

## Bodyguard 5581

### Chapter 5581 The Negotiation Went Smoothly

"You don't have to worry about that. I'll be in charge of this. As long as you think it's feasible, we'll discuss it in this direction. What do you think?" Lin Yi wasn't going to be overbearing-this was a win-win situation for both sides, after all.

In the endless ocean, no one knew how many sea beasts there were. In the shallow sea, most of the sea beasts were in the Foundation Stage. A little bit out, the sea beasts in the jiedan stage were more frequent. As long as the target was a jiedan stage sea beast, there was basically no difficulty for the four big and ten small Yuanying stage Masters to go hunting.

There had never been such an opportunity for cooperation in the past! To let these high and mighty nascent soul realm old monsters join forces to hunt the sea beasts of the Golden core realm? He really couldn't afford to embarrass himself, so the inner cores of sea beasts had always been a little scarce.

Lin Yi believed that if the deal went through, the Golden core inner core shouldn't be a problem.

The old spirit devouring beast nodded and then pulled at its claws, silently calculating. After a long while, it said,"Let's do it this way, a Jindan stage sea beast's inner core can be exchanged for ten spots and ten days of mining time. According to the upper limit you said, two hundred people in half a year, that's ... Um ... What was it? I just calculated it, wait a minute ... Ten for one, 200 for ... 20?"

Lin Yi didn't know what to say-this beast had lived for so many years, but it didn't seem to have studied mathematics well. It seemed like the tips of its claws weren't enough for such an easy math problem ...

"Three hundred and sixty golden core inner cores of sea beasts!" Lin Yi couldn't help but remind her after a few minutes.

"Three hundred and sixty Aurous core stage inner cores?" The old spirit feasting beast's small eyes clearly showed some distrust. It seemed that the image of cunning humans was deeply rooted in its heart.

Fortunately, with Lin Yi's reminder, it was much easier to verify. After a while, old carnivorous beast nodded happily, ""That's right, it's 360 golden core inner cores from sea beasts. As long as we have this number of inner cores, we'll open it to you humans for half a year and let 200 of your people come in to mine the spiritual Jade!"

Lin Yi wiped his cold sweat and continued, "Then how many golden core inner cores can a nascent soul inner core of a sea beast be worth?"

This time, the old spirit feasting beast didn't continue to scratch its claws. After all, it was a relatively simple question. After thinking for a moment, it readily said, ""Let's go with a 1:5 ratio. One original infant stage inner core can be used as five Aurous core stage inner cores. If all of them are original infant stage inner cores ..."

Seeing that the old beast was about to start calculating again, Lin Yi quickly interjected, "It's seventy-two inner cores, right?"

"That's right!" It seemed that Lin Yi wasn't lying before and won the old beast's trust. It didn't check it itself and immediately agreed with Lin Yi's answer.

" 360 Aurous core stage inner cores, or 72 nascent Soul Stage inner cores. It's indeed a huge fortune, but it should be enough compared to the quota for mining the spirit Jade immortal vein." Lin Yi mumbled softly, already thinking about how he should organize the hunt after Qingyun became the leader of the big four.

The old spirit eater seemed very happy to obtain this amount. It also understood that the spirit Jade immortal vein was very large, and there were many rich veins, poor veins, and even useless veins. As long as it was not excavated by nascent Soul Stage humans, even golden core stage experts would not be able to mine it very quickly.

In half a year's time, the amount of spirit Jade that could be consumed by two hundred people was definitely not comparable to the nourishment of the spirit vein marrow from so many sea beasts 'inner cores.

In other words, this business was profitable! With Lin Yi as the middleman, the method of collecting the cores wouldn't be exposed to the spirit feasting beasts, and as for the spirit marrow, no one would dig this deep underground without knowing the truth.

Lin Yi had mentioned the method of delivery as well."Can you set up an external interface for this formation? As long as I throw in the inner core of a sea beast, I can teleport the same number of people in?"

"No problem. I just need to make some minor adjustments!" The old beast said without hesitation. It had already decided to use Lin Yi's mouth to tell the others without arousing the humans 'suspicion.

Lin Yi nodded,"that's for the best. I'll tell them after we get out that I found a hidden loophole in the formation. As long as we use the cores of sea beasts, we can teleport people in. Although there's still a

time and number limit, it's obviously much better than now. I believe they'll be very interested after hearing it."

"That's for the best. If that's the case, our spirit-eating beast clan won't have to take the risk of hunting you humans. We can recuperate here and perhaps we can produce more offspring. You'll also become the benefactor of our spirit-eating beast clan." The old spirit feasting beast said happily, and even the one beside him didn't look as hostile as before.

Although Lin Yi had killed three spirit feasting beasts, they were all its people. But just as the old spirit feasting beast said, it was a very sacred thing to contribute to the survival of the spirit feasting beast clan. Although the three spirit feasting beasts were killed by Lin Yi, it also allowed Lin Yi to appear here and reach an agreement that was very beneficial to the reproduction of the spirit feasting beast clan. Their sacrifice became meaningful.

"Then it's a deal. You guys go and do the minor adjustments to the formation, and then give me the external interface. After I go out, I can show it off while I'm convincing them. This way, it'll be easier to convince them." Lin Yi thought that it was time for him to get out as soon as possible, and he didn't know if Bing Wuqing was still waiting for him, so he urged the old spirit feasting beast to move quickly.

"Go get it, and bring our guest back to the surface." The old beast didn't want to waste time and immediately ordered the only surviving Clansman to take Lin Yi away.

The deal had been made, but the Super alchemy bomb was still in Lin Yi's hand. That kind of hidden power made even the old spirit eater scared. It was better to get Lin Yi to leave quickly, in case he accidentally destroyed the spirit vein marrow. If that happened, it would have no place to cry to.

Lin Yi smiled faintly, remembering that he still had the Super pill fire bomb in his hand. After the negotiations went smoothly, Lin Yi stopped increasing the power, so it wasn't hard to cancel it now.

## Chapter 5582 Time Is Up

After all, this pill fire bomb was just a toy to scare people. It didn't have much power at all, so naturally, it wasn't difficult to cancel it.

The old spirit feasting beast and the little spirit feasting beast were clearly much more relaxed. It seemed that the Super alchemy bomb was indeed a great deterrent to them.

"Then I'll take my leave. If there's a chance, I'll come and visit the old patriarch again!" Lin Yi cupped his hands at the spirit feasting beast casually and turned into his essence spirit form, using shadow follow and sticking to the little spirit feasting beast.

The little spirit feasting beast shrieked at the old one before turning around and running back up, quickly entering the rock layer. Without this spirit feasting beast, Lin Yi could return in his spirit form, but it was hard to say how long it would take.

A moment later, the little carnivorous beast brought Lin Yi back to the tunnel and handed him a palm-sized triangular flag before leaving.

Although Lin Yi was the benefactor of the spirit feasting beast clan, he had killed three spirit feasting beasts before, and was also the little spirit feasting beast's enemy. It knew that it shouldn't continue to hate Lin Yi, but it couldn't be nice to Lin Yi right away.

Lin Yi didn't mind. He flipped through the flag and knew that it was the key to placing the cores of the sea beasts in exchange for the teleportation spot. It could be activated by inserting Qi, but the little carnivorous spirit beast hadn't finished adjusting the formation yet, so there was no point in activating it.

He conveniently put it into his pocket. Such a small flag didn't need to be put into the Jade space. Anyway, he would take it out later, so it didn't take up much space in his pocket.

The passages here were almost the same, and Lin Yi didn't know if the little spirit feasting beast was taking revenge on him. This place was obviously not the same as the one he had left from before, and he couldn't even tell the direction, let alone where Bing Wuqing was.

"Forget it, let's look for Bing Wuqing first. The spirit-eating beasts won't attack again, so there's no danger here. If we really can't find her, it's the same to go out first. The ten days will be up soon, and we'll see her soon after we get out." Lin Yi decided to maintain his spirit form and flew out.

