### Chapter 5601 Sea Beast Riot

In fact, the cliff platform they were on now was a very good place, but it was inevitable that there would be some bloody smell left after the battle. It was not difficult to find another place, and there was no need to endure the unpleasant smell here.

"There's a cave there. " Leng Leng said as she pointed to a spot about twenty meters above them.

Lin Yi's spirit sense had already found the cave. The entrance wasn't blocked, so the inside was quite dry. The space was big enough, more than a hundred square meters, more than enough for these people to rest.

"The cave looks good. Let's go there!" Lin Yi made his decision and moved the group into the cave. Those who needed to cultivate, those who needed to recover, cultivated.

Zhao Jing wanted to get on Lin Yi's good side, and so he put on a big smile as he came over, "Senior Lin, you've had a hard day, right? It's really not easy to hunt sea beasts. If there are too many people, the sea beasts will hide, but if there are too few people, they might be killed by the sea beasts. It's really troublesome!"

"MMH," Lin Yi said as he looked at him. "Sect leader Zhao, do you know how many people from the Qiankun sect and the five elements sect have come this time?"

The early Yuanying stage cultivator and MA Mingyuan of the five elements sect whom he had just met were not very powerful. But if Daoist master dujie and MA Zaidan had also come to the endless sea, then the threat would be greater.

It wasn't that they were a big threat to Lin Yi, but to those who were close to Lin Yi, like Ling Tianyou and the invincible ancient. If those two targeted Ling Tianyou and the others, an invincible ancient might not be able to protect them all.

As for the Chu family, the heavenly sect, and so on, any Daoist master dujie would be able to wipe them out. However, these two were the representatives of the four great sects, so they shouldn't be able to leave Ying town easily. After all, Shangguan Qingyun was still there watching.

Zhao Jingzhi was a smart person-he was the type of person who listened to what Lin Yi was saying. He knew what Lin Yi was worried about, and so he didn't dare to say anything. He thought about it carefully, "I haven't heard of the details. After all, the Qiankun sect wouldn't deliberately bring this up to chat with us. However, MA Mingyuan of the five elements sect should be here as well, because the Qiankun sect mentioned his name when they asked us to cooperate."

MA Mingyuan had indeed come, but he had already died ...

Other than MA Mingyuan, he didn't have any other information on Zhao Jingzhi, so Lin Yi asked him about what he knew about the Qiankun sect and the five elements sect. Since he wanted to deal with these two sects, it was necessary to gather more information. Even a Lion would use all its strength to hunt a rabbit, and Lin Yi couldn't be careless in these areas.

After a while, Lin Yi suddenly stopped talking and raised his head slightly. His spirit sense covered the entire Island, so he could immediately know if there was any movement.

"Eh, these two are from the yingyun sect!" Zhao Zhong Yi saw that Lin Yi suddenly stopped talking and felt that it was strange. Then, he realized what Lin Yu had discovered-two flying spirit beasts were landing nearby. On top of the flying spirit beasts were Yun Feiyang and zou Baixiang from the yingyun sect.

"Well, they look a little flustered!" Lin Yi nodded. Due to the interference of the tidal current, Lin Yi's spirit sense could only cover the entire Island. He couldn't sense anything outside the island. Hence, Lin Yi didn't notice the two people until they passed through the tidal current.

As they were talking, two more flying spirit beasts came from the other side of the island, faster than the two from the cloud guiding sect. Lin Yi used his divine sense to check-it was the invincible Taigu and Ling Tianyou!

"It's a little strange! Let's go out and take a look!" "Let's go!" Lin Yi called out to Bing Wuqing and the others before rushing out first. It was fine if zou Baixiang and Yun Feiyang were panicking, but invincible primordial was in a sorry state, and they didn't come from the same direction. This made Lin Yi feel a little uneasy.

Bing Wuqing and Jin Weifeng immediately followed behind, and subtly protected Duanmu Yu and Leng Leng in the middle. Zhao Zhiyuan, on the other hand, led his men and rushed out with a loyal look on his face. This was an opportunity to show off, and he had to make good use of it.

The two from the cloud guiding sect and invincible ancient came from different directions, but they both landed on the highest peak of the island. It was only a hundred meters away from Lin Yi's group, so it was Lin Yi's group who arrived first and waited on top.

"Master Lin, you guys are here too!" Invincible Taigu was happy to see Lin Yi and the others, but he looked troubled as he jumped off his flying spirit beast and walked over with Ling Tianyou.

Zou Baixiang and Yun Feiyang, on the other hand, were a little embarrassed when they saw Lin Yi and Jin Weifeng. They cupped their fists from afar as a greeting, not planning to come up to talk or leave to keep their distance from Lin Yi.

"What happened?" Lin Yi greeted with a nod and got straight to the point. From invincible primordial and Ling Tianyou's expressions, something unexpected must have happened.

"Sea beasts! The sea beasts are rioting!" Invincible primordial's face was extremely solemn. It wasn't his first time coming to the endless sea to hunt sea beasts for their inner cores, but it was his first time seeing a scene of a sea beast riot. He felt a rare tension in his heart.

Ling Tianyou's face was a little pale. He panted quickly for a few moments before he spoke up, "It's too terrifying. There were at least a hundred nascent Soul Stage sea beasts chasing after us just now, and there were even more than a thousand golden core stage sea beasts. Among them, there were no lack of peak late nascent Soul Stage or even great circle nascent Soul Stage sea beasts. Although we've already pulled the flying spiritual beasts up, we were still forced down by the sea beasts' attacks. If it weren't for this small island, I'm afraid that our flying spiritual beasts would have already been beaten into the sea by the sea beasts."

Zou Baixiang and Yun Feiyang had been paying attention to the situation here, and after hearing Ling Tianyou's words, they couldn't help but move closer to Lin Yi. Needless to say, these two were in the same situation as the invincible primordial and the invincible primordial.

Lin Yi knew, but he still frowned. "Are the other directions the same?"

Invincible primordial nodded."It's hard to say the exact number, but there are indeed many sea beasts gathering in the nearby sea. The two people from the cloud guiding sect should know something."

Lin Yi turned to Zou Baixiang and Yun Feiyang and waved,"Elder Zou, sect leader Yun, we're all in the same boat now. Why don't you come over and discuss this?"

There were hundreds of nascent soul realm and thousands of golden core realm sea beasts behind invincible Taigu and the others. No matter how strong Lin Yi's spirit was, he couldn't kill so many at once, not to mention that they were only on their way. He needed to gather more information.

Chapter 5602 The Sea Beasts Have Come To The Island

Zou Baixiang and Yun Feiyang also knew how bad the current situation was. This small island could only be a temporary place to stay. Once the sea beasts gathered, they could sink this small island in a matter of minutes. Right now, the only way to increase their chances of survival was to join forces with more people.

So after Lin Yi called for them, they immediately ran over, their faces unable to hide their anxiousness,"The direction we came from is also similar. The level and number of sea beasts are similar to those of the ancient ancestor. Moreover, there are also countless sea beasts gathering in the direction of the ancient mountain range. Although there aren't as many nascent Soul Stage sea beasts, the number of golden core stage sea beasts is even more terrifying."

Lin Yi frowned deeply. From their description, the beast riot this time was already considered a large scale one. In this situation, the possibility of relying on flying beasts to escape was very low, because it wasn't that the sea beasts didn't have any means to attack targets in the air. On the contrary, most of the sea beasts could attack targets in the air, but even if the sea beasts were alone, it wouldn't be of much use because humans could Dodge it nimbly. However, the effect of group attacks was different. It was impossible to guard against.

