

Bodyguard 5171

Chapter 5171 Reply Letter

It was only after reading the letter that Lin Yi realized that central was giving ao Tian state face. As expected of a Big Shot from a super house. Even central had to treat him with care, and Lin Yi was far from that.

Other than expressing his concerns, Tian Gang also mentioned the situation of the heavenly elixir Pavilion in the letter. Lin Yi frowned as he read it, but there was nothing he could do in the current situation. After all, even a clever housewife couldn't cook without rice. Without enough high-grade elixirs, their business would gradually be taken away by a famous sect with a seventh-realm Alchemist, Zheng Dongsheng, personally overseeing it.

From the start, Lin Yi only had three months to prepare for the spirit projection. According to Nantian Aurora, three months was basically the limit of the spirit projection, so the high-grade pills he prepared in advance were only enough to last three months. He didn't expect that because of the unexpected surprise of the star Black coal, he could last until now without any injuries. It was expected that the heavenly elixir Pavilion would be in a difficult situation.

But now that things had come to this, the heavenly elixir Pavilion could only rely on Tian Gang and the others to continue holding on. Although it seemed like Lin Yi had nothing to do in the secular world, the ancient Alliance had emerged after all, especially with the test of the ancient world coming up soon. If he had the chance, he would go and investigate it himself. In comparison, the heavenly elixir Pavilion's situation was a small matter.

Fortunately, the heavenly elixir Pavilion was only in a difficult situation. With the good reputation that they had built up over the past few years, at most, their business would shrink a little, but they would not face the desperate situation of closing down. Moreover, with the big boss of the AO Tian state looking after them, the famous medicine sect would at most do some dirty tricks in the dark. They would not suffer any serious injuries. The heavenly elixir Pavilion was still as stable as Mount Tai.

As usual, it was a return letter, and Lin Yi replied to Tian Huan and the others as soon as he finished reading it. Other than giving them a brief introduction of his situation to make them feel at ease, he also mentioned something else in the letter-he wanted them to gather the practitioner's Arts from the sects on Tianjie Island.

This wasn't purely on impulse-he'd had this thought a long time ago, even when he'd used the [art of clear skies] to intimidate Xin Yijie. He'd already been thinking about collecting more of the sect's Arts.

It didn't need to be very profound and exquisite, as long as it was the introductory heart technique of the Sky Class island's various sects. Then, he would not only be the Grand uncle-master of the North Island's Qingyun school, but he believed that no matter which ancient sect he went to, he would be treated as a grand uncle-master. Especially if he wanted to further contact the ancient Alliance in the future, these sect heart techniques would be the best stepping stone.

Of course, with just Tian Gang's abilities, it wouldn't be easy to collect all the practitioner's Arts on a large scale. After all, these were all the sects "secrets, and even the most basic ones were never made public. There were only two ways to get them, either by bribing the inner disciples of these sects, or by buying them from the black market at a high price.

With the heavenly elixir Pavilion as a money-making tool, Tian Gang and the others didn't lack spiritual jades. As long as the cultivation methods of the various sects were available on the black market, it shouldn't be difficult to get them. The difficult part was the tight-lipped Sky Class sects. If they didn't even have them on the black market, then it would be a little troublesome.

However, Lin Yi still said it in the letter. He believed that Tian Gang would help him with this. Even if he couldn't buy it on the black market, he would think of other ways. Of course, he only said that the more the better. He didn't say that he had to get all of them. It didn't matter if he couldn't get them.

The reply was sent out very quickly, because the other party had already said before sending it that they would pick up the package at the supernatural Investigation Bureau three days later. As for how they knew the address of the supernatural Investigation Bureau, there was no need to pursue it. After all, the level of confidentiality of the supernatural Investigation Bureau was not high. Basically, all cultivation forces knew the address of the headquarters, so it was naturally not difficult for the central to find it.

After that, Lin Yi went back to his peaceful life. Other than learning some practical spirit sense techniques, he spent the rest of his time paying attention to Lingshan and the others.

After these few months of training, along with the dense Qi and the high quality foundation Stage golden pills Lin Yi provided, they were all at the threshold of breaking through, one after another, despite the difficulty of breaking through. They were only one step away from the Foundation Stage.

However, this last step was as difficult as ascending to heaven for the vast majority of people. Many people were unable to take this last step even in their entire lives. It required not only talent and aptitude, but more importantly, perseverance and determination. If they could not cut off all means of retreat, building the foundation was destined to be an unattainable dream for them.

Lin Yi knew all of this, but there was nothing he could do. He could only wait, wait for the moment when everyone realized what was going on.

On the other hand, the doctor's curiosity towards Lin Yi was getting stronger and stronger, especially after he sent the letter. He was constantly trying to figure out who this Lin Yi was!

It was a pity that he had LAN xiaoru's strict orders-he didn't dare open Lin Yi's letter or test him. After all, if he messed up, he'd lose not only his future, but his life as well.

But even so, he could tell from the cautious attitude of the higher-ups towards Lin Yi that Lin Yi's true identity was an extremely powerful existence. If they could figure out a way to get to the bottom of it, it might be a big success. Of course, this was under the premise that no one knew about it. Otherwise, it would be a big problem if the news was leaked.

Just as the bespectacled doctor was hesitating and twitching, Xue Jianfeng came uninvited and tried to probe, "Boss, the intensive training program you told me about last time, I wonder if it has been approved?"

"Hehe, you're really impatient. The focused training program means a lot of resources, and the quota is extremely precious and rare. Only a few people in the entire Center can receive such treatment. You need to weigh all aspects and determine that you have the value of focused training. It's only been a few days, how could you have been approved so easily?" The bespectacled doctor shook his head and smiled.

"Yes, yes. I'm just eager to make a contribution. I want to improve my strength as soon as possible so that I can draw the ancient Alliance to our side." Xue Jianfeng said.

The bespectacled doctor looked at him and thought to himself that this guy was really thick-skinned. He couldn't help but laugh. "You don't have to worry about this. I still have some say in the center. As long as you perform well, this place for intensive training will be yours. Just wait patiently."

Chapter 5172 Snow Sword Peak's Idea

"Many thanks to the higher-ups for the promotion." Xue Jianfeng quickly expressed his loyalty, and then laughed awkwardly, "This subordinate has been looking for a suitable target recently, but because I don't have a reliable friendship, I dare not speak rashly to be on the safe side. But please rest assured, this subordinate has always been doing his best for the affairs of our Center. I believe that there will be new progress soon."

In order to beat Bing Wuqing, he was now trying his best to achieve something. If he wasn't afraid of something happening, he might have already created a bunch of downlines.

"There's no hurry. It's better to be safe than sorry. We can't be greedy and advance rashly." The bespectacled doctor solemnly warned. He thought for a moment and suddenly said, ""Right, how much do you know about Lin Yi?"

"Lin Yi?" Xue Jianfeng was stunned and scratched his head, ""I don't know much about him. I only know that he is the president of the cultivators 'Association in the secular world and the Grand uncle-master of the green cloud School in the North Island. That's all."

"I see ..." The bespectacled doctor fell into deep thought. What Xue Jianfeng said was only on the surface. It was easy to find out. These two identities could be used to scare ordinary cultivators, but it was pure nonsense to say that the entire central was afraid of them.

"Could it be that the higher-ups want to make a move on Lin Yi?" Xue Jianfeng observed Lin Yi's expression and was happy at the same time. He hated Lin Yi to the bone, and if it wasn't for the higher-ups stopping him, he would've made a move already.

