

Bodyguard 5311

Chapter 5311 Looking For You To Be My Sparring Partner

Lin Yi and Duanmu Yu understood its intention immediately. They could only smile bitterly at each other. This was a good plan.

This guy deliberately made up the signboard of the river of consciousness and used the refining of spiritual awareness as bait to attract the cultivators of the small Jianghu in the immemorial age. Since these cultivators had already reached the stage of refining spiritual awareness, their primordial spirits should more or less have begun to take shape, but they would not be too strong. For it, they were just snacks that were delivered to its door, one bite one.

The people of the primordial Alliance had tried every possible way to get to the river of consciousness. On the way, they had to face a large number of powerful spirit beasts blocking the way. Those who were slightly weaker had directly become Tributes. Even those who were stronger had to cross the territory of the spirit beasts with great difficulty to get to the river of consciousness. In the end, not only did they not get any benefits, but they had also delivered themselves to the mouth of the nine-headed fierce beast. They would die faster than those Tributes. How could he endure this?

If they had not heard it from the nine infants, they would never have imagined that the legendary river of consciousness was actually a huge scam!

Of course, if one were to consider the spiritual awareness grass, the rumor of refining the spiritual awareness could not be considered a pure lie. Unfortunately, only a few people in the entire ancient martial world knew about this. This time, besides Duanmu Yu, only Xue Jianfeng had come to participate in the trial. The others were probably kept in the dark from the beginning to the end.

"Such a simple empty sentence actually turned into a trap to invite the Emperor into the pot. You really have good means." Lin Yi couldn't help but sigh.

It was clearly a simple lie, but because it had been so long that it could not be verified, it became an almost unsolvable scam. The key was that a large number of people did not know the truth until they died, and no one in the outside world had been able to expose the truth. Therefore, the river of consciousness was still a legend that people yearned for, and the cultivators of the small Jianghu in the immemorial era still rushed forward like moths to the fire.

"No big deal!" Although that was what it said, the word 'smug' was clearly written on each of the nine neonate's snake faces. It then said, ""The things I've developed over the years are much more interesting than this. Come, come, come, it's rare to meet a human toy like you. I must try it to my heart's content today!"

Lin Yi was a little speechless at how eager the other party was. Putting aside the fact that the other party was the ferocious and terrifying nine neonate, why did he suddenly feel like he was an old kid trapped in a cave, Zhou Botong?

"Wait a minute, didn't you say that you still have a protector and an envoy? their strength is much stronger than ordinary spirit beasts. Moreover, there should be a few outstanding spirit beasts under them. Can't they accompany you to test your moves?" Lin Yi changed the topic. He was trying to find a topic to talk about. He wanted to buy time and absorb the last bit of the star Ink charcoal's consciousness energy. The more strength he recovered, the higher the chance of him surviving.

"No, no, don't be fooled by those spirit beasts' looks. They're actually all scums. They're too weak. They'll die with one hit." The nine neonate shook its head repeatedly and said, ""Although that protector of mine can continuously produce clones, the strength of the clones is too weak. They will be shattered with a casual strike. No matter how powerful the move is, the result is the same. There is no way to test out its specific power. Moreover, it does not have an infinite number of clones. If I hit too many of them, maybe one day their souls will be destroyed. Then I will lose my left and right hands."

Just as the nine neonate said, the water lotus Protector's clones could be endless, but they weren't strong. Even Lin Yi could defeat it easily before, so it was even more vulnerable to an existence like the nine neonate. It had no value in testing.

"Isn't there another envoy?" Lin Yi continued to delay.

"It can't either. Although its skin is much tougher than a Guardian's and it can block most attacks, it's only that good. I almost killed it the last time I attacked it a little too hard. It only managed to survive after hibernating for hundreds of years. I value the two of them so much. I can't kill them so easily ..."

The nine neonate's tone was full of relief.

Although it didn't care much about the other spirit beast subordinates, it valued the water lily and the brain-eating insect very much. After all, in terms of racial talent, even if these two couldn't compare to it, they could be considered unique.

Duanmu Yu looked at Lin Yi and couldn't help but think to himself, "one of your left and right arms has already been taken by Lin Yi, and the other was beaten half to death. No wonder you want Lin Yi to be your sparring partner ..."

"Alright, let's cut the crap. I guess you're almost fully recovered, right, human?" The nine neonate suddenly said.

It wasn't stupid, it knew that Lin Yi was trying to buy time to recover, but Lin Yi was just a toy in its eyes. It didn't care about him at all, and it wasn't afraid of him. On the contrary, the higher Lin Yi's strength recovered, the happier it would be. After all, it would be more resistant to attacks!

"It's almost the same. " Lin Yi nodded honestly. He'd already absorbed the last bit of the star Black coal's spirit energy. He wasn't at his peak yet, but he was at least seventy to eighty percent.

"Alright, let's start. I'll give you a simple water and fire dual phase." As soon as it finished speaking, the two heads of the nine neonate each spewed out an extremely pure energy. One was black water, and the other was Scarlet Fire.

After the two energies left his mouth, they quickly entangled with each other, and then forcibly fused into one body that was inseparable from water and fire, which was really an eye-opener.

"Mutual restraint and reinforcement?" Lin Yi was taken aback. The mutual promotion and restraint between water and fire had been an endless debate since ancient times. There were countless Arts and skills in the world of practitioners that were famous for this. It wasn't a big deal to create a similar move, but it was rare to see one do it as flawlessly as the nine neonate. As expected of an old monster from the ancient times!

"This isn't just a simple mutual restraint. You should experience it properly. You'll be surprised!" The nine neonate was full of anticipation. It really wanted to test its moves on Lin Yi this time. Not only did it only merge two energies, but it also slowed down a lot so that Lin Yi could see it clearly. Otherwise, if it really got serious, Lin Yi would be killed by it without even knowing. Wouldn't that be a huge disappointment?

Before he could finish his sentence, he heard a loud boom. Half of the water and fire energy that had fused together suddenly exploded. Then, with the thrust generated by the explosion, its speed suddenly doubled.

Immediately after, there was another boom, and half of the water and fire energy was blown up again, doubling its speed.

Chapter 5312 Run If You Can't Win

And this was just the beginning. A series of explosions followed. With each explosion, the water and fire energy was halved, and at the same time, the speed doubled. At first, it was slow, but after a few dozen explosions, the speed had reached its limit. When there was only a little bit of water and fire energy left, the speed was approaching the speed of light!

With such a terrifying speed, no matter what it was, even if it was the softest tofu, it would become an extremely terrifying weapon. There was a saying that speed was power. The power of light speed was unimaginable, and so was quasi-light speed.

The attack at the speed of light wasn't only terrifying, but it was also impossible to Dodge. As long as it was aimed at him, it was equivalent to hitting him. Fortunately, the nine neonate's water and fire energy was constantly accelerating, or Lin Yi wouldn't even have time to react.

Even so, Lin Yi couldn't use his pure energy to Dodge the attack completely. At this rate, there would definitely be a bloody hole in his body.

However, Lin Yi wasn't stupid enough to take the attack head on. He transformed into his spirit the moment he saw that the situation wasn't looking good, and so the energy pierced through His Spirit at the speed of light. Nothing happened.

"F * ck!" "F * ck!" The nine neonate cursed naturally. It wanted to see what would happen to Lin Yi after he was hit, but it didn't expect him to be so shameless. What was the point of testing his power after turning into a spirit?

Lin Yi turned back to his Yuan spirit form and pouted, ""What kind of weird moves are you making? it's like a series of firecrackers. Do you think this is the new year?"

