

Bodyguard 5131

Chapter 5131 Must Be Eliminated!

"You're asking me?" "The parents of these children," Lin Dongfang said after some thought.

"Parent?" Bing Wuqing's eyelids twitched, and she said with a slight frown, ""Do you know what you've done?"

"Of course. My child was bullied. As a parent, I have to step in and resolve the matter, don't you think so?" Lin Dongfang spoke like a parent.

"You're provoking snow sword sect. " Bing Wuqing snorted coldly, and a murderous look suddenly appeared on her expressionless face. She declared, ""You're courting death by provoking snow sword sect. You can go die now."

With that, the merciless ice that was pressing down on everyone's heads suddenly disappeared. Only then did everyone have a chance to catch their breath. They didn't see Bing Wuqing move, but at that moment, the sand under Lin Dongfang's feet suddenly sank. His entire body sank without any warning, leaving only his head on the ground.

Upon closer inspection, Lin Dongfang's entire body was covered in a layer of white frost, and even the hole that trapped him had turned into an ice hole with a chilling air.

"Senior!" Leng Leng, who was the closest to them, quickly reached out to save them. It was only at this moment that she realized that Bing Wuqing had not withdrawn her merciless ICE FORCE. Instead, she

had condensed all the merciless ICE FORCE that was pressing down on everyone's heads into a single point. That was why such a powerful force had exploded in an instant.

However, before Leng Leng could even touch Lin Dongfang's hand, she suddenly sank as well. Although she wasn't trapped in an ice hole like Lin Dongfang, her entire body was firmly pressed to the ground by the powerful merciless ICE FORCE. This was only a small portion of Bing Wuqing's remaining strength, but even so, it was enough to put Leng Leng in a difficult position.

"I've overestimated you. You're nothing more than this. " Bing Wuqing looked at Lin Dongfang, who was frozen on the spot, and the corners of her mouth curled up in a contemptuous smile. She had thought that she had encountered a rare expert, but it turned out that she had been overthinking it. It seemed that the old man was able to knock away the snow sword with a single slap, not because he had the strength of a golden core cultivator, but because there was more to it.

As she said that, Bing Wuqing suddenly bent down and reached out to grab Lin Dongfang amidst the exclamations of song Lingshan and the others. This old man dared to provoke snow sword sect in front of him, so he had no choice but to behead him in front of everyone as a warning.

"Stop! This is the territory of the green cloud School on the North Island. If you dare to act recklessly, you will be making an enemy of the entire green cloud School on the North Island!" Seeing this, Xin Yijie couldn't care less about anything else. He hurriedly formed a true Qi barrier between Lin Dongfang and Bing Wuqing. It was the same move that had caused snow Jianfeng to suffer a great loss. No matter what, he couldn't let Lin Dongfang die Here, especially under his watch.

Bing Wuqing's movements paused for a moment, and she turned to look at him."""Snow sword sect has already lost Xue Jianfeng, so this old man naturally has to die too. It's fair and reasonable."

After saying that, Bing Wuqing completely ignored Xin Yijie's extremely ugly expression. Her hand turned into a claw as fast as she could, breaking through Xin Yijie's true Qi barrier in an instant and heading straight for Lin Dongfang's head.

So strong! Xin Yijie was taken aback. Both of them were early gold core experts. Although it wasn't strange for the true energy barrier to be broken by an expert of the same level, since it wasn't a powerful defensive move in the first place, and the other party could take the initiative to break it with a single point, this was the first time he had seen someone break it so cleanly and efficiently like Bing Wuqing.

This guy was probably one of the top existences among his peers! Xin Yijie's heart sank. In a moment of desperation, he had only wanted to use his true Qi barrier to buy some time. Who would have thought that this move wouldn't even be able to delay him for a moment? In an instant, it had been pierced through like a window paper, and he had been caught unprepared.

The situation was extremely dangerous, and Xin Yijie's only option was to attack Bing Wuqing with all his might. He might be able to save Lin Dongfang's life this way, but that would be equivalent to completely falling out with him. If things went south, even the entire green cloud sect on the northern island would be dragged into this mess. The consequences would be dire.

Just as Xin Yijie was hesitating, Bing Wuqing's Ice Claw, which had been condensed with layers of ice, was just a foot away from Lin Dongfang's head. Suddenly, someone kicked her from below. It was Leng Leng, who had been pressed to the ground by Bing Wuqing's ice attack.

Leng Leng was a mid-stage foundation building expert. Although she couldn't stand up from the pressure of the merciless ice, she could still launch an attack even if she was lying down. Especially now that Bing Wuqing had taken the initiative to bend down, it was the perfect opportunity for her to kick Bing Wuqing in the face.

"Hmph, a Mantis trying to stop a chariot, ridiculous!" Bing Wuqing snorted disdainfully. The little bit of admiration she had for Leng Leng that had just appeared in her heart instantly disappeared. Her Ice Claw didn't stop in the slightest, and her other hand easily blocked Leng Leng's attack path.

Bang! Bang! Without any hesitation, Bing Wuqing caught Leng Leng's left foot with one hand, and was about to break it. Words like "treating a woman kindly" had never appeared on him. Since Leng Leng had dared to attack him, she would have to pay the corresponding price.

At least, in Bing Wuqing's eyes, breaking a leg was a very light punishment. If it wasn't for the higher-ups of the snow sword sect who had ordered him to bring Leng Leng back alive, he might have just killed her without mercy. Otherwise, how could he live up to his name?

However, before Bing Wuqing could twist it, a bone-chilling cold suddenly came from her palm. Because he had cultivated the emotionless ICE FORCE, his entire body was already like an Ice Man. However, this bone-chilling cold was much stronger than his, and it even made him shiver unconsciously.

"Ice-shattering physique!" Bing Wuqing immediately reacted. She had never sparred with Leng Leng before, and her understanding of the icebreaker physique had always been limited to rumors. She had thought that it was just a little stronger than the average physique, but now that she had experienced it for herself, she immediately realized that she had been gravely mistaken. She was only in the middle stage of the foundation building realm, but she was actually able to make her, an early-stage golden core cultivator, shiver all over. The icebreaker physique was indeed heaven-defying!

No, this woman must be eliminated. Otherwise, she would be a great threat in the future!

Bing Wuqing immediately changed her mind. Now that things had developed to this point, she and Leng Leng were already on opposite sides. He had never had the habit of leaving any hidden dangers for himself, and it was in line with his nature to cut the weeds and eliminate the roots. As for whether the

snow sword sect's higher-ups would blame him after this, he couldn't be bothered to care anymore. Compared to his own safety, what did a few words of grumbling from the higher-ups matter?

In an instant, an ice-cold killing intent poured out without reservation. Leng Leng, whose attack was blocked, immediately felt that something was wrong. However, at this moment, the merciless ice pressure was still pressing down on her. She could not even stand up for a moment, and there was no place for her to escape.

Lingshan and Chentian were too weak to help!

Chapter 5132 Crippled ...

Xin Yijie, the only person who had a chance of going up against Bing Wuqing, was still hesitating. He didn't notice the change in Bing Wuqing's attitude at all, and the situation was dire.

"Lin Yi ..." Leng Leng knew that she was going to die, so she closed her eyes calmly. Lin Yi's face appeared in her mind, and she wanted to remember him in the depths of her soul. They were not meant to be together in this life, so they could only meet in the next life.

Ka! The crisp sound of bones breaking rang out, and Leng Leng's heart trembled subconsciously. However, what surprised her was that she didn't feel any pain. Instead, it was Bing Wuqing who suddenly howled in pain, ""Ah!"

The crowd was dumbfounded, and Leng Leng quickly opened her eyes. The scene before her had stunned her as well. Bing Wuqing's position hadn't changed, and Xin Yijie hadn't made a move either. Lin Dongfang, who had clearly been frozen to the point where he couldn't move, had his hand on Bing Wuqing's Ice Claw, and a calm smile on his face as if nothing had happened.

