Chapter 5751 Hunting For Souls

Hunting for souls

"There's another one!?" Han Jingjing was shocked as well-luckily, her Sky Class mid phase peak strength wasn't fake, and she dodged the arrow at the last moment.

In fact, han Jingjing had too little combat experience. Otherwise, she would not have been in such a dangerous situation. At least, she had to maintain her divine sense within a reasonable range. However, she only released it casually when she needed it. She had no sense of danger at all.

The arrow that han Jingjing had dodged shot into the wooden steps behind her. It sank into the steps without even a tail sticking out. It was clear how powerful the arrow was.

Before han Jingjing could find the person who had secretly shot the arrow, the person holding the cross-shaped sword had already rushed over. The body of the cross-shaped sword was also emitting a faint fluctuation of spiritual energy.

"Hahaha, this spirit body looks pretty good. How lucky, to be able to encounter such a good thing just by walking around!" The Man in Black laughed as he ran. At the same time, he jumped into the air and swung his cross sword at Han Jing Jing.

"Black shirt, I want at least half of the harvest this time. Don't bargain!" A figure flashed on the roof of the opposite building, and a sexy woman in a leather suit jumped down directly. While shouting in the air, she fired another arrow at han Jingjing.

Han Jingjing was a little angry. These two people did not seem to have anything to do with Johansson. They had come to hunt her purely because they sensed that she was a primordial spirit!

Unfortunately, they had the wrong idea this time, or rather, they had found the wrong hunting target!

No matter how inexperienced Han Jingjing was, she was Sky Class mid phase peak. She might not be the top in the common world, but she was at least one of the top-tier existences. How could two random cats and dogs take her down?

Han Jing Jing's body flickered as she dodged black shirt's crossguard sword. At the same time, she reached out to grab the arrow, preparing to throw it back.

With Han Jing Jing's eyesight, although the arrow was fast, it was almost in slow motion. She easily caught it, but the originally weak spiritual energy fluctuation on the arrow suddenly increased and turned into a layer of white flames.

Han Jingjing was shocked and threw the arrow away. Her palm was already in unbearable pain. This was a pain that directly affected her primordial spirit body. It was more painful than ordinary physical injuries.

"Eh, you're actually not injured! Hunting bow, is there a problem with your crossbow? It's not that easy to take half of the harvest!" "Huh?" black shirt gasped in surprise. The cross blade that had missed was already coming back at them. Although there were no true Qi fluctuations on these two, their combat power was not to be underestimated.

Han Jingjing shook her hand in a sullen manner. 'I'm already in so much pain, and you still say that I'm not injured. You're really a bad old man.'

In fact, this black-clothed man was at most 38 or 39 years old. He was in the prime of his life. It was just that he looked a little old with his full beard. It was a bit of an injustice to be regarded as an old man by Han Jing Jing.

"Is there a problem? do you want me to shoot you? you can try it yourself." The sexy lady on the ground sneered and shot another arrow at han Jingjing.

"Hahaha, I should be the one shooting you. Do you want to try?" Black shirt teased. The cross blade in his hand turned into a ball of light and enveloped Han Jing Jing.

Han Jing Jing's face was cold. The more dangerous the situation was, the calmer she became. She knew that the weapons in the hands of these two people could hurt her primordial spirit body. She could not let them do as they pleased.

The shadow of the soft armor appeared on Han Jing Jing's body, and then directly crashed into the cross sword light circle of black clothes. Even if she was cut by him once or twice, she wanted to shorten the distance between the two as much as possible.

This time, he managed to Dodge the arrow from the hunting bow, but it was also Beyond Black shirt's expectations.

The cross blade that glowed with a faint white light landed on Han Jing Jing's shoulder and burst into white flames. However, the soft armor completely blocked the flames. Han Jing Jing's shoulder did not even shake.

In the next second, Han Jing Jing's palm had already landed lightly on black shirt's chest. After a dull thud, there were two slight cracking sounds. It was obvious that black shirt's sternum had been broken by Han Jing Jing's palm, but it should not be enough to kill him.

Han Jing Jing was also a little surprised. She had already used 70% of her true Qi in her palm, but it had only caused black shirt minor injuries. This guy's body was quite strong!

Black shirt grunted and spat out a mouthful of blood. He took a few steps back, but the crossguard sword in his hand was still slashing toward Han Jing Jing's neck. He could see that Han Jing Jing's strange soft armor had amazing defensive power, so he wanted to attack her vital parts without the protection of the soft armor.

Han Jingjing's eyes flickered. Although she did not have much combat experience, her calculation skills were extremely powerful. In an instant, she had calculated the situation clearly.

If she was only facing black shirt, Han Jing's best option would be to continue her pursuit. However, the problem was that there was also a hunting bow with her!

When he realized that the crossbow did not do anything to han Jingjing, hunting bow threw the exquisite crossbow on the ground. He swiped his left hand behind his waist and pulled out a piece of shimmering metal. After pressing the spring, the bow arm popped out and instantly turned into a 1.2-meter long composite bow.

The arrows in the quiver were pulled out and shot at lightning speed. In the blink of an eye, six arrows were shot out in succession, sealing Han Jingjing's surroundings.

It was because of the interference of the hunting bow that Han Jing Jing did not have the chance to continue her pursuit. However, Han Jing Jing would not give up just like that. Her powerful calculative ability gave her a feeling that everything was under her control. In order to save Black Shirt, the hunting bow had unknowingly approached her. Han Jing Jing twisted her body like a fish, effortlessly passing through the gap between the six arrows and heading straight for the hunting bow.

"Be careful!" Black Shirt could not care less about the blood at the corner of his mouth. He growled and stomped his feet, charging towards Han Jing Jing, trying to stop her attack.

Everyone knew how dangerous it was for an Archer to be in close range, unless the Archer also had strong close combat abilities.

The Hunter Bow was a good fighter, but he was not as good as Black Shirt. Since Han Jing Jing could injure Black Shirt in close combat, she could definitely kill the Hunter Bow once she got close to him.

The Hunter Bow clearly did not expect Han Jingjing to rush over to meet the arrows. Damn it, she really did rush over unscathed, so the Hunter Bow could not help but panic for a moment.

Chapter 5752 An Unexpected Harvest

The bow in her hand did not stop. She continued to block Han Jing Jing's path with perfect timing. Unfortunately, even though the hunting bow thought it was perfect, Han Jing Jing's terrifying calculation ability was still full of flaws. Coupled with her higher strength, she could easily avoid all the arrows.

Hunter Bow suddenly felt a little regretful. He should not have jumped down from the roof just now. As an Archer, attacking the enemy from a high position was always the best choice. However, he had foolishly given up this advantage.

He had been too careless. He thought that the two of them would be able to defeat this girl. He didn't expect that he had kicked an iron plate!

Unconsciously, Hunter bow's feet changed from advancing to retreating, and his speed was extremely fast. As a result, her arrows inevitably became a little scattered, and naturally, there were more and more flaws.

With han Jingjing's speed and momentum, the Hunter Bow was worried that han Jingjing would catch her in the next second. However, to her surprise, han Jingjing, who clearly had a chance to deal with her, suddenly changed direction again!

Black shirt, who had rushed to Han Jing's rescue, was shocked. He thought that Han Jing Jing would not be able to change her direction so easily with her speed. However, Han Jing seemed to have completely ignored the effects of inertia. She could change her direction at a wide angle without any difficulty.

