

## Bodyguard 5721

### Chapter 5721 Follower Of The Gerrard Family

However, Lin Yi could tell them the story after they arrived in Songshan city in detail. It was a pity that Kang Xiaobo and Lai Changyi were both aware of these things. They could only sigh with Lin Yi when they saw his emotional face.

Not long after, Keman's call arrived.

After getting Lin Yi's exact location, it only took him five to six minutes to reach the bar.

The young man from back then had grown a lot taller. He was wearing a simple white T-shirt and jeans, a beige casual suit, and his slightly curly short golden hair. At first glance, he could make people think of the word "low-key luxury."

"Keman, over here!" Lin Yi waved at the door and stood up with Xiaobo. This was respect for a friend, not for someone like her.

Keman followed Lin Yi's voice and looked over, his face full of joy. He ran over with his long legs, not even bothering to greet the young man behind.

"Big brother Ying! I've finally found you!" Ke man ignored Lin Yi's outstretched hand and gave him a big hug before greeting Xiaobo and Changyi with a smile.

He didn't introduce them officially yet, but since they were Lin Yi's followers, he naturally expressed his goodwill.

Lin Yi gestured for everyone to sit down after the person who came with Keman arrived. Xiaobo and Changyi introduced themselves as Lin Yi's lackeys, making Keman feel closer.

"Big brother Ying, this is Lehmann Gerrard, my friend. His family and mine have some relationship, so Lehmann often comes out with me to play." After Xiaobo and Xiaobo finished introducing themselves, Keman introduced the young man as well.

"Hello everyone, I'm lehmann Gerrard. If you have any trivial matters in Europe in the future, just find me to arrange it. If there's anything big, you still need brother Keman to come." Lehmann smiled brightly. This young man gave people a good impression easily, and didn't have the foppish air about him. Perhaps it was because of his respect for Lin Yi and the others?

From their conversation, Lin Yi could easily tell that Lehmann was Keman's little brother. Or, the Gerrard family was the little brother of the Buffon family, so Lehmann was like a follower, following Keman around to play.

When the new glasses arrived, Lehmann took the bottle and poured Keman some wine. He asked if the three needed more before pouring for himself.

"Big brother Ying, where have you been all these years? Why can't I find you?" Keman asked impatiently after a toast to Lin Yi.

"I'm in school," Lin Yi smiled faintly.

Xiaobo and Changyi couldn't help but chuckle-their boss had just said that he wasn't going to school, but was going to be a bodyguard, and now he was saying that he was going to school again? Well, that wasn't wrong-Lin Yi had been at school for a long time, but it was only in name, of course. He'd actually been skipping classes every few days.

"Go to school?" Keman was taken aback-he didn't expect an answer like that. No wonder the people he sent out couldn't find Lin Yi. He'd never asked his men to pay attention to the students ...

"You said you've been looking for me for a long time. Is there something you need?" Lin Yi didn't rush to talk about miracle doctor Guan's Medical Group, but asked Keman first.

Keman shook his head, putting the thought of Lin Yi going to school aside and putting on a face of admiration, "It's like this, big brother Ying. I've always wanted to be your disciple and learn from you. I was still young at that time, so I didn't think of it at first. I only regretted it after you went back. I've been looking for you for several years. Now that I've finally found you, you must take me as your disciple and teach me Kung Fu!"

Lin Yi didn't know what to say-this guy really was a hero. He'd searched the entire world for a guy for years just to Learn Kung Fu, and he'd made up his mind.

"Big brother Ying, if you can, please take me in as well. I'm the same as big brother Keman, we both admire your martial arts!" Lehmann said.

"Lehmann, don't worry. If big brother Eagle takes you in, I'll definitely take you in. After we finish our studies, we'll be able to sweep across Europe!" Ke man patted his follower's shoulder as if Lin Yi had already agreed to take them in.

But Lin Yi didn't even say anything, how did it become a certainty?

Xiaobo and Changyi couldn't stop laughing-they didn't think they'd come across something so fun with their boss.

Lin Yi saw the two guys "shoulders shake a little, and his lips curved up."You guys don't have any Foundation yet, so you should learn from Kang Xiaobo and Lai Changyi first. I taught them too, and it'll be easier for them to teach you guys since you'll be interacting more often in the future."

Xiaobo and Changyi froze-what was this about? They were also the joint Directors of miracle doctor Guan Medical Group, so they didn't have the time to play with these two kids.

They weren't much older than the two, but to them, they were still children.

Both of them looked at Xiaobo and Changyi in disbelief, especially Changyi. He was in Foundation Stage, but he still looked like a fatty. He didn't look like a master at all.

Xiaobo wasn't happy about it, and neither were the two!

Lin Yi smiled faintly as he pointed at the alloy table. "The corners of this table are a little sharp, so it's easy to get hurt. Cut it off with your hands and make it round and smooth."

Lin Yi wanted them to show off their skills so that the two foreigners would be convinced. What Lin Yi said was child's play to the two, and since it was their boss's order, they could only smile and shake their heads, following his instructions.

The two of them each stretched out a finger and gently drew an arc on the corner of the table. The alloy table top was immediately cut into a smooth and thin line by true energy. The two of them casually pinched and removed the small corner of the table.

Keman and Lehmann's mouths were wide open. They couldn't believe what they were seeing. "Is this magic? Big brother Ying, you brought two magicians with you, right?"

Keman said as he pounced over. He touched the smooth cut. It was indeed made of alloy. Was it cut before? But was there a need for Lin Yi to do this?

Chapter 5722 The Exhibition Stage Is Surrounded

Xiaobo said arrogantly as if he were looking at a country bumpkin. "Come on, move aside, Keman. This circle isn't smooth enough. Let me fix it."

Xiaobo wiped the corner after Keman stepped away, leaving a fine layer of metal powder on the ground.

Keman looked at the rounded corner again. The shape had indeed changed, and he finally believed what he saw.

The two European young men looked at Xiaobo and Changyi with shining eyes. The two were enjoying the look of surprise on their faces. They suddenly felt that it was not bad to have two disciples like them.

"Alright, it's settled then. Let's talk business," Lin Yi smiled.

Keman wiped the drool from the corner of his mouth and quickly sat up. "Big brother Ying, if you need anything, just tell me. I'll do my best to help you!"

"There's no need for that. If it's difficult for you, you don't have to force yourself. " Lin Yi said with a smile before getting to the point. "Keman, I wanted to ask if your family has a pharmaceutical business?"

"Haha, so you're asking about the business, big brother Ying. That's no problem then. I'll definitely be able to help, because our family does all kinds of business! Big brother Ying, just leave it to me!" Keman grinned and said with confidence.

"You do all kinds of business. Do you open a shopping mall?" Xiaobo interjected with a smile, not expecting a nod from Kman.

"We also have shopping malls, but only about 30 of them belong to our family in the entire Europe. We still need to expand our scale."

Xiaobo's eyes brightened-it seemed like the Buffon family was really strong. From what Keman said, the mall was just one of the less important businesses, but these channels would be very helpful for the sales of miracle doctor Guan's Medical Group.

