

Bodyguard 5631

Chapter 5631 Colluded

Chen Dongcheng laughed and played along, "what Lin Yi? what Qingyun school? they're just trash. How can they compare to our Xiaoyao now? master Xue, if you like it, you can do whatever you want!"

"Old Chen's words weren't very pleasant to hear. Wang Lin, you don't have to mind!" Xue Jianfeng smiled at Lin Yi, "Old Chen didn't say that you're trash. He said that you're all trash. Don't mishear him!"

"Two pieces of trash," Lin Yi smiled faintly, "did they just crawl out of a pile of garbage after eating some brain-dead chips?" It's really stinky!"

Xue Jianfeng and Chen Dongcheng were both in the early stage of the mystic Ascension realm, and they didn't hold back their aura at all. They thought that they could suppress Lin Yi, but Lin Yi didn't seem to be affected at all. He even mocked them in return.

They were all people who'd lost to Lin Yi before, after all-their anger died down a lot as they thought about how mysterious Lin Yi was.

In fact, Lin Yi was having a headache right now. It wasn't because of Xue Jianfeng and Chen Dongcheng, who were both in the early stage of the mysterious Ascension realm. Lin Yi didn't care about their strength. The key was that Xue Jianfeng and Chen Dongcheng had become the backers of the mysterious Ascension realm. It meant that the blue serpent had been used for experiments. He didn't know if it was dead or not. If it was dead, the sea beasts in the endless sea would go crazy again.

As for whether the two really used the blue serpent to reach the early stage of Mystic Ascension, Lin Yi didn't doubt it at all. Both of them had the aura of a sea beast on them. It wasn't strong, but Lin Yi's feeling couldn't be wrong.

Qi Danian did not notice the inexplicable fear in Xue Jianfeng and Chen Dongcheng's hearts. He only saw the powerful auras of Xue Jianfeng and Chen Dongcheng, which were not inferior to that of the invincible primordial era. In fact, they were even stronger. People were still jumping out of the flying saucer in the sky. Although there were no cultivators of the xuansheng stage among them, they were all Masters of the nascent Soul Stage. There were about four to five hundred of them. He had no idea how the metal disc, which did not look very big, could hold so many people.

Among them, there were at least a hundred people who were on par with Qi Danai! A hundred peak nascent soul realm cultivators! Such astonishing strength was enough to sweep away all the sects present!

"Hahahaha, our heaven opening sect also has an important decision to announce. However, it's not to join another sect, but to merge with the central, and form a new central heaven opening sect!" Qi Dani laughed as he announced the news. He could not wait to reach the mysterious Ascension stage after seeing so many mysterious Ascension stage powerhouses appear one after another. He had not believed it at first, but the appearance of Xue Jianfeng and Chen Dongcheng made him realize that he had a very high chance of successfully reaching the mysterious Ascension stage!

As long as you join the central, you can become a xuansheng stage cultivator!

Qi Dali could not resist such a temptation, and very few people could!

Lin Yi glanced at the excited Qi Danian, understanding many things in an instant. He didn't just try to buy time, he was trying to buy time for the enlightened dujie of the Qiankun sect at the very beginning, but he was also buying time for himself.

Other than that, Lin Yi also suspected that Qi Dani was involved in the capture of the Royal sea beasts by central. Otherwise, Qi Dani wouldn't be so calm about the strength of Xue Jianfeng and Chen Dongcheng.

"Qi Danai, did you collude with central a long time ago and help them capture the Royal sea beasts in the endless sea?" Lin Yi suddenly asked.

Qi Dani was slightly taken aback, but then he laughed sinisterly and said,"I didn't join the central at the start. I only got in touch with young master Xue recently. I have to thank you for all of this. If it wasn't for the rise of the green cloud School, I wouldn't have to prepare for the rainy days. If I didn't feel threatened by you, I might not have been able to get this opportunity to enter the xuansheng stage."

"Recently? You're referring to the time before we hunted for the inner cores of the sea beasts in the endless sea, right?" Lin Yi looked at Xue Jianfeng and Chen Dongcheng and snorted,"The timing of central capturing the Royal sea beasts is so coincidental. Don't tell me that you're not the one behind it. The two nascent Soul Stage Masters from the universe sect and the five elements sect probably went under your instigation, right?"

Qi da was shocked. He didn't know how Lin Yi saw through all of this, but just as Lin Yi said, he was the one pulling the strings behind the scenes.

But these things didn't seem to be connected at all, and there wouldn't be any clues left behind. How would Lin Yi know?

Lin Yi's mind was slowly tidying up. He wouldn't have connected all of these things at first, but the moment he saw Qi Dani and Xue Jianfeng working together, he slowly pushed it back and realized many things that he didn't think of before.

Seeing that Qi Danie didn't say anything, Lin Yi continued, ""You've secretly informed central about the time when the ten of us are hunting the sea beasts. With us distracting the sea beasts, central won't attract too much attention when capturing the Royal sea beasts! At the same time, they can also push the blame of the Royal sea beast clan onto us and direct the disaster to us!"

Daoist dujie and MA Zaidan, the two allies who had already turned on each other, couldn't help but look at each other. The truth was just as Lin Yi said-they sent out two nascent soul cultivators because of Qi Danie's provocation.

Besides, Qi Danian had clearly said that Lin Yi was untouchable, so it wasn't that simple to deal with the thousand blade sect and snow sword sect, removing Lin Yi's wings while also venting his anger!

Lin Yi smiled coldly and scanned the room."Let me guess, you encouraged the universe sect and the five elements sect to weaken them, right? This was a good plan that could kill three birds with one stone! No matter how things develop, you can not only help Central's operation, but also weaken the strength of the Qiankun sect and the five elements sect while befriending them. At the same time, you can attack all the ten small sects and families! The capture of the royal family of the sea beasts will certainly trigger a riot of the sea beasts. This is your plan. If there are no accidents, except for the people in the center, the others will be buried in the endless sea!"

Everyone was in an uproar!

Lin Yi's words were unbelievable, but they made a lot of sense. If it weren't for Lin Yi, the result would be exactly like what he said. Everyone who entered the endless sea would be buried by the violent sea beasts.

If things really developed this way, it would be even easier for the heaven enlightening sect to occupy the small Jianghu of the immemorial era. As long as they could kill the Qiankun sect's immortal Dunan, there would basically be no obstacles!

Chapter 5632 Mysterious Ascension Stage Again!

Central didn't even need to do anything, because one of the conditions for Qi Dali to join central and help Central capture the blue serpent was that Xue Jianfeng promised to help him become a master of the xuansheng stage!

Unfortunately, Lin Yi had messed up all of Qi's internal plans, and the appearance of Yu Yi and invincible Taigu was even more unexpected, so Qi's internal could only announce that the heaven opening sect had merged with central, forming a weird central heaven opening sect!

"What a load of nonsense!" Qi Danai's face darkened. Lin Yi had told him the whole truth, but he wouldn't admit it easily. After all, he still wanted to rule over all the sects in the ancient martial world, and there were still the sea beasts in the endless sea involved. No one could say for sure if the sea beasts would hear this.

"Invincible ancient, haven't you always been in a hurry to challenge our central heaven opening sect? How did you become mute?" After scolding Lin Yi, Qi Danie changed the topic and challenged the undefeatable Taigu.

Invincible primordial looked at Qi Danni coldly and said, ""I'm waiting for you to say your last words. Are you ready to die?"

"We'll know who's coming to die soon!" Qi Dani's lips curled into a mocking smile. He turned to Xue Jianfeng and said, ""Elder Xue, I'll have to trouble you with this reckless thing!"