"Why are the sea beasts rioting? Do you have any clues in this regard?" Lin Yi looked at invincible ancient and the others, but all he saw was confusion in their eyes.

Yun Feiyang looked worried as he said, "the scale of this hunting operation is relatively small. It's absolutely impossible for it to trigger a riot of sea beasts. Although we don't know what's happening inside, we don't have the time to figure it out right now. The first thing we need to think about is how we can leave the endless sea."

Everyone knew this, but there was nothing they could do. If there was a sea beast riot in one direction, they could leave from another direction. However, the current situation seemed to be surrounded by sea beasts on all sides, and there was no chance of escape.

Lin Yi summoned his flying spirit beast and jumped on it, "I'll fly up and see what the situation is. You guys prepare to face the enemy. Those amphibian sea beasts should be coming to attack the island soon. "

These words made everyone's heart shiver, because what he said was very reasonable. With everyone's strength, it wouldn't be a big problem if three or five Yuanying stage sea beasts came up. If there were thirty or fifty of them, it wouldn't be a big problem, but how would they escape?

Lin Yi patted his flying spirit beast and shot into the sky like an arrow. He quickly broke through the interference of the tidal turbulence and spread out his spirit sense.

In the next second, Lin Yi was shocked by what he saw with his spirit sense. He couldn't help but take a deep breath!

As far as his spiritual sense could reach, there were sea beasts everywhere. A rough estimate showed that there were at least four or five hundred nascent Soul Stage sea beasts, more than five thousand golden core stage sea beasts, and tens of thousands of Foundation establishment stage sea beasts.

With this number, even if they stood still and let Lin Yi kill them, they wouldn't be able to kill them all!

"Fortunately, these sea beasts don't like land. Otherwise, we would only need to mobilize less than one-tenth of the number here to sweep the entire immemorial small Jianghu!" Lin Yi couldn't help but mumble as he maneuvered the flying spirit beast to make intense dodging movements.

In just a short while, there were more than a dozen attacks on Lin Yi. Fortunately, Lin Yi's divine sense had 360 degrees of detection with no blind spots, so he could easily Dodge.

Before more sea beasts attacked, Lin Yi had already ordered the flying spirit beasts to descend quickly. It was too dangerous to fly in the air, and only the island was slightly safer.

Due to the interference of the tidal turbulence, Lin Yi couldn't see the situation outside from the inside. At the same time, the strong sea beasts couldn't see the situation on the island.

As long as the sea beasts didn't attack the island at the same time, there was still some breathing space.

After landing on the top of the island, Lin Yi had already started to form super alchemy bombs in his hands. There were too many sea beasts outside, and both the soul-hooking hand and the vortex were

super effective in small scale battles. However, in the face of the sea beast tide, only the Super alchemy bombs had enough destructive power.

"Not good! The sea beasts are really on the island!" Invincible Taigu's face changed as Lin Yi landed.

Although most sea beasts had the ability to attack high altitude targets, they couldn't leave the water for too long. Just like Yin Zhihai's swordfish, they could only release one attack once out of the water. So, the sea beasts on the island were amphibian, such as the sea crabs that Lin Yi and Bing Wuqing had encountered, the sea turtles just now, and sea lions and seals. In the entire endless sea, it was only a small proportion. But to Lin Yi and the others, it was shocking enough.

Moreover, the sea beasts didn't come to the island in a fixed direction this time. The entire coastline of the island was the landing point of these sea beasts. In his divine sense, there were at least five or six hundred amphibian sea beasts on the island.

And this was only the sea beast horde near the small island. There were still many more coming from further away.

"There are eleven nascent Soul Stage sea beasts, one hundred and twenty-two golden core stage sea beasts, and the rest are all Foundation establishment stage sea beasts!" Other than Lin Yi, undefeatable Taigu was the strongest and the most experienced of them all. He knew what was going on immediately when he saw Lin Yi preparing for his big move.

"Among the sea beasts of the Yuanying stage, there is one at the peak of the Yuanying stage, two at the late stage, one at the middle stage, and the rest are at the early stage and the peak of the early stage. However, these sea beasts of the Yuanying stage are all scattered. If we are fast enough, we can still defeat them one by one!" Lin Yi was focusing on making the two super alchemy bombs, but he didn't let his spirit sense go.

The situation was urgent, and Lin Yi couldn't care about anything else. He ordered forcefully, "The few of you Yuanying stage cultivators will act together. According to the order of weak first then strong, go and deal with the weakest Yuanying stage sea beast. I will deal with the strongest peak Yuanying stage sea beast. For the time being, you don't need to pay much attention to the Jindan and Foundation establishment stage sea beasts. We'll talk about it after you've killed the Yuanying stage sea beasts. The few of you who haven't reached the Yuanying stage will stay on the mountain peak and watch over these flying spirit beasts. Do you understand?"

"Understood!" Invincible ancient expressed his support for Lin Yi without hesitation, and Bing Wuqing, Jin Weifeng, and invincible ancient spoke at almost the same time.

Putting Jin Weifeng aside, he was a member of the Qingyun school, and he was Lin Yi's grand-disciple, so it was normal for him to listen to Lin Yi!

#### Chapter 5603 The Explosive Power

Other than that, invincible immemorial was once the number one in the small world of immemorial, and was now at least in the top five of the strongest peak-stage nascent soul realm cultivators. Bing Wuqing was a genius cultivator who rose later. On the surface, she was still at the peak of mid-stage nascent soul realm, but in fact, with Lin Yi's Secret help, her true strength had already reached peak-stage nascent soul realm.

The two had expressed their full support for Lin Yi, so what else could Yun Feiyang and zou Baixiang say? Not to mention, Zhao Jing Zhi also expressed his agreement.

Only God knew how regretful Zhao Jingzhi was because he was a beat too slow. He was afraid that Lin Yi would think that he wasn't being proactive enough. Luckily, zou Baixiang and Yun Feiyang were at the bottom, and Zhao Jingzhi was glad that he wasn't the last one.

"I'll be the Arrowhead and cover the rear mercilessly. Elder Zou and sect leader Zhao, guard the two wings. Sect leader Yun and elder Jin, support from the middle. Maintain the formation and don't get scattered!" Invincible primordial immediately gathered the other five and formed an arrow-like assault formation. They didn't dare to waste a single moment, and they immediately charged toward their first target, the sea beast.

"You guys be careful!" Lin Yi turned around and gave his orders before heading down from the other direction. The strongest sea beast was at peak nascent soul realm, and Lin Yi had to take it out first. Otherwise, the six-man team would be completely trapped in the sea beast tide if they were delayed by this sea beast.

Lin Yi's plan was to rely on the six of them working together to suppress and kill the original infant stage sea beasts. This way, although there were a lot of golden core stage sea beasts, at least they wouldn't form a wave of attacks that could kill Lin Yi's team instantly, and it would be much easier to deal with them.

"You be careful too!" Duanmu Yu replied loudly. He opened his mouth coldly, but didn't say anything. He only watched Lin Yi leave with a faint worry in his eyes.

Ling Tianyou forced a smile and said, "you guys don't have to worry. Brother Lin's miraculous abilities have already exceeded our imagination. If there's anyone who can help us escape from this situation, it's only brother Lin!"

