

Bodyguard 5161

Chapter 5161 Next Is ...

"This ..." Jing Yueming was indeed a little hesitant. The more calm and indifferent Qin Yuan was, the easier it was for him to believe him.

"Forget it. Since you're quite pleasing to the eye, I'll say one more thing. Joining central means that you'll have a fresh start. Under normal circumstances, you'll always be your online partner, because every time you have some credit for a mission, you'll be the one to get the meat and the soup. However, this secret mission is a rare opportunity. If you're willing to let Jing Taiyang ride on your neck and sh * t, then just pretend that I didn't say anything." After saying that, Qin Yuan walked away without hesitation.

These words had hit Jing Yueming right where he was most vulnerable. He was indeed Jing Taiyang's cousin, and he was also Jing Taiyang's underling. However, every time he saw Jing Taiyang acting all high and mighty in front of him, he dreamed of riding on his opponent's head. It was just that he had never had the ability to do so. Now, his chance had come.

"Alright, I'll go with you." Jing Yueming made up his mind and quickly followed Qin Yuan's steps. However, he was stunned after a while because the people in front of him weren't the doctor and Dafeng, but Lin Yi and Lin Dongfang.

"Not bad, you didn't let me down. Keep up the good work." Lin Yi smiled.

"Yes, then who's the next one?" This time, Qin Yuan was very self-aware. Not only did he want to live, but he also wanted to fight for a future. Moreover, there was almost no risk in this kind of thing as long as he was old enough. At least, it was much easier than fighting and killing. It was a waste to not take the credit for free.

"Ancient five elements sect, brilliant Dragon." Lin Yi said casually.

"Understood." Qin Yuan immediately set off again. Jing Yueming, who had come with him, was dumbfounded. What was going on?

"You ... You're also from central?" Jing Yueming looked at Qin Yuan as he left, and then at Lin Yi and Lin Dongfang. He was confused.

"It's not that you don't know what's good, it's just that you're comparing the goods. Before this, I thought that Qin Yuan was nothing, but now I feel that you have a good eye. At least you're not like this, stupid." Lin Dongfang looked at Jing Yueming and laughed.

"What do you mean silly?" Jing Yueming still didn't understand the situation and thought that Lin Yi and Lin Dongfang were the same as him. They were both Masters that were almost impossible to have in the secular world. Only if they were with central could it be explained. There was no other possibility other than the improved pills from central.

"Don't be so long-winded," Lin Yi didn't bother explaining to this dumbass who was still counting the money for him after being tricked. He directly stepped forward and sent a five-element killing Qi straight through Jing Yueming's head. Jing Yueming was only a late-stage foundation building master, so he couldn't resist at all. He fell to the ground with a wail and soon fainted from the pain. Compared to Qin Yuan, this guy was really far worse.

After getting rid of the poison in his dantian, Lin Dongfang personally poisoned him. The whole process was very smooth, and what happened after was even simpler. Jing Yueming was not only useless, but he was even more afraid of death than Qin Yuan. Lin Yi didn't even finish his sentence before he knelt down.

After Qin Yuan was Jing Yueming, and after Jing Yueming was canlong. Lin Yi used this method to break them down one by one, and he managed to get all three of them under his control. The progress was so smooth that it was unexpected.

"What are you going to do next? continue to find people to attack, or do you want to bide your time?" Lin Dongfang asked.

"Let's observe the situation first," Lin Yi said after some thought. From what he knew, the professor and his people were very careful. Other than one-on-one training, they would also send these people to their temporary base for physical examinations regularly. He didn't know if the things he did to Qin Yuan and the others would be found out, but he had to get through this before he could take it to the next level.

Sure enough, a few days later, Qin Yuan was taken out by the bespectacled doctor to do a physical examination.

On the one hand, it was to collect data and send it back to the center so that they could perfect the improved pill. After all, they were all rare human samples. On the other hand, it was to monitor the physical conditions of everyone. Once the poison showed signs of going out of control, they would be able to detect it in advance. If they found something that shouldn't be in the body, they wouldn't be able to escape such a comprehensive and strict monitoring. It was to ensure that there was no mistake.

Lin Yi didn't just get rid of the poison in their dantian, he even planted it in their brains. Although Lin Dongfang's actions were extremely secretive, it was still a big problem whether he could escape the detection of the high-tech instruments at central.

Even Lin Yi himself wasn't too sure about this-he could only wait for the results.

Fortunately, Qin Yuan's news was pretty good. The test results were normal from the beginning to the end, and there was nothing unusual. Lin Yi was still a little worried, but Jing Yueming and can Long's feedback were the same, and he finally relaxed.

It seemed like the Center's body test was unable to truly lock onto the poison gas in the dantian. It could only be discovered after the poison gas showed signs of going out of control. As for the tiny traces of Voodoo, even Qin Yuan and the others found it difficult to detect. It was reasonable that the high-tech equipment at the center couldn't detect it. After all, it was Lin Dongfang's work.

This result not only made Lin Yi let out a breath of relief, but Qin Yuan and the other two were even more shocked. Before, they only thought that they were unlucky to be targeted by Lin Yi. To be honest, they didn't think that Lin Yi was that strong, especially when compared to the mysterious central. They were on a completely different level, but after experiencing the physical test, it completely overturned this preconceived notion.

Lin Yi could easily get rid of the poison in the center, but the center couldn't detect anything wrong with the Gu Lin Yi had Lin Dongfang put on them.

"It seems that the situation is not bad. So, what's the next step?" Lin Dongfang asked with interest.

"Since central wants to stir up trouble in the dark, then let's play with them. One of them will develop, and we'll make the other defect. Let's see who can win." Lin Yi smiled faintly.

"Interesting. Other than Bing Wuqing and Xue Jianfeng, according to what you said earlier, they were the only ones who used poisonous gas to control others. Now that they've taken them all in, you're going to become half of Central's boss if this goes on." Lin Dongfang laughed.

"Isn't that good? with me, the behind-the-scenes boss, keeping an eye on them, they won't have to go around harming others." Lin Yi smiled. "Oh right, old man. I need your help with the next person. I can't handle him alone."

"Oh? You're not thinking of making a move on Xue Jianfeng, are you?" Lin Dongfang guessed.

"That guy won't do. He has too many grudges with me before. Even if I put a Gu on him, I can't really control him. Who knows, he might cause some trouble. Moreover, this guy has become very careful after suffering a few losses, so he won't be so easy to take the bait. I'm talking about the other one." Lin Yi said.

Chapter 5162 Sending A Letter Of Challenge

"Bing Wuqing? Hehe, you have a big appetite. " Lin Dongfang was overjoyed to hear that. He had heard that Bing Wuqing was a late-stage golden core cultivator. This level of cultivation was unimaginable in the secular world, and most people would avoid her like the plague. He didn't expect Lin Yi to want to recruit her in secret. Not only did he have a big appetite, but he was also frighteningly bold. Don't forget that Lin Yi himself was only at the peak Foundation Stage.

"It's just average. " Lin Yi didn't think much of it. It was true that he wasn't as strong as Bing Wuqing right now, but don't forget that he was still in the early stage of the mysterious Ascension realm. His true strength was comparable to a giant head realm master. Not to mention a late-stage golden core cultivator, even a late-stage nascent soul cultivator wouldn't be able to make him feel any fear. It would only make him want to make her his.

"Then how are you going to lure him here? I don't think there's much hope for either Qin Yuan or Canlong to go, right?" Although he had only fought with Bing Wuqing once, it was enough to tell that she wasn't a simple person. This kind of person was completely different from Jing Yueming and Canlong. It was impossible to lure her over without any reason.