Although he said that, he had to admit that this guy's wondrous ideas were indeed very good. The prelude of the move just now was a little troublesome, but if it could be improved, just the terrifying speed of the last move at the speed of light was enough to become an invincible killing move.

"What the hell is a string of cannon shots?" The nine neonate mumbled and shook its head before continuing, ""Again!"

This time, it changed its attack, but Lin Yi still managed to Dodge it.

"If you turn into a primordial spirit every time, what's the point of trying?" The nine neonate was suddenly furious. Its moves could only deal with physical bodies and had no way to deal with primordial spirits. After all, it was a primordial spirit. If it really developed a move against primordial spirits, it would be the first to be injured.

In other words, no matter how powerful it was, no matter if it could Dodge or not, as long as Lin Yi turned into a spirit, all its new tricks would be useless!

"I'm not stupid. I know I can't avoid it, but I'm still going to fight it. Do you think I'm stupid?" Lin Yi retorted.

"How about this, as long as you cooperate with me, I can promise to let her go!" The nine neonate's eyes turned as it pointed to Duanmu Yu and suggested.

But Lin Yi shook his head, "No need, you don't need to release her, I can still take her out."

"What big words!" The nine neonate didn't believe this nonsense at all and was ready to make Duanmu Yu suffer as a punishment. However, before it could do anything, Lin Yi attacked first.

It wasn't a pure energy bomb, nor was it the five elements killing intent. Lin Yi knew that this level of attack was useless against the nine neonate, but he still had a way to counter the essence spirit, the pill fire.

A normal fire-type attack would not have much effect on a powerful primordial spirit. Moreover, in this extremely strange underwater environment, fire-type attacks would at least be greatly restricted. However, alchemy fire was different. Normal water could not extinguish alchemy fire at all. The key was that it was the natural nemesis of all primordial spirits.

In the blink of an eye, a ball of alchemy fire was thrown onto one of the nine neonate's heads. The nine neonate immediately cried out in pain, and that head was charred black. It was in a very sorry state.

However, Lin Yi felt that it was a pity that the pill fire only caused it some burning pain, and not enough damage.

After all, the difference in their levels was too big. Lin Yi was only at the peak of Foundation, but the other was the master of the water lotus Protector and the brain-eating insect, so he had to be at least at the nascent soul level. Not to mention that he was in his Yuan spirit form. Although he was afraid of the fire, he could withstand it much better than in his pure Yuan spirit form.

"You actually know alchemy fire?" The nine infant was shocked. Lin Yi was also an essence spirit, and it didn't expect Lin Yi to know alchemy fire. It thought that Lin Yi was a harmless rabbit, but it turned out to be a Big Bad Wolf. It was lucky that it had a high realm, or it would be in big trouble!

"I'm also an Alchemist, is it reasonable that I don't know how to use alchemy fire?" Lin Yi asked with a half-smile.

"You're an Alchemist?" The nine neonate was not the only one who was shocked. Even Duanmu Yu, who was standing beside him, was shocked. Even on the Sky Class Island, alchemy was a rare profession, and it was even more so in the small ancient pugilistic world.

"I'm not lying. " Lin Yi chuckled.

"No wonder!" Duanmu Yu finally understood why Lin Yi was so generous, giving away so many pills as a gift. He made all of them himself, and it was like a human-shaped medicine storage room.

"Hmph, don't think that you're awesome just because you know alchemy fire. Your level of alchemy fire is just like a tickle to me!" The nine neonate couldn't hold it in anymore. It had been looking down on Lin Yi as a toy from the start, and now it was being slapped in the face by a toy. How could it take it?

"Oh, really? Then I'll reluctantly give you a few more scratches. " Lin Yi said as he blew two more flames on the nine neonate's face. The nine neonate's body was huge, and perhaps it was because it was invincible and lonely, but its control of this Yuan spirit body was obviously a little slow. It couldn't Dodge in time and instantly suffered two big losses. It said it was tickling, but it was really unparalleled to be tickled by someone else.

"Brat, don't push your luck!" The nine neonate was finally enraged. Although being hit by three alchemy fires only caused it some pain and did not leave any serious injuries, it still felt very annoyed. The key was that it had lost face. A mere human kept using alchemy fire to hit its face. Who the hell was whose toy?

"It's impolite not to reciprocate. Since you want to use me to test your new move, I can naturally use you to test my alchemy fire. It's fair and reasonable. How can you call it insatiable?" Lin Yi grinned-it'd never been his style to be on the passive side. It'd be fine if he were to be crushed by his opponent's strength one-sidedly, but the point was that he'd run into a nine-headed fierce beast, and he just happened to have the refinement fire. What else was there to say?

Chapter 5313 You Know How To Do It Too?

"Brat, you're very arrogant!" The nine neonate snorted coldly. It had lost all interest in using Lin Yi as a toy to test its moves. If it could, it wanted to kill Lin Yi with a single breath, but it didn't have the ability to do so.

Although alchemy fire was not the only way to deal with the primordial spirit, there was no doubt that alchemy fire was the most common and easiest way to master. Unfortunately, alchemy fire had always been the exclusive right of human alchemists. The nine-headed fierce beast obviously could not master alchemy fire. However, other special means were not something it could reach. This was not just about strength, but mainly about talent in this area.

He didn't have any means to deal with the essence spirit, and just this point alone made Lin Yi invincible. The nine neonate couldn't do anything to him.

"You're too kind," Lin Yi looked very relaxed. In fact, he wasn't nervous at all ever since he found out that the other party was also a spirit. It wasn't just because he knew that the other party couldn't do anything to him, and it wasn't just because he knew the refinement fire. The existence of the nine neonate confirmed one thing, and that was that this environment wasn't directly harmful to the spirit!

As an essence spirit, Lin Yi's greatest fear was never his opponent, but the unpredictable nature.

Even a powerful existence like the nine neonate was helpless against it, but no matter how powerful the primordial spirit was, it was still a weak existence in the face of nature. If one was not careful, they would be played to death in 10000 ways.

"Hmph, don't think that I can't deal with you, kid. If you don't cooperate, I'll kill her now!" In its rage, the nine neonate turned its eyes to Duanmu Yu. It couldn't do anything to Lin Yi himself, but it didn't forget that there was a hostage.

"The great jiuqing actually used such a despicable method. Don't you feel ashamed?" Lin Yi frowned. He was fine with it, but he had to make sure Duanmu Yu was safe. He couldn't just let Duanmu Yu become the target of the enemy.

"I'm not a human, what's there to be embarrassed about?" The nine neonate scoffed. For it and most spirit beasts, practicality was King. What was integrity?

With that, the eyes of the head in the middle of the nine neonate suddenly turned dark red. It did not seem to make any other unnecessary movements, but an invisible spiritual energy instantly came out of its body and was devoured by the primordial spirit!

At the same time, Duanmu Yu, who was still fine a moment ago, suddenly stared blankly. Soon after, his eyes began to gradually lose their luster.

Soul snatching hand? Lin Yi was shocked. He didn't know what the nine infants technique was, but he could feel that it was very similar to the West Mountain sect's soul-hooking hand. From Duanmu Yu's performance, the effect was similar.

Lin Yi quickly shot out a refinement fire, wanting to block the opponent's move. He didn't expect that when the refinement fire hit the nine neonate's head, it actually gritted its teeth and endured it, vowing to devour Duanmu Yu's essence spirit.

Lin Yi panicked-Duanmu Yu would be done for if his spirit was sucked away by the nine neonate, but even his refinement fire couldn't stop it. What should he do?

