

## Bodyguard 5731

### Chapter 5731 Someone Barged In

With that thought in mind, Lin Yi immediately sent his spirit sense to the bottom of the sea, and after a while, he really did find the central Saint realm hidden under the trench!

"They're really at the bottom of the ocean. They're really well hidden. If it wasn't for my powerful divine sense, I might not have been able to find them!" Lin Yi said with a cold smile as he started thinking about how to get into the trench without anyone noticing.

Lin Yi was sure that central was using the satellite to observe him. He would be discovered as soon as he left the yacht.

If he wanted to go to the bottom without alerting the enemy, he had to trick the satellites in the sky. Lin Yi was strong, but he couldn't destroy the satellites in space at the moment.

Three appearances of the cloud Dragon!

Lin Yi thought for a bit and found a way. The three appearances of cloud and Dragon was originally a Qingyun school technique, allowing one to move in the air without external help, while leaving behind a fake image.

In this situation, Lin Yi didn't need the complete three appearances of Cloud Dragon-he only needed to leave a shadow to mislead the satellites. He didn't need too much time to get to the base, either.

Copying and modifying a martial skill was as easy as flipping his hand over, not to mention that the three appearances of Cloud Dragon was originally from the Qingyun school. Lin Yi completed the change in just a breath.

He set the boat on autopilot and activated the modified triple appearances of cloud and Dragon. A realistic shadow sat in the cockpit, while his real body entered the water.

To enter the central Saint region, one had to dive more than a thousand meters. For normal people, they would have exploded from the terrifying water pressure, but Lin Yi didn't mind at all. He turned into his soul form the moment he entered the water, ignoring the resistance of the water.

The illusion on the yacht wouldn't last more than a few minutes, and Lin Yi needed to use this time to get close to the central sanctuary and enter it. Fortunately, Spirit Mode was extremely fast, and he appeared above the central sanctuary in less than a minute.

"It's Lin Yi!" The central sacred zone's alarm system suddenly went off, and a guy on duty in the control room noticed Lin Yi's presence.

If he had been a few minutes late, Lin Yi would've sneaked into the base!

When the alarm went off, a transparent protective shield appeared above the trench. Lin Yi wanted to use his spirit state to get through the shield, but he was a little too late. He hit the shield and was bounced back!

"What is this? even my primordial spirit can't pass through it? But it doesn't matter. Since the infiltration failed, I'll just attack head-on!" Lin Yi's face turned cold as he flipped his palms, revealing two completed super alchemy fire bombs!

"BOOM! BOOM!" The two consecutive explosions created a huge Whirlpool of water and fire at the bottom of the sea. Lin Yi didn't dare to get too close to this place. After throwing out the Super alchemy bomb, he turned into a spirit and retreated a few miles.

The explosion was a thousand meters deep, creating huge waves on the surface of the sea. It took a few minutes for the waves to calm down, and Lin Yi's yacht was overturned, turning into fragments floating in the sea.

After the explosion subsided, Lin Yi appeared above the trench again. To his frustration, the protective film was still intact after the two super alchemy bombs hit it!

No wonder it was a high-tech item that could block even Lin Yi in his essence spirit state. The defensive power was unbelievable!

This was the first time Lin Yi had come back empty-handed since he'd invented the Super alchemy bomb. Back in the endless sea of the ancient martial world, one super alchemy bomb was enough to kill a large number of sea beasts in seconds!

"Hahahaha, too awesome! Doctor glasses, your base is too awesome! Lin Yi, that pretentious leader, has turned into an idiot this time!" Zhaolong's initial fear turned into excitement as he saw this through the surveillance. He couldn't help but laugh and dance like a madman.

The doctor laughed dryly as well. To be honest, Lin Yi's attack really did scare him. This defensive layer was one of his proudest works, but Lin Yi almost reached the defensive limit. The power at that moment was no less than the explosion of two hydrogen bombs!

LAN xiaoru also came to the professor's laboratory and asked with a serious expression, ""Doctor glasses, how's the research on the Super flame going?"

Chen Dongcheng and the others all looked at the doctor. This was the question they were most concerned about, and of course, they all had different feelings. Zhaolong was definitely going to use it to kill Lin Yi!

On the other hand, brother Dafeng was the exact opposite. As for Chen Dongcheng, it was a little complicated. For a moment, it was hard to tell which kind of expectation he had more.

The bespectacled doctor's hands moved back and forth on the control panel, leaving afterimages behind. However, he had no problem multitasking, so he still had time to answer, ""Almost there. I don't need two or three minutes to finish!"

"If our defensive line can last for another two to three minutes ..."

Zhaolong, who had been grinning from ear to ear, froze. He thought that the defensive layer would be fine, but it seemed like it wouldn't last for even two to three minutes.

Chen Dongcheng looked at the monitor and agreed with the professor's deduction. Although he did not know the limit of this defensive layer, he could keenly feel that the attack just now had shaken it.

Right now, Lin Yi was putting his hands together and creating a super alchemy bomb that was even bigger than the two before. It was hard to say if he could break through this defense layer directly!

LAN xiaoru squinted her eyes and ordered, ""Use all of the base's energy to break through the defense layer, we can't let Lin Yi in so easily!"

The so-called instantaneous energy was the energy that was gathered within a short period of time to be supplied to the defense layer. If it was used for a long time, the oxygen supply system of the base would be paralyzed. Therefore, it could not be used for a long time.

Brother Dafeng pretended to be stunned and said, "miss LAN, you don't have to do this, right?" Even if this defense is broken, the alloy armor outside isn't something Lin Yi can break easily. If he channeled all his energy into the defense, we won't even be able to see it from the surveillance!"

Chapter 5732 Super Flames

"Execute the order!" LAN xiaoru completely ignored brother Dafeng and shouted in a low voice.

The doctor didn't hesitate and entered the command faithfully. In an instant, the entire base fell into complete darkness, with only the outer layer of defense shining brightly. At the same time, Lin Yi's super alchemy bomb descended again!

The commotion was even greater than the explosion of the two super alchemy bombs. The raging flowing fire even instantly burned up all the seawater in this area. The scorching light was like a new sun born in the dark bottom of the sea!

The entire terrain of the trench was flattened by the aftermath of the terrifying explosion, completely revealing the huge metal monster of the central sacred zone! The defensive layer trembled violently as if it would break at any time. However, after a while, the fluctuations and trembles slowly calmed down.

Lin Yi's face was a bit ugly now. His spirit sense could see that the defensive layer was almost at its limit, but he still made it through. If the Super alchemy bomb was a bit stronger, he might have broken it.

Unfortunately, no matter how powerful the Super alchemy bomb was, it was hard for Lin Yi to control it. Once he threw it out, he might not be able to retreat in time and drag himself into the explosion vortex. It was really asking for death!

"Miss LAN is indeed wise. If it wasn't for your prompt decision, this defensive layer would have been destroyed!" After the energy supply of the base was restored, the bespectacled doctor quickly inputted a series of complicated instructions again, not forgetting to compliment LAN xiaoru.

"We should be able to buy more time this time. Speed up your progress, I don't think Lin Yi will give up just like that!" LAN xiaoru didn't have the slightest smile on her face. From the recovered surveillance, she could see that he was rushing over like lightning again.

The defense needed time to replenish, even if it was only a few seconds, it was a blank period. LAN xiaoru naturally knew this weakness. The first time, because of the aftermath of the two super alchemy bombs, Lin Yi chose to watch from a distance and condensed a new and stronger super alchemy bomb, but this time, Lin Yi didn't wait!

