

Bodyguard 5271

Chapter 5271 Who's The Ruler?

Duanmu Yu was truly unable to think of how to deal with such an unbeatable opponent.

However, Lin Yi seemed to be very confident. Protector Lotus looked down on him, and his attitude at this moment was like he had the other party in the palm of his hand. Protector Lotus was puzzled by Lin Yi's expression. Where did this human's confidence come from?

"Before that, I would like to say something off-topic. Water lilies are one of the many plants, right? then, what's the difference between you and those spiritual herbs?" Lin Yi suddenly asked.

Protector water lotus was confused at first, but then she burst into laughter. "That's right, that's right. If I didn't have the chance to cultivate to this level, I would only be considered a spirit herb. Otherwise, why would I spend so much effort to create a hundred herb garden? those are all my kind. If I have the chance, there might be another me among them. "

"Oh, I'm relieved then." Lin Yi said with a faint smile.

"Rest assured? Don't worry about what?" Not only the water lotus Protector, but even Duanmu Yu was confused. What was Lin Yi up to?

However, Lin Yi waved his hand and nothing happened.

"You're acting like a ghost!" Protector water lotus sneered. Duanmu Yu didn't know what to say as he looked at Lin Yi. Since Lin Yi was so confident, she thought that he had to use his trump card. At least, it had to be much more powerful than the Qi pellet bomb. Otherwise, how could he deal with protector water lotus?

She didn't think that Lin Yi would be so calm and collected from the start to the end, and nothing happened at all. How could she accept this?

Lin Yi didn't feel embarrassed at all, his expression calm as ever. "You really think I didn't do anything?"

It was only at this moment that Duanmu Yu suddenly reacted. He subconsciously exclaimed, "How did I become a primordial spirit?"

Although the catoptric deflection was an out-and-out illusionary realm, what was trapped was their true bodies. There was no such thing as extracting their primordial spirits by themselves. Up until just now, Duanmu Yu was still fine. In the end, he had become a primordial spirit in the blink of an eye!

"I'm sorry. In order to make it convenient for you to watch a good show, I pulled you in without permission. Don't worry, nothing will happen. " Lin Yi turned around and explained apologetically.

"Oh, I'm fine." Duanmu Yu still didn't understand what was going on, but since it was Lin Yi who did it, she didn't have to worry about it anymore. Lin Yi had built up a rather reliable impression in her heart, and it was rare for her to subconsciously trust someone like that.

At the same time, protector water lotus was completely stunned and couldn't speak for a long time.

Duanmu Yu only felt that it was formidable because he did not understand it. However, it had clearly already detected the source of the problem. Naturally, it was different from Duanmu Yu. Duanmu Yu was currently a primordial spirit while it was still its main body.

"You ... What did you do? Why can't I sense the other Mirror Worlds?" The water lotus Protector finally revealed a shocked expression. This was the first time she lost her confidence in controlling everything. Lin Yi's previous actions may have surprised her, but it didn't change the nature of the situation. It was just like how no matter how monkey sun jumped, he would never be able to escape from Buddha's Palm. However, it was different this time. Buddha felt that he couldn't cover him anymore.

The mirror world was still the same mirror world. It didn't feel like it had changed at all. However, the problem was that this mirror world had been isolated in a separate space, and there was nothing it could do about it.

"That's simple, because I broke your illusion. " Lin Yi said with a mysterious smile.

"Impossible! That's impossible!" Protector water lotus was determined not to believe it. "Break" and "destroy" were only one word apart, and their meanings were extremely similar, but they were two completely different concepts in front of him.

To break the catoptric deflection meant that one only needed to find the operating principles and flaws of the catoptric deflection. It was very difficult, but it was not completely impossible. As long as one's insight was strong enough, it would be fine.

It was absolutely impossible. There was once an existence who had done this, but it was the only one so far. It was the Lord who was superior to the water lotus Protector, the brain-eating insect, and all the other spirit beasts of different sizes!

Other than that Lord, it could not imagine who else could do this. Even the intelligent human in front of it was impossible. After all, the difference in strength between the two was too great. This was not something that could be done by trickery.

However, if it wasn't broken, how could everything that happened now be explained?

"It's fine if you don't believe me, but as the host, I still have to say hello. Welcome to my world. " Lin Yi said politely.

"Your world?" Protector water lotus and Duanmu Yu spoke almost at the same time. "What's going on? this is still the mirror world. How did it become my world?"

However, they soon realized that the mirror world had been dismembered and shattered in an instant.

"What did you say just now? in your mirror world, you are the one and only master. Sorry to borrow it, but this is my world, and I am the only master here!" He said. Lin Yi chuckled.

These words were very pretentious. In fact, they were even more pretentious than what the water lotus Protector had said earlier. However, with this shocking scene as a foil, neither Duanmu Yu nor the water lotus Protector felt that he was pretentious. On the contrary, they felt that he was speaking the truth.

This was especially true for the water lotus Protector. At this moment, her degree of shock was far greater than Duanmu Yu 's. It should be known that even if the catoptric deflection was broken, the remaining mirror world was still real. Moreover, because her main body was residing in it, this mirror world had the strongest control of all the mirror Worlds.

In the end, the mirror world, which was the most reliable in the world, collapsed right under its own nose. It did not even have the power to resist. The shock and horror it felt was unparalleled.

"You ... Who are you?" Protector Lotus couldn't stay calm anymore. She didn't look at Lin Yi with disdain like before, but fear.

"I am me." Lin Yi replied.

"And then?" Protector water lotus continued to ask.

"En ..." Lin Yi tilted his head and thought for a moment before suddenly saying, ""Fireworks of different colors?"

"..." The atmosphere turned awkward. Protector water lily and Duanmu Yu were stunned at the same time. Protector water lily was a spirit beast born and raised in the primordial Land of Trials, while Duanmu Yu was a cultivator in the small Jianghu of the primordial age. They really couldn't understand this joke.

Chapter 5272 Isolated

"Could it be that you've already mastered the laws of the world?" Protector Lotus had a flash of inspiration. The way Lin Yi destroyed her mirror world was clearly using another physical world to crush her illusory mirror world. Other than this unproven legend, she couldn't think of any other possibility.

"What are the world's laws?" Lin Yi was stunned.

"Uh, isn't that so?" Protector water lotus was also stunned.

Beside him, Duanmu Yu was completely confused. What exactly were these two people talking about?

"You can tell me, maybe it is." Lin Yi was quite interested in the term.

"Hmph, I must have misunderstood. It's just an illusory legend. There's no law of the world at all. You must have used some evil means that can't be seen in public. That must be it!" Protector water lotus quickly changed her words.

"Hehe, you're even trying to goad me into it. Since you want to know so much, I'll be merciful and tell you." Lin Yi smiled faintly and said, "this space is my world. I don't know what the laws of this world are, but I can cut this space into as many pieces as I want. It's just a thought of mine to cut your mirror world apart."

This wasn't a lie-to put it bluntly, Lin Yi had put it into his Jade space. Although he was the master in name, he only had one simple way of controlling the Jade space-splitting it.

Yet such a simple and brainless method could produce such a lethal force at this time. Crushing the mirror world was a piece of cake. If Lin Yi really wanted to try it, he could probably just dismember the water lily's body as well.

"You ... How did you get me in here?" Protector Lotus was still suspicious, hoping that Lin Yi was bluffing so that she could turn the tables. Otherwise, she would really be at his mercy.