The cultivator at the peak of the late Aurous core stage from the evil warding sect did not say anything. Although there was some fear on his face, he was still calm on the whole. He released his blood spirit beast, Suan ni, and fifty to sixty thumb-sized Hufeng.

When Lin Yi rushed down the mountain, his hands were still in the form of super alchemy bombs, but they were used against the sea beasts, and he couldn't use them now. So when he encountered low-level sea beasts blocking his way, he just dodged them without stopping.

The island wasn't big to begin with, and the peak was in the center. With Lin Yi's full speed, he reached the peak nascent soul realm sea beast in two to three breaths.

Seeing the Super alchemy fire bomb in Lin Yi's hand, the complete nascent soul sea beast clearly felt the danger. It roared and retreated quickly, trying to distance itself from Lin Yi. At the same time, it commanded the dozen golden core sea beasts to surround Lin Yi from all directions. Even if they couldn't do anything to Lin Yi, they had to try to exhaust the Super alchemy fire bomb in Lin Yi's hand.

Lin Yi's face showed a trace of mockery as he activated his soul-hooking hand. In this situation, Lin Yi couldn't use the vortex to test it out anymore. Yin Zhihai's sea beast puppets could be directly killed by the vortex's refinement fire, but for normal sea beasts, especially those at peak nascent soul realm, the vortex couldn't directly enter their bodies to attack their souls. At most, it could only pull them out and slowly tear them apart. Lin Yi was still surrounded by more than ten golden core realm sea beasts. He only had one chance to attack-if this sea beast could block the attacks from the spirit sense, then Lin Yi would have to throw a super alchemy fire bomb first.

Fortunately, that didn't happen. Lin Yi's hand successfully pulled out the beast's spirit, and the strongest beast fell to the ground, unable to move.

However, Lin Yi had to split his attention-he had to make two super alchemy bombs at the same time, Dodge the attacks of over ten golden core stage sea beasts, and use the Soulcatcher hand to accurately attack a peak nascent Soul Stage sea beast. He couldn't do it all at once, so after the Soulcatcher hand pulled out the sea beast's soul, the soul started devouring instinctively.

Lin Yi, who had just finished off the sea beast, was shocked. His spirit tumor hadn't been completely refined yet, so how could he dare to devour another spirit? Especially in this kind of chaotic battle, if he couldn't suppress his breakthrough, he might be directly dismembered by the sea beasts.

He was the first xuansheng stage expert to be dismembered by a low-level sea beast during his breakthrough!

Lin Yi didn't want to have these humiliating words carved on his gravestone, so he subconsciously reversed the swallowing ability. Then, the complete nascent soul sea beast soul quickly flowed into the Super alchemy bomb in Lin Yi's hands, making the Super alchemy bomb expand to twice its original size in an instant.

"F \* ck! You scared me to death!" Lin Yi couldn't help but curse, cold sweat dripping down his back. The Super alchemy bombs were already forming much faster after adding the spirit sense and refinement fire, and this sudden increase almost made Lin Yi lose control of these two super alchemy bombs.

If these two super alchemy bombs exploded at the same time, the scene would be so beautiful that Lin Yi didn't even dare to imagine it. He would probably be at the center of the explosion, and not even a bone would be left of him. Even the usually calm Lin Yi couldn't help but curse.

Lin Yi didn't have the time to wipe the cold sweat off his forehead. He activated three spirit sense vortexes and converted a portion of them into spirit sense refinement fire, killing all the Golden core stage sea beasts that surrounded him.

He might not be able to deal with nascent Soul Stage sea beasts, but these golden core stage ones were more than enough. Before he could finish them off, Lin Yi turned around and ran. The two super alchemy fire bombs in his hands scared him too. He decided to go back and stabilize himself first.

Speaking of which, how did the power suddenly increase so much just now? Lin Yi calmed down and thought about it, his face turning weird.

It seemed like he was trying to avoid devouring the sea beast's essence spirit, and subconsciously pushed it away. Lin Yi's hands were forming a super pill fire bomb, and it didn't just require a large amount of Qi, but also a large amount of spiritual power, and the essence spirit was simply the condensation of spiritual power!

Lin Yi had never thought that a soul-snatching hand could be used like this. In other words, there were still quite a lot of captured spirits in Lin Yi's Jade space

#### Chapter 5604 Consecutive Explosions

After thinking it through, Lin Yi stopped and used the hand to capture another golden core sea beast's essence spirit. He locked it in the Jade space first and tried to use it later.

Lin Yi was still worried about using the Super alchemy bomb since he could draw Qi from the Jade space limitlessly. However, he only had this much spiritual sense. Even if he reduced the proportion of spiritual sense in the Super alchemy bomb, he couldn't use it forever. It might only be able to scare the sea beasts out there.

Now, the problem was completely solved. Just now, the two super alchemy bombs were strengthened to the limit of Lin Yi's control, and the spirit Fire took up more than 80% of it. Lin Yi felt that it was such a waste. Such a high proportion of Spirit Fire would only reduce the power of the Super alchemy bombs, but there was no other way now. If he continued to inject Qi and refinement fire, they would explode.

So Lin Yi decided to try using the Golden core sea beast next time ...

After returning to the peak, Lin Yi took some time to check on invincible primordial and the others. The six of them were just as Lin Yi had planned, crushing everything with absolute strength. He told them to ignore the Golden core and Foundation sea beasts, but they could still kill them as they rushed over. Wherever they went, it was like a speedboat cutting through the waves.

In this short period of time, the invincible primordial had already killed six original infant stage sea beasts. The remaining four sea beasts saw that the situation wasn't good and wanted to gather together. Unfortunately, it was too late. Even if they fought head-on, the six of them were enough to crush the last four sea beasts. Not to mention, invincible primordial had killed another original infant stage sea beast before they gathered.

Lin Yi was much more at ease now that things were going so smoothly. He jumped on his aerial spirit beast and took off again, only leaving a sentence, ""I'll go negotiate!"

After flying up into the sky, Lin Yi once again became the target of the sea beasts in the endless sea. This time, hundreds of attacks came from all directions. If Lin Yi didn't use his divine sense to detect it and Dodge in advance, the flying spirit beast he took from MA Mingyuan would have been torn into pieces even if he was fine.

He shouldn't have let the flying spirit beast out this time. It wouldn't be of much help in this situation and would only drag him down. It would be more convenient for him to use his spirit to fly.

"Go back to the island and be careful!" Taking advantage of the missed attack, Lin Yi quickly sent the flying spirit beast back. He pushed off the back of the flying spirit beast with the tip of his foot, and at the same time, he also gave it a kick so that it could land on the island faster.

After leaving the flying spirit beast, Lin Yi immediately turned his body into a Yuan spirit, but his hands were still in a Yuan spirit state, in case these two super alchemy fire bombs, which were almost beyond the limit, broke free from his control.

"I'll give you guys an egg to eat first. I'll let you guys know that we're not to be trifled with!" Lin Yi hmped and flew towards the area with the most sea beasts. There weren't the most nascent soul realm sea beasts there, but the rest of the sea beasts were quite dense. Lin Yi didn't know how many sea beasts he would kill with one super alchemy bomb.

In order to prevent the bombs from being blocked by the sea beasts, Lin Yi had to get closer before he could attack. Luckily, he was in spirit form, so he was immune to most attacks. With the God bracelet's defense, he could Dodge the occasional spirit sense attack. If he couldn't, it wouldn't be a threat. Soon, Lin Yi appeared less than ten meters above the sea with the two bombs.

