

Bodyguard 5571

Chapter 5571 Spirit-Eating Beast

"This is interesting. I thought we were here to mine. I didn't expect such an interesting thing!" Lin Yi pinched his chin and chuckled. Whether it was his eyes or his spirit sense, he didn't find anything out of the ordinary. It was because of this that Lin Yi's interest increased. Danger often came with opportunities.

At a time like this, if the Green Dragon was here, he might be able to see something. Even elder Jiao could give some advice, but he couldn't follow. Elder Jiao could still talk in the secular world, but there was no movement in the ancient martial world. Lin Yi had to judge the situation by himself.

After raising his guard, Lin Yi walked back in step by step, slowly approaching the place he was at before. He extended his spirit sense to the limit and paid close attention to any changes in the Jade space.

"Strange. Was it really a mistake just now?" After returning to his previous position, there was nothing out of the ordinary. Lin Yi mumbled to himself as his body slowly relaxed from the alert state.

Just as Lin Yi relaxed, an invisible attack appeared behind him, taking into account all the possible angles he could Dodge!

"Hahaha! As expected, it still came out!" Lin Yi looked like he let his guard down, but he was actually just letting it go on the outside. When the attack came, Lin Yi turned into his spirit form and let the attack pass through his body.

The wild fire Eight Trigram palm followed the attack and returned. Unfortunately, this palm did not hit any enemy. In the end, it only hit a few pieces of ore.

"Eh? He's really fast!" Lin Yi re-condensed his Yuan spirit and looked at the small hole in the ground, slightly surprised. He used his spirit sense to cover every inch of space around him.

When he was attacked, Lin Yi's spirit sense finally saw the thing that sneaked an attack on him. It was a spirit beast that was about a meter long. It looked like a pangolin, but Lin Yi knew that it was definitely not a pangolin.

He'd never seen it before, but he'd seen its name when he was in Qingyun school, flipping through some books!

The description of the spirit feasting beast was very simple: It's commonly seen in spiritual Jade mines, feeds on spiritual power, is brutal, likes to kill, is good at hiding, and can escape through the earth.

Lin Yi couldn't help but frown at the thought. From what he'd seen with his spirit sense, the spirit feasting beast was only low-tier nascent soul. If it was just one, it wouldn't be a problem as long as he was careful, but spirit feasting beasts never lived alone. If there was one, there would be a second, and if the two had already reproduced, there would be a third or fourth ...

Lin Yi felt helpless when it came to spirit feasting beasts. If Jin Weifeng or Ling Tianyou encountered one, they would be caught off guard and ambushed.

"What the hell are the four great sects and families doing? How could he not know that there were spirit-eating beasts in the spirit Jade immortal vein? Or did they deliberately hide the news in order to

weaken the strength of the ten small sects and avoid the emergence of a threat to the four big sects? If that's the case, the Shangguan family wouldn't have kept it from me, right?" Lin Yi thought to himself. He wanted to find Jin Weifeng and the others even more now.

Lin Yi really wanted to ask someone if there were any casualties when he was collecting spiritual jades. However, even if there was such a thing, it would probably be counted as an internal fight between the ten Little ones and then used to cover up the existence of the spirit eating beast.

Lin Yi's mind was spinning, but he didn't let his guard down. He knew that it was a spirit feasting beast attacking him, so he didn't dare to be careless anymore. After all, it was a spirit feasting beast that appeared just now, but it definitely wasn't the only one!

Damn it, the spirit feasting beast didn't just know how to escape through the ground, it also knew how to hide. Not to mention the naked eye, even Lin Yi's divine sense could only catch the spirit feasting beast's movement the moment it attacked. Lin Yi really felt helpless against this kind of enemy.

A divine sense attack suddenly came from above, approaching Lin Yi's head in an instant. At the same time, there was a spirit force attack on Lin Yi's back, aiming for his heart like a poisonous snake.

Two Spirit feasting beasts!

Lin Yi squinted his eyes, not panicking at all. He turned back into his spirit form and three spirit vortexes appeared out of thin air, surrounding the spirit feasting beast.

When he was in his Yuan Shen State, the spiritual attacks would cause the most damage to Lin Yi, but he had the God bracelet and didn't care about it at all. Instead, he took the chance to beat one of the spirit feasting beasts to death!

If it wasn't for the fact that the soul Catcher hand took a little longer to release than the consciousness Whirlpool, Lin Yi would've used it directly. The spirit eating beast was just too fast, and Lin Yi didn't even dare to let go of this little bit of time difference. He caught the spirit eating beast that was trying to sneak attack him from behind.

Under the pull of the spirit sense Whirlpool, the spirit feasting beast let out a miserable cry, and the spirit feasting beast above rushed out, attacking Lin Yi without care.

Lin Yi had the God bracelet for defense. After blocking the first attack, he turned back into his Yuan Shen body and sent out a Five Element killing intent towards the beast. For a moment, they were evenly matched. This was also because the beast was only at the peak of the late gold core stage, not yet at the original level. Otherwise, Lin Yi's yuan Shen body was only at the peak of the Foundation Stage, and even with the five Element killing intent, he couldn't fight against the original level beast.

The spirit feasting beast that was trapped in the consciousness Whirlpool suddenly roared and spat out an extremely condensed light beam. Lin Yi was shocked. He didn't need the Jade to warn him-he could tell how dangerous the light beam was just from the power!

Even in the primordial spirit state, he would still suffer fatal injuries!

Lin Yi suddenly realized this and didn't dare to hesitate. He used his super butterfly micro-steps and retreated continuously. He finally dodged the beam of light, and when he looked up, the two Spirit feasting beasts had disappeared.

"What a powerful spirit-eating beast!" Lin Yi's face was serious. The explosion of power from the spirit feasting beast was probably a life-saving trump card. But no matter what, these spirit feasting beasts were extremely dangerous existences, especially to Ling Tianyou, who was at the peak of the Foundation Stage. A simple claw could easily end him.

Jin Weifeng was at least a nascent soul cultivator. Even if he was ambushed, he could still protect himself as long as he was alert. Lin Yi felt that the priority was to find Ling Tianyou.

Chapter 5572 Who Do You Think You Are

He returned to the battle area, but there were still no traces of the spirit feasting beast, nor were they attacked again. Lin Yi guessed that the early nascent soul realm spirit feasting beast had injured his core, and Lin Yi's consciousness vortex wasn't for nothing. The early nascent soul realm spirit feasting beast should be heavily injured.

If he had the time, Lin Yi would really like to look for the nests of the spirit feasting beasts. It was said that there would be good things in the nests of these spirit feasting beasts that fed on spirit Jade. Unfortunately, their safety was the most important thing right now, and Lin Yi couldn't stay any longer. Since he couldn't find the spirit feasting beasts, he might as well maintain his vigilance and speed up.

With Lin Yi's speed, he could break the sound barrier if he ran at full speed. He was a hundred kilometers away in a short while, but because of the turns, he wasn't too far from the battle.

What made Lin Yi curious was that this whole journey was basically filled with useless or poor people-why would the two Spirit feasting beasts go there? With the nature of the spirit feasting beasts, they wouldn't even look at those who weren't rich.

Or could it be that there was something hidden in the abandoned vein that was enough to attract the spirit eating beasts? Lin Yi felt that after finding Ling Tianyou and the others, he should come back to visit when he had the time. As he said before, danger and opportunity basically went hand in hand.

At this moment, Lin Yi heard the faint sounds of fighting. In the spirit Jade immortal vein, not only was spirit sense suppressed, but Qi fluctuations were also absorbed. On the other hand, there was no restriction on the transmission of sound. Lin Yi immediately ran towards the source of the sound. No matter who was fighting, it was good to be able to find the person first.

After getting closer, Lin Yi realized that it was ye Qingcheng from ye Ling sect and Yun Feiyang from yingyun sect fighting over the rich vein.

