

Bodyguard 5141

Chapter 5141 "Insider"

What the two of them didn't know was that while they were on the phone, in the Shennongjia base, the professor with glasses was sneering and listening to their entire conversation.

To be honest, Dafeng bro was already very careful. Even when there was no signal at Central's headquarters, he always carried his phone with him to prevent people from central from doing anything. Otherwise, his identity would be exposed if his phone call with Lin Yi was eavesdropped.

It was a pity that he had underestimated the means of the central headquarters. With their technological strength, it was a piece of cake to monitor a phone call. They didn't even need to tamper with his mobile phone at all. They could easily enter the communication network. After all, their phone was not encrypted, it was just an ordinary phone.

Not only did the bespectacled doctor hear the conversation between the two, but he also forwarded the recording to LAN xiaoru at Central's headquarters. He gritted his teeth and said, ""Hmph, this guy's a traitor after all-he must've been the one behind number one's incident with this Lin Yi. Warding off evil sect and bloodcorpse bugs, what a well-made up story, I almost believed his bullshit!"

"I don't think there's anything unexpected. Although Dafeng has been very honest this month and has not revealed any flaws or flaws in their actions, it's this that makes people suspicious." LAN xiaoru said indifferently.

"Professor LAN, I'll get someone to capture this bastard and clean up the mess for our central headquarters!" The bespectacled doctor said angrily.

"Wait!" "Not only can't you catch him, you have to keep him by your side as if nothing had happened. Do you understand what I mean?" LAN xiaoru stopped him.

"Professor LAN, are you trying to cast a long line to catch a big fish?" The doctor was stunned.

"That's right. We don't have enough information about the ancient Alliance yet, and Lin Yi obviously knows everything about it. With Da Feng as our 'spy', it'll be more convenient for us to do a lot of things. As long as we don't know something, let Da Feng do it. I believe he'll give us good news. " LAN xiaoru smiled.

"We'll beat him at his own game, professor LAN is brilliant!" The bespectacled doctor took the opportunity to flatter him, but then he asked,""If that's the case, why don't we just follow the trail and catch that Lin Yi?"

"No, I've been paying attention to Lin Yi for a long time, but he disappeared a few years ago-he probably went to Sky Class Island. What I don't understand is why he's back all of a sudden? Or did he not go at all?" LAN xiaoru couldn't help but ask.

"That's right!" The bespectacled doctor suddenly patted his head and said excitedly,""Now that you mention it, professor LAN, I remember-didn't a letter come from Sky Class island two years ago? I saw it by chance, and the sender was Lin Yi-it should be the same person, right?"

"Yes, I also have some impression of it. We'll know if it's really the same person after checking it out. But if it's really the same person, we can't beat the grass and alert the snake." LAN xiaoru muttered.

"Why?" The doctor couldn't help but find it strange. Even if Lin Yi really did go to Sky Class Island, he was just a small character in his eyes. Why was LAN xiaoru so concerned?

"The portal between Sky Class Island and the common world is our Center's top secret, and even our portal can't send a living person back so easily. But this Lin Yi appeared in the common world alive, don't you think there's more to this?" LAN xiaoru paused, took a deep breath, and said, ""And from what I know, this person's identity isn't simple ..."

"What do you mean by not simple?" The doctor was even more curious.

"It's nothing. I'll tell you when it's time for you to know. " LAN xiaoru's face changed. Although she wanted to support the professor as her right-hand man, he was not qualified to get in touch with such information with his current status. She had to stop the topic and said, ""Forget it, I'll ask the Sky Class Island about this-just remember one thing, don't alert the enemy."

"Yes, I understand," The doctor in glasses nodded.

Three days later, brother Dafeng returned, travel-worn. The reason why he spent so much time was purely to put on an act. Otherwise, if he really went out for a stroll and brought back news, anyone would be suspicious. Even if he was the head of the red conch branch, it was impossible for him to be so efficient. After all, this was something that even the central headquarters 'intelligence network could not find out.

"How is it? Did you find anything?" The doctor followed LAN xiaoru's instructions and greeted her, pretending to be ignorant.

"I've tried everything these past few days. Guess what? I really did manage to find out something." Brother Dafeng deliberately kept them in suspense.

"What news? Hurry up and tell me!" The bespectacled doctor had already known about this, but he was still playing along.

"I heard that there is a teleportation formation in this Mountain Gate deep in Shennongjia. However, it does not lead directly to the small Jianghu of the immemorial era. Instead, it leads to a transit point. The people of the immemorial Alliance are likely to be gathered there!" Brother Dafeng said, pretending to be excited.

"Oh? There's such a thing?" The bespectacled doctor pretended to be surprised, but it wasn't entirely an act. When he heard this on the phone, he was indeed shocked, and so was LAN xiaoru. Their drug controlled 15 Masters of the ancient Alliance. If they asked more carefully, they could have known about this situation. Unfortunately, none of them thought that there was a transit point between the ancient Jianghu and the secular world. If they didn't ask, these Masters of the ancient Alliance would naturally not mention it.

"Glasses ... Whoops, mysterious Man in Black, why don't we go and take a look now?" Brother Dafeng suggested somewhat impatiently.

"Alright, call Shangjing Taiyang and the others. We'll set off now." The doctor made a prompt decision.

The group immediately arrived at the mountain Gate in the depths of Shennongjia. Just like before, there was no one in sight. Under the guidance of Jing Taiyang and the others, brother Dafeng and the bespectacled doctor quickly found the teleportation array in the corner of the backyard.

"This thing ... How do I use it?" Brother Dafeng studied it for a long time and couldn't help but be a little dumbfounded. To him, a teleportation array was a truly rare thing. Let alone using it, he had never even seen it before.

"The teleportation array needs spiritual Jade to be activated." Jing Taiyang said. Although he was being brainwashed by drugs, he did not feel like he was being forced. Instead, he naturally regarded himself as one of the core members and wanted to make use of every opportunity to make contributions and climb up the ranks. It was not just him, but the others were the same.

Chapter 5142 The Benefits Of The Primordial Spirit

"Spiritual Jade? Do you have any?" Brother Dafeng looked at them and asked.

"No, I didn 't," Jing Taiyang and the others shook their heads in unison. Spiritual jades were too rare in the small Jianghu of the immemorial era. Even a genius disciple like Leng Leng, who was highly valued by her sect, only had one piece. As for disciples of ordinary status like them, they would usually not be able to get their hands on one, and they would have even less of it on them.

"Ugh ..." Brother Dafeng was speechless. Lin Yi didn't mention this to him. He couldn't open the teleportation formation without a spirit Jade. Wasn't this a wasted trip?

However, at this moment, the bespectacled doctor walked over directly. With a shake of his black robe, he actually took out a small bag of spiritual Jade.

Brother Dafeng was still stunned, but Jing Taiyang and the others swallowed their saliva in unison. They had never seen so many spiritual jades in their entire lives. This mysterious Man in Black was really rich!

What he didn't know was that the central headquarters could transport resources back and forth between the Sky Class Island. He had as many spiritual jades as he wanted, and the bespectacled doctor had already prepared for this before the operation.

"What are you still standing there for? let's go." The bespectacled doctor looked at them and urged.

Brother Dafeng, Jing Taiyang, and the others quickly stepped into the teleportation formation. With a flash of white light, everyone was immediately teleported to the transfer point. As each ancient sect had their own dedicated Island, the island where the teleportation formation was located was empty at this time, and no one could be seen.

"Mysterious Man in Black, what should we do next? are we going to challenge the experts of the ancient Alliance?" Dafeng bro couldn't help but ask. Although he was Lin Yi's spy, the experts of the ancient Alliance didn't know about it. What if they lost their lives in a fight? the people in central weren't even enough to fill the gaps between their teeth ...