"That's good," Lin Yi nodded, " have you heard of miracle doctor Guan Medical Group?" Miracle doctor Guan wants to sell his products in Europe, so he needs an agent. "

Before Lin Yi could finish, the man said excitedly, "Miracle doctor Guan Medical Group, the one that has medicine for wounds? I know, when I sent people to look for brother Ying, I heard about the name of miracle doctor Guan's golden sore medicine. Later on, my men even smuggled some over, and the effect was amazing. Brother Ying, are you representing miracle doctor Guan's Medical Group? If that's the case, you have to give us the right to be the agent!"

Lin Yi and the other two froze, not expecting the kid to know about their stuff. However, he could accept his explanation-anyone who'd been in China and had come into contact with medicine for wounds would have a deep impression of this.

Since Keman knew about it and had the intention to do so, it was easy to negotiate.

Xiaobo and Changyi reintroduced themselves as co-directors of miracle doctor Guan's Medical Group, and Keman immediately decided to work with them.

Although Keman was young, he was already a leader of the new generation with great power in the Buffon family. He could take over this Agency Power on his own.

Out of respect for Lin Yi, and the fact that he was going to learn kungfu from Xiaobo and Xiaobo soon, Keman generously gave the best offer he could. The agency fee for miracle doctor Guan's Medical Group was one hundred million euros, and the supply price was the retail price in China. This condition was

much better than the one he gave to the fresher family. The agency fee was several times higher, not to mention the supply price.

Keman wasn't just giving away the money-it was a win-win situation. His men had been in the smuggling business of miracle doctor Guan's medicine, and they knew how much profit there was. As long as they got the exclusive agent rights, a hundred million wouldn't be much. If they had enough supply, they could make seven to eight hundred million a year.

Both sides were sincere, and they quickly discussed the details. They agreed to sign the contract the next day, and Keman would have a press conference to spread the news. After all, miracle doctor Guan's medicine for wounds was only smuggled goods, but it was already well-known. They could use this chance to promote it, and it would definitely shoot to fame.

After the business was done, the business elite turned into a young man dreaming about Kung Fu, pestering the three with questions.

In the end, the two guys were directly sent to the hotel room, and Lin Yi's group finally broke free. It was almost 1:30 in the morning, and Jingyi and the others had already returned to their rooms to rest.

The next afternoon, the Buffon family held a press conference at miracle doctor Guan's booth to prepare for the signing of the contract with miracle doctor Guan Medical Group.

Lin Yi didn't need to worry about it since the Buffon family was in charge of it. Keman didn't wake up until noon. After washing up, he went to the stadium in high spirits.

It wasn't time yet, and the preparations for the press conference weren't done yet, but that bastard, Abel, got the news from somewhere that someone was going to sign a contract with miracle doctor Guan's Medical Group, so he brought his people over.

Seeing that Kang Xiaobo and Lai Changyi were here, but Lin Yi wasn't, Abel waved his hand and ordered his men to spread out and surround miracle doctor Guan's booth, preventing anyone from entering this area.

Xiaobo's face darkened as he stepped forward. "Abel, what do you mean by this? Are you trying to cause trouble?"

"Haha, which eye of yours saw me messing around? I'm maintaining order and helping you! Shouldn't you be thanking us properly?" Abel was quite shameless. He was lying through his teeth.

"Thank you for your trouble, but we don't need it. Please leave, or don't blame me for being impolite!" Xiaobo said with a cold smile.

Abel froze. Xiaobo's violent actions last night were still fresh in his memory. However, he remembered what Igradopovich said about these people following the rules, at least not daring to act rashly after the security guards arrived. That was reassuring.

"Is this your private place? Why don't we call the security guard over to ask if there's such a saying?" Abel looked at Xiaobo teasingly, as if he was certain that Xiaobo wouldn't be able to do anything.

Xiaobo couldn't do anything about it-these people were all in the public area, and he had no reason to chase them away even if they came to the front of miracle doctor Guan's booth. They were just standing there, and there wasn't any cordon or anything. If others didn't come in, they had nothing to do with it.

#### Chapter 5723 Drawing Water With A Wicker Basket

Seeing Xiaobo's deflated expression, Abel smiled gleefully."Mr. Kang, I've said it before, without the support of our Flesher family, you will have a hard time in Europe. How about it, I've prepared a new contract from yesterday, why don't you sign it? You see how magnanimous I am, you should be grateful for this. "

LAN Guzha appeared out of nowhere, a big bag of hamburgers in his arms, his mouth stuffed full. Seeing how arrogant Abel was, he turned to Xiaobo and mumbled,"Brother Kang, this guy is quite annoying. Do you want me to beat him up for you?"

Xiaobo smiled-he'd gotten to know LAN Guzha better these days, and he knew that LAN Guzha simply liked to fight, or to be more precise, bully noobs. Lin Yi didn't allow him to do so, and he'd seize every opportunity he had. If Xiaobo agreed, then he wouldn't be disobeying Lin Yi's orders.

"No need. LAN Guzha, you can go and find the boss. I can handle this." Xiaobo waved his hand with a smile. He knew that LAN Guzha didn't know how to control his strength, and he didn't dare let LAN Guzha attack.

LAN Guzha shook his head with a face full of regret. He took out a hamburger from his bag and took a big bite as if he was venting his anger. He then went to the resting room where Lin Yi, sun Jingyi, Xu Shihan, and the others were waiting.

Abel suddenly felt cold sweat on his forehead. The moment he saw LAN Guzha, he was reminded of igradopovich's five bodyguards. It was said that they were caught in an instant by the blue-golden haired

guy, and then their limbs were brutally broken. If he had attacked him just now, wouldn't he have ended up just as miserable?

Feeling a little scared, Abel didn't dare to say anything more. After all, today's goal was to ruin the contract between miracle doctor Guan's Medical Group and some European companies or individuals. As long as he showed the name of the fresher family, no one would dare to go near him.

"Yo, isn't this the watchdog of the Flesher family? you're in such a good mood to come for a walk? Where's your master? Didn't he bring a rope with you?" Just as Abel was thinking that few people would dare to offend the Flesher family, a fearless person came over. It was the young master of the Buffon family, Keman Buffon!

Looking back, Abel's face turned ugly. Keman didn't come with Lehmann alone. There were more than 20 bodyguards. They were supposed to keep order, but before the press conference even started, they had surrounded the people from the Flesher family.

"Keman, this is the territory of the Flesher family. I'm doing something important right now. Are you trying to provoke us with your people?" Although he was a little afraid of the Buffon family, he would never be afraid!

"I don't have the time to provoke a guard dog. I'm here on official business today. Did you see the layout of the press conference?" Keman pointed at the conference that wasn't ready yet, and his meaning was clear.

"Keman Buffon! This is the business that our Flesher family set our eyes on first. Do you want to snatch it from us?" Abel stared at Keman angrily. He immediately realized that it was the Buffon family who had formed a partnership with miracle doctor Guan's Medical Group! However, he also knew that this business deal might really be hopeless.

The Buffon family's strength was no worse than the Flesher family. Perhaps they were even stronger. More importantly, the Flesher family and the Buffon family had always been at odds. They were originally like enemies, and they would not give him face.

As expected, Keman laughed and said, "that's funny. You're talking as if you've never taken our business." Plus, I've come to an agreement with miracle doctor Guan's Medical Group, not like some shameless people who only know how to play dirty tricks. Forget it, I don't need to waste my breath on a dog. It's such a waste of my breath and lowering my status!"

