

Bodyguard 5641

Chapter 5641 Changes

If he could have a royal family of sea beasts as his underling, it didn't seem to be a bad thing. At least, if he wanted the inner cores of sea beasts, he wouldn't need to hunt them himself. He could just ask for some directly.

LAN Guzha's sudden suggestion moved Lin Yi, and he couldn't let anything happen to LAN Guzha.

After thinking about it carefully, Lin Yi sent his spirit sense into LAN Guzha's body, not forgetting to remind him, ""Don't resist my divine sense, or we'll both be in trouble. "

"Alright, I'll listen to you!" LAN Guzha agreed readily. Then, he retracted all his divine consciousness into his primordial spirit and entered a state of dormancy.

"It's really thorough!" Lin Yi smiled. LAN Guzha could avoid interfering with Lin Yi's movements by doing this, but it was the same as handing his life to Lin Yi. If Lin Yi had any bad intentions, he could easily do something to LAN Guzha's body.

However, LAN Guzha's trust was also a responsibility to Lin Yi, so Lin Yi increased the strength of his divine sense in LAN Guzha's body again, thoroughly checking the condition of LAN Guzha's body.

"It's more serious than I expected!" Lin Yi sighed softly, his brows furrowing even deeper. Lin Yi's attention was drawn to the many wounds on LAN Guzha's body, so he didn't notice that in fact, the gene level in LAN Guzha's body was starting to show signs of collapse.

Lin Yi wouldn't have noticed it if he didn't send his spirit sense in directly. If he guessed correctly, it was the side effect of the potion that forcefully increased LAN Guzha's strength, and it was erupting now.

The omnipotent true Qi could repair these symptoms of collapse, but it could not stop the strange force from continuing to destroy. If this strange force could not be eliminated, LAN Guzha would not be able to escape the fate of his physical body collapsing in the end even with the endless true Qi in the Jade space as his backing.

Lin Yi looked at LAN Guzha, who had his eyes closed. "Whether you can live or not depends on your luck," he thought. "I hope you're a decent guy ..."

With a plan in mind, Lin Yi carefully split the consciousness that invaded LAN Guzha's body into a very fine thread. He then turned this thread of consciousness into a consciousness pill fire and rushed into the strange power that was raging in LAN Guzha's gene level.

Since pure Qi had no effect on the strange energy, Lin Yi had no choice but to take the risk and use his conflagrated knowledge to try and attack the strange energy.

Fortunately, LAN Guzha trusted Lin Yi and retracted his spirit power into his spirit. There was no residue on his body, so Lin Yi's spirit pill fire wouldn't accidentally hurt LAN Guzha's spirit and spirit.

Lin Yi's face turned serious. Although it was just a tiny bit of the conflagration, he still needed to put in a lot of effort to control it, in case it didn't achieve anything and instead became an accomplice to those strange powers.

In an instant, Lin Yi let out a relieved smile. That bit of consciousness fire, under his control, easily broke into the strange power and burned away the strange power that was six or seven times his size.

On the whole, it was a drop in the bucket, but it meant that Lin Yi's choice was right!

"Kid, it seems that your beast quality is not bad. There is a possibility of recovery in a short while!" Lin Yi said with a rare smile, relaxing. It didn't really matter if LAN Guzha could hear him or not.

Since he found a way, Lin Yi naturally wouldn't drag it out. He increased the input of his consciousness, converting the most amount of consciousness refinement fire in one go within the controllable range, and attacked the strange power in LAN Guzha's body.

Lin Yi's Qi followed right after the conflagration-the conflagration in front wiped out the enemies and attacked the cities, while the Qi at the back cleaned up the battlefield and repaired the walls!

Under Lin Yi's control, the two powers worked together perfectly. With the omnipotent Qi behind it, Lin Yi had less to worry about. Even if the conflagrated knowledge accidentally damaged a part of LAN Guzha's body, it would be repaired immediately.

An hour later, LAN Guzha's collapse at the gene level had completely disappeared. After being repaired and nourished by the omnipotent true Qi, LAN Guzha's genes could be said to have been completely reborn. Originally, he had a strong body of the Royal sea beast. Now, there was a slight mutation and he was much stronger than before. It could be said that it was a blessing in disguise.

As for the external injuries, it was even easier to treat. Without the source of the mysterious energy, the external injuries couldn't withstand Lin Yi's attacks at all. They were completely removed in no time, and all the wounds were completely healed by Lin Yi's all-purpose Qi.

"I'm finally done. It's so tiring!" Lin Yi took back his senses and Qi, letting out a long breath. The Qi was fine with the Jade space, but he had to supply his senses with his own power, and he had to spend a lot of effort to control it. Normal people wouldn't be able to do that.

"Hahahaha! It was too awesome! He's really cured!" After LAN Guzha's spirit was awakened by Lin Yi, he checked his body's condition and laughed excitedly.

LAN Guzha then remembered who was the reason he was still alive. He turned to Lin Yi, "You have really saved me. From now on, you are my boss! As long as the boss needs it, LAN Guzha will definitely do his best to risk his life for the boss!"

Lin Yi smiled faintly, "if you insist, I don't mind. But I have a lot of followers. You're not the biggest one, so you should be prepared."

LAN Guzha laughed out loud. "Boss, you're so awesome. You must be an existence like the king of the sea beasts among the human race. It's normal to have many underlings. I'd be surprised if you didn't have any! Don't worry, boss. I, LAN Guzha, still know my limits. "

"Well, I'm very happy that you can say that! There's one more thing I need to remind you, this time you've gained a blessing in disguise, from early Yuanying stage to early mysterious Ascension stage, and because of my treatment, while stabilizing your strength, there are some changes. As for whether these changes are good or bad, you'll need to study it yourself, so it's best if you go back and cultivate in seclusion for a while. " Lin Yi had always taken good care of his lackeys, but LAN Guzha was already in

the early stages of the mystic Ascension realm. There was nothing Lin Yi could help him with in terms of strength, so he could only tell LAN Guzha what he had just observed.

Chapter 5642 Four Great Rankings

LAN Guzha stopped smiling and nodded vigorously, "I know. Don't worry, boss. I know what to do. In our sea serpent dragon clan, only the most outstanding geniuses can advance to the mysterious Ascension stage with the help of the power of transformation when they come of age. I've already advanced to the mysterious Ascension stage before I've even reached adulthood. It's all thanks to big brother. If I, LAN Guzha, still don't know how to cherish it, then I'll be letting big brother down. "

Lin Yi's heart skipped a beat. From LAN Guzha's words, Lin Yi could deduce that there was a xuansheng stage in the sea serpent Dragon Tribe! However, this was not surprising. After all, sea snake snake shichiro was already at the great circle of the original level. It was not surprising that there was a xuansheng stage expert in the royal family of the sea beasts.

Fortunately, they didn't make enemies with the sea beasts of the endless sea. Otherwise, the sea serpent dragon clan would be provoked and the small world of immemorial underworld would be wiped out in minutes. After all, the sea serpent dragon clan was also a creature that could move on land.

However, why had the Royal experts of the sea beasts never appeared? Otherwise, the xuansheng stage would not have become a legend for thousands of years in the small Jianghu of the immemorial age.

"It's good that you understand. Go out first. Otherwise, snake shichiro will be anxious!" Lin Yi wanted to ask about the Kraken clan, but it was a secret of the LAN Guzha clan. He couldn't just ask about it like that, so he had to hold it back.

LAN Guzha nodded in agreement and followed Lin Yi out of the room. She qilang saw LAN Guzha behind Lin Yi after the door opened and rushed up excitedly, laughing, "Good boy, I knew you'd be lucky. You'll be fine!"

