

Bodyguard 5301

Chapter 5301 We're Even

"The tide is rising!" Duanmu Yu suddenly shouted from below. It was a pleasant surprise that Lin Yi could easily crush the brain-eating insect, but she didn't forget the important thing. The tide was already rising, but she didn't even have time to pick the spirit grass.

However, the first one to react wasn't Lin Yi, but the brain-eating insect.

Although it had been tortured into a mud Loach and looked like it was on the verge of collapse, the brain-eating insect still couldn't change its cruel and cunning nature. After hearing Duanmu Yu's voice, it immediately drilled out of the mud. It couldn't do anything to Lin Yi in his dragon form, but it could easily take Duanmu Yu down.

As long as it had a hostage in its hands, it would not be completely defeated, and it would still have the capital to bargain!

Duanmu Yu was greatly shocked. He immediately used [fallen leaves in autumn] to hide himself. However, before she could escape from the place, the mysterious aura that had appeared earlier suddenly descended once again. Moreover, the pressure was much more powerful and violent than before. It was a trio!

Duanmu Yu instantly revealed himself. At this moment, the brain-eating insect was only one step away from her. It looked like it was about to be caught by the other party. It was simply too late for her to escape. At this moment, a Dragon Claw with Eight Trigrams patterns on it descended from the sky.

Pfft! The brain-eating insect's head was grabbed by a claw and then it was pressed into the mud. No matter how hard it struggled, it couldn't break free.

"Are you alright?" Lin Yi looked at Duanmu Yu, or more accurately, the Dragon looked at Duanmu Yu.

"I'm ... I'm fine ..." Duanmu Yu knew that the other party was Lin Yi, but he was still a little flustered to be looked at by a Dragon at such a close distance. At the same time, he felt a little excited. This was an unprecedented experience. After all, it was a Dragon, a legendary existence!

"It's good that you're fine. " Lin Yi didn't even finish his sentence when the brain-eating insect's head was grabbed by him, but its snake body wrapped around him like crazy, and it was extremely strong too. After being whipped twice, even Lin Yi in his dragon form couldn't take it. The eight trigrams on his body suddenly dimmed a lot, and it started to show signs of shifting and disappearing.

Not good! Lin Yi's heart skipped a beat. He knew that the time limit was up, and he couldn't maintain his dragon form any longer. He quickly gathered all his remaining Qi into that Dragon Claw, and with a strong force, the brain-eating insect's hard skull exploded like a watermelon, turning into a thick pile of dirty water in the mud, and the smell was pungent.

At the same time, the Dragon's form disappeared, and Lin Yi quickly returned to his Yuan spirit form. His face was pale, and he was obviously weak.

"How are you?" Duanmu Yu quickly held him up. She didn't know the exact situation, but she could guess that it had something to do with the essence of "rejuvenation of withered leaves" she told Lin Yi before. Lin Yi's sudden Dragon Transformation was probably for reference. Even if it wasn't the same thing as "rejuvenation of withered wood," similar methods would have similar side effects, and he'd be weak for a while after using it.

"It's alright. With the Holy water pearl, nothing major will happen. " Lin Yi forced a smile.

The after-effects of [rejuvenation of withered leaves] came with a long period of weakness-anywhere from three months to a year and a half. Duanmu Yu was able to recover so quickly not only because of her talent, but also because she wasn't using the complete version of [rejuvenation of withered leaves]. Lin Yi was using the mutated version of [rejuvenation of withered leaves], so the after-effects weren't as bad, but it still couldn't be underestimated. After all, the consumption was too great.

Strictly speaking, Lin Yi wasn't really injured because he was crushed by the brain-eating insect. He just used up too much energy, but the problem was that this wasn't a normal consumption. It was the consumption of opening the last self-preservation valve of his spirit, which was serious.

With his spirit exhausted to this point, it was no better than being injured. Luckily, the Holy water pearl came in handy. Although it couldn't replenish his spiritual energy, it could at least stabilize his spirit. Otherwise, Lin Yi wouldn't be able to retain his consciousness at all and would've fallen into a self-dormant state.

He used the sacred water pearl to stabilize his spirit while absorbing the last bit of consciousness energy from the star Ink coal. Lin Yi knew that he had to recover his strength as soon as possible, or he'd be in trouble if something happened again.

Duanmu Yu didn't waste any more time and turned to Lin Yi,"Get on!"

"You're piggybacking me?" Lin Yi grinned and added subconsciously, "I'm a man. "

"Nonsense, I know you're a man. What's wrong with me carrying you? you even hugged me before, so we're even!" Duanmu Yu urged. She didn't put as much importance on the difference between a man and a woman as other girls did, or she would've been too embarrassed to show her face to anyone after being carried by Lin Yi in her undergarments. She wouldn't be acting so openly with Lin Yi like this.

"Alright," he said. If even Duanmu Yu didn't mind, Lin Yi didn't mind either. The tide was rising again, and he didn't have the energy to move around. He had no choice.

Lin Yi immediately climbed onto Duanmu Yu's back. She was a tough woman, but he could still smell a refreshing fragrance from her neck. Perhaps it was because she spent a lot of time with the leaves in the spirit leaf sect, but the fragrance was different from that of a normal woman. It was more like an ancient wood scent rather than a body scent, and it actually made him feel refreshed and alert.

"Be good and don't breathe into my neck!" Duanmu Yu frowned and spat.

"I didn't do it on purpose ..." Lin Yi smiled bitterly. He had overexerted himself, and it was natural for him to gasp for breath. Did he really have to hold it in at a time like this?

"Then don't breathe in there. Also, why are you so light?" Duanmu Yu mumbled. She thought that a man like Lin Yi would be at least a hundred and forty pounds, but she didn't expect him to be so light on her back. If it wasn't for Lin Yi's arms around her neck, she was afraid that a gust of wind would blow Lin Yi away.

"I'm a primordial spirit. Of course, I'm much lighter than you." Lin Yi smiled bitterly again. Normally, it wouldn't be this light, but he used up too much energy right now. It was already very difficult to maintain the form of an essence spirit. He didn't have time to care about it.

Duanmu Yu responded with an "Oh," but didn't retreat to the shore immediately. Instead, he ran towards the consciousness grass. She and Lin Yi fought with their lives for this thing, and now that Lin Yi had defeated the brain-eating insect, of course, they couldn't leave this treasure behind.

Chapter 5302 What A Mood

But before she could do it, Lin Yi suddenly spoke up from her back, ""Be careful!"

"What's wrong?" Duanmu Yu was shocked. He saw a giant mudfish coming from the mud. It was the brain-eating insect that Lin Yi had just crushed. It wasn't dead!

A centipede would never die, not to mention a brain-eating insect with a heaven-defying life force. Lin Yi even suspected that it had devoured the brain of some earthworm-type spirit beast. Even if the head was gone, the rest of the body could still survive and become a new individual.

He had underestimated his enemy! Lin Yi couldn't help but sigh. It wouldn't have been this bad if he'd gotten rid of his body as well, but the Dragon form was at its limit. He might've died if he kept it up, so he had to get rid of it early. He didn't expect that there would still be hidden dangers.

But it was too late. Lin Yi wasn't completely weak right now, but he didn't have any strength to speak of in a short time. The only way to save his life was to turn into a spirit and leave it to fate.

But that was the last resort. Although a spirit was mostly unharmed, it would be doomed if it encountered something like the refinement fire that restrained the spirit. Lin Yi wouldn't do that even if he was at his peak, let alone now that he was so weak that he couldn't even take a single blow. Maybe the opponent wouldn't even need to specifically target him-his spirit would be destroyed in a gust of wind.