Abel's face was livid. He gritted his teeth and said, ""Keman Buffon, don't forget where this place is! This is Milva, the territory of our Flesher family. You dare to come here to be presumptuous. Aren't you afraid that old Buffon will be sad?"

Before Keman could say anything, Lehmann sneered, ""What a joke. If your Flesher family dares to touch Keman here, we, the Gerald family, will be the first to teach you a lesson!"

Abel squinted his eyes and looked at Keman and Lehmann with killing intent. Although the Gerrard family was a younger brother family of the Buffon family, and their strength was more than a level lower, this family was famous for their crazy fighting will. If they really bit the Flesher family, even if they couldn't kill the Flesher family, they could definitely tear a big piece of flesh off.

"This young master is in a good mood today and doesn't want to argue with a guard dog like you. If you want to find trouble with this young master, just ask Edmund or his good-for-nothing sons to come! You're still not qualified!" Keman said to Abel in disdain. He then waved his hand and ordered his men to chase him and the other members of the fleschers away. This was their territory, but Keman had the confidence to do so. He had to admit that this guy had the potential to become a tyrant when he fully matured.

Although Abel was unwilling, he couldn't do anything about it. His heart was bleeding when he saw a business as big as a treasure bowl being taken away just like that. If he had known this would happen, he would have signed the contract according to Changyi's terms and conditions yesterday. The terms and conditions were really favorable. It was a piece of cake to make one billion euros a year.

But now, they'd gotten nothing. Miracle doctor Kang's medicine for wounds, like miracle doctor Guan 's, had been taken away by the sacred Alliance a long time ago. The fresher family could only watch as they ate the meat. They couldn't even get the soup.

This was all the fault of that idiot, igradopovich. What kind of rotten idea did he come up with! Abel thought to himself. Unfortunately, he couldn't do anything. Keman was right. He was just a dog under Edmund, and igradopovich was Edmund's nephew. What should be done in the end was for Edmund to think about!

"Brother Kang, brother Ying didn't come?" Keman's expression changed completely when he turned to Xiaobo. He was full of smiles and was extremely enthusiastic. After seeing Xiaobo's strength last night, he really wanted to learn from him.

#### Chapter 5724 Confession At The Concert

"Boss's here, resting in the resting room. Did you sleep well last night?"Xiaobo said with a smile.

"It's fine, it's fine. This little bit of wine is nothing. After today's press conference is over, let's go have a few more drinks, how about it?" Keman laughed as if he wasn't the one who was drunk yesterday.

Xiaobo, on the other hand, didn't mind. With his strength, a jar of white wine wouldn't be a big deal, much less a few bottles of red wine. He could even drink a million glasses with his pure Qi.

The two stood on the side and chatted for a while. The background of the conference was almost done. If the banner 'miracle doctor Guan Medical Group authorized Buffon group to exclusively represent all products in Europe' had been hung up earlier, that unlucky fellow, Abel, probably wouldn't have run into the muzzle.

That's why the early worm will be eaten by the bird! Wouldn't everything be fine if you came over later?

With the Buffon family in charge, the rest of the process went smoothly. Keman, as the Buffon family's representative, signed his name with Kang Xiaobo and Lai Changyi under the spotlight. Then, they exchanged contracts and officially announced the establishment of their cooperation. Miracle doctor Guan Medical Group also began its steps into Europe.

Although the Flesher family was unwilling, they didn't dare to do anything to Keman on the surface. They were enemies, but they couldn't do anything to Keman before they were confident enough. If something happened to Keman, they would be blamed for it, whether it was them or not. In the end, the Flesher family would lose their sense of justice and be attacked by the other neutral families. Therefore, Edmund couldn't do anything to Keman. He also had to ensure Keman's safety.

As for whether or not he would secretly find someone to get rid of Keman after he left the territory of the Flesher family, that would depend on the situation.

After signing the contract, Lin Yi didn't have much to do anymore. The Buffon family would naturally take care of the European market. Xiaobo and Changyi only needed to sit at home and collect the money and deliver the goods.

"Big brother Ying, where are you planning to go now?" Ke man smiled as he followed behind Lin Yi. He found a big business opportunity for his family, and it was a huge contribution. On top of that, he could finally learn the martial arts he had been dreaming of. He was in a great mood.

He didn't need to worry about the future business, and so he had a lot of free time right now. It would be great if he could follow Lin Yi around.

"I'm going to Lanmi with them to watch Cheng Yiyi's concert. If you're free, you can come along." Lin Yi smiled.

Even if Lin Yi didn't invite him, he'd probably go with him anyway, so Lin Yi decided to just ask him to come.

Keman immediately smiled and nodded. "I'm fine, I've been idle all day. I know Cheng Yiyi, she's a very famous Chinese singer, and I'm her fan as well. Let's go together, big brother Ying, do you have tickets? Should I get someone to buy the tickets first?"

The tickets for Cheng Yiyi's concert had been sold out a month ago. There were no scalpers in Europe, and only a young master from a big family like Keman would dare to ask for tickets.

"That's not necessary, we'll just go in," Lin Yi smiled.

"We go in directly?" Ke man was a little suspicious, but when he saw Xu Shihan coming out of the resting room, he understood how they were going to go in.

"Xu Shihan~~~~!" Surprisingly, the two inseparable guys, Leyman and Keman, were fans of Xu Shihan as well. They didn't even care about Lin Yi and the others when they saw Xu Shihan, they just rushed over and asked for autographs and photos.

Sure enough, the young masters of big families were still ordinary people and would have the need to chase after stars. However, compared to trash like igradopovich, these two boys were clearly more favorable. At least they would not show off their identity and then look down on celebrities.

After a while, Keman found a long luxury car and put the group in before leaving for LAN mi.

There was food, drinks, and fun in the car, so they didn't feel like time was slow. When they arrived at LAN MI's concert venue, the sky was already dark. The group had already eaten and drank their fill in the car, so they didn't need to find a place to eat anymore. Xu Shihan brought them directly into the venue.

Of course, the only person who was dissatisfied was LAN Guzha. To let him eat his fill, the reserve of luxury cars was obviously not enough. It would be more appropriate to get a cargo car ...

With Cheng Yiyi's arrangement, Lin Yi and the others were all seated in the front row. Ke man and Lin Yi were very pleased with themselves. Although they had the best seats when they watched concerts before, it was the first time Xu Shihan had brought them here personally. Naturally, they were in a different mood.

A song and a dance opened the stage. Cheng Yiyi's voice was different from Xu Shihan 's-it lacked the ethereal air of a fairy, but it was more direct and fiery. With her graceful figure and sexy dance, it ignited the atmosphere of the audience!

If Xu Shihan was a fairy, then Cheng Yiyi was a demoness. When the fairy and the demoness appeared at the same time, the entire place exploded with noise. From this, one could see how popular the two were in Europe. They were definitely treated like world-class superstars.

After the two finished singing, Cheng Yiyi held Xu Shihan's hand and said shyly, ""I'm very happy to have so many friends come to watch my concert today, especially one of them. He's my most important and favorite person!"

