

## Bodyguard 5241

### Chapter 5241 Completely Disappeared

However, at this moment, Lin Yi's traces suddenly disappeared from its mind. There was no warning, he just disappeared.

"Ugh ..." The brain-eating insect was stunned for a long time and couldn't say a word for a long time. It was just so proud that everything was under its control. Wasn't this a F \* cking slap in the face?

After a long time, the brain-eating insect finally flew into a rage out of humiliation. ""This cunning human! Could it be that he had discovered traces of me from the beginning, but he had been acting with me to numb me? Damn bastard!"

What they didn't know was that Lin Yi didn't know anything at all. He just wanted to make sure that he could get rid of the enemy, so he completely transformed from his Yuan spirit form to his Yuan spirit form.

No matter how brilliant the trace was, it still needed to be attached to a physical body for it to work. After Lin Yi transformed into his soul form, the trace had no place to attach itself to, so it lost its meaning.

This was a pure accident, and fortunately, Lin Yi hadn't stopped practicing these past few months, mastering the switching between the yuan spirit form, half-Yuan spirit form, and Yuan spirit form. Otherwise, he would've been at a big disadvantage without even knowing it.

After making sure that the brain-eating bug wasn't chasing after him, Lin Yi returned to his Yuan spirit form. It wasn't impossible to maintain this form forever since it made him immune to most damage, but if something happened, it would be very fragile and defenseless.

In this ancient Land of Trials, where all kinds of dangers emerged one after another, the form of the primordial spirit was no different from a small boat drifting in the sea. Any huge wave could be a disaster.

In comparison, it was easier to get hurt in the yuan spirit form, but at least he could use all kinds of hidden cards and techniques. More importantly, Lin Yi was more used to this form, which was almost like his original body. He felt weird if he kept floating in the sky as a Yuan spirit.

After returning to the surface, the first thing Lin Yi did was find a way to find Leng Leng and the others. After all, they were still too weak. It would be fine if they were only facing the threat of Foundation Stage spirit beasts, but if they were to encounter golden core stage spirit beasts, the consequences would be unimaginable. Lin Yi couldn't be at ease if the time dragged on for too long.

However, it was not easy to find Leng Leng and the others at this time. They had been running for an entire night with the Super butterfly microstep. Even if they were not heading in the opposite direction, the distance was not small. It was at least hundreds of miles away. It was easier said than done to find someone with such a long distance between them in the vast primordial trial ground.

If they were in a plain area where everything could be seen at a glance, it would be better. At most, they could change into their primordial spirit form and float around in the air. It would not be difficult to find the traces of coold and the others. However, there were primitive forests everywhere. They could not even see the situation under their feet when they were floating in the air, let alone look into the distance! In particular, this place was similar to the previous trial ground, so the expansion of spiritual sense couldn't be too far.

The only thing Lin Yi could do now was to determine the route coold and the others were taking and get ahead of them as fast as he could, while maintaining his spirit sense at the maximum range to avoid any mistakes. This way, he had a chance to meet up with them in a short time.

Lin Yi's speed was extremely fast, and he didn't miss any spirit beasts blocking his way. After all, even brain-eating bugs couldn't catch up to his speed, let alone these normal spirit beasts.

They wanted to block Lin Yi's way, but Lin Yi ignored them and just rushed past them.

After two hours, Lin Yi suddenly stopped. It wasn't because of his pure energy or stamina, but because he sensed human tracks.

It wasn't possible for coold and the others to be in this position, but Lin Yi still wanted to find out more about the situation. He didn't mind helping the disciples of the ancient Alliance-he might run into some familiar faces.

"What?" Lin Yi frowned-this place wasn't near any of the main roads, but was deep in the forest. He could vaguely make out the footprints of human practitioners, but they stopped abruptly at an empty space.

Lin Yi looked around and found that everything looked normal. There was nothing special about it, and there wasn't any danger. There weren't even any signs of spirit beasts, and the environment was very fresh and pleasant. It was like a paradise.

More importantly, Lin Yi's spirit sense didn't detect any human practitioners, which meant that one of them disappeared into thin air.

Logically speaking, unless this person could fly, no matter how strong he was, he should have left some traces behind, even if he was on a tree. This scene was a little unexplainable-they couldn't say that he could transform into a Yuan spirit like Lin Yi, could they?

Lin Yi couldn't figure it out yet, but one thing was for sure-there was something wrong with the environment, but he didn't know what it was.

He continued to observe for a while, but he still didn't find anything strange or suspicious. Lin Yi decided not to waste any more time. He stopped because he wanted to see if he would meet any familiar faces. Right now, meeting up with Leng Leng and the others was the most important thing. There was no point in staying here.

However, just as he was about to move, he heard a slight movement behind him. Lin Yi didn't turn around, but his divine sense told him what happened. It was the sound of flowers blooming.

Less than three steps behind him, a red flower bud bloomed quietly at the height of half a man. It was bright, beautiful, and had an elegant fragrance that refreshed the heart.

It was dangerous! Lin Yi immediately sensed the danger in the environment. It was obvious that the danger came from this beautiful flower that looked harmless.

As expected, the flower suddenly expanded in an instant, with rows of sharp teeth growing on the petals. The entire flower turned into a giant mouth, fast as lightning, about to swallow Lin Yi.

Lin Yi finally understood why the footprints disappeared, but his body reacted much faster than his brain. Before the flower could pounce on him, he dodged two body lengths with his super butterfly micro-steps.

Chapter 5242 Reasonable

The man-eating flower missed its bite, but the danger wasn't over yet. Just as Lin Yi dodged it, another man-eating flower appeared three steps away from him, the same size and shape.

Lin Yi didn't have time to dodge this time-his vision went dark, and a thought flashed through his mind. "Flowers bloom! Zhu dinghong!"

Vermillion top red was the name of a type of flower. From the appearance of these two man-eating flowers, they were indeed the Vermillion top red that was common in the secular world. However, the Vermillion top red in the secular world was not such a cruel and terrifying man-eating flower, but a kind of flower that was purely for viewing.

Lin Yi wouldn't have fallen for it so easily if he'd realized that it was Vermilion. It had a more official name, the Twin Flower.

As the saying went, flowers bloomed and had two stems. The two-stem flower had never existed alone. Since this kind of man-eating flower had the same characteristics as the two-stem flower, it was natural for it to grow.

He had to be prepared for the two flowers, but it was too late.

The moment he was bitten by the amaryllis, Lin Yi suddenly had an idea. He gave up on the thought of turning into his spirit form and jumped into the mouth instead. He wanted to see what kind of existence the amaryllis was.

The sharp teeth didn't hurt Lin Yi at all. In the darkness, he felt as if he had entered a pipe and was transported deep underground.

After a moment, the surrounding environment suddenly became clear, and there was even a bit of light. Even without using spiritual sense, one could clearly see the surrounding scene.

At first glance, it was a tree hole with a diameter of less than ten meters, but it was not an ordinary tree hole. It was a very active tree hole, because countless green tentacles extended out of the wall of the hole. Any one of them could entangle a person tightly, making them unable to move.

Lin Yi's body was wrapped by four tentacles. These green tentacles were not only extremely tight, but there were also extremely sharp needles at the tips. Dark green liquid dripped from the tips, and it looked like they were going to inject Lin Yi.