"Oh, didn't you say it yourself? you're just a spiritual medicine! It may not be convenient for me to do other things in this place, but it's perfect for collecting spiritual herbs. To put it bluntly, it's the absolute nemesis of existences like you. Seeing that you didn't directly kill me just now, I'd advise you to quickly accept your fate. This way, you'll suffer less physical pain. " Lin Yi chuckled.

This was where Lin Yi's confidence came from. No matter how invincible the water lotus was, as long as it was a plant, the Jade space could easily take it in. Once it entered the Jade space, it was Lin Yi's territory. There was nothing to be afraid of.

Protector Lotus knew that the situation wasn't good, but it wasn't scared so easily. Even if its proudest skill, the ethereal Mirage technique, had been completely destroyed, it still had the ancient well's impervious defense. No matter where or when, it could stand in an undefeatable position. Most importantly, its strength was at least Ten Streets ahead of Lin Yi 's, what was there to be afraid of?

"Human, you are too naive. You want me to accept my fate like this? on what basis?" Protector water lotus laughed coldly. She used the moment when Lin Yi was distracted to attack without hesitation. She sent out four clones at the same time. Although these clones weren't strong enough to fight against the brain-eating insect, they were more than enough to deal with Lin Yi.

Duanmu Yu's heart immediately rose to his throat when he saw this scene. She had originally thought that she could finally heave a sigh of relief when things had developed to this point. However, she had

never expected that the water lotus Protector would actually launch a sneak attack without any grace. It seemed that she had been forced into a corner.

In the end, Lin Yi didn't even bat an eye. The four clones couldn't even get close to him. They were separated in a separate space. No matter how hard they struggled, it was all in vain. As the saying went, Lin Yi was the master of this space.

Protector Lotus was dumbfounded, but he didn't believe it. This time, he turned into a human and pounced over like a madman. Unfortunately, he ended up the same as his four clones. No matter how hard he struggled, he couldn't get out of the isolated space that Lin Yi made for him.

"Dummy, weren't you so arrogant just now?" Lin Yi teased. The opponent had been playing him and Duanmu Yu in the palm of his hand the whole time, and it was time for them to change positions.

"How could this be ..." The water lotus Protector had used all her means, but she still couldn't move. Even if she didn't give up, there was nothing she could do. The key was that she had finally confirmed one thing. This was actually a real space. The meaning behind it was chilling just thinking about it. Its origin was even more terrifying than that of the Lord. What kind of power was this human?

Lin Yi only smiled at the guy's panting face, thinking that it was all thanks to the Jade space that he was able to eat him to death. Otherwise, he really wouldn't be able to do anything to this guy, and he'd be dead meat today.

Duanmu Yu, on the other hand, was getting more and more confused. Lin Yi's image in her heart had become extremely profound and unpredictable, with all kinds of magical methods and tricks.

"You ... You shameless adulterers ... Don't go too far!" Protector water lotus pointed at Lin Yi and Duanmu Yu in anger.

"Bullying? Your Excellency treated us like this just now, so I'll do the same to you now. I'm just locking you up, I haven't even cut you into pieces for research. It's still far from bullying people, take it slow. " Lin Yi said calmly.

"Slicing for research?" The water lotus Protector's eyes twitched in shock. It wouldn't have taken this kind of stupid talk seriously before, but it couldn't now. Lin Yi was like a legendary Space Master in its eyes. It could cut it up with a thought.

"That's right. From the perspective of a spirit herb, you should be a rare treasure in this world. After slicing you, you can probably sell for a sky-high price." Lin Yi threatened with a smile.

"Don 't, don' t, don't ... Please don't ..." The water lotus Protector was truly frightened this time. She quickly looked at Duanmu Yu and said, ""Madam, I've been treating you well these past few days. Seeing that we're finally husband and wife, can you ask him to be merciful and let me go?"

Chapter 5273 What's The Ending?

"You're here to plead for mercy?" Duanmu Yu pointed at himself in astonishment. He laughed and spread his hands."Are you sure you didn't get the wrong person? I didn't create this space, so I can't decide what he wants to do. What's the point of you pleading with me?"

"It's useful! It would definitely be useful! You're his woman, and he's willing to risk his life to save you. It's obvious that you're very important to him. Your words must be effective. Madam, please save me!" Protector water lotus begged for mercy.

"What nonsense are you talking about?" Duanmu Yu frowned. She knew that Lin Yi didn't stay behind to deal with protector water lotus for her sake. Even if he wanted to save her, it would only be a secondary reason, not the main purpose.

"Since you've put it that way, I might as well tell you something. Do you know what happened to those guys who fought with me over my woman?" Lin Yi suddenly smiled.

"How ... How is it?" The water lotus Protector asked weakly.

"There are countless of them. Some have lost their lives, some have lost their manhood, and some have distorted their three views and become neither human nor ghost. Anyway, I'm a person who doesn't care about anything else, except that even heroes can't stand the charms of a beauty. I'm usually easy to talk to, but once someone fights with me for a woman, I can't take it. To be honest, even I'm afraid of myself when I'm crazy. " Lin Yi said with a serious face.

Protector Lotus didn't know if he was telling the truth or just bullsh * tting. Her eyes went back and forth between Lin Yi and Duanmu Yu. She regretted it so much that she couldn't have done something better. Why did she have to get Duanmu Yu to do dual cultivation? great! She didn't do it, and instead, she was almost killed.

"Human ... Oh no, senior, I really didn't know she was your woman at first. Don't you have a saying that the ignorant are innocent? on account that I didn't kill you before, and I didn't really perform dual cultivation with her, can you spare me this time?" Protector water lotus knelt and begged for mercy.

"Don't talk nonsense!" Duanmu Yu's face suddenly reddened, not sure if it was because she heard the word practitioner-pair or because she was Lin Yi's woman, but this girlish expression of hers was something she'd never done before.

"I ..." Protector water lotus wanted to argue, but Lin Yi didn't give him the chance. Of course, he didn't get rid of him just like that. He isolated him and left the Jade space with Duanmu Yu's spirit.

The catoptric deflection had been broken and the water lotus Protector had also been locked up. After the two of them came out, they naturally returned to the real world. Duanmu Yu's primordial spirit had also returned to his body.

The tent was still the same tent, and the scene in front of him was still the same. However, after wandering around in so many Mirror Worlds for so long, even Duanmu Yu could clearly feel the difference. Even if all the places were the same, the real world gave people a more solid feeling. No matter how realistic the mirror world was, it was still an illusion. It could never create such a unique sense of reality.

However, Duanmu Yu was still a little worried. He was afraid that this was another mirror world that was even more realistic. Only when he walked out of the tent and saw the spirit beasts outside did he finally relax. After all, the mirror world didn't have these beasts. He let out a sigh of relief and said, "I'm finally back. It was both illusory and real. It felt like a nightmare."

"Hehe, I'll wake up from my nightmare one day." Lin Yi smiled.

Duanmu Yu glanced at him and said with a grateful expression, "But if it wasn't for you, I might never have woken up from this nightmare. I really have to thank you for this."

"You're welcome, we're both taking what we need." Lin Yi shook his head. Duanmu Yu wasn't the only reason he attacked protector water lily. He was just afraid that this guy would find Leng Leng and the others, and then lure the brain-eating bugs over.

"I still have to thank you." Duanmu Yu said seriously. It didn't matter what Lin Yi's motive was, it was a fact that he saved her. She was never an ungrateful person, and she would remember this favor.

As the two were talking, a patrolling bee flew over and looked Lin Yi up and down, "Who are you? Why is he with my Madam?"

"Well, in the words of your master, I'm an adulterer with your Madam." Lin Yi teased.