The entire venue erupted in a huge uproar. No one had expected Cheng Yiyi, who had never been involved in any scandals, to suddenly say such a thing.

Lin Yi was a little stunned as well, but he knew what Cheng Yiyi was going to say. He couldn't do anything about it now.

After the crowd quieted down a little, Cheng Yiyi continued, ""I've always liked this person, but I've never confessed to him. Because he's the person my good sister likes, I didn't dare to say it. If possible, I might never have said it. But today, my good sister encouraged me that I have to fight for my own happiness. So, I've gathered my courage and confessed to him in front of the whole world!"

Cheng Yiyi's words were forced out of her mouth towards the end. The last two words, confession, were shouted out with all her might. It was obvious that she was really nervous to the extreme. If it wasn't for Xu Shihan holding her back, she would probably be lying on the ground now.

Chapter 5725 Cheng Yiyi Disappeared

Lin Yi sweated-he'd be an idiot if he still wasn't sure that he was the one being confessed to, after all that Cheng Yiyi had said.

To be honest, Lin Yi had a good impression of Cheng Yiyi. Although Cheng Yiyi had approached Xu Shihan as a spy and tried to seduce Lin Yi before, everything that happened later proved that she was a good girl.

Sun Jingyi, Kang Xiaobo and Lai Changyi looked at Lin Yi with a mischievous smile. Lin Yi already had many female friends, so it didn't matter if he had Cheng Yiyi as well. Even sun Jingyi wasn't unhappy at all, so it seemed like this matter would be settled once Cheng Yiyi spoke up.

All the fans in the audience shouted in unison, ""A confession! A confession! ..."

Although Cheng Yiyi was a super idol, her fans also admired her more than anything else. Furthermore, they were full of romantic elements in their bones, so they were very lucky to be able to witness this romantic moment with their own eyes.

With the encouragement from the fans, Cheng Yiyi finally gathered her courage and looked at Xu Shihan gratefully. She let go of Xu Shihan's hand and slowly walked to the front stage.

The spotlight followed Cheng Yiyi's every movement, as if she was the only one left in the world. When she said the name of the person she wanted to confess to, another spotlight would shine on him, making the two of them the protagonists of the world!

All of a sudden, all the lights disappeared without warning, and the entire place was plunged into endless darkness. At first, everyone thought that this was preparation for a confession. Because Cheng Yiyi was shy, she needed some darkness to boost her courage, and many people laughed kindly.

Only Lin Yi felt that something was wrong. The moment the light disappeared, Lin Yi's divine sense was completely blocked. He couldn't even feel the people around him. This wasn't a normal situation.

"LAN Guzha! Pay attention to protect them!" Lin Yi growled as he grabbed Jingyi by her waist and flew onto the stage.

There was nothing in Lin Yi's memory of Cheng Yiyi's current location. He didn't stop and continued to rush towards Xu Shihan, sending dozens of Qi into Xu Shihan's surroundings.

In the next moment, Lin Yi's hand held onto Xu Shihan's slightly cold palm. He calmed down and said softly, ""Shihan?"

"Big brother Lin, it's me!" Shihan's voice was shaking. "It seemed like something was trying to catch me just now. Luckily, brother Lin, you came in time. Where is Yiyi?"

"I don't know either!" Lin Yi replied casually as he sent out a ball of refinement fire. He controlled it to quickly circle around the stage, but the fire could only barely light up an area of one foot around the stage. After it flew past, there was nothing. Cheng Yiyi was nowhere to be seen.

The audience, who finally realized that something was wrong, began to fall into chaos. They screamed sharply because their mobile phones couldn't light up the people around them. Not to mention the light on the screen, even if they turned on the flashlight function of their mobile phones, it would be the same. It was as if there was a monster in the dark devouring the light.

Lin Yi brought Jingyi and Shihan back to the front row-it was easier to look after each other if they stayed together, in case something happened.

Ten seconds later, the lights came back on, and the audience's emotions calmed down a little. However, Cheng Yiyi was still nowhere to be seen. The security guards appeared to maintain order in the venue and keep everyone calm.

Lin Yi's spirit sense was back to normal, but he couldn't find any trace of Cheng Yiyi no matter how hard he tried.

A living person disappearing right under Lin Yi's nose without leaving a single trace was almost impossible, but it did happen. The biggest suspect was central!

"Big brother Lin, where did Yiyi go?" Xu Shihan grabbed Lin Yi's arm tightly and asked with a panicked face.

Lin Yi shook his head, "I can't find her yet, but don't worry, we'll find her eventually!"

After consoling Xu Shihan a little, Lin Yi turned to LAN Guzha, "I'll leave this place to you. You must ensure their safety. I'll go find Yiyi. "

LAN Guzha nodded with a solemn expression, "Don't worry, boss. I'll protect them with my life!"

With his strength, other than Lin Yi, he was basically invincible in the secular world. Lin Yi was very assured that as long as they were by LAN Guzha's side, there should be no problem.

After nodding to the crowd, Lin Yi transformed into his spirit form and flew above the concert hall. He spread out his spirit sense, almost covering the entire blue rice!

Unfortunately, no matter how hard Lin Yi searched, he couldn't find a single trace of Cheng Yiyi. It was as if she had never been here before. She had completely disappeared.

At the same time, on the flying saucer that was far away from the blue rice, Zhaolong was cackling. "Lin Yi, you idiot, how dare you hit me! And you always like to act cool in front of me. Are you dumbfounded now? Hahaha! Let him be arrogant! This time, he can't even protect his woman. Let's see how he can continue to act tough!"

Chen Dongcheng, who was in the corner, looked at Zhaolong with disdain. He really looked down on this guy. He had no ability at all, yet he was always thinking about stepping on Lin Yi. If it wasn't for his brother Zhaoming's position in central, he wouldn't even let him come up.

Chen Dongcheng had already thought of joining Lin Yi's side, and now he felt that central was hopeless. They were all a bunch of defeated soldiers, and they didn't dare to fight Lin Yi face to face. They even kidnapped him, and let trash like Zhaolong join the plan. It was like a joke-it didn't look like they were going to do something big at all.

It was a pity that Chen Dongcheng couldn't go out as he pleased, and he didn't have any tools to contact Lin Yi. Otherwise, this would be a pretty good opportunity to show off.

Zhaolong was still laughing, and Chen Dongcheng snorted to himself. This idiot thought he could threaten Lin Yi with Cheng Yiyi? Wouldn't he be dead if Lin Yi caught him? If he wanted to go against a

strong person like Lin Yi, he needed to be strong enough to fight him. Otherwise, everything would be empty talk.

Even he, Chen Dongcheng, could see through it, but these smart people in the center could not see through it? That could only be said that they were a group of short-sighted rats!

Chen Dongcheng was so engrossed in his own thoughts that he didn't notice Xue Jianfeng's abnormal quietness. His eyes were sparkling with a strange light, as if he was planning something.

Chapter 5726 Caught The Wrong Person?

In the isolation room, Cheng Yiyi woke up. She didn't panic, but calmly observed her surroundings. She knew a few people on the flying saucer, like Zhaolong, a member of miracle doctor Kang's family.