At this moment, Bing Wuqing's Ice Claw had been folded into an extremely twisted arc, causing anyone who saw it to feel their scalp tingle. It was no wonder that his veins were throbbing in pain, and his face was contorted in pain.

"You're pretty good at suppressing people out of thin air. What's the name?" Lin Dongfang dusted his hands and climbed out of the ice pit as if nothing had happened.

"I'm going to kill you!" Bing Wuqing endured the excruciating pain, and an ice sword materialized in her other hand. She seemed to be charging at Lin Dongfang in a frenzy, but to everyone's surprise, she turned her sword around and stabbed it at Leng Leng, who was on the ground.

"Despicable!" Song Lingshan and the others were so angry that they started to curse. Even Xin Yijie couldn't stand it anymore. Previously, he thought that although Bing Wuqing was cold and emotionless, at least she was upright and honest. Who would have thought that she would be shameless to this extent? just because she was afraid of Lin Dongfang, she used the helpless cool as an example. This person was a complete disgrace to all golden core stage experts.

Bing Wuqing didn't care about what the others were thinking. In fact, she didn't think that it was a shameless move at all. Since Lin Dongfang was more dangerous than she had expected, and she had lost an arm, the best thing to do now was to find the enemy's weakness and attack it to save him. Cool, who was by her feet, was the perfect cover.

In his plan, as long as Lin Dongfang came to save Leng Leng, he would have the opportunity to kill him in one blow!

However, Lin Dongfang's response was far beyond his expectations. Lin Dongfang's reaction was very simple. He was not angry, nor did he burst into anger. He even had a calm smile on his face. Without even looking, he threw a punch.

BOOM! Lin Dongfang's fist hit Bing Wuqing's abdomen first, and she spat out a mouthful of blood. Her entire body was bent like a shrimp, and she could no longer move. She staggered and fell to the ground.

He couldn't understand it even if he was beaten to death. This old man clearly didn't have the slightest fluctuation of true Qi on his body, so how could the speed and power of his punches be so terrifying? so terrifying that it could easily destroy him, an early gold core expert!

Bing Wuqing's face was ashen. Although she wasn't dead yet, she knew that she was already crippled, because Lin Dongfang's earth-shattering punch had shattered her dantian ...

"Alright, everyone, do what you're doing. Stop slacking off and hurry up with the construction. With your efficiency, when will you be able to complete the construction?" Lin Dongfang waved his hand at the dumbfounded crowd. He didn't think that killing Bing Wuqing was a big deal at all. His actions and demeanor were as casual as if he had stepped on a bug.

Even Xin Yijie was dumbfounded, let alone coold and the others. In the end, he could only force out a sentence, ""He's a God ..."

"Daughter, just stay here. No matter whether you stay or leave, we have to wait for that little rascal to come back and discuss it. What do you think?" Lin Dongfang said as he helped Leng Leng up.

"Yes, thank you, senior." Leng Leng nodded gratefully. Although Bing Wuqing and Xue Jianfeng had both been defeated by Lin Dongfang, it was also because of this that she was in a very bad situation. It was almost equivalent to completely breaking off her relationship with the snow sword sect. Even if she

returned now, she would be charged with the crime of betraying the sect. If it were any other person, they would have been anxious.

However, Leng Leng's heart was unusually calm. Lin Dongfang was right. No matter what, she had to wait for Lin Yi to come back first. He was her pillar of support.

This sudden disturbance was quickly put to an end by Lin Dongfang. Everyone looked at each other for a moment before quickly returning to normal and doing what they were doing. After all, they had all seen Lin Dongfang's last attack. It was also a one-sided crushing, the only difference was that his opponent was much stronger this time.

In everyone's eyes, Lin Dongfang was an unfathomable existence just like Lin Yi. As long as one of them was here, even if the sky fell, there was nothing to be afraid of.

"Uh ... Senior Lin ..." Xin Yijie stopped Lin Dongfang awkwardly. With his early golden core strength, other than the nascent soul eccentrics of the ancient Alliance, no one was worthy of being called senior by him. Even if Lin Dongfang was Lin Yi's so-called grandfather, he didn't have the right to be called senior. At most, they were of the same generation, and this was already giving Lin Yi a lot of face.

But now, Xin Yijie was calling Lin fan "senior" so willingly. Even Bing Wuqing had been killed by him so easily. In terms of strength, Lin fan must be at least at the peak of the early gold core realm. There was no reason for Xin Yijie to call him "senior".

"Oh? What's the matter?" Lin Dongfang turned to look at him. If Xin Yijie had gone all out to stop him just then, he might have treated him differently. But now, Xin Yijie's image had been greatly reduced in his eyes. This kind of person couldn't be completely trusted. If he had placed all his hopes on this guy, Leng Leng would have been taken away long ago, and he would have become a corpse a long time ago.

Xin Yijie didn't notice this. Instead, he thought that this was the bearing of an expert. After all, it wasn't easy to get close to an expert. Thus, he respectfully said with a bit of restraint, "I wonder how we should deal with these two. Senior Lin, can you deal with them?"

It wasn't until this moment that the crowd remembered that there were still two people lying on the ground. Not only had Bing Wuqing lost one of her hands, but her dantian had also been destroyed by a single punch. She was lying on the ground, unable to get up at all. As for Xue Jianfeng, he simply didn't move at all. No one knew if he was Dead or Alive.

It was Xin Yijie's duty to deal with these two fellows. Not only was he the martial uncle leading the team for this trip to the secular world, but this was also the territory assigned to the GreenCloud Pavilion on the North Island!

Chapter 5133 Snow Sword Sect's Meeting

However, after seeing Lin Dongfang's unfathomable strength, Xin Yijie would be out of his mind if he still dared to act on his own.

"It doesn't matter. I can let you go or kill you. You can do whatever you want. I have no objections." Lin Dongfang looked nonchalant.

"Then we're just letting them go?" Xin Yijie said carefully. Strictly speaking, Bing Wuqing and Xue Jianfeng were here to stir up trouble, and according to the rules of the ancient martial world, it was fine to kill them directly. However, this would mean that they had completely fallen out with the snow sword sect. After all, both Bing Wuqing and Xue Jianfeng were insignificant figures in the snow sword sect. If it wasn't necessary, Xin Yijie didn't want to make things worse.

"Sure." Lin Dongfang replied.

"Alright, I'll get someone to carry them away so that they won't disturb senior Lin's peace." Xin Yijie heaved a sigh of relief. If Lin Dongfang had insisted on killing the two of them, he would not have been able to do anything about it. If that had happened, they would have been in deep trouble. Not only would they have offended the snow sword sect, but even the higher-ups of the green cloud sect on the northern island would have blamed them.

The two of them were immediately dragged away like dead dogs. When the news spread, not only the disciples of snow sword sect, but all the disciples of the other ancient sects who were on training were shocked. Both Bing Wuqing and Xue Jianfeng were famous in the ancient martial world, and it was really surprising that they had been beaten to such a state.

Finally, after being unconscious for an unknown amount of time, Xue Jianfeng slowly woke up. The moment he regained consciousness, an intense pain that had been dormant for a long time instantly spread throughout his body. Xue Jianfeng immediately gasped and howled in pain.

However, what made him even more desperate was yet to come. After the intense pain all over his body, he couldn't stand up for a while. Once he forcibly operated the true Qi in his body, the intense pain would immediately increase several times, making him feel like he was dying.

"How ... How did this happen?!" Xue Jianfeng endured the excruciating pain and struggled to roll down from the bed.

At this moment, an emotionless voice suddenly came from behind, "You can still stand up after your meridians are broken like this. It seems that you, the so-called number one foundation establishment cultivator of the ancient Alliance, aren't completely useless after all."

"Martial uncle Bing?" It was only then that Xue Jianfeng realized that he had been moved back to his room, and there was a figure sitting slanted in the dark corner behind him. It was Bing Wuqing.

