

## Bodyguard 5151

### Chapter 5151 Another Strange Path

"We can't help it. It's all the famous medicine sect's doing. No matter what kind of promotion strategy we come up with here, they will immediately make targeted arrangements. Especially with Zheng Dongsheng in charge, the appeal of a seventh grade Alchemist is not simple. A lot of our customers have been snatched away." Wei shenjin followed with a bitter smile.

"That's right. Last time, big brother Cai Zhongyang received news that the famous medicine sect has been using their connections to slander and hurt our heavenly pill Pavilion. They're using all sorts of unscrupulous means to steal our business. They're too despicable!" Xue Li was very angry when she talked about this.

Although the famed medicine sect had resorted to unscrupulous means, and it was not even worth mentioning, with their hundreds of years of Foundation and connections in Middle Island, there was no doubt about the results. Over time, it would have a fatal impact on the reputation that the heavenly pill Pavilion had painstakingly built. The most helpless thing was that even if Tian Gang and the others knew about it, they were helpless. Because the slander was carried out in secret, they had no evidence at all, and naturally, they could not accuse anyone.

"Actually, if you think about it carefully, it's ridiculous that the famous medicine sect has been forced into such a situation. After all, they have Island master ao Tian's protection. They don't dare to lay a hand on our heavenly elixir Pavilion on the surface, so they can only use such underhanded and despicable means. What a bunch of despicable people." Wei shenjin said disdainfully.

"Lin Yi said that the best way to deal with rumors like this is to fight them head on and defeat the medicine sect. Then, the rumors will be dispelled. It's a pity that I'm not good enough. If only Lin Yi was here. He's been in the common world for four months. I wonder how he's doing ... Sigh ..." Tian Gang looked at Lin Yi's body worriedly. It didn't look like he'd changed at all, but it was still worrying.

"This ... Last time when I went to the spirit projection with boss Lin Yi, I heard from the teleportation Hall's manager sun and the southern sky Aurora that it'd be good enough to stay in the secular world for two months. It's been four months now, will there be any accidents?" Wei shenjin couldn't help but Mutter.

The two girls were already a little worried, and after hearing what he said, they became even more flustered. Xue Li couldn't help but say, ""Why don't we go and ask someone? otherwise, I won't feel at ease."

"That's good, but who should we ask for this kind of thing? we can't go to that Southern Heaven Aurora, right?" Tian Gang frowned.

"During the spirit projection last time, Island master ao Tian said that boss Lin Yi's business is his business, and that if you need help, you can go to him. Should I go to the island master's Pavilion with sis-in-law Tian Shuo?" Wei shenjin suggested. Although ao Tianzhou did say that, his status was too low. If it was him, he probably wouldn't even be able to enter the island owner's Pavilion, let alone see ao Tianzhou. However, Tian Gang was different. Not only was he Lin Yi's lover, but he was also Tianxing's sister. He still had some face in the pavilion.

"Alright, it's decided then. No matter what, at least I can be at ease." Tian Gang immediately decided.

At the same time, Tong yangchi from the famous medicine sect was also reporting the situation to Zheng Dongsheng.

"Oh? Business has been growing every day recently, and it looks good. " Zheng Dongsheng looked at the account book and said with satisfaction.

"This is reasonable. After all, we have done so much work in the open and in the dark. In addition, you, a seventh grade Alchemist, are personally overseeing the alchemy. If this still can't restore the business, then it would really be a ghost." Tong Yang laughed.

"Oh right, how's the heavenly elixir Pavilion? is it cold and empty?" Zheng Dongsheng had a playful look on his face.

"Uh ... The rumors that we've been spreading in secret have already taken effect. The heavenly pill Pavilion has indeed been going from bad to worse recently, but overall, the impact on them isn't that great. I can only say that it's just barely satisfactory." Tong Yang spread his hands.

"How did this happen?" Zheng Dongsheng's face darkened. Lin Yi and the heavenly elixir Pavilion had long become a thorn in his side. Now that Lin Yi's primordial spirit had been projected to the secular world, it was a good opportunity to trample on the heavenly elixir Pavilion. For this, he didn't even hesitate to use his influence as a seventh-realm Alchemist to personally participate in the rumor, and it was still barely satisfactory?

"Although I don't want to say this, I have to say that the heavenly pill Pavilion is indeed not simple. I have to say that their pills are of good quality and cheap. In addition, they have built a good reputation for themselves with the gimmick of supreme quality pills. It is impossible to hurt them with just a few rumors." Tong Yang shook his head helplessly.

"Wouldn't that be a waste of effort?" Zheng Dongsheng frowned and said.

"That's not it. What we can do now is to take over the high-grade pill market while Lin Yi's not around. At least, that's something that's good for the famous medicine sect. However, it's not realistic for us to use this opportunity to truly attack the heavenly pill Pavilion. After all, they've never sold any high-grade

pills in the past few years. At most, they'll just maintain their status quo," Tong Yang laughed bitterly and spread his hands.

"Hmm, that's true if you think about it. If we could deal with the heavenly elixir Pavilion with such an underhanded trick, we wouldn't have fallen so hard before. We were a little too naive." Zheng Dongsheng did not get angry this time. Instead, he was unexpectedly calm.

"Then what should we do? "That Lin Yi's primordial spirit projection should be about time. If we wait for him to come back, it'll be even more difficult for us to deal with the heavenly elixir Pavilion ..." Tong Yangxin couldn't help but feel anxious.

"You don't have to worry about that. Since we can't deal with the heavenly elixir Pavilion through business means, we might as well find another way." Zheng Dongsheng laughed with a deeper meaning.

"Another strange path?" Tong Yang didn't understand.

"That's right. Have you ever thought that the key to dealing with the heavenly elixir Pavilion isn't our famous medicine sect, nor their heavenly elixir Pavilion? it's another place. To be precise, it's another person, ao Tian Zhou." Zheng Dongsheng said, pretending to be profound.

"Acting Island Lord, otada state?" Tong Yangti was stunned for a moment, but he quickly reacted. It was indeed as Zheng Dongsheng had said, the AO Tian state was the source of the current awkward situation. If it wasn't for this Big boss's protection, the heavenly pill Pavilion would have been destroyed by them long ago, and it would be impossible for them to survive until now.

"Do you understand now? if you want to deal with the heavenly pill Pavilion, you have to think of a way to deal with the AO Tian state. That's like scratching an itch through a shoe. You're destined to never succeed." Zheng Dongsheng advised.

"That's true, but to deal with the AO Tian state?" Tong Yang looked strange. Not only was ao Tian Zhou an unfathomable Big Shot, but the AO Tian family behind him was one of the few super families on the Sky Class Island!

Chapter 5152 Questions And Worry

So, not to mention a mere Zheng Dongsheng, even if the entire Zheng family was involved, they might not be able to deal with such a Big Shot, right?

"Hmph, look at you. You're so scared that your legs went soft when you heard the name of the AO Tian state. How can you achieve anything with this?" Zheng Dongsheng snorted coldly.

"But that's the AO Tian state ..." Tong Yang said with a bitter face. Zheng Dongsheng was still a member of the Zheng family. He had some confidence in speaking up against the AO Tian state, but he was just a dog of the Zheng family. If he really stood on the opposite side of the AO Tian state, he was destined to be cannon fodder.

"Alright, alright. Look at your cowardly face. Did I say that I would definitely have a direct conflict with the AO Tian state?" Zheng Dongsheng pouted and said.

"Not a direct confrontation? Then how are we going to deal with the heavenly elixir Pavilion? ao Tian Zhou seems to have a pretty good relationship with that Lin Yi, he wouldn't just sit back and do nothing, would he?" Tong Yang asked in confusion.

"Even if he wants to protect the heavenly elixir Pavilion, don't forget that he is the acting Island master. This status represents unparalleled power and status, but at the same time, it also means that his every move must be done according to the rules. Otherwise, not only will his prestige be lost, even the Nakajima Elder Council will not let him off." Zheng Dongsheng's mouth curved into a playful arc.