"No, no, no, don't think too much. I'm just curious about Lin Yi's identity. The higher-ups have ordered us not to mess with him, so don't cause trouble for me." The doctor shook his head.

"Then ... I'll think of a way to find out?" Xue Jianfeng was in a hurry to show off, so he immediately took the initiative to ask.

"You? What can you think of?" The bespectacled doctor couldn't help but suspect that Lin Yi was from the common world. What could Xue Jianfeng, a guy from the ancient Alliance, find out?

"People always come up with ideas. As long as we try a few more times, we will always have some gains. Don't you think so, my Lord?" Xue Jianfeng sneered.

"But we can't mess with Lin Yi," The bespectacled doctor was still worried.

"Yes, we won't mess with Lin Yi, but we didn't say that we can't touch anyone around him, did we?" Xue Jianfeng rolled his eyes and suggested. He didn't know about Lin Yi's background, but Song Lingshan and the others should know something. As long as he could get them to talk, he would be able to get something out of them.

"You want to start with the people around him?" The bespectacled doctor was also interested, but then he shook his head and said, "That's not very realistic. Those people are all training in the Qingyun sect's territory on the northern island. Lin Yi and Lin Dongfang are always with them, and with Xin Yijie's help, it won't be that easy to find a breakthrough from them. Plus, if you want to make a move on them, you'll have to go through Lin Yi. It's useless if you have to face him directly. "

"That might not be the case," Xue Jianfeng pinched his chin and sneered.

"What do you mean?" The bespectacled doctor frowned and looked at him, not knowing what he was up to.

"Under normal circumstances, it's indeed very difficult for us to find an opportunity. However, the trial Competition is in a while. If we operate properly, there might be an opportunity." Xue Jianfeng said, pretending to be profound.

"The trial Competition?" The doctor was stunned.

"That's right. This is a tradition of the archaic Alliance. Every time before the archaic trials, there will be a Trial Competition. Only disciples with sufficient strength can participate in the archaic trials. Otherwise, they will only be sending themselves to death. Although the archaic trials this time are a little special, as long as there are no accidents, this tradition will definitely not be lost." Xue Jianfeng explained.

"So what? Even if it's the trial Competition, that's your business. What does it have to do with Lin Yi and the others?" The doctor still didn't understand.

"That's not difficult. Since they're all stuck on the transit islands, it's not difficult to force them to participate in the trial Competition." Xue Jianfeng smiled confidently. It was the same as last time when he forced Lin Yi and the others to participate in the underwater mining. He just had to use the same trick this time. Besides, anyone who wanted to participate in the test had to pass the test first. If Lin Yi and the others had any illusions about the test, then they couldn't avoid it.

"But even if they do participate in the trial Competition, what does it have to do with what we just said?" The bespectacled doctor asked.

"Of course there is. Think about it, the reason why we're helpless now is that Lin Yi and those people around him are all hiding in the Qingyun sect's territory and not doing anything. As long as we focus on killing one or two of them in the competition, Lin Yi will definitely get angry with me. At that time, whether I lure him out or he does something else, we'll always find an opportunity, don't you think?" Xue Jianfeng said proudly.

The bespectacled doctor pondered for a moment and finally nodded. "That's a good idea. As long as we can stimulate him, we'll naturally be able to find his flaws. It'll be much more convenient for us to deal with any follow-up actions in the future."

"That's right, and we won't go against the orders from the higher-ups if we do this. First, we didn't attack Lin Yi directly, and second, this is the ancient Alliance's competition. It's perfectly reasonable to accidentally kill someone, and no one can blame anyone for it." Xue Jianfeng chuckled.

"Alright, let's do it that way. I'll leave this matter in your hands then. When you're done, I think that the application for focused training should have been approved. Don't Let Me Down." The bespectacled doctor immediately agreed.

"Yes, then please wait and see." Xue Jianfeng was overjoyed. He couldn't deal with Lin Yi directly now, but dealing with Song Lingshan and the people around Lin Yi could help him vent his anger. He could also use this to please the professor and get him to focus on his training, killing two birds with one stone.

Half a month went by in a flash, and it was full of surprises for Lin Yi and the others. Starting from Lingshan, everyone's growth was like a fountain, and they all broke through to Foundation one after another. Even Ziyu and the others, who had the worst foundations, all became Foundation Masters-it was a miracle.

Looking at the excited crowd gathered around the bonfire party, Lin Dongfang couldn't help but smile. "Are you really not going to tell them?"

"Why should I tell them? It's good like this now. With my self-confidence, I'll be able to get twice the result with half the effort when I cultivate later. " Lin Yi said, pleased.

Chapter 5173 Demanding The Secret Manual

"Hehe, you're quite thoughtful, kid. You're somewhat like a boss now." Lin Dongfang nodded and complimented, then said, ""But then again, the half-primordial spirit state you've mastered recently is indeed useful. You can actually send the killing Qi of the five elements into their bodies to guide them to build their Foundation without anyone knowing. It's not simple."

It was just as Lin Dongfang said-the reason why Lingshan and the others were able to break through to the Foundation Stage in half a month wasn't entirely due to their own efforts. It was mainly due to Lin Yi's Secret guidance. Otherwise, even if some of them could succeed, it would only be a small portion-they wouldn't be able to burst out like this.

Breaking through to the foundational level was an extremely difficult task. Unless Lin Yi directly helped them increase their strength like before, they couldn't be distracted during the process, and they couldn't be disturbed at all. So even though he knew that they were only one step away, Lin Yi couldn't help them.

Even if he had a thorough understanding of the entire process, even if he had thought of a way to use the killing intent to guide everyone to the last step, he still couldn't do anything. Because once Lin Yi got close, everyone would be affected, and they would lose the state of breaking through. Then it wouldn't be just a step away, no matter how much Lin Yi helped, it would be in vain.

Fortunately, after this period of trial and error, Lin Yi could already master the semi-primordial spirit state. This state had many uses. Not only could he avoid physical attacks like when he suppressed Bing Wuqing, but there was also an unexpected benefit-he could control his true energy from a long distance.

This was completely different from controlling the killing intent of the five elements after the attack. The remote control of the killing intent of the five elements after the attack could at most be regarded as a rough control, but it was absolutely impossible to rely on it to guide everyone to build their Foundation.

This process required extremely precise control, and even if Lin Yi put his hands on them, he wouldn't be able to do it, let alone control them from a distance. However, his recent mastery of the semi-spirit state made the impossible possible.

Because in this state, as long as it was within the scope of his primordial spirit, he could control the killing intent of five elements as if it was in his own body. Especially in this state, his primordial Spirit's perception was much more sensitive than usual. It was no longer whimsical to use it to guide people to break through the last step, but it had become a living reality.

"This is the result of my hard work for a few months. If I can't even do such a small thing, I'll cry to death!" Lin Yi smiled faintly at the clueless crowd.

"You can continue to be smug." Lin Dongfang rolled his eyes. He saw everything from the beginning to the end and knew that it was an unexpected surprise. Lin Yi's skin was getting thicker and thicker. He didn't even blush when he bragged to the sky.

Lin Yi couldn't help but smile, a little glad. "Fortunately, everyone built their Foundation in time. Otherwise, they wouldn't be able to make it in time for the next Trial Competition."

Xin Yijie had already told him about the trial Competition, and since he wanted to take everyone to the ancient trials to get a share of the loot, he naturally had to let them participate. Although there was no threshold for the trial Competition itself, and even heaven class powerhouses could sign up, that would mean that they would be at the bottom of the pack. Not only would they not be able to get a

satisfactory ranking, they might not even be able to guarantee their own safety, and that would be a loss that outweighed the gains.