It was the first time Lin Yi had seen a rich vein after running this far. It wasn't a lot, but if one person were to mine it, it would be enough for seven or eight days without a break. It was more than enough to complete the mission, but if two people were to mine it, they could finish it in three or four days. After that, they would have to look for other veins. It was no wonder the two would fight over it.

The void Bag could not be snatched as it would be useless even if it was snatched. However, before the spirit Jade was stored in the void Bag, it was an ownerless item. Whoever could store it in their Void Bag would own it. They did not know where the next rich vein would be. If they did not snatch it now, when would they do it?

Lin Yi didn't know what to say-there were at least Two Spirit feasting beasts nearby, and they were making such a big scene, weren't they afraid of being eaten like snacks?

"Stop!" Lin Yi shouted as soon as he appeared. The two of them were on par with each other, and neither of them had the upper hand. When they realized that someone had interfered, they stopped and retreated at the same time.

Ye Qingcheng was overjoyed to see Lin Yi and greeted him with a big smile,""Master Lin, what a coincidence that you're nearby too!"

"Sect leader ye, did you see Ling Tianyou from the thousand blades sect and Jin Weifeng from our Qingyun sect?" Lin Yi nodded at ye Qingcheng.

Ye Qingcheng shook his head and said,"no, I didn 't. After I teleported here, I only saw this guy. He's Yun Feiyang from yingyun sect. Yingyun sect is a sect under Qiankun sect. It seems that every time the disciples of Qiankun sect teleport, they would be teleported to the fu vein. So I couldn't help but attack him."

Yun Feiyang took a step back and looked at Lin Yi and ye Qingcheng with vigilance. Ye Qingcheng was already giving him a headache, and now there was this Lin Yi who even ye Qingcheng had to call himself a junior. Yun Feiyang obviously couldn't fight against him alone.

Lin Yi glanced at Yun Feiyang indifferently. He didn't have any special thoughts about yingyun sect, and they hadn't dealt with each other before. He couldn't just destroy Yun Feiyang just because he was a disciple of the Qiankun sect. Speaking of which, the snow sword sect was still a disciple of the Qiankun sect. It was just that Yu Taicang and his group were more familiar with the Qiankun sect before, but now that it was Bing Wuqing, the relationship between the two sects was a lot weaker.

If it wasn't for the fact that Lin Yi didn't mention that the snow sword sect should join the Shangguan family, and that Bing Wuqing was too lazy to do anything about it, the snow sword sect wouldn't be a part of the Qiankun sect right now.

"What's the point of you two fighting each other? there are so many spiritual jades. It'll take three or four days for you two to mine them all, right? If you have the time, you might as well get more spirit Jade and find another place to mine. " Lin Yi didn't want to get involved in the conflict between the two, so he tried to persuade them.

To be honest, the amount of spiritual Jade in this vein was much less than the amount of useless Jade he had just collected. It would be good if he could get around eight to ten thousand spiritual jades from all of them, and Lin Yi didn't really care about them.

Ye Qingcheng didn't expect Lin Yi to say that. When he first saw Lin Yi, he thought that he had strong support. There was no way the yingyun sect could have a share in this rich vein, but who knew that Lin Yi didn't seem to want the spiritual Jade at all?

If they didn't mine the spirit Jade in the spirit Jade immortal vein, would the green cloud School not want to get a good ranking in the top ten?

Lin Yi, of course, wouldn't explain that he didn't care about the spirit Jade that he still needed to mine. He still maintained his spirit sense at the maximum range, in case the spirit feasting beast attacked again without any preparation.

The spirit feasting beast didn't notice it, but Lin Yi did see someone rushing over from another direction- it was another grand Elder of the yingyin sect, a peak mid-tier nascent soul cultivator, zou Baixiang!

Lin Yi's eyes flickered-it was a random teleportation, and the two were right next to each other, getting close to each other with a purpose. It was impossible for them to not have some sort of trick up their sleeves. Did they have a way to sense each other? Or was there a direct way to contact him?

Yun Feiyang seemed to have sensed zou Baixiang's arrival as well. After he turned around and confirmed it, a look of joy appeared on his face, as if he had found a pillar of support.

"Grand Elder, I'm here!" Yun Feiyang waved his hand and turned to Lin Yi, "You're Lin Yi, right? This is a matter between our yingyun sect and spirit leaf sect. On the whole, it's a matter between the Qiankun sect and Qitian sect. Your Qingyun sect should not get involved. "

Lin Yi raised an eyebrow and smiled."Oh? You think I'm a busybody? To be honest, I hate meddling in other people's business the most, but if you're talking about the matter between the universe sect and the heaven opening sect, then it doesn't seem to be a busybody. Should I meddle in it?"

"What a joke. Do you think the Qingyun sect can interfere in the affairs of the Qiankun sect? Who Do You Think You Are? I advise you to take good care of your Qingyun school! You can't even protect yourself, yet you still dare to be so arrogant outside!" The one who spoke this time was the Grand Elder zou Baixiang. Judging from his haughty look, those who didn't know better would think that it was the immortal Dunan of the Qiankun sect.

Chapter 5573 A Fight

Lin Yi ignored him and turned his head to the other side. It had to be said that this part of the vein was in a well-connected path, so it was easy to be discovered. He didn't know how it was preserved until now.

This time, Lin Yi found out that the person was Jin Weifeng, and it was a pleasant surprise! It saved Lin Yi a lot of time.

"Martial granduncle! This disciple's luck is really not bad, finding martial granduncle so quickly!" Jin Weifeng saw Lin Yi and immediately ran over with a smile.

"Hmph, two new Yuanying stage cultivators and an unknown martial granduncle who came out of nowhere. Do you think you can make the green cloud School rise? I don't know if those sects just now were stupid, but why didn't they challenge your green cloud School? if they did, green cloud School might just drop out of the top ten!" Zou Baixiang didn't know why, but he felt anger rising in his heart when Lin Yi ignored him.

Proud people really couldn't tolerate being ignored by others!

Lin Yi continued to ignore Zou Baixiang and smiled at Jin Weifeng, "I'm relieved to see you. You didn't encounter any danger, right? Did you see Ling Tianyou and the others?"

"No, they didn't encounter any danger, and I didn't see Ling Tian protecting them." Jin Weifeng chuckled, "we didn't find any spiritual Jade either. All we saw along the way were useless meridians. It wasn't easy for us to find a place with more spiritual Qi. I didn't expect so many people to be here."

Zou Baixiang's face was turning dark-it wasn't just Lin Yi who ignored him, even that Qingyun school kid ignored him! This was intolerable!

Lin Yi pointed at the rich vein. "There's quite a lot of spiritual Jade here, but the two of them found it first. I was just trying to persuade them not to fight for it and mine it together."

Yun Feiyang sneered, "I found this place first. Why should I mine with him? If you know what's good for you, get lost. Don't think that you're awesome just because you have more people! Our yingyin sect is not afraid of having too many people!"

"Oh, what a big tone! My martial granduncle is giving you face by persuading you, but you old brat, you're still not giving face! Come, come, come, let me see just how much you're worth, old man. " Jin Weifeng wasn't happy. Lin Yi was like a god in his heart. How could he let people from yingyun sect humiliate him?

But after that, Jin Weifeng turned to Lin Yi, "Senior granduncle, can this disciple teach this old fellow a lesson?"

Lin Yi, of course, wouldn't object to it. He brought Jin Weifeng here to give him a chance to train, and Yun Feiyang was a perfect Whetstone. The two were of the same strength, and Jin Weifeng lacked some experience, but Yun Feiyang had just fought with ye Qingcheng, so the two were on the same level.

"Go ahead. The yingyun sect isn't afraid of having too many people. I guess they're afraid of not having enough people. So, it shouldn't be a problem for you to go alone!" Lin Yi made a rare joke, and Jin Weifeng and ye Qingcheng both smiled. The two from yingyun sect, on the other hand, were even more furious.