"That's right. Don't you know who I, LAN Guzha, am? Of course, my boss Lin Yi's skills are the only ones that saved my life!" LAN Guzha said, pleased with himself as he started to brag about Lin Yi.

"You're Lin Yi's boss?" she shichirou asked, startled. He didn't force you, right?"

At this point, she qilang's gaze towards Lin Yi was a little unfriendly. Although Lin Yi was LAN Guzha's Savior, if Lin Yi used this as a threat and took in a member of the Royal sea beast clan as his follower, that would be looking down on and provoking the sea beast clan.

LAN Guzha chuckled and said, "what are you thinking about, snake jichiro?" Of course, I, LAN Guzha, am willing to do it. Other than that, do you think there's anyone else who can force me to do something I'm not willing to do?"

She qilang thought about it and agreed. He knew LAN Guzha's personality the best, so he looked at Lin Yi with an apologetic look.

Lin Yi didn't mind and waved his hand, "If you have something to say, then go back first. I still have some things to deal with. It's not very convenient for you to leave so many sea beast armies here."

LAN Guzha quickly replied, "don't worry, boss. I'll have them withdraw immediately. However, I still want to talk to you more. Why don't you let me stay here for a few more days?"

Before Lin Yi could say anything, she jichiro objected, ""No, this time we're making such a big fuss for you. If you don't go back, how can this matter be settled? Come back with me quickly and come back in two days. "

LAN Guzha thought about it and agreed. Although he wanted to spend a few more days with Lin Yi, she yilang's words made sense. LAN Guzha could only reply resentfully, ""Alright! I'll come back to find you in two days. You'll still be here, right?"

Lin Yi scratched his head. It was hard to say. After the end of the ancient meet, all the sects and families would leave Pi town, and Pi town would be reduced to ruins again. If LAN Guzha came here to look for Lin Yi, he probably wouldn't be able to find him.

LAN Guzha saw that Lin Yi didn't say anything and used his front claws to pull out a round pearl the size of a pigeon's egg. "Boss, this is the positioning communication bead used by the royal family of the sea beasts. If you want to find me, you just need to put this bead into the water at any shore of the endless sea. I will receive a message. If I want to find you, I can also sense your location through this bead."

"This item is not bad, I'll accept it!" Lin Yi didn't stand on ceremony. With this communication bead, it'd be easier to find LAN Guzha in the future. He just didn't know if LAN Guzha would still be able to sense Lin Yi's location if he kept this thing in the Jade space.

She yichiro looked at LAN Guzha's claws and suddenly exclaimed, ""LAN Guzha, Speaking of which, you're already at the early stage of the mysterious Ascension realm, right? Why didn't he transform? Or two claws?"

LAN Guzha retracted his claws and chuckled, "I'm still a minor, so I'm still a sea serpent. I wonder if I'll break through the xuansheng stage and enter the mountain opening stage when I become an adult and transform into a sea serpent Dragon?"

"Don't be ridiculous. There has never been a super expert in the beginning stage among the royal family. You'd better think about when you can become a real Sea Dragon. Maybe you still have a chance." She jichiro laughed hideously, he did not believe LAN Guzha at all.

Lin Yi looked at LAN Guzha, deep in thought. He understood the strength of the royal family of sea beasts. The sea serpent was a race that could evolve. After reaching adulthood, there was a chance of evolving into a sea serpent Dragon. Whether it was talent or strength, the sea serpent Dragon was obviously far superior to the sea serpent Dragon. However, this was still not a real Dragon. If one in a hundred of the elites of the sea serpent race could evolve into a sea serpent Dragon, then among a thousand sea serpent Dragons ... At most, there would only be one who had the chance to become a real Sea Dragon!

In other words, if LAN Guzha wanted to evolve into a Sea Dragon that could truly be considered a Dragon, the probability was one in a hundred thousand!

As for now, Lin Yi couldn't tell how much potential LAN Guzha had after his mutation. Perhaps there was only a one percent chance of becoming a Sea Dragon, or maybe there wasn't even a one in a million chance ...

LAN Guzha and she qilang didn't notice Lin Yi's thoughts and left after a few words. The Royal sea beasts were still waiting for the report of this operation, and she qilang didn't want to delay any longer, especially before the mission was completed. His little heart wouldn't be able to take it if there were any more mistakes!

Under the lead of LAN Guzha and she qilang, the sea beast Army disappeared from the outer area of Pi town like a low tide. Lin Yi asked Yu Yi to gather the four big and ten small ones. After he left, Lin Yi still needed to confirm the result of the immemorial meeting.

A while later, all four adults and ten children gathered together again. Xin Yijie was one step ahead of them, standing beside Lin Yi.

"Martial granduncle, you're done with your business? Then let's announce the new four great rankings!" Xin Yijie smiled, pleased with himself, but he still maintained his respect for Lin Yi.

Chapter 5643 Proud MA Zaidan

"Didn't you guys announce it before?" Lin Yi asked, surprised.

"The details have been completed, so it's time to announce the final result. Everyone said that we have to wait for the Grand uncle-master to come before we can continue." Xin Yijie's voice was full of pride-it was Qingyun school's honor that Lin Yi was respected by all the sects.

"You guys don't find it troublesome at all. Alright, hurry up and announce it. I still have something to say." Lin Yi waved his hand, gesturing for Xin Yijie to announce it.

Xin Yijie replied and turned to face the crowd. With his head held high and chest out, he declared, "Everyone, I, Xin Yijie, will now announce the new ranking of the four great sects."

The audience below the stage cooperated and gave a round of applause. The power structure of this ancient meeting could be said to have undergone earth-shaking changes. The biggest changes were the rise of the Qingyun school and the rise of the strongest Dark Horse, the thousand blades sect!

When they thought about how one of the four great sects, the thousand blade sect, only had two people, many people's hearts burned with passion. After the immemorial meeting ended, they would hurry over and seek refuge. They might even be able to become an elder.

"The leader of the four great sects is our green cloud sect! The second place was the Shangguan family, the third was the thousand blades sect, and the last was the five elements sect! The distribution of the guards in the ancient mountain range has been determined. From now on, the distribution of resources in the ancient underworld will be decided by the new four great sects. Thank you, everyone!" After the simple announcement, Xin Yijie was ready to give the right to speak to Lin Yi. Lin Yi had said that he had something to say, and naturally, Xin Yijie wouldn't go on and on.

However, MA Zaidan didn't know that Lin Yi had something to say. After hearing Xin Yijie's announcement, he turned to the dujie master and said, "We're going through a tribulation. Look at the five-elements sect, and we're one of the big four. With our friendship, I, MA Zaidan, will definitely help your Qiankun sect. "

MA Zaidan was in a good mood. It was a pity that Qi Dani was not investigated for colluding with central, but he had not come out until now. Otherwise, he would be so proud in front of Qi Dani.

Venerable dujie's face turned black and he coldly snorted, ""The five-elements sect has dropped from second place to fourth place, what's there to be proud of? And you shameless guy, you actually went to be a little brother of Qingyun school as one of the big four. I feel ashamed for you!"

"Tsk, you're just jealous, right? No matter what, the five-elements sect is still one of the four greats. Compared to your Qiankun sect, which was originally the leader of the four greats and is now one of the newly-promoted ten small sects, it's much more powerful. " MA Zaidan said nonchalantly. He always thought that it was his wisest decision to join Lin Yi and the Qingyun school, and from the current results, it was indeed a good decision.

"You're just Lin Yi's Lackey, what's there to be proud of?" The Daoist master dujie's face was full of disdain, but he was actually a little envious of MA Zaidan ...