"None of them." Lin Yi shook his head.

"So we'll have to pay them a visit personally?" Lin Dongfang asked in surprise.

"That's even more out of the question. It'll be too conspicuous if we go to other islands. We'll definitely be discovered." Lin Yi shook his head even more. After the previous incident, he and Lin Dongfang had become famous. Their every move was watched, and the most important thing was to keep it a secret. If the central found out about it, all their efforts would be wasted.

"You can't do this, you can't do that. You have to think of a way yourself." Lin Dongfang pouted.

"Don't worry, I've already thought of a way, but I'll have to trouble you to write a letter." Lin Yi said with a smile.

"What letter?" Lin Dongfang asked.

"A letter of challenge." Lin Yi smiled faintly. Bing Wuqing might look emotionless, but she was definitely the kind of person who was proud to death. Such a person would never let go of any failure. The last time he lost to Lin Dongfang was a humiliation that he had to wash away. Especially now that his strength had changed completely, this guy must be dreaming of avenging his past humiliation, but he just couldn't find the right opportunity. To be more precise, he just couldn't make up his mind.

Lin Yi believed that as long as Lin Dongfang sent the letter of challenge, Bing Wuqing would definitely throw away all her worries and come to fight. After all, from her point of view, she must have absolute confidence, and all she needed was an opportunity.

"Good boy, you're quite good at calculating." Lin Dongfang immediately understood Lin Yi's meaning and got a pen and paper. He wrote four big words, If you're not convinced, then fight!

Lin Yi picked it up and studied it for a long time before sighing, "These words ... Are so F * cking ugly!"

"Kid, are you itching for a beating? I'm imitating the style of famous people, I have eyes but failed to see!" Lin Dongfang cursed.

"It's ugly, isn't it? compared to what I saw on Sky Class Island, it's still a million miles apart. That's a Big Shot, and yours is simply unsightly. It's best to write less in the future, or you'll be laughed at. " Lin Yi said seriously, naturally referring to Shangguan Tianhua. He was one of the best calligraphers on Sky Class Island, after all.

Lin Dongfang was furious, but Lin Yi was long gone before he could do anything. He muttered, "It's really that ugly? It can't be ..."

Lin Yi wouldn't go personally to deliver the letter as it would attract attention. Of course, he couldn't let Qin Yuan and the others do it either, as it would make Bing Wuqing suspicious. So, he found a random North Island disciple to deliver the letter for him. After all, he was a senior granduncle that even Xin Yijie had to be respectful to. It was just a matter of a word.

As Lin Yi expected, after Bing Wuqing received this letter of challenge with only four words and no signature, she came to him without any hesitation.

There was no one else within a few miles, only Lin Dongfang, Lin Yi, and Bing Wuqing.

"I really didn't expect that you would actually issue me a challenge." Bing Wuqing didn't even look at Lin Yi and walked straight towards Lin Dongfang. In her eyes, Lin Dongfang was her only strong enemy. She had been defeated in one move when she was only in the early golden core stage. Now that her strength had changed, she naturally had to take revenge for the humiliation.

"Hold on," Lin Yi suddenly stopped him.

"Why?" Bing Wuqing frowned as she glanced at Lin Yi. She couldn't wait to fight Lin Dongfang right now. Everything else was just a hindrance.

"I'm bored, why don't you play with me first?" Lin Yi said with a smile.

"You?" Bing Wuqing's disdain was written all over her face. Not to mention the fact that she was a late-stage golden core cultivator now, even if she was only an early-stage golden core cultivator back then, she wouldn't really take Lin Yi seriously. After all, Lin Yi's actual strength was only at the peak of the foundation building realm.

"Overestimating your own ability, is it?" Lin Yi, on the other hand, didn't take it to heart at all. He was well aware that he was no match for Bing Wuqing with his current strength. He might be able to fight

against a late-stage golden core cultivator with his perfected Foundation establishment realm back then, but it wasn't realistic for him to do so with his current primordial spirit body. However, it wasn't a waste of time for him to be stuck at the perfected Foundation establishment realm for so long. He could use this opportunity to test out a new ability he had recently mastered.

"What do you think?" Bing Wuqing still had no intention of making a move. However, she had unleashed her signature emotionless ice power, which was at least ten or even a hundred times stronger than before. Even a perfected foundation building expert would find it difficult to withstand such a heavy pressure.

Lin Yi, on the other hand, didn't seem to be affected at all. He spread out his hands and said, "Is this the beginning?"

Bing Wuqing was stunned. She didn't expect Lin Yi's true form to be on par with a giant head realm master. Although the heartless ICE FORCE was a special force field that was combined with pure Qi, it was still a force field in the end. To suppress a freak like Lin Yi with just the force field was something that even a giant head realm master couldn't do. He was only a late-stage golden core cultivator, so he should just go to bed.

"Interesting. I'll play with you then." A strange look flashed in Bing Wuqing's eyes, and she immediately moved to attack Lin Yi. Her speed was at least among the top among experts at the same level as her, but to her surprise, Lin Yi's speed was much faster than hers. Even when she used all her strength, she couldn't catch up to the corner of Lin Yi's clothes.

"So this is all you have?" Lin Yi couldn't help but feel a little disappointed. Bing Wuqing's temperament was extraordinary, and he thought that she would at least be an expert who could make his eyes light up. He didn't expect her to be just so-so.

"Don't look down on others!" Bing Wuqing's face immediately turned dark!

Chapter 5163 How Did It End Up Like This?

He came to Lin Dongfang with confidence today to take revenge-if he couldn't even handle a mere Foundation Stage Lin Yi, then what was he supposed to do?

Before he could finish his sentence, an ice wall appeared around Lin Yi, forming a one-meter wide ice prison in the blink of an eye, trapping Lin Yi inside.

"Oh? This is a pretty good move. " Lin Yi nodded-he'd actually felt the Qi around him the moment the ice prison appeared, and it wouldn't have been hard for him to escape if he'd used all his speed. He'd only stayed behind because he wanted to test out his new ability.

But then again, Bing Wuqing's ice prison was formed at an extremely fast speed. For ordinary people, even if they could react in time, they wouldn't have the speed to escape, especially when they had to face the pressure of her ice power at the same time. It was indeed very difficult to deal with.

"You're really not afraid of death?" In the blink of an eye, Bing Wuqing was already in front of Lin Yi. Although the ice prison wasn't unbreakable, the moment the person inside broke out, he would definitely reveal his weakness, which would be enough for him to kill the other party.

"Will you kill me?" Lin Yi stood there with his hands behind his back, not thinking of breaking the ice cage at all.

"I'll give you a piece of advice. Those who think they're smart usually die miserably. " Bing Wuqing's body was suddenly filled with a thick killing intent. The doctor did say that they couldn't provoke Lin Yi for the time being, but he only mentioned it once and didn't tell them the deeper details. He could

follow his instructions normally, but now that Lin Yi had come to his door, he couldn't be blamed for being impolite. At most, he would be punished by central after the matter was over.

"Then, please." Lin Yi smiled faintly.

"Go to hell!" Before Bing Wuqing's voice had died away, her hands had already turned into a pair of sharp, indestructible ice claws. The speed was unbelievable, and a white light flashed, penetrating the ice prison and piercing Lin Yi's body.

"Then, can we start now, Lin Dongfang?" Bing Wuqing didn't look at Lin Yi again, turning around and walking towards Lin Dongfang. As for Lin Yi, who had been pierced through the chest by her Ice Claw, he was dead for sure. Since he was already dead, what was there to see?

But before he could take a step, Lin Yi's nonchalant voice came from behind him, "Hey, hey, don't you think it's a little too early for you to be so confident and turn back?"

