Bodyguard 5761

Chapter 5	761	Primordial	Spirit	Burner
-----------	-----	------------	--------	--------

As she spoke, han Jingjing got busy again. She gathered the scattered parts and began to make something.
In the second central base, Zhaolong and LAN xiaoru had finally completed the simplified version of the Super flame, the soul burner. Now was the time to use it to kill Lin Yi!
"Xue Jianfeng, put this soul burner on the flying saucer and go to the villa to kill Lin Yi!" Zhaolong said as he pointed at the newly made soul burner.
Xue Jianfeng turned to LAN xiaoru and asked,""Miss LAN, have you confirmed that Lin Yi is in the villa? And is this thing really effective? Should I just go in and kill Lin Yi if something goes wrong?"
LAN xiaoru looked at Xue Jianfeng with admiration and said,""Not bad, that's a good question. Our first goal is to kill Lin Yi no matter what. If the soul burner doesn't work, then we'll have to rely on you to kill his soul. Remember, you can't miss!"
After a slight pause, LAN xiaoru continued,""As for whether or not Lin Yi is in the villa, we can't be sure yet, but I think there's at least a 90% chance, so just do what you need to do!"

"I understand. I'll go and prepare now." Xue Jianfeng nodded.

Zhaolong wasn't happy with Jianfeng's attitude."Forget it. I'll go with you. I was th soul burner, after all. If there's any problem, I'll be able to deal with it in time,"	e one who created the
"That's good, I'll be more at ease with professor Kang following us. " LAN xiaoru n object to Zhaolong's suggestion.	odded and didn't
Xue Jianfeng was secretly annoyed. You don't even believe me for such a small ma was too much. Did he really think he was the doctor glasses just because he inher	
However, Xue Jianfeng also knew that he was the one who had the least say in the say much. He picked up the small cannon-shaped primordial spirit burner and turn	
Zhaolong said to LAN xiaoru and Jianwen before following them. He didn't pay mu Jianfeng's mood. He only wanted to go because of his hatred for Lin Yi. There wer opportunities to kill Lin Yi himself, so how could Zhaolong let it go?	
When everything was ready, the sky was already dark. The flying saucer turned or and left Songshan's suburbs, heading towards Lin Yi's Villa.	າ the invisibility device
They were in the city, and the flying saucer was extremely fast. It didn't even take arrive above Lin Yi's Villa.	a minute for them to

Xue Jianfeng's spirit sense swept over first. This distance was not a problem at all. As long as there was no device to block the spirit sense, he could check everything in the villa clearly. It was much better than

the monitoring equipment outside.

"Lin Yi's really heavily injured, he's unconscious in his room on the second floor!" Xue Jianfeng said with a face full of surprise. If he knew it would be so easy, why would he need those surveillance equipment? He could have just asked him to make a trip nearby!

However, when Xue Jianfeng's divine sense swept past, it was discovered by LAN Guzha in the villa. LAN Guzha's strength was much stronger than Xue Jianfeng's, and so was his divine sense. Therefore, Xue Jianfeng's probe was detected by LAN Guzha at the first moment, and his divine sense also swept back.

Xue Jianfeng's body trembled, and he muttered,""I forgot that this guy's still here. Even if Lin Yi's injured, this guy's not easy to deal with!"

Zhaolong, on the other hand, didn't notice the mumbling from behind Xue Jianfeng. He only grinned evilly when he heard that Lin Yi was on the second floor."Hahaha, the heavens are on my side! Lin Yi, that bastard, is finally here! Watch how this young master's primordial spirit burner turns him into ashes!"

Xue Jianfeng wanted to say that there was a late-stage xuansheng master watching them, but he didn't say it when he thought about the possibility that Lin Yi would die soon.

More importantly, Xue Jianfeng thought that even if he couldn't beat LAN Guzha, it wouldn't be a big problem. After fusing with the new recovery drug, his body was almost immortal. LAN Guzha was strong, but he might not be able to do anything to Xue Jianfeng. If he could take this opportunity to get rid of Zhaolong, that would be perfect!

Firing the soul burner not only had a chance of killing Lin Yi, but also Zhaolong-killing two birds with one stone! Xue Jianfeng almost laughed at the thought-he should be praising himself for his quick-wittedness!
These thoughts flashed through Zhaolong's mind in the blink of an eye. He didn't know that Xue Jianfeng was planning to kill him with a borrowed knife. He laughed gleefully as he activated the soul burner, aiming for the villa below.
A white flame suddenly descended from the sky, lighting up the entire villa area like a small sun in the night.
"Die! Die! All of you shall die!" Zhaolong laughed maniacally as he pushed the power of the burner to its maximum. The White flames engulfed the entire mansion with a wave of heat!
Far away in the second base, Jianwen's face changed,""What's wrong with Zhaolong? didn't we agree to only kill Lin Yi's yuan spirit? With this level of strength, is he trying to kill everyone in this villa?"
There was no doubt that the Super flames were harmful to Yuan spirit bodies, and Lin Yi's current situation was enough to prove it. In fact, the Super flames weren't only effective on Yuan spirit bodies-everything else would be burned up as well.
Judging from the area of effect of Zhaolong's fire, the entire mansion would be destroyed in a second or two. Everyone inside, including LAN Guzha, would be burnt to ashes.

Jianwen didn't really care about the others, but Mengyao was sleeping in the same room. Zhaolong was

planning to kill her too!

However, the Super flames of the soul burner had already been released, and even an Jianwen couldn't stop it from happening. Killing Lin Yi was something to be happy about, but he couldn't accept that Yaoyao was going to die with him.

LAN xiaoru didn't really care. Other than Lin Yi, everyone else was like an ant in her eyes. It didn't matter if she killed him or not. As long as she could kill Lin Yi, it wouldn't matter even if the entire neighborhood was burned down, let alone the people in this villa.

Chapter 5762 The Flying Saucer Is Broken

Just as the people in the center thought that the situation was settled, an inconspicuous metal rod on the roof of the villa that looked like a lightning rod suddenly flashed with a few electric arcs. Then, the blazing white flames that swept through the sky suddenly changed direction and gathered towards the metal rod, as if they were attracted by the lightning rod.

Zhaolong's smile was still on his face when he realized that things weren't as he'd imagined. The villa was still the same, and the soul burner's flames didn't even burn a feather on the roof, let alone Lin Yi.

"What's going on?" Zhaolong asked, surprised. No one came to answer his question."Is it malfunctioning? It doesn't make sense!"

Zhaolong activated the soul burner subconsciously again, and another ball of fire fell. This time, Zhaolong's eyes widened as he stared at it. He could finally see the metal stick absorbing the fire.

"How did this happen?" Zhaolong was dumbfounded. Strictly speaking, this was the result of combining his and the professor's intelligence. How could it be useless?

Normally, a ball of super flames should be enough to burn the villa down to the ground! Why cou	ıldn't
he even burn a metal rod after two attempts?	

Back in the villa, Jingjing was smiling like a little fox. She was worried about the lack of wandering soul power in Songshan, and Lin Yi's recovery speed was too slow. Now, this idiot Zhaolong had come to give her warmth twice.

If the surveillance hadn't been discovered, they might've killed Lin Yi already. Unfortunately, they didn't do anything, and Han Jing Jing caught them and traced them back to where they were, taking control of the central computer of the second base.

