

## Bodyguard 5231

### Chapter 5231 Exploded In An Explosion

Lin Yi raised his head to look at it, a faint smile on his face. "That's impossible. We came here together, so we naturally have to leave together. If you're not willing to leave, you can try to stop me!"

"You!" King gougou was taken aback by Lin Yi's tone-he'd been the one who'd been high and mighty, and Lin Yi was nothing more than an ant in his eyes, but he'd become the weaker party after the ruckus.

"How is it? Do you agree or not? we still have to continue our journey. We don't have time to waste with you. " Lin Yi's tone was getting more and more brazen.

"Brat, this is the territory of our ancient gougou race. You've got the wrong person!" King gougou snorted coldly.

"Oh, really? From your tone, you should be much stronger than the red-scaled snake. Why don't you try the move it just suffered? I promise I'll definitely give it some strength!" Lin Yi said with a half-smile.

"Brat, do you really think you can scare me like this?" Although the primordial King gougou maintained an extremely vigilant posture, his face unconsciously showing signs of cowardice, it was unrealistic to scare him away like this. Putting his own face aside, he would not be able to bear the consequences if he did not have any Tributes to report to that Lord.

"I didn't expect to scare you like this, but do you have the courage to come down and make a move?" Lin Yi provoked.

The primordial King goumang did not utter a word. He simply sent out a giant wind blade. This was his answer.

Lin Yi dodged it with ease. At King goumang's height, the wind blade was at most a threat-it couldn't really hit him. He raised his head and grinned."It looks like you don't dare to come down and attack. The ancient goumang race sounds impressive, but if even a King like you is like this, it's easy to imagine what kind of people you are."

"Impudent!" King goumang was provoked, and he dove down with only one target-Lin Yi.

Lin Yi wasn't surprised, but was happy instead. He wasn't afraid of King goumang going crazy, but he was afraid that the guy would back off. After all, it was a late-stage golden core existence. Once he set his eyes on them, everyone, including Lin Yi, wouldn't be able to live in peace. The only way was to kill him like what he did with the red-scaled snake. Only then would there be no future trouble.

Another thing that Lin Yi was glad about was that this guy didn't seem to have any intention of doing anything to Lingshan and the others. Otherwise, he wouldn't be able to protect them no matter what he did.

In the blink of an eye, goumang was less than ten meters away from Lin Yi, and the dark green Poison around him was almost able to touch Lin Yi's face. Lingshan and the others were scared, but they couldn't help at all in this situation. Even the strongest, Leng Leng, could only watch. Forcing her way up would only make things worse.

Of course, Lin Yi didn't even think about asking for their help. As long as he could keep his distance from them, he would be satisfied.

"Go to hell, brat!" King goumang roared with killing intent. As long as the poison entered one's body, no human would be able to survive, including this Lin Yi.

"Alright, this distance is about right. You can go with us, the red-scaled snake is waiting for you." Lin Yi grinned as he threw out the Qi pellet bomb that he had been storing in his other hand.

From the moment he was targeted by the three goumang and realized that there was something behind this, he had been secretly accumulating true Qi pellet fire bombs. And it was not just one, but one in each hand!

Back on Sky Class Island, he'd be a lot stronger, but having one bomb in each hand wasn't something he could do-it was extremely dangerous. The more energy a bomb was stored, the more unstable it became, and a mistake could cost him his life, let alone two bombs affecting each other.

However, in the past ten months, Lin Yi's senses had improved by leaps and bounds, and his control of his Qi had become more precise.

Fortunately, he had a pure Qi pellet fire bomb in each hand, one against the red-scaled snake and the other against King goumang. Otherwise, Lin Yi would've been at a complete loss.

In the air, less than ten meters from the ground, the true Qi pill fire bomb exploded. Without the isolation of the red-scaled snake's stomach, the power this time was much more terrifying than before. The area within a few miles was razed to the ground in an instant.

Even song Lingshan and the others were affected. Luckily, Lin Yi purposely put some distance between them, and the bomb didn't explode until ten meters off the ground. Otherwise, they would've been heavily injured.

"It's dead, right?" Lingshan forced herself to look up.

"That's for sure. Boss's attack was extraordinary. If the red-scaled snake is dead, then the primordial King goumang will definitely not be left with even a speck." Chentian said with a smile.

The others nodded with a smile. Although it was still chaotic above, everyone could see that the true Qi pill fire bomb was only a stone's throw away from King goumang. It was as if it had exploded right next to him. If he didn't die, it would be a miracle.

However, Lin Yi's expression wasn't as relaxed as everyone else's. Everyone was used to relying on their eyes and couldn't see the situation up there, but Lin Yi was different. Nothing could escape his divine sense, and the situation up there wasn't as optimistic as it seemed.

"It's really troublesome this time ..." Lin Yi sighed helplessly. Before he could finish, Lingshan and the others all cried out in surprise. A shadow suddenly appeared from the chaos above-it was King goumang.

"That was close. Fortunately, I had the life-saving skill, Shadowmeld. Otherwise, I would have been killed by you. You're really good at this, human." King goumang rejoiced. He was in a sorry state, his colorful feathers in tatters. He was more like a drenched chicken than a dignified King.

"You're not bad either. At least, you're a little stronger than that stupid snake." Lin Yi's expression didn't change.

"Just a little bit?" The primordial King gougou was still able to laugh at this point. He had been hit and suffered a loss, but the fact that the red-scaled snake had died while he had managed to escape alive was a matter worth celebrating.

#### Chapter 5232 There's Indeed A Trap

They had been fighting against each other for so many years, and it had almost become a sore point for the red-scaled snake to defeat it. Now, it had finally achieved its goal, and the red-scaled snake would never be able to make a comeback. This was of course a good thing to celebrate.

"Is it a lot?" Lin Yi smiled as well, not a trace of regret or pity on his face. It was as if everything was under his control. Whether or not he could kill King gougou this time, the latter couldn't escape from him. They were on completely different levels.

"Hmph, stop pretending, kid. You're still too young to scare me!" The primordial King gougou sneered and curled his lips. "I admit that you have some skills. A mere lowly human at the peak of the foundation building realm actually mastered such a powerful technique. I'm afraid there's no other human like you in the world, right? It's a pity that I'm the ancient gougou King, and I'm not so easily frightened. Such a terrifying move must consume a lot of energy, and using it once is my limit. Using it twice is already a miracle. As for the third time, hehe ..."

In other words, it didn't believe that Lin Yi could use it a third time. Otherwise, it would've run for its life already. It wouldn't stay here and talk to Lin Yi.

"Your analysis is very reasonable. You're right. I can't do anything to you now. You've won." Lin Yi said honestly.

Lingshan and the others looked at each other-they didn't know how far Lin Yi could go, but they could guess that the bomb had a lot of restrictions. Using it twice was his limit, but even so, there was no need to be so honest, right?

According to their understanding, Lin Yi should at least put on an act to intimidate the other party for a while so that they could at least find a way to find an opportunity. Why did he just raise his hands and surrender?