Tong Yang's face was full of confusion. It wasn't that he didn't understand what he was saying, but it shouldn't be that easy to use the rules of the island owner's Pavilion to deal with the AO Tian state, right?

"There's no need to show such an expression. Although it's not easy to do something, as long as the plan is in place, it's not impossible. It's just that we don't have any major official backing, so we can only act in a low profile for the time being." Zheng Dongsheng paused and then continued, ""The island Lord Pavilion has always decided by voting. If you can create a voting result that is unfavorable to the heavenly pill Pavilion, then even the AO Tian state can't go against it. Do you understand?"

"Yes, yes, but our only reliable ally in the island Lord's pavilion is Wu Miao, right? although he's the managing vice Island Lord, his authority still can't compare to the otian state, right?" Tong Yang was still not confident.

"That's the case for now, but the situation will be different very soon. Wu Miao has already tried to find ways to find high-level activities. He will make southern sky Aurora the acting Deputy Island master, and he will also make me the chief Alchemist of the island master Pavilion. You must know that this position is the same as the island master and Deputy Island master. They have the right to vote on many things in Nakajima. This way, just the three of us can compete with the AO Tian state. If we find a way to win over another Deputy Island master, we will have to do it." Even the AO Tian state won't be so stubborn for the sake of the heavenly pill Pavilion, don't you think?" Zheng Dongsheng said with confidence.

"I see, Grandmaster Zheng is indeed wise. If this plan is successful, the heavenly elixir Pavilion's Day of eternal damnation will not be far away!" Tong Yang's eyes brightened. He had been racking his brains over this for the past few days, and he could finally relax.

"Hehe, just you wait and see." Zheng Dongsheng stroked his beard proudly.

In Nakajima's main pavilion, Tian Gang and Wei shenjin successfully met up with ao Tianzhou and explained Lin Yi's situation.

"To be honest, I've been thinking about this too. It's really surprising that young hero Lin's primordial spirit projection hasn't returned after so long, but I don't have much experience in this kind of thing, so I don't know much." Ao Tian Zhou shook his head at the two of them.

"Uh ..." Tian Gang and Wei shenjin were speechless.

"But you don't have to worry. How about this, I'll ask Nantian Aurora Polaris. After all, he's the only person who has experience in primordial spirit projection. He should know something." Ao Tian Zhou suggested.

"Alright, then I'll have to trouble Island master ao Tian," Tianjie said gratefully. In fact, they had the same idea at the beginning, but Nantian Aurora Polaris was their enemy after all. Even if they rashly asked, there would be no result. Now that otian state had stepped in on behalf of them, it was better.

"You're welcome. Lin shaoxia's matters are my matters. " Ao Tianzhou smiled and immediately ordered someone to summon southern sky Aurora.

A moment later, southern sky Aurora rushed over. It was a crucial time for Wu Miao to help him operate the Deputy Island master position. No matter what, he couldn't offend ao Tianzhou. As soon as he heard ao Tianzhou's summons, he naturally rushed over immediately.

However, after listening to otainzhou's question, the corner of Nantian Aurora's mouth twitched. He thought that it was a big matter that concerned his future and fate. Along the way, he had been smug and mentally prepared. He didn't expect that he would be asked to answer the doubts of Tianji and Tianji. This feeling was really helpless.

However, since ao Tianzhou had asked, he didn't dare to not answer. He could only reply, ""According to my experience, two months should be the limit. As for four months, that's too long. I think there might be an accident."

"What?" Tian Gang and Wei shenjin were both shocked.

"I'll give you a reminder. You'd better only say what you're confident in. As for those guesses that you're not confident in, you don't have to bring them out to confuse us. Is that alright with you, Vice Principal Nan Tian?" Ao Tian Zhou's finger tapped on the table as he said indifferently.

"Uh, yes," Nantian Aurora quickly nodded, his heart dripping with cold sweat. He had deliberately said this to provoke Tian Ji and ao Tian Zhou, but he didn't expect to provoke ao Tian Zhou's dissatisfaction. It seemed that it was better to be honest and not act smart.

"Lin shaoxia is not an ordinary person. The average person's limit is two months. It's not surprising that he can hold on for four months or longer, so you don't have to worry too much." Ao Tianzhou consoled him. He then turned to southern sky Aurora and said, ""Continue,"

After being reprimanded by Otakashi, Nantian Aurora's next words were indeed a lot more honest. "Although I've experienced it once, I'm actually not too sure about the situation you're talking about. If there's no change in the physical body, does that mean that there's no problem with the primordial spirit? It's really hard to say. After all, I've never tested it before, especially with such a long time span. I'm afraid there's no such precedent in the entire history."

Hearing these words, Tian Gang and Wei Shenjin were speechless. This guy said it as if he didn't say anything!

"Forget it, you can go back first." Ao Tianzhou was also very helpless. It seemed like he wouldn't be able to get anything out of Southern Sky Aurora, so he could only send this guy back first.

Looking at the back of Nantian Aurora, Wei Shenjin sighed bitterly and said, "What do we do now?"

"Everything else is fine, but I can't do anything about this. I'm sorry to disappoint you." Ao Tianzhou spread his hands and said.

"Island Master Ao Tian, you're too kind. We're already very grateful that you're willing to summon the Southern Sky Aurora for us." Tian Gang was surprisingly calm.

Chapter 5153 Another Letter From Lin Yi

Although she didn't get a definite answer from Nantian Aurora, no good news meant no bad news at the same time. She was worried before, but she recovered now. She had always been confident in Lin Yi.

"Oh? As expected, birds of a feather flock together. Miss Tian Ji is indeed young hero Lin's confidante, your bearing is extraordinary. " Ao Tian Zhou looked at Tian Gang with admiration. With his status and strength, most women would shiver in front of him and not dare to take a deep breath. It was rare to see someone with such a bearing as Tian Gang.

"Island master ao Tian, you're too kind. But if it's possible, there's one more thing I'd like to ask for your help with. I wonder if you can help me ask the central Chamber of Commerce to see if they have the business of sending letters to the secular world?" Tian Gang asked. She believed that Lin Yi would be fine, but she knew that something must have happened after such a long time. If they could send a letter through the central Chamber of Commerce, they would be able to get to the bottom of this.

"It's a small matter. I'll help you ask. " Ao Tian Zhou immediately understood Tian Gang's meaning.

Back then, the central Chamber of Commerce had publicly auctioned off a letter from the secular world at the Nakajima auction. It had caused a great deal of commotion, and even he had heard about it. However, there had been no follow-up after that. It was likely that they had stopped this business. If Tian Gang had asked about it himself, it would have been useless. However, it was different for him. For the sake of him being the acting Island Lord and the AO Tian family behind him, the central Chamber of Commerce might make an exception this time.

As ao Tianzhou expected, all the higher-ups were shocked when he sent the message to the headquarters. It wasn't uncommon for people to ask questions like this, but it was always a rejection, just like the answers Lin Yi got before. It was ao Tianzhou who asked this question!

They could choose not to give face to others, but with the AO Tian state's background, even central didn't dare to look down on them. After all, they were a true super family and were no small matter.

In particular, the headquarters of the central Chamber of Commerce was located in Nakajima, and Okita state was now the head of Nakajima. If they made this Big Boss unhappy, it would not be a good thing for them.

Everyone discussed it over and over again, but in the end, they still did not dare to make a decision on their own. They had to report this matter to the higher-ups, but as a result, it was reported to the higher-ups level by level, and finally reached the hands of Luan xiaoru.

"Ao Tian Zhou, why would this guy want to send a letter to the secular world? could it be that the Super families of Sky Class Island have already set their sights on the secular world?" Luan xiaoru's subconscious reaction was that the Super families were about to make a big move. After all, this time happened to be the time when the ancient Alliance appeared. It was not strange for the unfathomable forces of the Sky Class Island to be restless.