"Of course not, you're silly!" The bespectacled doctor sneered and said in a deep voice, ""Although this place isn't big, since it's an archipelago, I think we can find a slightly more secluded place to hide. We can investigate the situation and wait for an opportunity to act."

"There are so many of us here." Brother Dafeng grinned. If it was just one or two people, they could find a small island or forest to hide in. However, there were a total of seventeen people, and they were surrounded by experts from the ancient Alliance. It was not easy to hide from their eyes and ears.

"Who said they're going to hide? The only ones who need to hide are you and me. Have you forgotten that Jing Taiyang and the others are members of the archaic Alliance? what's the point of hiding?" The doctor in glasses laughed.

"But there are still flaws. For example, since they don't have spiritual jades, how could they have teleported in by themselves?" Brother Dafeng should have gained some insights in Central's headquarters during this period of time, and he was obviously more meticulous and thoughtful in his considerations. If it was in the past, he would not have been so meticulous.

"This is indeed a flaw, but it doesn't matter. As long as I'm careful, I can just brush it off a little. At most, I can just say that I've hidden some spiritual Jade. Even if someone with ulterior motives finds out, they'll only find it strange at most. There won't be any problems." The doctor paused and then said, ""But you have to remember, when you go back, try to avoid contact with the senior and junior brothers you are familiar with. Listen more and talk less. After you have investigated the matters of your respective sects, report to us, understand?"

"Understood!" Jing Taiyang and the others responded in unison.

After they agreed on a place, they immediately dispersed. Brother Dafeng and the bespectacled doctor found a small island at the edge and hid there, quietly waiting for news from Jing Taiyang and the others.

Dafeng bro used the excuse of patrolling the area to avoid the doctor and wanted to contact Lin Yi secretly, but he was dumbfounded when he took out his phone. There was no signal at all.

This way, he had no way to contact Lin Yi at all. He couldn't help but worry, but he didn't know that it was precisely because of the lack of signal that Lin Yi quickly deduced that he had entered the transit point and rushed back as fast as he could.

After teleporting back to the transfer point, Lin Yi's first thought was to go back to the North Island to check on the situation, but he dismissed the idea immediately. He couldn't contact Dafeng bro, but he

could guess that central wouldn't be stupid enough to attack the ancient Alliance directly. They must be hiding in the dark and doing something sneakily, which was in line with Central's style.

After thinking for a while, an idea came to Lin Yi. His essence spirit disappeared at a visible speed, but it wasn't because he was going back to the island-he was going to Scout in the sky.

In this month, Lin Yi's yuan spirit was still at the peak of the Foundation Stage, but it wasn't without any gains. His control of his Yuan spirit was now very pure, and he could transform his Yuan spirit into another form in a short time. From a certain perspective, this ability was even more gratifying than his strength returning to the Golden core stage!

At least in terms of practicality, turning into a spirit was an extremely useful skill. Of course, the risks involved were quite high as well. Normal physical attacks were useless against spirits, but when it came to things like refinement fire, spirit form couldn't resist at all. One shouldn't forget that even those ghostly things couldn't do anything about it, let alone a half-baked Lin Yi.

Other than that, the form of a Yuan spirit wasn't as solid as a Yuan spirit body. Not only could it not do many things, but it also used up a lot more energy than a Yuan spirit body. Fortunately, Lin Yi had the star Black coal that Leng Leng gave him to replenish his spirit energy, so he didn't have to worry too much about this.

He turned into a spirit and flew into the air-his ability to move on his own wasn't that strong in this state. If he were to float slowly, who knew when he'd be able to float around the islands? but after this month of practice and exploration, Lin Yi had grasped some tricks. It was like sailing on the sea-he had to know how to use the wind to get twice the result with half the effort.

After rising ten meters into the air, his view widened quite a bit. If he went higher, he could even see the surrounding islands. With Lin Yi's outstanding perception, it would be a piece of cake to find out

something here. However, Lin Yi didn't do that. After all, the sea breeze wasn't small to begin with, and the higher he went, the stronger the wind would be. It was too risky to do that, especially when the spirit was very fragile.

Fortunately, the angle of view at this height was quite good. It wouldn't take long for him to perceive the entire Island. As long as he was patient, it wouldn't be difficult to explore the entire archipelago, just a little more time.

After half a day, Lin Yi finally found Dafeng, and naturally, he found the mysterious black-clothed doctor.

Chapter 5143 Preparing To Take Action

He was in his spirit form and couldn't be seen at all. It was hard for normal people to detect him, but the doctor wasn't a master, so he didn't even notice Lin Yi floating above his head.

As for the other Jing Taiyang and the others who were scattered, Lin Yi didn't deliberately monitor their every move. First, he couldn't monitor all of them, and second, he just had to keep an eye on the doctor and Dafeng's side. Naturally, he would know everything like the back of his hand, and there was no need to go through so much trouble.

Just like the doctor, Dafeng didn't notice Lin Yi on his head at all. He was still worried about how to contact Lin Yi. He turned to the doctor and complained, "It's been more than half a day. Why hasn't Jing Taiyang and the others made any moves? did something happen? do you want me to sneak out and take a look?"

"You? You're not a member of the archaic Alliance, what if you're seen wandering around? these are all Foundation establishment stage experts, and even golden core stage ones. Are you not afraid of death?" The bespectacled doctor glanced at him.

"I don't think so? These islands are neither large nor small, and there aren't many people gathered here. As long as I'm careful, I won't be discovered. " Dafeng bro said confidently. He just wanted to go out and try his luck. He guessed that Lin Yi should be back in a few days. If he was lucky, he might run into him. He didn't want to fall into the professor's trap.

The bespectacled doctor laughed to himself when he heard this. He had long known about brother Dafeng's background, so he could naturally guess what brother Dafeng was thinking. If they were outside, he could beat him at his own game. However, this archipelago was a transit point between the ancient Jianghu and the secular world. In theory, only the people of the ancient Alliance would appear here. Once brother Dafeng was discovered, it would easily ruin the big plan, so he could only give up on this idea.

"Don't worry, it's only been a day. I believe we'll have news soon. " The bespectacled doctor didn't give brother Dafeng a chance to continue and said directly, "That's it. I'll take a rest first. You keep an eye on me."

Brother Dafeng could only give up helplessly. After half a day, Jing Taiyang and the other foundation establishment experts who had been sent out to investigate came to report the situation one after another. After all, they were disciples of their own sects, and they didn't appear together. They were just returning to their own small islands, so they didn't arouse too much suspicion. Very quickly, they found out the recent situation of their respective sects.

After summarizing the reports from everyone, the bespectacled doctor said thoughtfully, ""So, the other ancient sects are safe and sound. The most popular one recently is the green cloud sect of the North Island, and the snow sword sect, which has suffered a big loss?"

"That's right. Everyone has been talking about this and it's causing a huge commotion. Snow sword sect has really lost face this time." Jing Taiyang, who was eager to make a contribution, rushed to answer.

Although there were no snow sword sect disciples present, this incident had caused such a huge commotion that it was impossible for them not to know about it. Moreover, the archipelago was only so big, and it was rare for something new to happen. When everyone gathered together, they had nothing else to talk about other than this.

"Bing Wuqing, an early-stage gold core cultivator, and Xue Jianfeng, a perfected Foundation establishment cultivator. They were the two strongest Foundation establishment cultivators of the archaic Alliance, but now they've both been crippled. This is interesting." The bespectacled doctor pinched his chin and muttered.

"Not only that, ever since these two people were crippled, it's said that they've been hiding in the wooden cabin in the forest and haven't come out. They don't even see the people from snow sword sect! Moreover, it has been so many days since the incident, but the small martial world of the immemorial era only sent a symbolic letter back. There were no pills or reinforcements, and they all said that the higher-ups of the snow sword sect have given up on these two people, hehe." Jing Taiyang continued.