In the blink of an eye, Lin Yi passed through the shockwaves and appeared above the central sacred zone's defensive layer. The modified version of the three appearances of Cloud Dragon made him look

like a ghost, moving three times in a row and avoiding most of the residual power. He came to where he wanted to go, almost unscathed.

The killing Qi of the five elements transformed into a flood Dragon, baring its fangs and brandishing its claws as it let out a silent roar. It directly wrapped the seawater within it and struck the defensive layer like a meteorite!

There was a huge tremor!

Ripples spread out, and Lin Yi was sent flying, but his attack had an effect! Cracks began to appear on the defensive layer where the five elements flood Dragons had struck. The cracks grew faster and more numerous. In just a breath's time, the cracks had spread to the entire defensive layer!

"How is that possible? Wasn't this a defensive layer formed from energy? Why are there cracks that look like they are real?" LAN xiaoru looked at the surveillance screen in shock and couldn't help but exclaim.

The doctor didn't even raise his head. His fingers were moving so fast that they almost broke. Even so, he still had time to answer, ""Those cracks aren't real, they're formed by Lin Yi's pure energy. The clash of the two energies created this realistic phenomenon, so you don't have to worry about it, miss LAN!"

"Hurry up and bring out your super flame!" LAN xiaoru couldn't help but shout. "What time is it? why are you still in the mood to talk instead of getting down to business?"

The bespectacled doctor also smiled bitterly. He didn't slack off at all! Having a female boss was really hard ...

As soon as LAN xiaoru finished her sentence, the entire defensive layer collapsed and turned into white light spots in the dark sea, floating and swaying before disappearing without a trace.

Lin Yi didn't hesitate at all after he was sent flying. His body moved, and he rushed back to the central sacred zone. Since he had been discovered by the enemy, he had to enter as fast as he could and save Cheng Yiyi. Otherwise, he would be in a very passive position when the people inside reacted!

"Alright, I'm done!" The bespectacled doctor pressed the Enter key, and his fingers trembled violently. He didn't feel it when he was overloaded, but now that he stopped, the side effects were obvious.

However, compared to completing the mission, this was nothing. On the monitor, Lin Yi had just gotten close to the alloy armor when a layer of white flames suddenly rose up, evaporating all the seawater in front of Lin Yi. Lin Yi's eyes lit up as the Jade sent a warning to his sea of consciousness, causing him to subconsciously turn around and retreat!

The three appearances of Cloud Dragon helped Lin Yi Dodge another bullet, and after a few more flashes, he finally escaped the danger zone.

"So powerful! What kind of flame is this?" Lin Yi couldn't help but feel a wave of fear. His essence spirit body only felt a trace of heat from the fire and it was already hurting as if it was melting. If he was directly engulfed by the fire, even Lin Yi, who could use alchemy fire, wouldn't be able to resist for a second!

"I've succeeded!" The doctor jumped up. Lin Yi was forced to retreat, which meant that his research was correct. This super flame was enough to pose a fatal threat to Lin Yi!

"To hell with it!" As the professor jumped up, LAN xiaoru slapped the alloy table in front of her. "He actually managed to escape! If we were just a little bit late, we would have been able to catch that cunning fellow!"

Zhaolong clenched one hand into a fist and raised it up, wanting to cheer with the doctor, while his other hand clenched into a fist and slammed down, wanting to express his regret like LAN xiaoru. He felt like he was being torn apart, but he failed to express both feelings and froze there. It was hilarious.

However, no one had the time to care about this guy. After the bespectacled doctor recovered his fingers, he started operating on the control panel again. The base of the central sanctuary was very large, and the Super flames did not cover the entire area. It would consume too much energy and would not last long.

The bespectacled doctor had no choice but to focus on defense and attack. He manually controlled the position of the Super flames to control the consumption within a range that was enough to make up for it.

LAN xiaoru looked up at the doctor and said coldly, "Doctor glasses, is this all you can do with your super flame? In this case, it would be difficult to even defend, right? As long as Lin Yi doesn't get too close to the base, he won't be in any danger!"

Chapter 5733 Dissuasion

The bespectacled doctor continued to control it with both hands and turned his head with a bitter smile. "Miss LAN, the defensive layer used up all of its energy in an instant, so the base's energy level isn't fully recovered yet. The Super flames that were just completed only used the basic energy. It's already a good result that it was able to force Lin Yi back!"

LAN xiaoru was not an ordinary person after all. Her eyes lit up when she heard this. "You're saying that as long as there's enough energy to support the Super Fire, it can turn defense into attack and attack Lin Yi from afar?"

"Not bad, miss LAN is indeed wise! However, our energy isn't enough to threaten Lin Yi at this distance, so we can only focus on defense for now and not let Lin Yi break into our base. We can use this opportunity to slowly accumulate energy and wait for an explosion to destroy Lin Yi completely!" The bespectacled doctor said with a relaxed expression. When the Super flame was completed, he already had this plan in mind. He said it now to show off in front of LAN xiaoru.

"Very good! Doctor glasses, you have to keep Lin Yi out of the way, focus!" LAN xiaoru pointed at the monitor screen and said to the bespectacled doctor.

Lin Yi tried to charge towards the base a few times, but no matter where he was, as long as he got close to the alloy armor, the White flames would appear. Fortunately, Lin Yi was prepared and didn't get hurt.

However, these flames really gave Lin Yi a headache. Even the cloud Dragon's third appearance and displacement couldn't avoid the fire. Lin Yi was really at his wit's end.

In fact, the doctor couldn't tell the difference between Lin Yi's real body and The Phantom, but he didn't need to. He wasn't a practitioner to begin with, and as a scientist, he only needed to use instruments to lock on to Lin Yi's spirit. The analysis of a supercomputer was sometimes more reliable than a master.

After Lin Yi put some distance between them, he tried to use the Super alchemy bomb to blow up the alloy armor. Unfortunately, the armor itself was very strong, and the Super alchemy bomb was melted by the Super flames, so the power of the bomb was greatly reduced. When it landed on the central Saint realm, it only left some marks at most, not enough destructive power.

"It seems like the Super alchemic bomb won't work. I have to try other moves!" Lin Yi frowned as he went through his moves in his head. He suddenly slapped his forehead, "Why did you go to a dead end! I should have used this move!"

In the deep sea, the power of the Super alchemy bomb would be reduced. After all, the boundless sea water would always affect the flames. Even if some of the sea water could be evaporated in an instant, it would be replenished immediately.

The fire at the center was powerful enough to turn the surrounding water into a vacuum, but Lin Yi was sure that it would be a bigger threat on land!

In the water, one should use martial arts techniques that could use water resources to enhance their strength, such as the lightning!

Lin Yi thought that lightning wouldn't appear in the depths of the sea because he was a thousand meters deep, but he forgot that he didn't need to come down from the sky to use his lightning skills!

After understanding this, Lin Yi immediately moved. His body flashed and he appeared not far from the central sanctuary base. He pointed his finger and a bolt of lightning appeared out of thin air. It hit the armor layer of the base without any resistance. This time, even the professor's Super Fire couldn't react in time!

Lightning wasn't something that just anyone could see. The Super pill bomb's attack speed was like a snail in comparison. Even if the professor could see the trajectory of Lin Yi's lightning, his hand speed couldn't keep up with the speed of the lightning!