But after thinking about it, it didn't seem possible. The power of the center was deeply rooted in the secular world, and no force that wanted to develop in the secular world could completely escape their surveillance, including the Sky Class Island. Moreover, if these super families really had the ability to develop in the secular world, they wouldn't need to ask them to send letters.

After a moment of silence, Luan xiaoru finally decided, ""Sure, do him a favor and make an exception to send a letter for him. In any case, we've been exchanging letters with the secular world recently, so it's not impossible to add another letter."

It didn't take long for the AO Tian state to receive a positive reply. Tian Gang and the others were overjoyed. After thanking them repeatedly, they quickly wrote a letter through the AO Tian state and sent it to the central Chamber of Commerce. The recipient's name was naturally Lin Yi.

"Lin Yi? So that's how it is, a favor at no cost. " Luan xiaoru immediately understood, but she was still a little shocked. Even someone like ao Tianzhou was willing to help Lin Yi. Lin Yi's power couldn't be underestimated.

As she spoke, Luan xiaoru looked at the other letter on her table. It was a letter from the headquarters of the central secular world. Coincidentally, it was LAN xiaoru who was asking about Lin Yi.

At the headquarters of the center in the secular world, everything was normal. However, when a letter suddenly appeared on the teleportation platform, and they realized that it was not an internal letter, but an express letter with the sender and the recipient, the members of the Center were shocked.

"What? Another express delivery from Sky Class Island?" LAN xiaoru couldn't help but be shocked after receiving the report. The central Express delivery business was personally put to a stop by her "main body" Luan xiaoru. Why did it suddenly start again?

From a profit-and-cost perspective, this was a rare low-cost but high-profit delivery service. After all, even without this service, central still had to communicate between Sky Class Island and the secular world, and the central Chamber of Commerce also had to regularly purchase goods from the secular world. So this delivery service was purely on the way, and it could be said that there was no cost at all.

But the problem was that this wasn't a good thing for central in the long run, because with the power of the Sky Class island's superpowers, once they had the slightest clue, it wasn't hard to imagine that they could take the opportunity to reach into the secular world.

The reason why the central Chamber of Commerce could rise so quickly was because of the complete isolation between Sky Class Island and the secular world. If this isolation was broken bit by bit, it would be a fatal blow to the central Chamber of Commerce. After all, without the gimmicks of technology

products, the central Chamber of Commerce was far worse than the other local chambers of commerce like the Hong Chamber of Commerce.

Moreover, if the barrier between the Sky Class Island and the secular world was broken, it would have a huge impact on the entire central strategy. In comparison, the spiritual Jade was just a small profit, not worth mentioning.

Other people didn't know this inside story, but LAN xiaoru was very clear about it, which was why she was so surprised. She was even more shocked when she saw the recipient of the express Mail.

"Lin Yi?!" LAN xiaoru couldn't help but frown. There was a note with the express delivery. It was a handwritten letter from the "main body" Luan xiaoru. After reading it, she finally understood, ""So this guy's an essence spirit projection. Even the big shots of Sky Class Island have to give him face and do him a favor-he's not simple,"

Although she'd noticed Lin Yi's existence long ago, she never thought that Lin Yi could reach such a level. After understanding this point, she couldn't help but feel a little creeped out. She wanted to use Dafeng bro to keep Lin Yi hanging, but now it looked like she was playing with fire.

In the face of such a dangerous person, the best strategy was to make a prompt decision to eliminate the roots. Any other response could have the possibility of failure, so they had to be careful.

Chapter 5154 It Seemed Like It Was Yesterday

But since Lin Yi was someone at that level, LAN xiaoru didn't dare to make decisions on her own. She quickly wrote down Lin Yi's situation in the secular world and the Taigu's progress in the secular world and sent it to Sky Class Island, asking if they should deal with Lin Yi.

Although Lin Yi's strength couldn't be underestimated, he was just a projected soul, not his real body. With his current strength in the secular world, it wasn't impossible to deal with him. After all, Bing Wuqing and Xue Jianfeng were more than enough to deal with him in terms of strength.

One day later, LAN xiaoru received a reply from the "main body" Luan xiaoru. After reading it, she couldn't help but be more shocked, ""Who's this Lin Yi? You actually want me to take responsibility for it, and even I can't interfere?"

It would be fine if she just didn't want her to interfere, but the thing was that the letter said that Lin Yi couldn't be dealt with, and that he couldn't be allowed to get into any trouble, or else professor Li would be under a lot of pressure. Lin Yi was a key figure in the whole situation, and he couldn't die just yet.

In the letter, Luan xiaoru also said that if there was a chance, it was best to try to win him over. Even if it couldn't be done, even if it was just a fake relationship on the surface, they still had to maintain a good relationship with Lin Yi for the time being. They couldn't start a conflict rashly, and they couldn't escalate the conflict. This was a death order, and anyone who violated it would be severely punished!

LAN xiaoru broke out in a cold sweat as she read the letter. Fortunately, she had not done anything stupid before, or she would have gotten herself into a huge mess. Compared to professor Li's main battlefield, the ancient plan that she was leading now was not even worth mentioning. If she really ruined professor Li's plan, she would not be able to atone for it even if she died a thousand times.

However, Luan xiaoru didn't point out Lin Yi's true identity in the letter. It was a matter of great importance, and with LAN xiaoru's current position, she didn't have the authority to know such confidential information. So, while LAN xiaoru was shocked, she couldn't help but feel confused.

But since Luan xiaoru said so, she could only do as she was told. She immediately passed down the order, especially to the doctor glasses. Although she was prepared to use Dafeng as an "insider" to keep

Lin Yi hanging, he wouldn't listen to the emperor's orders from the outside. If something went wrong, the doctor glasses might change his strategy at the last minute. After all, he did have the strength now.

In the transit islands, time passed day by day. Whether it was the prospective disciples who had just entered the sect or the experienced disciples who had long been Foundation establishment experts, everyone was working hard to cultivate. However, the former was to stay, while the latter was for the trials of the archaic Era.

Looking at the tense atmosphere of everyone training every day, Lin Yi felt like he was back to when he first came to the North Island. It was the same back then, all the items were still fresh in his mind, and he missed them just thinking about it.

Of course, with Lin Yi's current situation, he didn't need to go through the usual training like the others. It was just a projected soul, and before he could figure out a way to return to the Golden core stage, no amount of training would be of any use. He might as well take the opportunity to familiarize himself with the abilities of the soul.

On the other hand, Lingshan and the others-Lin Yi did give them enough Foundation Stage golden cores, but they weren't able to level up directly, and they didn't get their strength through hard work. Their foundations weren't strong enough, so their progress wasn't as fast as they thought.

This couldn't be helped-most people would start breaking through the barrier after reaching the peak of the Sky Class, but they'd already reached the peak of the Sky Class three years ago, and had been stuck at the same level ever since. With their lack of foundation, it was much harder to break through to the Foundation Stage than ordinary people.

Fortunately, they didn't have enough Foundation to make up for it with the help of Jindan, and coupled with the rich spiritual energy of this transit archipelago, just the external conditions alone were already

considered unique. In addition, there was no lack of excellent aptitude among them. Although it seemed that not everyone could smoothly break through, a few were already close to the critical point of the breakthrough, and he believed that he would hear good news soon.

At the same time, the operation of the bespectacled doctor's side was also making continuous progress. However, after a good start with Bing Wuqing and Xue Jianfeng, their progress in the past month wasn't much. At least, it was a lot worse than expected.

After all, they had to act in secret. In order to not attract the attention of others and alert the enemy, these people did not dare to be too obvious. From locking on the potential targets to gradually approaching them step by step, and finally officially roping them in, every step in the process had to be done carefully. Otherwise, if they were not careful, the matter would be leaked out, and it would be a great disaster.

"It's been a whole month and we've only managed to rope in two people. Isn't this too slow? the mysterious man in Black, aren't we being a little too careful?" Brother Dafeng pretended to complain.