"No way? Since he's such a powerful expert, how could he be given up so easily?" Brother Dafeng had a puzzled expression on his face.

"Brother Dafeng, there's something you don't know. The people of the ancient Alliance are pragmatic to put it nicely, but they are snobbish to put it bluntly! "Although Bing Wuqing and Xue Jianfeng are both famous geniuses, if they were only injured normally, the snow sword sect would have protected them no matter what. After all, they could be trained to become the pillars of the sect in the future. But now, they've become disabled people. What's the use of being disabled? it's reasonable for the snow sword sect's higher-ups to give up on them. It's not strange at all." Jing Taiyang quickly explained.

Brother Dafeng was the same as the mysterious man in Black. To him, they were both his immediate superior. In order to climb up, of course he had to please him and smile.

"Not bad, not bad. I was afraid that nothing would happen to them. Now, it's a good time to make an issue out of it." The bespectacled doctor suddenly laughed with great interest.

"How are we going to write an article about this?" Brother Dafeng asked.

"To attract people's hearts for my use!" The bespectacled doctor clapped his hands excitedly. Although he had brought Jing Taiyang and the others here to deal with the experts of the ancient Alliance, neither he nor LAN xiaoru had ever thought of facing the ancient Alliance head-on. After all, it was meaningless and would not do them any good.

What they really wanted to do was still the same as before, to find an opportunity to recruit and control more Foundation establishment experts. If a disciple of the ancient Alliance was alone here, they would definitely not hesitate to kill him. It was just that this kind of opportunity was obviously not common, so they could only change to a gentler and more covert method, from using strong and direct Drug Control to secretly recruiting and infiltrating.

As the saying went, "flies don't bite seamless eggs." If nothing happened to the people of the ancient Alliance, the bespectacled doctor and the others wouldn't have a chance to sneak in, because the ordinary disciples of the ancient Alliance wouldn't pay any attention to them at all. They might even attack them directly. And now, Bing Wuqing and Xue Jianfeng had just delivered their opportunity to them!

"Uh ... How do we recruit them? do we go and find them directly?" Brother Dafeng quickly asked.

"This ..." The doctor thought for a moment and asked Jing Taiyang and the others, "You said just now that Bing Wuqing and Xue Jianfeng have been hiding in the small wooden house in the forest all this time, and have not come out to meet anyone?"

"Yes, but we don't have anyone from snow sword sect among us, so we don't know the exact situation." Jing Taiyang replied.

"If the location of the wooden house was remote, Da Feng and I could go there and take a look. However, it's hard to say if we can't figure out the specific situation now. If there are other snow sword sect disciples in the vicinity, it would be troublesome if they saw us." The bespectacled doctor paused and looked at everyone. "How about this? to be safe, I'll have to pick one of you to do it. Who will go?"

Chapter 5144 What Are The Conditions?

Although there were no snow sword sect disciples among them, they were all members of the immemorial Alliance after all. It was not a big deal to visit the snow sword sect's Island occasionally. They could just find an excuse to visit their friends.

"I'll go!" Jing Taiyang stood up without any hesitation. In his eyes, this was undoubtedly the best opportunity to make a contribution. If he could recruit Bing Wuqing and Xue Jianfeng on behalf of central, it would definitely be a great contribution. Even if he couldn't be on the same level as brother Dafeng and the others, he would at least be a notch higher than the other foundation establishment stage experts present. He might even get the position of Captain. It was an opportunity that couldn't be missed!

"Alright, then you go." The bespectacled doctor immediately nodded. He had always trusted Jing Taiyang the most among the group. If it were any other Foundation establishment expert, he would have been afraid of exposing himself. Jing Taiyang taking the initiative to ask for help was exactly what he wanted.

"Yes, this subordinate will not fail this mission!" Jing Taiyang nodded heavily.

The bespectacled doctor called him over to erti and gave him a name before letting him go. Jing Taiyang was full of ambition and immediately set off for the snow sword sect's exclusive Island.

Just as Jing Taiyang paddled his boat to the shore alone, he was stopped by a disciple of the snow sword sect. The disciple sized him up and said, ""Which sect are you from? Don't you know that this is snow sword sect's territory? how can you just barge in?"

"Oh, senior brother, I'm Jing Taiyang from the thousand blades sect. I heard that my friend, Xue Jianfeng, was in trouble, so I came to take a look. Please do me a favor." Jing Taiyang replied unhurriedly.

"Jing Taiyang of the thousand blades sect? You're Xue Jianfeng's friend?" The snow sword sect disciple was stunned.

"Yes, this senior brother also knows that our two sects are part of the middle Island Alliance, and our relationship has always been good. I met Xue Jianfeng by chance, and we felt like old friends at first sight. Now that I heard that he had an accident, it is reasonable to come and see him and express my feelings." Jing Taiyang said with a sigh.

"So that's how it is. There's actually someone who's willing to come and visit Xue Jianfeng at this time. You're quite a thoughtful person." The snow sword sect disciple shook his head. Although Xue Jianfeng had the backing of the Vice sect leader's father, no one would dare to hit him when he was down even if he was now a disabled man. However, the world was cold, and those senior and junior brothers who used to shake their heads and wag their tails at Xue Jianfeng had long avoided him. This was the first time he saw someone visiting him, and it was even someone from another ancient sect.

"You're too kind, I'm just doing my best to show my sincerity. " Jing Taiyang said with a sigh.

"Alright, since that's the case, I'll bring you there. You're not a disciple of snow sword sect, so we can't let you walk around freely. Follow me." The snow sword sect disciple nodded.

"Alright, thank you, senior brother." Jing Taiyang cupped his hands repeatedly.

Led by the snow sword sect disciple, Jing Taiyang soon arrived in front of a small wooden house. It looked very secluded, and there were not many people around. After expressing his gratitude, he immediately strode in.

"Who is it?" Two voices rang out in the small wooden house at the same time. One of them was Bing Wuqing, and the other was Xue Jianfeng. Now that they had become disabled, it was the most sensitive time for them. As soon as they saw a stranger enter, they immediately acted as if they were facing a great enemy.

"Don't be nervous, I don't have any ill intentions towards you. To be more precise, I should be considered your Lucky Star. " Jing Taiyang smiled, pretending to be profound.

"Lucky Star? What kind of Lucky Star are you?" Xue Jianfeng frowned as he looked up and down.

However, Bing Wuqing remained unmoved. She continued to look at him and said, ""Who are you? tell me why you're here."

"You must be Bing Wuqing? As expected of snow sword sect's youngest golden core stage expert, his bearing is truly extraordinary, I'm impressed. " Jing Taiyang nodded, and then reported his family's name, ""I'm Jing Taiyang of the thousand blades sect. "

"Thousand blades sect? Jing Taiyang?" Bing Wuqing and Xue Jianfeng looked at each other in confusion. The thousand blades sect wasn't a small sect, but Jing Taiyang was a nobody. He wasn't famous at all, and they had never heard of him.

"I heard that the two of you were beaten into cripples and were even abandoned by the higher-ups of snow sword sect. That's why I'm here to visit the two of you." Jing Taiyang looked at the two of them and said.

"Hmph! Are you here to laugh at me? Who said I was abandoned? Don't you know that my father is the Vice sect leader of snow sword sect? Who Do You Think You Are to laugh at me?" Xue Jianfeng was so angry that he stomped his feet.

This time, even Bing Wuqing's expression turned unkind. She snorted coldly and said, ""If you're done, then get lost."

"Don't be in such a hurry, I'm here on a mission. Other than coming to see you, I'm also here to show you the way. " Jing Taiyang suddenly laughed.