Bing Wuqing didn't make a sound. She just sat quietly in the shadows, still exuding a chilling aura that made people shiver. However, she was far from being as overbearing as before. Instead, she had become a little cold.

"Uncle-master Bing, how dare those guys do this to me. You have to help me ..." Xue Jianfeng suddenly stopped in his tracks.

He hadn't seen the scene where Bing Wuqing's Energy Center had been destroyed by Lin Dongfang's punch, but he wasn't blind, after all. He could still see Bing Wuqing's miserable state at the moment. Her right hand was bent at a strange angle, and it was obvious that it had been crippled. Furthermore, Bing Wuqing's pathetic state was exactly the same as his previous state. From head to toe, it was a clear sign that her Energy Center had been crippled!

"That old man is unfathomable. I'm not his match." Bing Wuqing's tone remained unchanged, but her eyes, which were shrouded in the shadows, clearly showed a hint of resentment.

Ever since he had mastered the merciless ice spell, he had never suffered such a huge blow. He did not expect that he would actually kick into an iron plate when he left the ancient Alliance this time. Furthermore, he had been crippled. If he did not feel any resentment, he was not human.

"How is that possible?" Xue Jianfeng was dumbfounded by his words. It was only then that he realized the situation he was in. Bing Wuqing's right hand and dantian had been completely destroyed, and she was now a cripple. His meridians had also been severed, and he was now a cripple as well!

Escorting Leng Leng had originally been a piece of cake for him and Bing Wuqing, but he had never expected that things would turn out this way. This was too outrageous!

"Then ... What should we do now?" Xue Jianfeng asked in a hurry. The situation had completely gotten out of his control, and he was at a loss.

"We'll wait," Bing Wuqing spat out a single word in a cold tone.

"Ah?" Xue Jianfeng was stunned.

"I have already sent the news back to snow sword sect. If everything goes well, we will be able to obtain healing elixirs and even have stronger helpers." Bing Wuqing said in a deep voice.

In the eyes of others, he was a proud genius master, but in reality, he never cared about his so-called face. Just like how he did not hesitate to make an issue of Leng Leng when the situation was not looking good, now that he knew that Lin Dongfang's strength was unfathomable, it was only natural for him to ask for help from snow sword sect. He did not hesitate or hesitate at all.

"What if it doesn't go well?" Xue Jianfeng could not help but frown.

Bing Wuqing remained silent. She didn't need to answer this question, and she didn't know how to answer it. Now, both she and Xue Jianfeng were useless people without any strength. If the snow sword sect didn't give them healing elixirs or send out stronger experts, they wouldn't be able to do anything.

"No, no, with my father here, the higher-ups of the sect will not ignore this, definitely not!" Xue Jianfeng could only comfort himself in this way. However, this time, even he didn't have much confidence in himself. After all, his father was only the Deputy sect leader of the sect.

In snow sword sect of the small Jianghu of the immemorial era.

The atmosphere in the meeting hall was grave. All the higher-ups of the sect had arrived, and a letter for help was placed in front of everyone. It was from Bing Wuqing.

After hearing the contents of the letter, the higher-ups of all the sects looked at each other in dismay. The content was truly unbelievable. There was actually an expert in the secular world who could cripple Bing Wuqing with one move? was that even possible?

Of course, everyone knew that Bing Wuqing wouldn't joke about such a matter. It could only be said that after a thousand years, whether it was them or the higher-ups of the other ancient sects, they knew too little about the secular world.

The sect leader, Hong Qingyuan, tapped the table with his finger and said calmly, "Alright, everyone has understood the contents of the letter. Tell me your thoughts."

"Revenge! Of course it's revenge!" Xue Liping was the first to jump out and shout. He was the Vice sect leader of the snow sword sect and Xue Jianfeng's father.

Everyone's eyes fell on him, waiting for him to continue. Xue Liping immediately said with righteous indignation, "It's natural for the snow sword sect to capture a traitorous disciple, and no one has the right to stop us. Not only did the green cloud sect of the North Island hide Leng Leng, but they also injured our people and crippled Bing Wuqing and my son, Xue Jianfeng. This is too outrageous and arrogant! If we can endure this kind of bullying, we will be looked down upon by the other ancient sects. As one of the ten small sects, we can't afford to lose face like this, what do you think?"

Chapter 5134 Sect Dispute

Everyone subconsciously looked at Hong Qingyuan, but they did not see any intention on his face. He did not say anything and did not express his opinion. This was Hong Qingyuan's attitude.

Hong Qingyuan did not speak. Everyone's eyes fell on the five elders who were ranked at the top. Including Hong Qingyuan and Xue Liping, the two leaders, these seven people were the most influential people in the snow sword sect. The other sect leaders were either on their side or were their disciples, so they had no independent right to speak.

"Cough, cough, cough, cough ..." One of the old men suddenly started coughing violently. It was the first elder, Chi qianqiu.

"I say, elder Chi, if you're not feeling well, you should go back and rest. In your condition, staying here will not only affect your condition, but also affect everyone's discussion. You're the most experienced elder in our snow sword sect, so you should be able to see the big picture, right?" Xue Liping looked at Chi qianqiu and pouted impatiently.

When the other higher-ups of the sect heard this, their expressions varied. The conflict between Xue Liping and Chi qianqiu had been going on for a long time. One was the Vice-leader of the sect, who held a high position and power, while the other was the most experienced great elder. In terms of power, Xue Liping was slightly superior by virtue of his position as the Vice-leader, but in terms of status, Chi qianqiu was a level higher.

After all, Chi qianqiu was the most senior elder of the sect present and had been promoted by the previous sect leader. His position was only below that of sect leader Hong Qingyuan, and even Xue Liping could not match him. This was also the reason why there was constant friction between the two. A mountain could not accommodate two tigers. Sect leader Hong Qingyuan's position was deeply rooted, but there had never been a clear winner in the battle for the second position.

"Ahem, vice sect leader Xue, you're wrong. Since I'm the sect's great elder, I should naturally do my best for the snow sword sect. Compared to the sect's major Affairs, what's my old illness worth?" Chi qianqiu laughed as he coughed.

"Hmph, then what do you think, elder Chi?" Xue Liping silently cursed the old man. It was said that Chi qianqiu's old illness was a result of him risking his life for the previous sect leader when he was young. Even the best elixir could only suppress the injury but not cure it. If this old man's old illness were to erupt one day and he died, it would be a great blessing.

"It can't be considered a brilliant idea, just a few honest words." Chi qianqiu smiled and turned to the crowd. "Everyone, our snow sword sect and the green cloud sect of the North Island have been friends for a long time. We know the style of the green cloud sect of the North Island quite well. Do you really think that the green cloud sect of the North Island is arrogant and Savage?"

Everyone looked at each other, and most of them shook their heads. The green cloud sect of the northern island was known for their gentle way of doing things, and they had almost never taken the initiative to cause trouble. Even when other ancient sects provoked them, they often turned big things into small things. If this was considered arrogant and Savage, it was really unreasonable.

"What happened in the past will definitely happen in the future? Elder Chi, you can't be so innocent, can't you just pretend what you did in the past? This time, not only my son, but even Bing Wuqing has been beaten into a disabled person. This happened in the territory of the green cloud School on the North Island. Could it be that elder Chi is too old to hear clearly?" Xue Liping sneered.

"Oh, so vice sect leader Xue also knows that this is happening on other people's territory?" Chi qianqiu looked at him with a half-smile, then turned to the crowd and said, ""Why don't you all think about it? if two people from the green cloud School on the North Island suddenly rushed in and wanted to arrest them without distinguishing right from wrong, what would you do?"

"Of course it's to teach them how to be human." The snow sword sect higher-ups' reactions were almost in unison.