After all, a brain-eating insect was still a brain-eating insect. Although it had been abused beyond recognition, this sneak attack on the verge of death was still very powerful. Even if it was not even half of its peak state, it was enough to deal with an ordinary jiedan stage master.

Lin Yi could even hear the brain-eating insect's excited cry. As long as it succeeded in its sneak attack, it could counterattack and activate its brain-eating talent!

Unfortunately, it had forgotten one thing. Although Duanmu Yu was only an unremarkable Foundation Paragon expert, this woman's methods were not as weak as her level of strength.

BOOM! A piece of iron leaf firmly blocked the brain-eating insect's sneak attack at the last moment. The strength of the force actually forced it back. The leaf was like a mountain!

However, the opponent's attack was too strong. Duanmu Yu was also sent flying. Even so, she didn't forget to take care of Lin Yi behind her. She managed to turn her body over before she fell into the mud. Lin Yi was on top of her, and she fell face on, her face covered in mud.

"Why bother?" Lin Yi was a little touched-Duanmu Yu didn't have to do this at all. He could've jumped away before he hit the ground, but that would've damaged his soul.

"Pfft!" Duanmu Yu spat out a mouthful of mud from his mouth. The mud had been poured into her nose. As he vomited without a care for his image, he casually said in an uncaring manner, "It's fine, it's just a mouthful of mud. It's not a big deal. "

"You're really a tough woman!" Lin Yi said sincerely.

"Tomboy? What do you mean by that?" Duanmu Yu frowned.

"Young lady is truly a warrior." Lin Yi rephrased.

Duanmu Yu laughed when he heard this. He didn't take it to heart. Instead, he frowned and guarded against the brain-eating insect that was still alive. The mountain of leaves was already her strongest display, but she didn't expect that she still couldn't win against a brain-eating insect that was on the verge of death. The gap between them was really shocking.

Not only that, but the most troublesome thing was that the brain-eating insect had completely turned into a Loach, quietly burrowing in the thick mud, and couldn't be detected even with spiritual awareness.

The sludge could greatly suppress the perception of spirit sense-Lin Yi had already experienced this on the Sky Class Island. He used this to avoid the old sect master's spiritual lock-on back then. Even if the two types of sludge couldn't be compared, the effects were similar. Moreover, the perception of Duanmu Yu's level wasn't that strong, so it was normal that he couldn't find the brain-eating insect.

If Lin Yi wasn't so weak, he might be able to lock onto the brain-eating insect with his powerful spirit sense. Unfortunately, that was a false proposition. He only relied on the Holy water bead to stabilize his spirit. Forcefully releasing his spirit sense to search for the brain-eating insect was no different from self-harm and even suicide.

"Let's go," he said. Lin Yi sighed. The river was slowly filling up, and it was almost up to his calf. The bad feeling in his heart was getting stronger and stronger, and his instinct told him that if he didn't get back to the shore now, something bad was going to happen.

"But ..." Duanmu Yu also knew that the situation was not good. She did not know where the brain-eating insect was hiding, but one thing was for sure. If she continued to pick the spiritual grass, the other party would definitely launch another sneak attack. She had already used falling leaves in autumn twice and mountain of leaves once. The consumption of Zhen Qi was not small. She might not be able to withstand another attack.

Retreating was the wisest choice.

However, the spirit sense grass was right in front of him, so it would be a waste to give it up just like that. It might even become a lifetime regret!

"As long as there's life, there's hope. This spiritual awareness grass won't run away. I'll come back after I recover. I just need to wait one more day." Lin Yi consoled.

It was a bit of a self-deception. The spirit grass did grow here, and of course it couldn't run away, but did that mean the brain-eating insect wasn't interested in it? maybe it would just eat it after they left?

"Alright," he said. In the end, Duanmu Yu's rationality triumphed over his impulse. After making up his mind, he carried Lin Yi on his back and retreated to the shore without hesitation.

The two of them thought that the brain-eating insect would still jump out to stop them, but there was no movement in the mud. They didn't know if it had already escaped or was still hiding in the mud.

But at this time, a figure quickly approached them from the shore. Duanmu Yu and Lin Yi's hearts skipped a beat when they saw the person's face-it was Xue Jianfeng!

No one would have thought that they would actually meet this guy at this time and place!

"Oh my, the two of you got together so quickly. Aren't you afraid of being indecent in broad daylight? the two of you are really open-minded. What a romantic atmosphere!" Xue Jianfeng looked at Lin Yi and Lin Yi with disdain.

"You better watch your mouth!" Duanmu Yu's eyes widened. A tomboy was a tomboy, but that didn't mean she didn't care about a woman's reputation. If she let Xue Jianfeng talk nonsense, she and Lin Yi would never be able to clear their names.

"Alright, alright, alright. I'm not a big-mouthed person. After all, she's the big Senior Sister of spirit leaf sect. I can't ruin the sect's reputation over such a small matter. I understand." Xue Jianfeng revealed an expression of understanding, as if he was certain that there must be an affair between the two.

Chapter 5303 The Spirit Sense Grass Was Stolen

"You know nothing!" Duanmu Yu was completely enraged. If it wasn't for the fact that he was only at the Golden core stage, and that she was carrying a weak Lin Yi, she would've slapped him already.

"Alright, then I'll just pretend that I don't understand. But I really don't understand, are you, this tomboy, too hungry and thirsty? you actually squeezed the Grand uncle-master of the North Island's Qingyun school to this extent, are you going to die from exhaustion? As the saying goes, even if you die under a peony flower, you'll still be a romantic ghost. Although you're not a peony flower, you're still pretty. It's a blessing to die on a woman's belly, I can't envy you!" Xue Jianfeng's words were full of

sarcasm, completely forgetting that Lin Yi had just saved his life a few days ago. His true nature was revealed.

"You!" Duanmu Yu was furious, but Lin Yi interrupted him. He looked at Xue Jianfeng and said, "What are you doing here?"

"Hehe, of course it's for the spirit sense grass!" Xue Jianfeng laughed as he stared at the spirit sense grass that had been slightly submerged by the river.

"You know about spirit sense grass?" Duanmu Yu was startled.

"Of course I know. Why else do you think I spent so much effort to come here? if I can't find the spiritual grass, this once-in-a-thousand-years ancient trial is nothing!" Xue Jianfeng said with a proud expression. Although there were very few people in the ancient martial world who knew about the spiritual awareness grass, his father was the Vice sect leader of snow sword sect after all. He was also one of the big shots on the surface, so it was not strange for him to know some secrets.

"So you've been hiding on the shore and watching from the start?" Lin Yi said suddenly.

"That's right. You're all so fierce. How could I dare to come up here?" Xue Jianfeng chuckled.

He didn't know that Lin Yi and Duanmu Yu were here at first, nor did he know that the two found the consciousness grass. He was purely attracted by the brain-eating insect in the sky, and he saw the whole confrontation between Lin Yi and the brain-eating insect.

To be honest, Xue Jianfeng was really shocked by the two's strength. He was glad that he didn't show up. Otherwise, even if he was a peak Jindan, he would be one-sided against Lin Yi, whether it was the brain-eating insect or the Dragon.

Fortunately, he was wise enough to choose to sit on the mountain and watch the Tigers fight. Moreover, the heavens were also taking care of him. He actually managed to create a situation where both sides suffered losses, and he just happened to benefit from it!

Right now, the brain-eating insect was already half dead, and Lin Yi looked like he was about to die. As for the remaining Duanmu Yu, Xue Jianfeng didn't even put him in his eyes. He was a peak Jindan stage master, and it was fine to be afraid of a freak like Lin Yi, but couldn't he even handle a mere Duanmu Yu?

"So, the spirit sense grass is now in your possession." Lin Yi's tone didn't have a hint of emotion, not even a hint of heartache or regret. He was just stating an objective fact.