"What bright path?" Bing Wuqing and Xue Jianfeng were both stunned.

"The feeling of being a cripple must be very unpleasant, right? What if I have a way to help you two regain your strength?" Jing Taiyang raised his eyebrows.

"What? What did you just say? Do you have a way to restore our strength?" This time, not only Xue Jianfeng stood up in shock, but even Bing Wuqing was also shocked.

These days, the two of them had been locked up in the small wooden house. They had gone from being once unparalleled geniuses to being ignored by no one. The feeling of falling from heaven to hell was enough to make one collapse. If they had a chance to regain their strength, the two of them would definitely do it at all costs. Jing Taiyang's words were like the last straw to clutch at for them!

"Of course. Why else would I make a trip here?" Jing Taiyang chuckled.

"Don't tell me you have two fifth-grade great recovery pills?" Xue Jianfeng rushed over impatiently and asked. As far as he knew, the only way to cure him and Bing Wuqing's injuries was to have a fifth-grade great recovery pill. However, even his father, the Deputy sect leader, couldn't get his hands on such an item. This Jing Taiyang was just a nobody in the thousand blades sect. How could he have such a valuable item?

Bing Wuqing's face was full of shock as well. Two fifth-grade recover pills? this Jing Taiyang was talking big!

"It's not as simple as just recovering your strength. I even have a way to make your strength increase by a large margin. What do you think?" Jing Taiyang continued to say shocking things.

"Is what you said true?" Xue Jianfeng was almost dumbfounded. It was already a blessing in disguise to be able to recover their strength with a fifth-grade great recovery pill. This guy actually said that it could increase their strength by a large margin. This was simply unbelievable.

However, Bing Wuqing had actually calmed down. She looked at Jing Taiyang expressionlessly and said, ""What are the conditions?"

"Bing Wuqing is indeed Bing Wuqing. She's a smart person!" Jing Taiyang complimented him, and then slowly said under the gaze of the two, ""The conditions are simple. Join us."

Chapter 5145 Distributing Pills

"Join you? Who are you guys?" Bing Wuqing's eyes narrowed into slits.

"Good question, but I can't tell you the answer yet. You only have one chance. Do you want to join us? you two can just tell me now." Jing Taiyang said directly.

"You don't even want to tell us who you are, and you want us to make a decision now?" Xue Jianfeng hesitated. There was no such thing as a free lunch in this world. If what Jing Taiyang said was true, then he and Bing Wuqing would have to pay a heavy price. What if it was a fire pit?

"Alright, I'll agree." Bing Wuqing's answer was very straightforward, without any hesitation.

"No way? You're agreeing to his request just like that? What if it's a trap?" Xue Jianfeng was shocked.

Bing Wuqing glanced at him and said, ""It doesn't matter if it's a trap or not. At most, we'll just die. How can this situation be any better than death?"

"Well said, he is indeed a straightforward person!" Jing Taiyang was overjoyed to hear this. Between the two of them, it was obvious that Bing Wuqing was more valuable. Since Bing Wuqing was willing to agree, his mission was more than half completed, and he could be credited with the central headquarters.

Seeing that Bing Wuqing was going to leave with Jing Taiyang without any hesitation, Xue Jianfeng became anxious. He gritted his teeth and caught up with the two. ""I'm dead, I'll go with you!"

Now that things had come to this, he understood that his father, Xue Liping, was probably out of ideas. The snow sword sect had already made it clear that they were going to abandon him and Bing Wuqing. In that case, he might as well follow Bing Wuqing's example and put everything on the line. Who knew, maybe he could really turn things around?

As for whether this was considered betraying the snow sword sect, it was no longer within his consideration. Since the snow sword sect had already abandoned him, what was betraying?

"Very good. Don't worry. I promise that you'll only be surprised when you go. You won't be disappointed!" Jing Taiyang chuckled and immediately led the two of them away from the eyes and ears of the snow sword sect disciples. They sneaked out of the small path and returned to the hiding place of the doctor with glasses and brother Dafeng.

Looking at Bing Wuqing and Xue Jianfeng standing in front of him, the doctor couldn't help but praise Jing Taiyang. ""That's great! You've brought the two of them here so quickly. You're very efficient and capable!"

"The higher-ups are too kind!" Jing Taiyang was overjoyed to hear this.

"Do your best. Our center needs someone as capable as you. I'll personally recommend you to professor LAN. You have a bright future ahead of you." The bespectacled doctor said.

"Thank you, superior. This subordinate will definitely do my best to repay you!" Jing Taiyang knelt down on one knee to show his loyalty.

"Alright, you may leave." The bespectacled doctor waved his hand, indicating that he wanted to talk to Bing Wuqing and Xue Jianfeng in person.

Jing Taiyang quickly nodded and left. Brother Dafeng frowned and said, ""What about me?"

"You're different from them. You're the person in charge of this operation. What's there to avoid suspicion about?" The bespectacled doctor's tone was as if he regarded brother Dafeng as a close friend. To put it bluntly, he wanted to win over brother Dafeng. This was a chess piece that was prepared to be buried deep underground. Only by making him feel safe could he play a greater role in the future.

Jing Taiyang and the other foundation establishment stage experts stayed on the periphery to keep watch, leaving only four people at the scene-the doctor with glasses, brother Dafeng, Bing Wuqing, and Xue Jianfeng.

"Since the two of you are willing to come here with Jing Taiyang, I'm sure you've thought it through. But I have to say something first. Once you join us, you'll never have any room for regret, or you'll be better

off dead. Since we have the ability to support you, we naturally have the ability to push you down. It'll be too miserable if you end up in a state that's neither human nor ghost. You'd better think about it carefully before you make your decision." The professor said in an unpredictable tone.

"Since I've chosen to come here, I won't go back on my word. Of course, the premise is that you can fulfill your promise." Although Bing Wuqing was a cripple with no strength to speak of, she was not afraid at all in the face of the bespectacled doctor and brother Dafeng. Those who didn't know better would think that he was still that powerful early gold core expert.

"I'm the same," Xue Jianfeng said.

"Alright, you can rest assured. Of course, I will fulfill my promise to you. Otherwise, it's just recruiting two disabled people. What good would it do us?" The doctor said with a smile.

"Then, can we start?" Bing Wuqing said immediately. Beside her, Xue Jianfeng's eyes were burning, and his face was filled with eagerness.

"Alright," he said. The bespectacled doctor nodded and took out two pills from his black robe. He handed them to the two and said, ""These two pills will be enough to restore your strength. However, this is only the first step. What comes after is the main show!"

"This is a fifth-grade great recovery pill?" Xue Jianfeng was overjoyed to see this, but his expression changed after a glance. He looked as if he had been deceived and said angrily, ""No, this isn't a fifth-grade great recovery pill at all! You actually dared to deceive us!"

Bing Wuqing's expression was equally unkind. The reason why he had agreed so quickly was purely because he had decided to put all his eggs in one basket. The risks involved were obvious. If the other party was really lying to them, he and Xue Jianfeng would have no chance of turning the tables.

"A grade five great recovery pill? Who said that I have to use a fifth-grade great recovery pill to treat your injuries?" Although the bespectacled doctor was shrouded in a black robe, one could imagine his expression at the moment from his tone. It must be full of ridicule and playfulness.

"Isn't that the case?" Bing Wuqing and Xue Jianfeng looked at each other, stunned. Their knowledge was definitely not shallow, but to their knowledge, no other elixir could cure them except for the fifth-grade recover elixir.

"Hehe, we'll know after eating it. Do you have the guts?" The bespectacled doctor looked at the two of them and said.

"This ..." Xue Jianfeng was caught in a dilemma. However, Bing Wuqing, who was beside him, didn't say a word. She took the pill and swallowed it without hesitation. He was a man who advocated absolute rationality, and he knew that he had no other choice in this situation. Instead of hesitating and scaring himself, it was better to make up his mind to walk down this dark path.