Black shirt, who had initially wanted to rescue Hunter Bow and ambush Han Jing Jing, was now facing Han Jing Jing from the front. The distance between them was getting closer and closer.

Hunter bow's expression changed drastically. He finally realized that Han Jing Jing's target had always been black shirt. The sudden attack just now was just a feint. Not only did it disrupt her rhythm, but it also attracted black shirt over. It was a good plan!

Seeing that Han Jingjing was about to face Black Shirt again, the hunting bow could only fire one arrow to interfere with Han Jingjing's movement. Unfortunately, the arrow did not even touch Han Jingjing's shadow.

As a veteran Spirit Hunter, Black Shirt was well aware of this. When he realized that he had fallen into a trap, he had no intention of retreating. Instead, he activated all his potential and stabbed the cross-shaped sword between Han Jingjing's eyebrows.

Out of all the attacks, a straight thrust was the fastest one. Furthermore, they were getting closer to each other. Black Shirt even felt as if Han Jingjing was pressing her forehead against the tip of the cross blade.

Then, Black Shirt realized that it was just an illusion. Han Jingjing gave him an enigmatic smile and then disappeared.

Be it the cross blade or the arrow from the compound bow, none of them touched Han Jing Jing because she had moved to Black Shirt's side. She casually kicked Black Shirt's leg.

No matter how strong the body was, there would always be some weaknesses, such as the bending of the legs!

Black Shirt, who was charging at full speed, did not expect to be kicked in this place by Han Jing Jing. Before he could fully exert his strength, his kneecap was broken by a huge force. To be more precise, half of the force was his own strength. Because of the sudden change, his own strength was folded, and he broke one of his legs.

Black shirt's body tilted to the side as he lost his balance. He let out a loud noise like a galloping horse, especially the crossguard sword. It was finally out of his control.

Han Jing Jing did not stop at all. She went past hei Yi and burst out with her full speed, rushing to the position of the hunting bow like lightning.

Although han Jingjing's speed was also fast, she had held back at least 30% of her strength. This sudden burst of power caught the hunting bow completely off guard. After all, she felt that han Jingjing had already reached her limit in her dodging movements earlier!

This time, Han Jing Jing appeared in front of her before she could even shoot another arrow.

In a moment of desperation, the hunting bow used the compound bow as a weapon and swung it at han Jingjing. However, the hunting bow was indeed a weakling in close proximity. Han Jingjing casually reached out her hand and grabbed the wrist of the hunting bow that was holding the compound bow. With a slight force, she broke her wrist.

The Hunter Bow let out a soft groan. Unable to withstand the pain, his body leaned back, revealing his hot figure that was wrapped in the leather jacket. Unfortunately, Han Jing Jing was not a man, so she had no interest in this scene.

"Who are you? why did you attack me?" Han Jing Jing asked coldly. The hunting bow's broken wrist was still in her grasp. Because Han Jing Jing was still pulling back, the hunting bow had already fallen to one knee on the ground. Her body was also leaning back a lot, like a bow that was pulled to the max.

"I'm sorry, we were wrong. Please forgive us this once!" The Hunter Bow Beauty's eyes were almost tearing up from the pain. She could not be bothered to answer the question and immediately began to beg for mercy.

Black shirt, who was on the ground, could not get up for a while. His face was pale, and he was sweating profusely. He looked at Han Jing Jing with respect, and he silently agreed to the hunting bow's plea.

Although han Jingjing seemed to be very busy, the three of them exchanged blows in an instant. It took at most a few seconds for the entire battle to end.

"Answer the question. Don't talk nonsense!" Han Jingjing said coldly as she pushed him back again.

Hunter Bow snorted again and quickly replied, ""The two of us are Spirit Hunters, and we specialize in looking for souls wandering between heaven and earth. Many of them are evil spirits and vengeful spirits. After killing them, we collect the purest soul power in exchange for rewards. This time, we were blind to want to kill you and offended you in the end. I still have some collected soul power here, and I'm willing to give it to you as a token of my apology. "

"Let me see! Don't play any tricks!" Although han Jingjing did not know what soul power was, she did not reveal it and directly asked for soul power from the hunting bow.

Of course, the hunting bow did not dare to play any tricks. If their strengths were similar, she would still have the thought of resisting and looking for an opportunity to escape. However, she did not have such thoughts at all now. She only hoped that she could successfully exchange her life from han Jingjing's hands.

His other hand quickly took out a Jade bottle from a small bag at his waist and handed it to Han Jing Jing, "This is my soul gathering bottle. All the soul power I've collected is here."

Han Jingjing reached out to take it and scanned it with her divine sense. There was no mechanism. When her divine sense entered the Jade bottle, han Jingjing felt her primordial spirit become extremely comfortable and her thoughts became much clearer. It seemed that this was really a good thing!

"This is great, this should be helpful for Lin Yi bro's current situation. I didn't think I'd get something like this by accident!" Han Jingjing was overjoyed and quickly put the Jade bottle away. She didn't care what a Spirit Hunter profession was.

Chapter 5753 Heading To Blue Rice

Han Jing Jing released her grip on the hunting bow. She did not intend to kill him. Instead, she flashed to black shirt's side and looked at him with a smile.

Black shirt sighed to himself, knowing that he had suffered a great loss today. However, who asked them to deliver themselves to his door? If he wanted to live, he could only beg for han Jingjing's forgiveness.

Without saying anything else, black shirt took out his soul gathering bottle and gave it to Han Jing Jing. Han Jing Jing didn't know how much soul power was in the two bottles, but it was at least half of it. Her instinct told her that these two bottles would be of help to Lin Yi's current situation.

"I'll give you this soul power, and the matter between us will be over, right?" Black shirt asked gloomily. Even though the bottle was only the size of a thumb and was half-full, if he were to sell these things, he could get millions of euros. Now that he had given them to han Jingjing for nothing, how could he be in a good mood?

Han Jing Jing glanced at black shirt indifferently. She used her spiritual sense to scan both black shirt and the hunting bow's small bags twice. After confirming that they did not have any extra soul power, she did not say anything else.

"How do I use this thing?" Han Jingjing asked casually. Although she could roughly guess it, it was better to be safe since it was related to Lin Yi. If these two dared to lie and hurt Lin Yi, han Jingjing didn't mind coming to Europe to turn the world upside down.

Black shirt said, "it's complicated for ordinary people to use it, but there's no such thing as a spirit body like you. As long as you come into contact with it, you can absorb the soul power to strengthen your own soul. Many evil spirits and vengeful spirits actually need to strengthen their soul power to keep killing people."

"Did you kill people on purpose and then extract the soul power of the dead?" Han Jingjing suddenly asked. If the two of them did the same, they would be no different from evil spirits.

"We're noble spirit Hunters!" Black shirt shouted angrily. "How could we do such a lowly thing? you should apologize to us for your ignorance!"

"Black clothes!" Hunting bow walked over slowly and interrupted him when he heard this. This guy really dared to say anything. Didn't he know that their lives were in his hands? If han Jingjing was angry because of this, wouldn't that soul power be wasted?

Black shirt also realized that he was being too impulsive, so he laughed dryly, ""Forget it. Since you don't know about these things, I can't blame you. Remember not to say such things casually in the future."