Duanmu Yu's face reddened as he glared at Lin Yi, but he was smiling inside. He thought that Lin Yi was mysterious, but he didn't think that Lin Yi was such a jokester.

"Adulterer ***?" It took the patrolling bees a while to understand the meaning of the words. They immediately called all the other patrolling bees over and surrounded the two, "How dare you make my master a cuckold! Everyone, let's tear this adulterer to pieces! As for the lady, I'll leave her to master to deal with!"

The patrolling bees were about to attack Lin Yi, but Lin Yi only smiled faintly, "Wait, aren't you going to ask how your master is doing?"

As soon as he said that, all the patrolling bees were stunned. They looked at each other and said, ""That's right, shouldn't master stay in the tent and perform dual cultivation with the madam? how come master didn't do anything when this adulterer and adulterer escaped from inside?"

With the water lotus Protector's usual cruel style, they didn't think that their master would be so tolerant to the point of being unmoved by someone being cheated on, unless ...

At the thought of this, the patrolling bees were all shocked, but they immediately threw this ridiculous thought out of their minds. Their master was The Guardian of that Lord, a powerful existence that was second only to one person and above tens of thousands of people. How could she be defeated by a mere human?

But if that wasn't the case, why was there no reaction at all?

At this moment, a weak voice suddenly sounded from behind, ""Not good! Master must have been killed by them! This human is extremely terrifying. He almost killed me with a single look!"

All the patrolling bees looked over and saw that it was the Kappa. To them, it was one of their own, so they didn't doubt it at all. The strength of a Kappa was not much weaker than theirs, but this human almost killed it with one look. This was something that even their master couldn't do!

"There's such a thing?" Duanmu Yu looked at Lin Yi in surprise. After what happened just now, she already thought highly of Lin Yi, even secretly treating him as a nascent soul old monster. She didn't think that she would still underestimate him. One look and he killed Kappa, what kind of strength was that?

Chapter 5274 Transaction

Lin Yi looked at the Kappa with interest. It seemed that this guy had been holding a grudge against the water lotus Protector for a long time. He was obviously trying to stir up trouble by saying something like this. But it was no wonder. The Kappa was wiped out by the water lotus Protector, and it was the only one left. The sacred water pearl was also taken away. It would be strange if the Kappa didn't hold a grudge.

"Master is dead! Everyone, run!" Kappa was the first one to escape, and the rest of the patrolling bees were also frightened. They looked at each other and ran away without hesitation, not caring about anything else.

Their hatred for their master, protector water lotus, was not far from the hatred of the Kappa's extermination. Just because of a casual word from protector water lotus, they wanted to kill each other. They only had fear for such a master, and would never be loyal to him. With a little instigation, they would naturally fly away when a great disaster was imminent.

With the Kappa and the patrolling bee as a warning, the other spirit beasts all fled as well, leaving only Lin Yi and Duanmu Yu speechless.

But this was good, it saved him a lot of trouble. Although Lin Yi didn't care about these spirit beast minions with his strength, it was still a problem. This time, it was solved by Kappa with one sentence, he had to give it a like.

After a moment of silence, Duanmu Yu suddenly asked, "What happened just now?"

"You mean that Kappa? It's talking nonsense. I can kill it with one look. I'm not a God!" Lin Yi said with a smile.

"I'm not talking about that. I'm talking about what happened to that strange space just now. How did my primordial spirit get taken in, and even that guy was restrained?" Duanmu Yu asked. This question had been suppressed in her heart since earlier. However, she couldn't ask it in front of the water lotus Protector. Now that there was no one around, she really couldn't hold it in anymore.

"This ..." Lin Yi couldn't help but hesitate. He was afraid that Duanmu Yu would be in trouble if he left her alone outside, so he hurriedly brought her spirit into the Jade space. This was one of his core secrets, and he couldn't reveal it to outsiders. After today's incident, Duanmu Yu could be considered a life-and-death friend, but he wasn't at the level where he could completely trust his own people. He didn't dare to reveal this to him.

Seeing his hesitation, Duanmu Yu knew that this matter definitely couldn't be easily revealed to him. However, she had always gotten to the bottom of things and never let loose a grain of sand in her eyes. If this matter wasn't cleared up, she would probably think about it for the rest of her life. It might even become a knot in her heart that would have a bad influence on her future cultivation.

"Didn't you say that I'm Your Woman? You can't even tell your woman about this?" Duanmu Yu suddenly said with a red face.

"Ugh ..." Lin Yi choked. He looked at Duanmu Yu up and down with a weird expression. Duanmu Yu's face was red, but his expression was calm. It was as if he had already gotten over it.

Being stared at by Lin Yi at such a close distance, Duanmu Yu's heart couldn't help but beat faster even though he was a heroine. A strange thought flashed through his mind. Was this the legendary "heart beating like a deer"?

"What ... What's wrong? Did I say something wrong?" Duanmu Yu didn't want to be outdone as he stared at Lin Yi.

"I'm sorry about that ... I'm only saying this to piss that guy off. Don't take it to heart. " Lin Yi couldn't help but scratch his head awkwardly. He didn't think it through when he said it, and it was too sudden. It

was a good thing Duanmu Yu was more open-minded, or it would be awkward if it was on another woman.

"So I misunderstood?" Duanmu Yu took a deep look at him and said with a somewhat complicated expression. "Alright, since that's the case, how about we make a deal?"

"Deal? What kind of deal?" Lin Yi blinked.

"Didn't you want to know more about the rejuvenation of withered leaves? I can explain the essence of this move to you. In return, you have to tell me what happened to that space just now. How about it?" Duanmu Yu suggested.

"Isn't the rejuvenation of withered leaves a secret of your leaf spirit sect?" Lin Yi asked, surprised.

"According to our ancestors' rules, 'rejuvenation of the withered leaves' can not be taught to outsiders. However, our spirit leaf sect has always been fair in our gratitude and grudges. Since you saved me, I can make an exception this time. " Duanmu Yu said.

If she thought about it carefully, her words might not be true. Even if she wanted to repay Lin Yi for saving her life, she didn't have to say the essence of the phrase. She could have used other methods, but she was the big Senior Sister of the spirit leaf sect. According to the sect's rules, as long as she was one level stronger, she would be the next sect leader. Even if she did, the higher-ups wouldn't do anything to her.

"What if I'm a big mouth and spread the essence of the rejuvenation of withered leaves?" Lin Yi asked. "Rejuvenation of withered leaves" was a trump card of the entire sect, and probably only the core

disciples had the chance to learn it. If word got out that it was being studied and targeted, the consequences would be unimaginable.

Duanmu Yu took a deep look at him and said with certainty, "You won 't,"

"Alright, since you trust me so much, I'll do as you say," Lin Yi smiled.

"Then aren't you afraid that I'll spread your secret?" Duanmu Yu asked.

"You won 't," Lin Yi replied with the same words. Although they weren't that familiar with each other, one could tell a person's true nature when they were in a life and death situation. Just like how Duanmu Yu trusted him, Lin Yi also believed that Duanmu Yu wasn't a despicable person. Otherwise, he wouldn't have brought Duanmu Yu's soul into the space without saying anything. In fact, from that moment on, Lin Yi had revealed all his secrets to Duanmu Yu.

Hearing this, Duanmu Yu's face turned slightly red again. As the eldest Senior Sister of leaf spirit sect, the number of times she blushed today was more than the total number of times in the past ten years combined. Even she herself felt that it was a little strange that her face and ears would turn red for no reason. Did she have a fever?