"No problem! This young master was just thinking of moving his limbs, this old fellow is a pretty good sandbag!" Xue Jianfeng returned to his arrogant self. As long as his opponent wasn't Lin Yi, he wouldn't lose.

Without waiting for the Grand Elder to announce the start of the battle, Xue Jianfeng charged toward invincible primordial. Without even drawing his sword, he threw a punch.

In terms of combat experience, invincible primordial, who was once the number one nascent soul cultivator, was naturally much stronger than Xue Jianfeng. Normally, when facing a slightly stronger opponent, it was the right thing to do. However, invincible primordial didn't plan to do that this time. Instead, he also took a step forward and threw a punch!

This was the pride of being invincible in the primordial era! He was once the number one Yuanying stage cultivator, and now a master of the xuansheng stage. How could he retreat and Dodge without even making a move in a confrontation with a junior?

With a loud boom, a huge wave of air spread out. Chen Dongcheng had already protected Qi Dani and retreated from the arena. The shockwaves from their battle even caused the protective restrictions around the arena to crack. They were about to break!

The audience below the stage cried out in surprise and retreated. This was a battle between two masters of the xuansheng stage. If they were caught in the crossfire, they would not even have the chance to resist.

If the battle between venerable dujie and Xin Yijie was a battle of techniques, then the clash between Xue Jianfeng and invincible primordial was a simple clash of strength without any tricks.

After a short stalemate, the clothes on invincible primordial's arm seemed to have been caught in a violently spinning vortex, and they were instantly torn into powder under the rapid rotation, only stopping completely after reaching his shoulder.

Invincible primordial groaned and took three steps back, each step leaving a deep footprint on the Hard Rock. On the other hand, Xue Jianfeng's body swayed a little after taking a step back, but he stabilized his body and rushed forward again!

In the first round, it was obvious that invincible primordial had suffered a loss!

Lin Yi's face was serious. The undefeatable archaic was the strongest out of the three mysterious Ascension stage cultivators he'd raised. After all, he was a peak nascent soul cultivator with the deepest Foundation. But even this undefeatable archaic was no match for Xue Jianfeng. The power at the center of it was indeed unfathomable!

"Don't lose! Snow Jianfeng has integrated with the genes of the sea beasts, and his body is extremely strong. Don't fight him head-on!" Lin Yi used his Qi to warn him, but he didn't know if he could help invincible Supreme ancient in this ever-changing battle.

After invincible Taigu stabilized himself, Xue Jianfeng was already charging at him again. Lin Yi's voice came just in time, and invincible Taigu gave up on fighting head-on. He raised his hands, and hundreds

of cold lights shot out from all over his body. It was the thousand blades flying technique of the thousand blades sect!

This time, invincible primordial had chosen a thousand sharp blades that were as thin as cicada wings. With the enhancement of the thousand blades, their speed could reach an astonishing level. Coupled with their own sharpness, they could be said to be invincible weapons!

Xue Jianfeng laughed. He wasn't afraid of the thousand flying blades. The two of them exchanged a punch, and invincible primordial took the lead to use his weapon. This proved that Xue Jianfeng was stronger than invincible primordial!

Dancing Snow Silver Snakes!

The temperature of the entire arena dropped sharply, and in an instant, it fell into the season of water turning into ice. Countless snowflakes appeared in every inch of the space, covering Xue Jianfeng's figure.

Invincible primordial was shocked. These snowflakes were formed by the true Qi of the snow sword. To be able to burst out such an amazing amount of true Qi in an instant, invincible primordial had to admit that the snow sword was stronger than him, both in terms of physical strength and true Qi!

The thousand flying blades found themselves in a very difficult situation in the snow. The blades that were originally going to move with lightning speed were quickly wrapped up by the layers of snow, turning into slow and clumsy snowballs, unable to fly again.

"Break!" "Break!" Invincible primordial roared and gathered all the true Qi in his body. He controlled all the blades to collide with each other, shattering the layer of snow on them and temporarily restoring the blades' ability to move.

However, this situation could not last. As long as there was no new method, the blades would immediately return to their original state!

Xue Jianfeng's arrogant laughter could be heard from the snow, ""Hahaha, old man, is this all you've got? This is really disappointing! You treated those scrap metals like treasures, and this young master thought they were very powerful! Let me show you my sword first!"

In the audience, Yu Yi couldn't help but complain in his heart, ""Xue Jianfeng, you big idiot, do you still need to see your shamelessness? Your forehead is already full of carvings, okay?"

When Yu Yi was still Yu Taicang, it was Xue Jianfeng who pulled him to the center. Later on, Yu Taicang's body was also taken away by Xue Jianfeng. He thought that he had successfully advanced to the xuansheng stage with Lin Yi's help, but he didn't expect Xue Jianfeng to be even stronger. Of course, Yu Yi was unhappy!

Xue Jianfeng didn't know that the resentful Yu Yi below the stage was the former Yu Taicang. Now he only felt extremely happy in his heart. Invincible Archaeon wasn't some unknown person. In addition, he was a newly advanced early stage mysterious Ascension expert. Now, he was completely suppressed by Xue Jianfeng and had almost no power to fight back. It was really too satisfying!

Chapter 5633 Beaten Up By Face

In the snow, a long sword that seemed to be made of ice and snow fell silently from the sky. It was like an ordinary snowflake falling, but this snowflake was dangerous enough to kill!

Invincible primordial couldn't find the snow sword hidden in the dancing snowflakes, and his divine sense couldn't sense any attacks. He could only control the blades that were temporarily separated from the snowflakes to dance around his body, forcing the snowflakes away to create a small space.

The long sword above his head entered the empty space and immediately shed the disguise of the snowflakes, revealing a piercing murderous aura!

Invincible primordial suddenly raised his head, and all the blades instantly gathered together, turning into an ancient sword that stabbed straight into the sky.

The tips of the two swords collided without any suspense. The thin and long blade of the snow sword blade bent slightly and then bounced back up. The snow sword blade in the air revealed its figure in the snow and flew to the ground.

As for the greatsword that was formed from 1000 blades, it was quickly covered in frost from the tip, and cracks appeared on the blade!

Invincible primordial's expression was grave, but he didn't care about the cracks on the sword. With a wave of his finger, the sword in the air scattered into a thousand thin blades.

As the greatsword disintegrated, the frost covering it lost its effect. The blade gently turned in the air, shaking off the crystal-clear ice shards.

Xue Jianfeng chuckled and said, "interesting!" Let this young master warm up!"

After saying that, Xue Jianfeng's figure flickered and once again disappeared into the snow. Invincible primordial snorted and ignored Xue Jianfeng. Instead, he closed his eyes!

Since the eyes could deceive him, he might as well not use his eyes!

The one thousand thin blades that scattered out let out a clear clang and instantly exploded like a school of fish in shock, shooting out in all directions. This time, the falling snowflakes were unable to trap the blades in time, and the blades left clear marks in the space where the snowflakes were flying!

"I found it!" Invincible primordial suddenly opened his eyes. After a low shout, he put his hands together and his true energy surged!

Thousand blades as one, ten thousand streams returning to the origin!

The scattered blades seemed to teleport, completely defying the principle of inertia. They suddenly disappeared from their original trajectory and gathered at the position specified by invincible primordial, turning back into gupu's big sword.

The sword slashed down with the force of a Thunderbolt, splitting the snow sword in half!

"I'm sorry, you've got the wrong place!" The voice of the snow sword suddenly sounded in invincible primordial's ears, and the snow sword that had been split in half scattered into a pile of snowflakes!