If Lin Yi was here, he'd probably start asking if she had any other soul power. He'd never be nice to the person who offended him first, but han Jingjing was a lot Kinder, after all, so he didn't ask.

Of course, han Jingjing was also thinking about whether she had more soul energy. If what she had wasn't enough for Lin Yi, she would have to come back and continue looking for more. So, she wouldn't kill these two, but she had to leave some marks.

Han Jingjing had quietly placed two secret spirit sense marks on black shirt and the hunting bow. This was one of her few means, and it was only figured out because of her research. With these two Spirit sense marks, she could find them at any time if she needed them. If she didn't need them, it didn't matter even if she had never met them.

"Do you have a car?" Although there were not many people in the town, and it was working hours during the day, there were very few people here. However, their battle was quite loud, and han Jingjing was already thinking of leaving.

In addition, the force behind Johansson was also looking for han Jingjing. If he wanted to avoid trouble, he could not waste any more time.

"We do, but we only have one car. If you have somewhere you want to go, can we send you there?" Hunter Bow quickly nodded.

It was obvious that the Hunter Bow did not want to give han Jingjing another car for free. Perhaps it would be better to find out more about han Jingjing's background if he sent her to the place she wanted to go.

"Alright, hurry up and get the car!" Han Jingjing was well aware of the hunting bow's intentions, but she was too lazy to expose her. The most important thing was to leave this place as soon as possible.

Seeing the wound on the hunting bow's hand, Han Jingjing reached out and grabbed her hand, which gave her another shock.

"I'll treat you, don't move!" Han Jingjing said indifferently. She twisted and closed her wrist, pushing the hunting bow's wrist up. She had been merciful in the first place and did not really break the hunting bow's bones. It had only been dislocated. After setting it back in place, it had recovered by more than half.

As for the injury on black shirt's leg, it was slightly more serious. Fortunately, it did not affect his movement much. He would be in the car for the rest of the journey, so it did not matter.

Soon, Hunter Bow arrived in an ordinary car. After Han Jing Jing and black shirt got in, they left osdo and headed towards LAN mi.

On the road out of town, there were some people in black suits checking the cars that were leaving, but they did not stop the cars that were in black suits and hunting bows. It seemed that Spirit Hunters were quite distinguished in Europe.

Han Jingjing didn't have the mood to talk the whole way as she was thinking about Lin Yi.

Han Jingjing did not say anything. Black shirt and Hunter Bow did not dare to say anything. They could only sit quietly in the front. When the car entered the city center of LAN mi city, the two of them

suddenly realized that han Jingjing was no longer in the back seats. They were not surprised by this. It was very normal for a spirit to be able to do this.

Han Jingjing didn't want the two to know that she was going to find Xu Shihan and Cheng Yiyi, so she left without saying goodbye. It was late, and the concert was about to start. Han Jingjing sneaked into the venue and went backstage to find Xu Shihan.

She was supposed to make a call first, but Johansson's phone had been lost by han Jingjing. As for the black shirt and the hunting bow, han Jingjing would not lend them their phones.

Since he was already here, he might as well go over directly.

LAN MI's fans were very enthusiastic. They did not complain about the previous incident. On the contrary, they were even more popular than the last time. Han Jingjing only wanted to say that the population of Europe was actually quite large!

After a few turns, they arrived at the backstage. Cheng Yiyi was talking to Xu Shihan, ""Senior Sister, why isn't han Jingjing here yet? I can't contact her either. If she doesn't come by the end of the concert, let's go back together!"

"It's not that fast. It's about 200 kilometers away. It's almost time. We don't have to be in a hurry. I'd like to show my face and say hello to the audience before I leave. " Xu Shihan consoled Cheng Yiyi, but she was also worried.

Chapter 5754 Han Jingjing Returns

"I want to go back and see Lin Yi too. He's like this because of me ..." Cheng Yiyi blamed herself. She really missed Lin Yi, but her schedule was already arranged before she was kidnapped. She couldn't do anything about the concert, so she had to finish it first.

"Don't say that. Lin Yi won't be happy if you say that. Alright, alright, I'll get the staff to prepare the flight. " Xu Shihan said gently and changed the topic. In fact, everything on the private plane was prepared beforehand, and they could take off at any time with a word.

When Han Jing Jing heard this, she immediately revealed her primordial spirit form in the room and said happily, ""Xu Shihan, Cheng Yiyi, I'm so happy to see you guys, but I'm in a hurry, so I won't be attending Cheng Yiyi's concert. Xu Shihan, are you leaving now?"

"Ah!" Xu Shihan and Cheng Yiyi both shrieked, subconsciously preparing to attack.

Anyone would jump at the sudden appearance of a person in a sealed room, not to mention the two of them who were so focused on Lin Yi.

"Han Jingjing! It's you! You scared me!" Xu Shihan and Cheng Yiyi only managed to calm down after seeing who it was, and stopped their attacks in time.

After greeting each other, Xu Shihan didn't even bother to go on stage. She directly nodded to Cheng Yiyi as a farewell, and then pulled Han Jingjing up to the roof of the stadium. There was a small helicopter waiting for them, and after they arrived at the airport, they found that the private plane was already ready to fly across countries!

Xu Shihan's private plane quickly took off from LAN mi, and han Jingjing suddenly remembered that she still had some things to bring with her in Yanjing, so they changed their destination to Yanjing.

Initially, han Jingjing did not want to go back to the Liu family. However, since she had to take something, she would go over to take a look when she had the time. After all, she was also a member of the Liu family. It would be good for her to go back and take a look.

Xu Shihan wanted to see Lin Yi as soon as possible, but han Jingjing said that the things in Yanjing were related to Lin Yi's recovery. She didn't have any objections, but she didn't plan on going to the Liu house with han Jingjing. It wasn't appropriate for her to go with han Jingjing to a reunion after a long time.

Since she had decided to go back, han Jingjing had informed the Liu family in advance. When the plane landed, Liu Tianyi and Liu Tianli, the two most important figures of the Liu family, came to pick her up personally. There was also the leader of the younger generation, han Jingjing's brother Liu Xiaochao.

"Uncle, dad, and little Chao, why are you all here?" Seeing that her family had come to pick her up, han Jingjing was naturally extremely happy, and a sincere smile appeared on her face.

"Jing Jing, I haven't seen you in a long time. When we heard that you were coming back, of course we had to come to see you immediately!" Tianyi said with a bright smile. He was the first to give Jingjing a light hug.

Tianyi knew that if it weren't for han Jingjing's foresight, house Liu wouldn't have been able to get on Lin Yi's boat. When Lin Yi's trust in house Liu was in danger of being destroyed, it was han Jingjing who saved the entire house's Foundation.

As a result, Tianyi truly liked his niece, and it wasn't strange for him to come and greet her personally.

"Thank you, uncle!" In front of the Liu family, Han Jingjing returned to being the wise and capable woman Liu Jinghan was. After letting go of Liu Tianyi, she turned to her father.

Tianli's eyes were filled with pride and excitement-this was his daughter! Although he had tried to smear his daughter's reputation, he could not change the fact that they were related by blood.

"Father!" Han Jingjing smiled as she walked up to Tianli and gave him a hug. Looking at the energy in Tianli's eyes, she knew that he had turned over a new leaf, and she was very pleased.