The essence soul burner Zhaolong designed was no longer a secret to han Jingjing. She was a super genius who invented the automatic refining and pill refining devices. The theory behind the essence soul burner was right in front of her. If she still couldn't find a way to deal with it, she'd be dead meat.

The Super Fire could hurt the soul, and it was a type of energy. Han Jingjing made a reverse decomposition device for the soul burner, reversing the damage of the Super Fire. Kang Zhaolong's two attacks were converted by han Jingjing into energy that could be absorbed by Lin Yi's soul. It wasn't as pure and effective as soul power, but there was a lot of it, and it could speed up Lin Yi's awakening.

"Why did you stop? Fight a few more times! This amount of energy wasn't even enough to wake Lin Yi bro up! Zhaolong! Good luck! Don't give up! Good luck!" Han Jingjing stared at the computer screen with a smile on her face. She clenched her fists and cheered for Zhaolong. If she only fired two shots, it wouldn't even be enough for the money she had spent on the flying saucer!

A white ball of fire appeared on the screen again, and Jingjing couldn't help but Yelp. At least Zhaolong didn't give up just like that, or she'd be thinking of making a simplified soul burner to replenish Lin Yi's energy.
Inside the flying saucer, Zhaolong shouted hysterically,""Impossible! There's nothing wrong with my work. How did this happen? This doesn't make sense!"
As she laughed, she shot out the Super flames again and again, helping Lin Yi wake up.
Xue Jianfeng's face was a little ugly. He wanted to use LAN Guzha to get rid of Zhaolong, but it had been so long, and even the security guards had gathered here. There was still no response from the villa. Something was obviously wrong. He wasn't afraid, but he still felt a little guilty.
"Kang Zhaolong, don't use your soul burner anymore, use the laser cannon to blow this villa down first. If Lin Yi doesn't die, then use the soul burner on him!" Xue Jianfeng couldn't help but remind Zhaolong, who was already in a dead end. After all, he wanted Lin Yi dead more than Zhaolong.
Zhaolong blinked, but didn't mind Jianfeng's disrespectful tone. He clapped his hands."That makes sense! Xue Jianfeng, you're pretty smart, aren't you? you're not just a brat!"
Xue Jianfeng wanted to slap this guy to death. If he had known that he was such a thing, he would have thrown him into the sea to feed the fish when he escaped from the central sacred zone.
Zhaolong's back was facing Jianfeng, so he didn't see the gritting teeth. His hands were still moving quickly on the control panel. The soul burner's barrel retracted back into the UFO, revealing the laser Cannon's barrel.

LAN xiaoru and an Jianwen were dumbfounded at the fact that their super flames were completely ineffective, but now that Zhaolong was about to use the laser cannon, an Jianwen finally came back to his senses. He quickly shouted into the communication device,"Zhaolong, don't destroy the villa! Lin Yi's not the only one in there! Let the snow blade destroy the enemy's absorption device!"

Unfortunately, his words didn't stop Zhaolong at all. From Zhaolong's perspective, those who were with Lin Yi should all die, so he just pretended not to hear Jianwen's call!

The laser Cannon's muzzle quickly accumulated energy, and then a white light flashed, and a beam of light directly fell on the villa. The security guards of the community who ran over from the distance were stunned on the spot, as if they were watching a science fiction movie. Because the laser cannon fired caused the UFO's invisibility to fail, so these people were all thinking, could it be that aliens are invading earth?

Zhaolong smiled proudly. He could already imagine the mansion turning into a pile of ruins, and then switching the laser cannon to the soul burner, turning the ruins into ashes with a super flame!

The next moment, Zhaolong was completely dumbfounded. He saw a flash of light above the villa, and a U-shaped light shield appeared. The laser went inside the shield, turned around, and shot at the flying saucer.

"To hell with it!" Zhaolong was scared out of his wits. The UFO had a shield, but Zhaolong didn't think that he'd be hit by his laser cannon, so he didn't activate it. Even if he did, it was too late.

The UFO shook violently, and the laser cannon left a large hole in it. Luckily, the U-turn caused the laser cannon to miss the center of the UFO. Otherwise, the UFO would have exploded, and Zhaolong would have to experience death again.

Chapter 5763 Han Jingjing Also Makes Flying Saucers

"Warning ... Warning! The flying saucer has been attacked...Damage is severe 30 seconds......Explosion!" The electronic voice in the flying saucer sounded an intermittent warning. In fact, the sparks that were dancing on the hole told him that the flying saucer wouldn't be able to hold on much longer.

Zhaolong was still in shock-he didn't know how to react to the alarm.

Xue Jianfeng, on the other hand, was much more clear-headed. Since the flying saucer was about to explode, it was better for him to run away as soon as possible. Looking at the defensive measures in the villa, it was obvious that they were prepared for their sudden attack. In that case, Xue Jianfeng did not want to take the risk.

If Lin Yi's lackeys weren't prepared, Xue Jianfeng could still sneak attack them, but with the enemy's tight defense, he wouldn't dare to go in and provoke them even if he could heal quickly.

He looked at the dumbfounded Zhaolong and opened the emergency hatch, ready to escape on his own. As for the idiot Zhaolong, he'd just let him explode with the UFO.

However, before Xue Jianfeng could leave the flying saucer, LAN xiaoru's voice was heard from the communication device.""Xue Jianfeng, escort professor Kang out of the UFO and back to the base! Remember, you must ensure professor Kang's safety!"

Xue Jianfeng was filled with hatred. He wanted to save the dragon, but he had to force himself to do so. This feeling was even more disgusting than swallowing a fly.
"I understand. Don't worry, miss LAN! I'll definitely bring professor Kang back!" Xue Jianfeng gritted his teeth and dragged Zhaolong out of the emergency room unwillingly.
In order to attack the villa, the flying saucer was floating a hundred meters in the air. Xue Jianfeng wouldn't have any problems jumping down from this distance. Without Xue Jianfeng's help, Zhaolong would be dead for sure.
Although the flying saucer had a parachute, it was too low to open it at a hundred meters. That was why Xue Jianfeng was so unwilling to give up.
Xue Jianfeng didn't land directly after jumping out of the cabin door. Instead, he used the force to glide out. If he landed directly, Lin Yi wouldn't wake up in the villa. However, if he was stopped by LAN Guzha, Xue Jianfeng wouldn't be able to do anything either. It was better to stay away from them.
After gliding for more than 100 meters in the air, the flying saucer exploded in brilliant sparks and disintegrated in the air. However, the explosion wasn't a self-destruction, but an explosion caused by a laser cannon, so it wasn't very powerful. A few larger parts of the body fell with a flaming tail.
LAN Guzha's spirit sense was locked on to Xue Jianfeng and Kang Zhaolong. He wanted to chase after

them as soon as he saw them leave the flying saucer.