"Zhaolong? Did you kidnap me?" Cheng Yiyi's eyes stopped on Zhaolong as she spoke coldly. She reached out and touched the alloy fence in front of her. With her strength, a normal alloy fence wouldn't be able to stop her.

However, as soon as her fingers touched the bars, a strong current surged through her body and sent her arm flying. Cheng Yiyi let out a muffled groan and fell on her back.

Zhaolong turned to the solitary room and laughed, "Cheng Yiyi, don't waste your energy. There's over 10000 volts of high-voltage electricity on the fence. You're lucky this time that you only touched it lightly with your fingertips. If you had reached out and held it, I wouldn't have been able to save you!"

Cheng Yiyi's entire arm was numb from the electric shock, and half of her body was numb. She struggled to sit up and said with a cold smile, "What's the point of capturing me? Big brother Lin will find me soon and save me. By then, none of you will be able to escape. "

"Haha, you're using that idiot Lin Yi to threaten me? You're quite bold!" Zhaolong stood up and walked over to the fence, looking down at Cheng Yiyi. "If Lin Yi wants to save you, he'll have to find you first. Of course, I'll give him a chance. As long as he can give me the miracle doctor Medical group's recipe, I don't mind letting him find you."

"Don't be delusional. I have no relationship with big brother Lin. Do you think you can use me to threaten him?" Cheng Yiyi was glad that she didn't have the chance to confess to Lin Yi. At least for now, she and Lin Yi were just normal friends, and they shouldn't be used to threaten Lin Yi.

Zhaolong paused-this was something he'd been more concerned about. He'd wanted to get either Shihan or Jingyi-these were the two people Lin Yi really cared about, but he didn't manage to catch either one.

"You're all trash, yet you can't catch the key person!" Zhaolong grumbled, displeased.

"What did you just say? Do you want to die?" Chen Dongcheng said coldly. He was a xuansheng stage cultivator. No matter how quiet Zhaolong was, he couldn't hide anything from him.

If it was Zhaoming here, Chen Dongcheng might be a little worried. After all, he was an important member of Sky Class Island. But Zhaolong was nothing! He could not even be considered a cultivator and did not have any special abilities. If they really killed him, the central government would probably not do anything to Chen Dongcheng.

Zhaolong's body trembled slightly. He wasn't an idiot, and he knew that he couldn't afford to offend these two masters. He laughed dryly to cover it up before turning to Cheng Yiyi. "You'd better pray that

Lin Yi will come for you. If he doesn't, then you're useless. You can just use him for human testing. Of course, it's not right to say that you're useless. You're an international star, after all. Before the human test, you can let me have a taste of a star like you and see how you're different from other women. "

Cheng Yiyi's expression changed slightly, but she didn't say anything more. After all, it was useless to say anything.

Chen Dongcheng looked at Zhaolong with more and more disdain. Even though Zhaolong wasn't a good person in the past, he couldn't bear to see someone as shameless as Zhaolong.

If she had the chance to follow Lin Yi, she would give him the head as a small gift.

Xue Jianfeng said faintly, "cut the crap. I know Lin Yi. On the surface, he's very kind and righteous, but he'll do anything to protect anyone who has a relationship with him. Even if Cheng Yiyi isn't his woman, as long as she's his friend, he'll do the same. Lin Yi won't leave her alone. Go back first and wait for Lin Yi to come."

Zhaolong glared at Cheng Yiyi before turning back to smile. "Master Xue's right, that Lin Yi's a hypocrite, he likes to put on airs. This means that the plan is a success."

Chen Dongcheng's eyes lit up at Xue Jianfeng's words. He didn't think that Lin Yi was such a protective person. Whoever followed him wouldn't be at a disadvantage. In other words, the advantages of switching to Lin Yi outweighed the disadvantages.

Unconsciously, the scales in Chen Dongcheng's heart were leaning towards Lin Yi's direction. If he had the chance, he might just surrender to Lin Yi.

Lin Yi flew around LAN mi a few times, scanning the entire city inch by inch with his spirit sense. He couldn't find anything, so he returned to the stadium helplessly.

During this time, all the audience had been evacuated, but the entire venue had been sealed off. Cheng Yiyi's sudden disappearance during the concert was definitely a major incident for the city. If it weren't for the large number of audience members, the police wouldn't have even allowed anyone to leave first.

Xu Shihan and the others were still in the stadium, but they returned to the backstage from the audience. LAN Guzha was indeed protecting everyone meticulously, ready to attack at any moment.

When Lin Yi appeared alone, Xu Shihan was obviously disappointed. Even the omnipotent Lin Yi couldn't find Cheng Yiyi, didn't that mean that Cheng Yiyi was already in danger?

"Boss, didn't you notice?" LAN Guzha asked with a rare serious expression. The other party was able to take her away under his and Lin Yi's eyes. It was impressive, but at the same time, it made LAN Guzha lose face.

"No!" Lin Yi shook his head. "But even if they didn't find anything, it's still a discovery. From this situation, the only possibility is that central has captured Yiyi. Since they've captured her, they must have some purpose. They'll definitely contact me when the time comes, so you don't have to worry. For now, Yiyi is still safe."

Hearing Lin Yi's words, Xu Shihan relaxed a little. However, Cheng Yiyi falling into Lin Yi's enemy's hands wasn't something to be happy about. She had to save her as soon as possible.

It was a pity that they didn't have any leads right now-they had to wait for central to contact Lin Yi.

The flying saucer had already left Europe and was flying above the ocean. When it reached the open sea, it dove into the water and continued to dive deeper at high speed.

Chapter 5727 Central Saint Base

The UFO only slowed down after reaching a depth of about a thousand meters. It glided slowly towards an oceanic trench. When the UFO neared, the dark trench suddenly lit up with starry lights. The entire trench slowly wriggled and separated into two sides. A huge metal platform gradually appeared. According to the lights, the UFO landed smoothly on one of the lift platforms and entered the platform.

Zhaolong couldn't help but gasp. "I can't believe there's such a base at the bottom of international waters. It's so shocking. It's like watching a science fiction movie. With such power, it'll be easy for central to rule the world, right?"

"It's rare to see so many strange things!" Chen Dongcheng said with disdain.

In fact, it was his first time here and he was also very shocked. However, there were not many technological items in the ancient martial world, so a mobile phone and a base like this did not have much difference to him. He thought that since there was such an incredible tool like a mobile phone, there was nothing to be surprised about in this base. At most, it would be a few times larger than a mobile phone.

After the seawater in the pod was completely drained, the door of the flying saucer opened. Xue Jianfeng pressed a button, signaling for the two of them to bring Cheng Yiyi down.

Walking out of the elevator, the professor was waiting at the door. He ignored Xue Jianfeng and the others, and politely said to Cheng Yiyi, ""Miss Cheng, I've heard a lot about you. Your voice is very moving, and I've never had the chance to listen to you sing live. This is the central sacred zone. Welcome, miss Cheng!"

Cheng Yiyi snorted and completely ignored the bespectacled guy. No matter how she looked at him, he was a perverted character, so why should she bother with him?

If it weren't for the fact that all her meridians were sealed by the powerful Qi from the snow sword, Cheng Yiyi might have already killed this guy. He seemed to be the leader of this group, which meant that he was the leader of Lin Yi's enemies. Killing him should be of some help to Lin Yi, right?