But then again, even if everyone succeeded in breaking through to the foundation establishment realm one after another, their strength was still at the bottom compared to the disciples of the ancient Alliance. The situation was still not optimistic. Fortunately, they had already made up for the qualitative gap and still had a chance.

"You've really decided?" Lin Dongfang asked.

"I've decided. " Lin Yi nodded seriously, "after you told me all that, I kept feeling a sense of urgency. Not only do I need to get stronger, but the people around me need to get stronger as well. This test is a rare opportunity, I don't want them to miss it."

Before this, Lin Yi's attitude towards the test was still ambiguous, but it was different now. He knew that central was a huge threat, and he needed to get everyone strong as soon as possible. He really didn't feel safe.

"If that's the case, then you'll have to put in some effort in this Trial Competition. Otherwise, it'll be difficult for them to rely on themselves." Lin Dongfang raised his eyebrows.

"Yes, but if the thing I want can be delivered in time, it will save me a lot of trouble." Lin Yi smiled as he looked Lin Dongfang up and down.

"Don't waste your time thinking about it. You can solve this trivial matter yourself. Don't keep thinking about capturing my able-bodied men. Besides, I still have to return to the West Star Mountain village in a few days." Lin Dongfang quickly said.

"How did you know that I wanted to recruit able-bodied men? Your guess is quite accurate!" Lin Yi asked, surprised.

"Nonsense, I know what shit you're going to shit the moment you stick out your butt. Do I even need to guess?" Lin Dongfang scoffed.

On Sky Class Island, Tian Gang and the others finally received Lin Yi's reply. Knowing that Lin Yi was fine, they were all overjoyed. They could finally relax after a few months. As for the request Lin Yi asked them to do, Wei shenjin was the first one to do it. He was very familiar with the entire central island, and the same was true for the black market. As long as there were enough spirit jades, there was nothing he couldn't buy.

As expected, in just half a day, Wei shenjin had gotten twenty-one of the sects "entry methods. Three days later, this number had increased to thirty-two. Although it was still far from the number of sects on Sky Class Island, it was still quite impressive.

These thirty-two introductory mantras were mainly from the sects of the middle and North Islands. The other sky-class islands were not included.

The South Island was the territory of the spirit beast clan. There was no practice of mental cultivation methods at all. The West Island was a piece of iron and was far from the middle Island. The introductory mental cultivation method would naturally not be found in the black market of the middle Island. As for the East continent, it was even more so. Not to mention that ordinary people could not get it at all. Even

if they had it, they would not have the courage to sell it in the black market. After all, the deterrence of the East continent was not a small matter.

But even so, it was only half of all the sects in the middle and North Islands-it was still far from Lin Yi's ideal number. Wei shenjin doubled the price and bribed the black market's snakeheads to go to the sects that kept their mouths shut. Only then did the number go up by a few more spaces to thirty-six.

Chapter 5174 The Ancient Trial

Although he could still gain something if he continued, it would definitely take a long time, and his gains would definitely not be too big. Therefore, Wei shenjin handed over the collection of these cultivation methods to Tian Gang and then asked ao Tianzhou to send the letter.

Ao Tian Zhou didn't find this troublesome at all. In fact, he was more than happy to do so. If something really did happen to Lin Yi in the common world, he might be the one to die, but since Lin Yi was fine, he was still someone worth befriending. This was a small matter, of course, and he'd be able to do Lin Yi a favor with a simple greeting. He couldn't be happier.

It had to be said that the AO Tian state's face was really useful. It was already an exception for central to be willing to send a letter last time. Now, with a casual call from him, Luan xiaoru did not hesitate to give him the green light. However, after seeing the thick stack of letters, she was still inevitably stunned. When she opened it, she saw that it was full of various kinds of introductory heart techniques.

"What is he doing with so much trash?" Luan xiaoru muttered casually. These introductory heart cultivation methods of various sects had no value in her eyes. Even on the Sky Class Island, they were just common goods. Naturally, she would not take them to heart. She immediately sent people to the secular world.

LAN xiaoru and the professor did the same thing after the stuff was sent to the common world, but they didn't dare to open it without xiaoru's permission. Anyone who saw this thick stack of stuff would be curious, though. People who didn't know might think it was recycling old newspapers ...

No matter what, the collection of the Sky Class island's sects "manuals was successfully sent to Lin Yi in the end. Lin Yi skimmed through it and was overjoyed. These things were just common goods on Sky Class Island, but in his hands, especially with the ancient Alliance's sudden appearance, they were worth cities.

Especially now, this collection of mental cultivation methods not only had long-term value, but it also had practical value in saving an emergency.

Lin Yi gathered Lingshan and the others together and asked aunt Qing to make his specialty. The group sat around the table, chatting and laughing. The atmosphere was very harmonious. Ziyu said, "Lin Yi bro, let's just make a rule-we'll meet once every three days! We just had a bonfire party two days ago, and we'll be able to eat aunt Qing's best food again!"

"Yes, yes, that's how it should be!" Everyone laughed in agreement.

"Sure, as long as you're happy. Besides, everyone has been working hard during this period of time. You should relax a little." Lin Yi agreed immediately.

Although he had been reunited with everyone for several months, there had not been many serious and relaxing gatherings like this. At first, it was to deal with the disciples of the ancient Alliance who were making trouble everywhere. Then, it was to talk to Xin Yijie. After that, he came to this transit archipelago. Things had settled down. Unfortunately, everyone was either busy building the seaside villa or busy cultivating.

It wasn't just the responsible ones like Lingshan and Chentian-even Ziyu and the others, who weren't in the mood for training, were acting very well. They were surrounded by ancient Alliance disciples, after all, and it wasn't just pressure-it was a sense of urgency. They didn't want to drag Lin Yi down, and that was it.

Especially in the last few months, they'd been in isolated practicing all day and night. They'd had plenty of chances to meet up with Lin Yi, let alone relax like this.

"That's great!" Ziyu jumped up in excitement and said something that made Lin Yi and the others smile. "Why do I suddenly feel like I've finished my exam? Easy and pleasant!"

"I've finally succeeded in building my foundation after such a long seclusion. Didn't I just finish the exam?" Everyone laughed. It was rare that everyone had successfully built their Foundation together. It felt like a college entrance examination for graduating classes. It was just that there were no test papers or textbooks. Otherwise, they would all be dragged out and burned as a celebration.

"Well said. However, this test isn't over yet. Successfully breaking through to the foundation building stage can only be said to have obtained the admission ticket. The real highlight is next." Lin Yi poured cold water on everyone.

"Boss, you mean the trial Competition?" Wu Chengtian couldn't help but ask. He was the first to come out of his training, and the competition had become a common topic for all the disciples of the ancient Alliance. They could hear about it even if they went out for a walk.

"I guess so." Lin Yi nodded. He wanted to talk about the ancient trials, but it wasn't wrong to call it a Trial Competition. If they couldn't even pass the trial Competition, then there was no need to talk about the ancient trials.

"We're also participating?" Lingshan paused, and the others were curious as well. They'd been cultivating on their own ever since they came to the islands, and they'd never had any contact with the ancient Alliance. According to Lin Yi, this place was their future base, and they never thought they'd have to deal with the ancient Alliance.

"That's right. From what I know, only those who obtain a certain ranking in the trial Competition will be qualified to participate in the next trials. This opportunity is extremely rare, so I hope that everyone can participate." Lin Yi announced.