LAN Guzha had always wanted to kill Xue Jianfeng, who had the aura of a sea beast on him, but Lin Yi didn't agree. This time, Lin Yi hadn't woken up yet, so no one stopped him. Of course, LAN Guzha didn't want to let Xue Jianfeng go.
"LAN Guzha, where do you want to go?" Unfortunately, Jingyi stopped LAN Guzha just as he stood up.
"Sister-in-law, I've discovered the enemies who ambushed us. I'm going to go and get them now." LAN Guzha scratched his head. He still respected sun Jingyi a lot-she was his boss Lin Yi's woman, after all, and he had to give her an explanation for Lin Yi's sake.
Sun Jingyi shook her head,"LAN Guzha, I want to ask you not to leave the villa. We can't be sure of Lin Yi's current condition. You're the only one here who can protect him. If you fall for the trick and Lin Yi is in danger, we may not be able to protect him with our strength."
LAN Guzha thought about it and agreed-Lin Yi's safety was obviously more important than that annoying Xue Jianfeng, so LAN Guzha immediately nodded,""Sister-in-law, you're right. I was too impulsive. I'm not going anywhere today. I'll just stay in the villa and see who dares to deal with boss!"
"Thank you, LAN Guzha!" Jingyi thanked him with a smile. She felt much more at ease now that LAN Guzha was here. Lin Yi was injured, and she couldn't help at all, but she had to do everything she could to keep him safe before he woke up.
The sound of heavy objects falling to the ground came from the villa's courtyard. It was obvious that it

was the remains of the flying saucer that exploded in the sky.

"Sister Jingyi," han Jingjing shouted from upstairs, get someone to bring in the fragments of the flying saucer. I need to study them, and then inform the supernatural Investigation Bureau to settle this matter. Don't let anyone else know."
"Alright, I'll make the arrangements!" Jingyi said as she asked Yu Bing and the others to bring the flying saucer in.
The flames on the metal pieces had already disappeared when they hit the ground-it was a little hot, but Yu Bing and the others weren't afraid of the temperature at all. They moved the pieces in quickly.
As for the security guards who came later, Xiaobo made up an excuse to send them away. He was a famous Big Shot in Songshan, and the guards would believe him no matter what he said.
Han Jingjing checked Lin Yi's condition again. After absorbing the energy from the Super flames, Lin Yi seemed to be getting better. So, han Jingjing didn't continue to wait here and turned to run.
Han Jingjing had already obtained the technological information about the spaceship from the central computer of the base. She only needed to look at the wreckage of the spaceship to determine the materials used and the arrangement of the routes. Then, she could roughly calculate the resources she needed to build a spaceship.

Although the flying saucer couldn't be brought back to Sky Class Island, it would be good to use in the secular world. When han Jingjing returned to Sky Class Island, she could make another flying saucer. This thing was much more reliable than flying spirit beasts, and it was extremely fast. After han Jingjing modified it, it would be even more perfect.

"Aiya, there's only so little left! What a pity!" Han Jingjing ran down and saw the black metal pieces with a look of pity on her face. She did not think about who had caused this.
After a series of clanking sounds, Han Jing Jing nodded in satisfaction.""It's alright, it's alright. Although it's broken to this extent, I've collected most of the things I wanted to know."
"Sister-in-law Jing Jing, do you want to build us a flying saucer too?" Xiaobo asked, his eyes full of anticipation. Having a flying saucer to play with was a great thing!
"There's a plan, but I'm not sure yet!" Han Jing Jing said with a smile. Even though they had the technology, building a flying saucer wasn't an easy task.
Just as everyone was talking, Lin Yi slowly opened his eyes. His consciousness finally connected with the spirit outside from the Jade space, and he would wake up soon.
But what were these strange metal poles around him? A formation? Who set this up? Chapter 5764 Lin Yi Awakens
"There's a plan, but I'm not sure yet!" Han Jing Jing said with a smile. Even though they had the technology, building a flying saucer wasn't an easy task.
Just as everyone was talking, Lin Yi slowly opened his eyes. His consciousness finally connected with the spirit outside from the Jade space, and he would wake up soon.

But what were these strange metal poles around him? A formation? Who set this up?
Lin Yi remembered that he fainted after the explosion at the central sacred zone. Fortunately, LAN Guzha had picked them up at that time, so he didn't have to worry about the safety of the others.
With a scan of his spirit sense, Lin Yi knew that he was back in his villa in Songshan. The unconscious people were still sleeping soundly, while the others were all gathered in the living room downstairs, studying something.
"Jingjing?" Lin Yi blinked. For a moment, he even wondered if he'd returned to Sky Class Island. How else would he see han Jingjing?
But other than Han Jing Jing, the others were all in the common world, and this was indeed a villa in Songshan. There was only one possibility-Han Jing Jing was in the common world as well!
After carefully sensing it, han Jingjing was indeed also a primordial spirit body!
Lin Yi was very surprised-how long had he been unconscious for? Could it be that it had been more than ten months, not more than ten days? otherwise, how could han Jingjing appear here in her primordial spirit form? She was already a Yuanying stage master?
"Elder Jiao, how long have I been in the Jade space?" Lin Yi asked elder Jiao. With his strength, it wasn't easy for him to project his essence spirit and form it. How could han Jingjing have an easier time than him with her cultivation?

"It's been more than ten years!" Elder Jiao said casually.
Lin Yi decided to ignore the old man-it must be because he didn't think about him much after returning to the common world, and this was his revenge.
Since han Jingjing was here, Lin Yi didn't see anything strange about the metal pillars. They must be han Jingjing's handiwork. Maybe the energy he felt in the Jade space that didn't belong to the Jade space was from these things.
In that case, did han Jingjing come specially to save her? Was it because of Han Jing Jing's help that he was able to increase the speed of his spiritual sense cultivation?
Thinking about the speed of his spirit training, Lin Yi was a little excited. The battle tactics for heaven's fortune was extremely effective in training his spirit. When he woke up, he found that his spirit was already at the late stage of xuansheng!
At the same time, Lin Yi's body on Sky Class Island started to make cracking sounds as the Qi in his body kept on surging, and his bones and meridians seemed to be reforming slightly! He had actually broken through again!
Tian Gang was overjoyed, but he didn't dare to make a sound, afraid that he would disturb Lin Yi. He only pulled on a rope on the side, and the bell connected to the ground rang quickly, letting Xue Li hear it and rush up.

When Xue Li and Shangguan LAN 'er rushed up to him, they saw Lin Yi's body sitting up on its own, returning to his previous cultivation state!
"That's great! Jing Jing succeeded. I knew she could do it!" Shangguan LAN 'er couldn't help but cheer. Lin Yi had returned to his training position, so Tian Gang was relieved and didn't stop Shangguan LAN' er from cheering.
Xue Li was also very excited. She hugged Tian Gang and said,""That's great! Jingjing really did it, and she saved Lin Yi so quickly! She's really something!"
Tian Gang was so happy that her face turned red. She nodded and said, "Yeah, yeah! It's a good thing Jingjing went, otherwise who knows how long it'd take for Lin Yi to recover. "
He remembered that he had to inform Tianxing and ao Tianzhou about this, and so he suppressed his excitement. He glanced at Lin Yi and quickly sent someone to report.
The Sky Class Island was as happy as a Festival, and Lin Yi didn't even have time to reminisce about the feeling of a late-stage xuansheng when he found out that han Jingjing was back. He got up and went downstairs.
"Jing Jing, why did you come back?" Lin Yi asked as soon as they came down, and everyone turned around in surprise.
"Lin Yi bro, you're awake!" Han Jing Jing was the first to react. She was also a Yuan spirit, so she could sense it before Lin Yi even spoke. As soon as Lin Yi opened his mouth, she was already cheering and pouncing over.

On the other hand, LAN Guzha, a late-stage mysterious Ascension master, only realized that Lin Yi was downstairs when he heard his voice. The others didn't even notice Lin Yi's trace.

Lin Yi smiled as he hugged Jingjing, who was like a baby bird returning to its nest. He waved his hand at everyone and asked,"How did you come back? You've condensed your primordial spirit body quite well!"