Lin Yi didn't dare let his guard down this time. It was fine if he only strangled it a little, but who knew what would happen if this dangerous liquid was injected into his body?

He didn't need to struggle or use any strength-it was a simple way to break free from the tentacles. He turned into his essence spirit and they all disappeared.

After realizing that they had missed their target, not only the four green tentacles, but all the other tentacles in the tree hole went crazy as well, searching for Lin Yi. Unfortunately, Lin Yi was just a soul right now, and no matter how hard they waved, it was all in vain.

The tentacles didn't stay crazy for long. After confirming that Lin Yi wasn't in the cave, they calmed down. Even when Lin Yi appeared in his Yuan spirit form again, they didn't react at all, treating him like air.

Lin Yi wasn't surprised at all-he understood that the Twin stem man-eating flower was becoming a spirit, but it was still far from the ones he'd seen before, like the Half Moon Lake at the back of the North Island.

Not only was there a world of difference in level, but even the degree of evolution was the same. The Half Moon Lake had a completely independent individual will, and it also had clever means similar to divine sense, but this twin stem man-eating flower did not. It seemed to only act according to its instinct. When it avoided its instinctive friend-or-foe identification mechanism, it was completely blind.

However, there was one thing that Lin Yi couldn't understand-why would someone like this, whose evolution was far from complete, leave him alive on purpose? Could it be that it was like the other spirit beasts, and needed to leave a survivor to be offered as a tribute to that Lord?

Normally, the Twin stem man-eating flower's greatest instinct was to hunt, and its prey would definitely be bitten to pieces when it fell into its mouth, so it would be easier to digest and absorb. However, when Lin Yi fell into its mouth, those dangerous and ferocious saw teeth surprisingly chose to restrain him, and sent him in intact.

If that wasn't the case, Lin Yi wouldn't have changed his mind and walked right into the trap. He wanted to see what the Twin stem man-eating flower was.

Lin Yi looked around and heard a familiar voice from below. He reacted immediately when he heard the voice again. "It's a waste of health!"

As it turned out, the string of footprints he had seen before was health-eating Fei 's. This guy was quite unlucky to have fallen into the mouth of the Twin stem man-eating flower.

To Lin Yi, health-maintenance Fei wasn't really one of his own, but they were related. Naturally, he wouldn't just leave him in the lurch. He transformed into his spirit form and went in. As expected, there was another hole in the tree, and health-maintenance Fei was tied up in the middle by a bunch of green tentacles.

Lin Yi smiled and materialized an essence spirit in front of him.

Health-maintenance Fei's eyes blurred. At first, he couldn't believe it, but then he reacted and said in surprise, ""Senior Lin, you've also been tricked?"

"Hehe, I guess so." Lin Yi only smiled.

"That's not right, why aren't you tied up by these things?" Health-maintenance Fei couldn't believe how relaxed Lin Yi was-he didn't look like he'd fallen for a trap, he was clearly here for sightseeing.

"Oh, because they are reasonable." Lin Yi said.

"Uh ... I've already fallen to this point ... Senior Lin, please don't tease me ..." Health-maintenance Fei smiled bitterly.

"I'm not teasing you. Can't you see that they're ignoring me?" Lin Yi's lips twitched. "By the way, how did you get caught? This place isn't on the main road at all. With your little strength, where did you get the courage to blindly charge into the dense forest alone?"

Health-maintenance Fei was only at the peak of mid-foundation level-he wasn't outstanding even among his peers. It was all thanks to Lin Yi that he was able to qualify for the test this time-he'd definitely die a horrible death if he went into the forest alone with his current strength.

"Senior Lin, you've misunderstood. I don't have the guts. I actually fled here because I was in a panic. I thought I could at least breathe a sigh of relief, but I didn't expect to enter a Tiger's Den after leaving a Wolf's Den ..." Health-maintenance Fei smiled bitterly.

Chapter 5243 Don't Hit Me

"Escape?" Lin Yi blinked.

"That's right. We encountered a giant one-eyed bear along the way. Its strength was at least at the middle jiedan stage. That fellow was simply too brutal. Even Duanmu Yu was sent flying by a single slap from it. There's no need to mention the rest of us. Most of us were captured alive by it. It was only thanks to my quick reaction that we managed to escape into the dense forest. In the end, I didn't even have the time to be happy when I ended up like this. " Health-maintenance Fei said with a dejected face.

"You mean that Duanmu Yu is dead?" Lin Yi raised a brow. He had a deep impression of Duanmu Yu, and his impression of him wasn't bad. It'd be a pity if he just died like that.

"That shouldn't be the case. She didn't show up after she was sent flying by the one-eyed bear. In my opinion, she's definitely injured, but not to the point of death. After all, she's still a powerful person in the foundation establishment stage." Health-maintenance Fei shook his head.

"That's good. " Lin Yi nodded.

"Sigh, if I'd known earlier, I wouldn't have been so obsessed and chosen to follow Duanmu Yu. If only I had followed you, senior Lin. At least I wouldn't have fallen to this point ..." Health-maintenance Fei sighed with regret.

"Hehe, you're thinking too much." Lin Yi chuckled and shook his head,"you guys only met a mid-stage golden core one-eyed bear, but I ran into King goumang and the red scaled snake the moment I came here. Both of them were late-stage golden core spirit beasts, and I've met countless other spirit beasts after that. I even met a brain-eating insect with unfathomable strength. From what I can tell, it's at least an invincible existence in the Golden core stage. Do you think you'll have a good ending if you follow me?"

"So brutal?" Fei Yangsheng was dumbfounded. Compared to what Lin Yi said, the one-eyed bear was a good baby. He was nothing.

"How else could you see me here?" Lin Yi pouted.

"Uh, that's true." Health-maintenance Fei smiled awkwardly. Even Lin Yi himself was in this state, let alone the others who followed him. He was lucky that he chose Duanmu Yu's path, which was relatively easy compared to Duanmu Yu 's. If he had followed Lin Yi, it would be a real nightmare.

While the two were talking, the surrounding green tentacles tied Fei Yang up more and more firmly. One of the tentacles was particularly thick, and it was about to stab a sharp needle with dark green liquid flowing out.

Health-maintenance Fei was so scared that he peed his pants and quickly shouted, ""Senior Lin, save me!"

Before he finished, Lin Yi had already made his move. A five elements killing intent with a deep Dragon's Roar met the tentacle. The tentacle was cut off without any suspense, and health-maintenance Fei finally escaped.

However, before he could even let out a breath, the other green tentacles around him all went crazy, as if they had poked a hornet's nest. All the tentacles started attacking madly, and what made Fei Yangsheng want to cry was that the target of these tentacles was only him from the beginning to the end. Lin Yi, who was standing in front of him, was not affected at all, as if he was just air. The Twin stem man-eating flower didn't sense Lin Yi's existence at all.

"What's the situation?!" Health-maintenance Fei was about to cry. How could he withstand the crazy attacks of so many tentacles with his strength? moreover, he was tied up tightly at the moment. He didn't even have the chance to Dodge, let alone counterattack.

