Chapter 5281 The Moment Of Death

"You just realized?" Leng Leng's eyes flashed with a hint of mockery. It was normal for others to not be able to react in time. After all, jadeskin had appeared so many times in the ancient martial world. However, Xue Jianfeng was a true disciple of the snow sword sect. It took him so long to recognize his sect's martial arts technique. He was really slow to a certain level.

"Impossible! Absolutely impossible! Jadeskin had been destroyed long ago! Where did you get the martial skill manual?" Xue Jianfeng was still in disbelief.

It was not unreasonable for him to be so certain. He had once tried to cultivate the icy skin and jadeskin, and he had even paid a lot of money for it. Unfortunately, he later found out that he had no talent in this area at all, so in a fit of anger, he destroyed half of the manual. Fortunately, his father, who was the Deputy sect leader of the sect, had covered it up without anyone knowing. Otherwise, he would have been severely punished by the sect.

Without even a martial arts manual, how could he possibly cultivate it successfully?

"Is that any of your business?" She hmphed coldly. Her manuals indeed didn't come from a sect, but from Lin Yi. In the collection of Arts that Wang Xinyan and the others sent over, most of the sects only had introductory Arts and basic martial arts bought from the black market, but a few sects had almost all the arts and martial arts, like the snow sword sect that Wei shenjin was in.

Since Leng Leng had already mastered the two powerful skills, she wouldn't be thinking of breaking through to the Golden core stage in a short time. So, in the last month before the test started, she spent most of her time and energy on her new skills-the jadeskin that Lin Yi had picked out for her.

Strictly speaking, her [ice Shatterer] physique did not fully meet the requirements of [jadeskin]. She could not use it in a very short time like [ground prison] and [ice prison mirror Shatterer], but the compatibility was still above 80%. So, she had finally made some small progress in the past month, and now it came in handy.

"Good, good, good! So what if you have jadeskin? It's just a little more durable. Other than speeding up the consumption of your remaining physical strength and true Qi, you can't hurt me at all. What's the use!" Xue Jianfeng sneered.

Although he was trying to comfort himself, what he said was true. Jadeskin was only a defensive martial skill, and it did not have any offensive properties. At most, it could only make Leng Leng more resistant to attacks, but it could not change the situation.

However, Leng Leng had never hoped to defeat Xue Jianfeng-that was unrealistic. She just wanted to stall him and buy time for Lingshan and the others to escape. So far, her plan had succeeded.

It was almost time! Leng Leng's breathing had become heavy. If she wanted to hold Xue Jianfeng back, it was not enough to just rely on jadeskin. She also had to get close to him and use instant strike. Both of these were extremely taxing on her true Qi. In addition, she had already used up a lot of it before. Holding on for half an incense's time was her limit. If she continued, she would be exhausted.

Leng Leng took a deep breath and forced snow Jianfeng to retreat again. She then turned around and fled without hesitation.

"Hehe, aren't you too naïve to think that you can escape at this time?" Xue Jianfeng laughed coldly as he caught up. Leng Leng's speed wasn't considered slow, but the difference in strength between them was obvious. Unless she had Lin Yi's movement technique, it was almost impossible to lose her.

In the blink of an eye, Leng Leng's back was hit by a palm. Although she had used jadeskin to dissipate most of the power, she still spat out a mouthful of blood. However, she did not stop at all. Instead, she used the force of the palm to escape even faster.

"Hmph, let's see how long you can be a coward!" Xue Jianfeng had completely forgotten about Song Lingshan and the others. To be precise, he didn't care about these people at all. The only person he had to get rid of was this Leng Leng!

In less than a year's time, she had advanced from the early stage of the foundation building realm to the great circle of the foundation building realm. Moreover, she had also mastered powerful moves such as painting the ground as a prison and ice prison mirror Shatterer. Now, she had even mastered the ice skin jadeskin. She was actually able to cross an entire realm and deal with him for so long. The potential that Leng Leng had displayed was simply too terrifying.

As proud and arrogant as snow, Jianfeng had to admit that if he continued to let things be, he might be trampled under cold's feet one day. It was better to kill her in the cradle now!

With a flash of cold light, Xue Jianfeng immediately unsheathed his sword. Leng Leng only felt a chill on her back, and the back of her heart was immediately stabbed, causing blood to spurt out.

"He didn't die?" Xue Jianfeng was stunned as he looked at Leng Leng who was still running away. He was not just putting on an act. He had used all his strength, but he did not expect that he would only leave a small wound on her back. The defense of jadeskin was indeed amazing!

"Again! I'd like to see how many times you can block my sword!" Xue Jianfeng mocked.

At this point, Xue Jianfeng no longer concealed his killing intent. It was a pity to kill such a beautiful woman like Leng Leng, but he could always find more beautiful women. However, if he allowed Leng Leng to grow up, it would be his own life that would be in danger.

The two of them, one chasing and the other fleeing, crossed dozens of miles of dense forest in less than a moment. At this time, Leng Leng's back was already drenched in blood, with more than a dozen wounds of various sizes. She was only able to hold on with her jadeskin. Otherwise, these wounds would all be transparent holes, and she would have died a long time ago.

Even so, Leng Leng was already on the verge of collapse. Not only was she bleeding profusely from the dozen or so wounds, but her physical strength and true Qi were also reaching their limits.

"Soon! Soon! It should be not far ahead!" Leng Leng kept brainwashing herself along the way. This was the only way she could force herself to not fall. She had just passed by this place yesterday. However, at that time, she had sensed an unusually powerful spirit beast's aura here, so they did not dare to approach rashly. In the end, they carefully went around it. Now, this unknown powerful spirit beast had become her only chance of survival.

She had to think of a way to alert this unknown spirit beast and make it target Xue Jianfeng. This was the only way for Leng Leng to escape this calamity. There was no other way.

"What?" Xue Jianfeng quickly noticed the abnormality. As a master in the great circle of the gold core realm, his perception range was naturally much larger than Leng Leng's. With a thought, he immediately understood Leng Leng's intention. He no longer cared about anything else and jumped high into the air. A huge white sword light fell from the sky silently. This was the strongest move he had mastered at the moment, one sword descends the nine Heavens!

The shadow of death instantly enveloped Leng Leng. This was the most powerful attack of a master in the great circle of the Golden core stage. Not to mention that she was seriously injured and at the end of her life, even if she was in her peak state, she would not be able to withstand it and would die without a doubt.

Chapter 5282 Butting In

Leng Leng suddenly stopped and sighed softly, "Farewell, Lin Yi."

Lin Yi had entrusted Lingshan and the others to her, and she'd done everything she could. Even if she couldn't guarantee everyone's safety, she had a clear conscience and could die in peace.

Just as Leng Leng closed her eyes and waited for her death, a figure suddenly appeared beside her. Soon after, a familiar icy cold aura materialized and soared into the sky. It actually blocked Xue Jianfeng's one sword plunging into the nine Heavens. Although it had only been less than half an instant, it was enough for him to save Leng Leng from danger.

"Merciless ICE FORCE?!" Xue Jianfeng's eyelids twitched when he saw this. This familiar cold aura was actually the emotionless ICE FORCE. This person's identity was obvious-it was Bing Wuqing!

"It's you?" Xue Jianfeng wasn't the only one who was shocked. Even Leng Leng, who had just been saved, was so shocked that she couldn't speak after seeing the person's appearance. Why would Bing Wuqing save her for no reason?

Lin Yi had never told anyone about the fact that Bing Wuqing and the others had been subdued by him in secret. Only two people knew about it-himself and Lin Dongfang.

Could was unaware of the inside story, so she was as shocked as snow Jianfeng.

"Let's go," he said. Bing Wuqing didn't have the intention to explain the whole story at all, and immediately signaled for Leng Leng to escape first. Although Leng Leng was in a very weak state right now, Lin Yi had given her a large number of medicinal pills to heal her injuries, and she would recover in a short time. As long as she was careful, she should be able to protect herself.

"Many thanks." Leng Leng knew that it wasn't the time to be naggy. She thanked Bing Wuqing and turned around to leave. Not only did she have to heal her wounds, but she also had to meet up with song Lingshan and the others before they got too far away. As for why Bing Wuqing had saved her, she could only find out later.