"Unfortunately, you don't even have the chance!" "Haven't you heard?" MA Zaidan laughed and said. The Royal sea beast that Lin Yi just saved has recognized our grand-master as their boss! Who else in the small ancient martial world can compare?"

Now that the members of the royal family had become Lin Yi's underlings, MA Zaidan felt that not only was there no problem with his decision, but it was also a golden idea with super vision. There was still a big gap between the five elements sect and the members of the royal family of the sea beasts, but because of Lin Yi, they were all on the same level!

The Daoist master dujie had also received this news. Although he wasn't sure, it might not be without a reason, so he didn't speak for a while.

Seeing that the Daoist master dujie had nothing to say, MA Zaidan was even more proud and continued to say, "Do you understand? The grand-uncle wouldn't just take anyone in, like someone like you, with no status or skill. He wouldn't even bother with you. Let's not talk about the members of the Royal sea beast clan, but our five elements sect's alchemy ability is far beyond your reach, do you understand?"

The Daoist master dujie simply turned his head and no longer paid attention to MA Zaidan. If he were to show off alone, he would probably feel bored after a while, right?

Lin Yi was speechless. He didn't know how to describe this MA Zaidan, but seeing how submissive he was, Lin Yi remembered his batch of sea beast cores. Most of them were golden core stage ones. After exchanging 360 golden core stage sea beast cores for the spiritual Jade spots, there were still over a thousand golden core stage cores left. It was just right to give them to the five elements sect to make golden cores.

Since the five-elements sect had decided to join them, Lin Yi naturally had to make good use of their resources. He planned to give them some pointers on their alchemy skills later, so that their success rate and quality would improve. After all, Lin Yi had Zhang Liju's alchemy notes, and they had a lot in common in this aspect.

"MA Zaidan, quiet down. I will talk to you about alchemy later. Now, listen to an important thing." Lin Yi pointed at MA Zaidan, and MA Zaidan immediately bowed and cupped his fists, pretending to be all ears.

Then, MA Zaidan took the chance when Lin Yi wasn't paying attention and glanced at the Daoist dujie with a smug look. His eyes were full of hints, "see, Lin Yi still needs me for something, right?" You guys can't do it? They would definitely not want it even if it was delivered to their door!

Lin Yi coughed twice and ignored MA Zaidan's small actions. He took out the small flag that little food gave him and opened it to everyone, "In the first round of the mining competition, I discovered a mechanism of the natural array of the spiritual Jade immortal vein. This is extremely important for the small Jianghu in the ancient times, so I'm telling you now!"

Hearing Lin Yi mention the spirit Jade immortal vein, everyone perked up. After all, this was directly related to cultivation resources. What was Lin Yi going to say?

Lin Yi took out the excuse he'd prepared long ago and continued with his nonsense, "This mechanism can greatly increase the upper limit of the number of people who can enter the spirit Jade immortal vein and the time limit. However, this does not come without a price. The price is that the inner cores of sea beasts above the Golden core stage have to be used to activate this mechanism."

"Senior Lin, may I know the specific number of people and time?"

"Master Lin, may I ask how many golden core inner cores do you need?"

"Martial granduncle ..." This must be a sect in the North Island Alliance.

Questions from a few people rang out at the same time below the stage. When they heard the keywords "the number of people" and "time" had been greatly increased, a few sects could no longer hold back.

Chapter 5644 Central Has Left

After all, the sea beast's inner core was precious, but the endless sea was so big that it was possible to hunt for it. However, the spiritual Jade immortal vein was only open for ten days a year, and only twenty people could enter at a time. The amount of spiritual Jade mined to supply the entire small Jianghu of the immemorial era was too little.

This was also the reason why there were so few experts in the ancient martial world. In the end, cultivation was a competition of resources!

"Everyone, calm down and listen to me." Lin Yi raised his hand.

Everyone quieted down-it was clear how high Lin Yi's prestige was now.

"Through this mechanism, the number of people entering the spirit Jade immortal vein each year can be increased to two hundred, and the time limit is six months! 360 Aurous core stage inner cores are

required. If you don't have any Aurous core stage inner cores, you can replace them with 72 nascent Soul Stage inner cores! From today onwards, the rules for entering the spirit Jade immortal vein will change. There will be a fixed quota for the four big and ten small ones, and the remaining quota will have to be exchanged with the inner core of a sea beast. "

The eyes of many people below the stage lit up. It was indeed good news to be able to exchange the inner core of a sea beast for a chance to enter the spirit Jade immortal Meridian, and it was not limited to the four great and ten young ones!

Lin Yi scanned the crowd and smiled,"The specific rules for the distribution of the quota and the distribution of the spiritual jades collected after entering will be discussed by the green cloud School and the other three and four major families later. I won't say much here!"

These words were a little fake. Who didn't know that the big four now actually had the final say? And the Qingyun school was Lin Yi's place-wasn't it Lin Yi who was in charge of everything?

Of course, no one dared to say this out loud-Lin Yi didn't want to get involved, either. He really did hope that Xin Yijie and the others could come up with a mature plan. After all, they'd still be the leaders of the ancient martial world.

Lin Yi turned to Xin Yijie, who nodded and ordered a Qingyun sect disciple to bring Lin Yi three hundred and sixty golden core inner cores.

Lin Yi channeled his Qi into the flag, causing the formation patterns to glow with a golden light. He then threw all 360 golden core cores into a black hole that appeared beside the flag.

After the black hole absorbed the sea beast's neidan, it slowly became wider. The black light also slowly turned white, and finally formed a teleportation door.

Lin Yi pointed at the portal, "this year's cores will all be provided by our Qingyun sect. As the first attempt, no other sects are required to provide cores, but each sect will have a limited quota." By the way, you won't encounter any danger entering the spirit Jade immortal vein through this portal unless someone is maliciously hurting you. Once this situation is discovered, the person and the sect behind him will be permanently disqualified from entering the spirit Jade immortal vein!"

Before the ancient meeting, the people below would've started whispering, but now that Lin Yi's prestige was high, everyone tried their best not to speak, afraid that they'd lose the right to enter the vein.

Lin Yi smiled faintly as he retracted his Qi and closed the portal. He rolled up the flag and handed it to Xin Yijie before turning to the people below. "After the teleportation gate is opened, people can be teleported in at any time for half a year. As long as the limit doesn't exceed 200 people, there's no possibility of the teleportation failing. Once we have the quota allocation plan, we can just let sect leader Xin Yijie operate it."

He didn't have anything else to say, so he waved his hand. "The immemorial meeting has ended. The auction will continue as planned. Everyone, please disperse!"

He'd said to leave first, but as soon as Lin Yi finished speaking, a large group of people surrounded Xin Yijie, all wanting to get to know him and get the first chance in the free entry to the spirit Jade immortal vein.

Lin Yi didn't know what to say-it was a good thing he'd given the formation flags to Xin Yijie, or he'd be pretty uncomfortable being surrounded.

After quickly leaving the crowd, Lin Yi waved to MA Zaidan, "MA Zaidan, come here!"

MA Zaidan didn't say anything and ran over. He bowed with a face full of smiles and said, "What instructions does senior granduncle have?"

Lin Yi wasn't going to be polite with MA Zaidan and got straight to the point, "I do have some things to do. How about this? after the immemorial meeting is over, you can come to the green cloud School on the North Island. I will copy some of the experience and techniques of alchemy for you to study when I go back. Then, I will refine the remaining inner cores of the sea beasts in the Golden core stage into golden cores. Do you understand?"

"I understand! Don't worry, martial granduncle!" MA Zaidan was overjoyed in his heart-Lin Yi was planning to put the five elements sect in an important position! And he even had to give pointers on pill refining!

MA Zaidan had heard from Master Chen about Lin Yi's skill in alchemy. It was heaven-defying! Getting Lin Yi's advice was something he'd wake up laughing from his dreams.