Yun Feiyang didn't say anything. When he saw Jin Weifeng come out, he immediately opened the folding fan in his hand. After pouring in his true energy, he waved it with all his might. For a moment, the wind and water were stirred up, and fog filled the air. It was very similar to the scene of clouds and mist rising.

Jin Weifeng unsheathed his long sword. As the sword light flashed, it actually split the clouds that Yun Feiyang had sent out into a few areas. Then, under Yun Feiyang's shocked gaze, the sword went straight for the yellow Dragon. The tip of the sword went straight for Yun Feiyang's chest.

"What a fast sword!" Yun Feiyang was shocked, but he didn't dare to be slow. He kept his fan, and the blade of the fan made of dark steel sliced across his chest. He wanted to block the tip of the sword, but

Jin Weifeng's sword was too fast. The tip of the sword couldn't block it, and it could only hit the body of the sword, causing the long sword to miss a little.

A stream of blood spurted out from the tip of the sword. Although it was not a serious injury, it was enough to make Yun Feiyang's heart turn cold. Jin Weifeng was just an unknown disciple of the Qingyun school, but he was able to injure him with just one move. When Jin Weifeng grew up, how terrifying would he be?

Jin Weifeng's sword did not contain any killing intent, so when it was deflected by Yun Feiyang, it only managed to hurt Yun Feiyang a little. However, Yun Feiyang had already figured out Jin Weifeng's strength. Even though the two of them were both in the early nascent Soul Stage, Jin Weifeng's combat ability was clearly higher than Yun Feiyang's.

When Zou Baixiang saw this scene, he frowned slightly and his face was gloomy. He thought that the nascent soul realm cultivators of Qingyun school had just advanced and their combat power would not be good. He did not expect that things were not what he thought.

Jin Weifeng was also very excited. This was the first time he fought with a nascent Soul Stage cultivator other than Xin Yijie. After his sword was knocked away, Jin Weifeng used the momentum to sweep his sword. At the same time, he used a low level martial skill.

Although Yun Feiyang was shocked, he did not panic. After all, he was a veteran original leveled cultivator. With a few steps, he dodged Jin Weifeng's sword attack. Then, he continued to attack, defending against Jin Weifeng's attacks while waiting for an opportunity to counterattack.

Ye Qingcheng, who was watching from the side, was a little dazed. He and Yun Feiyang were evenly matched, so how did Jin Weifeng get the absolute upper hand as soon as he went up? If that was the case, then wouldn't Jin Weifeng be even more powerful than him?

However, he remembered that Jin Weifeng was Lin Yi's follower, so it wasn't strange for him to act like this.

The two of them continued to use their martial skills. For a moment, sword Qi and clouds filled the air. However, this did not last long, and the outcome of the battle was quickly decided. Yun Feiyang was hit continuously, but fortunately, they were only punches and kicks. There were no fatal injuries, but he looked a little miserable.

Jin Weifeng pointed his sword at Yun Feiyang's throat and laughed, "How is it? Are you convinced now? Now you know that we, the green cloud School, are not to be trifled with, right?"

"Qingyun school is not to be trifled with, but do you think yingyun sect is to be trifled with?" Zou Baixiang suddenly roared and reached out his hand to hit Jin Weifeng's chest. With his power at the peak of the middle stage of the original level, if he hit Jin Weifeng, he would be seriously injured even if he didn't die.

Lin Yi's eyes turned cold. He was about to make a move, but after seeing Jin Weifeng's calm face, he changed his mind. Since he wanted to sharpen the sword, he might as well use a better Whetstone. Yun Feiyang didn't seem to be qualified, but this zou Baixiang might be a good Whetstone. After zou Baixiang, would Jin Weifeng's future sword of Qingyun shine differently?

Jin Weifeng didn't expect zou Baixiang to suddenly attack, but he didn't panic at all. His long sword shook and tilted towards zou Baixiang's palm. However, zou Baixiang's Zhen Qi was so thick that it was beyond his imagination. It directly led Jin Weifeng's sword to the side.

Chapter 5574 Let Them Have It

"Sink the tip of the sword three inches, shift it one inch to the right, and stab in an arc!" Just when Jin Weifeng felt that he couldn't handle it anymore, Lin Yi's voice suddenly sounded in his ear. Out of respect and trust for Lin Yi, Jin Weifeng subconsciously did what Lin Yi said without thinking.

The long sword, which seemed to have fallen into a quagmire, suddenly broke through Zou Baixiang's true energy smoothly and passed through without any hindrance. In an instant, it approached the blind spot under Zou Baixiang's armpit, causing Zou Baixiang to break out in a cold sweat.

Nine Illusion Cloud body!

It was the highest level movement technique of the cloud guiding sect. Zou Baixiang was naturally able to use it well. Even though Jin Weifeng's sword was unexpectedly fast, and it was the kind that could not be avoided, but in front of the nine Illusion Cloud body, it completely missed.

Jin Weifeng's battle experience was not rich enough. The sword that he thought would definitely hit missed. He was stunned. In a battle between experts, how could such a mistake be tolerated? Moreover, Jin Weifeng's strength was much weaker than Zou Baixiang's.

Zou Baixiang took the chance to counterattack, sending a martial art at Lin Yi from a tricky angle. Lin Yi continued to use his Qi to communicate quickly, "Take a step forward and release the vacuum sword wave to your right back. Release the sky-soaring Cannon Fist to your right front!"

Lin Yi was talking about the practical mid-tier martial arts skills in the Qingyun sect. They weren't that powerful and might not be able to do much damage in a battle between nascent soul cultivators, but they were fast. After Jin Weifeng got the instructions, his body started moving according to Lin Yi's instructions.

After taking a step forward, although he was still within the attack range of Zou Baixiang's martial technique, he avoided the most powerful direct attack. Then, the vacuum sword wave hit Zou Baixiang's martial technique from the side, knocking the remaining attacks away. Jin Weifeng was scared but not in danger. He survived this attack without any injuries.

Not only that, Lin Yi's sky Cannon Fist at the end, when Jin Weifeng sent it out, it was clearly an empty spot. If it wasn't for his trust in Lin Yi, Jin Weifeng would've thought that he missed. But at the same time, Zou Baixiang mysteriously appeared at that spot, as if he was rushing to get beaten up.

With a loud explosion, the nine Illusion Cloud body could not escape Jin Weifeng's attack. Zou Baixiang, who was caught off guard, was forced back two steps by the sky Cannon Fist, which was not a very powerful martial technique. Jin Weifeng himself was also pushed back two steps by the rebound. On the surface, it looked like both sides were evenly matched, and neither side had a clear winner.

Only Zou Baixiang himself knew that in these two rounds, he was at a complete disadvantage. All the attacks and defenses seemed to be within Jin Weifeng's calculations. If this continued, he would definitely lose.

This discovery shocked Zou Baixiang. Jin Weifeng was only a beginner nascent soul cultivator, and he couldn't gain any advantage over him. On the other hand, there was an even more mysterious Lin Yi. No matter how he looked at it, he was going to lose today!

"Stop!" Zou Baixiang saw Jin Weifeng's excited face and wanted to rush forward. He quickly took a few steps back, raised his hand and shouted.

If it was Lin Yi, he wouldn't care about what the enemy said and would just continue hitting. But Jin Weifeng, the honest kid, really stopped and asked suspiciously, "What's wrong? Are you trying to convince me?"

Zou Baixiang blushed and coughed twice. ""What do you mean by that? what I'm trying to say is that our time here is limited, so let's not waste time fighting here. Let's just mine these spirit Jade mines together, shall we?"

This was admitting defeat. Even if he didn't admit it verbally, he was clearly admitting defeat! Jin Weifeng's heart was filled with excitement. Lin Yi's junior Master was amazing. With just a few words of advice, he could easily deal with a master at the peak of the middle stage of nascent soul!