"This is a matter of great importance, so we can't be too careful. Don't be impatient." The professor was the one who wanted to make progress the most, but he was surprisingly patient this time. In fact, it was mainly because of LAN xiaoru's special instructions last time when he went out to report the progress. Since they couldn't provoke Lin Yi, they couldn't expose any flaws in this kind of poaching. Otherwise, even if they didn't poach Lin Yi, it could develop into a direct confrontation with Lin Yi, and that would go against their original intention.

"But if we continue to develop at this rate, how long will it take for us to really expand our manpower? it's not even as good as when we were catching lone Masters outside. I'm afraid it'll be difficult to explain if the higher-ups ask, right?" Brother Dafeng asked curiously.

"It's okay. That was then and this is now. It's much more difficult to move around here than it is outside. We've already expected this, so the higher-ups won't blame us. Besides, our Center hasn't shown its true strength so far, so it's not easy to recruit people with just a few words. Let's take it slowly. " The bespectacled doctor sighed.

Bing Wuqing and Xue Jianfeng were special cases. They were both disabled people, and it was naturally easy to win them over when they were in despair. However, the other disciples of the ancient Alliance were different. Even if they harbored resentment against the ancient Alliance, they were not that easy to win over. Unless the person who was sent to persuade them had a deep relationship with them, it would be difficult to persuade them.

Take the two people he had managed to win over so far as an example. One of them was brilliant Dragon from the ancient five elements sect. He had a deep personal grudge against the senior brother leading the ancient five elements sect's team, so he resented the entire ancient five elements sect as well. In addition, Bing Wuqing had once saved his life by chance during an ancient trial. That was why he had been won over. Furthermore, it was all thanks to Bing Wuqing's personal appearance. If it had been someone else, they might not have been able to persuade him.

#### Chapter 5155 Mining Again

As for the other one, he was Jing Yueming from the thousand blades sect. Jing Taiyang had tried to win him over. The two of them were cousins. In addition, Jing Yueming's situation in the thousand blades sect was much worse than Jing Taiyang's. He was basically on the verge of being kicked out at any time, so he was easily persuaded by Jing Taiyang.

Apart from these two, the other targets were still in the stage of getting close to each other, and they were still thousands of miles away from actually roping in the other.

This was very normal. After all, everyone was usually cultivating. Even if they were fellow disciples, they rarely had the opportunity to get together. There were even fewer opportunities for them to have a real friendship. Under such circumstances, the probability of meeting the prerequisite of resenting the primordial Alliance was naturally very low. Moreover, the people of the primordial Alliance were extremely vigilant. If they did not have enough friendship before and tried to get close to them for no

reason, it would be as difficult as ascending to the sky. It was reasonable to only be able to win over two people in a month.

Time passed in the blink of an eye. In the blink of an eye, three months had passed since the prospective disciples had entered the transfer islands. On this day, for the first time ever, Xin Yijie gathered everyone on the small island where the transfer array was located. Although this Island wasn't very large and was only a tiny spot compared to the real islands, it was more than enough for a hundred or so people to stand on.

After everyone had arrived, Xin Yijie finally spoke up, ""Everyone, after three months, I believe that the prospective disciples of the various ancient sects have already familiarized themselves with the environment here, and their strength has also improved by leaps and bounds. Many of them are already on the verge of breaking through, and this old man would like to congratulate you all here, but everyone must continue to work hard and try to break through to Foundation establishment as soon as possible. Don't let down the expectations of the senior brothers of your respective sects."

"Yes!" The crowd replied in unison.

"There's one more thing that's also the main reason why I've gathered everyone here today. I believe everyone should have heard about the primordial trial by fire after so long, right?" Xin Yijie asked.

Everyone nodded their heads. This was not a secret. Even the prospective disciples of the secular world could find out about it from the senior brother leading the team or other senior brothers. After all, the primordial trial was something that all the disciples of the primordial Alliance were looking forward to the most. Someone would mention it every few days, so it was impossible not to know about it.

"Very good. So, from tomorrow onwards, we will start to prepare for the archaic trials." Xin Yijie announced.

"Prepare? What kind of preparations?" Everyone could not help but look at each other. Could it be that he was reminding everyone to improve their strength before the ancient trial began?

It was said that the archaic trials this time were extraordinary. If one's strength was insufficient, rashly joining was no different from courting death. Of course, for the prospective disciples, the most important thing was to break through to the foundation establishment realm. Otherwise, they would not be considered a member of the archaic Alliance at all. As for the archaic trials, that was even more nonsense.

"Don't misunderstand. The preparation I'm talking about isn't just for you, but for all of us. This is because we need spirit Jade to activate the teleportation array to enter the primordial age. This teleportation array has been sealed for a long time, and if we want to reopen it, we'll need a huge amount of spirit Jade. If we can't meet this condition, the teleportation array won't be able to be activated, and everyone's primordial age trial will be ruined." Xin Yijie explained the situation to everyone.

"Spiritual Jade? Where Can I Get this?" This time, not only the prospective disciples, but even the disciples of the ancient sects who were on training were looking at each other. They were not the higher-ups of their sects, nor did they have any deep background. How could they get such a rare thing as spiritual Jade, and it was not a small amount at that?

"Don't worry. According to the records of the primordial Alliance, there's a spirit mine under the sea of these islands. Although it's not easy to mine it, I believe it shouldn't be a problem for you. So, from tomorrow on, everyone here has to volunteer to mine spiritual Jade at the spirit mine at the bottom of the sea. Otherwise, you're not qualified to participate in the primordial trial. Do you understand?" Xin Yijie said.

"Elder Xin, are we going to confiscate all the spiritual jades we've mined?" Someone raised his hand and asked. This was also a question that almost all the disciples were concerned about. Even if they didn't mention the primordial trial, the underwater spirit mine alone was a great temptation for them. If the spirit Jade mined could be owned by them, it was believed that most people would never be lazy.

"That's not it. Considering everyone's enthusiasm, as long as more than one piece of spiritual Jade is excavated that day, the excess will belong to everyone." Xin Yijie chuckled. This rule sounded crude at first, and there seemed to be many loopholes to be exploited. However, this was only a temporary solution, and it was enough to motivate everyone. He believed that they would be able to collect quite a number of spiritual jades in the end.

Sure enough, everyone's eyes lit up when they heard this rule. If there was more than one piece, it would belong to them. This condition did not sound harsh at all. It was still very tempting.

However, there were still a few people frowning. Many of them were on the verge of a breakthrough, and it was a waste of time to participate in underwater mining at this time. After all, mining might not necessarily yield any gains, and a day of hard work was likely to be in vain.

"Of course, in order to take care of everyone's cultivation, the undersea mining will be divided into two groups. It will be changed every three days. If you don't want to go when it's your turn, you can skip it as long as you pay one spiritual Jade. Any objections?" Xin Yijie asked.

Everyone shook their heads. This arrangement was already very humane, and it would be difficult to raise any objections. Moreover, if they didn't participate, they wouldn't have the qualifications to participate in the immemorial trial. No one dared to take this risk.

"Hold on!" At this moment, Xue Jianfeng suddenly stood up and glanced at Lin Yi's group with bad intentions, ""Since everyone is going, shouldn't these people go too?"

"They aren't disciples of the archaic Alliance in name, and they didn't say that they had to participate in the archaic trials. Naturally, they don't have to go." Xin Yijie said, shaking his head.

Song Lingshan and Wu Chentian were on the verge of breaking through to the Foundation Stage, so they naturally wouldn't go to the mines. Just like Xin Yijie said, they didn't plan on going to the test yet, and this mining business had nothing to do with them.

"No relationship? How could it not be related? They occupy the island's cultivation resources for nothing, but when it's time for them to contribute, they don't care at all. I'm afraid this won't convince the public, right?" Xue Jianfeng snorted.

"But ..." Xin Yijie still wanted to argue, but the other ancient sect disciples were already starting to grumble. All of them had to work hard to mine, but Lingshan and the others were free and unfettered. This was really annoying.

At this moment, Lin Yi suddenly stopped Xin Yijie. Under everyone's gazes, he slowly walked to Xue Jianfeng and said, "You want all of us to mine?"