"Not bad, not bad at all. I really admire you." The bespectacled doctor didn't hide his admiration for Bing Wuqing at all. If he could make this guy submit to him sincerely and become his right-hand man, he would definitely be successful in the future. She was a rare talent!

Bing Wuqing's expression changed slightly after she took the pill. She didn't say anything, but immediately sat down cross-legged on the spot and began to circulate her energy to heal her injuries in accordance with the medicinal effects.

Xue Jianfeng looked like he wanted to say something, but he stopped himself. He really wanted to ask how Bing Wuqing was feeling at this moment, and then he would decide whether he wanted to eat it or not!

Chapter 5146 Both Breaking Through

However, there was obviously no room for him to ask questions at this time. Seeing that the bespectacled doctor and brother Dafeng were both staring at him, Xue Jianfeng finally decided to go all out. He gritted his teeth and swallowed the pill.

As soon as the elixir entered his stomach, he felt a sharp pain. Xue Jianfeng couldn't help but cry out in pain. His entire body trembled as he rolled around on the ground. He couldn't imagine how Bing Wuqing could endure such a terrible pain without making a sound. This guy was a monster!

Xue Jianfeng felt that he was about to die. Other than the excruciating pain, his mind was filled with regret. He regretted being so foolish as to follow Bing Wuqing out to die in a moment of hot-headedness!

Although they were both disabled, he was in a completely different situation from Bing Wuqing. Bing Wuqing had no hope and could only give it her all. But he was different. He had Xue Liping, the Deputy sect leader, to back him up. Who knew when he would be able to get a Level-5 recover pill to bring him back from the dead? even if he was in the worst situation, he would not have to worry about food and clothing. Now, he had actually come out to die like a fool. If he was not out of his mind, what was he ...

As the pain became more and more intense, Xue Jianfeng's intestines were about to turn green with regret. However, just as he was about to give up completely, the pain in his body suddenly disappeared completely, as if it had never existed. Then, he was pleasantly surprised to find that the injuries in his body had actually healed in a short time!

Xue Jianfeng was dumbfounded. This was a miracle!

While Xue Jianfeng was still in shock, Bing Wuqing, who was on the other side, had already stood up. Although she couldn't hide the surprise on her face, she was ten thousand times calmer than Xue Jianfeng.

"This pill is very powerful. I believe that even a fifth grade great recovery pill can not have such a powerful medicinal effect. What kind of pill is it?" Bing Wuqing asked in a normal tone. She had never eaten a grade five great recovery pill before, but she knew a lot about it. Even if a grade five great recovery pill could restore his dantian, it was impossible to do so in such a short time.

"You know your stuff. This is indeed not a grade five great recovery pill, but an improved version produced by our Center. Its medicinal effects are ten times that of a grade five great recovery pill!" The bespectacled doctor laughed proudly.

"It's that powerful?" Xue Jianfeng finally reacted and quickly asked, ""Now can you tell us what kind of organization you're talking about?"

"There's no hurry. Why don't you guys carefully experience the changes in your bodies?" The doctor said.

After his reminder, Xue Jianfeng suddenly said in surprise and joy, as if he had discovered a new continent, ""Eh? My meridians seem to have become wider than before?"

Cultivators relied on the meridians in their body to circulate their Zhen Qi. The wider the meridians, the more unobstructed the Zhen Qi would be, and naturally, more Zhen Qi could be mobilized in an instant.

Basically, the more powerful the master, the wider the meridians would be. This was definitely a very gratifying change. Xue Jianfeng felt that if he recovered, his strength would at least be stronger than his previous peak state. This was simply a blessing in disguise!

"Not only has it become wider, but it has also become tougher." Bing Wuqing's expression was a little strange.

"That's right, it does seem to be tougher. This is a good thing. This way, I can mobilize my true Qi without any worries and don't have to worry about my meridians bursting!" Xue Jianfeng was even more surprised.

Just like his meridians becoming wider, his meridians becoming tougher was also a good thing that he couldn't ask for more. It should be known that those powerful martial arts techniques required the mobilization of a large amount of Zhen Qi in an instant, and many times, they had to pursue the limit. If the strength of his meridians was not strong enough, a little bit of overexertion would cause them to burst, and he would be half dead first. But now that his meridians had become tougher, he didn't have to worry about this.

"You're wrong. This might not be a good thing. " Bing Wuqing shook her head.

"Why would I?" Xue Jianfeng was confused.

"In the short term, this can indeed make us stronger, but in the long term, it's equivalent to killing our future potential. Because the tougher the meridians are, the harder it is to break through and then establish them again, and it will be even more difficult to break through in the future." Bing Wuqing said in a deep voice.

"Amazing, amazing. You're truly extraordinary. You're the first one to see through this in such a short time." The professor clapped.

"Ah? Kill off your future potential?" Xue Jianfeng couldn't help but be a little dumbfounded. He had never thought of this at all. Compared to Bing Wuqing, the former number one foundation establishment cultivator of the immemorial Alliance, he was far behind.

"That's right, but you don't have to be nervous. Although it will be more troublesome to break through in the future, it will definitely be more beneficial than harmful to you. The improved version of the grade five great recovery pill can repair the dantian and transform the meridians. This is to lay the foundation for you. Next, it will be time to witness a miracle." The bespectacled doctor smiled mysteriously. He then took out two strangely shaped pills from his black robe and handed them to the two.

Bing Wuqing and Xue Jianfeng looked at each other. Although they had some doubts in their hearts, their trust in the bespectacled doctor had obviously increased a lot with the help of the improved grade five great recovery pill. They each took it and stuffed it into their mouths on the spot.

Half a day later, Bing Wuqing and Xue Jianfeng seemed to have completely transformed into two different people. The aura around them was completely different from before, and each of them was ten times, or even a hundred times stronger!

"I ... I ... I've become a master of the Golden core stage?!" Xue Jianfeng felt the earth-shaking changes in his body in disbelief. He felt as if he was in a dream. He had been stuck at the Foundation Stage for several years. He had tried countless times but had never been able to break through to the next level. Now, he had suddenly become a master of the Golden core stage. Anyone would have suspected that they were dreaming.

At the same time, Bing Wuqing was also immersed in a state of disbelief and shock. Unlike Xue Jianfeng, who had gone from the foundation building perfected stage to the early stage of the Golden core realm, he had gone from the early stage of the Golden core realm four times in a row, becoming a late stage golden core expert in an instant!

It was only now that the two of them finally understood why their meridians had been modified to be so broad and tough. It was to be able to withstand the super-strong medicinal properties of the second unknown pill. Otherwise, let alone a sudden increase in strength, the two of them would have long since been burst by the unparalleled impact of the true Qi, and even their bodies would have been torn apart.

What the two of them did not know was that this was not only the effect of the elixir. The main reason was that they had outstanding talent. If it were other disciples of the ancient alliance with ordinary talent, they would not be able to break through to the Golden core stage even if they took the elixir. They would have long been unable to withstand the overbearing medicinal effects and become incomplete corpses.

Chapter 5147 Continue To Rope Him In

"Congratulations to the two of you, good things come after bad. I think the higher-ups of your snow sword sect are probably looking for a place to buy medicine for regret." The bespectacled doctor had already expected this and stood on the side with a faint smile.

"That's great! That's great! I'm a Jindan expert now, let's see who can Stop Me Now, wahahahaha!" Xue Jianfeng's previous despair and decadence were swept away, and he suddenly became arrogant. Even the way he looked at the doctor in glasses and brother Dafeng was not as respectful as before. Instead, he began to look down on them.