Lin Yi, of course, wouldn't just leave him in the lurch. He immediately sent out a few streams of Five Element killing intent, cutting off the green tentacles that were binding him. This way, although it couldn't completely solve his predicament, it at least gave him a chance to struggle and save himself.

Fei Yangsheng was suddenly like a drowning man who had grabbed onto the last straw of hope. Ignoring the remaining injuries in his body, he hurriedly began to Dodge with all his strength, trying to avoid as many hits as possible. As for counterattacking, it was simply a fantasy to him. He didn't even have to think about it.

A person's potential was limitless. The strength that health-maintenance Fei was displaying at this moment far exceeded his own realm. Unfortunately, even so, it only made him struggle for a little longer. If this continued, he would still not be able to escape the end of exhaustion.

"Senior Lin, save me!" Health-maintenance Fei could only ask for help with a bitter face again. He had no choice. He had to ask for help, or he would die.

But this time, Lin Yi didn't pay him any attention. He stood to the side and watched the show, deep in thought. This time, he really cried. He was just busy dodging, or he would've really knelt down to Lin Yi in front of him.

In just a short moment, health-maintenance Fei had already suffered four or five hits. Although he was lucky enough to avoid his vital parts each time, his skin and flesh were still torn and his injuries were not light. If he were hit a few more times, he would really be finished.

Fortunately, Lin Yi didn't give up on him completely. Just when he couldn't hold on any longer, Lin Yi suddenly threw out a wild fire Fist.

A terrifying heat immediately surged forth, and Fei Yang's eyes lit up. Although he didn't know how this twin stem man-eating flower had become a spirit, one thing was certain, fire was definitely the natural enemy of these plants.

However, he realized that Lin Yi's wild fire Fist was coming straight for his face. He screamed in fear, "Wrong! Wrong! Senior Lin, please don't hit me!"

Lin Yi didn't bother with him and the wild fire Fist landed on health-maintenance Fei's body. As for the green tentacles that were crazily attacking him, they retreated to the side. It seemed like they were really afraid of fire.

After a long while, he finally caught his breath and spat out a mouthful of black smoke. His entire body was burnt black and he staggered to his feet. He quickly dodged when he saw Lin Yi, afraid that Lin Yi would punch him again.

The Twin stem man-eating flower didn't take his life, but he died in Lin Yi's hands instead-he'd die an unjust death!

"What are you hiding for?" Lin Yi looked at him, amused.

"Ah?" Health-maintenance Fei didn't react in time. He was about to kneel down and beg for mercy. In his current state, if Lin Yi wanted his life, he could just move his fingers. He didn't even need to move his fingers. As long as Lin Yi didn't do anything, he would be dead already.

"You still don't understand? Look around you. " Lin Yi said.

Health-maintenance Fei was confused. He subconsciously looked behind him and was suddenly stunned. He found that the green tentacles, which had been madly attacking him, were now indifferent and had no intention of attacking him.

"How ... How did this happen?" In addition to being surprised, health-maintenance Fei's face was even more surprised. He really didn't understand what was going on.

Chapter 5244 Under The Tree Hole

"It's simple. I've cracked its prey recognition mechanism." Lin Yi said with a smile.

"Prey identification mechanism?" Health-maintenance Fei didn't understand.

"That's right, this is what I just discovered. Do you know why these tentacles only attack you and never me when we're both here?" Lin Yi asked.

"Isn't it because they're reasonable ..." Fei Yangsheng said weakly.

"You really believe that?" Lin Yi looked at him as if he was looking at a rare animal.

"Uh ..." Fei Liangyang was speechless. Of course, he didn't believe this kind of nonsense at first, but he couldn't think of any other reasonable explanation.

"There's only one real reason. You're stained with the unique SAP of the Twin stem man-eating flower, but I don't have it." Lin Yi announced.

"Twin stem man-eating flower's SAP?" Fei Yangsheng was stunned for a moment, and then realized that his body was indeed sticky. It must have been on him from the beginning, but he had been in a dangerous situation that he had never been in before since he was swallowed. He was worried about his own life, so how could he have the mood to pay attention to such trivial things?

"That's right. This juice is how it recognizes its prey. As long as you're covered with juice, you're its prey and it will use all means to deal with you. However, if you're not covered in juice, you're just air to it and it will turn a blind eye to you, just like how it treated me just now." Lin Yi explained.

He didn't understand this question at first, until he compared himself with health-maintenance Fei just now. He had gotten rid of all the foreign objects along the way after transforming into primordial spirit form. Of course, health-maintenance Fei couldn't use this method, so he could only rely on the hot flames of the wild fire Fist to dry himself up.

Health-maintenance Fei digested it for a long time before he finally understood. He looked at his own charred body and shook his head with a bitter smile. "But you don't have to use this method, right? you almost scared me to death ..."

This was the truth. Even if he wasn't scared to death, he had already peed his pants. It was just that he had been roasted dry by the wild fire Fist.

"Hehe, if I don't do this, how can I get you out of danger at the fastest speed?" Lin Yi said with a smile.

"Uh, that's true. Thank you for saving my life, senior Lin." Health-maintenance Fei said gratefully. Although he was in a sorry state, it was still better than losing his life.

"You're welcome. It's nothing. " Lin Yi waved his hand nonchalantly. No matter what, health-maintenance Fei did do something for him before. Even if he didn't have any credit, he did put in some effort. It was hard not to help in this situation.

Fei Yangsheng took a long time to recover. He was already badly injured, and he had just been forced to take a wild fire Fist. Even if it was not at its maximum power, a layer of his skin had been burnt off. It was not a good time to suffer.

"Senior Lin, how are we going to get out?" Health-maintenance Fei asked eagerly.

Although the Twin stem man-eating flower no longer treated him as prey, and the green tentacles around him were no longer aggressive, it was not good to be trapped in this place forever. In the end, he still had to find a way out.

"It's easy for me to get out, but it's a little troublesome for you. " Lin Yi looked at him and said. If it was Lin Yi, he only needed to transform into his spirit form and he could get out as he pleased, but now that there was this Fei Yangwei, he couldn't just leave him here.

"What trouble? Senior, if you need anything, just tell me. I promise that I won't even frown if I have to climb a mountain of knives or swim in a pot of boiling oil!" Health-maintenance Fei quickly patted his chest, afraid that Lin Yi would leave him behind.

"I don't have any orders for you. Alright, go to the side so you don't get hurt by me." As Lin Yi spoke, a Qi pellet bomb appeared in his hand. He waited for Fei Yangyang to crawl to the corner and immediately

pressed it under his feet. He thought that since this tree hole was part of the Twin stem man-eating flower, even if he couldn't blow it out right away, he would find another way.

BOOM! This time, the bomb wasn't at its maximum power, but it was more than enough to destroy this small area. The result was beyond Lin Yi's expectations-the tree hole was destroyed, but it didn't create the exit he expected. It was pitch black all around, and there was only a deep hole at the bottom.

"Senior Lin, where is this place?" Health-maintenance Fei quickly asked.

"I don't know," Lin Yi shook his head. He'd already used his spirit sense to scan a few miles around, and he only found one thing-this was underground, very deep.

Even Lin Yi couldn't figure out what this place was, let alone health-maintenance Fei. He could only continue to ask, "Then what should we do?"