Han Jingjing remembered that there were a lot of people around and lowered her head shyly. She didn't want to leave Lin Yi's embrace and only whispered, "I've researched a soft armor that can emit the aura of a nascent soul. It deceived the primordial spirit projection device, so I was able to return to the secular world. This soft armor also came back with my primordial spirit. My primordial spirit body is also thanks to this soft armor. "

Lin Yi was shocked. He'd never doubted that han Jingjing was a genius, but he'd still underestimated her level of talent!

He knew very well that the spirit projection didn't allow him to bring any physical equipment over, and the fact that Han Jing Jing could bring the soft armor she was researching meant that Han Jing's soft armor could already be considered a spirit equipment, just like Lin Yi's bracelet. He was sure that even if he didn't need the Jade space to bring it, he could bring the bracelet back with him.

"Lin Yi, it's all thanks to Jing Jing that you can wake up! Also, if it wasn't for Jing Jing, those people from central would have already wiped us out!" Jingyi said with a smile-she was asking for credit for Jingjing's achievement, but also reminding Lin Yi not to forget Central's threat.

"Central again?" Lin Yi's face went cold. Are they still alive? It seems that I really have to kill them all! Jingjing, do you have a video?"
Lin Yi guessed that han Jingjing would record the entire process if central came looking for trouble. As expected, han Jingjing nodded immediately,"Yes, do you want to see it now, Lin Yi bro?"
Since Lin Yi was going to cause trouble for central, he had to see it immediately. Han Jingjing knew that, but she just didn't want to leave Lin Yi's arms. Chapter 5765 A Powerful Opponent
"Lin Yi bro, wait a minute, I'll go get a laptop and play it for you!" Han Jingjing didn't wait for Lin Yi's reply and went upstairs obediently. Everyone was watching, and she didn't want to be too intimate.
Very quickly, han Jingjing connected the video of the central UFO's attack to the big TV in the living room and played it. Everyone watched it together, and when Lin Yi saw the White Super flames, his face turned extremely ugly!
Even he was afraid of this kind of flame. If Han Jing Jing had not been here to crack it, everyone in the villa would have been turned into ashes!
The people here were the most important people to Lin Yi, and Central's actions were urging Lin Yi to kill them as soon as possible.
Lin Yi couldn't take it anymore after central did this! It seemed like he wouldn't be able to return to Sky Class Island without getting rid of the forces in the secular world.

Just as Lin Yi was thinking about how to get rid of the central force, Xue Jianfeng brought Zhaolong back to base No. 2. The mission had failed completely, and they almost lost the professor, Kang Zhaolong, who had just been revived.
In the meeting room, Jianwen smiled coldly at Zhaolong."Professor Kang, you're really good at this! You just casually lost a flying saucer, amazing!"
Zhaolong didn't know what to say. He knew that Jianwen was blaming him for not following orders. Mengyao was in the villa, and Jianwen would never allow him to hurt her.
Zhaolong's ability to inherit the doctor's memory was largely due to LAN xiaoru's help, but Jianwen's efforts were also in part!
If an Jianwen were to object, LAN xiaoru might give him some face. After all, a scientist's body was easy to find at central!
Plus, an Jianwen was the commander of the base, and Zhaolong's actions had already violated the rules.
LAN xiaoru coughed lightly and tried to smooth things over,""This is a little weird. Let's put aside the other questions and study it together!"
The big screen in the meeting room showed the flying saucer attacking the villa. First, the Super flames fell, and then they were completely absorbed by the metal rod. The whole process was ten times

slower, and because it was shot from the side, it was much clearer than what Zhaolong saw from the inside of the flying saucer.
Zhaolong's face was already dark after watching the video. When the laser cannon was reflected, his face was as dark as the bottom of a pot.
"Miss LAN, our attacks are obviously being targeted! This situation is too abnormal. I suspect that there's a traitor in the base!" Zhaolong said coldly. The doctor was killed by the traitor, Dafeng bro, and it was still fresh in his mind.
LAN xiaoru nodded, but didn't say anything. She turned to an Jianwen and asked,""Supreme Commander an, what do you think?"
The second base was built by an Jianwen, and LAN xiaoru didn't know much about it, so she asked for his opinion.
"It's not impossible," Jianwen said seriously, "that bastard Lin Yi just likes to get people to be his spies!" That's why I've been very strict in this area. If the mole can still get our secrets, then he's really powerful!"
LAN xiaoru smiled faintly. Although an Jianwen said that it wasn't impossible, he was implying that it was impossible. LAN xiaoru didn't say anything and looked at the still video. It was the moment when the U-shaped light shield reflected the laser cannon.

"It doesn't matter if there's a mole or not, the other party must have a technological expert! Otherwise, even if they were given the theory, they wouldn't be able to crack and create counter-measures in a short time." LAN xiaoru's right index finger tapped on the metal table as she analyzed calmly.

Zhaolong slapped his thigh as if he'd just remembered something. "That's right! It must be like this! I remember now, Lin Yi does have a Master in Technology with him, I think her name is Han Jing Jing? It was this little B * tch who made some automatic pill refining device and sold it to miracle doctor Guan's Medical Group. She ruined our business and almost made us go bankrupt. If it wasn't for the fact that Zhaoming entered the five elements sect and went to Sky Class Island, house Kang would've been long gone! The technology expert in the villa must be this little B * tch!"

LAN xiaoru's brows raised, and she slammed her fingers on the table.""Oh? I know about this han Jingjing, but she should be on Sky Class Island. It'd be weird if she came back too! You guys wait here, I'll go and contact my main body!"

"Yes! Please go ahead, miss LAN!" The three of them had no objections and stood up to see LAN xiaoru out of the meeting room.

After LAN xiaoru left, the three people in the meeting room didn't see eye to eye with each other, and the atmosphere suddenly became awkward.

Jianwen was quite fond of Zhaolong at first, and even took him in as a follower. However, after Zhaolong inherited the doctor's memories, his status was no less than Jianwen 's. Plus, he wanted to kill Mengyao as well, and even said that there was a traitor in base two. Jianwen would be a fool if he still showed Zhaolong any respect.

As for Xue Jianfeng, Jianwen didn't even bother with him in the first place, so naturally he wouldn't bother with him. Xue Jianfeng was well aware of this-he didn't even care about an Jianwen, not to mention the Zhaolong who he wanted to kill but had to save.

Zhaolong wasn't too concerned about the other two's feelings, and the three of them started looking at each other ...

After a while, they remembered that LAN xiaoru's contact with the Sky Class Island wouldn't have a result so soon. The three of them didn't say a word, and left after snorting at the same time.

A day later, the three of them returned to the meeting room and waited for LAN xiaoru, but they still maintained the same attitude as yesterday.

When LAN xiaoru came in and saw the strange state of these three people, she also had a headache. This was a typical case of people's hearts being scattered, and the team was not easy to lead!

"I've already contacted the original body on Sky Class Island, and through the eyes I've set up on Middle Island, I've confirmed that Han Jing Jing really did use a spirit projection and returned to the common world like Lin Yi. So the Master of Technology in the villa is definitely her!" LAN xiaoru didn't bother to mediate the conflict between the three people. As long as they had a common goal, they could temporarily suppress these unpleasant things.

Chapter 5766 Undying Snow Sword Edge

Zhaolong frowned. The doctor didn't have any information on Jingjing in his memory, so he probably didn't pay much attention to her before. On the other hand, Zhaolong's own memory gave him a better understanding of her.

