

Bodyguard 5291

Chapter 5291 Injured

"The technique I used to imprison the primordial lizard's primordial spirit is called the soul-snatching hand." Lin Yi said honestly.

"Soul snatching hand?" Upon hearing this word, Duanmu Yu felt his blood run cold for some reason. He could not help but say, "Why does it sound like an evil cultivator's move?"

"That's right, this is an evil cultivator's technique. I was chased by an extremely powerful evil cultivator on the Sky Class Island, and he wanted to use the soul-snatching hand to trap my soul and turn me into a puppet. " Lin Yi smiled. He was talking about the West Mountain old sect.

"Since it's a Big Shot's technique, how come you know it too? are you an evil cultivator too?" Duanmu Yu subconsciously took a step back. Evil cultivators didn't just exist on the heaven class Island. They also existed in the small world of the ancient times, and they were also hated by everyone.

"Do you think I'm a sorcerer?" Lin Yi was speechless.

"No." Duanmu Yu shook his head decisively. She had seen everything that Lin Yi had done. Although his methods were profound and unpredictable, it was completely different from being a black magic practitioner. If even Lin Yi was a black magic practitioner, then there would be countless black magic practitioners in the world.

"Then that's it." Lin Yi said, curling his lips.

"But since you're not an evil cultivator, how do you know the moves of an evil cultivator master?" Duanmu Yu asked in puzzlement.

"I have a deep impression of the soul snatching hand. Recently, I happened to be in the primordial spirit state, and I also happened to encounter a bottleneck. Since I have nothing to do, I began to explore and try out all kinds of messy deified soul techniques. More or less, I have gained something." Lin Yi said.

"So that's how you learned the soul snatching hand?" Duanmu Yu's jaw dropped. She'd seen Lin Yi's amazing observation skills when they fought the water lotus Protector, but from what she knew, no matter how talented a genius was, they had to learn every skill systematically from the beginning. Who could figure it out by themselves after seeing someone use it once?

In fact, her understanding was not wrong. At least, it was absolutely not a problem in the small world of martial arts in the ancient times. After all, the top masters in the small world of martial arts in the ancient times were only Yuanying stage old monsters. If compared to the schools in the secular world, they were at the junior high level at most, and they were only in the basic stage. Students at this level naturally needed to learn step by step. No matter how talented they were, they could not come up with new tricks.

But Lin Yi was different-he was a xuansheng stage master, and one that could take out a mountain opening stage powerhouse in an instant. He was a genius among geniuses, and even if he wasn't a university student, he was at least a high school student.

With different levels, one's outlook would naturally be different. Middle school geniuses could learn quickly and well at most, but high school geniuses had already entered the level of knowing an answer and being able to reverse-deduce the true solution to an entire set of problems.

"I can't say that I've learned it completely. At most, I've just glimpsed the door and found a little way." Lin Yi was being humble, but it wasn't a lie. What he'd figured out was at most an incomplete version of the hand, and it wasn't as powerful as the one from the West Mountain sect. Not only could it not be used on someone higher than the foundational level, but he'd also suffer a severe backlash from his essence spirit every time he used it. If it weren't for the water bead that healed his essence spirit, Lin Yi wouldn't dare to use it.

Even so, Duanmu Yu was already shocked speechless. What kind of freak was this?!

"You ... Why are you willing to tell me this?" Duanmu Yu asked, hesitating. Not only the soul Catcher hand, but the space in the Jade as well-these were all Lin Yi's secrets. Normally, he wouldn't tell anyone about it unless it was his closest family, according to the rules of the world of cultivation. Why would he tell him this?

"Yeah ..." Lin Yi thought about it seriously and shrugged, "There's no particular reason. I just feel that you're a reliable person, so it's a sudden impulse."

"Do you really trust me that much?" Duanmu Yu couldn't help but ask in surprise.

"Don't you deserve my trust?" Lin Yi asked.

Duanmu Yu choked for a long time. After a long time, he shook his head and said, "I really can't see through you."

The more powerful a person was, the more sophisticated they were-this was human nature, but it was a completely different case for Lin Yi. This guy seemed to be born to break common sense-no matter what he did, it was always surprising and subverting everyone's understanding.

"If I was so easily seen through, wouldn't I be in trouble?" Lin Yi chuckled. The water droplet in his hand had completely evaporated as he spoke-or more accurately, he'd absorbed it. Lin Yi stood up immediately, full of energy. He looked much better than before-not only was his injury completely healed, but he even seemed to have improved.

However, it was only a slight improvement. He was still thousands of miles away from breaking through the barrier of the perfected foundation building realm.

"Tsk, tsk, this water bead is really a good thing. If the Kappa race wasn't nearly exterminated by that bastard Lotus Protector, I might have been able to get a few more. What a pity." Lin Yi couldn't help but sigh.

"Don't you still have a holy water bead?" Duanmu Yu took a glance at him.

Now that protector Lotus was in Lin Yi's hands, the Pearl of holy water was naturally in Lin Yi's hands as well. It wanted to use the Pearl to bargain and regain its freedom, but it didn't have the right to do so in the Jade space. Lin Yi could even find the Pearl with a thought, what was it going to bargain with?

"Yeah, but it's still a pity, isn't it?" Lin Yi took out the Pearl and studied it. The crack was a pity, but the purity and holiness it exuded was intoxicating.

"One holy water bead is worth at least dozens or even hundreds of ordinary water beads. You're really greedy." Duanmu Yu commented. She didn't have any designs on the sacred water pearl-after all, she didn't need it as much as Lin Yi did. Plus, it was the spoils of war from subduing the water lotus Protector, so it should belong to Lin Yi alone.

"Everyone in the world has greed, what's so strange about me being greedy?" Lin Yi smiled and mumbled to himself, ""Even an ordinary water bead can help me improve while healing my injuries. If it were a holy water bead, would it help me break through the barrier and reach the Golden core stage?"

"You want to advance to the Golden core stage?" Duanmu Yu's face was filled with astonishment.

"Don't you want to?" Lin Yi asked.

"Of course I want to, but can a person as powerful as you also encounter a bottleneck?" Duanmu Yu still couldn't believe it. After all that had happened, Lin Yi was a complete mess in her eyes. In her opinion, if Lin Yi had the heart, breaking through to golden core was just a matter of time. Why did he have to face a bottleneck like normal people?

Chapter 5292 A New Cultivation Train Of Thought

"I'm a primordial spirit. My situation is different from yours. I can't explain it in a few words." Lin Yi shook his head with a bitter smile as he studied the sacred water pearl. It was true that the effects of the Pearl were hundreds or even thousands of times better than normal water, but it couldn't change the nature of its healing. The small improvement just now was just a side effect, and according to his deduction, even if he used the Pearl, there was an 80% chance that he wouldn't be able to reach golden core.

No matter how much he studied the various essence soul techniques, he was still stuck at the perfected Foundation establishment realm. This was a huge problem.

Duanmu Yu wanted to say something, but when he thought about Lin Yi's trust in Him, it didn't make sense for him to hide it. It was a secret, however, and he couldn't just let outsiders know. Even fellow disciples had to be on guard against each other, let alone an outsider like Lin Yi.

"What's wrong? Do you have something to say?" Lin Yi looked at her, surprised.

"You ..." Duanmu Yu clenched his teeth. If it was someone else, he wouldn't say it out loud, but it was just as Lin Yi said-she was a loyal person. Not only did Lin Yi save her from danger, but he also trusted her so much. It was hard not to return the favor, so he blurted out, ""Do you know about spirit sense grass?"

"Spirit sense grass?" Lin Yi shook his head, "What's that?"