"There are two ways. The more conservative way is to dig a hole while climbing up. Sooner or later, we will be able to return to the surface." Lin Yi said casually. It was a completely stupid idea, but it wouldn't go wrong. At most, it would just take more time and energy.

"Then, shouldn't we be more conservative?" Health-maintenance Fei asked.

"Do you see this hole below? let's go down and take a look." Lin Yi said.

"Let's not do that. This hole is making me feel terrified. Senior Lin, why don't we dig a hole and go out?" Health-maintenance Fei suggested.

"I'm actually a little curious about this deep hole. Since you want to dig a hole out, then let's part ways here. " Lin Yi said as he prepared to jump into the hole. Although the most important thing right now was to meet up with Leng Leng and the others, Lin Yi felt that there was a mysterious and strange aura down there. He wouldn't feel at ease until he found out what it was.

"Don 't, don' t, don 't, I'll go too. Senior, I'll go wherever you go!" Health-maintenance Fei said quickly. He wouldn't dare to act alone anymore-it was rare for him to run into Lin Yi, and he'd be an idiot if he didn't hold on to him tightly.

"There might be some great danger hidden below. You just need to think about it." Lin Yi laughed noncommittally and jumped into the hole without hesitation.

Health-maintenance Fei hesitated for a moment, but then he gritted his teeth and jumped in. ""If he's dead, then he's dead!"

The two of them fell in the dark, one up and one down. Fortunately, the hole was not wide, and they could touch the wall with just a little stretch of their hands and feet. This way, they could control the speed of their fall to avoid falling too fast and causing too much impact when they landed.

After a while, Lin Yi suddenly reminded, "It seems like we're at the bottom. Be careful."

As soon as he finished speaking, Lin Yi felt the area in front of him suddenly open up. Not only did the place become extremely wide, but there was even light deep underground. It was lush and full of flowers-it was a mysterious underground garden.

Chapter 5245 All Spirit Herbs

Soon, Lin Yi landed on the ground with health-maintenance Fei following closely behind. The two were stunned by the scene in front of them.

There was a garden this deep underground-this wasn't just unbelievable, it was a whole new world to Lin Yi. Didn't all these flowers need sunlight?

"Senior, we seem to have discovered an amazing place!" Fei Yangsheng immediately became excited. His focus was completely different from Lin Yi's. He found that there were many extremely precious spiritual herbs among the flowers around him. Any one of them would be worth a city in the ancient martial world!

"Indeed," Lin Yi nodded-these herbs weren't much to him. After all, he started his herb storage on Sky Class Island, and many of the herbs he collected were rare even on Sky Class Island. They were of a higher grade than the ones in front of him, but one thing was undeniable-this place wasn't simple.

After a few days of exploring, Lin Yi had a rough understanding of the testing grounds. The Qi density wasn't bad, but perhaps it was because of the spirit beasts of all sizes being too densely distributed, it was hard to find many herbs outside. There were even fewer that could be considered rare herbs, and this was probably the only place in the entire testing grounds that had rare herbs in such a large scale.

However, how could there be such a magical place underground?

Ignoring his own injuries, Fei liangwei hurriedly began to frantically pick all kinds of rare spirit herbs around him. He didn't care about anything else. To him, spirit herbs represented a large amount of spirit Jade, and there was nothing more important than that in the world.

"Hold on!" Lin Yi suddenly stopped him.

"What ... What's wrong?" Health-maintenance Fei's heart skipped a beat-he thought that Lin Yi was going to fight him for the herbs. He put on a bitter face."Senior, you see, there are so many rare spirit herbs here, it's impossible for the two of us to pick all of them. Even if you eat it all for yourself, you can't take it away. Why don't you let me get a share of the glory?"

"Eating alone?" Lin Yi laughed and pointed at the thing in his hand,"You should first clearly see what you've picked."

"Isn't this the legendary Crimson blaze fruit? it's worth quite a lot in the ancient martial world. It's worth at least ten pieces of spiritual Jade." Fei liangwei said happily. With the rarity of spiritual Jade in the ancient martial world, ten pieces of spiritual Jade was already a huge sum of money.

"Open your eyes and take a good look. Are you sure this is the Crimson blaze fruit?" Lin Yi rolled his eyes at him.

"Uh ..." Health-maintenance Fei carefully observed the fruit again and found that although the fruit in his hand looked exactly the same as the Crimson blaze fruit, there were some subtle fine lines. He couldn't help but be stunned."Could it be a variant of the Crimson blaze fruit?"

"A variant?" Lin Yi shook his head and chuckled. He walked over, snatched the fruit, and threw it away.

"Sigh ..." Health-maintenance Fei was anxious. Even if it wasn't the Crimson flame fruit, he couldn't just throw it away. In the end, before he could complain, he heard the fruit explode and the surrounding area was razed to the ground.

Fei Yangsheng was dumbfounded, and it took him a while to come back to his senses. He stammered, ""How ... How did this happen?"

"Remember, this is the explosive flame fruit. It will explode when it's fully ripe. If you let it bump a little, it will also explode. Its power is more than enough to deal with you, a peak mid Foundation Stage cultivator." Lin Yi said, curling his lips.

"Uh, how would I know that this thing was so dangerous? senior, you saved my life again." Fei Yangsheng smiled and quickly apologized, trying to please him, ""Senior, you're really knowledgeable. It's a good thing that I followed you here. Otherwise, if everyone was as blind as me, they would really die without even knowing how."

"Be careful. Otherwise, no matter how many spiritual herbs there are, you will not be able to take them." Lin Yi reminded, keeping an eye on the situation. This place was weird, after all.

Unlike the widely known Crimson blaze fruit, although the explosive blaze fruit only had a one-word difference and its appearance was extremely similar, it was an extremely rare spiritual medicine. Due to its unstable nature, it was very difficult for it to grow by itself. It was already good enough to see one or two of them. However, with a single glance, he could see that there were at least 18 if not 20 explosive blaze fruits in the mysterious garden. For the explosive blaze fruit, this density had far exceeded the range of natural growth.

There was only one possibility. These explosive flame fruits were planted by humans.

But how could there be people in this place? This was what Lin Yi was most curious about right now, and that was why he didn't hesitate to detonate the explosive fruit. He wanted to alert the enemy, but there was no reaction at all.

Health-maintenance Fei was still excitedly collecting spiritual herbs, but his movements were much more careful than before. He had to carefully check every spiritual herb before he dared to reach out to pick them, afraid that he would encounter dangerous spiritual herbs like the bursting flame fruit. It would be too much of a waste to die from these things.

Lin Yi didn't waste his time either-he would put rare herbs like the bursting flames fruit into the Jade space whenever he came across them, but he was more concerned about the secret of the mysterious garden.

This place wasn't too big or too small, with a radius of at least ten miles. Lin Yi believed that he'd be able to find some clues as to what the secret was, and what connection it had with the man-eating flower.

Not long after, health-maintenance Fei's bag was filled with all kinds of spirit herbs. He couldn't take any more with him, so he could only sigh as he looked at the spirit herbs on the ground with a pained expression. "Sigh, there are so many rare spiritual herbs but I can't pick them. What a pity ..."

If not for the fact that this place was an ancient trial ground that only appeared once in a thousand years, he would have collected all the spiritual herbs in front of him, leaving not a single stalk behind. After all, that was a huge amount of spiritual Jade!