The feeling of flying was quite good. There was nothing urgent to do, so it didn't matter if it was fun.

After searching for half a day, Lin Yi still couldn't find Bing Wuqing, nor any of the other ten young people. The area of this spirit Jade immortal vein was indeed huge. Along the way, Lin Yi collected a lot of useless jades on the ground, which amounted to about 300000 Yuan. Since he had nothing to do, it was a good idea to collect useless jades like this.

Lin Yi figured that the little carnivorous beast should have already adjusted the formation, so he didn't plan to continue looking for Bing Wuqing. He took out the void Bag that he'd prepared earlier and activated the teleportation function, returning directly to the town.

"Another one has appeared! It's Lin Yi from the Qingyun school!" After ten days, the crowd dispersed. On the last day, a small half of the crowd gathered again, and someone called out when they saw Lin Yi.

The nascent soul realm cultivators of the four big sects and families were not here. After all, they couldn't wait here for ten days. When it was about time, they would come back to host the verification of the competition.

Lin Yi looked up and saw that the people who came out first didn't leave. They were all sitting on the stage and cultivating. On the side were Ling Tianyou, Jin Weifeng, and ye Qingcheng, who were the first batch sent out by Lin Yi. Ye tongxuan from the ye spirit sect also came out early. Lin Yi didn't meet him before, so he wasn't killed by the spirit eating beasts. He didn't know why he came out early.

As expected, Bing Wuqing still hadn't come out. It seemed like she was still waiting for Lin Yi, and would probably be teleported out automatically after the ten days were up. Invincible ancient didn't show up either, and the same went for the two old men from the Chu clan. The nascent soul cultivators from the other clans didn't come out either.

Jin Weifeng stood up and smiled when he saw Lin Yi, "Senior granduncle, you've finally come out. This disciple has been waiting impatiently!"

Ling Tianyou also came over. He smiled and patted Jin Weifeng on the shoulder. "You're impatient waiting for your martial granduncle? You don't want to work anymore?"

"Master Lin!" Ye Qingcheng and ye Ling were much more restrained as they cupped their hands and stood aside.

Lin Yi greeted them one by one with a smile. He was in a good mood since he didn't lose much of his men.

The elder of Pi town came over, his face unhappy when he saw Lin Yi. He muttered, "There are only ten days in a year, but these people have all come out early. Could it be that the void Bag can't hold any more spiritual Jade?"

The void Bag, of course, couldn't possibly be full-he was obviously mocking Lin Yi and the others, but Lin Yi didn't care. Normally, these ten days should be fully used-after all, most of the spiritual jades in the ancient martial world were produced in these ten days.

"Let's wait together. It's almost time. The rest of the people should be out soon!" Lin Yi said, signaling everyone to sit down and wait. The others had been waiting for a few days already, so they didn't mind waiting another half a day. They all sat beside Lin Yi, chatting casually instead of cultivating.

Seeing that no one was paying attention to him, the great elder Li Zhen's face darkened and he didn't say anything. He turned around and sat down on a chair on the side, waiting for the four great circle nascent soul cultivators to come out.

When the ten days were about to come, the Masters of the big four all came early. Shangguan Qingyun saw Lin Yi and came over to sit cross-legged next to him with a smile, chatting with everyone without any airs at all. Ye Qingcheng and the others who didn't know the truth were flattered and felt that Shangguan Qingyun was really easy to get close to!

A moment later, the ten days were up, and those who didn't make it out appeared on the stage one by one. When Bing Wuqing saw Lin Yi, a rare smile appeared on her cold face. However, there were many people around Lin Yi, so she didn't come over. She only made eye contact with Lin Yi and nodded at him as a greeting.

The onlookers and the people from the ten small schools all returned to their own venues. Seeing that the twenty people who went in were obviously fewer in number, the faces of the sect disciples who had fewer people were a bit ugly.

The evil warding sect lost a peak golden core, and only Zhao Zhong Yi came out. The aotian family only had one nascent soul left-it seemed like they were done for as well, but the two from the cloud guiding sect were still alive. Lin Yi was a little surprised, but it made sense-the two Spirit feasting beasts must've been injured, so they didn't care about the two of them and ran to Lin Yi's side

#### Chapter 5583 The Results Of Mining

The everyday and every day sect was more miserable. Two of them didn't come out, and one of them was a Grand Elder of the original infant stage. This was a huge loss. As for Lin Yi's side, only the sky sect lost a peak-stage golden core while the others were all fine. This could be considered a blessing in the midst of misfortune.

"The mining of the spiritual Jade this time was a huge failure. Not only did five experts die, but many people also left the spiritual Jade immortal vein early. They wasted this once-a-year mining opportunity for nothing. They really didn't care about the big picture!" The elder said coldly. He didn't name anyone, but everyone knew who he was talking about. Not to mention, he kept glancing at Lin Yi and the others.

Lin Yi didn't argue and just looked at the elder with a smile, letting him say whatever he wanted. After all, they'd know who was wasting their time when they took out the spiritual jades from the void Bag.

As for the content of the agreement with the beast eater, Lin Yi wasn't ready to reveal it right away. He had to wait until the Qingyun sect became the head of the four and had the right to speak before he could carry it out. He could also build up the reputation of the Qingyun sect, who had just become the head of the four. If he said it now, it would only benefit the Qiankun sect.

If Lin Yi didn't say anything, the others wouldn't say anything either. The elder knew when to stop. After all, Lin Yi was mysterious and unpredictable, and he couldn't afford to offend him. It was fine to provoke him a little, but if he really pissed Lin Yi off, even the Qiankun sect wouldn't be able to protect him.

"Now, let's check the spiritual jades we've mined to determine the score for the first round of the ranking competition." Great elder Hu Zhen picked up the five void bags expressionlessly and handed them over to the specialized people to open and examine. These were the void bags of the five people who had died. When the time was up, the void bags returned on their own."The two void bags of the everyday and every day sect contain a total of 2373 spiritual jades. The void Bag of the aotian family contains 1037 spiritual jades. The void Bag of the evil warding sect contains 912 spiritual jades. The void Bag of the skyward sect contains 765 spiritual jades."

In the ancient martial world, these spiritual jades could be considered a considerable amount of wealth. However, it was a pity that five experts had exchanged their lives for them. Hence, they were not worth mentioning.

Moreover, this number was far from a lot compared to ten days of mining time. It was likely that they had died earlier.

"According to the rules, if there is a situation where someone dies while mining spiritual Jade, the upper limit of five hundred spiritual Jade will be increased to the sect as compensation." The great elder of Ying town took a look at the temporary rankings and continued,""Therefore, the everyday and every day sect is currently ranked first with 3373 spiritual jades. The aotian family, please bring up the other Void Bag."

The nascent Soul Stage Grand Elder of the aotian family had an ugly expression on his face. Although the everyday and every day sect was already in the worst state, the aotian family would have no advantage in the first round of the competition since they were short of one person.

After the person in charge of opening the void Bag received the second Void Bag from the AO Tian family, he quickly opened it and counted the spiritual Jade in it. The real-time ranking immediately changed. The AO Tian family, who was originally in second place, was ahead of the everyday and every day sect by a large margin.

"In the second Void Bag of the aotian family, there are 10322 spiritual jades, totaling 11859 spiritual jades. They are temporarily ranked first!" The great elder of Ying town looked a little better. The aotian family was a member of the Qiankun sect. Although one of their members had died, their results were not too bad. In previous years, these spiritual jades would be considered above average.

Daoist master dujie also nodded slightly. Compared with the five elements sect, the losses of their Qiankun sect were still within an acceptable range. It was already good enough that the only loss they had suffered was the AO Tian family.

As for MA Zaidan, the sect leader of the five elements sect, his face was so dark that water could drip out of it. Originally, three of the ten small sects under the five elements sect had been the everyday and every day sect, the evil warding sect, and the six Harmonies sect. But in the end, the six Harmonies sect had been defeated. This time, the everyday and every day sect had been completely annihilated in the mining of spirit Jade. It would be a joke if they could get twenty to thirty percent of the more than three thousand spirit Jade. It was very likely that they would only get one percent.