"However, I'll tell you the ugly truth first. I can only tell you the essence of the withered leaves return to spring, but I won't tell you the cultivation method. Is that okay?" Duanmu Yu threw away the wild thoughts in his mind and returned to the main topic. Although it was very troublesome to reveal the essence of the technique, if there was no cultivation method, it could at least guarantee that others would not be able to cultivate the "rejuvenation of withered leaves" for a short period of time. This was the sect's trump card and would not be used on their own people.

"No problem," he said. Lin Yi nodded. He didn't really plan on learning the skill in the first place-he had the Jade space to replenish his Qi, after all, so there was no need for that. He just wanted to study it and see if he could learn anything valuable from it.

Chapter 5275 Learning The Rejuvenation Of Withered Leaves

"Good. There is only one essence to the 'rejuvenation of the withered leaves', and that is to open the hidden door of life." Duanmu Yu slowly said.

"A hidden door of life?" Lin Yi blinked.

"Do you know that all of our spirit leaf sect's mental cultivation techniques and moves come from the same source? they all come from the most ordinary yet most extraordinary thing in the world." Duanmu Yu said.

"Ye?" Lin Yi's eyes brightened-it wasn't hard to guess. The name of the spirit leaf sect explained everything, and all of its moves had the word "leaf" in them-like a falling leaf knowing autumn, like a leaf like a mountain, like a withered leaf returning to spring.

"That's right, it's a leaf. The birth and fall of a leaf represents the reincarnation of the world. When people see a green leaf, they see life. When they see a dead leaf, they see death. However, they don't know that the two are mutually reinforcing. When the green leaf has killing intent, the dead leaf has a day of return." Duanmu Yu paused and took out a yellow leaf, handing it to Lin Yi."Feel it."

Lin Yi took the leaf and looked at it-it was different from what he expected. There was nothing unusual about it, and there was no Qi hidden on it. It was just a normal leaf.

But after thinking about Duanmu Yu's words for a while, an idea came to him. "You mean, this withered leaf also has vitality that ordinary people can't see?"

Duanmu Yu's face was filled with a surprised expression when he heard this. This fellow's comprehension ability was a bit too abnormal. When he first obtained the withered leaf, he had to comprehend it for an entire day before he could understand this principle. Compared to the other disciples of the same sect, this was considered fast. Some people had comprehended for an entire month and still couldn't understand anything. They didn't even have the qualifications to practice the withered leaf rejuvenation.

Of course, Duanmu Yu wasn't too surprised after seeing how Lin Yi broke through the mirror world. Comprehension was closely related to one's observation skills, and Lin Yi's observation skills were insane, so his comprehension skills wouldn't be weak either.

"That's right. Although the leaf has withered, it's not really dead. There's still a powerful vitality hidden in it, but it's only temporarily sealed due to the environment. As long as we can open this door that seals away vitality, it can regain its vitality, which is what you see as the withered Leaf's rejuvenation." Duanmu Yu explained.

Lin Yi nodded. It wasn't hard to understand-it was a metaphor for people. When a person was exhausted, they might look like they were at their peak, but it was just an instinctive self-protection mechanism. They weren't really at the end of their rope.

"Then how can I open this door that seals away all life?" Lin Yi asked. This was the key to the problem.

Duanmu Yu was silent for a moment before he said, "You only need to do two things. One is self-hypnosis, and the other is to stimulate the acupoints with true Qi."

Strictly speaking, she'd already pointed out the cultivation method with that-she couldn't say anything more, or it'd be the same as teaching Lin Yi the skill herself. Even if she was the big sister of the spirit leaf sect, she didn't have the right to do that.

However, Lin Yi didn't need her to say anything more. With Lin Yi's comprehension, these two sentences were enough. He could figure out what to do next on his own, and there was no need to put Duanmu Yu in a difficult position.

"Many thanks." Lin Yi cupped his hands in thanks. He only asked this for reference since he hadn't tried it out yet. He didn't know how much valuable things he could get from it, but one thing was for sure-everything the man said was true. It was worth thinking about.

"Now can you tell me about your matter?" Duanmu Yu said with anticipation.

"Well, as you saw just now, I have a private space. With a thought, I can put things from the real world into it, but only plants and some ordinary items. As for humans, they can't. Of course, primordial spirits can go in." Lin Yi explained. He couldn't tell Lin Dongfang where he got this Jade space since it was related to his background and he didn't really know much about it.

"A private space?" Even though Duanmu Yu had already seen it with his own eyes, he was still dumbstruck when he heard this word. Such a thing had never been heard of or seen before. Perhaps even those Yuanying stage old monsters in the small Jianghu of the immemorial era did not have such a divine weapon. He could not help but be surprised and suspicious."Who are you?"

Lin Yi couldn't help but roll his eyes. This was protector water Lotus's reaction, and Duanmu Yu's reaction. He had to be patient, "I'm not some divine being, I'm just a lump of primordial spirit, that's all,"

"Are you really just an archaic senior of the green cloud School on the North Island?" Duanmu Yu, however, did not quite believe this. He asked doubtfully, "But why are your moves completely different from those of the green cloud School in Beidao? they're completely different."

From the ancient times to the present, the time span was too long. Even if the same sect was passed down, the mental cultivation methods and moves would inevitably change a lot, but not to the extent that the methods would be completely different. That was almost equivalent to establishing a different sect. The three gates of the northern island were publicly recognized as the sect with the most inheritance history in the small Jianghu of the ancient times. There had never been a major disaster such as the extermination of the sect in the records. It was unlikely that even the most basic mental cultivation methods and moves would have such a big deviation.

There were only two possible explanations for this. One was that Lin Yi had learned too many things, and he had his own sect. The other was that Lin Yi wasn't an ancient elder of the blue cloud sect.

The leaf spirit sect placed great importance on the subconscious "instinctive perception. As the senior Sister of the leaf spirit sect, Duanmu Yu was naturally the best in this aspect. A woman's intuition was very accurate to begin with, and her intuition was far above most women.

Her intuition told her that Lin Yi belonged to the latter-he didn't look like an ancient senior at all, but a real young man, probably even younger than her.

"Oh, I'm not one to begin with." Lin Yi said honestly.

"Ha? Then why do they still call you martial granduncle?" Duanmu Yu said in shock. The normal disciples of the green cloud sect were more likely to be tricked, but Xin Yijie was a golden core stage master. How could Lin Yi trick him?

"It's a long story. Although I'm not their true martial granduncle, I do have a connection with them in this aspect. There's nothing wrong with them calling me martial granduncle." Lin Yi smiled. Since they were already at this point, he might as well make things clear, "You know Sky Class Island, right?"

"Of course I know, but it's just an illusory legend in the ancient martial world." Duanmu Yu said. In the past year in the secular world, she and the other disciples of the immemorial Alliance had heard some rumors about the existence of heaven rank islands. However, their original knowledge was deeply rooted in their minds, so they subconsciously scoffed at it and didn't take it seriously.

Chapter 5276 The Next Plan

"Yeah, I can tell you that Sky Class Island really does exist, because I came back from there." Lin Yi said honestly-there was no need to hide this from them. Even if he didn't say it himself, people could find out the whole story from the practitioners of the common world. There was no way to hide it.

"This ... There's such a thing?" Duanmu Yu was completely stunned-Lin Yi's words were even more shocking than the Jade space itself. This was completely different from the world she'd developed since she was young-the Sky Class Island that only existed in legends actually existed!