After all, in terms of strength alone, these two people didn't even have the minimum strength of the Foundation Stage, and he was now a high and mighty early jiedan stage master, they were not on the same level at all. Strength determined the right to speak, plus he had always been proud and arrogant, now that his old habits had returned, he naturally became condescending.

Bing Wuqing's behavior was no different from before, except that she was expressionless and watching coldly from the side.

Looking at Xue Jianfeng's arrogant attitude, the doctor suddenly laughed and shook his head, ""Don't be happy too early. There's no free lunch in the world. Why don't you check your dantian first?"

"Dantian?" Xue Jianfeng was stunned for a moment, he quickly checked his dantian and found nothing strange. However, when he checked it for the second time, he suddenly found a strange Zhen Qi wandering around in his dantian. This Zhen Qi was very weak, and if he didn't check it carefully, he wouldn't be able to find it. It couldn't be controlled or destroyed. Xue Jianfeng couldn't help but be shocked, "What the hell is this true Qi?"

"Poisonous gas. To tell you the truth, any of the improved pills produced by our Center carry a poisonous gas. This poisonous gas will usually only hide in your dantian and will not cause any harm. However, after a long time, it will become active. Once it comes out of your dantian, you will die." The doctor in glasses laughed.

"What?" Xue Jianfeng's expression changed drastically, and he quickly asked, ""Then aren't we going to die for sure?"

"Don't be so nervous. Our Center's improved medicinal pills are rare goods that can't even be bought outside. How can we waste them? As long as you do your job well, I'll give you the antidote to control the poison regularly. If you don't listen, then I'll leave you to your own fate. " The bespectacled doctor looked at the two of them without fear.

Central was not a charity, and they were not fools. Although they also paid attention to controlling people's hearts, they never left no tricks behind, because the human heart was the most difficult to figure out and control in the world. In comparison, Drug Control was much safer and more reliable.

Of course, this method of control was much simpler than the brainwashing drugs used by Jing Taiyang and the others, but the advantage was that it did not hurt the brain, and there would be no obvious side effects. It would leave no traces, and it could retain more potential.

Therefore, this method couldn't be used on ordinary people. Only by roping in those who hated the primordial Alliance, giving them pills, and then using them to threaten and control them, could it be guaranteed to be foolproof, just like Bing Wuqing and Xue Jianfeng.

As if a basin of cold water had been poured on his head, Xue Jianfeng, who had just thought of burning the bridge after crossing the river, was suddenly dumbfounded. He was stunned for a long time, unable to say a word.

"Meticulous and powerful. It seems like I didn't make the wrong choice." Bing Wuqing didn't care about this at all. In fact, she had already been prepared for this the moment she received the pill. If central didn't have any means to control them, he would have doubted the future of this organization.

For him, who had been abandoned by the snow sword sect's higher-ups, he had no psychological burden at all in joining the central at this time. Even if the bespectacled doctor told him that he was going to make a move on the people of the ancient Alliance now, he would absolutely not hesitate. As for the control of the pills, there was no other way. There was still a long way to go.

"Of course, being able to join the Center is a blessing that you've cultivated for several lifetimes. I don't need to say more, you'll naturally experience it in the future. Do your best." The bespectacled doctor said proudly.

"What should we do now? Should we go to the green cloud sect and cause trouble? that Lin Yi, that Lin Dongfang, and Leng Leng, they'd better all be dead!" Xue Jianfeng didn't dare to have any other thoughts, and quickly adjusted his attitude.

"Lin Dongfang ..." Upon hearing this name, Bing Wuqing's eyes were filled with killing intent. When she was only at the early gold core realm, she had been no match for him and had been beaten like a dead dog by that old man in public. Now that her strength had skyrocketed to the late gold core realm, of course she had to get back at him with her own hands.

Looking at the two's murderous look, the bespectacled doctor snorted and said in dissatisfaction, "'I've paid such a high price to support you, could it be that it's just for you to take revenge?"

"But ..." Xue Jianfeng was shocked. Ever since he found out about the poisonous Qi in his dantian, he had already adjusted his attitude. He knew that he was just a chess piece in front of his opponent, so he didn't dare to be arrogant anymore. "Your Excellency ... Oh no, Your Excellency ..."

"Call the peak." Brother Dafeng glanced at him and said.

"Yes, yes, my two superiors, if you don't let us take revenge, then what do you want us to do?" Xue Jianfeng asked carefully. If it was in the past, he would never have been able to bend his knees and bow like this. However, after being crippled twice in a row, his heart was completely different from before. He no longer had the high and mighty attitude he had before.

"Right now, our top priority is to rope in more people and strengthen our forces. If you go and take revenge like this, you'll only alert the enemy and ruin our big plan! I'm warning you, without my

permission, you can't show your true strength in front of others, or else you'll arouse suspicion. " The doctor said in a deep voice.

"Are we going to continue pretending to be disabled?" Xue Jianfeng asked.

"There's no need for that. As long as you announce to the outside world that you've obtained a grade five great recovery pill from the small martial world of the immemorial era through a special channel, the others will only discuss it for a while at most. They won't be too suspicious." The doctor said.

"That's not a problem. If someone asks, I can just push the blame on my father. He's the Vice sect leader of snow sword sect after all. If he's lucky, it's not strange for him to get two fifth-grade great recovery pills." Xue Jianfeng nodded.

"How do we rope in more people?" Bing Wuqing suddenly asked.

"Good question, I need you to look for those disciples with hatred that can be used, and you are the best example. I don't think I need to explain more, right?" The doctor said as he patted Bing Wuqing's shoulder.

Chapter 5148 The Same

"I understand." Bing Wuqing nodded, then asked, ""How many people do we need to rope in?"

"As long as they meet the requirements, the more the better." The doctor said with a smile.

"What happened after that?" Bing Wuqing and Xue Jianfeng looked at each other. Although they had taken Central's pill and become a member of central, they still knew nothing about central, let alone what they wanted to do.

"We'll talk about the future later. Don't worry, you'll have the chance to take revenge." The bespectacled doctor comforted.

"Yes." Bing Wuqing and Xue Jianfeng didn't have much of a friendship to speak of, and their temperaments were polar opposites. However, at this moment, they had the same thought in their hearts. Since they couldn't take revenge for the time being, they would wait for the primordial trial. That way, they wouldn't beat the grass and alert the snake!

The bespectacled doctor then gave a few more instructions before letting the two go back to work. He was secretly happy.

The second step of the immemorial plan had been unexpectedly successful so far. Not only had he gained control of the "spy", brother Dafeng, but he had also gained the two golden core experts, Bing Wuqing and Xue Jianfeng. Bing Wuqing, in particular, was to his liking. With such a talent under him, great things could be expected!

They didn't know that their every move was seen by Lin Yi in the sky.

"This method seems to be the same as si tsunami 's." Lin Yi couldn't help but wonder. Although he wasn't clear about the details, he could basically guess that si tsunami on Sky Class Island should have joined central like this. He didn't expect the people in the center of the secular world to do the same thing as Sky Class Island.

However, what really shocked Lin Yi were the two pills. They actually had such a terrifying effect. It was simply unbelievable. Even if it was like what Bing Wuqing said, doing so would exhaust one's potential, but even so, it was already something incredible!

Even Lin Yi couldn't help but exclaim that central really was a big deal.

Back then, when Xu lingchong and the others 'strength had increased by leaps and bounds, Lin Yi couldn't figure it out no matter how hard he racked his brain. But after seeing Bing Wuqing and Xue Jianfeng as living examples, he instantly understood everything.

This group of people had most likely taken this kind of pill. On the surface, they were still disciples of the North Island's three pavilions. However, in secret, they had long become the central group's lackeys.