The one who was the most shocked by Lin Yi's words wasn't the crowd, but King goumang. He was sure that Lin Yi didn't have a third bomb, and that Lin Yi wouldn't be able to scare him if he continued to force himself, but now he felt a little guilty. He couldn't help but Mutter,"is this kid trying to trick me into going down again?"

"Even I've surrendered, and they don't even have the power to fight back. What are you hesitating for? hurry up and take our Tributes away!" Lin Yi, on the other hand, urged.

King goumang was even more uncertain now. He suspected that this was Lin Yi's psychological attack, trying to scare him away. Shadow break was the life-saving skill of the goumang race, but it could only be used once in a short period of time. The Qi bomb just now had already injured him quite badly. If it happened again, his chance of survival would be zero.

However, with so many ready-made human Tributes right in front of him, he was unwilling to give up just like that. After all, that Lord's challenge wasn't so easy to fool. For a moment, the primordial King goumang was caught in a dilemma.

"Hey, hey, what do you mean by this? if you don't say anything, we'll leave." Lin Yi urged again, but seeing that the man was still hesitating, he walked away and said in disdain,"What primordial goumang

King? I think he's more like a cowardly Rat King. He's so afraid of a mere human at the peak of the foundation establishment stage. There's no one else like him."

"You said I'm afraid of you?" The primordial King goumang finally reacted.

"Isn't that the case?" Lin Yi looked at it from the corner of his eyes.

"You don't know what's good for you!" The primordial King goumang snorted and immediately swooped down at an unprecedented speed. Although he looked like a drenched chicken, his aura was much fiercer than it had been at his peak. This was due to his bloodlust being triggered after being injured. He was in far more danger than he had ever been!

"Boss, be careful!" Lingshan and the others were shocked. Even they could tell that goumang was going all out this time. Unless Lin Yi had a third bomb, it was really a big deal.

Lin Yi, of course, didn't have a third bomb-one in each hand was already his limit. Even if he could rely on the Jade space to replenish his Qi, even if King goumang's hesitation gave him a chance to re-form the bombs, it wasn't enough time.

With his current strength and realm, unless he could condense and compress the true Qi pill fire bomb to the limit, it would be difficult for him to pose a threat to an existence like the primordial King goumang. At most, he would only be able to scratch an itch.

Other than the true Qi pill fire bomb, it would be a fool's dream to rely on other methods to deal with King goumang with his primordial spirit body's Constitution. This was especially so when he was facing a raging King goumang. It would not be an exaggeration to say that he had a slim chance of survival.

But Lin Yi didn't panic at all, not even looking up at King goumang. Instead, he lowered his head on purpose, his lips curling up into a playful smile.

However, it was this expression that caused the menacing primordial King goumang to come to an abrupt stop. When there were less than ten meters between them, he suddenly scurried up again, and even faster than he had swooped down. He was afraid that he would repeat the same mistake and suffer another true Qi pellet fire bomb, which would be the end for him.

"F \* ck!" Lin Yi cursed. He had a pained expression on his face as if he was about to get hurt from holding it in. There was a strong and dangerous Qi in his hand, as if he could explode at any time, but he managed to control it.

This kid was indeed cheating! The primordial King goumang saw all of this clearly, and he couldn't help but feel a lingering fear. He thought to himself, "it's a good thing I was more careful. Otherwise, I would have followed in the footsteps of the red-scaled snake. This human is too dangerous."

What he didn't know was that this was all a show Lin Yi put on for him. This short amount of time wasn't enough to make a powerful Qi fire bomb, but it wasn't hard to create a seemingly dangerous Qi fluctuation. It was hard for King goumang not to fall for this well-planned psychological attack.

"Since it's dangerous to go down, I'll stay in the sky and keep an eye on them. As long as they reveal a flaw, none of these Tributes will be able to escape from my hands!" King goumang made up his mind. He was really scared by Lin Yi now, and it didn't matter if it was real or fake. He wouldn't go below ten meters in front of Lin Yi no matter what. He just wanted the tribute, and as long as he could keep an eye on them, Lin Yi and the others wouldn't be able to escape.

Chapter 5233 Scared Away

Lin Yi saw through the guy's intentions with one look. "Since you don't dare to come down, then get out of here. Even if you keep following us, it's a waste of time. When we reach the territory of other spirit beasts, even if we become Tributes, it will still be theirs. What's good for you?"

"Hmph, you want to coax me away like this? kid, aren't you thinking too simply? I'm telling you, you are all my Tributes, and none of you can escape!" The primordial King goumang replied.

"Is that so?" Lin Yi looked at it with a half-smile, "By the way, do you really think that I can't do anything to you if you fly higher?"

"Kid, I admit that you're strong enough to pose a threat to me. But ... Do you have wings? Can you fly? No matter how powerful that technique of yours is, could it possibly hurt me?" King goumang sneered. He was at least fifty meters above the ground now, just to be safe. Lin Yi's Qi fire pill couldn't hurt him, and even if he could, he'd have enough time to Dodge.

Lin Yi chuckled in response and disappeared without a trace.

"It's so F \* cking fast!" King goumang couldn't help but Mutter. He'd seen Lin Yi's movement before, and it was the first time he'd seen such speed. This time, it was even faster than before, and he could at least vaguely see where he was before. This time, he didn't even know where he was going-it was unbelievable.

"Thank you for your praise." Lin Yi's voice suddenly sounded behind him.

The primordial King goumang jumped in shock, but he immediately reacted and sneered, ""Zhen Qi voice transmission, you have a lot of methods, but what's the use?"

"You're thinking too much. I'm right here. Why would I need to use Zhen Qi voice transmission?" Lin Yi reached out and patted its back-this was the real thing, not some Qi transmission.

King goumang's soul was scared out of his body, and he forgot to flap his wings. He fell from the sky like a dead bird, unable to understand why Lin Yi would suddenly appear behind him. This guy was only a foundational peak human, and he didn't have wings or know how to fly. How did he get so high up in the sky?

What was even more shocking was that as it was falling, Lin Yi was right behind it, following it down as well, and there was a strong and violent pure energy fluctuation behind it!

King goumang was scared out of his wits. He didn't wait for Lin Yi's next move and ran away, not caring about his face anymore.

Hu! Lin Yi let out a long breath of relief. He'd used all the methods he could think of to trick this guy away. It wasn't a waste of effort.

"Boss, what's the situation?" Chentian and the others quickly surrounded him and asked.

"It's nothing. I just scared it away. " Lin Yi smiled. He said it was easy, but the situation just now really made him break out in cold sweat. If he couldn't scare King goumang away and allowed him to follow them from the sky, this test would be over.

This time, he suddenly transformed into a primordial spirit and flew into the sky. Then, he suddenly condensed into a primordial spirit body again. This move sounded simple, but it was actually very difficult. After all, the other party was an existence comparable to the late-stage of the Golden core realm. It was not so easy to hide from the other party's eyes and ears.

Not to mention, Lin Yi didn't have much power to protect himself in the sky. He'd be in danger if King goumang fought back. This was a risky move, but fortunately, he'd laid the foundations well. The enemy was already like a bird startled by the mere twang of a bow. Otherwise, who knew what would've happened.

