

Bodyguard 5421

Chapter 5421 Divine Sense And Weapon

Little did they know that Chu Tianlu had put in a lot of effort on the unmovable shadow precisely because he wanted to cultivate the bone-exchanging shadow. Although these two martial arts techniques could not be considered to be from the same line, their essence was similar. If not for this, he would not have been able to cultivate the bone-exchanging shadow. After all, he had never been a super genius like Ling Tianyou.

"This Chu Tianlu has quite the character." Lin Yi grinned as he watched from a distance. It wasn't that he had a unique personality, but his fighting style was unique.

After observing for a while, Lin Yi had a general idea of house Chu's shadow element. At his level, it was like a bird's eye view. As far as he was concerned, the shadow element was most suitable for assassination, and other than that, it was for harassment and restraint. As for fighting head-on, it wasn't its strong point at all.

In the end, when it came to Chu Tianlu, who was also equipped with the Chu clan's shadow element martial arts technique, he was forced to turn it into a hot-blooded head-on confrontation. Moreover, it was a wild and domineering style that would fight to the end even if he was seriously injured. It really made people not know what to say.

It was hard to say whether this unusual style was good or bad, but at least from the looks of it, it had indeed achieved unexpected results.

Not only did Chu Tianlu manage to withstand the impact of the shadow arrow, but his right shoulder, which should have been on the verge of collapse due to the bloody hole, was still as steady as a mountain. He was even holding the short knife in his right hand steadily, the tip of the knife pointed straight at Chu tianliang's throat.

Chu Wenshang looked at this scene and could only sigh. At this distance, he had already used shadow arrow. What else could he do?

Chu tianliang could only rely on himself for the rest.

Even though Chu tianliang had managed to maintain his attack with the use of [shadow bones swap], the shadow arrow was still the Chu clan's most powerful technique. It was impossible for it to be completely unaffected. In fact, Chu Tianlu's attack had been weakened by at least 40%. In addition, Chu tianliang had been prepared in advance, and there was not much of a difference in strength between them. It was hard to tell who had the upper hand.

Even if Chu tianliang could not take this opportunity to kill Chu Tianlu, he could still protect himself.

The result was once again out of Chu Wenshang's expectations. At such a critical moment, Chu tianliang did not move at all. He was actually dumbfounded.

Watching helplessly as the tip of Chu Tianlu's blade got closer and closer, Chu Wenshang's heart was burning with anxiety. If Chu tianliang were to die Here, he would have no other choice. He quickly shouted, ""Quickly run!"

Chu tianliang finally came to a sudden realization. As one of the most outstanding young disciples of the Chu clan, he was actually weaker than Chu Tianlu in both strength and talent. Otherwise, he wouldn't have been suppressed by Chu Tianlu for so long, and this time, he wouldn't have schemed to use Chu Wenshang to get rid of Chu Tianlu.

When he was held hostage by Chu Tianlu just now, his psychological defense had actually been broken. Now, facing the other party's violent attack again, he was completely flustered and lost. His mind had long been in a mess, which led to the current scene.

The tip of the blade was already pressed against his neck before he could react. No matter who it was, it was already too late. Even Chu Wenshang, who was in the early Aurous core stage, did not dare to say that he could survive, let alone Chu tianliang, who was only in the peak of the late Foundation establishment stage.

Chu Tianlu watched helplessly as the tip of his saber slowly sank into his opponent's throat. He finally relaxed. He had succeeded!

Pada! The crisp sound of shattering tiles rang out. Chu Tianlu felt his vision blur, and the person in front of him was a different person. Chu tianliang, who was supposed to have a blade pressed against his neck, had suddenly become Chu Wenshang!

This scene stunned everyone, including Chu Wenshang himself. He only reacted after his throat was cut by the blade. His whole body frantically retreated, and a deep wound appeared on his throat. Blood spurted out uncontrollably, and in the blink of an eye, he was half a bloody man.

Chu Tianlu looked at Chu Wenshang in a daze, unable to speak for a long time. Chu Wenshang was clearly 100 feet away just now. How did he suddenly appear in front of him and even replace Chu tianliang's position? what the hell?

Chu tianliang had reappeared where Chu Wenshang had just been. Other than a shallow wound on his neck, there was no sign of serious injury.

"Shadow...Shadow...Shadow...Urn ..." Chu Wenshang covered his wound and tried to stop the bleeding while staring at the half of the green tile in Chu tianliang's hand. His eyes were filled with shock and anger.

"Shadowshape shifting jar?" Lin Yi was taken aback by the name. Chu Tianlu himself might not know, but Lin Yi, as a bystander, saw it clearly. It was Chu tianliang who had crushed the small urn, and a large black shadow burst out from it, wrapping him up in layers and switching positions with Chu Wenshang, who was a hundred feet away, causing this scene.

It took a long time to describe, but the whole process didn't even take half an instant. Even Lin Yi was stunned by the ability the small urn displayed. If it wasn't a one-time thing, but if it could switch the position of two people at will, it would be a God-tier weapon to some extent!

In terms of overall level, the immemorial little Jianghu was far from being comparable to the sky Island, but it had many unique aspects, such as consciousness and weapons.

On Sky Class Island, from the xuansheng stage to the foundation establishment stage, there were many people who used weapons, and there was no lack of sects like the thousand blades sect that specialized in weapons for a living. However, if one were to count carefully, the number of people who used weapons was not high, especially those who devoted themselves to weapons.

It wasn't that they didn't like to use weapons, but there weren't many blacksmiths on the island. If they didn't have enough luck, it would be hard to buy a suitable weapon from the market. Moreover, if they wanted to use a powerful weapon, they would need a strong spirit sense. Otherwise, they wouldn't be able to control it. On the Sky Class Island, people generally didn't cultivate their spirit sense, at least not before the Xuan Sheng stage, so they weren't that keen on it.

It was different in the ancient martial world. Almost all the cultivators here started to systematically cultivate their spiritual sense from the foundation establishment stage, and because of this, weapons were far more common here than on Sky Class Island. It wasn't just a special case like the thousand blades sect, but almost all the disciples of most sects would carry weapons with them, and the only difference was the strength of the weapons.

He'd spent a few months in the ancient martial world, and he'd had a deep understanding of this. These Chu disciples all had a dagger, and only the Golden core Chu Wenshang didn't show it. It was very likely that he had a backup plan.

Chapter 5422 Lin Yi's Envy

But even so, Lin Yi didn't think much of it before-weapons were external things, after all. After staying on Sky Class Island for a few years, he was already very similar to the other Sky Class Island natives-he always felt that strength was the true king, especially in the ancient martial world where everyone had a weapon. The weapons he saw were all common goods, and they wouldn't be of much use in critical moments.

However, the scene in front of him completely reversed his perception.

Although the shadowshape shifting urn seemed to be a one-time use item, its effect was truly envious. Once used well, it could be of great use in both attack and defense, and could even turn the entire battle situation around at a critical moment. This was not something to be talked about.

At that moment, Lin Yi was very interested in this unknown Chu family. Those unique shadow element skills were already giving him quite an inspiration, and now there was this amazing shapeshifting jar. It seemed like he had to pay a visit when he got out.

Of course, even if they didn't, Lin Yi would've paid them a visit anyway, after all, they were preparing to marry Duanmu Yu.

Although Duanmu Yu didn't express her feelings clearly last time, Lin Yi could more or less guess a girl's feelings as someone who'd experienced it. No matter how the two ended up in the future, he wouldn't sit by and do nothing about this marriage between the Ling sect and House Chu. Otherwise, he wouldn't be a man.

"Shadowshape shifting jar?!" After hearing Chu Wenshang's words, Chu Tianlu was taken aback. He then revealed a look of shock and anger. "This is the family's most precious treasure. According to the ancestral teachings, only the family head can carry it. Why is it on you?"

In the small Jianghu of the immemorial era, every high-level sect and clan had their own unique characteristics and treasures. Even a small clan like the Chu clan, which was not considered a first-class clan, was no exception. The shadowshape shifting jar was the Chu clan's family treasure.