"A very unique spiritual medicine. It is said that it only grows near the river of consciousness. It is a top quality spiritual medicine used to temper the consciousness. After taking it, one can temper the consciousness and make the consciousness undergo a rebirth. It can even temper the strongest golden core stage master!" Duanmu Yu's face was unable to conceal his excitement and yearning.

"The strongest golden core stage?" Lin Yi couldn't help but be surprised,"Could it be that the strongest golden core stage expert in the small ancient pugilistic world was cultivated after birth?"

"Yeah," Duanmu Yu took it for granted and asked when he saw Lin Yi's weird expression,"Is there a problem?"

"It's not a problem, but it's different from Sky Class Island. Being able to reach the Golden core stage on Sky Class Island is completely determined by the breakthrough process, and the most important thing is to train the body, not the consciousness. It seems like it's a different branch from the ancient martial world." Lin Yi said, deep in thought.

One was to cultivate the physical body, while the other was to cultivate the spiritual sense. Although the two were different, to a certain extent, they had the same effect. They were both the strongest Jindan stage Masters.

"Tempering the body? What about the divine sense?" Duanmu Yu had a strange expression on his face.

"At first, Sky Class Island didn't place much importance on the training of the consciousness. Basically, people below the original level wouldn't go and train it. Only when they've reached a high enough level would they value it. Of course, if the practitioner's Arts are special or if they're lucky, then it's a different story." Lin Yi explained.

"Only those above the nascent Soul Stage can cultivate their spiritual sense? How can we make it in time then?" Duanmu Yu's jaw dropped. To her knowledge, a nascent soul old monster was already the peak of existence. According to Lin Yi's words, didn't that mean that most people didn't need to train their spirit sense?

"No, there's still a lot of levels beyond the original level waiting to be broken through. Plus, on Sky Class Island, there are as many masters above the original level as there are hairs on a cow. This is normal." Lin Yi didn't think that there was anything wrong with his words. Instead, he was surprised by Duanmu Yu's reaction. "Could it be that it was much earlier in the small ancient martial world?"

Duanmu Yu had been completely stunned by his words. There were still many realms above the Yuanying stage. Moreover, there were as many experts at that level as the hair on an ox. This had completely subverted her understanding of cultivation!

Duanmu Yu choked for a long time before he faintly recovered and said, "It's not just a long time ago. In the ancient martial world, we have to systematically cultivate our divine sense from the foundation establishment stage. Didn't Leng Leng mention it to you?"

"I really don't have that." Lin Yi shook his head. Leng Leng must have thought that he already knew about this, so she didn't bring it up.

But now that he thought about it, it was no wonder that Lengleng's master gave her that Star Black coal. Lin Yi had followed the Sky Class island's common knowledge and thought that giving something like that to a Foundation Stage practitioner would only bring harm and no benefit. It turned out that he was completely wrong-after reaching the Foundation Stage, one had to start training their spirit sense systematically. As long as they knew the method, they wouldn't be affected by the star Black coal at all.

It was clear that Leng Leng had deep feelings for him. The star Ink charcoal was a treasure that she needed for her own cultivation. Others would fight over it no matter what, but she gave it to Lin Yi without hesitation when she didn't know if Lin Yi could survive. It was clear how deep her feelings were.

Duanmu Yu was speechless for a moment. Then, he returned to the main topic."The spirit sense grass should be considered the best spirit medicine in the spirit sense. Since you are a primordial spirit, it might be able to help you break through the barrier."

"It's possible! It's very possible!" Lin Yi was starting to get excited. This was different from the Holy water pearl. The Holy water pearl was used for healing, while the spirit sense grass was used to train and improve one's spirit. The two were completely different.

When he was listening to Duanmu Yu's words, he suddenly thought of the reason why he had been stuck at a bottleneck for so long without any progress. It was extremely possible that he had taken the wrong direction from the very beginning!

Out of habit, Lin Yi had been relying on his experience on Sky Class Island to recover and level up ever since he'd been projected into the common world. His essence spirit was no different from his real body to a certain extent, and he had all the organs and structures he should have. There was nothing wrong with doing this—at least the initial stage was going smoothly.

However, a primordial spirit body was still a primordial spirit body after all. It was fundamentally different from the main body. Using the main body's set of cultivation ideas was only passable at the beginning, but it would not work at all after.

In fact, it was very likely that the smooth-sailing journey at the beginning was not because of cultivation, but most likely because there was an adaptive recovery process after the primordial spirit projection. After this process was over, it would be useless to cultivate using the normal method.

Thinking along this line of thought, it wasn't hard to understand how he was able to Reach Foundation Paragon—he'd been using the star Black coal Leng Leng gave him, and the reason he was able to level up wasn't because of normal training, but because he'd been absorbing the vast spirit sense energy from the star Black coal.

When the star Black coal's spirit energy was almost used up and Lin Yi started to control it, he encountered a bottleneck that he couldn't get through no matter what. This was a strong evidence.

The essence of the primordial spirit body was the primordial spirit. Since the traditional cultivation method did not work, it was better to turn to the cultivation of spiritual awareness. Perhaps it would be a ready-made breakthrough!

Chapter 5293 The River Of Consciousness!

However, to the Lin Yi now, just adjusting his thoughts was useless. The star Black charcoal only had a little bit of spirit energy left, and there was no place to replenish it. It was like cultivating with his body without the Qi of heaven and earth. How could he cultivate?

Luckily, he got the news of the spirit grass from Duanmu Yu in time. It was a timely help. Lin Yi looked at her and said, "Are there many people who know about spirit sense grass?"

"Very few, because the spirit sense grass is a secret passed down from my master's sect. Even the ancient books related to this ancient trial ground have no records of it. Other than me, I'm afraid no one else knows about it." When Duanmu Yu said this, he suddenly paused and said with a playful tone, "Now that you know, don't tell me you're up to no good by suddenly asking this?"

"What crooked thoughts?" Lin Yi froze for a second before he laughed. "You mean to silence me? am I that kind of person?"

Duanmu Yu smiled. Of course, she knew that Lin Yi wasn't that kind of person. Otherwise, he wouldn't have said it.

"So, only you and I know about the existence of the spirit sense grass, why are you telling me about such an important thing?" Lin Yi couldn't help but wonder. It was normal for practitioners to fight each other to the death when faced with a rare treasure like the consciousness grass. His relationship with Duanmu Yu wasn't at the point where they couldn't be separated, so what was this woman thinking?

"There's no particular reason. It's just a sudden impulse. " Duanmu Yu's face had a rare expression of playfulness.

"Ugh ..." Lin Yi sweated. He didn't know that this woman had such a playful side to her other than being a tough woman. Women were fickle animals.

"To be precise, I think you're a good partner. You're trustworthy and trustworthy. You won't have the evil thoughts of killing me and stealing my treasure." Duanmu Yu explained with a serious expression.

This was not a decision she made on a whim, but a decision she made after careful consideration. This primordial Land of Trials was full of crouching tigers and hidden dragons. There were Lotus guardians, special envoys of brain-eating insects, and primordial giant lizards. Each of them was an existence that was almost impossible to deal with. More importantly, there was a Lord above them. Just thinking about it was terrifying.

Moreover, the spiritual awareness grass was an extremely rare and precious heavenly treasure. Who knew what kind of terrifying spirit beast he would encounter? It wasn't an easy task to collect the spirit grass, so Duanmu Yu needed a reliable partner no matter what. Lin Yi was the perfect candidate.

"There aren't many people who can kill you, so why don't you find someone weaker than you to cooperate with? This way, you won't have any worries. " Lin Yi laughed. This was the truth. Duanmu Yu might only be at the peak of the Foundation Stage, but she had mastered the profound martial arts of the leaf spirit sect. If she really wanted to run for her life, even Xue Jianfeng and Bing Wuqing, who were at the peak of the Golden core stage, might not be able to take her life, let alone the others.