"Alright, you can go back now. Go and discuss the matter of the spirit Jade immortal vein with Xin Yijie and the others. I still have something to do, so I'll be waiting for you at the green cloud School on the northern island!" Lin Yi waved his hand, signaling for MA Zaidan to leave.

MA Zaidan quickly cupped his fists and bowed respectfully, ""Many thanks, senior granduncle. This disciple will definitely rush to the green cloud School in the North Island as soon as possible!"

To be honest, MA Zaidan wanted to ask Lin Yi about his alchemy skills right away, but Lin Yi had something to do and he had no choice. He planned to go to the Qingyun sect first and wait for him there after telling Xin Yijie.

Lin Yi gathered Yu Yi, invincible ancient, and Shangguan feixing, the three early stage mysterious Ascension Masters, and flew back to Que Luo mountain on his flying spirit beast.

After saving the blue serpent, Lin Yi was still worried about Dafeng's safety. He wanted to confirm that he brought the three of them with him so that he could have some help in the battle. At least they could be a distraction.

The base was in ruins after they arrived at Que Luo mountain. Other than the damage Lin Yi caused, the professor must have cleaned it up after he came back. There was nothing of value left.

Lin Yi used his spirit sense to scan the entire base, searching inch by inch, afraid to see Dafeng's body or something. Fortunately, he didn't find anything like that, but he did find a secret message Dafeng left behind.

The general meaning after deciphering it was: "Boss, central has suffered heavy losses this time. All their resources have been used up, and the Warriors under them have almost been wiped out. So, they can only temporarily withdraw from the small Jianghu of the immemorial era and return to the secular world to recuperate. I can only follow them back. I'll contact you again if I have the chance in the future."

Chapter 5645 Finally Leaving

Lin Yi let out a breath of relief after knowing that Dafeng was fine. He was also happy that central left the ancient martial world. At least the ancient martial world would have a quiet period of development.

At this point, the ancient martial world was pretty much over. Lin Yi could finally go back to Sky Class Island without worry. To be honest, he really did miss Sky Class Island!

Since there was nothing left in Queluo mountain, Lin Yi naturally wouldn't stay any longer. He told invincible ancient and Shangguan Feixing to go back to Ying town and meet up with the people from their sects, while Lin Yi took Yu Yi back to the green cloud sect on the North Island.

On the way, Lin Yi decided to tell Yu Yi that he was leaving, so he flew the flying spirit beast to Yu Yi's side.

"Yu Yi, I should be leaving the immemorial little pugilistic world in two days. By then, you will stay in the green cloud sect on the North Island and help me guard the green cloud sect. If there is a problem that you can't solve, find the invincible immemorial and Shangguan Feixing for help. They are both stronger than you and will be good reinforcements." Lin Yi said calmly, but Yu Yi felt that Lin Yi was beating him up.

"Master, where are you going? Why didn't he take Yu Yi with him? Yu Yi will definitely take care of everything for master. " Yu Yi's face was full of fake reluctance, and he pretended to ask to take her away.

In fact, Yu Yi's heart was already blooming with joy. Wahahaha, Lin Yi was leaving the ancient martial world? Then wouldn't I be free? I don't know where this little B * stard is going. I'd better not come back in the future! After he left this place, should he take over Qingyun school first? Forget it, after Lin Yi leaves, I'll be the boss of Qingyun sect-there's no need to be so obvious about taking over. After all, Lin Yi will definitely arrange for invincible ancient and invincible ancient to monitor me!

Yu Yi was thinking too much, but he kept that fake expression on his face very well. Lin Yi smiled faintly and ignored Yu Yi. No matter what, Lin Yi wouldn't tell Yu Yi about the Sky Class Island for the time being. It was best to let him stay and take care of Qingyun school.

Now that Yu Yi had a primordial spirit, he was no longer a small puppet in the secular world. He could judge all the favorable opportunities on his own and could move freely to cultivate. With him around, the green cloud School in the North Island was still very safe.

As for Yu Yixiang's plan to get rid of Lin Yi after he became stronger, that was impossible. As Lin Yi's puppet, Lin Yi only needed one thought to kill him!

When Lin Yi brought Yu Yi back to the green cloud sect, the auction in Pi town hadn't ended yet, so Xin Yijie and the others weren't back yet.

It was a good thing that Chentian and the others were all training in the sect, and it'd been a while since they'd seen Lin Yi. They all ended their training and came out to meet him as soon as they heard he'd returned-it was quite a lively scene.

After introducing Yu Yi to the people Lin Yi had brought from the common world, the guy immediately got along with Chentian and the others, and the atmosphere became even hotter.

Although Yu Yi didn't participate in Lin Yi's entire trip to the ancient Festival, he had heard everything about Lin Yi after half a day in Pi town. Although his purpose was to understand Lin Yi and find a chance to get rid of his control, it was a good time to brag to Lin Yi's brothers.

Lin Yi smiled and shook his head, not bothering with them. He wasn't someone who liked to talk and brag, and naturally, he wasn't interested in getting involved.

He turned around and saw Song Lingshan looking at him tenderly. Lin Yi smiled faintly and used his pure energy to communicate, "Silly girl, are you looking at me like that? do you want to eat me?"

Lingshan's face reddened-she knew that Lin Yi was only talking to her. She glared at Lin Yi with mixed joy and anger, but nodded hard.

It meant that the little silly girl wanted to eat him, but did he dare to let her eat him?

Lin Yi felt a little awkward-he didn't really care much about what happened after a couple got together at his level, but he had so many female friends, especially the girls who were still unconscious. He'd feel sorry for them if something happened to them first.

It was because of this little obsession that Lin Yi didn't have any deep relationships with any of his female friends even after he'd reached his current level.

In fact, Lin Yi wasn't the type to take the initiative, and he was a little shy as well. People like that ... Were known as boring and boring. He suddenly remembered the first time he came down the mountain to Chu Mengyao's house, and he was caught red-handed by Chen Yushu wiping his nose.

Lin Yi's heart felt heavy at the thought of Chu Mengyao and Chen Yushu. His strength was enough to look down on the entire ancient martial world, but it was nothing on Sky Class Island. He didn't know when he would be able to see Zhang Liju.

Lingshan was just about to have a nice chat with Lin Yi-they'd spent more time apart than together, after all, and he'd been running around all the time in the ancient martial world with the other girls around.

Ziyu and Lin Yi didn't seem to have a clear relationship, but the girl was all grown up now, and her feelings for Lin Yi weren't that simple.

As expected, Ziyu came up to Lin Yi and pinched his face. "Lin Yi bro, why did you leave for so long? we were in isolated practicing before, and you didn't even call us when you came back. If it weren't for the fact that we just came out of isolated practicing, we wouldn't be able to see each other, would we? I heard you're going back to Sky Class Island? Are you taking us there?"

"You can't go. Just stay here and cultivate. I'll be back." Lin Yi smiled faintly as he caressed Ziyu's hair. This little girl had grown up, too, and it was hard for Lin Yi to place her in a proper position ... But that was it. He'd just take it one step at a time.

"Oh ... But we can't go back to the secular world?" Ziyu didn't have much to do here-she actually liked the crowd.

"You guys can go back. As long as you have enough spiritual Jade, you can go back at any time. There's no shortage of spiritual Jade here." Lin Yi really didn't lack spirit Jade anymore-the ancient martial world would have more and more of it in the future. "After I leave, if you want to go back, just find Xin Yijie to activate the formation."

"Alright, then you can go back to Sky Class Island! But be careful, come and visit us often!" Ziyu didn't want to leave.