The evil warding sect was also in a similar situation. After losing a perfected golden core cultivator, it was almost impossible to get more points.

A total of five people had died, and three of them were from the five elements sect. This time, only four people from the five elements sect had entered. No one could be so unlucky, so it would be strange if MA Zaidan was happy!

"Bring me the void Bag of the evil warding sect!" Great elder Li Zhen had already calculated the sects with dead people, so evil warding sect's Zhao Jingzhi was already prepared. As soon as great elder Li Zhen said so, he immediately went up and handed over the void Bag.

To be honest, Zhao Jingzhi didn't feel sad at all. The perfected golden core who died this time was originally someone from Yin chencheng's faction. Although Yin chencheng was killed by Lin Yi and this perfected golden core joined Zhao Jingzhi, Zhao Jingzhi knew that he wasn't sincere. There was nothing to feel sad about when someone like this died. The only pity was that he died too early and only got 900 or so spirit jades, which was too little.

"The evil warding sect has a total of 9734 pieces of spiritual Jade. They are currently in second place!" The head elder of Ying town didn't give Zhao Jingzhi a specific number, only a total number. It was not a small amount.

MA Zaidan's face looked a little better. Zhao Jingzhi was not bad. Although he was short of one person, he was not much inferior to the Shangguan family's disciples who had come out early. He might even be stronger.

The next one was the nascent soul from the sky sect. Lin Yi hadn't met him before, so he didn't give him any spirit jades. The void Bag was full of the things he mined himself, and he was teleported out at the last moment. Lin Yi didn't have the chance to give him more, so he could only forget about it.

In any case, the rising sky sect wouldn't be at the bottom. In the following events, he would just try his best to help them score.

In the end, the total number of spiritual jades the soaring heaven sect had was barely over 8000. Based on the Shangguan clan's teleportation ranking, it was already a very hard work to achieve such a result.

Looking at the amount of spiritual Jade that the soaring heaven sect had, MA Zaidan felt relieved and happy. When he was down on his luck, what could make him happier than seeing others down on their luck?

After the four sects with dead people, they began to inspect the void bags of the ten small sects according to the ranking of the four big sects.

Chapter 5584 He Must Have Cheated!

"Yingyun sect, with a total of 20714 spiritual jades, is temporarily ranked first!" A rare smile appeared on the great elder of Ying town's face. As a member of the Qiankun sect, he was naturally happy to see his disciples' performance.

"Snow sword sect has a total of 28526 spiritual jades, surpassing the first place of the yingyun sect!" This time, the elder wasn't happy at all. The snow sword sect was also a disciple of the Qiankun sect, but they were very close to Lin Yi. Especially after Yu Taicang and the others died, the Qiankun sect already felt that the snow sword sect was getting out of control, so when he saw the amount of spirit Jade the snow sword sect had, he was more surprised than happy.

"Looks like the first place this time should be the snow sword sect. This number has never appeared before. It's definitely a record." Daoist master dujie said with a smile. Although the snow sword sect and the Qiankun sect had been in a state of unity on the surface, they were still Qiankun sect's disciples after all. With this reputation, the Glory of the Snow sword sect would bring face to the Qiankun sect.

MA Zaidan snorted and didn't say anything. Qi Dani just smiled. Ye spirit sect was the only sect under the heaven enlightening sect, but ye Qingcheng of ye spirit sect had come out a long time ago, and ye tongxuan was not too late either. Naturally, he didn't have much hope.

Only Shangguan Qingyun snorted, "What's wrong? Just because your Qiankun sect can teleport to the rich vein area, does that mean you'll definitely win? You don't even need to check the rest, right?"

"Hehe, could it be that the Shangguan family's head thinks that there's another sect that can surpass snow sword sect?" The enlightened dujie chuckled. He was afraid of Lin Yi, but no matter how strong Lin Yi was, he couldn't possibly take out a large amount of spiritual jades while coming out early, right? They had to be excavated, and they had to be excavated from the rich vein area from the beginning, without wasting any time.

"We'll only know if there's one after we see it!" Shangguan Qingyun said unkindly. In fact, he wasn't sure himself. The Shangguan family's teleportation location wasn't good to begin with, and it would take a lot of time to find the vein-rich area, not to mention that there were many people who came out early, including Lin Yi.

To be honest, Shangguan Qingyun actually had the same opinion as the others. He felt that it was already very good for the few sects under the Shangguan clan to be able to beat those sects that had died. This was also considered a middle ranking, and should be enough to satisfy them. However, when he saw the expression on the enlightened person dujie's face, Shangguan Qingyun felt particularly uncomfortable.

"Spirit leaf sect, a total of 21892 pieces of spiritual Jade have been excavated. They are temporarily in second place!" The great elder of Ying town almost couldn't believe his eyes. It was normal for the snow sword sect to excavate a lot of spiritual Jade. After all, they had entered the vein-rich area, and Bing Wuqing and Hong Qingyuan had only been teleported out after the time was up. They were the epitome of hard work.

What about leaf spirit sect? When did ye Qingcheng come out? Did he even spend a full day? Wasn't this the same as directly dying? The minimum amount of spiritual Jade that could be used to activate a Void Bag was 500 spiritual jade pieces. Therefore, no one had ever doubted how many spiritual jade pieces ye Qingcheng had.

As for ye tongxuan, he also came out in six or seven days. How did he get more than twenty-one thousand spiritual jades? Could it be that he just happened to come across a spirit Jade Mountain that had been mined?

The people below the stage were also in an uproar. No one had expected such an outcome. After Qi Dani was slightly shocked, he laughed very happily. No matter how spirit leaf sect did it, he was the only child of the heaven opening sect among the ten primary schools. To be able to obtain the second place in the points was something that brought them a lot of face.

The Daoist master dujie expressionlessly said to the great elder of Ying town, ""Continue!"

After all, the spirit leaf sect was the only sect under the heaven opening sect. If this continued, the heaven opening sect would definitely lose face. In the past, it wouldn't matter, but now with the strong rise of the Shangguan clan and the unpredictable changes of the green cloud sect, Daoist master dujie was determined to win over the relatively neutral heaven opening sect, so he didn't want any unnecessary situations to occur.

Moreover, the sudden change in leaf spirit sect made Daoist priest dujie feel a little uneasy. Could it be that the other sects in the Shangguan clan are the same as leaf spirit sect? It can't be that weird, right?

Lin Yi had no choice but to follow his boss's order and had someone open house Chu's void bags. Lin Yi didn't find the two from house Chu, and it was their first time entering the ten Little ones to mine for spiritual Jade. No one would have high hopes for them, including Lin Yi himself.

However, the final result left everyone dumbfounded. The two members of the Chu clan had obtained a total of 20715 pieces of spiritual Jade, which was exactly one more piece than the cloud guiding sect! It had also replaced the yingyun sect as the temporary third place!

Even Daoist master dujie almost vomited blood, let alone the people of the yingyun sect. Was this on purpose? Could there be such a coincidence?

Lin Yi was also looking at Chu Yuntian and Lin Yi in surprise. These two old men's mining ability was off the charts, to be able to obtain such an amazing result in such a difficult situation. It really made Lin Yi see them in a new light.

If the leaf spirit sect and the Chu family were shocking, then the thousand blades sect was truly shocking! Ling Tianyou was taken care of by Lin Yi, but undefeatable Taigu didn't meet Lin Yi. He was completely mining by himself. However, undefeatable Taigu was a veteran peak nascent soul after all, and he had a lot of experience in mining spiritual jades. But when the two of them added up to more than 30000 spiritual jades, it instantly blew up everyone!

The snow sword sect's record that had just been broken was broken by the thousand blades sect once again. And one of them, Ling Tianyou, had only stayed in there for a day!