Invincible primordial's heart skipped a beat. As soon as snow Jianfeng's voice rang out, he immediately dodged to the left. At this time, invincible primordial's rich combat experience saved his life. Snow Jianfeng's sword stabbed into invincible primordial's back like a venomous snake.

If invincible Taigu hadn't moved, the sword would've pierced through his heart. Even Lin Yi wouldn't be able to take it, let alone a Grade 5 great recovery pill!

And it was this critical movement that caused snow sword Edge's sword to pierce through the right side of invincible primordial's back and come out of his chest. Then, it was pulled back by invincible primordial's own strength, cutting open the right bone and leaving his body.

Fortunately, invincible primordial's arm was raised, or it would have been cut off by the sword!

The heavily injured invincible primordial smacked the ground with his left palm and used the force to change his direction. He shot out like an arrow, causing snow Jianfeng's next attack to miss!

"Aiyo! You're pretty good at escaping!" Xue Jianfeng looked at invincible primordial with a mocking expression, like a cat toying with a mouse. He shook his sword and shook off the blood on it.

"I admit defeat!" Invincible primordial's face was pale, and the wound on his chest was bleeding profusely. If he didn't admit defeat, he would bleed to death without snow sword.

After experiencing ups and downs, invincible primordial was no longer that arrogant and inflexible character. If he knew it was impossible, he would definitely not do it. He was the only one who could take on the responsibility of reviving the thousand blades sect. Ling Tianyou had potential, but he was too weak. Thus, invincible primordial knew that he could not die!

Such a straightforward surrender caused Xue Jianfeng's footsteps to stop. However, he immediately laughed and said, "Ah, my ears are not feeling well. I can't hear anything! I'll quickly kill you and treat you!"

He drew his sword and pointed the tip of the sword at invincible primordial's throat. In the blink of an eye, this early stage mysterious Ascension realm expert would fall under the sword of the snow sword!

"He said he admitted defeat!" Just as Xue Jianfeng was about to hit invincible primordial, Lin Yi's voice suddenly appeared in his ears, just like what he did to invincible primordial!

Xue Jianfeng, who didn't feel anything at all, was scared out of his wits. His fear of Lin Yi was deep in his bones. No matter how strong Xue Jianfeng became, and how much stronger he thought he was, he couldn't erase this subconscious fear.

"Ah, Yingluo!" Xue Jianfeng cried out in shock. He couldn't be bothered with invincible Taigu anymore and turned around, wanting to attack Lin Yi first.

Lin Yi laughed coldly. This was the worst possible way to deal with the situation. Lin Yi could even talk into his ear, how could he get hit by Xue Jianfeng's turning attack?

In terms of combat experience, invincible primordial was far more experienced than snow Jianfeng. Unfortunately, his strength was suppressed, and he could not see through his moves, which was why he was defeated by snow Jianfeng.

There wasn't anything special or fancy about it-Lin Yi just threw out a slap, and Xue Jianfeng turned around just in time, as if he was rushing to use his face to attack Lin Yi's slap ...

Then, Xue Jianfeng flew out in a whirlwind and landed on the other side of the ring.

Lin Yi waved his hand indifferently, "Your face is hurting my hand! As expected of a xuansheng stage expert!"

Xue Jianfeng's head was spinning when he heard this sentence, and he directly spat out a mouthful of blood! You're the one who likes to use your face to hit people's hands!

But at this moment, Xue Jianfeng really didn't dare to say anything. He was already very afraid of Lin Yi, and now he was even more scared. He was already in the xuansheng stage, how could he be sent flying with one slap? This world was too fake!

Chen Dongcheng saw that the situation was not right and immediately ordered the nascent Soul Stage cultivators to spread out. A portion of them protected him and snow Jianfeng while the rest surrounded all the sects present!

Chapter 5634 I Also Have Reinforcements

"Lin Yi, don't mess around! Otherwise, you won't be able to bear the consequences!" Chen Dongcheng, who was protected by twenty peak nascent soul realm cultivators, let out a breath of relief and shouted at Lin Yi.

Lin Yi didn't even bother with him. He squatted down beside invincible Taigu and grabbed his wrist, taking out a class 5 great recovery pill and sending it into his mouth. "Don't worry, just cooperate and heal!"

A Grade 5 great recovery pill wouldn't be able to stop the bleeding of an undefeatable Taigu's wound quickly, but the pure energy from Lin Yi's hands could. It didn't matter if he didn't use the pill-Lin Yi just wanted to use it as a cover.

Chen Dongcheng felt embarrassed when Lin Yi ignored him. He continued, "Lin Yi, don't think you're all that just because you're strong. Let me tell you, if you piss me off, I'll give the order, and these original leveled practitioners will be able to flatten the ancient martial world!"

Invincible Taigu's injuries were quickly brought under control, and he only needed a fifth-grade recover pill to heal quickly. Lin Yi retracted his hand and stood up, looking at Chen Dongcheng with a mocking face, "So? Give the order!"

Chen Dongcheng choked for a moment. He did not really dare to give this order. After all, this was a last resort. It was just like the nuclear weapons in the secular world. It was fine if they said they did not like it or embarrassed them, but no one would actually use it. If they really used it, it would cause a big problem!

"Lin Yi, don't be too cocky. Do you think we can't handle you? I'm not afraid to tell you that we have a secret weapon!" Chen Dongcheng stuttered. Suddenly, his eyes lit up as if he had thought of something.

Then, he pressed something on his wrist, and a set of alloy armor suddenly appeared on his body. It was like the armor in a science fiction movie, very cool.

Lin Yi made a sound of surprise, not because he was surprised by the armor. He'd already seen this thing in the Mirage in the endless sea, and even Kang Zhaoming had shown it to him on the Sky Class Island, so it wasn't anything special. The thing was, how did Chen Dongcheng make the armor? Lin Yi was very interested in this.

Xue Jianfeng's eyes lit up as he was rescued by the few nascent soul realm cultivators. He laughed and said, ""That's right, we have a secret weapon, it doesn't matter how strong you are! Watch how this young master deals with you!"

After saying that, Xue Jianfeng also pressed his wrist a few times, and the same alloy armor appeared out of thin air, completely wrapping Xue Jianfeng up.

"Hahahaha! Lin Yi, aren't you supposed to be super strong? Come on! Let this young master see how powerful you are!" Xue Jianfeng laughed arrogantly again. He believed that Lin Yi wouldn't be able to break through the defense and attack of this kind of alloy armor, "If you don't want to come, then this young master will show you what true power is!"

Lin Yi raised an eyebrow and sent a bolt of lightning down. Xue Jianfeng immediately stopped making noise. Green smoke came out of his head and he fell to the ground with a loud bang.

"Mm, so powerful! I've really learned something new!" Lin Yi said expressionlessly before turning to Chen Dongcheng.

Chen Dongcheng's body trembled as he quickly put away his alloy armor, his eyes full of respect for Lin Yi! He couldn't understand how Lin Yi could destroy such a powerful piece of equipment so easily! What the hell was that lightning?

If Lin Yi wasn't here, this armor would be an invincible existence in the ancient martial world. Even a Foundation Stage cultivator would be able to go up against an invincible ancient cultivator with it, not to mention xuansheng stage Masters like Xue Jianfeng and Chen Dongcheng.

However, after Han Jing Jing's guidance on Sky Class Island, Lin Yi found out the armor's weakness. It was made from alloys and was made from electronics-these two characteristics meant that a single lightning bolt would be able to take care of it easily.

Chen Dongcheng was glad that he reacted quickly, but he didn't forget to call out to Lin Yi, "Lin Yi, stop touching me! If you dare to move, I'll have them kill all the sects in the small Jianghu of the immemorial era. Don't think that I don't dare to do it, I'm serious this time!"