"What's wrong? I haven't even said I'm leaving and you're already chasing me away?" Lin Yi looked at Ziyu, confused. Why did she look like she didn't want him to leave?

Chapter 5646 Chen Xi And Song Lingrui

"I miss Chen Xi ..." Ziyu's eyes reddened. "I've been worried about her since I haven't heard from her. You should look for her as soon as you can when you get to Sky Class Island!"

"I will!" Lin Yi sighed. Yes, there were still a few girls who were missing on Sky Class Island. He didn't know where they went. It was time to go back and continue his search.

Qikun and qijiu didn't want to interrupt-they just laughed like idiots. They'd both been getting stronger pretty quickly lately, and they were really happy.

Lingshan, on the other hand, was waiting patiently for Ziyu to finish. She was a little sister, after all, and she had to give in to her. She'd go talk to her when she was done.

However, just as they were talking, a disciple of the Qingyun school ran in and reported, ""Grand uncle-master, the sect leader of the five elements sect, MA Zaidan, and their sect's Alchemist, Master Chen, would like to see you."

"So fast?" Lin Yi asked, surprised. Why haven't Xin Yijie and the others returned yet?"

Lingshan didn't have a good impression of this MA Zaidan or five elements sect anymore! As expected, there was nothing good in the five elements sect. It was like this in the secular world, and it was the

same in the small Jianghu of the immemorial era! It wasn't easy for her to talk to Lin Yi, where did this troublemaker come from?

Lin Yi saw that Lingshan was about to go berserk as well. He smiled and held her hand, "These two are alchemy grandmasters from the small Jianghu in the ancient times. Let's go and meet them together!"

"Alright!" Lingshan felt Lin Yi's warm and strong hand on her, and the unhappiness in her heart disappeared instantly. A sweet smile appeared on her face as she nodded.

As long as she could be with Lin Yi, she was already very happy!

"Oh right, do you have any news about my Sister Song Lingrui? I miss her too!" Lingshan asked quietly. Ziyu's mention of Lin Yi made her silent for a while before giving her a gentle hand. "Don't worry, she'll be fine. I'll find them when I get back. "

Lingshan was a little disappointed, but there was nothing she could do about it. She didn't say anything else.

Ziyu's eyes flashed with a slight disappointment when she saw Lin Yi and Lingshan walk out hand in hand. She turned around and went back to her bragging session with Yu Yi and the others, so Lin Yi didn't notice anything.

As far as Ziyu was concerned, she'd been taking Lin Yi for a long time already-she should just give him to Lingshan!

MA Zaidan and Master Chen were waiting for Lin Yi in the living room of the Qingyun school. They didn't have any intention of sitting down. It was obvious that they were used to the change in status.

Seeing Lin Yi pulling Lingshan out, the two immediately went up to him and bowed, "MA Zaidan (Chen bidan) pays his respects to Grand martial aunt Lin! Greetings to martial granduncle's wife!"

Song Lingshan felt a sweetness in her heart. Although she felt that the words "grand uncle's wife" were a bit hard to pronounce, she was Lin Yi's wife. She didn't need to care about this small flaw! Even her impression of MA Zaidan and Chen bidan had changed a little.

It was Lin Yi's first time hearing Master Chen's name-it was Chen bidan! No wonder they always called him "master"!

He gestured for Lingshan to sit beside the main seat before waving his hand to the two. "Sit down and talk!"

The two thanked him and then sat down respectfully. Chen bidan thought for a while, stood up, cupped his fists, and bowed. "Grand-martial aunt Lin, I have offended you before. Please punish me."

"I've already forgotten about the past. What's there to punish?" Lin Yi smiled faintly and waved his hand casually, "Sit down. In the past, we all served our own Masters and had different power fields. From now on, we're one family, so don't say those words!"

"Thank you for your magnanimity, grand uncle-master!" Chen bidan's face was full of gratitude. After bowing again, he sat back on the chair and said, ""To be honest, ever since I first saw martial granduncle's alchemy skills, I have always yearned for martial granduncle. It is all thanks to sect leader Ma's wisdom that I have the opportunity to ask martial granduncle for advice on alchemy."

MA Zaidan was proud of himself and thought that Chen bidan's words were true. However, he put on a stern expression and said, ""Elder Chen, this time it's the great grand uncle-master's magnanimity that I won't argue with you. But you should remember this lesson. If something similar happens again, don't blame me, MA Zaidan, for being impolite to you!"

"Yes, yes, yes, sect leader MA is right!" Chen bidan quickly nodded humbly, completely unlike the first time Lin Yi saw him.

"Although martial granduncle has forgiven you and I can't punish you anymore, I'll first remember your mistake this time. In the future, you'll listen to martial granduncle's teachings and do things for martial granduncle to make up for your mistake, understand?" MA Zaidan's words were blunt, but it was just to make Lin Yi feel better.

After all, Lin Yi said that he wouldn't care about what happened in the past. Who knew if he really didn't care about it? If there was still a knot in his heart, it would be a hidden danger. It was better to make it clear to Lin Yi first. Not only would Lin Yi get his revenge, but it would also clear Chen bidan's image in Lin Yi's heart.

Lin Yi naturally understood MA Zaidan's intention and smiled faintly, "Alright, I've said that the past is in the past. You don't have to keep harping on it."

"Yes, I will obey martial granduncle's orders!" MA Zaidan was completely at ease now. He knew that Lin Yi really wouldn't come to Chen bidan for revenge, but he was more respectful when he spoke.

Lin Yi remembered that he was going back to Sky Class Island soon, and he didn't have much time left in the ancient martial world. He had a lot of things to deal with, so he didn't want to beat around the bush with MA Zaidan. He got straight to the point, "I called you here this time to exchange some insights on alchemy with you. You should be mentally prepared, right?"

MA Zaidan and Chen bidan quickly waved their hands and said, ""I wouldn't dare, I wouldn't dare. Senior granduncle, you're too polite. This disciple is here to learn, how can I have the qualifications to communicate with senior granduncle?"

"You don't have to be humble. To tell you the truth, my alchemy method is completely different from the alchemy methods of this era. It is an ancient alchemy method! Although some of the techniques are similar, it may not be able to improve you much, so you'd better not have too much hope!" Lin Yi was confident that Liju's notes did have a way to help the five elements sect increase the success rate and quality of their elixirs, but he couldn't be too sure-what if it really wasn't?

MA Zaidan and Chen bidan were both stunned after hearing Lin Yi's words. They looked at each other and saw the shock in each other's eyes.

Chapter 5647 He'll Be Back!

After hesitating for a moment, MA Zaidan asked carefully, "Martial granduncle, please allow this disciple to ask, What is the difference between your alchemy technique and ours? Could it be that you didn't use your spirit sense pill fire?"

It was Lin Yi's turn to be surprised. How did someone from the ancient martial world know that the refinement fire wasn't just something that could be condensed from spirit sense? When he first came to the ancient martial world, he didn't know that there was a consciousness pill fire.

Seeing the surprise on Lin Yi's face, MA Zaidan and Chen pidan were excited. Chen pidan quickly asked, "Martial granduncle, could it be that you've really mastered the long-lost true Qi attribute alchemy fire of the legends?"

Lin Yi was speechless-Qi element refinement fire, was it already a legendary technique in the ancient martial world? There were a lot of records in the secular world, okay? Although it wasn't that bad ... It was just a little better than bad, right?

Speaking of which, the five elements sect in the secular world and the five elements Chamber of Commerce on Sky Class Island didn't have any elixir Masters, which should be related to the five elements sect in the ancient martial world. This connection could be traced back to the Sky Class Island. Was the inheritance of consciousness elixir fire and true Qi elixir fire separated?