"Then it's better not to look." Duanmu Yu rolled his eyes at him. Even with her own strength, she could only protect herself at most. If she were to encounter a terrifying spirit beast, she wouldn't even be able

to protect herself. If she were to find someone weaker than her, wouldn't that just be looking for trouble for herself?

"Hehe, that's true. How about this, after we find the spirit sense grass, we'll each take half, how about it?" Lin Yi suggested.

"No problem," he said. Duanmu Yu didn't have any objections. Although she was the one who provided the information, she didn't know the exact location. She didn't even know if it was real or not. Plus, if they really got into trouble, Lin Yi would be the one doing the most work, so it wouldn't be a loss for her to take half of it.

"If that's the case, then let's go." Lin Yi immediately led the way, but he was a little suspicious. Xue Jianfeng was rushing in this direction as well, and although it wasn't strange for everyone to be heading towards the river of consciousness, he felt that things weren't that simple.

The two of them weren't far from the river of consciousness to begin with, and with the water lotus clone leading the way, they had less time to waste as compared to the others who could only follow the map. After half a day, they arrived at the legendary river of consciousness.

Seeing the scene in front of them, the two of them were shocked and speechless for a long time.

In their previous expectations, since the spiritual River was located in the depths of the forest, it shouldn't be too big, at most an ordinary small river in the forest, but they didn't expect that this was not the case.

The river of consciousness that was reflected in his eyes could only be described with one word: magnificent and magnificent.

The river was covered in a thin layer of mist, and one couldn't see the other side. Even Lin Yi's spirit sense couldn't detect it, and even if he counted the interference of the mist, it proved that this Spirit River was at least a few miles wide.

"No one has been here before." Lin Yi looked around carefully and didn't find any traces of human cultivators. Even if someone came to the river of consciousness, they wouldn't be in this area, but somewhere else.

"Yes, but ..." Duanmu Yu paused for a moment and doubtfully asked. "It's said that the spirit Sense River can temper the spirit sense, but I don't feel anything different about this River?"

This time's immemorial trial test, almost everyone came for the river of consciousness, but no one knew what kind of mystery the river of consciousness had, and how to temper the spiritual consciousness. Everything could only be explored on the spot.

"Maybe it's the effect of the river water?" Lin Yi thought for a moment and dipped his hand into the water. He didn't just smell it, he even licked it. It was a risky move. After all, no one knew what was going on with the river of consciousness. What if there was poison in it?

However, Lin Yi only dared to try it because he was a Yuan spirit and had the sacred water droplet. The result left him speechless. This water was just a normal river water, nothing special.

If he was a normal practitioner, it wouldn't be strange if he couldn't sense it, but he was Lin Yi, and he was an essence spirit that was the most sensitive to spirit energy. If the river water really had the effect of refining spirit sense, how could he not feel it at all?

"It's useless?" Duanmu Yu stared at Lin Yi's expression carefully and blurted out, "Did you drink too little?"

Chapter 5294 The Key Is In The River

Lin Yi looked at her and took out a wooden bowl from his Jade space. He filled it up with river water and handed it to her. "Hero, drink this bowl of river water!"

"..." Duanmu Yu rolled his eyes. He took the wooden bowl and tasted it. He smacked his lips and frowned. "Other than being a little bitter, this is just normal river water."

"From this, it can be seen that the key is definitely not in the river." Lin Yi concluded.

"Then what's the key?" Duanmu Yu asked.

"In the river." Lin Yi was very sure. If this was just a normal River, he wouldn't think that way, but this River was extremely wide and covered in a layer of fog. No matter how he looked at it, it was unusual. Lin Yi would find it strange if there was nothing strange about it.

"Do you want to go down and take a look?" Duanmu Yu asked. Although he couldn't see the end of the river, the water nearby was still very clear. He could even see the bottom of the river with a single glance. If he just fumbled around the area near the shore, he would be able to escape in time even if he encountered danger. There shouldn't be any big problems.

"It's best not to do this unless it's the last resort. " Lin Yi shook his head decisively. He couldn't give an exact reason, but his instinct told him that this River wasn't as simple as it seemed. If he went in recklessly, he might run into some kind of danger.

"But what else can we do other than go down the river?" Duanmu Yu helplessly said.

"Let's not worry about the spirit Sense River for now, let's look for spirit sense grass first, didn't you say it was near the spirit Sense River?" Lin Yi suggested. He could put the river of consciousness aside for now and think of a way to figure it out. The spirit grass was more important-if he could find it, it didn't matter if he could refine his spirit sense in the river.

"Not nearby, but in the river." Duanmu Yu said.

"In the river?" Lin Yi frowned,"Could it be that the so-called spirit Sense river's spirit sense tempering effect is referring to the spirit sense grass?"

"It's possible. " Duanmu Yu nodded his head. Aside from a few ancient records, there was no concrete conclusion that had been passed down. The so-called tempering of the spiritual awareness was just an extremely vague description. Perhaps it was referring to the spiritual awareness grass. It was just that the ancient records did not clearly point it out.

"So we really have to go down?" Lin Yi's head started to hurt-his instincts were rarely wrong, and he really didn't want to go into the river unless he had to.

"That's not necessarily the case, we can wait for the river to ebb and then go down to find spirit sense grass. As long as we come up before the tide rises, it'll be fine. " Duanmu Yu said. This was a method passed down from her sect. If it wasn't for this, how could it be so easy to find the spiritual awareness grass growing in the river?

"Alright," he said. Lin Yi's eyes brightened. A River this wide had to have a tide, and going down when the tide was low would still be risky, but it was much less dangerous than just going down like that. It was a feasible idea.

After the two of them had come up with a plan, they sat down by the river to rest and recuperate while waiting for the tide to fall.

After a while, the river water receded, and the bottom of the river appeared in front of the two. Lin Yi and Duanmu Yu stood up at the same time and looked at each other before entering the river to look for the consciousness grass.

It was low, but it wasn't completely dry yet-only a small part of the riverbed was exposed. The two had to hurry and search this part of the riverbed-they'd have to return to shore when the tide came and wait for the next low tide.

What the two of them didn't expect was that the bottom of the river of consciousness was unexpectedly lush and green. All kinds of aquatic plants could be found all over the ground. It was easier said than done to search for spiritual awareness grass that they had never seen before. Even if Duanmu Yu knew some of its general characteristics, it would still not be an easy task.

"Let's take it slow. There's no limit to the number of times we can search. We'll search one section this time and another next time. If there's really spirit sense grass, I believe we'll find something. " Lin Yi said.

"Well, then let's start from the deepest river bed. When the tide rises, we'll look for the shore. That way, we'll have more time." Duanmu Yu suggested.

"Sure." Lin Yi nodded.

The two started searching from the center of the river-it was about four miles away from the shore, but even with Lin Yi's spirit sense, he couldn't tell how wide the river was, let alone the boundary of the other side. This spirit Sense River was so wide that it made one's hair stand on end. People who didn't know might think that it was an ocean.

"The mud is a little deep." Lin Yi frowned when he was halfway there-the mud was already up to his thighs, and it looked like he'd have to reach his chest at the very end. It'd be hard for a normal person to even move, let alone find the spirit sense grass in this environment. They might even lose their lives if they couldn't even get back to the water.

But this was a normal person-it was nothing to a Foundation Stage master. At most, there would be some obstruction to his movements. Lin Yi, on the other hand, was still in his Yuan spirit form. Although he had all the parts in his body, he was much lighter than his body. As long as he controlled his weight, he wouldn't sink even if he was standing on mud.