"Ancient trial?" Everyone looked at each other-they weren't prepared for this at all, but they'd always followed Lin Yi's orders. Since Lin Yi said so, they didn't have any objections and nodded in agreement after some thought.

"That's great. They're just going overseas for a vacation at most, but we're going out of the world for a vacation. It's much more high-class!" Ziyu was very excited.

Everyone couldn't help but smile. Lin Yi smiled,""Sure, then you should just write a little Jianghu World Tour in the future and remember it. I guarantee it'll be the only one in the world."

"Sure, but if we really go to the ancient Jianghu, will we be able to come back in the future?" Ziyu asked what everyone was thinking. The ancient alliance only came to the mortal world once every thousand years, and even if they could live forever, the entire mortal world might no longer exist after a thousand years, much less their friends and family.

"I've already asked Xin Yijie about this. There are two conditions to open the ancient passageway. The first is spirit Jade, which is no problem for us. The second is the natural restriction in the ancient Jianghu. Although the restriction's strength is at its lowest point every thousand years, it's not completely impossible to pass through under normal circumstances. It's just extremely dangerous. " Lin Yi smiled and continued to explain, "Anyway, the trial is not in the small Jianghu of the immemorial era. Even if you go to the trial, you might not go to the small Jianghu of the immemorial era. So, you don't have to worry too much about this."

Chapter 5175 The Person Who Will Go Together

"Then there's no problem," Everyone heaved a sigh of relief. Although they also wanted to increase their strength as soon as possible, it was unrealistic to ask them to give up everything in the secular world for this. It would be best if they could freely travel between the small Jianghu and the secular world.

"The duration of the trial Competition is not far away. Even if everyone is relaxed, in the following period of time, you should still familiarize yourself with the foundation establishment stage. I don't ask for anything else. The most important thing is to adapt as soon as possible, understand?" Lin Yi said.

"Boss, even if we all get used to it, we're still at the lowest level, the weakest early Foundation Stage. I'm afraid it's not very good to participate in the trial Competition with this bit of strength, right?" Yu Bing couldn't help but frown.

They were all prideful people following Lin Yi, but they still couldn't help but feel nervous when they thought about how their opponents were all from the ancient Alliance. They were on a completely different level, after all.

"It's a bit difficult, but I got this from Tian Gang Island. It'll come in handy. " Lin Yi smiled faintly.

"What is it?" Everyone curiously took the thick stack of papers from Lin Yi's hands and passed them around, speechless, "A collection of all the Sky Class Island sects' introductory Arts?"

"That's right, I asked Tian Huan to get this. With this, you'll have a better chance of participating in the trial Competition. " Lin Yi nodded.

"How do we use these things? Could it be that he wants us to cultivate these heart techniques? We don't have enough time, do we?" Everyone was still confused. Although there was a chance to change the cultivation method after the foundation establishment stage, this was not something that could be done overnight. No matter how good one's aptitude was, it would be difficult to achieve any results without a few months 'time. Those with ordinary aptitude would even need a few years of hard cultivation to achieve small success. What was the use of these few days?

"Don't get the wrong idea, I'm not asking you to practice these heart cultivation methods, it's just for the sake of the trial Competition. I'll tell you in detail how to do it after I've finished studying it in the next few days. " Lin Yi shook his head with a smile. If he really wanted to find a practitioner's arts for everyone, he wouldn't go for these common beginner's Arts-it had to be something that suited everyone's characteristics.

Everyone was still confused, but since Lin Yi wanted to keep them in suspense, they could only wait. They were the ones participating in the test anyway, and Lin Yi would have to give them some advice sooner or later.

"Oh right, Lin Yi bro, how many people did you find on Sky Class Island these past few years? you haven't told us yet," Ziyu asked.

Everyone perked up at the question-Lin Yi did tell them about his experiences on Sky Class Island, but it wasn't realistic for him to tell them everything one by one. He'd have to go as far as he could, and they were quite curious about the question as well.

"This, let me count." Lin Yi pondered for a moment before counting his fingers. "Tian Gang, Xue Li, Han Jing Jing, Wang Xinyan-only the four of them are left. Zhong pinliang and Xiao ran are the only ones left. Zhong pinliang betrayed us before, and Xiao ran only got close to us after we went to Tianjie Island."

"What about Chen Xi?" Ziyu asked, her eyes wide.

"I'm not sure about that. " Lin Yi sighed. Chen Xi went with Tian Gang and Tian die, but he only found Tian Gang in Nakajima. He didn't see Chen Xi and Tian die.

It wasn't hard to guess that Chen Xi and Tian die must have been separated when they were teleported, so even Tian Gang didn't know where they were. Otherwise, Lin Yi wouldn't even need to ask and Tian Gang would've asked.

Ziyu couldn't help but feel a little disappointed. "Could something have happened to her?"

"I don't think so-Sky Class Island is huge, and it's normal that we haven't found them yet, but I'll find them sooner or later." Lin Yi said as he patted her shoulder.

Lingshan, on the other hand, didn't know what to say. Lin Yi knew that she was worried about her sister, and could only give her a comforting look.

He was still trying to comfort everyone, but he was actually a lot more anxious than Ziyu and the others. He was just pretending to be calm in front of everyone.

After all, this was different from when he first went to the Sky Class Island. At that time, he didn't know much about the Sky Class Island, and he thought that the other Sky Class islands would be as peaceful as the North Island. As long as he had the opportunity to go out and walk around, he would naturally meet these people again. But now, he had already traveled all over the five big islands, and there was still no news of most people.

Lin Yi didn't care about the people who had nothing to do with him, but Chen Xi, Tian die, Bing Tang, and song Lingrui were people he had to find out where they were. He couldn't rest easy as long as he didn't hear from them.

At that thought, Lin Yi's excited mood fell instantly. With his current strength and connections, he still couldn't find these people!

He didn't even dare to think about the meaning behind this and could only subconsciously avoid it.

At least he was sure that the North, middle, and West islands didn't have these people, or Lin Yi would've known about it already.

The reason was simple-even if they were sent to different sky Class islands, the practitioners from each Island would still be together after the teleportation. Tian Ji and Xue Li were on the middle Island, Han Jing Jing was on the West Island, and Lin Yi was on the North Island. If Chen Xi and the others were also sent to these three islands, they should be able to meet each other.

However, he couldn't rule out another possibility, which was that there might be more than one teleportation point on the same Island. As far as Lin Yi knew, there was only one in the North Island, but it wasn't the same for the middle and West islands. He hadn't looked into them yet, let alone the south and east continents.

But even if that did happen, Lin Yi was sure that there weren't people like that on the North, middle, and West islands-he had connections with the higher-ups of those three islands, after all. The North vice-Island master Shangguan Tianhua was half his master, the West Island master Ning Shangling was his future mother-in-law, and the middle island's Acting Master Okita was trying to get on his good side.

Not only that, Lin Yi was quite famous in these three islands. Even if he wasn't a household name, he was at least a hot topic. Anyone who had some contact with the outside world would've heard of him, and he didn't believe that these people wouldn't come to him after knowing about it. From this, he could deduce that these people weren't in the North, middle, or West islands.

Chapter 5176 I Know What To Do

As for the East and South continents, Lin Yi had been there before and had some connections, but his influence in those two places couldn't compare to the other three.

He'd only been to the Golden class ocean in the East continent, and he'd only been to the soaring Cloud School, Morning Star School, and Thunder plain Island for a while. He didn't know much about them, not to mention the legendary Mystic class ocean. There were even higher levels of ocean beyond that. Lin Yi wondered if a normal person would be able to survive after being sent here.