Lin Yi didn't want to waste any more time. He waved his hand. "Forget it, I'll let you have this place! Five people won't be able to get a lot of spirit Jade. "

Ye Qingcheng was slightly stunned. "They clearly have the upper hand. Why did they suddenly give this place to yingyun sect?" What he didn't know was that Lin Yi was in a hurry to find someone, and this place wasn't far from where the two Spirit feasting beasts were. Lin Yi didn't feel at ease leaving ye Qingcheng and Jin Weifeng here to mine the spiritual Jade.

As for whether zou Baixiang and Yun Feiyang would be targeted by the spirit feasting beast or not, that wasn't Lin Yi's business.

"Sect leader ye, the most important thing now is to find your fellow sect members, right? We'll give the spiritual Jade here to the yingyun sect. Anyway, the mineral veins nearby are quite poor, and I don't think it's an area with rich veins. Why don't you come with us?" Lin Yi looked at ye Qingcheng and invited him to go with him.

This was also for Duanmu Yu's sake. Otherwise, ye Qingcheng wouldn't have received such care from Lin Yi.

Ye Qingcheng took a reluctant look at the broken vein as he nodded helplessly, ""Then, I'll follow Master Lin. Please take care of me!"

If Lin Yi and Jin Weifeng left, ye Qingcheng obviously wouldn't be able to win against two people from the yingyun sect, so she didn't say anything after seeing the situation.

Zou Baixiang obviously didn't expect things to turn out this way. If he had known earlier, he would have just admitted defeat earlier. Why did he waste so much effort? And he almost died!

Lin Yi couldn't be bothered with the two from the Yinyin sect. He called out to Jin Weifeng and took the two in another direction.

"By the way, does sect leader ye know of any ways to contact others after entering this spirit Jade immortal vein?" After walking for a while, Lin Yi suddenly remembered zou Baixiang running over. It could be a coincidence, but Lin Yi didn't think so.

Ye Qingcheng was the head of one of the ten Little sects, after all, and it wasn't his first time here. He smiled at Lin Yi's question, "If we want to contact each other, we can only do it if we have an immemorial Dao tool, a communication bead. However, this thing is quite precious. It's not as practical as a Void Bag, but its value is about the same. Very few people have a communication bead."

Lin Yi nodded. This communication bead sounded like a phone-he could get some to play with if he had the chance.

"In addition to the transmission Pearl, there are also some tools that can sense each other's location even though they can't directly communicate with each other. The value of these tools is much lower, but they're still not very common, so it's not easy to buy them." Lin Yi was quite interested in what ye Qingcheng was talking about-he'd never heard of anything like this on Sky Class Island, and while it was rare in the ancient martial world, it wasn't unique.

Chapter 5575 As Expected, Something Happened

From the looks of it, the two people from the cloud guiding sect should have a tool that could determine each other's location. It was probably lent to them by the Qiankun sect. If there was a chance in the future, he could consider borrowing some tools from the Qiankun sect for research.

The three of them walked quite a distance as they talked, but Lin Yi was still on guard, in case the spirit feasting beast attacked again. These creatures were vengeful creatures, and they wouldn't let Lin Yi off easily.

"I've finally found it!" Lin Yi's ears first picked up the sounds of mining, and he found Ling Tianyou's traces in his spirit sense. He couldn't help but smile.

The kid's luck wasn't bad-he didn't teleport to a rich vein, but it wasn't a wasted one like Lin Yi did, either. At least he came across a poor vein, and he'd gotten around ten good spiritual jades already. If he were an invincible primordial, he'd probably have gotten around a hundred.

Lin Yi turned to Jin Weifeng and ye Qingcheng, "Ling Tianyou is just up ahead. You guys go and bring him over. I'll wait for you guys here."

"Alright, please wait a moment, martial granduncle." Jin Weifeng ran over without a word. Ye Qingcheng was curious why Lin Yi didn't go with him, but she didn't dare to question him and followed Jin Weifeng.

After the two turned the corner, Lin Yi took out 50000 spiritual jades from his Jade space-they were all from Sky Class Island. He still hadn't filled up the 50000 to 60000 spiritual jades he put in earlier, so he'd use them to make up for it. He wanted the three of them to split it up-from the rich vein they'd just seen, it was already a miracle for each of them to get 10000 spiritual jades in ten days.

Thinking about how only two hundred thousand spiritual jades could be mined in a year in the small Jianghu of the immemorial era, and they had to be used for cultivation, distribution, and then circulated as money, it was really hard to make ends meet. It was no wonder the purchasing power of spiritual jades was so strong.

"Waa! So many spiritual jades! Are my eyes playing tricks on me?" Jin Weifeng was the first to return, and he started yelling when he saw the spiritual jades on the ground. Lin Yi ignored him and called out to the shocked Ling Tianyou.

"Master Lin, are these all the spiritual jades that you've mined? How could he be so fast?" Ye Qingcheng was completely convinced by Lin Yi, and she wanted to prostrate herself on the ground and worship him.

No wonder Lin Yi didn't have any thoughts about the rich vein before-it was nothing compared to all the spiritual Jade he'd collected! But what Ye Qingcheng didn't understand was, how did Lin Yi take out so many spiritual jades? Didn't you say that you can't take it out after putting it in?

Lin Yi didn't explain further and just waved his hand."You three can split these spiritual jades. It should be enough for the void Bag to transport you out."

The three didn't ask Lin Yi how he was going to take out the spirit Jade-he was mysterious, after all, and they were already used to it. It was the meaning behind his words that surprised them.

"Senior granduncle, are you going to let the three of us leave first?" Jin Weifeng didn't look very willing. It wasn't easy for him to be able to train with Lin Yi, and he had to leave after such a short time?

Lin Yi nodded, his tone firm. "That's right. Something has happened here. You must leave immediately, or I won't be able to take care of you. As for the others, I'll have them leave immediately after I find them. "

"Master Lin, what happened? Wasn't he just fine just now?" Ye Qingcheng asked carefully. He didn't want to leave right away. It was rare for him to get closer to Lin Yi, and it would be a waste to leave now.

"There's no use in telling you, just trust me!" Lin Yi didn't want to tell them about the spirit feasting beast as he didn't want to have to explain it. With two people following him, Lin Yi was confident that he could take care of them, but three was a little difficult. He wasn't sure if the spirit feasting beast was watching in the dark, so the best way was to send the three away.

The three couldn't say anything else after Lin Yi said that. They divided the spiritual jades on the ground and sent them out one after another after their void bags lit up.

After sending the three off, Lin Yi finally let out a breath of relief. He went to the poor vein that Ling Tianyou had mined and put all the Jade waste into the Jade space. This place had obviously been mined many times, and there were at least fifty to sixty thousand pieces of jade on the ground, even more than what Lin Yi had just taken out. It would be a waste not to put them away.

"Why aren't the two Spirit feasting beasts here yet? Could it be that the damage caused by the spiritual awareness Whirlpool was too heavy, so he couldn't come for revenge?" Lin Yi had been waiting for the spirit feasting beast to come, but it seemed like it was more injured than he thought, especially that last explosion.

"Forget it, it doesn't matter if these two Spirit feasting beasts don't come. Let's go find the others and see what the situation is like!" After collecting the Jade, Lin Yi continued to move forward at high speed, but three days passed without meeting a single person! This was completely different from the first day when they met people.

He stood in another abandoned vein area and collected all the Jade pieces. Lin Yi's head was starting to hurt-he'd been walking around these three days, and all of them were from abandoned or poor veins. He'd gotten over a million just from the Jade pieces alone, which wasn't a big or small amount of income, but he couldn't find any small people.

He should've run into the undefeatable Taigu and the rising sky sect in a place like this, but there weren't any. Lin Yi decided on a direction and continued walking.

What made Lin Yi feel strange was that the spirit feasting beast didn't appear even once in these three days. This didn't seem like something a spirit feasting beast would do-could it be that the beast's injuries hadn't recovered? It's tiring to be on high alert all the time!