Watching Leng Leng escape, Xue Jianfeng panicked. He wanted to strike again, but the merciless ICE FORCE had already enveloped him. His heart thumped, and he didn't dare to act rashly. Instead, he looked at Bing Wuqing with fear.

"What's wrong? You're helping them?" Xue Jianfeng looked at Bing Wuqing again with an unfriendly expression. Bing Wuqing should be Lin Yi's enemy, and she was in central with him. What was this guy trying to do by saving Leng Leng?

"I'm happy." Bing Wuqing said indifferently, her face expressionless.

"Hmph, this is a task given to me by the higher-ups, and you actually dare to make things difficult for me. Where did you get such big guts?" Xue Jianfeng snorted coldly. In the past, due to his lack of strength, he still had to show some respect to Bing Wuqing. But now, there was no need for that.

"Oh, really? That's your mission, it has nothing to do with me. My orders are not to mess with Lin Yi, that's all. " Bing Wuqing said nonchalantly.

"You ..." Xue Jianfeng couldn't help but choke. He didn't have enough confidence because it was a strict order from the central headquarters not to mess with Lin Yi. It was his own decision to ask the professor to deal with Lin Yi's people. He could do it secretly, but he couldn't say it out loud. Otherwise, it would be disobeying orders. Not even the professor would have the guts to do it, let alone him.

"Then let me ask you, you were clearly only in the late-stage of the Aurous core stage before. How did your strength suddenly become that of the perfected Aurous core stage? you actually hid your strength?" Xue Jianfeng said with a frown. Just now, Bing Wuqing had blocked his ninth heaven plummeting sword strike with only the materialized heartless ice power. Even though it had only been for half a second, it was enough to prove that this fellow's strength was at least the same as his, and that she was already an expert at the perfected gold core realm.

It should be known that the heartless ice power was just an aura, and not an offensive or defensive move in the strict sense. The fact that Bing Wuqing was able to achieve this with the help of the heartless ice power was shocking to everyone.

Even Xue Jianfeng had to admit that although they were at the same level, if they were to fight, the other party's chances of winning were obviously higher than his.

"Same to you. Aren't you the same?" Bing Wuqing glanced at him, and the corners of her mouth curled up into a mocking smile. "Do you think that you can be above me just because you've ditched me and secretly fawned over the peak?"

"You actually know?" Xue Jianfeng was even more shocked. The doctor in glasses had clearly told him that the central headquarters 'key training program was strictly confidential and would never be revealed to anyone. How did this guy know?

"Could you really have done this without anyone knowing?" Bing Wuqing glanced at him from the corner of her eyes.

"Did you also join the intensive training program?" Xue Jianfeng was more and more bewildered. He thought carefully about how the bespectacled doctor had obviously valued Bing Wuqing more before he took the initiative to court her. It was not impossible for him to add her to the key training program.

Bing Wuqing didn't seem to be smiling, neither admitting nor denying it. In Xue Jianfeng's eyes, Bing Wuqing seemed even more mysterious. Of course, he didn't need to reveal his relationship with Lin Yi. He could just let this guy be.

As expected, the more Xue Jianfeng thought about it, the more he was convinced. Bing Wuqing's rapid advancement from the late-stage to the perfected gold core realm was only the last month before he went to the Central's intensive training program. Although it was not as exaggerated as his, as far as he knew, only the central was capable of advancing two levels in a short period of one month.

As for why Bing Wuqing did not advance six levels in a row like he did, and instead stopped at the great circle of the Golden core stage, it was not difficult to find the reason. When he had participated in the intensive training, he had been told that with the current technology in the center of the secular world, they could only quickly advance to the great circle of the Golden core stage, and that was the limit. As for the nascent Soul Stage, that technology was still in the experimental stage, far from being mature enough to be put into practice.

With Bing Wuqing's interference, it was no longer realistic for Xue Jianfeng to chase after Leng Leng and the others. Not to mention whether he could find them again in a short time, even if he did, it would be useless. Although Bing Wuqing didn't talk much, her actions just now had clearly shown his attitude. If Xue Jianfeng dared to touch Leng Leng and the others, he would attack Xue Jianfeng.

Faced with Bing Wuqing, who had accumulated power over the years, and the unfathomable power he had just displayed, Xue Jianfeng really didn't have much confidence to fight her head on. There was no benefit in winning, but if he lost, he would be rebuffed. Wouldn't that be a waste of effort?

"Why are you protecting Leng Leng so much?" Xue Jianfeng asked in a deep voice.

"I've already said that I'm happy. " Bing Wuqing was still expressionless, and no one could tell what she was thinking.

"You!" Xue Jianfeng was so angry that he almost died. It was fine that this guy jumped out to ruin his plan, but he didn't even give a basic explanation. Which side was this guy on?

Chapter 5283 Enemy Attack

Bing Wuqing didn't say anything, and just stared at him. In order to ensure that Leng Leng and the others could escape safely, he had to keep an eye on Xue Jianfeng for at least an hour. Otherwise, with their weak strength, Xue Jianfeng would catch up with them again in the blink of an eye.

Just as the two of them were confronting each other, their eyelids suddenly twitched. A powerful and fierce aura of a spirit beast was rapidly approaching from the distance, and in the blink of an eye, it had arrived in front of them!

It was a lizard, but not an ordinary lizard. From head to tail, it was more than ten meters long, and its entire body was covered with dense silver-gray scales. Its huge mouth was full of sharp teeth, and from time to time, it would spit out a lump of saliva with a pungent smell. When it landed on the ground, it actually corroded a deep pit, which was really frightening and made people's scalps go numb.

"The ancient giant lizard!" Xue Jianfeng and Bing Wuqing blurted out almost at the same time. There was no doubt that this was one of the ten most ferocious and terrifying spirit beasts in the small Jianghu of the immemorial era. They had never thought that it would exist in this place.

The ancient monitor lizard didn't stop, nor did it have any intention to waste time with the two of them. It roared and charged towards Bing Wuqing, who was the closest to it.

However, this was not surprising. The ancient giant lizard was famous for its strength, but it was also famous for being brainless. Other than having a strong sense of territory, this fellow's mind was a complete mess. It did not have any clear consciousness, only the most basic animal instincts.

At its level, any other spiritual beast would have developed intelligence and their intelligence would not be much weaker than humans. Unfortunately, the primordial monitor lizard was recognized as one of the most retarded spiritual beasts. No matter how high its strength level was, it was still a wild beast that only knew how to kill.

Seeing this, Bing Wuqing furrowed her brows slightly and quickly retreated. Unexpectedly, although the ancient monitor lizard's body looked very cumbersome, its movements were not clumsy at all. On the contrary, it was extremely Swift, and its speed was far above that of an ordinary human expert. Even Bing Wuqing was caught up in the blink of an eye.

Bing Wuqing was startled when she saw the other party's stinky saliva biting toward her. She immediately unleashed her most skilled ice attack without any reservation, causing the ancient monitor

lizard's speed to drop. It was the same as the black Mantis that Leng Leng and the others had encountered earlier. It was the type of ice attack that was the most difficult to resist, and its effects were outstanding.

Bing Wuqing took the opportunity to escape. This ancient giant lizard was obviously an existence comparable to an expert in the exceptional gold core realm. If she was bitten by it, she would either die or be injured, especially that mouthful of saliva, which was extremely terrifying. Just a little bit of it corroded a big hole in her body. Even if her vitality was tenacious enough to survive, she would be plagued with diseases in the future, and it would be impossible for her to recover from it for the rest of her life.

However, before they could get more than ten meters away from each other, the blood-red tongue in the immemorial giant Lizard's Mouth suddenly shot out like a sharp arrow, targeting Bing Wuqing.

This time, its speed was more than ten times faster than that of its movement technique. Bing Wuqing had no way to escape. Just as she was about to be hit, her hands quickly formed a seal, and a thick ice wall suddenly appeared behind her. Although the ancient monitor lizard's Red tongue was extremely fierce and could easily break through the ice wall in an instant, the ice wall continued to thicken as it was broken through. In the end, it still managed to block the attack by a hair's breadth.