"Why would I?" Bing Wuqing's eyelids twitched, and she subconsciously turned around to take a look. She was instantly dumbfounded. Lin Yi, who had been pierced through the chest, was actually completely unscathed, without a single wound on his body. Was that just an illusion?

Bing Wuqing didn't notice it herself, but Lin Dongfang, who was standing beside her, saw it clearly. He couldn't help but look surprised. "This brat is quite something. He can switch between his primordial spirit state and primordial spirit body state in an instant, and he can control the switch in a local area. If he uses it well, this is an amazing ability. It seems that these few months have not been wasted."

Just as Lin Dongfang had said, the moment Bing Wuqing's Ice Claw touched his body, Lin Yi had instantly switched that part of his primordial spirit into his primordial spirit form. That was why he didn't suffer any injuries even when his chest was pierced through. This was a new ability he had been trying to figure out recently.

Although he was only at the beginning stage, as he was still unable to completely switch between the primordial spirit form and the primordial spirit form in an instant, and could only control a small part of it for the time being, it was already a big deal, which could be seen from the shocked expression on Bing Wuqing's face.

In theory, Bing Wuqing, a late-stage golden core cultivator, had an overwhelming advantage in terms of both realm and strength. After all, Lin Yi wasn't like he was on Sky Class Island, where he couldn't fight an opponent of a higher realm. However, Lin Yi had the upper hand in this battle.

Her signature merciless ice attack had been completely ineffective at the start of the battle. Although she had immediately used ice prison to trap her opponent, she hadn't been injured at all after the ice Claw had pierced through her chest. Facing such a strange opponent, even Bing Wuqing couldn't help but feel a little helpless.

"How could this be? Who the hell are you?" Bing Wuqing didn't dare to act rashly. She couldn't help but recall the last time she had been beaten to the ground by Lin Dongfang, and an ominous premonition lingered in her heart.

"You can slowly figure this out in the future. Alright, old man, it's time for you to do your business." Lin Yi clapped his hands.

"You little brat, you really know how to order people around." Lin Dongfang pursed his lips in annoyance. However, even though he said that, he didn't hesitate for a long time and walked straight towards Bing Wuqing.

Although Lin Yi looked like he was in an invincible position, he was only at the peak of the foundation building realm. At most, he could only hold his own against Bing Wuqing. As for defeating her, it was almost impossible at the moment.

Seeing that the two of them didn't even take her seriously, Bing Wuqing was instantly enraged. She was indeed shocked by Lin Yi's godly methods, but it was impossible for her to think of backing out just like that. Otherwise, she wouldn't be Bing Wuqing.

"You all deserve to die!" Bing Wuqing immediately attacked with all her strength without holding back. The range of the heartless ice power was condensed into an extremely small area, but its strength was increased by more than a few times all of a sudden. Even the ground around them showed signs of sinking, showing its power.

However, Lin Dongfang just walked in casually, just like Lin Yi. He didn't show any signs of being suppressed by the merciless ice. Instead, he walked in a leisurely manner, and when he was two steps away from Bing Wuqing, he raised his hand and gave her an ordinary punch.

This punch looked ordinary, and there was nothing special about it. On the contrary, the speed of the punch was extremely slow. At first glance, it looked like there was no strength at all. Even an ordinary hooligan was much fiercer and more powerful than him. However, it was such an ordinary punch that caused Bing Wuqing's expression to change drastically.

The last time they fought, he didn't see Lin Dongfang's fist clearly. He only felt its power the moment he was hit. This time, he finally saw how the other party punched, but that was all.

In the face of Lin Dongfang's extremely ordinary punch, Bing Wuqing was completely unable to resist. It wasn't that she didn't want to, but that she couldn't move at all. At that moment, her entire body had been suppressed by the fist's momentum, which was as heavy as a mountain. The more she could see, the more irresistible the momentum was. In comparison, her heartless ice momentum was like a small sorcerer.

Her mind went blank. Although Bing Wuqing was now at the late-stage golden core realm, she felt even more helpless than the last time. After all, she didn't feel anything at that time. Now, the more powerful she was, the more she realized how terrifying this was. She could only smile bitterly in her heart. She wanted to wash away the humiliation with her current strength? she was simply ignorant and fearless.

Chapter 5164 Summoned By Central

However, Lin Dongfang's punch didn't land on his face. Instead, it stopped at the last moment, and he said, ""Still want to fight?"

"There's no point in continuing this fight ..." Bing Wuqing shook her head with a bitter smile. This punch was enough for her to realize the huge gap between their abilities. Although she didn't know what realm her opponent was at, or even if he was a cultivator, because she hadn't felt any true Qi fluctuations from the beginning to the end, she knew that she had no hope.

"That's good, it'll be troublesome if I really hurt you. " Lin Dongfang nodded. He knew that Lin Yi could heal people quickly, but his punch had definitely wounded Bing Wuqing quite badly. Even Lin Yi couldn't heal her in a short time, and it would be easy to arouse suspicion.

"What do you mean?" Bing Wuqing furrowed her brows. Although she had been filled with resentment ever since she had been crippled, the resentment had disappeared the moment she had realized the great disparity between them. This was human nature, and hatred would only exist between people of similar levels. Once they were on completely different levels, all that was left was admiration and fear, and the hatred would naturally become fleeting clouds.

"I mean, I'll give you a new owner. Why don't you consider it?" "Don't worry about the poison Central's using on you, I can handle it. "Lin Yi walked over with a faint smile.

"Are you kidding me?" Bing Wuqing's face darkened, and she was shocked. How did this guy know about all this?

"You'll know soon enough if I'm joking or not. " With that, Lin Yi reached out and used his five elements killing Qi to destroy the poison in the man's dantian.

With Lin Dongfang as a deterrent, Bing Wuqing resisted but didn't dare to get away from Lin Yi. Qin Yuan and the others were all in excruciating pain when they were killing the poisonous gas, but he didn't make a sound at all, except for his face that was a little ugly.

"You ... Who are you?" This was the second time Bing Wuqing had asked this question in such a short period of time, because she realized that the poisonous gas that had rendered her helpless was completely removed by Lin Yi in such a short period of time. Such a method was simply unbelievable, and coupled with the magical methods that he had displayed earlier, it was truly unfathomable!

"I've already said that I'll leave this question to you to slowly figure out. I believe you won't be disappointed." Lin Yi couldn't help but smile, "I know that you were forced to join the central. Since there is no longer the threat of the poisonous gas, why don't you make a new choice?"

"Do I have any other choice?" Bing Wuqing retorted.

"You're very smart, No. " Lin Yi's answer was very straightforward-if he'd given the guy a second option, what was the point of wasting so much effort?

Ever since he had returned to the transit islands, Bing Wuqing had been one of his main monitoring targets. The final result was that this person was very rational and pragmatic, and had no standpoint to speak of. This could be seen from the fact that he had agreed to join the central without hesitation back then. It was also because of this that he had made Bing Wuqing his target.

Bing Wuqing fell into silence, her eyes darting back and forth between Lin Yi and Lin Dongfang. Lin Dongfang's unfathomable strength? Needless to say, even with his late-stage golden core strength, he didn't have the heart to fight against him. As for Lin Yi, although he looked like he was only at the peak of Foundation Stage, he had all kinds of magical methods. He was also a super character that he couldn't see through.

Faced with this unfathomable duo, and the circumstances, it was just as Lin Yi said-he had no other choice, unless he died.

"What do you want me to do?" Bing Wuqing asked after a long while.

"It's simple, stay in the center and be My Spy. " Lin Yi said.