"Boss, you're awesome! That's F \* cking awesome!" Only then did everyone realize that everything Lin Yi had done was an act. First, he used his strength to kill a giant red-scaled snake, and now he used his acting skills to scare away an ancient king goumang. Their boss was indeed a master of both martial arts and literature, invincible.

"Lin Yi bro, what do we do next?" Ziyu asked. Everyone else looked at Lin Yi as well. If the bats at the start were just to lower their guard, then the snakes and King goumang this time made them truly understand how dangerous the ancient trials were-life and death were on the line.

"Let's continue moving forward. " Lin Yi said with a smile.

"Then ... What if it follows us again?" Yu Bing asked. King goumang wasn't an idiot-even if he was scared off by Lin Yi this time, he'd come back to his senses very quickly. Even if he couldn't react in time, he'd still be upset after he recovered. It'd be troublesome if he came after him again.

Everyone looked at Lin Yi, and his answer was simple, "We'll deal with whatever comes our way,"

It wasn't a satisfactory answer, but it was Lin Yi's most honest one. After all, this was the test of the Supreme ancient Immortal Realms, and anything could happen. With his current strength, it was impossible for him to protect everyone. They would encounter dangers like today again, ten times or even a hundred times more. All he could do was to adapt to the situation.

Everyone went silent. They finally felt a sense of danger they had never felt before. If they didn't level up quickly, they would become Lin Yi's burden and even die in this damn place.

Lin Yi's lips curled up a little as he looked at the serious expressions on everyone's faces. This was exactly the expression he wanted. The reason he decided to let everyone participate in the test was to train them.

After the scare, Lin Yi continued on with Lingshan and the others, but the disciples on the other two paths weren't so lucky. King goumang and the red-scaled snake weren't the only ones who had to Rob human Tributes. Other spirit beasts that had reached a certain level had the same mission as well.

This was a once-in-a-thousand-years archaic trial by fire, so everyone was thinking about the river of consciousness and all kinds of fortuitous opportunities, but they never thought that what awaited them here would be a complete massacre.

Ling Tianyou's group originally consisted of over twenty people, but they ended up encountering a Fox. A Fox with two tails, and they were almost wiped out, including Ling Tianyou. Fortunately, Ling Tianyou's reaction was fast enough to escape into the dense forest, and the Fox did not target him at first, allowing him to narrowly escape death.

Chapter 5234 Special Envoy

However, the others who were with him were in a worse state. Their strength was far inferior to Ling Tianyou 's, and their reactions were not as sharp as his. Once they were targeted by the Fox, they would

not even have a chance to escape, and could only surrender. It was fortunate that the tributes wanted them alive, or they would all have died here.

There were more than twenty people in total, and in the end, all twenty of them ended up as Tributes for the Fox. The other few people who managed to escape followed Ling Tianyou's train of thought and escaped into the dense forest, finally managing to escape this calamity. After all, compared to the tributes of twenty people, the Fox couldn't possibly lose a great deal for a small gain.

Moreover, the individual strength of these people was not outstanding, and escaping into the dense forest would only be like drinking poison to quench one's thirst. The various dangers hidden in the forest would definitely be much more than those on the main road. Even Ling Tianyou could not guarantee that he would be able to escape unscathed, let alone the others.

Compared to Ling Tianyou's miserable state, Duanmu Yu's state wasn't any better. There were much fewer people on her side, but their strength was generally not weak. They were all disciples of the archaic Alliance who were both courageous and ambitious.

In the eyes of most people, Duanmu Yu was strong, but he couldn't be compared to Lin Yi and the others. Even Ling Tianyou, who was at the peak of the late Foundation Stage, could suppress her. Choosing to go with her meant that they had chosen the path with the least security, but at the same time, it also meant that they had chosen the path with the most competition. If they encountered any treasures, everyone would be able to fight for it.

If it was the other two paths, especially Lin Yi's path, they wouldn't even need to think about it. Unless they avoided the main road and went into the forest alone, they wouldn't be able to get anything from Lin Yi's group. However, Duanmu Yu's path was different. Not only could they fight for it, but they also had a real chance to get it.

One thing worth mentioning was that health-maintenance Fei was one of them. He could've gone with Lin Yi and the others, at least compared to the other unrelated disciples of the ancient Alliance. He had a higher chance of getting the soup, but his ambition wasn't limited to that.

Unfortunately, health-maintenance Fei and the others didn't get any opportunities or treasures. Instead, they got a giant one-eyed bear. Just like the other powerful spirit beasts that appeared, this was a powerful existence comparable to a Jindan stage expert. To Duanmu Yu and the others, this was an out-and-out disaster.

In the end, Duanmu Yu was lucky enough to escape the calamity. Everyone else, including Fei Yangwei, was collectively turned into Tributes. None of them were spared.

The heaven raising wall was the only precipice in the entire primordial trial grounds. To other spirit beasts, it was a forbidden zone that they could not approach easily, as it was the base camp of the primordial gougou race.

The Atlas wall was densely covered with caves of different sizes, and each cave had a gougou. There were hundreds of them, and the owner of the giant cave at the highest point was the primordial King gougou.

"My King!" All the gougou's were shocked when they saw King gougou return with heavy injuries. Although King gougou was not invincible, he was at least a rare opponent in the air. Normally, even if he was no match for King gougou, he would not be at such a disadvantage. What was going on today?

"You're injured?" An old gougou hurriedly came forward. It was the oldest and wisest think tank here, as well as the most skilled physician. It immediately began to examine King gougou's injuries.

"I've encountered some trouble," King gougou couldn't keep his face straight anymore. No matter what, it wasn't a good thing to be scared off by a human like Lin Yi.

"Could it be the work of the red-scaled snake?" The red-scaled snake's territory was just next door, and it was common for them to fight each other. The snake's strength was indeed enough to seriously injure the ancient king gougou, but it would definitely not be in a good state.

"It's already dead," King gougou mumbled.

"Really?" Not only old gougou, but all the other gougou's faces lit up with joy when they heard this. The red-scaled snake was their mortal enemy, which was a great thing!

"No wonder you're so seriously injured. You even used escape. It's not a loss, not a loss." Old gougou nodded and said, "Should we send some gougou to take over the red-scaled snake's territory? otherwise, we'll be giving it to others for free?"

The red-scaled snake was a solitary creature. Once it died, its territory would naturally be empty. This was a piece of fat meat.

"I'll leave this matter to you." King gougou said casually.

"Yes!" Old gougou replied happily, then paused before continuing, "Oh right, my King. That Lord's special envoy is here. He's waiting for you in your cave."

"I understand ..." King gougou's heart sank. What he was afraid of really happened. How was he going to explain this to the envoy?

He stepped into an extremely spacious cave. Carved beams and painted rafters could be seen on all four sides. It had an ancient style and was rich and magnificent. Even in the world, there were few places with such style. If an outsider were to enter without knowing the situation, they would definitely not think that this was the cave abode of King gougou from the primordial age.

This was the work of King gougou of the primordial age. Although the gougou tribe had the face of a human and the body of a bird, they had spontaneously adopted the human's way of thinking and customs. They all advocated human culture. Any gougou with a little status or status would have a certain aura of the primordial human culture in their cave abodes, and King gougou was the pinnacle of them.