This was not a weapon in the traditional sense, but a one-time use item. Even so, it would not affect its status as a family treasure. Even if the Chu family had the forging method, due to the harsh conditions, the number of weapons had always been extremely small. In order to avoid any accidents, they were usually sealed in the basement, and only the family head could use them.

However, he did not expect that such an important family treasure, something that even an Aurous core stage expert like Chu Wenshang had no chance of seeing, would actually appear in the hands of a young disciple like Chu Tianliang, who was only at the peak of the late Foundation establishment stage. It was truly unexpected.

"Chu Hengding ..." Chu Wenshang's current state was still shocking. Chu Tianliang's knife had cut his carotid artery. Otherwise, he wouldn't be bleeding so much. However, his strength of the early gold core

realm was not for show. He had managed to stabilize such a serious injury that would have killed an ordinary person. Although his form was terrifying, he wouldn't die so quickly.

Chu Tianlu immediately understood what was going on when he heard the name. Chu hengding was none other than Chu tianliang's father, the top figure who was in charge of the entire Chu clan's finances. Only two people in the entire Chu clan had the opportunity to enter the basement. One was the current clan leader, who had just advanced to the nascent Soul Stage, and the other was Chu hengding.

It was obvious why Chu tianliang had the shapeshifting jar in his hands. Chu hengding was really willing to sacrifice everything for this son of his.

"Uncle Wenshang, as you can see, I was forced to save my life just now. Now this guy is like an arrow at the end of its flight, why don't you quickly get rid of him? Don't worry, I won't forget the one thousand spiritual jades that my father promised you. Also, I don't want the spiritual fruits anymore. They're all yours!" Chu tianliang quickly tried to salvage the situation.

Just now, Chu Wenshang was almost screwed over, especially with the precedent of returning kindness with ingratitude and stabbing Chu Xingping to death. If he did not quickly remedy it, Chu Wenshang might turn around and attack him, and that would be the end.

Upon hearing this, Chu Tianlu's heart skipped a beat. The effect of "changing bones with shadow" was about to disappear. At that time, his right arm would become a complete burden. He would not be able to fight back at all. If Chu Wenshang continued to attack him forcefully, he would have nowhere to escape to.

It had to be said that even though Chu tianliang's performance in other aspects was not worth mentioning, his words were said at the right time.

Sure enough, Chu Wenshang, who was already angry from embarrassment, had a change in expression. A deified soul fruit plus a thousand spirit jades, it was impossible for him to resist such a temptation. As for the debt of being forced into a bloody mess by the shadow swap technique, he could wait until another day.

"Uncle Wenshang, you've personally experienced this guy's character. Do you still want to continue to help the evildoer? Even if you really help him kill me, there's an 80 to 90% chance that he'll bite back at you. I advise you to think carefully before you speak. " Chu Tianlu could only try to persuade him. There was no way he could win if he attacked in his current state. He could only attack the heart.

Chu Wenshang was still hesitating. Chu tianliang, who was a hundred feet away, quickly followed and shouted, ""Don't listen to his nonsense. Listen to me. As long as you kill him, the spiritual fruit and the one thousand spiritual jades will all be yours!"

"Uncle Wenshang, you should at least look at the other party's character before making a deal. Otherwise, if the other party turns against you, you'll be the one at a disadvantage. And don't forget, you've personally experienced his shapeshifting urn!" Chu Tianlu continued to persuade.

Chu Wenshang didn't think much of it before, but when he heard the last sentence, his heart suddenly moved.

Chu tianliang's possession of the shapeshifting jar was a serious crime, and since he had become a witness, Chu hengding and Chu tianliang would definitely try to kill him afterward. There was no other choice. Even if he managed to get the spiritual fruit and the 1000 spiritual jades, it would only be a death sentence.

Seeing Chu Wenshang's expression change, Chu tianliang turned around and ran without saying a word. Chu Wenshang's guess was right. Since he was forced to use the shadowshape shifting jar, all the witnesses present must be killed. Chu Tianlu must die, and so must Chu Wenshang. He could not refute this point. The best plan was to escape.

Chu tianliang was escaping at a very fast speed, leaving Chu Wenshang and Chu Tianlu in the dust. Normally, any one of them would be able to catch up to Chu tianliang easily, but now that they were both seriously injured, how could they?

"Well, now you and I have become a thorn in the eyes of this father and son ..." Chu Wenshang smiled bitterly. After offending Chu hengding, a powerful figure at the top of the Chu family, his future would not be good.

"Hmph, as long as we report this to Grandpa master, let's see how they're going to explain themselves!" Chu Tianlu snorted coldly. With Chu tianliang's escape, he and Chu Wenshang now had a common enemy. At the very least, they were no longer as hostile as before.

Chapter 5423 Possessed

Chu Wenshang glanced at him and said with a bitter smile, ""You're too honest. As long as the family head doesn't catch us on the spot, Chu hengding can't be taken down. I bet we'll become street rats by the time we get back to Nakajima. They'll definitely pin the crime of stealing the shapeshifting urn on us. Chu hengding will even send law-enforcement teams to kill us. Do you believe it?"

"This ..." Chu Tianlu was at a loss for words. He had not thought of this. However, given Chu hengding and Chu tianliang's despicable behavior, it was only natural for them to distort the truth. By then, not only would he not be able to accuse them, but it would also be a big problem for him to protect himself.

"Fortunately, the shadowshape shifting urn is locked in the basement. Normally, only the master and Chu hengding can get it. No matter how they try to twist the truth, it's still a loophole that they can't get

around. Besides, he's been in charge of the family's finances for so many years, and he's been doing all kinds of dirty things in private. The master has more or less noticed it, but he turned a blind eye for the sake of their father and son relationship. Tianlu, you're also the master's direct grandson. In terms of blood relation, we're not inferior to the father and son, so we might have the power to fight back. " Chu Wenshang analyzed.

"Yeah, that's the only way." Chu Tianlu nodded. As he spoke, he suddenly took out the spiritual fruit and looked at Chu Wenshang, saying, ""What should we do about this?"

The two of them had now turned from enemies to friends and were now grasshoppers on the same rope. No matter who died, the other's future would be very difficult. Only by joining forces could they fight for a slim chance. At this time, it was a little irrational to monopolize the divine sense fruit. Although Chu Tianlu wasn't very smart, he still had this big picture in mind.

Chu Wenshang looked at the spiritual fruit and licked his lips. He was very tempted, and he even subconsciously had the urge to kill and snatch the treasure. However, in the end, his rationality prevailed, and he stared at each other for a while.

This spiritual fruit was something that Chu Wenshang wanted even in his dreams. However, it was also very important to Chu Tianlu. He was now at the perfected foundation building realm. Once he consumed the spiritual fruit, he would be able to break through the barrier and advance to the Golden core realm!

It wasn't appropriate for anyone to take it all for themselves, but if they split it equally, the value of this spiritual fruit would be greatly reduced, and no one's wish would be fulfilled, so what could they do?

The two of them fell into silence. After a moment, Chu Tianlu suddenly said, ""Why don't we go out first and think of a more suitable way? this place is very dangerous, we can't stay here for long."

"Extremely dangerous?" Chu Wenshang was stunned when he heard this. There was no one around, and there were no traces of spirit beasts. It would be reasonable to say that it was not suitable to stay here for a long time. After all, the high tide was about to rise. But how could it be very dangerous?

"Yes, let's talk while we walk." Chu Tianlu looked around cautiously and took the lead to walk in front. At the same time, he said, ""There are ghosts in this place!"

"Ha?" Chu Wenshang followed behind him, his eyes full of suspicion. This kid couldn't be lying to me in order to keep the spiritual fruit for himself, right?

"I'm not trying to scare you! Uncle Wenshang, think about it carefully. Why did I jump into the sea of my own accord? why did I know that the spiritual fruit was there? don't you think it's strange?" Chu Tianlu said with a bitter smile.

"It is indeed very strange." Chu Wenshang nodded and said suspiciously, "you mean someone is behind this?"