The sea beasts were about to go crazy, and thousands of attacks surrounded Lin Yi in an instant. Lin Yi didn't even have the chance to speak even if he wanted to. He could only throw down a super alchemy bomb and fly up at full speed, avoiding the attacks and the aftermath of the Super alchemy bomb.

This super refinement fire bomb was more than 80% made up of the spirit refinement fire, but because it came from the sea beast's spirit and not Lin Yi's own spirit, the impact he could exert on it was very small. Lin Yi himself wasn't sure, and he could only try to control the direction of the explosion.

A huge spiral semicircle rose up in the sea below amidst the violent explosion. There were strong energy fluctuations inside, and a terrifying destructive aura was rapidly brewing, as if it would explode at any time.

Lin Yi couldn't care about anything else and threw the other super alchemy fire bomb to the side. After turning into a spirit, he ran in the opposite direction.

The effect on the Super alchemy fire bomb could be said to have failed, but it wasn't completely useless. At least it gave Lin Yi a small gap to escape. It was in this direction, and the explosion's power was very weak. Of course, that was only in comparison to other directions. If Lin Yi's spirit was touched even a little bit, it would be over instantly. This time, it was really a life-and-death game!

Lin Yi wanted to use the second super alchemy bomb to scare the sea beasts, but if he held it in his hand and ran for his life, it would explode if he wasn't careful. Lin Yi didn't want to take the risk, so he threw it at the other sea beasts first.

The first explosion shocked all the sea beasts, so when Lin Yi threw the second super refinement fire at them, most of them were stunned and didn't even attack.

Speaking of weakness, the biggest weakness of the Super pill bomb was its slow attack speed. For example, if Lin Yi threw a knife, it would be two or three times faster than the Super pill bomb. It was clear that as long as the opponent reacted fast enough, there was still a chance to intercept the pill bomb.

Of course, the blocked super alchemy bombs wouldn't be any weaker, but it was still much better than directly exploding on his body. That was Lin Yi's plan-no matter what, he'd kill one at a time, and it was better than keeping it in his hands.

To his surprise, the second super pill fire bomb didn't meet any resistance. It landed steadily among the sea beasts, and then exploded a second time.

The power of the two consecutive explosions formed a call-style chain explosion, containing the fusion and division of the same energy, making the power to a whole new level. Lin Yi didn't want to have this kind of surprise at all. If he knew this would happen, he wouldn't have flown so close and only threw it out.

## Chapter 5605 Negotiating With The Sea Beasts

If Lin Yi hadn't chosen the direction with the least power, he would've died with the sea beasts. It would've been hard for Lin Yi to escape from the explosion after leveling up, but fortunately, he used the strong air current to push himself far away. With the nothingness characteristic of his spirit state, he didn't suffer any serious injuries.

Looking back, even Lin Yi himself felt scared. The two super alchemy bombs had killed one to two thousand sea beasts. From the numbers, it didn't make up a large part of the sea beast tide, but there were more than a hundred nascent Soul Stage sea beasts and about five hundred golden core stage sea beasts. This ratio was extremely terrifying!

Lin Yi wiped the cold sweat off his forehead and turned back into his Yuan Shen form. He landed on a golden core sea beast and used his soul-hooking hand to pull out his Yuan Shen. He flipped his hands and created two more super alchemy bombs. Of course, in such a short time, these two were just empty shells. In terms of power, they were probably only enough to scare the Foundation Stage sea beast.

"I know you can understand what I'm saying. I don't want to start an all-out war with you sea beasts, so I want to see your commander now! Immediately!" Lin Yi stepped on the body of the Golden core stage sea beast that had lost its essence spirit, his face extremely serious as he rose and fell with the waves.

The sea beasts that wanted to attack Lin Yi all backed off after seeing the Super alchemy bomb in his hand. They didn't know that Lin Yi's bomb was just a bomb to scare people.

In fact, Lin Yi was troubled as well-he wanted to use the spirit he just got to make a super alchemy bomb, but he couldn't merge it in.

The Qi was continuously flowing into his palms, but just this alone was much slower and less powerful. Lin Yi thought back and realized that he was missing a crucial step!

Primordial spirit devouring!

Then, he immediately stopped and reversed the flow. As expected, the unmoving golden core sea beast's essence spirit was immediately split into two parts and flowed into Lin Yi's palms. Two super alchemy fire bombs were formed almost instantly, but they weren't as exaggerated as the previous two. They were completely within Lin Yi's control.

Lin Yi was overjoyed. He continued to channel Qi and normal refinement fire to adjust the ratio as he snorted coldly,""Don't think that you sea beasts have a large number. You've all seen it for yourself. As long as I want to, I can slaughter more than half of you without any problem! Hurry up and call your commander out!"

All peace was earned through fighting. This had always been the truth!

If Lin Yi had said that he wanted to meet the leader from the start, he would've been torn to pieces by the sea beasts already. However, after Lin Yi showed his terrifying attack power, none of the sea beasts dared to make a move. Not only that, but in a short time, a huge sea snake slithered through the path the sea beasts had opened up.

"Human, I'm the most powerful sea beast in this Sea region, and I can also be considered the commander of this place. What do you want to say?" The sea snake stopped a few meters away from Lin Yi and raised its head out of the water, speaking to Lin Yi.

"I want to know, why did you guys start a riot? under normal circumstances, you sea beasts don't have much contact with each other. In fact, many of you are natural enemies. Why did you guys join forces this time and chase after us humans?" Lin Yi raised his head and made eye contact with sea serpent, asking calmly.

The beast insurrection this time was very strange, and Lin Yi had to figure out the reason. Otherwise, he wouldn't be able to carry out his plan of hunting sea beasts smoothly. If the beast insurrection was triggered every time, it was hard to say if the sea beasts would just kill their way to the land and completely wipe out the ancient martial world.

Sea snake's cold eyes stared at Lin Yi for a moment before he said, "We do have many natural enemies, but the biggest one is you humans. Is it strange to hunt down humans?"

Sea serpent's answer made Lin Yi speechless! It was true that the sea beasts in the endless sea had a complete food chain, but if they were to talk about natural enemies, it seemed that humans were the common natural enemy of all sea beasts!

In the eyes of humans, all sea beasts were the same after they had turned into inner cores ...

"Human, the martial skill you have is indeed very powerful. It can be said to be the most powerful martial skill I have ever seen, but it's a bit ridiculous to use it to threaten us! Do you know how many sea beasts there are in the endless sea? I'm not afraid to tell you that the lowest unit of measurement is a hundred million! Do you think you can scare us by killing these sea beasts?" Sea serpent's eyes clearly showed a trace of disdain.

Although it could feel that the light ball in Lin Yi's hand could easily kill it, it still showed a trace of disdain without fear.

Lin Yi was silent for a while. "It's true that I can't kill all the sea beasts in the endless sea, but I can lead my men to kill a bloody path from here. Don't doubt that I can use this martial skill continuously. You won't believe it even if I tell you. This martial skill doesn't consume much energy for me. "

With that, Lin Yi threw the Super alchemy bomb far away, of course, at the place where it exploded. It was time for negotiation, and it wasn't a good time to provoke the sea beast.

When the Super alchemy bomb exploded in the distance, Lin Yi had already formed a new one in his right palm.

This time, Lin Yi turned the sea beast's essence spirit into the spirit Fire and put it in. Then, he combined it with the Qi in the Jade space to form it instantly. There was nothing to say about the speed, but because it lacked Lin Yi's normal refinement fire, the power wasn't as strong as the explosion just now.