Of course, even though they admired humans, it did not change the status of humans as food in their eyes. They learned what they needed to learn, and they still ate what they needed to eat. These were two different things.

In the past, the primordial King gougou would always be in a good mood when he returned to his cave abode. This time, he was trembling with fear as if he was walking on thin ice. If not for the fact that he knew he could not escape, he would have turned around and fled.

As King gougou walked into the cave abode with a perturbed heart, he immediately saw a tiny figure on the table. At first glance, it looked like a white and chubby little insect, but he did not dare to let his guard down. In fact, his heart trembled, and he almost knelt down on the spot.

"Lord special envoy, please excuse my rudeness." The primordial King gougou bowed respectfully.

"Speak clearly, were you impolite or did you lose?" The little white bug's voice was sharp and thin, giving people the feeling that it was a child's voice, but it inexplicably revealed a heart-palpitating aura.

"Uh ..." The primordial King goumang's expression froze. He knew that since the special envoy was here, he must have already grasped the situation. "Lord special envoy, I have failed."

Chapter 5235 Hungry ...

"Tell me the details." The little white bug's tone was a little unpredictable.

"Yes, there was a master among the human Tributes that I met. He killed the red-scaled snake with one move and then severely injured me with the same move. Fortunately, I had the life-saving skill,[vanishing shadow]. Otherwise, I'm afraid I would have followed in the footsteps of the red-scaled snake. Moreover, that human seemed to be able to fly. In short, he is unfathomable." King goumang said in a low voice.

"Oh, really? What's the name of that human?" The little white bug asked casually.

"I think he's called Lin Yi." King goumang said quickly. Lin Yi didn't mention his name himself, but Ziyu and the others had mentioned it a few times. It wasn't strange for him to remember it.

"Lin Yi?" The little white bug took note of the name and said with interest, "It's rare to see a human who can kill a red-scaled snake with one move, and he can even fly. If we can have more of such Tributes, I think the Lord will be very happy."

"Yes, yes, no matter how strong that Lin Yi is, he can't escape from you and your Excellency. A tribute is a tribute, his fate was decided the moment he stepped in here." King goumang smiled apologetically.

"Alright, let's talk about your own business. What are you going to do about letting so many human Tributes slip through your fingers?" The little white bug looked at it and said. It was obviously looking up, but it gave people a sense of powerful oppression, which made people tremble in fear.

"This ..." King goumang was so anxious that he broke out in a cold sweat. He was well aware of the consequences of not being able to capture the human Tributes. He didn't even dare to think about it. "Don't worry, envoy. I'll make up for my mistake and deliver enough human Tributes in time."

"Atone for his mistake? Tell me, how are you going to make up for your mistake?" The little white bug suddenly laughed and said noncommittally, ""As far as I know, those human Tributes have already left your territory. Once they enter other people's territory, they will become their Tributes. If you go and snatch them, you will be breaking the rules and will be severely punished."

If not for this, the primordial King goumang and the red-scaled snake would not have wasted so much time. They could only act as they pleased in their own territory. This was the most basic rule, and it was personally set by that Lord. No one dared to disobey.

"This ... That ..." The primordial King goumang was at a loss for what to do. He had actually thought of this on his way back. At that time, he had wanted to secretly go to other territories to steal people. With his air advantage, he could do it without anyone knowing. Who would have thought that the special envoy was already waiting here before he even returned to his own nest?

"How about this, I'll give you a way out." The little white bug said lightly.

"Lord envoy, please speak. On behalf of the ancient gougou race, I am extremely grateful." King gougou hurriedly said.

"Spread out all the gougou of your race. No matter whose territory it is, have them search for every single human tribulation that is left behind. Capture those that can be captured alive, and chase those that can't be captured back to Milord." The little white bug ordered.

"Yes, sir special envoy." King gougou was overjoyed to hear this. Although this mission was not difficult, only the gougou tribe in the entire primordial Land of Trials could accomplish it. After all, they were the only aerial faction that had a decent scale.

"Of course, you don't have to go by yourself. If you're too big a target, you'll easily attract unnecessary trouble." The little white bug added. It wouldn't matter if one or two ordinary gougou went into the territory of other spirit beasts. They usually wouldn't care, but the ancient gougou King was different. If this guy flew over someone else's territory, it would be no different from declaring war.

"Then what should I do?" King gougou asked.

"You ..." The little white bug paused and sized up King gougou. "You can give the order first."

"Yes." The primordial King gougou did as he was told. With a single command, all the gougous moved out before turning back to report to the little white bug.

"If you have any other requests, please let me know. I won't hesitate to go through any trouble." The primordial King gougou was still busy expressing his loyalty. Although this special envoy looked ordinary, he was the representative of that Lord. The power in his hands was no small matter, and even an Overlord like him had no choice but to bow and kneel.

"I'm hungry. " The little white bug said.

"What ... What?" The primordial King gougou could not react in time, thinking that he had misheard.

"I've slept for hundreds of years. I'm hungry. " The little white bug repeated.

The primordial King gougou finally understood this time. He couldn't help but be a little speechless. He could only brace himself and ask, ""Then what do you want to eat? I'll think of a way."

The other party's envoy was fair and tender, and the food he ate was definitely different from the gougou race 's. But since the other party had such a request, it had to find a way to satisfy it.

The little white bug laughed, its small eyes staring straight at King gougou. ""There's no need to go through so much trouble. You'll be fine. "

"Ah?" The primordial King gougou was momentarily stunned. Before he could react, the little white bug had suddenly sprung up from the table and instantly stuck to his face like a cannonball. No matter how hard he struggled, he could not shake it off.

"Be good and don't struggle. This way, you'll feel less pain." The little white bug's body glowed with a terrifying red light. As time passed, the red light became more and more dazzling and demonic, causing one's heart to palpitate.

Brain-eating insect! It was only now that the primordial King goumang suddenly had an idea. He finally remembered the background of this special envoy. This was the famous brain-eating insect!

Before the appearance of that Lord, the brain-eating insect was almost a nightmare for the entire ancient trial ground. Everywhere it passed, there was a bloody storm, and countless powerful spirit beasts died at its hands. It only stopped when it met that Lord one day, and then it became his special envoy.

King goumang was well aware of this part of history and shouldn't be this careless, but he'd just been provoked by Lin Yi, and the envoy had been asleep for hundreds of years. The ferocity from before had been forgotten subconsciously, and it was only now that he'd come back to his senses.

Unfortunately, it was already too late. The brain-eating insect had already firmly stabbed into his face. He did not even have time to struggle before a long and thin mouthpart penetrated his skull and struck his brain. In the blink of an eye, his brain was completely sucked dry. King goumang became a brainless corpse and fell straight down.

A moment later, the brain-eating insect crawled down from its face in satisfaction. At first glance, it still looked like a white and tender little white insect, but there was an additional five-colored mark on its back, which was exactly the same as the feathers on King goumang's body.

Chapter 5236 Lin Yi's Awake?

