, after experiencing such a direct difference in strength, they could not help but feel a sense of respect. If they could have the opportunity

to become experts of the heavenly Dao stage like these people by joining the ancient Alliance, that would be a rare opportunity.

It was not until this moment that the crowd finally began to look forward to the ancient Alliance. Originally, many of them participated in this disciple selection meeting purely for the sake of going through the motions, so as not to cause trouble for their own sects and families. But now, they really hoped that they would be selected.

Under Lingshan's lead, the practitioners settled down in their respective positions, waiting for the selection process to begin. Lingshan herself, on the other hand, ran to Lin Yi's side and looked at him coldly, "Who is this?"

Lin Yi blushed and pinched his nose awkwardly, "This is Leng Leng, a disciple of the snow sword sect of the immemorial Alliance. I told you before, she's one of us."

"One of our own?" Lingshan blinked, but quickly understood what was going on. She couldn't help but roll her eyes at Lin Yi before extending her hand to Leng Leng, "Hello, I'm song Lingshan, the Deputy Director of the supernatural Investigation Bureau of the secular world. I'm also one of this womanizer's friends. Nice to meet you."

"A Playboy ..." Leng Leng chuckled and grabbed Lingshan's hand, "I'll be in your care in the future,"

She was a person who didn't want strangers to get close to her, but she didn't reject Lingshan. After all, Lin Yi had told her about this in the past two days, and the ancient martial world was similar to the Sky Class Island. It wasn't strange for a powerful man like Lin Yi to have many women. If Lin Yi didn't have any other women, she would be suspicious of his sexual orientation.

While Lin Yi was having his meeting, Xin Yijie had already started the first round of selection. The principle was simple-the leaders of the ancient sects would come out and pick their disciples. If the practitioners here weren't picked by any of the ancient sects, they'd be eliminated and sent home.

As for those who were chosen, they could stay behind and enter the second round. If they had good talent and were chosen by several ancient sects at the same time, then it would be up to them.

This time, the disciples sent by the various cultivation forces of the secular world were not just to make up the number, but their own elite disciples. Otherwise, this disciple selection meeting would be meaningless, and the primordial Alliance would definitely take the opportunity to make trouble. Therefore, after the first round of selection, there were as many as thirty-three disciples left.

This result was far beyond Xin Yijie's expectations. The ancient sects were very strict in their selection criteria. He had expected seven or eight people to pass the first round, which showed that the secular world was indeed full of talents. It was only because the spiritual Qi was too thin that they declined, or their overall strength would not be much worse than the ancient Alliance.

After sending off the cultivators from the secular world, Xin Yijie was about to announce the rules of the second round of selection when Xue Jianfeng suddenly jumped out and yelled, "Hold on. Since this is the disciple selection meeting that the archaic Alliance and the secular world have agreed on, the secular world can't just deal with it casually. Otherwise, what would happen to the face of the archaic Alliance?"

"Thirty-three people are left in the first round of selection. Even your snow sword sect has chosen four people. How can you call this 'dealing with things'?" Xin Yijie said with a frown.

"Having more people doesn't mean they're sincere-let me ask you a question first, Shishu Xin-if someone became a Sky Class full master in the common world, would that person be considered a talent with unlimited potential?" Xue Jianfeng asked with deep meaning.

"Of course it counts." Xin Yijie nodded. With the thin spiritual Qi and poor cultivation resources in the secular world, it was at least a hundred times more difficult to cultivate to the peak of heaven rank than in the ancient Alliance. It was not an exaggeration to say that the potential was limitless.

"If the secular world is really sincere, then shouldn't these people come to participate in the disciple selection meeting? But as far as I know, there are still a lot of Sky Class full Masters who aren't here today, and they're all his men-shouldn't you do something as the leader, uncle Xin?" Xue Jianfeng pointed his spear at Lin Yi.