Lin Yi couldn't help but frown as he looked at the hundreds of powerful original leveled cultivators. He thought that even if central had the technology, they wouldn't have the materials and people to do it, but he'd completely underestimated them!

To Lin Yi, these Yuanying Masters weren't that big of a deal-they didn't pose any threat to him at all. But it wasn't the same for the people from the other sects.

If Lin Yi wanted to take out all his enemies at once, then he'd have to use skills with a wide area of effect, like super alchemy bombs or lightning explosion. The problem was that these moves were hard to control accurately, and it'd be hard to tell which side would lose more people!

Chen Dongcheng was secretly happy when he saw Lin Yi frowning. He didn't dare to push Lin Yi too much and quickly took a step back."Lin Yi, how about this-let's just mind our own business today. Since the invincible ancient lost, how about we end the challenge? Let's settle our grudges later. "

Lin Yi didn't know what to do. He didn't want to let these people go, but he also had to be careful. The ground started shaking, and it was getting more and more obvious. Soon, countless birds rose from the distance outside Pi town, obviously alarmed by something.

A sea beast? Lin Yi used his spirit sense to scan the area, and a surprised expression appeared on his face. The three days weren't up yet, and this wasn't the shore of the ancient mountain range. He didn't think that the sea beasts would appear here at this critical moment!

In an instant, a sea of sea turtles, sea crabs, seals, sea lions, sea conches ... The sea conches were being played around with in the mouths of the sea snakes ... They rushed into the middle of Pi town, and a sea crab carrying a sea snake in a snake formation came to the platform and stopped not far from Lin Yi.

Sea snake pushed the conch aside and nodded to Lin Yi,"Human, how's your investigation? Our King can't wait any longer, so he asked me to bring my men here in advance. If you say you haven't found anything, then don't blame me for razing this place to the ground first!"

Lin Yi didn't mind the threat in sea serpent's words at all. This was a timely rain! The key to breaking the stalemate!

"I've already found it! Just look at those people!" Lin Yi pointed at Chen Dongcheng and drew a big circle, pointing at all the nascent soul cultivators in the center."Do you feel it? They all have the aura of your sea beast clan on them, right?"

Chapter 5635 You Can Ask Questions Now

Chen Dongcheng was dumbfounded. What was going on? The sea beasts have come up to the land? Was he going to play with the vicissitudes of life?

Sea snake didn't notice it before, but after Lin Yi's reminder, he turned to sense Chen Dongcheng's aura. It was just as Lin Yi said-this human had the blue serpent's aura. It was faint, but it was the aura of a Royal sea beast. There was no mistake!

Sea snake suppressed his anger and turned to Lin Yi to thank him, "Thank you for your help. You really didn't lie to me and really helped us. From today onwards, you're a friend of our sea beast race! My friend, can you tell me where our Royal kid is?"

Sea snake remembered that the most important thing was to find the blue serpent, so he didn't give the order to attack immediately. Lin Yi smiled, "It's not here. Let's get rid of these people who are using your clansmen's flesh to increase their strength first, then I'll take you to find it!"

"Alright!" Sea snake agreed without hesitation. He was going to kill Chen Dongcheng and the others anyway, and Lin Yi's request was a favor at no cost-it would be weird if he didn't agree.

After the sea snake issued a high-pitched shriek, the sea beast Army instantly moved. Basically, two or three of them found a Yuanying stage cultivator in the center and released their respective attack abilities to their heart's content.

The various sects in the small Jianghu of the immemorial era had long been confused by these continuous changes. By right, the battle between the sea beasts and humans should be helping the humans. However, those people were originally going to kill them, but the sea beasts came to save

them. It was really chaotic. In any case, no one could interfere in this kind of battle. They might as well hide far away to avoid being involved in the innocents.

The battle started and ended quickly. The sea beasts were stronger than humans of the same level. In addition, they had an absolute advantage in numbers. They swept through the nascent Soul Stage team in the center with an overwhelming momentum.

Chen Dongcheng was scared out of his wits. Who was Lin Yi? If it could even control sea beasts, how could they play?

Seeing that the situation was not good, Chen Dongcheng quickly picked up the snow sword and jumped into the air amidst the chaos. He was taken into the flying saucer and then ran away!

Sea serpent sneered. It had a deep impression of this 'oil Al Fu ou'. Of course, it wouldn't just watch it escape. Taking advantage of the fact that the UFO was lowering its altitude to meet up with Chen Dongcheng, dozens of sea monsters that had been prepared shot an acidic liquid into the air at the same time. The liquid hit the UFO's cabin and corroded a big hole at a speed visible to the naked eye. The UFO in the center was shot down!

The flying saucer in the center left a long trail of black smoke behind it. There were even sparks around the hole as it rapidly fell in the direction of the endless sea. He wondered if Xue Jianfeng and Chen Dongcheng would die in this way.

"Go and inform the kids in the sea to be on standby," sea serpent turned back and ordered. "If they see the metal disc aifu Gull falling down, they must not let those guys go!"

Lin Yi wanted to say that the two were xuansheng Masters, and that a couple of Yuanying and golden core stage sea beasts wouldn't be able to stop them unless they were severely injured when the flying saucer was destroyed.

But the sea beast didn't even look back after receiving the order, and Lin Yi didn't say anything in the end. If they wanted to deal with Chen Dongcheng, only Lin Yi himself would have a chance. Even Yu Yi didn't have much confidence, but Lin Yi didn't have time to deal with those two guys right now. If they could escape, they would probably meet again when they returned to queluo mountain, so there was no need to rush.

Qi Dani's face was ashen-he'd had a good plan in his grasp, and yet this shit stirrer Lin Yi had messed it up! Four to five hundred nascent soul practitioners, what kind of a F * cking existence was that!?

However, Lin Yi's sea beasts had crushed it. No matter how good Qi Dani was at calculating, he didn't expect this to happen.

Lin Yi glanced at Qi Danie, then at invincible Taigu. Lin Yi's Qi had almost fully healed him, and he was almost fully recovered.

"The thousand blade sect lost the first round. However, the four challenges are best of three, so the second round can begin! The thousand blade sect is challenging that central opening heaven sect, and the one sent out by the thousand blade sect is invincible ancient. Who is the central opening heaven sect?" Lin Yi looked at Qi Dani and asked with a smile.

Qi Dani's vision turned black. How the F * ck could he fight this? The two mysterious Ascension stage cultivators in the center were defeated by you, and now you're asking me who's going to fight this invincible primordial cultivator? Who would be so stupid to go up and die?

Lin Yi turned to invincible, "Don't be defeated. You haven't recovered from your injuries yet, so don't hold back when you fight. The best way is to end the battle quickly, understand?"

"I understand, I won't hold back!" Invincible primordial nodded solemnly and gave Qi Dani a murderous look.

Qi da felt extremely aggrieved in his heart. Was it really good for you guys to say that you want to kill him the moment you start? Can't you be more reserved?

Invincible primordial twisted his neck and shoulders, and with a wave of his hand, he retrieved the thin blades that were scattered on the ground. He looked at Qi Danai with a playful look and said, ""Are you going to fight in the second round? If you are, then hurry up. Do you still need to ask a question?"

"Can I ask a question?" Qi Dani asked with a long face. The problem was that there was no point in asking questions now. No matter how much time he delayed, no one would come to save him!

"Sure!" Invincible ancient nodded seriously and said, ""Alright, I've answered all of your questions. Let's start the battle!"

Qi Dani was taken aback, but he immediately reacted. 'Can I f * cking ask a question?' That could be considered a problem ... When he saw invincible primordial's one thousand blades forming an orderly formation in the air, Qi Danai's eyes rolled back, and he simply fainted!