Lin Yi waited for her to digest the information before continuing, "When I came to Sky Class Island from the secular world, the sect I joined was the North Island's GreenCloud Pavilion. It should be the same sect as the North Island's GreenCloud sect in your ancient little pugilistic world, and its inheritance is more complete and stronger, so to Xin Yijie and the others, I'm naturally a grand uncle-master,"

"Martial uncle Xin doesn't know about this?" Duanmu Yu asked.

"Maybe they know, maybe they don't." Lin Yi said noncommittally. Xin Yijie wouldn't have known at first, but it shouldn't have been hard for him to find out more about Lin Yi's situation after so many months. He just didn't know why he didn't want to know.

Of course, whether it was Xin Yijie or the Qingyun sect, it didn't matter if Lin Yi was really an ancient great uncle-master or not. What was important was that he knew the complete and advanced version of the sect's practitioner's Arts-just that alone was enough for them to call him great uncle-master.

"Alright, I've really broadened my horizons today." Duanmu Yu let out a long breath. Her brain was a bit bloated right now, and she wouldn't be able to digest these things without a few days "time. Especially the matter of the Sky Class Island, she could only slowly accept it.

"Right, what are you going to do next?" Lin Yi asked.

"Of course it's to the river of consciousness." Duanmu Yu said.

Before this, she had been thinking of looking for some natural treasures, but now she had no such thoughts at all. Just the water lotus Protector could easily control her life and death, and now there was a large number of powerful spirit beasts outside, including the brain-eating insects, and even an even more terrifying and mysterious master. If she wandered around alone, it would be no different from courting death, so her only thought now was to find a river of spiritual sense to temper her spiritual sense. Then, he quickly left this place of trouble.

After pausing for a moment, Duanmu Yu asked, "How about you? You're probably going to find Leng Leng and the others, but this place is so big, it's not easy to find them. Why don't we go to the river of consciousness together? I think Leng Leng and the others must be heading in the direction of the river of consciousness, so it'll be easier to find them. "

"In theory, yes, but I have an even simpler method." Before Duanmu Yu could ask anything, Lin Yi grinned and disappeared in a flash. A moment later, he reappeared with a familiar figure beside him. It was the water lotus Protector.

Duanmu Yu jumped in shock. There was no doubt that the water lotus Protector was powerful. It was only because Lin Yi had the Jade space that he was able to restrain it. Now that it had escaped, wasn't it letting the Tiger back into the mountain?

However, to her surprise, protector water lotus didn't do anything after coming out. She just stood at the side with a bitter face.

Lin Yi chuckled, "don't worry, it's just a clone. Its real body is still trapped inside. If it dares to do anything, its real body will die immediately. It won't dare to do anything."

Duanmu Yu studied protector Lotus and saw that she was scared like a quail. Duanmu Yu shook his head speechlessly. Protector Lotus was a high and mighty existence, but Lin Yi made her like this. She wasn't just in a sorry state, she was pitiful.

"Why did you take it out?" Duanmu Yu couldn't help but ask.

"Doesn't it claim to be able to control every blade of grass and every tree on the ground? since it can help the brain-eating insect, I can naturally do the same. I'll ask it to look for Leng Leng and the others. If it can't find them, I'll kill it." Lin Yi pouted at the water lotus Protector, "What are you still standing there for? hurry up!"

"Yes, yes!" Protector Lotus quickly nodded. She had to lower her head when she was under the roof. Her life was in Lin Yi's hands now. She had to be obedient.

Duanmu Yu was both amused and speechless at the same time. The water lotus Protector was really unlucky to have met a natural enemy like Lin Yi.

After a short while, protector water lotus said carefully, ""I've found them. They're approaching the river of consciousness, but soon they'll encounter a spirit beast comparable to an early jiedan stage spirit beast. They should be in a lot of trouble. "

"An early gold core spirit beast?" Lin Yi frowned. It wasn't that Leng Leng and the others couldn't handle a spirit beast of this level, but it was a big challenge. He said, "Bring us there."

Duanmu Yu didn't have any objections-they were both heading towards the river of consciousness anyway, and she was happy to go with Lin Yi. She could keep him company this way.

The two went back to the outside world through the tree hole stairway, and the familiar forest greeted them. But as soon as Lin Yi appeared, a surprised voice came from the side, ""Senior! Senior Lin!"

Lin Yi looked over-it was none other than health-maintenance Fei, who'd been released earlier. He couldn't help but be surprised, "What are you still doing here?"

"I ... I don't dare to walk around ... So I decided to just stay here and wait for you guys to come out ..."
Health-maintenance Fei rubbed his hands and smiled apologetically. This was the truth-it wasn't that he

didn't want to leave, but he really didn't dare to walk around. With his strength, he didn't need to go to protector water Lotus's level. Any late Foundation Stage spirit beast would kill him. It was safer to hold on to Lin Yi's thick leg.

"Oh? Aren't you afraid that I won't be able to handle those spirit beasts?" Lin Yi found it funny-what if the spirit beast he was waiting for wasn't Lin Yi, but some other one instead? wouldn't that make him a free offering?

"No, no, no. Senior, you're very resourceful. I believe that you'll definitely be fine." Health-maintenance Fei quickly sucked up to Lin Yi. In fact, he just thought that Lin Yi was a spirit that could come and go without a trace. Even if he couldn't defeat Lin Yi, he could at least stay alive. He was also confident in his own hiding skills, which was why he dared to stay.

Of course, this was a dangerous place. If Lin Yi didn't show up in a day or two, he'd have to leave as well.

Chapter 5277 Newly Accepted Little Brother

"Although you're not much, you didn't bet on the wrong thing." Duanmu Yu, who had followed Lin Yi out, couldn't help but smile.

"Senior Sister apprentice Duanmu, you're safe and sound too. That's great." Health-maintenance Fei hurriedly nodded and bowed to greet them. The next moment, he saw protector water lotus climb out behind the two of them. His eyes suddenly widened, and he turned around and ran away with a scream.

But after a few steps, he realized that no one was chasing after him. He turned around to see Lin Yi and Duanmu Yu looking at him with strange expressions, and the Lotus Protector standing obediently behind them. He finally reacted and scratched his head as he asked with a smile, "This is ..."

"He's my new underling," Lin Yi said.

Duanmu Yu found it funny when he heard this. Protector water lotus, on the other hand, was angry but did not dare to speak. "I was only trapped by you. When did I become your little brother?"

Health-maintenance Fei didn't know what was going on, and he was filled with respect. Although he'd never seen something like the catoptric deflection or the ancient well's calm, he knew that the water lotus Protector was the leader of the spirit beasts here. To him, she was a powerful existence that he could only look up to. Lin Yi could even subdue an existence like this? he was indeed powerful!

"Senior is indeed a senior. You're too amazing!" Health-maintenance Fei hurriedly squeezed out an expression of admiration, then immediately went to the side and fawned over protector water lotus. "Hello, big brother spirit beast. I'm Health-maintenance Fei. We'll be on the same side in the future. Please take care of me."

"Trash." The water lotus Protector snorted disdainfully and turned his head away, too lazy to deal with this kind of thing. If it wasn't for the fact that it was controlled by someone else, health-maintenance Fei would have been crushed to death by its finger if he dared to come up to it.

Health-maintenance Fei didn't feel embarrassed at all after being given the cold shoulder-he turned his head and continued trying to get on Lin Yi's good side. Lin Yi was the big boss, after all, and as long as he got on Lin Yi's good side, everything else could be discussed.

Even Duanmu Yu couldn't stand it anymore, frowning, ""You're so annoying!"