Now, no one would think that they were wasting time by coming out first. They would only think that they were wasting resources. If they could get so many spiritual jades in one day, wouldn't that mean that they could get at least seven or eight times more in ten days? How many spiritual jades was that? how much more could the people of the ancient martial world get?

After the shock, everyone couldn't help but start discussing. The thousand blade sect's performance in the challenge match against the ten small sects was already amazing, but they didn't expect that they

would also shock the world in the ranking of the ten small sects. Was this sect with only two people really going to soar to the sky?

"Cheating! Ling Tianyou must have cheated!" Wei Yidao suddenly jumped out and howled hysterically. Wei Tianba was dead, and the tyrant's blade school had failed to make it into the ten Little ones. His hatred for Ling Tianyou had already driven Wei Yidao to the point of insanity!

"Ling Tianyou, you've never mined for spiritual Jade before, and you managed to mine it in less than a day. If you didn't cheat, how could you possibly have so many spiritual Jade? The thousand blades sect was cheating! We must disqualify the thousand blade sect from the top ten and kick them out of the top ten!" Wei Yidao roared with all his might, the veins on his neck bulging.

Chapter 5585 The Soaring Qingyun School

Great elder Li Zhen was speechless at Wei Yidao. Why was it this idiot again? although he was a disciple of the Qiankun sect, great elder Li Zhen felt that Ling Tianyou's failure to kill him was the greatest failure!

What does it matter to you whether they cheated or not? Ling Tianyou had never mined for spirit Jade, but Wei Yidao had? Did you, Wei Yidao, see with your own eyes whether he was cheating or not? Even if you really did cheat, I'd still welcome you with open arms if you were to offer 30000 spiritual jades to cheat!

It was as if Ling Tianyou could sense what the great elder of Ying town was thinking. Ling Tianyou laughed coldly and said, "I did cheat. I took out 30000 spiritual jades to cheat. I have a lot of spiritual jades. If you come over, I promise I won't smash you to death with spiritual jades!"

The audience immediately burst into laughter. Everyone knew that Ling Tianyou was being sarcastic. Who the hell would use 30000 spiritual Jade to cheat? How retarded would that be? Alright, no matter how retarded he was, he would not do such a thing!

Because only a smart person like Lin Yi would do something like that!

However, Lin Yi was looking up at the sky at 45 degrees. He was reflecting on himself. He took a million or so pieces of useless Jade to recharge. Was it not kind enough to only take out a few tens of thousands?

The great elder of Hu town took a look at venerable dujie. Seeing that venerable dujie didn't have any reaction, he turned to Wei Yidao and reprimanded, ""Wei Yidao, your tyrant's blade school isn't one of the four great and ten small sects. You have no right to speak in this matter. Leave immediately, or your tyrant's blade school will be expelled from the town!"

Being expelled from Ying town meant that the tyrant's blade school wouldn't be allowed to participate in the next archaic meeting. They could only re-enter after the next one. The Grand Elder of Ying town had given this warning because he was thoroughly annoyed with Wei Yidao.

Wei Yidao's face turned pale and then red. The grievance in his heart was indescribable, but the people of the tyrant's blade school did not dare to offend the great elder of Lin town. They hurriedly pulled the unwilling Wei Yidao back, and this interlude officially came to an end.

Although no one believed that the thousand blades sect had used their spiritual jades to cheat, and that they might not even be able to produce 3000 spiritual jades, let alone 30000 spiritual jades, this matter still caused endless discussion among the crowd, and they came up with all kinds of even more outrageous conclusions. However, with the words of the great elder of Ying town, this noisy situation suddenly disappeared without a trace, and everyone seemed to have lost the ability to speak in an instant.

"The green cloud faction has a total of ... More than 40000 spiritual jades ..." Grand Elder Ying Zhen did not even want to say the exact number, because it would be meaningless!

40,000 spiritual jades ... No sect had ever done that before. Of course, it had never even reached 30000 spiritual jades. 40000 spiritual jades was also impossible. At least 30000 spiritual jades was still possible, but 40000 spiritual jades ... No one had the courage to even think about it!

Yet, Qingyun school had done it directly!

The crowd was silent. This was beyond just shock. Everyone looked at Lin Yi and Jin Weifeng, dumbfounded, including Shangguan Qingyun who had a lot of confidence in Lin Yi. Only those who had received spiritual jades from Lin Yi before didn't find it strange. Since Lin Yi could give them tens of thousands of spiritual jades, wasn't it normal for him to leave twenty or thirty thousand for himself?

"Hehe, so our green cloud School is first place in this event? Ten points, not bad!" Lin Yi said with a light smile after the silence.

Everyone was speechless. Ten points was already the highest score, and it was not bad? Then what should I do? Don't you think that it's very good?

"Haha, our thousand blades sect is in second place. We also have nine points. Not bad!" Ling Tianyou joined in the fun and laughed as he spoke.

Everyone looked down on this pretentious fellow. There were only two of them, so nine points was not bad? It's super, alright? You're already in second place, what else do you want?

The corners of Bing Wuqing's mouth twitched, and she said stiffly, ""Third place, eight points. Not bad!"

Alright, this was indeed a pretty good result for snow sword sect. Bing Wuqing was a down-to-earth person ... In fact, everyone was already too tired to ridicule her. If you guys wanted to talk, just talk. Was there a need to maintain the formation?

Ye Ling sect was fourth with seven points, and the Chu family was fifth with six points, which was not bad ...

Daoist master dujie and MA Zaidan's faces turned ashen. When the rankings were out, they realized that the Shangguan clan was simply heaven-defying!

The skyward sect was unlucky enough to lose one of their members, and they ended up getting two points from the unluckier everyday and every day sect. The Qingyun sect and the thousand blades sect were the second and last place. Although the third and fourth places were from the Qiankun sect and the Qitian sect, anyone with eyes could tell that they were close to the Qingyun sect's Lin Yi. Being close to the Qingyun sect was the same as being close to the Shangguan family.

Damn it, the fifth one was another member of the Shangguan family, the newly-promoted Chu family!

The top five contestants of the first event were either directly from the Shangguan clan or had an indirect relationship with the Shangguan clan. The Daoist master dujie and MA Zaidan looked at each other. From the look in each other's eyes, it could be seen that both of them had the same idea.

Join forces! They had to join forces!

Otherwise, the Shangguan family's rise would be unstoppable, and one of the two families would be the unlucky one.

Lin Yi glanced at them, and he saw the silent exchange between the two. His lips curled up into a faint smile. It was too late for them to join forces now. Besides, was it really a good idea to treat the Shangguan family as an enemy?

It was true that the Shangguan family was going to rise, but the green cloud School was the one who was going to soar!

After retracting his gaze, Lin Yi smiled faintly and celebrated with the others. Although it was expected, he did get into the top five after all. It would be strange if he wasn't happy. Moreover, looking at the dujie master, MA Zaidan, and Wei Yidao's depressed expressions, Lin Yi's mood would be better. Maybe he should do the same for the next event? To let everyone continue to watch them be unhappy?

"Next, let's talk about the second event, the competition of the top ten rankings. Everyone, be quiet!" The great elder of Ying town was very displeased with the joyful expressions of the Shangguan family, and he quickly interrupted their celebration with a cold voice.

The people on and off the stage slowly quieted down, and their eyes focused on the great elder of Ying town.

Shangguan Qingyun had already told Lin Yi the general event, but he didn't know what the minute changes were. For example, the mining of spirit Jade just now was supposed to have a Void Bag segment, but it was canceled in the end. Lin Yi was more concerned about the second event.

#### Chapter 5586 Hunting Sea Beasts

The great elder of Ying town swept his gaze across the entire stage. He was quite satisfied with the effect of his words, so he continued, ""The second round is to hunt for the inner cores of sea beasts. As everyone knows, the inner cores of sea beasts are the main materials for alchemy. It can even be considered a strategic resource. In terms of importance, it is no less important than mining spiritual Jade!"