"Alright," he said. Bing Wuqing agreed without hesitation.

"Very good, you're indeed a person who understands the situation. However, to be safe, I'll still have to suffer a little." Lin Yi nodded and told Lin Dongfang to put the Gu in him.

This was within Bing Wuqing's expectations. No matter what he was thinking, at least he didn't show any signs of resistance on his face. Instead, he acted very cooperative. However, when Lin Dongfang finished casting the Gu on him, he was shocked again. He sighed to himself, thinking that these two guys were indeed extraordinary.

Bing Wuqing stood up to leave after Lin Yi had explained some things to her. However, before she left, Lin Yi suddenly stopped her and threw her a pill. "This is a gift for our first meeting. You should perform well in the future."

"Golden core? It's even a top-grade item!" Bing Wuqing's eyelids twitched. The Golden core was a pill that all cultivators at the peak of the foundation building stage and the Golden core stage could only dream of, especially when it was of the highest quality. The impact of this was even greater than the improved version of the pill that he had received from the center. Although the effect of the improved version was more intuitive and terrifying, for someone who knew what was good, the value of the highest quality golden core was definitely greater than this!

As he watched Bing Wuqing leave without a word, Lin Dongfang suddenly said, ""Why are you so generous to this guy?"

"He's worth this price. Don't you think so, old man?" Lin Yi asked.

"It's passable." Lin Dongfang didn't comment. At least compared to the other disciples of the ancient Alliance, including Xin Yijie, Bing Wuqing was obviously superior in all aspects. Her natural talent was also above average, and it was indeed worth investing more in her.

"In any case, I don't lack pills. The others don't need them, and you don't want them, so I'll give him a taste of it." Lin Yi said faintly.

"What do I want this for? It's useless!" Lin Dongfang scoffed at his pills.

"..." Lin Yi didn't know what to say. Any one of his pills would cause a huge commotion even in Sky Class Island, let alone in the common world. But old Lin didn't even care about it. He didn't know what to say.

"Alright, let's talk about the next step." Lin Dongfang asked casually.

"Alright, let's not think about snow sword peak for now. I plan to get Jing Taiyang and his people to study it. Although they are brainwashed by the central government's drug, and it's not as simple and direct as the poison gas, we might be able to find a way to deal with it." Lin Yi said.

"That's for the best. After all, 15 Foundation Stage experts are not a joke. After all, this is only the secular world." Lin Dongfang nodded.

On the other side, after Bing Wuqing left the exclusive Island of the green cloud School on the North Island, she received a summon from the doctor wearing glasses not long after. His heart skipped a beat, but he didn't dare to delay and hurried over.

Chapter 5165 Discovered

"Why did you go to the territory of the green cloud School on the North Island for no reason?" The bespectacled doctor asked, frowning. He hadn't paid attention to people like Qin Yuan at first, but Bing

Wuqing was an expert he valued the most. He paid close attention to her every move, and he would know immediately if there was any slight movement.

"Challenge Lin Dongfang." Bing Wuqing said calmly.

"Lin Dongfang? Why are you challenging him? Didn't I tell you guys not to mess with Lin Yi?" The doctor was shocked. LAN xiaoru had warned him repeatedly not to provoke Lin Yi. It was an order from the higher-ups, but now Bing Wuqing actually went to challenge Lin Dongfang. Wasn't she just looking for trouble?

"I didn't provoke Lin Yi, I only challenged Lin Dongfang." Bing Wuqing said, shaking her head.

"Lin Dongfang and Lin Yi are one, can't you even tell that?" The bespectacled man was furious. He admired Bing Wuqing and was willing to give her enough power to act on her own. However, this matter had crossed the line, and it was even related to his own future and life. He couldn't help but be anxious and angry.

Bing Wuqing remained silent, and the bespectacled battler was dejected for a long time before he finally said, ""Fine, fine, fine, I know you hate Lin Dongfang to the bone. After all, you fell into his hands. Now that you're strong, it's understandable that you can't hold back this thought. But this is a death order from the higher-ups, even I can't protect you if something happens! Tell me, what's the result?"

Lin Dongfang's strength was also a mystery, even more so than Lin Yi's to some extent. It wasn't a bad thing to use this opportunity to figure out Lin Dongfang's strength, but of course, the premise was that they didn't really piss Lin Yi off. After all, the higher-ups were counting on them to get on Lin Yi's good side and win him over.

"I didn't manage to." Of course, Bing Wuqing wasn't stupid. Since she had chosen to side with Lin Yi, she couldn't reveal Lin Dongfang's strength so easily. Besides, she didn't know Lin Dongfang's exact strength, only that he was unfathomable, and she was no match for him.

"Why?" The bespectacled doctor frowned.

"He didn't accept the challenge, and Lin Yi's standing next to him, so there's nothing I can do," Bing Wuqing shirked all responsibility. She wasn't afraid that the doctor would send someone to find out about this. Even if they did, they wouldn't be able to find out anything. After all, he didn't really fight with Lin Yi or Lin Dongfang. They just stopped there and didn't cause much of a commotion. No one else knew about this.

"I see. Then forget it. I'm still very confident in you. But remember, don't do it again, okay?" The bespectacled doctor tried to win her over.

"Yes." Bing Wuqing nodded in response.

"Also, you still have to work harder on winning over the disciples of the ancient Alliance. The progress is too slow and not ideal ..." The professor was halfway through his sentence when he saw snow Jianfeng walking toward him. He was stunned. He didn't summon this guy.

"Superior, this subordinate has something to report in private. What do you think?" Xue Jianfeng looked at Bing Wuqing, hesitating to speak.

"Then ..." The doctor was stunned for a moment before he nodded. "Alright, since there's nothing else I have to say, you can go back first, Bing Wuqing."

After Bing Wuqing had gone far away, Xue Jianfeng said, "My Lord, I think Bing Wuqing went to the green cloud School on the northern island. You didn't ask her to do that, did you?"

"No, but I've already asked him." The bespectacled doctor looked at him and said.

"Can long and Jing Yueming also seem to have gone to the green cloud sect in the North Island one after another. Do you know about this?" Xue Jianfeng asked.

"They all went? Qin Yuan told you?" The bespectacled doctor was shocked. It was fine if Bing Wuqing was alone. After all, she had a good reason to do so, and there was nothing to be suspicious about. But now, so many people had gone to the green cloud faction in the North Island, and they were all gathered at the same time. This was something that needed to be raised.

"You've misunderstood, my Lord. Although Qin Yuan is My Spy, I, Xue Jianfeng, am still a top figure in the ancient Alliance. Now that I have recovered my strength, there will always be some familiar faces in various sects. It's not difficult to find out what's going on." Xue Jianfeng said.

"Really? Then why didn't you show it before? since you have such a wide network, why did you only manage to develop Qin Yuan after such a long time?" The bespectacled doctor frowned.

"Hey, you misunderstand me, boss. Although I have a wide network and can report to them whenever I meet, I don't have a deep relationship with these people. How could I dare to develop them rashly? what if they're not reliable and something goes wrong? wouldn't that be bad?" Xue Jianfeng explained.

"That's true. How are Bing Wuqing's connections?" The bespectacled doctor asked. Compared to Xue Jianfeng, he obviously admired Bing Wuqing more. This was something obvious.

Xue Jianfeng's expression was stunned. He had come here not just to snatch, but mainly for himself. Although his current strength was far inferior to Bing Wuqing's, he was not willing to be under Bing Wuqing all the time. However, if the professor continued to develop like this, he would never be able to surpass Bing Wuqing in his life.