"Why are you all so excited?" Lin Yi asked, confused. As far as he was concerned, Qi refinement fire could be separated into different types of refinement fire, but consciousness refinement fire was basically a non-elemental refinement fire, and there didn't seem to be any difference between the two.

This point could be directly reflected in the Super alchemy bomb. After being made into bombs, the two alchemy fires were actually as destructive as each other ...

MA Zaidan took a deep breath and calmed himself down before saying, "Martial granduncle, don't tell me you didn't know? The conflagration of consciousness in our little martial world is actually incomplete. Although it can be used to make pills, it's said that it can only make Mystic first level pills at most. It's just that there are no Mystic first level alchemists in the little martial world right now, so we can't verify this legend. "

"Martial granduncle, sect leader MA is right. Because the consciousness pill fire is flawed, although we can't verify if the upper limit of pill refining exists, the success rate of pill refining is enough to explain

this problem. In fact, in the records of pill refining, the success rate of pill refining shouldn't be this low! The main reason is that it lacks the coordination of the true Qi attribute pill fire!" Chen bidan said excitedly. He was worried that Lin Yi's skills wouldn't be suitable for him, but he didn't have to worry about that anymore.

If Lin Yi really knew how to condense the Qi refinement fire, he'd be able to double his skills if he found a way to merge the spirit refinement fire!

Lin Yi patted his forehead, frustrated. He'd been using the two refinement fires to make super refinement fire bombs all this time, but he never thought that the consciousness refinement fire and the Qi refinement fire could actually be used together to make elixirs.

After all, the consciousness alchemy fire had no attribute, and any attribute alchemy fire of the true Qi alchemy fire could be completely integrated into the consciousness alchemy fire without the slightest hindrance.

In that case, Lin Yi's problem of not being able to make elixirs for a long time could be solved? After all, Lin Yi had no problem with any refinement fire-the only obstacle was changing the temperature and strength of the fire. With the experience of controlling the direction of the Super refinement fire bomb, Lin Yi felt that there was a high chance of overcoming the previous difficulty with the spiritual refinement fire.

If it weren't for MA Zaidan and Lin Yi, he would've tried it out right now!

"If that's the case, I'll first teach you some simple mental cultivation methods and incantations to condense true Qi pill fire. After you've figured it out, I'll give you some experience in alchemy. If you can successfully fuse the two pill fires, it can be considered as finding new possibilities for the development of the small Jianghu in the primitive times!" Lin Yi said as he stood up and walked to the desk. He picked

up a pen and paper he'd asked someone to prepare and quickly copied down some methods of gathering Qi.

These weren't from Zhang Liju's notes, but some scattered notes Lin Yi found on Sky Class Island. It was much better than the ones in the common world, but still not as good as Zhang Liju 's.

Lin Yi didn't know what Zhang Liju was thinking about teaching him, so he wouldn't take out his notes if there was a replacement.

MA Zaidan and Chen bidan looked at each other. They knew that Lin Yi was copying the legendary refinement method of Qi and fire. They were itching to take a look, but they didn't dare to go behind Lin Yi to take a look. They were afraid that Lin Yi would be unhappy. They could only twist their bodies as if the chair under their butts was full of nails.

After a while, Lin Yi came over with a few pages and handed it to MA Zaidan. It was a thin piece of paper, but it made MA Zaidan feel like it was a thousand pounds heavy. He raised his hands and took it with trembling hands.

"Many thanks, grand uncle-master!" MA Zaidan quickly glanced at Lin Yi and thanked him solemnly. Chen bidan followed beside MA Zaidan and bowed to Lin Yi to express his gratitude.

Lin Yi waved his hand nonchalantly, "you guys being able to understand it is the best way to thank me. Start studying it now. I'll go and copy down some more notes and give them to you guys later!"

MA Zaidan and Lin Yi were overjoyed and thanked Lin Yi again. After suppressing their excitement, they started to study Lin Yi's letter.

Then, they found that Lin Yi had copied down different ways to generate Qi refinement fires, and they each took one to read.

Lin Yi didn't bother with them anymore. He turned around and continued to copy down some of his experiences and tricks. It was still the things he collected on Sky Class Island-giving them to MA Zaidan and the others was no problem.

After he finished, Lin Yi realized that Lingshan was sitting quietly on the chair, watching his every move.

Lin Yi put down his pen and smiled at Lingshan. "What's wrong with you today? It seems to be a little different from before!"

Lingshan smiled and shook her head, "she's still a silly girl, I just wanted to look at you a little longer!" Otherwise, you'll have to go back to Sky Class Island soon ..."

Lin Yi blinked, not expecting Lingshan to say something like that. His conversation with Chen Xi must've triggered Lingshan's sensitivity, and made her gentle.

"I told you, I'll be back. You guys stay here and cultivate." Lin Yi sighed in his heart, but kept a smile on his face as he reached out to caress Lingshan's smooth face.

Chapter 5648 Invitation From The Sea Serpent King

Lingshan was about to say something, but she remembered that there were two outsiders here. She turned around and didn't say anything.

In fact, MA Zaidan and Chen bidan had completely fallen into a state of forgetting themselves and everything else at this moment. There was nothing else in their minds except for the true Qi attribute alchemy fire.

Lingshan was only whispering to Lin Yi, and even if she were to knock on their ears with a Gong, they wouldn't notice.

Lin Yi turned to look at MA Zaidan and Chen bidan. He realized that these two were indeed very talented in alchemy. In such a short time, they had both successfully formed a refinement fire of the same element. MA Zaidan had a fire element, and Chen bidan had a wood element. They could already control the temperature and strength of the refinement fire, which made Lin Yi especially envious.

"Success! As expected, it was a true Qi attribute pill fire! With this pill fire, the quality and success rate of my alchemy will definitely increase greatly!" After MA Zaidan had completely controlled the fire attribute alchemy fire in his hand, he cried out in excitement.

Chen bidan didn't fall behind much time and also said the same thing.

"As expected of the two masters," Lin Yi smiled, "it's a pleasure to see you two master the method so quickly!"

In fact, this kind of basic method was originally a simple beginner level technique. It was like some brain teasers. People who didn't know would never know, but once someone said the answer, everyone would have a feeling of sudden enlightenment and feel that it was so simple!

MA Zaidan and Chen bidan had the same feeling. They were trapped in a room and everything they saw was inside the room, but Lin Yi was like the person who opened a window and let them see the vast world and endless beautiful scenery outside!

"It's all thanks to martial granduncle's guidance and guidance, or else we martial brothers would forever be people who look at the sky from the well! I didn't know there was such a new world for pill refining!" MA Zaidan bowed to Lin Yi sincerely.

If it could be said that MA Zaidan was forced to rely on Lin Yi to protect himself because of Lin Yi's strength at the ancient meeting, he was completely convinced now!

It wasn't just because Lin Yi taught them how to form the Qi element refinement fire, but also because of Lin Yi's selflessness in the art of refinement. If it were MA Zaidan and the others, they wouldn't easily pass on their own refinement techniques to others.

What they didn't know was that Lin Yi really didn't teach them the best things that Zhang Liju had ...

Lin Yi looked at the Qi fire in their hands and felt it for a while, "This is just an ordinary true Qi pill fire. Have you tried to merge it with the consciousness pill fire?"

Chen bidan looked at MA Zaidan and said with shame, "Reporting to martial granduncle, this disciple has tried but was completely unsuccessful. It seems that there is still a long way to go if I want to successfully use the fusion of the two alchemy fires to refine pills!"

MA Zaidan also nodded in agreement. The two of them obviously couldn't complete the fusion of the two alchemy fires at one time.