Of course, Lin Yi actually had an even simpler way, and that was to transform into a spirit. However, he felt that this place gave him a strange sense of danger. If something happened to his spirit, he might not even have the chance to react. He didn't dare to do that.

Duanmu Yu, on the other hand, was equally calm, walking on the mud as if it was flat ground. He looked even more elegant and silent than Lin Yi, and when he saw Lin Yi's surprised look, he smiled and explained, "Silent falling leaves is a special light body martial art technique of our spirit leaf sect."

"It's not bad," Lin Yi praised from the bottom of his heart. This wasn't a compliment-he could see the value of silent leaves. Using it to deal with mud was a waste of talent. This kind of silent movement technique could only display its greatest value in actual combat. As the big Senior Sister of the leaf spirit sect, Duanmu Yu was indeed not simple.

Duanmu Yu smiled and started searching for spirit sense grass. Lin Yi didn't waste any time either. They couldn't stay here for long. They had to be fast.

The two of them were very efficient, but even so, they still got nothing. When the tide rose, they returned to the shore empty-handed and looked at each other.

"It seems that this matter isn't that easy. We have to be prepared for a protracted war." Duanmu Yu said with a bitter smile.

Chapter 5295 Sitting There For Three Days

"Yes, it's almost dark now. Rest well and wait for the next section of the river bed when the tide is low tomorrow morning." Lin Yi nodded. They didn't get anything today, but at least there weren't any accidents or dangers. It seemed like going down the river when the tide was low was the right idea. It was just whether or not they could find the spirit sense grass. This didn't just rely on hard work, it also depended on luck. The two of them could only do their best.

For the sake of safety, the two of them did not stay on the shore for the night. Instead, they found a nearby tree and made a hole in it with their bare hands. This way, they could rest in the hole with peace of mind.

Lin Yi even summoned his water lotus clone to ask where Leng Leng and the others were. After making sure that they were safe, they all gathered somewhere not far from the river of consciousness.

The night was quiet, and there was no one around. A man and a woman were alone in a tree hole-any other woman would feel uncomfortable, but Duanmu Yu didn't have such concerns. He sized Lin Yi up as he rested.

"Why are you looking at me?" Lin Yi stopped, surprised.

"You ... Don't tell me you're practicing the withered leaves rejuvenation?" Duanmu Yu asked with a weird expression. Her senses were far more sensitive than normal people, and she was all too familiar with the pure energy fluctuations from Lin Yi.

She'd only said a few words, not the actual technique, so there shouldn't be any way for her to learn it ... But the problem was that this was Lin Yi-this guy could even copy the soul Reaper's hand, the ultimate skill of a big heretic practitioner, let alone the rejuvenation of withered leaves!

"Can't I?" Lin Yi said.

"It doesn't matter to me. Even if you do master it, you'll have to figure it out yourself." Duanmu Yu shrugged his shoulders. Although it was a little irresponsible of her to turn a blind eye to this, it was her business to explore and research however she wanted to. She really couldn't interfere.

"Don't worry, I don't really want to learn your spirit leaf sect's withered leaves rejuvenation. If I'm not wrong, these moves of your spirit leaf sect are a complementary system. You have to go through a series of training from the beginning. It's impossible for you to just practice it alone, right?" Lin Yi speculated.

"You can even guess that? You really are a freak!" Duanmu Yu couldn't help but ask in surprise.

It was just as Lin Yi said-the essence of all the moves in the spirit leaf sect was built up layer by layer, from shallow to deep, forming a complete system. If one didn't grasp the essence of the basic moves, then no matter how talented they were, they wouldn't be able to master an advanced move like the rejuvenation of withered leaves. Of course, if one could even grasp the essence of the basic moves, then it was only natural that they'd master the essence of the basic moves-they didn't even need to practice it.

"You're too kind," Lin Yi chuckled. It wasn't just his observation skills that allowed him to deduce this, but his own strength level was high enough and he had seen many different Arts and skills. Naturally, he was able to see the truth.

"If you're not going to practice [rejuvenation of withered leaves], then what are you doing?" Duanmu Yu was unable to refrain himself from asking.

"I vaguely feel that the essence of the rejuvenation of withered leaves is very useful to me, but I don't know how to use it. I need to explore and study it." Lin Yi said honestly.

To put it bluntly, the essence of 'rejuvenation of the dead leaves' was to forcefully awaken the hidden vitality. To a certain extent, it was similar to the Super and ultimate physical skills he had mastered before. However, it was also very different. After all, the latter only stimulated the physical body and made the physical body have a stronger reaction time. It was impossible for it to recover the true Qi in

the body like 'rejuvenation of the dead leaves'. It was even less possible for it to have the miraculous effect of self-healing. In comparison, 'rejuvenation of the dead leaves' was obviously more exquisite.

But no matter if it was Qi or self-healing, these two miraculous effects were of little value to Lin Yi. Not only did he know them, but they didn't have any side effects. After using them, he would be weak for a long time, and that would be F * cked up!

Lin Yi wouldn't do something as stupid as giving up what was near and seeking what was far.

Of course, Lin Yi decided to try it out. He wanted to learn the trick and draw inferences from it. He didn't need pure Qi, nor did he need it for healing, but if the effect could be transferred to his essence spirit, it would be a great deal! He was an essence spirit now!

Duanmu Yu watched silently as Lin Yi tried to figure things out. The profound mysteries that he revealed from time to time really opened her eyes. This feeling was unprecedented. Even her master had never made her so unable to see through it.

One must know that her master was not an ordinary Jindan stage expert, but a true Yuanying stage old monster, an existence that stood at the top of the entire small Jianghu of the immemorial era.

Unfortunately, the top level of the ancient martial world wasn't much-it couldn't compare to the Sky Class Island at all. How could a mere nascent soul old monster compare to a freak like Lin Yi, who could even kill a mountain opening powerhouse?

The two sat there in silence for a long time before Duanmu Yu suddenly opened her eyes. She felt that Lin Yi's aura had increased a lot in an instant, but now that she looked at him, Lin Yi's body didn't seem to be any different from before. She couldn't help but Mutter, "Was I hallucinating?"

Lin Yi didn't respond to her, as if he was still immersed in his own deduction, completely unaware of the outside world. Duanmu Yu even believed that Lin Yi wouldn't react even if he stabbed him now.

"Is this guy really that crazy or is he just too confident in me?" Duanmu Yu shook his head speechlessly. He continued to rest while keeping an eye out for any movements outside. Since Lin Yi didn't care about what was happening outside, he'd have to take responsibility for this.

What Duanmu Yu didn't expect was that Lin Yi would be sitting there for a much longer time than she had expected.

"Eh? The tide hasn't ebbed yet?" Lin Yi finally opened his eyes slowly. A light flashed across his eyes, but they returned to normal.

"The tide still hasn't subsided? Big brother, it's already been five waves. " Duanmu Yu said in a bad mood.

"What?" Lin Yi blinked-he'd only been running through his brain for a bit, and it didn't feel like he'd spent that much time.

"The tide rises and ebbs twice a day, but you've been sitting there for three days. I'm really impressed." Duanmu Yu said helplessly. She was still thinking of finding the spirit grass, but Lin Yi just went into

meditation for no reason. She couldn't wake him up no matter how she tried. She immediately realized that Lin Yi had entered the legendary state of emptiness and gave up.

Chapter 5296 Spirit Sense Grass!

She didn't dare to go into the river alone to find the spirit sense grass, and Duanmu Yu didn't want to leave Lin Yi alone in this state. She could only stay and accompany him patiently. Anyone would be angry if they were in this situation.