"I advise you to stop before you go too far. Are you sure you can take this big bag of spiritual medicine away?" Lin Yi looked at him suspiciously.

Very experienced, health-maintenance Fei had prepared a huge cloth bag in advance. At this moment, the cloth bag was full, and it was as tall as a person when placed on the ground. For a Foundation establishment expert, this amount of weight was of course nothing, but it was definitely not an easy task to bring it out of this place intact, especially from the dangerous trial ground of the immemorial era to the small Jianghu of the immemorial era. Especially when health-maintenance Fei had suffered a lot of injuries and was far from his peak condition.

Chapter 5246 Danger In The River

"I'll take him away even if I die!" Health-maintenance Fei's face was filled with determination. Even so, his heart was already bleeding. If he couldn't even bring back such a bag, he would die of regret in this life.

"As you wish." Lin Yi didn't bother to persuade them anymore. If it was Leng Leng and the others, he wouldn't waste his breath and would've put them in the Jade space long ago. He could just make them into elixirs and split them later. Unfortunately, it was a waste of health. He was already being kind by reminding them. After all, they were far from being on his side.

Seeing Lin Yi's expression, health-maintenance Fei couldn't help but feel nervous. He asked carefully, "Senior, you won't abandon me, right?"

"What do you think?" Lin Yi looked at him with a smile that wasn't a smile. With their relationship, strictly speaking, saving his life just now was already very kind of him. If this guy really became a burden, no normal person would be able to protect him anymore, and Lin Yi was no exception.

"Ugh ..." Health-maintenance Fei looked at his big bag of elixirs, troubled. He knew that even if Lin Yi didn't want him to die on his own, he wouldn't waste too much energy on him. He wouldn't take risks

for him either. If something happened, he had to ensure that he could escape and survive, or he would die.

However, he couldn't just throw away all these rare spirit herbs, right? Health-maintenance Fei struggled for a long time, and finally gritted his teeth and poured out the whole bag of rare spirit herbs.

This guy had some courage! Lin Yi looked at him in a new light-for someone of his level to be able to get such a big bag of rare medicine was like a normal person in the common world giving up a billion-dollar prize. It required a lot of courage and awareness, and it was rare.

But before Lin Yi could praise him, health-maintenance Fei took out a small bag and put away the herbs he thought were the most valuable. He didn't give up on the rest and put them back in the big bag.

Lin Yi didn't know what to say-he'd already seen through this guy's plan. There was a saying that people would die for wealth, and birds would die for food-it was true.

"Senior, you don't mind, right?" Health-maintenance Fei smiled embarrassedly. His plan was very simple. If there was no particularly dangerous accident, he would carry all of them back. But if the situation was critical, he would abandon the big bag and keep the small bag. No matter what, he couldn't enter a Treasure Mountain and return empty-handed, so he might as well let him die.

"I don't mind. Of course, you should make your own decisions. Besides, you're so smart." Lin Yi said playfully.

"Senior, you must be joking ..." Health-maintenance Fei's face reddened, but since Lin Yi didn't say anything, he wouldn't give up. It was still the same-there were a lot of spiritual jades.

The two of them continued forward, and not long after, a River appeared in front of them. The river was seven or eight meters wide, and at first glance, it looked calm. The river water flowed slowly and was so clear that the bottom could be seen. It revealed an indescribable cool aura, making people feel refreshed.

"A river of consciousness?!" Health-maintenance Fei was overjoyed to see this. The most important thing in the entire archaic trial grounds was the river of consciousness. This was also his main purpose in participating in the archaic trial grounds. Now that he suddenly saw a River with a mysterious aura, he subconsciously thought it was a river of consciousness.

Lin Yi shook his head. The river in front of him wasn't a normal River, but it was too farfetched to call it the legendary river of consciousness. After all, no matter the geographical location or the descriptions, rivers of consciousness were far from this.

It was strange that there was such a clear river in such an unfathomably deep underground place that looked no different from the river on the surface.

However, health-maintenance Fei couldn't care less. He hurriedly rushed over and carefully put the two bags of elixirs to the side. Then, he reached out to scoop some water from the river. The water of the river of consciousness could greatly enhance one's spiritual sense. This was a common saying in almost all the legends of the river of consciousness, and the most direct way to use it was to drink it into one's stomach.

If it was someone like Leng Leng, Lin Yi would've stopped them for sure-he'd have to figure out the river's background first, but since it was health Fei, he didn't have anything to say. He wasn't that familiar with him anyway, and he shouldn't disturb his excitement. Besides, it shouldn't be that dangerous to just drink some water ...

As a result, just as health-maintenance Fei's hand reached into the water, before he could scoop up the water, a hand covered with fine scales suddenly stretched out of the clear river and grabbed him. With a howl, health-maintenance Fei was dragged down on the spot, and he couldn't even struggle!

Not only was Fei Yangwei scared out of his wits, but even Lin Yi was taken aback. His spirit sense was constantly scanning his surroundings, and he didn't notice that there was such a monster hiding in the river!

Even a powerful existence like the brain-eating insect couldn't hide from Lin Yi's spirit sense. After all, he was a xuansheng stage spirit. The river was only ten steps away from Lin Yi, and he didn't even notice that a monster was right under his nose. Just thinking about it made Lin Yi break out in cold sweat.

Fortunately, this was health maintenance, otherwise, if it was any one of Leng Leng's group that got into this, Lin Yi would blame himself to death.

After health-maintenance Fei was dragged down, in the blink of an eye, the surface of the river returned to its previous calm. The naked eye could not see any clues at all, and it was still so clear that the bottom could be seen. There was no trace of the monster or health-maintenance Fei, giving people the feeling that nothing had happened.

"You do have some skills, but is it appropriate to play tricks in front of me?" Lin Yi's eyes narrowed into a thin line as he slowly walked towards the river. The river gave him a strange feeling from the beginning, and he now understood the source of the strange feeling-it was from the monster.

Soon, Lin Yi stopped at the spot where Fei Liangyang had gotten into trouble. He looked at the bottom of the river quietly. He couldn't see anything wrong, but his spirit sense sensed something. The monster might be able to hide his traces perfectly, but it dragged Fei Liangyang down with it. It was too difficult to hide Fei Liangyang flawlessly in front of Lin Yi.

But Lin Yi didn't move!

Chapter 5247 Using Both Soft And Hard Tactics

He didn't know what kind of abilities his opponent had or how strong he was, so he couldn't act rashly. As for health-maintenance Fei, he'd have to make him suffer a little. If he was lucky, Lin Yi could save his life, but if the monster didn't show up, he could only blame his own bad luck. After all, he couldn't let Lin Yi risk his life to save an outsider like him time and time again.

Fortunately, God was on his side again. The monster couldn't help but attack again when it saw Lin Yi standing still on the shore. A hand covered in scales suddenly reached out from the river water, just like before.

This time, its target was Lin Yi's ankle. Its intention was obvious-it wanted to drag Lin Yi into the river like it did with the paid-to-eat treatment. As long as Lin Yi was in the water, it would be its world.

Its movements were fast, and it didn't even leave a single ripple behind when it emerged from the water. It was so fast that normal people wouldn't be able to defend against it, but it was Lin Yi.