"It's not a ghost, but a real ghost. A voice suddenly appeared in my head and made me jump into the sea involuntarily. I found the spiritual fruit because of this voice. I don't know who it is or what it wants to do, but my instinct tells me that it's better to leave first." Chu Tianlu quickened his pace as he spoke.

"Oh, really? So you humans always return kindness with ingratitude, right?" It was clearly Chu Wenshang's voice behind him, but the tone and tone of his voice shocked Chu Tianlu. He subconsciously stopped in his tracks and felt goosebumps all over his body.

"Uncle Wenshang, you ..." Chu Tianlu quickly turned his head. Chu Wenshang was still Chu Wenshang, but his tone and tone were clearly the same as the voice that had appeared in his mind!

Chu Wenshang also stopped in his tracks. A strange smile hung on his face, which made people shudder. He said sinisterly, "Human boy, I'm the ghost you were talking about. Are you afraid?"

"Ah!" Chu Tianlu was greatly shocked and hurriedly took a few steps back. He pointed at the other party and stammered, "You ... You ... Who are you? Every injustice has its perpetrator, and every debt has its debtor. I have never provoked you!"

"You've never provoked me, but I'm hungry now, so I'm planning to eat you. What do you think of this reason?" Chu Wenshang was still laughing.

"What the hell are you? What did you do to uncle Wenshang?" If it were any other person, they would have been scared out of their wits by now. Although Chu Tianlu was also panicking, he still maintained a certain level of rationality and calmness.

"It's nothing. I'm just borrowing his body for a while. Of course, he's already a dead man because I've already eaten his primordial spirit. Early gold core realm is a bit weak and doesn't taste much, but it's better than nothing. " Chu Wenshang laughed.

After hearing this, Chu Tianlu felt as if he had fallen into an ice cellar. Chu Wenshang, who was in the early stage of the Golden core realm, died just like that?

"What do you want?" Chu Tianlu retreated once again. In his fear, he had even forgotten about the pain in his right shoulder. Although he had felt that something was wrong since he jumped down from the cliff and had been on tenterhooks the whole time, now that he was actually facing this strange and inexplicable existence, he still felt a chill in his heart and his back was drenched in cold sweat.

"That's a strange question. Since I've spent so much effort to lure you down here, of course it's to eat you. Do you think I'm inviting you here as a guest?" Chu Wenshang, whose body had been taken over by the monster, said with a strange expression.

"Eat us ..." Chu Tianlu's heart skipped a beat again. The so-called 'eat' was obviously devouring the primordial spirit. Although there was no damage to the physical body, once the primordial spirit died, it would really be dead. Chu Tianlu was stunned for a moment. Seeing that the other party had no intention of directly attacking, he secretly thought that he would definitely not be able to escape today. Thus, he gathered his courage and asked again, ""Why me?"

This question was a bit random. If it wasn't for the fact that this "Chu Wenshang", who had been possessed by this body, had done this kind of thing many times in the past and had long been accustomed to these people's reactions, he probably wouldn't have been able to react in a short time.

"Hehe, don't tell me you think that I chose you because you're talented and that you'll have some fortuitous encounter here that will allow you to soar into the sky? Naive, you humans are really naive, always thinking of good things. Why don't you think about where you got such a great opportunity?" Chu Wenshang sneered at his words.

Chapter 5424 Someone Else

Chu Tianlu's face and ears turned red. Everyone would always have some thoughts of thinking that they were extraordinary. This was human nature. Moreover, he came to the snake Island for a fortuitous encounter, and he had indeed found the spiritual fruit smoothly. How could he not have any thoughts of being lucky?

Unfortunately, the appearance of this monster shattered his last bit of fantasy. A pie would never fall from the sky for no reason, and it would not just happen to land on his head. He was just a prey that was being targeted.

Seeing Chu Tianlu's embarrassed expression, 'Chu Wenshang' continued to add salt to the wound with great interest, "To tell you the truth, there is only one reason why I chose you, because you are stupid! Otherwise, if you were a cautious and suspicious person, even if my primordial spirit hypnosis was somewhat useful, it would have taken a lot of effort. Hehe, are you satisfied now?"

"..." Chu Tianlu almost choked and spat out a mouthful of blood. In this situation, he no longer held any hopes of escaping. He only hoped to die a quick death. He never thought that he would be ridiculed like this before he died ...

"Alright, that's enough nonsense. Give me the spiritual fruit. Seeing that you're an honest human, I'll give you a quick death." Chu Wenshang extended his hand to Chu Tianlu and said.

Chu Tianlu's expression was full of resentment. He took out the deified soul fruit from his bosom and thought to himself, "I'm so unlucky this time. Now that I'm about to die and there's no hope of escaping, I might as well make up my mind and stuff the deified soul fruit into my mouth."

In any case, he was going to die, so he had to taste what the spiritual awareness fruit tasted like before he died, otherwise he wouldn't be able to die in peace!

"Bastard!" Chu Tianlu's audacious move made 'Chu Wenshang' go crazy. He was acting just now to lure people into the trap, but this time, he was serious. Not to mention this mysterious monster, even Lin Yi, who was watching coldly from a distance, couldn't help but click his tongue.

He didn't think much of Chu Tianlu before, but now, he was getting more and more interesting.

In an instant, Chu Wenshang had already arrived in front of Chu Tianlu. It should be known that Chu Tianlu had been retreating time and time again, and the distance between the two of them was at least 200 feet. Even if there was a qualitative difference in their strength, it was impossible for him to cross such a long distance in such a short time. In particular, Chu Wenshang didn't even use the pasted shadow steps, but simply relied on the explosive power of his physical body.

This clearly wasn't Chu Wenshang's strength. In the ancient martial world, he mainly focused on his consciousness, and his body was obviously weaker than the Masters of the same level on the Sky Class Island. Just based on the explosive power of his body, even the early golden core Masters on the Sky Class Island couldn't reach this level, not to mention Chu Wenshang, whose primordial spirit had been swallowed.

There was no doubt that this was all thanks to the monster that had taken over his body. With 10% of his body, he had used 150% of his strength. This showed that the monster was no small matter. Of course, using it like this would consume a lot of Chu Wenshang's physical body. He estimated that it would collapse on the spot after a few times.

Pa! When the spiritual fruit reached Chu Tianlu's mouth, he was unable to take a bite out of it. Chu Wenshang had forcibly snatched it.

"Hmph, you're about to die, but you still can't let it go. I spent so much effort to lure you here to dig up the spiritual sense fruit, did you really think I was using you to catch a fish and swallow my primordial spirit? You don't know what's good for you. It just so happens that I haven't tried the thousand ant technique in a long time, so I'll use you to practice it and let you have a taste of what it's like to be unable to live or die!" Chu Wenshang's face was ferocious.

Before he could finish his sentence, Chu Tianlu was already held by the neck and suspended in the air. His face instantly turned as red as a pig's liver. No matter how hard he struggled, it was to no avail.

The difference in strength between them was too great. Even in front of Chu Wenshang, Chu Tianlu would find it difficult to fight back, let alone this unfathomable freak, who was seriously injured. Although Chu Wenshang's neck was also cut, the other party was only temporarily using his body. He didn't take this trivial matter to heart.

If this continued, Chu Tianlu would soon be suffocated.

However, if that was all, he would still be considered lucky. As Chu Tianlu felt suffocated, his primordial spirit seemed to be pulled out of his physical body out of thin air. Countless ants were gnawing on it. At first, it was extremely itchy, then it was extremely painful, and then it was extremely itchy again. This went on and on, wave after wave, and it was endless. In an instant, his entire person was almost tortured to the point of collapse.

"You want to die so soon? Hmph, how can it be that easy? human brat, don't worry, I'll go easy on you and save you when you're about to die. It's rare for me to use the thousand ant technique, so wouldn't it be boring if I don't torture you for a year and a half? I forgot to tell you, among the humans I've tortured with the thousand ant spell, the toughest one lasted for more than seven months. He died, came back to life, and died again. I only stopped when his primordial spirit crumbled to the point where nothing was left. I wonder how long you can last?" Chu Wenshang seemed to be possessed by a demon at this moment. His face was still the same, but his expression and eyes were obviously not in the category of human.