He hadn't even finished his words when the people below the stage began to whisper. Yes, everyone knew that the inner core of a sea beast was an important resource, but at the same time, hunting for the inner core of a sea beast was also an extremely dangerous thing.

Although most of the sea beasts in the coastal waters were of the Foundation Stage, and there was almost no risk for Masters of the Jindan and Yuanying stage to hunt them, but if too many sea beasts were killed, the bloody smell of those sea beasts after their death would attract the powerful sea beasts in the deep sea. And it would not be one or two sea beasts that appeared alone, just like a group of sharks in the secular world. In more serious cases, it would directly lead to a big riot of sea beasts.

"Silence!" Lin Zhen's first elder shouted, clearly very dissatisfied with the chaos below the stage. After the voices below the stage had died down, he expressionlessly said, ""The rules of hunting for the inner cores of the sea beasts are simple. Each of the ten Little ones will still send two people. The inner cores of the sea beasts will be counted according to the level. For the inner cores of the foundation establishment stage sea beasts, one point is for the early and middle stage, two points for the late stage, three points for the perfected stage, ten points for the early stage of the gold core realm, fifteen points for the middle stage, twenty points for the late stage, and twenty-five points for the perfected stage. The points for the nascent soul realm are ten times that of the gold core realm."

This was a pretty decent way of calculating points-at least it was a lot clearer than the general Jindan and Yuanying stage spirit feasting beasts. Lin Yi now thought about the one to five ratio of Yuanying and Jindan stage spirit feasting beasts 'cores-it really was quite casual.

"The one with the highest total score will get ten sect ranking points, and so on, which will be added to the points of the first round." As the great elder of Ying town spoke up to this point, he suddenly recalled the rankings in the first round and felt a little awkward. Thus, he pursed his lips and omitted the rest of his words.

"It shouldn't be a big problem if each family only sends out two, right? As long as we don't go to the deep sea, we won't attract any powerful sea beasts. " The great elder of Ying town didn't say anything, but the audience began to discuss again.

"There are only twenty of them in total. It's unlikely that they'll cause a riot among the sea beasts. Unless these twenty people start a massacre and turn the coastal waters into a sea of blood, they won't attract those powerful sea beasts ..."

"Don't be silly. These twenty people are definitely the most powerful people in the ten Little ones. How could they possibly kill a few foundation establishment stage sea beasts in the coastal waters? they should at least go deeper to kill golden core stage sea beasts, right?"

"For the experts who are participating in the competition, it's not a problem for two people to hunt and kill the Golden core stage sea beasts. Moreover, with a small number of people, they won't disturb the sea beasts and scare them into hiding ..."

"I wonder who's the one who's scared if those powerful sea beasts are really disturbed ..."

For a time, all sorts of things were being said below the stage, and with just a few words, there was a trend of digressing the topic. However, this time, the great elder of Ying town had no intention of stopping them. In any case, what needed to be said had been said. Next, it was time to let the ten small children digest this information.

"Martial granduncle, if we're going to hunt the sea beasts this time, why don't you let this disciple follow you?" Jin Weifeng moved to Lin Yi's side and smiled brightly, obviously wanting to continue following Lin Yi.

"No problem," Lin Yi chuckled, "you really do need more training. It's a rare opportunity."

Jin Weifeng was instantly overjoyed. He thanked him with a smile and turned to report to Xin Yijie.

The second round came just in time for Lin Yi. He was going to use the cores of the sea beasts to exchange for the spots to mine the spirit Jade immortal vein with the spirit feasting beast clan, and killing sea beasts was an unavoidable hurdle. This was a small scale competition, and he could try it out and see how difficult it was to kill sea beasts.

Speaking of which, in this competition, killing nascent Soul Stage sea beasts was obviously the best. After all, the points obtained were higher. However, if it was used to exchange for the quota to mine the spiritual Jade, golden core stage seemed more suitable. After all, it was more dangerous for people of the small Jianghu of the immemorial era to hunt nascent Soul Stage sea beasts. Golden core stage sea beasts were much safer and easier to hunt.

In any case, he should take advantage of this opportunity to hunt and kill all the Jindan and Yuanying stage sea beasts. Only after trying out would he be able to find the most suitable way to trade. Lin Yi

pondered for a moment, then turned to look for Bing Wuqing and the others to give them a plan for hunting sea beasts.

Seeing that it was about time, the great elder of Ying town spoke again, ""Have the various sects finished their discussion? Have the participants for the second round of the competition been decided? Then let's go!"

Basically, the ten Little ones were still those who had participated in the mining of spiritual Jade. However, because of the higher casualty rate in the first round, the sect Masters did not participate. Instead, other disciples were replaced. For example, Hong Yuanqing of the snow sword sect was replaced by Leng Leng, and ye Qingcheng of the leaf spirit sect was replaced by Duanmu Yu.

Of course, these two houses "exchange was mostly for Lin Yi's help. After all, they both knew that Lin Yi had an ambiguous relationship with Leng Muyu and he wouldn't let them be in any danger. In terms of safety, these two golden core beauties were much safer than the two sect leaders.

Twenty small flying spirit beasts landed on the high platform under the command of the Ying town's great elder. They were going to hunt sea beasts, but of course, they couldn't do it in the ancient mountain range. These flying spirit beasts were to send the participants there. With one flying spirit beast per person, it would be much more convenient for them to move.

"The place to hunt sea beasts for inner cores is in the sea area closest to the immemorial mountain range. Of course, this Sea area is also a part of the immemorial endless sea, so it's all connected. Therefore, you should not go too far from the coastline. Otherwise, if you are attacked by a powerful sea beast, no one will be able to save you!" Ying town's great elder gave a routine warning. In reality, if they really did so, they could only hunt for Foundation establishment sea beasts in the coastal waters. Points like one, two, and three were not something that these elites from the ten small sects could look at.

Lin Yi looked at the smaller flying spirit beasts-they were a type of flying spirit beast that was known for their speed, similar to the spirit birds on Sky Class Island. They didn't have any other special abilities, and they could carry at most two people. One was the most suitable.

"Weifeng, when you're hunting the sea beasts, you must take care to protect your flying spirit beast. If your flying spirit beast is killed by the sea beasts, you'll only be able to fall down and become their snack!" Lin Yi reminded Jin Weifeng in a low voice. As for Ling Tianyou, he had invincible ancient to remind him, so he didn't need to worry.

#### Chapter 5587 Re-Set The Rules

"Yes, martial granduncle! This disciple will remember!" Jin Weifeng quickly replied respectfully, but he didn't think much of it. He was following Lin Yi, so how could there be any danger?

After Lin Yi said that, he continued to observe the smaller flying spirit beasts. Of course, he wouldn't know Jin Weifeng's thoughts, or he would have taught Jin Weifeng a serious lesson. In the endless sea, flying spirit beasts were their life. They couldn't be taken lightly, unless Jin Weifeng could fly in spirit form like Lin Yi.

"Each flying spirit beast is marked with the mark of the ten small sects. After you find your own flying spirit beast, you can set off. This competition will last for three days, and you have to come back by yourself. If you exceed the time limit, the result will not be counted. Please take note of this!" The great elder of Ying town waved his hand, and the second round of the competition officially began.

Lin Yi had a cold smile on his face. Those small flying spirit beasts all looked the same on the surface, but it was just like how everyone had their own tall, short, fat, thin, strong, and weak flying spirit beasts. The best ones had, without a doubt, been marked with the names of the Qiankun and Wuxing sects. As for the Shangguan family, they were almost all the worst flying spirit beasts.

Although the Qiankun sect and the five elements sect didn't do anything to these flying spirit beasts, the best flying spirit beasts were probably more than ten percent stronger than the worst flying spirit beasts.

Lin Yi didn't mind, but not everyone on his side could protect themselves in the endless sea. The stronger the flying spirit beast, the better. At a critical moment, that ten percent advantage could save their lives. Lin Yi wouldn't let the Qiankun sect do this.