"Miss Cheng doesn't seem very happy. It's alright, I'll arrange for someone to show miss Cheng around our central sacred zone. I believe you'll like it here very soon." The professor smiled nonchalantly and ordered one of his followers to show Chen Dongcheng and Zhaolong around the base. He then led Xue Jianfeng in another direction.

It was clear that in the doctor's Heart, Xue Jianfeng's status was higher than Chen Dongcheng's, and this made Chen Dongcheng lean more towards Lin Yi's side.

Xue Jianfeng didn't ask anything. He just followed the doctor silently. After walking through the long alloy passage, the doctor finally stopped in front of a door.

After he took off his glasses, countless rays started from the top of his head to the tip of his feet. A 3D projection appeared on the door. He compared the face, skeleton, Iris, and other aspects. After confirming that there was no mistake, he quietly slid open the door.

"Come in!" The professor put on his glasses again and said without looking back. Xue Jianfeng nodded silently and followed him in.

The room was like a small screening room. In front of a huge screen, there was a long alloy table. On the side facing the screen, there were seven chairs. At this time, a young woman was sitting on the middle chair.

The bespectacled doctor walked to the woman's side and bowed slightly. "Miss LAN, we've caught him. What should we do next?"

LAN xiaoru's fingers swiped quickly on the table a few times, and the huge screen was instantly divided into hundreds of small screens, showing the important passages of the central Holy region.

There were images of Cheng Yiyi, Chen Dongcheng, and Kang Zhaolong. LAN xiaoru nodded. "Cheng Yiyi, that's a pretty good bait. How's the development of the new drug?"

"We have already made a sample. If miss LAN agrees, can you let Xue Jianfeng try the effect of the injection?" The bespectacled doctor didn't care that Xue Jianfeng was right behind him. He spoke as if Xue Jianfeng was an ordinary white mouse.

Xue Jianfeng was secretly angry, but if he could improve his strength, then so be it. He didn't need to be too calculative.

LAN xiaoru turned to Xue Jianfeng and said, ""Xue Jianfeng, you are one of the core's elites. Every time there is a new potion that can increase our strength, we will give you priority. You should know that the materials for these potions are very rare, and the production is very limited. If you are not willing, you can tell us, and we will consider replacing you with someone else to test it out. Of course, we will not give you priority in the future."

Xue Jianfeng was slightly stunned. Although it was still the same meaning, LAN xiaoru's words seemed to be a little more pleasing to the ear. Even if there was a threatening tone, Xue Jianfeng could accept it.

"Ms. LAN, please let me use the medicine. I believe I can bear the test of any new product!" Xue Jianfeng was straightforward-if he couldn't increase his strength, he'd never be able to surpass Lin Yi, and that was something he couldn't accept!

Lin Yi was Xue Jianfeng's biggest enemy, and he had always wanted to kill Lin Yi. However, no matter how hard he tried, he was always suppressed by Lin Yi. This made him want to get stronger even more, even if he had to take a certain risk!

LAN xiaoru didn't know what Xue Jianfeng was thinking. After hearing the answer she wanted, she nodded in satisfaction. ""Very good. As long as you're willing to cooperate, you'll always be an elite that we're focusing on. I called you here to talk about this. You can go out first. I'll give you a new injection after discussing with the professor."

Xue Jianfeng bowed slightly and replied respectfully. Then, he turned around and left the room.

After the door was closed, LAN xiaoru said to the doctor, ""How's the effect of the new potion?"

She didn't care about the safety and other indicators. The most important thing was the effect!

The professor obviously knew about LAN xiaoru's style, so he immediately replied, ""Although we haven't tested it yet, from the technical index, it doesn't seem to be as good as expected. It can even be said to be much worse. Or should I try it on someone else first? After all, it's rare to find an experimental subject like Xue Jianfeng. "

Chapter 5728 You're Lin Yi, Right?

LAN xiaoru shook her head, "there's no time. Let's try it out first. I've contacted the original body on Sky Class Island. They said that Lin Yi's essence spirit was projected here. His body hasn't been damaged for so long, which means that his essence spirit doesn't have much effect on his body."

The bespectacled doctor raised his head slightly and looked at LAN xiaoru. ""You're saying that you're going all out against Lin Yi's soul?"

"Of course. Do you think I'd agree to let you take some hostages? This kind of retarded blackmail plan is simply an insult to my intelligence. However, it's not a bad choice to use it as bait. "

The bespectacled doctor did some calculations in his heart and felt that this plan was completely feasible. The only thing he needed to worry about was the reaction of the higher-ups.

"Won't killing Lin Yi's essence spirit cause a change in the higher-ups? You have to know that this is different from the previous plan!" The bespectacled doctor said worriedly. He didn't have the guts to disobey his superior's orders.

LAN xiaoru's fingers tapped on the metal table lightly, making a soft knocking sound. She then smiled and said, ""I said that as long as Lin Yi's body 'doesn't die', there won't be any problems. Since it's been

proven that the spirit won't affect his body, then it's the best chance for us to kill his spirit. Since something happened to his spirit, he can only blame it on his own bad luck. As long as his body is alive, he can explain it to the higher-ups."

"In that case, we can try it." The doctor finally nodded in agreement. After all, Lin Yi had been giving him too much pressure recently. It would be a good thing for him if he could get rid of Lin Yi!

"We're not trying, we have to succeed. This Lin Yi's growth rate is beyond our imagination, and if this continues, he'll become a big problem for us sooner or later. " LAN xiaoru's face showed a hint of ruthlessness. The bespectacled doctor saw it and felt a slight chill in his heart.

"I understand, I'll call Lin Yi right now and ask him to come over. Miss LAN, have you thought of how to deal with him?" The professor took out his phone and asked worriedly.

"Go ahead and do what you need to do," LAN xiaoru waved her hand."I'll make arrangements for the rest."

The doctor nodded and didn't dare to ask any more questions. He dialed Lin Yi's number.

"Lin Yi, if you want to save Cheng Yiyi, prepare all the formulas for miracle doctor Medical Group and wait for my call. If you don't agree, then prepare to collect Cheng Yiyi's corpse!" The doctor said quickly and hung up without waiting for Lin Yi's reply.

"Are you sure you're calling Lin Yi?" LAN xiaoru frowned.

The bespectacled doctor was stunned. He looked at his phone and said, ""That's right, this is Lin Yi's number, the latest one!"

"Did he speak? What if he's not the one who answers the call?" LAN xiaoru continued to ask, and the bespectacled doctor was speechless.

After a moment of silence, the bespectacled doctor picked up his phone and said, ""Let me confirm."

After dialing again, the bespectacled doctor pretended to be cold and asked, ""You're Lin Yi, right?"

"It's me!" Lin Yi's voice came from the other side, and the doctor let out a breath of relief.

"Do you understand what I just said?" It would be too embarrassing to just hang up like this, so the doctor could only ask a random question.

"I understand. Where do we do the trade?" Lin Yi was still as calm as ever.

"Wait for my call!" The bespectacled doctor hung up again, then said to LAN xiaoru, ""It's Lin Yi, no doubt about it!"