"I ..." Xin Yijie looked at Lin Yi, troubled. He didn't know how to answer. The ancient Alliance and the common world were working together in good faith to hold this disciple selection meeting, and logically speaking, there was no reason for the Sky Class Masters to be absent.

"Hehe, Xue Jianfeng, you're really stubborn. Last time, you suffered because of this, and now you've forgotten the pain after a few days. You don't remember, do you?" Lin Yi looked at Xue Jianfeng unkindly.

The memory of Lin Yi's one-sided beating was still fresh in his mind, and Xue Jianfeng subconsciously took a few steps back in fear. It took a while for him to come back to his senses, his face red. He snorted coldly, "Hmph, this is the territory of the immemorial Alliance. If you dare to act rashly, you'll be provoking the immemorial Alliance in public, and everyone will kill you!"

"This is obviously Shennongjia. When did it become the territory of the archaic Alliance? However, it seems that you still have a good memory. It seems that you didn't get beaten up for nothing. " Lin Yi

curled his lips, "There is a basic principle in this disciple selection meeting, and that is to be fair and voluntary. It is up to the individual to decide whether to come or not. Otherwise, if there is still the slightest bit of coercion, then this disciple selection meeting will be meaningless. If you can't even understand this, then your IQ is really worrying. Hurry up and find a place to top up your game, so that you don't get deducted as a negative."

"You ..." Although Xue Jianfeng didn't understand what they were saying, he knew it wasn't anything good from the way Lingshan and the others were trying to suppress their laughter. "Since it's fair and voluntary, it's impossible that none of the Sky Class Masters are interested in the ancient Alliance. Needless to say, you're the one who's causing trouble!"

#### Chapter 5100 The Ancient Passageway

"Well, they were quite interested in the ancient Alliance at first, but after seeing you, a genius of the ancient Alliance, they all thought that the ancient Alliance was nothing special. They were afraid that they would end up like you and refuse to participate in the disciple selection meeting. So, it's not my fault." Lin Yi said seriously.

"I see. It's you who has ruined the image of the ancient Alliance. Now you still have the face to mention this. I'll tell the Alliance about your achievements!" Xin Yijie immediately retorted.

Xue Jianfeng almost spat out a mouthful of blood as he pointed at Lin Yi, "What about those unconscious female cultivators? you can't say that they didn't want to come, right? They can only wait for death if they stay in the secular world, and they can only have a chance to recover if they go to the archaic Alliance. You forced them to stay in the secular world because of your own selfish desires, and your intentions are despicable. You can't be thinking of blaming me for this, right?"

"You're so smart. This is all your fault. I'm their Guardian, but I don't trust your character. If I send them to the ancient Alliance, who knows if you'll secretly do something beastly?" Lin Yi said, looking at him as if he were a scumbag.

F \* ck! Xue Jianfeng almost spat out a mouthful of blood as everyone looked at him with strange eyes. His vision went black and he almost fainted on the spot. He just wanted to use this opportunity to cause trouble for Lin Yi, how did he become a disgusting beast?

Looking at Lin Yi's half-smiling face, Xue Jianfeng wanted to fight this bastard to the death. Unfortunately, he didn't have the strength to do so. There was only one way to deal with Lin Yi, and that was to get all the snow sword sect disciples to attack him together. However, Lin Yi was the founder of the North Island's Qingyun sect. Xin Yijie wouldn't just stand by and watch. What could he do?

"Is the farce over? If you're done, then move aside and don't get in the way of this old man presiding over the disciple selection meeting!" Xin Yijie glared at Xue Jianfeng.

Xue Jianfeng snorted coldly. He knew that he would not be able to gain an advantage if he continued like this, so he could only retreat to the side and think of another plan.

"Then I'll go back first?" Lingshan blinked at Lin Yi. She was here as the Deputy Director of the special Investigation Bureau to maintain order, and just like the others, she didn't want to join the ancient Alliance at all. If she really wanted to, she could've just gone to Sky Class Island with Lin Yi, why would she go to the ancient Alliance?