"Wait! Why did these aerial spirit beasts have to be arranged in advance? Isn't it better for us to choose our own?" Lin Yi appeared in front of the elder in a flash and asked faintly.

Elder Pi Zhen's heart skipped a beat. He still felt weak facing Lin Yi directly, and he took a step back involuntarily. When he realized what was going on, he immediately took a step back, but Lin Yi had completely suppressed him in terms of aura.

"This ... This is the rule. Why is there a reason?" Even though the great elder of Ying town still maintained his arrogant and expressionless face, his tone revealed the uneasiness in his heart.

"Rules are set by people. The current rule is obviously not very appropriate!" Lin Yi smiled faintly and pointed at the ranking. "There's already a new ranking. Shouldn't we choose the aerial spirit beasts according to this new ranking? If we still stick to the original method, then what's the point of competing for this ranking?"

"Well said, this Lord had long thought that this should be done! It's rare for elder Lin to suggest it, so let's execute it now!" Shangguan Qingyun immediately stood out to support Lin Yi. He was going to call Lin Yi grand-uncle at first, but decided to call him elder instead since now wasn't the time.

The great elder of Ying town still wanted to argue, but Daoist master dujie followed up and said, ""It's indeed a fair way to choose an aerial spirit beast according to the new ranking of the ten Little ones. Let's do it this way."

Preparing a flying spirit beast for his sect in advance was something that shouldn't be done in public, and Daoist dujie knew that it wouldn't do him any good to continue arguing. After all, the four big and ten small sects were no longer the only ones in the Qiankun sect, and it was completely pointless to go against the Shangguan family and Lin Yi for such a small matter.

Taking the initiative to agree with Shangguan Qingyun and Lin Yi gave the enlightened dujie a bit of initiative, so he continued, "However, to make it more fair, I suggest that the selection will be done in two rounds according to the ranking order. This way, the last sect won't even have a chance to choose. What does everyone think?"

Of course, the five-elements sect agreed. After all, the last place belonged to the five-elements sect's everyday and every day sect. They had already lost two experts. If they did not even have the chance to choose an aerial spirit beast, wouldn't it be very likely that two more would die?

As usual, the heaven opening sect did not express much of their opinion, so the proposal of the Daoist master dujie was passed just like that.

Lin Yi didn't really mind-the top five were all his own people, after all, and the number of good and bad flying beasts was the same-five or six. This meant that the best would be picked by Lin Yi and the others, and the worst would be left for last. As for the ten or so in the middle, they were all about the same quality, and there wasn't much to pick from. It seemed like a fair suggestion, but it didn't change much ...

Since the decision was made, Lin Yi picked a flying spirit beast and removed the yingyun sect's logo from it. He then turned to Jin Weifeng, "Weifeng, you ride this flying spirit beast."

"Many thanks, grand uncle-master!" Jin Weifeng didn't stand on ceremony. He chuckled as he jogged over and directly flipped over.

Zou Baixiang from the yingyun sect had a dark expression on his face. This was originally his flying spirit beast, the best one out of the 20. Now, it had become the Mount of that little guy from the Qingyun school!

What made zou Baixiang's face even darker was the fact that Lin Yi had chosen the flying spirit beast of the third-ranked snow sword sect, giving the other flying spirit beast of the yingyun sect to snow sword sect's Leng Leng ...

The thousand blades sect in second place picked a flying spirit beast with the AO Tian family's Mark, and the leaf spirit sect also picked a flying spirit beast with the AO Tian family's Mark for Duanmu Yu ...

After the Chu clan had finished their selection, there were no more high-grade flying spirit beasts left. The best that remained were medium-grade flying spirit beasts. After the remaining five clans had each chosen one, it was Qingyun school's turn to choose again. The last five medium-grade flying spirit beasts were divided up, and there was no need to continue choosing the five low-grade flying spirit beasts ...

After the selection, Lin Yi gave his medium level flying spirit beast to the sky sect. After all, the sky sect was too low-ranked, and they only had one medium level and one low level flying spirit beast. Two medium level flying spirit beasts were fine.

As for Lin Yi himself, he could fly in his spirit form anyway, so a low-grade flying spirit beast was enough.

The twenty flying spiritual beasts, along with the twenty top-tier Masters, soared into the sky at the same time, flying toward the endless sea at the edge of the ancient mountain range. The second round of the competition had officially begun.

After arriving at the endless sea, the twenty people split up. If there were too many people, the sea beasts would dive to the bottom of the sea. Under normal circumstances, two people in a group was the best combination. They would not disturb the sea beasts and cause them to hide, and they would also not have a situation where they were not strong enough to kill the sea beasts.

Chapter 5588 Two Hundred And Fifty

Both Leng Leng and Duanmu Yu wanted to follow Lin Yi, but he had Jin Weifeng by his side, and they were too embarrassed to fight over Lin Yi's team. In the end, they could only follow Bing Wuqing and ye tongxuan.

"Senior granduncle, is this disciple in the way?" After everyone left, Jin Weifeng flew to Lin Yi's side and stuck his head in.

"If you think you're in the way, you can go fishing yourself!" Lin Yi laughed.

Jin Weifeng shrunk his neck and laughed, "This disciple is still very sensible, I won't be a hindrance at all. Let's forget about fishing for sea beasts."

"Stop thinking about those useless things. While we're still in the coastal waters, hurry up and practice killing sea beasts!" With that, Lin Yi got the spirit beast close to the surface of the sea and used the

raging fire Eight Trigram palm to kill a late-stage Foundation sea beast. The beast's core entered the Jade space.

"It seems like I'm still in the way and made martial granduncle unhappy. If I had known earlier, I would have formed a three-person team with Bing Wuqing and ye tongxuan!" Jin Weifeng mumbled softly, not daring to let Lin Yi hear him. He then shouted, "Martial granduncle is too amazing! Hunting for the inner cores of sea beasts can't be any easier!"

With that, he mimicked Lin Yi and brought the flying beast close to the surface of the sea. He unsheathed his long sword and used a simple vacuum sword wave to cut a Foundation peak stage sea beast in half. He then wrapped the beast's core with his Qi and put it into his bag.

"Well done, but with your strength, it seems that the sea beasts of the Foundation Stage are too easy to deal with. Let's continue to explore the endless sea and find the sea beasts of the Golden core stage!" Lin Yi nodded and used his wild fire Bagua Palm to get the second core.

Sea beasts naturally liked to hunt flying spirit beasts on the sea, especially those that were ridden by humans. So when Lin Yi and Jin Weifeng were close to the sea level, they naturally attracted the attention of the sea beasts, and the Hunter became the hunted, obediently coming to give up his inner core.

Jin Weifeng controlled his flying spirit beast and caught up with Lin Yi. He smiled, "Martial granduncle, hunting Foundation Stage sea beasts is indeed boring. I don't think golden core stage sea beasts are that strong. Why don't we look for nascent Soul Stage sea beasts? the inner core of an early nascent Soul Stage sea beast is worth 100 points, which is equivalent to 100 early and middle Foundation Stage sea beasts."

"Actually, you can go and hunt a sea beast at the peak of the original level. I think you can do it." Lin Yi said without turning his head.

Jin Weifeng was immediately surprised, "martial granduncle, is what you said true?" Do you really think that I can hunt and kill a sea beast at the peak of the nascent Soul Stage? It was too awesome! If he succeeded, then he would be ... An idiot? Senior granduncle!"

Lin Yi chuckled and didn't bother with Jin Weifeng anymore. " 250 for one? I didn't say that, you said it yourself."

The two of them flew into the depths of the endless sea one after the other. They quickly flew out of the coastal waters and entered the area where there were more Jindan stage sea beasts. Lin Yi mainly wanted to see how difficult it was to hunt Jindan and Yuanying stage sea beasts, so after two attacks, he let Jin Weifeng be the main attacker so that he could see more clearly.