Just then, Lin Yi's heart skipped a beat and he immediately put Duanmu Yu's spirit into the Jade space. He'd already done this in the mirror world, so he had no other concerns.

As a result, the nine neonate, who had just sucked in a little, suddenly missed. It should be known that primordial spirit devouring was a very dangerous move. Once it failed, the backlash damage would not be small. The nine neonate's primordial spirit shook, and the head that used primordial spirit devouring in the middle hung down powerlessly. Obviously, it had suffered a great loss of vitality.

"What the hell are you doing?" The other eight heads were furious at the same time. The loss this time was even greater than the previous few alchemic fires added together. No wonder the nine neonate was mad.

"I'll do whatever you're doing. " Lin Yi said faintly.

"You can also devour primordial spirits?" The nine neonate was shocked. Lin Yi did take Duanmu Yu's spirit away in one go, and to a guy like it who didn't know the truth, it was undoubtedly devouring the spirit. It also seemed like Lin Yi was stronger than it. Otherwise, how could he take Duanmu Yu's spirit away from the Tiger's mouth?

"Can you guess?" Lin Yi said casually. Strictly speaking, his incomplete hand was similar to his opponent's soul-devouring, but the power was far from it. At least, against a soul of Duanmu Yu's strength, Lin Yi had no way of dealing with it.

"You're acting like a ghost!" The nine neonate snorted. That was what it said, but from its performance, it could be seen that it was indeed a little intimidated. This human's primordial spirit was really a little unfathomable!

If it wasn't for this accident, it would have wanted to try using essence spirit devour against Lin Yi. It didn't have any refinement fire or other methods that could suppress essence spirits, but it wasn't completely helpless against Lin Yi. At least, it was worth a try.

However, the primordial spirit engulfing technique was very risky. It had to make sure that its primordial spirit was more than two levels stronger than the other party's. Otherwise, it could be devoured by the other party instead, and it would not be able to find its grave even if it cried.

The nine neonate was at least at the nascent Soul Stage, while Duanmu Yu was only at the peak of the Foundation Stage. There was no problem with choosing this target to devour, but if it were to choose Lin Yi in a moment of rashness, it would be fun.

Lin Yi's original body was a xuansheng stage master. Even if the projection of his spirit was restricted, it didn't change his nature. A nascent Soul Stage being devouring the spirit of a xuansheng stage master-if the nine-headed fierce beast really did that, it would never forget the consequences.

Unfortunately, the nine neonate wasn't stupid. Before it knew Lin Yi's background, it wouldn't do something so stupid.

Lin Yi couldn't help but smile when he saw that the nine neonate was starting to get scared, "Alright, you idiot, don't waste your time acting tough with me. We're both primordial spirits, and I admit that you're stronger than me now. If you discuss it with me nicely, I'll probably play with you when I'm happy. But if you keep acting tough with me, then fine, let's see who can win! I forgot to tell you, someone gave me a nickname, the head of acting tough ..."

"What nonsense is this!" The nine infants did not admit defeat, but after a long silence, its attitude softened. "Alright, as long as you do your best as my sparring partner, I can give you an unimaginable great fortune. I can give you a chance to reconstruct your physical body!"

Chapter 5314 Water Entered His Brain

Lin Yi couldn't help but laugh again. This guy was still the same-just for a sparring partner, he'd try to bribe him instead of threatening him. Just how lonely and bored was he?

"Reconstruct the body? You have this kind of skill?" Lin Yi said in disbelief.

"Of course, I'm a nine neonate. Do I have to make up such a lie to lie to a human like you?" The nine neonate said hurriedly.

"Then why don't you do it yourself?" Lin Yi asked back, his face still showing no signs of believing it. For the yuan Shen, reconstructing the body was the most important thing, and this temptation was more important than anything else. If there was really such an opportunity, no matter who it was, they would do it at all costs. Even this thing wanted it, he didn't believe that the nine neonate could resist it!

"Uh ... It's because I'm from a special race that it just so happens to conflict with this method that I know. Otherwise, I would have reconstructed my physical body a long time ago and wouldn't be cooped up in this damn place!" The nine neonate sighed.

It was not lying. The nine neonate was an extremely powerful race. However, while it gave them extremely powerful talents, it also inevitably left behind insurmountable shackles. It was this kind of suffering.

However, it believed that this was an irresistible temptation for Lin Yi. Any other spirit would be tempted, and this mysterious human in front of him was no different.

But the result was destined to disappoint-Lin Yi wasn't interested at all."What you said is useless to me. I have my original body. As long as I want to, I can go back at any time."

"Impossible! That's impossible!" The nine neonate's eight intact heads cried out in unison. It thought that Lin Yi didn't believe it and made up this nonsense. How was it possible to go back with the main body?

Although there was an out-of-body theory in the world of practicing, the restrictions were complicated. The spirit couldn't be too far away from the body, and with the current environment, it was useless even if Lin Yi's body was on the shore. He couldn't go back anymore, not to mention that he didn't even have his body.

"You don't believe me? Hehe, I can separate my primordial spirit from my corporeal body at any time. I can separate and merge them as I please. Just watch. " Lin Yi pointed at Duanmu Yu's body and sent her spirit out.

Duanmu Yu was already motionless, but he came back to life after his spirit returned. He looked at Lin Yi with a strange expression, "Why did you put me in there again?"

"Uh ... The situation forced me to do so. Are you alright?" Lin Yi was surprised by her reaction-he thought that her spirit entering and exiting his Jade space would cause some side effects, and she'd gotten injured.

"It's nothing much, it's just that the water lotus Protector you locked up kept talking to me. He started pouring out his grievances the moment he saw me, trying to get me to plead for him. It's so annoying ..." Duanmu Yu found it funny. Thinking back to how powerful the water lotus Protector was back then, he was speechless that Lin Yi had turned her into this.

"What? Water lotus Protector? It's with you?" The nine neonate was shocked when it heard this. It was impossible that Duanmu Yu had deliberately made this up to scare it, because it had never mentioned the words "water lily" from beginning to end. It had only said that there was a Guardian and a special envoy.

"Oh? It seems that you're a good Lord, and you care about your subordinates?" Lin Yi and Duanmu Yu exchanged a look.

"How is this possible? Who the hell are you?" The nine neonate could not believe it. It felt that there must be something special about this, but it could not find any flaws at the moment, so it could only believe it.

However, even if it was only half-believing, Lin Yi's ability was enough to open its eyes. A mere human could imprison the water lotus Protector and separate the body and soul at will, separating and reuniting as he wanted.

"It can't be considered divine. It's just a foreign primordial spirit," Lin Yi smiled faintly.

The more he was like this, the more unfathomable he was in the eyes of the nine neonate. It was even more unpredictable and extremely fearful.

"Hmph, he's really hiding his true abilities." The nine neonate snorted coldly. It was already a little impatient and even exasperated. It had occupied the river of consciousness for so many years, and countless Masters had died at its hands. It had never been as defeated as it was now.

This human's primordial spirit seemed to be weak and seemed to be at the perfected Foundation establishment realm. It should not be worth mentioning, but from just now until now, it, the mighty nine neonate, had been repeatedly defeated and could not do anything to a mere human's primordial spirit?

In its anger, the nine neonate couldn't help but have the urge to devour Lin Yi's essence spirit!

But it held back in the end-the more complicated Lin Yi was, the more it didn't want to act rashly. What if the kid was really a wolf in sheep's clothing? what if he accidentally got himself involved in the process?

But then again, it was rare to meet such an interesting human spirit. Even if there was a way to get rid of Lin Yi, the nine neonate was a little reluctant.