"Phew! This lizard!" Bing Wuqing heaved a sigh of relief, not without lingering fear. On the other side, Xue Jianfeng couldn't hide the look of regret on his face. If only Bing Wuqing had been killed by the ancient lizard just now. Not only would she have one less obstacle, but she would also have one less competitor. It was killing two birds with one stone. What a pity.

Even with her toes, Bing Wuqing could figure out this fellow's intentions. As such, after enduring the first wave of the immemorial giant lizard's attack, she did not plan to fight it head-on. After all, even if she could win, Xue Jianfeng would only benefit from it. Thus, she chose to retreat. In the current situation, preserving his strength was the best strategy.

"F * ck! You're too cunning!" Xue Jianfeng was just about to gloat over her misfortune when he saw Bing Wuqing running in his direction, while the immemorial giant lizard was chasing after her relentlessly. In the blink of an eye, the man and the lizard were right in front of him.

Xue Jianfeng's reaction was a beat slower, and he was instantly left behind by Bing Wuqing. The immemorial giant lizard, which was right in front of him, bit him again. Xue Jianfeng hurriedly raised his sword to block it, only to find that not only was the beast's skin thick, but its silver-gray scales were also too hard. Not only was his sword unable to break through it, but it even numbed his right hand, and he almost dropped his sword.

At the same time, the ancient monitor lizard, which had missed its target, used the same trick again. Its blood-red tongue came out again. Although it was soft and harmless, it was covered in the most terrifying saliva. As long as it touched you, you would be dead.

Xue Jianfeng's body was a little stiff from the recoil. If he had not seen this move before, he would have been caught off guard and suffered a great loss. Fortunately, he was prepared. As soon as the primordial giant lizard's Red tongue came out, he immediately descended from the sky and used the ninth heaven sword, cutting off the tongue.

A broken tongue that was a few feet long jumped around on the ground. The immemorial giant lizard, which had suffered a great loss, immediately let out an extremely ear-piercing roar. The veins all over its body were throbbing violently, and its already ferocious beast eyes were instantly filled with blood. It had already begun to go crazy.

Xue Jianfeng's heart skipped a beat as he felt the brutal aura from the immemorial giant lizard. He had poked a hornet's nest!

It clearly had the intelligence of a wild beast, but it was one of the ten most terrifying spiritual beasts in the ancient martial world. There was no doubt about the strength of the ancient monitor lizard. It was almost invincible among its peers. If its original combat power was one, then after going berserk, its combat power was at least five, or even more!

In the face of such an existence, with Xue Jianfeng's current strength, it was not certain whether he could win. Even if he could win, he would definitely lose his life. Furthermore, Bing Wuqing was watching him like a tiger watching its prey. He had been eyeing Bing Wuqing just now, and it was hard to say whether Bing Wuqing didn't have the same plan at this time.

As soon as the primordial giant lizard went berserk, Xue Jianfeng turned around and ran without hesitation. He no longer cared about hiding. It was a hot day, but every step he took left a clear snow Seal under his feet that melted quickly. With every melted snow Seal, his body movement speed increased by a notch. After stepping through ten snow seals, his body movement speed was at least twice as fast as before!

"Traceless in the snow!" Bing Wuqing's heart skipped a beat upon seeing this!

Chapter 5284 Bring Me Over

Although Xue Jianfeng was also the leader of the young generation in the small Jianghu in the ancient times, many of his points came from the various promotion of his father, the Vice sect leader of the snow sword sect. If it was just based on Xue Jianfeng's own talent, he was at most slightly outstanding. He could not be compared with a real genius like Ling Tianyou at all. Even Leng Leng could leave him far behind.

As the top youth of the previous generation, Bing Wuqing was an absolute genius herself. Naturally, she wouldn't think highly of a second-rate top youth like Xue Jianfeng. However, she didn't expect this guy to actually have some skills.

The traceless snow step was one of the best movement techniques in the snow sword sect. The number of people who could master this movement technique in the entire snow sword sect could be counted with one's fingers. It was not easy.

Xue Jianfeng was running in the direction of Bing Wuqing. Now that the primordial monitor lizard was on a rampage, its speed could not be measured with common sense. Even if he had traceless Snowsteps, he might not be able to shake it off. He might as well do what Bing Wuqing had done earlier and direct the trouble to the lizard.

When two people were being chased by a Tiger, it was not necessary to outrun the Tiger to escape. It was common sense that one could outrun the other person.

The two of them were both perfected gold core experts, and both of them were from the snow sword sect. In this aspect, it was obvious that Xue Jianfeng had the advantage of having traceless Snowsteps to protect him, unless Bing Wuqing also knew how to traceless Snowsteps.

It was a pity that Bing Wuqing didn't put in any effort in this aspect. After all, even with his talent, it wasn't an easy task to master the traceless snow. Moreover, this movement martial technique didn't have a high compatibility with him. To put it simply, it didn't suit his temperament. If he tried to practice it forcefully, he would only get half the result with twice the effort. A rational and realistic person like Bing Wuqing would definitely not do such a thing.

However, Bing Wuqing was feeling a little regretful now. If she had known this would happen, she would have spent twice the amount of time practicing. At least, she wouldn't have fallen into such an awkward situation. In just a short while, she had been left behind by the traceless snow sword, while the brainless ancient monitor lizard had automatically shifted its hatred to him, who was the closest.

"Hehe, I'll go first, you have fun with it!" Xue Jianfeng laughed complacently and left. It wasn't that he didn't want to stay and watch Bing Wuqing's embarrassed look, but he was well aware of how terrifying Bing Wuqing was. He knew very well that if he stayed, Bing Wuqing would definitely have a hundred ways to drag him back into the battle. So, it was better to leave first to be safe.

"Hmph! Do you think you can escape?" Bing Wuqing could only bite the bullet and attack the ancient monitor lizard. At the same time, she glanced in the direction that Xue Jianfeng had left in, her eyes flashing with an inexplicable meaning. If there was someone with extremely sharp divine sense like Lin Yi present, they would notice that there was a faint ice thread at the tip of his finger, which was connected to the direction that Xue Jianfeng had left in.

At the same time, Lin Yi and the others were rushing towards Leng Leng's group. However, the water lotus clone that was in charge of guiding Lin Yi suddenly stopped.

"Why did you stop?" Lin Yi frowned. He was in a hurry to meet up with Leng Leng and the others, he didn't have time to waste on this guy.

"The group of people you're looking for has split up." Said the water lotus clone.

"Did you encounter the spirit beast you were talking about?" Lin Yi quickly asked.

"Yes, a woman stayed behind to delay them. The rest of the people have safely evacuated." The water lotus clone nodded and added, "However, their problem is not the spiritual beast that I just mentioned, but another human expert. His strength doesn't seem simple."

"A human expert?" Lin Yi's eyelids twitched. With protector Lotus's knowledge, if she praised someone with extraordinary strength, then that person must be a golden core stage master. And this time, the only golden core stage Masters who came in were Bing Wuqing and Xue Jianfeng. Since Bing Wuqing was on their side, then the person who made things difficult for Leng Leng and the others could only be Xue Jianfeng.

"Oh my, that expert is chasing that woman to the territory of the ancient monitor lizard. I can't do anything about that." The water lotus avatar spread its hands helplessly.

"What do you mean? Why are you powerless in the territory of the ancient monitor lizard?" Lin Yi looked at it-this guy's body was trapped in the Jade space, and taking its life was just a thought away. He wasn't afraid of any tricks.

"Do you know how I found out about these things?" The water lotus avatar asked instead of answering.

"Don't we rely on those flowers, plants, and trees?" Lin Yi frowned.

"That's right. I can only know these things by communicating with them using my primordial spirit. Basically, as long as there are plants, I can grasp every movement, big and small. However, the territory of the ancient monitor lizard is not within my control." The water lotus clone shook his head.

"Why?" Duanmu Yu asked on his behalf.

"That's because there will be saliva left behind wherever the ancient monitor lizard passes by. Just a little bit of it can kill the intelligence of all plants. Such plants are useless even if they are alive because

without intelligence, they can't communicate. Naturally, they will be out of my control." The water lotus avatar looked quite sincere when it said this, and there was no sign of lying.

"Plants also have intelligence?" Health-maintenance Fei came up and asked curiously.