The sea snake lowered its head slightly and stared at Lin Yi coldly. To be honest, it didn't expect Lin Yi to be able to use this powerful martial skill in succession and at such a shocking speed!

This way, it wasn't entirely impossible for Lin Yi to bring the people on the island away.

In fact, Lin Yi himself was a little scared. After solving the problem of using sea beast essence spirits as the material for the spirit Fire, it was possible to release super alchemy bombs continuously!

But the problem was that this thing was too powerful, and Lin Yi himself couldn't control it well. He almost died from the explosion just now, and if he really brought his men to break out of the encirclement and got lost along the way, who knew if they would be the first ones to die?

#### Chapter 5606 The Kidnapped Royal Sea Beast

Lin Yi's tough attitude was just to scare snake. It was a negotiation after all, and bluffing was the most important thing.

Seeing that sea snake didn't say anything, Lin Yi smiled faintly, "I don't know why you suddenly rebelled this time, but right now I only care about whether my people and I can return to the land! It's best if both of us can live in peace. After all, there's no irreconcilable enmity between us, right?"

Although Lin Yi had killed a lot of sea beasts, in the endless sea, the strong preyed on the weak. The sea snake was at the top of the endless sea's food chain, so it didn't care how many lower-level sea beasts Lin Yi had killed. So what Lin Yi said was very reasonable.

Sea snake looked at Lin Yi deeply and nodded, "You are indeed a special human. If possible, I don't mind letting you go. Unfortunately, I can't make the decision this time, unless you hand over the humans!"

"Who is it?" Lin Yi frowned. Was sea snake talking about invincible ancient and the others? After all, the sea beasts were chasing after them.

In fact, this was not right. In the entire endless sea, the situation near the small island was everywhere. It did not mean that this place was the center of the sea beast riot. On the contrary, it was just a very ordinary small corner.

"Those few humans have robbed a young member of our Royal sea beast clan. Unless you hand over these people and guarantee the safety of that member of our Royal sea beast clan, the entire endless sea will be a forbidden land for all humans!" Sea serpent didn't continue to speak ambiguously, but simply and directly made it clear.

Lin Yi's heart shook, and he couldn't help but curse. Which idiot was so free to kidnap a king of the sea beasts?

It was true that the sea beasts in the endless sea were like a plate of scattered sand, but it didn't mean that there was no king among the sea beasts. Once the king of the sea beasts gave the order, all the sea beasts in the endless sea would move, just like the sea beast riot that was happening now!

Lin Yi took a deep breath and suppressed the shock in his heart. He was a calm and composed person, but he almost lost his composure when he heard this news. It was clear how big the impact of this incident was.

"We don't know about this. Can you tell me more about it? maybe I can find some clues to help you find the members of your royal family as soon as possible." Lin Yi's face became serious as he spoke to sea serpent.

The sea snake in front of him was a peak nascent soul, but Lin Yi could feel that this guy was already beyond the normal peak nascent soul realm. He was a half-step xuansheng-level master, and if he was on Sky Class Island, he could reach the xuansheng stage at any time. It was because of the lightning tribulation in the ancient martial world that he was stuck in this realm.

From the respect that the sea serpent showed when it mentioned the royal family of the sea beasts, it was obvious that it was not a member of the royal family. Thus, it could be inferred that the strength of the royal family of the sea beasts was definitely above it! Even if they were not at the xuansheng stage, the difference in their racial talents could completely crush sea serpent.

For example, would the Azure Dragon at the great circle of the nascent Soul Stage and the spiritual bird at the great circle of the nascent Soul Stage not be on par because of the same level? There was no comparison at all. If they really fought, the Azure Dragon could kill a dozen spiritual birds with a single claw ...

Lin Yi's head was really hurting right now. He didn't know which stupid bird was going to offend the Royal sea beasts of the endless sea. If he didn't handle this well, the agreement between him and the old spirit eater would be void. The forbidden land of the human race was not just for show. If that happened, it would be good enough if the sea beasts didn't go to the land to kill humans instead of hunting sea beasts.

Sea snake seemed to believe Lin Yi's words. He thought about it for a while and said, "I'm not too sure about the details, but I've heard some general information from our royal family. If you can help us find those humans, not only will we let you leave safely this time, but you'll also become a friend of us sea beasts in the future. "

Lin Yi thought to himself, "forget about being friends-I'm still counting on your cores. If we really became friends, it'd be too embarrassing to do it with someone we're so familiar with ..."

Sea serpent paused for a moment, as if he was organizing his thoughts to find an appropriate way to say it. "Yes, we, the members of the royal family of the sea beasts, were held hostage by a few humans. Then, we boarded a glowing metal disc and instantly rushed into the sky. That speed was much faster

than the fastest flying spirit beasts. I don't know what kind of secret treasure it was. In any case, I have never seen it before."

Lin Yi's eyes were wide open in shock-a glowing metal disc? Fast speed? Are you sure you're not telling a science fiction story? Could it be that the one who kidnapped the royal family of the sea beasts was an alien with a UFO?

Sea snake looked at Lin Yi and noticed his change. He immediately asked,""Do you know what kind of heirloom that is?"

"Uh, it's probably something called a UFO ..." Lin Yi's lips twitched. If it was a person in front of him, he would be sure that the person was talking nonsense, but it was a sea snake in front of him. Lin Yi didn't think it was fake.

"Aifu Gull? It sounds like a very powerful artifact!" Sea snake didn't quite understand, but he immediately asked excitedly,""Since you know about this kind of artifact, you should know who has it, right?"

He knew that almost everyone had an alien ... Lin Yi's absurd feeling didn't go away, but if he really thought about it, other than aliens, the only other place in the ancient martial world that had flying saucers was the central area.

"I can't be sure, but I do have some clues. If I'm not wrong ..." Lin Yi nodded slightly, not giving a definite answer.

Speaking of which, central had indeed been overly quiet recently. He remembered that when he first entered the ancient martial world, central was expanding everywhere and doing things in a high-profile manner. Lin Yi was still wondering why they didn't even see a single person from central at an important event like the ancient meeting. Now that he thought about it, it should be central planning to kidnap the Royal sea beasts, right?

Sea serpent's eyes showed an excited look and hurriedly asked, ""It's good that you have a clue. Whether it's a guess or not, tell me first!"

As a top master among the sea beasts, the sea snake was not a member of the royal family. However, in terms of bloodline, in ancient times, the sea snake and the royal family of the sea beasts still had a trace of connection. If they could find a member of the royal family this time, the sea snake might have a chance to enter the royal family. Even if it was only the most peripheral position, it was by no means comparable to now!

#### Chapter 5607 A Mirage

This was also why sea snake didn't care about the danger and came to negotiate with Lin Yi himself. Other than having absolute confidence in his own strength, it was more to find an opportunity! A human who could kill sea beasts on a large scale was certainly not an ordinary person. In order to find those few humans, the sea beasts would not have any advantage over the strong humans.

As it turned out, sea serpent's bet was right. Lin Yi did have information on the humans. Even if it was an unproven guess, it was better than having no clue.

Lin Yi pondered for a moment. "I can help you find those people, but you have to get the people on the island out of the endless sea first. There's no need for such a fierce battle between us. As long as they can leave safely, I'll do my best to save your Royal sea beast clan!"

"Deal!" The sea snake didn't hesitate at all. The humans on the island weren't even worth a fart to it. It was fine if it let them go, but Lin Yi was the most important! If Lin Yi stayed here, there was a chance of finding the royal family members. This was more important than anything else!