Duanmu Yu didn't want to give up, but what Lin Yi said was right. Xue Jianfeng had gotten a great deal this time, and he was really going to miss out on the spirit grass.

Now that things had come to this, he had to lower his head.

"Thank you, thank you." Xue Jianfeng cupped his hands in return, not at all sincere. Seeing that the two didn't stop him, he laughed proudly and walked towards the spirit grass. With this thing, he could become the strongest golden core stage master. At that time, even Lin Yi and the brain-eating insect could only tremble under his feet. Just thinking about it was a beautiful scene!

Unexpectedly, just as he bent down to pick the spiritual grass, the brain-eating insect, which was no different from a Loach, actually came out of the mud and attacked menacingly.

"Oh? Could it be that this guy is the spirit beast Guardian of the Spirit sense grass?" Xue Jianfeng couldn't help but be surprised. Normally, a spirit beast would have run away long ago after being injured like this. Even if it stayed, it would at most be able to ambush strong bows like Lin Yi and Duanmu Yu. He was a peak Jindan stage expert, where did this spirit beast get such courage from?

Although he was surprised, Xue Jianfeng's reaction was not slow at all. From the beginning to the end, he did not take it lightly. He had noticed the brain-eating insect's movement at the first moment, and before the other party hit him, he had already launched his attack. One sword fell to the nine Heavens!

Pfft! Blood splattered everywhere, and the already injured brain-eating insect was once again injured. If it was in its peak condition, one sword from the nine Heavens might not be able to break through its defense, but it was no better than Lin Yi right now. Half of its body was cut off by Xue Jianfeng, and it fell into the mud without any movement.

"Hehe, you're so weak, yet you still dare to come out and court death. A beast is a beast, you're brainless!" Xue Jianfeng was very satisfied with his battle results. He turned around and saw that Duanmu Yu was already carrying Lin Yi back to the shore. He felt a little regretful that no one was here to appreciate his magnificent scene.

He looked at the spirit sense grass that was submerged in the water. At this time, the water was already waist deep. If he didn't pick it now, it would be troublesome. Xue Jianfeng quickly went up and cut it off from the roots, then picked up the spirit sense grass.

However, in the process of bending over to pick up the spirit sense grass, his entire body was inevitably immersed in the water. This was a big deal. Xue Jianfeng's expression changed greatly, and he rushed out of the water with all his might. He didn't hesitate to use [traceless in the snow] and fled to the shore with all his might.

Traceless snow step was not only a movement martial skill that could double one's speed, but it also had the miraculous effect of a Dragonfly skimming the water's surface. Every step he took would cause ice and snow to float, so he would not sink into the water.

"What's the situation?" Duanmu Yu was shocked, but before she could react, Xue Jianfeng, who was behind her and Lin Yi, was already in front of them.

"Quickly run!" Lin Yi quickly urged. The most shocking thing right now wasn't the snow sword's reaction, but the state of the entire river of consciousness. The tide rose and fell at the same speed two days ago, and there was nothing special about it, but now, the tide rose and fell like the Yellow River bursting its dam, and it was unstoppable!

Once they were hit by the huge waves, the consequences would be unimaginable!

The situation was critical. Duanmu Yu immediately increased his speed to the maximum. The monstrous waves came at an extremely fast speed. Fortunately, the two of them were not far from the shore. As long as they could escape to the shore in time, they should be able to escape this calamity.

Duanmu Yu didn't drop the ball at the critical moment. Lin Yi was on her back, but she still managed to reach the shore at the last moment. The giant wave was only one step away from them.

Chapter 5304 Go In Peace

Although he couldn't let his guard down now, as long as he returned to the shore, it would be fine. Even if the waves swept over, there would only be some remnants at most, and they wouldn't be too powerful.

"We've finally escaped this calamity ..." Duanmu Yu finally heaved a sigh of relief. Unfortunately, before she could even catch her breath, Xue Jianfeng, who had already reached the shore, suddenly turned around and kicked her without any warning. This kick caught her off guard and landed squarely on her chest.

Before he could do anything, Duanmu Yu and Lin Yi were swallowed by the giant wave and disappeared in the blink of an eye.

"Hehe, a pair of adulterers, rest in peace." Xue Jianfeng's lips curved into a sinister smile. He had been thinking about how to deal with the two from the start. Duanmu Yu was nothing in his eyes, but Lin Yi was his number one enemy. He couldn't do anything to Lin Yi normally, but now that a once-in-a-thousand-years opportunity had presented itself to him, how could he let it go?

However, Lin Yi's Dragon Transformation was too shocking, so even though he knew that Lin Yi was extremely weak, Xue Jianfeng didn't dare to attack. If Lin Yi still had some life-saving methods, it would be troublesome if the whole thing was exposed.

Don't forget that central forbade them from messing with Lin Yi. Just dealing with Leng Leng and the others was already crossing the line. It was him and the professor who made the decision on their own. If the news of them attacking Lin Yi got out, even the professor wouldn't be able to handle the consequences!

Having just gone through Central's intensive training program, Xue Jianfeng had a much deeper understanding of how terrifying central was than Bing Wuqing and the others. If he still had a sense of

superiority over the people of the ancient Alliance in the past, he had completely given up on that thought now. Disobeying orders was betraying, and betraying central was the same as courting death!

Now, Lin Yi and Duanmu Yu were both swept into the river of consciousness. No matter how many tricks he had up his sleeve, he would die without a doubt!

Not to mention the two of them, even Xue Jianfeng himself was scared out of his wits the moment he fell into the water. It was a terrible experience that almost sucked away his soul. It was a nightmare that he would never want to recall in his life.

"This River is so F * cking evil!" Xue Jianfeng mumbled, but he didn't take it to heart. It didn't matter what happened in the river of consciousness. Lin Yi and Duanmu Yu had disappeared from this world without a trace, and the most important thing was that he got the soul grass he had been dreaming of!

Looking at the spirit sense grass in his hand with great interest, Xue Jianfeng suddenly felt cold and shivered unconsciously. At the same time, he felt a little dizzy, but he quickly recovered and frowned, "Did you catch a cold? It's just a little bit of water and it's already like this. This River is really strange. "

He was an expert at the great circle of the jiedan stage. Normally, he should be immune to all kinds of diseases. According to reason, no matter how much he struggled, such a small illness as a cold should not appear on him. Even if he was injured, it would only be by someone else. What kind of situation was this?

After carefully checking his body and finding nothing out of the ordinary, Xue Jianfeng finally relaxed and continued to study the spirit sense grass he had just obtained. Little did he know that at this moment, there was a tiny pinhole in his brain, and in the pinhole, there was an extremely small white Worm quietly sitting.

Xue Jianfeng didn't seem to notice this at all. He sneered proudly as he looked back at the place where Lin Yi and Duanmu Yu fell into the water. He immediately kept the spirit sense grass and left. This place was full of danger, and it wasn't good to stay here for long.

"Isn't it a little inappropriate to leave like this?" Bing Wuqing's figure suddenly appeared as she spoke, and Fei Yangsheng, who was supposed to be following her, was nowhere to be seen.

"You've been following me?" Xue Jianfeng was shocked, and it was as if he was facing a great enemy. He wasn't a fool. When he was dealing with Leng Leng last time, he could still pretend that it was a coincidence that he had encountered Bing Wuqing. However, he had clearly escaped by stepping on the snow without leaving a trace, and Bing Wuqing had still been able to lead the ancient monitor lizard to find him. Now, she had suddenly appeared in front of him. If this was still a coincidence, then it would be ridiculous!

"Compared to all the big things you've done, is my little thing important?" Bing Wuqing said expressionlessly.