Xinyan was lucky to have met Donghai's godly nun, but it would be a different story if she wasn't. Lin Yi couldn't help but think of the woman Yao Jiali tortured-she might have been one of them.

If being teleported to the East continent was a bad choice, then being teleported to the South continent would be a real bad choice.

The South continent's waters alone were already chaotic and dangerous, especially if they were teleported to the South Island's inland, which was the territory of the spirit beast clan, known as the forbidden land for humans. Once they were teleported there, they would probably not survive and would definitely be executed immediately.

No matter where they were teleported to, it was not good news for the East continent or the South continent. However, if they were not teleported to these two places, the news would be even worse. If these people had really been teleported to the North, middle, and West islands, and there had been no news of them until now, then there could only be the worst speculation left. They had all met with misfortune.

Even Lin Yi broke out in a cold sweat at the thought-this was how people were, once they were down, they'd get into a dead end, and the more they thought about it, the more it didn't feel right, and they'd end up in a dead end.

"Lin Yi, are you okay?" Lingshan and the others were worried as they looked at Lin Yi's dejected face. Lin Yi had always been optimistic and confident in front of them-what was going on?

"Oh, I'm fine. I was just a little distracted." Lin Yi quickly laughed dryly.

"Really?" Everyone was still a little worried.

"It's true. " Lin Yi nodded. He didn't dare tell them the truth. After all, it was all just a guess before he got the actual information. He didn't want everyone to worry for no reason.

With such an incident, everyone's spirits were more or less affected. The originally happy gathering ended in a hurry, and Song Lingshan and the others went to rest. However, Lin Yi was stopped by Lin Dongfang.

"You want to run away after eating? do you think this is a restaurant? Go wash the dishes!" Lin Dongfang pouted.

"Ugh ..." Lin Yi looked at the empty plates and didn't know if he should laugh or cry. Everyone was frowning, but their mouths didn't stop licking the plates clean.

"What are you doing? He's washing the dishes!" Lin Dongfang was still urging him from behind, but he suddenly said, ""There's nothing to worry about. They won't die yet. "

Lin Yi understood immediately that the old man was trying to comfort him. He smiled bitterly, "I'll accept your consolation, but I'm well aware of this matter. It's not very optimistic. "

"You know what you're doing? What do you know?" Lin Dongfang laughed.

"I haven't found any news of them yet, but I've been on Sky Class Island for three years, and I've made a name for myself. There are some things that I can't confirm, but I can at least make some deductions." Lin Yi sighed. He had to force a smile in front of people like Lingshan, but he didn't have to do that in front of old Lin.

"Yours is an inference, but mine is a divination. Which one do you think is more accurate?" Lin Dongfang said with interest.

"Divination? What divination?" Lin Yi blinked.

"You don't even know about divination? you're really ignorant." Lin Dongfang said in disdain.

"No, isn't divination a feudal superstition? how can you believe in such things?" Lin Yi couldn't help but ask.

"Who told you that divination must be a feudal superstition? You call something you don't know a feudal superstition? kid, your level is not low, can you not be so childish?" Lin Dongfang pouted and explained,""Listen up, divination is a very mysterious ancient secret technique. Although it's hard to say that it's 100% accurate every time, if it's done by an expert, the credibility is extremely high."

"Ancient secret skill? Is this real?" Lin Yi's face was full of shock-something as mysterious as divination was something that didn't even exist in the eyes of normal people. Even he thought that it was just a trick used to fool old people, but Lin Dongfang's words were true?

"Remember, never jump to conclusions about something you've never seen with your own eyes. I can tell you very clearly that divination does exist, but the number of Masters who have truly mastered this ancient secret technique in this world can be counted with a finger." Lin Dongfang said seriously.

"Yes, I'll remember that," Lin Yi nodded seriously and asked,"But what does this have to do with Chen Xi and the others? Do you mean that an expert has divined their fortune?"

"That's right. From the results of the divination, their lives are not in danger, so you can rest assured. " Lin Dongfang nodded.

"That's good, that's good. " Lin Yi finally let out a breath of relief, but he was still amazed, "Where did you find a divination expert? why don't you introduce me to him and let me broaden my horizons?"

"You? One must pay attention to luck to meet such an expert. Now that the opportunity has not arrived, you just wait. " Lin Dongfang replied insincerely. Lin Yi had already met him before.

Lin Yi had already believed her, but he started mumbling again. "What opportunity? You didn't just make this up to tease me, did you?"

"It's up to you to believe it. " Lin Dongfang rolled his eyes at him and urged, ""Hurry up and wash the dishes. Take your time. Are you wasting time?"

Before he could finish, aunt Qing suddenly shouted, ""Don't even think about slacking off. Let's do the dishes together!"

"Aunt Qing is wise!" Lin Yi quickly flattered old Lin, finding the awkward look on old Lin's face funny. It was true that everything had its weakness.

Five days went by in a flash. Xin Yijie stopped the underwater mining on purpose and gathered all the disciples of the ancient Alliance, including the probationary disciples. Lin Dongfang and aunt Qing had returned to the West Star Village for a drink, and Lin Yi and the others were all present.

"Everyone, time has passed very quickly. It has already been ten months since we started training in the secular world. This also means that there are only two months left before the start of the primordial trial. According to the tradition of the primordial Alliance, it is time to start the trial Competition." Xin Yijie announced to everyone.

Chapter 5177 Raising A Question

Everyone had expected this, and their spirits were lifted. They rubbed their fists and wiped their palms, eager to give it a try.

"Hehe, the trial Competition is an old tradition of the immemorial Alliance, and everyone is familiar with it. However, there are some disciples who are participating for the first time, so I can only say a few words and explain to everyone what the trial Competition is." Xin Yijie laughed and continued, "as the name implies, the trial Competition is to prepare for the primordial trial. The purpose is to test if everyone's strength is enough to participate in the primordial trial. This is also for everyone's safety. After all, the primordial trial is extremely dangerous. If you're not strong enough, you might die for nothing."

"May I ask martial uncle Xin, what is considered sufficient strength? Could it be that they are divided into different realms? only those above this realm are qualified, and those below this realm are not qualified to participate in the archaic trials?" Someone asked impatiently.

"Not really. Although it's simple and straightforward, it doesn't fit the purpose of the trials. Everyone, remember that the trials are not a simple trial. There's only one meaning to its existence, and that is to let the disciples with true strength stand out and become the key training targets of the ancient sects and families." Xin Yijie paused for a moment and then added, ""Of course, the strength I'm talking about doesn't just refer to the level of the realm, but more importantly, the potential. You must know that a talented disciple with outstanding talent, even if he's only in the early stage of the foundation building realm, his value is definitely not below that of a perfected foundation building expert."

"Then how do we judge one's aptitude and potential? Are you looking at the spirit root?" Everyone asked.

"Spiritual roots are only one aspect. It would be too narrow to only look at spiritual roots. After all, there are many so-called geniuses with outstanding spiritual roots who eventually lose out to others. Therefore, the higher-ups of the immemorial Alliance unanimously decided that only disciples with outstanding performance in actual combat are truly geniuses that are worth cultivating." Xin Yijie said seriously.

"Actual combat? How do we use this in actual combat?" Everyone was confused. Although there was a Trial Competition before every archaic trial, the content of each Trial Competition was different. At first, there was a one-of-a-kind competition, but the recent ones were all different forms of competition. There were internal competitions of various sects, and there were also team competitions between sects. The format was different every time.