Chu Tianlu was tortured to the point that he couldn't speak at all. He could only roll his eyes desperately. Today, he had truly experienced what it felt like to be unable to live or die.

Chu Wenshang continued to torture him while looking at the spiritual fruit in his other hand. He licked his tongue and sneered, ""Let me tell you something, this is the thirty-fifth spirit sense fruit I got. Hehe, you humans are all here for the spiritual fruits, but you don't know that such a treasure is not something you can touch. My hope of regrowing my body lies in this, and you want to compete with me?"

"The thirty-fifth? Where are the other 34?" A voice suddenly came from above him, and at the same time, it brought with it a bone-chilling cold.

Chu Wenshang, who had a mocking expression on his face, was shocked. Chu Tianlu's mind had gone blank from the torture of the thousand ants spell. Of course, he wasn't the one who said that. It was another young man who had suddenly appeared in the sky. It was none other than Bing Wuqing, who had separated from Lin Yi earlier!

This underground cave wasn't small, but it wasn't that big either. Lin Yi had stayed here and watched the show with great interest for half a day, and that was enough time for Bing Wuqing to make a full circle.

As a result, she had just arrived at this place when she saw the deified soul fruit in Chu Wenshang's hand. This guy had just happened to say that this was his thirty-fifth one. With Bing Wuqing's personality, she would have taken action immediately. As for the cause and effect, why did she care so much?

The target was clear. Bing Wuqing was coming for the deified soul fruit. Before she finished her words, she had already swooped down from a high altitude. Four transparent ice spears were formed in an instant, firmly locking onto Chu Wenshang's Mingmen and room for retreat. Bing Wuqing herself was heading straight for the deified soul fruit, determined to get it.

Chapter 5425 Giant Sky-Devouring Crocodile

"Chu Wenshang" immediately felt a huge pressure. Golden core stage experts were nothing to him. In his eyes, they were just food delivered to his door. However, Bing Wuqing was a true expert at the peak of the early stage of the nascent Soul Stage. Her strength was enough to look down on those of the same level. No matter where she appeared in the small Jianghu of the ancient times, she was definitely not to be underestimated.

The four ice spears were launched from high above. If it had been the original Chu Wenshang, he would have died even if he had a hundred lives. The difference between an early gold core realm cultivator and a peak early nascent soul realm cultivator, especially one who was a super genius like Bing Wuqing, was enough to crush everything.

In the end, the four ice spears all missed. "Chu Wenshang" was not the real Chu Wenshang after all. How could an existence that could easily devour a golden core stage primordial spirit be ordinary?

Bing Wuqing's eyes were filled with surprise. She had just arrived here, so she didn't know what had just happened, nor did she know the background of her opponent. She had only relied on her intuition to tell that her opponent was not simple, but she had never expected him to be so complicated. Not only had he dodged the four ice spears that could have taken his life, but he had even turned the tables and attacked, taking the opportunity to get close to her.

"Pasted steps?" After all, she was from the middle Island sect. Bing Wuqing immediately recognized the move that the opponent was using. It was actually the Chu clan's pasted shadow steps. When did the Chu clan have such an expert? Could he be a new nascent Soul Stage cultivator of the Chu family?

Bing Wuqing was only surprised. Chu Tianlu, who had been saved by accident because of her, was extremely shocked when he saw the scene before him. This guy had only taken over Chu Wenshang's physical body. How could he use the pasted shadow steps? Could it be that he could use Chu Wenshang's martial arts techniques after devouring his primordial spirit?

Most importantly, how could he use sticking steps like this?

As a disciple of the Chu clan, Chu Tianlu's understanding of the pasted shadow steps was beyond doubt. Although this shadow-type movement technique was considered unique in terms of its effects, it was still not considered a first-class technique. After all, there were too many restrictions. Even if the shadow requirements were met, there was still a certain amount of time to accumulate power. It was difficult to guarantee its effects in actual combat.

However, "Chu Wenshang" 's move just now completely overturned his understanding. The shadow did not meet the requirements, and there was no sign of accumulation of power. In the nick of time, it directly stuck to him like a ghost. Was this still the shadow sticking steps?

One had to die when comparing oneself to another, and one had to throw away one's goods when comparing oneself to another. It was the Chu clan's shadow steps, and Chu Wenshang's physical body, but it was so shocking when used by someone else. Chu Tianlu was dumbfounded for a moment, and he could only watch as Bing Wuqing and Chu Wenshang fought in front of him. He didn't take the initiative to retreat.

He actually had an epiphany? Lin Yi couldn't help but chuckle at this scene from a distance. Chu Tianlu had just escaped death, and now he entered the state of enlightenment that countless practitioners dreamed of. Was this some kind of fortune for fools?

Lin Yi was about to make a move, but since Bing Wuqing had intervened, he didn't need to show himself so quickly. He might as well wait and see.

At this moment, Bing Wuqing and Chu Wenshang were almost stuck together. This distance was too dangerous, and death could be seen if one was not careful. Even Bing Wuqing didn't dare to be careless. The moment Chu Wenshang closed in on her, she didn't hesitate to raise her heartless ice power to the

extreme. With her current strength, the heartless ice power was already extraordinary, especially since this move was more powerful the closer the distance was. If Chu Wenshang took the initiative to get close to her, it was no different from suicide.

Bing Wuqing was very certain that at such a close distance, she could kill an expert at the peak of the early stage of the nascent soul realm in seconds. Even a mid-stage nascent soul realm expert who was one level higher would be severely injured. It was even possible for those with weaker foundations to die on the spot.

The result was as he had expected. Chu Wenshang was frozen, and his entire body turned into a lifelike human-shaped ice sculpture.

Bing Wuqing was immediately relieved. Being frozen like this, her physical functions would definitely be completely destroyed. She was already a dead person.

However, right at this moment, an earth-shattering roar of a tyrannical beast suddenly exploded in his ears, and a huge, intangible figure emerged from Chu Wenshang's body. When Bing Wuqing saw the other party's appearance clearly, she was stunned, and she almost blurted out, "Crocodile?!"

It wasn't just Bing Wuqing, even Lin Yi was surprised. He had been trying to guess what kind of existence the other party was, and it was only now that the truth was out-it was a huge, ferocious man-eating crocodile!

This was the snake Island, and the spiritual fruit was formed from the galls of the snakes. Lin Yi thought that it was a snake, but it turned out to be a man-eating crocodile, and a spirit at that.

"To be able to force me to this step, you human do have some ability. Hmph, but it will end here!" The man-eating crocodile's voice was clearly imprinted in Bing Wuqing's mind, followed by an endless itch and pain, as if thousands of ants were on her body. It was the thousand ant spell that he had just used on Chu Tianlu.

Just now, Chu Tianlu had only managed to hold on for an instant before he was on the verge of collapse. The torturous power of the thousand ants spell was evident. However, the effect was not as obvious when it was used on Bing Wuqing. This fellow did not even make a sound. It was just that his expressionless face had become a little more ferocious.

Not only that, but Bing Wuqing was actually thinking of counterattacking at this time. Although her primordial spirit could be immune to most of the martial technique attacks, her merciless ice power could be put to use. It was just that it wasn't as immediate as the alchemy fire.

"You're quite tough, and you still want to fight back? It's a pity that you're too weak. I'm the Grand Sky-devouring crocodile. When I still had my physical body, I was invincible in the ancient martial world. Your top human cultivators were just a pile of food in my eyes. Although I've fallen now, it's more than enough to deal with you, a peak early nascent soul cultivator. " The man-eating crocodile dodged the area of merciless's ice attack while looking down at Bing Wuqing from above.

"Sky-devouring giant crocodile!" Bing Wuqing's ferocious face was once again filled with shock.