"Three days?" Lin Yi blushed and quickly apologized with a smile, "I'm sorry, I'm sorry. I was too absorbed in my thoughts. "

"Forget it. There's no time limit for this anyway. I'll just take it as a way to conserve my energy." Duanmu Yu waved his hand in an open-minded manner. Then, he said with a tone of envy, "But you're also really amazing, being able to enter the state of emptiness so easily in this kind of place, your comprehension must be extraordinary, it really makes people envious."

After the state of enlightenment came enlightenment. This state was a rare opportunity for every cultivator. Except for a very small number of people, the vast majority of people would only enter the state of enlightenment a few times in their lives. Even Duanmu Yu had only experienced it once. It was after that state of enlightenment that she was reborn and became the big Senior Sister who was the pillar of the entire leaf spirit sect in one fell swoop. One could only imagine how rare it was.

And in a place like this where danger lurked everywhere, Lin Yi was able to enter that state so easily. It really left her speechless.

"It's just a coincidence. " Lin Yi said humbly, but his aura was a lot more radiant than before-it was clear that he'd gained something, and it wasn't small.

"Don't. If even a freak like you is so modest, how are we mortals supposed to live?" Duanmu Yu pouted. He looked at the sky outside and said, "Based on my experience from the past two days, the tide should be ebbing soon."

"Alright, let's go then." Lin Yi nodded.

Because of the sudden enlightenment, they had already missed three days. The two didn't want to waste any more time and rushed to the river. Duanmu Yu had already scouted the area two days ago and planned the river bed they would explore every day. Lin Yi just had to follow her.

After their first experience, the two of them seemed to be more familiar with the road this time. They had some experience in identifying aquatic plants, and their efficiency was obviously much higher. Last time, until the high tide, the two of them had only explored a section of the river bed that was less than ten miles in total. Now, there was still more than half of the time before the high tide, but the two of them had already explored more than ten miles away. The progress was much faster than expected.

He stopped when he was fifteen miles away-there was a plant that looked different from the rest in a pile of seaweed not far away.

It was dark black in color, and had no leaves-it was just a long, thin branch. The branch was covered in thorns, but it wasn't eye-catching at first glance due to the other water plants and mud. However, it gave off a dangerous glow-something that could make a master like Lin Yi feel danger was no ordinary plant!

"Spirit sense grass!" Lin Yi was overjoyed. The characteristics of this plant were exactly the same as Duanmu Yu's description. This was without a doubt, a spirit grass!

"Really?" Not far away, Duanmu Yu heard Lin Yi's voice and rushed over. He looked in the direction Lin Yi pointed at and carefully compared the unique plant with the one he saw. He was ecstatic, "That's right! That's right! This was the spirit sense grass! This is the spirit sense grass!"

Lin Yi wasn't completely sure himself, but since Duanmu Yu said so, it had to be. He said excitedly, "Hurry up and dig it out. It's going to be high tide soon."

"En!" Duanmu Yu nodded heavily. He hurriedly and carefully removed the spiritual awareness grass and discovered that its roots were deeply buried in the mud of the river bed. No matter how much strength she used, she was unable to pull it out. She was a peak Foundation Stage expert! This was simply like seeing a ghost.

"Cut off the branches first. I'll think of a way to get the roots." Lin Yi said. If he had time, he could think of a way. After all, a complete spirit sense grass was better than a broken root. However, the tide was rising soon, and no one knew what would happen after the tide rose. He had to act as fast as possible.

"Alright!" Duanmu Yu also did not hesitate. He immediately took out an ancient-looking small knife and made a posture as if he was about to cut off the spiritual awareness grass.

However, at this moment, a strangely shaped figure suddenly descended from the sky. An unparalleled wave of air instantly sent the two flying. At the same time, a familiar voice sounded, ""I've finally found you! Lin Yi!"

"Brain-eating insect!" Lin Yi was shocked-he didn't even have the time to celebrate after finding the spirit grass, and this old enemy found it at the last moment!

Duanmu Yu was also shocked. The brain-eating insect was an existence on the same level as the water lotus Protector. With her strength, she was not even qualified to be cannon fodder. How could she encounter this monster at this time?

Duanmu Yu looked at the spiritual awareness grass under the other party's feet. Originally, it was within his grasp. In the end, he had actually missed it by a hair's breadth. He was truly unwilling to accept this!

Lin Yi was extremely regretful as well-he shouldn't have avoided suspicion. He should've put the spirit grass into the Jade space as soon as he found it and then split it with Duanmu Yu. He wouldn't have ended up like this, where the spirit grass was under the insect's feet. He wouldn't have had the chance to take it back.

"I'll think of a way to stall it, you go first. " Lin Yi said immediately. This wasn't the time to worry about the spirit grass-he could always find more if he missed it, but if he lost his life here, then he'd lose everything.

"But ..." Duanmu Yu hesitated. She was a tough girl, but she wasn't as open as Lin Yi. She didn't want to just leave like that, but she had no choice in front of the brain-eating insect. She gritted her teeth and nodded.

Duanmu Yu immediately retreated to the riverbank. However, before she could take two steps, a dozen invisible wind blades blotted out the sky and howled toward her. This was the innate skill of the ancient gougou clan.

Duanmu Yu jumped in shock. Any one of the wind blades here could easily kill a golden core stage master, let alone a mere Foundation peak. Even Lin Yi wouldn't dare to take such a powerful attack head-on-she could only rely on herself to save her life.

At the critical moment, Duanmu Yu's figure suddenly disappeared into thin air, leaving behind only a slowly falling leaf. When a leaf fell, it would tell the world that it was autumn.

Lin Yi let out a breath of relief. It was a good thing Duanmu Yu was a genius as well, or he'd really feel bad if he had to watch his opponent die.

"Oh? This human is quite interesting!" The brain-eating insect also showed a playful expression.

Chapter 5297 The Lingering Brain-Eating Insect

At this moment, it had already entered battle mode, and its entire body had transformed into an extremely ferocious shape. The wings of an archaic gourd, the body of a red-scaled snake, the steel claws of the eight-armed Mountain King, the Stinger of the venomous Bee queen, and a terrifying head that was fully armed to the teeth fused with the characteristics of countless powerful spirit beasts. This was an out-and-out killing weapon of the human world.

Lin Yi frowned at this guy. The brain-eating insect was on the same level as the Lotus Protector, but if he had a choice, he'd choose the Lotus Protector 100% of the time. Even if he couldn't put it in the Jade space, Lin Yi would rather choose the Lotus Protector.

The water lotus Protector was a technique-even complex moves like the catoptric deflection were easy for Lin Yi to spot, but the brain-eating insect was different. It was clear that it relied on its body for a living, and it wasn't an exaggeration to say that its body was the strongest among its level.

If it was only at the Foundation Stage, Lin Yi's methods would be enough to crush it, but the problem was that it was at least at the Golden core stage. It had an absolute level advantage over Lin Yi, and in this situation, it had the most tenacious life force and the strongest defense-there was no way it could be defeated.

Last time, Lin Yi used two energy bombs on it, and it didn't even hurt a hair. That explained everything.

With Lin Yi's current attack power, he couldn't even break through the brain-eating insect's defense. How was he supposed to fight it?

Seeing Lin Yi's expression change, the brain-eating insect suddenly laughed. It was interested in Duanmu Yu's fallen leaves in autumn, but it was obvious that it valued Lin Yi more. Its focus had always been on Lin Yi,"This time, don't even think about escaping from me. I will never make the same mistake twice."

"Oh, really? Are you sure you can catch up to my speed?" Lin Yi was a little interested. He didn't have much confidence in other aspects, but he had absolute confidence in his speed. After all, the brain-eating insect was even faster than his original body. No matter how strong it was, it couldn't be stronger than a xuansheng stage master, right?