Lin Yi cleared his throat and asked the dumbfounded elder, "Shouldn't you say something in this situation?"

Lin Yi's question had confused the elder a long time ago, and he answered subconsciously. He shook his head for a while before coming back to his senses.

"Ah, about that, the second round is the thousand blades sect versus the heaven opening sect ... Mm, the central heaven opening sect. As the central heaven opening sect's representative has fainted on the stage, the thousand blades sect is the winner!" The elder didn't hesitate at all. Lin Yi and the invincible ancient weren't people the Qiankun sect could mess with right now. It was better to suck up to them.

Chapter 5636 Heading To The Central Base

Seeing that Qi Dani did not seem to be waking up, the great elder of the Ying town continued, ""The third round of the thousand blade sect's four major challenges begins. Both parties, please come on stage!"

The people of the heaven opening sect looked at each other, not knowing what to do. Qi Dani was the backbone of the heaven opening sect, but he had fainted. No matter who went up, they would die!

The problem now was not who should go up to fight invincible primordial, but whether they should go up and get Qi Danie off the stage first. Otherwise, it would not be good to keep fainting on the stage.

However, it was clear that the great elder of Ying town was not prepared to give the heaven opening sect this opportunity. After he had finished speaking, he only paused for a moment before continuing, ""The candidates for both sides have come on stage. The third round of the four great challenges will begin!"

The people of the heaven enlightening sect were instantly dumbfounded. What kind of situation was this? Why is he already on stage? He hadn't f * cking stepped down yet, okay!

However, before the people of the heaven opening sect could protest, the great elder of li town looked at Qi Danai again, then announced expressionlessly, ""As the heaven opening sect's central candidate fainted in the arena, the thousand blades sect wins! The thousand blade sect has won two out of three matches in the four great challenge against the heaven opening sect, and has become one of the new Great four. Congratulations, everyone!"

This time, even invincible primordial was dumbfounded. He had just regained control of his weapon and provoked Qi Dalei with a few words, and he had won? And two consecutive victories? Was the Qiankun sect looking for the thousand blades sect to be their sect?

Lin Yi rubbed his forehead. This Pi town's elder was a talent, too-it'd be a waste if he didn't do a stand-up comedy! It was obvious that there was no one else who could be so black. It would be more reasonable to announce that the thousand blades sect was one of the four great sects!

Fortunately, the fact that Qi Dani had colluded with central had offended all the sects, and they had unanimously praised the actions of the great elder Li Zhen. In any case, if the invincible primordial really fought, he would definitely be able to kill Qi Dani in seconds.

"My friend, can you take us to that young man from the royal family now?" Sea snake wasn't interested in human stuff, so he asked Lin Yi where the blue serpent was.

Lin Yi couldn't be bothered with the four Challenger League anymore-the dust had settled, and it was time to take care of central.

Lin Yi got straight to the point since sea serpent asked, "Your royal family members are now in the central laboratory in Que Luo mountain. They are the gene supply for Central's subordinates to improve their strength. It will be more troublesome for you to go there. Why don't you wait here, and I will rescue your royal family members and hand them to you?"

"Where is Que Luo mountain? Is it very far?" Sea serpent asked doubtfully. In fact, compared to the endless sea, the land of the immemorial Jianghu only occupied a small part. In terms of distance, it was not far from sea serpent and the others.

Lin Yi smiled. "It's not far, but it'll take me a day to go back and forth if I use an aerial spirit beast. You can't use an aerial spirit beast, and if you go by land, Blue Dragon won't be able to wait for you to save him."

Sea snake thought that it made sense, but he was worried about Lin Yi being alone, "Are you going alone? Can you handle it?"

If it was the Lin Yi in the endless sea, he wouldn't be able to do it. That was why he asked sea snake to gather the sea beast Army, but now he didn't need to. After learning how to use the divine sense to activate the martial skills, Lin Yi's strength was enough to do whatever he wanted in the ancient martial world.

"Don't worry. You stay here and help me protect my friends in case those guys attack them again. I'll be responsible for bringing back your royal family members. That's it, right?" Lin Yi's confidence made sea snake believe him.

On top of that, they had just killed four to five hundred nascent soul masters. Central's strength should have taken a huge blow as well, and the sea beast Army didn't need to follow Lin Yi anymore.

After convincing sea snake, Lin Yi called invincible ancient, Xin Yijie, and Shangguan Qingyun over and told them to deal with the aftermath of the ancient meeting. Then, he summoned his flying spirit beast and took Yu Yi to the sky, flying towards que Luo mountain.

Half a day later, queluo mountain was in sight. Yu Yi flew his spirit beast to Lin Yi's side, ""Master, we're almost at the central base. They have a very magical device that can monitor the situation outside from the base, especially in the air. Should we land first and then sneak over?"

Lin Yi blinked, understanding that Yu Yi was talking about the common world's surveillance cameras. These were overused in the common world, but they were mysterious and powerful in the ancient martial world.

Since the center could even build spaceships and alloy armors, it was normal to install some surveillance equipment. It was nothing strange.

"No need. We'll directly attack!" Lin Yi smiled faintly, his expression full of confidence.

Xue Jianfeng and Chen Dongcheng, two xuansheng stage cultivators, were nothing to Lin Yi. Not to mention that these two might not even make it back alive. With the four to five hundred original infant stage cultivators that were killed by the sea beasts, Lin Yi didn't think that Central's base would have much power to resist.

Yu Yi thought of this as well, thinking that this was a good chance to perform well. If he could get Lin Yi to help him level up a few more times, he might be able to get rid of Lin Yi's control very soon.

"Master, let's see Yu Yi's performance! Let Yu Yi open the door to victory for master!" Yu Yi patted his chest proudly and ordered the flying spirit beast to speed up, increasing the distance between him and Lin Yi.

Lin Yi didn't bother with him. Yu Yixuan was only in the early stage anyway. It wouldn't be easy for central to threaten him.

A moment later, Yu Yi, who was flying in the front, controlled the flying spirit beast and began to dive down. At the same time, he also released the martial skills he had prepared.

From a distance, the crystal-clear ice attribute martial arts technique still had a gorgeous beauty. However, Yu Yi's movements had obviously been discovered by the base in the center. So, when Yu Yi attacked, the defense system in the center had been activated. After a few laser beams shattered Yu Yi's attacks, they continued to pursue Yu Yi.

Fortunately, Yu Yi's flying spirit beast was quite agile. After easily dodging the attack, he continued to dive.

Yu Yi, on the other hand, was covered in cold sweat as he cursed Lin Yi in his heart. Why didn't Lin Yi listen to his suggestion and sneak in? You almost F * cking killed me! Luckily I'm super strong-if it was Lin Yi, he wouldn't be able to dodge this! Eh, why didn't I ask Lin Yi to try? Wouldn't it be best if they could kill him?

Chapter 5637 Meeting Brother Dafeng Again

At the thought of this, Yu Yi suddenly felt that he was an idiot again. Why did he rush to the front? They should've let Lin Yi be the shield! As for what he had thought before, well, it didn't matter ...

Yu Yi was about to reach the ground and was about to turn back to Lin Yi to let him have a taste of Central's laser weapons when five people in alloy armor suddenly flew out of the base.

The laser weapons needed to be charged and could not be fired continuously, so in this gap, soldiers were needed to fill the gap. These five alloy-armored men were the guards arranged by the center.

Seeing this, Yu Yi had even more excuses to escape. She quickly pulled her flying spirit beast and flew towards Lin Yi.

Although he hadn't tried it out yet, Yu Yi had stayed at central for a while and knew that he was no match for this alloy armor. Even if he could, he should have let Lin Yi take the bullet.