Lin Yi was a little stunned when sea snake agreed so quickly, but he understood what sea snake was thinking. Lin Yi didn't hold back and said to sea snake, ""Then I'll have to trouble you to withdraw the sea beasts on the island first. Otherwise, I'm afraid that there won't be many left after my martial skill."

"It doesn't matter. The endless sea is full of sea beasts. Thousands of them are just a month's worth of food for me. You can kill as many as you like." Sea snake said nonchalantly, making Lin Yi sweat.

The presence of a beast at the top of the food chain was different, but Lin Yi was relieved. The sea snake didn't seem to care much about killing so many sea beasts.

The sea snake said that, but it was also afraid that Lin Yi's madness would drag it down again, so it turned around and let out a shrill cry, telling the sea beasts to retreat.

A while later, sea snake was surprised to find that even though there were many sea beasts that returned, not a single nascent soul was present, and only 70 - 80% of them were golden core. Lin Yi's super pill fire bomb was one thing, but there wasn't any big commotion on the island, and yet so many high-level sea beasts were killed. It seemed that the strength of those humans wasn't to be underestimated!

Invincible Taigu and the others saw that the sea beasts were retreating in an orderly manner, and they connected it to the earth-shaking explosion outside the island and the huge wave that was created. They guessed that it was all related to Lin Yi, so they immediately got on their flying spirit beasts and flew out of the island.

The sight of the sea beast corpses left them dumbfounded. They had thought that the battle on the island was already glorious, but compared to the battle outside the island, it was simply a joke.

Seeing Lin Yi standing on the sea beast's corpse, invincible Taigu and the others immediately rushed over. Lin Yi was quite satisfied with this. At least these people were willing to come to help him regardless of their own safety. Whether it was useful or not, it was a very good thought.

"I'll have to trouble you to send these people to the shore on the other side of the ancient mountain range. I'll go with you. Just a few words from you are still too little information. I have to collect more information." Lin Yi said to sea snake and used his Qi to send a message to invincible ancient and the others, "There's something I need to investigate with these sea beasts. Collect the inner cores of the sea beasts I've killed and distribute them, then go back and complete the competition. Don't worry about me, I'll be back soon. "

Invincible Taigu, Bing Wuqing, Jin Weifeng, and the others looked at each other and nodded. Since Lin Yi said so, they would do as he said. They knew their own limitations. Although they were top-tier Masters in the Taigu martial world, they were still a burden to Lin Yi most of the time.

For example, if it weren't for them, Lin Yi could've easily escaped the danger by himself. Just looking at the sea beasts 'corpses floating on the surface of the sea made it clear.

The sea snake agreed to Lin Yi's request happily and found a mid nascent soul realm sea beast to lead the way. It told it to take invincible ancient and the others out of the endless sea while it led Lin Yi to the deep sea. The rest of the sea beasts followed behind, creating a magnificent scene.

As for the sea beasts that Lin Yi killed, sea snake didn't care at all, tacitly allowing invincible Taigu and the others to collect the cores. It was clear that the law of the jungle had already reached a point where it was deeply ingrained in the bones of sea beasts.

Lin Yi frowned as he followed the snake on his flying spirit beast. Behind him was a large group of sea beasts, and there were even more ahead. The entire endless sea was like a boiling pot of water, with sea beasts everywhere.

If Central was the one behind all this, then it was hard to predict how things would develop. With the technology Central had, Lin Yi couldn't imagine what they would do after kidnapping the Royal members.

After flying for two hours, sea snake stopped and raised his head, ""The members of our royal family were kidnapped by those humans in this area. That metal disc called 'oil Al Fu Gull' probably flew out of the sea surface from the bottom of the sea here."

Lin Yi controlled the flying spirit beast to get closer to the sea surface and looked around. Other than the sea beasts, there was nothing else. He could only smile bitterly and ask sea snake, "You guys should have seen the people and ufus that the sea monsters saw, right? Can you let me ask about the situation?"

Sea serpent shook his head. "There's no need to go through so much trouble. We can let you see it with your own eyes. Otherwise, we wouldn't have brought you here!"

After saying that, the sea snake opened its mouth and let out a low roar. Two strange sea beasts nearby raised their heads, and their foreheads lit up with a dazzling light. At the same time, they shot out a beam of light, which gathered in the sky.

After the two pillars of light converged, they actually formed a white fog screen, and then gradually, an image appeared within it.

Lin Yi looked up at the sky, stunned. Was this a movie? And it's a 3D version?

"It's a not-so-useful innate ability of sea beasts," sea serpent explained. "It creates a small Mirage in a place, but the scene that appears is not a reflection of other places, but what has happened in the place within a day."

"This innate ability is very powerful!" Lin Yi said, speechless.

Chapter 5608 Agreement Reached

If it was used in combat, this ability would indeed be a weak one with a combat power Index of only 5. However, one should never ignore that this was an ability that involved time and space. Even the thickest and shallowest fog could not hide its brilliance. Only in a group of sea beasts that would die if they didn't fight would such a bright pearl be cast in the dark.

While they were talking, the fog in the sky had faded, and the scene inside was exactly the same as the real world. People who didn't know what was going on looked up and saw a sea of the endless sea in the sky, exactly the same as the sea below.

Lin Yi and sea snake didn't continue talking, but carefully looked at everything in the sky, afraid to miss a detail.

First, a blue flood Dragon about the size of a sea snake rose from the sea. It was obvious that this should be the royal family of the sea beasts. Although it was not a real Dragon, if this blue flood Dragon could continue to upgrade, it might be able to transform into a Dragon after evolution!

In that instant, Lin Yi suddenly guessed Central's intentions. A real Dragon wasn't something central could capture right now, but the blue serpent was the king of the sea beasts that was closest to the Dragon race. Without a real Dragon, it was the best substitute. Without a doubt, Central's next research direction should be to extract the strong genes of the blue serpent. As for whether they should clone the blue serpent or fuse it to create new weapons. It wasn't something Lin Yi could figure out right now.

The image in the air kept changing, and four humanoid creatures in alloy armor came out of the sea. Lin Yi was sure that it was central! The alloy armors looked very similar to the ones Kang Zhaoming had used on Sky Class Island. The details were different, but they looked like they were from the same family.

Under the siege of the four iron man-like guys, the blue flood Dragon did not have much strength to fight back. Although it was a member of the royal family of the sea beasts, the blue flood Dragon should still be in its youth stage. Its strength was only at the early stage of the nascent soul realm. Several sea beasts in the middle stage and even the late stage of the nascent soul realm rushed to protect the blue flood Dragon, but they were blown to pieces by the laser cannons in the hands of the four alloy-armored men.

The whole process was very short. In just a breath's time, the blue flood Dragon was subdued by the four people. Then, the shining metal disc that sea snake had lifted appeared. The four people brought the blue flood Dragon into the flying saucer, and they instantly rushed into the sky and disappeared from the screen.

Lin Yi let out a breath of air. If he didn't recognize the style of the alloy armors, he really would think that it was aliens invading the ancient martial world. But since he was sure that it was central, Lin Yi had to find a way to ruin their plan.

It didn't matter what central wanted to do. It was what the enemy wanted to do. Lin Yi just had to destroy it. He had made up his mind. He had to Save the Blue Dragon no matter what. There were countless powerful sea beasts in the endless sea as allies. Maybe he could use the power of the sea beasts to hit Central's forces hard.