This ancient man-eating crocodile was actually the sky-devouring giant crocodile that had caused a disaster hundreds of years ago. It was a super fierce beast in the history of the small rivers and lakes of the ancient times. When it stirred up the wind and rain, it forced the entire ancient Alliance to panic and swallowed countless cultivators. For this reason, the ancient Alliance even specially organized a dozen nascent soul old monsters to join forces to encircle and annihilate it. In the end, not only did they not kill it, but they also suffered eight casualties, almost the entire Army was wiped out.

The sky-devouring giant crocodile was definitely one of the most dangerous fierce beasts in the ancient martial world, and it was one of the best!

Chapter 5426 Bing Wuqing Is In Trouble

According to historical records, this ferocious beast was not exterminated by humans, but for some unknown reason, it disappeared on its own. However, it was unexpected that it would appear in this secret cave on the snake Island and even become a primordial spirit.

"Are you scared?" The sky-devouring alligator hovered in the air, perfectly calm and unruffled, avoiding the range of Wuqing's ice power. The thousand ant technique was still tormenting Bing Wuqing, and it could be said that it was in an invincible position.

Bing Wuqing's expression was very unsightly. It wasn't just because of the thousand ant technique, but more importantly, she was a little frightened by the other party. According to historical records, the sky-devouring giant crocodile was an existence that stood at the top of the small Jianghu in the immemorial age. Ordinary nascent soul old monsters were nothing in front of it. Even a great circle nascent soul might not be able to escape unscathed, let alone she, who was only at the peak of the early stage of the nascent soul realm.

The only good news was that the other party was not in his peak state, and was only a primordial spirit.

The other party was a primordial spirit, so Bing Wuqing had no other effective means except for the merciless ice power. However, since the other party had become a primordial spirit, his strength would naturally be greatly reduced. Otherwise, if the sky-devouring crocodile was at its peak, Bing Wuqing would have left long ago.

To be honest, even if she knew that the other party was just a primordial spirit, Bing Wuqing already had the intention to retreat. She had no choice. First of all, she couldn't defeat him. Second of all, she had no way to deal with him except for the heartless ice power. What else could she do but run?

However, in his current state, if he wanted to escape, he would have to at least suppress the thousand ant spell first. Otherwise, he would not be able to be distracted. Moreover, he might look normal, but he was only holding on by relying on his inhuman will. If this went on for a long time, even a God would collapse.

However, how could he remove the thousand ant spell?

"I would like to ask, why would the sky-devouring giant crocodile that caused everyone's expressions to change, appear in this unknown remote place?" Bing Wuqing suddenly retracted her emotionless ICE FORCE and asked.

He was not the only one who wanted to know the answer to this question. All the cultivators in the small Jianghu of the immemorial era probably wanted to know as well. If the sky-devouring giant crocodile had continued to wreak havoc, the history of the entire small Jianghu of the immemorial era might have been rewritten. Even the survival of the current immemorial Alliance was a big question.

"Hehe, human, you're really an anomaly." The illusionary face of the sky-devouring crocodile revealed a very strange expression for the first time. The number of nascent soul old monsters that had died in its mouth could not be counted with both hands and feet. However, after being hit by its thousand ant technique, Bing Wuqing was still able to remain calm and even answer its questions calmly. She was indeed the first person it had ever seen.

The giant sky-devouring crocodile was more than happy to cooperate when it saw that Bing Wuqing was trying to buy time. It immediately said, ""Forget it. In any case, no one can dispel my thousand ant spell. You'll be tortured to death sooner or later. Since you want to waste time, I'll do it with you."

Hearing this, Lin Yi stopped what he was doing. He was about to help Bing Wuqing when he saw that she was in trouble, but since she could endure it, he was interested in hearing about the giant sky-devouring crocodile's past.

"This Snake Island was formed by the ancestor of the snakes thousands of years ago. I accidentally discovered this place hundreds of years ago, but I didn't expect to meet its descendant. It just so happened that the snake had just laid its eggs, so I unceremoniously devoured all of its eggs. In the end, it wanted to fight me to the death. "It's a pity that I didn't realize it was a mutant. It swallowed me in one bite ..." The giant sky-devouring crocodile sighed as it talked about this.

"And the result?" Bing Wuqing asked calmly.

"In the end, it was stuffed to death. However, I wasn't any better off. It melted my physical body and I became like this. Not only that, but the snake eggs that I swallowed became my death talismans. Each of them were stubborn in my primordial spirit and could only be melted by the spiritual fruit ..." The sky-devouring crocodile explained in full detail.

At the same time, the giant sky-devouring crocodile was still sizing up Bing Wuqing, its eyes shining with a frightening light.

Although Bing Wuqing's strength was indeed not weak, she couldn't do anything in front of it. From the beginning to the end, it had been in a position of invincibility. Otherwise, it wouldn't have had the mood to waste its breath. That's right, it was taking advantage of the situation to buy time. It had absolute confidence in its thousand ant spell. So, as long as it continued to drag this out, Bing Wuqing would be tortured to death sooner or later. It didn't have to waste its energy to attack again.

But now, the giant sky-devouring crocodile had a new idea. It wanted to take over the body!

After devouring Chu Wenshang's primordial spirit, it took advantage of the opportunity to occupy Chu Wenshang's body. This was actually possession, but it didn't take it too seriously and didn't really control every inch of his body. It could barely be considered an incomplete version of possession. After all, it was just the body of a mere early golden core expert. In its eyes, it was no different from trash. It could just make use of the trash, so why would it really care?

However, Bing Wuqing was different. It was not easy to find someone at the peak of the early stage of the nascent soul realm on the snake Island, not to mention that it had already found out that this person was extremely talented. If it could take over her body seriously, even if it could not bring out 30 to 40 percent of its original power, it could still be unrivaled in the small Jianghu of the immemorial era.

With such a piece of unpolished jade in front of him, how could the giant sky-devouring crocodile not be moved at all?

Of course, even if they were both possessed, possessing an early gold core expert and possessing an expert at the peak of the early nascent Soul Stage were two completely different things. Even the sky-devouring giant crocodile would need to be patient in order to completely replace Bing Wuqing.

"The snake egg is a death-hastening talisman?" Bing Wuqing's expression didn't change much, but a thin layer of sweat had appeared on her forehead. The thousand ant spell was no small matter, and no matter how hard she tried to suppress it, it was gradually showing signs of collapse.

"Hmph, every Supreme snake egg that I swallow will leave behind a stubborn and unmelting tumor in my primordial spirit. The most troublesome thing is that the Supreme snake tribe's innate talent is the same as mine. They are born with the ability to devour everything, including my primordial spirit. Only I, the giant sky devouring crocodile, can suppress them. If it was an ordinary primordial spirit, it would have been devoured by them long ago." The giant sky-devouring crocodile paused with lingering fear and said, "I might as well tell you, the inspiration for the thousand ant spell was from them. However, this torture pales in comparison to them. It's not even worth mentioning."

Chapter 5427 Lin Yi Behind

Although she had said all this to buy time, Bing Wuqing was still shocked. She couldn't help but ask, "What does that have to do with the spiritual awareness fruit?"

"The malignant tumor comes from the Supreme snake egg. The spiritual fruit also comes from the Supreme snake egg. I tried for a few hundred years before I found out that the spiritual fruit can cure these malignant tumors. Unfortunately, the spiritual fruit is really rare. If I'm unlucky, I won't be able to get one in a few decades. I've been here for God knows how many years, and this is only the 35th one ..." The giant sky-devouring crocodile shed bitter tears again when it talked about this. If it had known this would happen, it would not have come to this broken place even if it was killed. Otherwise, they might have already become the rulers of the small ancient Jianghu. How could they be in such a terrible state now? if they were unlucky, the snake tribe would be the unlucky one.

When it said that, both Bing Wuqing and Lin Yi couldn't help but feel a little disappointed. Thirty-five spiritual fruits! When they heard the number, their hearts were filled with excitement. One spiritual fruit could increase one's primordial spirit level. If they could get all thirty-five, how many levels would they be able to increase? Even if one would develop a resistance to this thing if they ate too much, with the quantity, it would not be a problem for them to level up ten or eight levels!