"Therefore, in my opinion, it's too far-fetched to blame green cloud sect from the North Island for this incident. If word got out, we'll only be laughed at by outsiders. After all, if we were to really talk about it, our people were the ones who did something wrong. Bing Wuqing and Xue Jianfeng went to their territory for no reason to act tough and capture people. It's normal for them to be beaten up. It's already very kind of them to throw back two disabled people. If it were me, I would only be two corpses." Chi qianqiu looked at Xue Liping and said.

The higher-ups of the various sects nodded in unison. Xue Liping's expression immediately changed, and he said sarcastically, ""I remember that elder Chi is an elder of our snow sword sect. You're not from the Qingyun sect on the North Island, are you?"

"What did you just say?" Chi qianqiu's face also sank. Although the two of them had never gotten along, Xue Liping's words had clearly crossed the line. It was no different from falling out with each other in public.

Chi qianqiu's faction of snow sword sect's higher-ups were filled with righteous indignation. They could not help but want to slam the table and rise. At the same time, Xue Liping's faction of higher-ups were also agitated. The atmosphere in the meeting hall suddenly became tense. A single word of disagreement could lead to a chaotic battle.

At this moment, Hong Qingyuan suddenly coughed lightly. The two groups of people who were rubbing their hands immediately quieted down. Although these people only followed Chi qianqiu and Xue Liping's lead, Hong Qingyuan, the sect leader of the snow sword sect, was not just for show. Once Hong Qingyuan was enraged, even Chi qianqiu and Xue Liping would tremble in fear, not to mention these people.

Hong Qingyuan knocked on the table with his fingers habitually and said lightly, ""We're all from the same sect, let's talk things out and not hurt our relationship. "

Chi qianqiu and Xue Liping looked at each other and nodded slightly. ""Sect leader, please forgive us, we lost our manners."

"Let's continue," Hong Qingyuan waved his hand. He still did not show any inclination towards this matter. It was as if he was prepared to let Chi qianqiu, Xue Liping, and the rest of the people fight for an explanation.

"Elder Chi, you said that this incident happened in the territory of the green cloud School on the North Island, so we can't pursue it? Hmph, but why don't you think about why Bing Wuqing and my son went there? if it wasn't to carry out the sect's order to capture that traitorous disciple, Leng Leng, why would they come here and cause trouble?" Xue Liping snorted.

Before Chi qianqiu could refute, a female executive in the distance couldn't hold it in any longer. She immediately stood up and questioned without hesitation, ""Who are you calling a traitorous disciple?!"

Everyone looked over when they heard the voice. When they saw the person's appearance clearly, they all revealed a look of realization. This person's name was Xu Xiaodong, and she was Leng Leng's master. No wonder she was so angry.

"Hmph, Xu Xiaodong, I advise you to take note of your status. Do you think you, a mere elder candidate, have the right to speak in such an occasion?" Xue Liping glanced at Xu Xiaodong with disdain.

"You!" Xu Xiaodong was instantly flustered, but she did not know how to refute him.

Although Xue Liping's words were infuriating, they were not completely unreasonable!

Chapter 5135 What Wise Opinion Do You Have?

She was only the last member of the elders Council present, and she wasn't even an official elder. At most, she could only be considered as one of the candidates for the next elder. She was on the same level as Bing Wuqing, who was a newly promoted junior. She had no right to speak at all in such an occasion.

However, she had no choice but to step forward at this time. If Xue Liping really accused Leng Leng of being a traitorous disciple, then Leng Leng would really die without a burial place in the future. Even as her master, she could not save her life.

"Vice sect leader Xue's words are absurd. Since Xu Xiaodong is a member of the elders Council, she naturally has the right to participate in the discussions. Our snow sword sect has always been like this. Vice sect leader Xue, you can't be thinking of changing the rules left behind by our ancestors, right?" Chi qianqiu said with a frown.

Seeing everyone looking at him with different expressions, Xue Liping could not help but secretly curse at the old man. He could only laugh and say, ""Hehe, elder Chi, you're being too serious. I just saw that the other elders haven't spoken yet, but she, who's ranked last, is fighting to speak. She doesn't know the rules, so I just reminded her."

Chi qianqiu scanned the crowd and smiled. "The other elders don't seem to have any intention of expressing their stance. Since that's the case, why can't we let Xu Xiaodong say a few words first? After all, she's cold's master, so she has quite the say in this matter. "

"Many thanks, elder Chi." Upon hearing this, Xu Xiaodong nodded gratefully at Chi qianqiu. She was not on Chi qianqiu's side and knew that Chi qianqiu's words were not entirely to stand up for her. The main reason was to prevent Xue Liping from getting what he wanted. However, no matter what, Xue Liping had helped her out of her predicament, so it was more or less a favor.

"No need, I'm just speaking out of justice." Chi qianqiu waved his hand and said, "The elders Guild has always paid attention to spreading the word. If you have anything to say, you can say it in front of everyone."

Xu Xiaodong nodded and took a deep breath before saying, "Okay, I want to ask vice sect leader Xue, who did you just say was a traitorous disciple? Could it be that you want to say "cold"?"

"Of course, based on her previous actions, colluding with outsiders to deal with our sect's eldest senior brother and openly disobeying the sect's orders, isn't that considered betraying the sect?" Xue Liping said.

"I'm afraid that your son's letter alone won't be enough to convince anyone of what exactly happened to them in the secular world. During the last meeting, you've also said that everything can only be investigated after Leng Leng returns. Even you, vice sect leader Xue, can't just accuse someone of being a traitorous disciple for no reason, right? Besides, it's up to the sect leader to decide how to deal with Leng Leng in the end. What right do you, a Deputy sect leader, have to overstep your authority?" In order to protect Leng Leng, Xu Xiaodong had already made up her mind to go all out.

These words were said without any mercy. Even Chi qianqiu could not help but reveal a surprised expression after hearing it. As for Xue Liping's group, they were all flustered and exasperated. "What did you say?"

On the other hand, Xue Liping did not show any anger on his face. Instead, he laughed with interest. "Interesting, this is really interesting. I've been the Deputy sect leader for so many years, and no one has ever spoken to me like this. Xu Xiaodong, you're the first."

The more he acted this way, the more fear he felt. Xu Xiaodong's heart tightened when she met his cold eyes, but she still braced herself and said, "Am I wrong?"

"Since you speak so eloquently, then this Deputy sect leader will have to wash my ears and listen to your wise opinion. Why don't you tell me how we should deal with this matter? Or is it that they don't even need to deal with it, and simply swallow their anger like cowards? so that Bing Wuqing and my son, Xue Jianfeng, can be considered to have been beaten up for nothing?" Xue Liping said with an unreadable expression.

When Xu Xiaodong heard this, she could not help but choke for a moment. The other party's words clearly did not have good intentions. It was human nature for her to speak up for her own disciple coldly and righteously. Others would not say anything about it. However, this matter was clearly not something that she, who was the last-ranked elder candidate, could interfere with. No matter what she said, she would be overestimating her own capabilities. She would not be able to escape the fate of being laughed at by others.

However, at this point, Xu Xiaodong could only continue, "I didn't say that. This matter was originally a matter of training the disciples. If the sect had to personally ask about anything that happened, would it still be called training? Besides, it's already against the rules for our snow sword sect to send out Bing Wuqing alone. If we were to send out other higher-ups, what would the other ancient sects think?"

"What do you think? If we really care about our sect's image, then this is definitely not showing weakness. If we lower our heads in front of green cloud sect, then in the future, not only the four big sect families and the ten small sect families, but also other random people might bully our snow sword sect. Disgracing our sect, can you bear the sin?" Xue Liping snorted in disdain.

"Deputy sect leader Xue, you are quite arrogant, but you seem to have forgotten one thing. North island's Green cloud sect is not a single sect. It is closely related to the North Island's skyward sect and the North Island's mysterious sect. Offending it is equivalent to offending the entire North Island Alliance!" At this moment, Chi qianqiu suddenly opened his mouth again and said indifferently, ""Although our snow sword sect belongs to the Nakajima Alliance, we don't have much say in this. The one who has the final say in the entire Nakajima Alliance is the Nakajima Pavilion, and we're just a vassal sect. What do we have to compete with the North Island Alliance?"