"Hehe, being able to adapt to the situation is also a must to test your ability. Please forgive this old man for keeping you in suspense. The trial Competition will officially begin in three days. At that time, I will explain it to everyone in detail. Everyone, go back and rest up and prepare yourself." Xin Yijie said with a smile.

Everyone wanted to ask more questions, but Xin Yijie was their martial uncle-in-charge and a golden core cultivator at that. Since he had already said so, no one dared to ask any more questions.

However, Xue Jianfeng didn't have such concerns. He was now an early Aurous core stage cultivator and didn't think much of Xin Yijie anymore. He immediately said in a strange tone, ""Martial uncle Xin's words are very nice, but who knows if you'll secretly tell your own people in advance? I'm afraid that's not fair to everyone, right?"

Everyone was already mumbling in their hearts. After his instigation, their expressions changed. Everything else could be discussed, but they were still worried about the green cloud sect. Xin Yijie's image had always been good, but no one would believe that he was just and selfless. At the very least, he would leak some information to the inner disciples of the green cloud sect in advance.

It didn't seem like a big deal, but one was well-prepared, while the other was caught off guard. When it came to the actual Trial Competition, their performance was likely to be very different. Even if this was only wishful thinking of the people, but in this kind of big competition and examination, any little bit of unfairness would be infinitely magnified. Anyone would feel that they would become the victim, and eventually, the group's emotions would be stirred up, and even go out of control.

"Xue Jianfeng, are you suspecting that I'm being unfair?" Xin Yijie's expression darkened.

"I wouldn't dare, but I feel that it's better to be more open and transparent about things like the trial Competition, so that people won't be suspicious of us behind our backs. I'm doing this for your own good, martial uncle Xin. What do you think?" Xue Jianfeng said casually.

"Yes, senior brother Xue is right!" Everyone responded in unison.

Xin Yijie didn't dare to suppress the crowd's excitement. He snorted coldly with an ugly expression. "Very good, you're right. It's a pity that I still can't tell you the details of the competition because even I don't know it yet. At present, I've only set the tone. As for the specific competition, the higher-ups of the immemorial Alliance are still discussing it. The competition will be sent here on time three days later, and the results will be revealed by then."

Everyone looked at each other. Since even the higher-ups of the ancient Alliance were still discussing it, there was nothing to doubt.

"Do you have any more questions? It's best to mention it together, in case someone gossips behind my back. " Xin Yijie said as he looked at Xue Jianfeng. He'd been talking back to his martial uncle several times. Even if he had a mild temperament, he couldn't really swallow his anger. He was already at odds with Xue Jianfeng.

If it were anyone else, they would've cowered long ago. However, Xue Jianfeng didn't care about Xin Yijie at all. After all, he had too many things to rely on. Not only was he an early golden core expert, but he also had the Father of the snow sword sect's vice sect leader. Most importantly, he had the support of the huge and mysterious organization Central. With his pride, it would be strange if he still held any respect for Xin Yijie.

"I still have one more question. Does everyone on the transit islands have to participate in the trial Competition this time?" Xue Jianfeng opened his mouth and asked, but his eyes were on Lin Yi's group. He didn't know that Lin Yi had already made up his mind to let everyone participate in the test. He was even worried that they wouldn't take the bait.

"Not necessarily. The primordial trial has never forced anyone to participate. The same goes for the trial Competition. It's up to the individual to participate. But if you give up on the trial Competition, it's the same as giving up the chance to participate in the primordial trial." Xin Yijie said indifferently.

The answer wasn't surprising, but it made Xue Jianfeng's face turn ugly. The plan he gave the doctor glasses had a basic premise, and that was that Lin Yi and the others had to participate in the test. Otherwise, he would be helpless.

However, this was different from the previous underwater mining. After all, participating in the trial Competition was not an unacceptable obligation for everyone present. Instead, it was a right that most people sincerely yearned for.

Because these people had occupied some cultivation resources on the transit islands, they had to participate in the trial Competition. This basically meant that since you had already taken some cultivation resources, you had to take more. It was not logical at all, not to mention gaining the support and support of the other disciples of the primordial Alliance.

Chapter 5178 Low-Level Trick

"This is an extraordinary trial that only happens once every thousand years. I've heard about it, but I don't know if it's true or not. Why don't you tell us about it?" Xue Jianfeng said.

Xin Yijie furrowed his brows and looked at Xue Jianfeng with a strange expression. What was this guy up to?

Seeing Xin Yijie's nonchalant expression, Xue Jianfeng couldn't help but sneer. However, he had no other choice in order to lure Lin Yi and the others into his trap. Since he couldn't use force, he could only use bribery. He quickly coughed and signaled Bing Wuqing with his eyes.

With Bing Wuqing's personality, she would definitely not accompany him to do such a boring thing. However, he remembered that the professor had instructed in advance that all the actions related to the trial Competition would be led by Xue Jianfeng, so even he had to give her some face, or else he would be suspected.

"Elder Xin, I don't know much about this, and I believe everyone is the same. Why don't we satisfy everyone's curiosity?" Bing Wuqing had no choice but to cooperate.

"That's right. Since the trial Competition is to prepare for the primordial trial, then it's reasonable to explain the uniqueness of this primordial trial in advance. At least, everyone will have an idea. Martial uncle Xin, you're the martial uncle leading the team. This is also your responsibility, right?" Xue Jianfeng hurriedly squeezed out his words again.

"That's right, martial uncle Xin, just tell us about it. " The others were also mobilized.

At this point, Xin Yijie had no choice but to say it. Besides, this wasn't a secret, so it wasn't a bad idea to satisfy everyone's curiosity.

"Alright, but this trial is a once-in-a-thousand-years event, so I only have a rough idea of it. It's not accurate, so I'll just use it as a reference." Xin Yijie pondered for a moment before saying, ""Any place that can be chosen as a trial ground will definitely have a lot of heavenly treasures. This trial ground will have more than other places, but at the same time, The Guardian spirit beasts and various dangerous factors will also increase. Everyone must be mentally prepared for this."

Everyone nodded and quickly asked, ""What are the special benefits of this trial ground? martial uncle Xin, please tell me in detail."

"As far as this old master knows, the most eye-catching place in this trial is a River called the spirit Sense River. As the name implies, one can temper their spirit sense by staying inside it. I believe this old master doesn't need to explain any further about this benefit." Xin Yijie said.

"Spirit Sense River!" Everyone's eyes lit up. The ancient Alliance had always placed great importance on the cultivation of the consciousness, and there were only a few places in the entire ancient Jianghu that could cultivate the consciousness. Moreover, each of them was controlled by the four great sects and families. Other than their core disciples, no one else could even dream of getting close. They didn't expect that there would be a river of consciousness in this trial ground. It was indeed a place that only appeared once in a thousand years!

It wasn't just the crowd, even Lin Yi was excited. He didn't think much of the spirit before, but now his mentality was completely different. It wasn't just because he was a soul, but also because he realized the importance of the spirit.

If one were to say that his physical strength was the hardware, then his primordial soul cultivation was the software. The two complemented each other and were indispensable. It did not matter much when his cultivation level was still low, but at his current level, he was about to break through to the magnate realm. If his primordial soul cultivation continued to be so weak, it would be equivalent to losing one of his legs. How could he walk?

This time, Lin Yi's yuan spirit was projected back to the secular world. It was already a rare surprise that he could get the star Black coal from Leng Leng. He didn't think that there would be a river of consciousness in the ancient trials. This was a great opportunity that came to his door!