Even Lin Yi couldn't help but suck in a breath of cold air at the thought. The central power didn't just extend to Sky Class Island through the Chamber of Commerce, but also secretly extended to all the sects. If the three pavilions had people, then the other sects must have people too. They might even secretly control some of the sects-it was impossible to guard against!

After returning to Sky Class Island, it seemed that he would have to have a good talk with the big bosses like guangguan Tianhua. He had to be careful, or the consequences would be unimaginable when the central hidden power was too big to deal with.

But he'd have to worry about that later-after confirming Central's plans, Lin Yi knew that there was no need to keep watching them. Central was only doing some dirty tricks, anyway, and he'd just have to warn Xin Yijie.

As for retaliating against the center, the thought only flashed through Lin Yi's mind for a moment before he quickly dismissed it.

It wasn't like he couldn't do that-if Xin Yijie gathered all the ancient sect disciples, and Lin Dongfang was there as well, Lin Yi was confident that he could take on the professor and the others, even if he had Bing Wuqing and Xue Jianfeng, the two golden core stage Masters.

However, this was the worst possible plan. Not only would it alert the enemy, but central had not made any public signs that they were enemies with the ancient Alliance. Bing Wuqing, Jing Taiyang, and the others had only joined central in secret. No one would believe that they had completely betrayed the ancient Alliance before they took any actual action. Even Xin Yijie, their martial uncle-in-charge, had no reason to attack them directly under such circumstances.

And so, Lin Yi decided to bide his time. The archipelago wasn't that big, and he'd be able to sense anything as long as he had Xin Yijie be on guard.

After making his decision, Lin Yi immediately returned to the small island owned by the green cloud sect in the North Island. He found a place with no one around and re-formed his essence spirit body before appearing in front of everyone.

"Senior granduncle, you're back!" The first person he saw was Xin Yijie. Almost all of the ancient sect disciples had come to the islands to cultivate, and he, the nominal martial uncle, was nowhere to be seen. What could he do? at most, he could only guide those few prospective disciples every day.

"Well, did anything happen recently?" Lin Yi asked casually. He'd heard about it when he was searching around in his soul form, and it was just a formality.

"Uh, actually, something happened. But fortunately, it was a scare but no danger. We're not the ones who suffered." Xin Yijie's expression was a little weird as he explained the situation to Lin Yi. "Grand uncle-master, what realm is that Lin Dongfang senior at?"

This question had been bothering him for a long time. From the day he saw Lin Dongfang fight, he had been thinking, just how strong was this master born and raised in the secular world? Was he in the middle stage of the Aurous core stage, or was he even stronger than this, or was he just a nascent soul old monster?

No matter what, to be able to bully Bing Wuqing to such an extent, Lin Dongfang's strength was definitely unfathomable. At least, he was not someone that a mere early gold core expert like him would dare to slight.

"Well, I don't know. It's pretty strong." Lin Yi replied noncommittally. He didn't know, and even if he did, he wouldn't reveal Lin Dongfang's strength to an outsider. He changed the topic, "By the way, I discovered something when I went out this time. As the martial uncle leading the team in the secular world, you better pay attention to it."

"What is it?" Xin Yijie was taken aback.

"There's an organization in the secular world called central. They've already begun to set their sights on the primordial Alliance. They want to secretly instigate the disciples of the primordial Alliance who Harbor resentment against them. At present, some of them are already under their control. I think you'd better be careful, in case things get out of hand after the matter blows up." Lin Yi warned seriously.

"This can't be? A secular world Organization dares to target our archaic Alliance?" Xin Yijie couldn't believe what he heard. From what he understood, even if there were a few super strong people like Lin Yi and Lin Dongfang in the common world, it wouldn't change the fact that the Qi was so thin that it made one's hair stand on end!

Chapter 5149 Biding Our Time

The overall strength of the secular world was not on the same level as that of the ancient Alliance. This was like a three-year-old child challenging a heavyweight boxing champion. It was impossible for such a thing to happen according to common sense.

"Nothing is impossible. Central's methods are far from what ordinary forces can compare with. It's no small matter." Lin Yi shook his head slightly. He didn't doubt Central's strength at all. He was able to do so well on Sky Class Island, so it was no problem for him to face the ancient Alliance.

"I ..." Xin Yijie still didn't believe it, but even Lin Yi had this expression on his face. He quickly became serious and frowned. "Is the central government really so powerful? But don't all the cultivation forces in the secular world follow your lead, martial granduncle?"

"I can only restrain the cultivators' Association of the secular world. The central is not among the cultivators' associations. You can think of it as an evil organization with extraordinary means. Its threat is by no means comparable to that of a few cultivation forces in the secular world. You must not take it lightly." Lin Yi warned.

"Then what should we do?" Xin Yijie finally corrected his attitude.

"Bide our time and observe the situation." Lin Yi said faintly.

After all, he was someone who was able to become the leader of the group, and he wasn't bad at both strength and shrewdness. He quickly understood what Lin Yi meant and nodded. "I understand. Thank you for your reminder, senior granduncle. I'll have people secretly be on guard so that we won't alert the enemy,"

"Okay, you can go back to your work." Lin Yi nodded and walked to the other spiritual eye. The place was still bustling with activity, and after everyone's hard work, the villa by the sea was starting to take shape. It had a bit of the atmosphere of the headquarters, and even Lin Yi couldn't help but feel excited.

He thought they were just fooling around-even if they were all Sky Class full Masters, this wasn't a fight, they were all amateurs. He didn't expect these people to be so capable, and they looked pretty decent.

"Boss!" Everyone was overjoyed when they saw Lin Yi, throwing away whatever they were doing and surrounding him. They all started talking about the incident.

"I've heard about this. It seems like it was a wise decision to ask old Lin to come here. " Lin Yi smiled as he greeted everyone.

"Bullshit, if I wasn't here, you'd be in big trouble. You brat, just wait to be separated from coold!" Lin Dongfang walked over in a bad mood, while aunt Qing accompanied him with a smile.

"Yes, yes, yes. So, you are My Lucky Star. In the future, I might as well settle down here. The scenery is good, and the spiritual energy is abundant. It's very suitable for retirement." Lin Yi smiled apologetically.

"You want me to stay here to look after your home? you're dreaming!" Lin Dongfang scoffed. It wasn't that he didn't want to, but he didn't have the conditions. Even if the spring water wasn't as strict on him as goudan, he still had to go back every once in a while. Staying here was just talk.

Lin Yi chuckled-he knew that, of course, so he just said it casually. He was a little regretful, though-the spring water's restrictions had always been a problem for Lin Dongfang and ER goudan, but this wasn't Sky Class Island, and they didn't have wreathed King's help or the auto-forging mechanism that han Jingjing and the others had developed. They'd have to wait until next time to upgrade the box.

"That's right, take these pills and divide them among everyone. The construction of the ocean view villa will be put on hold for now. Everyone should try to break through to the foundation establishment stage as soon as possible. " Lin Yi said as he pulled out a pile of Foundation-building foundation pills.

"Breaking through to the foundation establishment stage?" Lingshan and the others were taken aback as they took the cores,"Our strength was raised by you. Didn't you say that we can't break through and level up on our own?"

This was what everyone knew, or else they wouldn't be so calm and busy building the villa right after they came here. If they could level up on their own, people like Chentian would've gone into isolation already.

They all thought that Lin Yi was the only one they could rely on to level up, but Lin Yi was only at Foundation peak right now. He couldn't help them level up before he returned to golden core, so they couldn't do anything but wait.

"I used to think so too, but after the tests on Sky Class Island, I realized that it might not be the case. The reason for this restriction in the secular world is probably because the Qi is too thin, but here, there's

plenty of Qi, and with a Foundation-building golden core, everyone might be able to successfully build their Foundation. There's plenty of pills anyway, so there's no harm in trying." Lin Yi explained.