With a crackling sound, Lin Yi's lightning jumped and flickered on the armor, causing the lights in a small area to flicker. Just a probing attack had consumed a lot of the base's energy reserves. Lin Yi was instantly overjoyed, knowing that he finally found a way to deal with this giant turtle shell!

LAN xiaoru's expression changed slightly, and she hurriedly asked, ""How's the energy reserve? Can we attack Lin Yi?"

She knew that Lin Yi was just testing the waters this time, and he was going to launch a huge lightning attack soon. If she didn't counterattack immediately, more and more of her energy would be consumed by him!

The bespectacled doctor's forehead was also covered in sweat. He knew the situation of the entire base the best, and he naturally knew the consequences of every slight change. Hearing LAN xiaoru's question, his fingers moved faster and faster, but this time, he didn't even have time to speak.

LAN xiaoru also knew that the doctor was under a lot of pressure now, so she didn't ask any more questions. She walked directly to his side and quickly operated the other control computer.

"Energy accumulation: 78%. Attack range: 2 kilometers. Hit rate: 62%. Kill rate: 51%." In the blink of an eye, LAN xiaoru found the information she wanted to know, and her face finally looked better. She nodded slightly and said, ""More than half of the hit rate and kill rate. I can already take a gamble!"

"Miss LAN, we only have one chance. We must be careful!" Brother Dafeng took two steps forward and approached the bespectacled doctor. He persuaded him with a serious expression, ""The hit rate is only sixty-two percent. If we miss, then everything's over. Even if we hit, the chance of killing Lin Yi is only fifty-fifty, so we should wait a little longer and let the energy accumulate more!"

Dafeng bro's thoughts were simple-he just wanted to buy as much time as possible for Lin Yi. Even if he could only buy a few seconds, it might affect the overall situation!

"Shut up!" LAN xiaoru didn't even turn her head. She didn't have time to pay attention to brother Dafeng now. After shouting, she quickly opened the control interface of the attack. With her authority, she could control all the systems in the entire base, and her control level was no less than that of the bespectacled doctor.

Of course, the doctor wouldn't object. With LAN xiaoru's participation, his burden would be slightly reduced. They had been working together for a long time and had a tacit understanding. There would be no problems.

Dafeng was panicking. If Lin Yi was hit by them, it would be over for him. He had completely submitted to Lin Yi now and there was no turning back. After coming to the ancient martial world, he felt that LAN xiaoru and the professor were distancing themselves from him. Although it wasn't obvious, Dafeng knew that he was the only one who survived in the entire base, which raised their suspicions.

#### Chapter 5734 The Traitor Da Feng

Especially when LAN xiaoru rejected his two suggestions without any mercy. It proved that if something happened to Lin Yi, he would probably be next. Central always followed the strategy of killing the wrong person rather than letting him go. The best outcome for him was to be sent to be an experiment!

Chen Dongcheng was sighing inside. To be honest, he was leaning towards Lin Yi now, but if Lin Yi was done for, he could only continue working for central. After seeing how cold and hard central was, Chen Dongcheng was really scared. He felt that nothing good would come out of following central.

Lin Yi, who was outside, realized that the lightning attack was effective and decided to use his strongest skill, the lightning burial!

Even a thousand meters deep under the sea, Lin Yi's lightning burial still triggered the clouds in the sky. Countless dark clouds gathered in an instant, with lightning criss-crossing in them, ready to strike at any moment.

In the central sacred lab, the professor and LAN xiaoru turned on the attack control system at the same time and locked onto Lin Yi, ready to launch a powerful Super Fire attack at any time. They could even imagine the scene of the White fire pillar instantly burning a vacuum water channel and annihilating Lin Yi completely!

However, at this moment, Lin Yi smiled coldly and swung his arm down, activating his strongest lightning element martial skill!

Lightning burial!

Countless bolts of lightning pierced through the barrier between the sky and the ocean, cutting open the dark deep sea space at the speed of light, and descended upon the entire central sacred zone!

The professor and LAN xiaoru's fingers were already on the launch button, but the sudden attack of the thunderous burial caused the entire base's circuits and instruments to malfunction instantly. It was unknown if they could be repaired, but at least this attack could not be launched in time!

"To hell with it!" The bespectacled doctor was numbed by the two electric arcs that jumped up from the console. He could only exclaim and take two steps back.

Brother Dafeng's eyes flashed. Now that the doctor was less than half a step away from him, he didn't have time to weigh the pros and cons. He had already reached out his hand. It looked like he was going to help the doctor, but in fact, his palm directly passed through the doctor's shoulder and clasped the doctor's throat like a ghost.

"Boss Lin Yi, this is all I can help you with! You'll have to rely on yourself in the future!" The corner of brother Dafeng's mouth curled up into a smile. There was actually a kind of emotion growing in his heart. Then, he crushed the bespectacled doctor's throat without hesitation.

If Lin Yi died, his brother Dafeng would die as well. If Lin Yi didn't die and the professor and LAN xiaoru escaped, he would still be in danger. So, he made up his mind to get rid of one first.

If Chen Dongcheng wasn't here, brother Dafeng might consider taking the professor glasses as a hostage. However, with Chen Dongcheng, a Super Master in the early stage of xuansheng, here, he didn't dare to take this risk. The difference in level between the two was too big. Chen Dongcheng's aura alone was enough to make him completely immobile. It was better to kill the professor glasses directly and cut off one of his arms.

After killing the professor, brother Dafeng closed his eyes and waited for his death. He was ready for Chen Dongcheng's revenge. Chen Dongcheng did rush over, but he didn't care about brother Dafeng at all. Instead, he avoided him and directly attacked LAN xiaoru!

The powerful true Qi was so solid that it easily pierced through LAN xiaoru's heart. Since Chen Dongcheng had already made his move, he had no intention of holding back. After crushing LAN xiaoru's heart, he waved his hand to the side, and true Qi burst out of her body, cutting more than half of LAN xiaoru's body. Only a small part of her chest below her left shoulder was still connected.

LAN xiaoru fell to the ground like a broken sack. Brother Dafeng felt that something was wrong and opened his eyes in surprise. He had no idea why this happened.

"Hahahaha, this is unexpected! You're the one who killed me!" LAN xiaoru, who had fallen to the ground, suddenly laughed strangely and spoke clearly.

Chen Dongcheng and brother Dafeng were both shocked. A normal person would have died long ago after suffering such serious injuries. Even a powerful cultivator would not be able to survive. But this LAN xiaoru could still speak?

"Are you very surprised? To tell you the truth, it's impossible for you to kill me, because I'm immortal!" As LAN xiaoru spoke, she propped up her broken body with both hands and pulled off the part that was not broken.

Even someone as powerful as Chen Dongcheng could not help but be shocked by this terrifying scene. For a moment, he did not know how to react.

No matter who it was, seeing a person with only a head, half a chest, and two arms tearing off his own body on the ground as if nothing had happened, and still talking with a strange smile, would make one's hair stand on end. Chen Dongcheng was no exception.

On the other hand, brother Dafeng had been in central for a long time and had also been in a bio-human base before. His psychological endurance was stronger. He immediately pulled out a dagger and said fiercely, ""Immortal body? I can't kill you? Then I'll chop you up and feed you to the dogs. Let's see if you'll die or not!"

Seeing that brother Dafeng was about to rush up, LAN xiaoru didn't seem to panic at all. Instead, she glanced at brother Dafeng in disdain and said, ""Is this all you can do as a spy? do you only know how to attack me like this?"