"Jingjing, daddy missed you!" Tianli's eyes reddened as he held Jingjing in his arms. She was his daughter, after all, and it would be a lie to say that he didn't miss her.

"Dad, Jingjing missed you too!" Han Jingjing's eyes were red as well-her father was the one who worried her the most in the secular world, but seeing that Liu Tianli was doing well this time made her feel a lot more at ease.

"Sister! I'm still here!" Liu Xiaochao chuckled as he pointed at himself and opened his arms.

Of course, Han Jingjing also gave him a big hug. Then, she smiled and said, "'Lil Chao, you're finally not that nerd and otaku anymore. Big sister can finally be at ease. Otherwise, big sister will be worried that you won't be able to find a wife if you keep acting like that."

Of course, this was a joke. Not to mention Liu Xiaochao's handsome appearance and extraordinary knowledge, even if he was a terrible person, as long as he had the Halo of the young master of the Liu family on his head, the number of women crying and begging to marry him could line up from the gate of the Liu family to the suburbs Yanjing.

The family chatted and laughed for a bit before getting into the car. Liu Xiaochao drove, while Liu Tianyi and Liu Tianli accompanied Han Jingjing. This was treatment that only a Head of Department or above could enjoy.

"Is grandpa's health alright?" Han Jingjing asked about old man Liu, and learned that he was in good health, but no longer involved himself in government affairs. He wasn't in Yanjing, either, and had gone to the South to recuperate. Liu Tianyi and the other juniors would make time to visit him every week, so the old man didn't feel lonely.

"So Grandpa went to the South. Let's not go home then. Let's go straight to the company. I need to get some things before we head to Songshan."

"In such a hurry?" Tianli said, surprised. It was rare for his daughter to come back, and he didn't want to miss this chance.

"Yes, there are some urgent matters. I'll come back after I'm done!" Han Jing Jing guessed that house Liu didn't know about Lin Yi's coma, so she didn't tell them.

It wasn't like Lin Yi didn't have any enemies in the common world-it wouldn't do him any good if the news got out, and Han Jing knew what was important.

"Are you going to find brother-in-law? Brother-in-law came here once before. " Liu Xiaochao didn't look back, but he had guessed it correctly.

Han Jingjing's heart warmed up-Lin Yi still remembered to visit house Liu for her, and she was already in his heart. She wanted to go back to Songshan city to see him even more now.

"By the way, Jingjing, there's something I forgot to tell you. Do you still remember your cousin, Fan Jian?" Tianli mentioned Fan Jian after hearing Xiaochao mention Lin Yi.

Chapter 5755 Back To Songshan

If Jingjing was going to Lin Yi, then Tianli wouldn't have a problem with that. He thought of Fan Jian and wanted to ask for his help.

Han Jingjing furrowed her brows. Of course, she knew who Fan Jian was. In reality, she did not have a good impression of this cousin of hers. He was just a good-for-nothing rich kid. When the Liu family was in trouble, they did not even ask him for help. Instead, he was in a hurry to cut off all ties with the Liu family. Now that the Liu family had struck it rich, he rushed to help them. This kind of person was not welcomed anywhere.

"Dad, why did you mention him?" Han Jingjing asked curiously. It was rare for a family to have time together. Besides wasting time, mentioning such a person would also affect one's mood.

Tianli laughed,"he's your cousin, after all. He did offend Lin Yi before. If you have the chance, apologize for him in front of Lin Yi. It's not a big deal, you have to give your mother some face!"

Liu Xiaochao, who was driving, curled his lips in disdain. If it wasn't for his sister, he would have beaten Fan Jian up, but since Liu Tianli was talking, he couldn't interrupt and could only continue driving silently.

Han Jingjing couldn't be bothered to ask how Fan Jian offended Lin Yi. With Lin Yi's level, it would be weird for him to care about a small fry like Fan Jian. Even Han Jingjing herself didn't care about Fan Jian's matter.

"Alright, I'll bring it up if I have the chance." Han Jingjing said perfunctorily. Right now, the main thing was to wake Lin Yi up. As for Fan Jian, she'd think about it when she remembered him.

Tianli didn't really care about Fan Jian-if it weren't for the fact that he'd been crying and begging for mercy a couple of times before, he wouldn't have even mentioned him when he saw his daughter.

Offend Lin Yi? Even if Lin Yi was Tianli's son-in-law, he didn't dare treat him lightly. Who could he blame for his own actions?

Soon, the car arrived at the building of the Liu Group. Although it was late at night, the most important big shots of the Liu family had arrived. The employees who had been informed long ago were naturally waiting respectfully in the parking lot below the building to welcome them.

Han Jingjing didn't care about all this. She waved them away and took the elevator to the top floor. Her office was still the same. It used to be Liu Tianli's office, but it became hers after she took over.

Because of this, Tianli had the chance to steal information from the safe here, but after Han Jingjing handed the company back to him, the place was left empty, and no one was allowed in except for the daily cleaning.

As for Liu Tianli himself, he had found another room to use as his office, so when Han Jingjing entered, she found that it was exactly the same as before. Even the position of the decoration on the desk was exactly the same.

"Jingjing, I've always thought that you'd come back to take over the group, but I know that you don't care about our family business at all and don't have time to take care of the company. But I'll always keep your office. You can come back and use it whenever you want." Tianli said with a smile as he entered the room with Jingjing.

Han Jingjing was also touched. She smiled and said, "Thank you, dad! In that case, some of my old toys are still here. "

"Of course, nothing here has been touched. Whoever dares to take it away, I'll break his hand!" Tianli said with a laugh.

Han Jingjing didn't waste any time and went straight into the room to open the safe. There weren't any important documents related to the company-they'd all been given to Tianli, and the rest were indeed some of the equipment and tools she'd used for her own research.

She didn't bring anything else with her from Sky Class Island other than a soft armor-these things would be useful if she wanted to wake Lin Yi up. She could buy them at the last minute, but things she'd been used to would still be more convenient.

There were also some things that should be in the villa next to the school, but the things there were basically the same as these. They were not as comprehensive as here, so there was no need to make a trip again.

"Alright, I've got everything I needed. I just wanted to come back to see you guys, but since you're all here, I don't have to go home. I'll come back to see you guys after I'm done with my business in Songshan!" Han Jing Jing was also very decisive. She was ready to return to the airport and head to Songshan immediately.

They didn't know what was going on in Songshan, but they couldn't say anything when they saw Jingjing in such a hurry. It was a matter of Lin Yi, after all, and they knew that.

"Jing Jing, do you want me to go with you? Perhaps I can be of some help?" Tianyi said after some thought.

No matter what, it wasn't a bad thing to go to Songshan.

Han Jingjing shook her head and said, "there's no need. You guys can't help much with this. Let's talk about it when I'm back!" You don't have to send me to the airport, just get someone to drive. "

"Sis, I'm your driver today!" Liu Xiaochao leaned over and said with a smile. Since he was young, han Jingjing was the closest to him. Of course, han Jingjing would not reject him, so she immediately nodded in agreement.

Tianyi and Tianli didn't want to be separated from Jingjing, either, and decided to follow her.

Lin Yi had told them about han Jingjing's situation on Sky Class Island, but it was better for her to tell them personally than for Lin Yi to tell them. So, on the way back to the airport, it became han Jingjing's trip report.