"You're too kind," Lin Yi looked at the nine neonate's struggling face and found it funny. Although it was a ferocious and terrifying immemorial spirit beast in the legends, this fellow was really interesting. It wasn't completely inhuman. If they weren't in a life-and-death situation, they might really be able to have a good talk.

But Lin Yi wasn't in a hurry. He couldn't do anything to the nine neonate, but the nine neonate couldn't do anything to him either. It was up to who was more patient and calm.

For Duanmu Yu's sake, Lin Yi wouldn't just walk away like this. He had to slowly wear down Duanmu Yu's personality, until he finally accepted the reality and agreed to send them away.

The nine neonate was silent for a long time again before suddenly saying, ""How about this? since you've already taken the water lily, I can let you take over and appoint you as my new protector. What do you think?"

"You want me to be your protector? What do I get in return?" Lin Yi found it weird-this guy clearly didn't know what to do with him, and yet it still wanted him to be its follower. Did water get into its brain?

"I heard that you have a grudge against the brain-eating insects?" The nine neonate said, pretending to be profound.

"How did you know?" Lin Yi froze.

"It's too simple. I'm the master of the entire trial ground. My consciousness covers every place here. As long as I want to know something, it can't escape my senses." The nine neonate said smugly.

"Then why didn't you know that I've taken in protector water lily?" Lin Yi and Duanmu Yu looked at each other in disbelief.

"Uh ... It's different. Its catoptric deflection is its own illusionary realm, which can isolate all divine sense perception from the outside world. Moreover, my control of the entire trial ground more or less depends on the ability of plant-type spirit beasts. Wherever it's around, it's not easy for me to control it." The nine neonate could not help but say awkwardly.

Chapter 5315 Conditions Can Be Raised

"So that's how it is. No wonder you wanted it to be your Guardian, no wonder you were so concerned about it." Lin Yi smiled, but shook his head. "By the way, what's the point of talking to me about brain-eating insects? Since your divine sense's perception is so powerful, you should know what happened in the river of consciousness before, right? your special envoy was beaten into a pulp by me. "

Lin Yi and the brain-eating insect's conflict, other than the first time he was chased, the second time was when he was completely suppressed by Lin Yi. If they were talking about revenge, it was the brain-eating insect that came to Lin Yi for revenge, it was the victim.

"Badly beaten? Hehe, in terms of vitality, brain-eating insects are definitely among the best among all spirit beasts. Do you think it's so easy to kill them?" The nine neonate laughed.

The brain-eating insect, of course, wasn't dead-even Duanmu Yu knew this, and Lin Yi was no exception. A creature with such a powerful innate ability wouldn't die even if it was cut into a thousand pieces, unless its soul was completely destroyed.

"So what if I didn't kill him? Do you think I'm afraid of a defeated opponent?" Lin Yi didn't seem to mind at all-at his level, he didn't feel any pressure dealing with brain-eating bugs, and now that he'd beaten them up, he was even more confident.

"Hehe, if I remember correctly, you should have a group of underlings, right? aren't you afraid that the brain-eating insects will find trouble with them?" The nine neonate sneered and threatened. It seemed that it knew what was happening here like the back of its hand. Not to mention everything, at least what it wanted to know could not be hidden from its eyes and ears.

"Do you think I'm an idiot?" Lin Yi asked back.

"What do you mean?" The nine neonate was stunned.

"That thing was beaten to a pulp by me. It's already a miracle that it's still alive. Even if it's a brain-eating insect, it won't be able to recover in a short time. Who are you trying to scare?" Lin Yi scoffed.

With such a serious injury, if the brain-eating insect's recovery ability was so strong that it could be reborn in just a few days, it would be invincible. With its own talent of eating brain, it could grow into a heaven-defying existence. How could a nine neonate primordial spirit control it?

"Ugh ..." The nine neonate was speechless. It wanted to use this to make Lin Yi submit, but at least Lin Yi would be afraid of it. It didn't expect Lin Yi to not fall for it at all.

"I'll say the ugly words first. My patience is limited. It's fine if you discuss it with me properly, but if you continue to play such a childish trick on me, don't blame me for not serving you!" Lin Yi's face darkened as he gave his final warning. He had enough patience to deal with the other party, but he couldn't let them play tricks on him. Otherwise, they wouldn't be able to get them out no matter how long they tried.

The nine neonate couldn't help but feel embarrassed after being exposed by Lin Yi. It had to give in, ""If that's the case, why don't you just name a price yourself? what will it take for you to be my Guardian?"

"Hehe, someone like you, when I was still in my original body, would find it a burden to be my underling, and you want me to be your subordinate?" Lin Yi shook his head.

"Really?" The first one to be shocked was not the nine neonate, but Duanmu Yu, who was beside him.

She knew that Lin Yi came from Sky Class Island, and she could tell from all the amazing skills he used before that even though Lin Yi was at full foundation, his actual strength was no small matter. She thought that Lin Yi's actual body was at the peak of golden core-after all, any higher and he'd be at the nascent Soul Stage, a top figure in the entire ancient martial world.

But according to what Lin Yi said, his original body was stronger than a normal nascent soul old monster. One had to know that the nine-headed fierce beast in front of him was at least an existence comparable to a nascent soul old monster!

He was probably bluffing to scare the other party! Duanmu Yu reacted very quickly. Lin Yi was clearly saying this to run the nine neonate, so his credibility was most likely limited. Little did he know that Lin Yi was speaking the truth.

Even Duanmu Yu had this reaction, let alone the nine infants, who were standing on the opposite side. Upon hearing this, they immediately sneered. "You think I'm a burden when I'm your little brother? Hahahaha, no wonder they say that humans are the most interesting race. You're so funny. You're a Living Treasure, you don't even blink when you talk big ..."

"If you don't believe me, then forget it." Lin Yi couldn't be bothered to explain-there wasn't much to explain anyway. It'd be a waste of his breath.

"Alright, alright, let's be more realistic, okay? I don't care how powerful your main body is, you're just a primordial spirit now. As the saying goes, people have to bow their heads under someone else's roof, don't you think so?" The nine neonate was very sincere.

"Alright," Lin Yi nodded. He wanted to compete in patience anyway, and this was exactly what he wanted. "I don't know what abilities you have, so it's a bit blind for me to state my conditions. Why don't you tell me what you can state for me?"

"Alright, I can give you countless heavenly treasures. As long as you can see them here, you can choose whatever you want. What do you think?" The nine neonate said.

In the human cultivation world, there were four words that were important: wealth, companionship, law, and land. Among them, wealth was the most important. However, this wealth did not simply refer to things like spiritual Jade or money. It mainly referred to heavenly materials and earthly treasures, which were the most important things for all human cultivators. Almost everything that human

cultivators did was inseparable from heavenly materials and earthly treasures from the beginning to the end. For this reason, there were many people who wanted to kill them at all costs.

At the end of the day, humans would die for wealth, and birds would die for food.

To the nine neonate, this was a weakness that all humans couldn't get around, and Lin Yi was no exception. After all, the ancient trial grounds was under its control, and most treasures were useless to it as an essence spirit. It didn't mind being generous this once.

Lin Yi's one sentence made it choke. "Sure, then give me a thousand and eight hundred spirit sense grass and I'll agree to it."

"..." The nine neonate almost choked to death by him. It took a long time for it to catch its breath, and its head chattered loudly, "" 1800 spirit sense grass? Do you think this is some roadside grass? there aren't that many of them!"

"Then I'll take a step back. A hundred and eighty." Lin Yi said.

"Do you know what you're saying?" The nine neonate looked at it as if it was looking at an idiot.