"No need. As long as I catch this woman, I don't think you'll run away." The brain-eating insect learned its lesson this time and was obviously a lot more cunning. If it had taken Leng Leng and the others as hostages last time, Lin Yi wouldn't have dared to escape at all. It was only because it was too arrogant that Lin Yi got the chance.

"Hehe, you're just an insect. I didn't expect you to be so accurate in judging people." Lin Yi couldn't help but smile.

"Hehe, we don't look at people with our eyes, but with our noses. Every one of you has a different smell. Different people have different smells. You can pretend to be human, but you can't pretend to be the smell in your bones." The brain-eating insect said proudly.

"Oh, really? That's a good lesson. " Lin Yi nodded. He was really controlled by the brain-eating insect this time. If he didn't have much contact with Duanmu Yu before, it wouldn't matter much. He could just turn a blind eye to it, but now he couldn't just ignore it. If Duanmu Yu couldn't leave, he would have to stay and deal with it.

"You're welcome. Otherwise, you'd have to be more tactful. Don't worry, it's rare to meet such a unique human expert like you. I won't let you disappear for no reason. I'll take you as my main body. From now on, you are me, I am you, we are one!" The brain-eating insect said excitedly.

"You and I are one?" Lin Yi thought it was weird-it wasn't even certain who'd be the one devouring who if that really happened! Even if the brain-eating insects had a strong talent of eating brains, his primordial spirit level was not just for show. It would be hard to say when the time came.

"How is it? If you cooperate, I can save you a lot of unnecessary pain!" The brain-eating insect was still trying to convince Lin Yi. It wasn't wasting its breath, but it was afraid that Lin Yi's brain might be damaged if they started fighting. This kind of thing happened all the time, and once Lin Yi's brain was damaged, it wouldn't be able to eat it anymore.

"You don't really think I'm out of my mind, do you?" Lin Yi looked at it like it was an idiot-it really did think of that!

"Not satisfied? Then I'll take a step back and leave you with a little bit of consciousness to share the main body with me. That should be fine, right?" The brain-eating insect continued to haggle. It was

obvious that it was determined to get Lin Yi's body. If it wasn't afraid of hurting Lin Yi, it would've already clawed at him with its usual brutal personality.

"Let me ask you a question. Since your current physical body is so impressive, at least a thousand times stronger than my physical body, why do you still want me to be your main body?" Lin Yi couldn't help but ask curiously. From his point of view, this opponent's posture was much tougher than a human's. His entire body was full of killing weapons, and he would definitely be at an advantage in a fight. If possible, he didn't even mind switching places with this opponent. Of course, his original form had to be a human. He couldn't accept if his original form was a bug.

"Hehe, there's no harm in telling you. Although you humans have weak bodies, you're still the spirit of all living things. No matter how strong other species are, they're still limited by their racial talents. There's only one possibility, but you humans may have a low starting point, but you have countless possibilities. In addition, a spirit beast of a higher rank will need a human body to be able to stand on the stage. Otherwise, you will be laughed at by the other spirit beasts." The brain-eating insect explained patiently.

"I see." Lin Yi said, enlightened.

It was no wonder that this guy was so determined to catch him. It seemed that although this guy's brain-eating talent was heaven-defying, there was a limit to it. Perhaps there was a limit to the species it could eat, and most spirit beasts only had one racial talent. Those who had more than two were extremely rare. In this case, every time it ate, it would only gain one more skill.

However, humans were different. There were more than tens of millions of martial arts techniques. With the ability of brain-eating insects, they could even take all the martial arts techniques for themselves. Moreover, they didn't need to cultivate from the beginning. They could directly devour them and make them ready-made. Just thinking about it made people shudder.

With that thought, it made sense why the brain-eating insect was so desperate to catch Lin Yi. Even if it could take over someone's arts and techniques, it needed a talented host to use them. Otherwise, it would be useless if the host wasn't talented enough.

Chapter 5298 You're Alright?

"Alright, I've said all the nonsense I shouldn't have said. You can obediently accept your fate." The brain-eating insect suddenly laughed sinisterly. A red light flashed in its eyes, and an invisible force field suddenly spread out from its body. Wherever it passed, the mud in the river bed suddenly sank by a large amount, as if it was being crushed by something heavy.

Lin Yi felt his body sink as well-it wasn't to the point where he couldn't handle it, but the force field was affecting his movement speed and agility.

However, the brain-eating insect's target wasn't Lin Yi this time, but Duanmu Yu, who was using the fallen leaves to hide himself!

Just as expected, Duanmu Yu, who had not revealed a single flaw before this, immediately revealed himself. Although he did not directly reveal himself, two suddenly sinking footprints suddenly appeared in the mud. They just happened to be next to the spiritual grass. There was no doubt that it was Duanmu Yu.

"Ugh ..." Lin Yi was speechless. This woman was really bold. She knew how terrifying the brain-eating insect was, but she didn't run. She even dared to take the spirit grass.

At this moment, Duanmu Yu was just about to use his blade to cut the spiritual awareness grass. After being caught off guard and revealing a flaw, he did not panic and still maintained the concealed state of falling leaves in autumn.

The brain-eating insect suddenly opened its bloody mouth in the direction of the footprint. An unparalleled powerful suction force poured out. The result was unexpected. Other than a mouthful of mud, Duanmu Yu's figure was nowhere to be seen!

"Interesting indeed!" The brain-eating insect laughed instead of getting angry. If it wasn't for Lin Yi, who was a better choice, it would've taken Duanmu Yu as its main body. Duanmu Yu wasn't flustered in the face of its sudden force field, and he even escaped without leaving a single footprint. One had to know that this was a muddy ground that could sink into the mud if one wasn't careful. The difficulty was extraordinary.

Unfortunately, Duanmu Yu was still unable to escape from its grasp. The brain-eating insect's eyes glowed red once again. The invisible force field suddenly became several times stronger. Double pressure!

Duanmu Yu was no longer able to maintain his concealed state and immediately revealed himself in a somewhat sorry state. Without waiting for her to respond, the brain-eating insect had shockingly descended on the top of her head. Its poisonous tail stingers pierced down with lightning speed, leaving Duanmu Yu no time to react.

In the nick of time, Lin Yi appeared in front of Duanmu Yu and pushed him away, but he couldn't Dodge in time. The brain-eating insect's tail pierced through his neck from the back. The scene was shocking.

"Lin Yi!" Duanmu Yu's eyes were red with anxiety. Although her relationship with Lin Yi was far from being one of their own, they were at least friends that could be trusted. Especially since she was someone who valued friendship, how could she not be anxious when she saw Lin Yi die for her?

"Hehe, I didn't expect you to be so infatuated. But this is good, it saves me a lot of trouble!" The brain-eating insect was overjoyed. What it was most afraid of was Lin Yi running away again. Who knew how much effort he would have to put in if he did that again and again? it didn't have that much patience. It only attacked Duanmu Yu to keep Lin Yi busy. It didn't expect Lin Yi to walk right into its trap. This was a pleasant surprise.

Its tail Stinger followed the innate skill of the fierce poisonous Queen Bee, which was a rare poison in the world, especially when it pierced through a fatal spot like the neck. Let alone a mere human, even with its vitality, it would not be able to survive such a fierce attack.

However, Lin Yi's lowered head showed a strange smile. He flashed and jumped on the brain-eating insect's face. He stuffed his hand into the insect's mouth, leaving a compressed Qi pellet bomb.

BOOM! The brain-eating insect's face was still filled with shock. It didn't even understand how the other party had managed to break free from its poisonous tail Stinger before the true Qi pill fire bomb exploded in its mouth!