"Elder Chi, you can even say such words that boost other people's morale and diminish your own prestige. I think you've really become muddleheaded with your old age!" Xue Liping crossed his legs and looked up at the sky.

"Is that so?" Chi qianqiu was not angry at all. He replied calmly, ""That's right, I'm indeed old. In the future, the world will be ruled by the young. Vice sect leader Xue is still young and strong. If there is a conflict with the North Island Alliance in the future, how about you take full responsibility?"

"Uh ..." Xue Liping choked. It was not a problem for him to fan the flames and stir up a dispute, but he did not have the courage to go against the entire North Island Alliance. No one in the entire snow sword sect had the courage to do so.

"Not necessarily. Although this time it was our people who got into trouble in the territory of green cloud sect in the North Island, they were the ones who hid coldly first. They may not be able to involve the entire North Island Alliance in this kind of matter. Moreover, our snow sword sect has allies. As long

as we find someone to move around in the Nakagama Pavilion, we may not be afraid of the North Island Alliance!" The fifth elder suddenly stood out to support Xue Liping.

"Fighting and killing at the drop of a hat, do you all think that this is child's play? In my opinion, there's no need to escalate this matter to the level of a sect war. At most, it's just a small matter that requires a few words of persuasion, so why do you have to act like you're facing a great enemy?" The fourth elder curled his lips and said.

Chapter 5136 Abandoned

Everyone chimed in, and the entire meeting hall quickly turned into a market. It was noisy, and after arguing for half a day, no one could convince anyone.

"Alright, I'm done!" Xue Liping finally could not hold it in any longer. He slammed the table and snorted, ""Even if we argue for another ten days or half a month, we won't reach a conclusion. In my opinion, we should settle the two most important things first. It's not too late to argue about the rest later!"

"What two things?" Everyone looked at him in unison.

"First, hurry up and send healing elixirs to Bing Wuqing and my son, Xue Jianfeng. This is the most urgent matter." Xue Liping's face was serious. Of course, his son, Xue Jianfeng, was the most important. Otherwise, he wouldn't have been so concerned. He paused for a moment and continued, ""Second, putting aside Beidao's Qingyun school, that Lin Dongfang guy must be severely punished!"

The group of snow sword sect higher-ups nodded in agreement. Xue Liping's words were indeed reasonable. How to deal with the green cloud School on the North Island and how to deal with Leng Leng could be discussed slowly, but these two matters could not be delayed. They had to be decided as soon as possible.

Even though Chi qianqiu did not continue to go against him, he would not go along with his wishes. Instead, he turned to Hong Qingyuan and said, ""Sect leader, I'm afraid this matter can only be personally dealt with by you."

From the beginning to the end of today, Hong Qingyuan, the sect leader, had been watching from the sidelines. No one knew what he was thinking. Perhaps he had not made up his mind, or perhaps he was simply trying to strike a balance between Chi qianqiu and Xue Liping. In short, he was profound and unpredictable.

Hong Qingyuan's gaze swept across everyone's faces, then he slowly said, ""Alright, let's talk about the first thing first. If we want to heal Bing Wuqing and Xue Jianfeng's injuries, we need a Grade 5 great recovery pill. Our snow sword sect has one, but it's for emergency use. According to the sect rules, only elders and above can use it when they are injured."

Xue Liping's expression darkened. Although Hong Qingyuan did not continue, his meaning was clear.

As for Bing Wuqing and Xue Jianfeng, the former was one of the candidates to become an elder, but she wasn't an actual elder. As for the latter, he was just a disciple, and he had only received so much attention because of his status as the Vice sect leader. Neither of them fulfilled the requirements. So, if they really had to follow the rules, they could forget about the grade five great recovery pill.

"But ..." Xue Liping wanted to fight for his son. After all, he was his only son. If he became useless, the Xue family would have no heir.

However, Hong Qingyuan only glanced at him once, and Xue Liping immediately did not dare to say anything else. He could pick a fight with Chi qianqiu however he wanted. To a certain extent, he had

received Hong Qingyuan's tacit approval. However, if he dared to disobey Hong Qingyuan in front of him, he would not have an easy life in the future.

"The second thing is about the Lin Dongfang who crippled Bing Wuqing and Xue Jianfeng. We still can't confirm his identity. No one knows if he's a master from the North Island Alliance or from the secular world, or if he's a mysterious master from somewhere else. We can't act rashly before we figure out his background. To be able to cripple Bing Wuqing so easily with a single blow, this person's strength is not to be underestimated. Even among the Golden core stage experts, he's not someone to be trifled with. It's better to be careful. " Hong Qingyuan said.

"No way? Sect leader, our snow sword sect is one of the ten small sects of the immemorial Alliance. It's fine that the North Island Alliance is powerful, but even this old man who came out of nowhere has to be patient. If this gets out, won't people look down on us and say that our snow sword sect doesn't have any talents?" Xue Liping quickly said.

It was fine if he could not get the grade 5 great recovery pill. He could still think of other ways. However, if he did not have Hong Qingyuan's approval to deal with Lin Dongfang, it would be completely impossible. He was only thinking about avenging his son!

"Oh, then what about vice sect leader Xue's idea?" Hong Qingyuan's tone was calm, and there was no hint of uneasiness.

"In my opinion, with the strength of our snow sword sect, we don't have to be so careful. That Lin Dongfang is at most a master in the Golden core stage. Our Grand sect leader, who is in closed-door cultivation, is a nascent soul old monster. What are we afraid of?" Xue Liping said proudly.

"Oh, really? That makes sense, but if vice sect leader Xue has the ability, why don't you ask the Grand sect leader to avenge your son?" Hong Qingyuan said with a faint smile.

"Uh ..." Xue Liping was speechless. The sect leader's retreat was the most important matter in the snow sword sect. Even Hong Qingyuan, the sect leader, would not dare to disturb him, let alone him, a mere Deputy sect leader. As for avenging his son, it was simply a fool's dream.

As soon as Hong Qingyuan opened his mouth, the two matters were immediately decided. Xue Liping could only choose to shut up resentfully. At this point, there was no use in saying anything else.

"Alright, since no one has any objections, then let's reply as such. We'll discuss the other matters later." Hong Qingyuan knocked on the table and made the final decision.

Very quickly, the replies from the snow sword sect's higher-ups were delivered to Bing Wuqing and Xue Jianfeng. The two of them hurriedly opened the letter and read it, and their hearts sank to the bottom of the valley.

There was neither a grade five great recovery pill nor an even stronger expert to help. The letter only contained a few words of superficial comfort. Other than that, there was nothing else.

"How ... How did this happen?" Xue Jianfeng was dumbfounded.

Bing Wuqing was still curled up in the shadows, her face dark. No one knew what she was thinking, but one thing was for sure: she was definitely not in a good mood.

"Let us recuperate? We don't even have the most basic of healing pills, how are we supposed to recuperate?" Xue Jianfeng was still unwilling to give up. He took the letter and studied it up and down, trying to see the hidden meaning in it.

"There's no need to look, we've been abandoned. " Bing Wuqing, who was in the shadows, suddenly said.

"What?" Xue Jianfeng was shocked. He had already guessed this, but he still couldn't believe it. He shook his head and said, ""No! It won't! My father is the Deputy sect leader. No matter what, he won't give up on me, absolutely not!"

Bing Wuqing glanced at him. He had been beaten from an early gold core expert to a cripple. In terms of the impact, he was much more serious than Xue Jianfeng. However, he was far more aware of his own situation than Xue Jianfeng.

Although neither he nor Xue Jianfeng had a weak background, and it was impossible for them to be abandoned under normal circumstances, this letter was obviously not sent in a hurry. It was the final result of the discussion of the higher-ups of the sect. It was difficult to accept it at the moment, but they had to accept it.