Dafeng bro paused. He didn't feel embarrassed, but he remembered that LAN xiaoru might be more useful to Lin Yi in her current state.

Therefore, brother Dafeng simply put away his dagger and said, ""Forget it, I'll leave you here for a while. I'll deal with you later!"

"Hahahaha, Dafeng, I knew you were a spy from the start, and I was planning to keep you here for a while before I take care of you later so that I could numb Lin Yi. I didn't expect you to be so smart, taking the best opportunity to turn on me! Not bad, not bad, we're even now. The next time you fall into my hands, you can just wait for death!" LAN xiaoru laughed out loud, showing no fear at all.

Brother Dafeng frowned slightly but did not say anything. LAN xiaoru turned to Chen Dongcheng and said, ""Chen Dongcheng, what surprised me was that you actually betrayed central as well. The reason why you have the strength you have now is all because of Central's nurturing. Although snow sword peak is the top priority, you're also a key training target that is only second to snow sword peak ..."

Chapter 5735 Everyone Has Turned Their Backs On Us

"Hmph! What key training target? You're a lab rat for important experiments, right?" Chen Dongcheng interrupted LAN xiaoru rudely and said with a cold smile, ""If central really values me, they wouldn't have failed to get rid of the poison in my body!"

"You betrayed us because of this? If you know what's wrong now and kill Da Feng, I can let bygones be bygones. I can also promise to help you get rid of the poisonous gas in your body. What do you think?"

LAN xiaoru said lightly, but the conditions she offered shocked brother Dafeng. If Chen Dongcheng agreed, he would be done for.

Fortunately, Chen Dongcheng did not seem to be shaken at all. He continued to sneer and said, "I don't think I'm a fool. Rather than believing a woman like you, I might as well believe my own judgment. Since I've made a move on you, there's absolutely no possibility of turning back!"

LAN xiaoru didn't seem surprised at all. She even nodded slightly. "As expected, since that's the case, you, Chen Dongcheng, have become a must-kill target for central. I hope you can be mentally prepared. You won't have a good end if you offend people from central."

"Oh, really? Lin Yi's ending is indeed tragic!" Chen Dongcheng said to LAN xiaoru disdainfully, his face full of mockery. Seeing Lin Yi so alive and kicking, LAN xiaoru's claim that offending central would not end well was a joke!

Dafeng bro laughed as well-Lin Yi and central were old rivals, from the common world to the Sky Class Island, to the ancient martial world, and back to the common world. Lin Yi didn't seem to have suffered any losses in their battles!

"Hmph!" LAN xiaoru snorted, "you're right. Lin Yi will end up in a miserable state, and you two traitors will be a hundred times worse!"

Mister Lin Yi, who was going to end up in a miserable state, had just formed another super alchemy bomb and threw it at the central sacred zone.

The lightning burial had not damaged the surface of the armor. At most, it had only left some small potholes and thick black scorch marks. However, it did not matter. The main purpose of lightning burial was to destroy the entire base's circuits and equipment. Now, the central sacred zone was only a thick turtle shell. It no longer had any energy to support its defense.

So Lin Yi didn't use the strongest super pill fire bomb this time, only the normal standard, and it easily blew open the armor.

Seeing the water filling up the hole, Lin Yi suddenly realized that he shouldn't destroy it like this. After all, Cheng Yiyi was still inside!

Luckily, the hole was only a lift cabin, and there was a water barrier below. It wasn't a big deal. Lin Yi entered and transformed into his spirit form, passing through the alloy wall.

Lin Yi didn't have a defensive layer or super flames, so there was no problem.

With a sweep of his spirit sense, Lin Yi could clearly see Cheng Yiyi's position in his sea of consciousness. It seemed like she wasn't injured at all, and this made Lin Yi let out a huge breath of relief.

On the other side, Dafeng bro and Chen Dongcheng were standing together. The professor was dead on the ground, and LAN xiaoru's injuries were very strange. Lin Yi was a little curious.

"What is this? Chen Dongcheng has also turned his back on us?" Lin Yi felt a little strange, but he had pretty much guessed the truth. He really wanted to go over and take a look, but his main goal was to save Cheng Yiyi. After all, Dafeng bro didn't seem to be in any danger.

After a few flashes, Lin Yi appeared outside Cheng Yiyi's room. He broke the lock and opened the door with a smile, ""Yiyi, your concert isn't over yet. If you don't go back now, your fans are going to ask you to refund the tickets!"

Before he could finish, Cheng Yiyi threw herself into Lin Yi's arms and hugged him tightly. She smiled happily, "Brother Lin, I knew you would come and save me! I was right, you really came. "

Lin Yi smiled awkwardly as he felt the curves of her body in his arms. "I'm a little late, I've made you suffer!"

"You're not late, brother Lin. You've come very quickly!" Cheng Yiyi put her arms around Lin Yi's neck and raised her head, smiling. That pretty look really did move Lin Yi.

When Cheng Yiyi tried to seduce Lin Yi before, he didn't mind at all. But now, seeing Cheng Yiyi's true feelings, coupled with the unfinished confession, Lin Yi was really moved.

"Alright, let's leave this place and go see the leaders in the center!" Lin Yi smiled. It wasn't the time to be in love yet. He patted Cheng Yiyi's back lightly and led her to where Dafeng and the others were.

But before they even got there, Lin Yi's spirit sense found out that Xue Jianfeng and Zhaolong had sneaked onto the flying saucer and were in the activation state. Xue Jianfeng was unconscious at first, but Lin Yi's lightning burial sent a large amount of electricity into the circuit and woke him up.

Because of the new drug, Xue Jianfeng was only slightly injured, but he recovered quickly. After he woke up and realized the current situation, he didn't think about saving LAN xiaoru or avenging the professor. Instead, he sneaked to the place where the flying saucer was, ready to escape.

Although this guy's genes had been modified, thinking about how Lin Yi had turned central into a granny, he didn't dare to step out and fight Lin Yi at all because of the shadow of fear he had towards Lin Yi. He was afraid that he would be killed by Lin Yi if he couldn't win. It was better to run away!

He ran into Zhaolong, who had the same thought, and decided to bring him along. The UFO had already activated its emergency escape system by the time Lin Yi noticed it, and it was ready to eject at any time. Even if Lin Yi wanted to stop them, it was too late. He could only let the two undying cockroaches continue to escape.

"Lin Yi, I'll come back for you! Now that this young master has an undying body, once my strength increases, I can torture you to death, you bastard! Just you wait!" Xue Jianfeng only dared to show off with his mouth, but his hands directly betrayed his fear. He quickly pressed the automatically set navigation route and the flying saucer flew directly to the second base in the center.

Lin Yi shook his head as he felt the flying saucer leave. He didn't bother with the two anymore-they were just two small characters, so what if they ran? it was no big deal!

Lin Yi brought Cheng Yiyi to the lab where Dafeng and the others were at and asked casually, ""What's going on?"

Chapter 5736 Returning To Qingyun School

Brother Dafeng's face was filled with joy as he turned around and bowed."Boss Lin Yi, you came! The two leaders of central were here! It's a pity that this woman can't be killed. "

Lin Yi didn't bother with LAN xiaoru and greeted Dafeng before turning to Chen Dongcheng, "Chen Dongcheng, what's the meaning of this?"