"It's only natural!" Xue Jianfeng said confidently.

"Good, what you said makes sense." Lin Yi nodded and suddenly threw out a big box. Everyone's eyes were blinded by the sight of it-it was full of spiritual Jade!

"This ... This ..." Xue Jianfeng and the others were dumbfounded, unable to speak for a long time.

"Here, these are all leave requests. If they're not enough, just ask me." Lin Yi smiled faintly. Lingshan's group was big, but one piece was enough for one whole trip. This big chest of spiritual Jade was enough for a few months of leave.

Xue Jianfeng was dumbfounded. Ziyu looked at him and raised her head in disdain. "We have a lot of money, so we're just that willful."

Chapter 5156 Rich Lin Yi

Everyone was gulping at the sight of the huge chest of spiritual jades, including Xin Yijie, who'd known all along that Lin Yi was rich. He couldn't help but be dumbfounded again, and even the expressionless Bing Wuqing was moved by it. He wasn't an ordinary disciple who'd never seen the world before, but even he was shocked by Lin Yi's generosity.

"This person is indeed not simple." Bing Wuqing couldn't help but take another look at Lin Yi. This was the first time she had met Lin Yi ever since they had left the ancient Alliance. Before this, she had only heard of his name because of Leng Leng. The only person she truly hated and feared was Lin Dongfang. As for Lin Yi, he didn't mean much in her eyes. To be more precise, he didn't have much of a presence.

But from this moment on, Lin Yi did have some status in his eyes. Everything else aside, just taking out so many spirit jades at once was already impressive in itself-this was a display of strength.

Of course, he only had a bit of status. Not to mention that he was now a late jiedan stage master, even if he was originally an early jiedan stage master, he would not really put a perfected Foundation establishment master in his eyes. At most, he was just a stronger ant.

"Since that's the case, there shouldn't be any more objections, right?" Xin Yijie said to Xue Jianfeng.

Everyone was looking at him as if he was a joke. Xue Jianfeng's face turned red. He wanted to continue to make things difficult for him, but the large box of spiritual jades was too eye-catching. Money can make the ghost turn the millstone. What nonsense could he say in such a situation?

"Very good. Next, I'll announce the grouping list. In the afternoon, the first group will begin mining, and the second group will be changed three days later. Since there are no objections, let's do it." Xin Yijie announced.

On paper, Lin Yi and the others were in the same group as the other disciples of the green cloud sect, but Lingshan and Chentian had used their chests of spirit Jade to apply for leave.

A moment later, Xin Yijie was about to bring the first group to the spirit mine when he turned around and was stunned. "Martial granduncle, are you also going down?"

"I don't have anything to do anyway, so I'll go down with you guys to take a look." Lin Yi nodded. He might look like he didn't care, but he was actually quite concerned about this spirit mine. After all, the ancient Alliance wouldn't be staying here for too long, and once they finished their training in the common world, this spirit mine would be ownerless. He could let song Lingshan organize people to continue mining.

Of course, there was a condition-the quality of the spirit mines had to be high enough. If it was a waste mine that couldn't even get a few pieces of spirit Jade in ten days or half a month, then it was completely useless. After all, Lin Yi didn't lack spirit Jade.

"Oh, I know." Xin Yijie immediately understood Lin Yi's intentions-he'd rather keep the mine to himself than let an outsider have it.

Lin Yi only smiled faintly, not explaining.

The islands were not deep in the sea, and the undersea spirit mine was almost on the extension of one of the small islands. The depth was only about ten meters. If there was diving equipment, this depth was not difficult for ordinary people, not to mention these powerful cultivators.

Of course, Xin Yijie wasn't going to provide them with any diving equipment, only some basic mining tools, so they had to rely on themselves to breathe. Although this seemed a little troublesome, it wasn't a difficult problem to overcome. Cultivators had long breaths, so as long as they mastered the underwater breathing technique, they could stay underwater for a long time.

Under Xin Yijie's lead, everyone dove into the sea and arrived at the spirit mine. Lin Yi looked around and was disappointed.

"From the looks of it, even if it's not a waste mine, I'm afraid it's not far from it." Lin Yi shook his head. He hadn't started digging yet, but he had the mining experience from the Beidao days. It wasn't hard to tell the good from the bad.

Judging from the spiritual Qi density of this underwater spirit mine, a person could get two or three spiritual jades a day if they were lucky. Otherwise, they probably wouldn't even be able to get one. This wasn't too bad for the other disciples who had to do voluntary labor, but it wasn't worth much in Lin Yi's eyes.

After saying goodbye to Xin Yijie, Lin Yi was ready to leave. He went to a place where there was no one around and habitually transformed into his spirit form. This was the most important thing he'd been training in the past few months-not only could it increase his combat power right now, but it'd also help him master all sorts of spirit techniques when he returned to Sky Class Island. It was killing two birds with one stone.

However, as soon as he returned to the surface, he saw Xue Jianfeng and another person slacking off while taking a breath. But Lin Yi was in his soul form now, and as long as he was careful, normal people wouldn't be able to find him under the cover of the water, even an early golden core Master like Xue Jianfeng.

"Brother Qin Yuan, have you considered the matter I told you about last time?" Xue Jianfeng asked. The two had chosen the most remote place on purpose, and they were the only two breathing in a hundred meters radius. With his early gold core senses, they didn't have to worry about people eavesdropping on them, not knowing that Lin Yi was floating right behind their heads.

"This ..." The other person hesitated and did not answer.

Qin Yuan? Lin Yi was taken aback by the name-he didn't recognize him before, but he had some impression of the name. This man was a training disciple of the Qingyun sect, a late-Foundation Stage. He'd seen him a few times, but they'd never spoken.

However, since Qin Yuan was a disciple of the Qingyun school on the North Island, with the current tense relationship between Xue Jianfeng and the Qingyun school on the North Island, why would this guy still be with Xue Jianfeng?

It was only a moment of confusion before Lin Yi quickly understood. It was most likely that Xue Jianfeng wanted to secretly rope in Qin Yuan for central. With the convenience of cultivating primordial spirit

techniques, Lin Yi had been monitoring the professor and the others 'every move almost every day. Naturally, he knew their every move like the back of his hand.

Even the ancient five elements sect's can long and the thousand blades sect's Jing Yueming were on Lin Yi's list of important targets. He didn't plan on provoking central yet, but he had to at least have a list just in case.

As expected, Xue Jianfeng was trying to win Qin Yuan over. Logically speaking, the best people to win over should be the fellow disciples who were on good terms with him. Unfortunately, Xue Jianfeng was always arrogant. Although there were many disciples who flattered him, there were almost no real friends with him. None of them were on his list.

Chapter 5157 How's The Food?

On the contrary, it was this Qin Yuan from the North Island's Green cloud sect who had lived together for a few days during the sect exchange in the past. They had a good chat. Most importantly, this Qin Yuan had once complained to him about the unfair distribution of cultivation resources. Moreover, after some indirect attacks, Qin Yuan's dissatisfaction with the sect had not lessened. Instead, it had become more and more resentful. It was an excellent target to win over.

Seeing that both Bing Wuqing and Jing Taiyang had managed to win over people, and that he was the only one who had not made any progress, Xue Jianfeng would be lying if he said that he wasn't worried at all. In terms of ambition, he was far more ambitious than Jing Taiyang, so he was naturally anxious to make a name for himself.

"You're still hesitating at this point?" Xue Jianfeng looked at Qin Yuan's expression and couldn't help but feel a little anxious. He patiently advised, ""Your uncle is in trouble, so you don't have any background in the North Island's Green cloud School anymore. I don't need to tell you how much cultivation resources you need to break through to the Golden core stage, right? Given your situation in the green cloud School on the North Island, do you think you have a chance, Brother Qin Yuan?"

"No, I didn't," Qin Yuan shook his head decisively. At his level, the most important thing was to break through to the Golden core realm. However, without sufficient cultivation resources, especially without the Golden core, this was simply a fool's dream.