Chapter 5137 Central's Operation

The reality was as such. No matter how bright and dazzling the two of them were before, now that they had been beaten into cripples, they were of no value to snow sword sect. It was not strange for them to make the decision to abandon the two of them, at least logically. In fact, it was a very normal choice.

"Then ... What do we do now ..." Xue Jianfeng looked at Bing Wuqing weakly.

"What do we do? What do you think we should do?" Bing Wuqing laughed coldly, and suddenly smashed the table into pieces with her palm. The fact that he was able to do this with his current strength as a cripple showed how much anger he had accumulated in his chest.

Disheartened and unwilling, these were his true feelings at the moment, but even so, what could he do?

"Why don't we go back?" Even now, Xue Jianfeng still did not want to give up on the last bit of hope. Even if the snow sword sect did not give him the grade 5 great recovery pill, he must find a way to get it from his father. Otherwise, his life would be over.

"Do as you wish. However, you have to think carefully. With your status as a cripple, you will not even be comparable to the most ordinary and lowest-level disciples. Anyone can step on you, especially those who you have offended." Bing Wuqing's face returned to her usual expressionless face, but her entire aura had become more and more cold and deep. It was obvious that she had been dealt a heavy blow.

"This ..." Xue Jianfeng hesitated. He was the so-called number one cultivator in the foundation building realm, and he relied on his father, the Deputy sect leader, to act in a high-profile and arrogant manner all these years. He had offended many people. Just as Bing Wuqing had said, if he were to go back rashly, he would be trampled on by others, and he would definitely not end up well.

Moreover, if his father could get a grade five great recovery pill, he would definitely send it over even if he stayed here. On the other hand, if he could not get it, then it would be useless even if he returned.

"Let's wait and see. Perhaps there's still a glimmer of hope ..." Bing Wuqing said in a low voice.

"But what if we can't wait for a turning point?" Xue Jianfeng couldn't help but ask. If he could only be a cripple from now on, he didn't even dare to imagine the consequences.

Bing Wuqing glanced at him, but didn't say anything.

In the headquarters in the center of the mortal world, it had already been a full month since the immemorial plan had begun.

After staying here for so long, even as a peripheral researcher, brother Dafeng had obtained a lot of valuable information and intelligence. Unfortunately, what made him extremely frustrated was that he had tried various possibilities, but he still couldn't find a way to safely send the information out. This feeling of having a stomach full of things but not being able to sh * t could only be described with one word-constipation.

The meeting room was once again filled. Brother Dafeng had already lost count of the number of meetings this was. In any case, ever since the archaic plan had been activated, meetings of all sizes had been held one after another. He had long become numb to it.

"Everyone, this month's progress has been more smooth than expected. Through the snowball effect of the Hunter Group, we've already captured fifteen lone Foundation establishment stage experts of the ancient Alliance. Congratulations." LAN xiaoru started the conversation.

The crowd applauded thunderously. Before the immemorial plan was launched, everyone felt very guilty. They always felt that this plan was not small in risk. However, now, they no longer had this concern. The so-called immemorial Alliance was nothing to the central headquarters.

The most excited person among them was the bespectacled doctor. Although LAN xiaoru was the highest in charge, he was the one who proposed and facilitated the entire immemorial plan. Once it was successful, he would naturally be the biggest hero besides LAN xiaoru. In the future, he would really be second only to one person in the central headquarters of the secular world.

"Not only that, but because of the efforts of all the professors, not only have these 15 Foundation establishment experts been completely brainwashed by us, but everyone's strength has also been greatly improved. When these 15 people are gathered together, they form a very impressive combat power, which will be of vital importance to our next archaic plan." LAN xiaoru continued.

The whole place was filled with thunderous applause again. The bespectacled doctor's mood was surging, and brother Dafeng, who was sitting at the edge, couldn't help but break out in a cold sweat. These 15 Foundation establishment experts had all been incorporated into the Hunter Group. The weakest among them was in the middle stage of the foundation establishment, and the strongest was simply in the great circle of the foundation establishment. Once such a Hunter Group took action, the situation would simply make people shudder.

"According to our intelligence, we've already captured most of the foundation establishment experts of the archaic Alliance who are scattered in the secular world. Even if one or two of them managed to escape, it's not worth our time and effort. Therefore, I hereby announce that the archaic plan has officially entered the second stage from today onwards." LAN xiaoru said seriously.

"Second stage?" Everyone looked at each other. Although they were the backbone of the team, the immemorial plan was highly confidential. Even they didn't know the follow-up action. The only ones who knew were LAN xiaoru and the planner of the plan, the bespectacled professor.

"That's right. Strictly speaking, all the actions in the first stage were just the prelude and foreshadowing for the second stage. Since we've caught most of the small fish and shrimp that were wandering outside, it's time for us to get serious. Our next target is Shennongjia." LAN xiaoru's eyes lit up.

"Shennongjia?" Everyone was shocked when they heard this, and their expressions changed. "Could it be the concentration camp of the experts of the ancient Alliance?"

"That's right. Now that everything is ready, it's time to take bigger steps." LAN xiaoru nodded.

"Professor LAN, isn't this a bit too risky? although we already have 15 Foundation establishment stage experts on our side, the number of Foundation establishment stage experts in the ancient Alliance is far more than ours. Moreover, they also have a golden core stage expert leading the team. I'm afraid we won't be able to gain any advantage if we just rush in rashly, right?" Everyone looked at each other and said.

Although they didn't know much about the ancient Alliance before, now that they had control of such a group of Foundation establishment experts, they naturally knew all kinds of information about the ancient Alliance. Although their progress was smooth, if they took too big a step in their happiness, it would be a disaster.

LAN xiaoru looked at them with a faint smile. These doctors were indeed the best in their respective fields, but they would never be able to control the overall situation. They were only suitable for academic and scientific research. After all, not everyone was as ambitious as the bespectacled doctor.

"Shennongjia is just our general goal for the future. No one said that we have to fight head-on, right? Everyone, we do things with our brains. " The doctor in glasses immediately stood up.

Chapter 5138 Dafeng's Opportunity

"Doctor glasses, what do you think we should do?" Everyone turned to him and asked.

"Well, I have my own plans. Since there are too many people, I won't reveal it to you for now. In any case, you just have to do your part." The bespectacled doctor said with a profound smile.

The doctors' expressions changed. Their status here was not lower than the doctor's. In terms of various scientific research results, they were far above him, but they were far less knowledgeable than the doctor. After all, they were just scholars, while the doctor was more like a politician. Their future would always be limited to scientific research bases, but the doctor might become a real high-level Big Boss.

However, it was too early for the doctor to say that. He was only a professor so far, and the only one who had the right to ask them to do their part was LAN xiaoru. At least for now, the doctor was far from having the right.

Looking at the different expressions on everyone's faces, the bespectacled doctor suddenly realized that he had gotten carried away and coughed awkwardly. Fortunately, LAN xiaoru came out in time to smooth things over. "The doctor with glasses is right. It's not appropriate to disclose our next plan to you. You only need to do your best. However, I can tell you that the hunters will be officially stationed around Shennongjia and will need someone to lead them."

Everyone was stunned for a moment, but then they realized that the Foundation Stage experts of the Hunter Group were not suitable to act alone. Even if they had been completely brainwashed by the drug, there was still a certain risk. Their identity was destined to be killing tools, and it was impossible for them to become the real leader of the team in a short time. So, someone had to be in charge of this operation.

"The person in charge of this team has two minimum requirements. One, he must be a member of our primordial research team, which is one of you here. Two, he must be familiar with the situation around Shennongjia and know the movements of the various forces in the secular world inside the country like the back of his hand. There just so happens to be one person here who meets both conditions." LAN xiaoru paused and looked at brother Dafeng in the corner. "Dafeng, are there any problems?"