"Not even 180? There should be at least eight or ten of them, such a large spirit Sense River, it can't be that there's only one Spirit sense grass, right?" Lin Yi asked suspiciously.

Chapter 5316 Reconstructing The Physical Body

"Hmph, there's more than one Spirit sense grass. Although there's not a lot, you can still gather eight or ten of them, but it's a pity that it's different now," The nine neonate shook its head and snorted coldly.

"What's different?" Lin Yi frowned.

"Do you know that spirit sense grass has another name, also known as the same root grass? all spirit sense grass in a place have the same root, which means that there is only one root of spirit sense grass in the entire River of spirit sense. Now that you have lost the root, where am I going to get you some spirit sense grass?" As the nine neonate spoke, it began to get a little angry again. It didn't care about the other treasures, but this spiritual awareness grass was of great use to it. It didn't expect that these two people would just disappear without a trace. It was still puzzled about this.

"Ugh ..." Lin Yi blushed. He didn't expect that he'd put all the spirit grass away with the root.

"I don't have any more consciousness grass, so you can find some other heavenly resources. I'll leave my words here. As long as you can find it in this place, you can choose anything you want." The nine neonate continued to pretend to be heroic.

"There's no need. I'm not interested in ordinary heavenly treasures. Moreover, if I really do find something good, what I want won't be able to escape from my hands. Do I need to beg you to agree?" Lin Yi said.

"Then ... I'll give you something else. I can give you countless beautiful women. I guarantee that every one of them is a heavenly beauty, and they're all transformed from spirit beasts. They're definitely more charming than you human women, and much more alluring than the one beside you. How about it?" The nine neonate said.

As it said this, it deliberately sized up Duanmu Yu. Although Duanmu Yu's appearance was not bad, she was still a tough woman. She had a bit more heroic spirit, but at the same time, she was less charming. She could not be considered charming.

Lin Yi couldn't help but smile-this guy sure was quick on his feet.

"What are you looking at me for? It's a man's nature to be lecherous, and it's only natural. If you want it, just take it, there's nothing to be embarrassed about. " Duanmu Yu's lips twitched at the sight of Lin Yi turning his head to look at her. She didn't care about these things at all.

"Do I really look like a lecherous Hungry Ghost? With so many female confidants, how could I have such a strong taste for spirit beasts?" Lin Yi said, annoyed.

"Don't you men like to try new things? Perhaps a female spirit beast will have a different taste that you can't stop. " Duanmu Yu said with a mischievous expression.

"..." Lin Yi was speechless. He turned to the nine neonate and said,""Let's do it. After all, it's the legendary nine neonate. Can you give me a more reliable condition?"

"If you don't want the treasures ... If you don't want the spirit beasts and beautiful women ... Then all that's left is the powerful moves that I've developed on my own. As long as you're willing, I can teach you all of them. How about it?" The nine neonate said after some thought.

"Oh? This is interesting. " Lin Yi was moved, but he quickly shook his head, "No, no, you're looking for me to test your moves. After testing them out, I'll be able to figure them out on my own even if you don't teach me. This isn't a condition. Do you have anything else?"

"No more! You don't want this, you don't want that, what do you want!" The nine neonate was really desperate this time. It had never lowered its attitude like today. In order to recruit Lin Yi, it had spent so much time and effort, but this guy didn't listen to force or persuasion. He was just a pain in the ass!

Seeing that the nine neonate was about to flip out, Lin Yi suddenly took a step back and said, ""Why don't you tell me about the method of reconstructing the body?"

"Eh? Aren't you able to return to your main body at any time and look down on my method?" The nine neonate could not help but ask in surprise.

"I've thought about it carefully just now. It's better to have one more life-saving method than one less. What if I'm unlucky one day and I can use it?" Lin Yi said half-jokingly.

In fact, he wasn't asking about this for himself, but for the damn thing. The thing had been thinking about this all this time, but because Lin Yi wasn't strong enough, it never mentioned it. But one day, it would take this step.

He couldn't communicate with the thing now, and he didn't know if it knew how to rebuild a body, but if he could get some information from the nine neonate, it would be more or less useful.

Lin Yi had always treated his own people with everything he had, and he wouldn't forget things like this.

"Alright, then you'd better think it through. Since I've made this condition, you'll have to be my subordinate after listening to it. If you go back on your word, don't blame me for being impolite. At that time, even if I have to risk the backlash, I'll destroy your primordial spirit and make you consigned to eternal damnation!" The nine neonate said seriously.

"Tell me the details first. If what you say has no value at all, I won't admit it. Of course, if it's really useful, it's not impossible for me to join your Army." Lin Yi nodded.

"You said it!" The jiuqing paused and then said, "there are two key points in reconstructing the body. The first is the method, and the second is the materials. The second point is the most important. If you can't find the materials to cast the body, what's the use of even the most wonderful method?"

"What material?" Lin Yi asked.

"The purple mist sinful Lotus." The nine neonate said slowly, "this is one of the most suitable materials in the world to forge a body. Although other materials are not completely impossible, the success rate is much lower than that of the purple mist sinful Lotus. More importantly, the body forged with the purple mist sinful Lotus is much better than the other materials in all aspects. Think about it, it's rare to reconstruct a body, and it took so much effort to succeed, but in the end, it's a piece of trash body. Wouldn't you cry to death?"

Lin Yi nodded-it made sense. The purpose of rebuilding a body wasn't just to have an extra layer of protection-it was to better unleash his true strength. If the body he created was too weak, it'd be a joke if he couldn't even use ten percent of his strength.

Especially since he was asking about this to help that damn thing-that was the former Azure Dragon, one of the top existences on the entire Sky Class Island. The quality of his body was even more important, or he might as well not have it.

"Where can I find the purple mist sinful Lotus?" Lin Yi continued.

"Not far from this river of consciousness, there's a place called the blue sky Valley. Only there can you find the legendary purple mist evil Lotus." The nine neonate said.

Chapter 5317 You Actually Dared To Trick Me

"Can you be more specific?" Lin Yi frowned.

"This ..." The nine infant paused and suddenly said, ""The purple mist sinful Lotus is a close relative of the water lily you subdued. It knows more about the purple mist sinful Lotus than I do, so you can let it tell you."

Lin Yi laughed,"haha, if you want me to let it out, just say it. Why are you beating around the bush? what purple mist evil Lotus? do you even need to waste your energy?"

"Hey, even I can't do anything to you. Why are you still holding a water lily hostage? it's meaningless." The nine neonate grinned.

"Alright, since you value it so much, I might as well give you face. Anyway, this guy can't be eaten, so let it be." Lin Yi smiled faintly-the water lily wasn't a threat to him anymore, so it didn't matter if he let it out.

With a thought, Lin Yi threw the water lotus out of the Jade space. The guy didn't know what was going on and was stunned for a moment, but when he saw the surroundings and the nine neonate not far away, he finally came back to his senses, surprised and happy.

"That's great! My Lord, you've finally come to save me! I knew you wouldn't abandon me!" Water lotus was ecstatic.

It was not that it trusted the nine neonate's character, but because the nine neonate needed it to help coordinate those plant spirit beasts to monitor the entire primordial trial ground. The key was that it was the only one who could do this kind of technical work. Other brain-eating insects could not replace it at all, so it had always been the nine neonate's most valued left and right hand, no one else.

"It's good that you're out. " The nine neonate smiled awkwardly. It did want to save the water lily, but it wasn't the one who saved it. Lin Yi didn't think it was a big deal, so he let it out. What did it have to do with it?