"When did you arrive?" Xue Jianfeng quickly asked. He had to confirm whether the other party knew that he had killed Lin Yi or not. This was a life-and-death matter!

"Just now," Bing Wuqing's answer made him heave a sigh of relief, but his heart immediately fell to the bottom. ""When you kicked Lin Yi and Duanmu Yu down the stairs."

"Bullshit! I clearly only kicked Duanmu Yu!" Xue Jianfeng quickly clarified.

"Yeah, too bad Lin Yi was on her back when you kicked him. I saw it clearly, there's no point in trying to argue." Bing Wuqing said with a strange expression.

"You ..." Xue Jianfeng was rendered speechless for a moment. He had never thought that his lucky kick would actually be seen by Bing Wuqing!

If it had been anyone else, he could have killed them to silence them with his strength. But this was Bing Wuqing. They were both at the peak of the gold core realm, and her strength was not any weaker than his. Most importantly, she was also a central member like him. If this matter were to be disclosed to the higher-ups, the consequences would make his heart go cold!

In a moment of desperation, Xue Jianfeng's eyes turned and he suddenly said: "I know! You're Lin Yi's man!"

"What did you just say?" Bing Wuqing's eyes flickered.

"You're Lin Yi's man!" Xue Jianfeng repeated with a cold smile. What he said just now was just a wild guess, but after seeing Bing Wuqing's reaction, he was suddenly sure of it. That's right, this guy was Lin Yi's man. This was the only way to explain all the illogical things that had happened before.

"Tell me." Bing Wuqing wasn't flustered or exasperated. Instead, she was all ears.

"Hehe, I've already thought it through. There's only one place for the Central's focused training program, and that's me. Otherwise, even if the professor didn't tell me, I would've heard some news from the

researchers. Unfortunately, there's nothing, which means I'm the only one from the beginning." Xue Jianfeng deduced confidently.

"So what?" Bing Wuqing retorted.

"Since you didn't get into the intensive training program, then there must be something fishy about you breaking through from the late-stage to the full-stage of the Golden core in just one and a half months. In the entire secular world, there's only one person who can do this, and that's Lin Yi!" The more Xue Jianfeng spoke, the more certain he became.

Chapter 5305 I'll Say Whatever You Say

It wasn't just Leng Leng. Lin Yi had given a lot of elixirs to the people around him, and they weren't ordinary elixirs at all. This guy's background was mysterious, and since he could casually give away golden cores to foundation building cultivators, it was natural that he could get golden cores. Without a doubt, Bing Wuqing's breakthrough must have come from her golden core.

"Continue." Bing Wuqing looked at him calmly.

"You received Lin Yi's pill, that's why you were able to level up twice, isn't it?" Xue Jianfeng sneered.

"He's not related to me at all, and there's even a grudge between us. Why did he give me the pill?" Bing Wuqing retorted.

"Hmph, that goes without saying. Of course, I'm using pills to win you over. Otherwise, why would you help Leng Leng so much, and why would you live in peace with Lin Yi? Bing Wuqing, you can't explain yourself. You'd better just admit to this." Xue Jianfeng said proudly.

"Nonsense. Don't forget that you and I have both eaten the pills from central. If I give you two golden cores, do you dare to betray central?" Bing Wuqing snorted.

"Uh ..." Xue Jianfeng was taken aback for a moment before he finally realized that there was such a thing. His previously high-spirited expression instantly turned dull. Just as Bing Wuqing had said, who would dare to betray central if they didn't get rid of this fatal weakness?

"Plus, if Lin Yi really did come to recruit me, I wouldn't be completely at ease with him. He'd definitely do something to me like central did. You probably forgot again, central has regular physical examinations." Bing Wuqing snorted coldly.

Xue Jianfeng didn't know what to say anymore. He would never have thought that Lin Yi could not only get rid of Central's control over them, but also get Lin Dongfang to put a Gu on them. Even Central's high-tech equipment couldn't detect it.

"No matter what, there's a lot of suspicious points about you, and it's a fact that you're not clear with Lin Yi!" Xue Jianfeng argued.

"Whatever, you can tell this to the higher-ups if you want-I'll tell them about you kicking Lin Yi into the river too, we'll see who'll be the unlucky one." Bing Wuqing said indifferently, without any fear.

"You ..." Xue Jianfeng choked again. He rolled his eyes and didn't know how to refute, so he said, ""What do you want?"

"I don't want anything, it's just that whoever sees it gets a share of the treasure. You're holding such a long stalk of spiritual grass, you can't be thinking of taking it for yourself, right?" Bing Wuqing's eyes were bright as she stared at the spiritual awareness grass.

Anyone would want a treasure like the spiritual grass. It was a fatal temptation for any golden core expert, and Bing Wuqing was no exception.

Xue Jianfeng also knew that this matter would not be settled so easily. If he wanted to seal Bing Wuqing's mouth, he had to bleed. Fortunately, there was enough spiritual sense grass. Even if he gave away a part of it, he believed that it would be enough to refine himself into the strongest expert in the Golden core stage.

"I'll give you half, and nothing will happen today!" Xue Jianfeng said through gritted teeth. In fact, even if he had not been caught red-handed, he would not have taken the spiritual awareness grass for himself today. Since he had seen it, Bing Wuqing would not be so easy to get rid of.

"Alright." Bing Wuqing agreed readily. In such a dangerous place, she didn't want to risk fighting Xue Jianfeng. After all, Xue Jianfeng could escape at any time with his traceless snow step. Unless he set up an ice cage like last time, it would be time-consuming and energy-consuming, and it would definitely turn into a fight to the death, which was not the situation he wanted.

Bing Wuqing wasn't greedy, and half a divine sense grass should be enough. If she wanted more, she would have to go all out and snatch it from Xue Jianfeng. It was too risky, and not worth it.

Xue Jianfeng immediately cut off half of the consciousness grass, but he didn't throw it over. Instead, he warned, ""If you don't keep your word, don't blame me for fighting you to the death."

"When have I ever gone back on my word?" Bing Wuqing looked at him from the corner of her eyes.

"Alright," he said. Xue Jianfeng immediately threw the remaining half of the spiritual grass over. Although Bing Wuqing had always been cold and emotionless, she was a person who kept her word. In this regard, she was much more reliable than Xue Jianfeng.

But then again, putting aside the fact that Bing Wuqing wasn't an open and aboveboard gentleman, even if he were, with Xue Jianfeng's villain heart, he wouldn't completely trust him. The only reason he was so tactful was that he didn't want to fight to the death with the other party.

As for Lin Yi's death, there were no witnesses-not even a corpse could be found, and there were no other witnesses. The higher-ups might not believe Bing Wuqing's words.

Besides, Xue Jianfeng could totally throw mud at Bing Wuqing like he did just now. Whether it was true or not, since they were both dirty-minded, they could only argue with each other, and there wouldn't be any real threat.

"We'll meet again," Xue Jianfeng snorted and left quickly using traceless snow. Although he had told them about Bing Wuqing's setback, he was actually in a good mood. Not only did he get the spiritual sense grass as he wished, but he also killed his number one enemy, Lin Yi. It was Double Happiness, and he had to celebrate it.

However, it wasn't the time yet. This test wasn't just about Lin Yi-he wanted to get rid of all the other geniuses that could threaten him in the future. He had to get rid of them all, like the flying spirit of a thousand blades.

Xue Jianfeng left, but Bing Wuqing didn't leave immediately. After carefully putting away the deified soul grass, she looked at the river of deified soul, which was gradually calming down, and fell into deep thought.

Not long after, a figure stumbled out of the dense forest behind them. It was Fei Yangsheng, who had been left behind. He was overjoyed to see Bing Wuqing. "Martial uncle Bing, you're walking too fast. I really can't catch up."