"Ugh ..." Health-maintenance Fei could only smile bitterly. He didn't want to be like this, but if he didn't flatter Lin Yi like this, what if Lin Yi dumped him because he was a burden? how was he going to live in the deep mountains where danger was everywhere?

"Alright, don't waste your energy. I don't do that here. If you want to follow me, just follow me. Don't cause me any trouble." Lin Yi pouted. He didn't treat master Fei as one of his own, and he didn't even trust him as much as Duanmu Yu did. After all, they were life-and-death friends, but he wasn't so heartless as to leave him behind. He just followed him.

At the same time, just as protector water lotus had said, Leng Leng and the others had encountered a big problem. A giant black Mantis as tall as two people was blocking their way.

"An Aurous core stage spirit beast!" Leng Leng quickly pulled Lingshan and the others behind her, her heart thumping as she felt the menacing aura from the other party.

They'd been on the road for several days, running into another five or six spirit beasts of all sizes. Everyone, including Leng Leng, wasn't in a good state. Whether it was physical strength, Qi, or mental strength, they'd all been exhausted to a certain extent, especially Ziyu, who'd been injured from fighting a mid Foundation Stage spirit beast and still hadn't recovered.

But it wasn't entirely Ziyu's fault-they were surrounded by Two Spirit beasts, and if it wasn't for her buying time for Leng and the others, they might not even have survived. This place was just too dangerous, and without Lin Yi's protection, they were taking risks every second of the day. If they could make it out alive, they'd all be reborn.

It wasn't just Ziyu-Lingshan and the others were all injured as well. They'd run into a golden core Black Mantis, even if it was only an early golden core.

"What do we do?" Everyone turned to look at Leng Leng. Leng Leng was the most powerful among them. She had displayed sufficient courage and responsibility in the past few days. Everyone had absolute trust in her. Even if they could not say that they would follow her lead, they would definitely not go back on their word during critical moments.

"Kill!" Leng Leng spat out the word fiercely. Her entire temperament changed, and there was now a hint of iron and blood in her. Her delicate body blocked the black praying mantis without hesitation and did not retreat.

"Kill! Kill! Kill!" Lingshan and the others roared in unison, their auras merging into one. The formation Lin Yi had taught them was only for show a few days ago, but it was now at a certain level. Life and death battles were the most encouraging, and Lin Yi was right.

"Huhu, a group of ant-like human scum dares to challenge me? where did you get the courage?" The black praying mantis's insect-like face was expressionless, but the disdain and ridicule were obvious. It did not care about cold and the others at all.

"It's just a Mantis, but you're quite arrogant," Wu Chengtian grinned.

"You can't say that. Domineering Army still has some capital. After all, it's not easy for a mere Mantis to grow to this size. Who knows how many unclean things it ate to absorb so much nutrition!" Fatty Lai chuckled.

"That's right, such a big Mantis looks very scary. From its voice, it seems to be a male. In the future, on their wedding night, they will die. According to their customs, they will be eaten by the bride. It will be miserable!" Yu Bing and the others chimed in as well-it was natural to be nervous in front of a strong enemy, and they were trying to calm themselves down so they wouldn't make any mistakes.

"Nonsense! You're just talking about normal mantids. I'm the king of mantids, how could I be eaten by a female Mantis!" The black praying mantis was exasperated by everyone's mockery. It could no longer care about the contempt and ridicule. It immediately waved its two giant sickle-like forelimbs and charged over.

At first glance, it did not seem to be moving very fast, but its body was slender and its strides were unusually large. In just three steps, it had covered a distance of a hundred feet. It came down from above and landed in front of Leng Leng. Its pair of black sickle forelimbs turned into two black Lightning bolts in an instant. Its attack speed was so fast that it forcibly made a sound as it tore through the air. The first person to charge was Leng Leng.

"Leng Leng, be careful!" Everyone cried out in alarm. At this time, they had to maintain their formation and did not dare to advance rashly. Unless Leng Leng took the initiative to integrate herself into their formation, they would not be able to help even if they wanted to. However, in that case, Leng Leng would not dare to use powerful moves such as drawing the ground as a prison to avoid accidentally injuring the others. Therefore, she could only stay outside alone to deal with the enemy unless it was absolutely necessary.

Chapter 5278 Everyone In A Tough Battle

Leng Leng did not dare to be negligent. She did not hold back at all. Before her opponent's scythe forelimbs could slash down, she did not hesitate to use her most powerful ice prison mirror Shatterer. In a split second, an extreme chill surrounded her body. The two black scythes closest to her opponent were instantly covered in a layer of ice crystals. Even their movements were clearly slowed down by a lot.

Insects had always been creatures that were extremely afraid of the cold, and praying mantis was no exception. Even this black praying mantis, which was comparable to a golden core stage existence, had the weakest resistance to the cold. To some extent, it was restrained by Leng Leng's ice-shattering physique. It was also because of the huge suppression in strength. If Leng Leng broke through to the Golden core stage, it would not pose any threat at all.

Unfortunately, Leng Leng was only at the perfected Foundation establishment stage. The ice prison mirror Shatterer was not able to completely freeze her. Instead, it had only slowed the black praying mantis 'movements significantly. Its speed had been reduced by more than 70%!

That was enough. Coold took the opportunity to retreat and blend into the crowd's formation. She used herself as the Arrowhead and shouted, "Third tactic!"

"Understood!" Everyone replied in unison. Lin Yi had given them a typical defensive formation, but it wasn't just a turtle shell that only defended and didn't attack. There were several tactics, and the third one was to move around and pin down the enemy.

Only by passively defending would one fall into a disadvantageous position. Using offense as defense and waiting for an opportunity to move around for a dynamic defense was even more impregnable.

With Leng Leng as the head, song Lingshan, Wu Chentian, and Yu Bing as the backbone, and Ying Ziyu and the others as backup, once this formation was formed, its power would be far greater than what they were supposed to be. No one was a burden-they were all important members, important combat forces.

The ice prison mirror shatters 'effects were especially outstanding. The murderous black praying mantis was suddenly in slow motion. The group moved around like fish in water. They touched each other, and each time they attacked, they would retreat and retreat. They did not give the opponent any chance to fight back. Even if the black praying mantis tried to force its way out a few times, it would be intercepted by the other people in charge of defense. It could not hurt the group at all.

"You bunch of despicable human scum! You only know how to be sneaky. Do you dare to fight me face to face?" The black praying mantis was almost driven mad by the crowd.

Although the power of everyone's attacks was far from strong, its shell body was much weaker than usual due to the ice prison mirror. Each attack would leave some shallow scars. One or two was fine, but many ants could kill an elephant. Even the smallest injuries accumulated would be fatal. Not to mention, the damage caused by the group was only small, but not to the extent of being small.

"Idiot! This is called human intelligence!" Wu Chengtian laughed. They were already very familiar with this tactic. Almost all the spirit beasts that blocked their way were killed by them. It seemed like it was effective against golden core spirit beasts.

They had dawned a little, but it was only effective. With the strength of this group of people, they were actually able to slowly kill a spirit beast comparable to the Golden core stage. What could be more exciting than this?

"Everyone, speed up the pace. I have a bad feeling about this." Leng Leng suddenly whispered at this moment. Using the roaming tactic would inevitably lead to a protracted battle, and from their previous experience, there was usually only one result, and that was when the other party had suffered enough, they would run away. In order to maintain the formation, the group would not have the ability to pursue.

Of course, this result wasn't bad for them. After all, if they really forced the other party into a desperate situation, they would definitely struggle at all costs, and they might have to pay the price of casualties. It was best to avoid it if possible.