Water lotus didn't know the truth and thought that the nine infants did something to save her. She turned to Lin Yi and sneered, ""Hmph Hmph, human, you've finally had your day. Now you know that there's always someone better than you, right? You actually dared to treat me, protector water lotus, as a slave and order me around. Now that you're in my Lord's territory, come, come, come, I'll settle the score with you!"

Don't look at how obedient it was the whole time-that was purely because Lin Yi had it in his hands. It didn't really give in at all. After all, it was a talented spirit beast, and it was very proud.

Before Lin Yi could say anything, the nine neonate had already whipped it with its tail and said impatiently, ""Settle my ass! Tell him about the blue sky Valley and the purple mist Black Lotus!"

"Ha?" Water lotus was stunned again. She looked at the nine neonate and Lin Yi's expressions carefully and realized that it was completely different from what she thought. This human maintained an equal attitude in front of the nine neonate, who was he?

"Ha my ass! Hurry up!" The nine neonate urged. It was afraid that this guy would ask some stupid questions that would embarrass it. It was too embarrassed to admit that it couldn't do anything to Lin Yi. After all, it would be too embarrassing. It was better to get back to business.

"Oh, oh." The water lotus immediately lost her temper and quickly returned to her respectful appearance on the road. She carefully said, ""In terms of racial origin, the purple mist sinful Lotus is a close relative of our water lily clan. However, their characteristics are completely different from ours. The blue sky Valley they live in is a completely poisonous Valley. Not only is there poisonous gas lingering all year round, but there are also all kinds of poisonous creatures living there. It has become a small world of its own, and it is difficult for outsiders to enter under normal circumstances."

"What else?" Lin Yi asked with a frown.

"Also, the growth cycle of the purple mist sinful Lotus is very slow. It only grows once every thousand years, and it only grows once every thousand years. In other words, it takes at least three thousand years for a purple mist sinful Lotus to truly grow. If you want to get a better quality, it will take even longer ..." Water lotus racked her brain and said.

"What else?" Lin Yi continued.

"That's all. The purple mist sinful Lotus is very mysterious, and it's not easy to enter the blue sky Valley where they grow. That's all I know." Water lotus said carefully.

"That's it?" Lin Yi raised an eyebrow and turned to the nine neonate, ""Don't tell me you only know this little?"

"Uh ... Indeed, there's none ..." The nine neonate could not help but blush with shame. This matter was actually a little embarrassing for it. Although it was the absolute ruler of the entire primordial Land of Trials, the blue sky Valley was an exception. That place was like a small world as the water lily said, a place reserved for poisonous creatures. Even its tentacles could not reach in.

"Then what you're telling me is useless. You only know about the purple mist Black Lotus and the Azure sky Valley. The most important thing is that it's very difficult to enter the Azure sky Valley. What's the point of this?" Lin Yi asked.

"How can it be meaningless? At least you now know the location and the materials needed to reconstruct your body. Just these two pieces of information are worth a lot. " The nine neonate snorted coldly.

"Priceless my ass. Information that doesn't have practical value is just nonsense. You better tell me your other conditions." Lin Yi said, as if he were asking for a sky-high price.

"This ..." The nine neonate thought for a long time and finally said, ""Why don't I let you be my first Guardian, whose position will be higher than water lilies and brain-eating insects? in that case, you will be second only to one person and above all others!"

"..." Lin Yi was speechless for a long time before he replied, ""Why don't you be my subordinate? that way, you'll be second only to one person and above thousands of people?"

"You dare to play with me?!" Upon hearing this, the nine neonate immediately flew into a rage out of humiliation. It had previously thought of ways to raise so many conditions, and its patience was already at its limit. Now, it completely exploded. "You refuse a toast only to drink a forfeit. I'll let you have a good taste of the primordial spirit devouring!"

Before it could finish, the nine pairs of eyes of the nine neonate turned dark red at the same time. An invisible spiritual energy came out of its body and pressed down on Lin Yi.

This time, the momentum was much stronger than when it was dealing with Duanmu Yu. Earlier, it had only used one head. However, this time, it had used all nine heads. It was going all out!

Previously, it had only used one-ninth of its power, so the target it chose had to be two levels lower than itself in order to be foolproof. Now that all nine of them had used their full power, it could completely take down a target one level lower than itself. Even if it faced an existence of the same level, it could have a 90% chance of winning. It was just that it would inevitably suffer some backlash damage in the end.

Chapter 5318 You're Actually Pretending To Be A Pig To Eat A Tiger

"Hehe, it looks like you've been preparing for this for a long time!" Lin Yi didn't panic, buying time by talking and then using a powerful killer move to defeat the opponent-this was his most common strategy. The nine neonate was showing off its skill in front of an expert-he'd noticed it from the start, but he just didn't point it out.

The nine neonate's spiritual energy was extremely huge, and it could be said to cover the sky and earth. Lin Yi was countless times weaker in comparison. He was like a small boat in a storm, and any wave would destroy the boat.

The difference between them was too great, and the nine neonate immediately looked down on Lin Yi. Because of what Lin Yi had just shown, it subconsciously thought that Lin Yi was a master who was pretending to be a pig to eat a Tiger, which was why it was so careful, even lowering its status to bargain with Lin Yi.

The mighty nine neonate actually lowered its head and negotiated terms with a human cultivator. The key was that this human cultivator's strength was only at the perfected Foundation establishment realm. In the past, this would have been something unimaginable. The nine neonate would definitely think that it was crazy.

However, Lin Yi's previous performance made it wary. This was a matter of life and death, so it couldn't be too careful. The nine neonate had shown enough wisdom on this point.

As it tried to confuse Lin Yi, it observed Lin Yi's every move and weighed the pros and cons. Finally, it came to a conclusion-this human could be killed!

That was why there was such a scene now. The uniqueness of the primordial spirit devouring meant that one could not act rashly. Once one did, it meant that one was 100% confident. Obviously, the nine neonate felt that it was foolproof.

From the looks of it, there was no way it could be defeated. If Lin Yi's spiritual energy was one, then it had at least ten thousand spiritual energy!

Yuanying versus Zhuji, it had a huge level advantage, plus it was a nine-headed Dragon-if each head was the same as a Yuanying master, there would be nine of them in total. How could Lin Yi fight it?

"Lin Yi!" Duanmu Yu's face paled. Although the ancient martial world had a systematic training of the spirit from the Foundation Stage, the levels were still there. She couldn't do anything about this level of primordial spirit battle. The only thing she could do was pray for Lin Yi.

Otherwise, if Lin Yi was done for, she would be done for too.

On the other hand, the water lily was overjoyed. After being controlled by Lin Yi for so long, it had accumulated a stomach full of resentment. Just now, it didn't understand the situation and ended up with a dirty face. Now it could finally vent its anger!

"I was wondering why his Excellency was so polite to this kid. It turns out that he was secretly doing something. Kid, just wait to die with your eyes wide open!" Water lotus laughed.

As he spoke, a huge wave rolled over, and the result was as expected. Lin Yi was instantly submerged in the overwhelming spiritual energy. In the most direct collision of the spirits, it was almost a death sentence.

"So this is all you've got after all!" The nine neonate's last bit of worry was swept away, and it immediately relaxed.

The most important point of primordial spirit devouring was to devour the enemy with numbers. It was like two armies in a battle. Although military tactics were important, the deciding factor was still the number of troops. The situation at hand was equivalent to one's own army of 10000 while the enemy was only one person, and they were surrounded. Was there any need to fight?

The victory was set. At this time, the nine neonate felt that it was a pity. It was rare to meet such a human primordial spirit, but before it had time to play with it, it had been devoured by itself. It had lost a lot of fun for no reason.