"Then stop chasing." Bing Wuqing said indifferently.

"Ugh, how can I do that? Lin Yi-qianbei ordered me to follow you, how can I go against his wishes?" Fei Yangsheng chuckled. He was afraid that Bing Wuqing would abandon him, so he used Lin Yi's name. Little did he know that Lin Yi had already been kicked into the river with Duanmu Yu.

Bing Wuqing didn't comment, but looked at the river with a complicated expression. When Xue Jianfeng had kicked the two into the river of consciousness, he had just arrived. If he had used all his strength, he actually had a chance to stop it, but he would have to take a great risk.

He'd hesitated, thinking that Lin Yi wouldn't fall for it so easily-he didn't think that he'd actually fall into the river with Duanmu Yu, catching him off guard.

Of course, he wasn't loyal to Lin Yi at all. He accepted the offer because he knew what was good for him. If Lin Yi died, he wouldn't be sad at all. However, he was worried about the Gu in his body. What if Lin Yi really died and the Gu poison acted up again? what would he do?

Chapter 5306 The River Of Certain Death

However, health-maintenance Fei was completely unaware of this. Instead, he looked at the river of consciousness in front of him and said excitedly, "This is the river of consciousness, right? That's great, it's said that there's a treasure in the river. Martial uncle Bing, should we go into the river to look for it?"

"If you're not afraid of death, you can go." Bing Wuqing glanced at him speechlessly. The ignorant truly had no fear. The river of consciousness was so dangerous that even a peak golden core expert like Xue Jianfeng was scared out of his wits, and the Almighty Lin Yi was buried with Duanmu Yu in the river. If a piece of trash like Fei liangwei dared to enter the river, he would definitely die a miserable death.

"Uh ..." Health-maintenance Fei had been eager to put his foot down, but when he heard Bing Wuqing's tone, he quickly pulled his foot back. He was ignorant, but he wasn't a fool.

Bing Wuqing couldn't be bothered with him. Since he had already gotten the spiritual awareness grass, he had already completed his mission. Without any hesitation, she turned around and left.

"S-martial uncle Bing, wait for me!" Fei Yangsheng looked at the river of consciousness unwillingly, but in the end, he quickly followed Bing Wuqing. Although tempering one's consciousness was tempting, it was not worth mentioning compared to his life. Greed could kill one in such a place.

The people on the riverbank left one after another. Lin Yi and Duanmu Yu, who had been swept into the river of consciousness, didn't die on the spot as they had expected, but their situation wasn't any better.

The river of consciousness wasn't muddy at all, it was quite clear, and the bottom could be seen at a glance, but after the two were swept in by the wave, all they could see was darkness, not a single ray of light.

This was not all. The most important thing was that the suction force of the river water was extremely strong. It was like a bottomless Whirlpool. Even with Duanmu Yu's strength, he was unable to struggle in the slightest. No matter how hard he tried, it was all in vain. He could only feel his body rapidly sinking, and he was unable to reach the bottom of the river for a long time.

As for the already weak Lin Yi, he didn't even have the strength to struggle now. Although he could escape by turning into his soul form, the risk was too high. Based on his intuition, there was at least a 50% chance of his soul being destroyed.

Besides, Duanmu Yu was here too. Even if he could escape, Lin Yi wouldn't just leave Duanmu Yu alone.

Lin Yi subconsciously hugged Duanmu Yu even tighter-this was a life and death situation, and there was no such thing as love between men and women. The only thing he could think of was that they couldn't be separated, or he'd be screwed.

Duanmu Yu had the same thought. Her survival instinct urged her to turn around and hug Lin Yi tightly. She didn't know what the situation was, but just like how Lin Yi was able to help her break the water lotus Protector's illusion last time, if there was a chance of survival this time, it was Lin Yi who could help her escape death.

Lin Yi's position in Duanmu Yu's heart had become so reliable without her even realizing it. If it weren't for the fact that they were in a life and death situation, she wouldn't have imagined it herself.

At a time like this, both Lin Yi and Duanmu Yu didn't have the slightest bit of sexual thoughts. They were both trying their best to sense their surroundings. It didn't matter if there was no light-they could still use their spirit sense to see things. No matter how much they could sense, even if it was just a little bit, the more they understood, the higher their chances of escaping.

However, due to the strong suction of the river, the two of them could only sense a limited number of things. They could only sense the endless darkness and the cold river water.

After a long time, the powerful suction that had been pulling the two of them suddenly disappeared, but to their surprise, the two of them did not sink to the bottom. Even the river became extremely abnormal. They could not feel any buoyancy at all, and they could even breathe freely in the water as if they had entered an indescribable void.

"This place seems to be an illusion." Lin Yi said, deep in thought. He wasn't completely sure, but this place did give him a hallucinatory feeling. It was different from the Lotus Protector's illusion, though. This place felt like a strange space that was both real and illusionary at the same time. The weirdest thing was that he didn't feel any buoyancy, but the two of them were floating as if they were in outer space, free from gravity.

Duanmu Yu, on the other hand, was so shocked that she even forgot to push Lin Yi away. "We're finished, we can't go back. "

"Why can't I go back?" Lin Yi blinked. They'd just been sucked into this strange space, and hadn't even had the time to explore it. How could they just jump to conclusions so easily and give him the death sentence? Duanmu Yu wasn't someone who would give up so easily.

"Before I came out, my master had specifically warned me that no matter what happens, I must not fall into the river of consciousness. In history, no one who fell into the river has ever come out alive, they will die without a doubt." Duanmu Yu said with a bitter smile.

"Really?" Lin Yi was moved.

"I was also suspicious about this before, but since the spirit sense grass is real and what happened just now is also true, there's nothing to doubt. We have to believe it, we are indeed trapped here." Duanmu Yu let out a long breath and said.

This was completely different from when he was trapped in the mirror world. At least he knew that it was the work of the water lotus Protector. As long as he could find the body of the water lotus Protector, the problem would be solved. But now, he was trapped in the river of consciousness. It was not man-made, but a fantasy of nature. Unless it had an exit, there was no way to break out.

If there was really an exit in this place, a few of the people who had fallen in earlier would have been able to escape. It was unlikely that none of them would have been able to come out. Thinking about it carefully, it was indeed a disaster.

"That's not for sure. Don't be discouraged. Let's explore this place first. We'll think of a way after we've figured it out." Lin Yi wasn't too worried about himself-the worst case scenario for him was ending the soul projection at the last minute. Since he could still clearly feel the connection with his body, he believed that even the environment wouldn't be able to stop him from returning to Tianjie Island.

But Duanmu Yu couldn't-if Lin Yi went back to Sky Class Island, she'd be dead for sure if she was left alone.

"Then ... Let's see?" Duanmu Yu finally regained his calm. The main reason why she had lost her composure earlier was because she had been frightened by that rumor. After she had reacted, even if she had truly fallen into a desperate situation, she would not have panicked.

Chapter 5307 Spirit Sense Grass Root

"Yes." Lin Yi nodded. If he wasn't so weak right now, it wouldn't be hard for him to explore this strange space with his spirit sense. Unfortunately, he was still busy absorbing the last bit of spirit sense energy from the star Black coal, so he could only let Duanmu Yu take charge of this for now. If he had to rely on himself, it would be too much.

Duanmu Yu floated in mid-air as he brought Lin Yi along to explore the area. In the Foundation Stage, although everyone in the ancient martial world had started to train their spirit, their level was still too low. Their spirit sense's range was very limited, and even a well-known figure like Duanmu Yu couldn't even reach one percent of Lin Yi's range. It was easy to imagine how difficult it was to explore a space in detail.