Of course, Jin Weifeng couldn't ask for more to show off in front of Lin Yi, so he attacked with all his might. However, a golden core stage sea beast wasn't that easy to deal with anymore. In terms of strength, Jin Weifeng could still crush any golden core stage sea beast, but the Golden core stage sea beasts were very alert. After realizing that the two weren't easy to deal with, they hid far away. Jin Weifeng could only attack twenty to thirty meters below the sea level, and there was no power if he went any deeper. Unless he also went deep into the sea. However, if that was the case, the Jindan stage sea beast might be able to turn the tables and crush Jin Weifeng.

"Grand uncle-master, these golden core stage sea beasts are really cunning ..." After another failed attack, Jin Weifeng turned to Lin Yi helplessly.

Lin Yi nodded, but he was thinking that the cores of these sea beasts weren't easy to get. It was so hard for even a nascent soul practitioner to hunt a golden core stage sea beast, let alone a nascent soul one.

If everyone was in such a state, it would not be easy to gather the three hundred and sixty golden core inner cores that he had promised the old spirit feasting beast.

"Martial granduncle, why don't I fly a distance away by myself? if I'm alone, these cunning golden core stage sea beasts might take the initiative to attack me!" Jin Weifeng saw that Lin Yi didn't have any special ideas, so he suggested his idea to test the waters.

Lin Yi was a little surprised, but he remembered that the sea beasts here were all golden core stage. There shouldn't be any nascent Soul Stage sea beasts. Jin Weifeng's strength should be enough to ensure his own safety. He nodded, "Alright, be careful. If there are nascent Soul Stage sea beasts, don't fight them head-on!"

In the endless sea, Lin Yi's spirit sense could cover a large area. Even from a distance, he could see if there were any nascent soul realm sea beasts around Jin Weifeng. Letting Jin Weifeng train by himself was definitely a good thing.

"This disciple understands. Martial granduncle, please rest assured!" "Yes," Jin Weifeng replied and immediately urged his flying spirit beast to fly away excitedly. Lin Yi noticed that Jin Weifeng wasn't going to the depths of the endless sea, but was flying at the border between the sea and the sea. He didn't say anything.

After Jin Weifeng completely disappeared from his sight, Lin Yi then slowly controlled his flying spirit beast to fly in that direction. At the same time, he used his spirit sense to pay close attention to Jin Weifeng's movements.

Just as Jin Weifeng had expected, when he was alone, the Golden core stage sea beasts let down their guard. Some of the Golden core stage sea beasts that were attracted to him tried to attack Jin Weifeng.

Jin Weifeng seized the opportunity and killed two intermediate gold core sea beasts in a short period of time. He easily obtained thirty points.

"That's right. It seems like this is a good way to hunt sea beasts. However, it's a bit dangerous. After all, you're alone in this area. If you don't have the strength of the original infant stage, it's better not to try it. " Lin Yi smiled. No matter what, this was a good way to complete the trade with the old carnivorous beasts. In this area, there was no lack of golden core stage sea beasts. As long as the four big and ten small Yuanying stage Masters could put down their status, it wouldn't take too long to collect the three hundred and sixty cores.

When enough spiritual jades were collected, the overall cultivation speed of the immemorial underworld would increase a lot. The extra inner elixirs could also be used to refine elixirs and further enhance the overall strength of the immemorial underworld. In turn, it would be better to hunt for the inner elixirs of sea beasts. The development of the immemorial underworld would enter a virtuous cycle.

Chapter 5589 You Stole It

"Yi!" Lin Yi was in the middle of planning the future development of the ancient martial world when he suddenly yelped. He turned to look at the coastal waters, his face darkening.

After making sure that Jin Weifeng was fine for the time being and seemed to be able to deal with the Golden core stage sea beasts easily, Lin Yi didn't hesitate anymore. He immediately controlled his flying spirit beast and flew in that direction at full speed.

At the edge of Lin Yi's spirit sense, he found Duanmu Yu, who was being chased and blocked. She wasn't with ye tongxuan at the moment, so she didn't know what was going on.

Fortunately, Duanmu Yu's flying spiritual beast was relatively outstanding. Although it was not a match for the two people behind him, his life was not in danger for the time being due to the speed of his flying spiritual beast.

This was the first time Lin Yi felt that low-class flying spirit beasts weren't enough. He needed to get at least a mid-class flying spirit beast.

Since Duanmu Yu was flying towards Lin Yi as well, the distance between them was rapidly decreasing. Soon, Lin Yi could see the three black dots in the sky in the distance. They returned to normal in a short time, and Lin Yi could even see the panic on Duanmu Yu's face.

"Lin Yi!" Duanmu Yu saw Lin Yi as well and immediately called out in surprise. She originally wanted to fly towards the deep sea and use the Golden core stage sea beasts to stop the two pursuers behind her. Although it was dangerous, it was the only way to escape.

She didn't expect Lin Yi to be here! With Lin Yi's help, the two annoying guys behind him couldn't even take one hit!

Duanmu Yu's pursuers naturally saw Lin Yi as well, but after exchanging a look, they didn't give up on the chase, only slowing down a bit.

Lin Yi's anger dissipated a little when he saw that Duanmu Yu wasn't hurt. He saw the two of them slow down and blocked their way.

"You two are from the everyday and every day sect, right? I wonder what you're trying to do by chasing a girl?" Lin Yi directed the aerial spirit beast to stop in front of Duanmu Yu and asked coldly.

If it was before, Lin Yi would've fought them first, but for the sake of his future plans, he didn't want to kill for no reason. This was why he gave them a chance to explain.

These two people were indeed from the everyday and every day sect. It had to be said that the strength of this sect was not bad. Although two masters died in the first round, this time they still sent out one early Yuanying stage and one complete jiedan stage. It was just that the Qi of the early Yuanying stage was not very stable, it should have just broken through in the past two days.

"Lin Yi, right? I know you're the martial granduncle of Qingyun school, and it's said that you're very strong, no less than peak nascent soul realm, but this is a matter between our everyday and every day sect and spirit leaf sect, I hope you don't interfere!" The early Yuanying stage cultivator slightly cupped his fists and said in a neither humble nor arrogant manner.

This was also because Lin Yi was still at Foundation peak-rumors were just rumors, after all. People wouldn't believe it without seeing it for themselves.

"Hehe, you know I'm strong, and you still dare to bully my woman in front of me? Are you tired of living?" Lin Yi raised an eyebrow and smiled. "Don't talk to me about the fight between the sects, just tell me why!"

Duanmu Yu's face reddened when Lin Yi called her his woman, but her heart was as sweet as honey. She didn't wait for the two to speak and took out a late-stage golden core beast core, "They're hunting me down to snatch this inner core. "

"We were the first to discover that golden core stage sea beast. You guys stole our inner cores and you still have the face to say that we stole yours?" The other practitioner pointed at Duanmu Yu and yelled. It wasn't clear if he was trying to raise his voice to increase his courage in front of Lin Yi.

Lin Yi turned around and was speechless. It was just a late-stage golden core inner core-was there a need to go after him like this? Can't you see that there are already golden core stage sea beasts swimming everywhere in the sea below?

But then again, the sea beasts in the coastal waters were basically all Foundation establishment stage sea beasts. It was rare for a golden core stage sea beast to appear, so it was indeed easy to cause a fight. However, these two people from the everyday and every day sect could easily hunt and kill the Golden core stage sea beasts even if they were here. If they had the time to pursue Duanmu Yu, it would be better to hunt here and reap more rewards.

"Lin Yi, don't listen to his nonsense. If the sea beast you saw was his, then doesn't that mean the entire endless sea belongs to the everyday and every day sect?" Duanmu Yu, of course, knew that Lin Yi would help him unconditionally, but he still retorted angrily.

"I know, leave it to me!" Lin Yi said with a smile.