After he finished speaking, he suddenly felt like he was acting like an idiot. He suddenly felt extremely embarrassed and could only cough dryly. "I'm going to inject the drug into Xue Jianfeng. Let me know when there's news!"

Then, he turned around and left ...

Lin Yi heard the dial tone again and couldn't help but frown. He didn't know who just contacted him, but it should be central, but was it really okay for central to use these idiots? How did they develop and grow?

"Boss, do you have news of Yiyi?" Xiaobo asked, concerned as Lin Yi put down his phone.

"I guess so, it should be central. Their target is still miracle doctor Guan's Medical group's recipe, they want me to use the recipe to exchange for Yiyi." Lin Yi looked at Xiaobo and Changyi, not planning on hiding anything.

Fortunately, Keman and Lehmann had been taken away by the Buffon family. Otherwise, it would be difficult to give the formula to others after signing the contract with them, even if they had a good relationship.

Xiaobo and Changyi didn't mind-the company was Lin Yi 's, after all, and they'd put in all their effort, but they couldn't care less if it was to save someone.

"Boss, if that's the case, then let's get ready first. No matter what, Yiyi's safety is the most important!" Xiaobo and Changyi looked at each other.

"I'll see how it goes," Lin Yi nodded. "Let's get the stuff ready."

There wasn't much to prepare for this-it was Lin Yi who did it, after all, and no one knew better than him. It was just that Xiaobo and the others were in charge of the company now, after all, and Lin Yi didn't want to get involved at all. He had to go through this.

It didn't take long for Xiaobo to get the recipe ready and give it to Lin Yi. He then waited for Central's call.

Central didn't let them stay for too long and quickly called again. "Lin Yi, find a boat by the sea and sail to the open sea. I'll contact you when I get the exact location. Remember, you're the only one who can come. If anyone follows you, you'll have to collect Cheng Yiyi's body!"

"I know," Lin Yi said coldly, "just you wait!"

Lin Yi was planning to go alone this time, and the request was just what he wanted. Of course, if LAN Guzha came with him, he could still exert his full power in the sea as a Sea Dragon, but Lin Yi still needed LAN Guzha to stay behind and protect Xu Shihan and sun Jingyi. Compared to that, this mission was more important.

After putting his phone away, Lin Yi turned to LAN Guzha without waiting for anyone to ask, ""LAN Guzha, you stay behind to protect them. I will go and rescue Yiyi by myself. Don't worry, there is no one or anything in this world that can threaten me!"

Sun Jingyi and Xu Shihan were worried at first, but they chose to remain silent after hearing Lin Yi's domineering statement.

After a few more instructions, Lin Yi turned into his spirit form and flew to the sea.

After buying a mid-sized yacht at a dock, Lin Yi set off. Two hours later, the yacht entered international waters, and he received a call from central.

Chapter 5729 Xue Jianfeng Fainted

"Very good, you didn't play any tricks, right? Keep going east and I'll let you know when the time comes."  
"

Lin Yi didn't find anything with his spirit sense. The other party was probably observing him through the satellite, right? If that was the case, then Lin Yi really didn't have a choice.

Following the other party's instructions, he kept going east. Half an hour later, he was told to keep going south, then West, and then North. This was like going in a circle and returning to the starting point!

Lin Yi didn't take it to heart, knowing that central was just trying to make him go in circles. These were all child's play tricks, as he had expected.

"You're almost out of oil, right? There's a mobile refueling tanker ten nautical miles south of here. You'll be able to refuel there!" Central was a considerate guy, telling Lin Yi to go refuel after calculating that he was almost out of gas.

"How much longer do you want me to hang around on the ocean?" Lin Yi said coldly. When can we make the deal?"

"Hehe, are you running out of patience? Don't worry, just go and do your best!" The other party hung up after that, and Lin Yi could only go and refuel.

In the central Saint region at the bottom of the sea, LAN xiaoru didn't come up with a feasible plan to deal with Lin Yi. No matter what she thought, she realized that she couldn't kill Lin Yi's soul.

Letting Lin Yi walk around the ocean at first was to wear down his patience and drive, but in the end, it was something he had no choice but to do-the plan against Lin Yi couldn't be established.

"How's snow sword Peak's condition?" LAN xiaoru contacted the lab and asked. The snow sword peak was the strongest threat to Lin Yi now, and if it worked, they would be much more confident in dealing with Lin Yi.

The bespectacled doctor shook his head."There were no side effects from the injection, but the effect was worse than expected. It was less than one-tenth of the initial estimate. Although it can heal itself, it is quite slow. It can't play a decisive role in battle at all."

"What is going on? What's the problem?" LAN xiaoru resisted the urge to roar. It was such a good plan, but there were so many loopholes when it was implemented. She was about to go crazy.

"I've already asked Zhaolong to take a look at it. Maybe there's something wrong with miracle doctor Kang's recipe. " Zhaolong knocked on the door and entered.

Zhaolong looked at it carefully and nodded. "The recipe's been changed, it's not house Kang's original recipe!"

"Change it back immediately and continue the experiment!" After LAN xiaoru finished speaking, she cut off the video call and sat down while rubbing her forehead.

It seemed that Lin Yi's ocean trip had to continue.

But Lin Yi was a patient man, and he didn't mind spending more time.

As Lin Yi continued to drive around the sea, the doctor started working on the new medicine. Lin Yi didn't make any big changes since he couldn't change it in the direction of problems. The Central's technicians weren't stupid!

They might not be able to detect it if the effects were weak, but they would definitely not use it directly if there was a problem!

Therefore, the doctor's previous efforts were not in vain. He only made some minor adjustments to the original drug and turned it into a new reagent.

Although the materials required for the potion were precious, there were already spare ones in the warehouse. Therefore, the new potion was produced in less than half an hour.

"Xue Jianfeng, there were some flaws in the previous injection, but it should be fine this time. When your genes are fully integrated with this potion, the injuries you suffered in the battle can be recovered. In that case, you will be equivalent to an immortal body!" The bespectacled doctor was afraid that Xue Jianfeng would have some thoughts, so he comforted him with a rare smile.

Hearing the words "immortal body," Xue Jianfeng was excited. This was the best chance for him to suppress Lin Yi, of course, he couldn't give it up. He nodded firmly, "Doctor, come and give me the injection, I'm ready!"

The bespectacled doctor nodded with satisfaction and no longer said anything. He directly pushed the medicine in the syringe into Xue Jianfeng's arm.

Xue Jianfeng wasn't worried at all, because the first injection didn't cause any side effects, which showed that the safety of this medicine was still very high, especially the healing speed of the wound, it was indeed several times faster than before. So, this second injection, instead of saying that Xue Jianfeng was worried, it was more like he was looking forward to it.

After the potion entered his body, there was nothing unusual at first. After about ten seconds, he suddenly twitched violently, tilted his head, and passed out.

The doctor was shocked. Xue Jianfeng wasn't just a test subject anymore, he was also their trump card against Lin Yi. If something happened to him, LAN xiaoru wouldn't forgive him.

"Hurry up and report your status! What's going on?" The bespectacled doctor rushed forward and checked Xue Jianfeng's physical condition while shouting orders to his assistants.

The assistants didn't wait for the doctor to finish and started working. After all, this kind of situation often happened in the laboratory. They didn't know the importance of the snow sword edge, so they weren't as nervous as the doctor.