However, this was the only way. Although waiting for Lin Yi to recover was not a bad idea, it was too risky. They suddenly fell into this strange space, and of course, they had to understand their situation as soon as possible. What if there was something extremely dangerous hiding around them?

Not long after, Duanmu Yu suddenly stopped her movements. Her divine sense had clearly sensed a huge and thick object blocking her way. Moreover, it was emitting a familiar aura.

"This aura ..." Lin Yi reacted first and released a bit of his consciousness to sense it. "Why does it feel exactly the same as the spirit sense grass?"

"The root of the spirit sense grass! This was the root of the spirit sense grass! The legend is actually true!" Duanmu Yu suddenly became excited.

"The spirit sense grass is so thin, how can its root be so thick and huge, did you remember it correctly?" Lin Yi was shocked. He found it hard to believe, but he was 80% convinced. After all, the exact same aura couldn't be fake.

"That's right! It's definitely correct!" Duanmu Yu was extremely certain. He said excitedly, "It's said that the spirit sense grass can only be harvested from the top portion. Although it's an extremely rare heavenly treasure, if you just eat the leaves, the effects are limited. It's not as exaggerated as people think. It's said that the true essence of spirit sense grass is its roots, but there have been very few people who have found it in history. Even if they found it, they would only hurriedly cut off the leaves, not the roots. "

"Indeed, with such a huge root, most people wouldn't be able to take it away even if they cut it off." Lin Yi nodded.

"Yes, and the roots grow in such an unfathomably deep place. There's no way to cut it from above, unless you're caught up in it like us." Duanmu Yu's expression couldn't help but become a bit dejected. Although finding the Roots of the Spirit grass was a pleasant surprise, it couldn't solve the current predicament. If they couldn't find an exit no matter what, what was the use of finding more spirit grass?

"There is always a way out. Since we have been dragged into this, we will naturally find a way out. I believe in this without doubt." Lin Yi said in a deep voice. If it weren't for the faith he had, he and Duanmu Yu might still be in the mirror world.

Duanmu Yu went silent for a moment before looking at Lin Yi deeply in the dark. He then smiled, "That's true. I've been too obsessed. As a cultivator, I should stick to my heart and press forward. This is my first lesson before I entered the sect. I didn't expect to throw it to the back of my mind when I encountered a little difficulty. I'm really ashamed."

"It's normal for people to lose their sense of propriety in such a situation. It's inevitable. " Lin Yi said with a smile, not taking it seriously.

"Oh, really? Then why don't you have it?" Duanmu Yu asked.

"As for me ... Hehe, I've experienced it many times, so I'm naturally used to it." Lin Yi smiled faintly-it was the truth, but it was also because he was at a high enough level. Small problems like this weren't a big deal for someone like him.

"You speak as if you're really an ancient primordial spirit that's experienced the vicissitudes of life!" Duanmu Yu smiled. After knowing so much about Lin Yi, she was sure that he wasn't an ancient soul. But then again, Lin Yi was a mysterious person. The more she interacted with him, the more mysterious she felt.

"Then change the prefix. I can afford to be an essence soul of the mortal world or a heaven-grade Island." Lin Yi said casually.

"Don't be silly. Tell me what we should do next. " Duanmu Yu rolled her eyes at him, but she was much more relaxed after Lin Yi's interruption. She wasn't as tense as before, and she was back to normal.

"What do you mean? Since we've come across such a good thing, of course we should take it away. The roots of spirit sense grass can't be found outside, this is a great opportunity, we can't miss it!" Lin Yi reached out and touched the root of the spirit sense grass, which was like a wall in front of him. He could feel the majestic spirit energy contained in it, and it was different from the star Black coal. It didn't seem to be pure spirit energy, but he would only know the details after he tried it.

"I also know that this is a rare opportunity, but we don't even know how to get out of here. Besides, it's so big, how can we take it away?" Duanmu Yu did not know whether to laugh or cry.

"That might not be the case." Lin Yi's lips curved up in a playful smile. With a thought, the huge root of the spirit sense grass disappeared without a trace.

"Ugh ..." Duanmu Yu was shocked. He remembered that Lin Yi said that he could store any plant in his space when he was fighting the water lotus Protector. The root of the spirit sense grass was huge, but it was still a plant. This might be a problem for others, but for Lin Yi, it was just a thought. A monster was a monster.

"I'll share it with you when we go up, any objections?" Lin Yi asked.

"No objections." Duanmu Yu agreed immediately. Putting aside the fact that Lin Yi wouldn't be able to bring it out without it, this wasn't the time to discuss this. Since he'd already taken the root, he had to find a way out as soon as possible. He wouldn't be able to rest in peace if he used it for his life.

The two of them immediately began to explore the strange space around them, but before they could do anything, a loud rumble suddenly came from far away and quickly approached their direction. In the haziness, they seemed to sense the ancient aura of a giant beast.

Lin Yi and Duanmu Yu were both shocked, but they didn't run away in a panic. They didn't know what this place was yet, and running away would only make them die faster. They might as well take a good look at what was coming.

Chapter 5308 Seeing The Primordial Spirit Again

Very quickly, the loud sound spread to the two of them. The two of them were originally floating in this strange space without any point of focus. Logically speaking, even the slightest fluctuation could easily carry them away. However, the result was unexpected. The two of them could clearly feel the powerful pressure on their bodies, but their positions did not shift at all. They were still in the same place.

Just as the two of them were bewildered, another sound came from the opposite direction, but this time it was no longer a loud bang, but a baby's cry. It was really chilling to hear it in this place.

"What the hell is this?" Duanmu Yu subconsciously leaned against Lin Yi. No matter how strong a woman was, she was still a woman. She couldn't change her nature and weaknesses. Things like ghosts were nightmares to most women, even Duanmu Yu.

"Primordial spirit," Lin Yi's eyes twitched. He didn't need to use his spirit sense anymore. He could see it clearly with his eyes. The thing that was coming at him was glowing on its own. Lin Yi was too familiar with this shape. It was an essence spirit.

However, an ordinary primordial spirit was only a small ball, but the one in front of him was a whole piece. It could be seen that this thing's body was either very large or very strong!

"Primordial spirit? Why is there a primordial spirit in this place?" Duanmu Yu was startled.

Lin Yi was confused as well. From the moment he and Duanmu Yu fell into this place, everything they saw and heard made him feel weird. Not only did they find the root of the spirit grass, but now there was a huge ball of essence spirit. What was going on?

Just as the two of them were feeling puzzled, a furious voice suddenly exploded in their minds at the same time, "" Greedy and stupid humans, you actually dare to covet my treasure, I will make you die without a burial ground, ah ah ah!"

The voice came from the spirit in front of them, and it was like a bunch of children repeating themselves. Lin Yi and Duanmu Yu's heads were about to explode.

"What do you mean by your treasure?" Lin Yi asked, suppressing his headache.

"Of course it's the root of the spirit sense grass! "Every time I let you humans in, your first reaction is to cut off the Roots of the Spirit sense grass. You can't even save your own lives, and you're still so stubborn. Hurry up and hand over what you've cut, and I can consider letting you die a less painful death ..." The primordial spirit suddenly paused here, and then its voice suddenly rose to a higher pitch." Where's the stuff? Did you cut off such a big spirit sense grass root?"

"I didn 't." Lin Yi shook his head. He was telling the truth-he didn't cut it, he just put the entire root into his Jade space.

"Impossible! It's impossible for such a big root to disappear on its own. Where are you hiding? hand it over, or I'll make you wish you were dead! Ahhhhhhh!" The primordial spirit seemed to be on the verge of going berserk.

"I really didn 't. Look at us, we're standing here empty-handed, and we don't even know where we are. Where can we hide?" Lin Yi continued to play dumb.