"Senior granduncle, this disciple wants to return to the sect!" Chen Dongcheng bowed respectfully, treating Lin Yi with the etiquette of a junior. "This Mister Dafeng is also one of martial granduncle's men, right? He can prove disciple's sincerity. Just now, disciple also participated in the betrayal and murder. "

Dafeng quickly nodded, "that's right, boss Lin Yi. I can prove that Chen Dongcheng really helped. When I killed the professor, I was prepared to be killed by Chen Dongcheng. I didn't expect that not only did he not kill me, but he also attacked LAN xiaoru. Otherwise, I would be dead now and LAN xiaoru would have run away."

Lin Yi nodded and smiled, "You did well. Let's talk about this later. I'll talk to this LAN xiaoru first."

LAN xiaoru snorted, "Lin Yi, I didn't think you could really make it here. I've underestimated you. You're not simple, but it doesn't matter. The winner between us hasn't been decided yet."

"Boss, this woman is a bio-human. Her current injuries are not enough to kill her." Dafeng bro whispered in Lin Yi's ear.

"Bio-human? I'll blow her up and burn her to ashes. I don't believe she won't die!" Lin Yi shrugged nonchalantly.

LAN xiaoru laughed out loud, "Lin Yi, you're wrong. When I said I wouldn't die, I didn't mean this body. This bio-human body is just a clone of my original body. You can do whatever you want with it. It doesn't affect my original body at all!" "As long as I have the genes, I can clone and reincarnate infinitely. Remember, the center will last forever. This is just a base. Our battle has just begun! Then, see you next time!"

Lin Yi's face changed. He waved his hand and sent LAN xiaoru flying with his pure Qi. At the same time, he increased the amount of pure Qi and wrapped her up.

With a loud explosion, LAN xiaoru self-destructed, and Lin Yi's pure energy almost failed to stop her from self-destructing. Fortunately, no one was hurt.

"This woman is really decisive. She was just waiting for me to come over and then tried to hurt me by self-destructing! It's a good thing that she's waiting for me to come over. Otherwise, you two would be caught off guard and would be in danger!" Lin Yi shook his head with a bitter smile, a little more afraid of this enemy.

He's scheming, capable, and he even has the support of Central's resources. He's not easy to deal with!

Lin Yi's head started to hurt at the thought of an opponent like this, who could be reborn infinitely. This wasn't fun at all!

He had thought that he would be able to get rid of central this time, but it turned out to be just this. Although it was not without any gains, he had not gotten rid of the big problem. It would always be a problem!

Lin Yi looked at the body on the ground. Could this guy be a clone too? If that was the case, then there would be no end to it ...

"Boss, Thank God You're Here. Otherwise, this woman might have self-destructed when she got impatient. Chen Dongcheng might be fine, but it's hard to say for me, Dafeng!" Da Feng said with lingering fear when he saw LAN xiaoru explode into a cloud of blood mist.

"It's all thanks to you, grand-master," Chen Dongcheng quickly said. "Otherwise, I might have been seriously injured if I hadn't been prepared!"

With Chen Dongcheng's strength at the early stage of mysterious Ascension, even if he wasn't prepared, he'd at most be slightly injured. He was just trying to please Lin Yi.

Lin Yi nodded to Chen Dongcheng. "Since you're sincere in coming to me, I won't reject you. As long as you can do things to my satisfaction, I won't treat you badly."

Chen Dongcheng was overjoyed. "Thank you, grand uncle-master! I won't let you down!"

Chen Dongcheng looked at Lin Yi with hope. The main reason he joined Lin Yi was that Lin Yi could cure Central's poison. Otherwise, he wouldn't dare to betray central.

Lin Yi, of course, knew this as well, so he waved at him. "Give me your hand. I'll show you the poison in your body."

Chen Dongcheng was overjoyed. He didn't think that Lin Yi would be so straightforward. He immediately ran over and extended his hand for Lin Yi to check.

Lin Yi was already very familiar with removing this type of poison, and it didn't take long for him to get it done. Chen Dongcheng could clearly feel his body relaxing, but he knew who gave him his freedom, so he immediately cupped his fists and bowed, kneeling on one knee, "Senior granduncle, disciple will definitely go through fire and water for senior granduncle in the future. If senior granduncle has any orders, disciple will definitely complete them with my life!"

Lin Yi waved his hand casually, "I'll help you detoxify as returning the favor for letting Dafeng go. Although you said you want to join me, I can't believe you at the moment. I'll give you two choices now. One, you leave immediately and we'll have nothing to do with each other from now on. Anyway, the poison in your body is gone. As long as you don't provoke me in the future, with your strength, you don't have to worry about not having a place to stand in the small ancient pugilistic world or the secular world."

Chen Dongcheng's heart was moved. Being able to come and go freely seemed to be a very good choice. If Lin Yi wasn't just testing him, he could consider it. However, Lin Yi didn't seem to be such a despicable person. In that case, he must be telling the truth.

Lin Yi saw the slight change in Chen Dongcheng's expression, and his lips curled up into a faint, inexplicable smile. "The second option is for you to follow me, but you have to consume the poison I gave you. Before you prove your loyalty, I will not give you the antidote. After all, you and I were enemies before. I will not let an enemy follow me easily. Do you understand what I mean?"

Chen Dongcheng blinked. Of course, he understood what Lin Yi meant. He felt that Lin Yi's method was completely right. If it were him, he would do the same.

The problem was that he just got rid of the poison in central. Did he have to accept Lin Yi's poison again? What was the difference between that and the center?

With that thought, Chen Dongcheng was about to say that he'd choose the first option. Without central and Lin Yi, even if Chen Dongcheng was just one person, he could be a King in the ancient pugilistic world or the secular world!

Chapter 5737 Self-Destruction Activated

But was this really what he wanted? Chen Dongcheng opened his mouth, but couldn't say anything. He thought about it and realized that the people who followed Lin Yi, like Bing Wuqing and Xin Yijie, were leveling up at a speed that was no less than Central's forced leveling up method. Invincible ancient and the others had even reached the more perfect mysterious Ascension stage.

Chen Dongcheng didn't want to stop here, so following Lin Yi was his only choice!

It was a long story, but Chen Dongcheng had already made a decision in a flash. He immediately placed his other knee on the ground and raised both hands over it. He lowered his head and said respectfully, "This disciple is willing to follow martial granduncle, even if I die, I will have no regrets! Martial granduncle, please bestow me with the medicine!"

Lin Yi nodded in satisfaction. Chen Dongcheng was able to adapt to the situation, and he could train him in the future. He really wanted to set Chen Dongcheng free, but since Chen Dongcheng wanted to follow him, Lin Yi wouldn't reject an early stage Mystic Ascension master's follower.

He took out a refined poison pill and placed it in Chen Dongcheng's palm. Chen Dongcheng bowed slightly and swallowed it without hesitation. Since he had made up his mind, Chen Dongcheng was a straightforward person. He wouldn't drag things out and leave a good impression on Lin Yi.

As expected, Lin Yi was very satisfied with Chen Dongcheng's actions. He reached out and pulled him up. "Alright, you can follow me from now on. I won't let you suffer any losses. As for whether you want to return to the small Jianghu of the ancient times, we'll see how it goes in the future."

"Yes, martial granduncle!" Chen Dongcheng, of course, didn't say anything. From now on, he'd do whatever Lin Yi said. Perhaps he'd be able to get the antidote soon and make Lin Yi accept him wholeheartedly.

"Please note that the self-destruct sequence is counting down to the last minute. 60,59 ..." An electronic voice suddenly rang out throughout the entire base and began the one-minute countdown.