Just as Lin Yi was mumbling to himself, he caught a whiff of blood. His expression changed as he sprinted towards the direction of the blood.

After turning two corners, a broken body lay in the passage, with a pool of black and red blood under it. From the degree of coagulation, the man had not been dead for too long, about two hours.

The head of the corpse was a bloody mess, and its original appearance could no longer be distinguished. However, from the clothes on his body, he should be an elder of the rising sky sect who had reached the peak of the gold core realm!

Chapter 5576 Transfer

"His dantian was torn apart, and his golden core was dug out. There are scratch marks on the body, could it be the work of a spirit feasting beast?" Lin Yi raised his guard to the highest level after a closer look.

Spirit feasting beasts didn't just like to absorb the spirit energy from spirit jades, they also liked to nourish the Golden cores and nascent souls of human cultivators. Lin Yi had reason to suspect that this elder was killed by a spirit feasting beast.

It wasn't that the spirit feasting beasts didn't come after Lin Yi, but that they couldn't find him at the moment. As for this unlucky guy, he was just a snack that the spirit feasting beasts killed.

Lin Yi looked around and made sure that the spirit feasting beast had left. He waved his hand and made a hole in the tunnel, moving the elder in and burying him with rocks. After all, he was from an Alliance sect. It was natural to hide him.

After doing all that, Lin Yi spread out his spirit sense and continued moving quickly. He finally saw someone, and although it was a dead person, it at least meant that there were traces of people in this area. He might be able to find someone else immediately, but he just hoped that it wasn't another corpse.

After a while, Lin Yi found one of the ten children, and it was someone he knew, Xuanji Bing Wuqing!

Other than Bing Wuqing, there were also the two Spirit feasting beasts, who were surrounding her and launching waves of attacks at her. If it weren't for the fact that Bing Wuqing had the strengthened heartless ICE FORCE, which could effectively reduce the speed of the two Spirit feasting beasts' movements and attacks, Lin Yi would most likely be looking at Bing Wuqing's corpse.

Seeing this, Lin Yi naturally threw himself into the fight without a second thought. This time, he had enough time to use his hand, trying to get rid of at least one Spirit feasting beast at the start. However, when his hand got close to the target, it was blocked by a transparent light film that suddenly appeared around the spirit feasting beast!

"What? Could it be that this spirit feasting beast also has a God taming bracelet?" Lin Yi was shocked. The spirit sense Whirlpool three days ago was already able to cause great damage to the spirit feasting beast, there was no reason for the soul Catcher hand to fail three days later!

Bing Wuqing's eyes lit up when she saw Lin Yi's arrival, and her ice-cold face revealed a surprised expression. The ice soul sword burst out with a dazzling light, forcing back a spirit feasting beast before she took the time to greet, ""Boss Lin Yi!"

Lin Yi nodded in agreement and urged, "Be careful, don't let them escape!"

The spirit feasting beasts' ability to escape was top class, especially after they combined earth and stealth. Even Lin Yi's divine sense couldn't find their traces, unless it was at the moment they launched an attack, which was Bing Wuqing's ruthless ICE FORCE, which could cover a relatively large area and make these two Spirit feasting beasts unable to hide.

Since the soul Catcher hand didn't work, Lin Yi decided to use the vortex again to see if the attack didn't work or if the soul Catcher hand didn't work on the spirit feasting beast. The result proved that the vortex didn't have the power it had before, and it was blocked by the light.

However, after Lin Yi's continuous attacks, the spirit eating beast that was attacked showed a human-like panic. It let out two shrieks and ran away with the other one. Lin Yi wanted to stop it, but his spirit sense attacks were useless.

In the blink of an eye, the two Spirit feasting beasts were gone, and Lin Yi had a guess. The two Spirit feasting beasts could defend against divine sense attacks, so they might really have something similar to the God tamer bracelet. However, Lin Yi's spirit was far stronger than these two Spirit feasting beasts, and even the God tamer bracelet couldn't defend against divine sense attacks of this level, unless the spirit feasting beasts had something higher than the God tamer bracelet. However, the number of times it could block attacks should not be too many, otherwise the two Spirit feasting beasts would not have run away.

"Boss Lin Yi, it's all thanks to you coming this time, or I would've been in danger!" Bing Wuqing put away her ice soul sword and ran over to meet up with Lin Yi. At the same time, she wiped the cold sweat off her forehead, her face still filled with lingering fear.

To be able to make Bing Wuqing's expression change was already a rare thing. Lin Yi smiled and said, ""It's a good thing you encountered these two Spirit feasting beasts. If it were anyone else, even if they were stronger than you, it would be difficult for them to escape unscathed.

"Spirit feasting beast? Boss Lin Yi, you're saying those two are spirit feasting beasts?" Bing Wuqing had a look of disbelief on her face. It was obvious that she had heard of the spirit feasting beast.

"You've heard of it? Then why didn't you recognize me?" Lin Yi asked casually, his mind still on the possibility of the spirit feasting beast returning for a sneak attack.

"I've indeed heard of it, but I've never seen it before. So this is what spirit feasting beasts look like." Bing Wuqing nodded. Seeing Lin Yi's absent-minded look, she didn't continue the topic and asked, ""Boss Lin Yi, how much spiritual Jade have you mined? This is a rich vein, why don't we mine here together? There's only a little more than six days left. If we continue to look for other rich veins, we might not make it in time. "

Lin Yi used his divine sense to observe. The rich vein where Bing Wuqing was located didn't have a lot of reserves. It was about the same as the yingyun sect's vein, perhaps even less.

Bing Wuqing had been mining for three days, and she estimated that she had already mined more than two thousand spiritual jades. The harvest was not bad, but Lin Yi, of course, wouldn't go with her to mine spiritual jades.

"The place you've been teleported to is not bad. It seems that the Qiankun sect still values your snow sword sect!" Lin Yi chuckled. He already knew that snow sword sect was under the Qiankun sect, so he was just joking.

Among the original ten small sects, the cloud guiding sect, the snow sword sect, and the aotian family were under the Qiankun sect. The everyday and every day sect, the evil warding sect, and the six Harmonies sect were under the five elements sect, the spirit leaf sect and the xuanyu sect were under the heaven opening sect, and the Shangguan family were under the soaring sect and the green cloud sect. Every time the spiritual Jade was collected, the ones who benefited were basically under the Qiankun sect and the five elements sect, while the ones who benefited from the latter would almost all be sent to the poor or even the useless sects, causing the gap to grow wider and wider.

Bing Wuqing curled her lips. "Boss Lin Yi, you know that the relationship between the snow sword sect and the Qiankun sect has long faded. It's just a matter of a word if you want us to switch sides!"

Lin Yi only smiled at Bing Wuqing's words. After this ancient Festival, the Qingyun sect would be the leader of the four greats. Naturally, there was no need for Bing Wuqing to switch to the Shangguan family now. After all, even the Shangguan family would be a subordinate family of the Qingyun sect, so there was no point for the snow sword sect to do so.

Chapter 5577 If You Can 'T, Go Out

"Take these spiritual stones. You can leave after you complete your task!" Lin Yi took out 15000 spiritual jades and gave them to Bing Wuqing, asking her to activate the spatial bag's teleportation ability and leave this place first.

Bing Wuqing was already immune to Lin Yi's magic. She didn't even wonder why he took out so many spiritual jades and put them away.

"Thank you, boss, but I don't want to leave yet. Those two Spirit feasting beasts dared to ambush me, I can't just leave like this." Bing Wuqing put away the glowing Void Bag, but she had no intention of leaving.

Lin Yi didn't mind and nodded, "That's good. You can still protect yourself with your strength. Let's wait and see. If necessary, we can use the void Bag to leave this place."

"Yes, boss Lin Yi!" Bing Wuqing agreed and didn't say anything else.

It was impossible to expect Bing Wuqing to take the initiative to start a conversation. Lin Yi didn't have any topics to talk about, so the two of them moved in silence.