Lin Yi had a lot of experience in this area, but the problem was that his experience was only applicable to super alchemy bombs-he couldn't use it to talk about it, and it was even more impossible to demonstrate it on the spot. He couldn't even control the temperature and strength of the alchemy fire-what was the point of using it?

"Mm, you guys study it well. The flag of elixir production in the small Jianghu of the ancient times will be on you guys in the future!" Lin Yi nodded with the air of a Grandmaster and gave them the notes he'd prepared.

"Martial granduncle, you're too polite. With you here, how could the flag of alchemy fall to us senior and junior brothers!" MA Zaidan took the thin stack of paper and smiled so widely that his eyes couldn't be seen. He was still flattering Lin Yi.

Lin Yi didn't explain much and waved them away. They would find out about Lin Yi leaving the ancient martial world sooner or later, but with Yu Yi, invincible champion, and Shangguan feixing, they wouldn't dare to betray the Qingyun sect even if they knew Lin Yi wasn't here.

After sending the two off, Lin Yi didn't even have time to talk to song Lingshan. The communication Pearl that LAN Guzha gave him lit up, obviously LAN Guzha was looking for him.

How long had it been since they had separated and LAN Guzha had already returned to the depths of the endless sea?

Lin Yi was suspicious, but he could only tell Lingshan about it before he transformed into his spirit form and dropped the communication bead into the sea near the Qingyun sect.

The communication bead glowed after touching the water, and LAN Guzha's shadow appeared in front of Lin Yi.

"Boss, this is your seat in the green cloud School of the North Island, right? That's great, it's pretty close to where I am now. Wait for me, I'll be there soon!" LAN Guzha's image appeared and laughed heartily at Lin Yi.

Lin Yi smiled, "why are you here so soon?" Have you already returned to the clan and met your clansmen?"

LAN Guzha shook his head. "Not yet, but I've contacted the clan. She yichiro did a good job this time and told them about your outstanding contributions. So, the clan informed me to invite you to our Sea Dragon clan's land as a guest!"

"You're inviting me to your clan?" Lin Yi found it strange-didn't sea beasts usually reject human practitioners?

"Boss, this time, our sea serpent Dragon King has personally sent out an invitation. You can't refuse it! Otherwise, I, LAN Guzha, will really be too ashamed to go back in the future!" LAN Guzha was obviously very happy that the Kraken Dragon King invited Lin Yi. After all, this was a gift of gratitude for Lin Yi saving LAN Guzha, which indirectly showed the Kraken Dragon King's concern for LAN Guzha.

As for whether this was the truth, he would have to wait until he returned and see the situation!

Lin Yi thought about it, and didn't reject the offer. He was planning on returning to Tianjie Island in a few days, but he still needed to make time for a trip to the Kraken tribe. He could also discuss the beast cores with the king.

"Alright, then I'll take the liberty to go with you. When will you arrive?" Lin Yi turned back to look at Qingyun school and saw a disciple standing in the distance. He waved to him.

Without waiting for the disciple to approach, LAN Guzha had already replied, "I'm already here. Boss, did you see me?"

Lin Yi turned his head in shock and saw a white line rushing over from the horizon. He could only see that it was LAN Guzha when he got closer.

Chapter 5649 More

As expected of a mutated early Mystic class sea flood Dragon-its speed in the sea was much faster than a normal flying spirit beast. Whoever was targeted by it in the endless sea basically couldn't escape from its palm.

Lin Yi didn't think that LAN Guzha would be here so soon. He was planning to get the Qingyun disciple to bring song Lingshan and Wu Chentian over to give them an explanation, but it seemed like it was too late. He could only get the disciple to bring them a message to tell them where Lin Yi was going so that they wouldn't worry.

After receiving Lin Yi's orders, the disciple turned around and left. LAN Guzha arrived at the shore almost at the same time, laughing loudly at Lin Yi, "Boss, you didn't get impatient, did you? I used all my strength to rush over, I'm sorry!"

"Actually, you didn't need to rush over at full speed!" Lin Yi shook his head with a smile, speaking the truth.

"I just didn't want to make you wait too long, boss. Plus, I wanted you to see where our sea serpent dragon clan is as soon as possible, so I was a bit anxious. Let's go now!" LAN Guzha scratched his head with his front claws. He had a simple and honest look on his face. He did not look like a king of the sea beasts at the early stage of the mysterious Ascension realm at all.

"I knew you would be in a hurry to leave, so I didn't go back to tell you!" Lin Yi wasn't surprised at all. LAN Guzha's speed was enough to tell that the guy wouldn't let Lin Yi waste his time here.

LAN Guzha laughed and turned around, "Boss, get on my back. Because it's a bit far, the flying spirit beasts aren't as fast as me. It's best if we can go back earlier."

"Alright, thank you for your hard work!" Lin Yi didn't refuse and jumped on LAN Guzha's back. He was a Yuan spirit anyway, so he didn't have to worry about dying in the endless sea without a flying spirit beast. At most, he could fly by himself. Besides, with LAN Guzha around, there was no danger in the endless sea.

"It's my honor to be able to carry boss. What's the trouble! Boss, sit tight. We're going now!" Upon saying that, LAN Guzha arched his body and shot out like a bolt of lightning into the endless sea. He left a trail of water that was seven to eight meters high as he disappeared into the distance.

Lin Yi stood on LAN Guzha's broad back and didn't feel any jolts at all, but the speed was still maintained at a very high level. In the blink of an eye, the North Island's Qingyun sect became a black dot on the horizon and finally disappeared.

"LAN Guzha, your sea beast clan seems to be very United. When they rescued you this time, it was as if the entire endless sea was in a riot!" Lin Yi's spirit sense told him that the sea beasts that saw LAN Guzha all stayed far away, respectfully waiting for him to pass before continuing their operation.

LAN Guzha laughed. "Boss, you're wrong. There's no such thing as unity in the endless sea. There's only the law of the jungle. Since the royal family of the sea beasts is at the top of the food chain, no sea beasts dare to defy the orders of our royal family!"

"So it's high-handed rule!" Lin Yi nodded, deep in thought. If that was the case, getting the people of the ancient martial world to use some of the spiritual jades or other items to buy the cores of the sea beasts seemed much easier than directly killing them. Of course, killing sea beasts was also a way of cultivation, and as long as the Royal sea beasts didn't care, it was an option.

"Boss, you can say that. But we prefer to say that the strong are respected. In the endless sea, the strong will be respected and worshipped. I heard that the human race also has such a tradition. However, compared to our endless sea, there might be some difference." LAN Guzha said with pride.

Lin Yi didn't say anything. The sea beasts in the endless sea usually seemed to be loose, and the royal family didn't often do anything to manage them, but when the need arose, they could mobilize more than 90% of the sea beasts in the shortest time.

On the other hand, the human race seemed to have always had a strict hierarchical system. For example, there were four big and ten small in the ancient Jianghu. However, if something really

happened, there was at least an 80 to 90% chance that they would fight for themselves or even stab each other in the back.

Lin Yi shook his head. It was just a sudden thought, and while it was a heavy one, it wasn't something he should be thinking about right now.

"LAN Guzha, if I say that we need a batch of Aurous core or even nascent Soul Stage inner cores from sea beasts every year, will it cause a dispute between the human race and sea beasts?" It wasn't possible, but Lin Yi still needed to confirm it.

As expected, LAN Guzha shook his head and said, "of course, there's no problem if you need it, boss. I'm just not sure if the quantity is large." If it's too big, it might be a little troublesome. "

Lin Yi did some calculations in his mind-he could let the sects hunt for the spirit Jade immortal vein's inner cores themselves. After all, the rules were set, and he couldn't let them live too comfortably.