The spirit fell silent. Lin Yi guessed that even if this guy wasn't the creator of this space, it was at least a controller. Nothing that happened here should be able to escape its grasp. However, the existence of the Jade space was an incomprehensible variable, so it was no wonder it was confused.

"It's definitely your doing! During this period of time, I didn't let anyone in except you. Who else could it be? I'll give you one last chance. If you don't take it out, don't blame me for being impolite. The feeling of living a life worse than death will definitely be unforgettable for you!" The primordial spirit threatened.

"No means no, you can look for it yourself. Do you think it can escape your perception in this place?" Lin Yi said calmly.

Duanmu Yu could not help but smile from the side. Initially, she was a little nervous when she suddenly encountered such a strange primordial spirit. After all, the other party's terrifying pressure, which was like that of a prehistoric giant beast, was not fake. Even if this fellow was only a primordial spirit, it was definitely not an existence that could be provoked. The feeling it gave her was even more unfathomable than that of the water lotus Protector and the brain-eating insect.

But now that Lin Yi interrupted her, Duanmu Yu wasn't panicking at all. The water lotus Protector was taken by Lin Yi, and the brain-eating insect was also beaten up by Lin Yi. Now that he was facing such a mysterious and strange primordial spirit, she believed that Lin Yi would have a way.

This was a kind of trust that came out of nowhere. If Lin Yi knew about this, he wouldn't know whether to laugh or cry. In his current weak state, he would be thankful if he could survive. How could he deal with this weird soul?

"Nothing in this place can escape my senses!" The primordial spirit was indeed very confident, but then it said,""But the root of the spirit sense grass has disappeared. I don't know how you guys did it, but there's no doubt that you guys did it! If I'm not wrong, that should be you!"

Before he finished his words, a strange head suddenly emerged from the primordial spirit. At first glance, it looked like a snake, but it had two ferocious wings and ears. He did not know what kind of species it was, but it did exude an ancient and primitive aura.

Lin Yi was surprised-this guy knew how to form a Yuan spirit too? Although it was just a strange snake head, the feeling that it was almost solid was indeed that of a primordial spirit body.

At this time, the strange snake head opened its bloody mouth, and the surrounding water quickly condensed into an extremely thin but powerful Whirlpool, spreading rapidly towards Lin Yi.

"One leaf ..." Duanmu Yu quickly stood in front of Lin Yi, ready to use one leaf like a mountain to block the attack. With Lin Yi's current weakened state, there was no way he could withstand the attack, especially in this place where he couldn't borrow strength and could only float. He couldn't even Dodge.

But before Duanmu Yu could get into his stance, Lin Yi had already pushed her away. He could clearly see that the opponent's target was him without a doubt. Duanmu Yu would only be a fish in the pond if he stayed by the side. He wouldn't be of any help.

Using the counterforce from pushing Duanmu Yu away, Lin Yi dodged and avoided the vortex.

But that wasn't the end-the opponent immediately followed up with the same Whirlpool. It didn't look like it was going to hit Lin Yi, but once it touched him, a bloody hole would be ripped open. This time, Lin Yi had no place to use his strength.

Chapter 5309 Nine-Headed Monster

"Lin Yi, be careful!" Duanmu Yu panicked, but she was a dozen meters away from Lin Yi due to the inertia of being pushed away. She couldn't reach him and could only watch.

However, Lin Yi didn't panic at all. He waited until the whirlpool was about to hit him before he dodged it again. Duanmu Yu didn't even know how he used his strength.

"True energy jet?" The primordial spirit was surprised. At this time, it no longer needed to use divine sense to communicate, but directly relied on the strange and sinister snake head to speak in human language. "You're the fastest human I've ever seen to be able to use true energy jet to move so quickly. However, you're too naive if you think you can survive with such a small trick."

As it spoke, the mass of primordial spirit suddenly surged again. Next to its strange snake head, two more equally ferocious snake heads grew out, one on the left and one on the right. The only difference was their colors. The middle Head was black, while the two new heads were red.

"Three-headed monster?" Lin Yi was a little surprised. If the spirit was a cloud of mist the whole time, it would be hard for him to tell its race. It was like a ghost since it only showed itself in black mist all year round. If it didn't reveal it, Lin Yi wouldn't even know that it was an Azure Dragon.

However, now that the other party had condensed a part of the primordial spirit body, it was different. The primordial spirit body could only be condensed and formed according to the appearance of the main body, and it could not be modified at all. Otherwise, the primordial spirit body would not be stable. In other words, since the other party could condense three snake heads, it meant that its main body must also have three snake heads.

The snake didn't answer. All three heads opened their mouths at the same time and spat out a thin vortex, which crossed with each other and surrounded Lin Yi.

Lin Yi's mouth twitched at the sight-it was a good thing he'd absorbed the star Black coal's spirit sense for a while, and his condition had recovered a little. He wasn't at his peak yet, but at least he could move now. Otherwise, these three whirlpools would've taken his life.

Facing the three vortexes, Lin Yi's body was like a ghost. He moved very slowly, but he changed his direction very quickly, using methods that were impossible to change directions normally.

Lin Yi dodged the three whirlpools without any mishaps. Duanmu Yu's heart was palpitating-she was even more nervous than Lin Yi himself. If she was in his position, she would be dead for sure.

"Oh? How did he Dodge it? Amazing!" The primordial spirit was even more bewildered.

"It's a piece of cake. " Lin Yi smiled faintly. Normal people didn't really use this technique because it consumed a lot of Qi, but it was a common thing for him to do here. He would use it every now and then, and that was why he was so familiar with it. He was already very good at controlling all directions, or he would've been in danger just now.

"Interesting!" This time, his primordial spirit was completely interested. He temporarily put aside the location of the spiritual awareness grass's root and said with interest,"You look like you're at ease. I was just bored and wanted to use you to relieve my boredom, but now I've changed my mind. I'm going to play with you. Don't worry, it's rare to get an interesting toy, so I won't kill you so quickly."

As it spoke, its primordial spirit surged again, and two more pitch-black snake heads grew out from its sides. This time, it instantly became a five-headed snake monster!

F * ck! Lin Yi's face darkened, and he regretted his actions. There was a saying that went, "don't act tough for no reason, you'll be struck by lightning if you act tough!"

The five snake heads spurted out another vortex at the same time, and the only thing Lin Yi could do now was to use his pure energy. He couldn't use other techniques like the butterfly microstep since they were in the water, not on land.

If they were on land, Lin Yi's insane speed would be able to shake off all his opponents, unless the opponent was a giant. Of course, that was a false assumption. The top masters of the ancient Alliance were only nascent soul monsters, where would they get a giant?

However, now that they were in the water, it was impossible to increase the speed by just relying on true energy. They could only use it to Dodge and move.

The five vortexes were packed together, and the gaps between them were extremely small. Even Lin Yi had a hard time dodging them, but he managed to escape death in the end.

"He actually dodged it? You're an expert!" The essence spirit looked at Lin Yi as if it had discovered a new continent.

Five snake heads, ten eyes ... Even with Lin Yi's mental fortitude, he couldn't help but feel his scalp go numb. He could only force himself to reply, ""You're too kind,"

"You're welcome. Then try this. " As the primordial spirit spoke, two more red snake heads grew out. Three black and four red, a total of seven snake heads!

Duanmu Yu, who was standing to the side, was dumbstruck. Seven snake heads. What kind of monster was this?

Lin Yi, on the other hand, was speechless-three if one didn't work, five if three didn't work, and now seven?