Gradually, the reserves of the spirit Jade vein began to become rich. There were almost no more waste veins, and poor veins could be seen everywhere. Rich veins could also appear from time to time, and with this, the frequency of attacks by spirit-eating beasts also slowly increased.

Another five days had passed, and Lin Yi and Bing Wuqing had encountered no less than thirty ambushes from the spirit feasting beasts. Fortunately, they were all safe. However, the other members of the ten small children weren't so lucky. The everyday and every day restoration sect, evil warding sect, and others all had at least one corpse each.

This time, Lin Yi saw the corpses of the aotian family's golden core cultivators. Luckily, none of the nascent soul cultivators had fallen yet, but it didn't mean that Lin Yi didn't find them.

"Wu Qing, the number of spirit feasting beasts seems to be more than two!" Lin Yi looked at the Golden core's body and frowned.

Just now, Lin Yi and Bing Wuqing had just been attacked, and they found this corpse the moment they turned around. Judging from the marks and the time, it shouldn't be the two Spirit feasting beasts that attacked Lin Yi.

Bing Wuqing nodded slightly. "That's true. The claw marks on this corpse are thicker and stronger than those of the two Spirit feasting beasts. If I'm not wrong, the strength of this spirit feasting beast should be above that of the two Spirit feasting beasts from before!"

Lin Yi could see this as well-after all the previous exchanges, he knew that spirit feasting beasts weren't completely immune to spirit sense attacks. As long as he could exert enough destructive power in an instant, he could break through their outer defenses. For example, the fire vortex was strong enough to destroy, but the soul Catcher hand was much weaker.

It was because of this that Lin Yi wasn't too worried about the appearance of new spirit feasting beasts. The only question was, how many spirit feasting beasts were there in the spirit Jade immortal vein?

"Wu Qing, you mentioned about spirit feasting beasts before, so you seem to know a little about them. Why don't you tell us?" Bing Wuqing didn't continue talking about the spirit feasting beast, so Lin Yi didn't ask. But now that the situation had changed, it was better to ask.

"Okay," Bing Wuqing replied."I thought you weren't interested, boss. That's why I didn't ask."

Lin Yi couldn't help but roll his eyes-you really needed to be patient when talking to this ice block!

"Actually, I don't know much about spirit feasting beasts, I've only heard a few. These creatures are brutal and vengeful, and we can tell from the way they keep chasing us. In addition, spirit feasting beasts live in families, so if a spirit feasting beast appears alone, there must be other spirit feasting beasts nearby. Many people have been killed by spirit feasting beasts because they ignored this." What Bing Wuqing had just said, Lin Yi basically knew about it, and there was nothing special about it.

But hearing this again helped Lin Yi sort out his thoughts. For example, this golden core State body in front of him might not have been killed by one Spirit feasting beast, but at least two! And they were even stronger than the two that Lin Yi and the others had encountered!

"What the hell, Wu Qing, we might have entered the nest of the spirit feasting beasts!" Lin Yi chuckled as he started to gather his Qi and the two fires to create a bomb.

At this time, if they were really attacked by more than four spirit eating beasts, Lin Yi wasn't sure if he and Bing Wuqing would be able to hold on. It was better to take advantage of the time now to prepare his trump card.

"Boss Lin Yi, I heard that the spirit feasting beasts" lairs are usually the best places in spirit Jade mines, and they have a habit of collecting treasures. The best things on the people they killed will be taken away by them as spoils of war. It might not be a bad thing if we really find the spirit feasting beasts "lair." Bing Wuqing, on the other hand, didn't look worried at all. Firstly, she was confident in her own strength, and secondly, she was even more confident in Lin Yi's strength!

Even Lin Yi wouldn't be able to say anything about this ...

"Before you think about victory, you should think about defeat. Before you find the nest of the spirit feasting beasts, you should be prepared for the result of being besieged. Wu Qing, listen up, if you are really besieged by the spirit feasting beasts and your ruthless ice can't resist it, you must teleport out as soon as possible, or you will drag me down, understand?" Lin Yi said seriously, afraid that Bing Wuqing wouldn't agree.

He didn't expect Bing Wuqing to nod so readily. ""Yes, boss Lin Yi, I'll do as you say!"

In fact, if Lin Yi had insisted a little bit more five days ago, Bing Wuqing would have left immediately. After all, she would have listened to Lin Yi. It was because Lin Yi acted like he didn't care that she suggested to stay and move with him.

Since Bing Wuqing had agreed, Lin Yi didn't say anything more. As long as Bing Wuqing left, he could release the Super alchemy bombs he had prepared without any worry of accidentally hurting her.

"Let's go. I think we'll be reaching the spirit feasting Beast's Lair soon!" Lin Yi's hand continued to congeal a super alchemy bomb, signaling Bing Wuqing to follow him as he continued walking.

It had been more than eight days since the mining began, and those who had not died should have mined a lot of spiritual Jade. Perhaps they had all left the spiritual Jade immortal vein, so the frequency of rich veins appearing was getting higher and higher, but no one had been seen.

A moment later, the expected attack arrived. This time, it was indeed four spirit feasting beasts that attacked at the same time. The moment they attacked, Bing Wuqing's concealment technique lost its effect, and she immediately activated her merciless ice power to the maximum, slowing down the spirit feasting beasts' movements slightly.

Chapter 5578 The Marrow Of Spirit Meridians

"Be careful!" Lin Yi shouted and threw out the Super pill fire bomb he had prepared, targeting the three spirit feasting beasts in the same direction.

The reason why he didn't ask Bing Wuqing to leave was that the Super alchemy bomb contained the conflagration of deific consciousness. Lin Yi could barely control the direction of the explosion. Although he couldn't completely control it, at least most of the power would go towards the three spirit feasting beasts. The small part of the shockwave that came back should be able to withstand Bing Wuqing's ICE FORCE.

This was the first time Lin Yi had used the Super alchemy bomb. In all the previous times they had fought, he had never used this move on the spirit feasting beast. Firstly, the spirit feasting beast was too fast, and the alchemy bomb wasn't sure if it would hit the beast. Secondly, Lin Yi didn't think that the

two Spirit feasting beasts could pose a fatal threat to him and Bing Wuqing, so he didn't need to use this move. Thus, the spirit feasting beast didn't expect to encounter such a destructive attack.

The three spirit feasting beasts paused for a moment under the influence of the merciless ice. Then, Lin Yi's super alchemy bomb was thrown over, and with a huge explosion, the entire tunnel was almost blown up. This was even when Lin Yi deliberately controlled the direction of the explosion and released the power as much as possible into the tunnel to avoid affecting the surrounding rock walls.

Less than ten percent of the aftershock was still intact, but it still shattered Bing Wuqing's merciless ice. Lin Yi used his super limit butterfly micro-steps at full force, pulling Bing Wuqing back awkwardly. Even he, the instigator of this, didn't expect this.

The three spirit feasting beasts that took the blast head-on didn't even have a corpse left-it didn't matter if they could defend against physical attacks or spirit sense attacks, they were all useless against the Super pill fire bomb that was a combination of pure Qi and two different types of pill fire. The only spirit feasting beast that survived was one that sneaked up on Lin Yi and the others from behind. It didn't have the time to deal with the two of them in the chaos, but when the tunnel calmed down a little, it let out a shrill cry and attacked Lin Yi with all its might.

Lin Yi raised his hand and a newly formed super alchemy bomb appeared. Because it was just formed, its power couldn't be compared to the previous one at all, but the spirit eating beast just opened its mouth and flew over, so Lin Yi's attack flew into the beast's mouth and exploded.

It wasn't very powerful, but it was enough to seriously injure the spirit feasting beast. After all, its mouth didn't have any strong defensive capabilities.

"Ruthless, you do it yourself!" Lin Yi said as he turned into his spirit form and followed the injured beast.

After the beast's mouth was injured, it didn't even care about revenge anymore. It immediately activated its stealth and burrow into the rock. After so many experiments, Lin Yi finally found a way to follow it, and that was to use the invisibility of his Yuan Shen to use the Chu family's shadow follow!