"I haven't eaten for hundreds of years. Tsk, tsk, I've almost forgotten this wonderful taste." The brain-eating insect glanced at King goumang's corpse and slowly crawled out. When it reached the entrance of

the cave, it suddenly leaped and free-fell in mid-air. After half a fall, the five-colored mark on its back suddenly lit up. Then, with a surge, it grew a pair of huge wings.

In the dense forest, Lin Yi and the group continued to move forward. With the experience of King goumang and the red-scaled snake, Lin Yi was now constantly gathering his Qi as he moved forward, in case of an unexpected situation.

Of course, Lin Yi couldn't hold a Qi bomb in his hand all the time. Even if he didn't have to worry about running out of Qi, it would still consume a lot of energy, and a big mess could happen if he wasn't careful. What he was doing now was to increase the strength of the Qi in his body to a level far beyond his usual level. This way, he could shorten the time needed to form a Qi bomb by several times. This way, it wouldn't consume too much energy, and he wouldn't be helpless in the face of an unexpected situation. It was a plan that could kill both sides.

Other than that, Lin Yi also expanded his spirit sense to the maximum at all times, so that he could sense the wind and grass at the first moment, and have enough time to respond.

With these two points, everyone's safety was guaranteed to a certain extent-at least they wouldn't have to face a late-stage golden core spirit beast so casually. If it was just a normal spirit beast blocking the way, Lin Yi wouldn't even have to do anything-he just had to watch from the side, and Leng Leng and Lingshan could take them out. This was a rare practical experience.

After the group had taken down the third spirit beast blocking their way, the sky was already dark. Lin Yi called out to everyone, ""Everyone, let's rest here. It's too dangerous to travel at night. We'll continue our journey at dawn."

"Alright!" Everyone nodded. To be honest, although these three spirit beasts weren't very powerful, they were already very difficult to deal with for those who were only at the peak of the early Foundation Stage and early Foundation Stage. They really needed a good rest.

"Boss, do we need to be on alert in groups?" Yu Bing reminded.

"No need. Your task is to rest and recuperate well. Try to adjust your condition to the best before dawn. As for the vigilance, leave it to me." Lin Yi smiled. This was a piece of cake to him. Plus, a real alert in this environment required a strong spirit sense. Otherwise, it would be just for show, and this was something that the others obviously didn't meet.

"Alright!" No one had any objections to this. They needed a good rest, or they would be a burden to the others tomorrow.

Lin Yi held everyone's hands and arranged them into a formation that could respond quickly. After all, this place was full of danger, and they couldn't let their guard down at night. As for himself, he chose a big tree on the side, which not only had a wide view, but also made it easier to sense things.

He looked up at the stars and listened to the weird noises coming from all directions. He thought back to what happened during the day, but he didn't feel scared at all. He was a little excited. He was a natural-born adventurer, and he wouldn't be excited if this once-in-a-thousand-years training ground wasn't full of hidden dragons and tigers.

But it'd be a lie to say he wasn't worried at all-even with a trump card like the Qi pellet fire bomb, it wouldn't be an easy task for Lin Yi to protect everyone with his complete foundation Stage cultivation. At most, he'd be able to give it a try if something happened, but controlling the situation was a dream.

"But what is it missing?" Lin Yi sighed. He'd never been troubled by breaking through before, not even when he was at the original infant stage or the xuansheng stage. This time, however, he was stuck at the peak of the Foundation Stage. He couldn't even touch a rock, let alone figure it out. How was he supposed to cross the river?

But no matter what, Lin Yi would keep trying, even in a situation like this. His senses wouldn't get weaker when he cultivated, and it would become sharper instead. It wouldn't affect his vigilance.

What Lin Yi didn't know was that while he was trying, his real body in the Sky Class Island had a strange reaction.

"Lin Yi? Lin Yi, you're awake?" Tian Gang was shocked when he saw Lin Yi's body suddenly emit a strong aura.

Other than refining pills, she would stay by Lin Yi's side when she had nothing to do. It had been so many months since Lin Yi returned, and it made her, Xue Li, and Wei shenjin worried, but fortunately, Lin Yi's breathing was very stable, and he even replied to the central Chamber of Commerce, which made them feel at ease.

But this situation was unprecedented in so many months. Lin Yi's aura was clearly getting stronger and stronger, and it didn't seem to stop at all. It was getting more and more intense, and in the blink of an eye, it caught up to Lin Yi's previous peak state. He was far stronger than the average early stage of the mystic Ascension realm. If it weren't for the special array strengthening the houses in the commercial district, just the aura alone would have destroyed the houses.

"What's wrong?" Xue Li sensed something was wrong in the room and rushed up immediately. She was surprised to see Lin Yi's condition, ""Is he coming back?"

"Maybe ... Maybe ..." Tianshuo wasn't sure. She didn't know what would happen when the spirit returned, but she was sure that something was going to happen in Lin Yi's current state.

"What should we do now?" Xue Li was panicking. She could only look at Lin Yi and Tian Gang helplessly. Although she was usually in charge of everything in the heavenly pill Pavilion, when Lin Yi wasn't around, Tian Gang was the real backbone.

However, Tian Gang didn't know what to do. He thought for a while and said, ""Why don't you ask senior brother Wei to invite senior brother Cai Zhongyang and senior brother hou guanqi to take a look? they're experienced and skilled in medicine. If there's any problem, they should be able to see it."

"Alright, alright, I'll go get him now." Xue Li immediately went downstairs to ask Wei shenjin to find her.

Tianshuo prayed silently as Lin Yi's reaction became more and more intense. She knew that even if she found Cai Zhongyang and hou guanqi, they might not be able to help in a situation like this, unless Zhang Liju was here. Unfortunately, the founder was nowhere to be found.

Chapter 5237 Breakthrough?

To be honest, the person who could help the most at this time was actually the acting Island Lord, Okita state. Even if he did not personally experience the projection of primordial spirit, he could at least ask Southern sky Aurora and consult the manager of the island Lord's pavilion in charge of this.

It was a pity that ao Tian Zhou was, after all, a pure outsider. He was also an important figure with an extremely high status. They had already troubled him twice in a row to send the letters. Tian Gang and the others were already a little uneasy. If they ran to him to help them when something happened, it would be too much. Even if the other party didn't say anything, they would feel bad.

Soon, Wei shenjin found Cai Zhongyang and hou guanqi. The two rushed into the room and saw Lin Yi's state. They were both surprised and looked at each other.

"Senior brothers, What Do You See?" Tian Gang quickly asked.

"He's not awake yet, is he?" Cai Zhongyang and hou guanqi looked at each other and asked.

"No, why?" Tian Gang and Xue Li both shook their heads. Lin Yi's aura was extremely strong up until now, even causing chaos downstairs and forcing them to close the shop, but he didn't show any signs of waking up.

"Since he hasn't woken up, why is he in such a condition?" Cai Zhongyang was confused.

"This situation?" Tian Gang and Xue Li were stunned.

"You've all experienced this before. Isn't this a sign before a breakthrough?" Hou guanqi explained.

"Breakthrough? Lin Yi's about to break through?" Only then did the two girls realize what was happening. They were too worried that they forgot that this familiar scene was a sign of a breakthrough. However, Lin Yi was already in the early stage of the mystic Ascension realm, and the commotion was far beyond their expectations.