In the past, he had only wanted to explore the ancient martial world. Now that he heard Xin Yijie's words, his heart instantly burned with passion.

"It's not just that. Legend has it that the spirit Sense River can not only refine spirit sense, but also has unparalleled treasures buried inside." Xin Yijie sighed.

"Precious treasure? What treasure?" Everyone's appetite was immediately piqued.

"This old master doesn't know. If you're interested, you can try it yourself after we get there." Xin Yijie said with a smile.

"Alright, since the legends say it's so miraculous, it must be a peerless treasure. At that time, everyone will use their own means to occupy it!" The snowy sword blade took advantage of the situation and said.

"Senior brother Xue is right!" The crowd immediately echoed in unison.

Xin Yijie smiled in response. Although he didn't know what kind of treasure it was, it must be extraordinary for a legend to be passed down after a thousand years. How could it be occupied by a Foundation establishment disciple?

Let's not talk about whether these people had the opportunity and fortune. Even if they did encounter it, it was hard to say whether it was a blessing or a curse. They might even lose their lives. They really didn't have any self-awareness.

However, as the team's martial uncle, he couldn't say these words out loud. In any case, everyone was just indulging in whimsical fantasies, and there was no need to dampen their enthusiasm for such a small matter.

While everyone was excited, Xue Jianfeng had been observing Lin Yi's group's reaction. In contrast, he was a lot colder, especially since Lin Yi didn't make a sound at all.

Xue Jianfeng suddenly muttered, "this guy still didn't take the bait even after this, he's quite calm!" "Since there are so many benefits to the primordial trial, only the disciples of the primordial Alliance can participate," he said deliberately. "Those who are not related to the secular world don't have the right to participate, do they?"

"This ..." Xin Yijie looked at Lin Yi, troubled. He didn't know what Lin Yi was up to and couldn't respond to him in public.

Lin Yi was speechless-Xue Jianfeng's little trick was way too low-level. But since he'd already decided to bring them to the test, he had to go with the flow, ""So you're saying that we can't participate?"

"That might not be the case. However, martial uncle Xin just said that whoever doesn't participate in the trial Competition means that they're voluntarily giving up on the primordial trial. I don't care about the rest, but I'm afraid that some people will get in through the back door!" Xue Jianfeng sneered.

Everyone looked at Lin Yi's group with suspicion-they couldn't even stand the slightest bit of unfairness, let alone let Lin Yi get in through the back door.

Strictly speaking, it was already very difficult for Lin Yi and the others to even get into the competition. If they really went through the back door, they'd cause a huge ruckus, even if they had to report it to the higher-ups of the ancient Alliance.

Chapter 5179 As You Wish

Lin Yi had been waiting for Xue Jianfeng to say this, so he smiled, "Alright, isn't it just a competition? we'll participate."

"That's more like it!" Only then did Xue Jianfeng smile in satisfaction. He didn't care about anything else-as long as Lin Yi and the others could participate in the competition, his plan would be half-complete.

"Alright, I've said what I need to say. Everyone, go back and prepare." Xin Yijie announced.

Everyone went their separate ways to prepare for the test three days later. Lin Yi gathered Lingshan and the others together and said seriously, ""Although there are only three days left, as the saying goes, even if you don't sharpen your spear quickly, it's still good. Otherwise, it won't be easy to fool the trial Competition."

"Boss, there are only three days. Isn't it too late even if you were to make a last minute effort?"
Chentian and the others smiled bitterly.

"It's not late, not late at all," Lin Yi smiled and turned to the group. "As long as you guys remember what I'm going to teach you, I can't say what other uses you have, but it should be useful in the upcoming Trial Competition."

"What is it? It'll be done in three days?" Everyone couldn't help but ask curiously.

"Hehe, it's nothing profound. Do you still remember the collection of mental cultivation methods I received a few days ago?" Lin Yi said with a smile.

"I remember, but they're all Sky Class Island sects" practitioner's Arts, right? what's the use?" Lingshan asked curiously.

"Judging from the other clues in the North Island's Green cloud sect, the Sky Class Island and the ancient pugilistic world are inextricably linked. The same sects in these two places have similar practitioner's Arts, so even though this is a collection of the Sky Class island's sects, it can also be said to be a collection of the ancient sects" practitioner's Arts. " Lin Yi explained.

Everyone nodded, but they were still confused. "What does that have to do with the trial Competition?"

"It's very simple. Since I have the mental cultivation methods of each sect, I can use them to deduce the fighting style of their disciples, grasp their strengths and weaknesses, and then formulate the most effective battle strategy. And while I've been studying the collection of mental cultivation methods these days, I've also created some counter-moves." Lin Yi said.

"Counter-move?" Everyone's eyes lit up.

"That's right. There aren't many moves. Each sect only has two or three moves, and they're not complicated. They're simple and practical. If you can master these moves in three days, the benefits are self-evident." Lin Yi nodded.

"F * ck! Boss, you're not just making us do last-minute practice, you're basically giving us cheat sheets! If we can master all of this, we'll be able to eat all those disciples of the ancient sects alive!" Chentian and the others were overjoyed.

"That's not necessarily the case. In order for the countermoves I taught you to be effective, the premise is that you must have the corresponding strength Foundation. If the opponent's strength is too much higher, then there will be no effect. But in that case, it's useless to think of other ways, so it's better to admit defeat." "Alright, we don't have much time, let's get started." Lin Yi smiled.

"Alright!" Everyone responded in unison.

Three days later, everyone on the transit archipelago had gathered once again, including Xin Yijie. Everyone was staring at the teleportation formation.

Finally, with a flash of white light, a scroll appeared in the teleportation formation. Xin Yijie immediately opened it, and the rules of the competition were written on it.

Xin Yijie looked through the list and nodded as he stroked his beard. "Everyone, listen carefully. I'm going to explain the rules of this competition. If you miss a word, it'll be your own loss."

"Yes." Everyone was all ears.

"First of all, there are eight teams in this trial. One team is below the foundation establishment stage, and the other teams are at the early, peak, mid, peak, late, peak, and peak of the foundation establishment stage. Please take your respective seats and line up." At Xin Yijie's command, everyone began to line up according to their strength.

At this time, no one would try to be sneaky. First of all, they didn't know what the purpose of splitting up was. Second, there were no secrets between the disciples of their sect. They knew each other's strength and realms very well. On top of that, there was Xin Yijie, an Aurous core stage expert, watching over them. Even if they wanted to fool them, they couldn't.

Lin Yi gave everyone a look, and Lingshan and the others nodded. They walked into the group of foundational cultivators, causing a commotion. Many people didn't notice that they were all foundational cultivators, thinking that they were still Sky Class full Masters.

However, they were only surprised for a moment and didn't really put song Lingshan and the others in their eyes. After all, even if these people reached the foundation establishment stage, they would only

be the weakest early Foundation establishment experts. They wouldn't be a threat to the disciples of the ancient Alliance at all.

As for Lin Yi himself, he was the Grand uncle-master of the Qingyun sect on the North Island, but that status was only useful in front of people like Xin Yijie. The ancient Alliance didn't recognize that, and they were already giving face to the Qingyun sect by acknowledging him as a member. If he wanted to participate in the test, he had to pass the test like everyone else.

Lin Yi didn't mind at all and walked into the group of Foundation paragons. No one under the Golden core stage was his match, no matter what it was.