Lin Yi had at least ten different ways to deal with this sneak attack, and in order to make sure that everything went as planned, he used the most unsolvable method.

The hand had grabbed Lin Yi's ankle, but it missed in the next second. Lin Yi appeared beside him, raising his hand and releasing a blue arc of lightning. He used the numbing effect to pull the hand out.

He didn't know what was going on until he saw the monster's weird appearance. Even Lin Yi was stunned.

At first glance, he looked like a four or five-year-old child, but his entire body was covered with dense black scales. On his back was a medium-sized turtle shell, and there was a hole in the top of his head. There was a lot of water in the hole, and anyone would be shocked by such a face.

"Kappa?" The thought crossed Lin Yi's mind. The creature in front of him was the same as the water monster in folk legends. A Kappa was also called a Water Tiger, and it was a water monster recorded in the Compendium of Materia Medica, but he always thought it was just a legend. He didn't expect to see a living one here.

"You know me?" Kappa mumbled in human language as he stared at Lin Yi with extreme vigilance.

Strictly speaking, it was an amphibious creature. It was the world in the water and could move freely on land, but it was obvious that it only had strong confidence in the water. Now that Lin Yi had grabbed it to the shore, it was nervous. It didn't look like it was going to attack Lin Yi, but was trying to escape back into the river.

"Hehe, it really is the legendary Kappa. I've really gained a lot of knowledge from this archaic trial." Lin Yi couldn't help but chuckle. First it was goumang, and now it was Kappa. The test of the ancient era really did live up to its name. It really did feel like they had returned to the ancient era.

"Human, what do you want?" Kappa was still staring at Lin Yi with extreme vigilance.

"Nothing much. I'm just a little curious." Lin Yi looked very relaxed, but there was nothing to be nervous about. He was nervous for a while before the Kappa was caught-after all, anyone who could hide from his spirit sense couldn't be easy to deal with. But now, he didn't need to worry anymore, because this guy was at most a Foundation Stage spirit beast, and couldn't pose a real threat to Lin Yi.

As for why it was able to hide from Lin Yi's spirit sense, it was probably due to the Kappa's innate ability. After all, this guy was like a river god in some legends.

"Leave this place, leave the hundred herb garden, or you'll regret it!" Kappa threatened, but he was too short and he was dragged up by Lin Yi, so this threat didn't pose much of a threat to him.

"So this is the hundred herb garden." Lin Yi nodded and looked it up and down. "So you're the owner of this place?"

"No, I'm just a gardener here. If my master finds out, you'll be dead. Leave this place quickly, human!" Kappa said again.

"Who is your master?" Lin Yi didn't reply and continued to ask.

"My master is ..." The Kappa suddenly stopped. It blinked its eyes, and the water on its head suddenly rose to the sky and fell down like rain. As soon as its body came into contact with the water, it disappeared.

"He looks simple and honest, but I didn't expect him to be so cunning." Lin Yi shook his head and appeared on the right side of the empty space. He didn't hesitate to use a thousand wild fire legs.

Bang! Bang! With a muffled sound, a small figure appeared at the tip of Lin Yi's feet and flew out without any suspense, landing heavily on the pile of herbs tens of meters away.

"You ... How can you see me?" The Kappa did not care about its injury, and its face, which was covered with thick scales, forced a shocked expression. Being invisible in the water was the innate ability of the Kappa race, and even existences much stronger than them could not detect it. It did not expect that it would fail in front of a human.

"Is it strange?" Lin Yi asked back. It was true that this guy's ability to blend in with the water was amazing, just like when it was hiding in the river flawlessly, even Lin Yi's divine sense couldn't detect it.

But at least 50% of the reason was because of the water's effect-without that interference, Lin Yi could at least find some clues even if he couldn't lock onto the man's position.

The Kappa was obviously speechless. As Lin Yi had predicted, it wasn't a powerful being. If it was stronger in the river, it could deal with most Foundation Stage spirit beasts and human cultivators, but it was much weaker on the ground. In the end, it only had one trump card, and that was the Kappa's innate ability to be invisible underwater.

Now that Lin Yi had broken the invisible barrier in the water, and it was stuck on the ground, it wasn't far from breaking down its psychological defense.

"Human, what do you want?" Kappa looked at Lin Yi with some panic and pointed at the rare herbs around, ""If you leave now, I can let you take some spiritual herbs with you. Otherwise, if you alarm master, you'll be dead, human."

Lin Yi couldn't help but smile-this Kappa was interesting, using both hard and soft tactics when it couldn't beat him. He teased,"Do you think you can send me away with these trashy spiritual herbs?"

Chapter 5248 Give Me A Few More

"These are all rare spirit herbs, how can they be trash?" Kappa quickly argued. He was the gardener here, and every herb here was his heart's blood. But he didn't say anything when he saw Lin Yi's empty hands. This human really didn't seem to care about the herbs he was growing.

After being stunned for a while, Kappa suddenly said,"I can give you an even more precious spirit herb, but you have to leave this place."

"Oh? Let me see!" Lin Yi said, interested.

Kappa walked towards the river, but Lin Yi stopped him, ""The spirit herbs are in the river."

"Fine, if you dare to lie to me, I'll blow up this River and destroy this hundred herb garden of yours." Lin Yi warned. To be honest, he didn't trust the Kappa, but there was nothing to worry about. With its strength, it didn't matter even if he let the Tiger go back to the mountain.

The Kappa carefully went around Lin Yi and only let out a breath of relief when it successfully returned to the river. It looked at Lin Yi, who was still at the same spot, and its eyes kept rolling. If it didn't have the warning, it might just hide away and not show up, but it couldn't now.

If it really pissed Lin Yi off, blowing up the river and destroying the herb garden was a small matter, but if it drew its master out and ruined his master's plan, then it would really be done for-even ten lives wouldn't be enough.

Sure enough, it didn't take long for it to reemerge from the river surface, holding a small bead in its hand. It was as transparent and flawless as the clear river water, and it exuded an intoxicating light like a Night Pearl. One look and one could tell that it was not an ordinary item.

"This water bead is for you. Hurry up and leave this place, human." Kappa said while holding the little pearl.

"Give it to me." Lin Yi's tone was calm, but it didn't allow any room for doubt.

The Kappa hesitated. It clearly didn't want to leave the river, or it would feel very insecure, especially when it had to face a dangerous human practitioner like Lin Yi. However, it had no choice. If it said no, it was hard to say what Lin Yi would do next. It couldn't afford the consequences.

In the end, Kappa walked over obediently and handed the water droplet to Lin Yi. Lin Yi was a little surprised as he thought that the water droplet would be hard like the other beads. He didn't expect it to be soft. It was really a water droplet, just that it was naturally covered by a transparent membrane.

"What's the use of this thing?" Lin Yi asked curiously. He'd been travelling on Sky Class Island for a couple of years now, and he'd seen a lot, but he'd never seen a water bead like this before. He could tell that the water wasn't simple, though-just holding it in his hand made him feel refreshed.

"The water bead can clear one's mind and calm one's Qi. Its main use is to heal one's consciousness. If one's consciousness is injured, one can recover in an extremely short time after taking it." Kappa explained in detail.