"I seem to remember that the projection of the primordial spirit requires the strength of the nascent Soul Stage and above, right? Was this little B * tch han Jingjing already so powerful? Last time, miss LAN, you said that our Sky Class island's eyes were on the women around Lin Yi-they shouldn't be that strong!" Zhaolong asked, rubbing his forehead. The two memories weren't completely merged yet, so it was a bit of a mess when he searched through them, making him feel uncomfortable.

LAN xiaoru looked at Zhaolong. "I've asked around, and the information I received is that han Jingjing made a soft disguise armor and used a deceptive method to deceive the primordial spirit projection device. That's why she was able to return to the secular world smoothly and maintain her condensed primordial spirit body. To be honest, I really admire her. We've met our match this time!"

Zhaolong nodded and chuckled. "Isn't it a good thing to meet a worthy opponent? With miss LAN around, I don't think han Jingjing can do anything. On the contrary, the things she comes up with are very enlightening to us, such as the camouflage soft armor that can fool the primordial spirit projection device. Since we know about it, we can always develop it. "

"You're very confident. You're indeed a genius who has the brains of two professors!" LAN xiaoru smiled faintly, but her expression immediately changed.""Not good! I know why han Jingjing set up those devices to deal with our attacks! She must have hacked into our system!"

Zhaolong's face changed as well. The professor and LAN xiaoru were used to treating base No. 2 as the sacred zone at the bottom of the ocean. All the systems there were set up by the two of them, and they knew how strong it was to defend against hacker attacks!

But this place was built by an Jianwen. It was part of the central system, but it was far from being as good as the sacred zone in terms of defense against network attacks.

An Jianwen wasn't an idiot. He understood what was going on after hearing LAN xiaoru's words. He was
very confident in his men's loyalty. He didn't think there would be a traitor!

However, he didn't have much confidence in the system's defensive capabilities, because he really didn't know much about this.

LAN xiaoru quickly pulled over the laptop beside her, and her fingers turned into two shadows as they jumped on the keyboard. Lines of instructions slid down like a screen, and people with poor eyesight probably couldn't see the words on it.

Zhaolong didn't waste any time either. He grabbed another laptop and entered the defense system. LAN xiaoru and the professor worked together well, and with Zhaolong's memory, it was natural for him to do this.

In less than three minutes, LAN xiaoru's serious expression relaxed. She let out a soft sigh and said,""Successful interception! The system has indeed been hacked. This han Jingjing is really a talent!"

Zhaolong's forehead was already covered in cold sweat. He wasn't as relaxed as LAN xiaoru, and his face was full of fear."That was close! Our system has been controlled by this little B * tch. Fortunately, the self-destruction system of the second base is independent and not connected to the external network. Otherwise, we would all be dead if she self-destructed!"

At the mention of self-destruction, everyone, including LAN xiaoru and Xue Jianfeng, couldn't help but shiver. Obviously, they were reminded of the self-destruction of the central Holy region at the bottom of the sea. Although they didn't experience it personally, the video after it was quite shocking!

"It seems like we won't be able to gain much of an advantage in terms of technology this time. We have
to get rid of him before he wakes up. Since technology can't do it, we can only use force!" LAN xiaoru
squinted her eyes and said coldly. She then turned to look at Xue Jianfeng.

Xue Jianfeng knew that he had to make a move. In order to get the antidote as soon as possible, he immediately lowered his head and said respectfully,""Miss LAN, why don't you let me try a sneak attack?"

Xue Jianfeng knew that he wouldn't be able to succeed in a frontal attack, but he was confident in a sneak attack, especially when the person he was going to kill was Lin Yi.

"Xue Jianfeng, what are your chances of success?" LAN xiaoru did want Xue Jianfeng to make a move, but if the success rate was too low, she would not force Xue Jianfeng to die.

It was not an easy task to cultivate a xuansheng stage master like Xue Jianfeng. There were so many resources in the small Jianghu of the immemorial era, but only two succeeded in the end. In the end, Chen Dongcheng betrayed them. The remaining Xue Jianfeng could not be easily destroyed. Otherwise, there would be no resources in the small Jianghu of the immemorial era to cultivate the next one.

Xue Jianfeng thought about it seriously and said,""If that LAN Guzha wasn't here, the chances of killing Lin Yi are still very high. Not to mention that he's still unconscious, even if he's awake, as long as I'm not afraid of death and block his attacks while using the soul burner, I can definitely kill him! However, with LAN Guzha by my side, my chances of success will probably not exceed twenty percent! Oh right, there's also Chen Dongcheng. With the addition of this despicable traitor, we don't even have a ten percent chance of success."

Zhaolong snapped his fingers as if he'd just remembered something. He quickly pulled up a blurry video from the computer."This is the image captured by the satellite. It's the image of the nearby sea after the central sacred zone self-destructed. I almost forgot about this. Come and take a look."

LAN xiaoru and Xue Jianfeng put aside their discussion and turned to look at the big screen.

In the middle of the blue ocean, there was a blurry Dragon, carrying four people on its back as it moved quickly. It was the image of LAN Guzha when he went to pick up Lin Yi and the others, but LAN Guzha was too fast and left the range of the satellite in an instant, leaving only this unclear image.

"Sea Dragon!" Xue Jianfeng cried out in shock. He knew that LAN Guzha was the sea serpent from before, but he didn't think that LAN Guzha had already evolved into a sea serpent Dragon. This made him even more difficult to deal with. Lin Yi and Chen Dongcheng might not even need to do anything, and LAN Guzha would kill him.

Although Xue Jianfeng seemed to have an immortal body, if his head was directly blown up and his heart was pierced, he would die in an instant no matter how much he could recover. This kind of situation was very likely to happen when the difference in strength was too large.

Chapter 5767 Finding The Second Base

LAN xiaoru didn't care about Xue Jianfeng's shock, but reached out and tapped on the table lightly. This was her habit when she was in thinking mode. LAN Guzha was an obstacle she couldn't get around. After evolving into the sea serpent Dragon, LAN Guzha was definitely not an opponent that could be ignored. Not to mention that the only person who could fight against Lin Yi was Xue Jianfeng.

On Lin Yi's side, other than LAN Guzha, there was also Chen Dongcheng who had betrayed central. LAN xiaoru gritted her teeth at the thought of Chen Dongcheng. If he didn't betray central and injected himself with the new recovery drug, he would have a great chance of defeating Lin Yi's group if he joined forces with Xue Jianfeng.

In the current situation, if she wanted to kill Lin Yi, she had to get rid of LAN Guzha and Chen Dongcheng first. Normally, this was an impossible task, but after LAN xiaoru thought for a while, she really did come up with an idea!
"Professor Kang, come with me to study han Jingjing's camouflage soft armor. We must figure out the principle behind it!" LAN xiaoru's fingers paused, and her face revealed a confident look that everything was under her control.
Zhaolong was taken aback. He asked uncertainly, "Miss LAN, are you studying the camouflage soft armor now? Is there any use for it?"
Could he have asked Xue Jianfeng to disguise himself as an expert of the mountain split stage or even the sea split stage to scare LAN Guzha and Chen Dongcheng? Would these two be scared to death by the snow sword edge?
It didn't seem Very reliable?
LAN xiaoru's lips curled up and she smiled slyly.""Doesn't han Jingjing like to pretend and deceive people? We'll give her a taste of her own medicine. We've researched the principle behind this soft armor, not to make soft armor, but to produce a new device!"