But before it could sigh, the scene in front of it made its eyelids jump. Lin Yi was drowned in its spiritual energy without a doubt, but he didn't die just like that. It turned out that Lin Yi wasn't a small boat like it thought, but an indestructible reef. No matter how the wind and waves blew, the reef wouldn't move.

In fact, not only did reef remain unmoved, he even blocked the violent waves head-on. Every time he blocked the waves, the power of the waves would invisibly weaken by a bit. At first, he didn't feel anything, but as the number of waves increased, he immediately realized that something was wrong.

It was just like when the two armies were facing each other. Although Lin Yi was surrounded by the nine neonate's 10000-man army alone, the nine neonate suddenly realized that things weren't that simple. It was true that the other party was surrounded by it, but the problem was that they weren't ordinary people. They were enemies of 10000 people!

10,000 of them couldn't kill the enemy at all. After a long time, Lin Yi was still safe and sound, but the nine neonate had already suffered heavy losses.

Against Lin Yi, its absolute advantage in numbers was meaningless, because Lin Yi had the absolute advantage in quality!

The nine neonate wasn't an idiot. It quickly retreated when it saw that the situation wasn't good, forcefully withdrawing its spiritual energy at the risk of backlash. Although it was injured, at least it wasn't in danger of dying. If this continued, its entire spirit would be strangled by Lin Yi.

"You! You've been playing the pig to eat the Tiger all this time!" The nine neonate reacted and turned pale with fright. At this time, three of its nine heads had already withered, and it was clearly injured quite badly. It was fortunate that it had made the prompt decision to escape quickly, otherwise, the losses would have been even more severe.

"How did I play the pig to eat the Tiger?" Lin Yi clapped his hands with a half-smile on his face. It was his first time experiencing a soul fight like this. He was a little nervous at first, but he calmed down after realizing the difference in strength. This kind of experience was very rare, and he still wanted more.

"If I'm not wrong, you're a xuansheng stage expert!" The words 'fear' and 'fear' were clearly written on every face of the nine neonate!

"F * ck! My Lord, Are you sure?" Water lily, who was standing at the side, was shocked.

"Really?" Duanmu Yu also couldn't help but widen his eyes.

"Oh? I didn't expect you to know so much. You even know about the xuansheng stage?" Lin Yi asked, surprised.

"Nonsense! I'm at the great circle of the original level, and I've been trying to break through to the next level. How could I not know about the mysterious Ascension stage?" The nine neonate snorted, but it didn't dare to show any disrespect to Lin Yi anymore. Even if it was a peak nascent soul, it was nothing in front of a master of the xuansheng stage. It was fine that it was ignorant before, but now that it realized what was going on, it didn't dare to be impudent anymore.

"Tell me, how did you find out that I was at the xuansheng stage? you're not just making a wild guess, are you?" Lin Yi asked curiously. At least on the surface, he was a complete foundational stage now, and the process of spirit projection weakened his entire spirit greatly. He didn't look like a xuansheng at all.

Chapter 5319 Teach Me

"Hmph, although your spiritual energy is very little, its strength is a lot higher than mine. Do I still need to guess?" The nine neonate said unhappily. This was the key to its defeat just now. The strength of its divine sense was only in the range of an ordinary person, but the strength of the other party's divine sense was that of a ten thousand man enemy. What was the point of fighting then?

"Hehe, you're not stupid," Lin Yi said with a smile.

Duanmu Yu and the water lily were completely dumbfounded. The water lily, who was still fantasizing about Lin Yi's soul being destroyed, was now hiding in a corner and didn't dare to make a sound. Of course, it didn't dare to go too far away. If Lin Yi noticed that it was trying to escape, it would die without a burial place. That was a legendary master of the xuansheng stage!

As for Duanmu Yu, although he had once again tasted the feeling of surprise, strictly speaking, the surprise this time was far greater than the joy.

One must know that in the small Jianghu of the immemorial era, the nascent soul old monster was already at the top level of existence. Only the forces above the ten small sects and families could have one or two of them. Each of them was an old monster who lived in seclusion and rarely came out. As for the xuansheng stage expert, these words had only appeared a few times in the history books of the immemorial Alliance. They had never appeared in reality!

In the past few days, she'd had countless guesses about Lin Yi's identity and strength, some of which were even earth-shattering, but even so, she realized that she was too wrong. She would never have thought that Lin Yi was a legendary master of the xuansheng stage!

The water lily trembled in fear. Duanmu Yu was so shocked that he could not speak. Although the nine neonate had not been completely shocked, it did not dare to act rashly.

It knew very well that Lin Yi wasn't a normal xuansheng stage spirit, but even if he was in the worst state, he wasn't someone it, a nascent Soul Stage, could mess with.

"That move you just used is called primordial spirit devour, right? it looks pretty good. Why don't you teach me?" Lin Yi said with a smile.

"This ..." The nine neonate hesitated and carefully said, ""Don't tell me you're learning this to devour me?"

After that short exchange, other than confirming that Lin Yi was a xuansheng master, it also realized that Lin Yi was very inexperienced. That's right, he was inexperienced even in the primordial spirit realm.

It was clearly a xuansheng stage spirit, but it was acting like a child. In a battle between spirits, it could only instinctively protect itself. It didn't know how to do anything else, not even the most basic attack, let alone devour its opponent. Otherwise, it wouldn't have retreated so easily. It might've been devoured by Lin Yi already.

Unfortunately, Lin Yi wasn't that young after all. Not only did he have the ability to protect himself, but he also had a terrifyingly fast learning ability. The soul fight just now only lasted for a short while, but he had already improved so much.

Otherwise, the nine neonate might have taken the risk and wanted to devour him, the primordial spirit of the xuansheng stage, in one fell swoop. After all, wealth was found in danger. If it could devour the primordial spirit of a xuansheng stage cultivator, the nine neonate would advance to a higher level or even soar into the sky. That was not entirely impossible.

It was just that Lin Yi looked like a harmless little rabbit, but he actually had a mouth full of ferocious steel teeth. The nine neonate knew that its small body couldn't take Lin Yi's torture.

"Are you really that weak?" Lin Yi asked.

"That depends on who I'm compared to. Compared to trash like them, of course I'm invincible. But if I'm compared to you, a xuansheng stage primordial spirit, wouldn't I be lying to myself if I shamelessly said that I'm strong?" The nine neonate said with a laugh.

"In other words, you're not willing to teach?" Lin Yi said, his expression unreadable.

The nine neonate was silent for a moment. It couldn't do anything to Lin Yi in the first place, and now that it knew that Lin Yi was a xuansheng stage essence spirit, it was even more so. It didn't want to fight to the death with a xuansheng stage essence spirit unless it was absolutely necessary, so it said, ""Unless you promise not to deal with me."

"Of course." Lin Yi nodded. He didn't want to fight the nine neonate to the death. Not only was it risky, but it was also easy for both sides to get hurt. After all, he was only a xuansheng stage essence spirit in name.

"Alright, I can teach you." The nine neonate was also very straightforward. Of course, it didn't completely believe in Lin Yi's character, but it felt that even if Lin Yi fell out with it, it could still protect itself. At most, it would have a hard time in the future.

"I'm all ears," Lin Yi nodded.

"You've already experienced what my primordial spirit devouring is like, so I don't need to explain anything else. If you want to learn, you just need to master the most crucial trick. " The nine neonate said.

"What's the trick?" Lin Yi asked.

"Divine sense assimilation." The nine neonate's tone was a little sad. Actually, it had done everything well just now, except for this last step. Lin Yi's entire essence spirit was drowned by it. As long as it completed the assimilation, it would succeed.