Even though the two true Qi pill fire bombs didn't hurt its hair last time, it only couldn't break its surface defense. No matter how strong it was, it couldn't be indestructible inside its body, right?

The brain-eating insect was instantly stunned by the explosion. It immediately spat out black smoke and flew backward. It shook for a long time and couldn't stand still. Although it was unrealistic to kill it instantly, it was bound to be injured.

"You ... You're fine?" Duanmu Yu was dumbfounded as he looked at the perfectly fine Lin Yi. The tail had pierced through his neck, so why was this guy completely fine?

"I'm a primordial spirit. What's the use of its physical attack on me?" Lin Yi grinned. His neck had already been turned into a spirit in that instant, and the tail didn't even touch a hair on his head. It was just an act to numb his opponent.

"Uh, that's true." Duanmu Yu couldn't help but choke. Lin Yi's yuan spirit was no different from a normal person's, and even if they knew that he was a Yuan spirit, they would subconsciously ignore it. It was even easier for people like the brain-eating insect to fall for it.

While the two were talking, the brain-eating insect opposite them had already recovered. Its entire mouth was charred black, which looked quite funny and embarrassing, but the pressure it gave the two did not weaken at all, but instead became stronger.

Lin Yi sighed to himself. A brain-eating insect was a brain-eating insect after all. The red scaled snake would have died on the spot from that last attack, but this one only looked a little embarrassed. It didn't look like it had suffered any serious injuries. This was so troublesome!

"Hu ... Hu ... Hu ..." The brain-eating bug didn't get angry, but let out three puffs of black smoke before looking at Lin Yi with bright eyes, "You can even ignore such a fatal attack. I didn't misjudge you. Hehe, who else but you can be my main body?"

"So you're really trying to extort me?" Lin Yi didn't know whether to laugh or cry. He was thinking that after this, the other would be angry and give him an opportunity to take advantage of it, but he didn't expect this reaction.

"Of course!" The brain-eating insect laughed and flew down from the sky again, aiming at Lin Yi.

"Be careful and hide it well." Lin Yi gave Duanmu Yu some instructions and charged at him. Duanmu Yu didn't dare to be slow and quickly used silent leaves to Dodge to the side. At the same time, he held a green leaf tightly in his hand, ready to use falling leaves in autumn again. She couldn't interfere in a battle of this level, and it was already good enough that she could stay alive and not drag Lin Yi down.

"You have guts!" The brain-eating bug didn't even look at Duanmu Yu anymore after seeing Lin Yi coming at him. In its eyes, Duanmu Yu's only value was to keep Lin Yi in check. Since Lin Yi wasn't even going to run, why should it care?

Chapter 5299 Second Form?

With its strong body, the brain-eating insect wasn't afraid of Lin Yi's tricks at all. It didn't hesitate to use its steel claws to block Lin Yi's attack. Last time, it used these steel claws to destroy the Qi pellet bomb, and this time was no exception.

However, Lin Yi wasn't stupid enough to go head to head with it. With the strength of the opponent's body, even a xuansheng stage cultivator wouldn't be able to gain the upper hand, let alone a peak Foundation Stage cultivator like him. It would be suicide if he really did that.

Accompanied by a deep dragon roar, a stream of killing Qi of the five elements, which seemed to have materialized, left his hand and met the steel claws first. The result was unsurprisingly that he was caught by the other party in an instant, leaving nothing behind. It was a classic example of hitting a rock with an egg.

"Hehe, is this all you've got?" The brain-eating insect sneered. In its opinion, this method was much weaker than the true Qi pellet fire bomb just now. Although the true Qi pellet fire bomb was simple and violent, its power couldn't be underestimated. It could still cause some damage by stuffing it into its mouth just now. As for the seemingly delicate five elements killing Qi, it was nothing in front of it.

Before he finished his words, another killing intent of five elements had already arrived in front of him. The brain-eating insect suddenly became more contemptuous and lazily stretched out its steel claws again. At the same time, it sneered, "This little power is not even enough to scratch an itch. It'll be the same even if you do it a thousand or ten thousand times. It's a waste of energy!"

However, this time, there was a layer of dense Eight Trigrams patterns on the five elements killing intent. It was many times more profound than the previous five elements killing intent. It was like a real five elements Eight Trigrams flood Dragon!

Kengchi! Not only did the brain-eating insect's steel claws fail to tear it apart, but it was also bitten by it. The entire Steel Claw was instantly broken at the root, and blood spurted out in an instant, splashing all over the sky.

The brain-eating insect suddenly howled in pain. Although it was careless, its fighting instinct was not weak. Its brain did not react in time, but the poisonous tail thorn had already stabbed back. However, before it could stab, the five elements Eight Trigrams Dragon roared again and sent it flying with its tail. It smashed into the mud below and could not extricate itself.

This scene happened too quickly. Even Duanmu Yu was dumbstruck, let alone the brain-eating insect that was beaten to a pulp.

It was the same five-element killing intent, and it couldn't even take a hit just now-how did it become so strong all of a sudden? what was even more shocking was, where did Lin Yi go?

Duanmu Yu was confused, but the brain-eating insect wasn't stupid. It was caught off guard and suffered a big loss. Its brain worked extremely fast. It looked at the five elements and Eight Trigrams flood Dragon in the sky and said, "You're Lin Yi?!"

The Dragon didn't say anything, but it had a human-like expression on its face. It was clear that the brain-eating insect was right-it was Lin Yi!

"How ... How is this possible?" Duanmu Yu didn't know what to say anymore. She knew that Lin Yi was a spirit, but a spirit was just a spirit. From what she knew, a spirit could only take on the form of a fog, and it couldn't change into any other form. She couldn't say that Lin Yi's real form was a Dragon, could she?!

Lin Yi, of course, wasn't a Dragon. The only reason he could become like this was all thanks to her, Duanmu Yu.

Originally, Lin Yi's low level of Foundation Stage was far from enough to use the killing intent of the five elements and Eight Trigrams, but this time, with the Enlightenment, his strength was completely different even though he was still in the same stage. This was because he'd learned the rejuvenation of withered leaves.

Of course, what he comprehended wasn't the original version of 'rejuvenation of the withered leaves'. It didn't recover true Qi or heal his own injuries, but it was related to his primordial spirit!

The human body had a self-protection mechanism, and so did the primordial spirit. In theory, after being severely injured, the primordial spirit would not collapse directly, but would enter a state of self-dormancy like the body. In other words, one could only use 70% of one's strength at most, and the remaining 30% was used for self-protection. There was an extremely strong gate between the two, and it was impossible to use it normally even if one wanted to.

Spirit leaf sect 's' rejuvenation of withered leaves 'could open up the gates of the physical body after it was injured and allow it to recover to its peak state in a short period of time. However, this state was like the final radiance of the setting sun, so there were great side effects.

And now, after three days of meditation, he'd successfully found the valve that locked the essence spirit!

Once the valve was opened, the strength of the spirit would increase by more than 30%, or even more. Lin Yi's strength was already at the peak of Foundation Stage, and after the 30% increase, he would immediately become a golden core Master. Even if it was temporary, the extra strength was not fake.

Of course, with such a huge gap in strength between him and the brain-eating insects, not to mention a temporary golden core, even a real golden core was useless. At most, the power of the true Qi pill fire bomb was stronger, but the effect was still limited against the brain-eating insects.

There was no need to mention the killing intent of the five elements, but it did not include the killing intent of the five elements and Eight Trigrams!

In terms of level, just the killing intent of the five elements was far above that of a golden core stage cultivator. After all, this was a move that was invincible even in the original infant stage. It was just that Lin Yi's level was too low, and he was facing a monster like the brain-eating insect at the same time, so it seemed so powerless.