The seven snake heads opened their mouths at the same time, each producing a vortex. The seven vortexes stacked on top of each other, and it wasn't just about the size of the gaps anymore-it was a real spider web. Unless Lin Yi could break it open directly, he wouldn't be able to escape unscathed even if he were to shoot himself to death with pure Qi.

The seven vortexes twisted in an instant, and the place where Lin Yi was became empty. He had completely disappeared.

Duanmu Yu's mouth immediately opened wide. He couldn't have been twisted into nothingness by these vortexes, right?

However, she immediately saw a spirit on the other side. This spirit was much smaller than the seven-headed snake monster, and it gave off a much clearer and gentler feeling. It even gave her a very familiar feeling. Duanmu Yu immediately reacted-wasn't this Lin Yi's spirit?

He had no choice. Since he couldn't Dodge it, he had to use this last resort. The vortexes looked powerful, but they had no effect on the essence spirit.

"You're also a primordial spirit?" The seven-headed snake monster was extremely surprised. Every sentence it said was repeated by each head at the same time, and the sound was like a baby's cry. Even Lin Yi, who had turned into an essence spirit, subconsciously felt a headache, let alone Duanmu Yu.

"You just realized? Aren't you a little too slow? I want to ask, what are you?" Lin Yi asked back. He'd heard of nine-headed snakes, but not seven-headed snakes. Plus, this guy wasn't a snake, strictly speaking. At most, his head looked like a snake 's.

Chapter 5310 Eating The Primordial Spirit

"You want to know my original body, right?" The seven-headed snake monster sized up Lin Yi, who had turned into a soul, and nodded happily, ""Not bad, not bad. To be able to get such an interesting toy like you, this is really a surprise!"

"What nonsense is this?" Lin Yi was confused-what was this guy up to?

"Fine, special toys need special treatment. Since you want to know my true form, I'll show you." Before the seven-headed snake monster could finish its sentence, two black snake heads grew out from its side. Not only that, but it also condensed its entire body. At first glance, its body was similar to that of an ancient giant lizard, except that it had two huge, flamboyant wings on its back.

"Nine-headed snake?" Duanmu Yu blurted out upon seeing this.

"That's not right. Out of the nine heads, five are black and four are red, and it sounds like a baby's cry. Although it's a kind of snake that's too strange, it's not a nine-headed snake. If I'm not wrong, it should be the legendary nine-headed infant!" Lin Yi said in a deep voice as he transformed back into his Yuan spirit form. Perhaps he wasn't used to it, but he felt unsafe in this strange environment. Also, only in Yuan spirit form could he absorb the last bit of the star Black coal's spirit energy faster and recover his strength faster.

"Aiyo, you're quite knowledgeable, human. It's rare to see a human who can recognize me at a glance!" The nine neonate immediately laughed. All nine heads laughed strangely at the same time, and it was another ruthless destruction of its ears.

"Is it really the nine infants?" Duanmu Yu's expression changed, and he immediately revealed a look of realization. According to legend, the nine infants were primordial fierce beasts that lived in fierce water. This river of consciousness was obviously not an ordinary River. It would not be an exaggeration to call it fierce water.

This time, Duanmu Yu suddenly felt endless pressure. She was not someone who would be easily frightened. However, the nine neonate's background was too great. Since ancient times, it had been known for its ferocity. Even among the legendary primordial fierce beasts, this fellow was definitely one of the top existences.

During their era, humans were still far from being strong. They were just food for them. It was pure luck that they didn't exterminate the human race. It could only be said that they were not fated to die.

In the face of such an existence, everyone, no matter strong or weak, would involuntarily tremble from the depths of their souls. This was an instinct passed down from generation to generation. If it wasn't for this instinct of fear, humans would have been exterminated long ago if they didn't run away stupidly when they saw the existence of the nine infants.

"You said I'm a special toy. What do you mean?" Lin Yi said as he looked at the nine neonate. He wasn't scared, as he was far from Duanmu Yu's level. Putting strength aside, just the experience on Sky Class Island was enough to keep him calm. After all, no matter how bad * SS the nine neonate was, it couldn't be stronger than the Azure Dragon or the Vermillion Bird, right?

"Nothing much, I just feel bored and need to find some toys to relieve my boredom." The nine neonate chuckled.

"How do you relieve your boredom?" Lin Yi frowned. The situation wasn't in his control, and if he and Duanmu Yu wanted to live, they had to deal with this guy and think of a way.

"Hehe, you humans will let your thoughts run wild when you're bored. If you think too much, you'll easily go crazy. As for me, my problem is more serious than you humans. After all, you only have one head, but I have nine." Two short sentences came out of the nine mouths of the nine infants, which was another headache-inducing torture.

"So what if you have nine heads?" Lin Yi asked.

"Nine heads will make you think more. Since you are also a primordial spirit, you should know that once the primordial spirit overthinks, it will be a big problem. If it's light, it will backfire on the divine sense, and if it's serious, the primordial spirit will collapse. So I thought of a good way to pass time, which is to study moves." The nine neonate explained patiently.

Lin Yi's reaction was quick, "You want to test your moves on me?"

"That's right, that's what I mean. Since I've worked so hard to create so many interesting moves, wouldn't it be a pity if I don't put them to good use? Those humans from before were so weak that they couldn't even withstand a single blow. There's no value in testing them at all. As for my subordinates, other than a protector and an envoy, the rest are also so weak. They're too useless. " The nine neonate said with regret.

Lin Yi and Duanmu Yu were both shocked by the words, and couldn't help but ask, "You're the Lord they're talking about?"

Obviously, the protector it was talking about was the water lotus Protector, and the special envoy was the brain-eating insect. With the strength of these two, ordinary spirit beasts could not suppress them at all, let alone make them willingly bow down. However, the nine-headed fierce beast in front of him was an exception. After all, it was a super existence that had been passed down from the ancient times, so it was completely possible!

"Oh? You know about it?" The nine neonate was stunned for a moment, but it immediately reacted. "That's true. All the spirit beasts who have the ability to occupy a territory here are my subordinates. Moreover, every time someone comes in, they are responsible for sending me human Tributes. It's not strange that you know this."

"I want to ask, why do you want so many human Tributes? is it just to get more human toys?" Lin Yi and Duanmu Yu looked at each other.

"Of course not, if you want to be my toy, you have to at least find the spirit sense grass. If you can't even find the spirit sense grass, you're either too weak or too stupid, how can you be my toy? At most, those people can only be used as Tributes. " The nine neonate paused for a moment, and the next sentence shocked the two. "Tributes are for eating, not for playing."

"Eat?" Duanmu Yu's expression was extremely strange as he turned to Lin Yi, "You need to eat?"

"No need ..." Lin Yi shook his head decisively. Even normal Foundation Stage cultivators could abstain from food, so he, as an essence spirit, didn't need to eat much. But he understood what the nine neonate meant and smiled bitterly, ""I'm afraid it's not eating flesh and blood, but the souls of those people. "

The primordial spirit did not need to eat, but because it existed alone, it lacked the nourishment of the physical body's essence, Qi, and spirit for a long time. In addition, it was more or less consumed when it moved its hands, so it needed to replenish its spiritual energy. In addition to heavenly materials and earthly treasures such as Star Black charcoal, the most common spiritual energy was the primordial spirit of other creatures that could be seen everywhere. Although it was not pure spiritual energy, an existence like the nine neonate would not have indigestion.

"Hehe, if I let people spread the word that the soul consciousness river can temper one's soul consciousness, nine out of ten of you humans would take the bait. If it wasn't for me coming up with the name of the soul consciousness River, who would rush to this damn place? If we're talking about primordial spirits, you humans are the most delicious. Every time I devour them, the seven emotions and six desires are really interesting! And scheming against each other, sinister and cunning. I'm always happy!" The nine neonate's voice was filled with pride.