"Hehe, my superior, you might not know this. Although Bing Wuqing is stronger than me, strength alone isn't enough for her to make a name for herself in the small martial world of the immemorial era. It also depends on her background and connections. Not many disciples of the sects of the immemorial Alliance will buy into her, because there are no benefits to it. Usually, they will just keep a respectful distance from her. But I am different." Xue Jianfeng smiled proudly.

"What's different?" The doctor said in surprise.

"The reason is very simple. My father is the Vice sect leader of the snow sword sect. Once he is promoted, he will become the leader of the snow sword sect. You should know that the snow sword sect is one of the ten small sects in the ancient Alliance. Their influence is not small. Naturally, they will buy it." Xue Jianfeng boasted.

"That's true." The bespectacled doctor nodded. He was naturally aware of Xue Jianfeng's background. He had not paid much attention to him before, but his eyes suddenly lit up when he heard this. In that case, Xue Jianfeng's value was not inferior to Bing Wuqing's at all. Strictly speaking, he was far above Bing Wuqing if they were to consider the overall situation!

Although he couldn't see the doctor's expression, Xue Jianfeng could feel the change in his attitude. He was overjoyed and thought to himself that he didn't come in vain today. He quickly said, "My father has always been obedient to me. If our Center really develops into a small Jianghu in the ancient times in the future, I can help to rope him in. It'll also be a contribution to our Center."

"Very good, I'm very pleased that you have this thought." "But we can't be in a hurry," the doctor said. "We have to take things step by step. Let's settle the things on this Island first!"

Chapter 5166 Code Word

"Yes, thank you for the compliment. But it's just that I'm not strong enough yet. If I could reach a higher level, my words would be more powerful. By then, it wouldn't be a problem for me to win over the entire snow sword sect, let alone my father ..." Xue Jianfeng said deliberately.

"You want to improve?" If the bespectacled doctor still didn't understand what he meant, then he must be out of his mind. However, from the perspective of a superior, he didn't mind snow Jianfeng's thoughts. Besides, this guy was indeed worthy of being trained.

"Of course, if the higher-ups cultivate me well, I will definitely go through fire and water without hesitation." Xue Jianfeng quickly said.

"That's good too. The central headquarters has a key training program. As long as you perform well, I can recommend you to the higher-ups and ensure that your strength will improve by leaps and bounds!" The bespectacled doctor immediately agreed.

"Really? Thank you, my Lord!" Xue Jianfeng was overjoyed.

After a series of thanks, Xue Jianfeng left. The bespectacled doctor smiled and said, ""He has ambition, background, and ability. You don't say, he's really good."

"Why do I feel that this guy isn't very reliable?" Brother Dafeng came up and said. He had heard the entire conversation from the beginning to the end, and he had seen the performance of Bing Wuqing and Xue Jianfeng.

"You're thinking too much. With the threat of the poisonous gas, he won't dare to have any disloyal thoughts. Besides, it's a good thing that he's ambitious. Because of his ambition, he needs to rely on the strength of our Center even more. " The bespectacled doctor glanced at him and thought to himself, 'you're a traitor and you have the nerve to say this? you're really good at pretending.'

Dafeng frowned and didn't say anything else. He was still worried about how to contact Lin Yi. He knew that Lin Yi must be on the islands, but he couldn't go out alone. He wouldn't have the chance to tell Lin Yi.

"By the way, these people have all gone to the green cloud School in the North Island. We have to be careful about this." The doctor in glasses muttered.

"How?" Brother Dafeng asked.

"You don't need to worry about this, I have my own way." The bespectacled doctor sneered. The first person he had to be wary of was brother Dafeng. He could let brother Dafeng know about the things on the surface, but he couldn't say much about other things.

A few days later, Bing Wuqing was summoned for a physical examination as usual. Like the others, she didn't find anything wrong with her body. However, at the last moment, she suddenly had a change in expression.

Others might not have been able to sense it, but his perception was far beyond ordinary people. Otherwise, he would not have been able to master the heartless ICE FORCE. He clearly felt that something had been implanted into his body. Although it was extremely subtle, there was no doubt about it.

He didn't know what it was, but he immediately realized that it must be a high-tech device that central used to secretly monitor him. Otherwise, it wouldn't be so mysterious.

Bing Wuqing didn't dare to let her guard down. As the snow sword sect's martial uncle-leader, he had to mine like the other disciples. Lin Yi had told him before that if there was anything in the future, he could use the mining as an opportunity to communicate with them.

As expected, he saw Lin Yi while he was mining, but the two didn't get too close. They didn't talk when they were in a more remote area, only making a few hand gestures.

The hand gestures were strange, but Lin Yi understood what was going on very quickly. Something was implanted in Bing Wuqing's body, and it was very likely to be some kind of monitoring device.

"This is a little troublesome." Lin Yi furrowed his brows. If Bing Wuqing had something like this on her, it wasn't hard to imagine that other people had the same thing. If that was the case, it wouldn't be realistic to continue targeting Jing Taiyang and the others. Central's people were really alert!

Lin Yi didn't dare to be careless. This wasn't a small problem, and it was only thanks to Bing Wuqing's vigilance that she was able to notice it. If it were someone else, Qin Yuan and the others might not have noticed it, and they might have already given themselves away.

This was a sudden crisis, but it wasn't enough to make Lin Yi panic. After all, this was just a small scene to him, and it couldn't be compared to the wind and rain he'd experienced on the Sky Class Island.

"Don't be nervous. Since central is so cautious, we'll give them some face. Don't act rashly for the time being." Lin Yi didn't open his mouth, but his voice suddenly rang in Bing Wuqing's mind.

Bing Wuqing was stunned for a moment, but she immediately understood that Lin Yi was using the technique of true Energy Voice transmission. Ordinary people might not know it, but he was a golden core stage master who had seen a lot in the ancient martial world. He knew this technique, but he didn't use it often.

"Won't people know about the true Energy Voice transmission?" Bing Wuqing replied in the same way. She knew how to send a voice transmission, but she knew nothing about the technology of the secular world. She didn't know if she could hide her voice transmission from the technology.

"Of course not. You just don't understand the principles behind the monitoring device. It can monitor sound waves, but it can't detect true Qi fluctuations. No matter how awesome the central government is, it can't do it because technology and cultivation are two completely unrelated things. To truly combine technology and cultivation is not something that can be done in a few years or decades. It may be possible in the distant future, but it's impossible now." Lin Yi couldn't help but think of Han Jingjing as he passed on the message. When it came to combining technology with cultivation, this girl was definitely way ahead of everyone else. After all, there probably wasn't a second self-refining godly item in the world.

Lin Yi's explanation was simple and clear, but Bing Wuqing didn't get it. She didn't understand the technology of the secular world, so naturally, she didn't understand.

"Alright, I got it. So, we'll just wait and see?" Bing Wuqing asked.

"That's right. Let's wait and see. If there's anything, I'll inform you." Lin Yi nodded. Other than Bing Wuqing, he had to find an opportunity to warn Qin Yuan, can long, and Jing Yueming through voice transmission. He only contacted these people one-way. After all, there was no harm in being careful.

The first thing Lin Yi did after returning from the underwater spirit jade mine was look for Lin Dongfang. He smiled bitterly, "I just received news that central has already started to install bugs on Bing Wuqing and the others. It seems that they've been alerted after these people were found on our Island one after another. You don't have to do anything anymore, old man. For the time being, Jing Taiyang and the others won't be able to lay their hands on us."

"Hehe, it's within my expectations. It's very normal." Lin Dongfang laughed.

"Normal?" Lin Yi was taken aback. This wasn't something he had expected. If he had known that Central's alertness would be so high, he wouldn't have made such a big move. At least, he would've waited a little longer before making a move to get Bing Wuqing to betray him.