"Of course there is. Any plant with a little bit of climate will have spiritual intelligence. As for the spirit herbs in your eyes, they are the best among them. Otherwise, how could they gather so much spiritual energy from heaven and earth to nourish them for no reason?" The water lotus avatar asked.

"Uh ..." When he heard the word "spirit herbs," Fei Yangsheng's face suddenly darkened. The two bags of spirit herbs he had painstakingly collected in the underground had been thrown away when he met the Kappa. Now that he had come out of the treasure Mountain, he was empty-handed, which really made his heart ache.

The main thing was that Lin Yi was worried about the safety of Leng Leng and the others. He didn't want to go back with her, and he didn't dare to go back alone. He could only silently feel his heart bleeding.

"What are you going to do?" Duanmu Yu looked at Lin Yi.

Lin Yi pondered for a moment. He was sure that it was Leng Leng who was holding Xue Jianfeng back. He thought for a while and said, "Other than that woman, are the others in any danger?"

"No, it seems that if nothing unexpected happens, we should be able to reach the river of consciousness." The water lotus clone smiled mysteriously.

"In that case, bring me to the territory of the ancient monitor lizard now." Lin Yi decided immediately. Since Lingshan and the others weren't in danger, there was nothing to worry about. The most important thing now was to save Leng Leng.

"Hey, hey, hey, do you even know what kind of existence the ancient giant lizard is? Its territory is a forbidden area for most spirit beasts. Even that brain-eating insect won't casually enter. Are you sure you want to go?" The water lotus clone said in shock.

Chapter 5285 I'm Not Going

"It's very strong?" Lin Yi was taken aback-he'd never heard of an ancient monitor lizard before, but if even the brain-eating insect didn't dare to step into its territory, its strength was undeniable.

"It's indeed very strong. The ancient monitor lizard is recognized as one of the ten most terrifying spiritual beasts in the ancient Alliance. Legend has it that unless it's a nascent soul old monster, all human cultivators have to avoid it." Duanmu Yu spoke to support.

"It's fine if it's just powerful. In this place, apart from that Lord, the brain-eating insect and I are the most powerful. It's at most on par with us. There's another more important reason why no one is willing to provoke it. It has no brain." The water lotus clone chuckled.

"No brain?" Lin Yi looked at it.

"The most terrifying thing about the ancient monitor lizard is its saliva. It's almost the most terrifying and evil saliva in the world. Those with a weak physique will definitely die if they touch it. Even if they have a strong physique, they can only struggle on whilst at death's door and become a sickly ghost from then on. They can never think of becoming normal people again. Perhaps it's because of its own saliva that the ancient monitor lizard is a completely brainless lunatic. It can't communicate at all. Otherwise, it might be on equal footing with me and the brain-eating insect." The water lotus avatar said casually.

"So strange? Then all the more I should go and experience it. " Lin Yi made up his mind and turned to Duanmu Yu."Since miss Duanmu is going to the river of consciousness, then we'll part ways here."

The ancient monitor lizard was so terrifying that Lin Yi had to take the risk for Leng Leng's sake. Otherwise, even he wouldn't be willing to deal with this kind of thing. Duanmu Yu, on the other hand, was just a stranger and naturally wouldn't take the risk. He took the initiative to say this to give the other party a way out, so that they wouldn't be embarrassed.

Unexpectedly, Duanmu Yu said,"we can go to the river of consciousness at any time. It's a rare opportunity to see the ancient monitor lizard. I would like to go with you. Brother Lin, you don't mind, right?"

Lin Yi looked at her deeply. He knew that Duanmu Yu wanted to use this opportunity to return the favor. After all, he was a great benefactor to her. He thought about it and smiled,"In that case, let's go together."

Lin Yi was just about to ask the water lotus clone to lead him to the ancient giant lizard's territory when Fei Yangsheng suddenly smiled,"That ... Senior, I'll only be a burden if I go with you. How about I don't go?"

"As you wish." Lin Yi waved his hand. Duanmu Yu might be able to help, but Fei Liusheng's strength was nothing against an existence like the ancient giant lizard. Not only would he not be of any help, but he would also drag Lin Yi down. Forcing him to follow was no different from sending him to his death, so it was better for him to stay.

"Yes, yes. Thank you for your understanding, senior. Have a safe journey." Fei Yangsheng was overjoyed. He was afraid that Lin Yi would want him to be cannon fodder, but he didn't expect Lin Yi to be so easy to talk to.

Although it was extremely dangerous for him to move alone in the dense forest with his strength, it was better to throw his life away in the territory of the primordial giant lizard. As long as he stayed behind and was careful not to think about any treasures, he should be able to keep his life.

Lin Yi couldn't be bothered to argue with a small fry like him. He let the water lotus clone lead the way and set off for the ancient monitor lizard's territory with Duanmu Yu. Fei Yangsheng studied the map Xin Yijie gave him for a long time before walking in the direction of the river of consciousness.

Moving alone, health-maintenance Fei was very careful with every step he took. As long as there was the slightest sign of trouble, he would immediately find a place to hide. Although doing this was a little too cautious, the advantage was that he wouldn't die easily. After all, safety first.

After an hour, health-maintenance Fei suddenly stopped, feeling that his surroundings were abnormally quiet. He didn't care whether there was danger or not, and quickly hid behind the trunk of a big tree.

His intuition was not wrong. A moment later, he sensed a powerful aura approaching from afar. However, it was not a spirit beast, but a snow sword.

At this moment, Xue Jianfeng had already shaken off Bing Wuqing and the immemorial giant lizard. As he passed by this area, he had a sudden thought, and in the next moment, he had appeared in front of Lord Fei. With Lord Fei's puny strength, it was simply a fool's dream for him to hide from his divine sense.

"Senior ... Senior brother Xue ... Oh no, senior uncle Xue!" Health-maintenance Fei was so shocked by him that he even stuttered.

"What are you doing here?" Xue Jianfeng said as he sized him up.

"Is it strange that I'm here?" Fei Yangsheng couldn't help but stare blankly. Everyone was going to the river of consciousness, and he was walking in this direction. Wasn't this normal?

"Of course it's strange. If I remember correctly, you should have been eaten by that plant spirit beast. Tell me, how did you escape?" Xue Jianfeng's eyes narrowed into slits.

"How ... How did you know?" Health-maintenance Fei was shocked. He had never seen a snow sword edge from the beginning to the end.

"Nonsense, the path you chose must have passed through the territory of that plant spirit beast. Even I had to exert tremendous effort to escape. With your puny strength, how could you have made it here alive?" Xue Jianfeng snorted.

"Could it be that you've also fought with protector water lotus?" Only then did health-maintenance Fei realize that Bing Wuqing and Xue Jianfeng had set off earlier than him. From what Xue Jianfeng had said, he must have chosen the same path as him and Duanmu Yu. Furthermore, he had experienced some extremely dangerous situations, which was why he had such a question.

"Water lotus Protector?" Xue Jianfeng frowned and said to himself, ""So that thing's true form is a water lily. How could it be a mere water lily when it can control so many powerful plants to besiege me at the same time?"

"So you've never seen its true form?" Health-maintenance Fei was taken aback again. He thought that Xue Jianfeng was going to fight the water lotus Protector directly like Lin Yi, but he didn't expect that he was only fighting the plants controlled by the water lotus Protector indirectly. He couldn't help but look down on him.

From the looks of it, Xue Jianfeng could only fight something like the Twin stem man-eating flower at most, but Lin Yi took down the water lotus Protector's body. The difference between the two was obvious.

It was true that Xue Jianfeng was a golden core stage master, a high and mighty existence that health-maintenance Fei could only look up to, but Lin Yi was a heaven-defying strong man who didn't care about the suppression of levels at all. Taking down protector Lotus was enough to explain everything, so there was no doubt that Lin Yi was stronger than Xue Jianfeng!

He wasn't on Lin Yi's side, but he was proud of it. Even in front of Xue Jianfeng, he had a strange sense of superiority. The mentality of a small figure like him was very subtle.

Chapter 5286 You're Coming With Me

"You've seen it before? Then how did you survive?" Xue Jianfeng looked at him suspiciously.

"Of course I've seen him before, but I was lucky to meet Lin Yi-qianbei, who saved me." There was a hint of pride in his tone, and even a hint of showing off. After all, other than cool and the others, there weren't many people that Lin Yi would go out of his way to save-it was a rare honor.