Let alone Bing Wuqing, even Lin Yi's heart trembled when he thought about it. The reason why his strength had improved so much in the past few years on the Sky Class Island, other than the various opportunities, was mainly because of the various high-quality pills. Now that he was in the xuansheng stage, the pills were no longer effective. If he wanted to level up, he could only rely on hard work and cultivation. If he wanted to level up normally, it would take at least a few years, decades, or even a few hundred years.

But now, a spiritual fruit had suddenly appeared. What if it was also effective for xuansheng stage experts? wouldn't he make a killing?

Lin Yi's heart was on fire, but now it was like a bucket of cold water was poured on his head. Since they were used to remove the tumor, the sky-devouring crocodile must have used all thirty-four of them. In other words, there was only one Spirit sense fruit left.

"You're thinking too much ..." Lin Yi couldn't help but blush after understanding the situation. He was in a good state of mind before, but perhaps it was because he had been projecting his spirit for too long, he was feeling uneasy and worried about losing it. This wasn't a good sign.

"So there's only one. What a pity." Bing Wuqing sighed as well. Everyone would drool over the spiritual fruit, and he was no exception. However, he was also clear about his position and situation. An absolutely rational person like him wouldn't let his mind go to the point of hogging the spiritual fruit. The first thing he would do after getting it would be to give it to Lin Yi.

If they could find a few more spiritual fruits, Bing Wuqing believed that she would be able to get a share of the loot given Lin Yi's open-minded personality. But now, there was only one, so there was nothing to be gained.

"Hehe, from your tone, you're still thinking about the spiritual awareness fruit?" The giant sky-devouring crocodile was amused when it heard this. These humans were really interesting. They were clearly at death's door, but they still did not change.

But then again, the spiritual fruit was indeed in Bing Wuqing's hands. Even a fool could tell that the sky-devouring crocodile was certain that it would have Bing Wuqing, and the spiritual fruit would be its sooner or later. However, it was in its primordial spirit state now, so it couldn't even pick it up. It could only return it to its original owner after the possession.

"I can 't?" Bing Wuqing's expression, which had already begun to show signs of struggle, suddenly turned a little strange. The temperature within a few miles behind her suddenly dropped, and the

merciless ice power poured out again. This time, it was not the giant sky-devouring crocodile that was hit, but himself.

In the blink of an eye, Bing Wuqing was frozen into a human-shaped ice sculpture, just like Chu Wenshang.

"Has this guy gone crazy?" The sky-devouring alligator didn't react in time. Even though it had a stronger resistance to its own martial arts, Bing Wuqing's actions were undoubtedly self-harm. Not only was her body frostbitten, but even her primordial spirit was seriously injured.

Primordial spirit! The giant sky-devouring crocodile was no fool, after all. It immediately understood Bing Wuqing's plan when it thought of this. This fellow was willing to hurt himself just to use this move to break the thousand ant spell!

The merciless ice might be effective against primordial spirit, but it might also be effective against the thousand ant technique. Although it would only add to his injuries, once the thousand ant technique was removed, he would no longer have the shackles around his neck. With his strength, even if he couldn't defeat the sky-devouring crocodile, he would still have a chance of escaping.

The giant sky-devouring crocodile still wanted to take over his body. How could it let him succeed so easily? When he came to his senses, he didn't waste any time. He forcefully withstood the power of the merciless ice, and his entire primordial spirit transformed into his true form. He looked down from above and gave Bing Wuqing a blow.

According to its original plan, it wanted to use the thousand ant spell to torture Bing Wuqing until her primordial spirit collapsed. This way, it could possess her without any effort. However, its plan couldn't keep up with the changes now, so it couldn't care so much anymore. It had to swallow this guy's primordial spirit clean first, which would be a great supplement!

A hint of anxiety flashed in Bing Wuqing's eyes. Her courage to cut her losses had indeed given her enough returns. Her vital spirit had been severely injured, and the thousand ant spell had been broken as well. However, her physical body was still frozen, and it would take at least a breath's time for her to recover her mobility.

This was a gamble. Not only did they have to bet on the merciless ice spell being able to break the thousand ant spell, but they also had to bet on the opponent not making any major moves within a breath's time. Bing Wuqing had won the first half of the bet, but not the second half.

With his physical body unable to move, he was now a living target. He could only watch as he walked into the Tiger's mouth.

At this moment, a streak of fire shot out from afar and hit the giant crocodile's bloody mouth. The giant crocodile did not care at first, but after the fire entered its mouth, it let out a miserable howl and retreated in fear.

"Who is it?" The giant sky-devouring crocodile was like a bird startled by the mere twang of a bow. Although the merciless ice was effective against the primordial spirit, it could only be considered a side effect at most. It would be good if it could only display 30% of its effect. However, this flame was different. It was the natural enemy of the primordial spirit and its effect was more than ten times!

"I've been watching the show for so long. Didn't the famous sky-devouring crocodile notice?" A figure slowly approached from afar, and Bing Wuqing was overjoyed to hear the voice. Needless to say, it was Lin Yi.

"Who are you?" Seeing Lin Yi getting closer and closer, the giant sky-devouring crocodile rose into the air again, not daring to attack Bing Wuqing anymore. Although the alchemy fire didn't hurt it severely, it was enough to make it feel pain.

The key was that it was a primordial spirit with heaven-defying strength. Not even the slightest movement here could escape its perception. However, it could not sense the other party's existence. The meaning behind this made it tremble with fear just thinking about it.

Chapter 5428 You're Not Human!

Ever since it had suffered a great loss at the hands of the snake, the giant sky-devouring crocodile was no longer as lawless as before. It had learned to fear and dread. It knew that it could only survive if it kept these two things at all times.

"Can you guess?" Lin Yi said mischievously. The sky-devouring crocodile was at the top of the food chain in the ancient martial world, but it was far from that on the Sky Class Island. It was easy for Lin Yi to hide from its senses as a xuansheng stage essence spirit.

"You're the Grand snake?" The giant sky-devouring crocodile immediately thought of the existence that had left a shadow in its heart for the rest of its life. This was the snake Island, and the most terrifying creature was naturally the snake. Although it was a human in front of it, with the abilities of a mature snake, it was not difficult to transform into a human.

Lin Yi ignored him and turned to Bing Wuqing, "How are you?"

At this moment, Bing Wuqing had already recovered from her frozen state. Although her physical body and primordial spirit had suffered considerable damage, her condition wasn't too bad. She forced a smile and said, "Don't worry, boss. I'm fine. "

As Bing Wuqing spoke, she handed the spiritual fruit to Lin Yi. Lin Yi didn't reject her and took it with a slight nod. To Bing Wuqing, the value of a spiritual fruit was about the same as a golden core, but it was of great significance to him. It should be known that the xuansheng stage didn't have such a pill. As for Bing Wuqing, he would just compensate her with more golden core later.

"That's mine!" The sky-devouring alligator was furious. It didn't care if Bing Wuqing had the spiritual fruit because it could handle her. But now, it was Lin Yi. Its beast instinct told it that once the spiritual fruit fell into this man's hands, it would have nothing to do with him anymore.

"You're not convinced? Then come and snatch it!" Lin Yi's lips curled up in provocation.

After all, it was a Super Beast with a fierce reputation. The giant sky-devouring crocodile's ferocity was already triggered after suffering a big loss just now. It only didn't attack because it was afraid. Now that Lin Yi provoked it, it was immediately enraged and wanted to bite down.

Although it was only in the form of a formless spirit, this amount of power was enough to scare off any nascent soul old monster in the ancient martial world. Unfortunately, it had met Lin Yi.

When it came to dealing with primordial spirits, Lin Yi had way more methods than Bing Wuqing.

Lin Yi calmly shot out a pill fire, but it wasn't directed at the sky-devouring crocodile, but at the soles of his feet.

æ»«! A sizzling sound that numbed one's eardrums sounded, and a pool of black liquid appeared under Lin Yi's feet. Upon closer inspection, there seemed to be countless corpses of strange insects hidden in it, but they were quickly burned to ashes by the alchemy fire, leaving nothing behind.