Everyone's faces changed, not expecting something like this to happen. Lin Yi immediately thought of the flying saucer and LAN xiaoru's strange smile. Perhaps the self-destruct sequence had already started at that time, but only started the countdown at the last minute!

There was no time to hesitate! "Let's go!" Lin Yi said in a low voice. Then, he used his true energy to carry brother Dafeng and Cheng Yiyi and directly rushed out of the laboratory.

Chen Dongcheng was the only one Lin Yi didn't need to worry about. After all, he was a master in the early stages of the mystic Ascension realm. Even if the entire base exploded, it might not be able to hurt him. However, Cheng Yiyi and Dafeng GE couldn't withstand this kind of damage.

"58!" The cold electronic voice announced the time of the explosion at a constant speed. Lin Yi's spirit sense scanned the entire base and found the dock where the submarine was usually used. The only problem was whether he could start the submarine in time.

The lab was in the middle of the base, and the dock was at the edge. With Lin Yi's speed, it would take him at least twenty seconds to get there, and it wasn't impossible for him to start the submarine and leave in thirty seconds. The problem was that the submarine piloting skills he learned back when he was an assassin were outdated. This new submarine was far more advanced than the world's current ones, and he might not be able to start it.

"57!"

Lin Yi gritted his teeth and still brought Cheng Yiyi and brother Dafeng to the dock. Chen Dongcheng followed closely behind Lin Yi. Before, Lin Yi came in through the wall in his primordial spirit state, but now that he was bringing people with him, he couldn't do that anymore. The dock was the best way out. Even if Lin Yi didn't know how to drive this kind of submarine, he could only go there!

"Dafeng, do you know how to pilot the submarine in the center?" Lin Yi remembered that Dafeng bro was one of the higher-ups in this base, after all, so he asked. If he knew how to, then it would be easy. With the two of them working together, driving this submarine would be much easier.

Otherwise, they wouldn't be able to return to land even if they left the base. Not to mention whether the depth of a thousand meters would have a big impact, without a boat, they would probably be trapped and die at sea.

"I will! Boss, I will!" Dafeng bro shouted loudly, afraid that Lin Yi couldn't hear him.

Lin Yi's heart skipped a beat-it seemed like there was always a way out!

“.....40!”

There were only forty seconds left before the explosion, and the four had arrived at the dock!

Lin Yi had been using the Super alchemy bomb to clear the way this whole time, charging straight ahead without wasting a single second. He finally managed to get a few more seconds to recover.

"Boss, it'll take at least 30 seconds to activate and leave. We have to get to the control room immediately!" Brother Dafeng was also anxious. Who would be willing to die if they could live? It seemed like there was still enough time, but it was also very tight.

Lin Yi nodded to show that he understood. He flashed to the door of a submarine and reached out to open the door. As long as he entered the submarine, his chances of escaping would be greatly increased.

However, just as Lin Yi's hand touched the door, it opened on its own, and a dozen laser beams shot out.

Lin Yi was taken aback as he transformed into his spirit form and dodged the sudden attack.

"What's going on?" Chen Dongcheng's expression changed drastically. As he asked, he had already leaped up and used his fingers as a sword, shooting more than ten beams of sword Qi into the cabin door.

Just like Lin Yi, he scanned the submarines with his spirit sense, but he didn't find any enemies hiding on them. It was a bit strange to be attacked all of a sudden.

Chen Dongcheng's sword Qi was like a clay ox entering the sea after entering the door, not even making a splash. Lin Yi scanned again with his divine sense and realized that the submarine's automatic defense weapon had been activated. He probably had a problem with the way he opened the door, but he didn't have time to think about that now.

To deal with these defensive weapons, one lightning bolt was enough! However, with this pause, the countdown had already reached 38 seconds. Two seconds had been wasted for nothing.

After taking care of the defense system at the door, Lin Yi was about to let Dafeng go into the submarine to start it up, but his spirit sense detected another twenty to thirty bio-humans. They woke up from the sealed metal cabin and quickly came to the entrance, ready to ambush.

Before they came out of the metal cabin, Lin Yi couldn't even detect them with his spirit sense. It was too late now!

Thirty-five seconds!

Lin Yi's face was extremely serious. It wasn't difficult for him to kill these bio-humans, at most one or two seconds. However, Lin Yi didn't know if there were any other changes after one or two seconds. Even if there weren't any, there wouldn't be enough time when Dafeng bro entered the submarine and rushed to the control room.

Chapter 5738 A Deceptive Bomb

"Let's go out!" Lin Yi made a quick decision and stopped thinking about the submarine. If he entered the submarine and couldn't leave the base, then he'd really be looking for a coffin to sleep in!

Although there was no submarine and there would be trouble after escaping the base, it was better than not being able to escape. Chen Dongcheng naturally didn't have any objections and did as Lin Yi said. As for Cheng Yiyi and Dafeng, Lin Yi directly took them into the reservoir where the submarine was docked.

This was the only place in the base that had seawater, and he'd be able to go to the bottom of the sea if he opened the partition. If it were anywhere else, even if Lin Yi could break through the wall, he'd be blocked for a moment by the endless sea water.

30 seconds!

Lin Yi and the others dove into the water and used the Super alchemy bomb's directional blast to blow up the door of the submarine, successfully swimming into the deep sea.

As soon as they left the base, Lin Yi brought Cheng Yiyi and brother Dafeng up to the surface at full speed. With the protection of his spirit force field, the two were fine, but the base below suddenly exploded!

There were still 30 seconds left! But the explosion happened just like that!

"Son of a B \* tch! He even tampered with the countdown of the explosion!" Dafeng bro cursed in the force field. Luckily, Lin Yi didn't insist on entering the submarine, or he would be buried in the base.

In that case, it was all thanks to the submarine's automatic defense system. If it wasn't for this system, brother Dafeng would probably be trying to start the submarine now.

Lin Yi let out a breath of relief. When the bio-humans appeared, the Jade space had a faint warning, but it wasn't strong and wasn't life-threatening, so he didn't take it to heart. Giving up on the submarine was also based on his own judgment, and he didn't expect to avoid the danger of the explosion.

The explosion of the entire base wouldn't be life-threatening to Lin Yi, but it was hard to say for Cheng Yiyi and brother Dafeng. They were too lucky to be able to escape the base.

The base's explosion created a strong shock wave, shaking the entire ocean floor. Lin Yi used this force to bring the two girls and Chen Dongcheng to the surface like a rocket.

During this process, ordinary people's lungs would burst due to the change in water pressure. However, brother Dafeng and Cheng Yiyi were also cultivators, so they naturally didn't have to worry about the problem caused by the water pressure.

"It's broken!" Lin Yi's spirit sense had been observing the explosion behind them. The water pressure wasn't dangerous, but the underwater volcano could put them in danger.

The volcanoes that were slumbering at the bottom of the ocean began to become active due to the shock from the base's explosion. In an instant, two volcanoes erupted with red lava at the bottom of the ocean. Even the seawater could not cool down such an eruption.

Lin Yi was shocked. He clenched his teeth and tried his best to get up with the force field behind him. The volcanoes on the seabed started to explode continuously. The energy gathered was terrifying. After mixing with the power of the base's explosion, a large area of white flames appeared!

This type of fire was a weapon that could deal enough damage to Lin Yi's soul. After the professor developed it, other than using it for defense, he never managed to launch a successful attack until his death. However, it was the strongest attack by chance when the base self-destructed.