"How is it? did you find any clues?" The sea serpent's eyes were filled with anxiety. It had not seen these images before, and now that it had seen them, it was even more anxious. The strength of the Metal Men had clearly exceeded its imagination.

Lin Yi nodded seriously,"that's right. It's the same as my previous guess. These people are from an organization called central. I don't know why they kidnapped your royal family member, but our goal is the same!"

Sea snake was slightly stunned and immediately asked,""From what you're saying, it seems like you have some sort of enmity with central?"

"That's right!" Lin Yi didn't hide anything-there was nothing to hide in order to gain the trust of the sea beast."This organization and I have been fighting each other for a long time, but we both have our own concerns and trump cards, so we haven't completely eliminated each other. This time, they clearly have some big plan. If I didn't discover it by accident, I would be in an extremely passive position in the future."

Hearing Lin Yi's words, sea snake relaxed a lot. As the saying goes, the enemy of my enemy is my friend. Although he didn't completely trust Lin Yi, he felt that Lin Yi wasn't lying.

"Then you should know where the headquarters of this central organization is, right? Their fighting strength seems to be very powerful. How many Yuanying stage sea beasts do you think I need to gather and go with you to destroy their nest? Is three hundred enough?"

Lin Yi's forehead was covered in cold sweat. Three hundred original infant stage sea beasts? Was this the rhythm of turning the small ancient martial world upside down? However, considering the huge number of sea beasts in the endless sea, 300 original infant stage sea beasts did not seem to be a lot.

"You also know that if we leave the endless sea, our strength will be greatly reduced. So, we can only ask for the help of the amphibian sea beasts. At the moment, we can only mobilize so many of them. If we need more, we can only wait a few more days. But I'm afraid that it can't wait that long!" The sea serpent said worriedly. As for the 'it', it was referring to the captured blue flood Dragon.

Lin Yi smiled, "since they want to capture your royal family member alive, I don't think they'll kill it so easily. It shouldn't be a problem to delay it for a few days. The key is to make sure to hit the target in one shot this time. There can't be any accidents!"

"You're right! No matter what, we have to be safe and can't let it get hurt!" Sea snake quickly nodded in agreement before asking, "Then how much combat power do you think we need? I'll make the arrangements as soon as possible after reporting it. "

Lin Yi thought about it seriously. Three hundred nascent soul realm sea beasts were enough to sweep through the ancient martial world. The center hadn't been in the ancient martial world for too long, and even if they could mass-produce nascent soul realm Masters, they wouldn't have that many materials. There was no need to increase the number of sea beasts.

However, Lin Yi didn't have any information on the location of the base yet. He needed time to find it, and he couldn't just give up on the ancient gathering like this. After some consideration, he replied, "In

theory, 300 nascent Soul Stage sea beasts should be enough. However, considering that there might be more than one base in the center, I reckon we'll need more of them to split up. How many can you gather in three days?"

"Three days? Isn't it a little too late?" Sea snake didn't answer Lin Yi directly, hesitating. He thought about it and said, "In three days, we should be able to produce over a thousand amphibian-type original infant stage sea beasts."

Chapter 5609 I'll Give You A Chance

Lin Yi smiled wryly in his heart. Over a thousand amphibian original infant stage beasts in three days? If they really wanted to live on land, would there still be any humans in the small world of the ancient times?

It was also because the sea beasts usually did things their own way and did not unite to invade the land that humans could live in peace in the immemorial small world. Now, because of the matter of the royal family of the sea beasts, these scattered sea beasts had gathered together. The central government was really not a human being!

"If it's more than 1000, that's about it. Three days is still necessary. I won't hide it from you, but I'm not very clear about the location of Central's base and sub-base! How about this, in these three days, you can use it to mobilize the troops and I'll use it to Scout. We won't delay either side. " Lin Yi said honestly. If he wanted to ruin Central's plan, he had to separate from the sea beasts first, and he had to be honest with sea snake.

Sea snake's eyes stared at Lin Yi coldly, and Lin Yi looked back at sea snake without blinking. After a while, sea snake nodded, "I believe you, but I'll give you three days at most. You go and find out the location, and I'll prepare enough troops! In addition to the thousands of nascent Soul Stage sea beasts, there are also at least ten thousand Aurous core stage amphibious sea beasts and more than a hundred thousand Foundation establishment stage sea beasts as reserves. Of course, it may not even take three days, do you understand what I mean?"

Lin Yi smiled bitterly. You're making it so obvious, how could I not understand?

Sea snake believed Lin Yi now, but if Lin Yi dared to lie to him, then these amphibian sea beasts would flood the entire ancient martial world, or rather, they would massacre the entire human race in the ancient martial world!

No matter how strong Lin Yi was, he couldn't fight against all the sea beasts in the endless sea. There weren't enough amphibian sea beasts, and it wasn't impossible for them to drown the ancient martial world with the water.

"Since that's the case, let's not waste any more time!" Lin Yi patted the spirit beast he was on and started to fly up slowly. "I'll go back first. Prepare your men and gather at the shore of the ancient mountain range!"

"It's a deal! I'll immediately report this to the royal family. I hope you can bring me good news!" Sea snake looked up at Lin Yi in the sky and nodded slightly. He watched as Lin Yi's flying spirit beast turned around and flew back quickly.

After Lin Yi left sea snake, he immediately released Yu Taicang's essence spirit from the Jade space. With the soul snatching hand, Lin Yi wasn't worried at all that Yu Taicang could escape from his control.

"Elder Yu, we meet again!" Lin Yi's lips curled up, a faint smile on his face. "I let you out today to give you a chance. I hope you can seize it! Tell me the exact location of the center of the small Jianghu in the immemorial era and I'll let your primordial spirit go!"

Yu Taicang's spirit was a little illusionary after coming out, and after hearing Lin Yi's words, Yu Taicang's face revealed grief and indignation. "Lin Yi, don't be a hypocrite. My body is destroyed, even if you let go of my spirit, it won't take long for it to disappear. Do you think I'll believe your nonsense?"

"Hehe, that's really funny!" Lin Yi shrugged nonchalantly, "I didn't destroy your body. If you want to blame someone, you can only blame yourself for finding a bunch of useless teammates. Also, as long as you cooperate, I'll consider preserving your primordial spirit. With a suitable body, it's not impossible to give you a chance to possess it. It still depends on your performance!"

"What?" Yu Taicang's despairing heart was moved after hearing Lin Yi's conditions! As long as she could live, it wasn't impossible for her to cooperate with Lin Yi ...

Yu Taicang was moved by Lin Yi's suggestion, but after thinking about it, he still said hesitantly, "How can I believe your words? Let's not even talk about the fact that I'm in this state because of you. Just talk about the possession that you proposed. Do you think it's so easy to find a suitable body?"

Lin Yi smiled faintly, "you said it yourself, you're like this because of me. Are you still worried that I can't find a suitable body for you?"

This sentence was very convincing, and Yu Taicang thought about it. Lin Yi had such a magical method, locking up other people's spirits was like playing around, making a few bodies without spirits really wasn't a difficult thing.

However, possession wasn't such an easy thing. The cultivation of consciousness was the main focus of the immemorial small Jianghu, so Yu Taicang naturally had quite a deep research on possession. After thinking for a while, he continued, "Even if you can find me a suitable body, have you considered the difficulty of possession?"