"Ah?" Brother Dafeng was just thinking about who would be in charge of leading the team, and the most likely one should be the professor with glasses. He didn't expect LAN xiaoru to directly call his name, and he was stunned on the spot.

"You're the head of the red conch branch, and you know the situation in the country the best. If necessary, you can mobilize the red conch's people at any time. Plus, you've been a member of the ancient Research group since the beginning. I don't think anyone is more suitable than you." LAN xiaoru looked at him with a profound look.

Only then did brother Dafeng react and was instantly overjoyed. He quickly nodded and said, "Yes, thank you for your trust, professor LAN. I will bow to you and die for you!"

He'd been worried about how to get the news to Lin Yi, and now he'd become the head of the Hunter Group-this was a godsend!

"Very good. I've always had high hopes for you. I hope you won't disappoint me." LAN xiaoru personally came over and patted brother Dafeng's shoulder. This kind of treatment was really flattering. Even the senior professors were a little envious. However, brother Dafeng was puzzled. What did this woman mean by this? was she really going to promote him?

But no matter what, becoming the leader of the Hunter Group wasn't a bad thing. As long as he found the right opportunity, it shouldn't be too hard to get the news to Lin Yi. As for what to do then, it was up to Lin Yi.

Everything was ready. With 15 Foundation establishment stage experts from the Hunter Group, brother Dafeng finally returned to the familiar land after more than a month. It was a pity that he still hadn't been able to figure out the location of the headquarters in the center of the secular world. The return

trip was carried out by a completely sealed aircraft, and some communication signals were blocked throughout the whole process. The security method of the center was really impeccable.

Of course, this didn't matter-he'd gotten quite a bit of valuable information from Central's headquarters this time, especially since he was in charge of leading the team this time. It was enough to give Lin Yi a big surprise. As for the exact location of Central's headquarters, he'd find a way to find it out in the future.

Everything seemed perfect, but unfortunately, brother Dafeng wasn't the only person in charge of this operation.

In name, the 15 Foundation establishment experts were indeed under his command, but unfortunately, the one who could really make the decision was not him, but a black-clothed man accompanying him. Outsiders could not see his appearance clearly, and his every move was extremely mysterious. However, brother Dafeng knew that this guy was no other than the bespectacled doctor.

The primordial plan was related to the honor and status of the entire central headquarters of the secular world. LAN xiaoru obviously couldn't trust him to lead the team alone, so the professor with glasses was the real person in charge behind the scenes.

"Dr. Glasses, since you're here in person, why do you still want me to be the person in charge? you can just give the orders yourself. It's completely unnecessary ..." Brother Dafeng couldn't help but complain.

"Unnecessary? Why would you do something unnecessary?" The bespectacled doctor glanced at him and beckoned him to lean over. He seemed to be honest."The target of this operation is the gathering place of the experts of the archaic Alliance. It's no small matter. Even if we have 15 Foundation establishment stage experts on our side, we can't guarantee our success. If there's only one leader, what if they catch us and capture us?"

"Ah?" Brother Dafeng immediately reacted, and his expression became even more bitter. "So, I'm just a cover to attract firepower?"

"You don't have to be so depressed. This is just a precaution. As long as you're careful, you can always protect yourself! Besides, as long as this operation is successful, it'll be a great achievement for you, and it'll be easy for you to soar in the future. This is a once-in-a-thousand-years opportunity, and I've especially recommended you to professor LAN as if you're my own person. If you're not willing, then forget it, I'll find someone else. " The doctor said with a faint smile.

"Don 't, don 't, don 't. Since you think so highly of me, Dr. Glasses, I, Dafeng, can't embarrass you! Besides, I'm still the head of the red conch division. No one is more familiar with the country's situation than me. It's not appropriate to change the commander at this time, don't you think so?" Brother Dafeng quickly smiled apologetically.

It wasn't (perfect arrangement, but it was still an opportunity-if he stayed in the headquarters any longer

Chapter 5139 Call Me The Mysterious Man In Black

"It's good that you know. Also, remember one thing. From now on, call me the mystery man in Black. Especially in front of others, you can't call me Dr. Glasses, understand?" The bespectacled doctor said seriously.

"The mysterious man in Black?" Brother Dafeng was stunned. He thought that this guy was probably afraid of exposing his true identity and didn't want to show his true face to others, so he came up with such a strange code name.

What they didn't know was that the reason why the professor did this was to deliberately imitate the black-shirted man on Sky Class Island. Now, the central headquarters of the secular world was following the example of the Sky Class Island. Not only in terms of technology, but also in terms of personnel configuration and methods of doing things. Of course, the bespectacled doctor had another main purpose for doing this, which was to show off.

However, he wasn't just trying to act cool. The bespectacled doctor wanted to take this opportunity to transform. Although he proposed the primordial plan, if he continued to use the name of the bespectacled doctor, he would inevitably be regarded as a researcher in the future. After all, he didn't have a background like LAN xiaoru. It was impossible for him to enter the top circle with only a little scientific research results, so he had to transform. This was a great opportunity.

"Remember, don't call me by the wrong name again." The doctor in glasses said again.

"Yes, yes, glasses ... Oh no, the mysterious man in Black. What should we do next?" Brother Dafeng asked for instructions. He was only a fake person in charge on the surface. He had to ask the doctor with glasses for instructions for every specific step. If he acted without permission and caused suspicion, the consequences would be unimaginable.

"Let's set up camp on the outskirts of Shennongjia first. Then, you can send Jing Taiyang inside to Scout out the situation. We'll decide on the next step after we've figured out the actual situation." The doctor said.

Among the 15 Foundation establishment stage experts, Jing Taiyang was not the strongest, but he was the most reliable. He was the first to be caught, and he had been brainwashed by the drug for the longest time. In the past month, all kinds of monitoring reactions were the most stable, and the side effects of the drug had been minimized. Even if he were to go out and act alone, there would not be any accidents. If it were someone else, it would be hard to say if there was no one watching him.

"Understood." Brother Dafeng nodded and immediately went to make arrangements.

A day later, Jing Taiyang came back from the depths of Shennongjia. The news he brought back shocked them. The mountain Gate where the disciples of the archaic Alliance gathered for training had been completely empty. Jing Taiyang looked around, but he could not find a single person.

"How did this happen?" The bespectacled doctor was puzzled.

"Could the information provided by these guys be wrong?" Brother Dafeng couldn't help but guess. He was naturally referring to the foundation establishment stage experts of the archaic Alliance who had been brainwashed and controlled by the drug. After all, the gathering point of Shennongjia was known from them.

"Impossible." The bespectacled doctor shook his head decisively. Although drug brainwashing was bound to have side effects, especially irreversible damage to the brain, even with the technology at the central headquarters, they could only minimize the side effects as much as possible, but it was impossible to completely eliminate them.

For example, Jing Taiyang, who was in his best state, looked almost the same as before he was controlled. However, those who were familiar with him would realize that Jing Taiyang was no longer the original Jing Taiyang. He had too many flaws.

At the end of the day, drugs could indeed brainwash people, but it was only the last resort to control people's minds.

However, there were two sides to everything. Although there were side effects and flaws in Drug Control, there was one thing that other methods couldn't compare to. People who were brainwashed by drugs wouldn't lie. This was the deepest level of super hypnosis. Under such circumstances, if one could still lie, he or she would have to be a God.

"Why?" Although brother Dafeng had the identity of a peripheral researcher, he knew nothing about these things.

The bespectacled doctor looked at him and was too lazy to explain, so he casually said, ""The information about the gathering place in Shennongjia was obtained from the mouths of the fifteen of them. Even if some of them were lying, could it be that all of them were lying together?"

"Then how did this happen?" Brother Dafeng still had a puzzled expression.

"According to my speculation, something must have happened to the people of the ancient Alliance recently, which is why they are suddenly empty. Jing Taiyang and the others have always been acting alone and have never contacted us. It's not strange that they don't know about this situation." The doctor analyzed.