Zhaolong was indeed the reincarnation of the doctor with glasses. The chemistry between him and LAN

xiaoru was real.

"I understand now. Han Jingjing can use this method to fool the spirit projection device. If we can master it and use it with the 3D virtual image, we can create an image that looks like a real person. As long as these images can release the aura of the xuansheng stage, they can definitely attract LAN Guzha and Chen Dongcheng's attention. Xue Jianfeng will be hidden among them. Whether it's to ambush the two of them or to kill Lin Yi directly, it'll be extremely easy." Zhaolong was getting more and more excited as he spoke, his eyes lighting up.

An Jianwen and Xue Jianfeng could only worship him. They couldn't get involved in the communication between technical maniacs, but they were happy to know that they had a chance to kill Lin Yi.

Just as LAN xiaoru had expected, as long as they had a common enemy as their target, the conflict between them would be put on hold.

"Let's not waste any time. Start the research immediately and try to complete the development of this device as soon as possible!" LAN xiaoru said as she quickly operated the computer.

She was not working on the camouflage device now, but she had strengthened the network defense measures. Otherwise, if han Jingjing hacked into her again, she would lose all her face. It was not just her face, but this research must not be known by han Jingjing, in case she found another solution.

Zhaolong didn't talk to LAN xiaoru about this, but he started setting up the firewall. The professor's cooperation with LAN xiaoru was unparalleled, and it was no wonder LAN xiaoru wanted to inherit his memory as soon as she was reborn. With the two of them working together, it was almost impossible for even han Jingjing to easily hack into the central system without being discovered.

Central was busy setting up the defense system of the network, and no one thought that han Jingjing could hack into the central computer, which meant that the second base was completely exposed to Lin Yi. What would happen if Lin Yi counterattacked?

Of course, in their hearts, Lin Yi was still unconscious. Even if they knew where this place was, they wouldn't be able to attack him in a short period of time. Moreover, an Jianwen put a lot of effort into the defense of base two. The weapons were definitely able to withstand the attack of an Army.

In a villa in Songshan, Han Jing Jing's laptop suddenly made a "ding" sound. She glanced at it casually and pouted. "They've finally discovered my intrusion. Not bad, they're quite fast in blocking me!"

After a day of training, Lin Yi had consolidated his strength after breaking through. He was about to go to central for revenge when he heard Han Jing Jing's words. He immediately turned around and asked,"Jing Jing, can you confirm the location of the central base?"

Han Jingjing had already told Lin Yi about how she used reverse tracking to hack into the central system and how she broke through the enemy's scheme. Lin Yi wasn't surprised that the invasion was blockedafter all, the enemy wasn't weak, and it was normal for them to be blocked.

The key was where Central's base was-as long as he could confirm it, he could go straight to the root and take all of them down. Yesterday, Lin Yi's spirit wasn't completely stable after he woke up, and he needed some time to get used to his new breakthrough, so he didn't go straight to their door.

"I do know the location, but Lin Yi bro, I don't think there's any point in you going now. With how cunning Central's people are, they'll know that their location was exposed as soon as they noticed my intrusion. So if you go now, you'll only get some empty houses at most, you won't get anything." Han Jingjing said with certainty. From her judgment, they knew that their position was exposed, and Lin Yi

would rush over at any moment. No matter how stupid central was, they wouldn't stay where they were.
Unfortunately, han Jingjing made the same mistake as central, LAN xiaoru, and the others. They took it for granted that Lin Yi was still unconscious, so they didn't have any scruples.
Han Jingjing, on the other hand, thought that central knew that Lin Yi had woken up. It was obvious how destructive a furious Lin Yi could be.
It was a coincidence that one of them didn't escape in time, and the other didn't pursue and attack in time. It was a mistake for being too smart.
Lin Yi agreed with her and continued to beg, "Jing Jing, continue to investigate their latest location. As long as you find something, we'll go over and kill them directly!"
Chapter 5768 Breakthrough! Peak Of The Late Stage Of Mysterious Ascension
LAN Guzha came over and said,"boss, since you've woken up, why don't I go over and take a look before coming back?" If they don't escape, we'll just kill them. What do you think?"
When Lin Yi was unconscious, LAN Guzha stayed in the villa and didn't dare to leave. Now that Lin Yi had woken up and LAN Guzha heard that there was a possibility of a fight, of course, he had to come over and settle on one of the spots.

"LAN Guzha, don't waste your time. They must've run away, but don't worry. Since they want to deal with Lin Yi bro, they'll come out eventually. As long as we stay here, you don't have to worry about no

one to beat up!" If they come by when you leave, you'll miss them!"

LAN Guzha thought about it and agreed. Wouldn't it be a pity if they missed it because they were leaving? It was safer to stay by boss's side, so he didn't have to worry about being beaten up.
"Sister-in-law Jing Jing is right! Boss, let's wait here for them to come. Watch how I'll deal with them!" LAN Guzha patted his chest with an expression of confidence.
Lin Yi smiled,"let's do that then!" Let's just wait for them to come to us and get beaten up!"
Han Jing Jing worked quickly on the computer, occasionally communicating with the head of the technology Department of the supernatural Investigation Bureau in Songshan. She'd already studied the flying saucer from central, but it was impossible to make it on her own.
With the supernatural Investigation Bureau's manpower and money from miracle doctor Guan's Medical Group, they could complete the flying saucer as quickly as possible!
Since the supernatural Investigation Bureau had the opportunity to come into contact with such a high-tech flying saucer manufacturing technology, they were secretly happy. Of course, they invested the most energy to cooperate with han Jingjing.
"Lin Yi bro, you're right-we'll wait for them to come to us, and our flying saucer will be almost finished by then. They won't be able to run away!" Han Jingjing had a proud look on her face as she found the time to smile at Lin Yi.

The technology used to build the UFO v	vas based on	Central's original	technology.	It had been p	perfected
after some improvements. In terms of p	performance,	it was completely	better than	Central's UF	Ю.

Han Jingjing had also improved the spatial compression technology in the center. After the new flying saucer was completed, it could change its size freely. The largest one was about the size of this villa, and the smallest one was about the size of han Jingjing's palm.

Rather than calling it a high-tech product, it would be more accurate to call it a legendary magic treasure. Only a heaven-defying figure like han Jingjing could perfectly integrate the technology of the central hub and the forging technology of the sky-grade Island to such an extent in a short time.

"It's good to have you by my side. If those guys from central dare to come, I won't let them go,"Lin Yi smiled.

The screen next to her was a live image of the spaceship being built. Lin Yi went over to take a look-the frame was almost complete, and the new alloy shell was about to be covered.

The alloy was improved by han Jingjing after she disassembled the wreckage of the central UFO. The technology used was at least a hundred years ahead of the current mainstream technology and was more advanced than liquid metal, so it could be used with spatial technology to change the size of the UFO.

"By the way, Jingjing, I have something to ask you. I didn't think of it yesterday." Lin Yi smacked his forehead. He'd wanted to tell her about the spirit sense refinement fire and sea beast cores back in the ancient martial world, but he couldn't go back to Sky Class Island. He'd forgotten about it now that he met her.