With that, Lin Yi put the core into the Jade space. With his strength equivalent to a peak mid xuansheng realm, he wouldn't be able to detect the fluctuations if he used the Jade space in front of these two.

The two men from the everyday and every day sect had been staring at the inner core in Duanmu Yu's hand the entire time. They did not expect that the inner core would suddenly disappear into thin air.

They were instantly dumbfounded. One of them rubbed his eyes in disbelief before confirming that the inner core had really disappeared!

Duanmu Yu couldn't help but want to laugh when he saw the two guys "dumbfounded expressions. He didn't need to ask to know that this was Lin Yi's doing. Duanmu Yu had seen that mysterious space before. The cores that disappeared must have been kept by Lin Yi in that space.

Lin Yi pretended to be surprised and replied lazily, "It's really strange. Why did the inner core suddenly disappear? Now that the item is gone, what are you still fighting for? If you have the time, you might as well clean up the Golden core stage sea beasts below!"

The two subconsciously followed Lin Yi's finger and realized that they were already at the edge of the sea. They could see golden core stage beasts under the sea, but because there were four people and flying spirit beasts in the air, the beasts were hiding deeper and wouldn't attack.

In order to complete the agreement with the old beast, Lin Yi had done his best, even giving pointers to these two dumb guys.

"You must have stolen our inner cores. Don't think that you can hide from us with such a despicable trick. Hand it over now!" The two of them were silly, but they suddenly became smart!

Chapter 5590 Dumbfounded

The nascent soul primary stage seemed to think that he had just broken through and had enough strength to face Lin Yi. After all, rumors were just rumors. The Lin Yi in front of him was just a Foundation peak stage weakling.

Lin Yi chuckled-this idiot was right, after all. A fool who couldn't see the situation clearly could be considered stupid. Lin Yi just wanted to be more powerful when hunting golden core stage sea beasts, but if they really wanted to die, Lin Yi couldn't stop them.

"Where do you think I have an inner core?" Lin Yi spread out his hands, indicating that he didn't have the inner core.

The early nascent soul guy saw Lin Yi's weak look and his anger rose. He thought that Lin Yi's reputation in the Qingyun school was indeed from the rumors.

"I see that you have inner cores everywhere. Since you don't hand them over, then don't blame me for being impolite!" The early nascent soul practitioner yelled as he reached out his right hand towards Lin Yi's collar. He was underestimating Lin Yi to the extreme, thinking that he could beat Lin Yi up with just one hand.

Lin Yi sighed helplessly. Why was it so hard to let him go? Do I have to be beaten up to be happy? Speaking of this guy's face, it was indeed the pattern of life that deserved a beating, so she would help him reluctantly!

The swirl instantly hit the nascent soul realm cultivator, and Lin Yi casually slapped him, sending him flying off the flying spirit beast's back. He fell into the endless sea in a perfect arc.

The other perfected gold core realm cultivator from the everyday and every day sect was as silent as a cicada in winter. He didn't even dare to move a finger. An early nascent soul realm cultivator was sent flying without even using a single move. He, a perfected gold core realm cultivator, wasn't even enough to fill the gaps between the opponent's teeth!

"Hey, aren't you going to save your companion? Although he's able to deal with the Golden core stage sea beasts for the time being, there's an early nascent Soul Stage sea beast that just happened to pass by. It seems to want to take a share of the loot. " Lin Yi retracted his palm and turned to the Golden core full stage with a smile.

"A nascent Soul Stage sea beast?!" A complete gold core realm cultivator was shocked. This was not a level that he could deal with. His companion's strength was suppressed in the sea. It would be good if they could fight equally with him. How could they fight a sea beast of the original infant stage?

Just as he was about to command his flying spiritual beast to descend and save them, a wave of pressure from a sea beast at the nascent Soul Stage rose. In this Sea region, a sea beast at the nascent Soul Stage was definitely an Overlord-level existence. It was just like the Golden core stage sea beast that Duanmu Yu had hunted earlier. In the territory of sea beasts at the foundation establishment stage, a sea beast at the nascent Soul Stage was an Overlord!

"Argh! Help! It really is a nascent Soul Stage sea beast!" The early stage nascent soul who'd been slapped into the sea tried to jump into the air, but was pulled back by some unknown force. It was hard for him to even breathe out of the water, let alone leave the water.

The Yuanying stage sea beast was extremely domineering. It opened its big mouth and was about to swallow the early Yuanying stage cultivator directly. The early Yuanying stage cultivator who didn't wait for rescue was dumbfounded by the bloody mouth. He even forgot to do the most basic defense and evasion.

Lin Yi's lips twitched-this nascent soul early stage guy was really weak. If he wasn't strong enough to hunt golden core sea beasts, Lin Yi wouldn't even bother saving him.

He threw out a soul snatching hand, and the original infant stage sea beast flipped over and floated to the surface. Lin Yi waved his hand and easily broke open the body of the sea beast and took out the inner core.

The blood of the original infant stage sea beast slowly spread and dyed the entire area red. The Golden core stage sea beasts immediately fled far away. Although they really wanted to eat the corpse of the original infant stage sea beast, the aura of the original infant stage sea beast would not dissipate in a short period of time, so the sea beasts did not dare to approach it.

Such a method caused the two people from the everyday and every day sect to be dumbfounded once again. Only then did they know that rumors really couldn't be trusted. How the hell was this the strength equivalent to a peak nascent soul realm cultivator? Even a peak nascent soul realm expert couldn't insta-kill a nascent soul realm sea beast, right?

"Many thanks for senior's help!" With the help of his friends, the early nascent soul practitioner finally got back on his flying spirit beast and thanked Lin Yi.

Lin Yi waved his hand, "it's nothing. You don't have to take it to heart. This time, I'll let it go. Next time, you won't be so lucky!"

"Yes, yes, yes, senior is right. The juniors will remember this in their hearts!" The two of them had completely lost their previous arrogance. They nodded and bowed in agreement, then hurriedly said goodbye and turned to leave the place.

"Lin Yi, you can even kill an original infant stage sea beast in seconds, you're amazing! Could it be that you've come here to hunt for the inner core of a nascent Soul Stage sea beast?" Duanmu Yu asked Lin Yi excitedly after the two left.

Lin Yi chuckled, "I'm not here to hunt for the cores of nascent soul-this is the area where most golden core stage sea beasts are active, after all. But doing something like that just now is something I can do." Oh right, weren't you with your master just now? where is he?"

"My master was injured when he fought with the Golden core stage sea beast. That's why I used my inner core to draw those two away so that my master could have a chance to escape. I wonder how he's doing now?" Duanmu Yu said worriedly when ye tongxuan was mentioned.

Fortunately, ye tongxuan was not injured by the people from the everyday and every day sect. Otherwise, Duanmu Yu would not have let those two off so easily!

Lin Yi wasn't familiar with ye tongxuan, but he still showed enough concern for the fact that ye tongxuan was Duanmu Yu's master. "Is your master's injury serious? Which direction did he go? Let's go and look for it now. "

Duanmu Yu cast a glance in the direction they came from and said. "Master's injuries are quite serious, but with the fifth grade great recovery pill that you gave him, there shouldn't be any problem. Moreover, master is flying back directly. If there are no accidents, he should have returned to the endless sea's coast. There is no need to worry about his safety. "

Lin Yi nodded after hearing what Duanmu Yu said, "It's good that your master is fine. But after he's out of danger, will he come back to find you?"

"Master and I have discussed this before. If we were to get separated, we would each hunt a few foundation Stage sea beasts in the coastal waters and then slowly move around in search of them. If we really can't find them, we'll meet again three days later." Duanmu Yu said shyly. It wasn't easy for her to meet Lin Yi, and ye tongxuan should be fine. She didn't want to be separated from Lin Yi just like that.

"If that's the case, why don't you come with me? Wei Feng is still hunting there, I don't feel at ease letting him go alone. If you go back alone, it will be a little dangerous." Lin Yi stopped after a few sentences-it seemed like he was trying to hide something.