"The one surnamed Lin? Would he take the initiative to save you?" Xue Jianfeng glanced at him in disbelief. He knew that health-maintenance Fei and Lin Yi had some interactions, but from his perspective, it was purely because Lin Yi forced health-maintenance Fei to do some hard labor for him. He didn't believe that health-maintenance Fei was on Lin Yi's side at all, or he would've dealt with this guy a long time ago.

"That's for sure," Health-maintenance Fei said with a thick face. It was true that Lin Yi saved him, but it was purely out of convenience. If he knew from the start that he was trapped by the Twin stem man-eating flower, Lin Yi might not even waste time on him. He was just trying to flatter himself.

Xue Jianfeng was skeptical about this. He didn't quite believe health-maintenance Fei's words, but it was a fact that this guy was safe and sound. He said with a faint smile, "So you're on good terms with that Lin guy?"

"Not ... Not bad ..." Health-maintenance Fei felt a little guilty now. It wasn't that he didn't want to be friends with Xue Jianfeng, but he remembered that Xue Jianfeng and Lin Yi didn't get along. What if Xue Jianfeng decided to kill him to vent his anger? with his strength, he wouldn't even be able to escape.

"If that's the case, then follow me for now. Maybe that Lin guy will come to find you later." Xue Jianfeng thought for a while and said.

"Ah? Leave with you?" Fei Yangsheng was shocked. If it was before, he would be more than happy to be able to hug Xue Jianfeng's leg in a place like this, but now that he'd already put Lin Yi's name on his head, what good would it do to follow Xue Jianfeng?

"You're not happy?" Xue Jianfeng looked at him from the corner of his eyes.

"Well ... It's not that I don't like it, but what does it have to do with you if Lin Yi-qianbei doesn't come to me?" Fei Yangsheng mumbled suspiciously. He didn't know what the other party was planning, but he was always nervous.

"Hmph, cut the crap. Are you leaving or not?" Xue Jianfeng's eyes widened.

"Let's go! I'll go with you!" Fei Yangsheng was shocked. He didn't dare to confront Xue Jianfeng face to face. Besides, it wasn't completely unbeneficial to leave with him at this time. At least he wouldn't fall into the mouth of other spirit beasts, and his life was at least a little more secure.

But in private, health-maintenance Fei couldn't help but curse in his heart. This guy didn't have any good intentions bringing him along. When Lin Yi-qianbei gets here, he'll F * ck you to death. So what if you're a golden core stage master? last time, he almost couldn't beat Leng Leng, let alone Lin Yi-qianbei? Lin Yi-qianbei could even tame the water lotus Protector, who was Xue Jianfeng?!

After just two steps, health-maintenance Fei suddenly asked, ""That ... Where are we going?"

"Do you still need to ask? Of course, it's the river of consciousness. " Xue Jianfeng said as he took the lead and strode forward. With his strength, he naturally didn't need to be as careful as health-maintenance Fei. Unless it was an existence like the immemorial giant lizard, ordinary spirit beasts wouldn't even have time to hide when they saw him. If they didn't have eyes, the black Mantis would be a good example.

Health-maintenance Fei was originally a little worried that snow Jianfeng would take him to some dangerous place, but when he heard that it was a river of consciousness, he immediately felt relieved.

The two of them advanced towards the river of consciousness one after another. After walking peacefully for six to six hours, Xue Jianfeng, who was walking in front, suddenly froze, and his expression changed greatly, "Hell! How did they come here?"

"Who is it?" Health-maintenance Fei asked carefully, secretly overjoyed. He thought that the other party was talking about Lin Yi and Duanmu Yu.

"Hehe, you're on your own!" Xue Jianfeng sneered. His figure flashed as he tried to shake off health-maintenance Fei and leave alone. The snow Seal under his feet appeared faintly. He had already used the traceless snow step.

Before health-maintenance Fei could figure out what was going on, he heard a loud rumbling sound coming from afar. It arrived in front of him in a moment. When he saw the person who made the huge noise, he was scared out of his wits. His face turned pale and he stammered, "Ancient ... Ancient ... Ancient giant lizard?!"

It wasn't just the ancient monitor lizard. Bing Wuqing had also appeared. Compared to before, Bing Wuqing was obviously in a much more difficult situation. On the other hand, the ancient monitor lizard had more than a dozen deep and shallow wounds on its body. It was in a much crazier state than before!

It couldn't be helped. The ancient monitor lizard was too fast, and Bing Wuqing couldn't shake it off even with her ice power. She could only try her best to stall it for a while before she escaped. Then, the ancient monitor lizard would chase after her relentlessly, and Bing Wuqing would try to stall it for a while. The cycle repeated, and they had finally reached this place.

Normally, every spirit beast had its own territory. Except for a few special reasons, these spirit beasts rarely left their own territory, because it was equivalent to a public declaration of war against the other spirit beasts. Bing Wuqing had thought that she would be fine as long as she escaped from the territory of the immemorial giant lizard. In the end, it turned out that she had been overthinking.

This ancient monitor lizard did not care about these miscellaneous things at all. It was only stubbornly chasing after him. The other spiritual beasts did not dare to stop it at all when they saw it. They were not stupid. After encountering such a brainless fiend, they could not even escape in time. Who would dare to come forward and court death?

Xue Jianfeng made his escape first, while health-maintenance Fei was so scared that his legs turned to jelly at the sight of this scene. He fell to the ground in fear, gritting his teeth for a long time before he staggered to his feet and retreated. Fortunately, the ancient monitor lizard's attention had been on Bing Wuqing all this time. Otherwise, he would have died a dozen times over if he had been caught in the crossfire while his legs were still weak.

"Luckily, I don't have much of a presence. Otherwise, I would have lost my life today." Health-maintenance Fei retreated while rejoicing, but before he could be happy for long, he suddenly felt a sharp pain on his back. He quickly turned his head and found that ice threads had condensed out of thin air behind him. They were dense like a spider's web, thin and transparent, abnormally sharp.

"What's the situation?!" Fei Yangsheng was shocked again. The ice threads were so dense that they had almost blocked all his escape routes. As he watched Bing Wuqing and the ancient monitor lizard getting closer and closer, he was really going to become cannon fodder!

Chapter 5287 Temporary Cooperation

Health-maintenance Fei quickly took out a short knife from his arms. This was a treasure that he had obtained by chance during a trial in his early years. It could cut through iron as if it was mud. As a result, when his short knife cut through the ice threads, it did not encounter any obstacles. What made health-maintenance Fei dumbfounded was that after the short knife cut through them, the ice threads did not break. They were still hanging in the air, intact.

Health-maintenance Fei was dumbfounded for a moment, then suddenly realized that these ice threads were not solid ice threads at all, but condensed from divine sense. No wonder when he touched them on his back, he felt a sharp pain, but his skin and flesh did not break, and he did not bleed.

Fei Yang wasn't the only one who was obstructed by the ice threads. Even Xue Jianfeng, who had left earlier, was forced to retreat. He looked at Bing Wuqing with an ugly expression and said, ""What's the meaning of this?"

"It's nothing. I'm just planning to finish it off here. Aren't you going to join in the fun?" Bing Wuqing said expressionlessly. There was no doubt that these ice threads condensed from deified soul were his handiwork.

"You think you can trap me with this little trick?" Xue Jianfeng snorted.

"Whether or not it can be trapped, you've already tried it just now, haven't you?" As Bing Wuqing dodged the ancient monitor lizard's attacks, she broke into a rare smile.

Xue Jianfeng's expression turned even more unsightly. It was just as Bing Wuqing had said; he had already tried it. If he could get rid of those deified soul ice threads, he wouldn't have come back. The key was that these deified soul ice threads had already surrounded this place, leaving no dead ends. This place had already become an out-and-out cage.

It was obvious that Bing Wuqing didn't want to deal with the immemorial giant lizard alone anymore. Unless the two of them worked together to get rid of this brainless beast, Xue Jianfeng would never be able to leave this place.

"Is this your new move?" Xue Jianfeng asked in a deep voice.

"Of course not." Bing Wuqing replied indifferently. She had learned this move a long time ago, but due to the limitations of her strength in the past, she had only been able to create a few scattered thin threads. She had not been able to weave them into a dense cage of ice threads like she was doing now.