"That should be the case, but there's one thing I don't understand. Since he hasn't woken up, how could he have broken through?" Cai Zhongyang couldn't understand.

A breakthrough was the most important thing for a cultivator. No matter how talented one was, one had to go all out to have a chance of success. As for a breakthrough in one's sleep unconsciously, this was unprecedented in the entire world of cultivation. Was it possible to wake up to find that one had a breakthrough?

At least in Cai Zhongyang and Hou Guanqi's minds, this was impossible. However, Lin Yi's current state was slowly overturning their understanding.

"Yeah, he can't be cultivating even when he's sleeping, right?" Hou Guanqi was also in disbelief.

"If he's only cultivating while sleeping, then I can understand. He's Lin Yi, after all, not a normal person. It's not strange for him to do things that go against common sense, but he's using his spirit projection. His spirit isn't even here, how is he supposed to control the flow of his Qi?" Cai Zhongyang shook his head and smiled bitterly.

A person's consciousness was still active even when they were sleeping, and for practitioners, it was just that their spirit was still in its normal state—it was just a subconscious self-control. It was rare to practice in this situation, but strictly speaking, it wasn't hard to imagine. But Lin Yi didn't even have his spirit here, and it wasn't just training, he was about to break through on the spot! How could anyone be reasonable?

Just as everyone was talking, Lin Yi's aura had already broken through the original limit. Everyone felt a strong invisible wave of Qi rippling from Lin Yi's body, and they all took a few steps back before they could stabilize their bodies.

Then, there was an incredulous silence.

As they watched Lin Yi's breathing slowly return to normal, slowly returning to its original undetectable state, Cai Zhongyang and Hou Guanqi were both dumbfounded. After a long while, they looked at each other and said, "Peak of the early stage of the mysterious Ascension realm ..."

It was just a bold guess just now, but now it had become a living reality. There was actually someone in this world who could break through without consciousness or even primordial spirit, and it was even in the high level of the mysterious Ascension stage. It was simply unbelievable. If they had not seen it with their own eyes, they would never have believed it even if they were beaten to death.

Tian Gang and the others were also dumbfounded, but compared to breaking through, Tian Gang and Xue Li were more concerned about Lin Yi's current condition. They were afraid that something unexpected would happen to Lin Yi.

"Don't worry, he's in the same condition as before. There's nothing serious." Hou Guanqi carefully examined Lin Yi's body and didn't find anything abnormal. All his vital signs were stable.

"Oh, that's good." Tian Gang and the others finally relaxed.

"But what's going on with him? How did you break through?" Cai Zhongyang was still frowning in confusion.

"Come on, this is too bizarre for us. We can't figure it out on our own. We can only ask him after he wakes up." Hou guanqi shook his head with a bitter smile.

Tian Gang and Xue Li looked at each other. They didn't care about breaking through as long as Lin Yi's body was fine. Their biggest wish was to wait for Lin Yi's spirit to return safely.

This time, it was a close call, and everyone from Tian Huan was shocked, but Lin Yi, who was far away in the ancient testing grounds, didn't feel anything.

"What's the situation?" Lin Yi mumbled to himself. When he tried to break through, it felt different from before. It felt like he was about to break through, but it didn't last long. It disappeared without a trace and he fell back into the bottleneck. No matter how he tried, the wall didn't move.

Anyone else in this situation would've been depressed for a while-did they find a life-saving straw, only to find out that it was really just a straw? it was depressing enough to die, but Lin Yi maintained his composure and didn't let it go.

They looked down at the people who were sitting quietly and resting, and happened to meet the cold eyes of the people who were looking up. The two of them couldn't help but smile at each other.

This test was not a small one, and the one who was under the most pressure was none other than Leng Leng. She was the second strongest practitioner after Lin Yi, and she was the main force every time they encountered a spirit beast. At the same time, she had to protect Lingshan and the others to a certain extent.

Of course, this was the result of Lin Yi's intention. In this one year, Leng Leng had broken through from the early Foundation Stage to the full foundation Stage. Only a lot of life and death battles could help her consolidate her strength as soon as possible!

#### Chapter 5238 No More Problems

A day's worth of results was even comparable to a month's worth of her hard work. This kind of opportunity was not something that could be easily obtained.

The two of them looked at each other, and everything was conveyed without a word. Coold nodded slightly and continued to bury her head in her condition. She had exhausted a lot of energy throughout the day. If there were no accidents, she would have to take on the main responsibility tomorrow, so she could not slack off at all.

The night passed uneventfully, and everyone was back to their peak condition by daybreak. They continued on their journey under Lin Yi's lead.

In the next two days, the group's experience was scary but not dangerous. They did run into a lot of spirit beasts, but most of them were only at the Foundation Stage. They didn't even need Lin Yi to do anything-Leng Leng and Lingshan were enough to take care of them. This was a true battle experience for everyone.

As for the occasional golden core stage spirit beast, Lin Yi could basically take care of them with a pure Qi fire bomb. At the very least, he could scare them away. As long as it wasn't two or more appearing at once like before, it wasn't a big problem.

Of course, golden core stage spirit beasts generally have their own territory. One territory can only have one master. Unless you just happened to step on the dividing line, the probability of encountering such a situation is not high.

However, on the third night, an uninvited guest came to Lin Yi's group.

As usual, Leng Leng and the others gathered together to rest, while Lin Yi was guarding the tree out of habit. Suddenly, his expression changed-there was an aerial spirit beast approaching him at high speed from the furthest point of his senses.

"Goumang?" Lin Yi blinked-the shape of the flying beast was extremely blurry, but he could tell from its wings that it was probably goumang, the Taigu he'd fought before.

Lin Yi's first thought was that the goumang King had caught up to him, but he quickly rejected that thought. The goumang wasn't big, far from the goumang King's size. It was a normal goumang at most.

It was just a normal goumang, so there was nothing to be afraid of. Let alone Lin Yi, even Leng Leng and the others could handle it with ease after a few days of actual combat training. However, Lin Yi's expression was a little serious. He didn't know why, but that goumang kept giving him a dangerous aura. This was a feeling he didn't have even when he faced the ancient goumang King and the red-scaled snake.

"Something is coming from the sky. Everyone, be careful." Lin Yi didn't dare to delay and immediately warned Leng Leng and the others.

Leng Leng and the others were on high alert-they knew that this thing wasn't ordinary, or else Lin Yi wouldn't be so nervous and cautious these days. He wouldn't even warn them and let them sense it themselves, testing their reaction speed.

Lin Yi hadn't been playing the role of a guardian these past few days, but an instructor. It was just that it wasn't the time to test them before he figured out the strength of the thing.

After a while, the thing was only a mile away from them. The mysterious aura around the thing could hide it from most people's senses, but if Lin Yi still couldn't see the face at this distance, he'd have wasted all these years.

"Bugs?" Lin Yi blinked. It had a pair of goumang race's giant wings, but its body was a white and tender bug. It was a strange and funny sight. How could it be a bug?