"Don't be so long-winded. I'm giving you this opportunity. Whether you can grasp it or not is your own business. It doesn't matter if you accept me or not. At most, I'll just have to work a little harder and devour your soul. Then, I'll look for any memories related to central. " Lin Yi started to bullshit impatiently. He didn't even care if he could find the relevant memories after devouring the spirit, he wouldn't dare to devour another spirit before he got rid of all the tumors in the spirit.

Yu Taicang was stunned. After a short pause, he said with an aggrieved expression, "Even if you say that, I won't agree! Any body that has lost its soul will have a powerful spiritual energy remaining in it. In my current state, I'm on the verge of collapse. If I try to seize this body, it's very likely that the remaining spiritual energy will affect my soul and cause the possession to fail. With that kind of pain, you might as well devour me now!"

Even so, Yu Taicang was actually very nervous inside, afraid that Lin Yi would really swallow him up. Even an ant craved for life, let alone Yu Taicang, who had finally achieved his dream of reaching peak nascent soul.

Yu Taicang was also betting that Lin Yi didn't want to devour his spirit directly by showing such a tough expression. He probably didn't have much confidence in getting his memory back, otherwise why was he still talking? He could just directly devour it! After all, he was a shrewd old man from the ancient martial world. He had to think of ways to obtain more benefits for himself.

Of course, if Lin Yi really wanted to devour Yu Taicang's spirit, Yu Taicang would immediately beg for Lin Yi's forgiveness.

Lin Yi rubbed his chin, thinking that Yu Taicang's words made sense! Although he didn't know much about possession, the giant sky-devouring crocodile's consciousness tumor was formed by a similar principle in a sense. It was finally transferred to Lin Yi's essence spirit, so Lin Yi really understood Yu Taicang's concerns.

Chapter 5610 The Puppet's Rebirth

The soul snatching hand could indeed pull a person's yuan Shen out completely, but it couldn't do anything to the powerful spirit sense left behind. If Yu Taicang's yuan Shen left the body on its own, his body would be much stronger, and it would be much easier to possess a body like this. Unfortunately, he was forcefully pulled out by Lin Yi and was born with a weakness. The chances of failing to possess this body were more than sixty to seventy percent.

Even if Yu Taicang's luck was off the charts and he had a small chance of successfully taking over a body, he'd still be dead once the spirit sense tumors formed. Lin Yi himself had the spirit sense fruit, but he still couldn't refine all those spirit sense tumors, let alone Yu Taicang.

Yu Taicang saw that Lin Yi didn't say anything and fell into deep thought, and his heart settled down a little. At least Lin Yi didn't directly devour his spirit, and there was still room for negotiation.

With a plan in mind, Yu Taicang immediately continued, "You were lying to me! Hmph Hmph! Let me tell you, I'd rather have my soul destroyed than let you have your way!"

After saying this, Yu Taicang, who looked like he was about to die, immediately got ready to change his words if Lin Yi showed a trace of impatience!

No matter how small the chances of success were, there was always hope. It was better than dying right now.

Lin Yi didn't care about Yu Taicang's words, because he was completely clear about Yu Taicang's thoughts. This was a person who could go to the central test with Xue Jianfeng to improve his strength. If he was really as strong-willed as he appeared to be, he obviously wouldn't accept this arrangement.

"Oh right! I've thought of a suitable body!" Lin Yi's eyes lit up as he snapped his fingers, a smile on his face. "I can give you a body that has no difficulty in possession and no residual consciousness, but I have to make it clear first. Once you choose this body, you can only listen to me in the future?"

Yu Taicang couldn't contain his excitement. He had to be tougher in order to get some benefits from Lin Yi. This kid was so unreasonable. If he didn't force him, he wouldn't take out a body that was suitable!

"Let me see the condition of that body first!" Yu Taicang concealed the excitement in his heart very well and said with an indifferent expression.

Lin Yi didn't waste time and took out small one's puppet from the Jade space, showing it to Yu Taicang.

This was what Lin Yi had left in the common world to protect everyone when he went to Sky Class Island, but without Lin Yi's direct control, the puppet was basically out of his control. It was quite scary in the villa, since the puppet was like a corpse when it didn't move.

And so, Lin Yi put the little one puppet into the Jade space as soon as he came back, thinking that he could upgrade it and recycle it or something in the future. He didn't expect it to come in handy.

"This body is a puppet I made before. It doesn't have any spiritual power inside, so you can possess it very smoothly without wasting any spiritual power. The success rate is almost 100%. The only weakness is that the strength of this body is relatively low ..." Lin Yi pointed at the small one puppet and gave a brief introduction. Before he finished, he was interrupted by Yu Taicang, whose eyes were shining.

"That's great! This body is simply tailor-made for me! It's actually close to perfect compatibility with my primordial spirit!" Yu Taicang couldn't be bothered to pretend to be reserved anymore. After scanning the small one puppet with his divine sense, he almost drooled.

The most important thing about possession was the compatibility between the primordial spirit and the body. The difficulties mentioned before were nothing in terms of compatibility. If the compatibility was less than 50%, even if the possession was successful, not only would the strength not be able to recover to 30% of the peak, even the lifespan would be greatly reduced, and the person would die at any time.

It was no wonder Yu Taicang drooled after seeing the small one puppet. A body with near perfect compatibility was something that could only be encountered but not asked for. Lin Yi actually took it out so casually, was this Lin Yi being awesome? Or was he, Yu Taicang, extremely lucky?

Lin Yi looked at the excited Yu Taicang and smiled, "You have to consider it carefully. Because this is my puppet, after you successfully possess it, you will have to listen to my orders because your life and death are in my hands. Don't regret it when the time comes, or it will be too late."

Yu Taicang was too excited and actually looked at Lin Yi in disdain, "You're speaking as if my life and death aren't in your hands!"

Lin Yi blinked, speechless ... Why was Yu Taicang telling the truth? And it was so F \* cking reasonable!

After Yu Taicang finished speaking, he felt that he was a bit stupid. This was a master who could decide his life and death with a single thought! How could he speak in such a tone and manner? Do you think that there won't be enough trouble in the future?

So Yu Taicang quickly put on a flattering smile and moved closer to Lin Yi to remedy the situation. "That, then you're my master from now on. Do you think I'm going to start taking over your body now?"

As long as he could survive, it didn't matter if he was a puppet or a servant. There would always be a chance to turn things around in the future. It was better to compromise for the sake of the greater good for now! Yu Taicang encouraged himself in his heart and the smile on his face became more and more brilliant.

Lin Yi coughed and waved his hand, "start the possession!"

Before he could finish, Yu Taicang jumped out like an athlete who heard the starting gun, directly entering small one's body. Lin Yi was speechless at the way he rushed out and pounced on the food.

It's just a possession, can't you be a little more elegant?

Yu Taicang didn't care about elegance. After losing his body, he realized the importance of a body. If he didn't quickly take it and Lin Yi went back on his words, who could Yu Taicang go to?

But thinking about it again, if Lin Yi went back on his word, even if the possession was successful, Yu Taicang wouldn't be able to reason with him even if he used the soul-hooking hand again ...

The process of possession wasn't anything earth-shattering. It was radiant and quite quiet. In literary terms, it was like the wind entering the night, silently moistening things. Little one's puppet didn't have any spiritual power in its body, so Yu Taicang smoothly gained control.

With a slight shake of its body, small one, or Yu Taicang, opened its eyes. With the primordial spirit in, the puppet's originally empty eyes also became lively. Not only that, the aura on its body began to shoot into the sky like a rocket.