The cores he wanted to exchange for now were mainly for making elixirs. MA Zaidan, the five-elements sect's sect leader, had gotten the Qi pellet fire technique and the related elixir making notes from Lin Yi. It would definitely raise the five-elements sect's elixir making skills by a few levels, and the demand for the cores would naturally increase.

They couldn't just rely on hunting sea beasts, so Lin Yi decided to help them prepare for the future.

"Every year, I will need about two to three thousand inner cores. The ratio is one to three to six for the nascent soul, golden core, and Foundation establishment stages!" Lin Yi estimated that if these inner cores were used to make pills, it should be enough for the development of the ancient martial world.

LAN Guzha turned around and said in astonishment, "two to three thousand inner vitals? that's so little?" Then there wouldn't be any problems! I thought you were going to have more than a hundred thousand inner cores!"

Lin Yi didn't know what to say. Only then did he remember that his follower was a member of the endless sea's royal family. He was definitely a rich man!

A mere two to three thousand inner cores weren't much to Lin Yi, but he didn't want to change his mind. As long as it was enough, the small world of the ancient martial world might not have enough to trade for it.

"Boss, why don't you ask for more? although we sea beasts like to eat inner cores, it takes a long time to digest one. It's far less efficient than eating meat directly. In the entire endless sea, hundreds of thousands of sea beasts die of natural causes every year, not to mention those who die unnatural deaths." LAN Guzha didn't treat Lin Yi as an outsider at all, telling him everything he knew.

Lin Yi smiled faintly, "we'll talk about this later. As long as we can make an agreement with your sea beast race, there will naturally be someone in charge of purchasing. I'm just asking about the possibility."

Chapter 5650 Needs A Beating

"Alright then. Boss, if you need inner vitals in the future, just send someone to look for me. I'll definitely get it done for you," LAN Guzha said readily.

LAN Guzha had wanted to give Lin Yi a batch of inner cores, but it seemed like a long-term cooperation from Lin Yi's tone. He didn't make it a definite statement since he was only a junior in the royal family.

"Alright, I'll have to trouble you in the future!" Lin Yi replied politely. LAN Guzha may have taken Lin Yi as his boss, but he was still a royal member of the sea beasts. Lin Yi wouldn't order him around too casually before he understood his character.

"Boss, you're too polite. If you didn't save me, I might only have an inner core left!" LAN Guzha laughed and spoke in a forthright manner, "To be honest, if I had enough power, it wouldn't be a problem to give boss a batch of inner cores every year. Unfortunately, I'm a member of the royal family, and I'm one of the marginal people who don't have much say in the family."

If he can't say anything, how can he make the entire endless sea go into chaos? "Didn't the royal family send all the sea beasts to save you after you were kidnapped?" Lin Yi asked, confused. With such a formation, you must be an important member of the clan, right?"

LAN Guzha shook his head and spoke without a care, "Boss, you don't understand our sea serpent dragon clan. As the Overlord of the endless sea, if we don't have any reaction when a member of our clan is kidnapped, wouldn't our dignity be swept to the ground? So rather than saying that it was to save me, it's better to say that it was for the face of the royal family!"

"You sound so pitiful. If that's the case, you wouldn't have invited me over as a guest this time, right?" Lin Yi didn't think that LAN Guzha would lie, but he still analyzed the situation for him.

LAN Guzha laughed. "That's true. I didn't expect the clan leader to suddenly invite you over, boss. It's probably because that snake shichiro said a lot of good things, right?"

After a slight pause, LAN Guzha continued, "Boss, I'm actually the third-in-line successor of the royal family, but my mother is a sea snake. So, in terms of bloodline, I'm not particularly pure. That's why I've never been valued by the clan. But don't worry, boss. If anyone dares to make things difficult for you this time, I, LAN Guzha, will not let them have an easy time even if I die,"

Lin Yi blinked. LAN Guzha always spoke in a casual tone, but the last few sentences revealed a rare seriousness, as if it was a serious matter.

LAN Guzha wasn't an idiot. He knew that Lin Yi's trip this time wouldn't be smooth-sailing, so he prepared Lin Yi mentally and expressed his determination to protect Lin Yi.

Before Lin Yi could reply, LAN Guzha laughed and returned to his usual tone, "Boss is a rare honored guest. Look at me talking nonsense. Let me introduce you to the scenery of the endless sea!"

Since LAN Guzha had changed the topic, Lin Yi cooperated and didn't say anything more. He turned to talk to LAN Guzha about various things in the endless sea. An hour later, LAN Guzha caught up with the small team of sea beasts led by she yichiro.

Lin Yi and she qilang met up after greeting each other and continued their journey to the deep sea.

With she qilang's participation, LAN Guzha's conversation became more and more cheerful. Lin Yi also knew that according to human terms, she qilang could actually be considered LAN Guzha's cousin because LAN Guzha's mother was an elder of the she qilang clan.

No wonder she jichiro and LAN Guzha got along so well and could play together since they were young. It turned out that there was such a layer of relationship.

Half a day later, the small group arrived at a small island in the depths of the endless sea. This was where the Royal Palace of the sea serpent Dragon Tribe was located.

"Boss, don't be fooled by this small island's appearance. In fact, the part of the island that goes deep into the sea is very large. That is the main body of the palace. It's a pity that I can't take you to see it this time. Unless the patriarch personally gives permission, outsiders are forbidden from entering." LAN Guzha turned to Lin Yi and said a few words, still looking a little regretful.

Lin Yi didn't mind-he wasn't here to visit the palace in the first place, so he smiled. "It's alright. It's good enough that you're a guest on the island. LAN Guzha, you don't have to mind too much. "

"Yo, if it isn't lan Guzha! You're finally back. Only you can be captured by the human clan. It's so embarrassing. If I were you, I would have no face to come back!" Before Lin Yi and LAN Guzha could even reach the island, a sea serpent appeared nearby and mocked LAN Guzha.

Lin Yi thought that LAN Guzha's clansmen were here to welcome him back, but it seemed like he was overthinking it!

LAN Guzha snorted and spoke without the slightest trace of politeness,"LAN Guli, don't waste my time here. I don't want to argue with you today. Move away!"

"Yo, you've got a temper! Is it because I haven't flirted with you in a long time, so you've forgotten the pain?" LAN Guli glanced at LAN Guzha in disdain and pointed at Lin Yi with his claw as if he'd noticed him,"To think that you would let a human sit on your back. LAN Guzha, you're really promising!"

In the simple hierarchy of sea beasts, those who could carry others were of low status. For example, in Lin town, the sea crab that carried the sea snake was just a means of transportation. Now that LAN Guzha asked Lin Yi to stand on his back, it was equivalent to putting himself in a lowly position.

To LAN Guzha, Lin Yi was his boss, so there was nothing wrong with him doing this. However, to LAN Guli, it was LAN Guzha who was ruining the reputation of the sea Dragon clan!

"Lowly human, get off LAN Guzha immediately. Although this bastard is also a lowly thing, he is still not comparable to a human like you!" LAN Guli shouted at Lin Yi without holding back, not caring if he was embarrassing LAN Guzha.

"How audacious! Who are you calling lowly? Do you believe that I will kill you?" LAN Guzha immediately exploded. He immediately propped up half of his body and roared at LAN Guli.

LAN Guli was also a direct descendant of the sea serpent Dragon King. He could be considered LAN Guzha's younger cousin, but his bloodline was pure and his talent was far superior to LAN Guzha's. He was already at the peak nascent soul realm. Although he was the fourth-in-line successor, he had never taken LAN Guzha seriously.

It was precisely because of this that LAN Guzha had been bullied by LAN Guli and his other cousins for a long time. However, he was weak and could not resist. Otherwise, he would not have to leave Flood Dragon Island alone and be captured by central for experiments.