"Really?" Lin Yi was happy to hear that. No wonder it felt so good in his hand. It was something that healed his spirit sense. He was a primordial spirit now, and this was a great supplement for him.

With this water bead, Lin Yi was much more confident. After all, an injury to the spirit was a big problem. If he really got injured, his self-healing ability wouldn't be of much use.

Just like last time, he had basically relied on the star Black charcoal to recover from his injuries. After so many months of continuous use, the star Black charcoal's spiritual energy had been consumed to a very small extent. If he suffered another serious injury, it would be difficult to say whether he could recover smoothly. Perhaps, his primordial spirit would collapse.

Lin Yi had been worrying about this for a while now. He needed to use up his spirit energy to maintain his Yuan spirit form, and the star Black coal was his only source of spirit energy. Once it was used up, he wouldn't be far from returning to Sky Class Island. It wouldn't have been a problem before that, but now that Leng Leng and the others were all in this dangerous trial ground, how could he go back without worry?

Fortunately, the remaining spiritual energy from the star Black coal was enough to sustain him for a period of time. However, there was an extremely important premise, which was that he must not be injured. Once he was injured, the amount of spiritual energy required to heal his injuries would be no small matter. It would be at least a thousand or ten thousand times more than what he needed to maintain his normal condition. The remaining spiritual energy from the star Black coal was simply not enough to sustain such a large amount of consumption.

It was all thanks to Lin Yi's many self-preservation methods, and the fact that he'd figured out the near-unparalleled methods of half-spirit and spirit. Other things aside, it wasn't easy to seriously injure Lin Yi now-even existences like the brain-eating insect couldn't do it. It was also because of this that the star Black coal could last until now. If it got injured every few days, its spirit sense energy would've been used up long ago.

However, in the ancient testing grounds where danger lurked everywhere, accidents happened all the time. Even Lin Yi couldn't guarantee that he wouldn't get hurt. What if he really got hurt and the remaining spirit energy from the star Black coal wasn't enough? what would he do then?

Now, the water bead that Kappa took out gave him a glimmer of hope. Although it was far from being as versatile as the star Black coal, which could provide spiritual energy at all times, if it could really heal his spiritual sense as Kappa said, it would more or less solve his mental problem. At least, he would not be so afraid of getting injured.

"Of course it's true. Alright, I've already given you my best treasures. Human, you should hurry and leave." The Kappa urged. Taking out a water droplet was already a violation of the rules, and if Lin Yi stayed here for too long and its master found out, the consequences would be unimaginable.

Lin Yi put the water bead away and smiled. "Did I say I was leaving?"

"You actually dare to act shamelessly! Despicable human!" Kappa panicked. He wanted to get rid of Lin Yi as soon as possible, even giving up the water bead. Who would've thought that Lin Yi would be like this? humans were always despicable and shameless, and it was true!

"Hey, hey, hey, you have to be responsible for what you say. When did I say that I would leave if you gave me the water bead?" Lin Yi said.

"Wu ..." The Kappa tilted its head and thought for a long time, but it couldn't think of a rebuttal. Lin Yi didn't say anything like that at all, and it was just its own wishful thinking.

"How about this, give me a few more water droplets and I'll leave immediately. I promise I'll keep my word." Lin Yi said immediately. The more water droplets there were, the better-if there was only one, wouldn't it be gone after one injury?

Chapter 5249 The Holy Water Pearl

"A few more?" Kappa jumped up, forgetting about Lin Yi's overwhelming strength. He pointed at Lin Yi's head and cursed, "You greedy and shameless human, this is a water bead that can only be produced once every hundred years. How many do you think there are?"

Lin Yi froze, looking at the Kappa in surprise. It looked a little weird, with a bit of slyness, but overall, it was a straightforward guy, especially with that impatient look.

A moment later, Kappa reacted as well, pulling his hand back and taking a few steps back. He looked at Lin Yi and stuttered, "You ... You should leave quickly. I don't have any more water droplets in my hands, not a single one ..."

"Really?" Lin Yi didn't believe him, "if it's only one every hundred years, and no one's been here for at least a thousand years, how could there be only one?" Even if there aren't ten or twenty pills, there should be at least eight or ten, right?"

This primordial Land of Trials only opened once every thousand years, which meant that the last time human cultivators had set foot here was at least a thousand years ago. Not to mention, this place was so

remote and strange that ordinary people would not be able to discover it at all. It might have been thousands of years since anyone had come.

"Eight or ten? Are you crazy?" Kappa was about to go berserk again, but he didn't dare to be too reckless under Lin Yi's pressure. He explained patiently, "A whole River could only produce one water bead in 100 years under the protection of our Kappa tribe. After that, it needs constant nourishment to completely form, not to mention that we have to spend more energy to nourish the Holy water bead ..."

"Holy water pearl?" Lin Yi's eyes lit up.

"Uh ..." Kappa suddenly realized that he had said something he shouldn't have, so he quickly changed his words, ""What holy water bead? I'm just talking about the water bead. In short, there's only one water bead. Even if you beat me to death, I won't have a second one."

"Is that so?" Lin Yi said with a half-smile.

Kappa could not help but feel a little guilty. He thought for a while and said, ""I'll just return that human to you ..."

"That human? Oh, you're talking about health maintenance. " Lin Yi blushed with shame. He almost forgot about this. After all, they weren't on the same side, and he didn't really care about the health cost. Fortunately, the Kappa wasn't a ferocious spirit beast, or it would've been eaten up already.

Not long after, health-maintenance Fei was dragged up by the Kappa like a dead dog. He didn't seem to have suffered any serious injuries, just a temporary loss of consciousness. He was still spitting bubbles from his mouth ...

"Go, hurry up and go, or I guarantee you'll die Here, definitely!" The Kappa was almost begging. Of course, it didn't care about Lin Yi's life or death, but the problem was that if its master found out that a human practitioner had barged in, it would be punished as well, and might even have to die with Lin Yi.

"How about this, I won't make things difficult for you. Just answer a few questions, and I'll leave once I'm done." Lin Yi said.

Kappa hesitated for a moment, but he knew that he couldn't drag this on any longer. He couldn't beat Lin Yi, so he had to say, "Alright, you said it yourself. You can't go back on your word."

"Good, how many Kappas are there here?" Lin Yi asked, but it wasn't something he really cared about. He was just curious.

"I'm the only one. " Kappa answered directly.

"You're the only one in your Kappa clan?" Lin Yi blinked. He thought that since they were from the same race, there should be many of them like the goumang race. There should be a Kappa King too. He didn't think that there would only be one.

"Originally, there were many, but a great incident occurred a hundred years ago. Everyone was killed by master, leaving only me in charge of the hundred herb garden." Kappa said with a bit of sadness.

"Then what kind of existence is your master? Don't you hate him?" Lin Yi asked casually. According to what the man said, this was a family Feud, and they shouldn't be able to live under the same sky. Why would he continue to work for that master?

Kappa was silent for a moment, and then said, ""I can't tell you."

"Alright, I'll ask something else." Lin Yi didn't insist. "What's so special about this River? Is it the legendary spirit Sense River?"