"Master! The attacks down there are too strong, let's just run!" Yu Yi pretended to be panicked and attracted the five alloy-armored men over. With the propulsion of the flying device, the speed of the five alloy-armored men was not slower than the flying spirit beast. While they were chasing, the five of them opened the laser guns on their arms and aimed at Yu Yi and his flying spirit beast.

Lin Yi didn't care about Yu Yi's thoughts. These five alloy armored men were too strong for Yu Yi. It was normal for him to run away when he couldn't win. He wasn't stupid.

Before the five of them could fire their laser guns, Lin Yi activated his martial arts and summoned five bolts of lightning, hitting the five alloy armors at the same time. The five alloy armors lost their momentum and fell from the sky, disappearing into the forest below after five loud clattering sounds.

Yu Yi, who was dumbfounded, shouted in his heart: F * ck! How could he forget that Lin Yi had the easiest time dealing with these stupid iron skins? he'd miscalculated-he'd better perform well first and let Lin Yi increase his strength!

Yu Yi changed his mind again and rushed toward the entrance of the base. As he flew, he didn't forget to shout, ""Master, you're so powerful. These small fries are really not enough. Master, let's see Yu Yi's performance next. Let Yu Yi open the door to victory for master ..."

Before he could finish, the fully charged laser weapons fired the second round of attacks. Yu Yi's face was covered in tears. Were you guys hired by Lin Yi? Why can't you just let me follow the script?

After barely avoiding the second round of attacks, Lin Yi flew to Yu Yi's side and said faintly, ""Good job!"

Lightning thousand explosion!

Countless lightning bolts fell, and other than Yu Yi who was beside Lin Yi, the entire place was covered in lightning. The exposed laser weapons were completely turned into a pile of scrap metal under the concentrated lightning strikes. The entrance to the base was slowly opening because of the failure of the electronic devices.

"The door to victory has indeed opened! Let's go!" Lin Yi said calmly, a faint smile on his lips. He jumped off his flying spirit beast and entered the base.

Yu Yi sneered and thought,"it's all my credit. Otherwise, how could you find their location?"

Seeing that Lin Yi's figure had disappeared into the entrance, Yu Yi felt that it was impossible to kill Lin Yi this time, so it was better to perform well for the future. He hurriedly jumped off the flying spirit beast and followed Lin Yi in.

After entering the central base, Lin Yi's spirit sense was fully extended, covering the entire base in an instant. It was more effective than any surveillance camera.

To be honest, Lin Yi was quite surprised by Central's methods. Everything else aside, just the fact that this sci-fi base could be built and put into use in such a short time was already very impressive. Not to mention, they'd made continuous breakthroughs in their research, even reaching the xuansheng stage. They'd definitely be a big problem for Lin Yi in the future.

After scanning the entire base with his spirit sense, Lin Yi's expression changed. He found that in one of the control rooms, Da Feng had killed a few people and was turning off some switches.

"It turns out that Dafeng is also here. No wonder there seemed to be no defensive measures after entering. It should have been closed by Dafeng!" Lin Yi smiled as he mumbled to himself. His body flashed and he quickly entered Dafeng's room.

"Boss Lin Yi! Long time no see!" Da Feng turned around and said with an excited expression.

"Dafeng, you've worked hard these days!" Lin Yi walked up with a warm smile and patted Dafeng's shoulder. He nodded, "Not bad, you're already at the peak of the Foundation Stage. Looks like you're doing pretty well here!"

Dafeng laughed, "it's alright. The only medicine that can increase one's strength without any side effects is the one that the center is researching. However, I'm just a pretty boy with no fighting strength. The people around you are better."

Lin Yi thought to himself that Chentian, Lingshan, and the others weren't even as strong as him. He didn't just level them up, but let them train on their own so that they'd have a solid foundation.

"Dafeng, did you help me because you saw me here?" Lin Yi asked casually. His spirit sense didn't find any more people in the base. As expected, Xue Jianfeng and Chen Dongcheng took away most of the combat power.

Da Feng smiled and nodded. "That's right. It's also because there's not many people in the base that I have this opportunity. Otherwise, I wouldn't have dared to move so casually!"

"You're not the one in charge of this base, are you?" Lin Yi asked curiously. The blue serpent's location was confirmed, and its life wasn't in danger for the time being. Lin Yi wasn't in a hurry to go, so he continued to chat with Dafeng.

"How could I? to be honest, I'm just the head of the security team." Da Feng had nothing to hide. He pointed at the complicated control panels and said, "I can't control these devices otherwise. The person in charge here is the bespectacled doctor, one of the higher-ups in the center. He received the signal that Xue Jianfeng's flying saucer had crashed, so he rushed to the rescue. That's how I got the chance to attack. "

Why did snow sword's flying saucer crash? Of course, it was because of Lin Yi! Dafeng, who was in charge of the base's security, was well aware of this, and he admired Lin Yi even more.

Chapter 5638 Have You Seen Her Before?

In the beginning, Lin Yi used some methods to control Da Feng. To be honest, Da Feng wasn't willing to be controlled by Lin Yi at that time. Later, it was because of benefits that Da Feng continued to follow Lin Yi. Now, Da Feng was completely convinced by Lin Yi and was willing to serve Lin Yi. Only Da Feng himself knew the journey of his heart and mind.

Lin Yi looked at the corpses on the ground and casually used some refinement fire to destroy the evidence. He then turned to Dafeng, "I'll take it that I've killed these people. If you can, leave the base for a while and find an excuse later to avoid Central's suspicion."

"Boss Lin Yi, don't worry, I know what to do!" Dafeng replied with a smile. He was touched. From these small details, he could see that Lin Yi really cared about him. It was the right choice to follow a boss like this!

Yu Yi stuck his head out of the door and looked around, but he immediately shrank back. Da Feng asked in a low voice, ""Boss Lin Yi, is this guy you've brought reliable?"

If it was someone else, Da Feng wouldn't have asked. There was nothing to be suspicious about if they were Lin Yi's followers, but Yu Yi's sneaky behavior made Da Feng feel that he wasn't reliable.

Lin Yi was scratching his head at this question. Yu Yi's life was under Lin Yi's control, so he should be an absolutely reliable person. However, Lin Yi felt that Yu Yi's brain circuit was different from others. He didn't know when his brain went wrong. It was possible.

"Hey, kid, what are you saying? Are you trying to sow discord between me and my master? You idiot, Da Feng, don't think that just because I changed my appearance, I won't recognize you!" Yu Yi, who was at the door, stuck his head out again and said with a fierce look.

"What the hell?" Dafeng was baffled. Who knows you? Have I seen you before?

"Don't worry about him, Dafeng," Lin Yi rubbed his forehead. "This guy's pretty reliable. "

Yu Yi suddenly looked proud and glanced at Da Feng provocatively. In his heart, he thought, 'of course I'm reliable. When I get out of your control, I'll definitely kill you!'

"By the way, what's the situation with the blue water dragon?" In Lin Yi's spirit sense, the blue serpent was covered in all kinds of wires and test tubes, so dense that he couldn't count them all at once. It was enough to make someone with trypophobia go crazy, so to be safe, he had to ask Dafeng.

Dafeng frowned, "boss Lin Yi, I'm not too sure about this, but I heard someone say that the blue serpent's strength was forcefully raised to the xuansheng stage. Because it was done with a test drug, its condition is very unstable. It's relying on equipment and nutrient drugs to save its life. If we remove the wires and test tubes from its body, it'll probably die immediately."

"You can't pull it out?" Lin Yi looked like he had a headache-this was quite troublesome! If he brought a dead blue flood dragon back, the sea beasts might immediately go berserk.