"This is your thousand ant technique, right?" Lin Yi grinned. The sky-devouring crocodile looked like an overbearing beast, and anyone who saw it would think that it was fierce and invincible. However, no one expected it to be so cunning. If Lin Yi wasn't prepared, no one else would be able to escape its tricks.

The sky-devouring giant crocodile became more and more frightened after its attack missed. It immediately stopped its feint and turned to escape.

After all, he was an old monster who had lived for who knew how many years. Although he couldn't see Lin Yi's strength, he could tell that this person wasn't someone to mess with, especially with the refinement fire, a killer move that was extremely restrained. Losing a spirit sense fruit was fine, at worst it would just have to endure a few more decades, but if he continued to be strong, he might even lose his life here.

This scene surprised Lin Yi. The giant sky-devouring crocodile was really cunning.

The giant sky-devouring crocodile fled quickly. However, before it could escape a hundred feet, a huge black Hand grabbed it with lightning speed and sucked it back. Soul-devouring hand!

With the refinement fire and the soul-snatching hand, Lin Yi was the only expert in dealing with the primordial spirit in this ancient martial world.

"Amazing!" At the side, Bing Wuqing's eyes lit up as she watched. As for Chu Tianlu, who had accidentally entered a state of enlightenment, he finally woke up at this moment. He was dumbfounded as he watched this scene.

At this moment, the one who was truly shocked was the giant sky-devouring crocodile. With its strength, it did not believe that it would fall at the hands of a mere human. The reason why it chose to escape was not because it felt that it could not win, but purely because it had been bitten by a snake. An old monster like it who had lived for who knew how many years would always put its life first. As long as there was a way out, it would not take the risk easily.

But now, with Lin Yi's hand, it couldn't even escape.

If it was not for the primordial spirit, the giant sky-devouring crocodile would have been covered in cold sweat. It was supposed to be the primordial spirit that stood at the top of the ancient Jianghu, but it could not fight back at all in front of the other party. The other party wanted to suck it in and it could only be sucked in obediently. Was this a F * cking nightmare?

Of course, this wasn't a nightmare. Just like how it had defeated Bing Wuqing, it was unlucky to have fallen into Lin Yi's hands. However, it wasn't willing to accept this!

According to Lin Yi's habits, the moment he used the hand, he'd just pull it into the Jade space and do whatever he wanted-no one would be able to do anything to him in the space he controlled.

However, the soul-devouring hand that had never failed before had failed. The giant sky-devouring crocodile's essence spirit wasn't locked in the Jade space. Instead, it forcefully broke free from the soul-devouring hand's restraint at the last moment and got onto Lin Yi's body!

He was making bogus accusations! Even Lin Yi couldn't help but be shocked. They were both in the immortal soul Stage, and a nascent soul against a xuansheng. No matter how much the sky-devouring giant crocodile stood at the peak of the nascent Soul Stage, there was still a qualitative difference. He didn't expect to underestimate this guy.

After all, the sky-devouring crocodile was a Super Beast that could cause trouble at times. Once it went all out, it was a threat to even a xuansheng stage being. Besides, this thing was cunning, it was also ferocious. Not only did it break free from the soul-devouring hand, it wanted to take the chance to possess Lin Yi!

Bing Wuqing was already enough to make him drool. If he could take over Lin Yi's body, his strength would be comparable to his peak. Even if he couldn't recover the strong body of the sky-devouring crocodile, he would be able to dominate the small world in the ancient times.

Everything was perfect, but the sky-devouring crocodile made a mistake. The moment it entered Lin Yi's body, it exclaimed, ""Are you not a F * cking human?!"

No matter how it calculated, it never would've thought that Lin Yi's body was a Yuan spirit body, and the other was just a Yuan spirit like it!

The heart of the giant sky-devouring crocodile sank. The first important thing in possession was to control the body. This was the most important battlefield. After that was the devouring of the primordial spirit. Otherwise, he would not even be able to enter the battlefield. What was the point of possessing?

Chapter 5429 Who Devoured Who?

If it had known this would happen, it would not have considered whether to possess the body or not. It would have directly devoured the primordial spirit. Now, it had chosen the wrong direction and used the

wrong strength. The giant sky-devouring crocodile felt as if it had used all its strength but had missed. It simply made people vomit blood.

It would have been fine if it was just uncomfortable, but the key was that it had lost the upper hand at this moment. Don't forget that it was not the only one who had the ability to devour primordial spirits. It was really a mistake that could cause eternal regret!

Ever since he'd learned the essence of spirit devour from the nine infants during the ancient trials, Lin Yi had only been using the hand of soul devouring, but that didn't mean he wouldn't use it no matter what. He was just afraid of the side effects before, so he didn't use it easily. Now that he was forced to this point, if he didn't make a move now, he'd be the host instead! What was there to worry about?

The giant sky-devouring crocodile was about to activate its devour ability to save itself when Lin Yi made the first move. It was like a life-and-death battle. It had just stepped halfway into the arena and was not even ready when Lin Yi's axe was already coming down on it.

"You're overestimating yourself!" The giant sky-devouring crocodile snorted in exasperation. Although it was surprised that the other party could devour primordial spirits and it had fallen into such a passive situation, it did not lose its confidence. Devouring was its unique talent. Moreover, its primordial spirit was at the top level in the small ancient pugilistic world. Who could devour the other?

The two primordial spirits wanted to devour each other. This was a war that belonged to the primordial spirits.

However, the giant sky-devouring crocodile was once again overwhelmed with shock. It was shocked to find that the other party's devouring ability was not any weaker than its own. What was even more exaggerated was that the other party was actually a xuansheng stage primordial spirit!

Just this was a death sentence for the sky-devouring crocodile. Not only did it lose the initiative, but the opponent's strength was also far above its own. It was like two armies fighting. In front of Lin Yi, it collapsed with a single touch without any resistance.

The sky-devouring crocodile's essence spirit was devoured by Lin Yi.

"Phew ..." Lin Yi let out a breath of relief. This result was within his expectations, but it was his first time doing it for real. He was glad that it went so smoothly.

The devouring continued. Although the sky-devouring crocodile couldn't fight back, it was destined that no matter how smooth it went, the process wouldn't be short. After all, it was an essence spirit at the peak of the nascent Soul Stage, almost half a step to the mystic level. This amount of consciousness was not small for Lin Yi.

Just as he was devouring the spirit, Lin Yi's aura suddenly became unstable, and the fluctuation grew bigger and bigger, as if it was about to burst out.

"He's going to break through?" Bing Wuqing, who was at the side, was shocked when she saw this scene. Lin Yi had always been unfathomable to her, but she had never known his exact cultivation level. After feeling the strong primordial spirit fluctuation, she couldn't help but be stunned. It was actually the legendary xuansheng stage!

Not only that, Lin Yi was still breaking through!

"Stay away!" Bing Wuqing immediately reacted and pushed Chu Tianlu to the side. She ignored her own injuries and stayed by Lin Yi's side to protect him. The process of breaking through couldn't be disturbed by any external factors, or the consequences would be unimaginable.

Swallowing the sky-devouring crocodile's essence spirit was an unexpected move. He only wanted to use the soul-devouring hand, but the situation forced him to use it. What surprised him the most was that he'd unknowingly reached this stage-this was a chance for him to break through!

At the level of the mysterious Ascension stage, every level was extremely difficult to break through. This was a real surprise for Lin Yi. He was already at the peak of the early stage of mysterious Ascension, and if he broke through successfully this time, he would be in the mid-stage of mysterious Ascension!

However, Lin Yi wasn't as overjoyed as he thought he would be. It wasn't the best way for him to force a breakthrough by devouring the soul. There were many hidden dangers.

This hidden danger did not just come from the opportunity itself, but mainly from the sky-devouring crocodile. Because this thing was not a pure primordial spirit at all, but a Cannonball with poison!