Chapter 5167 Lin Yi's Background

"Of course it's normal. I've long guessed that central isn't that easy to deal with. Back then, even your master didn't have much effect when he fought with central for so long. Your little tricks are just child's play at best." Lin Dongfang laughed.

"Children playing house?" The corner of Lin Yi's mouth twitched. Although it wasn't a big move to make Bing Wuqing defect from both his and Lin Dongfang's perspective, it was still different from a child's play ...

"What's wrong? You think it's not?" Lin Dongfang smiled as he curled his lips. Compared to Yang Ming's past, it wasn't an exaggeration to say that Lin Yi's life was like a child's play.

Lin Yi was amused as well, curious. "Since we have nothing to do now, why don't you tell me about my master and central? In the past, when I asked you these things, you always kept me in suspense. But now that I have some strength and ability, I can't continue to hide it, right?"

He had asked this question countless times since he was young, but Lin Dongfang had never told him. He had always said that he was not strong enough and that it would be useless to tell him. Since he had brought it up this time, he naturally had to ask out of habit, but he did not have much hope in his heart.

Unexpectedly, after a moment of silence, Lin Dongfang actually said, "Well, since we're already at this stage, it's good to tell you. At least you'll know what to do in the future."

"Really?" Lin Yi himself, on the other hand, was shocked. He was both excited and nervous at the same time. "Quickly say it! Hurry up and tell me!"

He couldn't be blamed for losing his composure. He knew very little about these things and had always been curious about them. It had almost become a worry in his heart. Now that Lin Dongfang had suddenly agreed, it was no wonder he was excited.

"Alright, but where should I start?" Lin Dongfang rubbed his forehead.

"Of course I'm going to start from the beginning. Don't keep me in suspense, hurry up." Lin Yi said impatiently.

"From the beginning? How long will it take for us to talk about that?" Lin Dongfang rolled his eyes at him and said, ""Then let's start with central. Do you know who the founder of central is?"

"Who is it?" Lin Yi quickly asked. He'd wanted to investigate central ever since the spirit projection came back to the common world. Other than the method of teleportation between the common world and Sky Class Island, there was nothing else he wanted to know more about. Only by knowing the founder of central could he truly understand its history.

"Li boliang, this man has super-era technology. The center was founded by him." Lin Dongfang said.

"Technology that is beyond the times? No wonder Central's technology is so powerful, it's because of this. " Lin Yi asked, "Then how did he end up fighting with my master?"

"Hehe, he didn't fight with your master Yang Ming at first. His biggest enemy was actually your grandfather." Lin Dongfang laughed.

"What? My grandfather? You know my grandfather?" Lin Yi was stunned. He had always thought that he was an orphan, an abandoned baby that Lin Dongfang picked up from the outside. Other than Lin Dongfang, his only elder was his master Yang Ming. But from Lin Dongfang's tone, he knew his own grandfather?

"Of course, your family has a deep grudge with central. If it wasn't for your grandfather snatching the goddess that others yearned for day and night, why would li boliang be so persistent with your family?" Lin Dongfang smiled.

"Ha? You even dragged my grandfather's generation into this?" Lin Yi couldn't believe it. He thought that the grudges were at most between li boliang and his master, but who knew that it was traced back so long ago? even his own grandfather was involved, and he even stole someone else's goddess?

"To be honest, your family's three generations are deeply entangled with central. Your grandfather fought with them, your parents fought with them, and your generation still continued to fight with them. Of course, your master, Yang Ming, is also fighting with them. This entanglement is not only deep, it's unfathomable." Lin Dongfang laughed.

"Old man, you know my parents? Can you tell me more about them?" Lin Yi said impatiently.

Although he had no concept of the words 'parents' since he was a child, nor did he have any direct impression of them, the words 'parents' had always been the words that he yearned for and were the most out of reach for him. It was just that he had always thought that he was an orphan of unknown origins, so he did not think too much about it.

Now that he heard Lin Dongfang say this, he was instantly excited. Even with his mental fortitude, he could not control it. The human heart was made of flesh, and tracing back to the source was an innate ability of everyone, it had nothing to do with strength.

"Your parents? Well, since we've come to this point, it's okay to reveal a few things to you. Your father is Liu Yezi, and he used to be a member of the supernatural Investigation Bureau. He and your master are life-and-death friends. " Lin Dongfang said briefly.

"Liu Yezi? My father's name is Liu Yezi?" Lin Yi quickly committed the name to memory, his heart full of shock. He never would've thought that his father was a member of the investigation Bureau, and that he was a life-and-death friend of his master. He quickly asked, "Then ... What about my mother? Oh, and since my father's surname is Liu, Why is my surname Lin?"

"It's simple. You took your mother's last name. Her name is Lin Yiyi." Lin Dongfang smiled and added, ""One more thing, she's my adopted daughter."

"Adopted daughter?" Lin Yi choked again as he looked at Lin Dongfang from head to toe, his mouth agape. "In that case, aren't you my grandfather?!"

"What else did you think?" Lin Dongfang laughed.

"I ..." Lin Yi choked on his words. He remembered everything from childhood to adulthood, and he didn't think much of it before, but it felt completely different now that he thought about it. He was speechless for a long time before he smiled bitterly, ""You've hidden it from me so well!"

For so many years, he had never known what his relationship with Lin Dongfang was. They were not master and disciple, nor grandfather and grandson. Every time he asked, there was no answer, so he could only muddle through it. Who would have thought that the old man was his grandfather!

"Hey, you can't blame me for this. If you want to blame someone, blame your own parents and your master. It's all their idea to let you experience extraordinary training from a young age. If I had told you earlier that I was your grandfather, would you still be so afraid of me? You're still so hardworking?" Lin

Dongfang pouted, "haven't you heard of this saying?" When the heavens are about to give a man a great responsibility, he must first suffer his will ... " "

Chapter 5168 Lin Yi's Background (2)

"Ugh ... That's true ..." Lin Yi could only smile awkwardly. Although he didn't have a deep hatred for cultivation like Shangguan LAN 'er and ning Xuefei, he was still very playful when he was young. All he thought about every day was going up the mountain to get bird eggs or going down the river to catch fish. If it wasn't for Lin Dongfang forcing him behind his back, he probably wouldn't have been able to become Yang Ming's master in the future, let alone reach his current level.

"Fortunately, you didn't embarrass me. You're not so useless." Lin Dongfang said in a tone of relief.

"Hey, you're my grandfather. Do you have to look down on me?" Lin Yi didn't know whether to laugh or cry. "By the way, you said that my entire family is fighting with central. What about you, old man? are you also Central's arch-enemy?"

"Me? My sworn brother, who is your master, is fighting with central. My daughter and son-in-law are also fighting with central. Anyone who has a bit of a relationship with me is fighting with central. What do you think my relationship with central is?" Lin Dongfang pouted.

"So you're saying you've been dragged onto a pirate ship?" Lin Yi said, embarrassed.

"That's not it. I'm already on the boat. Why would I drag it?" Lin Dongfang laughed.

"Then that's it. You should tell me more about my parents. I've been waiting for you!" Lin Yi urged again.

"If you really want to know about these things, you can ask them yourself when you see them in the future. Why are you asking me?" Lin Dongfang took the opportunity to keep him in suspense.

"..." Lin Yi was speechless, but he quickly reacted, surprised and happy, "I can still see them? They didn't die?"

"What are you saying? My daughter and son-in-law are perfectly fine. What kind of son are you? you haven't even seen them and you're already cursing them?" Lin Dongfang rolled his eyes at him.