"Insect? What bug?" Leng Leng and the others below were baffled. Their divine senses did not have such a far range. Even if they did, they would not be able to see through the unfathomable aura on the other party's body.

Lin Yi didn't reply, but he didn't let his guard down. No matter how funny the man looked, his instincts told him that he was in danger. In the world of practicing, people who judged people by their appearance didn't live long, and Lin Yi wasn't one of them.

In the blink of an eye, the man was less than twenty meters away from Lin Yi. He landed on a tree opposite him, facing Lin Yi.

"You're Lin Yi?" The brain-eating insect sized Lin Yi up with interest.

Lin Yi was a little surprised. He could guess that the man was here for them, but he didn't expect him to call out his name. He asked directly, "How did you know?"

"Simple, because I ate the ancient king goumang." The brain-eating insect answered very frankly.

This answer immediately stunned everyone. Leng Leng and the others below looked at each other and couldn't help but wonder if this fellow was bragging. Such a small insect could eat the huge ancient king goumang? what kind of joke was this?

Lin Yi, on the other hand, was deep in thought. He couldn't imagine how this guy ate King goumang, but he chose to believe it based on his instincts. This was an extremely dangerous guy, far more dangerous than King goumang!

"Then ... Who are you?" Lin Yi continued.

"Special envoy, in their words, it's the special envoy of that Lord." The brain-eating insect was still very Frank.

"Special envoy?" Lin Yi's eyes flickered-he saw the giant wings on the man's back disappear in an instant, and the man looked like a White Worm from head to toe, harmless to humans and animals.

As Lin Yi sized up the brain-eating insect, the brain-eating insect sized him up as well. As for Leng Leng and the others, the brain-eating insect wasn't even interested in them. It seemed like the only person it was interested in was Lin Yi.

"You're also here to capture Tributes?" Lin Yi continued to probe. This guy's behavior was completely different from all the other spirit beasts they'd met before. All the spirit beasts, including King goumang and the red-scaled snake, were most concerned about the number of Tributes from the beginning to the end. They had almost no interest in a troublesome human like him, completely different from this insect envoy.

"I guess so." The brain-eating insect's answer was noncommittal. It was a special envoy, unlike the ancient king goumang who had to provide sufficient human Tributes in order to survive. Even if it did nothing, it would not be punished. However, since it had encountered it, it did not matter if it did something along the way.

"Alright, I have no more questions." Lin Yi nodded, and just as he said that, coold and the others all understood and ran forward. This was the secret code they'd agreed on earlier-it was very dangerous to do this at night, and they could run into unpredictable dangers if they weren't careful, but the enemy was right in front of them, so it was better than everyone staying here.

The brain-eating insect wasn't surprised. A new pair of wings appeared on its back, and it immediately used one of the goumang tribe's signature moves, wind blade, on the fleeing group.

Chapter 5239 Sample

However, Lin Yi was prepared for this. Before it could use its wind blade, he was already in front of it.

"Roar? You're really bold, human!" The brain-eating insect suddenly laughed.

It was a funny scene to someone who didn't know what was going on-hearing something like that from a harmless-looking bug made Lin Yi speechless, even though he knew that the guy wasn't simple.

As soon as the brain-eating insect finished speaking, two wind blades whizzed out. Their target changed from Leng Leng and the others to Lin Yi who was close at hand. There was no chance to Dodge at such a short distance. The wind blades stuck to Lin Yi's body as soon as they formed. If this continued, he would be dismembered immediately.

"Oh, really? I think you're quite bold. " Lin Yi replied calmly. He didn't make any moves against the wind blade because it wasn't necessary. The Qi bomb in his hand was already in the enemy's face.

Although he didn't waste too much time, Lin Yi had been maintaining his Qi at a high intensity these past few days out of habit, greatly reducing the time it took to form the Qi pellet bomb. The power he used now was almost at the limit of his current strength.

BOOM! The silence of the night was broken by a loud bang. A radius of several miles was razed to the ground in an instant. The area within a hundred miles was also in a mess. Many spirit beasts fled in panic and were in a miserable state.

Leng Leng and the others had already escaped a certain distance away. Furthermore, with their previous experience, even though they were all in a sorry state, none of them were injured.

"Hu!" Lin Yi let out a long breath. If it was before, he would've suffered a lot from the backlash if he detonated the bomb at such a close distance, but his speed was a lot faster than before, and he could switch between his soul form and half-soul form at will, avoiding most of the damage.

However, it was different for the brain-eating insect that bore the brunt of the attack. The true Qi pill fire bomb was directly pressed on its face and detonated. The power and damage it caused were difficult to estimate. Even an existence comparable to a late-stage golden core like the ancient king gougou would die without a doubt if he was directly hit in the face like this.

However, Lin Yi quickly frowned again, even more so than before. His divine sense told him that the man didn't die on the spot, and wasn't even seriously injured!

"Hoho, you're indeed a human who can kill a red-scaled snake. I have to say, you do have some strength." When the brain-eating insect reappeared, it was already two miles away. Other than some burn marks on its body, there were no more obvious serious injuries. It even looked quite relaxed. "Fortunately, I copied the goumang tribe's Phantom image. Otherwise, I would have suffered a great loss."

This time, Lin Yi was truly shocked.

The true Qi pill fire bomb was his most powerful trump card. Other than that, other means, including the killing Qi of the five elements, could hardly pose a threat to existences at the Golden core stage. In the end, he was only a primordial spirit. Even if he had mastered the unique life-saving means of the primordial spirit form and the half-primordial spirit form, it was still far inferior to the nature-defying quality of his own body.

Lin Yi's heart sank as he looked at the guy's nonchalant face. It would be easier to accept if the bomb didn't hit the guy, but it was pressed on the guy's face. Even if the guy used escape, he couldn't avoid the damage at the first moment, and it only gave him an itch. How could he accept this?

"Let's go quickly. Cool, lead the team and take care of everyone. I'll meet up with you guys after I've lured it away." Lin Yi quickly sent a message to everyone. He wasn't even this nervous when facing King goumang and the red-scaled snake, but this time, he really wasn't confident at all. Luring them away and regrouping was the only way he could think of.

"This ..." Lingshan and the others looked at each other, worried. They didn't think things would get this serious. It was just a bug, how could it be this scary?

"Let's go!" Leng Leng was the first to react and immediately led everyone away. She knew that the longer they stayed, the more danger Lin Yi would be in. This was a matter of life and death, and there was no time to hesitate.

Lin Yi smiled as he watched Leng Leng lead the group away. What made him even more happy was that the insect didn't seem to be chasing after them. It had a clear target-him.

"You seem to care a lot about those people?" The brain-eating insect didn't rush to attack, but asked with interest.

"Does this matter? Since I'm your target, letting them go shouldn't matter to you. Am I right?" Lin Yi was shocked, but he didn't show it on his face. He was still calm.

"You're right. " The brain-eating insect nodded. Its goal had never been the so-called human Tributes from the beginning. After all, the tributes were prepared for that Lord, and this time, it came to eat it all for itself.

"That's good. Why don't we wait a little longer?" Lin Yi said casually.