"So that's how it is. That's great!" Everyone was overjoyed-not only the men, but even Lingshan and the girls were jumping for joy. Everyone wanted to be stronger-this was something every practitioner wanted to do, and normal people were no exception.

"Also, Leng Leng, you're the same. Although you're already in the mid-stage of the foundation building realm, you still need to improve your strength as soon as possible. If you can reach the perfected foundation building realm, it'll be even better for you to break through to the Golden core realm here." Lin Yi said coldly.

"Oh, okay." Leng Leng nodded obediently. Her heart was on Lin Yi now, and she would do whatever Lin Yi asked her to do. She was a diligent person, and practicing was almost a normal thing for her. She didn't reject it.

Lin Dongfang suddenly spoke up as Lin Yi gave orders to everyone, ""Kid, what happened?"

"Ah?" Everyone was stunned and looked at Lin Dongfang strangely. Why would the old man suddenly ask this?

Even Lin Yi was surprised-old Lin's reaction was surprisingly quick. Lin Dongfang curled his lips."Kid, what's with that look? I can't even see such an obvious thing. Do you think I'm an idiot? Something must have happened for them to increase their strength in such a hurry. Hurry up and tell us. "

"That's right, boss. If there's anything, just tell us. Don't carry everything on your shoulders." The crowd finally reacted and nodded in agreement.

"That's good. It's time to let you guys be prepared. Central has already extended their hands into this transit point. Their people are now lurking in these islands, and they're constantly instigating rebellions to control the disciples of the ancient Alliance. Bing Wuqing and Xue Jianfeng have already joined, and both of them have improved by leaps and bounds. The latter is already an early gold core expert, while the former is already a late gold core expert." Lin Yi lowered his voice.

Chapter 5150 The Trouble Of The Heavenly Elixir Pavilion

"There's such a thing?!" Everyone was shocked.

Only Lin Dongfang was as calm as ever, just like how he had casually crippled Bing Wuqing and Xue Jianfeng back then. It was as if he didn't take this matter to heart at all.

"However, you don't have to worry too much. Those people in the center won't be too hard on us for the time being. At most, they will continue to secretly instigate the disciples of the immemorial Alliance to defect. So, as long as we are careful, nothing will happen. However, for safety's sake, we should improve our strength as soon as possible. This way, even if something happens, we will have the power to protect ourselves and not be helpless." Lin Yi said.

"Understood, boss. We'll go into seclusion right away. We definitely won't let you down!" Everyone nodded and went their separate ways to find a place to practice. Lin Yi nodded to himself. This was quite a bit of pressure for everyone, but it seemed that pressure could become motivation. Maybe there would be unexpected gains.

Lin Dongfang glanced at Lin Yi as he watched everyone leave, ""Are you confident in this?"

"Yes, at least there shouldn't be any problems on these islands. But it's hard to say when the training in the secular world is over." Lin Yi frowned.

After all, the experts of the ancient Alliance were not just for show. Moreover, once the matter was blown up, it would definitely alert the ancient Alliance. With the strength of the headquarters in the center of the secular world, they would not dare to act rashly for the time being. However, once the training ended and all the experts of the ancient Alliance withdrew, the people in the center would be able to act without restraint. The safety of this place would be greatly reduced.

"Then what do you plan to do?" Lin Dongfang asked.

"Let's see how it goes. If it's still okay, we'll continue to use this place as our headquarters. After all, there's no other place with such good spiritual Qi in the secular world. If it really doesn't work, we can only ask everyone to give up on this place." Lin Yi said, a little disappointed.

"It's fine. I'll come over and watch over this side. As long as the other party's strength is not too outrageous, you don't have to worry about it. " Lin Dongfang said.

"Alright, I was just waiting for you to say that!" Lin Yi said excitedly.

"Did you set a trap for me to fall into?" Lin Dongfang's mouth twitched.

"You're too kind. I'm just looking for a place for you to retire. This is my way of showing my filial piety." Lin Yi chuckled.

"After staying on Sky Class Island for a few years, your skin has become thicker." Lin Dongfang didn't know whether to laugh or cry. "By the way, what do you plan to do about coold? are you just going to leave her in the secular world? This girl is willing to give up everything for you. If we let her return to the ancient martial world alone, I'm afraid her ending won't be good. After all, strictly speaking, this is no different from betraying the sect. "

"It's up to her to decide. I do hope that she can stay here, but I think that she still has some concerns about the small world of martial arts in the immemorial era. To be honest, I'm not worried about the others, but Leng Leng. If she chooses to return to the small world of martial arts in the immemorial era, Bing Wuqing and Xue Jianfeng will not let her off." Lin Yi pinched his chin and frowned.

"You're going to force her to stay? It's not impossible, this girl is dead set on you. If you really want to say that, I think she will agree. " Lin Dongfang had always been a good judge of character. Even though he had not been in much contact with coold recently, he could clearly see coold's personality.

"No, I won't do such a forceful thing. Leng Leng once told me that after the secular world's trial ends, it will be the immemorial trial that she has always yearned for. I'm prepared to participate with her at that time in case of any mishaps." Lin Yi decided.

"Oh? Didn't you say that primordial spirit projection has a time limit? are you sure you can stay here until then?" Lin Dongfang asked.

"I'm not sure, but I've recently realized that the spiritual Qi here is a little less dense than on Sky Island, but for some reason, it's very good for nurturing the essence spirit. " This was a new discovery he made after turning into his Yuan Shen-the yuan Shen's senses were much more sensitive to his surroundings, and this was the effect of nourishing things silently. If not for this, Lin Yi wouldn't have noticed it.

"So you're in a good condition now?" Lin Dongfang looked him up and down.

"En, not only that, I also obtained a piece of charcoal-like treasure from Leng Leng. It contains a vast amount of spiritual energy that can be replenished at any time, so I think it should be able to last for a while." Lin Yi nodded. He'd been using the star Black coal a lot recently, and he felt that his spirit wasn't getting weaker. In fact, it seemed to be more solid than before. It should be able to last for a few more months, and if everything went well, he might even be able to sneak into the ancient trials.

"That's good too. You'll be in charge of Leng Leng. I'll work a little harder to keep an eye on the secular world for you." Lin Dongfang pouted and then went out for a walk with aunt Qing.

Lin Yi smiled at the two's backs-old Lin's presence did put him at ease, at least he didn't have to worry about the common world anymore. He was starting to miss the days on Sky Class Island, though-he wondered how Tiangang and the others were doing.

Sky Class Island, Middle island's heavenly elixir Pavilion.

It'd been four months since Lin Yi's soul projection, and the heavenly elixir Pavilion was relatively peaceful. No one dared to come and cause trouble, but business wasn't doing too well recently. On the other hand, the famous medicine sect, who had always been on the opposite side, opened their doors to the public to make elixirs because of Zheng Dongsheng, a seventh-realm Alchemist, personally watching over them. They'd taken a lot of business.

If Lin Yi was here, he could easily take out some high-grade elixirs and steal the limelight back. Unfortunately, Lin Yi had been away for too long, and the elixirs he left before he left couldn't last for so long. Tian Gang's alchemy skills obviously couldn't be compared to Zheng Dongsheng, which was why they were getting worse.

"Sigh, today's business volume is less than yesterday's. It's not good if this continues." Xue Li looked at the account book and sighed. Ever since Lin Yi released the tier 7 pills and created a peak in his sales, he had been maintaining this trend for the past few months. Although the drop every day wasn't big, it had been like this for a few months. When the drops added up, it was quite an exaggeration.

As one of the lady bosses in charge of the sales of the heavenly pill Pavilion, Xue Li placed the most importance on the sales volume. This feeling of working hard for decades and returning to decades in one night was really frustrating and helpless, and she really had no way to deal with it.