"A river of consciousness? How could this be a river of consciousness?" Kappa looked at Lin Yi as if he was an idiot. He curled his lips, "The spirit Sense River is the biggest River, it's more than a thousand feet wide, how wide is my River? There was nothing special about this River, but it was only because of the protection of our Kappa race that it became different. "

Lin Yi wasn't surprised by the answer. He didn't think that this was a river of consciousness, so he continued, "One last question. Tell me about the Holy water pearl."

"Well ..." Kappa fell into hesitation. He hated himself for letting this thing slip out of his mouth. According to this human's unforgiving behavior, he would not leave until he figured out the truth.

In the end, Kappa could only force himself to explain, ""The Holy water bead was originally the most sacred object of our Kappa tribe. It is said that it was the first generation of water beads that were nurtured. After countless years of nourishment from our ancestors, its effects have far exceeded the scope of ordinary water beads. It is also because of the Holy water bead that we were valued by master. However, a hundred years ago, when everyone was collectively nourishing the Holy water bead, an accident happened, and a crack appeared on the Holy water bead. Master killed everyone in a fit of anger ..."

"Oh, I see." Lin Yi understood now. The Kappa race was really pitiful-their Supreme relic was stolen, and the whole race had to be slaves. They were almost wiped out just because they had a problem with the relic. No one else had such a tragic fate.

"I've already said what I shouldn't have said. You should leave now, right?" Kappa looked at Lin Yi, afraid that Lin Yi would go back on his words.

"Alright, in that case, tell me how to leave." Lin Yi nodded immediately.

It would be a lie if he said he didn't have any thoughts about the Pearl, but that didn't mean he had to take it. After all, the master could control the Kappa so easily, so his strength must be extraordinary. It would be hard to take the Pearl from him, even if it was an unnecessary risk for Lin Yi.

Chapter 5250 Another "Person"

More importantly, Lin Yi's top priority was to meet up with Leng Leng and the others. He didn't want to waste too much time here.

"Alright, follow me!" Kappa was happy-as long as Lin Yi was willing to leave this place as soon as possible, it wouldn't mind even if Lin Yi had to give gifts to the two of them along the way.

At this moment, there was a buzzing sound from a distance. He couldn't see the other party's appearance clearly from the distance, but Lin Yi's spirit sense had already locked onto the other party's position and form. It was a giant poisonous bee the size of an adult.

"Patrolling bee! Why is it here?" Kappa was shocked, but Lin Yi didn't react. Instead, it was so nervous that it didn't know what to do.

"You're very scared?" Lin Yi looked at it.

"I ..." Kappa stammered nervously, ""If ... If it finds out ... You're dead ... I'm dead too ..."

"But this guy doesn't feel strong?" Lin Yi was a little surprised. The patrolling bee did look scary, but it was only a foundation level spirit beast. Lin Yi could easily deal with it.

"It's not strong?" Kappa was about to retort-after all, no patrolling bee was to be trifled with. But after thinking about Lin Yi's behavior, it seemed like a mere patrolling bee wasn't a big deal for this human.

"Since you gave me that water droplet, I can help you get rid of it. I guarantee that no one will find out." Lin Yi suggested. To be honest, he didn't have any bad feelings towards this Kappa. He felt that this guy was actually a good guy, and he would help if he could.

"Impossible!" Kappa quickly shook his head.

"What is impossible? Didn't you say that we would all die if it found us? are you going to help it deal with me?" Lin Yi asked, surprised.

"That's not what I meant. What I meant was that no matter how strong you are, you can't kill a single patrolling bee without anyone knowing. They have a common brain, so if something happens to one of them, all the other patrolling bees will know immediately. So, no matter what, as long as it finds out about you, master and the other patrolling bees will know." Kappa said with a bitter face.

"Common-brain mechanism? That's a little tricky. " Lin Yi couldn't help but frown. This mechanism was indeed a bit confusing. It didn't matter even if he could kill the opponent instantly-the situation would be out of control if the opponent found out.

With that, Lin Yi's only choice was to run. It wouldn't matter if he was alone-unless he was willing, no matter how many patrolling bees there were, they wouldn't be able to detect him. The problem was that there was an unconscious health-maintenance Fei lying on the ground. The patrolling bees were fast, and their senses were always good. Lin Yi wasn't sure if he'd be able to keep a safe spot with a burden like her.

As he spoke, the patrolling bee was already heading in his direction. Its goal was clear, and even Lin Yi was starting to get nervous. Could it have found him?

Kappa was even more panicked than Lin Yi, and he quickly dragged health Fei into the river as he said to Lin Yi, "You come in too. I'll use invisible diving to cover you. It shouldn't notice you."

Lin Yi blinked. He didn't need to jump into the river, but he wanted to experience the man's talent.

After Kappa brought Lin Yi and health-maintenance Fei into the water, Lin Yi quickly felt a thin layer of water covering him. It didn't feel heavy, but when his body was completely covered by the water, a magical scene happened. Lin Yi realized that his soul became as transparent as the river water, leaving no trace at all.

Lin Yi quickly figured out some of the principles behind it-it should be a very advanced protection color. In fact, many creatures in nature had some protection color, but it was rare to see one as traceless as the Kappa.

Of course, invisible water wasn't just a protective color-it could only confuse the naked eye, but not the spirit sense. The real thing was this water membrane, and because of it, Lin Yi's entire body felt like a river-there was no difference.

Lin Yi couldn't help but sigh. This was indeed the Kappa's innate ability, invisible in the water.

It didn't take long for the patrolling bee to arrive in the sky above the river. At the same time, it let out a strange and sharp divine sense voice transmission."Kappa! Come out!"

Kappa's heart skipped a beat, but he didn't dare to act rashly. He had to hide Lin Yi and health-maintenance Fei with invisible water as he slowly emerged from the river.

"Kappa! Master is summoning you!" The patrolling wasp continued to use its divine sense to communicate.

Kappa let out a breath of relief-it seemed like Lin Yi and health-maintenance Fei hadn't been discovered yet."But I want to stay behind to guard the hundred herb garden. This is master's order."

"Go over there. I'll take over the duty. This is master's latest order." The patrolling bee said stiffly.

"Ugh ..." The Kappa was in a difficult position again. It didn't really care if it left, but it wouldn't be able to hide Lin Yi and health-maintenance Fei anymore if it left. It'd expose itself and all its efforts would go to waste.

"What are you still doing? The master is waiting!" The patrolling bee urged.

"Big brother patrolling bee, can you tell me why my master summoned me?" Kappa asked eagerly.

"Master wants to let the guests see the Holy water pearl with their own eyes. He needs you to cover up the crack for the time being, so he called you over." The patrolling bee answered honestly.

"Oh." Kappa nodded in realization.

"Aren't you going to hurry?" The patrolling bee urged again. According to its master's cruel style, if the Kappa didn't go over, it would be the unlucky one who was responsible for passing the message.

Kappa wanted to go, but it didn't dare to. After thinking for a moment, it finally had an idea and said, ""Um ... I heard a loud noise up ahead. Maybe the explosive fruits exploded, or something barged in. It's better to go and confirm it for safety reasons."

"You're so long-winded, I'll do it. Hurry up and go. If you make master wait, you won't have a good end!" After saying that, the patrolling bee quickly left.

Kappa didn't dare to move, and only heaved a sigh of relief when the patrolling bees were several miles away.