"No, no, I was just too excited. That's why I spoke without thinking." Lin Yi shook his head. He thought that something bad must've happened for his parents to entrust their child to Lin Dongfang. No parent would just leave their child to someone else, even if the other party was a grandfather. Lin Yi was pleasantly surprised to find out that his parents were still healthy.

Lin Dongfang saw Lin Yi's complicated expression and explained, "There's no need to think too much. They have their own reasons for leaving you here with me. After all, only my place can be considered a rare Pure Land that is aloof from worldly affairs,"

"Yes." Lin Yi nodded. He was an open-minded person, and normal people might be stuck in a dead end, but he wouldn't think too much about it. As Lin Dongfang said, his parents had their reasons for making this arrangement, and he'd find out when they met again.

"Alright, if there's anything else you want to ask, hurry up and ask now. I'll say this first, I won't wait for you if you're late." Lin Dongfang urged. He could already smell aunt Qing cooking from a distance. Eating was obviously more important to him than talking to Lin Yi.

"Alright then, I'll ask something off-topic. I've asked you these questions a lot in the past, but you've never mentioned them. Why are you suddenly telling me so much today?" Lin Yi couldn't help but be curious.

"The sun must have risen from the West." Lin Dongfang said without any sincerity.

"Ugh ..." Lin Yi was speechless and smiled bitterly, "I'm asking so seriously and seriously. Even if you have to deal with it, can't you be more sincere? you're being too disrespectful!"

"Well, since you asked so sincerely, I'll be merciful and deal with it with sincerity. I didn't tell you this before because you weren't at a high enough level. It's useless to say more. But now, although it's still useless, at least it can guide you in the direction of work. You won't be stuck in the same place and become complacent. Is that good?" Lin Dongfang glanced at him and said.

"You're still insincere, but you're more like a human. " Lin Yi chuckled, "actually, even if you didn't say that, I wouldn't be standing still. I'm not only training for myself, but also for the people around me. For them, I can't stop."

That was the truth-his biggest motivation back on Sky Class Island was to return to the mortal world and save all the women he had met. It was also because of this that he didn't dare to slack off at any time, and in just three years, he'd risen all the way from the foundation early stage to the mystic Ascension early stage. It was a miracle that no one could understand, and even he himself found it unbelievable when he thought about it.

"Not bad, at least you have some sense of responsibility." Lin Dongfang gave a rare compliment.

"Oh right, there's one more thing I've been meaning to ask." Lin Yi suddenly took out his jade pendant and asked, "I'm sure you know what's going on with my jade pendant?"

Although he had gotten the Jade from the cave, he knew that the Jade's origin was not simple after he gradually discovered its magical properties. From Lin Dongfang's behavior, he could tell that the old man definitely knew about it, and it was very likely that the magical Jade was related to the old man.

Lin Dongfang pondered for a moment, as if reminiscing about the past, before slowly saying, ""Back then, your master, your father, and I were wandering in the miaojiang Valley. There, we met a very powerful Science and Technology doctor. His name was sun sikong."

"Wait! Sun sikong?" Lin Yi's mind flashed, and he jumped up in shock. "Isn't sun sikong Jing Jing's master? He's your friend?"

"Not only that, he's also a mad scientist under your grandfather. He came to earth to protect your father. From a certain perspective, it was his pair of magical glasses that created your master. That was the starting point of your master's journey from ordinary to extraordinary. Lin Dongfang couldn't help but feel emotional.

Thinking back, his days were just as legendary as Lin Yi 's-the dual fiends of King Kong were terrifying names, and now he was cooped up in the West Star Village. It was sad to think about.

"Then what does he have to do with the Jade?" Lin Yi asked, confused.

"The relationship is very simple. This jade pendant was made by him." Lin Dongfang's words were shocking.

"Ha? He made it? This thing can be man-made?" Lin Yi's jaw dropped-the longer he spent here, the more he realized how amazing this Jade was. He'd always thought that it was some kind of treasure, but sun sikong made it himself! What kind of technology was this?!

Chapter 5169 Lin Yi's Background (2)

"What else did you think? Not only this jade pendant, but all the caves and valleys that you encountered in the past were all arranged in advance by us to trick you. You don't really think that you've been hit by a pie from the sky, that you can have a fortuitous encounter just by walking a few steps, do you think there are so many fortuitous encounters in the world? do you think that this is a novel?" Lin Dongfang pouted.

"Ugh ... Just kidding ..." Lin Yi blushed. But thinking about it, he was young and playful back then. If it weren't for all these encounters, he wouldn't have trained so hard out of curiosity. These people really did put in a lot of effort.

"Now you know what it means to have a pitiful parent's heart. Just so that you can cultivate properly, so many of us have to follow and play with you." Lin Dongfang laughed.

"Wait a minute, since my jade pendant was made by sun sikong, what about elder Jiao? What's with elder Jiao? He can't possibly have created a living person, right?" Lin Yi asked.

"Not really, but Jiao yazi is a real person. He seems to be your grandpa's martial nephew or something. Anyway, it's quite a mess, I don't know the details. You can ask them yourself in the future. In short, your whole family and your master are in big trouble right now." Lin Dongfang said in a low voice.

"Is it because of this Center?" Lin Yi asked.

"That's right, it's the center! Li boliang was your grandfather's classmate. This person is no small matter. Sun sikong's technology level is powerful enough, right? In comparison, he's not inferior at all. Otherwise, central wouldn't have such advanced technology. This man is a great enemy!" Lin Dongfang said seriously.

He knew that the grudges between central and his family went all the way back to his grandfather's generation, but Lin Yi was still a little stunned by these words. He really didn't think that central and his family had been enemies for three whole generations!

In fact, he was still somewhat baffled until now. There was no irreconcilable hatred between them, but for some reason, they would always consciously and unconsciously walk on opposite sides and always have various conflicts. He even felt that the center was a trouble because of this. But now it seemed that this was already predestined!

From now on, he wouldn't just be doing small things to central-he wouldn't feel any guilt even if he went all out against them. After all, it was something he should do.

"Now that you've mentioned it, I'm under a lot of pressure." Lin Yi smiled bitterly, but his expression was firm. It didn't matter if he didn't know about it before, but it was different now. The burden on his body was heavier now that he knew about the powerful enemy, central. No matter who it was, they would feel the pressure. Even if he wasn't afraid of anything, he couldn't help but feel a little heavy.

"What kind of pressure do you have?" Lin Dongfang pouted and said,""Central is not to be trifled with, but so far, it has only been paying attention to you at most. It has not concentrated its strength on

dealing with a young boy like you. If we are talking about pressure, it is on your master and your parents. What they are facing is Central's true strength."

"Then where are my master and my parents?" Lin Yi quickly asked.

It was definitely impossible to be on earth. Otherwise, with modern means of communication, it was impossible for him not to receive any news. According to his speculation, it was either in another plane like the sky Class Island, or in outer space. Although the current technology of the secular world didn't sound too realistic, don't forget that whether it was the central or his side, sun sikong was far beyond the era of technology of the secular world, this was not entirely impossible.

"I'm not too sure about the details because I've never been there before. It should be in another dimension." Lin Dongfang's answer was as Lin Yi expected.

"The same as Sky Class Island?" Lin Yi's eyes lit up.

"There's still a difference. As far as I know, that's a transit point for the four-dimensional space. For some reason, they're now in a confrontation with the center there. I don't know what's going on exactly." Lin Dongfang sighed.

"Can I go?" Lin Yi's heart was suddenly filled with emotions. He had never seen his parents before, but he had absolute confidence in his master, Yang Ming, so he wasn't too worried about their situation. However, it would be a lie to say that he wasn't worried at all. Moreover, he really wanted to see his parents as soon as possible. This was human nature.