"What is it?" Xue Jianfeng asked again.

"Heartless ice thread." Bing Wuqing didn't try to hide it. This was a unique skill that was derived from the merciless ICE FORCE. All this time, she had been focusing on the merciless ICE FORCE, and all the moves she had practiced were based on it, including the heartless ice thread.

Xue Jianfeng didn't say anything more. Although his strength was no longer inferior to Bing Wuqing's on the surface, he had achieved it too quickly, after all. One of the inevitable drawbacks was his lack of foundation. He was still unable to master many powers at the level of the perfected gold core realm, especially his deified soul, which was his greatest weakness. As such, the emotionless ice threads condensed from deified soul could do nothing to him.

On the other hand, although Bing Wuqing's strength had increased quickly, she had the foundation of an early-stage golden core cultivator, after all. Moreover, her natural talent was higher than Xue Jianfeng's, so she was much better in comparison.

At this moment, the immemorial giant lizard, Bing Wuqing, Xue Jianfeng, and Fei Yangwei were all trapped in the ice cage. The palm-sized area had become an open Colosseum. It was either the immemorial giant lizard died, or the three of them died together. There was no third outcome.

Actually, strictly speaking, the ice Silk cage could trap Xue Jianfeng and health-maintenance Fei, but it wouldn't be able to trap Bing Wuqing herself. However, even if he wanted to pass through the ice Silk cage, he would have to put in some effort. Obviously, Xue Jianfeng wouldn't give him the chance to escape.

Although the ancient monitor lizard was terrifying, if Bing Wuqing and Xue Jianfeng could work together sincerely, they wouldn't be in too much trouble with their strength as perfected gold core realm experts. It was a pity that both of them had their own ulterior motives. It was already a noble character for them not to make things difficult for each other at this time. From the beginning to the end, they only did one thing, and that was to find a way to transfer the ancient monitor lizard's hatred onto each other.

However, to everyone's surprise, health-maintenance Fei had actually managed to survive in such an environment. It was probably because his strength was too weak. Even if he tried his best to shift the aggro of the ancient monitor lizard onto him, it wouldn't last more than a few seconds. Therefore, Bing Wuqing and Xue Jianfeng had subconsciously treated him as invisible, allowing him to escape this calamity.

After the time it took for an incense stick to burn, the battle had reached its climax. Due to the mutual shirking of responsibilities, Bing Wuqing and Xue Jianfeng were actually at a complete disadvantage against the ancient monitor lizard. Both of them were covered in dust, while the ancient monitor lizard was fighting more and more ferociously. If this continued, the two of them might end up as food for the ancient monitor lizard.

"Two big Brothers, stop messing around. Can't you guys finish off this lizard first before fighting among yourselves? otherwise, we'll all be finished!" Health-maintenance Fei shouted anxiously from the side. If Bing Wuqing and Xue Jianfeng were really defeated, he wouldn't be able to live either.

Bing Wuqing and Xue Jianfeng looked at each other. They knew that they couldn't go on like this. It would be a joke if they were to die Here together. Bing Wuqing took the lead and said, ""You hold them back, I'll be the main attacker."

"Alright!" Xue Jianfeng agreed without hesitation. He had a brilliant martial technique like the traceless Snowsteps, so it wouldn't be difficult for him to pin down the ancient monitor lizard in a short time. It wouldn't take him much effort either. On the other hand, Bing Wuqing, who was in charge of the main attack, was more physically exhausted. In this way, he still had the upper hand.

The two of them worked together, and the results were immediate. After Xue Jianfeng had completely attracted the primordial giant lizard's attention, Bing Wuqing accumulated her strength for a moment and suddenly made her move. Using her palm as a blade, the cold air on it quickly condensed into an extremely thin dark blue ice blade. She aimed at the primordial giant lizard and slashed it down. It was the life-ending merciless slash!

The primordial monitor lizard's reaction was fast. It quickly dodged after sensing the danger. Unfortunately, its huge body became a burden at this moment. No matter how fast it was, it could not completely avoid the attack. The deep blue ice blade hit its tail.

Previously, Xue Jianfeng's all-out strike had failed to break through the defense of its silver-gray scales. But this time, it was Bing Wuqing's desperate merciless slash, and the entire tail was cut off from the root. Blood splattered everywhere on the spot, and it wailed in pain.

"It's done!" Fei Yang Sheng was overjoyed to see this, but then he was dumbfounded. Not only did this ancient monitor lizard not fall after its tail was cut off, but it became even more violent and wreaking havoc than before.

"F * ck! He didn't die?" Xue Jianfeng was caught off guard and was slapped away by the claw. Fortunately, he was not touched by the saliva, otherwise, he would have been dead.

Even Bing Wuqing had a lingering fear as she watched this. The ancient monitor lizard had already lost a tongue and a tail, and logically speaking, it should have been severely injured. However, its current state was even more terrifying than before. Both its attack and speed had increased by a large margin. How could they fight it?

Chapter 5288 Reckless

Faced with such a beast that didn't conform to common sense, everyone was really at a loss. If Bing Wuqing and Xue Jianfeng had joined forces to fight it out, they might have had a chance of winning. But the problem was that it was already rare for the two of them to work together once. Xue Jianfeng had suffered a great loss this time, and it was impossible for him to actively restrain the more violent primordial giant lizard.

The situation took a turn for the worse, and everyone's situation became precarious. If this continued, they would probably be completely annihilated and buried in the bloody mouth of the ancient monitor lizard.

At this time, three figures appeared in front of everyone. Health-maintenance Fei was overjoyed. It was none other than Lin Yi, Duanmu Yu, and the water lily clone that was leading the way.

As the water lotus clone was unable to communicate with the plants that had been contaminated by the ancient giant lizard's saliva, the only way for them to find the ancient giant lizard's whereabouts was to calculate the ancient giant lizard's territory through elimination and then try their luck in its territory.

If they were to rely on this stupid method, it would take them at least a whole day to find the ancient giant lizard. Fortunately, Bing Wuqing had lured the ancient giant lizard out, and they had been able to make it in time by calculating the location of the plants that they had lost contact with.

"What?" Lin Yi took a quick glance and frowned. He thought that the ancient monitor lizard was chasing after Leng Leng. He didn't expect that Leng Leng wasn't here at all, but instead, he saw Bing Wuqing and the other two.

"Senior, save me!" Health-maintenance Fei quickly shouted. Ever since he'd tamed the water lotus Protector, Lin Yi's position in his heart was almost invincible. He thought that as long as Lin Yi made a move, a mere ancient giant lizard wouldn't be a problem.

"Hmph, he's just a mere perfected Foundation establishment cultivator. What's the use of him!" Xue Jianfeng, on the other hand, was full of disdain. Even he and Bing Wuqing, two Peak Gold core cultivators, were completely helpless against this ancient monitor lizard, so what was the point of Lin Yi coming?

Lin Yi didn't comment. If Xue Jianfeng was the only one that the ancient monitor lizard had its eyes on, he wouldn't even give him a second look. But Bing Wuqing was one of his people, and he couldn't just ignore her.

"You want to save them?" Duanmu Yu was a little hesitant. She didn't know about the relationship between Lin Yi and Bing Wuqing, but she knew that both Xue Jianfeng and Bing Wuqing had grudges with Lin Yi. There was no reason for him to take the risk to save them. After all, the ancient monitor lizard was no joke.

"It's fine, it's no trouble at all. " Lin Yi said as he dashed over.

"Be careful of the ice threads!" Bing Wuqing quickly reminded him, but before she could finish her sentence, Lin Yi had already disappeared without a trace. When he reappeared in the next moment, he was already inside the ice cage, and was riding on the head of the enraged ancient monitor lizard.

Everyone's eyes twitched at the scene-that was an ancient giant lizard! Just a little spit and it was over! Wasn't Lin Yi a little too bold?

"You don't know your place! You're still trying to act tough at this time!" Xue Jianfeng sneered in disdain. Even he, a peak Jindan, didn't dare to be so arrogant. It was obvious that Lin Yi was just trying to show off in front of Duanmu Yu. Why else would he ride on the ancient monitor lizard's head?