Apart from that, there was another additional risk, and that was the long delay would bring more trouble.

Just like last time, everyone was only facing a spirit beast at the perfected Foundation Stage. They could have easily taken down the other party, but in the end, another late Foundation Stage spirit beast had drawn in after a long delay, and they were surrounded from all sides. At that time, Leng Leng had a bad premonition, and now it had appeared again.

When they heard Leng Leng's words, everyone's hearts trembled. They immediately increased their pace. They did not ask for anything else other than to chase the black praying mantis away as soon as possible.

In the blink of an eye, the black praying mantis's Greaves were covered in several wounds. It was then broken by coold's kick. Although losing a leg did not affect it as much as a human 's, it was still frightened. "A bunch of lunatics!"

In order to break its leg, coold and the others had to pay the price of injuries, including Yu Bing. This was completely different from their previous style of running away. They were basically trading injuries for injuries-it wouldn't be an exaggeration to call them crazy.

Unfortunately, the black praying mantis was an existence comparable to the Golden core stage after all. The way they fought would only make it feel angry. Unless they could really seriously injure it, it would be a fool's dream to scare it away.

However, Leng Leng and the others did not slow down just like that. Instead, they worked together to speed up the pace. They did not know if their premonition was accurate, but as long as there was a one in ten thousand chance, they could not ignore it. They had to get rid of the black Mantis as soon as possible. Otherwise, if other powerful spiritual beasts surrounded them and attacked them from the front and back, the consequences would be unimaginable.

However, most of the time, the more anxious one was, the more things would turn out contrary to one's wishes. Just like now, could and the others had raised their pace, but the effect was only barely satisfactory. They had paid a sufficient price, but they still could not really shake the other party's heart. On the contrary, they became more and more angry from embarrassment, making them more difficult to deal with.

"We can't go on like this ..." Leng Leng's heart was burning with anxiety. She knew that she'd made a big mistake. She believed that if it was Lin Yi, he wouldn't have picked up the pace and started attacking. In the end, she still didn't have enough battle experience. She was still too inexperienced.

Leng Leng gritted her teeth. Since Lin Yi had entrusted everyone's safety to her, she had to take everyone out of here. No matter what kind of danger they faced, she had to shoulder it all!

However, the current situation wasn't something that could be solved with determination and resolve. Leng Leng's strength was not enough to seriously injure her opponent. Even if she had such a method, she couldn't use it easily, because she would definitely be in an extremely weak state after that. Without her, who was the key person to lead the team? how would song Lingshan and the others deal with the danger?

Chapter 5279 Shifting The Disaster To The East

It wasn't just Leng Leng-Lingshan and the others were aware of the danger as well, but their strength was limited. They were even more helpless than Leng Leng, and the only thing they could do was work together to maintain the formation.

Just as the scene was in a stalemate, a voice suddenly came from behind the crowd, accompanied by applause. "Aiyo, it seems like Lin Yi has trained you guys well. With this bit of strength, you can fight and even suppress an golden core stage spirit beast. Not simple, not simple at all."

Leng Leng and the others were shocked when they heard that. They immediately found a familiar figure on a tree trunk not far behind them. It was Xue Jianfeng.

Looking at Xue Jianfeng's mocking expression, Leng Leng and the others' hearts instantly sank to the bottom of the valley. Their ominous premonition just now was indeed correct. When the house is leaking, it will rain overnight. To think that they would meet this guy at this time!

If it wasn't for the black praying mantis, Leng Leng and the others wouldn't really be afraid of Xue Jianfeng. Although the opponent was an early golden core stage master, they were almost knocked over by Leng Leng in the ancient competition. Even without Lin Yi here, they might not be at a disadvantage against Xue Jianfeng as long as they worked together. The problem was that there was still a golden core stage Black praying mantis!

The black praying mantis was in front of them, and Xue Jianfeng was behind them, glaring at them like a tiger watching its prey. Most importantly, these two were golden core stage existences. This situation was no different from a dead end to everyone. With Xue Jianfeng's enmity with Lin Yi, no one thought that this guy would let go of such a great opportunity. It was obvious that he would hit Lin Yi when he was down!

Leng Leng quickly motioned for everyone to stop their movements. It was no longer appropriate to use the roaming tactic to deal with the black praying mantis at this time. Compared to the black praying mantis, Xue Jianfeng was a more dangerous threat that needed to be guarded against.

At the same time, the black praying mantis also stopped moving. Although it hated Leng Leng and the others, it was not an idiot at this level. It knew that the human behind it was a greater threat to it. When it was facing Leng Leng and the others, it could fight and escape at will, but when it was facing Xue Jianfeng, it might not be able to escape even if it wanted to.

"Big Mantis, this is an expert. I advise you to run away quickly, or you'll die without a burial place later." Wu Chengtian rolled his eyes.

The black praying mantis already had the intention to retreat, but his words made it even more motivated. It said angrily, ""Huhu, a mere human scum like you dares to boast shamelessly. This is my territory. Do you think I'm scared of you?"

"Hey Hey, we're not trying to scare you. Your big Mantis can't even beat us, if you add him, a Jindan stage master, how are you going to live?" Ziyu and the others said.

"You want to scare me away with just a few words? Do you think I'm an idiot?" The black praying mantis refused to give up. Before it could finish its sentence, it whistled and charged towards Xue Jianfeng. It was not acting on impulse. Instead, it had thought things through.

Although Leng Leng and the others were not easy to deal with, they were not a real threat to it. It could escape at any time when the situation was not good. However, it was different for this human master who had just emerged. It had to test the other party's background first. If he was easy to deal with, it would find a way to kill him all at once. If he was really not easy to deal with, it would be better to escape as soon as possible.

Everyone looked at each other and laughed in relief. They did not know the black praying mantis's specific plans, but this situation was for the best. The danger of being attacked from the front and back was resolved with a few words. This was pure luck.

However, everyone's heart only relaxed for a short moment. In the next moment, it suddenly became suspended again, and it was even more nervous and panicked than before!

Xue Jianfeng did not even move his butt in the face of the menacing black praying mantis. He simply waited for it to get close and with a casual chop of his hand, the black praying mantis was completely defenseless and was easily cut into eight pieces on the spot!

"It's so F * cking stinky!" Xue Jianfeng's expression was extremely ugly. He had deliberately acted calm and relaxed in order to show off in front of everyone. In the end, the black praying mantis had indeed been easily dealt with by him. However, he did not expect to be splattered with smelly blood. His whole body was green, and he looked like a clown who had just been fished out of a dye vat.

Unfortunately, Leng Leng and the others were not in the mood to laugh at him. They looked at each other as if they had seen a ghost. This guy was only in the early gold core realm before, how did he suddenly become so terrifying?

"Perfect gold core realm ..." Leng Leng uttered these words with difficulty. Just now, Xue Jianfeng's attack was very simple and Swift. Ordinary people might not be able to see his true strength, but Leng Leng had seen the world in the ancient Jianghu. That was clearly the power of a master in the perfect gold core realm!

Lingshan and the others were all dumbfounded by the word-how long had it been, and he'd gone from the early golden core stage to the full circle? no amount of medicine could have had such a heaven-defying effect!

According to the knowledge of the ancient martial world, no matter how talented one was, it would take at least a few decades to go from the early stage of the Golden core to the great circle of the Golden core. This was already the limit. Many people were stuck in this stage for hundreds or even thousands of years. However, from the time when Xue Jianfeng broke through to the Golden core stage, it had only taken him a few months. How was this possible?