There was one exception, however-the sneering Xue Jianfeng. He'd been following the professor's orders and didn't reveal his strength, and was still a Foundation Paragon on the surface. He couldn't help but feel a little pity-if it weren't for the orders from above, he would've killed Lin Yi to avenge his humiliation.

"We can't kill him, but this is an open and aboveboard opportunity. We can use this opportunity to beat him up to vent our anger. Even the higher-ups can't say anything." Xue Jianfeng thought to himself.

In the blink of an eye, everyone had already lined up, leaving only two people standing outside. One was Xin Yijie, and the other was Bing Wuqing. Although she wasn't the martial uncle-master who was leading the team, she was still a well-known golden core stage expert, so there was no point in participating in the trial Competition.

"Alright, I'll now announce the rules of this competition. It's very simple. Each team will draw lots to fight each other. One round will last for ten days in a row, and there will be five rounds in total. As long as you win three of them, you will automatically qualify for the trial." Xin Yijie announced.

This rule was very easy to understand. Since it was a battle between experts of the same level, if one could win three out of five matches, it meant that one's strength was above average and worthy of being nurtured by the ancient Alliance!

Chapter 5180 Rules Of Competition

On the other hand, if one could not even win three rounds, then no matter how superior one's spiritual root attribute was, it would be meaningless. Geniuses would indeed be buried sometimes, but if one could not even win three out of five rounds in a battle of the same level, then one would be an out-and-out piece of trash, and it would be meaningless to talk more.

After observing everyone's reaction, Xin Yijie continued,"Of course, this rule only applies to most ordinary disciples. For those talented disciples with extraordinary strength, there's another simpler option besides the best of five fights among the same level, and that's to challenge those of a higher level."

"Cross-level challenge?" Everyone was shocked. This was something unimaginable for ordinary disciples, but at the same time, it was also the label of a genius disciple. Those who could cross-realm challenge were not simple characters, so they were naturally regarded as genius disciples.

"That's right. You can challenge any of the higher ranked groups. There's no limit to the number of times you can challenge them, and the other party can't reject you. As long as one of you can succeed once, then you won't need to participate in the regular competition and will automatically obtain the right to participate in the trial." Xin Yijie nodded.

Everyone's expressions changed when they heard this. There was a special rule in addition to the usual rules. This Trial Competition was considered very thoughtful, which showed how much importance the higher-ups of the primordial Alliance placed on it. It was also because of this that they had to do their best to perform well. This was not only related to the current primordial trial, but also directly related to their future in the primordial Alliance.

"May I ask, martial uncle Xin, what happens if you can't challenge those of a higher level, and you can't win three out of five in the regular competition?" Everyone couldn't help but worry.

"That is, they do not have the right to participate in the trial. After this experience in the secular world, they will be directly teleported back to the ancient martial world. Of course, even if the prospective disciples recruited by the various sects win three out of five matches, they must succeed in breaking through to the foundation establishment realm before the start of the ancient trial. Otherwise, they will be automatically removed from the list and will not be considered a member of the ancient Alliance. Naturally, they will not have the right to participate in the ancient trial." Xin Yijie explained.

Hearing this, everyone looked at each other. According to Xin Yijie's words, more than half of the people would be eliminated!

In the past, although the archaic trials had a Trial Competition, and every time some people would be eliminated, it was at most just a formality, eliminating some people who were at the bottom to make up the numbers. There had never been a precedent of eliminating half the people. After all, this Trial Competition was only the prelude of the archaic trials, not the archaic grand competition. How could it be so serious?

"Martial uncle Xin, this is the trial Competition, not the archaic competition. Is it really that bad?" Everyone asked eagerly.

"It's not normal, but this trial is a once-in-a-thousand-years event. It's far more dangerous than usual. It's only right to set the trial Competition a little stricter. This is a responsibility for your safety." Xin Yijie said seriously.

"But if it's really for safety reasons, it's fine to let us stronger disciples go. There's no need to make it so complicated, right?" The person who spoke was a late-stage Foundation establishment disciple. The other disciples of the archaic Alliance, who were more powerful, echoed him one after another. All of them were filled with righteous indignation.

With the current rule of three wins out of five matches against those of the same level, the biggest victims would be none other than them.

Disciples of late-stage Foundation establishment or even higher should have the right to participate in the primordial trial. However, once this rule came out, even a group of them would be eliminated. Think about it, if even a Grand full foundation establishment disciple did not have the chance to participate in the primordial trial, wouldn't they become a laughing stock?

"Hehe, this is a unanimous decision by the upper echelons of the ancient Alliance. Do you have any objections?" Xin Yijie's words stunned everyone. No matter how unhappy they were, they didn't dare to oppose the upper echelons of the ancient Alliance. Otherwise, not only would their future be bleak, but they might even lose their lives.

Moreover, although their strength was not bad, the ones who were really dissatisfied with this rule were only the disciples at the bottom of the same level. The truly outstanding core disciples of the various sects would not care about this difficulty. To put it bluntly, only the weak would complain about this. Since they were weak, how could they have the confidence to defy the decision of the higher-ups of the primordial Alliance?

If it had been Bing Wuqing, she would have at most snorted coldly in the face of these people's complaints and wouldn't have bothered to explain at all. However, Xin Yijie was much more loyal and honest. Seeing that the crowd was still dissatisfied, he thought about it and decided to explain a little.

"I've already said that the purpose of this Trial Competition is to select disciples with both strength and potential. The rules of the competition are not too strict. If you really meet the conditions, it will not be difficult for you to obtain the qualifications for the trial. However, if you only have the level but no potential, then there is nothing much to say. Instead of going to the ancient trials to hinder other disciples with more potential, it is better to return to the ancient martial world early." Xin Yijie said.

These words weren't very pleasant to hear, but they made sense. From the perspective of the various ancient sects, the value of a disciple at the bottom of the great circle of Foundation establishment couldn't compare to an early Foundation establishment disciple with outstanding aptitude, but if these two were to be sent to the ancient trials at the same time, then the disciple at the great circle of Foundation establishment would definitely have the advantage.

After all, under normal circumstances, an early Foundation Stage disciple would never be a match for a peak Foundation Stage disciple, so it was very easy for all the higher-ups of ancient sects to be in a situation where they were extremely frustrated. They were also participating in the ancient trials, but those talented disciples with outstanding aptitudes and worthy of being vigorously cultivated had a difficult time, and their opportunities were instead snatched by the lower-ranked disciples with no potential. In the end, they were in the latrine pit but couldn't shit.

However, even the higher-ups of the immemorial Alliance could not forcefully say that only the genius disciples could obtain the opportunity. Even if the other disciples were of a higher level and stronger strength, they had to stand aside. If such an inhumane rule were to be announced, the many ordinary disciples would probably have rebelled long ago.

That was why there were such unprecedented rules. Not only could they use this to select the disciples with outstanding strength in each level, but they could also take the opportunity to get rid of those mediocre disciples who were at the bottom of the list and remove the obstacles for the talented disciples who were really worthy of cultivation. It could be said to be killing two birds with one stone.

At this point, even if everyone was unwilling, they didn't dare to talk more nonsense. After all, it was already a foregone conclusion. No matter how much they complained, it would be useless. On the

contrary, it would only cause trouble for themselves. It was better to take advantage of this time to plan for the next Trial Competition.

"Alright, the rules have been announced. Since no one has any other questions, we will begin the first round of the competition by drawing lots after a short rest. Of course, if any disciple wishes to skip a level and challenge someone, please raise your request before drawing lots. Otherwise, once the drawing lots takes effect, you can't give up halfway. You can't even refuse to fight." Xin Yijie announced.