But Lin Yi ignored him, calmly reaching for the lizard's head with one hand. Everyone thought he was going to use some powerful martial skill, but his entire hand sank in without any resistance. It was a strange scene.

After a while, the enraged giant lizard suddenly quieted down. Lin Yi slowly pulled his hand out, and when it was completely pulled out, everyone realized that there was a gray ring around his hand.

"What's that?" Health-maintenance Fei couldn't help but ask.

"Primordial spirit!" Bing Wuqing and Xue Jianfeng gasped at the same time. Lin Yi had actually managed to pull out the primordial lizard's primordial spirit. The whole process was so easy, and it was unbelievable!

"It's done," Lin Yi casually threw the spirit into the Jade space and clapped his hands as if nothing had happened. He didn't give off the feeling that he had just killed a beast like the ancient monitor lizard, but that he had just casually picked up a piece of trash.

Everyone looked at each other, and the entire place was dead silent. Other than the sound of swallowing, no one could say a word for a long time.

Looking at the motionless ancient giant lizard on the ground, Xue Jianfeng swallowed hard and looked at Lin Yi in shock, "You ... How did you do that?"

Lin Yi looked at him and said faintly, "It's just a brainless spirit beast, is that really that hard?"

"Very difficult ..." Bing Wuqing said seriously. Xue Jianfeng and Duanmu Yu both had the same expression.

It was true that the immemorial giant lizard was an extremely brainless spirit beast. While its individual strength was extremely powerful, in sharp contrast to it was its extremely weak primordial spirit. It was no exaggeration to say that the primordial spirit of this immemorial giant lizard, which was superior to most of the Masters in the great circle of the Golden core stage, was not even comparable to an ordinary person. It might not even be comparable to a three-year-old child.

But even so, the primordial spirit was not something that could be easily pulled out. Unless the primordial spirit left the body on its own accord, otherwise, no matter how weak the primordial spirit was, as long as it hid in the body, it would be impregnable. At least, in everyone's knowledge, there had never been such a precedent.

To give a simple example, for experts in the exceptional gold core realm like Bing Wuqing and Xue Jianfeng, they could kill a bunch of ordinary people with a finger, but it was impossible for them to pull out the primordial spirit of any ordinary person out of thin air. Even if it was a nascent soul old monster, it was hard to say.

The most difficult part was how to completely cut off the connection between the primordial spirit and the physical body. This connection was inextricably linked. Just like how a person on earth would be bound by gravity at all times, to completely separate the primordial spirit from the physical body was equivalent to throwing a person directly into space. Only then could one truly escape from gravity.

After all, Lin Yi was only an essence spirit, and he didn't have a rocket booster. No matter how strong he was, he couldn't just throw someone into space with his bare hands.

But the reality was right there, and no one knew how Lin Yi did it, but he did it.

Just thinking about the meaning that this represented was enough to make one shudder.

The others were still fine-Bing Wuqing was Lin Yi's man, and Fei Yangwei was also taking the initiative to put on a golden front, calling himself Lin Yi's little brother. Duanmu Yu was Lin Yi's best friend, and they were only shocked by Lin Yi's heaven-defying methods, but they didn't feel any sense of danger. However, Xue Jianfeng was different. He was Lin Yi's real enemy, and what if Lin Yi used this shocking method on him?

Chapter 5289 Scared Away

He didn't know that he was thinking too much. Lin Yi's skill could only be used on brainless beasts like the ancient monitor lizard. It was useless against golden core stage Masters like him. Not to mention golden core stage Masters, even Foundation Stage Masters wouldn't be affected at all. It could only be used against normal people.

However, Xue Jianfeng didn't know this inside information. He was now like a bird startled by the mere twang of a bow, and his heart was filled with fear. Although he was now a master of the great circle of Jindan stage, there was no substantial progress in his spiritual awareness, which was almost the weakest link, so he couldn't help but be afraid.

Seeing Lin Yi's eyes on him, Xue Jianfeng quivered and quickly squeezed out a smile, afraid that Lin Yi would have evil thoughts,""Many thanks for your help."

He said that, but he wanted to kill Lin Yi right now. This guy was a classic ungrateful Wolf.

"There's no need. I'm not here for you," Lin Yi said, curling his lips.

"Then ... Let's part ways here ..." Xue Jianfeng was extremely cautious when he said this, afraid that Lin Yi would suddenly attack him. Although there was still Bing Wuqing, his "ally", and he didn't really believe that Lin Yi, who was only at the peak Foundation Stage, could defeat him, a peak golden core stage, the scene just now was too shocking. This guy couldn't be calculated with common sense.

As expected, Lin Yi didn't want to let him go just like that. He stopped him,"Hold on,"

"What do you want?" Xue Jianfeng was immediately on guard as if he was facing a great enemy. At the same time, he tried his best to signal Bing Wuqing with his eyes, hoping that she would help him deal with Lin Yi. Even though they both had their own ulterior motives when they were dealing with the ancient monitor lizard, they were still Central's people, after all. He believed that Bing Wuqing wouldn't turn against him on a matter of principle, because that would be equivalent to betraying central.

What he didn't know was that Bing Wuqing wasn't one of his people, but one of Lin Yi 'S. He was overthinking things.

"Where's Leng Leng?" Lin Yi stared at him unkindly. Although he didn't know what happened after they entered the territory of the ancient giant lizard, he was sure that Xue Jianfeng had been chasing Leng Leng before this. There was no doubt about it.

It would be fine if Leng Leng was safe and sound, but if something happened to her, Lin Yi would never let Xue Jianfeng go.

"She's already escaped. " Xue Jianfeng quickly replied.

"Really?" Lin Yi was skeptical, but he ordered the water lotus clone,""Check it out."

Hearing this, Xue Jianfeng was stunned. Only now did he finally notice the unfamiliar face next to Duanmu Yu. He couldn't help but wonder where this person came from. He more or less had an impression of all the archaic disciples who participated in the trial, but there was no such person? Plus, Lin Yi wanted him to investigate Leng Leng's matter, how was he supposed to do that?

At this moment, Bing Wuqing stepped forward and said,""Coold has indeed escaped. I saw her leave with my own eyes."

"Is that so?" Lin Yi let out a sigh of relief. He didn't need to think to know that it was Bing Wuqing who saved Leng Leng from Xue Jianfeng. At this time, the water lotus clone also said,""The woman has escaped safely and is now with the group of people from before."

"That's good. " Lin Yi nodded.

"Can I go now?" Xue Jianfeng didn't dare to stay any longer. He didn't wait for Lin Yi's reply and quickly left. At the same time, he said to Bing Wuqing in dissatisfaction, ""Aren't you going to remove your broken cage?!"

Bing Wuqing furrowed her brows and looked at Lin Yi. Seeing that Lin Yi didn't object, she waved her hand to remove the heartless ice threads.

Xue Jianfeng didn't hesitate to use traceless Snowsteps and disappeared in the blink of an eye. To him, Lin Yi was far more worthy of fear than the ancient giant lizard.

Lin Yi looked at the direction this guy left in, deep in thought. In fact, this guy should be dead for attacking Leng Leng and the others just because of Xue Jianfeng, but Lin Yi's current level was too low. It was not easy to deal with a peak Jindan.

Of course, it wasn't like he couldn't fight for real. After all, he had Bing Wuqing, a Peak Gold core cultivator, on his side. The problem was that Lin Yi himself was like an arrow at the end of its flight, and he couldn't fight.

However, Lin Yi didn't show it on his face. He maintained his calm expression and looked at Bing Wuqing, ""What's going on with this guy? It seems like there's something you can't let us know?"

After thinking about it carefully, Xue Jianfeng's actions just now were extremely unusual. It was true that he was shocked by Lin Yi's shocking methods, but he was still a perfected golden core expert, and Bing Wuqing was on his side in name. There was no need for him to be afraid of Lin Yi, and there was no need for him to run away like this. There must be something going on.

"That's right. From the moment he entered this trial ground, he has been acting sneaky. I'm also very puzzled, so I've been following him. It's just that I haven't figured out his intentions yet." Bing Wuqing nodded. It was precisely because of this that she had been able to save Leng Leng in time. Otherwise, how could there be such a coincidence in such a huge place like the archaic trial grounds?