Of course, Lin Yi's shadow following wasn't perfect, but with the help of his Yuan Shen State, it was enough to deal with the spirit eating beast, especially when the beast had a trace of Lin Yi's consciousness left behind by the pill fire bomb!

Before Bing Wuqing could say anything, she could only watch in shock as Lin Yi and the spirit feasting beast disappeared without a trace.

The beast quickly moved through the rocks after sensing its injuries, while Lin Yi's spirit stuck close to it. If it wasn't for the beast, Lin Yi's spirit would be able to enter the rocks, but not this fast.

A moment later, the injured beast had brought Lin Yi a thousand meters underground. Suddenly, the dark underground opened up, and Lin Yi's eyes lit up. He found himself in an empty space. At the bottom was a small stream emitting a soft light, but the stream was filled with extremely dense and pure Qi!

"The marrow of spiritual meridians!" Lin Yi was shocked and couldn't help but take in a cold breath. This was something from the legends. There might not even be one in a hundred extreme grade spiritual veins that could produce spiritual vein marrow, not to mention those high, mid, and low grade spiritual veins.

A Supreme-grade spirit vein without spirit vein marrow would become an ordinary mountain range once it was mined. However, as long as there was no problem with the spirit vein marrow, there would be endless spirit Jade for mining.

The lack of spirit Jade in the ancient martial world was entirely due to the lack of time to mine it. If they could enter the spirit Jade immortal vein to mine spirit Jade 365 days a year, the amount of spirit Jade would probably be no less than the amount on the heaven class Island.

Moreover, with the spirit vein marrow, there was no need to worry about the spirit Jade being completely mined out. This was because it was an endless treasure that could be regenerated!

The injured spirit feasting beast rushed towards the stream of spirit marrow. Lin Yi's shock caused his spirit to slow down, and he couldn't use shadow follow to follow the spirit feasting beast, but it didn't matter anymore. At this point, Lin Yi didn't need the spirit feasting beast to lead him anymore-this was definitely the spirit feasting beast's nest!

Lin Yi didn't care about the spirit eating beast that was charging at the spirit vein marrow. He threw out three fire whirlpools and instantly wrapped around a spirit eating beast that was lying on a huge spirit Jade. This spirit eating beast was more than three meters long and was already at peak nascent soul. Lin Yi could even feel that this spirit eating beast was at the threshold of xuansheng. If there was lightning here, with the help of the spirit vein marrow, there was a high chance it could advance to xuansheng!

"Human, don't waste your energy! It'll be very difficult for you to break my defense when you're right beside the spiritual vein marrow. Come down and have a chat!" The spirit feasting beast spoke in the human language and said calmly. It was not injured at all. The spiritual sense pill fire vortex was spinning wildly around it, but it could only trigger a thin layer of light film and could not break the defense of the light film at all.

Lin Yi squinted his eyes and dispersed the fire vortex. He scanned the injured spirit feasting beast and saw it land beside the spirit vein marrow. It carefully picked up a bit of the marrow with the tip of its claw and dripped it into its mouth. The injury healed at a visible speed.

It seemed that this peak nascent soul realm beast was right-with its body, it wouldn't be afraid of Lin Yi's attacks at all, unless Lin Yi could defeat it with his Soul Catcher hand. Unfortunately, his Soul Catcher hand couldn't break through the beast's defense.

"You want to have a chat with me?" Many thoughts flashed through Lin Yi's mind, but he didn't show it on his face. After saying that, he slowly floated down and reformed his essence spirit.

Chapter 5579 Negotiating Terms

The old voice of the Yuanying stage spirit eating beast seemed to laugh, but it was not possible to see any smile on its face.

"You don't need to be on guard, I don't have any hostility. For you to be able to come here, whether it's strength or luck, it can be considered that you have fate with our clan. You've also seen that there's spirit vein marrow here. This is enough to prove my words, I have no hostility! If we were to start a fight here, any violent fluctuations would cause the spiritual Meridian marrow to completely collapse. I don't think you want to see such a result, right?" The old spirit feasting beast spoke slowly. It seemed to be a little rusty because it had not spoken much, and it took quite some time to finish speaking.

Lin Yi finally understood why the beast didn't attack. The fire vortex was a spirit sense attack before, so it wouldn't cause the marrow to shake. If Lin Yi came in and used a fire bomb, the beast would probably go all out.

Before Lin Yi could say anything, the injured spirit feasting beast let out a shrill cry, as if it was saying something to the old spirit feasting beast.

The old spirit feasting beast quietly listened. In the end, it sighed softly and said with a sorrowful tone, "Oh, really? Were the three of them already dead? Was it this human who killed him? However, if you don't pester them, they won't kill you, right? You don't have to be sad, our clansmen will still grow. What's important is the future!"

Lin Yi raised his eyebrows. His spirit sense had found that there were five fist-sized eggs in the spirit Jade under the old spirit eater. There were spirit Qi fluctuations coming from them. They should be the offspring of the spirit eater. He wondered which of the three dead ones it belonged to.

In that case, the spirit vein marrow was one thing, but the eggs were another. For the spirit vein marrow and the five eggs, the spirit feasting beasts wouldn't do anything to harm Lin Yi. They didn't want any accidents to happen and cause the spirit feasting beast clan to be wiped out.

"Human, I'm very sorry. Although you killed three of my descendants, it was because they attacked you first. The casualties in the battle should not be the root of hatred. I hope that this matter will end here and be written off. Can you?" The old spirit feasting beast continued to speak slowly, appearing to be very sincere.

Lin Yi knew that he had the advantage now, so he only replied faintly, "Write it off? You spirit feasting beasts are bloodthirsty by nature and have attacked me no less than 30 times along the way. You've also killed quite a few of my companions. Do you think you can write it off with just one sentence?"

"What else do you want? Even though I have my reservations, if we really want to die together, we spirit-eating beasts will not hesitate!" The old beast's voice turned cold, but Lin Yi thought that it was just bluffing.

"I want half of this spiritual vein marrow, and you have to return all the human items you killed to me!" Lin Yi stated his conditions directly. He didn't say that he wanted all the spiritual marrow, but he was asking for half of it. It was a negotiation, after all.

"This is impossible!" The old spirit feasting beast refused without hesitation. "Human, you have to be clear that for tens of thousands of years, this spirit Jade immortal vein has been the home of us spirit feasting beasts. You are invading our home by coming in to mine for spirit Jade. However, we have never killed every single one of you. At most, we will kill a portion of you. It's not that we are bloodthirsty, but because your golden cores and nascent souls are the best materials to nourish the Marrow of the Spirit vein. Since you need spirit Jade ..." It's only right for you to make some contributions, right?"

Lin Yi was stunned. He never thought that there was such a reason behind the cruelty of the spirit-eating beasts in the books. The Golden cores and nascent souls of humans were dug out by spirit-eating beasts not for their own consumption, but to nourish the marrow of spirit veins?

"Human, the spirit vein marrow can be consumed in small quantities, but it can't be used in large quantities. Otherwise, it'll be completely exhausted, and this spirit Jade immortal vein will be completely exhausted. We, the spirit-eating beasts, have done nothing wrong to protect our homeland. Many spirit-eating beasts have died at the hands of you humans. There's no right or wrong between the two sides." The old spirit feasting beast spoke slowly, but it was very reasonable.

Lin Yi looked at the spirit vein marrow. He knew that he couldn't really take it away since the ancient martial world still needed the spirit Jade from the immortal vein.

"The limit of twenty people for ten days a year is actually your spirit eating beast clan's idea, right?" Lin Yi changed the topic all of a sudden, asking something that didn't seem to have anything to do with it.