In an instant, Lin Yi and Chen Dongcheng felt the temperature of the sea rise sharply, almost to the boiling point. Cheng Yiyi and Dafeng GE didn't feel much because of Lin Yi's protection.

Burning the sky and boiling the sea, it really wasn't just a casual remark!

On the other hand, Chen Dongcheng was still fine. His physical body was considered strong, and with the defense of true Qi, he could still move freely without being directly engulfed by the Super flames.

Lin Yi's situation wasn't good. The Super flames didn't burn him directly, but the aftershock was already melting his essence spirit. He had to use his spirit power to form a force field barrier to protect Cheng Yiyi and brother Dafeng. His energy consumption increased rapidly, and he didn't know how long he could last.

If he gave up on Cheng Yiyi and brother Dafeng, Lin Yi could easily get away by himself, but if he did that, he wouldn't be himself anymore. Not to mention Cheng Yiyi, even if it was brother Dafeng, he would never give up!

The only good news was that with the addition of the underwater volcano, the shockwaves from the explosion were getting stronger and stronger, and the speed at which the four of them were rising was also doubled. In just a blink of an eye, the four of them were pushed out of the sea by the flames and into the sky.

The blue ocean and blue sky kept changing in Lin Yi's eyes, and those damn white flames followed closely behind Lin Yi without letting up.

The water that the four of them had just emerged from had completely disappeared, leaving only a large amount of water vapor that continued to evaporate in the White flames.

With a depth of several thousand meters and a radius of more than four kilometers, the huge amount of seawater had been completely burned up. Looking down from the sky, it looked like a bottomless sinkhole, which was the gate to hell!

Lin Yi's consciousness started to blur. This was something that had never happened to him since he formed his essence spirit. Perhaps the fusion of the volcano and the Super Fire was too strong and the damage was beyond his expectations.

He barely dispelled the slight dizziness and activated triple Cloud Dragon, bringing Cheng Yiyi and Chen Dongcheng along with him as they continuously teleported. He also gave Chen Dongcheng a kick in the air, sending him flying.

If it was possible, Lin Yi really wanted to sing "send you away, a thousand miles away ..." Unfortunately, his kick could only send Chen Dongcheng flying two or three kilometers away from the sea pit. The place where he fell was at least the surface of the sea, even if it was boiling ...

Lin Yi, on the other hand, used the recoil from the kick and the displacement from the three Cloud Dragon appearances to pull the two of them in the opposite direction, avoiding the White flames that shot up into the sky!

"Big brother Lin, are you alright?" Cheng Yiyi noticed Lin Yi's terrible expression and couldn't help but ask.

Although he avoided the Super Fire directly, the residual wave at the side still made Lin Yi's spirit force field fluctuate violently. If it wasn't for him protecting it with his life, Cheng Yiyi and brother Dafeng would've fallen into the pit.

"Boss Lin Yi, are you okay?" Dafeng bro called out with a touched expression. How could he not know that Lin Yi was risking his life to save their lives? Cheng Yiyi was still fine, but he, Dafeng bro, was in the center. He was just a chess piece that could be abandoned at any time. When had he ever met a boss like this?

#### Chapter 5739 Dying Struggle

At this moment, Dafeng bro, who was already dead set on Lin Yi, swore that he would never betray Lin Yi in this life. If Lin Yi needed him, he would definitely give his life back to Lin Yi!

Lin Yi's face was pale and translucent-this was a sign that he'd used up too much spirit sense and his essence spirit was heavily injured.

"I'm fine, don't worry! However, once we're in the sea, you'll have to use your internal energy to protect yourselves. I might not be able to take care of you!" Lin Yi smiled faintly, not taking the current situation to heart.

"Boss Lin Yi, don't worry about me. Throw me down and save your strength!" Dafeng bro called out urgently. Even if Lin Yi threw him into the Super Fire right now, he wouldn't have any complaints.

Lin Yi only smiled and shook his head, not saying anything. He was now falling in a parabolic curve with the two of them in the opposite direction of Chen Dongcheng. When they fell into the sea, they were surrounded by boiling water.

But Lin Yi knew that the Super Fire wouldn't last forever. When the fire disappeared, the water would fill up the hole, and it would be a new tsunami.

Lin Yi wanted to continue protecting the two of them, but his spirit wasn't enough to maintain this force field barrier. Fortunately, Dafeng and Cheng Yiyi weren't weak, so they wouldn't be crushed by this wave for a short time.

"Remember, if we get separated in the sea, don't panic. When the waves disappear, stay on the surface and don't sink. I'll find you!" Lin Yi said calmly. He really wanted to keep the two by his side, but the weakness in his spirit made him unable to care too much.

Lin Yi swallowed the spirit fruit and started refining it. Using a spirit fruit to replenish his spirit was a waste, but Lin Yi had no other choice.

The remaining Two Spirit tumors were showing signs of instability. If Lin Yi couldn't control these two Spirit tumors, this sea in the secular world might become his burial ground.

If LAN xiaoru, who self-destructed, knew that Lin Yi was going to die like this after she was reborn, she would probably laugh out loud.

Seeing that they were about to fall into the boiling water, Lin Yi retracted his spirit force field and used his pure Qi to add a layer of defense to the two. He shouted, ""Don't stay here. Try to swim out of the area and stay awake. Remember to go against the current if you get sucked into the vortex!"

Before he could finish his sentence, the three of them fell into the water one after another. Compared to the Super flames, the boiling water of over 100 degrees Celsius was not a threat at all. The three of them could easily resist it. Cheng Yiyi and brother Dafeng did not dare to be negligent. After falling into the water, they swam desperately to the outside. After all, they were two experts, and their speed was quite fast.

Lin Yi wanted to transform into his spirit form and float in the air. If Cheng Yiyi and Dafeng GE were in any danger, he could save them in time.

But the waves of dizziness made Lin Yi give up on that plan. After looking at the direction, he used his pure Qi to escape from the danger zone, and focused on refining the spirit fruits and suppressing the two Spirit tumors.

After a few breaths, the three of them were two to three kilometers away from the huge pit. At this time, the Super flames finally weakened. Although the heat energy at the bottom of the sea was still terrifying, it was unable to maintain this vacuum region that was thousands of meters deep.

The surrounding seawater began to pour down violently, and the hot steam directly gathered into thick clouds in the sky. In a short time, it formed the embryonic form of a storm.

Lin Yi and the others tried their best to escape, but under the huge slope of the sea water, they still couldn't help but be pulled back by the water. The pulling force was getting stronger and stronger, and even Lin Yi's pure Qi couldn't resist it.

If he wanted to escape, he could only turn into his spirit and float in the air. Unfortunately, he didn't dare to make any changes right now. If he wasn't careful and triggered the tumor, he'd be dead.

After the seawater poured in and filled up half of the space, the violent collision formed a huge Whirlpool. The huge waves were just ripples on the edge. The four people in the center began to fall down involuntarily.

Cheng Yiyi and Dafeng remembered Lin Yi's advice and wanted to go against the flow, but in the face of this natural power, their strength seemed relatively small. Their desperate struggle only delayed them for a few more breaths.

Chen Dongcheng, who had flown in the opposite direction, was many times stronger than the two of them. Unfortunately, he was not good at swimming. In the whirlpool, his performance was not as good as Cheng Yiyi and brother Dafeng. When he passed by Cheng Yiyi and brother Dafeng for the second time, he did not even have the strength to struggle.

Lin Yi really wanted to do something, but he was like a clay Buddha crossing a river-he couldn't even protect himself now. He wanted to do something, but he couldn't. The only way was to go with the flow.