"Eye ... Oh no, mysterious Man in Black, what do you think we should do?" Brother Dafeng could only ask.

"Next, it's time for you to make a contribution. You're more familiar with the domestic situation than I am, and you can use the red conch's connections. I'm guessing that this will be a big deal. It shouldn't be difficult for you to get some information. As for Jing Taiyang and the others, they can stay here for now. I'll watch over them." The doctor said.

Brother Dafeng's eyes lit up when he heard this. This was the opportunity he had been looking for. He immediately nodded and said, "Alright, just wait and see."

After leaving the base and leaving Shennongjia, Dafeng made sure that the professor and Jing Taiyang weren't following him before calling Lin Yi.

The call finally went through after a while, and Lin Yi's voice came through, ""Hello? Who is it?"

Although his voice was calm, it was all a disguise. He knew very well that this was brother Dafeng's number. It was just that he deliberately pretended not to know anything in order to guard against central headquarters. This way, even if central headquarters used brother Dafeng's mobile phone to test him, they wouldn't find any flaws on him.

At the same time, Lin Yi couldn't help but secretly rejoice. Luckily, he realized that he couldn't habitually keep his phone in the Jade space, so he would rather use up some spiritual energy to carry it with him. Otherwise, there wouldn't be any signal in the Jade space, and Dafeng wouldn't be able to find him at all.

"Boss Lin Yi, it's me, Da Feng." Brother Dafeng quickly said.

"You've finally calculated it! How's the situation? Is everything going well?" Lin Yi quickly asked. No wonder he was overjoyed and didn't hear from Dafeng for a whole month. He even thought that Dafeng bro had been exposed and was in trouble. He only continued to stay in the outside world with the last bit of hope.

"There were some twists and turns, but it's still going well overall. I've inquired about some news about Central's headquarters, and I believe it will be useful to boss. Shall we meet somewhere to talk in detail, or do we talk over the phone?" Brother Dafeng couldn't suppress his excitement.

"What's your current situation?" Lin Yi asked.

"I'm at the exit of Shennongjia. They sent me out to Scout for information, so it's still safe to be alone." Brother Dafeng chuckled.

Chapter 5140 The Immemorial Plan

"Shennongjia?" Lin Yi was taken aback. Why would the people in the center go to Shennongjia? were they going to attack the people of the ancient Alliance? where did they get the courage to do that? Lin Yi suppressed his shock and said, "It's too far. I'm still at the coast. Let's talk on the phone."

"Alright, I'll tell you what I've seen and heard in Central's headquarters this month, so that I don't miss any important information that is useful to you, boss." Brother Dafeng thought for a moment and said.

"Sure." Lin Yi replied. The central headquarters had always been a mysterious place to him, especially after he found out that the influence of the central power could spread to the Sky Class Island. He was even more eager to see for himself, but he only tried it on the Sky Class Island, and it was only the central Chamber of Commerce. He was caught and almost turned into a human sample.

In the secular world, they didn't even know the location of the central headquarters, so there was no way to start. Now that they could learn some things through brother Dafeng, who was a spy, it was a good thing that they could only dream of.

Dafeng bro couldn't wait to tell Lin Yi everything that had happened since he went to the headquarters, big or small. Lin Yi was silent for a long time after he finished. It was just like when Dafeng bro first went to the headquarters. He had a lot of ideas about the headquarters, but he didn't think it would be a research base.

Come to think of it, this was unexpected, but it made sense. If central didn't have strong research capabilities, Kang Zhaoming wouldn't have all those super-advanced equipment.

According to Lin Yi's speculations, they probably didn't even use the traditional teleportation formation to connect Sky Class Island to the common world, but a new channel with super technology. Otherwise, there was no way to explain the endless stream of technology the central Chamber of Commerce had. After all, traditional teleportation formations couldn't teleport high tech products, and even if they did, they wouldn't be in perfect condition, let alone sell them in such a large amount.

"Good, very good. It's been hard on you. What you said is very important to me." Lin Yi said.

"Boss, what are you saying? this is my job. It's not hard work. It's good that it's useful to you. It's a pity that I only know these minor things as an outer team member. I haven't had the chance to come into contact with the real core secrets. Sigh ..." Brother Dafeng couldn't help but sigh.

"No, you've already done very well. With your current identity, it would be abnormal for you to rashly come into contact with the core secrets. Not to mention that the people in central headquarters won't let you touch them, once they really let you touch them, you'll have to be careful. It might be a trap. Safety first, there's still a long way to go." Lin Yi consoled.

Indeed, brother Dafeng hadn't been able to find out the two things he wanted to know the most. One was the specific address of the headquarters in the center of the secular world, and the other was the specific way the headquarters was connected to the Sky Class Island. These two things were the things

he wanted to know the most, but unfortunately, these were the core secrets of the core secrets, and it wasn't so easy to find out.

Plus, what Dafeng bro told him might sound like small details, but when put together, it was enough for Lin Yi to form a very direct impression of the common world's central headquarters. This was very important.

"Yes, I'll listen to you, boss. Oh right, what should I do next?" Brother Dafeng asked. How the bespectacled doctor and those Foundation establishment experts would act next would depend on what he said when he returned.

"Immemorial plan? Hehe, central is indeed central. They are indeed generous. Well, since you're here, don't waste your time. Take them to see. You can also gain some credit for yourself." Lin Yi said after some thought.

From the name "project archaic," he could already guess that these people from the headquarters in the center of the secular world didn't just want to get a group of Foundation Stage experts. It was very likely that they wanted to take the opportunity to extend their influence into the small Jianghu of the archaic Era, just like the sky Class Island. If there was one, there would be two-this kind of thing wasn't impossible.

"This ... Where are we taking them to see it?" Dafeng was confused. His understanding of the ancient Alliance came from Lin Yi's description. There were many things that Lin Yi didn't tell him, so he didn't know. It wasn't even as detailed as the central headquarters.

With the intelligence network of the central headquarters, once they made up their mind, they could even lock onto the experts of the ancient Alliance who were scattered all over the secular world. This was something that even the supernatural Investigation Bureau could not do. Now, even the central

headquarters knew nothing about the situation of the gathering place of the ancient Alliance's experts, let alone him.

"There's a teleportation formation in the corner of the back courtyard of the sect. We can use it to teleport to the transit point between the secular world and the small Jianghu of the immemorial era. It's an archipelago in the sea. Since these experts of the immemorial Alliance are not at the sect, they've probably been summoned to the archipelago to cultivate." Lin Yi suggested.

In fact, when he had first come out, only the prospective disciples who had just been recruited from the secular world had been brought to the transfer point to cultivate in seclusion. The other disciples of the archaic Alliance were still gathered outside the mountain Gate. However, because Xin Yijie had repeatedly issued orders to restrict them from causing trouble in the secular world, these people gradually lost their desire to wander around the secular world. Instead of wasting time outside, they might as well go to the transfer islands to cultivate. The concentration of spiritual energy there was rare even in the small world of the immemorial era.

Lin Yi could even guess what they were thinking. Leng Leng had said that they were going to enter the ancient trials after the secular world, and that was the real show. These disciples of the ancient Alliance probably wanted to rest up and get ready to show off their skills.

"A transit point? Is it okay to disclose this to Central's headquarters?" Brother Dafeng was a little hesitant.

"It's fine. You can just bring them there and see what they want. " Lin Yi, on the other hand, wasn't worried at all. With an early golden core like Xin Yijie, the Foundation Stage cultivators from the headquarters wouldn't be able to do much. Plus, old Lin was there too, so there was nothing to worry about. Lin Yi was very confident in his strength.

Lin Dongfang was different from er goudan-he had to drink a few sips of the spring water from time to time, but it wasn't that restrictive. He could easily leave West Star Mountain for a month or so, or Lin Yi wouldn't have suggested for him to stay in a transfer location.

"Alright then, I'll bring them there to take a look." Brother Dafeng nodded.