"He didn't notice you?" Lin Yi was a little surprised. The two of them were both at the peak of the gold core realm. Even if Bing Wuqing had a strong foundation, she shouldn't have been able to walk all the way without being detected. Xue Jianfeng wasn't an ordinary person, so his senses shouldn't be that slow, right?

"I have this." Bing Wuqing raised her hand, and an invisible ice thread was wrapped around the tip of her finger. It was connected to the direction that Xue Jianfeng had left in, and there was no doubt that the other end must be on Xue Jianfeng's body.

"No wonder." Lin Yi suddenly understood. With this heartless Ice Silk as a guide, Bing Wuqing only needed to stay far behind him. She didn't need to get close to the other party's perception range. As long as Xue Jianfeng didn't find out about this, she would never be able to escape his pursuit.

"Then, I ..." Bing Wuqing asked.

"Do as you wish. Continue to keep an eye on him. It just so happens that I'm also worried about this guy." Lin Yi waved his hand. Since Xue Jianfeng dared to attack Leng Leng and the others, it was inevitable that there would be a second time. With Bing Wuqing keeping an eye on him, he could put an

end to this hidden danger. Besides, if Bing Wuqing kept following him, it would be troublesome if she was seen by others.

"Alright," he said. Bing Wuqing responded, but she didn't leave immediately. Instead, she turned to look at the other people present, and the first one to do so was Fei Yangwei, who was the closest to her.

At this time, health-maintenance Fei was also looking at him and Lin Yi with a face full of surprise. He was obviously stunned by the relationship between the two. Wasn't Bing Wuqing supposed to be Lin Yi's opponent? why did she look like Lin Yi's underling instead?

Chapter 5290 Forget About Her

However, Fei Yangwei's expression gave Bing Wuqing a clear message-this guy wasn't one of Lin Yi's men, and her relationship with Lin Yi couldn't be exposed yet. To play it safe, it was better to kill him!

As the killing intent rose, the merciless ice aura burst out of his body. Bing Wuqing was always a decisive person, and as long as Lin Yi didn't stop her, Fei Yingyang wouldn't be able to live to see the sun tomorrow.

Plop! Health-maintenance Fei knelt down in fear on the spot and hurriedly begged for mercy."Junior Master, I've admired senior Lin since a long time ago. Seeing that I've once run errands for senior Lin, I would like to ask Junior Master to recommend me to join senior Lin's team and risk my life!"

His words were powerful and resonating-health-maintenance Fei wasn't an idiot-he'd be going to hell if he didn't show his loyalty now. He'd been proud of himself just now, and called himself Lin Yi's follower-he didn't have any qualms about this at all. In fact, he'd be more than happy to do it.

Bing Wuqing looked at Lin Yi. Lin Yi thought for a while and decided that he didn't mind having a Lackey as his underling. However, he didn't trust health-maintenance Fei's character, so he took out a Gu poison and threw it to him. "Eat it,"

Health-maintenance Fei took it and swallowed it without hesitation. He knew that it wasn't anything good, but he couldn't hesitate at all. It didn't matter what poison it was, as long as he didn't betray Lin Yi, he wouldn't have to worry about his life in the short term.

Health-maintenance Fei had successfully passed the test. However, Bing Wuqing's gaze immediately fell on Duanmu Yu. He didn't care whether she was the senior Sister of leaf spirit sect or not. If she wasn't one of his own, he would kill her.

Duanmu Yu was startled. She could clearly feel the killing intent emanating from Bing Wuqing's body. With her strength, she had no way of protecting herself in front of Bing Wuqing. Duanmu Yu quickly assured her, ""Don't worry, I won't tell anyone. "

Bing Wuqing turned to ask Lin Yi. This kind of guarantee was nothing but bullsh * t to her. Empty promises were the last things you could trust in the world. Whether Duanmu Yu could live or not didn't depend on what kind of promise she made, but on Lin Yi.

"It's fine. Forget about her. " Lin Yi waved his hand after some thought. He had a good impression of Duanmu Yu from his previous experience. She was a woman, but she was direct and straightforward, like a tomboy. From how she saved health Fei, who he didn't know, he could see that she was a loyal friend. With her character, she wouldn't spread rumors.

To be honest, Lin Yi felt that Duanmu Yu was much more reliable than health-maintenance Fei. Even health-maintenance Fei, who had consumed the Gu poison and became his underling, might not be as reliable as Duanmu Yu, an outsider.

Duanmu Yu let out a breath of relief and looked at Lin Yi with a complicated expression. He felt that Lin Yi was an unfathomable man, and at the same time, he started to trust him more. After all, trust was a mutual thing. When someone trusted you, you would naturally trust the other person as well.

Immediately after, Bing Wuqing's eyes turned to the water lotus clone, but this time, she didn't need to ask. Lin Yi took the initiative, ""Don't worry about it. It's a spirit beast that I've just tamed,"

"Spirit beast?" Bing Wuqing paused for a moment, and then her expression changed. She said in shock, ""Could it be the mastermind behind those plants?"

He had followed Xue Jianfeng all the way here. Xue Jianfeng had suffered from those plants before, and he was no exception. He was still a little scared of the dangers.

"That's right. Let me introduce it to you. It's the dignified water lotus Protector of this place." Lin Yi smiled faintly.

"Its true form is actually a water lily. How rare." Bing Wuqing's reaction was exactly the same as Xue Jianfeng's.

"You and that human expert's strength is not bad, but it's because I didn't really attack that you two managed to escape. Otherwise, you wouldn't have been able to live until now." Protector water lotus said with disdain.

This was the truth. Unless Bing Wuqing and Xue Jianfeng were able to find its true body like Lin Yi, and at the same time, they had to imprison its true body with a method like the Jade space, making its emotionless ancient well lose its effect. Otherwise, no matter how many perfected gold core experts came, it would be useless.

Bing Wuqing was still skeptical, but her respect for Lin Yi grew even more. After all, putting everything aside, protector Lotus's strength was undoubted. If Lin Yi could even take care of a spirit beast like this, there was no one else who could do it.

"Then I'll take my leave." Bing Wuqing said goodbye to Lin Yi and was about to leave.

"Wait a minute, bring health-maintenance Fei along. It's not convenient for him to follow me, and he happens to be a member of your snow sword sect, so no one will suspect him if he goes with you." Lin Yi ordered.

"Alright," he said. Bing Wuqing nodded, glanced at Fei Liangyang, and said, ""Follow me closely, don't blame me if you lose me."

"Yes, yes, I'll definitely follow closely." Health-maintenance Fei said quickly. Since Lin Yi had spoken, he had to follow Bing Wuqing even if it cost him his life. Otherwise, if he was left alone, how could he leave this dangerous place alive?

Bing Wuqing immediately left with health-maintenance Fei, leaving only Lin Yi, Duanmu Yu, and the water lotus clone. Duanmu Yu asked, ""What are you planning to do next? Should we continue to look for Leng Leng and the others, or should we go straight to the river of consciousness?"

"Let's go to the river of consciousness. They're heading there anyway, so it'll be easier to find them there. " "But you'll have to wait for me to recover first," Lin Yi said after a pause.

"Recover what?" Duanmu Yu did not understand for a moment.

Lin Yi didn't say anything. He put the water lotus into the Jade space and smiled bitterly, ""I'm injured. "

"Injured? When was that?" Duanmu Yu was shocked. She had been with Lin Yi ever since they left protector water Lotus's nest. Other than taking away the ancient giant lizard's spirit, she didn't see him fight.

"Just now." Lin Yi said as he sat down with his legs crossed. Something appeared in his hand-it was the water bead he got from Kappa, used specifically to heal the soul.

Duanmu Yu couldn't understand what was going on. Lin Yi looked so relaxed when he was dealing with the ancient monitor lizard, and it was only for a moment from the beginning to the end. The ancient monitor lizard didn't even show any signs of resistance, so how did it get hurt?

"You want to know?" Lin Yi said as he rested his head on the water bead to recover.

"Yes." Duanmu Yu nodded. Lin Yi's attack just now was shocking to her, and she had never seen or heard of it before. Even those nascent soul old monsters in the ancient martial world had never done something like this before. Anyone would be curious, especially a woman with a lot of curiosity like her.