"You're an interesting human. This should be what you call insatiable, right?" The brain-eating insect laughed, and the insect's face showed all kinds of human-like expressions. This scene was strange no matter how one looked at it.

"I don't think so. In my understanding, this is called a friendly negotiation." Lin Yi said, thick-skinned.

"A friendly negotiation?" The brain-eating insect was stunned for a moment before it reacted to what he meant. It suddenly laughed so hard that its whole body was arched, and it said breathlessly, ""Well, it seems that I didn't come to the wrong place this time. You are indeed a rare human sample."

"Sample?" Lin Yi pretended to be surprised, but he was relieved inside. If this guy really wanted to make Leng Leng and the others stay, he wouldn't be able to do anything. He had to admit that this insect was quite smart.

"That's right, it's a sample. In your human language, it basically means food, but it's slightly different." The brain-eating insect said bluntly.

"So you're saying you're going to eat me?" Realization dawned on Lin Yi, but he wasn't afraid at all. Many Savage spirit beasts had the habit of eating humans, and while this insect's appearance was a little special, it was still a very powerful spirit beast, one that could eat King gougou.

#### Chapter 5240 Traces And Clues

"It's your honor. To be my food, you have to be at least someone like the primordial King gougou. I wouldn't like eating ordinary people even if they were sent to my mouth." The brain-eating insect said bluntly. This was the truth. Eating brains was its natural instinct, but it was not just eating. The key was that after eating the brain, it could copy the other party's abilities. If it was an ordinary person, it would not benefit even if it ate it. It would be a waste of energy.

"Oh, then I should thank you for your kind words?" Lin Yi said with a half-smile.

"You're welcome," The brain-eating insect was honest and said after a moment, ""You've waited long enough, I'm going to make my move. "

Without waiting for Lin Yi's reaction, the brain-eating insect's body suddenly grew a huge chunk. Its wings were still on its back, and its body turned into a giant snake. At first glance, it looked like a red-scaled snake.

Not only that, but four extremely sharp claws had also grown out of its snake body. It was unknown what kind of powerful spirit beast it was, but just a glance was enough to make people tremble in fear.

"What a monster!" Lin Yi sighed. If this guy's image continued to develop, he'd probably become a fake Dragon.

Lin Yi's movements weren't slow at all-he'd made use of that brief moment to create a new bomb. Even if he knew he couldn't kill his opponent, this was the only thing he could do. After all, it was his most powerful attack.

"Again? You really don't want to give up!" This time, the brain-eating insect didn't use the ancient goumang race's escape technique to retreat. Instead, it directly attacked with its claws, which exploded on the spot. It was extremely overbearing.

"So fierce?" Lin Yi's eyes twitched. He knew that this guy wasn't simple, but he didn't expect him to be this strong. Even if the power of this bomb wasn't at its limit, it still shouldn't be underestimated.

After the bomb exploded, the brain-eating insect had more black burn marks on its body. The injuries were a little more serious than before, but it wasn't serious. Instead, it triggered its ferocity even more. It roared and rushed over to swallow Lin Yi alive.

Unfortunately, Lin Yi didn't give him the chance. The moment the bomb was detonated, he had already used the aftershock to escape. Of course, the direction he chose was the opposite of Leng Leng and the others. Otherwise, it would be meaningless to delay for so long.

"He escaped pretty quickly, but unfortunately, he encountered me!" The brain-eating insect looked at Lin Yi, who had become a small black dot in the distance, and smiled. It flapped its wings and chased after him.

The brain-eating insect was very fast, but it was much slower than Lin Yi. Even if Lin Yi was running on the ground and it was flying in the sky, it could only hang on to it. It wasn't easy to close the distance.

"This fellow's speed isn't slow." Lin Yi turned around and looked at the brain-eating insect in the sky. Although he said that, his expression was relaxed. He had absolute confidence in his speed. If he wanted to, he could get rid of the insect in a minute. He was only using super butterfly microstep right now, and he still had more to use.

To Lin Yi, it wasn't a good thing to get rid of them too early, because it could very likely shift the danger to Leng Leng and the others. He had enough confidence to escape anyway, so keeping the brain-eating insect hanging like this was the best choice.

But it wasn't without risk. With the strength the brain-eating insect just showed, Lin Yi wouldn't want to fight it at close range. If he didn't handle it well, he'd be either dead or injured. If he attracted some powerful spirit beast while running, the consequences would be hard to say.

While Lin Yi was planning, the brain-eating bug was planning as well. It wasn't stupid, and it already knew what Lin Yi was trying to do. It knew that Lin Yi still had some energy left and could lose it at any time, but it still had absolute confidence.

As far as it knew, every human practitioner had a limited amount of pure energy. Lin Yi running for his life like this would consume a lot of his pure energy, and when he ran out, he'd be like an arrow at the end of its flight.

It also had a secret weapon, so it wasn't afraid that Lin Yi would really escape from its grasp. It didn't matter how far Lin Yi ran, as it could always grasp his position.

The man and the Beast continued like this for the whole night. Seeing that the sky was already bright, the brain-eating insect finally felt that something was wrong and couldn't help but Mutter, ""What's up with this human? Where did he get so much Qi?"

It would never have thought that Lin Yi had a cheating device like the Jade space on him. If it was a pure battle of energy consumption, it would naturally be invincible. Just like now, Lin Yi was still alive and kicking, but the brain-eating insect itself was a bit overwhelmed. No matter how strong it was, it couldn't withstand an entire night of hot pursuit.

At this moment, Lin Yi's speed suddenly increased a lot, and in the blink of an eye, he was out of the brain eating insect's perception range.

"Hehe, he's finally starting to run for his life. It seems like this human's true Qi is almost depleted." Not only was the brain-eating insect not surprised, but it also smiled proudly. ""No matter how fast you run, don't even think about escaping from me!"

Trace, this was the innate ability of the thousand-eyed wolf spider, and now it had become one of the abilities of the brain-eating insect. As long as it left a trace on the other party, then no matter where the other party fled, it would not be able to track them down.

This spider silk was extremely thin. Not only was it invisible to the naked eye, but it was also hard to detect with spiritual sense. The brain-eating insect was so cooperative when Lin Yi deliberately delayed his speech so that it could leave the spider silk on Lin Yi.

As the brain-eating insect said, it was very picky about its food, and once it set its eyes on you, you would die without a doubt because it would use all kinds of means, but it was impossible to guard against it. To be precise, it was impossible to guard against it.

It was true that Lin Yi didn't notice the spider silk on his body. After all, it was too thin and light. Even with his divine sense, he couldn't detect it. Unless he was prepared for it and did a comprehensive inspection, even a God would fall for it.

With such a high-level tracking method, the brain-eating insect was naturally sitting on the fishing platform. No matter how fast Lin Yi ran, it was useless in front of its traces.

What the brain-eating insect needed to do now was very simple-it just needed to keep its speed and follow Lin Yi from a distance. As long as Lin Yi didn't fall into the hands of other powerful spirit beasts, it would be fine. Of course, with its status and strength, even if that happened, it wouldn't be a big problem. It could completely intercept Lin Yi halfway, and at worst, it could eat the spirit beast as well.