The old spirit feasting beast fell silent for a moment before saying, ""You're indeed not an ordinary person. You actually saw through the truth of this matter with a single glance! That's right, this restriction was indeed modified by us spirit-eating beasts according to the natural ancient array of this immortal vein. After all, this is our home, and we spirit-eating beasts live on the spirit Qi in spirit Jade. We can't give you humans too much!"

Lin Yi sneered, "opening it for ten days is to let our Jindan and Yuanying Masters in, right?" Otherwise, if a Foundation Stage disciple comes in, you won't have the materials to nourish the spirit Meridian marrow, right?"

In order to excavate as much spirit Jade as possible within ten days, the four big and ten small sects had sent their top experts to the spirit Jade immortal vein, and they had become the hunting targets of the spirit-eating beasts.

The old beast remained silent for a long time, as if in agreement. Lin Yi didn't beat around the bush anymore and spoke indifferently, ""I don't want to care about what happened before. From now on, the spirit Jade immortal vein will open for six months every year, and the number of people allowed will not exceed 200. I don't care if you want to hunt Jindan and Yuanying. This is the world of the law of the jungle, so there's nothing to say. Do you agree or not? give me an answer!"

"Two hundred in half a year, that's too much ..." Old carnivorous beast said quickly, but Lin Yi interrupted him.

"Do you agree or disagree?" Lin Yi squinted his eyes, his gaze as cold as a knife. He flipped his palm, revealing the condensed spirit sense pill fire bomb!

Feeling the terrifying energy wave from Lin Yi's palm, old carnivorous beast roared, ""Even if you want to destroy the spirit vein marrow, you'll have to listen to me. Otherwise, it'll be a life and death struggle, and no one will have any spirit Jade to use! Is this the ending you wanted?"

Old carnivorous spirit beast had always been slow when it spoke before, but it spoke a lot more smoothly now that Lin Yi had forced it. (Murloc's new book "the president of the school Belle depends on me" is in the hot serialization.

Chapter 5580 Inner Core In Exchange For A Spot

Lin Yi raised an eyebrow, not expecting the old beast to be this tough. It seemed like the conditions were way over the line.

"Alright, go on, I'll listen!" Lin Yi muttered to himself and gave the beast the chance to speak, but the Super alchemy bomb in his hand was still being refined. The longer it took, the more powerful the bomb would be, and this wasn't a bad thing for Lin Yi.

The old spirit feasting beast clearly heaved a sigh of relief, and its speed of speech returned to its previous state. "Let's not talk about how many spiritual jades will be mined in half a year. Do you think we have the chance to kill those two hundred people with our current population? Wouldn't it be better to be hunted instead? Without the nourishment of a golden core and a nascent soul, the spirit vein marrow will not increase. With your mining and the consumption of our people, although spirit Jade can be regenerated through Spirit vein marrow, the spirit vein marrow will slowly dry up if it's overdrawn like this. "

It made sense, and Lin Yi couldn't argue with that. If all of them came from the ten kids, it meant that there were twenty people in a family. They might split up after entering, but from Lin Yi's experience, they would gather together very quickly. As long as the ten kids didn't fight among themselves, it wouldn't be easy for the two Spirit feasting beasts to ambush them.

There was no use in killing Foundation establishment disciples. As for Aurous core and nascent soul cultivators, once they gathered together, it was just as the spirit devouring beast had said, who would be the one to kill who?

In this way, the reserves of the spirit Jade immortal vein were likely to be consumed slowly. Even if there was the Marrow of the Spirit vein, it could not withstand such unscrupulous mining.

"Human, we spirit-eating beasts don't just hunt for the Golden cores and nascent souls of human beings. Even after the death of our people, the Golden cores and nascent souls left behind will be used to nourish the Marrow of the Spirit vein. After all, the Marrow of the Spirit vein is the foundation of our clan. As long as we have the Marrow of the Spirit vein, we can continue to reproduce and survive here." The old spirit feasting beast said sincerely, and Lin Yi was moved.

"You're saying that your own golden core and nascent soul will also be used to nourish the Marrow of the Spirit vein?" This news really surprised Lin Yi. Normally, as long as a spirit beast's golden core and nascent soul were intact, even if they couldn't reform their body, they would be protected by their own people and could be used as a trump card to save their people in the future. But the spirit eating beasts used it directly to nourish the Marrow of the Spirit vein-they were really cruel to others and themselves!

However, Lin Yi had some vague thoughts that needed to be sorted out, so he didn't continue.

"Of course, I've already said that the spirit vein marrow is the foundation of our spirit eating beast clan. For the survival of our clan, it is a very glorious thing to contribute one's golden core or nascent soul. Our clansmen will regard it as a sacred ceremony, just like how one's life can continue to be reborn in the blood of the next generation after integrating into the spirit vein marrow." When the old spirit feasting beast said this, his usually expressionless face revealed a rare look of sacredness. It seemed that this so-called ceremony was indeed very important to the spirit feasting beast race.

Lin Yi nodded. He could understand what the beast was saying, and it didn't matter if he agreed or not. What was important was that he'd already organized his thoughts.

"You mean, Jindan and Yuanying that nourish the Marrow of the Spirit vein, spirit beasts and humans are actually the same? Even if we don't use the human 's, we can use the spirit beast's golden core and nascent soul?" Lin Yi needed to get this clear-it was the most important thing.

Since the Qingyun school was going to become the leader of the big four, it was necessary to protect the production of spirit Jade in the spirit Jade immortal vein, and there was no better way to protect and nourish the marrow than the spirit eating beasts. Now that he knew that the spirit eating beasts weren't like what was recorded in the books, Lin Yi didn't mind finding a way for both sides to work together and achieve a win-win situation.

"There's nothing wrong with what you said. In fact, the Golden core and nascent soul of spirit beasts are actually inner cores, and the inner cores of spirit beasts are more suitable for nourishment than the Golden core and nascent soul of human beings." The old beast didn't hide anything and answered Lin Yi directly.

"Then why don't you let the human race use the inner cores of spirit beasts to exchange for a spot to mine the spirit Jade? I believe that the human race will be willing to accept such an exchange. " After Lin Yi finished, he felt that his words were a bit inappropriate. If they could do that, why wouldn't the spirit eating beasts do it?

As expected, the old spirit feasting beast shook its head slightly." "Spirit beasts are rare to begin with. How many spots can we get by exchanging spirit beasts 'inner cores? And if we do that, we'll expose the truth about the existence of our spirit-eating beast clan. At that time, the human race is likely to hunt us down at all costs and take the opportunity to occupy the entire spirit Jade immortal vein. Even the spirit vein's essence will be secretly swallowed by those extremely selfish humans!"

Lin Yi didn't know what to say about the beast's evaluation of humans. Many people were like this, and there was nothing much to say. How many people in the ancient martial world could be like Lin Yi, not coveting the spirit marrow?

"With the formation in your hands, you shouldn't have exposed yourselves!" Lin Yi couldn't comment too much on the nature of humans, so he changed his perspective.

"That's true, but we didn't communicate with each other before. How Did I Let You Know that we can use the inner cores of spirit beasts to exchange for the spots? As long as there is communication, our spirit eating beast race will be exposed. However, with your appearance, you can become a bridge between our spirit eating beast race and the human race. The problem is, how many spirit beasts 'inner cores can you find? Furthermore, high-grade spirit beasts are rare to begin with. How many years can you guys last?" The old spirit feasting beast's train of thought was quite clear, and its speech was also very organized.

Lin Yi nodded-he'd thought about this before, and had another plan in mind."Since the Golden core and nascent soul of the human race and the inner core of the spirit beasts can nourish the Marrow of the Spirit vein, I think the inner core of the sea beasts can also be used, right?"

"The inner core of a sea beast?" The old spirit feasting beast was clearly a little surprised. It had never thought of this option before. After all, sea beasts were still quite far away from spirit beasts like it. "Of course you can, but it's not easy to get the inner cores of sea beasts! In addition, your human race's alchemists can use the inner cores of sea beasts to refine pills, so how can you easily take them out to exchange for a quota?"