Yu Yi simply walked in and said indifferently, ""Master, since he said that we can't pull it out, let's just take it all back. As long as the blue flood Dragon doesn't die when we return it to the sea beast, it won't be our business."

He had to admit that Yu Yi's shameless idea was very meaningful. After thinking about it, Lin Yi nodded, ""That's the only way!"

With Lin Yi's pure Qi, he could actually try to Save the Blue serpent, but he wasn't sure if it would work on a sea beast, especially one that had been modified by central. He didn't dare to do anything before he was sure he could Save the Blue serpent.

If he killed the blue flood Dragon, the small Jianghu of the immemorial era would be finished ...

"There's no time to lose. Yu Yi, come with me immediately. Dafeng, quickly follow your plan to get rid of the suspicion. I think the doctor with glasses will be back soon." Lin Yi didn't want to face the professor's group at this time. First, it was because of the blue serpent, and second, they had a flying saucer. If the professor sensed Lin Yi in the base, he'd fire a few laser cannons from the sky or blow up the base from a distance. It'd be a big problem.

Da Feng originally wanted to follow and help, but he was driven away by Yu Yi with a look of disdain. In Yu Yi's words, "you're a weakling at the perfected Foundation establishment realm. You're already a great help if you don't get in the way."

Lin Yi and Yu Yi were extremely fast, and they arrived at the lab in a few breaths. They saw a huge cylindrical glass bottle filled with a light green liquid. A Blue Dragon floated in it, with all kinds of wires and test tubes inserted into its body.

Lin Yi observed that if he wanted to move the glass cylinder away, he had to make sure he didn't leave the equipment on the side.

This project seemed to be a little too big. Moreover, he didn't know if the aerial spirit beasts could bear the weight.

Yu Yi moved closer to the glass bottle and looked at the Blue Dragon with his eyes wide open. Then he knocked on the glass with his finger and said, ""Hey, you're not dead yet, are you? We're here to save you! If you're not dead, then let me know. Otherwise, I'll just bury you!"

The blue flood Dragon in the glass jar suddenly opened its eyes and looked at Yu Yi angrily. It was obvious that it was not happy with Yu Yi's words.

Lin Yi thought to himself, as expected of a Royal, this temper is definitely not small!

After pushing Yu Yi away, Lin Yi smiled faintly, ""I've been entrusted by sea serpent to save you, but it's not easy to do so now. What do you think of your own condition?"

The blue flood Dragon twisted its body a few times, then opened its mouth and said, ""I don't know either. There seems to be a very powerful force in my body, but I also feel very weak. Human, if you can save me, I, LAN Guzha, will be your brother!"

Yu Yi pouted and whispered, "is it that rare?" Having a sea beast brother was not something to be proud of! However, it does seem to be quite powerful when it's in the water. "

Lin Yi turned around and glared at Yu Yi. Yu Yi shut his mouth, cursing Lin Yi in his heart.

"LAN Guzha, I'm not sure if you can leave this glass jar now, so I can only bring it back with the things here. Don't move around. We'll figure out how to save you when we get back." Lin Yi tried his best to speak in a soothing tone, and as expected, it was very good at calming LAN Guzha's emotions.

LAN Guzha gradually stopped twisting his body. He nodded and said, "Thank you! As long as you can save me, I, LAN Guzha, will definitely cooperate with you. "

Chapter 5639 Endless Bleeding

As for Yu Yi, LAN Guzha completely ignored him. As a sea beast, he was actually very observant and knew who was the one who had the final say.

Lin Yi nodded and flipped his hands, revealing the two super alchemy bombs. This time, Lin Yi added his own spirit sense in, and the ratio was higher, so it was easier to control the direction of the explosion.

Before Yu Yi and LAN Guzha could react, Lin Yi had already thrown out the Super alchemy bomb. The two bombs were a little apart, slanted upwards, and exploded outward. With a loud boom, a huge hole pierced through the entire base's upper building. The broken part didn't fall at all-it was completely torn apart in the explosion.

Yu Yi was a little dumbfounded. Lin Yi's strength had refreshed his impression time and time again. Between killing Lin Yi immediately or performing well and killing Lin Yi after leveling up, Yu Yi once again firmly chose the latter.

Of course, this determination would only last until the next opportunity to kill Lin Yi appeared.

Lin Yi turned around and punched out a piece of the ground with the glass container as the center, using his Qi to lift it up. He felt that the weight was okay after testing it, so he turned to Yu Yidao and helped put the equipment on it.

Yu Yi quickly moved all the connected devices to the ground and scattered them so that Lin Yi could maintain his balance. However, he was still thinking about whether Lin Yi was here to save the sea beast or to tear down the house.

Lin Yi waited for Yu Yi to pack up and turned into his spirit form, but he held the ground with both hands and flew out of the hole. Yu Yi couldn't fly, so he could only jump on it and summon the two flying spirit beasts.

The two landed on their respective flying spirit beasts and quickly flew towards Lin town. Because Lin Yi was still in his spirit form, he carried the entire weight of the ground on his body, so his flying spirit beast didn't have much weight on it and didn't slow down at all.

It wasn't that Lin Yi couldn't fly, but it would be hard to carry such a large piece of land with his spirit. This was just right.

After half a day, the two of them returned to Ying town. The various clans and sects had already returned to their respective stations in an Inn. The only thing gathered together was the sea beast group led by sea snake.

"Prince LAN Guzha, are you alright?" Sea serpent saw LAN Guzha in the glass jar and immediately asked anxiously.

LAN Guzha opened his eyes and nodded. "Oh, it's snake shichiro. I heard that you asked this human to save me?" Thank you so much. "

Snake shichiro hurriedly laughed. "It's my duty. Besides, we've been friends since we were young. I can't just watch you suffer!"

"I won't say much more. Quickly think of a way to help me make this damn jar." LAN Guzha wriggled his body. It was obvious that he was already sick of this glass jar.

"Brother Lin, can't we get rid of these things?" she shichiro turned to Lin Yi.

"You don't know LAN Guzha's situation, that's why you're asking," Lin Yi smiled bitterly.

"What's the situation?" Shizuro shichirou was startled and asked in confusion.

"Can't you feel LAN Guzha's aura?" Lin Yi pointed at him. He's already in the early stage of the mysterious Ascension realm!"

Snake shichirou sensed it for a moment and said with some envy, ""He's really in the early stage of the mysterious Ascension realm! It's only been two days and he's already risen from the early nascent Soul Stage to the early mysterious Ascension stage. This guy has profited from a disaster!"

"It's hard to say if it's a blessing or a curse!" "The people at central wanted to use LAN Guzha's genes to make the fusion drug, so they used an unstable experimental drug to raise his strength to the mystic Ascension primary stage first before extracting his genes for use. If it was only the nascent soul primary stage LAN Guzha, they wouldn't be able to make the drug to advance to the mystic Ascension primary stage," Lin Yi said faintly.

"Yes, yes, yes, that's what happened!" Snake shichiro nodded quickly, showing an expression of 'I see'.

"You can understand?" Yu Yi asked with his head tilted.

"I don't understand!" Snake shichiro shook his head decisively.

If you don't understand, then why are you pretending to understand? You made me think that I'm not even as stupid as a sea snake. I almost started to doubt my life.

Lin Yi ignored the angry Yu Yi and continued, "It's okay if you don't understand. To put it simply, the center has created a kind of medicine that can advance to the mysterious Ascension stage. However, humans will die if they use it. Therefore, they captured LAN Guzha and used his strong physique as a Royal sea beast to fuse with this medicine. Although it's not a complete success, they can already extract materials from LAN Guzha's body to create a more stable, complete, and powerful medicine to help the human cultivators at the center break through to the mysterious Ascension stage."