Fortunately, the Super flames had slowly subsided. If it was just the whirlpool, tsunami, and storm, it would not take their lives for a while. After this, they would have a chance to survive.

Now that he thought about it, he was extremely lucky that he didn't get entangled with the submarine just now. Not to mention the false 30 seconds setting, even if he successfully left the base on the submarine, under such an explosion, it was very likely that he would be directly vaporized by the Super flames at the bottom of the sea. He might not even be able to obtain such a struggling situation.

"You guys, take care!" Lin Yi said in his heart with a bitter smile. His dizziness was getting worse and worse, but he knew that if he really fainted, the tumors would erupt immediately. So even if he died, he couldn't faint, at least not before he suppressed these two tumors!

He didn't know how long this giant whirlpool lasted, but Lin Yi's mind was completely immersed in suppressing the tumor of the consciousness. He didn't care too much. He was an essence spirit, after all, and he wouldn't drown in the sea.

He bobbed up and down a couple of times, and after the storm and tsunami, Lin Yi finally suppressed the two Spirit tumors and opened his eyes, exhausted.

On the calm surface of the sea, other than Lin Yi, the others had all disappeared without a trace. No one knew where they were.

#### Chapter 5740 Life-Saving Straw

It was impossible for the four of them to not get separated in such a violent environment, so Lin Yi wasn't disappointed. He extended his spirit sense out to search for them.

But in the next moment, Lin Yi realized the severity of the problem. His spirit sense could only extend less than a kilometer. It was clear that the Super Fire consumed a terrifying amount of his spirit sense. Although he had consumed a spirit sense fruit, most of it was used to suppress the spirit sense tumor.

The remaining small half was used to make up for the consumption, and there was still a part that hadn't been refined.

So even if Lin Yi continued to eat spiritual fruits, there wouldn't be any better effects.

"I saw a ghost! It was impossible to find the three of them in the vast ocean with this level of divine sense search! "I can only hope that Chen Dongcheng is fine. The range of his divine consciousness should be large enough. As long as he's not dead, he might be able to find the three of us!" Lin Yi shook his head with a bitter smile. He hadn't been in such a difficult situation for a long time. Since divine sense couldn't find him effectively, he could only transform into essence spirit and float on the sea surface. It would be faster to search with his eyes.

Fortunately, Lin Yi noticed a black dot bobbing up and down on the ocean's surface three or four kilometers away after flying for a short distance. He sped up and confirmed that it was Chen Yiyi.

"Yiyi!" Lin Yi was surprised and happy at the same time. He was happy that he finally found a Cheng Yiyi, but shocked that Cheng Yiyi was still unconscious and her breathing was weak.

Lin Yi's spirit was weak, but his Qi was fine. With the Jade space as support, Qi was never something he needed to worry about.

After quickly holding Cheng Yiyi's hand, Lin Yi transferred his pure Qi to her, checking her condition and treating her injuries at the same time.

"I'm fine. There are no fatal injuries. I'm just exhausted!" Lin Yi let out a breath of relief, but he was also a little worried. If he hadn't noticed it early, Cheng Yiyi would have drowned in the sea!

After a while, Cheng Yiyi spat out a few mouthfuls of seawater and slowly woke up. Seeing Lin Yi in front of her, she was overjoyed, ""Big brother Lin, it's great that you're fine!"

As she spoke, she reached out her hands and wrapped them around Lin Yi's neck, her entire body hanging onto him.

Lin Yi smiled and patted her back. ""We're all fine!"

"By the way, where are Dafeng and Chen Dongcheng?" Cheng Yiyi remembered that she still had two companions. She immediately let go of Lin Yi and looked around.

After going through life and death together, Cheng Yiyi felt a sense of familiarity towards her two unfamiliar companions, so she naturally cared about their safety.

"Not yet, but he should be fine," Lin Yi shook his head.

Lin Yi wasn't lying-the weakest of the three was Cheng Yiyi, and if she was fine, then the two wouldn't just die like that.

The problem was, how was he supposed to find them in this vast ocean? With Cheng Yiyi here, Lin Yi couldn't just leave her alone. He flew around looking for her, and with Cheng Yiyi's strength, he didn't know how long she could last in the sea. Without a boat, Lin Yi didn't know how to bring her back to shore.

Before this, even if Lin Yi was in his spirit form, it was no big deal to carry someone, but it was impossible now. If he flew, the tumor he just suppressed might come back!

Lin Yi had thought of flying back to the shore to find a boat to save Cheng Yiyi, but he didn't even know where he was now. The range of his divine sense wasn't as far as the naked eye could see, and if he flew in the wrong direction and didn't fly to the nearest shore, he'd start circling the earth instead. It'd be too late for him to come back.

It was a pity that Lin Yi's phone wasn't in the Jade space-it had long sunk into who knew where in the whirlpool and tsunami. Otherwise, he could still try to make a call or something.

"Big brother Lin, are you going to look for them? It's okay, I'll wait here. You can find the two of them first!" Cheng Yiyi knew that Lin Yi was worried about her and wanted to find the two people, so she smiled and let Lin Yi go first.

Lin Yi thought that was the only way. After Cheng Yiyi woke up, floating in the sea for a while was no problem at all. If the two guys fainted from exhaustion, they might really drown.

Whether it was brother Dafeng, who was at the foundation establishment stage, or Chen Dongcheng, who was at the xuansheng stage, being drowned in the ordinary sea was an embarrassing matter. They would not feel at ease even if they died ...

Just as he was about to nod in agreement, Lin Yi suddenly had an idea!

He didn't put his phone in the Jade space, but he did put something in it!

It was LAN Guzha's communication bead!

LAN Guzha had given this to Lin Yi back in the ancient martial world, making it easier to contact him. LAN Guzha had used it once when he came to the North Island's Qingyun sect to pick Lin Yi up to flood Dragon Island, but Lin Yi had left it in the Jade space since.

After all, LAN Guzha was always following Lin Yi around like a tail, why would he need a communication bead? Besides, LAN Guzha liked to play with his phone even more after coming to the common world. He probably forgot that the orb was with Lin Yi.

After taking out the communication bead, Lin Yi took a deep breath and submerged it in the water.

To be honest, Lin Yi was a little nervous. This might be the last chance to save Cheng Yiyi, brother Dafeng, and the others. Lin Yi could fly back himself, but he wouldn't leave Cheng Yiyi and the others behind.

The water of the endless sea was different from the water of the common world, after all. It wasn't like the ancient martial world, where there was a lot of spiritual Qi. Lin Yi wasn't sure if the communication bead would work.

But Lin Yi relaxed a second later-the communication Pearl glowed in the water, and LAN Guzha's shadow appeared in front of Lin Yi.

"Boss, where have you been? We were so worried!" LAN Guzha asked with an anxious expression as soon as he appeared.

"Ha ... It's a long story. I was out at sea for a long time!" Lin Yi said with a smile. Central really did make Lin Yi spend half a day out at sea. It wasn't nonsense.

"Boss, did you save sister-in-law Yi Yi? Do you need my help? don't worry, I, LAN Guzha, can definitely kill them all!" LAN Guzha raised his arms and spoke in an overbearing manner.

"I don't need you to fight, but there are two people waiting for you to save them. Can you sense my position? If you can, hurry over as soon as possible!" Lin Yi didn't waste any more time-the whereabouts of those two were still unknown, and he couldn't just go on like this.