It was a pity that it ran into a huge problem at the last step. Not only did it fail to assimilate the other's spirit, but it was also beaten black and blue by the other party because it ran into an obstacle that it couldn't overcome. Lin Yi's spirit was stronger than it.

The strength of one's spiritual sense had to be above the other party's, which was the minimum and most important premise for spiritual assimilation. If one couldn't even reach this point, then everything else would be in vain no matter how well they did.

"Alright, then teach me how to assimilate the consciousness." Lin Yi said faintly.

The nine neonate didn't do anything to it because it was unnecessary and meaningless. It only explained the key points of consciousness assimilation briefly, and then Lin Yi practiced it on the spot.

And then, in less than an incense's time, Lin Yi did it.

"..." The nine neonate was completely stunned. After a long time, it said faintly, ""You're a F * cking monster. "

"What's wrong?" Lin Yi raised a brow.

"My nine heads can practice independently, and it took me two months to achieve the assimilation of consciousness for the first time." The nine neonate was speechless. It was already considered talented in this area, enough for most spirit beasts and human cultivators to look up to it. But compared to Lin Yi, it was a piece of trash.

"Two months? It's not bad. " "Do you have any other good moves? something stronger like essence spirit devour?" Lin Yi grinned.

"No," The nine neonate shook its head decisively. What a joke. If it had so many ways to deal with essence spirits, it wouldn't have tolerated Lin Yi at the start and would've started fighting him ...

Chapter 5320 You Want To Go And Take A Look?

"Is that so?" Lin Yi was a little disappointed, but he changed the topic after some thought. "In that case, you can practice with me. Just like before, your primordial spirit will devour me."

"No, absolutely not!" The nine heads of the nine neonate shook quickly, knocking against each other like rattle-drums. Its nine heads almost started fighting.

"Why can't I?" Lin Yi frowned.

"Of course not, why are you so sneaky! "This is primordial spirit devouring. If I really practice with you, you'll definitely take the opportunity to kill me. I can see that you're just playing with me. You're obviously a powerful and ruthless character, but you pretend to be a weak chicken to lure me ..." The nine neonate smiled bitterly with lingering fear.

Before, Lin Yi hadn't even learned how to devour, and it was already at a huge disadvantage. Now that Lin Yi had mastered it, it was like giving a Tiger a pair of wings. If it dared to fight Lin Yi again, Lin Yi would definitely swallow it whole. At least, if it was him, it would definitely think of that. The key was that this time, it wouldn't have the chance to retreat as it pleased.

"Didn't I already tell you that I'm very powerful? you didn't believe me, so who can you blame?" Lin Yi said, speechless.

"Uh ... No matter what, if you want to try it, go find someone else. A gentleman does not stand under a collapsing wall. I will not do such a dangerous thing." As the nine neonate spoke, it deliberately pointed

to the water lily, which was hiding at the side and pretending to be transparent. This was a ready-made test subject.

"Don't! Don't! My primordial spirit is too weak. It can't even withstand a single blow. You won't be able to test the effects even if you try it ..." Water lily was almost in tears.

"Forget it then," Lin Yi said with a glance.

Water lotus immediately heaved a sigh of relief. Fortunately, this guy was kind enough to keep his little life.

"Since you don't want to practice primordial spirit devouring with me, let's talk about something else. You said that you were trying to break through to the xuansheng stage. How did you cultivate your primordial spirit?" Lin Yi asked.

This was what Lin Yi was most concerned about. He didn't have any experience in spirit level up, and he was stuck at the peak of foundation level. He thought of many possibilities, but he couldn't confirm any of them. The key was that he didn't know the method or the technique, or was this the natural limitation of spirit projection.

If it was the latter, Lin Yi naturally wouldn't be able to do anything, but if it was the former, he could at least think of other ways, and he might have a chance to reach a higher level. The star Black coal was indeed used up, but he just got a giant spirit sense grass root in the Jade space.

"How do I cultivate?" The nine neonate was surprised when it heard this and asked, ""There are only two ways to cultivate our primordial spirit. Anyway, it's all about the divine sense. Either the capacity is bigger, or the strength is stronger. Other than that, how else can we cultivate?"

The two directions were quantity and quality. Of course, these two were not opposed to each other. Other than some extremely special opportunities, the normal advancement of the primordial spirit relied on quantity to cause a qualitative change. This was common sense.

Capacity? Strength? It was Lin Yi's first time hearing it, but it wasn't hard to understand, especially in the spirit battle with the nine neonate. The nine neonate had a much higher consciousness capacity than him, and he had a much stronger consciousness than the other.

The capacity of the spiritual awareness increased, the strength of the spiritual awareness became stronger, and the quantitative change achieved a qualitative change. This was the most practical breakthrough for a primordial spirit.

"What I mean is, what method did you use to increase the capacity of your spiritual sense, and what method did you use to make your spiritual sense stronger?" Lin Yi asked.

"One is smart, the other is not smart, which one do you want to hear?" The nine neonate deliberately whetted its appetite.

"Let's start with the smart ones. " Lin Yi said.

"The smartest and easiest way is to devour the soul that you've just learned. Although there will be some side effects, such as the residual thoughts of the other party affecting your mind if you don't

devour it cleanly, as long as you're strong enough, there won't be any problems." The nine neonate chuckled.

Obviously, this was its usual cultivation method. When humans came in, it would devour the primordial spirits of human Tributes, and when there were no humans, it would devour the primordial spirits of some other spirit beasts. It was simple and effective.

However, this was only for it. The remaining obsession was something that could not be underestimated for any primordial spirit. It could be troublesome at best, and it could be possessed by the devil in serious cases. However, the nine neonate had no scruples about this at all because it had nine heads, which was equivalent to having nine semi-independent primordial spirits. As long as one head was dedicated to dealing with it, it did not matter how many obsessions there were.

"What about those who aren't smart?" Lin Yi continued.

"That's more troublesome. If it's not the last resort, I'm not willing to use such a stupid method." The nine neonate paused, and under Lin Yi's urging gaze, it said, ""The stupid way is to use the spirit sense grass to temper my spirit sense. Although there are no side effects, the process is very painful. Every time I temper it, it's like being in hell. The faster I improve, the more painful the process is. I don't want to experience that feeling again."

"So that's why you don't care about the spirit sense grass?" Lin Yi smiled. No one would take something as important as the spirit grass lightly, especially for a spirit like the nine neonate. He thought that it was the nine neonate's life, but according to what the nine neonate said, he was clearly wrong. The spirit grass was only one of the nine neonate's options, and it was the one that was not liked. So other than expressing his anger at the beginning, he never mentioned it again.

"Speaking of which, where did you hide such a big root of the spirit sense grass?" The nine neonate could not help but ask curiously.

"You want to go in and take a look?" Lin Yi said casually.

The nine neonate was stunned. It looked at the water lily, who was shaking her head in shock. It knew that this place was definitely not simple. If it really went in, it might not be able to come out. It laughed and said, ""Then forget it, my curiosity is limited."

Lin Yi didn't mind and asked, "By the way, where did you learn this primordial spirit devouring?"

The theory behind the essence spirit devour seemed simple, but every step had its own tricks, especially the most important part, spirit assimilation. It was only a few sentences, but without the nine neonate's guidance, no matter how good Lin Yi's comprehension was, he wouldn't be able to figure it out even if he tried for a hundred years.

It was impossible for a genius to come up with such a technique on the spot. It must have been constantly summed up by countless predecessors before it finally evolved into what it was today.