"That's why I said, a dead man moves when the tree moves. Since you know that there's no future if you continue like this, why do you still insist on hanging on a tree?" Xue Jianfeng said earnestly.

"That's true, but isn't this betraying the sect?" Qin Yuan still found it difficult to make up his mind. Even though he had a deep resentment towards the green cloud School on the North Island, the education he had received since he was young was deeply rooted in him. Betraying the school was almost an unforgivable thing in the Orthodox concept. Most people did not have the courage to do so, and he, Qin Yuan, was naturally no exception.

"It's not as serious as you say. We're just secretly relying on you. There's no need for you to do anything to betray the sect. No one will know." Xue Jianfeng quickly dispelled his doubts and said, "Think about it, as long as you follow me, I guarantee that you will break through to the jiedan stage in a short time. At the very least, you will be able to reach the perfected Foundation establishment stage in a very short time. This is equivalent to your decades of hard cultivation!"

"Really? How short is 'extremely short'?" Qin Yuan's eyes lit up.

"One day," Xue Jianfeng was overjoyed. The last time he said this, Qin Yuan didn't have such an excited reaction. This meant that he was not far from success.

"What? A day?" Qin Yuan was shocked and almost sank down. He only recovered after choking on a mouthful of water.

"Brother Qin Yuan, do you know what realm I am at now?" Xue Jianfeng suddenly asked in a pretentious manner.

"Isn't he at the perfected Foundation Stage?" Qin Yuan was taken aback. He only knew that Bing Wuqing and Xue Jianfeng had suddenly taken some pills and recovered. Like the others, he didn't know their true strength.

Xue Jianfeng snorted complacently. He took the opportunity when no one was around to release his aura without holding back. Qin Yuan was stunned and stammered, ""Golden ... Golden core stage?!"

"That's right, you're at the Golden core stage. Now you finally understand what it means to fight with me. " Xue Jianfeng laughed proudly.

"Alright, I'll go with you!" Qin Yuan immediately nodded his head heavily without any hesitation. He had already been convinced, and now that he had seen the living example of snow Jianfeng, what else was there to hesitate about?

"Very good, but not now. People will be suspicious if you slip away without permission. Let's wait until the rotation." Xue Jianfeng was overjoyed.

Three days later, Xue Jianfeng brought Qin Yuan to the bespectacled doctor's place. After eating the improved elixir produced by the center, his strength skyrocketed and he quickly became a perfected Foundation establishment expert. However, he was not able to break through to the Golden core stage smoothly. After all, even Xue Jianfeng had only broken through from the perfected Foundation establishment stage to the early golden core stage. In terms of talent, Qin Yuan was no match for him at all. It was very normal for him to fail in breaking through to the Golden core stage.

Of course, even if he didn't manage to break through to the gold core realm, as long as he took the improved pills produced by the central, Qin Yuan would be on the same boat as Bing Wuqing and the others. He wouldn't be able to help himself, and it would be impossible for him to leave the boat.

After boarding the pirate ship, although Qin Yuan was not very willing, he had to come back and think of ways to rope in other senior and junior brothers to join the central secretly. Otherwise, if the bespectacled doctor did not give him the antidote, his life would be in danger.

"That doesn't make sense ..." Lin Yi saw everything. He could turn a blind eye to the professor and the others secretly recruiting disciples from other ancient sects, but now that even Beidao's Qingyun sect was targeted, he couldn't just sit back and watch. After all, he had a deep relationship with Beidao's Qingyun sect and they were considered half his people.

If Qin Yuan was the only one who secretly betrayed them, it would be fine. The key was that he would continue to rope in other senior and junior brothers. If this continued, a large number of people might suffer in the end. That would be a big joke.

Lin Yi wanted to get rid of this Qin Yuan, but he didn't want to alert the enemy. After thinking for a long time, he decided to capture him first.

One day, Qin Yuan was looking for a suitable candidate from his fellow disciples and found a Junior Brother he had a pretty good relationship with. He was about to strike up a conversation with him when Lin Yi called out to him.

"Martial granduncle, may I know why you've called for me?" Qin Yuan was a little flustered. After all, he didn't know Lin Yi at all. It gave him a bad feeling when Lin Yi suddenly called him that.

"Oh, I need your help with a small matter. Can you come with me?" Lin Yi said faintly.

"Help? Do you want this disciple to call for martial uncle Xin?" Qin Yuan said warily.

"No need, he's busy supervising underwater mining. Don't bother him with such small matters. You can do it alone." Lin Yi didn't give the man a chance to reject and turned to leave.

"This ..." Qin Yuan hesitated but still followed. He was a traitor and he was afraid that people would see something was wrong with him. Even Xin Yijie had to be careful with Lin Yi's request. If he rejected it, people would be suspicious. He could only take it one step at a time.

But luckily, he was a Foundation peak now-even if he couldn't beat Lin Yi, who was also a Foundation peak, he should be able to protect himself.

The two of them arrived at a remote area of the island one after another. Lin Yi finally stopped and turned around to size Qin Yuan up. "How does the improved pill from the center feel?"

Chapter 5158 What Do You Want

"W-what?" Qin Yuan was scared out of his wits by this sentence. He was inexplicably shocked. How did this guy know about the Central's improved medicinal pills?

"I've already made it so clear. What's the point of continuing to act dumb?" Lin Yi couldn't help but smile.

"You ... How did you know?!" Qin Yuan asked subconsciously. His joining central was a very secretive matter. Other than the doctor with glasses, Dafeng bro, and Xue Jianfeng, who developed him, there shouldn't be a fourth person who knew about it. But why did Lin Yi's tone sound like he knew everything?

"The archipelago is only this big. Do you still think it's flawless?" Lin Yi sized this guy up-this guy looked honest and kind, but he was a bit of a liar. A line popped up in his head-even a guy like you with thick eyebrows and big eyes would betray him!

"I don't understand what you're saying," After Qin Yuan came back to his senses, he looked around carefully and did not see anyone. However, he still did not give up. He pretended to be calm and asked in a deep voice, ""What do you want?"

"Hehe, you're still pretending not to talk about it. I really admire your spirit. You won't shed tears until you see your coffin." Lin Yi nodded, a playful look on his face. The only thing he didn't do was say "shameless" to Lin Yi.

"Senior granduncle, this disciple is only calling you senior granduncle out of respect for your seniority. This doesn't mean that this disciple can tolerate your unreasonable tantrums. You'd better conduct yourself with dignity." Qin Yuan furrowed his brows and repeatedly confirmed if there were other people passing by. This Island wasn't that big, but after all, there were less than thirty people gathered on the entire Island. Moreover, they were gathered at the two spiritual eyes. Normally, no one would pass by such a remote place.

"Interesting. What if I don't respect myself?" Lin Yi said with a confident smile.

"Then don't blame this disciple for being impolite." Before he could finish his sentence, Qin Yuan suddenly attacked without any warning. He used his strongest killing move without holding back. If Xin Yijie was on the island, he wouldn't have the guts to do this. He might really be forced into a corner by Lin Yi, but now that Xin Yijie was far away at the spirit mine, he still had a chance. As long as he killed Lin Yi before he was discovered, no one would know.

Like a snake, Qin Yuan's explosive speed was extraordinary. In the blink of an eye, he was already beside Lin Yi. He used a whip kick as a feint to attract Lin Yi's attention and then immediately followed up with an extremely hidden elbow strike. This was the killing move he was most proud of. Once it hit, it could easily break through the enemy's true energy defense and crush the enemy's bones, crushing them to death.

He had succeeded! Seeing Lin Yi not moving at all, Qin Yuan thought that Lin Yi was scared by his sudden attack. He was overjoyed. As long as the first style of breaking bones hit, he could immediately follow up with the second, third, and fourth style until the other party's bone armor was completely crushed.

Lin Yi spoke up all of a sudden, "Oh? The concept of this move is not bad, but to use it like this, it's really ... A mess!"