Even Lin Yi would be shocked by such a shocking leveling speed, let alone Coold and the others. Of course, he was only surprised at the core of it. As for Xue Jianfeng himself, he was just a piece of trash in his eyes. He didn't care about him at all.

"Oh, you have good eyes. How is it? how do you feel now?" Xue Jianfeng was still sitting on the tree branch, looking at the crowd with a smug and mocking expression, especially Leng Leng.

Both of them were snow sword sect geniuses, and Leng Leng was a famous beauty as well. Xue Jianfeng had thought of many things, both openly and secretly, but Leng Leng was unmoved. Now that she came out to the secular world, she fell in love with Lin Yi and even turned the tables on him, almost causing him to fail in the trial. He couldn't bear it anymore.

Now that he had become a high and mighty Jindan stage expert, his greatest pleasure was to appreciate the expressions of these people who opposed him. The more shocked Leng Leng was, the more pleased he was!

Unfortunately, Coold and the others were not very cooperative. The shocked expression on their faces only lasted for a moment before it disappeared without a trace. All that was left was a common hatred for the enemy.

"I'm sorry to disappoint you. We don't have any thoughts about it now. If we have to say something, we're just curious about what kind of crooked quick success cultivation method you've practiced. It can't be the legendary sunflower manual, right?" Yu Bing retorted.

Chapter 5280 Turning The Spearhead

"Sunflower manual? What do you mean by that?" Xue Jianfeng was stunned. He obviously didn't know about this joke that only existed in the secular world.

"If you want to practice this technique, you must first castrate yourself. Did you have these words on the first page of your technique?" Chentian chuckled, and the others burst into laughter. Even Leng Leng smiled-she wasn't that nervous anymore.

"Go to hell, you bastard!" Xue Jianfeng reacted and immediately flew into a rage out of humiliation. A mere peak early Foundation establishment cultivator actually dared to make fun of him, a perfected Jindan stage expert, he really didn't know what was good for him!

With his current strength, once he made a move, no matter how cool and the others worked together, it would be useless. Whoever he wanted to die would die, and no one could stop him.

Xue Jianfeng made his move immediately, his whole body flying above everyone's heads as he reached out his hand towards Yu Bing and Wu Chengtian's heads. He was planning to keep Leng Leng and Song Lingshan alive before he enjoyed the beauties, but these reckless men who mocked him like Yu Bing and Wu Chengtian were not going to live.

"You guys go first!" Leng Leng shouted loudly and rushed forward to meet him. Although she had almost succeeded in the previous challenge, she was only at the Foundation Stage great circle. Facing the current snow sword peak was like an ant trying to shake a big tree. However, she had no other choice.

Lingshan and the others didn't waste any time-they scattered to the side without hesitation. They'd only be laughed at if they said they'd die together. All they could do was run as fast as they could so they wouldn't drag cool down.

"You think you can stop me?" Seeing this, Xue Jianfeng could not help but smile sarcastically. Last time, he had caused Leng Leng to be covered in dirt. This time, it was a good opportunity for him to get back at her. He would let her experience what it meant to have a huge gap between them, and what it meant to be in despair.

A perfected golden core cultivator versus a perfected foundation building cultivator. There was no doubt that their strength would crush each other. Xue Jianfeng didn't even need to use his sword. That would be an insult to himself. Moreover, he only wanted to play with Leng Leng now. He didn't intend to kill her directly.

When he saw Leng Leng's whip-like leg sweeping toward him, Xue Jianfeng grinned coldly and stretched out his hand to block it. He knew that he did not even need to exert any force, and his opponent would fall on his own.

Bang! Bang! Following the muffled sound of a fist and a leg colliding, Xue Jianfeng's body suddenly stopped, and a strange expression appeared on his face. Leng Leng was actually not pushed back by him. He could not help but be stunned, "How is that possible?"

With such a huge difference in strength, even if he didn't use his full strength, he should at least be seriously injured. It was impossible for him not to even take a step back, right?

Before Xue Jianfeng could react, Leng Leng attacked again, using the instant strike skill that Lin Yi had taught Ziyu. She didn't have the body type that was naturally suited for instant strikes, but that didn't stop her from mastering it. After all, in terms of comprehension and talent, she was better than Ziyu.

"This is ..." Xue Jianfeng hurriedly responded to the attack, but the situation was far beyond his expectations. He, who had the advantage of an entire cultivation level, was actually being suppressed by Leng Leng!

A familiar sense of humiliation suddenly welled up in his heart. Xue Jianfeng couldn't help but think of the situation of the trial Competition last time. It was the same at that time. He was an early gold core expert, but he almost lost to Leng Leng. Now that he had become a complete gold core expert, he thought that he could easily wash away his shame. He didn't expect to fall into such a strange situation again.

It was already extremely rare to fight an enemy above one's cultivation level, and it was even more difficult to fight an enemy above one's cultivation level. As for Leng Leng, who wanted to fight an enemy who was an entire cultivation level above her, that was something that had never happened before. It was simply a fantasy!

What was even more outrageous was that the snow sword was actually suppressed and couldn't break free for a while!

A close-range instant strike was an extremely annoying battle tactic, especially when coupled with the speed reduction effect of the cold ice prison mirror Shatterer, even snow blade could not easily escape from it. If that was all, it would not have been so bad. The key was that the strange condition Leng Leng was displaying at this moment was truly frightening. Not only was the cold air surrounding her body, but even her exposed skin, including her palms and neck, had become cold and shiny, as if they had been frozen into ice crystals!

Xue Jianfeng didn't understand what was going on, but his self-esteem wouldn't allow him to be suppressed by a Foundation Stage cultivator like Leng Leng. After being forced to take five steps back, he gritted his teeth and stopped himself. He didn't have time to catch his breath and forced himself to use his palm. Doing so would easily cause a backlash, but he was so embarrassed that he couldn't care less.

Bang! Bang! The two palms met. This time, Xue Jianfeng used his full strength. However, unexpectedly, Leng Leng was not pushed back. Instead, she attacked even more fiercely.

"To hell with it!" Xue Jianfeng's eyes were wide open. He could not understand what was going on. There was only one thought in his mind: this world was too crazy.

However, he was, after all, the leader of the young generation in the small Jianghu in the immemorial era. Although Leng Leng could barely suppress him, it was mainly by surprise. At most, she could take the initiative on the scene. It was almost impossible for her to seriously injure him. After all, there was a full major realm gap between them. How could it be so easy to bridge it?

After exchanging a few more moves, Xue Jianfeng finally noticed something. He realized that although he had been facing Leng Leng head-on every time, when it came to the moment of their exchange, his force and true Qi would always be inexplicably diverted to the side after passing through to her. In the end, not even one-tenth of it would actually hit Leng Leng!

Xue Jianfeng did not believe it and tried a few more times, but the result was the same every time. In the midst of his shock, a light suddenly flashed in his mind and he blurted out, "Could it be the legendary jadeskin?!"

Jadeskin was not just a simple description in the immemorial Alliance, especially in the snow sword sect. It was a real protective martial skill. It was said that only a few people with extremely special physiques had the chance to master it. Once mastered, they could easily resolve most of the attacks, and they were extremely durable. Even if they were fighting against enemies of a higher level, they would rarely be at a disadvantage.

According to the legends, the master who created jadeskin was the Grandmaster of snow sword sect. Unfortunately, the requirements of this martial skill were too unique, and only a few people were able to successfully cultivate it. As a result, it had almost been lost in the last hundred years. Even the martial skill's Secret manual was incomplete. However, no one had expected that it would see the light of day again on Leng Leng!