Seeing that han Jingjing was still able to talk leisurely, Lin Yi decided to bring it up as well. He shouldn't be disturbing her.
Lin Yi took out a golden core inner core from a sea beast along with some recipes he collected in the ancient martial world and gave it to Han Jing Jing,"In the ancient martial world, they used their consciousness to form the pill fire and used the inner core of sea beasts as the main material to refine pills. I've tried a few times, but I couldn't succeed."
"Eh, there's such a method? It's quite interesting!" Han Jing Jing took the sea beast's inner core and pill recipe. She flipped it over and looked at it a few times, and her eyes lit up.
To han Jingjing, it was very interesting to have a new research direction and thought process. Lin Yi throwing these questions to her was exactly what she wanted.
"Lin Yi bro, it looks like you need to upgrade your automatic alchemy furnace again, but there's no rush for that." Han Jingjing kept the core and the recipe into her soft armor. Then, she turned back to her laptop and continued to set the flying saucer's parameters."Tell Jingjing to make Lin Yi bro's first generation flying saucer, in case those bad guys from central get away."
"Is there anything I can help with?" Lin Yi knew that he couldn't help her much in this area, but he still needed to show some concern.

"Of course, Lin Yi bro's with Jingjing, and that's already a huge help-it makes her more motivated!" Han

Jingjing turned around and gave Lin Yi a bright smile.

Lin Yi smiled, rubbing his nose as he thought to himself that he'd just discovered that he had a power aura.
This time, LAN Guzha turned his head away tactfully and pretended not to hear. Was this the public display of affection between boss and sister-in-law as they said on the internet? Humans are really complicated. It seems that this flood Dragon still has a lot to learn!
Lin Yi and central had come to a tacit understanding-both sides spent two peaceful days researching and making without any probing or attacking.
Lin Yi didn't waste these two days. Other than chatting with the others, he spent all his time refining the last tumor in his spirit.
With the heaven seizing fortune battle technique and the cultivation of the spiritual awareness fruits, although the last malignant tumor of the spiritual awareness was very stubborn, it was still completely refined!
When all the spirit tumors disappeared, Lin Yi's essence spirit instantly felt a relaxed and happy feeling, as if he was about to become a fairy.
His powerful spirit sense spread out like a tide, and the entire Songshan city appeared in his sea of consciousness.
At this moment, Lin Yi felt like he was standing in the air, looking down at the city. No matter which remote corner it was, he could see everything with just a thought. Even a bottle cap that was thrown away on the ground, he could see how many dust particles were on it.

After getting rid of the spirit tumor, the remaining energy from the spirit fruit that he had been using up all this time had gently merged into Lin Yi's soul, allowing him to easily break through the shackles of the realm. Three days after he had just broken through to the late stage of mysterious Ascension, he broke through again and directly reached the peak of the late stage of mysterious Ascension!

Chapter 5769 "Seeking Death" Again

Lin Yi's real body on the Sky Class Island was also exuding a strong aura. His true Qi was constantly surging, and he suddenly reached the peak of the late stage of xuansheng. If it weren't for the strong restrictions in the sky elixir Pavilion, Lin Yi's aura might have completely crushed the sky elixir Pavilion.

"So powerful!" LAN Guzha felt Lin Yi's aura and opened his mouth wide, not even realizing that the steak he just stuffed into his mouth fell out.

As a mutated Dragon at the late-stage of mysterious Ascension, LAN Guzha was definitely an existence that could challenge those of a higher level. However, under the pressure of Lin Yi's aura, LAN Guzha felt that he wasn't a Dragon at all, but a small bug!

It was only two small levels, yet there was already such a huge sense of suppression. LAN Guzha could only say that the boss was the number one abnormal character in the world. Even the word 'genius' was not enough to describe him.

Lin Yi had a faint smile on his face as he enjoyed this mysterious feeling. However, a flying saucer rushed into the range of his spirit sense and was about to reach the villa in a flash.

"Central's clowns have indeed delivered themselves to our door!" Lin Yi opened his eyes and smiled in disdain. He had just reached the peak of the late stage of xuansheng and now central was here to die. This was double the good news, wasn't it?

Lin Yi retracted his spirit sense completely, and LAN Guzha immediately sensed the flying saucer's arrival. He stuffed two more pieces of steak into his mouth and mumbled,"Boss, they're here as expected. Just watch how I, LAN Guzha, take care of them! Chen Dongcheng, you're not allowed to make a move!"

Chen Dongcheng raised his hands with a bitter smile, indicating that he wouldn't interfere. He may have joined Lin Yi, but he had LAN Guzha's genes in his body. He didn't dare to offend LAN Guzha, in case he was dragged to "spar" with him.

LAN Guzha didn't wait for Lin Yi's reply and rushed out of the villa. He stomped his foot on the ground and shot into the sky like a cannonball, approaching the flying saucer in the air.

Within the flying saucer, Xue Jianfeng pressed a button and muttered,""Kang Zhaolong you bastard, don't screw me over! If this thing you installed doesn't work, this young master will definitely come back to settle the score with you!"

Before his voice died away, the flying saucer trembled slightly. A circle of faint white ripples lit up around it. LAN Guzha had already leaped into the sky. Just as he was about to swing his fist to attack the flying saucer, he suddenly realized that a hundred and eighty masked black-clothed cultivators had appeared around the flying saucer. Each of them exuded a powerful aura of a mystical Ascension primary stage cultivator. At the same time, they pulled out the long blade on their backs and launched a fierce attack on LAN Guzha!

LAN Guzha was shocked. He could not help but cry out,"F * ck! Where did so many experts come from? Do you want to cut this handsome man into pieces? As expected, being handsome attracts jealousy and hatred!"

If there were only one or two of them at the early stage of the mysterious Ascension realm, LAN Guzha could easily crush them to death. However, a hundred and eighty of them were a completely different concept. A quantitative change could lead to a qualitative change. Even someone as powerful as him could not help but feel a little apprehensive when faced with so many ferocious sharp blades at the same time.

LAN Guzha was shouting wildly but he was secretly in awe. His fist that was about to attack the flying saucer changed its direction at the last moment and landed on the nearest masked Man in Black.

LAN Guzha did not unleash all his strength in this punch. Instead, he had begun to exert force before the collision. The violent punch produced a counterforce in the air, causing his rising body to be fixed in place. Then, he began to fall rapidly.

It was not a problem for him to deal with a flying saucer. However, if he were to deal with so many mystique Ascension primary stage experts, LAN Guzha, who could not change his direction in the air, did not think that he would be unscathed. Therefore, he had to return to the ground immediately. Only by doing so would he be able to obtain enough freedom.

"Boss, a large wave of zombies is coming. Hurry up and upgrade your peashooter!" LAN Guzha had yet to land when he suddenly recalled a little game that he had just been hooked on while he was in the air. He immediately cried out in a strange manner.

Lin Yi was delighted. LAN Guzha was still able to talk nonsense so casually, which meant that he wasn't under too much pressure. There was nothing to worry about.

As a matter of fact, LAN Guzha felt that something was amiss. Although the hundred and eighty masked Men in Black who were following closely behind were full of vigor and murderous intent, he did not have any premonition of danger. Could it be that his sea serpent Dragon's strong physical body was enough to withstand their attacks?

Chen Dongcheng's expression was rather ugly. He quickly got into a stance and prepared to face the enemy. Although he promised LAN Guzha that he wouldn't attack, he sensed that so many powerful auras that were no weaker than him were approaching. If he didn't attack now, Lin Yi would probably suspect that he was a double agent.

Xue Jianfeng, who was in the flying saucer, was overjoyed and laughed,""As expected of the device that Ms. LAN personally designed and manufactured. It deceived the simple-minded silly sea beast, LAN Guzha, so easily. Even the traitor, Chen Dongcheng, fell for it!"