But the [five elements Eight Trigrams] killing intent was different-it was on a much higher level than the [five elements Eight Trigrams] killing intent, and the level of suppression it displayed against the brain-eating insect was far beyond the actual suppression of the insect's strength. To put it bluntly, the [five elements Eight Trigrams] killing intent was enough to completely reverse the balance between the two.

However, even if Lin Yi had reached the temporary golden core stage, he still wasn't strong enough to use the killing intent of the five elements and Eight Trigrams. So, he thought of a way, using the advantage of being a spirit to merge his entire spirit into it. This way, not only did he successfully form the killing intent of the five elements and Eight Trigrams, but he also created a living Dragon!

"You can actually transform into a flood Dragon? Could this be your true form?" The brain-eating insect was completely shocked. It looked at the five elements and Eight Trigrams flood Dragons circling back and forth in the sky with great fear. In the entire world of spirit beasts, the dragon clan had always been synonymous with power and invincibility. Even the flood Dragons were the same. Although the brain-eating insect was naturally gifted, it could not help but feel fear in the face of the dragon clan. This was an instinct, a tremble that came from the depths of the soul. No matter how hard it tried to suppress it, it could not be suppressed.

"Can you make a guess?" The Dragon suddenly spoke-it was Lin Yi's voice.

"That's not right. You clearly have the scent of a pure human on you. It's impossible for you to be a spirit beast. Could it be that you actually have the ability to transform into a flood Dragon? or is this your second form?" The brain-eating insect's eyes rolled.

Chapter 5300 Stubborn

"Hehe, that's a good name. Alright, this can be considered my flood dragon form." Lin Yi accepted the advice and didn't waste any more time talking to this guy. He immediately pounced on the brain-eating insect. After all, there was a time limit to his dragon form. He didn't have to worry about Qi consumption, but he couldn't make up for the spirit sense consumption. So he estimated that 15 minutes was his limit. If he couldn't kill the brain-eating insect in this time, the consequences would be unimaginable.

In fact, with Lin Yi's extremely pragmatic style, if it wasn't for the fact that it was his first time being in the Dragon form and he wasn't very familiar with it yet, he wouldn't even give his opponent time to waste on these two words. He would definitely beat him to death without a second thought, regardless of whether he would kill or injure him, leaving the rest for later.

"Hehe, you want to play close combat with me? I'm the ancestor of close combat. Do you really think I'm afraid of you?" The brain-eating insect was so angry that it laughed instead. It was caught off guard and suffered a big loss, but if it was a close combat fight, there was no other spirit beast better than it. It was the ultimate weapon of all kinds of spirit beasts from the beginning to the end, so what if Lin Yi turned into a Dragon?

Before he finished, the brain eating insect's snake body moved. It only had two steel claws, and Lin Yi had bitten off one, but it suddenly grew six more. It looked like it was about to turn into a centipede!

Lin Yi didn't pay attention to it. He was in the Dragon's form now, and it seemed like even his own heart was affected. He was a lot more indifferent than usual. He thought that the brain-eating insect was shocking and troublesome, but now that he was in dragon form, he looked at it with a look of disdain.

It was a kind of unspeakable contempt, just like a high-level spirit beast facing a low-level spirit beast. No matter how the other party called out, it would not really take it to heart. The reason was simply because it was not qualified.

"Go to hell!" The brain-eating insect was completely infuriated. This kind of look had always been exclusive to it. When had it ever been looked at like this by others?

The brain-eating insect waved its steel claws and pounced over. At least on the surface, its strong body did have the advantage, but reality was cruel. Whether it was the steel claws, tail spikes, or wings, nothing gave it an advantage. Instead, it was knocked down by Lin Yi's Tail Sweep in less than a second and fell into the mud again.

The brain-eating insect still didn't believe it. It suffered a loss before because it was caught off guard, and now it suffered a loss because it didn't understand the other party's routine. Again!

This time, it was even more heavily injured. Not only did it lose another claw, but even its most threatening tail was broken. The poison on it had no effect on Lin Yi at all. It was just a decoration.

Crushing! It was a completely one-sided crushing!

Duanmu Yu was completely speechless at this crazy scene. The brain-eating insect didn't believe it time and time again, but it ended up getting beaten more and more miserably by Lin Yi's dragon form. In the end, three of its eight steel claws were broken, and the last one was shaking. Its poisonous tail was gone, and one of its wings was broken. Its body was covered in wounds, and it was miserable.

Duanmu Yu was starting to pity the brain-eating insect. It was supposed to be an invincible existence, but it met Lin Yi, who was a heaven-defying existence that couldn't be measured with common sense. The torturer had become the victim. Did this guy not check the Almanac before leaving?!

Indeed, the brain-eating insect didn't look at the Almanac. In this ancient Land of Trials, it was an existence that was second only to one person and above tens of thousands of people. The feeling of not looking at the Almanac when going out would only appear on others, not it. Today was really an accident.

It was too horrible to look at, but the brain-eating insect still struggled to fly up, its vitality was extremely tenacious.

"You can fly with one wing? What a talent!" Lin Yi couldn't help but give it a thumbs up, but he didn't hold back at all. With a single breath, he destroyed the only remaining Steel Claw and wing.

The brain-eating insect fell into the quagmire again. It was still majestic and domineering before, but now it had completely turned into a Loach. A Phoenix was not as good as a chicken, nothing more.

"Impossible! That was impossible! That's impossible!" The brain-eating insect was still struggling in the mud, but both its wings were broken, and it couldn't fly anymore. Close combat was its proudest ability, and it was invincible in the entire ancient testing grounds. After all, even the Lord didn't do this, but it didn't expect to be killed by Lin Yi today, and in the way it was best at, just like that!

"Is there a need to be so disappointed after losing to a flood Dragon? Just how confident are you?" Lin Yi couldn't help but be happy. Even he didn't expect the Dragon to have such strong physical strength. He couldn't help but sigh. The Dragon race was indeed an invincible existence in the spirit beast World. This race's talent was heartless!

Of course, it wasn't entirely because of the Dragon's strength that it could form such a one-sided suppression. Another important reason was that it wasn't a pure physical body, but a half-primordial divine body that relied on the fusion of primordial spirit and spiritual Qi. Every claw and every bite seemed to be a simple physical attack, but the main body was actually the extremely profound killing intent of the five elements and Eight Trigrams. It naturally had the upper hand in a simple physical fight like the brain-eating insects, so it wasn't surprising that it could form a suppression.

"My physical body is invincible. Even the Dragon race can't be my match. Absolutely not!" The brain-eating insect was still hypnotizing itself. Except for a few spirit beasts with a long bloodline, the dragon clan was the mountain in the heart of every spirit beast. Most of them were just willing to bow their heads, but the brain-eating insect never thought so.

Even if it couldn't surpass the dragon clan, it should at least be one of the few, at least that's what it thought.

But today, Lin Yi's bloody reality shattered its fantasy. Even a Phantom flood Dragon could torture it like this, let alone a real Dragon. One must know that flood Dragons were only close relatives born from the cross-breeding between the Dragon race and the snake Race. They were far from being considered real Dragons!

"He's already been beaten into a mudfish, yet he's still so stubborn. He's really tenacious." Lin Yi shook his head. As far as he was concerned, the brain-eating insect was a powerful spirit beast, and with its innate talent of eating brains, it might become a big crocodile on Sky Class islands, but there was still a big gap between it and the real top-tier spirit beasts. If it had seen the Azure Dragon and Vermillion Bird with its own eyes, it wouldn't be so ignorant.