At dawn, Xu Shihan's private plane landed in Donghai city, and Kang Xiaobo sent a car to pick her up. Fortunately, Xu Shihan's schedule was kept a secret-if her fans found out, she'd probably be stuck at the airport for half a day.

Xiaobo, Changyi, Jingyi, and the others were all waiting in the living room when they arrived at the villa in Songshan. They all greeted Jingjing with great enthusiasm.

Whether Lin Yi could wake up or not was all in han Jingjing's hands. They were acquaintances, so there was no need to be polite.

"I'll go check on Lin Yi bro first, we'll talk later. " After greeting everyone, han Jingjing picked up her suitcase and smiled at everyone.

"Yes, yes, yes, let's go check on Lin Yi first!" Jingyi said quickly. Everyone here wanted her to visit Lin Yi as soon as she arrived, but it'd been years since she'd come back to the common world, and she'd even flown back from Europe. It'd be a bit inappropriate to rush her, and it was great that Jingjing had suggested it herself.

Chapter 5756 Feeding Soul Power

In fact, those who were in this villa were Lin Yi's closest people, so there was no need to be too particular. Han Jingjing didn't waste any more time and quickly went upstairs to Lin Yi's room.

Lin Yi's soul body didn't look out of place on the surface-if it weren't for the fact that the room was different, he'd look exactly like the Lin Yi on Sky Class Island, even in the same position.

"Lin Yi bro, Jing Jing is here!" Han Jingjing rushed to the bed and put down the case. She reached out and held Lin Yi's hand, "Lin Yi bro, don't worry, Jing Jing will wake you up!"

Xu Shihan was the second one to come in. She was worried about Lin Yi as well, but seeing han Jingjing's face, she felt embarrassed to do the same. She could only stand by the door and watch.

She didn't continue into the room, and the people behind her stopped as well. With that, she let go of Lin Yi's hand and opened the box, taking out all the tools and equipment.

"Jing Jing, what are you doing?" Xu Shihan couldn't help but ask. She wanted to know how Lin Yi was doing. However, han Jingjing did not seem to be checking, so she did not ask.

Han Jingjing continued to put things out and said without turning her head, ""I took a look just now, and there's nothing wrong with Lin Yi bro's soul. He's suffered a lot of damage, but it's only made his soul a little weaker. It's not to the extent of this. I'll need to do a more detailed examination to find out what's going on."

As she spoke, Jingjing had already started to take apart some of the equipment and put them back together. She even had Xiaobo bring over all the laptops, TV, and phones in the villa for her to use as external devices.

The whole room was soon filled with scattered components, and there were six pillar-shaped electronic devices around Lin Yi's bed. It looked a little ugly, but the people at the door didn't know how strong it was.

Han Jingjing made quite a bit of noise when she made these things, but no one thought it was a problem. If the noise could wake Lin Yi up, they wouldn't mind setting off firecrackers next to his ear all day.

When the six electronic devices were finally connected, some messy lines began to appear on her laptop. Han Jingjing's face was slightly happy, as if she was very satisfied with the appearance of these lines.

Other than han Jingjing, no one else would be able to understand what these lines meant. At this moment, they were afraid of disturbing han Jingjing, so they did not dare to ask questions. They just quietly watched as she quickly entered line after line of instructions on the laptop.

Ten minutes later, han Jingjing frowned and mumbled, ""It's so strange. How could such a situation happen?"

Everyone was listening intently, and Xu Shihan asked immediately, "Jing Jing, did you notice anything? How is it?"

Han Jingjing scratched her head and said with a dazed expression, ""I'm not too sure, it's hard to describe Lin Yi bro's condition, so it's a little weird. "

Everyone was collectively driven mad. Wasn't saying this equivalent to not saying anything! How strange was it? why was it so hard to describe?

Han Jingjing also seemed to feel that it was inappropriate for her to say this. After thinking for a while, she continued,""Let's put it this way, Lin Yi bro's soul is indeed heavily injured, and the spirit energy in his soul is being lost, but it's not fast. Without any replenishment, it can last for about a year, and after a year, it'll probably be completely gone.â€œ

Shihan and Jingyi's faces went pale-what was so weird about this? they had to think of a way to save Lin Yi!

"Jing Jing, is there any way to stop the loss of this energy? Not to mention a year, even if it's just a month, it'll hurt Lin Yi a lot, right?" Jingyi came from a medical family, and was quite sensitive in this area.

Han Jing Jing said that Lin Yi could last for a year before it completely disappeared, which meant that Lin Yi's injuries would get worse with each passing day. A month was already scary enough.

Han Jing Jing nodded,"that's the weird part. Lin Yi bro's soul is losing energy, but energy is coming in at the same time. It feels like Lin Yi bro is cultivating on his own, but the effect isn't very good. It's just barely able to keep up with the consumption."

Jingyi let out a breath of relief-this han Jingjing was panting when she was talking, and that really scared her.

"If that's the case, could it be that Lin Yi couldn't wake up because he didn't replenish his lost energy through training? Didn't he have his own healing experience in the past? perhaps it's the same this time. " Xu Shihan guessed uncertainly, but it seemed like she was right.

"Maybe so." Han Jingjing said casually. Only she understood that Lin Yi was in a Yuan spirit form, and it was different from physical injuries. His magical Qi probably wouldn't be of much help to a Yuan Spirit's injuries.

However, Xu Shihan's words made han Jingjing think of something. Since Lin Yi's energy loss and energy replenishment were maintained in a balanced state, perhaps increasing the replenishment would give Lin Yi a higher chance of waking up.

As for how to increase Lin Yi's energy supply, han Jingjing had a plan as well. The six pillar-shaped electrical appliances she prepared could form a spirit gathering array after some slight modifications, but this array didn't gather Qi, but soul power!

This was inspired by the two Spirit Hunters from the Tiger continent. Since countless people died every day in this world, the soul power left behind by their souls before they disappeared would drift between heaven and earth if no one collected it. After a long time, it would completely dissipate.

In that case, he might as well make a device to collect the soul energy for Lin Yi to use. A genius like Han Jing wouldn't be like the spirit Hunters in Europe, using weapons to fight spirits and collect soul energy. She had two soul gathering bottles, and with that as a Foundation, it was easy to make a device similar to a spirit gathering formation.

Before that, han Jingjing fed Lin Yi the soul energy in the two soul gathering bottles. The soul energy that was emitting a faint milky white light completely integrated into Lin Yi's body when it came into contact

with his lips. As expected, it could be used directly. Han Jingjing was only feeding Lin Yi like this because she was used to the concept of eating with her mouth.

Chapter 5757 Is Lin Yi Dead?

The soul energy in the two soul gathering bottles added up to a little more than a whole bottle. They didn't know if it was an illusion, but they all felt that Lin Yi's soul body seemed to be more solid. It should be the soul energy that was effective.

Han Jing felt it for a moment, and her heart became more confident. She immediately began to modify the equipment. Very quickly, with the two soul gathering bottles as the core, she completed the special spirit gathering array.

There wasn't a lot of soul power in Songshan, but the small amount was the straw that broke the camel's back. It broke the balance between consumption and replenishment, pushing the balance in Lin Yi's favor.