"What big words!" Qin Yuan laughed coldly. His elbow was only a line away from Lin Yi's back, and he was about to hit him. This so-called senior granduncle was just so-so!

However, at the last moment, Lin Yi's body strangely moved an inch to the right. After using his pure energy jet technique to create some distance, his entire body immediately became like a snake, twisting and turning strangely but extremely fast.

"This is ..." Qin Yuan was dumbfounded on the spot. He could not help but have an ominous premonition. Why did the other party's movement technique seem familiar?

Before he could react, Lin Yi had already wrapped himself around him, using a whip kick as a feint followed by an extremely well-hidden elbow.

Ka! Qin Yuan soon heard the sound of his ribs breaking. He was instantly overwhelmed by intense pain and fell to the ground powerlessly. He spat out blood and said with difficulty, ""Bone ... Breaking ... Kill ..."

"That's why I said that this martial skill is like casting pearls before swine in your hands. Don't you feel that it's an injustice?" Lin Yi shrugged.

Qin Yuan was instantly rendered speechless. Previously, he could still think that the other party was boasting shamelessly. However, the other party was able to imitate the shattering bones killer so well after only watching it once. Its power was much stronger than his original version. How could he reason with such a thing?

They were both at the perfected Foundation establishment realm, but why was there such a huge gap between their abilities? Qin Yuan wanted to cry but had no tears!

"If you want to fight or kill, just give me a quick one." Qin Yuan resisted the urge to continue vomiting blood and lay on the ground weakly. Although he had been secretly lured to the center by the sharpness of the snow sword, he showed some backbone now that he was on the verge of death.

"If it was as simple as fighting and killing, I would've done it long ago. Why would I waste so much time talking to a traitor like you?" Lin Yi said, looking down at him.

"What else do you want?" Qin Yuan's heart turned cold, and the backbone he had just now disappeared.

"Nothing much. It's not necessarily a bad thing for you to do some research." Lin Yi said as he knelt down and placed a hand on the man's head, sending a stream of warm Qi into the man's body.

Qin Yuan was scared out of his wits. It was already a very dangerous thing to have someone forcefully inject true energy into his body, not to mention that this was the weakest part of his body-his head. He didn't dare to move at all. Otherwise, if the other party's true energy were to go into disarray, he would become a fool even if he didn't die on the spot.

However, to Qin Yuan's surprise, the other party's true Qi did not run around randomly or destroy wantonly. Instead, there was an indescribable sense of comfort wherever it passed, as if it was looking for something in his body.

A moment later, the other party's warm true Qi drilled into his dantian. What shocked Qin Yuan was that this true Qi actually forced out the poisonous gas attached to the improved elixir!

This was Central's main weapon to threaten them. From the moment he had discovered this poisonous gas, he had been trying to force it out and dispel it. In fact, it wasn't just him; the others from Xue Jianfeng and the others were the same. However, including Bing Wuqing, who was the strongest among them, none of them had been able to force out this deeply hidden poisonous gas, let alone dispel it.

She didn't think that something as difficult as this would become so easy for Lin Yi-he didn't even need to use much strength from the beginning to the end, just like a cat catching a mouse ... "

#### Chapter 5159 Gu Control

Qin Yuan observed the scene in his body nervously. He didn't even dare to take a deep breath. He was shocked and suspicious. What was Lin Yi trying to do by suddenly taking out the hidden poison gas?

What happened next made Qin Yuan's heart jump up to his throat. Lin Yi's Qi was actually in his dantian, and it started a fierce fight with the poison. Both of the Qi were extremely strong, and they instantly turned the dantian upside down. Qin Yuan was in a state where he could neither live nor die. He was rolling on the ground in pain and wailing.

After an unknown period of time, Qin Yuan felt as if his entire body was about to fall apart. The unparalleled pain finally faded away. After surviving the disaster, Qin Yuan's entire body was soaked in cold sweat. He was completely exhausted.

"It seems that your perseverance is not bad. You actually managed to survive this calamity." Lin Yi was a little surprised, seeing the guy's confused face."Since you're still alive, you should carefully observe the situation in your body."

Qin Yuan was stunned for a while. When he looked at his dantian again, his face was filled with ecstasy. Lin Yi's warm true Qi had been slowly withdrawn, and the poison in the center of the improved elixir had disappeared!

Lin Yi didn't expect this at all. His five elements killing intent was almost invincible among all the pure Qi, and it was still very useful even at the five poison Dragon's level. The poison from the improved elixir was hard to deal with, but it couldn't escape the fate of being strangled to death.

"Many ... Many thanks, grand uncle-master!" Qin Yuan quickly kowtowed to Lin Yi. He thought that he was going to die for sure after everything was exposed, but things turned around and Lin Yi solved the poison that threatened his life.

"Why are you thanking me?" Lin Yi, on the other hand, was amused.

"This is of course to thank martial granduncle for saving my life. In the future, this disciple will definitely follow martial granduncle's lead and will not hesitate to go through water and tread on fire." Qin Yuan quickly expressed his loyalty. He wasn't an idiot, and Lin Yi's meaning was very clear. After discovering his betrayal, not only did Lin Yi not kill him, but he also removed the poison for him. There was no doubt that Lin Yi wanted to use him.

Betrayal was something he was familiar with. The first time Qin Yuan was dragged into the water by Xue Jianfeng, he was still hesitant, but this time, he was very agile. Since he could betray the green cloud School in the North Island, he could easily betray central and join Lin Yi's sect without the threat of the poison gas. After all, if Lin Yi wanted him dead now, it was too easy. He didn't even need to do it himself, just a word was enough.

"Oh, you seem to have misunderstood. I don't have any intention of saving you. I'm purely doing research. Now that I'm done with my research, it's time to send you on your way." Lin Yi said, curling his lips.

"What? On our way?" Qin Yuan was scared out of his wits again. His mood today was like a roller coaster. No matter how good his heart was, it couldn't take such a torment.

He couldn't care less about his pride anymore. He kowtowed to Lin Yi and begged for mercy. The pain had worn away his last bit of pride. He was willing to do anything to survive.

Qin Yuan was already half-dead from the torture, and after begging for a long time, he was lying on the ground, unable to get up. Lin Yi only opened his mouth when he saw Qin Yuan's breathless appearance, ""Fine, I've always been a soft-hearted person. Since you're so sincere, I might as well spare your life."

"Really? This disciple thanks martial granduncle for saving his life, and will never forget this great kindness!" Qin Yuan was immediately overjoyed.

"But ..." Lin Yi only said three words, and Qin Yuan's heart was in his throat again. He continued, ""I can't let you off for nothing. To be honest, I really don't trust a guy like you who has a past record of betraying the sect, not to mention that you've betrayed the sect twice in a row."

"Uh ..." Qin Yuan's face and ears turned red from his words. Although it was the truth, a man needs his face as well as a tree's skin. Moreover, he had just betrayed them not long ago. His skin was not thick enough to be impervious to fire and water. However, in order to survive, he hurriedly asked, ""Please tell me, martial granduncle."

"It's simple. The people in central don't trust you, so they want to use poisonous gas to control you. I don't trust you either, so I have to put a Gu on you." Lin Yi said faintly. He had prepared the same method he used on Wei shenjin. This was the only way to deal with people like Qin Yuan, or he would be bitten back sooner or later.

"Gu?" Qin Yuan's eyes almost popped out of their sockets. He couldn't help but wail in his heart. This was simply like leaving a Wolf's Den and entering a Tiger's Den!

"Not happy? Then I won't force you, I'll just send you on your way. " Lin Yi said nonchalantly.

Seeing that Lin Yi was about to make a move, Qin Yuan panicked and quickly begged for mercy,""No, no, no, this disciple is willing, this disciple is willing, this is what I should do. Senior granduncle, please bear with the burden and put the Gu on this disciple!"

Qin Yuan wanted to cry, but no tears came out. Lin Yi wanted to put Gu in him, and he had to beg for it. Wasn't this F \* cking cheap?!

Lin Yi found it funny as well, and just as he was about to cast Gu on Qin Yuan, a voice came from behind,""Hold on!"