Unless he was as talented as the nine infants, devouring the spirit would have consequences. This was why Lin Yi didn't want to devour the spirit and only used the hand. He could've done it a long time ago if he wanted to break through, but the path of cultivation was like walking on thin ice, and it didn't end well for him.

This time, Lin Yi was forced into a corner.

He was forced to do this-this was what Lin Yi was thinking. Although he'd gotten an unexpected surprise from breaking through, trouble came along with it. Lin Yi realized that his strengthened spirit wasn't as pure as it used to be.

While devouring the other party's primordial spirit, it was inevitable that some of the other party's emotions and memories would be absorbed, especially the obsession before being devoured. This was a subtle influence, and no matter how strong a person was, they could not completely eliminate it. They could only rely on their own strong willpower to suppress it to the edge of their consciousness. After a long time, these things would gradually fade and disappear with the wind.

With Lin Yi's willpower, if the opponent was just a normal person, he wouldn't be affected in any way. His willpower was enough to control it as he wished. The problem was that the opponent was a sky-devouring crocodile that left a mark in the history of the ancient martial world. Who knew how many years old monsters had lived!

This huge amount of information was overwhelming. Although Lin Yi swallowed its essence spirit, it felt like a snake swallowing an elephant. Lin Yi was about to die from being stuffed to death. His head was in so much pain that it felt like it was going to explode!

It was just a few seconds, but Lin Yi felt like years had passed. A normal person would've lost consciousness by now, but he didn't have the nine infants Grand Sage's unique racial talents. Lin Yi's heaven-defying willpower was the only thing that helped him survive.

However, Lin Yi didn't have the chance to feel lucky or feel the strength of the mid-stage xuansheng. He had encountered a very troublesome problem. The cancer that was originally plaguing the sky-devouring crocodile's soul wasn't completely digested with the crocodile's soul. Instead, it was transferred to Lin Yi's head. It was as stubborn as gangrene.

This tumor was caused by the giant sky-devouring crocodile when it forcefully swallowed the eggs of the Tai Snake Clan. Even an old monster like it was helpless and could only rely on the spiritual fruits to resolve it bit by bit. Now that it was dead, the trouble was left to Lin Yi.

Chapter 5430 Breakthrough, Mid-Stage Xuansheng

Lin Yi's head started to hurt again as he thought about the whole thing-how was he supposed to do this?

Fortunately, after this round of transfer, although the tumors weren't removed, they were weakened quite a bit. It was a headache for Lin Yi, but it wasn't as bad as the sky-devouring crocodile 'S. He could still bear it.

However, if he continued to ignore it, who knew what would happen in the future? it would be fine if it gradually faded like the other obsessions as time passed, but what if it became more and more serious like a malignant tumor?

From the experience of the giant sky-devouring crocodile, it was obviously not the former. Otherwise, it would not have these tumors after living for so many years.

The more he thought about it, the more terrifying the consequences were. Lin Yi would rather not level up than to get involved in such trouble. Unfortunately, there were no ifs in this world. The sky-devouring crocodile didn't have a chance to do it again, and neither did he.

"No more, no less, there's still nine tumors ..." Lin Yi carefully examined himself three times and came to this conclusion. He didn't know if one Spirit sense fruit could cure all these tumors. If one Spirit sense fruit could only cure one, it would be really troublesome.

Fortunately, the tumors were weakened after the second transfer. Other than making Lin Yi feel uncomfortable and irritated, there were no other obvious side effects for now. He could suppress it for a while.

Lin Yi couldn't help but sigh-his decision before was really wise. Although the effect of consuming the essence spirit was immediate, it was indeed a very risky thing to do. Fortunately, he'd been using the soul Catcher hand all this time, or else he'd be affected by the lingering will long ago even without these troublesome tumors.

Two hours later, Lin Yi slowly opened his eyes. After his hard work, he had managed to suppress the nine different sized tumors to the edges. He was safe for now, but there was a bunch of time bombs that he couldn't deal with. If he didn't think of a way to deal with it soon, it would explode at the wrong time and he would die without a burial.

"Boss, congratulations!" Bing Wuqing, who was guarding at the side, said sincerely. She only knew that Lin Yi's strength had increased by a level, and the thigh she was clinging onto had become even thicker. She had no idea that Lin Yi was in a difficult situation right now.

"Hehe, it's nothing." Lin Yi shook his head noncommittally. No one would be happy to be involved in such a situation. Of course, he didn't plan to complain to Bing Wuqing. After all, even if he told her, she wouldn't be able to help. He had to think of a way himself.

Lin Yi's performance made Bing Wuqing admire him even more. Although he was always expressionless, he couldn't help but be overjoyed when he broke through. The higher the level, the harder it was to get, and he couldn't be so calm.

He stood up and sized up Bing Wuqing. ""How are your injuries?"

"It's fine. I used to get frostbites when I was cultivating. I'm used to it. " Bing Wuqing was an absolutely rational and pragmatic person, but she was an out-and-out lunatic when it came to cultivation. Almost every day of her daily cultivation was a challenge to her limits. She had lost control of her ice power at least eight hundred times, if not a thousand times. It had been much more serious than this time, so she had long gotten used to it.

Not to mention, he had a special physique and constantly challenged his limits. Other things aside, his resistance to the cold was definitely second to none-even Lin Yi couldn't be compared to him.

"Yes." Lin Yi nodded. If it was before, he would have checked Bing Wuqing personally, but he was too preoccupied with the case right now to do that. Besides, he could see that Bing Wuqing's injury was really not a big deal.

It was almost evening outside, and once the tide rose, the whole cave would be submerged. It wasn't good to stay here any longer, so Lin Yi decided to leave with Bing Wuqing immediately. As for the spiritual fruit, he would study it after he got out of here.

At this moment, Chu Tianlu, who had been shouted away by Bing Wuqing earlier, gathered his courage and came forward. He bowed and said,""Two benefactors, thank you for saving my life. This little brother is extremely grateful, but there is no way for me to repay you for saving my life. If there is anything that this little brother can do for you, this little brother will not hesitate to die."

The two of them looked at each other. Bing Wuqing didn't know what had happened, so she didn't take this person to heart. Lin Yi, on the other hand, said with a playful tone,""Repay a favor? What can you do for us in this state?"

"Uh ..." Chu Tianlu couldn't help but blush. His shoulder had been pierced and his arm was crippled. He didn't even have the power to protect himself, let alone repay the favor. On the snake Island, a mere cultivator in the great circle of the foundation building realm was already a weakling, not to mention that he was injured to this extent. His words just now were indeed sincere gratitude, but if it was really serious, what he said was just pleasant to the ear.

While Chu Tianlu was still in a daze, Lin Yi and Bing Wuqing had already walked towards the entrance of the cave. Since there was only one spiritual fruit here, there was no point in staying any longer. It was better to leave as soon as possible.

Chu Tianlu laughed bitterly and quickly followed behind. No matter what he planned to do, he had to get out of this cave first.

Not long after, the three of them had already walked out of the cave and climbed back to the top of the cliff. This kind of thing was not difficult for any Foundation Stage master, at most it would take a little more effort.

"Where are we going next?" Bing Wuqing asked. She had come here purely to accompany Lin Yi. Of course, she had also thought about the spiritual fruits, but since there was only one, it was none of her business. Not only the underground cave, but there was probably only one in the entire Snake Island. Otherwise, the sky-devouring giant crocodile wouldn't be waiting there.

As for the other treasures, he didn't really care for them at his level-it was up to Lin Yi to decide if he wanted them or not.

Lin Yi muttered to himself. In his current state, it was best for him to find a place to go into closed door cultivation and study how much the spiritual fruit could do to the nine tumors, or if there was any other way to cure them. However, he had already suppressed all of these, so there was no rush.

"Let's continue walking forward and look for Ling Tianyou. I'm a little worried about him just now." Lin Yi said. Ling Tianyou wasn't his follower, but they were friends. If it weren't for him, Lin Yi wouldn't have had the chance to get the spiritual fruit. If something happened to Ling Tianyou, he wouldn't be able to live with himself.

"Alright," he said. Bing Wuqing naturally wouldn't object.