Lin Yi came to this conclusion after combining Da Feng's words with his own. He couldn't prove it, but he believed that it should be very close to the truth.

Snake shichiro came to a sudden realization."I understand now. So, LAN Guzha's condition is very unstable now. Although the potion improved his strength, it also destroyed LAN Guzha's body at the same time. The things on his body were used to save his life?"

"That's right, you are very smart! If we're going to remove those things, LAN Guzha will probably die immediately. What do you think we should do?" Lin Yi brought LAN Guzha back to leave this problem for she yilang to solve.

"No!" She shichiro immediately shook his head."Then I'd better not pull it out. If LAN Guzha dies, I'll be buried with him!"

"Snake shichiro, are you still my brother?" LAN Guzha wailed loudly. He was clearly very dissatisfied with snake shichiro's words.

Snake shichiro turned around and tried to persuade him,""LAN Guzha, don't be agitated. I'm doing this for your own good. Look, you're bleeding when you're agitated ... You're bleeding! F * ck, why are you bleeding!"

Lin Yi was shocked as well. He quickly turned around and saw that LAN Guzha was bleeding from the same spot as the things that were stabbed into his body.

If it was only one or two spots, he probably wouldn't care. But with such a large area of bleeding at the same time, the entire glass tank was starting to change color. The situation was definitely not good!

"LAN Guzha, has there been such a situation before?" Lin Yi didn't panic-he maintained his composure and immediately grasped the key issue.

"No, there has never been such a situation!" LAN Guzha's voice carried a hint of panic. After all, he was still considered a young man among the sea beasts.

As he spoke, the speed of his blood flow increased. LAN Guzha's body was even showing signs of twitching.

Chapter 5640 Little Brother Sea Beast

"What do we do, what do we do?" She qilang was flustered, no longer as calm as when he first met Lin Yi. After all, he had a good relationship with LAN Guzha, and he was a member of the royal family. He couldn't be blamed for losing his composure.

Lin Yi knew that he couldn't count on snake yichiro to make a decision now. If he let LAN Guzha continue bleeding, he would probably die Here.

Although Lin Yi had already saved LAN Guzha as promised, and there was nothing he could do even if LAN Guzha died, he was still in front of Lin Yi. He would feel bad if he didn't take any measures.

"Dodge!" Lin Yi shouted in a low voice and pushed both of them to the side. He then punched the glass jar.

To Lin Yi's surprise, the energy-infused punch didn't even shake the glass at all-it was clear that the glass wasn't just any ordinary glass.

Lin Yi didn't have time to think and threw out another punch. This time, his fist was wrapped in a layer of five elements killing intent. He finally broke the glass jar. The liquid inside rushed out instantly, tearing open the hole. LAN Guzha rushed out with the water.

Lin Yi didn't care about his wet clothes and reached out to support LAN Guzha. He took out some healing pills and crushed them for external application on LAN Guzha's body. It was even easier for him to take them orally-he just had LAN Guzha open his mouth and throw them in.

He wasn't sure if it would work, so he didn't dare pull everything out at once. He only applied some medicine on the parts where they fell off, but the effect was minimal.

Although Lin Yi's pills were almost all of the highest quality, the wound that was just about to heal would split open again as if there was an invisible force stopping the effects of the pill.

"Why is it like this? Why can't your pill even stop the bleeding?" She qilang was still full of hope as he watched Lin Yi heal LAN Guzha, but he fell into chaos again.

LAN Guzha convulsed violently for a few times, then suddenly burst into tears. After all, he was only a young man. When he felt that death was about to befall him, he could no longer endure the heart-devouring fear.

"Snake shichiro, I don't want to die. Please save me!" LAN Guzha cried loudly, but one could clearly hear the weakness in his voice that could not be concealed.

Snake shichiro's face was filled with bitterness. He thought to himself, you don't want to die, I don't want to die either! Clearly, he had saved her, but now he was dying in front of her. Being buried with her was not something that could be casually said!

"Brother Lin, do you have any ideas? Hurry up and save him!" She yichiro was truly anxious. Originally, it would have been a great contribution to save LAN Guzha. It was not a big deal if he could not be saved. It would not affect him, she yichiro.

However, LAN Guzha had clearly been rescued, but he had died in front of snake shichiro. The situation was a little unclear. There was no such thing as harmony among the sea beast race. The law of the jungle was the most fundamental law.

Although they were close and were relatives, no one believed him!

Lin Yi frowned. LAN Guzha's current situation was not good. Pills were no longer useful. Lin Yi's only chance was his own all-purpose pure Qi.

"I can try, but I can't guarantee the result!" Lin Yi chose to help in the end. After all, LAN Guzha gave him a good feeling, and she yichiro had helped him a lot before.

She qilang was overjoyed. Lin Yi's words made him feel like a drowning man who had found his last straw. He quickly nodded, ""Brother Lin, you can try. No matter what the result is, I, snake shichiro, will remember your benefits!"

LAN Guzha stopped crying when he heard that Lin Yi might have a way. He looked at Lin Yi nervously, not hiding the hope in his eyes at all.

Lin Yi guessed that LAN Guzha wouldn't be able to hold on much longer. He stopped hesitating and said to she qilang, "Then I will bring LAN Guzha to find a quiet room to treat his injuries. Snake yichiro and Yu Yi will stand guard outside!"

She qilang wanted to tell him to just stay here and heal LAN Guzha, and no one would disturb him, but he forced himself to stop. After all, all his hope was on Lin Yi now, and he didn't want to make Lin Yi unhappy.

"Brother Lin, I'll have to trouble you then. Quickly go and find a quiet room!" She yichiro knew what to do and summoned a giant crab to carry LAN Guzha on its back, following Lin Yi to the room.

There were plenty of rooms in Pi town, and there was no need to look for one. There were empty rooms on the side, and Lin Yi didn't want anyone to see him treating LAN Guzha, so there was nothing to be picky about.

After Lin Yi brought LAN Guzha into the empty room, Yu Yi and sea serpent shichiro were like two door Gods guarding the two sides. Whether it was sea beasts or humans, they were all driven far away. They even set up a layer of divine sense defense, blocking any possible divine sense peeking.

The blood flow from LAN Guzha's wounds had slowed down a little, but it was not because the injury had improved. On the contrary, this was the inevitable result of the loss of too much blood in LAN Guzha's body. When the blood could not flow out at all, LAN Guzha would be completely finished.

Lin Yi's expression was serious as he placed his hand on LAN Guzha's thick body, sending endless Qi over. However, the Qi that had always worked was unable to heal LAN Guzha's wound this time.

"What is this? It's actually so tenacious that it's hindering the recovery of the wound?" Lin Yi frowned. The Qi was effective, but there was a strange force circling around LAN Guzha's wounds. The Qi could heal the wounds, but it would be destroyed by the strange force soon.

The process was too fast, and nothing seemed out of place on the surface. It was as if Lin Yi's healing didn't work.

Fortunately, after the all-purpose true Qi entered LAN Guzha's body, the loss of blood was offset by more than half. LAN Guzha did not continue to weaken and finally recovered a little.

"Brother Lin, I, LAN Guzha, thank you from the bottom of my heart for lending a hand to save me!" LAN Guzha raised his head and thanked Lin Yi, "I've heard that you humans will acknowledge those you truly respect as your boss and obey their orders. If you can save my life this time, I, LAN Guzha, am willing to acknowledge you as my boss!"

"Don't talk, get some rest. We'll talk when you're better," Lin Yi smiled.