"You? What are you going to do with your strength? To become cannon fodder and a burden?" Lin Dongfang glared at him.

"Ugh ..." Lin Yi thought about how he couldn't even survive in the ancient alliance with the strength of his Yuan spirit body, let alone help his master Yang Ming and the others, ""What if it's my main body? Is an early stage profound rise realm enough?"

"Let's not talk about whether your strength is enough. Even if it is, I don't know how to get there. What's the point of asking me?" Lin Dongfang shook his head and said, ""The most important thing for you right now is to work hard on your cultivation. When you're strong enough, you'll be able to get twice the results with half the effort. As for the four dimensional space, you'll have to wait until you're strong enough to run amuck on the Sky Class Island. It's too early to talk about it now."

"I ..." Lin Yi hesitated for a while before nodding, ""Alright, I know what to do."

It was just as Lin Dongfang had said-he was still not strong enough. Although his original body was only in the early stage of mysterious Ascension and had the strength of a giant, this was far from being the top-tier even on the Sky Class Island. He was still far from the true top-tier Masters, not to mention the center of the mysterious world.

One day, when he really had the strength to run amuck on Tianjie Island, he could really help his master Yang Ming and his parents. Although he was anxious, he could only turn his anxiousness into motivation and work hard to cultivate, striving to reach the next level as soon as possible.

"Alright, I've said enough for today. You can ask them about the rest later. Let's go and eat." Lin Dongfang beckoned and went to grab the food.

Lin Yi wanted to ask a few more questions, but Lin Dongfang ran away faster than a rabbit (he was nowhere to be seen

Chapter 5170 Letter From Sky Class Island

Shaking his head with a bitter smile, Lin Yi helplessly followed. The old man had said enough today, at least he wasn't as clueless about Lin Yi as he used to be.

He had a clear goal and direction now, but he had no choice but to stop his original plan. Central's defense was so cautious that he couldn't continue to make them defect. He could only wait and see.

But what Lin Yi didn't expect was that the moment he stopped his plan, the professor's plan came to a standstill as well. They couldn't recruit any new disciples for a while.

On one hand, it was mainly because there were only a few disciples of the ancient Alliance that they were close to. Even Xue Jianfeng, who seemed to have a wide network, had only managed to develop Qin Yuan after so long. And even then, he was secretly turned against by Lin Yi, not to mention the others.

Those who weren't really close to Lin Yi wouldn't dare to say such things. If word got out, they would be done for. Besides, Bing Wuqing and the others had been secretly subdued by Lin Yi, so it was only natural that they wouldn't put in any effort.

On the other hand, even the bespectacled doctor himself was suspicious. Although he didn't find any signs of betrayal from Bing Wuqing and the others after installing the tapping device, the fact that they went to the green cloud sect in the North Island one after another still sounded an alarm in his heart. Secretly instigating a rebellion was like boiling the frog in warm water. He couldn't take too big a step, or it would be easy to pull the balls.

However, it was not a good idea to keep this stalemate going. There was nothing wrong with being cautious, but if there was no progress at all, he would not be able to answer to LAN xiaoru when she asked. The immemorial plan was a step that he had been planning for a long time, and he could not give up halfway.

Just as the professor was at his wit's end, the special envoy from the central headquarters of the secular world arrived unexpectedly, which shocked the professor. He had always been the one to report to LAN xiaoru regularly, and this had never happened before. The central headquarters actually sent a special envoy. Could this be LAN xiaoru's punishment?

"Envoy, may I know what business you have for coming here this time?" The doctor asked carefully.

The special envoy did not answer directly. Instead, he looked at brother Dafeng with some vigilance. His meaning was obvious.

"Oh, that's right. Dafeng, go and patrol the surrounding area. See if there are any abnormal situations." The bespectacled doctor immediately understood and sent brother Dafeng away.

"Yes." Although brother Dafeng really wanted to stay and listen to what was going on, there would be too many flaws in doing so. He could only choose to nod and agree. He thought that if there were any secret operations, even if he didn't directly participate in them in the future, he would definitely be able to find out some clues.

After brother Dafeng left, the special envoy took out two letters from his pocket and handed them to the doctor. "This is a secret letter from professor LAN to you. He has commended and acknowledged

your achievements during this period of time. He hopes that you will continue to work hard and push the primordial plan to a higher level, so as to lay the best foundation and prepare for the future."

"Very well, thank you for your praise, professor LAN. Thank you for your trouble, envoy." The bespectacled doctor heaved a sigh of relief, but when he took the letter, he was stunned. ""Why are there two letters?"

"Other than the secret letter professor LAN gave you, there's also a letter from Sky Class Island. Professor LAN specifically asked you to deliver it to Lin Yi under the name of Central Express delivery." The envoy said.

"A letter for Lin Yi? Well, didn't the central Express stop this business a long time ago? why did it start again?" The bespectacled doctor was surprised. He took the letter and carefully looked at it. He was about to tear it open to see what was inside.

However, the envoy stopped him and said seriously, ""Before we came, professor LAN specifically told us that anything related to Lin Yi is top secret, including herself. No one in the headquarters can look into it, this is the order from the higher-ups."

"This ..." The doctor choked. He remembered LAN xiaoru's warning not to mess with Lin Yi, and he couldn't help but be curious. Who was this Lin Yi? why did the higher-ups value him so much?

He felt like his heart was being scratched by a hundred claws-the more his superiors acted this way, the more curious he became. However, he knew that curiosity killed people, so he didn't dare to peek at Lin Yi's letter in the end. It would be bad if he accidentally saw some big secret. After all, the more he knew, the faster he would die.

"But how do I get this letter to Lin Yi? Don't tell me we'll just be exposing ourselves in public if we send someone to our door?" The doctor couldn't help but have a headache.

"Professor LAN has said that this is your business. If you can't even handle such a small matter, then what's the point of talking about the immemorial plan?" The envoy relayed.

The corner of the bespectacled doctor's mouth twitched. If this guy wasn't lan xiaoru's special envoy, he would have slapped him 14000 times for his tone. But in the end, he suppressed it and said in a deep voice, ""Alright, I'll make the arrangements."

He couldn't just send the letter to Lin Yi directly-that'd be the same as exposing himself to the Alliance, and he'd never be able to come up with any plans for the immemorial Alliance again.

However, since LAN xiaoru had given the order, he had to deliver the letter. The doctor glanced at Dafeng in the distance and had a thought. If he could get this traitor to secretly leak the letter to Lin Yi, it wouldn't be a problem.

However, she rejected the idea after thinking about it carefully. After all, this was a letter reply. She would need Lin Yi to reply to her. Lin Yi couldn't just secretly send the letter back through Dafeng bro, right? that would be too ridiculous.

"No, the central Express delivery can't possibly appear on this transit archipelago. This letter can only be sent to the secular world at most. It's reasonable for them to send it in by their own people." The bespectacled doctor muttered to himself for a long time before he suddenly smacked his head."Right, the supernatural Investigation Bureau!"

Although there was no one left in Lin Yi's Villa, the investigation Department couldn't follow him in. They were his main source of influence and control over all the cultivation forces in the secular world. As long as the letter reached the investigation Department, it would naturally reach Lin Yi.

In fact, it was just as the doctor had expected. In order to ensure the stability of the secular world, Lin Yi would come out every once in a while to talk to Feng Tianlong from the supernatural Investigation Bureau, and the letter was delivered to him very quickly.

Lin Yi was quite surprised to receive a letter from Sky Class Island-since when did central start doing this delivery business between Sky Class islands and the common world?