"Heart rate normal, blood pressure normal, cell activity increased by 800%, and it's still increasing. His thinking curve is smooth, and he's in a deep coma ..." An assistant quickly reported the various indicators to the doctor so that he could know the real-time situation of snow sword edge as soon as possible.

The doctor immediately felt relieved. After a careful inspection, he straightened his back and said, ""He's fine now. He should be undergoing gene fusion, which is why this happened. He'll probably wake up soon. You guys keep a close eye on him and report to me if there's any change!"

"Yes! Doctor!" The few assistants agreed in unison and then continued with their work.

The bespectacled doctor wiped the sweat off his forehead and video-called LAN xiaoru. ""Miss LAN, the new medicine has been successfully developed and injected into Xue Jianfeng. At first glance, his condition is relatively stable, but we still need to wait for Xue Jianfeng to wake up before we can be sure of the details."

"You've worked hard, doctor! Gather them in the meeting room and discuss how to deal with Lin Yi's soul. Before Xue Jianfeng wakes up, we need to come up with an effective plan!" LAN xiaoru said faintly. She really couldn't think of a way to deal with Lin Yi, so she could only think of a way to do it. After all, those people were people who had dealt with Lin Yi many times, so they would know more or less about Lin Yi's situation.

## Chapter 5730 Where Is The Base?

"Alright, I'll inform them immediately!" The doctor cut the conversation short and called Dafeng immediately. He was with Chen Dongcheng and Kang Zhaolong, so he informed them as well.

Three minutes later, these people were all gathered in the conference room. LAN xiaoru went straight to the point and said, "Everyone, you can all be considered the core members of our Center. We need to get rid of Lin Yi now, a troublesome enemy! I want to know if anyone can provide me with some effective methods?"

They all looked at each other, silent. If Lin Yi was easy to deal with, he would've died a hundred times over already. There was no need for a meeting.

Not to mention, Dafeng bro was Lin Yi's spy in the first place, and Chen Dongcheng was starting to side with Lin Yi. Even if he thought of something, he wouldn't say it out loud. As for Zhaolong, he and Lin Yi were people from two different worlds. The difference in their levels was too big, and he didn't dare to say anything.

LAN xiaoru waited for more than a minute, and seeing that no one was willing to speak, she simply pointed at Chen Dongcheng and said, "Old Chen, you're close to Lin Yi in strength, and you've dealt with him the most. You should be the one who understands him the most here, so tell us first!"

Chen Dongcheng scratched the back of his head and put on a dazed and adorable look. "I don't know! I'm always the one at a disadvantage every time we meet Lin Yi, and he's never really serious about anything, so I'm pretty much the same as everyone else when it comes to understanding him. "

LAN xiaoru was taken aback. What he said made sense, but Chen Dongcheng was so straightforward in saying that he was useless in front of his boss. Didn't he take his boss's feelings too lightly? Reusing a piece of trash in itself showed that there was a problem with the leader's vision!

The bespectacled doctor coughed and changed the topic. ""Miss LAN, Lin Yi's only a Yuan spirit right now, not his real body, so his combat strength is definitely not as strong as his real body. We can slowly think of a way, and we'll be able to find his weakness,"

"It's a pity that we don't have much time to slowly think of a way!" LAN xiaoru hmped. She couldn't just leave Lin Yi on the ocean forever. If he lost his patience and went back to Sky Class Island, all her plans would be for naught.

"Um ... Ms. LAN, Dr. Glasses ... Can I say a few words?" Zhaolong raised his hand and asked weakly. He didn't really matter here, and no one cared about him. Even if he wanted to say something, he had to get LAN xiaoru's permission first.

LAN xiaoru glanced at Zhaolong, and waved her hand casually, ""You say it!"

Zhaolong was excited as he adjusted his tie. He coughed lightly. "It's like this, my cousin Kang Zhaoming, miss LAN, you all know him. He's a refiner, and I think I heard him mention that normal spirits are afraid of refinement fire. Since the professor said that Lin Yi is a spirit now, can we start from that? Maybe then we can get rid of that annoying Lin Yi!"

The doctor nodded, "that's a good idea. Using the refinement fire to deal with the spirit is the most suitable, but there doesn't seem to be any refinement Masters in the base. It's impossible to deal with Lin Yi in a short time. Maybe we can use artificial ones?"

Chen Dongcheng suddenly spoke up to object, "I don't think this is reliable!" Lin Yi himself is an Alchemist, and a lot of people know that he used refinement fire a lot back in the ancient martial world. If he's really afraid of refinement fire, why would he use it himself?"

Brother Dafeng seized the opportunity and quickly echoed, ""Yes, yes, yes, we only have one chance. We can't be careless. If the fire doesn't pose a threat to Lin Yi, we'll be in big trouble here, so we have to be careful!"

LAN xiaoru nodded, "you're right, but it's a feasible method. Professor glasses, the refinement fire might not be of much use to Lin Yi, but you can make an artificial fire based on the characteristics of the refinement fire. It might have a miraculous effect."

"Miss LAN is really wise! But since Lin Yi's so strong, I think that since we're going to research man-made flames, we might as well research a Super Fire, in case it's not powerful enough and Lin Yi gets away. " Zhaolong flattered LAN xiaoru a little before sharing his thoughts.

Just like Kang Zhaoming, he wanted Lin Yi to die as soon as possible. Now that there was a chance like this, of course, he would do whatever it took to kill him.

LAN xiaoru decided, "it's settled then. Doctor glasses, I'll leave this to you. Before Xue Jianfeng wakes up, you have to figure out the Super flame. Lin Yi's patience is running out!"

"Alright, I'll get it done immediately!" The doctor agreed and went back to the laboratory without saying a word.

Although creating a super flame was a little difficult, it was much easier than creating potions. The bespectacled doctor already had a simple design plan in mind when he left the house.

Chen Dongcheng's mouth twitched. Lin Yi, Oh Lin Yi, I can only help you up to this point. If you die in their hands, I won't have to make a choice anymore.

As for the calm Dafeng bro, he was actually extremely anxious. If he could contact Lin Yi, he would do it even if it cost him his life. Unfortunately, Dafeng bro had no way to contact Lin Yi in this base.

Lin Yi was still going for a spin, but he wasn't stupid enough to just sit there and let the person in the center play with him. After two laps, Lin Yi realized that no matter how he went, he was still going around a square or a circle, never deviating from the direction.

What was Central's intention in doing this?

Or could it be that the location of the central base was actually nearby?

With that in mind, Lin Yi decided to focus his spirit sense in one direction. This way, the accuracy and the length of the detection in a straight line were far better than the area detection.

Unfortunately, Lin Yi still found nothing even after carefully searching in four directions.

"Could it be some kind of spiritual sense shielding tool? If that's the case, you should be able to find the blank spot in your spiritual sense, right?" Lin Yi mumbled to himself, confused. Suddenly, he had an idea!

At the bottom of the sea!

He'd been thinking too much just then-he'd subconsciously thought that the base would be an isolated island in the middle of the ocean, or a giant ship. He didn't think that the world under the ocean wasn't any worse than the one on the surface-it might even be better hidden with the water.