Han Jing Jing let out a breath of relief. This method was effective and there was an unexpected gain. Most of the energy that dissipated from Lin Yi's soul was recovered by the spirit gathering formation and became Lin Yi's supplement. This way, it formed a positive cycle and the effect was even stronger. If this was the reason for Lin Yi's fainting, he would wake up soon.

If it was someone with an evil heart, they would've started a massacre in Songshan right now to collect soul power. Han Jingjing never had such a thought, so she didn't think about how scary the device she made was. If the evil cultivators on Sky Class Island found out, it would definitely cause a huge storm of blood.

In the Jade space, Lin Yi opened his eyes in surprise. He suddenly felt his Spirit's cultivation speed increase. He didn't know what happened, but it was a good change.

It wasn't just that-Lin Yi also felt that there was some energy in the Jade space that was beneficial for spirit cultivation. It wasn't the Qi that the Jade space had in the first place.

"Elder Jiao, what's going on? Could it be that the space in the jade pendant has changed?" With LAN Guzha following them around all day, it was no wonder that Lin Yi's first thought was that the Jade was mutating.

Elder Jiao laughed at him mercilessly,"Kid, have you gone stupid from cultivating? even if you've mutated, the Jade space can't mutate. Don't think about all that nonsense, hurry up and cultivate!"

In fact, elder Jiao knew that the extra soul energy was there, but he didn't tell Lin Yi about it. He didn't know where it came from, and since Lin Yi's consciousness couldn't get out, he couldn't check the outside world.

Soul power was a person's soul power. It would only leak out after death. An ordinary person could have extremely little soul power. Although it was only a trace, it was at least the amount for a dozen people!

It was because he knew this that he hid it on purpose. The most important thing now was to connect Lin Yi's essence spirit origin with the outside world. The rest didn't matter. It didn't matter if there were people outside killing people to save Lin Yi. Jiao yazi couldn't stop it anyway, so he just wanted Lin Yi to cultivate without any burden.

At the same time, in the second central base on the outskirts of Songshan city, a naked woman was floating in a huge glass culture tank. Her head was connected to hundreds of thin wires, hidden in her long hair. If you didn't look closely, you wouldn't be able to see it.

Jianwen, Zhaolong, and the others were all there, their eyes scanning the woman's perfect body without any restraint, but they didn't dare to show any perverted expressions. The woman's name was LAN xiaoru, and there were surveillance cameras everywhere in the base. It would be bad if LAN xiaoru came to find trouble with them.

"The memory implantation is complete. The fusion of the clone is perfect. It can be activated now!" A stiff electronic synthetic voice announced emotionlessly. Then, the tiny wires left LAN xiaoru's head, and the culture medium in the culture tank was slowly emptied.

When the liquid level was lower than LAN xiaoru's head, she slowly opened her eyes. A trace of confusion flashed in her beautiful pupils, and then they became clear. Obviously, the fusion of memories had played a role, and she was completely awake.

As the water level dropped, LAN xiaoru's body slowly stood firm underground. The sealed door of the glass culture tank popped open silently, and LAN xiaoru walked out of it without any embarrassment.

The first thing LAN xiaoru said when she walked out was not to ask for clothes, but to ask in a cold tone, "Is Lin Yi dead yet?"

Jianwen waved his hand, and the two girls immediately helped LAN xiaoru put on the clothes that they had prepared. Jianwen, on the other hand, bowed and said respectfully, "Dear miss LAN, congratulations on your rebirth!"

"I'm just a clone. How can I be reborn? Are you cursing my main body to die?" LAN xiaoru glared at Jianwen coldly. "Is Lin Yi dead or not?"

An Jianwen didn't expect his flattery to fail, but he didn't dare to show any dissatisfaction. LAN xiaoru's clone had a higher status than him, the person-in-charge of base No. 2. He could only continue to smile, "Miss LAN is immortal, I used the wrong word! Lin Yi hasn't been seen since the explosion at the central sacred zone, but Cheng Yiyi's still in her concert, so he probably won't die so easily. "

LAN xiaoru looked at the clothes she was wearing. She was satisfied with what an Jianwen prepared, but she didn't like his report.

"It's been so many days. Don't you know how to investigate it? What estimate! Since Cheng Yiyi is in the mood to hold a concert, Lin Yi will definitely be fine. Go and find out where he is right now!" LAN xiaoru stood in front of an Jianwen and ordered aggressively. She had to get rid of Lin Yi no matter what. This kind of opportunity didn't come by often.

"Yes! I've actually already sent people to investigate Lin Yi's whereabouts, but these past few days, I've been too focused on reviving you, so I didn't pay attention. I'm sorry!" An Jianwen lowered his head and admitted his mistake. He knew LAN xiaoru's personality, it was never good to go against her!

As expected, LAN xiaoru's face softened a little after hearing what an Jianwen said. She nodded, ""Very good, you've done well. From today on, you'll be the general Commander of the central secular world. You'll be in charge of everything!"

Jianwen was overjoyed. It was good to follow her lead. He didn't dare to be slow and bowed, "Many thanks for miss Lan's guidance! I'll definitely do my best for the center, but with miss LAN here, the responsibility of the Supreme Commander should still be yours. "

Chapter 5758 Boss Kang Zhaolong

LAN xiaoru waved her hand and said, "you can handle the matters of the secular world. I'm the chief scientific consultant, and I'll focus on improving the technological power of the secular world Center in

the future, so I don't have time to pay attention to these things. You're a talent, and we've been observing you for a long time. It's time for you to come out and take charge."

Naturally, Jianwen thanked Lin Yi again and again with a face full of gratitude. However, both of them knew that the decision was made because of Lin Yi's repeated attacks on the secular world's forces. It was indeed a big loss. There was no one else other than an Jianwen who had the qualifications and qualifications to be the general of the secular world.

LAN xiaoru turned to look at Zhaolong after she was done talking about an Jianwen, "The bespectacled doctor was killed by the traitor of Dafeng. He didn't leave any genetic samples, so there's no way to clone and reincarnate. However, the bespectacled doctor is a precious talent of the central, and we have a backup of his memory. I need to train a Young Scientist to inherit his memory. Commander an, do you have any suggestions?"

Zhaolong's heart was beating fast. LAN xiaoru was talking to Jianwen, but her eyes were looking at him. It wasn't even a hint, it was a clear indication. He wouldn't be Zhaolong if he didn't understand!

Zhaolong analyzed the pros and cons of this situation in an instant. Inheriting the professor's memory might make him lose his identity as Zhaolong, but if that was the case, LAN xiaoru wouldn't have to choose Zhaolong anymore. She could've just found someone younger.

Since LAN xiaoru liked Zhaolong, it was probably because of his talent. After all, he was a young and promising professor, and he used to be a genius. So Zhaolong speculated that after inheriting the professor's memories, he would still have his own personality, but the memories would be shared by two people, which was no big deal.

On the other hand, Zhaolong would become one of the top figures in the common world. At the very least, he'd be one of the top three big shots-this was an opportunity Zhaolong had been dreaming of.

He'd always been jealous of his cousin Zhaoming-he was just a good-for-nothing rich kid, so how did he get to where he was? he was a genius of house Kang, but he was nothing but an ant! Now that an opportunity had presented itself, Zhaolong would definitely grab it!

Before LAN xiaoru even said anything, Zhaolong was already prepared to agree. Jianwen was a smart guy, he knew what LAN xiaoru was thinking with just a glance. He smiled and nodded,"What a coincidence, I have a suitable candidate here!"