When he said this, Xue Jianfeng turned on the communication device. LAN xiaoru was in the base, so she could hear him clearly. A satisfied expression naturally appeared on her face. It was unknown whether she was satisfied with the effect of the device or the truth that Xue Jianfeng had accidentally said.

The success was all LAN xiaoru's credit, and the failure was all Zhaolong 'S. Xue Jianfeng grinned, picked up the soul burner, opened the door without hesitation, and jumped in.

Xue Jianfeng, who had left the flying saucer, was dressed in black. His face was also covered, and he looked exactly like the other masked men. The only difference was the weapon in his hand.

Three masked Men in Black Fell from the bottom of the villa's courtyard. They attacked LAN Guzha and Chen Dongcheng like ghosts. More masked Men in Black quietly landed in various directions of the villa.

As long as he was not facing too many masked Men in Black at the same time, LAN Guzha had nothing to be nervous about. His burly body twisted nimbly and dodged two slashes from the blade. Then, he separated his fists and blasted at the two masked men in Black at the same time. As for the third one, Chen Dongcheng had already taken the first step to meet him.

"Tsk, meddlesome fellow!" LAN Guzha snorted and ignored Chen Dongcheng's reneging. There were so many masked Men in Black. It did not seem like a bad thing to have one or two of them snatched away.

The two Swift and fierce punches dodged any possible blocks and successfully reached the front of the masked man in Black. LAN Guzha had already shifted his gaze to the sky and the roof, thinking about where he should first get rid of The Enemy Below.

Chapter 5770 I'm Here To Give You A Toy

BOOM! LAN Guzha felt a sense of suffocation in his chest and almost fell over. It was the same feeling as when he was running at full speed up the stairs but missed his step! The attack that was supposed to be in the bag had completely missed. It was unknown what kind of movement technique the two masked men in Black used, but they managed to escape from their original positions in the blink of an eye. In the next second, they appeared at the blind spots on both sides of LAN Guzha's body and stabbed with the long swords in their hands.

LAN Guzha was immediately shocked. He no longer dared to underestimate them. He dodged the two long blades with all his might and shouted, "Boss, these black-clothed men are so strange. You must be careful!"

Lin Yi didn't wait for LAN Guzha's warning and rushed out of the villa. His divine sense vortex swept through the villa like a storm, but it didn't attack any physical enemies.

"Phantom?" Lin Yi paused. In his consciousness, all the Men in Black were real, but the vortex was real
too. After scanning through them, not a single one was real!

As for the trick of suddenly disappearing and changing to the other side, it was useless against Lin Yi's spirit sense vortex. Lin Yi had more than one Spirit sense vortex, and when it swept back and forth, there was no way a physical body could avoid it.

Just as Lin Yi was stunned, a ball of white fire came towards him, instantly wrapping around his soul. Even if Lin Yi was at the peak of the late stage of mysterious Ascension, he would be turned into ashes if he was hit.

Lin Yi's eyes narrowed. Even if he could Dodge it, he couldn 't. The villa was right behind him, and there were so many people in the villa, and they were the people he cared about the most. He couldn't let these super flames hurt them!

It was a pity that han Jingjing's super flame absorption device was installed on the roof. It could not nullify attacks from the side. If he had known earlier, he would have asked han Jingjing to install a few more ...

Now wasn't the time to regret. Even if Lin Yi was going to get injured, he had to get rid of this super flame first. He raised his hands, and the two newly formed super alchemy fire bombs met the Super flame. With the control of his consciousness, the two bombs were detonated in a single direction.

If the Super flames from the soul burner could touch Lin Yi's body, the power would be obvious, but it usually didn't have much impact. After being hit by the two Mini Super alchemy bombs, it instantly dissipated into the air.
Lin Yi relaxed. Luckily the fire didn't land on him, otherwise he wouldn't have been able to find a better way to protect the villa.
Xue Jianfeng had already dodged to the side. He didn't care that his first fire didn't work. Seeing that Lin Yi was not far away, he didn't hesitate to launch his second attack.
"Snow sword edge!" Lin Yi used his spirit sense and found Xue Jianfeng among the shadows. The black mask didn't work at all.
The second Super Fire came from the other side, and even if Lin Yi dodged it, it wouldn't land on his villa anymore. It should be heading towards the neighbors.
Lin Yi couldn't just stand by and watch this kind of tragedy happen. He used the mini Super alchemy bomb again to set off the Super Fire first, and at the same time, his soul-hooking hand landed on Xue Jianfeng's head.
As long as he could awaken Xue Jianfeng's spirit, Lin Yi believed that Central's attack would be almost over. Then, it would be his counterattack against central!
"Lin Yi, are you out of ideas? You only know these two moves?" Xue Jianfeng laughed wildly. An invisible light film appeared on his body, completely blocking the soul-snatching hand.

Lin Yi frowned and said faintly, "you even have an item that can defend against spirit sense attacks? I've underestimated you!" Since that's the case, I'll just beat you up. I don't care about that!"
Lin Yi wasn't surprised that Xue Jianfeng had something similar to the bracelet, but the strange thing was that this item was able to withstand his peak-level xuansheng late stage attack without breaking. It seemed like it wasn't any weaker than the bracelet!
"Alright, let this young master experience it!" Xue Jianfeng laughed as he replied. He didn't take Lin Yi's words to heart at all. The soul burner in his hand continued to shoot out terrifying white flames.
Lin Yi didn't say anything else. He got rid of the Super flames while approaching Xue Jianfeng at lightning speed. He casually threw out a wild fire Bagua Palm, hitting Xue Jianfeng's body.
Xue Jianfeng dodged the fatal blow and was sent flying. Lin Yi could clearly see the serious wounds on his body, but by the time he landed, most of them had already healed.
Upon closer inspection, the remaining small half had already disappeared!
Xue Jianfeng calmed down. His biggest trump card was his immortal body. After trying it out, his fear of Lin Yi dropped to the lowest point. He laughed and rushed up again with the soul burner.

Just like what Xue Jianfeng told LAN xiaoru, as long as he didn't fear death and took Lin Yi's attacks headon, he would be able to hit Lin Yi! Since he knew that he wouldn't die, what was there to be afraid of? Just kill Lin Yi!
Lin Yi laughed coldly. After seeing Xue Jianfeng's healing ability, he could roughly guess why the sacred Alliance wanted the formula.
But to be able to charge up and fight Lin Yi in close combat with just that, Xue Jianfeng was indeed quite bold!
Lin Yi, who hadn't used the Super butterfly microstep for a long time, turned into a shadow and appeared beside Xue Jianfeng. He reached out his hand and the soul burner fell into his hand.
"This toy is just so-so. I can give it to Jingjing to kill time when she's bored. I won't be polite!" Lin Yi's lips curved into a disdainful smile as he spoke to Xue Jianfeng.
Xue Jianfeng jumped in shock. They said that they were going to take the attack without fear of death and then counterattack with the soul burner. Now that the burner was taken by Lin Yi, there was only unafraid of death left, but it didn't seem to be of any use anymore.
"HahaHahaI'm especially here to gift you this toy. Now that you've received it, I won't stay here any longer. See you!" Xue Jianfeng laughed drily and turned around to escape.
Even without a weapon, he was still afraid of death

Lin Yi tossed the soul burner to Xiaobo, who'd just rushed out of the room, unable to help."Since you're
here, then don't leave!"