Qin Yuan was delighted when he heard that. His Savior had arrived!

But before he could feel happy, the voice continued,""With your level of attainment, you still have the nerve to put Gu in people. Let me do it, so that I don't make a mistake and embarrass myself. In terms of the attainment of Gu, you are still thousands of miles away."

Plop! Qin Yuan's knees gave way and he fell to the ground again. Today's roller coaster had been full of ups and downs, and his heart couldn't take it ...

It was Lin Dongfang, naturally. Lin Yi turned to him."Why are you here?"

"Nonsense, you've tormented this guy so much that he's wailing like a ghost and howling like a Wolf. You've disturbed my afternoon nap so much that I can't even sleep. How can I not come?" Lin Dongfang said unhappily.

"We're seven or eight li away, how could I disturb your nap?" Lin Yi was speechless. Qin Yuan was indeed tormented just now, but he had to hold back his wails and howls. His wails weren't loud, and it would be weird if they could still affect Lin Dongfang.

"I have sharp ears and eyes." Lin Dongfang snorted and casually patted Qin Yuan's shoulder before saying, ""It's done,"

"Are you done?" Qin Yuan couldn't help but be stunned for a moment. He had thought that the Gu-casting process would be extremely painful, but who knew that Lin Dongfang would end it with a casual clap of his hands.

After carefully examining his body twice, he did not find any abnormalities. It was not until the third time that he vaguely found some clues. He felt that there was an additional tiny pinhole in his brain. It seemed that there was no impact, but when he carefully examined it, he had an inexplicable heart-palpating feeling, as if his life was in the control of this pinhole.

Chapter 5160 Playing Hard To Get

"Amazing." Others might not be able to tell what was going on, but Lin Yi was a man who knew what was going on. He was stunned by what Lin Dongfang had just done. Old Lin was indeed an old man, he was unfathomable.

"Learn from this in the future, kid." Lin Dongfang glanced at him disdainfully. Then, he looked at Qin Yuan on the ground and said, ""What do you plan to do with this guy?"

Qin Yuan's heart trembled. Lin Yi's answer would determine his life and death. Although Lin Dongfang wouldn't directly kill him, and Lin Yi had promised to spare his life, if Lin Yi asked him to do something against his will, he would still die.

"What do we do? Of course, go back to where you came from. Otherwise, all this effort would have been in vain. " Lin Yi grinned.

"Go back to where?" Qin Yuan was stunned.

"Ask yourself, the center worked so hard to help you go from a late-stage foundation building expert to the perfected foundation building realm. Shouldn't you repay them?" Lin Yi said, interested.

"This ... How do you repay me?" Qin Yuan was confused.

"It's simple. You just have to continue working for them and make them feel that they've found the right person." Lin Yi said.

"It's that simple?" Qin Yuan looked at Lin Yi in disbelief. He knew that Lin Yi wouldn't let him continue working for central after he put the Gu in him. He understood immediately."Oh, I understand. Martial granduncle, you want me to be your spy. Is that what you mean?"

"Wrong," Lin Yi shook his head.

"Ah?" Qin Yuan was dumbfounded for a moment before he said weakly, "senior granduncle, didn't you ask me to be a spy?" Then what do you want me to do?"

Other than a spy, he couldn't think of any other reason why Lin Yi would let him live. This was the best arrangement for him, after all, if central found out about his betrayal again, he wouldn't be far from death.

"To be precise, having an inside man is just the basic condition for you to live. If you still want to fight for a future for yourself, then you have to put in more effort." Lin Yi said faintly.

"Future? I still have a future?" Qin Yuan was stunned. In this situation, he felt that it was already a blessing from the heavens that he could keep his life. He did not dare to think about anything more, let alone his future.

"Don't you need it? Do you think you're satisfied just because you've reached the perfected Foundation establishment realm? Then forget it, just pretend I didn't say anything." Lin Yi said casually.

"No, no, no, martial granduncle, what are you saying? although this disciple doesn't have much ambition, I still have the ambition to go higher. If there's anything that this disciple can do for you, martial granduncle, just tell me. This disciple will definitely not hesitate to do anything." Qin Yuan said hurriedly.

"That sounds pretty good. Alright then, you go and trick Jing Yueming over. Just let him come here. Remember, don't let anyone know." Lin Yi said immediately. This was the real reason why he deliberately kept Qin Yuan. If it was just a spy, it was worthless to him. After all, he already had a higher level brother Dafeng. Secretly plotting a rebellion was Qin Yuan's greatest value.

"Jing Yueming? Who is Jing Yueming?" Qin Yuan was stunned. In order to ensure secrecy, these people from central would contact each other one-on-one when they were trying to rope in their targets. Usually, only the professor and brother Dafeng knew about it. The others did not know about it and did not meet with each other. Therefore, he did not know Jing Yueming at all. Similarly, Jing Yueming did not know him.

"He's a disciple of the thousand blades sect. At the same time, he's also a member of the central organization." Lin Yi said.

Although there were more than 20 experts of the ancient Alliance under the control of the central government, the number of targets he could turn against was very limited. After all, Jing Taiyang's 15 Foundation establishment realm experts had been brainwashed by the central government's drugs, and it would be difficult to turn them over. Besides Qin Yuan, there were only four people who had a chance of doing so. They were Bing Wuqing, Xue Jianfeng, can long, and Jing Yueming, who were also threatened by the poisonous Qi in their dantian.

Bing Wuqing and Xue Jianfeng were both golden core experts, so they weren't easy to deal with. The only easy targets left were can long and Jing Yueming.

"Really?" Qin Yuan was overjoyed. He hurriedly nodded. "Alright. I'll take action now."

"Remember, you have to pay special attention to avoid Jing Taiyang. He is the online development of Jing Yueming. Once he finds out, you are done for. Also, the Gu this old man gave you is not simple. Other than him, no one in the world can cure it. If you have any distracting thoughts, you're finished. "

Lin Yi said.

"I understand!" Qin Yuan was full of confidence. He had a distant relative in the thousand blade sect, and he had been there before. He knew a lot of people. Although he didn't know Jing Taiyang or Jing Yueming, it shouldn't be difficult to trick someone over.

As he watched Qin Yuan's departing figure, Lin Dongfang suddenly said, ""You're so assured to let him go alone?"

"What else can I do? I can't possibly follow you, right?" Lin Yi smiled and said nonchalantly, "this kid isn't stupid and he's afraid of death. He's the most suitable person for this kind of thing. It's best if nothing happens, but if something does happen, it'll be a warning to the people from central."

"Hehe, you're quite good at comforting yourself." Lin Dongfang laughed.

After half a day, Qin Yuan returned with Jing Yueming behind him.

"Tell me, what kind of secret mission is it? why did you bring me to the small island of your Qingyun school in the North Island? even Jing Taiyang has to avoid me?" Jing Yueming couldn't help but ask as they walked further and further away.

Jing Taiyang was Qin Yuan's superior and they were cousins. There was no reason for him not to know. However, since Qin Yuan knew about the doctor glasses and his team, it meant that they were indeed on his side. But what secret mission was this?

"You'll know when you get there. " Qin Yuan replied without turning his head.

"Hold on!" Jing Yueming suddenly stopped in his tracks and looked at Qin Yuan with a guarded look. ""Who are you? What's your purpose in bringing me here?"

"You're still doubting my identity at this time?" Qin Yuan turned around and looked at him in disbelief. Then, he continued to walk forward with an indifferent expression. ""If you're still suspicious, it's fine if you go back now. No one will stop you. But if the higher-ups ask later, don't blame me for telling you the truth."

This was a classic case of playing hard to get. They were only one step away from their destination, and if they showed any signs of panic, they would be exposed easily. Although this was the territory of the green cloud School on the North Island, and it was already impossible to escape from the moment Jing Yueming stepped onto the island, Qin Yuan knew very well that Lin Yi wanted everything to be done in secret. Otherwise, if others found out, his mission would be considered a failure.