As he spoke, Jianwen pulled Zhaolong over."Miss LAN, you should know Zhaolong? He's a doctor from the central sanctuary, and he's Kang Zhaoming's brother. We're family, so it's a waste of talent to be my assistant. What do you think, miss LAN?"

The opportunity had come!

Zhaolong looked at Jianwen gratefully and didn't wait for LAN xiaoru to ask."Miss LAN, I've always respected the professor's profound knowledge. It would be my honor if I could inherit his memory and let him use my body to be reborn. If possible, please give me this opportunity!"

LAN xiaoru smiled and nodded in satisfaction.""Very good, I'm very happy that you're willing to make such a request. The bespectacled doctor will be very satisfied to have a talent like you as a vessel for his rebirth. Then it's decided. Prepare the memory inheritance immediately!"

The device was readily available, but only LAN xiaoru knew the password to open the memory extraction, so she had to do it herself.

Jianwen looked at Zhaolong, who was lying on the metal table, deep in thought.

In theory, LAN xiaoru and the bespectacled doctor were immortal. However, LAN xiaoru used her own genes to infinitely clone her body, while the bespectacled doctor didn't want to clone himself because his body was too weak. He only backed up his memories as a means of rebirth.

Now that an Jianwen was the general Commander of the central World, he had the right to give himself a chance to be reborn. So, he started to think whether he should choose LAN xiaoru's method or the professor's method.

Then, an idea suddenly occurred to him. Maybe he could combine the two methods and keep the memory backup, but not find someone to use as the carrier. He could use a clone as the carrier, but of course, this clone wasn't his original body.

A blank clone without any memories would be more suitable as a carrier for memory inheritance, and the first name that appeared in Jianwen's mind was Lin Yi!

Jianwen might hate Lin Yi to the bone, but subconsciously, he really wanted to become someone like Lin Yi. If he could get Lin Yi's genetic sample and clone it to use as a memory carrier, would he be as strong as Lin Yi?

The moment the thought appeared, Jianwen couldn't stop himself from thinking deeper and deeper. The more he thought about it, the more feasible it seemed. The only problem was, how could he get Lin Yi's complete genome?

Of course, problems were always solved. With a plan like this, an Jianwen believed that he could do it. Plus, he was the general of the central World now. He would find a way to solve these small problems.

As Jianwen's thoughts ran wild, Zhaolong successfully inherited the doctor's memory and sat up with his hands around his head.

LAN xiaoru stood in front of Zhaolong, waiting for him to calm down before smiling. "Zhaolong? Or do you want to continue using the codename Dr. Glasses?"

Zhaolong put a hand on his forehead and chuckled. "Ms. LAN, just call me Kang Zhaolong. I may have inherited the professor's memories, but my original name still sounds better."

"No problem." LAN xiaoru nodded and smiled. "You can change your nickname if you like it."

Zhaolong laughed and thanked LAN xiaoru. He then stood up and waved to Xue Jianfeng, who was watching coldly from the corner. "Xue Jianfeng, how's the progress of your fusion drug? Come over and let me check. "

Xue Jianfeng was pissed. Who was this Kang Zhaolong? he was his superior now?

Chapter 5759 A Good Opportunity

Although Zhaolong had inherited the doctor's memory, and he should be happy about it, he regretted not killing him at the bottom of the sea when he saw Zhaolong's face.

However, no matter how dissatisfied Xue Jianfeng was, he did not dare to show it. He could only walk over obediently and say, "Doctor glasses, it's great that you're resurrected. I seem to be in good condition."

Zhaolong frowned. "Call me professor Kang. I know you respect the doctor, and I'm indeed his reincarnation. But I hope you remember that I'm Zhaolong now. Do you hear me?" Don't let there be a next time!"

Xue Jianfeng was getting more and more upset. He was a mysterious Ascension primary stage Super Master, and yet he was being scolded by an ant like Zhaolong. Didn't this idiot know that he could kill him with a single look?

"I heard you, I won't do it again!" Xue Jianfeng gave in, feeling extremely wronged. There was still the poison in his body. If he could get rid of the poison, he would never let this bastard go.

Zhaolong was quite satisfied with Jianfeng's attitude. He grabbed a scalpel from the side and threw it to him. "Make a bigger wound for me to see!"

He wanted to do it himself, but the snow sword's defense wasn't something anyone could break. Even Zhaolong wouldn't be able to leave a mark on it, let alone a scalpel.

Xue Jianfeng's eyebrows twitched. He gritted his teeth and caught the scalpel. He cut his arm with force, and a 30-centimeter-long wound appeared in an instant. It was so deep that the bone could be seen. This guy was really cruel to himself.

Zhaolong didn't care about Jianfeng's feelings or expression, focusing on his wound. LAN xiaoru and Jianwen were the same, looking forward to Jianfeng's self-healing ability.

Blood quickly seeped out from the wound, but before it could form, the wound closed up at a speed visible to the naked eye. In just ten seconds, not even a scar was left on Xue Jianfeng's arm, only traces of blood proved that the wound had really appeared.

Zhaolong clapped his hands and laughed. "It's effective! House Kang's medicine for wounds is still very impressive, and this new medicine, when it can be mass produced, we can build an undead army!"

Xue Jianfeng wiped away the blood on his arm and sneered to himself. House Kang's medicine for wounds was indeed good, but he wasn't ignorant. He had seen the recipe, and the ingredients were extremely rare and precious in the secular world. It was impossible to mass produce the medicine.

Moreover, only Xue Jianfeng understood the pain and difficulty of the fusion drug. Even with his mystical Ascension primary stage body, he almost couldn't withstand it. He had to find someone who could withstand the potion's power and not die first!

Xue Jianfeng didn't voice out his thoughts because he wasn't happy with Zhaolong and Jianwen. He kept silent. His goal was to get stronger and find a chance to get rid of the poison in his body. Only then would he be free!

"We'll talk about the Army later. Let's talk about the plan to deal with Lin Yi first. If Xue Jianfeng could finish the fusion earlier, maybe the central Saint base wouldn't be destroyed. But it doesn't matter, it's just a base. As long as we can kill Lin Yi's soul, everything will be worth it!" LAN xiaoru couldn't stop thinking about how to get rid of Lin Yi. After seeing Xue Jianfeng's performance, she immediately planned to deal with Lin Yi.

An Jianwen quickly asked for the results of the investigation. Luckily, there was the latest feedback, so he didn't look useless from the start.

"Miss LAN, Lin Yi still hasn't shown up, but our people said that there are quite a few people gathered in the villa Lin Yi used to live in. Maybe he's hiding there to heal, or maybe we should just go over and kill them. Even if Lin Yi's not here, it'd be good to kill a few of his underlings!" Jianwen suggested enthusiastically. He wanted to take advantage of the presence of a master like Xue Jianfeng to snatch the unconscious Chu Mengyao.

Jianwen didn't dare to do that under normal circumstances-Lin Yi's lackeys were all very strong, and he couldn't mess with them. But things were different now. He didn't use his authority anymore!