Lin Yi was just about to nod when Xin Yijie interjected. "Great uncle-master, Deputy bureau chief song actually doesn't have to leave in a hurry. It's not too late to make a decision after listening to the second round of selection rules."

"Oh? Then let's wait for a while. " Lin Yi looked at Xin Yijie in surprise. He didn't care about the ancient Alliance's selection process-it was fine as long as both sides lived in peace. He didn't pay much attention to the process, but from what Xin Yijie was saying, could it be that the second round wasn't as simple as the first?

Xin Yijie nodded and turned to the crowd. "Ladies and gentlemen, the fact that all of you have passed the first round of selection is an affirmation of your potential. Although this doesn't mean that all of you have joined the ancient Alliance, as a reward for passing the first round, I believe that you will benefit greatly from the second round of selection, whether you succeed or not."

Everyone's eyes lit up. They were still a little confused about the first round of selection and didn't know what the others were looking at. However, the reward that Xin Yijie mentioned made their hearts race. The ancient Alliance would definitely not be giving them something simple. Could it be that everyone would be given a treasure of the ancient Alliance?

However, Xin Yijie's next words quickly shattered their fantasies, but they only made their hearts race even more. "Don't misunderstand me, everyone. I won't give you any treasures or resources, but I'll give you a chance that you've been dreaming of. A chance to break through to the foundation establishment stage."

Foundation establishment! There was a sudden uproar and everyone's breathing became heavy. Even if they didn't have any concept of the foundation establishment stage before, after the appearance of the ancient Alliance, even the most ill-informed people knew what these three words meant. This was the legendary heavenly Dao!

It wasn't just the common world practitioners-even Lin Yi was moved. He'd really underestimated the ancient Alliance's wealth.

"Don't be surprised, everyone. The ancient Jianghu is the dream place of all cultivators. If you want to become an official disciple of any ancient sect, you must at least have the strength of the foundation establishment stage. Now that you have passed the first round of selection, you will be the prospective disciples of your respective sects. You will receive the primary cultivation method of your respective sects and will soon go to a place with abundant spiritual Qi to break through to the foundation

establishment stage. If you can successfully advance before the ancient passage closes, then you can become an official disciple!" Xin Yijie introduced.

"Elementary cultivation method? We already have our own cultivation methods, even if you give us more, it won't be of any use, right?" The cultivators of the secular world couldn't help but be puzzled. Everyone knew that cultivation methods couldn't be changed at will, especially if one cultivated two cultivation methods at the same time. The consequences were even more unimaginable. The lightest consequence was injury and backlash, and the heaviest was Qi deviation, or even death on the spot.

"Under normal circumstances, you can't change your cultivation method. However, after you reach the foundation establishment stage, or more accurately, during the process of breaking through to the foundation establishment stage, you will have the opportunity to change your cultivation method without any side effects." Xin Yijie explained.

Only then did everyone understand. Then, someone raised his hand and asked, "What if we fail to break through to the foundation establishment stage?"

"Of course you've been eliminated, but even so, you won't suffer any losses. At least you've obtained a basic cultivation method from your sect. Although it's impossible to break through to the Foundation Stage with just these basic cultivation methods, it's still much more profound than your original cultivation methods. This in itself is not a small gain." Xin Yijie said with a smile.

Everyone immediately heaved a sigh of relief. Each and every one of them felt as if they had been hit by a meat pie that had fallen from the sky. They had obtained a cultivation method that could allow them to build their Foundation for no reason. This was an unexpected joy.

"When will the ancient passageway close?" Someone raised his hand and asked.

"There are still ten and a half months before the archaic passage closes, so the time left for everyone is very limited. I hope you can grasp this once-in-a-lifetime opportunity. Once you miss this opportunity, it will be as difficult as ascending to the heavens for you to reach the foundation establishment stage." Xin Yijie replied.