LAN xiaoru pondered for a moment, "Lin Yi hasn't appeared yet, so there's a high chance he went back to Sky Class Island!" He's just a primordial spirit, after all-if he's too heavily injured, he'll just disintegrate and return. It looks like I'll have to contact the main body on Sky Class Island to confirm it. Commander-in-Chief an, get some people to continue monitoring the villa, and then install some surveillance equipment in the surroundings. Report the situation at all times. "

"Alright, miss LAN. I'll give the order immediately!" An Jianwen didn't say anything and immediately went to get his men to do the work.

LAN xiaoru also sent a letter to Sky Class Island through Central's special channel, asking about Lin Yi.

A day later, Sky Class Island sent back a reply, saying that they'd investigated and found that Lin Yi's body was still unconscious. This was confirmed, which meant that Lin Yi's essence spirit didn't come back and was still in the mortal world. He didn't appear, probably because he was too injured.

After receiving the reply, LAN xiaoru slapped the table in excitement and said, ""This is our chance! This is a once-in-a-lifetime opportunity. We must seize it! Chief commander an, get your men to connect the surveillance signal here. We need to observe the situation in this villa and make sure Lin Yi is inside before killing him!"

To LAN xiaoru, Lin Yi was the only one she needed to take seriously. As for his followers and women, they weren't important at all. Before Lin Yi died, she shouldn't touch those people, but once he died, it would be as easy as turning her hand over.

So LAN xiaoru had to make sure that Lin Yi was in the villa, and then launch a Thunderbolt strike to kill Lin Yi completely!

Xue Jianfeng sat on the sofa indifferently, as if he had nothing to do with this. In fact, if they wanted to Scout the villa, it was a very good plan for Xue Jianfeng to sneak in, but LAN xiaoru didn't want to alert the enemy, so she didn't use it. Xue Jianfeng wouldn't bring it up himself, although he was on the same side as central and the others on killing Lin Yi.

"There's a signal coming in!" After Jianwen's orders, someone quickly set up the surveillance equipment and transferred the video signal over.

Chapter 5760 Anti-Invasion Center

LAN xiaoru looked at the small screen on the huge display screen, and her hands were flying on the control keyboard.

In addition to the normal video surveillance, there were also thermal imaging, infrared imaging, and other high-tech monitoring means, which could clearly see every direction of the entire villa.

Unfortunately, Lin Yi was in his Yuan spirit form, and the surveillance couldn't pinpoint his exact location. They couldn't be sure if Lin Yi was really in the villa.

It was because of this that LAN xiaoru didn't dare to act rashly, afraid that she wouldn't be able to hit Lin Yi in one shot and give him a chance to breathe. What she didn't know was that if she attacked now, Lin Yi really might be killed by her. This kind of hesitation at this critical moment really gave Lin Yi a chance to live.

In the villa, Han Jing Jing was still by Lin Yi's side, watching the changes on the instrument. She was relieved to see that Lin Yi's condition was getting better.

First of all, the speed of the energy loss began to slow down after the powerful replenishment during this time, but the speed of the replenishment increased.

If her guess was correct and everything went smoothly, Lin Yi would wake up soon, and Han Jing Jing's purpose for coming back would be achieved.

At this moment, Han Jing Jing realized that the surveillance array she had set up had captured some strange energy signals. She immediately began to operate on her laptop.

"Eh, What's this? Surveillance equipment?" In less than ten seconds, han Jingjing easily found the source of the energy signal. It was a thermal imaging device not far from the villa!

The people in the villa should've noticed the surveillance cameras around the villa long ago, but these people used the excuse of repairing the base station to hide their identity. Xiaobo and the others didn't get suspicious, and they just blatantly installed all kinds of surveillance equipment around the villa.

In terms of combat experience, no one in the villa could compare to Lin Yi. Han Jingjing was speechless. If it wasn't for the strange energy that the surveillance device detected, she wouldn't have noticed what the people outside were doing.

"I'd like to see who's so concerned about my Lin Yi bro!" Han Jingjing snorted and immediately began to track the signal in the opposite direction on her laptop, trying to find out where the signal was going.

Han Jingjing's talent was not only in her research and creation of various inventions. In fact, she was once one of the top five hackers in the world, and her technical skills were not any weaker than the unconscious tu Ranran. It was just that no one knew her identity, and she would only appear occasionally for fun, so not many people knew about her.

Although she had not been in the secular world for a few years, han Jingjing's skills had not only not dropped, but had also become more and more powerful. She had probably set up her own security defenses and hacked into them on the Sky Class Island. To han Jingjing, this was just a small game to relax when she was tired.

"Hehe, I've caught your tail!" After three to five minutes, han Jingjing chuckled proudly. This was much simpler than the security she had set up herself.

LAN xiaoru never thought that the surveillance equipment would be tracked by han Jingjing. LAN xiaoru's technical skills were not inferior to han Jingjing 's, but LAN xiaoru had never thought that she would be discovered and tracked by the people in the villa, so she had not set up too complicated a defense.

The few firewalls were set up by LAN xiaoru out of habit. They were enough for ordinary hackers, but they were useless against han Jingjing.

This time, not only did they find the source of the signal, but han Jingjing had also silently followed the video signal and hacked into the central system. It was rare that they had opened a receiving port on their own. Han Jingjing would be letting down their kind invitation if she did not make good use of it.

"The center! I knew it, let's see where you can run to now!" The screen in front of han Jingjing was filled with confidential information from the central computer. Even han Jingjing's beautiful eyes were filled with a fanatical look.

"Aiya, there's not enough space in the hard disk. What the hell!" Han Jingjing mumbled to herself. She quickly pulled over another computer and connected to it. She continued to copy the central database.

She also used this time to check on Lin Yi's situation. It was still going in a good direction, so she went back to the central computer in the control center.

With the highest level of control, han Jingjing could copy all of Central's confidential information without any hesitation. She had originally planned to delete all of the information after she had copied it, but it was very likely that Central's people would find out. Therefore, han Jingjing remained extremely careful and only copied it out. She did not act rashly.

Suddenly, the name of a project caught han Jingjing's attention. It was the bi an primordial spirit burner!

The name was obviously targeted at Lin Yi bro, and there was no way she'd let it go. She sneaked a peek at the file.

To his surprise, the research project was still in progress, and the information was constantly being updated. To put it simply, han Jingjing had made it to the live broadcast ...

The essence soul burner was a simplified device based on the Super flames that the bespectacled doctor had researched in the central Holy region. It could be carried as a target, but the power of the flames within the unit would not be weakened at all.

The doctor's memory had been passed on to Zhaolong, so he was in charge of the project now. LAN xiaoru also helped solve some problems, and the research progressed quite quickly.

As han Jingjing watched, she was secretly shocked. She was not the only genius in this world. The guy who developed the primordial spirit burner was an extremely intelligent existence. Han Jingjing felt that he was not much inferior to her.

Of course, now was not the time to be impressed by her opponent's strength. Seeing that the primordial spirit burner's research was about to be completed, han Jingjing felt that she should do something, but she had not figured out what to do.

It was not that han Jingjing did not have any countermeasures, but there was more than one action plan that she could take. She did not know which was the best plan at the moment.

"Lin Yi bro, you're really lucky! It's Jing Jing who came, if it were any other sister, they wouldn't have found out Central's plan!" Knowing that Lin Yi's condition was getting better, han Jingjing's mood improved as well, and she couldn't help but praise Lin Yi.

She didn't care if Lin Yi could hear her or not-she'd tell him first, in case he forgot about it.
